## LEADERSHIP COMPLETED HOSPITAL FUND CAMPAIGN

Wilson, general chairman of the hospital campaign, announced today the appointment of the executive committee. Other members of the campaign are Mr. Wilson, W. S. Martin, Marvin Shurbet, A. H. Kreis, and Lee Rushing. The executive committee will draft the ten-point plan for the campaign and steer the campaign to its successful conclusion.

The decision to enlarge the executive committee, it has been decided to establish a 7-man campaign committee to administer the campaign once it is raised. At the meeting of the campaign committee and the hospital board of directors on Friday last, a resolution was passed calling for a finance committee composed of two board members and five non-board members. The decision as to who these will be is now under consideration and will be announced at an early date.

Completion of the campaign, the finance committee will supervise the disbursement of the money raised to the hospital creditors and maintain control of the reserve fund. The way it is hoped to not only pay all creditors but also to establish a firm policy for the hospital's finances.

Important developments in the campaign include the appointment of Charlie Bedford as secretary and treasurer and the selection of three men to head the divisions of activity. W. S. Martin has been chosen to serve as chairman, Marvin Shurbet, general solicitation chairman, and Lee Rushing, general solicitation chairman.

Wilson expressed satisfaction with the campaign thus far. "We have a fine group of able men serving on the

executive committee. Charlie Bedford's recent acceptance as secretary and treasurer rounds out our organization at the top level. We are particularly fortunate in having Bill Poole, Marvin Shurbet and Walter Collins heading our activity divisions. They have the big jobs in the campaign. Around them we will build an organization of team captains and workers numbering close to 200. I appeal to the men and women in the Floyd county area to get behind this effort actively. With a sufficient number of workers no one will be asked to devote more than a minimum amount of time to the campaign."

Dr. W. R. White, president of Baylor to address brotherhood.

## Baylor U. Head To Be Speaker At Encampment

Dr. W. R. White, president of Baylor University, will be the featured speaker at a meeting of the Baptist Brotherhood men of District Nine at the Plains Baptist Assembly September 4 and 5.

The brotherhood encampment will be the third annual gathering of men from the twenty county area, which is served by the camp in Blanco canyon. Dr. White is a well known Baptist speaker, and will be on the program Monday night, Tuesday morning and Tuesday night. Judson Burnett, brotherhood president, of Levelland, announces that an interesting program has been planned for the men which will include talks by Rev. Wilson Fielder, a returned missionary from China as well as other outstanding speakers and five exceptionally good men's quartets.

The encampment will begin with the evening meal Monday at 6:00 p. m. and will close after the program Tuesday night.

## Dr. W. R. White Guest Speaker Here On Sunday Morning

Dr. W. R. White, president of Baylor University, Waco, will be the guest speaker at the 11 o'clock service Sunday at the First Baptist church. The pastor, R. Earl Allen, will speak at the evening service.

Dr. White will be speaker at the Plains Baptist assembly in Blanco canyon, near Floydada, Monday and Tuesday for the Baptist brotherhood convention of District Nine. It is anticipated that 2,000 men will attend the evening service. Dr. Nelson Fielder, a returned missionary will alternate at the camp with Dr. White. Dr. White is a former pastor of the First Baptist church in Lubbock and is one of the south's best speakers. The public is invited to attend all services.

## Garden Club's Third Annual Show to be On September 23

On September 23, the Mayo Motor building will take on the appearance of "Little Mexico" when Our Home Garden club will sponsor their 3rd annual fall flower show. Committees selected by Mrs. John Kimble, chairman of the flower show, are working to produce one of the best shows ever. Opening date for the public to view the show will be from 1:00 p. m. to 6:00 p. m. while deadline for accepting flowers will be 10:00 a. m. Accredited judges have been secured for the show, and ribbons for prizes will be used as in previous years. The public is invited to participate in the flower show and urged to display their flowers in containers and accessions to help carry out

## Cotton Menace Met in Fields of the County

County Agent Robert H. Gibson said the first of the week that the battle against the leaf worm and boll worm has been continuing with considerable success in Floyd county. His tone was much more optimistic than it was when he first reported the imminent appearance of the worms two weeks ago. At that time most of the cotton growers had not been alerted to the danger to their cotton crop. Without quick action a very large percentage of the crop was due to be lost, in the opinion of the experts of the Extension service.

Cotton raisers began immediately, after sensing the danger, using various types of machinery to apply the first applications. Cool to chilly weather kept the first kills from being as successful as later ones.

Some of the cotton crops of different varieties, were attacked in larger numbers by the worms, than others.

The fact that the cotton men have been alerted to the danger and that they are now keeping close watch on their crops and taking prompt measures is ample proof that the danger by and large has been met, Mr. Gibson indicated this week.

For the most part synthetic poisons have been used. However, one cotton man was found who was applying an old-fashioned remedy with apparent success. He was Claude Patton who tied a pattern of cotton bagging behind his tractor and set poles behind the bagging, after first soaking the bagging with kerosene. The bagging knocked the worms loose from the leaves, the kerosene killed the eggs on the cotton and the plows behind covered up the worms. At least that was the theory. The worms and dirt sure flew when Mr. Patton got going down a row, he said. How successful his scheme will prove to be he said he would have to find out. "Anyway, I gave the worms something to do. They had to crawl back on the stalks," he declared.

## District Teams Open Football

Football activities in district 3-A open this week, with two teams in the district matched against non-conference opponents.

Crosbyton bit off a big hunk, when they scheduled their opener against Littlefield, defending state champions and presumably loaded with material this year.

Lockney, the other team from district 3-A playing this week, scheduled always tough Shamrock for their first home game. Many fans and boosters of the Whirlwinds are expected to attend this game, since the home team has an open date.

The Floydada High school team, with another week grace to get ready for the opening game, is continuing their two practices a day. Although the team has a long way to go, lots of hustle and determination is being shown. Lack of experience has the team stymied in nearly all positions, and coach Watson has yet to pick his starting team, hoping to wait until the last minute and make sure that proper consideration is given to each individual.

In the scrimmage against Crowell, reports indicate that the "Winds" gave a good account of themselves. An experience advantage gave the best of the work out to the boys from Crowell, but coach Watson was not disappointed in the performance of the "Winds" and he is certain that this scrimmage was of material benefit to the green and white in both toughening and experience in operating under pressure from strong opposition.

Opening date for the Whirlwinds will be Friday September 8 at Wester field. Slaton is scheduled to furnish opposition, possibly more than enough.

## Moore Gets Majority For Judge; Holmes Wins Commissioner Race

Frank L. Moore, former assessor-collector of Floyd county, got on the come-back trail in Floyd county Saturday when he successfully hurred the run-off campaign for county judge. He finished, according to unofficial tabulation, with a majority of 82 votes over G. C. Tubbs, candidate for re-election. The vote was Moore 1,254, Tubbs 1,172. At the same time J. R. (Keller) Holmes made his first campaign for a public office a successful one by out-stripping Chas. O. Spence for Commissioner of Precinct No. One. They were paired in the run-off out of a field of four from the first primary seeking the place held by Fred N. Clark who died while in office. Mrs. Fred Clark, who was appointed to fill the vacancy, was not a candidate to succeed herself. Holmes had a majority of 31 votes over Spence, the vote being 446 for Holmes, 415 for Spence.

## Light Rains Boost Prospect For Feed and Cotton Yields

Two light showers in the week that brought 48-hundredths of an inch at Floydada Saturday night and a quarter of an inch Tuesday afternoon, also gave rainfall to other sections of the county, rather generally, although reports are incomplete for lack of time in some sections of the area.

The showers have been quite helpful, although late feed and some cotton are needing more rain

than fell. Range lands also got a freshening top moisture wheat men considered the showers quite helpful in getting land in condition for the final clean up and fall planting time now not many days distant. Here are some of the reports given The Hesperian in a survey Wednesday afternoon:

**Some Hail Damage**  
At the O. W. Dennings place, nine miles south and two miles east, just

on the edge of the Blanco cap, cotton was haled out, and Tommie Assiter's cotton was badly damaged. Lawrence Davis got haled and J. S. Hale, jr., feed was badly damaged, but his cotton was not hurt so bad. Mr. Dennings says that he doubts if he can even use a sled in his cotton. This happened Tuesday afternoon.

At Baker, Mrs. G. R. May reported a half inch rain fell Saturday night. At Lakeview, Mrs. Howard Bishop reported one third inch Tuesday; at Pleasant Hill, Mrs. Custer reported a half inch Saturday night and a good shower Tuesday.

At Antelope, Mrs. Claud Ring reported one inch Tuesday and over a half inch Saturday night. At Dougherty, Mrs. C. A. Caffee reported about half inch Saturday night. At Rushing Chapel Mrs. F. O. Connor, reported a good shower and Mrs. Leon Ferguson reported a light shower at Starkey.

Mrs. Jim Barnard reported half inch Saturday night at Barwise and 5 miles north about one inch fell. Jean Battey at Harmony reports no rain Mrs. Welborn Miller in Center Community reported eight-tenths Saturday night Mrs. Jack Stansel, Cedar, reported a half inch Saturday night and light shower Tuesday.

