Rains Herald Cool Wave, Season to Thirsty Farmland

Except for extreme southeast and northwest corners of the county, where rains have been too light, and for an area extending north-eastward from Harmony through Sand Hill, Muncy, portions of Lockney and Lone Star, Sterley and South Plains where the complaint could be too heavy downpours—the weather man has been kind to Floyd county people since Friday of last week.

Two to six inches of rainfall have been registered in roughly two-thirds of the county. The dry areas in the southeast part of the county extends, roughly from Baher east to the county line along the highway and south through parts of Dougherty and Pleasant Hill.

In the northwest part of the county Aiken area had registered about a half inch of rainfall. Also an area which could use more moisture lies in extensive portions of Starkey, Blanco, McCoy and Allmon. At Lockney the total rainfall for the week was around 4 inches, with 2.5 inches of this rainfall on Tuesday night of this week.

The rainstorms, which hit in the form of local showers, brought materially lowered temperatures. Whereas almost daily records of 95 to 100 degree weather were being made for almost a month, the high since Saturday has been 87, and Wednesday's high was a cool 72, with lows in the sixties.

OPEN HOUSE PROGRAM

Program for the open house celebrating the completion of Floyd county's new \$450,000 court house and its use as the seat of county government was announced this week by District Attorney John B. Stapleton, chairman of a committee named by Judge Frank L. Moore, for Monday night September 17.

erved by women of the court house group, including Mrs. Lucille Allred, Miss Margaret Collier, who head the committee, and the Floydada high school band will give a concert. The band will have a part in the formal program of the evening. Serving with Mr. Stapleton on the evening's committee are Clarence A. Guffee and T. T. Hamilton.

Floydada, he went to the service from this county and served the county as county judge in the early 1920s. Rev. N. S. Daniel, pastor of the First Methodist church, Lockney, will say the invocation at the formal ceremonies, following the rendition of "America" by the audience. The welcome address will be given by County Judge Frank L. Moore.

George L. Fawver, a former county commissioner, former County Judge G. C. Tubbs, and District Judge Alton B. Chapman will speak briefly. Judge Nelson's talk will follow a musical interlude by the Floydada High school band. The benediction will be said by Rev. Alford C. Stone, pastor of the Cumberland Presbyterian church.

L. F. Martin, who has been in the Dallas Medical and Surgical hospital for the past week, was returned home by plane Saturday. He was reported as being somewhat improved this midweek.

James R. King Buys Braselton Implement Co.

J. R. King, of Southland, is the new owner of the Braselton Implement company, with dealership franchises for Mercury cars, Ford tractors and Dearborn equipment. The firm name is being changed to King Tractor & Motor.

King took over the business at the North Second street location the first of this week and announced that practically no changes would be made in the personnel of the business, either in the office and display rooms or in shop service.

Jones, Shurbet, Whitfield On Water District Advisory Board

J. C. Jones of Floydada, Marvin Whitfield of route 4, Petersburg, and Whitfield of Lockney, have named as an advisory committee to the temporary board of the High Plains Underwater District No. 1 by Tom Jones of Edmondson, Hale county, advisory director for Precinct 5 of Floyd county except a small area in the northeastern corner is included in the proposed district. The reservoir an underground water as defined by the Board of Water Engineers. All parts of 21 Plains counties is in the district.

ing to creation of the district and the provisions of the law under which it will operate. After its creation, it is intended that the county committee will advise the directors on all matters pertaining to management of underground water. Qualified voters who own property in the district and who also live within it will vote on September 29 to decide whether it shall be made a political subdivision for management and conservation of underground water. At that time the voters will decide whether the directors shall be authorized to levy a tax not to exceed five cents per \$100.

They also will elect directors to serve until the second Tuesday of January, 1952—one for each of the five precincts. Directors elected at that time will draw straws to determine the length of their terms—one, two or three years. Thereafter, an election will be held each year to fill vacancy or vacancies. Thus, the terms of all five directors will not expire at the same time.

