He Argues Well. Editor Ernest Joiner at Ralls argues forcefully for his idea that taking sides in local politics is good for the community. He goes so far, in fact, as to take the position that a newspaper which does not do so does not earn its way. He argues the point well, and takes the situation at Ralls to illustrate: "We submit that there has been a great deal more interest shown in local elections since this policy began five years ago. Where there used to be no opposition candidates and a desultory 17 votes cast for hand-picked officials, we now have a slate of candidates to offer the voting public and draw from two to four hundred votes in these elections. Probably the reason for the present mess in Washington is because democracy has been dispensed with at the precinct level. When the grassroots country gets in the habit of not allowing competition for local officials, the grassroots citizenry is more likely to tolerate the same indifference in national government. If the good people of this country are ever to clean up government at the Washington level, they must begin at home. They must choose between good and lesser candidates. But most of all, they must go to the polls and choose somebody. We cannot start housecleaning in Washington and work downward. We must begin at the bottom and work upward, like any good architect. For our money, weekly newspapers without opinions on public questions serve no useful purpose outside providing a precarious living for the publisher. Many editors who think it an error to engage in local politics are quick and eager to jump on the President of the United States, his congressman or senator. Can it be, gentlemen, that such a policy is pursued because the danger of getting one's nose punched, is greater at the local level than it is all the way from Washington? In such case, it is true that 'distance lends enchantment'—and saves a lot of broken heads, too!"

Folks are really "pouring it on" the air mail service in their correspondence with their husbands and sons in the Korean conflict. The fact is, from what we understand, the air mail volume has reached an amount exceeding the capacity of the air mail service. Letters and packages by the tons have grown in volume so that the post office department has had to limit the weight of parcels that can be sent by air. There are just no spaces left to handle these mails and also the letter first class mail. People sure have got their boys in Korea on their minds, though the boys may not think so at times.

A fire extinguisher in each building about the farmstead is good insurance. The use of an extinguisher on a small fire may save a building.

In our opinion it is impossible for "fair trade" legislation to be in the interest of and for the general welfare. But another "fair trade" bill has been introduced in the congress. The house commerce committee has approved it in a form to restore to full effectiveness the "fair trade" laws which have been passed in 45 states. Texas is one of the three dissenting states. In this state repeated efforts are made every two years to get such legislation passed. Price-fixing would be legalized under the presently proposed legislation. To us such a law does two things that seem to be against public policy: (1) They set up monopolies; (2) They eliminate competition. Why they would be called fair we do not understand. But in 45 states such laws have been adopted. Must be a good many people who do not agree. Possibly our position is like that of the marching soldier who said every man in the company was out of step except him.

A most unusual thing is about to happen in Floyd county, unless we have the signs all wrong. This is the failure of the people of the county to meet the quota for their annual Red Cross fund campaign. Last mid-week the fund lacked probably \$1,400 of being complete, whereas most of the first enthusiasm of the opening days had been spent and the main money part of the population had been seen. Inability to find people with the time and inclination to see the people seems to be the "bottle neck" which has stymied the effort. The old crusading spirit with which the early drives were sparked is lacking. The Red Cross, like many other good things is taken for granted. Somebody else will have to make the appeal, not I, since I have already promised to more than I have the time to make good on, is the quick thought and many times the answer to those who undertake to organize and get things going in the more recent campaigns for worthy causes. Just what is the best way to go at correcting this apathy is the sixty four dollar question.

Precinct conventions of all political parties — including the Democratic — are slated by statute to be held on Saturday, May 3. This is what is termed the presidential convention since the machinery will be limbered up for the choice of nominees to offer for the presidency. From the precinct the action goes to the county, from the county to the state, and from the state to the national level for this purpose. It is a simple arrangement that seems to have been made mysterious by the apathy of the electorate. The machinery has been there all the time, still is, in the precinct in which you live. Nobody has robbed you of your voice in these matters, nobody but yourself.

It Makes Your Dollars Feel Important too

THE Buick pictured here can match price tags with a lot of cars smaller in size and horsepower and win. But that only gives you a hint as to what a whale of a buy it is. Like costlier Buicks, it has the wide-open view of a one-piece windshield. Like costlier Buicks, it has the gleaming distinction of sweeppear styling. Like costlier Buicks, it has smart new fabrics and door trim. Like all other Buicks, it has the extra safety of new, long-lasting Wide-Band brakes. Like all other Buicks, it has the sure-footed, road-hugging, even-keeled steadiness of the Million Dollar Ride—a combination of 15 engineering features including a husky X-braced frame, end-sway and side-roll stabilizers, Hi-Poised engine mountings, Permi-Firm steering and soft coil springs for every wheel. And like all other Buicks, it has a power-packed Fireball 8 Engine—a high-compression valve-in-head that gets extra wallop, extra mileage from every gallon of gasoline.

So we think that you'll feel mighty important bossing around this smart-stepping smoothie. And when you check the price we're asking against the field—we think your dollars are going to feel mighty important in buying power too.

- Hadn't you better look into this soon?

MODERN LIVING IS ELECTRIC LIVING!