Mrs. Howard Drysdale, Hillcrest community, light shower; C. P. Fulkerson, Sand Hill, half inch Saturday; at Pleasant Valley, Mrs. Clark Harris a good shower Tuesday and about one-half inch Saturday.

Mrs. Cecil Baxter in the Campbell community reported a good shower Tuesday morning. B. A. Howell, Sterley, only a trace Tuesday and about 71 Saturday night. South Plains had a hard dashing shower.

At Lockney cotton showers fell. At Aiken on Saturday night about 8-tenths of an inch of rain fell and a light shower Tuesday. Forrest Mickey at Aiken gin office said that Lockview farm had about the same amount as at Aiken. He did not have definite reports on Irick to the south and Providence to the north.

## Report Wallace Loyd Missing Since July 27

Wallace Loyd, 18, son of Mr. and Mrs. Gus Loyd of Floydada, is missing in action in Korea, the adjutant general of the War department at Washington, D. C., notified the family here in a telegram Tuesday.

Wallace has not been accounted for since July 27, the wire said, adding that a letter giving more details would follow.

Young Loyd was a member of the 29th Armored division which had been in constant action since the beginning of the Korean outbreak. He is a brother of Bob Loyd, who is associated with The Hesperian as a printer. He has two other brothers and a sister, grandchildren of Mr. and Mrs. John A. Fawver, of Floydada.

Last word members of the family had from Wallace was in a letter dated July 10, in which they were advised he was well. He said that a change of address would be given them later. Prior to his take off for the Pacific young Loyd visited with the family here in May. In June the family received several items of the son's personal effects which they assumed were in excess of the permitted weight for a foreign campaign, this was prior to the boy's letter on July 10.

## New Crop Maize

J. W. Campbell, an east Floyd county man brought the first load of 1950 maize to the Floydada market Wednesday. It was received at Producers Elevator as good grain, just slightly green. Campbell delivered two small loads and was still combining.

Many other acres of early maize is due to begin moving within the next 10 days.

## Monday Dollar Day

Just in case you may let the fact escape your mind, Monday isn't only the opening day of the public schools, it is also first Monday and Dollar day in Floydada.

On top of that it is the day passes to see a good show at the Palace theatre with the compliments of Floydada retail establishments and shops. One show is to be given in the forenoon, the other in the afternoon. Both are free, if you have a ticket, and can pass for 14 years or younger. A kid gets a ticket by asking his favorite dealer for it.

The show is the last in a series of summer events staged to add prestige to Dollar day or first Monday in Floydada. The show makes an interesting place for the youngsters to go while their elders do their first Monday bargain looking and buying. That's the theory and it was quite popular with several hundred kiddies in June, July and August.

## WATER RATES RAISE?

The probability looms, in Floydada that revised rates for water and sewer service for the Municipal water works system are in the offing. Members of the council are studying the situation and have had City Water Superintendent Floyd Johnston making a survey of charges made in numerous other cities and towns in the area.

The rates in effect in Floydada, the council is pointing out, have been in effect without change, except downward, for some 30 years. Rates now effective, that served the purpose during the depression period and following it, are outmoded, the council is beginning to fear.

The waterworks system has been the work horse of the municipal set-up throughout the years. It kept the city's administrative affairs financed for years and is still being called upon to furnish finances for many of the services demanded by the community.

What has the council studying the situation in particular is the fact that the waterworks properties need reserve fund in case of urgent need or disaster. The council is said to believe that the citizens of the community would not balk at a raise in rates that would be in line with other communities of the area, and which would build up a reserve fund.

Johnston, in his report, gave the council the figures below for the cities which he has visited in the past 30 days, and will give the council his ideas on what the raises could, and probably should be made. The figures for the communities investigated indicate that, with one or two exceptions, the Floydada plant is delivering water and sewer service at a figure below that of contemporary plants in the area, and at a price lower than present conditions will justify. Mayor Harmon indicated this week that while the council is making haste slowly they are indicating the likelihood they will make some adjustments. They are pondering what the reaction of the taxpayers and the public in general will be to some readjustments.

Following are the figures from 10 or 15 other cities and towns which Johnston assembled for the study of the council:

**City of Lockney**  
Water rates: \$2 minimum of 3,000 gallons; 25 cents per thousand across the board, no summer rate, no big user rate;

## Record Broken Attendance State THDA

J. Latta, of the Sunnyside Demonstration club, Mrs. P. W. E. Grimes of the Homebuilders club, and Mrs. C. L. Ship club, returned from Lone Star where they attended the annual state meeting of the home demonstration association. Mrs. Latta is county chairman. She, Mrs. Bertrand Mrs. Grimes were delegates to the Floyd County Home demonstration council. Mrs. King is chairman of the County H. D.

Women reported a wonderful Mrs. Latta said, "I have attended seven state meetings and the best of them all."

700 women registered at the convention while another hundred or more were visitors at various times. D. Haskew, dean of the State of Education of Texas University, gave the main address to the assembly. Homes Build Tomorrow which was also the theme of the convention. Dr. Haslam reminded the women that the home is shaped by habits, most of which are picked up in the home. He urged to improve the world should improve habits of the home. He prescribed developing of love and respect for each member of the family.

Business of the meeting included recommendations, the election of another 4-H scholar, and election of state officers. The recommendations called for a continued drive to obtain appropriations from the state, staging leadership meetings in each county to study the budget and account for the tax dollar, studying the National Soil Conservation programs and the Hoover Commission report on the structure of the Department of Agriculture. Women voted to establish the H. Swift Scholarship for 4-H

girls in honor of Miss Swift, former Extension Service Organization specialist. This is the second scholarship the Association has established. The Home Demonstration women chose as their president, Mrs. R. M. Almonrode of Munday. Mrs. B. M. Harris of Plainview, was elected vice-president at large; Mrs. John Golightly, Rico, secretary; and Mrs. Vaughn D. Bailey, Auga Dulce, treasurer.

'TEAMED FOR DEFENSE'

The first Armed Forces Day in American history, to be observed May 20, will emphasize the unification of the Army, Navy and Air Force in a three-pronged instrument for national security. Unification is already at work in the various far-flung American military posts throughout the world. Photo, left, shows Navy aviation machinist's mate, second class, J. Ritchy, of Swayzee, Ind., and Sgt. J. L. Kneeman, USA, of Easton, Penn., getting acquainted on police duty at the Naval Base, Norfolk, Va., before embarking on the great combined Army-Navy-Air Force exercises in Puerto Rico, called "Operation Forttrex," held in February. ## POTATO CHIPS POPULAR

Commercial production of potato chips has become big business. It now accounts for about 8 percent of the potatoes used for food in the United States, according to A. E. Mercker of the U. S. Department of Agriculture. Chippers bid for quality potatoes of high specific gravity, says Mercker, who is chief of the Potato Division in the Production and Marketing Administration. He points out that chip makers, or "chippers" as they prefer to be called, claim that their mechanical equipment for cooking enables them to do a superior job. Chip making drives out the water and a bushel of potatoes makes about 15 pounds of chips.

Commercial chips cooking is in two stages. After the potatoes are pared and sliced mechanically they move on an endless belt through two tanks of melted fat. The first is held at much higher temperature than the second. This sears the thin steak. The potatoes then move on through a second cooker that finishes the job at more moderate temperature. This kind of scientific temperature control would be too difficult and expensive for the home chipper to arrange in making small lots of chips at home.

Mercker tells of an ingenious method by which chippers test and compare the quality of a new lot of potatoes are then cut a round core out of the center of several of the new lot. These potatoes are then dropped into the slicing machine and move through the cooker with the old lot. As they come out on the culling belt the chips with the holes in them can be identified and compared with the main lot for color, crispness, and other qualities. Thus the chipper can get a line on whether the new shipment is up to standard and whether adjustment of cooking time and temperature will be necessary.

The first chips are believed to have been made about 1853, and were for years made mainly in small lots, at home and in public eating houses. The Department's first figures on chips date to 1936 with commercial use of about 3 million bushels, increasing to 5 million bushels in 1941. A quick spurt during the war is shown by a rise to 10 million in 1945. For 1949 the chip market required more than 20 million bushels.

Packing in transparent plastic is credited as an important aid to chip selling.

## New Type of Golf Tournament at Country Club Opens Sept. 3

Plans for a golf tournament at Floydada Country club that will be made up of several types of golf tournaments are being made by a committee composed of Gene Collins, Edd Johnson, Rex Brown, Jim Word and Bill Brown.

Details of the plans for the tournament are offered in a letter broadcast to all golfers of the club. Tentative plans call for names to be posted in the club house by the afternoon of September 3. First detail is for the entrants to furnish his 18-hole average score and his entrance fee of \$4. The figuring and the fun begins from there. Here is how the committee explains the wheels will go round:

**Ladder Positions For Start**  
"You needn't be modest about your score for you will probably move either up or down on the ladder before the tournament is over."

The tournament committee will take your score and place your name in its respective position on the ladder and in case there are several identical scores your position will be drawn for you. The tentative ladder as formed by all entrants will be posted in the club house by Sunday the 3rd of September.

"You can challenge the man directly above you on the ladder and of course can be challenged by the man below you. If you lose to the man above you, then you must successfully defend your position from the man below you before you can re-challenge the man above you. However, if the man above you moves up, you may challenge the man moving down to take his place."