First Bale Ginned For M. W. Raley

First bale of 1951 cotton to reach Floydada came from the field of M. W. Raley on the Ed Holmes place at Sand Hill late Thursday. Raley put a small crew of pullers into the field Tuesday.

First Baptist Church Ends Fiscal Year September with Healthy Growth, Vibrant Missionary Spirit

End of the first fiscal year of the First Baptist church of Floydada under the leadership of R. Earl Allen, pastor, shows the church work to have shown marked progress in the period ending September 1, and the church entering a new year with a vigorous work program outlined.

gram, and substantial gifts also to associational missions, state missions, home missions, foreign missions, Christian education, orphanages and relief. Mission gifts in and transfers have taken from the rolls 79 members, a net gain of 69. Present membership of the church is 1,088, of which 797 are resident members and 291 are non-residents. Baptisms in the year have numbered 49, additions otherwise 99. At the end of last fiscal year the total membership was 1014.

Church Gifts Are Heavy
Financially the church has received for all causes in the fiscal year exceeded those of the previous year by almost \$5,000.

Figures taken from the Baptist Voice, monthly church organ, revealed that the church this year had the largest number of additions to the church in any one year in the church history. Likewise, attendance in the Sunday school and Training union have surpassed any prior records.

Sunday School Growing
Sunday school enrollment showed 928 members at the end of the year as compared with 820 at the beginning of the year, an increase of 108, and average attendance was 428 compared with 376 last year. Similarly training union enrollment and attendance, vacation bible school enrollment and attendance, showed healthy gains as did membership in the Women's missionary union and Baptist men's brotherhood.

On the calendar of the church for the remainder of this month are the following important dates: United-Texas Dry program, Sunday morning; Tuesday night, annual brotherhood rally; September 19-20 deacon's training school. The church will have one of their former pastors with them on September 30, when Rev. S. R. McClung will preach.

R. Earl Allen Leads Baptist congregation in Big Year of evangelism.

Further, the gifts to the church were larger than in any year except when the building program was under way. Under the statistical report on church membership the Voice indicates that additions to the church through baptism and transfer have been 148, while deaths year \$39,212.04. This sum divided into the various programs, local gifts are shown to have been \$25,116.12 and mission gifts \$14,095.92, to make up the two principal items in the budget for the year. The heavy mission spirit which pervades the congregation. Mission gifts to the church's pro-

OPS Says Gins May Add Slight Ginning Fees

The Office of Price Stabilization announced changes in price regulations, beginning September 1, for ginning, wrapping and baling cotton during the 1951 season to allow a flat six per cent increase over rates charged in 1950.

The agency had fixed graduated percentage rates over different periods for the coming season, but substituted the flat rate "to provide equitable treatment."

The graduated rates had ranged from eight percent over those changed in the January, 26 1950 thru April 30, 1950 seasonal period, down to two percent over the December 1, 1950 through December 18, 1950 period. Instead of the graduated rate adjustments the flat six percent allowance over 1950 rate will be allowed.

The OPS said if found that the graduating percentage basis for adjusting rates was not equitable to all sections of the county because cotton ginning seasons vary as between sections.

The agency said that while ginning costs have risen about 10 per cent since the 1950 season, ginners probably will benefit from the volume ginning operations expected because of the large size of the incoming cotton crop.

The six percent flat allowance over last year's rates also is to ap-

The Harmony community is proud of their 4-H girls and they have a right to be. Miss Sherry Ramsey was bedroom demonstrator for her club and just last week the Hale county 4-H girls club made their county-wide tour of all the 4-H demonstrators. Sherry's home was the last visited that day and she received much praise for the work accomplished on her bedroom. It is very pretty with red and white plaid flaxon curtains at the windows and dressing table and vanity bench skirt to match wall paper and rug. Her bed is finished with a red plastic quilted head board with a book shelf overhead in natural wood finish. A study center in natural wood finish is against the south wall near the window. She had rearranged her clothes closet on the north wall with places for garments, shoes and accessories.