Family feasts were quite a chore in the old days. Not too much fun for the womenfolk for they were in the kitchen for days before the feast and all day on the day of the occasion. The heat of old-fashioned cooking methods, and its slowness, made such feasts just plain hard work. But that's all changed now — thanks to modern electric cooking. Family coming for dinner? Bring out your electric roaster. Added to the oven and surface unit capacity of your electric range, the roaster makes feast preparation a snap. And it doesn't take hours of watching or heat up the kitchen either. Like your electric range, it's the coolest cooking method known—most efficient, too.

In the picture—Reading right to left: Emil Cardinal, Cliff Ware, Jack Lackey, Carl Jarrett, Don Dopson, Paul Miller, John Johnson, I. J. Ardry, John Edwards Smith, T. J. Cardinal.

Of these Emil Cardinal, I. J. Ardry, John Edwards Smith and their families have bought land and intend to make their home. They journeyed first to Rapid City, thence east. The others hired themselves out to make the haul as truckmen.

T. J. Cardinal has bought a 1,000-acre piece of ground near Underwood, and right across the road from him will be John Edwards Smith on a 460-acre tract which he and Fred Cardinal own together. Smith and Fred Cardinal also will operate a 1,480-acre tract for Mrs. Stella Smith, who recently bought there, near Wall.

Ardry's land lies 140 miles distant, to the east, in fact, east of Pierre. The lands the others have bought lie north of the Bad lands, and east of Rapid City.

Lots of snow and plenty of moisture due when spring-time arrives, say the people who are going to the new land. And they are going all set to take up modern farming. They are the new kind of pioneers.

Tribute to a neighbor

We'd like you to meet a neighbor on whom both of us depend. He's the man who operates the service station in your neighborhood. You depend on him to take care of your car, to supply you with products of high quality at reasonable prices. You expect, and get, from him more free service than from any other merchant with whom you do business: whatever you spend, he cheerfully cleans your windshield, checks your oil and tires, furnishes you with free battery water, and renders special services as you need them. The oil companies depend on him as the independent merchant who distributes their products. He demands, and receives, continuously improved products with which to compete with his business rivals. He insists on reasonable prices that will move his merchandise in volume. His progressive attitude is one of the chief reasons why the oil industry has supplied you with better products at about the same prices over a long period of years. It's a pleasure to pay this tribute to a neighbor, to thank him publicly for being such a friendly, dependable contact between the oil industry and its millions of customers. He is not on our payroll, but we couldn't do business without him.

Applaud Club Style Show as Delightful Display of Fashion

The style show sponsored by the 1932 Study club, presented Monday night in the high school auditorium, was one of the most impressive style shows that has been presented to Floydada patrons in many a year. This was the third successive show the 1932 club has sponsored. It gave evidence that the committee chairman and their helpers had really worked to make it the success that it proved to be.

Carl Minor was master of ceremonies, Mrs. Hollis McLain, president of the club, spoke graciously to thank all who had helped make the show a success.

A children's and junior style show preceded the main evening when the following modeled clothes from different clothing stores of Floydada, including Penney's, Hagood's, Hale's, Millard's and the Style Shoppe. First to walk across the stage and face the foot lights was Gary Jarigan, followed by Pat Hickerson, Laura King, Denny King, Elaine Minor, Tommy Weatherstone, Linda Caven, Ray Walker, Travis Joe Weems, Francis Van Wickel, Jerry Chas-

man, Sue McClung, Norma Allen, Mary Elizabeth and Martha Jean Holmes, George Farris, Jane Carpenter and Frank Barrows, the announcer telling the style of clothes each model wore and from the store represented.

The Blue Notes, a group of ten high school girls, sponsored by Miss Ruby Lee Devill sang three numbers.

Beautifully Decorated Stage

Miss Devina Glassmeyer as the dresser, was shown reclining on a chaise longue in green silk lounging pajamas on the stage which was beautifully decorated in white balloons, pink angel hair and a back drop curtain of white gauze sprinkled with silver tinsel. The white balloons were hanging in bunches from the ceiling and a large mound of the balloons were placed in the center of the stage.

Ray Cook manipulated the lighting effects with good results.

Each model passed before the dresser as she dreamed of her new spring wardrobe. Misses Roy Nell Hammonds and Betty Martin modeled the new season's bathing suits and beach tops together with Mary Ann Spangler in sport clothes.

Next in line were Misses Leone Williams, Joy McCraw, Barbara Perry, Billy Chowning, June Powell, Floy Jackson, Mrs. Carl Minor, Jr., Miss Jean Porter, Wanda West, Ann Deakins, Carolyn Tye, Dorothy

Blue Bonnet Club Makes Merry At Italian Luncheon

The attendance contest is over and the "Reds" won this time.

The home of Mrs. Ernie Widener was the scene of much merry making last Thursday when the "blues" served the winners an Italian luncheon complete with garlic bread, at the meeting of the Blue Bonnet club.

In the afternoon a business meeting was held in which the treasurer's report was read and new names were drawn for secret pals. Gifts were given and each member described her secret pal in such a manner that the other club members guessed who the secret pal was. During the recreation period Saint Patrick games and quizzes were held. Prizes were won by Mrs. Everett Collier and Mrs. Woodrow Wilson.

The next meeting of the club will be with Mrs. Oliver Allen as hostess. Hostesses for the luncheon were Misses Woodrow Wilson, Luther Dorrell, Wayne Finley, Bill Baker, W. B. Baker, Mrs. Everett Collier and Mrs. Floyd Fuqua.

