Easter Sunday comes early this year, being March 25, only three weeks from last Sunday. The earliest date on which Easter has fallen in the past 100 years, since 1851, is March 23. It could occur at the earliest on March 22. Easter came on March 23 in 1856 and again in 1913. Easter cannot fall on a date later than April 25. While we are at it we might as well go ahead with this quotation from the World Almanac. The date was decided upon by the Council of Christian churches in A. D. 325, which decreed that Easter shall be on the first Sunday following the Paschal full moon which happens upon or next after the 21st of March. There is a reason behind all this. The pilgrims needed the moon light to travel by on their way to the great yearly Easter Festivities.

They tell us the world is getting worse and maybe it is. But in A. D. 325 a man intent on honest endeavor and having with him some worldly goods, did not start out after nightfall without a bodyguard, the more in his party and the stronger the better. Every hedgerow and hummock was a likely hiding place for a cutthroat with a lethal weapon. A woman just did not venture out. A family bent on migration from one point to another, even if only a county or two away, counted up the hazards of the journey, estimated the greatest number of bandits they were likely to encounter and hired a bodyguard in strength accordingly.

Those people, in their petitions to the authorities, did not complain of the neglect of their rural roads, the hospitals for the needy or persons of unsound mind, nor did they demand benefits for the aged persons. Nowadays, we are pleased to note, the people whack the backs of their legislators for getting everything for every organized and vocal group and then going into an economy-huddle as soon as the money is all spent and the people still clamor for the things they really wanted in the first place. We speak here of the hitherto unorganized people, who are fast forming rural road groups and hospital and old age pension groups. They are taking a leaf out of the school teacher's book. These used to beg and plead with the legislature. Since they are organized they push the legislators around.

Floyd county people have gone all out for the Red Cross since the very first nationwide, giant drive back in about the first year of America's entry into World War I. In that year, The Hesperian records, not only did the grown-ups organize but the junior Red Cross was an organization of several hundred to several thousand in every county. There is no reason to think that every community in this county will not go along again this year. The need is tremendous, of course, the re-

quest for money for 1951 is doubled what the amount was last year. Many have complained and even declaimed against one thing and another they have found did not suit them about the Red Cross. Among these has been The Hesperian. But the fact remains, after whatever criticism you have, the Red Cross is the agency through which you can contact and get action from the military in matters concerning your man in the service and with the government about his family back at home. The Red Cross is asking for \$3,700 in this county this year. We had as well make it \$4,000. The way to do that is to double what you did last year and add a dollar to it. You may gripe and find fault with the Red Cross until the morning you have to have help. Then you turn to the great benefactress. Who of us has not?

More rain than usual is predicted for the great plateau of the middle west from the Canadian border to the gulf, including Texas. The long range forecasters say the weather is shaping up that way. Up at weather headquarters in Amarillo for the high plains country the leading weather man, a cross-eyed newspaper fellow, is already jubilant, is already celebrating his great talent at "feeling" out the weather in advance. In effect he reports as of about April 1, all the lakes full and the ground oozing out little rivulets of moisture from every grass root. This man gets his stuff printed in the paper for free. The Hesperian's forecaster has to use the classified advertising department.

New state representative, state senatorial and congressional representative districts, carved out more to fit the 1950 population of the state, are almost accomplished facts. The legislature will have wrapped up the enactment soon. Floyd will most likely be in new-numbered senatorial and representative districts and possibly in a new-numbered congressional district. Surely the boundaries of all three will be changed. Fewer counties in each.

Announcement that the wage freeze has been relaxed to permit raises for the nation's workers certainly warranted big type. Imagine a government that has been encouraging non-production through shorter hours, and equal pay to all workers regardless of ability, finally recognizing Merit. —Exchange

One of the congressional re-districting proposals dropped into the hopper down Austinway was one that would put Floyd county in a district that extends eastward to within 40 miles of Fort Worth.