Sherry served refreshments to about 45 girls and their mothers and home demonstration agent, Mrs. Grindstaff, and her assistant.

Sherry also has been active in other phases of 4-H work. Besides her bedroom she has a garden this year and has participated in the 4-H dress review the last two years, winning first place ribbon this year in the junior division. Her sister Melba Jo is also a 4-H member.

GOOD HEALTH

Answer to Question No. 1:
1 In the total of 3,072 counties in the United States there are 1,220 local health departments, serving 1,546 counties and 70.8 per cent of the population. Growth has been continuous since 1915, when only 13 counties had local health organizations. Every community should see to it that it has adequate public health services.

Answer to Question No. 2:
2 This type of X-ray machine gives the doctor an immediate view of possible fractures and of shadows cast by any unusual growth of obstruction in the

body. These are seen on a screen, instead of being photographed on X-ray film. Thus, the doctor can watch processes going on in the body. Such modern equipment makes the practice of medicine much more exact than it was in the past.

Answer to Question No. 3:
3. Some babies, though few in number, do have high blood pressure. The cause is unknown, but there is a hereditary background in 40 per cent of such cases. However, the average age at which high blood pressure is discovered is 32.

For a Very Young Lady
A clothes closet designed for a very young lady—one that can grow up as she does—has a low rod that can be raised as dresses and coats are lengthened. It also has easily-reached compartments for underthings, sweaters and sleepers so that she can learn to put everything in its place. There is a section, too, for hats and berets. On one of the double doors is a hook for her nightgown and a rack for her bedroom slippers. Above them, on a painted blue background, sails a new moon and silver stars, including that the garment below is for night time. On the second door is painted the rising sun, a reminder that the bathrobe hung beneath it is for morning wear. Painted on each compartment are the names of the garments to be found within.

Mary Dee Cozby, Morning Party Don Bransom Wed Honors Bride-Elect Sunday Morning

(By Mrs. Clyde Bagwell)
In a single ring ceremony Sunday morning at 10 o'clock in the home of her parents Mr. and Mrs. L. B. Cozby in the Fairview community, Miss Mary Dee Cozby became the bride of Don Bransom of Snyder, the Reverend R. C. Hodges reading the vows. An arrangement of baskets of white gladioli placed before the double window in the living room formed a background during which the couple repeated their vows.

Mrs. T. C. Goodman, sister of the bride, was the only attendant. She wore an afternoon dress of chartruese taffeta with white accessories and her corsage was white carnations.

Kenneth Williams of Snyder served the bridegroom as best man. The bride wore a lovely dress of brown nylon marquisette and wore white accessories. She carried a white bible topped with white gardenias.

Miss Roberta Garrett gave the traditional wedding music before the ceremony and rendered the wedding marches.

Mrs. L. B. Cozby chose for her daughter's wedding a one piece dress of gray crepe, wearing pearls and her corsage was white carnations.

Mrs. Bart Bransom of Snyder, mother of the bridegroom, wore a navy blue crepe with black accessories. Her corsage was also of white carnations.

A reception followed the ceremony, when the bride cut the first piece of the three-tiered wedding cake, which was topped with a miniature bride and groom. Punch was served with the cake from the table covered with an embroidered cloth.

Mrs. Bransom wore a navy suit with red accessories, when the couple left for a honeymoon to points in Colorado. They will be at

THE NEW FERGUSON 30'

ON DISPLAY SATURDAY

Free Coffee and Doughnuts

Look at it. Get that feeling of size and power... weight and traction. Then consider this fact... here is a tractor that has been built in perfect balance to meet more of your needs, more of the time, than any other tractor.

It has abundant power... all you need for most three-bottom plowing. It has flexibility and compactness for doing many jobs quickly, at low cost.

It is the one and only Ferguson System. And it has the greatest torque (lugging) characteristic of any tractor ever built. Peak lugging power is developed at low engine speeds to keep you moving when heavy going slows you down.

Scores of new features have been engineered into the new Ferguson "30" to make it surpass even the outstanding performance of earlier Ferguson System Tractors. Once you understand what this tractor will do, you'll agree it's the greatest value in tractors ever offered.