Being served were Misses W. W. Owen, Layton Dorrell, Oliver Allen, Ernie Widener, Greer Christian, Foyner Roberts and T. G. Hall.

Mark Twain once wisecracked that "Folks talk a lot about the weather, but they don't seem to do much about it."

He should see it now.

Instead of waiting for rain, we pump it out of the ground and get on with our planting. Or else we pay a fellow so much an acre to bring it, then sit back. He goes up in a plane and sends the clouds to make them give.

Extreme heat? It's nothing. We've refrigerated our houses and store buildings so that anyone who likes his weather natural has to get out in the open to get a frank treatment. We can't even count on a long hot trip in the summer, what with air-conditioned units attached to car motors.

Severe cold? We've got that under control, too. At home, there's the electric blanket. If we want to go places, we step into a glass-enclosed automobile and glide over paved roads without so much as a frost-bitten finger.

Although we haven't yet learned how to stop earthquakes and tornadoes, we can foretell just about when and where they're going to hit. In fact, man has done so much about the weather in the last few years that he's got it at sixes and sevens. Bright sunny days in December. Snow on the first day of spring. Duststorms any time at all over. We've got the weather so crossed up that it's not even a good topic of conversation any more.

If Mark Twain were with us now, he'd probably sum up the subject more like this: "Do anything you want to about the weather; just don't talk about it."

Mrs. J. P. Stovall has been visiting her daughter, Mrs. Chas. King this week in Wichita Falls with her maid family.

WHY I WANT TO BE JUSTICE OF THE PEACE

First I want to examine the evidence and when I make a decision I want it to be fair and impartial to all. Yet I mean to enforce the law, and then I will be justified in asking your support and influence in this Campaign. I thank you. P. O. (Pat) Sterling. 91tp.

FINALLY I GOT AROUND TO IT.

Intended to write an ad for the last four weeks but looks like something would happen every time I got up to the point.

We've sorter got the hogs thinned out over at Grover's. We had to help him. They had him covered up with hogs and the packers too busy striking to take them off his hands except by jerks. Looks like there ought to be a better way to do things. Grover got a little impatient with the packer boys there for awhile it looked like.

Now, us, We're Not Struck, except out for the refinery to get some more gas before we run out, which is pretty often every week.

We like it that way. Sometimes we've got plenty of help, sometimes not so much. All the time we got ants in our pants to give you more of that good gas. As long as the wind keeps the loose dirt blown off of the nails we'll be doing double time fixing these flats, too.

Come to see us. Our place is not spruced up too much and none of us are good looking, but we can smile and we can fill 'er up and sell you most any kind of oil you want.

Reue Says Penney Board Authorizes
Convention Great
Event For Managers
of School Funds

The trustees of the Lockney school board authorized an audit to be made of the school books at a meeting held March 6. The audit will include the past seven years going back to the time the school was consolidated into a Rural High school district. Funds for the audit are being contributed by the local taxpayers and

The Reues made the trip to San Francisco by Santa Fe and return. The managers were guests of the firm and their wives received most gracious treatment, Reue said. Largely it was a convention of inspiring talks from Mr. Penney and other great leaders of the giant merchandising establishment, together with entertainment features that were out of this world.

"We didn't have an idle moment but the way the affair was handled everything was made play instead of work. I am certainly glad I travelled on Mrs. Reue to make the trip with me. The wives of the managers who did not attend missed many pleasant attentions and marvelous entertainment," Reue said.

In addition to the time spent in the Golden Gate city the party also spent a day or two in Los Angeles as guests of the J. C. Penney Company.

Applaud Club Style Show as Delightful Display of Fashion

The style show sponsored by the 1950 Study club, presented Monday night in the high school auditorium, was one of the most impressive style shows that has been presented to Floydada patrons in many a year. This was the third successive show the 1950 club has sponsored. It gave evidence that the committee chairman and their helpers had really worked to make it the success that it proved to be.

Carl Minor was master of ceremonies. Mrs. Hollis McLain, president of the club, spoke graciously to thank all who had helped make the show a success.

A children's and junior style show preceded the main event when the following modeled clothes from different clothing stores of Floydada, including Penney's, Hagoods, Hale's, Miladies and the Style shoppe. First to walk across the stage and face the foot lights was Gary Jarigan, followed by Pat Hickerson, Leora King, Denny King, Elaine Minor, Tommy Weatherbee, Linda Caven, Ray Walker, Travis Joe Weems, Francis Van Wickel, Jerry Chap-

man, Sue McClung, Norma Allen, Mary Elizabeth and Martha Jean Haines, George Farris, Jane Carpenter and Frank Barrows, the announcer telling the style of clothes each model wore and from the store represented.

The Blue Notes, a group of ten high school girls, sponsored by Miss Ruby Lee Bevell sang three numbers.

Beautifully Decorated Stage

Miss Dwina Glassmoyer as the dreamer, was shown reclining on a chaise longue in green silk lounging pajamas, on the stage which was beautifully decorated in white balloons, pink angel hair and a back drop curtain of white gauze sprinkled with silver tinsel. The white balloons were hanging in bunches from the ceiling and a large mound of the balloons were placed in the center of the stage.

Ray Cook manipulated the lighting effects with good results.

