

Annual Meeting Rural Electric Coop Saturday

Annual meeting of the membership of Floyd County Rural Electric cooperative, which will begin at 10 o'clock Saturday morning will be the thirteenth. It comes at a period in the history of the organization when the dream of people over a vast area served by electrical energy is beginning to be realized on a wide scale. The activities Saturday will be on a commensurate basis.

Registration of members for the meeting will begin at 10 o'clock in the forenoon. Registrants will present their registration slips at the office in exchange for a ballot and to get their names in the list for attendance awards.

"Hot dogs and trimmings" will be ready by 11:30, but a pre-dinner activity for the women will be a view of the 136 dresses entered in the REA dressmaking contest, while the men are watching the feed grinding demonstration. The cooperative will have on display a feed grinder for which the claim is made by the maker that it will grind feed satisfactorily for a small herd of live stock, powered by a single phase five-horse power electric motor.

Other morning and all-day features will include a continuous showing of moving pictures in the balcony of the coop's office building. It will depict rural electric service uses. After the youngsters have had their dinner they will be guests of the cooperative at a show at the Palace theatre. Children under 12 are eligible.

Meeting at One O'clock

At the formal meeting at 1 o'clock in the afternoon reports from the president J. C. Ginn and the Secretary Leo Prizzell will be heard. Interspersed in the afternoon will be quartet singing and an Indian war dance by a Crosby county Boy Scout troop. One of the plans that has gone awry is the band concert by Floydada High school band. Director Myron Kattner has about half of his band out with mumps, measles and similar ailments that hit the county schools about three weeks ago.

The feature business of the formal session will be the election of directors for the ensuing year, one from each of seven districts. Nominations for these places were made several days ago. Acting Manager Melvin Henry yesterday said that the membership of the coop is now composed of 2150 members living in Floyd, Hale, Crosby, Dickens, Swisher and Briscoe counties, with 1300 miles of lines serving them, and 10 substations. Two hundred and fifty irrigation wells are operated by members on the lines in addition to other power equipment and domestic service.

The investment of the cooperative at this time is \$2,619,000.

Dress Winner Not Known

Women members are agog over the dress making contest, in which 136 entries were judged last Saturday by a team of judges from the textile and home economics departments of Texas Technological college. After the preliminaries all members of the REA working personnel were dismissed from the room, the judges, made their choice of the winning numbers, sealed them in an envelope. These numbers repose in the office vault at the REA and are unknown to any of the employees or officials. The judging team was composed of Imogene McCreary (See Annual Meeting, back page)

OPS Deadline Moved 30 Days

News that the deadline for compliance with OPS regulations by retailers has been moved up to May 30, was received with considerable relief by several retail stores in Floydada. Although a few had finished their pricing charts and had them ready to forward to the district office, others were still using up adding machine rolls and putting the pencil to their charts. Meanwhile a new regulation that is expected to roll back many items at the point of origin, the factory, was announced this week by the Office of Price Stabilization.

Good Report From Minor at Rochester

Mr. and Mrs. Carl Lester Minor returned home Monday afternoon from Rochester, Minnesota, where they had been with Mr. Minor's father, C. L. Minor. The latter had major surgery in the Mayo clinic last week. Mr. Minor, junior, reports his father's condition as satisfactory, the operation successful. Barring unforeseen complications, Mr. Minor senior, will be released from the hospital this week-end. He will be at the Carleton hotel in Rochester for some time.

Rev. Stone Pastor of C. P. Church

Announcement was made last week that Rev. Alfred C. Stone, of Rives, Tennessee, has accepted the pastorate of the Cumberland Presbyterian church and is making preparations to make Floydada his home. He has a wife and three children. The new pastor will preach for the congregation beginning the first Sunday in May.

\$75 New High Paid For Oil, Gas Lease

Two solid jolts were landed in the midriff of complacent oil interests in Floyd county this week when current and well authenticated rumors went the rounds that: (1) Carl Daniel, who owns the W. D. Long lands northeast of South Plains five miles had contracted to lease four remaining unleased quarters of his land and a half section at the price of \$75 per acre to a lessor, said to be representing Tidewater Oil company, a late-comer in this county, for a gross of \$72,000; and

Baugh-Ware Roping Contest News Headliner to Rodeo Enthusiasts

The Baugh-Ware calf roping match set for Sunday afternoon at 2:30 o'clock on Floydada Rodeo grounds is getting more than a ripple of interest in the area. This mid-week Olin Bryant and Ras Ware who are making their first promotion venture in staging the event, were beginning to be hopeful there would be a good crowd out to see the match, if for no other reason than to see Slingin' Sammy Baugh, the perennial football star of the Washington Redskins.