**Minimum of 3 Matches, 18 Holes**  
Now to be eligible for the remaining parts of the tournament, you must play a minimum of three matches. These should be 18 hole matches. All of your score cards from these matches must be turned in to the tournament committee. This is very important. A handicap committee will take these score cards and give everyone a handicap for the C. C. course. We specify a minimum of three 18 hole matches in order to be sure of giving every one a fair handicap. Play as many matches as you like, but please turn all score cards in to the committee.

"Two weeks after the tournament starts, the 17th of September, the Ladder tournament will end and your position on it will be established as it affects the remainder of the tournament. After the tournament you may continue to challenge and be challenged for positions on the ladder. As soon as you beat the man above you, arrange a match with the next man above you on the ladder, etc."

"Now for the next part of the tournament: the odds will play the evens for the team championship, that is if you are number 10 on the ladder, you will play either No. 9 or No. 11 which one will be decided by lot. You, as No. 10 on the ladder, are a partner with all other even numbers on the ladder and will play an 18 hole match against your opponent. This match will be both medal and match play. That is: one point can be won for each nine holes and one for the total 18 for both match and medal play. It is possible for you to win a total of six points for your team. If you win your match, you will be refunded a part or all of your entrance fee, depending upon the final expenses of the tournament and barbecue. You must play the final match and be finished by 6:30 p. m. Sunday the 24th of September. This will be necessary in order to have the barbecue and the awarding of the trophies Sunday night."

"Sunday the 24th of September there will be a best ball tournament and it will be possible for you to play your final match and play in the best ball tournament at the same time. The best ball tournament will allow every player to use his handicap which was established by his earlier rounds. The foursome winning the best ball match will be awarded a prize Sunday evening. The person who wins the tournament will be the one who shoots the lowest score in his or her final match with handicap. There will be a prize for the ladies and mens' divisions alike."

Mr. and Mrs. James Bagwell, of Amsted, New Mexico, were here Tuesday guests in the home of their daughter, Mrs. Ray S. McEntire and family.

### GOLF IS HIS GAME AFTER HOLE-IN-1 AT COUNTRY CLUB

Gene Collins this week is walking around with a smile on his face and smug in the conviction, at least for a time, that golf is really his game.

The reason for his unusually broad smile, is a hole in one made Sunday on number eight of Floydada country club. Mr. Collins, on his second round, said he thought the ball hit on the green, but when he went to look for it he nearly gave it up as lost until he chanced to look in the cup, and there it was. No. 8 is a 158 yard shot from out of a deceptive bend of White river.

When asked by dubious duffers around the tee box if he had any witnesses, Mr. Collins luckily could say that there was one, Byron Clark, who was playing the course with Mr. Collins.

### HYBRID COTTON IS COMING; BUT PROBABLY NOT SOON

Ingenuity, amounting to scientific trickery, is the hope of geneticists bent on putting hybrid vigor (heterosis) into the cotton crop. Unlike corn—world's leading example of hybrid advantage among economic plants—cotton and most other crops have complete flowers. Corn has its male and female flowers widely separated and the pollen-bearing tassels are handy for removal. As a result, hybrid seed can be produced in quantity and economically.

According to geneticists Harold D. Leden of the University of Georgia and T. R. Richmond of the U. S. Department of Agriculture, there is evidence of significant increases in vigor, yield, and other characters in cotton as a result of various kinds of crosses in commercial varieties of four species. Those scientists are optimistic that some day hybrid vigor will give to the cotton grower somewhat the same sort of help it is now giving to the corn farmer. They say that large scale commercial utilization of natural crossing to produce hybrid cottonseed is not to be expected in the immediate future. However, some male-sterile plants have been found, opening the possibility for field crossing on a natural basis as worked out recently with onions.

When hybrid vigor can be captured it builds up yields at a lower cost than almost any other factor, so both plant breeders and planters are determined to clear away difficulties and have this now familiar magic in the cotton fields.

### Dr. Douglas Takes Residency in Lincoln

Dr. and Mrs. D. W. Douglas and sons have moved to Lincoln, Nebraska, where Dr. Douglas has taken up a residency in surgery at the Veterans hospital in Lincoln. He will study under Dr. Bill Kleitsch, a noted surgeon. In a letter to the Hesperian, asking that their Hesperian be sent to their new address, 3049 E. O Street, Lincoln, Mrs. Douglas said they certainly hated to take "this leave of absence", but felt that it was a real opportunity for Dr. Douglas to do some special training, and that they hoped circumstances would permit them to return to Floydada in the future, because they enjoyed living here.

Mr. and Mrs. Jack Gidcum, of near Lockney, have a new daughter, born August 29, in the Guthrie hospital, weighing nine pounds. Wednesday the baby had not been named.

## Cooke County Man Lawrence Horton Sees Holdings Here Rites at Plainview

L. L. Seagraves, of Era, Cooke county, has been in Floyd county a part of this week on business connected with a section of land he has owned adjacent to Cedar Hill since the year of 1901.

Mr. Seagraves is a nephew of the late D. W. H. Freeman, who helped Seagraves select the piece of land 44 years ago. Seagraves bought the land for \$7 per acre, and he recalls that the Brown brothers, of Cedar, plowed out the first piece of ground that was put into cultivation on it. The land has been a financially fortunate piece of property to own, said Mr. Seagraves.

The funeral of Lawrence Horton, whose body was found Tuesday of last week beside Tule lake near Tulla, was held in Plainview, at the First Baptist church, Wednesday afternoon.

Rev. E. S. Weathers conducted the services. Burial was in the Plainview cemetery. Mr. Horton, age 25, was the son of Mr. and Mrs. J. E. Horton of Lockney, who survive him also his widow, the former Joe Nell Box of Plainview and one son, Bobby Lawrence, age 4. A sister, Mrs. Fred Aury, of Plainview, also survives. Mr. Horton worked for the Hutto Motor sales company in Tulla and

lived in Plainview. Tulla was investigating the cause of death of Mr. Horton this week. Why send away for office supplies call no. 8.

## Spinsters Day Inaugurated

STANTON, Texas, August—Denton is out the carpet for the old and they giggled and joked and their spinstershood—and loved their hearts, why didn't they think of this before," she remarked.

It was an old maid who thought the idea took hold. The group proclaimed old maid's day, gave free corsages, free free taxicab transportation, champagne all during the day, newspaper gave a tea.

Everybody and everything has been a day except an old maid, Miss Dorothy Babb, Latin instructor at North Texas State College in Denton. "In my adult life I estimate that I have spent more than \$1,500 on bridal and showers and wedding gifts never even got a birthday card—because old maids don't have birthdays."

Babb, who will admit her spinstershood but not her age, was the one who started it all. She is attractive, tall, slender woman with graying black hair.

She had her up was a bunch of school teachers going to school at Denton's two schools—North Texas and Texas State College for Women.

But the men changed their names—"glamor gals" they called the 150 self-admitted spinsters who came to the tea at the country club.

Everybody wanted to meet Miss Babb in a ruffled green dress and big brown picture hat, and "especially shake her hand."

Presents have come to Miss Babb from all over the country. And letters have come to her and to the newspaper from reawakened people who said they were sending gifts to old maid aunts and sisters or spinster friends. And why wasn't it a national day, they asked?

The group here wrote a letter to Gov. Allan Shivers asking him to proclaim an old maid's day—with emphasis on presents.

Doesn't matter what day, they said, but August is good, because it comes about halfway between Christmas and income tax.

## Next To Godliness

Safety first is the precept wise mothers put into practice when summer bears down. Before it's a real holiday for Mother, she'll want to assure herself she has done all she can to make her child reasonably safe from the threat of such seasonal terrors as polio.

Start 'em Young

To protect against polio and other communicable diseases, Mother must make the youngster his own guardian against germs—by teaching him the value of cleanliness.

Frequent hand washing by the children serves as a good precaution against contagion—particularly when the hands are scrubbed thoroughly — and to this end Katherine Potter of Procter & Gamble advises the use of a gentle, abrasive, special action soap like Lava. Since children are apt to whisk through washing motions haphazardly, they'll need a fast, thoroughly cleansing soap that can do the job in a matter of seconds.

### Suggestions from National Foundation for Infantile Paralysis

A series of preventive suggestions is offered by the National Foundation for Infantile Paralysis. They stress frequent washing of the hands, plenty of rest, avoiding crowds, unnecessary trips and extreme temperature changes. They also emphasize avoiding panic, when trouble is suspected. Rather, summon a physician immediately.

In emphasizing the need for frequent hand washing, the Foundation urges special attention before meals, after the toilet, and whenever hands have become soiled by oral or nasal discharge.

This training may pay dividends of many happy healthy hours of play for the child — as well as peace of mind for the parents.

Comanches, the Lipans were obliged to avoid their hunting range in the upper country. The small, wandering tribe of Tonkawas were in the same predicament with respect to the Comanches. A scanty and harmless tribe called Bidias roamed like gypsies on the waters of the San Jacinto and supported themselves by hunting and fishing.

These tribes composed all the native Indians of Texas, but there were a number of Indians who had migrated from the United States to the country bordering the Trinity and between the Trinity and Red River. Most of these entered Texas in 1822 to '24 and were Kickapoo, Cushtaw, Delaware, Shawnee, Beluxia, Cherokee, Iwawies, Alabamas, Choctaws, Unataqua, Quapaw, Tohoktookies and Caddoes—in all, about 4,000. These had fixed habitations, cultivated land and raised stock. Some had money which the United States government had paid them for their lands and with this they bought slaves.