Each model passed before the dreamer as she dreamed of her new spring wardrobe. Misses Roy Nell Hammonds and Betty Martin modeled the new season's bathing suits and beach togs together with Mary Ann Spangler in sport clothes.

Next in line were Misses Loene Williams, Joy McCravey, Barbara Perry, Billy Chowning, June Powell, Floy Jackson, Mrs. Carl Minor, Jr., Misses Jean Porter, Wanell West, Ann Deakins, Carolyn Tye, Dorothy

Blue Bonnet Club Makes Merry At Italian Luncheon

The attendance contest is over and the "Reds" won this time.

The home of Mrs. Ernie Widener was the scene of much merry making last Thursday when the "blues" served the winners an Italian luncheon complete with garlic bread, at the meeting of the Blue Bonnet club.

In the afternoon a business meeting was held in which the treasures report was read and new names were drawn for secret pals. Gifts were given and each member described her secret pal in such a manner that the other club members guessed who the secret pal was. During the recreation period Saint Patrick games and quizzes were held. Prizes were won by Mrs. Everett Collier and Mrs. Woodrow Wilson.

The next meeting of the club will be with Mrs. Oliver Allen as hostess. Hostesses for the luncheon were Misses Woodrow Wilson, Luther Dorrell, Wayne Finley, Bill Baker, W. B. Eakin, Mrs. Everett Collier and Mrs. Floyd Fuqua.

Being served were Misses W. W. Goen, Layton Dorrell, Oliver Allen, Ernie Widener, Greer Christian, Poyner Roberts and T. G. Hall.

A refreshment plate was served the guests and the members, Mesdames Kinder Farris, P. A. Denison, C. B. McDonald, S. J. Latta, E. L. Norman, E. E. Joiner, L. J. Welborn, J. D. McBrien, L. L. Jones and S. W. Ross.

LIPSTICK LOGIC
BY LOUISE ALLEN

Mark Twain once wisecracked that "Folks talk a lot about the weather, but they don't seem to do much about it."

He should see us now.

Instead of waiting for rain, we pump it out of the ground and get on with our planting. Or else we pay a fellow so much an acre to bring it, then sit back. He goes up in a plane and sends the clouds to make them give.

Extreme heat? It's nothing. We've refrigerated our houses and store building so that anyone who likes his weather natural has to get out in the open to get a frank treatment. We can't even count on a long hot trip in the summer, what with air-conditioned units attached to car motors.

Severe cold? We've got that under control, too. At home, there's the electric blanket. If we want to go places, we step into a glass-enclosed automobile and glide over paved roads without so much as a frost-bitten finger.

Although we haven't yet learned how to stop earthquakes and tornadoes, we can foretell just about when and where they're going to hit. In fact, man has done so much about the weather in the last few years that he's got it at sixes and sevens: Bright sunny days in December. Snow on the first day of spring. Duststorms any time at all over. We've got the weather so crossed up that it's not even a good topic of conversation any more.

If Mark Twain were with us now, he'd probably sum up the subject more like this: "Do anything you want to about the weather; just don't talk about it."

Mrs. F. F. Stovall has been visiting her daughter, Mrs. O. G. Stovall, in Wichita Falls with her family.

Released by The Texas Department of Agriculture

THE PINK BOLLWORM — I

Two problems in Texas Agriculture comes to us across the Rio Grande—the "wetback" and the cotton Pink Bollworm.

The insect, or Pectinophora Gossypiella, has this in common with the "wetback": things look better to it on this side of the border, and it comes across to work in our cotton crops. It will "hitch" a ride across the international bridge on trucks and cars and clothing, or anything else that has been in contact with cotton or cotton products in Mexico. Or, in the moth stage, it will fly across.

The first Pink Bollworm was discovered in Texas near an oil mill in Robinson County in 1917. Since then, it has become the greatest threat our cotton industry has ever faced, with 193 counties now under quarantine.

The worm comes from an egg laid by the moth on the cotton plant. The larva burrows into the fruit, square or boll and reaches maturity in 10 or 15 days. It pupates, and in about 30 days from the time the egg is laid it has developed into a moth. After mating, the female moth deposits eggs for another generation. The worm grows to about one-

half inch in length. It's made up of segments, like the tail of a crayfish. Each segment is ringed by a pink line.

The moth is less than an inch long, brown in color, and shy—hiding from the light of day under stones or brush and flying in the late evening. It can make long-distance flights of hundreds of miles, at an altitude of 2,000 or 3,000 feet—for example, from the Laguna district of Mexico to as far away as Arizona, New Mexico, and the Plains of Texas, which is a rather respectable performance.

These little moths live only two or three weeks. But as many as five and six generations appear in one season. That means if every egg laid by one female moth should develop into an adult moth, in five generations one moth would have produced more than 10,000,000,000 hungry Pink Bollworms.

Multiply that by millions of moths on thousands of acres of cotton, and we get a rough idea of what we're up against.

Did you know that you can buy burial insurance right here at home as cheap and in some cases much cheaper than you can anywhere else in the whole state of Texas?

On children under fifteen years you can get a \$150.00 policy payable in cash for less than 1/2 of one cent per day. A five hundred dollar policy will cost only 1 1/4 cents per day. On older people the rate is higher but still within reach of most everyone.

Why not give us a ring. We will be right out and tell you about this excellent protection.

Is that what's happening to my tax money?

Here are examples of waste in our government—facts unearthed by the bipartisan Hoover Commission.