HERE IS THE WAY THE PAVING PROPOSAL LOOKS ON THE CITY MAP

people in Floydada have inaugurated a paving program for Floydada. Some of them say the city needs at least 100 blocks more paving than it has now. The above map and legend shows paving already done and paving proposed to be done if the property owners respond to the idea with enthusiasm. The probable cost per lineal foot to property owners and method of financing are given in a story appearing elsewhere.

izes Pipe Pump Water Down Hill

Howell, of Sterley, has re-completed an underground pipe system between a lake and a well with which he pumps water down hill from the lake. By having a connection, he can use all the water from the lake. The pump will pump approximately three times as much water as the first system of its kind installed in the county. It is a wide interest. Those who have visited the lake have some from Lubbock. The system has irrigated his cotton and he estimates will increase his cotton production by fifty bales. The actual cost of operating the well, the lines that have been installed and the plans that Horton and the future have been worked out. C. of C. Secretary Public Enemy Not Chosen Yet

Floydada Chamber of Commerce, minus the services of a full-time secretary since the first of the month, when the resignation of A. M. Standerfer became effective, is due to keep the office open beginning at an early date. Mrs. Lane Decker will serve as office manager as soon as she recovers from a slight virus illness which had her hospitalized last week. Standerfer also will spend a brief part of his time in the office, as his new duties with Southwestern Public Service company permits. James H. Word, president of the Chamber of Commerce, said this week that a successor to the management of the Chamber of Commerce, is being given intensive consideration by the executive committee of the board of directors.

Fred Morris Fine, Secretary, Public Affairs Department, National Headquarters of the Communist Party, USA, is being sought by the Federal Bureau of Investigation on a charge of conspiracy to advocate the violent overthrow of the government. The FBI has requested alert citizens and law enforcement agencies to assist in locating Fine. A description of Fred Morris Fine is as follows:
 Age, 37, born March 30, 1914, Chicago, Illinois; height, 5'5"; weight, 139 pounds; build, medium; hair, brown, partially bald in front; eyes, brown; race, white; nationality, American; scars and marks, mole on left cheek at mouth level; distinguishing characteristics, large mouth, heavy features and prominent Adam's apple.
 Fine has worked as a steel worker, a clothing store clerk, typist and bookkeeper. He is not known to drink. He smokes a pipe and cigarettes. In the past he has suffered from a hernia and other complications which necessitated medical treatment. He has resided in New York since 1950. Prior to that time he lived in Chicago, Illinois, and Detroit, Michigan. He was indicted by a Federal Grand Jury at New York, New York, on June 20, 1951.
 Any person having information which may assist in locating Fine is requested to immediately notify the nearest FBI office. The phone number appears on the first page of the telephone directory.

Plant X Turbo-Generator Now Location

The new 50,000 kilowatt machine will be the largest single unit installed on the Southwestern Public Service company system. It will be that, until it is followed a year later by Plant X's second unit, the 100,000 kilowatt generator. When the two machines are both on the line, Plant X will be the largest single power plant on the integrated system, and its capacity alone will be greater than was the entire system capacity in 1934.

Shipped in Two Parts

The new generator, manufactured by the General Electric company at their Schenectady works, was shipped to Amherst, the nearest rail point to the power plant site. Because of its huge size, the turbo-generator was shipped "broken down."

The entire unit weighs 257,000 pounds, with the largest single piece weighing 199,000 pounds. When the machine is installed, it will be 53 feet in overall length, 14 feet wide and 15 feet high.

Plant X will be the Southwestern Public Service company's 11th base-

As A Farm Woman Thinks

(Nellie Witt Spikes)
FRESHMAN, FAREWELL

By Louise Owens

Your bureau drawers are emptied out clean,
And nothing hangs upon your closet wall
But faded slacks, a dress or so, too small,
An evening gown, too young for seventeen.

You pack the books, the bits of bric-a-brac,
The slippers and the final handkerchief,
And leave the others, sighing with relief,
"Well, after all—I'll be coming back!"