One of the most remarkable characters I've ever heard of was a Mississippian who was an officer in Jefferson Davis' regiment in the war between the United States and Mexico. What made him remarkable was that he killed 14 men in duels. After he had killed one man, the victim's brother challenged him to a duel and was killed. Another brother then challenged the duelist and this went on until seven brothers had been slain.

Though all the duels were in accord with the code of honor of that day and each man received fair play, the duelist started brooding, took to drink and one day wrote a poem which began, "O, Death, come soon"—and then killed himself.

What a novel could be woven around such a figure!

### BOYCE HOUSE "GIVES YOU TEXAS"

Re-visiting Memphis, Tenn., in 1945 after an absence of many years, this observer entered a book store where, as a lad, I bought books and, now almost 40 years afterward, bought a book from the same proprietor.

The squirrels are in Court Square (the park in the heart of the city) just as they used to be and, with a bag of peanuts, the visitor is surrounded by the bright-eyed creatures and the mournful-voiced pigeons.

One old book store keeps unusual hours. A sign reads, "Open 6 p. m. to mid-night."

Remarkable in flavor are the hamburgers that one little stand sells. They are simmering on the griddle, the back row being always ready to serve. As fast as that row is exhausted, the others are slid

back a space and a new row is started. The secret is that the odor of fried onions sets the nostrils a-quiver—no, the onions are not shoved on raw, as an after-thought, but are cooked with the hamburgers and the flavor blends.

Mr. and Mrs. G. M. Armstrong and son Harold Snell are visiting in Coffeyville, Kansas, and points in Colorado.

### BIGGER EGG CASES

Bigger eggs have been calling for larger egg cases to carry them to market.

Marketing methods, however are well established and standardized. A standard egg case has been cut to strict dimensions so that a case from one manufacturer would pile beside or upon a case from another maker and make exactly uniform stacks that stow evenly firmly in a truck or railroad car hauling the eggs to market.

As a result of scientific breeding and selection on one hand, and of market premiums for larger eggs on the other, poultrymen have been supplying eggs that now average larger than they used to. The result has been increased breakage of eggs moving to market, says the U. S. Department of Agriculture. Eggs were too crowded and pressure broke too many egg shells, particularly of the larger eggs. A study by the Production and Marketing Administration, financed under the Research and Marketing Act, included measurement of more than 16,000 eggs. This showed an increase in length and diameter of eggs to account for the increase in breakage. With the cooperation of various organizations within the industry, PMA worked out plans for slight changes in the packing materials—called flats and fillers. PMA recommended that the length and breadth of cases be kept the same, but that the height be increased a half inch. This means that a stack of four of the new egg cases is two inches higher than a stack of the old ones.

Practically all egg marketing interests have accepted these recommendations. The change-over from old crates to new will involve some inconveniences and will take some time. But it is generally agreed that the change must be made to avoid continued losses which sometimes amount to as much as \$48 to a carload. Both flats and fillers—the paper divisions — have been modified to give the eggs slightly more space. The new style filler can be used in either the old or new cases. The new style flats can not be used in the old cases. During the transition—while old cases are wearing out—packers will have to keep two styles of flats, one to use in the old cases, and new-style flats to use in new cases.

The whole Indian population of Texas, when Stephen F. Austin established his colony, was estimated at 30,000. Among these were the Towacanies, an offshoot from the Comanche nation, who maintained themselves above the falls of the Colorado. Horse-stealing formed the principal occupation of the Towacanies. The Wacoos, another branch of the Comanches, inhabited the country bordering on the Upper Brazos, ranging as far west as the Colorado and sometimes as far east as the Trinity River.

In alliance with the Wacoos were the Pawnee Picts or Towashes, residing on the Red River. The Caranchuhus (usually called Cronks by the settlers) inhabited the western sea coast, chiefly around Lavaca and Matagorda bays.

The Lipans, a small tribe, had no defined limits. They frequented the bays of Aransas and Corpus Christi and the country lying between them and the Rio Grande. Being the hereditary enemies of the

## McCoy Softball Tournament Ended Friday

The McCoy tournament ended Friday night of last week with Builders Mart first place winner by virtue of a win over Rudy's Service in the lone game of the night.

Wednesday night, Lunch Box scored a double win over McCoy and R. E. A., but were forced to forfeit their game Thursday night with Rudy's due to a conflict in scheduling in the Post tournament in which they were also participating.

Winners in the McCoy tournament were Builders Mart, first; Rudy's, second; Lunch Box, third; and McCoy, fourth.

This tournament about winds up softball play in Floydada, except for an occasional game that the individual managers may schedule.

An attempt is now being made to secure fast balls, and let some of the teams in the league play a game or two to determine if the league would be interested in playing this new game next year.

The rules are the same as softball, the only difference being that the bases are six feet longer, the pitchers mound 5 feet farther back and the ball is 11 inches in diameter instead of the regulation softball 12 inches.

## School Opening Monday Morning

With registration in high school under way this week, teachers arrived and ready for the beginning of the school, all the plans had been brought to readiness for the beginning of another school year Monday morning. Saturday morning will see the faculty members assembled at the high school for a pre-opening conference.

This week Andrews Ward school principal A. D. Fultz issued the following report of preparations there which will be of interest in particular to patrons and pupils of that school:

Plans at Andrews Ward Andrews Ward school bells will

ring again Monday, September 4. The doors will open every morning at 8:30 and school will take up at 9:00 each day. Dismissal for the first grade will be at noon for the first month. After that time they will be dismissed at 3:00 p. m. The second and third grades will be dismissed at 3:00; the fourth and fifth grades will be dismissed at 3:15; the seventh and eight will be dismissed at 4:00.

There will not be a general assembly of students. Each grade will progress from last year according to the section they were in last year. For example: students in 2A will go to 3A, those in 2B will go to 3B, and those in 2C will progress to 3C, and all other grades the same way.

All sections of the fifth grade will meet in the gymnasium Monday, but after that day will meet at the First Baptist church. Buses will bring them back to the school for lunch and return them after lunch.

It is hoped traffic will follow the pattern of last year, that is cars go to school on Jackson Street then south to the Sand Hill highway, and buses will use Lee Street only for both ways. It is also important that cars stay off the bus loading zone at the north end of the building during bus hours.

School will be dismissed by noon Monday. Meals will be served in the cafeteria beginning Tuesday at the same price as last year, thirty cents a day or \$1.25 per week.

### GRADUATES AT T. C. U.

Mrs. Eula Wright Crawford, daughter of Mr. and Mrs. S. H. Wright, received her bachelor of science degree in education at Texas Christian university, Fort Worth, on Monday evening, August 28. Mrs. Crawford is the wife of Rev. Ewell Crawford, who is pastor of a Baptist church in Fort Worth. Mrs. Crawford taught in the Lockney school during the war.

Mrs. J. E. Green, in company with her daughter, Margaret and sons, Clyde and Don Clark, all of Center, and Mrs. K. J. Matthews and the Massingill family, of Phillips, returned the first of the week from a vacation trip into northern New Mexico and southwestern Colorado.

Rev. and Mrs. E. A. Powell and son Everett have returned home from a two weeks visit with relatives in California.

### MORE CORN FED BEEF

An extra beef animal was on feed July 1 in the Corn Belt States for every three on feed a year ago. The summer inventory by the Bureau of Economics revealed almost exactly four beef cattle for every three on feed July 1, 1949, says the U. S. Department of Agriculture. And farmers were expecting to market nearly three-quarters of this corn-fed beef, before October 1, with heaviest deliveries in August and September.

This July 1 inventory of cattle on feed showed the largest July 1 total since 1943, the Bureau noted. Thus there should be more corn-fed beef coming to market in August and September than in the early fall of last year.

Nebraska was the state with the largest percentage of increases in feeders, 165 per cent of its number in 1949, or five cattle on feed for every three a year earlier.

During the first 6 months of 1950,

shipments of feeder and beef cattle into the Corn Belt States totaled larger than for the same period of any previous year since 1949. Also, farmers raised feed for considerable gain in efficiency.

Mr. and Mrs. E. J. Barker visited with their son and daughter, A. D. Barker and family, of the flake, Arizona, last week. They returned home Monday.

## Shower Is Compliment To Marihelen Lewis

Marihelen Lewis, daughter of Mr. and Mrs. Charlie Lewis and bride-elect of Billy L. Wason of Matador, was the honoree at a lovely mistletoe shower given last Friday evening at 7:30 o'clock in the home of Mrs. Tate Jones on the Matador highway.

Mrs. Jones met the guests at the door. In the house party were Miss Lewis, her mother, Mrs. Charlie Lewis and Mrs. Bill Wason of Matador, mother of the groom-to-be.

The bride-elect wore one of her trousseau dresses, of bronze satin, with a corsage of yellow roses. Mrs. Lewis and Mrs. Wason, wore black with a corsage of bronze and yellow chrysanthemums. The bride's chosen colors of yellow and bronze were carried out in the floral decorations throughout the entertaining rooms.