- In one section of the Veterans Administration the Commission found 24 supervisors for 25 employees.
• The Bureau of Reclamation and the Army Corps of Engineers in jealous competition for public funds, ran surveys for a dam in Hell's Canyon, Idaho. Each survey cost taxpayers \$250,000—and only one survey was needed.
• A farmer who wrote to the Department of Agriculture for advice on fertilizers received five different and conflicting answers from five different agencies.
• Nearly half of the 89 new Veterans Administration hospitals now being built or planned may be placed in areas where adequate staffs are not available.

There never was a time when we could afford waste and inefficiency in our federal government. Today, it's just plain dangerous!

Here's how I feel about it," says a housewife.

"I got so worked up about these examples of waste in Washington that I took time out to learn the facts behind the Hoover Report. Now I'm writing my Congressmen to tell them just what I want done. Why don't you do the same thing? If we all get behind the Hoover Report recommendations they're sure to be passed. And believe me, we need them!"

That's why full enactment of the bipartisan Hoover Report recommendations is so important to us all. They can save us an estimated \$5 1/2 billion that are now wasted annually—they can put our government in fighting trim.

But all this can be done only with your help! For these common sense recommendations face strong opposition from selfish groups. And they must be passed during this session of Congress.

Cash In On Your Scrap Before Spring Planting, Farmers Urged

Now is the time to cash in on your old iron and steel scrap, the Steel Industry Scrap Mobilization Committee urges all farmers.

"By turning in your scrap before spring planting you will be helping the nation and yourselves," the Committee says.

During the past winter months in many parts of the country scrap iron and steel has been covered by snow. Lying idle on farmer's junk heaps, much of this critically needed metal has been rusting away.

Farm scrap is urgently needed to keep steel mills and foundries pouring out steel for civilian and military needs. Most steel is made from equal parts of pig iron and scrap steel. Therefore, every pound of scrap sent to the mills helps make two pounds of new steel.

Last year the steel industry and foundries required 33,822,000 gross tons of scrap iron and steel. It is expected that an even greater amount will be needed in 1952 in order to meet defense needs and civilian requirements.

"Look around your land for old tools, worn-out parts of tractors, trucks, cultivators and other implements," the Committee asks farmers. "Search for broken tools and discarded pieces of metal that are cluttering up your farm."

Farmers are urged to take their scrap to town and sell it to the scrap dealer. If the scrap is unusually bulky, making transportation difficult, the scrap dealer or the local farm agent can be asked to work out arrangements to move it.

Farms always have been an excellent source of scrap and farmers have a big stake in the present scrap drive. In many communities drives already have been organized. If there is one in your town, participate in it. If one hasn't been set up, get your scrap to market anyway. The important thing is to keep the scrap flowing to the mills so production of steel will not fall.

NOW IS THE TIME TO SELL. BRING YOUR SCRAP OF ALL KINDS OF IRON AND STEEL TO

GRUNDY IRON & METAL

Bake a Ham Demonstration Meeting

Earl Huckabee, Tom Noland and O. C. Vinson. A committee was appointed to make arrangements to entertain the Friendship club April 11. The next meeting of the club will be with Mrs. O. C. Vinson April 4.

Lakeview 4-H Club

Lakeview 4-H club girls met in the school lunchroom on March 19, for the first meeting in the school lunchroom on March 19, for the first meeting of the year. Miss Lella Petty presented Maxine Hatley with her fourth-year 4-H pin and Patsy Johnson with her third-year pin. Miss Petty also brought plans for the dress review in April and many ideas to make the work easier for the girls.

Record forms were distributed to each club member so that she could keep a better record of her project this year. Nellie Neff was appointed as the game leader of the year.

Present for the meeting were Linda Golithly, Maxine Hatley, Dianne Johnson, Nellie Neff, Mary Newberry, Nell Palvadore, Wendelle Russell, Annella Thurston, Charlene Wright, Ruth Asrbedo, Miss Petty and Mrs. Verlon Wright.

The 4-H girls decided to meet twice a month for awhile to catch up on their club work.

Plans are also under way for a 4-H party soon.

Baked Ham Recipe In Club's Report

Dougherty Home Demonstration Club had a very interesting meeting at the home of Mrs. G. W. Smith March 19. There were three visitors and twelve members present.

Mrs. Howard Drysdale opened the meeting with a demonstration of the preparation and baking of ham slices. She made two kinds of raisin sauce and a cherry sauce to be used with the ham.

After the demonstration, the house was called to order by the president, Mrs. C. A. Caffee. Roll call was answered with first aid hints. Various answers for burns, scalds, drowning, and foreign objects in the ears were given. One hint was "always replace things out of your first aid kit or medicine cabinet." A devotional was given by Mrs. Ned Bradley.

Mrs. C. A. Caffee was one of the three delegates elected to go to Dimmitt May 7 as a T.H.D.A. delegate.

Diseases of the heart was given by Mrs. Claude Ring. A few danger signals are: 1. Palpitation, too fast or too slow, or irregular beating of the heart; 2. Shortness of breath; 3. Swelling of the feet and ankles; and 4. A painful, strangling, oppressive sensation under the breast bone. Remember, it is better to have a regular check up, than to wait until the symptoms develop.