Bryant and Ware contacted Baugh some weeks ago and he promised a visit to Floydada then. The two Floyd county men have leased the Floydada rodeo grounds and the association's calves for the afternoon, and will stage the match despite the fact that Floydada crowds for roping and rodeo events are notoriously small and a loss in the venture is one of the probabilities. They are counting on the curiosity of the public to see if Mr. Baugh, handling a rope and a calf, is as slick as he is on the gridiron with a football. Baugh is so good a footballer that he has made a start in the ranching business near Sweetwater out of his 15 years of rugged toil in the professional football. The most rugged of the football players usually last only three or four seasons when they turn professional.

'Spelling Bee' County Winner Is Leon Wiley

Leon Wiley, seventh grader, son of Mr. and Mrs. J. R. Wiley, of Floydada, was winner of the county spelling bee here Tuesday evening at Andrews Ward school, when he out-spelled pupils from over the county in the seventh and eighth grades. The spelling bee is sponsored by the Amarillo Daily News in this region and Leon will journey to Amarillo on May 5 to participate in an elimination to determine the district winner. Winner at Amarillo will go to the national spelling bee in Washington, D. C. Mrs. Billy Brown was pronouncer, said County Superintendent Clarence Guffee, who supervised the bee. Pupils from the fifth, sixth, seventh and eighth grade were eligible but only pupils in the last two grades competed here.

A. D. Cummings 186th District Rotary Gov'nr

A. D. Cummings, charter member of the Floydada Rotary club and past president of the club, will serve as governor of the 186th district of Rotary International for the year of 1951-52. Cummings, whose home is at Olney, was elected at the district convention of Rotary held in Abilene last week. He was presented by the Olney club of which he has been a member since early after his departure from Floydada to make his home there, and which club he also has served as president.

Municipal Light Statement Issued

A statement of the operations and the financial status of the City Light and Power division, based on the recent completion of the audit of the city's accounts, is issued this week, appearing in another column of this newspaper. Figures given cover debt, debt service, and other pertinent matters as well as the income and out-go incident to actual operation of the department.

School Fares Well in Literary Events But Bogs Down in Track and Field Contests of Regional

Floydada High school fared reasonably good in literary events of the regional interscholastic league meet at Texas Technological college last week-end, but its track and field squad bogged down in competition that was stiffer than in many recent years. Saying the school fared reasonably well in literary events is an understatement so far as the school's one-act play cast is concerned. Three third students with their play "This Night Shall Pass", not only won first place and the right to represent the region in the state contest in Austin but also took honors for best girl actress, (Billie Newberry) best boy actor, (Bert Grimes), and third best boy actor (Dale Roberts). Junior Declaimers Win Floydada High also had the leading boy and girl junior declaimers in the persons of Barbara Perry and Don Barber. Junior declamation competition, however, ends with the regional contest. Fort Stockton gave the Floydada cast the best run for high honors, taking second place with "The Perfect Gentleman", and placing two members on the all-star cast. Tula and Ralls in Class A, and Quitaque and Roaring Springs in Class B, were the only other schools in the adjacent area which took any honors in the literary events. Tula led in number sense and Ralls ran away with the slide rule contest. Roaring Springs' Yvonne Brandon and Lewis Head both placed in the all-star cast for Class B schools, and Billy Harless of Quitaque was fourth in typewriting in Class B. The Competition Was Stiff Schools of District 3-A went into the regional track and field events with the expectation of bringing home some of the honors, but they ran into competition that was considerably keener than expected. The mile relay team of Floydada was expected to place high and the school also expected to garner some points in other track events but nary a man did they place. Lockney's fleet-footed Pat Prizzell ran third in the 880-yard run, and Doug Meriwether was fourth in the mile run. Only other District 3-A man to get a place was Abernathy's Sandefur who was in a four-way tie for second place in the high jump. Thomas of Lockney in tennis is due for a play off for men's singles tennis with Speers of Kermit and may be the only first place representative of the district in the regional list.