Mrs. Richard Stovall and Mrs. Ott Glassmoyer invited the guests to the den to register in the bride's book, presided over by Mrs. Hayes O'Neal, Mrs. A. E. Guthrie and Mrs. Walton Hale were in the gift display room.

Inviting the guests to the dining room was Mrs. Bill Norman. Presiding at the refreshment table were Mrs. W. H. Simpson, Jr., Mrs. Grady Walker, and Miss Dwina Glassmoyer. The table, laid with white rayon damask cloth with chaise longue leaves, held the centerpiece of gold and yellow and bronze mums and ferns, with tall green lighted tapers in bronze holders.

On one end of the table a punch bowl held frosted punch and on the opposite end of the table was a three tier refreshment dish of crystal, topped with bronze mums, and holding minted popcorn, bronze coconut macaroons, and the lower container held tiny mint butter and bread open face sandwiches. Assisting in the dining room were Misses Cecil Hagood, M. P. Goen, T. P. Collins, Homer Steen, and G. R. May.

Miss Ann Deakins gave a toast to the bride, after which Miss Carolyn Tye dressed in rain coat and carrying an open umbrella filled with gifts presented them to the bride. The hostesses for the shower were: Misses Calvin Steen, Homer Steen, M. P. Goen, T. P. Collins, Ott Glassmoyer, Bill Norman, Tom Hall, Walton Hale, A. E. Guthrie, Hayes O'Neal, Neal, Grady Walker, Conner Oden, Wallace King, Richard Stovall, Fred Cardinal, G. R. May, W. H. Simpson, Jr., and Miss Dwina Glassmoyer, and they helped present the gifts.

Both the grandmothers of the bride-elect, Mrs. L. H. Lewis and Mrs. Mollie Kinnard were present and were presented with bronze and yellow mum corsages, by the hostesses.

Guests From Matador were Messrs. Ray Sims, Melvin Meason, W. Y. Higgins, David Birnie, Richard Turner, John Briscoe, David Campbell, Floyd Webb, Wade Berryman, Bert Schweitzer, Kenneth Jeffers, Ben Edwards, Harry Willett, J. L. Every biennium, when the primaries are over and done, it occurs to most everybody, and especially to those who have to do with the machinery of the voting, that the changes in the times call for a fewer number of voting places in the county. Fewer boxes would give the electorate about the same or better accommodation, be less trouble to find election holders and somewhat less expense. As elections go at this time in Floyd county the reduced number of voting places would not cut down a great deal of expense as compared with the multitude of other expenses that go with government, even at the county level. So this would not make a lot of difference, but some. On the other hand there are beginning to be a considerable number of precincts in which there are no public buildings and there are other precincts in which a small number vote comparatively. So far as we are aware at this time there is only one precinct in the county where the territory needs to be further divided so as to make a fewer number of votes to be handled when a long ticket is up. That is Southwest Floydada. Since voting machines are presumably not practical in the county cutting this area in half would make its strength about the same as in some of the other stronger boxes. Formerly local pride would not permit abolishing a precinct without considerable friction, more friction in fact than a change would make practical. Whether this would be true now we do not know. It seems reasonable that where there is marked objection to abolishing a voting box there is no good reason for doing it. The interested people pay the bill in the long run. Perhaps this is just another one of those things about which we think for a time and then forget until the next biennium.

This turnip business got a bad eye among the elite of the nation when Tobacco Road came along. A good New Yorker would not think of eating turnips because he saw a certain loutish fellow on the stage cursing between burps about "them turnips." It is true, we admit, that the Georgia man was burping on account of the turnips he had consumed, as the playwright alleged. However, they burp in Montana and New Jersey also when they get over-doses whether of turnips or something else. Turnips, taken in moderation, the same as anything else, do not give you the burps. They do not give you anything but a good strong rich blood stream for bacon and eggs and sweet milk and cornbread and butter to race through to your marrow and make strength and well-being well up through your lymphatic glands and out to the tips of your toes and fingers and make you tingle with ambition and pep. If you haven't planted turnips yet there is still time but you ought to have last week.

Crop outlook in Floyd county at the moment varies as widely as the poles do. Thus there are fields which will, the Lord willing, produce four thousand to five thousand pounds of maize to the acre, and there are fields that will do well to give the farmer back his seed, if no more rain is granted. Also there are cotton fields that will make as much cotton as last year's crop did and there are fields in which the operator was caught short on time or labor availability and he will have to give somebody half of the crop to fight the weeds and grass to gather the staple. In many fields it is evident the grower beat the worms to the leaves and the other kind of worms to the bolls. In other fields the worms won the race and the picking in the fall will be slim.

Our predictions on the political front are only equalled by our sagacious foresight on matters of the farm and ranch. Thus we have told and re-told our customers to plant fall turnips not later than August 28 to catch the late August pre-early September shower that always happens. To the customer who points out that the shower came on Saturday, August 26, thus forestalling planting on August 28, we point out that August 27 was a Sunday and since Sunday is not a day for labor one would expect a family head who wanted to set a good example to his children to plant rutabagas on August 26 in the forenoon on account of Sunday. We defy anybody to catch us off base on this business of predicting and proving we are right afterwards, since we are the only ones that get into print about it. Everything is always hotsy-totsy if you have the first word and the last word, too.

Now that the second primary election is over The Hesperian predicts that Ben Ramsey will be chosen next lieutenant governor of Texas. Meade F. Griffin will have an easy victory for Place 3 on the Supreme Court bench, and that the east Texas judge, W. A. Morrison, will be a new member of the Court of Criminal Appeals. In the same all-out manner we give the nod to young Will Wilson for Place No. 1 on the Supreme Court bench, and it is our belief that a young Goliath named John C. White, of Wichita Falls, will be a strong contender for the job of Commissioner of Agriculture. Dabbling in county political affairs against our usual policy we foresee the likelihood that Frank L. Moore will be the next county judge and that Precinct No. 1 will have a Starkey man by the name of Keller Holmes for commissioner. When we predict we try to get on firm ground.

We have not actually seen the reports, but get it by hearsay that up at Borger the county Democratic convention adopted many whereas and wherefores, probably more than any other in this portion of the state. Among these resolutions was said to be one in which the newspapers were condemned for demanding cash with order on all political advertising. It occurs to us that the convention should have gone further and condemned Woolworth and the other stores for demanding cash with order. How fine it would be to make them adopt a new policy and give us all credit!

How big a little city and how good looking (for the most part) is Floydada! Need of new walks where old ones are worn out, and walks where they have been none, together with curbs at the street, is evident. Some morning, let us hope, most everybody wakes up with a sidewalk and curb and gutter complex. A few hundred dollars, or less, spent in this manner would do more than any other one thing to help the looks of much of the property in the community.

Did the first norther hit on August 17? We would call that one last Thursday a norther. And hasn't there been the most unusual coolness in the week, in a period of the usually hottest month of the year. Say that August 17 saw the first norther in this area and that the old saying holds out about when the first freeze will come. This would mean a late fall and a chance for lots more cotton and late feed to mature. We'll see whether the first freeze comes on November 17.

Wealth is not his that has it, but his that enjoys it. —Benjamin Franklin.

## Failure Recorded

Crosbyton-Crosby County still remains dry as far as oil is concerned, with the announcement this week that Deep Rock Oil Corporation and Hancock Oil Company of California, No. 1 Morgan Jones; wildcat, 12 miles south of Crosbyton, had been plugged and abandoned on the total depth of 8,761 feet in Ellenburger lime.

## GETTING READY FOR WAR SAYS MRS. LULA SLAUGHTER

Mrs. Lula Slaughter has returned from a three months stay in Long Beach, California, where she visited her daughters Mrs. Joddie Day and Mrs. Cy Wright and families. Mrs. Slaughter flew home on a 60 passenger plane, all seats taken, Thursday night at 12:30 and arrived in Amarillo at 8:30 A. M. Friday. She says the west coast is preparing for war as fast as they possibly can.

Mrs. Dora Crain, of Corpus Christi, has been here the house guest of Mrs. Lela Horton and visited her brothers, R. E. and W. L. Fry. Mrs. Crain left Saturday morning for Lubbock to visit her sister, Mrs. Sam Henry and will visit in Amarillo with her sister, Mrs. George Lader and brother Olen Fry and family, before returning to Corpus Christi.

Miss Beth Hinson had as her guest this past week, two of her classmates at T. S. C. W., at Denton, Misses Cynthia Alexander of Austin and Ann Carvajal of Lubbock. Mrs. C. K. Arnold left Sunday for Denver, Colorado, and Omaha, Nebraska, to visit relatives for two weeks.

## Electric Construction Program Continued; Better Service Aim Building Program in Area

Kilowatt is busy again in Floyd county. Keeping the promise made last year, heavy construction crews of the Southwest Public Service Company are now in the process of rebuilding the high voltage transmission line between Silverton and South Plains according to the plan set by district manager George Caven. This line is being replaced by a new 22,000 volt transmission line. The new line is being completed between Silverton and Lockney. It will be capable of carrying double the amount of power formerly carried by the old line.

is spending \$66,000 for this phase of the construction which ties in with the \$50,000 Diesel generating system installed at Silverton. "We estimate that it will take us about seven weeks to completely rebuild the Lockney-Silverton phase of the transmission line construction," Mr. Caven said. "When it is completed our Public Service customers in that area will have dependable electric service under all weather conditions with two sources of electric power supply in the Floydada - Lockney - Silverton cities and rural areas. For example," Caven said, "Silverton will have power available not only from our Tuco generating station, but also will have the Diesel generator system on a standby basis. Lockney and Floydada will have power readily available from Tuco generating station as well as from the Plainview sub-station."