Mrs. Sam Lide won the attendance prize, with Mesdames Russell Crawford and Johnny Cates winning the game prizes.

Refreshments of buttered toast, sweet pickled peaches and coffee or tea were served with the baked ham to three visitors: Mrs. Lucy E. Stephens, from Girard, Texas, Mesdames Bruce Johnson and Russell Crawford, and the following members: Mesdames Johnny Cates, Clarence Ashton, Sam Lide, Howard Drysdale, C. A. Caffee, Bill Smith, William Hinton, Ruth Daniel, Ned Bradley, Raldo James, Claude Ring and the hostess, Mrs. G. W. Smith.

We urge all members to be present at our next meeting April 10, at the home of Mrs. Tate Jones, when we entertain the Sand Hill club.

Baked Ham Slice

The recipe for the baked ham slice, should any of the non-club members like to have it:

- Center slice of ham, 1 inch thick;
- Tablespoon butter or margarine;
- 1/2 cup brown sugar;
- 1/2 cup finely ground soft bread crumbs;
- 1 teaspoon dry mustard;
- 1 cup pineapple juice;

Cut fat in several places around edge of ham slices; place slice in greased baking dish. Combine remaining ingredients in sauce pan, heat to boiling and pour over ham.

Bake uncovered in slow oven (300 degrees) about 1 hour, baste occasionally.

Harmony Club

Harmony Home Demonstration club met Thursday afternoon in the club room with Mrs. Sherwood Ramsey as hostess.

Mrs. Chloma Williams, president, called the meeting to order and the roll call was answered by a youth problem of today. The following committee chairmen gave reports:

Mrs. A. N. Hopper, program chairman reported that the club women will entertain their husbands with a dinner at the Skyline restaurant in Lubbock March 25.

Mrs. Zant Scott gave a report on the recreation school held in Floydada. Mrs. Don Finkner gave the education and expansion committee report. Mrs. Everett Miller gave a financial report.

Mrs. Williams announced that the women of the club will furnish pies for the annual R.E.A. meeting April 19.

Mrs. Don Finkner gave a talk on alcohol and drug effects on youth.

My Kind of Man

La Faun Hanna: My kind of man must be tall, dark, and handsome. He should always ask me where I want to go and what I want to do. He should be an athlete and love to go to all kind of sport activities. He should be understanding and thoughtful. He should always be trustworthy and appear to be having a good time.

Benita Teaff: My kind of man should be very kind and thoughtful. He should never tell me he would take me someplace and then back down. He should like to do the things I like to do and go where I like to go. He should be tall, dark, and cute. He must love all kinds of sports. He must never stand me up and believe me when I tell him something that I haven't done.

Judy Moss: My kind of man is very considerate, polite but at the same time a lot of fun to be with. He should not brag all the time, and he should be easy to get along with, and above all he should be friendly to everyone.

Frances Vickers: My kind of man would be kind to everyone and should always be friendly to everyone. He should have a swell personality, and should always be dressed neat. He should like to do about the same things that I do.

Natha Burleson: My kind of man has to be honest with himself and others as well. He has to be kind and considerate and just a little stubborn. I would like him to recognize my moods and appreciate them. I would like him to be gay and full of fun and serious about some things too.

Floydada scored 34 1/2 points to finish second to the Canyon Eagles who won the six team meet with 41 points. Hereford scored 33 points to place third.

Dennis Wilks won the Winds only individual first place. Wilks won the 220 yard dash in 23.1 running into a strong Southward wind. Wilks' time was one of the impressive features of the meet.

The Winds captured first place in both relays. The 440 yard relay foursome won their event in 47.3. Composing the sprint relay are Jackie Hutchinson, Brooks Chapman, Frank Stovall and Dennis Wilks.

The Winds mile relay scored first place with a time of 3:49.3. Floydada was pressed through out the event by a strong Abernathy group. Members of the mile relay are Stovall, Helms, McGuire and Wilks.

Saturday the Winds journeyed to Panhandle. However, the meet was called off due to cold weather. Floydada will travel to Hereford Tuesday. At Hereford, the Winds will enter a six-team meet.

Next Saturday, Floydada will attempt to defend their District 3-A crown. The Winds will be slight favorites. However, strong competition is expected from Tulia and Abernathy. The District meet will be held as it was last year. Preliminaries will be held in the morning beginning at 9:00 with most final events occurring afterwards.

Teacher Says:

Mrs. McMillian: "Are those seams straight, girls?" "I'm sure we can all recognize those words as being spoken by the homemaking teacher, Mrs. J. O. McMillian. She is usually found wearing neat and attractive dresses worn with ties or flowers at the neck. All her students enjoy her classes and profit by them immensely. She says: "What happened to the cakes?" "There's some bobbins missing."

Mr. Hill: "Quit your loafing, boys! A famous quotation of Mr. Hill, teacher of Industrial Arts. He is the sophomore class sponsor. He is usually seen wearing nice slacks, white shirts and attractive ties. If you were to visit one of his classes, you might hear the following: "Get out of the Back room, boys!!! Jackie, where did you get that lumber??? Good-morning, boys—Wait 'till the bell rings!!!"