COTTON GROWER MEETING HERE FRIDAY NIGHT

The time of a cotton grower meeting to be held in the high school auditorium in Floydada Friday night, April 27, will be well spent, declares Robt. H. Gibson, county agent, who says that some specialists ready to answer questions will be on hand for the meeting. It will begin at 8 o'clock. The importance of the meeting on cotton justifies the night meeting, the county agent thinks, "so we can have better attendance. Please come if you can possibly find the time," he says and adds "have your questions ready." Fred C. Elliott, cotton production specialist, F. E. Lichte, cotton gin specialist, and Ed Bush, cotton agent at large, all from A. & M. College of Texas, will be present and will discuss the various phases of cotton production. Any questions cotton growers may want to ask will be given consideration.

Fireboys Stop Blaze Despite Violent Winds

Despite a high wind, Floydada Fire department successfully controlled a fire fire behind Bryan Home and Auto, Firestone store Tuesday afternoon at 5:40. The fire which was discovered in about seventeen tractor tires stacked at the back of the store, blazed to such an intensity that bricks on the back of the building cracked.

The fire was under control in very short order after the volunteer fire department started their water on the wind fed blaze. There was little damage to stock in the building due to the fire, but water damage to several stacks of calcium chloride may be pretty large, according to Hershel Sanders, manager of the store. The loss of the tires alone amounted to more than three hundred dollars, but the other damage has not been estimated as yet.

The fire department also answered a call in the west part of town to control a wind fed, grass blaze, said Carl Rodgers, fire chief. Need For Equipment Seen Chief Rodgers expressed relief that the fire in the high wind at the Firestone store did no more damage than it did, because as he put it, "if the fire had gone into that building, we could not have controlled it with one truck, and I feel we would have lost about half a block of our business district."

NEW TAX LEVY TO BE MADE FOR COURT HOUSE BOND ISSUE

"We feel that a substantial saving will result to Floyd County taxpayers if the bond election carries, and this bond issue will not cause a raise in taxes." The expenditures above set forth are the figures of the commissioners court showing what has been contracted to be done and what yet remains to be financed which comes to a net cost of \$63,000.

Awards Given Five Students of the County

Five Floyd county students are in the list of the first 20 in Region One of the Soil Conservation service to be given awards for essays on soil conservation by the Fort Worth Press, it was announced this week.

The students were competing in the Save the Soil, Save Texas contest. Frances Dee Copeland and Harleen Workman, both of Lockney schools, were named as winners of sixth and seventh place. Norton Baker and Aubrey Cox as winner of 12th and 13th places respectively, and Rodney Hinkle, of Floydada as winner of 19th place.

First four places in the essay contest were won by Tulla school pupils. Norma Jean Love, of Tulla, by placing first, won the top prize of \$25. Floyd county Soil Conservation district placed fourth in the region, comprised of 51 counties, and will receive an award of \$100. First place went to King-Stonewall, Second to Hale and third to Duck Creek Soil Conservation district. (Garza, Kent, Dickens counties.)

Wind, Chill Keep Seed in the Bins

Weather and crop news of the week has had an overtone of anxiety as winds periodically continue to lash the area and coolness prevents ground from warming up for cotton and feed planting. Tuesday afternoon a blow that reached high peak velocities whipped the area for nearly six hours. Some damage was done in Floydada and adjacent areas. Plains Equipment company lost three plate glass display windows at a cost of \$600 when a gust hit about 4 o'clock Tuesday afternoon and in the same few minutes B. Furrow in southwest Floydada had a large poultry house damaged extensively. The wind was not officially measured. The heat of Tuesday afternoon reaching into the low nineties for a short time and for the first time this season was followed by temperatures in the night in the low sixties.

A few hardy souls are beginning to put seed into the ground experimentally, but no cotton growers had been learned of at The Hesperian office who had committed a whole crop of seed as late as Wednesday. One cotton grower who has land well wet down by irrigation says the first two days of warm weather will be his signal to begin and he thinks it is going to be this week-end. He did not want to be quoted by name.

The big news of the week, the exciting kind of news that sends the itch for money tingling through the veins is the well-authenticated sale of an oil lease, miles and miles from production, at \$75 per acre. Four quarters of sections and one half of a section of Floyd county land are included in the sale, representing a \$72,000 transaction. Tidelands is said to be the intended ultimate owner, acting through an agent. Seventy-two thousand dollars is not just a bit of money to help tide through a dry spell or pay the taxes with. It is the kind of money that comes in a wad. It makes the sensational lease sale of a few weeks ago at \$15 and \$25 look small. "Seventy-five dollars an acre 76 miles from production," exuberantly exclaimed one oil lease hound when he heard the report, and not too much of an exaggeration at that.