MINNIE PEARL

In response to popular demand the Grand Ole Opry will return this year, September 18 through 23. Minnie Pearl, Hank Williams and Ernest Tubbs, with an all-star cast, will appear twice daily performance at the sports arena, in both afternoon performances at the sports arena at the fairgrounds. Other entertainment features are planned.

Agricultural, livestock, and educational shows and exhibits this year will be "bigger and better than ever," according to John Boyce, the fair's president.

### AN INTERESTING TRIP

Mrs. J. A. Hutchinson returned Monday from Fairfield-Suisun Air Force Base, California, where she has been visiting the past two weeks with her daughter, Mrs. R. J. Wright and children.

Mrs. Hutchinson reports a nice trip, and an exceedingly interesting one.

Mr. and Mrs. O. G. Mayfield and son, Eugene, left Sunday morning for California where they will spend several days with relatives. Miss Joy Lambert went with them to visit friends in China Lake, California.

Mr. and Mrs. G. C. Hilburn left Monday for Hot Springs, New Mexico, where they will spend several days.

## WHEN IT RAINS IT POURS, FINDS HOCKLEY COUPLE

LEVELLAND, August—For proof that when it rains, it sure does pour, look to Mr. and Mrs. Murry C. Stewart of Levelland.

In rapid fire order Stewart: Made an appointment with the stork. Started negotiations to buy a house.

Ran for county tax assessor-collector of Hockley county.

Spent most of his money running for said office.

Was elected to same.

Was called to active duty in the Air Force Reserve, with three and half days notice.

When asked today if anything else had happened, Mrs. Stewart said, "I guess that's about all that can happen unless I go crazy." M. S. Stewart is the daughter of Mr. and Mrs. W. F. Daniel of Floydada.

Stewart, 27, is a veteran of three and a half years military service in World War II. A member of the inactive reserve, he reported to Randolph field, San Antonio, last Friday.

He defeated the incumbent assessor-collector, J. B. Reese, by 487 votes in the first Democratic primary. Stewart has lived in Hockley county most of his life.

Officially, of course, he is not elected until the general elections in November. What will happen is not clear, but Mrs. Stewart thinks he can get a leave to come back in January, be sworn into the office and appoint a chief deputy.

Meanwhile, Mrs. Stewart is planning to go ahead and buy that home, and Mr. Stork is still expected in about six or seven weeks.

A stitch in time gathers no moss. -Brown-Holmes Co.

## Election Party Is Rained Out

For several minutes there Saturday evening everybody was having a good time, several hundred perhaps, expecting the returns to be posted on The Hesperian's election bulletin board quickly and the thing to be over soon.

They were right. It was over quickly for the onlookers when wind from the rain ran them to cover. They learned the results, however, before they ran, with all but one box on the board.

This particular box—it was shortly after 9 o'clock when the rain hit—never did get put up. The moisture had washed all the other figures away when the Providence figures reached the office.

It was the quickest complete report ever given on a primary election in the county. All unofficial totals had been completed, tabulated and given to the public at 9 o'clock.

Mrs. Julia Rex of St. Jo Texas is at the home of her daughter Mrs. J. O. Dudley bedfast with arthritis Mrs. Rex has been in Flomont with relatives and came to her daughter's home some two weeks ago to be here awhile.

### THEY MEANT IT

An insurance agent asked a cowboy if he had ever had any accidents.

"No," replied the cowboy, "none to speak of—a bronc kicked in a couple of my ribs and busted my collar bone and a rattlesnake bit me last year."

"Good gracions," said the agent, "don't you call those accidents?"

"No," said the cowpuncher, "they done it a-purpose." SANTEE FE MAGAZINE

## Glewa Ratjen Bride of Billie Jo Smith in Vows Said Sunday

Sunday morning at nine o'clock on August 27, Miss Glewa Ratjen, daughter of Mr. and Mrs. Bob Ratjen of Floydada, became the bride of Billy Jo Smith, son of Mr. and Mrs. L. H. Smith, of Floydada, in a double ring ceremony in the home of the bride's parents before a scene of fern and white gladioluses.

Rev. Sidney Johnston performed the ceremony.

Miss Gloria Ratjen, sister of the bride, attended her as maid of honor. Bobby George Smith, brother of the groom, served as best man.

The bride was dressed in a lovely toast brown crepe trimmed in

rhinestones, brown accessories, and a corsage of yellow rose buds.

After a honeymoon in the western states the couple will be at home in the McCoy community where the groom is engaged in farming.

Mr. and Mrs. Brown Jennings of Fort Worth were Sunday guests of Mr. and Mrs. Lorin Leibfried. They had been on a trip to the west coast and were returning home.

## Thanks, Folks!

For the votes you gave me county judge on August 24, I am most grateful. All good wishes for the future of Floyd county. G. C. Tule.

#### CARD OF THANKS

We wish to express our deep appreciation for the many acts of kindness and expressions of sympathy in the passing of our beloved son and brother.

It is hard to understand the Lord's purpose in taking to himself one so young and devoted to His cause. But we humbly submit to His will and pray that you may have the same comfort and loyal friends in time of sorrow.

Mrs. C. E. Meredith, Sr., and children  
Mr. and Mrs. W. F. Culpepper and Mrs. W. C. Sims and Miss Etta Henry of Victoria, sister of Mrs. Sims and Mrs. Culpepper, spent the first of the week at Stovall Wells, near Graham, Texas.

Continental Oil Company has awarded a contract for construction of a \$2,250,000 research laboratories building in Ponca City, Okla., that will provide the Company with one of the most advanced development and research programs in the American oil industry, it has been announced by President L. F. McCollum. The new structure, as shown in the architect's sketch above, will be three stories and is expected to be completed in the fall of 1951. Approximately half of the building will be occupied by the Company's central research laboratories, which will include an organic chemical laboratory, a physics research laboratory, for research in electronics, X-ray defraction and mass spectrometry, an analytical laboratory, consisting of both chemical and physical methods units, and a solid laboratory for carrying on fundamental work on greases and allied materials.

### All Schools Open Monday Except one

County School Superintendent Clarence Guffee said this week the schools school term of 1950-1951 on September 4, with the exception of Providence, which will open on September 11.

The schools to open on Monday September 4 are as follows: South Plains, Sandhill Lakeview, Lone Star Cedar Hill, Dougherty and Lockney. Floydada Independent school district school year opens the same date.

#### PLANNING 1951 DAIRY SHOW

PLAINVIEW, August—The men responsible for the success and advancement of the third largest dairy show in the nation met on Saturday, August 26, in Plainview, for the annual meeting of the board of directors of the Panhandle Plains dairy show association. This show will be held in Plainview during the second week in April, 1951.

Earl Edwards and C. B. Carmack, both of Floydada, are board members of this organization and have done a great deal in the past to contribute to the success of the show.

#### Lakeview News

LAKEVIEW, August 28—Announcement is made that the Lakeview school will open the 1950-51 term next Monday, September 4. Mr. and Mrs. Tooley who have taught here the past three years will again be the teachers. A larger enrollment is expected this year than last since there will be ten beginners and only three were graduated to high school last spring. Mrs. E. H. Spears has been secured as director of the lunch room. No lunches will be served Monday since the pupils will be dismissed after they register in their respective grades. Opening exercises will be at 9:00. Everyone is invited to attend.

Mr. and Mrs. Fred Jones and little daughter, Imogene, and Mr. and Mrs. Faye Hart and little son, David Ray, enjoyed a picnic outing at Roaring Springs Monday.

Mr. and Mrs. Fowler Estep and son, Billy Joe, together with Bobby Estep and wife of Lubbock left Monday for points of interest in Colorado.

Mr. and Mrs. William Bertrand accompanied by Mr. and Mrs. Harold Bertrand of Plainview vacationed in New Mexico, Colorado, and Kansas last week.

Mr. and Mrs. Wayne Wright, Mr. and Mrs. Tilford Taylor and Mr. Adrian Roberts of California, are visiting in Tennessee this week.

Mr. and Mrs. E. H. Tooley and daughter, Anita, visited in the home of their daughter and family, Mr. and Mrs. H. P. Hill, Thursday and Friday of last week.

On Friday morning of this week, if you are no busy, just pick up that idle hoe or rake and be at the school house with it at which time it is desired to give the grounds a cleaning for the beginning of school.

#### 50TH WEDDING CELEBRATION

Robert McGuire, accompanied his sister, Mrs. T. E. Lennon of Dodson, Texas, attended the golden wedding anniversary celebration of his uncle, John R. McGuire and Mrs. McGuire of Chico. Mr. McGuire is well known to some Floyd county people, having visited here. Fifty relatives, children and grandchildren and great grandchildren were present, besides a host of other relatives.

Mr. and Mrs. Roe Jones have returned home from a trip to South Dakota.