Bear ye one another's burdens, and so fulfill the law of Christ. —Gal. VI :2

CORTISONE'S PRICE DROP GIVES ARTHRITIS HOPE

Eighteen months ago a pinch of cortisone sold for \$200 and the world's supply would hardly treat a hundred patients. Now it is readily available; a day's dose costs less than \$4, according to Pathfinder news magazine. Cortisone has proved dramatically effective in treatment of arthritis, rheumatic fever, asthma and a half dozen other ills; in some 15 more, results have been "encouraging."

The hormone's new availability is opening broader fields in which it is being tried. Because of this, attendants at George Washington University Hospital last week with a box to a soap company gave cortisone a new nickname: Duz.

As A Farm Woman Thinks

(By Nellie Witt Spikes)

Countrywoman's Choice Never a box of florist's flowers, Rare and lovely, holds for me Such a store of gay enchantment Such delightful witchery

As a box of baby chickens— Sunlight softly blossoming, Animated dandelions, The downiest blooms of spring!

—Jane H. Merchant

This morning I decided I just wouldn't get out this column. There were several reasons. My mother is here and we are talking about many things. Do not know of anything of interest, I thought to myself. But when we went a visiting to see Mrs. N. T. A. Byars, Mrs. Duncan told me she liked to read the column and the poetry I find and like myself very much. Then a letter came in the mail from Mrs. D. C. Rainwater of Falls telling me the poetry gave her inspiration as did the column, so I feel ashamed and while mother sleeps I will write this hoping it also finds a warm welcome.

Baby chickens, baby daffodils! How my hands suddenly long to take a bunch of them from the incubator in the cellar which is now filled up from caving in, hold each fluffy yellow one and look at a bunch of black eyes. Yellow dandelions at the poet sings about. My hand feels empty this spring. But other younger hands will know the joy that I once knew of holding the bits of alive, yellow fluff.

So, thanks to you, Mrs. Rainwater and Mrs. Duncan for the inspiration and joy you have given me.

New Mexico editor, of Portales, grows bitter in a recent editorial. It seems he thinks Texas is too greedy about the water New Mexico recently divided with us. So greedy, in fact says the editor, that we will drain a big lake, stop the pleasures of boating and swimming and dry up the water from the fish. He pointed out how Governor Murray of Oklahoma had a time about the greedy Texans. And says he, "If England lets Texas give them a stone in place of the one they recently had stolen that England would soon find themselves belonging to Texas." Maybe they would like that, Portales Editor.

Broadcasters Hope to Put KFLD Station on Air Early in April

Ed Holmes, president of West Texas Broadcasters, Inc., now has hopes that KFLD, new radio station under construction at Floydada, will go on the air early in April. The builders have April 17 in mind as the date but their plans are subject to the possibility that some of the critical materials they will need may be demanded by the defence effort. Material shortages kept the station from going on the air in March. Voice Of The Caprock Country.

KFLD will be a 250-watt station, operating on 990 kilocycles in daytime hours only. It will be known as the "voice of the caprock country," slogan adopted because such a large number of communities on the east plains and just below the escarpment will be included in the radius of its broadcast. The station will be nearer 12 important communities than any other station on the air. These communities are Floydada, Lockney, Ralls, Spur, Dickens, McAdoo, Matador, Whiteflat, Plomont, Quitaque, Crosbyton, and Petersburg.

Holmes announced that Jess Stanton has been named business manager of the station. Stanton is due to report this mid-week for duty. He has been with the station at Kermit. He was formerly with KVOP at Plainview. Stanton will be employed in assembling station personnel in the few remaining weeks before the station is formally launched.

The station's 240-foot transmitter tower has been erected and has been lighted for more than two weeks. The studio and transmitter will be housed in a commodious building that was formerly the home of Mr. and Mrs. Olin Bryant. The residence was moved six weeks ago and remodeling the interior to fit the needs of the station has been in progress along with the more technical construction under way. Associates in the ownership of the station, in addition to Holmes, are B. A. Robertson, of Floydada, and Marshall Formby, of Waco. The latter is now in law school at Baylor university. Formby has other radio interests including station KPAN at Hereford and KVMC at Colorado City.