It is not any consolation to the taxpayers to report that the court house which they will get for their money is \$100,000 or more cheaper than they could do the same job for now, for it seems also to be a fact that if the contract could have been let within a reasonable time after the bond issue was voted the funds made available at the time would have been sufficient for the job. Caught in the circumstances there is no reasonable way to go other than to make the money available to carry out the commitments made to contractors and get out the cheapest way possible. The contractors have valid contracts on which they can collect. To get them their money ready for the final pay off this summer is much better than any alternative we can think of at the moment.

The Hesperian has a lot of respect for the weather bureau and its personnel. They have been doing and are doing a lot of research that is valuable to the armed forces and to the country. However, we wondered why the weather man who reported Saturday morning that showers were in prospect for that day and night over the panhandle and south plains, didn't stick his head out the window and see for himself that no rain on the plains is ever in prospect in the spring when a cold breeze is whipping across the prairies out of the northwest under a clear sky. The reporter could have said what New Orleans told him to say and then have added what everybody knew to be the fact of the business. There was no prospect of rain last Saturday anywhere in these parts.

**Court House vote.** Saturday is the date for the vote on the \$63,000 bond issue for completion of contracts on the court house. The Hesperian is going along on the proposition that the money is needed and that the request from the commissioners that the taxpayers put up the money is in order. The commissioners, as we have said, may be about like most of the rest of us whose plans for outlays of money have gone awry. We assume that everybody who has tried to do anything the past 12 months has found his outlay bigger than he made his plans to cover. Two things that may have some taxpayers miscalculating are these: The court had spent most of its upkeep fund on the repairs that were underway on the old court house when fire destroyed it. This would have been the total outlay and the bills paid with money in hand. When the fire destroyed this nest egg there also came along the need for an immediate outlay of funds for a county record vault and the temporary shack now serving as county offices. This last represented quite a bit of money—upward of \$12,000.

Signs of the black market in meats are beginning to make themselves evident in the more populous centers, it is claimed. The psychology being used by the Office of Price Stabilization, we can't help but feel, is due to get exactly the opposite results from those they profess to desire. Surely, human nature has not changed in the span of a few brief months.

Tire dealers are smiling about a certificate they have to sign when they order tires from their distributors or manufacturers. This certificate represents to the government that when the dealer receives the shipment ordered it will not increase his stock to more than a 30-day supply. Since no tire dealer has ever had more than a 30-day supply since the beginning of World War II and has no prospect of getting a full and complete line of tires for re-sale at any foreseeable date he does not worry a lot about the possibility of getting into trouble by over-buying.

We repeat a thing here that we believe to be a fact: There is merchandise by the literal billions of dollars worth in warehouses over America. People put their money into contracts for these goods because they felt that merchandise would be less likely to get cheaper than their dollars. Just a wee bit of a scare would bring a whopping big offering of scores of items that would be scared out of these hiding places. We are wrong so many times about so many things we can hardly believe what we think we know is the fact. The scare could easily come along.

## As A Farm Woman Thinks

(Nellie Witt Spikes)  
**OLD LADY'S APRIL.**  
The Spring rain broke its silver box of scent  
Across the garden. The old lady stood  
And saw the white cherry-boughs were bent  
Beneath their weight of bloom; the silken wood  
Of lilac-trees had sprouted purple plumes;  
She saw the tulips' carved cups of gold;  
The roadside-poplars like tall, up-turned brooms  
Sweeping the sky. More than her heart could hold  
Lay in this April moment; like a prayer  
Her heart breathed out its thanks; a peal fell  
Into the matching snow of her white hair.  
She heard the thrush's hidden, silver bell;  
Her grandsons' voices in the distant field;  
With wrinkled hand upon the picket-gate  
She stood, and knew each Spring had more to yield.  
And never a Spring too early or too late  
But she would store in sunlit grass and bloom  
One more rich April in her heart's full room!  
—Pauline Harvard.

The farmer is watching the heavens for a sign of much needed rain, and the city folks are keeping him company. The ground is dry and hard where it has not been watered and even the green thumb gardeners are disappointed as they realize what the winter did to many fine plants and rose bushes.

