Busby Urges Motor Vehicle Inspection Now

"Get your vehicle inspected and avoid the delay and inconvenience of having to wait in line," is the advice being broadcasted by the Department of Public Safety, Motor Vehicle Inspection Division, of which G. W. Busby is chief.

"You can have your car inspected now and will not be liable, bearing this sticker, until March 31, 1953. However, it will be necessary for you to re-inspect between September 7, 1952, and March 31, 1953, in order to have the proper receipt for registration in 1953," said Jim Riddles, inspector for the Motor Vehicle Inspection division, department of public safety here this week.

Riddles was in Floydada on a tour of the stations in the area. He gave the following list effective as of Tuesday for stations in Floyd county that are authorized to make inspections and issue windshield stickers:

Floydada: Bishop Motor company, Cline & Rainer, K. Crouch Motor Co., King Tractor & Motor, Martin Auto Repair, Mayo Motor Co., Oden Chevrolet Co., Sparks Auto Service Spears Auto Co.;

Lockney: Lockney Auto Co., Whitey Baccus.

The 2700 official inspection stations licensed in Texas so far are inspecting some 50,000 cars per week and in order to inspect all the cars in this State by the deadline, September 6, the number of cars inspected per week will have to be doubled.

There can be no further extension of the deadline and operators of vehicles not inspected on September 7th will be subject to arrest. The law provides a fine of not to exceed \$200.00 for any person guilty of operating a vehicle after September 7 when such vehicle has not been inspected and approved, the inspection division declares.

Showers Bring Partial Relief In the County

Light, partial showers over the area Tuesday night which amounted to about enough to prove the rain gods had not forgotten how, gave enough moisture in some areas to be of marked help to wheat now in a crucial stage. In others the fall was so light as to be negligible.

The showers which began falling in the early evening in some parts of the high plains reached Floydada about 9:30 and the moisture at this point and for three or four miles in all directions was enough to be helpful. It was, the weather bureau said, a part of a cycle of weather that might bring good thunder showers by Friday. Hope that this would transpire seems to have been dashed, however, by a cold front that whipped in from the north and blew to fragments any lingering clouds.

The wind whipped, raw and somewhat more than briskly, until in the afternoon of Wednesday when it began to die down. Cold as low as freezing was predicted for this morning. Yesterday morning's low was 38 degrees at Floydada, after the norther had churned the atmosphere for six hours or more. The high of the year was registered Tuesday with an 89-degree report from the office of West Texas Gas company.

The rain area has dropped into the deep southwest, according to the weather reports. Rain reports from over the county include Fairview, where Mrs. Clyde Bagwell said the downpour measured 8-tenths in the southwest part of the district.

At Harmony Chas. Watson had 65-hundredths.

Sand Hill was in one of the light streaks with about 20-hundredths in spots and not that much in others.

Floydada city hall report gave the figures at 1.01 inches.

Between Dougherty and Pleasant Hill the Cooksey place had 8-tenths of an inch.

East and slightly south of South Plains C. L. Jarrett had not enough to make the roads slick.

Lockney reported about 20-hundredths.

Around Muncy the fall was light, no exact figures available.

Lakeview reports said from 25-hundredths to a half inch.

The rains were accompanied by a considerable display of lightning. Several telephones of Floydada exchange were out Wednesday morning, and REA crews spent practically all of the last half of Tuesday night out picking up troubles on their lines of the electric cooperative.

Mrs. Jones' Rites Held on Saturday

Funeral services for Mrs. J. P. (Frank) Jones of the Baker community, were held from the First Baptist church Saturday afternoon at 3 o'clock with the Reverend J. E. Young and H. T. Harris officiating. Interment was in the Floydada cemetery under the direction of the Harmon Funeral home.

Mrs. Jones died in Lubbock Memorial hospital last Thursday morning at 10:30 o'clock at the age of 65 years and 20 days. She had been ill for about two weeks.

Batley Elected County Trustee-At-Large in Record School Vote

R. M. (Fred) Batley was elected county trustee-at-large in the Saturday record-breaking school trustee voting spree, 1293 to 956, according to The Hesperian's unofficial tabulation Saturday night, and Bill Beedy of South Plains was returned to the post of trustee from Precinct No. 3 by an overwhelming 231 to 68. His "opponent" was Hermon B. Thornton.