Not you, my dear; no doubt you'll look the same,
A little better groomed and better dressed,
With brave new notions, differently expressed,
Calling yourself, perhaps, by a new nickname.

Maybe you'll find the house a little smaller—
Your shrunken room looks on a narrower view—
But all the time it will be only you
Whose statue, mind and eye are somewhat taller.

No, it will not be you; not ever again
The way I know you now. Now is goodbye.
Adult horizons for an adult eye
Are yours, as sure as sun, as right as rain.

And do you know this, too, as well as I?
Then do not say it, but, my child, goodbye.

Thinking about Anne, my young granddaughter starting to Tech this fall makes me appreciate the above poem more than ever. In the fall of 1925 her father, Dr. L. W. Spikes started to Tech, being the first year of this college. How proud I was of my son! And how happy I was that a fine college was near enough for me to go over and see about him. Then my twin girls got their B. S. Degrees there. Now I have a new interest in Tech—how proud I am for Anne to be near, and taking classes in the beautiful buildings on the Tech campus.

Clad in the brightness of the Great White Throne,
Glad in the smile of Him who sits thereon,
The glory gilding all His wealth of hair
And making His immortal face more fair—
THERE IS MY TREASURE and my heart is there.
"My heart is there!"
With Him, who made all earthly life so sweet,
So fit to live, and yet so sweet to die so meet;
So mild, so grand, so gentle and so brave,
So ready to forgive, so strong to save.
His fair pure Spirit made the Heavens more fair,
And thither rises all my longing prayer—
THERE IS MY TREASURE, and my heart is there."

This morning is so very lovely, all blue and gold and cool. It is as if I had gold to spend and so I have, golden seconds, golden minutes and hours of pure gold! I spend them right. I will wash my clothes and hang them in the bright sun to dry, all white and clean; I will finish this column, write a letter to a friend; call to a neighbor across the street; I will read about the Way of Life as set down in the Holy Bible; perhaps a friend will call on the telephone; There is so much to buy with the gold of the day, I do not want to make a wrong purchase and bring unhappiness; I do not want to lose faith or cause others to lose their precious gift; I do not want to fret and worry this precious day another golden opportunity to be happy and pass it on. I want to see the sun go down, if it is my privilege tonight and give thanks for the gold which was placed in my hands this beautiful morning.

beautiful old cathedrals and old, old buildings they saw.
"We found everybody on wheels, everywhere we went," they laughed and said, "But it was not car wheels but bicycle wheels they were using for transportation. From the littlest of the family to grandma and grandpa, they wheeled along. We saw a man in Italy on a motorcycle, smaller than ours, with a child with him, a wife and two children in a side car and a little trailer house with more children inside, all happy on their vacation."
The time was all too short for them to tell and us to listen as we could for hours.
"You do not have time to get sick on a scheduled trip," they said, "But

Farmers Advised Now Is the Time To Cash In On Your Old Scrap

Harvest your iron and steel right away. Turn it into cash. It is needed for the making of the defense program. That's the appeal being made to farmers by the Committee on Iron and Steel Scrap, American Iron and Steel Institute. Industries of scrap are critically short at mills and foundries because of their record high production. Bigger stockpiles are needed if steel output is to be maintained and increased.

How much scrap is there on your farm? asks the Committee. Whatever the amount, it is badly needed. And there's money in it for you, if you harvest it now. It's the first opportunity, get that together. Take it to town and sell it to your scrap dealer. If that can't be worked out, ask the local agent to help make an arrangement so that the scrap can be moved.

A long step in the goal toward increasing the flow of scrap would be assured if each farmer sold only a few pounds of iron and steel scrap for each acre of farm land he operates. Worn-out parts of tractors, cultivators or other implements and discarded tools are among the items needed.

The total consumption of scrap in the first half of this year was about 20 per cent higher than in the same part of last year. In June 1931, supplies at some steel plants declined to only a few days' reserves.