The sky is very blue this Monday morning and the clouds are high and look like a light fall of snow. A chorus of songsters sit on the long black light wires and sing the trees etch green patterns against the sky. Sweet music comes from the radio, but only a few minutes ago we heard their spring attacks. We must get close to our Heavenly Father in Prayer. We must find a peace in our hearts and strength to withstand the onslaughts of a powerful enemy. How would you have felt if you had been there to have watched the Phillistine army with the Giant Goliath at its head, ready to slaughter and make prisoners of the Israelites? Would you have faith in that shepherd boy with his sling? Would you have faith with the God who was with him that day? Would you have believed that the barefooted army of General Washington could have gained the victory? That General Houston with only some seven hundred men and one wagon of arsenal supplies could have had the victory over a powerful army? Do we begin to feel inadequate to meet the situation the world is in now? Are we confused and do not know what to do or believe in the unrest of our nation? I think this is a good time to read the word of God, to pray, and to make the part of the world we live in as happy and peaceful as we can, and to do that we must have peace and quiet in our own hearts instead of being torn up and ready to fly away too quickly on one side or another until we know the truth.

This is the time on the calendar of the year to plant gardens, get plans made for the Pioneer reunions, sew on summer dresses, and to put in plenty of dahlias and gladiolus bulbs for summer and fall joy. And don't forget how last fall you wished you had planted some chrysanthemums as you saw the lovely

blossoms in a neighbor's yard. There is sheer magic in a small package of flower seed when planted and cared for. Zinnias are the pioneers, standing hardships and droughts and still blossoming. Poppies are ladies dressed for parties, violets are little old ladies, sweet and shy. Cosmos are butterflies swaying on summer breezes, asters are pure delight, hollyhocks are stately ladies gossiping and bobbing heads over tea cups at a tea. Plant plenty of annuals, they are the children's favorites as well as yours.

## Burning Weeds on Fence Rows Kills Insects

The dead weeds along fence rows and in bar-ditches have made excellent harboring places for overwintering insects says Bob Gibson, county agent.

As spring and warm weather approaches these insects begin to emerge, and, since the fields are bare in many places, the insects will remain in these weeds and multiply until crops are planted and growing then they will move into fields, he said. One thing that can be done is to burn these weeds during a warm day and many of the insects will be killed. Every insect killed during this period will possibly prevent thousands of them from attacking the crops.

Every one should burn the accumulation of these weeds and help prevent infestation of their fields.

Conditions appear favorable for severe infestations of insects this summer and everything that can be done to keep down their numbers will increase crop yields and cause savings in labor and insecticides, Gibson said.

## No Slot Machine Taxed In County

Attorney General Price Daniel writes County Attorney Enoch T. Jones that the Bureau of Internal Revenue does not show that taxes were paid on any gaming devices in Floyd county for this fiscal year, and therefore, "It may be assumed that your county is free of these gambling devices."

The Floyd county official was one of several to whom the attorney general addressed a letter in this tone. To other counties where there are gambling devices a letter has been written giving the list of the persons who paid the taxes on the machines.

There are two such machines in the county, however. These are in the custody of the sheriff's department following confiscation last fall. There has been no claim of ownership made for them.

## Employed Not Report Quarterly

work for yourself and are to include your name on quarterly Social Security tax returns. If you are not an employer, you should report your income quarterly in the manner that your employer has reported. This assumption is in error. This individual is not a self-employed individual under Social Security only if income from his business is more than \$100 per year. In cases, it is not possible to determine the amount of net income until the end of the business year. Profits in earlier months offset by losses occurring later in the year. This report will be the same time the annual tax return is filed. A form purpose will be furnished by the Internal Revenue Service to also remind housewives operators that April is the time to send their first reports to the Internal Revenue if they are employees who are covered by the amended law.

## Jury Service Speakers For Clubs Named

A "Jury Service month" program as outlined by the State Bar of Texas and the Texas Press Association will be presented for Floydada Lions club on Thursday with Kenneth Bain, Jr., as speaker and the Lockney Rotary club with John B. Stapleton, as speaker May 4.

May has been set aside as "Jury Service Month" in a proclamation signed by Governor Allan Shivers, at the request of the American citizenship committee of the State bar, according to Secretary of State John Ben Sheppard, committee chairman.