In an uncontested race for trustee in Precinct No. 4 Herschel Green of Baker was chosen to succeed W. Earl Edwards, sr., of Lakeview. Edwards had declined to offer for the place again. The vote for Green was 236.

The returns indicate divided sentiment on the school board make-up in Lone Star, Dougherty, Cedar and South Plains, but otherwise the vote was determined almost wholly along geographical lines. Providence, in the extreme northwest corner of the county gave Robt. W. Smith, incumbent, a solid 47 to 0 vote, whereas Lakeview extreme south side district gave Batley a 45 to 0 vote. Most pronounced difference of opinion is indicated at Cedar, where the vote was 36 for Batley, 46 for Smith, and 36 for Beedy, 46 for Thornton.

At Lone Star the vote was 2 to 1 favoring Smith, two to one for Batley at Dougherty, and South Plains gave Batley a 3 to 1 majority.

In the vote for trustee in Precinct 4 Green was given 115 votes in the Floydada box, 48 at Dougherty, 33 at Lakeview, for a total of 235 votes.

In the Beedy-Thornton race Floydada gave Beedy 132 votes, Thornton 3, Cedar was 36-46 in favor of Thornton, and South Plains

gave 63 to 19 for Beedy. Totals, Beedy 231, Thornton 68.

Vote by school district in the trustee-at-large race was unofficially as follows:

District	Batley	Smith
District	1022	24
Floydada	10	742
Lockney	28	47
Lone Star	0	56
Providence	39	2
Sand Hill	36	17
Dougherty	45	0
Lakeview	36	46
Cedar	67	20
South Plains		
Total	1,283	956

In the nine school districts into which Floyd county is now divided results of local trustee elections showed the following to have been chosen:

Floydada, (two to be elected) J. P. Moss, R. G. Dunlap;

Lockney, (two to be elected) Ernest Tannahill, Homer Bartram;

Lone Star, (one to be elected) Tom Word;

Providence (one to be elected) Harold McLaughlin;

Sand Hill (one to be elected) T. C. Hollums;

Dougherty, (three to be elected) Wm. H. (Bill) Smith; Layman (Bundy) Campbell, Maurice Campbell;

Lakeview, (one to be elected) Joe Thurston;

Cannery Contract To Builders Mart

On March 28, the Commissioners court awarded the contract for the Floyd county cannery which is to be built on Lot 3, Block 96, East Mississippi.

Only one bid was received, that of the Builders Mart by Jimmy Willson. The bid at \$4,000.00, turn key job was awarded by the court to the Builders Mart.

Landscape Contract Awarded In the March meeting the Floyd County Commissioners, Park Florist, represented by Elton Oden was awarded the contract to landscape the court house lawn. The court agreed to pay \$578.30 for the job.

The county commissioners agreed that the county would remove the surplus dirt from the lawn and furnish Bermuda grass seed and fertilizer.

The Old Rock House. Caprock stone walls of this historic building will be used in re-construction of the 75-year-old house destroyed by fire Saturday morning, according to first plans projected by A. L. Smith, the owner.

Only the stone walls of the historic Old Rock House at Mount Blanco stand this week following a fire which destroyed all the contents and woodwork of the building Saturday morning, while the A. L. Smith family, owners, were absent from home.

The fire discovered by mail carrier Owen Crump, of Route 2, Crosbyton, was battled by the carrier and neighbors of the Smith family, but ineffectively. There was practically no salvage of household effects, only the clothes worn by the family group being saved.

While the neighbors are making plans for a shower for the family Friday night to put them back in housekeeping once more, A. L. Smith, the owner, is viewing the scene and totting up the damage, with a view to re-building. This week it appeared he would be able to use the old walls, built of caprock stone, a durable magnesia limestone, with which the structure was put together 75 years ago by his grandfather. The mortar in the walls is also of lime made from the caprock limestone.