With winter coming on, when scrap is more difficult to find, and with steel capacity scheduled to be sharply increased, the situation is truly critical, according to the committee. More scrap must be obtained from farms in order to make more steel!

Wasn't the rain so very nice? Coming down soft as the warm happy tears of a mother putting her child to bed here in Floydada, but Mother Nature was not so kind to some places and slashed at the ground with hard swords of rain and tempest of wind. Turnip greens will soo be cooking in many kitchens, while an Indian peach cobbler slowly oozes sweetness in the oven.

load power plant. It will be tied into integrated system by a 115,000 volt line, with the connections at the Tuco plant, near Abernathy, and the Clovis, New Mexico plant.

Capacity 400,000 Kilowatts

The system generating capacity will be more than 400,000 kilowatts when the first Plant X unit goes on the line. The entire system capacity in 1943 was 112,000 kilowatts.

The plant is located close to the geographic load center for Southwestern's 45,000 square mile service area. The load growth in the Plains division has been one of the largest in the entire system, another factor contributing to the plant's location. Material delays have moved the completion date for the plant back one month, but it is anticipated that it will be in operation before peak loads are on the line next summer.

I had been reading of the wonderful trip made by Pauline Ralls Watkins and her husband Walker who are back from a three months tour of Europe and the New England states and it was with great pleasure that we were not left off their schedule as they visited us a few minutes yesterday. We were thrilled to have them tell about the

Dr. Grant Will Urge Mission Budget Today

A proposed ten-million-dollar mission budget for the Baptist General convention of Texas in 1952 will be up for discussion today as Baptist of this area meet for the annual conference of the Floyd association. The meeting will be held at the First Baptist church, Quitaque.

Dr. J. Ralph Grant, pastor of the First Baptist church, Lubbock, will represent the denominational headquarters in Dallas at the conference. He will present the need for the multi-million-dollar budget.

Representatives from the 28 churches in this association will report on their progress during 1951 and will make plans for the coming year.

Dr. Grant will urge the individual churches of the association to follow the Baptist General Convention example by designating fifty per cent of their own budgets for state and worldwide missions.

The Baptist churches in this association have a combined membership of 7,054. The 3,300 Baptist churches in Texas now support 12 colleges and professional schools, six hospitals and three children's homes.

ATTEND DALLAS CONFERENCE

R. Earl Allen, pastor of the First Baptist church, in company with Reverend Clifford Potts, pastor of the First Baptist church at Matador, was in Dallas last Tuesday. They attended a one-day evangelistic conference and board meeting, of Baptist pastors.

Fairview News

(By Mrs. Clyde Bagwell)

FAIRVIEW, September 11—We have had rain since the last news report. From Friday afternoon until midnight Saturday, 1.8 inches was received at our place and most all over the community received the same. Most of the cotton farmers got busy last week and sprayed their cotton for careless worms and it seemed to do some good. Some fields were badly infested while others were only in spots. The combining of maize had started before the rain, but now the fields are too wet to get into. It is raining again today (Tuesday).

Mr. and Mrs. Lee Rushing returned home last Sunday just before noon from a trip that took them over 4000 miles. They first went to Rochester, Minnesota, where they both went through the clinic at Mayo Brothers for a check up. They were in Rochester for 10 days. One day was spent in Chicago, then they drove to South Bend, Indiana, where they visited the campus of Notre Dame. In Crawfordville, Indiana, they visited Mrs. Rushing's birthplace and in Tennessee they visited Mr. Rushing's birthplace and visited his relatives. In Wichita Falls, they visited a cousin of Mr. Rushing, John Rushing, who is stationed at Sheppard Field. They reported a wonderful trip. On Sunday the Rushings drove to Plainview where they visited her father J. C. Woolverton, who has been ill for several months. Mrs. Rushing's sister, Mrs. Richard Cornell, of Los Angeles, California, who was at her father's bedside, returned home with the Rushings to be their guest for several days. Mrs. Rushing reports her father much improved.

Mrs. W. B. Wilson and Mary Ann were in Plainview shopping on last Wednesday.