Purpose of the month is that no Texan will ask to be excused from jury service during that period. Other objectives of the month are to make a study of the types of individuals asking to be excused from jury service; to urge employers to insist that their employees accept jury service and to pay them while serving; to find new and better ways to encourage eligible jurors to serve; to make the public conscious of the fact that seeking to be excused from jury service will, in time, cause them to lose this right.

Ministers of Floydada called upon their congregations Sunday morning, April 22, to cooperate with the State Bar of Texas in its "Jury Service Month" project in May by accepting jury service willingly and readily when called. They described justice as one of the basic tenets of a Christian democracy and said that jury service is a moral obligation, not just a civic responsibility.

Mayor Jesse Patterson recently issued a proclamation in which he called on citizens of Floydada to observe the month of May as "Jury Service Month." Governor Allan Shivers and the Legislature have issued memorandums in which they asked the people of Texas not to seek excuses from jury service during May.

Judge Alton B. Chapman of Floydada is a member of the committee from the state bar of Texas, which is urging observance of the jury service month.

## Red Cross Donation Still Below Goal

Late figures on the Red Cross fund campaign indicates that the total subscriptions in hand are still short about \$150 of the goal.

A few donations are still outstanding, but additional subscriptions will be needed to bring the fund up to the \$3,700 sought, said N. W. Williams, county chairman.

Fund campaign director for the county, Hollis R. Bond, said that donations may still be sent to Mr. Williams or the secretary-treasurer, Mrs. Virgle Shaw, in the county superintendent's office.

Lorraine and Mrs. Lois Gregory of Floydada and Mrs. Elton Propps, of California, and son L. L. Nixon have been in attendance at his bedside.

## Abernathy Has Bye in Baseball for North Half

Floydada, Lockney and Abernathy High schools will have two "quick death" games to determine the "north half" District 3-A championship to go against the "south half" interscholastic baseball winners.

Abernathy drew a bye in the coaches toss, which means that Floydada and Lockney will play Saturday afternoon at 2:30 on the Floydada softball grounds for the right to play off against Abernathy on the following Saturday, the place to be determined later.

All four schools of the "north half" have had difficulty crowding in baseball on their athletic calendar. All four have spring football training camps going and all four fielded a track team Saturday in the regional. Tulla decided to forfeit in baseball.

For Floydada Coach Gresham is working out his boys in brief noon-day periods. He thinks he has about the same team he had last year.

This week he planned to use a nine that would have Helmes as catcher, Chapman first base, Smith third base, Ring left field, Teague centerfield and pitcher, Hutchinson short stop, Boyd second base, Bear-shorn right field, with Fulton, Hopper and Harrison, pitchers. "We'll have quite a few other boys out," said the coach. "We haven't worked with them enough to know for sure, but think the above will likely be the men we'll start in Saturday's game."

Coach Gresham this week had no idea how his team would stack up against either Lockney or Abernathy.

## Revival Continues At Calvary Church

The interest is good and the attendance has been fine, as reported by the pastor, Rev. J. T. Bilbrey. The juniors of the church will be on the air at Radio Studio KFLD on Sunday morning at 9:15 with a program of songs, followed by the pastor who will make a 15-minute talk.

Have you ever taken the time just to get in the car and just start to roll along and be glad you were living? Try it sometimes.

First, thank the Good Lord for the privilege of living in a country where that privilege is still yours. Look at the beautiful yards in Floydada, so very many beautiful tulips, daffodils, and jonquils, the red bud trees, the flowering peach and the yellow flowering bush; mock orange blossoms; violets, pansies and just lots of other kind of flowers in flower lover's yards, all over Floydada. Look at the beautiful new homes, large and small, and additions to the old ones.

The beautiful new homes of the O. M. Watsons, nearing completion, the lovely new ranch style home of Homer and Madeline Steen who have just moved in; the new home of Wallace and Barbara King, with the pretty red door, which is so cheerful to the passerby. Kay and Fred Zimmerman, east yard of jonquils and other flowers. Why, we have a world of beauty right here in Floydada, if one would take time to look. All the new homes of former GI's in Andrews addition; the new radio station, with the new awnings and new shrubs around the door.

Its later than you think, so get the most out of each day you live and you will have a much happier life.

A busy person is usually a happy person. Forget about your troubles, cares and disappointments for just one day and see the difference. Try it sometime, and you will be a happier person and days will not be so long and dreary. If you will look for the beauty around you, yes right around you in Floydada.