# State Budget of Half Billion 1951 Forecast

AUSTIN—The Texas Economy Commission is pushing the work to give the average Texas citizen a voice in securing "the bargain of a lifetime," according to an announcement today by John Ben Shepperd, Secretary of State and secretary of the TEC.

"The Commission offers the average citizen a chance to spend a little in order to save a great deal," Mr. Shepperd said.

"Texans paid \$104,323,500 for state government in 1939. Last year, only ten years later, they paid a staggering \$443,776,800. This year it is going to cost over half a billion dollars.

"The TEC needs \$75,000 for its first year of operation. This will be spent on intensive, impartial research into all agencies of the executive branch. The facts turned up will be the basis for designing an efficient reform program to be acted upon by the Legislature.

"If the rising trend in government costs can be reduced through the TEC's work and influence of its individual members, then the average citizen who supports the TEC has made plainly the bargain of

a lifetime," Mr. Shepperd continued.

To reach its \$75,000 goal, he explained, citizens in every part of the state must be aroused to the need for economy and efficiency in their government.

During the next few weeks, TEC members in each community, aided by the commission's office at Austin, will set up county branches of the TEC around which the people can rally to support this program. Eighteen counties already have active TEC branches.

A county organization consists of all citizens, whether or not they are TEC members, who are interested in efficient, economical state government. Each county branch is headed by a chairman elected by these citizens. Committees function in matters of finance, publicity, speakers, and study clubs.

The TEC is composed of six hundred Texas citizens appointed by Governor Allan Shivers to conduct the study of the executive branch and present its recommendations to the Legislature. Its status is unofficial and no tax money is allocated to operate it. The TEC depends entirely upon individual membership fees and private contributions for its funds.

Miss Ruth Collins, in company with Mrs. Joubert Clements of Plainview has returned home from an extended trip through the west having visited in Colorado, Nevada, Salt Lake City, Yellowstone National Park, Las Vegas, Nevada, and points in New Mexico.

A penny saved is a friend indeed. -Brown-Holmes Co.

## As A Farm Woman Thinks

What is so soft as the cheek of a child?  
By Helen Harrington.

What is so soft as the cheek of a child?  
Damaak, satin, and pearl?  
Soft as the song of the sea in a shell  
Is the cheek of my little girl.  
What is so soft as the cheek of a child?  
Speak as the wing of a dove,  
Smooth as the smooth-flowing  
water of streams  
Is the cheek of the child I love.  
Margaret Nell will be seven next  
Sunday. Seven years I have had  
her to love and for her to love me.  
Sweeter than the song of the mocking-  
bird is her voice and lovelier  
than the rose is her face to me.  
Pray I to the dear Heavenly Father  
above that her life will have  
the fragrance of flowers and the  
beauty of service.

The young garden is up. Rows of  
peas and beans give promise for  
late fall dinners. Mr. Spikes does  
not sow seed as thickly as I do  
and he did not get up the turnips  
and mustard. So I tried my hand  
and there is not room enough for  
all the seed to come up. Okra has  
such staying qualities. Tomatoes  
are ripening, the winds begin to  
have a plaintive sound, the feel of  
fall is in the early morning and  
night air.

There is an empty chair in the  
home of Walter Gray and we will  
not greet him on the streets of  
Halls any more. We shall find him  
in heaven. In the church-yard—  
do you think he sleeps there? No!  
The body to dust, the spirit to God  
he gave it. Now this good man is  
a guest of God.  
From the dust of the weary high-  
way,  
From the smart of sorrow's rod,  
Into the royal presence,  
They are bidden as guests of God.  
The veil from their eyes is taken,  
Sweet mysteries they are shown.  
Their doubts and fears are over,  
For they know as they are known,  
For them there should be rejoicing  
For them the festal array.  
As for the bride in her beauty  
Whom love has taken away,  
Sweet hours of peaceful awaiting,  
Till the path that we have trod  
Shall end at the Father's gateway.  
And we are the guests of God.  
We are glad we knew Walter  
Gray. He stood for the best of life.  
The things our brave soldiers have  
fought and died for he upheld. He  
gave to his country and to his God  
he loved and served, loving service  
and honor.  
So when a great man dies,  
For years beyond our ken,  
The light he leaves behind him lies  
Upon the paths of men.

"Who shall separate us from the  
love of Christ? Shall tribulation,  
or distress, or persecution, or famine,  
or nakedness, or peril, or sword? As  
it is written,  
For Thy sake we are killed the day  
long;  
We are accounted as sheep for the  
slaughter.  
Nay, in all these things we are  
more than conquerors through Him  
that loved us. For I am persuaded,  
that neither death, nor life, nor  
powers, nor things present, nor  
things to come, nor height, nor  
depth, nor any other creature, shall  
be able to separate us from the  
love of God, which is Jesus Christ  
our Lord."  
"What strength and consolation  
Christians get from these words  
of Paul in these days of fears and  
a torn-up world. Nothing can separate  
us from the love of God.

Mr. and Mrs. B. L. Breed and  
son Frank are on the west coast  
this week where they plan to spend  
several days. During their absence  
they will touch first at San Diego  
and later travel northward as far  
as Oregon state.

Mr. and Mrs. Ben Cunningham  
and Mr. and Mrs. Lawton Cunning-  
ham, of Hico, Texas, were here the  
first of the week, guests of Mr.  
and Mrs. A. H. Manning. The  
Cunninghams are brothers of Mrs.  
Manning.

Mrs. David Flowers and son Ross  
and daughter Pamela of Amarillo  
have been visiting her parents, Mr.  
and Mrs. B. W. Ross.

## Floyd County 14 Years Ago

(Taken from files of the Hesperian  
issue dated September 3, 1936)

Late yesterday afternoon and  
last night a good rain of 1.15  
inches fell over most of Floyd  
County. This is indeed a help to row  
crops and aid to grass and wheat  
pasture.

Gins are making ready for an early  
cotton crop, and most maize is early  
be harvested in bundles and to be  
used for feed and roughness. Two  
bales of cotton had already arrived  
in Floydada for the markets.

First bale of cotton was brought  
in by R. E. Warren of the McCoy  
community and was ginned by the  
Scott Gin company, bringing the  
grower 11 cents per pound and a  
premium of slightly in excess of \$40.  
00. The cotton was classed as strict  
middling and weighed 429 pounds.  
Mr. Warren has farmed in this sec-  
tion many years and market his cot-  
ton at this point.

School opens on September 7, as  
announced by School Superintendent  
A. D. Cummings. Two new  
teachers were added to the high  
school faculty, Odell Winters and  
Miss Eulalia Burrus, and four  
new teachers were added to the  
ward school, Miss Genelle Stovall  
Jane Huges and Mrs. Francis Her-  
od and Donley Stephenson. Others  
teachers in Ward school are Nina  
Drew, Ruth Rutledge, Vera Merdith,  
Mrs. J. N. Johnson, Gene Smalley,  
Wilmina Salisbury, Fannie Bolding,  
J. H. Myers and T. H. Huggins, prin-  
cipal. High school faculty members  
are Superintendent A. D. Cummings, O. K.  
Davis, principal, W. A. King, Fannie  
Rees, Genelle Wilhite, Sudie Miller,  
Grace Cade, and Charles Kiker.  
Miss Maxine Fry, daughter of Mr.  
and Mrs. R. E. Fry had been sel-  
ected Floydada sponsor for Floydada  
day at the Fourth worth centennial,  
September 11. She will be presented  
at Casa Manna by orchestra leader,

Paul Whiteman on that date.  
Floyd County Democrats are asked  
to raise \$314, if they want to  
see Roosevelt and Garner re-elected  
a quota set by the State Campaign  
Committee, as its pro rata part of  
a \$2,000 fund sought in Texas,  
according to a notice sent Homer  
Steen, chairman for the party in  
this county.

Eleven J reaps belonging to O. L.  
Bussell are being fed out in Plain-  
view in preparation for show pur-  
poses at the Tri-State and So-  
Flora fairs. W. T. Johnson is in  
charge of feeding the cows, which  
will be increased by five more, the  
end of the week. In the group are  
many prize winners.

The bath house and dance hall  
at Silver Falls, near Cross-  
ton was destroyed by fire, last Thurs-  
day night.

Mrs. Ed. Bond and daughter Mar-  
tine Lou are home from a visit in  
Boston, Massachusetts, where they  
have been to visit Mrs. Bond's mother.

Honoring her son, Billie Joe, Mrs.  
A. J. Welch entertained a few of  
his friends at a surprise stag dinner  
last Thursday night. Billie Joe left  
Friday for Tulsa where he will teach  
in the grammar school during the  
next term. He graduated from Tex-  
as Tech last June with a degree in  
education. Present were F. C. Har-  
mon, Jr. Emory Banner, Waldo Hough-  
ton, Ernon Borum, John Scoggins  
of Lubbock, and Charles Newton.

Miss Merle Scoggins and Mrs. Welch  
and Billie Joe.

Miss Mildred Welborn began  
work Tuesday morning as secretary  
in the office of County School Super-  
intendent Walter Travis. She has  
been employed until last week in Au-  
stin in the Centennial office.  
Wayne Gound, employed for sev-  
eral years at Arvink, was  
mailed, began work in the  
Colorado Drug company in  
Colorado, Texas. Mrs. Gound's  
daughter will join him and  
Mr. and Mrs. J. H. Collins  
turned home from their  
trip to Colorado Springs.