Ed Holmes, president of the West Texas Broadcasters is associated with Rex Brown in the insurance business in Floydada. Holmes participated in radio program over station KVOP in Plainview called "A Farmer's Life as He Lives It" for a number of years. B. A. Robertson, a long-time resident of Floyd county is vice-president of the corporation.

Moving Light Lines For Right-of-Way

Action on the construction of the Pleasant Valley, Sand Hill, Barwise hard surface road began to take on an air of expectancy for early consumation last week, when crews of the Floyd County Rural Electric cooperative and the Southwestern Public Service company began moving in to move their lines back to make more right-of-way room.

DOWN ON THE ELECTRIC FARM

Electric power on the farm has become a necessity, and more than 3,000,000 farms are using some applications of electricity known to modern agriculture.

Just since the beginning of World War II, the Rural Electrification Administration notes, the farms of more than 3 million families have been newly connected to power lines.

Farmers are finding new applications for power-driven motors to increase their incomes and decrease losses in food products.

Heating devices are helping farmers save baby chicks, lambs, and pigs, and fans dry hay and grains.

Infrared lamps instead of coal stoves are keeping baby chicks warm in large new commercial hatcheries.

The individual farmer can increase his poultry production because of chick brooders, water pumps, killing lights, water heaters, and other electric devices.

Farmers are saving extra from litters that start life in electric brooders.

Dairymen have found that electricity cuts milking time and they could never maintain higher standards the industry requires without hot and cold running water and the milk-equipment required on a dairy farm.

"I got the story on
50,000 Miles-No Wear
and changed to New Conoco Super Motor Oil"

says J. D. Gladwin,
Pontiac Dealer,
Clinton, Iowa

Yellow Cab Co.

"THE LOWEST OPERATING COST IN 12 YEARS in the Yellow Cab business—that's what we got when we changed to new Conoco Super Motor Oil," reports J. O. Jackson, Owner-Manager, Tyler, Texas. "Our operations are day and night the year around—a tough job for a motor oil. I recommend Conoco Super."

"50,000 MILES-NO WEAR!"—PROVED HERE:

After a punishing 50,000-mile road test, with proper crankcase drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence . . . in fact, an average of less than one one-thousandth inch on cylinders and crankshafts.

AND gasoline mileage for the last 5,000 miles was actually 59.77% as good as for the first 5,000! This test proved that new Conoco Super, with OIL-PLATING, can make your car last longer, use less gasoline and oil.

"AFTER AN OVERHAUL JOB, MY CUSTOMERS who change to Conoco Super Motor Oil have no difficulty driving their cars 50,000 to 75,000 miles without any more work on them," writes R. K. Comstock, Garage Owner, Oklahoma City, Oklahoma. "Conoco Super keeps engines clean and cuts way down on wear."

Fairview News

(By Mrs. Clyde Bagwell) FAIRVIEW, March 6 — Our weather news at this writing is wondering "weather it will" or "weather it won't" rain in time to save the wheat crop. The small rain received a few days ago was pretty well blown out by last Friday's wind and sandstorm. Some wheat has already died out and the ground will have to be planted to some other crop. Some is still holding in spite of all the odds against it.

Mrs. W. B. Willson attended the dedication service Sunday at the First Baptist church of Lockney.

Mrs. E. W. Walls spent Friday afternoon at Lockney with her sister, Mrs. T. J. Jarboe.

Mrs. Gene Hopper was able to be back in church services Sunday after an absence of several weeks due to illness.

Mr. and Mrs. Lee Rushing made a business trip to Amarillo Friday. Sherman Irwin was home for the week-end from Sheppard field, Wichita Falls.