Mr. and Mrs. L. A. Horton of Plainview were in the community last week. They spent most of the time Monday to Saturday in the home of their daughter, Mrs. Jim Stewart. Wednesday they were dinner guests in the home of Mr. and Mrs. Walton Wilson and in the af-

ternoon they visited Mr. and Mrs. Benton Ritchey.

Mrs. T. C. Goodman is staying for several days with Mrs. H. D. Meredith at Dougherty. Mrs. Meredith has been ill for some time.

A good crowd from here attended the baptizing Sunday afternoon at the First Baptist church in Floydada.

Mr. and Mrs. E. W. Walls, Mrs. E. C. Walls and Mr. and Mrs. Clyde Bagwell visited Sunday afternoon with Mr. and Mrs. Doyle Walls and Brenda in Floydada.

Mr. and Mrs. Clifford Helms have been spending most of their time the past two weeks at the Lubbock hospital with Clifford's mother who has been seriously ill.

Last Sunday visitors of Mr. and Mrs. Sylvian Kinnibrugh were his

grandparents, Mr. and Mrs. F. M. McCulston, and his uncle and aunt, Mr. and Mrs. Earl McCulston and children, all of Falls.

Mr. and Mrs. Shirley W. Irwin went to Canyon Monday where they accompanied Luella to school. She will attend W.T.S.C. this year.

Mrs. T. L. Perry and Jan and Mrs. T. C. Goodman and Bruce were in Plainview shopping last Thursday.

Mrs. W. B. Wilson, Leonard and Mary Ann Wilson, were the ones from our community who attended the wedding Sunday afternoon in Stratford of Bradford Beedy and Delores Smith.

Bradford is a grandson of Mrs. Wilson and a cousin of Leonard and Mary Ann.

R. A. Dobbs of Crosbyton spent Thursday in the home of his daugh-

ter Mrs. S. H. Tackett. Sunday visitors with Mr. and Mrs. Tackett, were their daughter and family, Mr. and Mrs. L. F. Ellison and children of Crosbyton and Mr. and Mrs. Lee W. Burton and family.

Darlene Darling visited with June Payne Sunday afternoon.

Sunday dinner guests of Reverend and Mrs. Joe Wilson were Mr. and Mrs. Sylvian Kinnibrugh and family and Mr. and Mrs. Lee W. Burton and family.

Mr. and Mrs. Jim Stewart and Jim Dan spent Sunday in Plainview at the home of Mr. and Mrs. Walter Welch.

Mr. and Mrs. T. L. Perry visited Sunday afternoon and Sunday night in the home of her parents, Mr. and Mrs. J. T. Perry in Floydada. They also visited with Mrs.

Tom Maxwell and Mrs. D. P. Brewer, both of Smithville, who have been house guests of their brother, J. T. Perry.

Mrs. Walton Wilson and Mary Ann spent the day Friday with Mrs. Jim Stewart.

Mrs. Rish Isom, of Denison, and Mr. and Mrs. Carl Isom and children, also of Denison, were last weekend guests of Mr. and Mrs. Lee Burgett.

Thursday night of last week Mr. and Mrs. Edell DuBois and Mrs. W. C. DuBois visited in Lockney with Mrs. C. H. Wilson, an old-time friend of the DuBois family.

Mrs. Lee Burgett left Thursday for an extended trip down state. She accompanied her daughter and husband, Mr. and Mrs. Merle Mercer to Fort Worth, where they will

visit Mr. and Mrs. Tarvis and family. They will visit in Commerce, with nieces and nephews of Mrs. Burgett.

Mrs. W. W. Baxter and Ray Bois hosts Tuesday night in the Edell Bois home.

Mr. and Mrs. L. B. Conroy hosts Sunday in their home at the wedding of their daughter, Dee.

Robert Montgomery of Port New Mexico, was honored with a birthday dinner at the home of Mr. and Mrs. J. A. Bord. Those attending were Mrs. Montgomery and children and Dorsey of Floydada.