Farmers were a bit worried for awhile when they read the newspaper headline stating that the cream of the country is going to Reno to be separated.

Miss Carolyn Halthcock of Plainview was a guest in the Walton Hale home on Sunday.

Don't you suppose the weaker sex is often the stronger sex because of the weakness of the stronger sex for the weaker sex?

## THE NEW DEACON

A pillar of the church was an elderly dowager who was endeavoring to introduce the new deacon to her somewhat deaf and rabidly Republican husband.

"Mortimer" she bellowed, "This is the new deacon." "New dealer?" he barked. "No, Mortimer, he's not a New Dealer. . . . new deacon. . . . he's the son of the Bishop."

"Harrumph," grunted Mortimer, "Every darn one of 'em is."

The son's College education often cures the mother of bragging about him.

## ONE PLACE LEFT

The Bickerings hadn't been getting along too well. It was 3:00 a. m. when George unsteadily reached the top of the stairs. His wife, opening the bedroom door, remarked, "So, home is the best place after all."

"Not so sure," said George, "but it's the only one open."

Then there was a fellow who spent all his money to rid himself of halitosis, only to find out that his friends didn't like him anyway.

### LOOK AHEAD

In this modern age it is a very good idea and nearly a "must" to look ahead and plan one's life to fit into any kind of emergency that he may have to face.

As far as the subjects in high school are concerned, any of them would help in time of war, but in time of peace the knowledge that one gains in high school would be an absolute necessity. A person cannot go through life in ignorance because he would never amount to anything. Now is the time to look ahead and see what needs to be done to help a person make a success in life.

Looking ahead takes some thoughtful planning. One should try to secure a job that will pay well and at the same time help the public interests.

High school pupils, as the approaching workers of our country, should indeed be looking ahead and thinking about something that will help instead of hinder their country.

### WEARING WELL

The name of American, worn by every citizen of the United States, is a great one. It indicates freedom in everything and causes envy to rise in the hearts of foreigners.

## One-Act Play Wins Regional

These people may visit our country, and probably they will see citizens abuse their rights by not showing their thankfulness in striving to do what is right and good.

This name cannot last forever if one abuses it and takes it for granted. It must be remembered every day of the year, and one must always strive to keep that name as it has been given him by his forefathers who have worked hard to gain this name.

This is what is meant by "wearing well." In other words it means letting people know by outside appearance in one's life that he appreciates the freedom of America and that one of the aims of his life is to keep that name and to improve it as the years go by.

The Floydada one-act play cast presented its play Saturday, April 21, at the regional meet which was held in the speech auditorium of Texas Tech. Floydada's play, "This Night Shall Pass," was awarded first place and will play next in the state meet which will be held in Austin, on May 4, and 5.

The judges were very kind in their criticisms of Floydada's play. They complimented the stage setting by saying that it was very interesting. According to their judgment the tempo was quite correct, diction excellent, costuming good, make-up correct, and on a whole, they thought the play excellent, and well-done.

The characters of the play consisted of three people, a Flyer, a Girl, and a Youth. The Flyer was played by Dale Roberts, who was placed on the all-star cast. The Girl was played by Billee Newberry, who was placed as best actress of the region. Bert Grimes played the Youth, and ranked as best actor of the tournament.

Mrs. I. T. Graves, their capable director, was all smiles and was very, very proud of the hard-working trio of high school actors.

### DATING DATA

When your "Big Moment" comes along and asks you for a date, be sure to keep him waiting at least thirty minutes because he has a lot in common to talk over with your dad.

Whenever you see him—even if you are a block off—always yell at him so he will know you are friendly. And do wear lots of cheap perfume so he won't think you are extravagant. Always be chewing bubble gum so you can pop it in the show and look casual. Don't fail to look real "goo goo eyed" at him in front of all his boy friends. Then they'll know you like him. Talk about your new dress all during the show and tell him what a wonderful time you had on your date last week with your old boyfriend.

If you should break up with your boyfriend, don't ever think of returning his gifts—even if he asks you to. Because if you don't return them, you will gain the coveted title of "goldigger" and all the other boys will notice this, and you will have lots of dates.

If you comply with all of the above requirements, you can be assured of being a wall-flower for the remainder of your life.