Mrs. Arthur Stewart and son, Geo. Arthur, of Olney, visited Mr. and Mrs. Jim Stewart and Jim Dan Saturday. The two Mesdames Stewart visited awhile in the afternoon with Mrs. Walton Wilson.

Mr. and Mrs. Lee Rushing have as their guests for a few days their little grandson, Dickie Lee Rushing, of Lubbock.

Sunday dinner guests of Mr. and Mrs. Jim Stewart were Rev. and Mrs. Joe Wilson.

Mrs. E. C. Austin spent the week-end with her daughter, Mrs. Walton Wilson.

Mr. and Mrs. Doyle Walls and Brenda of Floydada were dinner guests of his parents, Mr. and Mrs. E. W. Walls, Sunday.

Friday Mrs. L. B. Cozby, Mrs. T. C. Goodman and children and Mary Dee Cozby went to Lubbock where they visited relatives until Saturday afternoon. They then went to Plainview to the home of Mr. and Mrs. Grady Reeves where they stayed over Sunday. L. B. Cozby and Mr. and Mrs. T. L. Perry and Jan went up to Plainview Sunday morning

and joined the group for the day. A bountiful dinner was prepared at the Grady Reeves home in honor of the wedding anniversaries of Mr. and Mrs. Reeves and Mr. and Mrs. Perry.

Mr. Cozby and the Perrys attended Sunday school and church services that morning at the Date Street Baptist church. They said it was a pleasure to attend church again with their good friends and former neighbors, Mr. and Mrs. L. A. Horton.

J. C. Bullard and Kay Crabtree of Lubbock are up here this week plowing their land east of Fairview.

Friends and former neighbors of Mrs. Kate Crabtree will be glad to know she is much improved at this time and is able to be up soon. We wish for Mrs. Crabtree a complete recovery real soon.

E. W. Walls is making a business trip to Lubbock today, accompanied by Walter Baxter.

Mr. and Mrs. Bill DuBois of Floydada were dinner guests Sunday of Mr. and Mrs. Edell DuBois.

Home Demonstration club meets Monday, March 12, at the home of Mrs. L. B. Cozby at 2:30. Miss Petty will be present to give a demonstration on landscaping. All members are asked to be present.

We looked out our window one morning last week and saw the house of Mr. and Mrs. Edell DuBois rolling along the road on wheels. Mr. and Mrs. DuBois sold this house and have the foundation ready and waiting for their new house to be moved here from Lubbock where they bought it. The weather of first one kind and the other has delayed work on the foundation of getting the new house moved over here.

Worms And Dry Weather Work on Wheat Crop

Depends on which crop of wheat you are looking at whether you think the crop has a good chance to make this spring or whether it should be plowed up in time to put in a row crop.

Where the crop looks bad and did not respond to the showers of late February it looks bad indeed. Where the crop did respond it has shown up wonderfully in the past 10 days. The combination of dry weather and two or three kinds of bugs are the ailments that affect the bad looking fields, said County Agent Robert H. Gibson this week. Gibson did not want to go off the deep end about the situation being bad in some instances. However, he did say that some fields are being eaten up by worms and that red spiders also are hurting in a few places. The lady bug population is sufficient in most fields that are not poisoned to meet the greenbug threat as of this mid-week.

Monday of this week plows were going in a good many fields. One raiser said he was wiping the slate clean and getting ready for a row crop if weather is favorable later. Another is putting in barley. A few are poisoning and a considerable number of wheat growers claim no cutworms are greenbugs are bothering them, and that their crops are looking good.

The county agent privately feels that the wheat situation in the county is not too good and that this will become quite apparent in another two weeks. He'd rather not talk about it, though. "I don't want to be a pessimist and don't

want to condemn the crop before it is ruined," he said.

A few wheat growers are poisoning being bad on some fair to good looking wheat.

One farmer expressed his belief that there isn't anything the matter with the wheat crop that a hard, three-inch rain wouldn't remedy. This seems to be an inexperienced opinion held by many.