CANDID CAMERA

This week our Candid Camera brings to you a very outstanding member of the Senior class namely Gerald Dean Hall. From this saying, "I think school is about the most wonderful thing since the automobile; although it does get boring at times, but on a whole it's grand." You can see that Gerald knows how to appreciate the—say, Well!!! better things of life, shall we say, Gerald says his main ambition at the

present is to graduate from F.H.S. Gerald is 6 feet one and one half inches tall. He weighs 160 pounds and has blue eyes and brown hair. Among his likes are: pretty cars, running around, football games, girls, friendly teachers, bookkeeping, Mr. Weatherhead and Miss Jones, chicken fried steaks, combination food, mashed potatoes, and gravy. He has some dislikes though which consist of: snooty people, trunpns, Lockney, and too long assignments.

Gerald's favorite movie is "On Moonlight Bay." His favorite actor and actress are Girdon McRae and Doris Day. His favorite song is "Al-ways."

When asked what his ideal girl would be he immediately replied, she'd be about 5 feet 6 inches tall, have brown eyes, brown hair, and weigh about 120 pounds like to do things I like to do and be very friendly and understanding.

Gerald with your zeal and personality we are positive that you will always make good. Here's wishing you the best of everything.

Our spotlight this week also shines on another outstanding member of the Senior Class, Dale Conroy Johnson, Conroy, as he is better known is 6 feet tall, weighs 190 pounds and has blue eyes and brown hair.

Conroy has many likes which are hunting, traveling, running around, band, G.M. cars, and pretty girls. His main dislikes are homework, spinach, and smart alecs.

Conroy's favorite movie was "Gone With the Wind," and his favorite actor and actress are John Wayne and Yvonne de Carlo.

His main sports are football, and hunting.

Conroy has a more common opinion of school. He said, "I have never liked school very much but I think it does do you some good to go there. It's easy to see which people have an education and which don't. If we didn't have schools though, people would be in pretty bad shape. "Tut," "Tut," Conroy don't you know better than to talk against school.

Conroy says his ideal girl would be very good looking, know how to act, and would be easy to talk with. Also she would be loads of fun.

Conroy's ambition is to either get into the oil business or have a car agency either one, it doesn't make much difference. Conroy you are a swell person. May you always have the best of everything.

A Space Ship Trip

You have only six hours before leaving by Space Ship for the moon. What would you do during this period of time??

Pete Hopper: Make a will and say my prayers.

Bill Hopper: Make a will and hope that the ship broke down.

Johnny Bryant: Let the air out of the tires and find a pretty woman.

Gary Oden: Buy a twenty-year subscription to "Esquire" and "Wink" magazines.

Dennis Wilks: Get a transfer to Mars and return to take Captain Video's place in the movies.

Yavada Griggs: Bribe someone to take my place.

Marilynn Jones: Say goodbye to my friends and hope to meet them "up there."

Melvin McPeak: First, I would join the F.F.A. Club—then Jackie and I would put the 4 by 4 up in the Grand Stands. After that I would go down to Brown-Holmes and buy some insurance. Then I would make arrangements to do away with—

CENSORED

Gerald Hall: I would tell the little woman farewell and spend the other five minutes getting ready to leave.

James Freeman: Heaven only knows!

Jerry Oden: First I would jump in my jet mobile and visit Captain Video for some advice. I would then buy a post card so that I could write mommy. After that I would pick up my supplies and go by school to get my books and some future assignments. I wouldn't want to get behind! Just before it was time to go I would eat a meal consisting of steak, chicken, pork chops, and roast with all the trimmings. The last thing I would do before I entered the door, I would apologize to Mrs. Graves so I wouldn't have a guilty conscience.

Barbara Perry Is Monologue Winner

There were several members of the F.H.A. of Floydada who attended the F.H.A. Area meeting held at Plainview Saturday, March 22. One of these members Barbara Perry gave a monologue. In this unexpected contest in which Barbara competed against twenty-five other girls, Barbara won first. Barbara will receive a trip to either Dallas or Austin where the state contest will be held.

We are proud to have such an outstanding girl in our chapter.

Speaker, Tumblers Assembly Programs

It seems that each new assembly is better than the last. This statement certainly held true last week. We had two assemblies and they both were very good. The first was a program given by Jim Graham, an evangelist, who made a very inspiring talk about the Chinese people and other subjects.

Second was a Southern assembly, presenting a tumbling team.

The student body particularly enjoyed watching Don McGuire, Doyle Grundy, and Jimmie Collins attempt at acrobatics. We hope to see more of these good assemblies before school closes.

El Cantada Siete

Have you heard mate voices blending in harmony around the Band Shack (vacated the auditorium in favor of girls' chorus) about twelve thirty each day?

El Cantada Siete, or the Singing Seven, are: tenors Roy Teague and

James Freeman; baritone, Brooks Chapman and Dennis Wilks; bass Bert Grimes, Don Barber and Wayne Carpenter. Mr. Barber is the sponsor of the group.

These boys have made several personal appearances at churches, banquets, and community meetings. They especially like to sing the "Gospel Boogie," but they do a very good job of singing "Wagon Wheels," "Dry Bones," "Sweet Adeline," and others.

They did their best at the Father and Son Ag Banquet.

1-Act Play Contest

Floydada's One-Act play "Moon-face Mugford," Thursday night, won over a field of five other plays presented by Paducah, Tulia, Spur, and Abernathy. The judges stated that Floydada had the best of three excellent plays.