# Be Sure To Attend Church Regularly

Copyright 1947 by Williams Newspaper Features Box 415, Fort Worth, Texas

**REST** for the toilers; What a boon that is! Some of us scarcely expect any real rest till we get to heaven. But it is the charm of Jesus that he brought heaven to earth, that He gave to men in toil the assurance and the fellowship that lifted the uncommon and the ordinary into the precious. In His company men found the glory of great living; they toiled as did their fellows, but they found renewed strength for the task. The difference was not with the road but with the man and with the company. Your task may be heavy and your toil all too trying, but if you know where you are coming out, that makes a difference. You may wish the load was not quite so heavy, but if love waits at the turn of the row, that makes a difference. You may be weary with the day-in and day-out responsibility, but if good company is added, that makes a difference.

**JESUS CHRIST** has brought all these blessings to us who toil. Our work is glorified as it is seen from His point of view; we are workers together with God. What we are doing has divine and eternal significance if it is helping the Architect of the universe to build after His heart's desire. To know that my work really counts is to find a new joy in the task. The men who toiled with the Carpenter of Nazareth were well assured that their labor "was not in vain in the Lord." They were humble workmen, as humble as any one of us. The world counts them among its choicest toilers of all the ages; their lives became significant as their work became an aid to the Lord of Life.

**INSTEAD** of a Taskmaster God we have found ourselves at a task to which we have been called by our Father God. His patience and sympathy and understanding love have made every highway of the world a King's Highway, where we are at home as the sons of the Highest. To know that "God is love," to find love in our hearts instead of fear, to expect a hearty "Well done" instead of judgment and criticism at the end of the day, this is to change the weariness of the task to a sense of high privilege.

**"FOLLOW** me" has been the call which has taken us from the lonely task to become members of a glorious company. The Christian has had a song put in his heart and praise upon his lips, as he joins the goodly company of the redeemed. For he becomes a member of a society of redeemers, and that is toil that keeps a man singing.

**NOT** rest from toil then is our high lot, for life is not worth the candle if there is no good work to be done; but rest of soul, joy in the heart, refreshment of spirit, becoming true yokefellows with the divine Friend and Lord.

## 120 Boys and Girls Present At Encampment

Floyd County 4-H Club girls and boys held their 1950 joint encampment at the Plains Baptist Assembly grounds in the canyon south of Floydada last Friday night and Saturday morning. One hundred and twenty boys and girls were present. The County Home Demonstration women were the sponsors for the encampment.

Friday afternoon from 4 to 6 o'clock was devoted to swimming. The girls swam one hour and then the boys swam an hour. A sack lunch was served at 7 o'clock, many of the parents were present. After supper a moving picture was shown by Mr. George Caven of the South-

western Public Service Company. Everyone seemed to enjoy the picture. After the show a county-wide 4-H club was organized. Shirley Womack was elected president, Troy Lee McNeill, vice-president, Janice Shearer, secretary and Lavon Shearer, reporter. Lights out was declared at 11 o'clock. Breakfast of bacon, eggs, toast, jelly, coffee and juices was served at 7 o'clock after which a period of swimming was held. After the swim another assembly was held at which the elected president, Miss Shirley Womack presided. The encampment was declared over at 10 o'clock Saturday morning.

The girls, boys and leaders who attended the encampment were: Jerry Bartram, Marion Cross, Buddy Watts, Ross Flaherty, Wayne McClure, Loy Davis, Jimmy McClure, Rose La Grone, Betty Cox, Tommie Cox, LeRoy Adams, Charles Robertson, Kent Covington, Billy Hall, Jackie Johnson, Jack Covington, Bob Ross, V. V. Scot, LeRoy Scatt, Norman Brints, Elmer Williams, Delores Barnett, Weldon Pickens, Eileen Handley, Katherine Bolding, J. R. Light, Laverne Light, Gail Vickers, Benny Handley, Jean and Jo Ann Porter, Don Hollums, Dale Smith, Bruce Hinkson, Lynn Raley, Johnny Tinnon, Roland Watson, Wayne Finley, Patricia Spears, Carl Brock, Ginger Tinnon, Sherry Simpson, Margie Turner, Lyndia Maxey, Marcelita Green, Wilton Green, R. W. Smith, Pat Adams, Sue Adams, Delores Gee, Jerry Graves, June Gee, Darrell Bunch, Joe Smalley, Alvin Battley, Lyndia Jones, Kay Stephens, Becky Potts, Sandra Collier, Alice Latta, Juanice Shearer, Dorothy Hargis, Arthur Womack, Shirley Womack, Jack Womack, Jim Womack, LaJuana Womack, Elfo Womack, Mrs. Lide, Janice Smith, Minnie Beth Crawford, Peggy Hall, Lavon Shearer, Billy Ray Smith, James Simpson, Charles Mack Gibson, Jim Bob Gibson, Mrs. Bob Gibson, Gene Loran, Bruce K. Lynn, Sammie Lynn, Bobby Warren, Mrs. Lloyd Allen, Frances Allen, Gordon Hambright, Billy Joe Hambright, Mona Williams, Carolyn Williams, James Teague, Bill Thomas, David Frizzell, Mrs. H. P. Shearer, Mrs. Lloyd Allen, Mrs. Bill Smith, Mr. Bill Smith, Mr. and Mrs. Ray Smith, Mrs. Raymond Williams, and Mr. Robert H. Gibson, Floyd County Agricultural Agent.

Everyone enjoyed the outing, but it sure was hard on grown people, said Robert H. Gibson, Floyd county agent.

Mrs. E. L. Head, Misses Head and Nancy Edgeman of Wichita Falls, and Mrs. Bill Norris, were Sunday afternoon visitors of Julian Roberts in Ralls. Mr. Roberts was recently dismissed from Lubbock hospital after major surgery.

## Many Jobs Still Call for Skilled Hands

Skilful hands continue in demand in the manufacture of automobiles, despite the rise of machines. Here's evidence in pictures taken at the Chevrolet plant: (Top)—A crew positions 60 vanes of the Powerglide automatic transmission before the assembly is spot welded. (Lower left)—To plan factory layouts draftsmen cut out cross-sections of the floor area of machines at scales of precisely one-quarter inch to one foot. (Lower right)—A pattern-maker builds a wooden model that will later be duplicated in steel to stamp out thousands of fender parts.

### Half Minute Interviews

G. C. Tubbs: "People do the way they want to about their voting. If you can't take it you better not get into politics."

Floyd Fuqua: "Our tests show that the red varieties of maize have a little more protein content than the white-grained ones do."

Mr. and Mrs. Jiggs Jackson and children of Lubbock were guests over the week-end of Mrs. Jackson's parents, Mr. and Mrs. Lorin Leibfried. Mr. Jackson will be coach at the Shallowater High school this year.

Mr. and Mrs. John McNeff and family of Greeley, Colorado, visited his cousin, Lorin Leibfried and

Mrs. Leibfried last Friday. They were returning home from a trip to Indiana.

## 'Do My Dead Level Best,' -F. L. Moore

Floydada, Texas, August 30, 1950  
TO THE CITIZENS AND VOTERS OF FLOYD COUNTY:  
Folks I thank you for electing me county judge in the election last Saturday. I surely do appreciate the votes and influence that you gave me and all of the acts of kindness shown me.  
I shall do my dead-level-best to make a good county judge, a judge

for all the people, and with good will, co-operation and good friendship. I realize that you have given me a big job and help will be appreciated.  
Thanks,  
Frank L. Moore  
Mr. and Mrs. Tilford Taylor and Mrs. W. C. Wright were last week for points in Arkansas with relatives. Mr. Taylor is of Riverdale, California, is a son of Mrs. Taylor and Mrs. J. F. Roberts.

## HOW MUCH DOES IT COST TO SAVE A PAIR OF EYES?

**LESS THAN 2¢ A NIGHT**

*That's right!*  
A 150-watt bulb, burning for four hours, uses less than two cents' worth of electricity . . . provides light for sight that cannot be replaced at any price . . . once it's gone.

Now that fall is approaching . . . shorter, duller days . . . home-work for the young folks . . . be sure your home is properly lighted. Fill up those empty sockets; add another floor or table lamp . . . or maybe just re-arrange the lamps you already have. But, however you do it, remember that eyes are priceless . . . light is cheap—through dependable, low-cost Electric Service.

# CHECK M P E

## before you buy a new truck

- MOST EFFICIENT COOLING SYSTEM** with jet-directed water stream to valve areas.
- FULL-PRESSURE LUBRICATION** with rifle-drilled connecting rods which forces oil to full-floating piston pins.
- TCCO-HARDENED CRANKSHAFTS** — finest known—used in every GMC.
- MILES PER ENGINE** — the number of trouble-free miles you can expect from a truck engine is mighty important to know—especially now.

GMC valve-in-head engines are designed and built for truck service—there's not one lightweight "converted" part in even the smallest GMC engine.

GMC engines are tough and powerful. They have high sustained pulling power at normal operating speeds — don't have to race themselves to death like lighter-duty, geared-up engines.

Check GMC's many other extra engine features and you'll see why you get most Miles Per Engine in a GMC — with less maintenance and repair. Come in today and let us give you the facts.