Great Service at Dedication

It was a great service and a great day for the congregation of the First Baptist church at Lockney and many area friends last Sunday when the new church home there was dedicated.

It was one year ago that the congregation moved into the fine new \$100,000 edifice. Having paid off all indebtedness the dedication service was held with appropriate ceremonies in the afternoon. Rev. A. A. Brian, vice-president of Howard Payne college, preached the dedication sermon.

Morning and evening worship service was held at the usual hours. Pastor of the church is Rev. E. J. Cobb Edgar Hays, Lockney newspaper publisher, was chairman of the building committee.

About 200 out-of-town guests including some 50 Floydada friends of the church were present for the dedication. A basket dinner was served at the noon hour.

Rate Raise Asked

Commercial light users and residential lighting will be the only two types of customers affected in the proposed changes in the rate set-up of Southwestern Public Service company in town and cities which they serve.

George Caven, manager of the company at Floydada, said that no rate change application had been filed with the council here, since rates are established in Floydada by ordinance.

In the case of patrons of the company who live outside of the municipal area of Floydada, the customer is being notified of the increased rates effective with the next billing, said Caven.

Mrs. Leon Saul and two children are in Floydada to make their home while their husband and father, Ensign Leon Saul is in the service. Ensign Saul was in the navy reserve and has reported at Monterey, California for active duty. He had been in Albuquerque for the past two months, but only recently left for California. Mrs. Saul is the former Edith Shirey and the children are Ronnie and Janet.

Mrs. Bill Cross of Canyon, spent the week-end with her parents, Mr. and Mrs. J. B. Bishop.

Teachers Spending Two Days at Meet

Practically all Floyd county public school teachers will be in the annual convention of the West Texas Teachers association at Lubbock today. County Superintendent Clarence Guffey said yesterday that all teachers are supposed to attend the sessions.

The program theme, which continues through tomorrow, is education—bulwark of our freedoms. First meeting comes tonight when the house of delegates will banquet in the Lubbock hotel. Section meetings take up in the morning at 9 o'clock. Luncheons, sectional meetings and general sessions will come in rapid fire order throughout tomorrow, when the teachers hear outstanding educational leaders discuss various topics pertinent to teaching progress.

I. T. Graves, of Floydada is a member of the legislative committee of the association, which comprises District 4 of the Texas State Teachers association.

from the vocational arts department, and displays in the home-making and science rooms.

Democracy in Action

In an address welcoming visitors to the schools, superintendent I. T. Graves said that "interest by those who support a school system is a measuring device of the achievements of the schools." He went on to say that Governor Allan Shivers had announced the theme of Public Schools Week as "Democracy in Action," and that the large attendance at the schools today is evidence that this theme is being carried out in the Floydada Public Schools. Graves expressed his appreciation for the cooperation of the various committees which aided in the occasion, to the board of education, to the local newspaper for the valuable recognition which was given to the school, to the P. T. A., and to other civic organizations and individuals who had a part in making the program possible.

H. E. Cannaday, who has been ill for the past several weeks, was removed to his home last week from Mercy hospital in Oklahoma City. A report from his bedside on Wednesday, stated that he was not doing so well. He has a special nurse and has good days and bad days.

Mr. and Mrs. Walter Collins left Saturday for Corpus Christi, where they are visiting their daughter and family. Mr. and Mrs. Ersel Matthews, they went down to visit their new grandchildren, twin son and daughter of Mr. and Mrs. Matthews.