Tulia, who won the consolation prize gave an excellent cutting of Our Town, Act III. The all star cast consisted of Bert Grimes, best actor Barbara Perry, best actress; and Jean Porter of Floydada, Jackie Cloud of Spur, Pat Porter and Roy McCasland of Tulia.

News of Harmony

(By Mrs. Mather Carr)

HARMONY, March 25.—Mr. and Mrs. Loyce Turner have been remodeling their home on their farm. They have quite a bit of work to do yet before they move in. The Turners are also building a four room house with bath for a work hand and family. These farmers are really building some good houses for their farm hands. Everett Miller has completed his hired hand house, which is a four room and bath.

The Society of Christian service met Tuesday, March 18 in the home of Mrs. Zant Scott, with Mrs. Scott as hostess. There was a short business session and our first lesson in our new study. This lesson was brought by Mrs. Donald Finkner, which was very nice. At the close of the lesson Mrs. Finkner showed moving pictures of hers and Mr. Finkner's trip to Louisiana and Cuba a few weeks ago. We enjoyed these pictures very much and it made some of the rest of us want to go to see some of the world. Mrs. Scott served a delicious refreshment plate to Mmes. Sherwood Ramsey, Donald Finkner, Marvin Smith, Wheeler Turner, Mather Carr, Zant Scott, Judy Smith and Nita Karon Scott and two guests, Ms. Glen Pool and Mrs. R. B. Gary.

Mr. and Mrs. Perry Tipton, parents of Mrs. Sherwood Ramsey, left Tuesday of last week for Arkansas where they plan to make their home. We did not learn just where they plan to settle, but hope they were not in that tornado district.

News of Harmony

(By Mrs. Mather Carr)

HARMONY, March 25.— Mr. and Mrs. Loyce Turner have been remodeling their home on their farm. They have quite a bit of work to do yet before they move in. The Turners are also building a four room house with bath for a work hand and family. These farmers are really building some good houses for their farm hands. Everett Miller has completed his hired hand house, which is a four room and bath.

Mrs. Riley Holmes has been enjoying her sister and family, Mrs. John Colville and family, who have returned from over seas. They have been stationed there for the past three years.

Wesley and Horace Carr made a business trip to Quanah Tuesday of last week.

The Society of Christian service met Tuesday, March 18 in the home of Mrs. Zant Scott, with Mrs. Scott as hostess. There was a short business session and our first lesson in our new study. This lesson was brought by Mrs. Donald Finkner, which was very nice. At the close of the lesson Mrs. Finkner showed moving pictures of hers and Mr. Finkner's trip to Louisiana and Cuba a few weeks ago. We enjoyed these pictures very much and it made some of the rest of us want to go to see some of the world. Mrs. Scott served a delicious refreshment plate to Mrs. Sherwood Ramsey, Donald Finkner, Marvin Smith, Wheeler Turner, Mather Carr, Zant Scott, Judy Smith and Nita Karon Scott and Mrs. R. B. Gary.

Mr. and Mrs. Perry Tipton, parents of Mrs. Sherwood Ramsey, left Tuesday of last week for Arkansas where they plan to make their home. We did not learn just where they plan to settle, but hope they were not in that tornado district.

Remember prayer services and choir practice at the chapel each Wednesday night. The time has been changed for the meeting to 8:00 o'clock. Mrs. Everett Miller brought the devotional last Wednesday night. This was a very good lesson.

Mr. and Mrs. Roy Hale, Mr. and Mrs. Walter Hanna and Mr. and Mrs. Everett Miller attended a minstrel show at Plainview Tuesday night of last week.

Several attended the plays at Floydada last Thursday night. Floydada won first place and Tulla second. The star actor was Bert Grimes and Barbara Perry was best actress. Both are from Floydada.

Mr. and Mrs. Olin Baird are the happy parents of a baby girl born March 23 in Peoples hospital. She tipped the scale at 8 pounds and 8 1/2 ounces. She has been named Olinda Kay. The Bairds have four other children, three boys and a girl.

Mr. and Mrs. Chloma Williams and daughter, LaJuan Sue spent the week-end in Amarillo with relatives.

Brother Herman Biffle, of Petersburg, conducted the services at the chapel Sunday morning in the absence of the pastor, who was in a revival in Oklahoma.

Patricia Tucker spent Sunday with Dwana Beth Scott.

Mr. and Mrs. R. B. Gary made a business trip to Matador Monday.

Inspection Now Of Automobiles During the Lull

AUSTIN—Motorists are urged to have their motor vehicles safety inspected while there is a lull before the expected rush to inspection stations.

G. W. Busby, chief of the Motor Vehicle Inspection Division of the Texas Department of Public Safety, said 2,400 inspection stations have been certified to aid motorists in complying with the new state law September 6 is the final deadline for having all motor vehicles certified for safe driving.

Busby said the movement of vehicles to inspection stations is lagging, with only about 40,000 being inspected weekly. If a bottleneck is to be avoided before the deadline, he said, at least 100,000 vehicles a

week will have to flow through the stations.

Requirements under the new safety law have been modified considerably following an anticipated rush to inspection stations when the law became effective a few months ago. Safety Department officials said many new inspection stations are being certified weekly to aid in avoiding another bottleneck.

"We earnestly hope that motorists will take advantage of the lull we are now having and avoid a last-minute rush in order to comply with the September 6 deadline," Busby said.