FROM PAGES OF ENGLISH-KOREAN HYMN BOOK—Chaplain (Colonel) Ivan L. Bennett, United Nations Command Chaplain, edited an edition of spiritual songs to be used in joint services among the U. N. troops in Korea. It is interesting to note the translation of the beloved old hymn, "Watchman, Tell Us of the Night," for Koreans. General of the Army Douglas MacArthur writes in the foreword: "Hymnody constitutes an important part of our religious heritage, and reflects the struggle of mankind for the freedom of mind and body and spirit. No race or nation or creed can claim the authors and composers. Here is the language of unshackled spirits, the voice of God's freemen in the sanctuary."

### ORCHIDS TO:

Billee Newberry—for winning the honor of being best girl actress at both area and regional contests.

Bert Grimes—for winning the honor of being best boy actor in all three contests of the one-act play.

Jean Porter—for winning first place in vocal solos in the highest grouping at Canyon.

Barbara Perry—for winning the junior girls declamation at both Floydada and Lubbock.

Don Barber—for winning the junior boys declamation at both Floydada and Lubbock.

All—who participated in the Inter-scholastic League contests.

Mrs. I. T. Graves—whose pupils won every event in which she entered them at Lubbock, Saturday, April 21.

Miss Beville—for her good work with the chorus.

## Floydada Wins in Declamation

Barbara Perry and Don Barber were awarded blue ribbons Saturday after competing in the regional tournament for junior high declaimers. Since the participants do not enter the state meet, this is the highest award that can be given to this particular division.

However, we would like to say that next year we should not be at all surprised to find these young, ambitious students competing at state in the high school division of seniors declaimers.

Congratulations! Barbara and Don, keep going. You have all our good wishes.

### GIRLS CHORUS WINS SECOND

The girls' chorus attended the  
regional interscholastic League  
music competition festival in Can-  
yon Friday, April 13. Twenty-nine  
members of the chorus attended,  
and four boys, who made up the  
quartet, went also.  
These girls won second in per-  
formance and third in sight read-  
ing.  
The boys quartet made a three,  
and the eighth grade girls' chorus  
made a two.  
Five soloists from the school were

We are very proud of Miss Beville

### Assembly Program

Tuesday morning Mr. Foster put  
on an assembly program. His pro-  
gram was dealing with chemicals.  
The chemistry students showed us  
how solutions are made.  
Anita, Carolyn, and Doris had the  
first experiment. By pouring cold  
water over a glass of hot water the  
cold water makes the hot water  
boil. Ruth and Peggy Don showed  
us the effect acid has on solutions.  
Walter and Mary Ann gave us  
some interesting events on light.  
Duane, Lane and Bille showed us  
how to run water through a faucet  
with the faucet hanging by a  
string.  
Then the program changed.  
Some students imitated other  
students and teachers.  
1. Barbara Perry and Bert Grimes  
showed how Edith and Jackie act.  
2. Hubert Ring and Lonnie Jar-  
rett showed how Coach Gresham  
explained geometry problems.  
3. Jean Porter and Beth Walker  
were the Poster twins.  
4. Bill Walker was Donald Smith.  
5. Bert and Billy Charles showed  
us Don and Dan (Believe me, they  
did a swell job of it.)  
6. Then several girls must have  
had dates with Dale Roberts be-  
cause they were really angry with  
him.  
7. Last, but not least, we saw how  
the halls were when the bell rang.  
Dale Roberts was narrator.  
Thank you, Mr. Foster, for the as-  
sembly.

### RATHER STAY SINGLE

A minister advertised for a handy-  
man and the next morning a neat  
young man rang the bell.  
"Can you start the fire and have  
breakfast ready by seven o'clock?"  
asked the minister.  
The young man thought he could.  
"Can you polish all the silver,  
wash the dishes and keep the house  
and grounds neat and tidy?" was  
the next question.  
"Look, Reverend," protested the  
young man. "I came here to see  
about getting married, but if it's  
going to be anything like that, you  
can count me out right now!"

### STRETCH RUBBER WITH SODA

It's time to start taking espe-  
cially good care of household items  
that may be hard to replace. Rub-  
ber goods, for example. To keep  
rubber gloves and bathing or  
shower caps from sticking to-  
gether, between uses, dust them  
generously, inside and out, with  
baking soda. Use a soda solution  
— 3 tablespoons soda to a quart  
of water—to rid other items  
made of rubber of fat and oil  
which disintegrate it—baking  
soda emulsifies the grease and  
makes it easy to wash away.