Entertaining 'Radio Hour' by Students

On Tuesday, February 27, the student body and faculty members enjoyed a very nice assembly program. The program, presented by Mrs. Sevick, was given as if it were an amateur hour radio program. Dale Roberts was master of ceremonies. Mr. Barber, Nan Buchanan, and Conroy Johnson acted as judges. The first contestant was Eva Waller. She played "My Heart Cries for You" on the piano. Next Carolyn Kiker played "Nola" on the marimba. Then Don McGuire introduced the boys chorus, who sang "Old Man River" and "Open Road." The audience was surprised to meet a great coach, acted by Don Barber. Don Barber and Grover Smith gave a skit on a basketball game. Then Donald Smith, a talented young pianist, played "The Wedding of the Painted Doll." Next Roy Teague sang "Nevertheless," accompanied by Dorothy Holmes. Then the Foster twins, Doris and Dorothy, sang "Temptation" and "There's a Hole in the Bottom of the Sea." The contestants passed in review and the people in the audience applauded for their favorites. The judges were given a moment to reach a decision. Conroy Johnson announced the judges' decision. Roy Teague was the winner and received the prize.

Alsie Carleton, Ex, Talks at Assembly

At 9:00 o'clock, Wednesday morning, the student body heard an interesting and inspiring talk by Reverend Alsie Carleton. Reverend Carleton spoke on the subject, "How Much are You Worth?" Introducing the speaker was Reverend R. N. Huckabee, who gave an short and an amusing summary of Reverend Carleton's school days in F. H. S. The speaker pointed out that one is not worth the cost of materials within his body or the amount of money he earns. A person is worth the difference between the amount of happiness he puts into life and the amount he takes out.

SOUTH PLAINS, March 5th—Mr. and Mrs. George West were dinner guests Friday night at the home of Mr. and Mrs. Gordon Alexander of Silverton.
Mr. and Mrs. Jerry Pearsey are moving into the former home of Mr. and Mrs. Harry Hartman. Mr. Hartman had the house wired for electricity the past week end, and Mr. and Mrs. Jimmy Davis will be glad to have new neighbors living close.
Winifred West will be resting at his home this coming week. The doctor thought he should have a few days off from school duties, as he is not feeling well since having the sore throat and gland trouble two weeks back.
Mr. and Mrs. Walter Wood accompanied Mr. and Mrs. Bill Beedy to Carlsbad, New Mexico, on Tuesday of last week. They went on this short trip to see Mr. and Mrs. Bill Harper. Mr. Harper has been ill in the hospital there at Carlsbad for some time, but is getting along fine, and hopes to be going home, in Carlsbad, this coming Saturday.
The community club play, "Chicken Lifter's Association" was given Friday night, March 2, at the South Plains school house. It was a delightful comedy, and everyone thoroughly enjoyed the show, and the music, which was furnished by musicians from adjoining communities.
Mrs. Art Willis especially wanted to thank the musicians who helped make the evening such an enjoyable one, and thanks each one of the cast, who came night after night, to practice, and gratefully thank Mrs. George Beedy who gave so freely of her time, and made so many trips around the country. You all helped make the evening such an enjoyable one, and the success of the play is entirely due to such untiring help from each one of the actors, Mrs. Beedy, and many others who helped in different ways. The music was especially good.
The play netted fifty seven dollars and ten cents.
Mr. and Mrs. Jack Smitherman from Earl, Texas, were guests at the home of Mr. Smitherman's parents, Mr. and Mrs. P. M. Smitherman on Tuesday night of last week.

FATHER'S ADVICE GUIDES U. S. PRICE STABILIZER
Chubby Michael V. DiSalle, the country's new price stabilizer, may yet leave town on a rail, as unpopular as any of his predecessors. But he isn't losing any sleep over the prospect. His policy: Hew to the line, and let the quips fall where they may, says Pathfinder news magazine.
Asked whether he favored a few prices, or all, DiSalle amiably, "My father," he "used to say the way to cut a bobcat's tail was all at once, close to the body. If you try to cut it an inch at a time, you get a tail and a mad cat."
Asked if he thought the price of the cigar he was smoking was frozen, too, DiSalle countered, "The stogie at arm's length," "has been pretty stable," he said, "that's what most people think it smells like."
Detroit may have put the price on wheels; but Washington certainly put it on skids.
If you've ever been overboard, can testify that one can get drunk on water as on liquor.