Loss Being Estimated J. H. Reagan, local insurance agent, reported that W. A. Gound and Smith are making figures and estimates of the damage to the building and the family is invoicing their household losses. Total insurance carried was \$9,000, Reagan said. The old house had been completely modernized, with lights, gas and water, and was a quite comfortable home. Smith is a son of R. B. Smith, and a grandson of H. C. Smith, the Confederate scout, Indian trader, and freight contractor. With the Old Rock House the present occupant owns about a section of land of the original ranch.

Home Started in 1874 The Old Rock House is 19 miles southeast of Floydada in Blanco canyon and about 18 miles north-west of Crosbyton. Its construction was begun in 1874 by H. C. Smith for a man bearing the assumed name of Charles Tasker and for an Irish lord of the name of Jamieson. Their plan was to start a ranch,

running their cattle in the Blanco with the canyon rims as natural barriers or fences. According to Claude V. Hall's Early History of Floyd County, Jamieson withdrew from the enterprise when his hand was accidentally shot off while en route to Mt. Blanco from Fort Griffin. Tasker continued with the project, but an uncle, a rich manufacturer, refused to back him further. In his extremity, as creditors closed in, Tasker left the country. Smith

had advanced the adventure about \$11,000, and obtained the unfinished house as part compensation for his advances. Thus Hank Smith became a "nestor" to save total loss of the money he had put into the enterprise. He finished the two-story stone residence in 1877 and he and his family moved into it, coming from Fort Griffin.

In 1879 the post office department created Mount Blanco post office and Mrs. H. C. Smith served as postmaster there for 39 years. H. C. died in 1912. The property later came into the ownership of R. B. Smith, father of A. L. Smith, and it was R. B. Smith who named and dedicated the Hank Smith Memorial park on grounds adjacent to the Old Rock House in honor of his parents.

Judging of construction will be done during the morning. At 1:30 the dresses will be judged, on the dresses and the public revue will be at 3:30. Arrangements will be in charge of the adult leaders 4-H committee. The following classes of dresses will be made and modeled by the 4-H club girls:

Views and Comment

Of course nothing like it is ever going to happen in the life time of any grown man now, but the fact that the actual cost of manufacturing automobiles has come down so much in recent years that most any reputable car maker could at this time pay good wages, maintain good working conditions and at the same time build a car suitable for general transportation such as many now drive at a cost that would little exceed the taxes that go into the automobile. Meaning that if it were not for taxes and the increases in costs chargeable to taxes the price of the car you are driving would be a way down from the price you paid. However, taxes we have, and mostly of our own making, at least with our tacit permission. Taxes, good or bad, are the instrumentality through which most of the nations of the past finally came to an end. Not such taxes as you pay in Floydada or Floyd county, not such rates we mean. Floyd county people do not know how lucky they are in respect to local assessments until they look around.

Everybody else may have known all the time that the geographical center of Texas is not far from Brownwood—marked by a live oak tree overlooked by a rugged hill. How we came to know about it at this time is the fact that a huge Easter sunrise service is to be held on the hill where a natural amphitheatre has been cleared. The Brownwood people are showering the state with stories on the forthcoming event, and telling about the live oak tree incidentally. Although Floydada is 120 miles from the New Mexico line on the west, the geographical center of the state, according to this story we assume to be correct, is five counties south and four counties east of us.

The current race between motor car builders to see who can put the most horses in the power plants which propel their vehicles is bringing on a problem of another but allied kind. This problem is one of maintenance of the highways of this state, presumably other states as well. Our information is not first hand for the statement that not many miles, comparatively, of the roads in Texas are built to take the punishment that the 1952 models are dishing out. It is smart now amongst the youngsters to see how fast you can be cruising when suddenly throwing on a surge of power will spin the wheels as the automobile tires grip the road. Some of them are getting some pretty good

records. A seven and a half thousand dollar road is not built to take that kind of punishment. What the youngsters do for the fun of it illustrates what will also happen in use otherwise by the general public. Meanwhile the race for power and more power goes on, the builders being unable, of course, to bring a halt to their madness, if such it is.

To us it is a remarkable thing how the Santa Fe writer who reports periodically on agricultural conditions in the Santa Fe southwest can so pinpoint the information he gives and express himself with such exactness. You can't help envying a person who has so much information and the ability to set it down in such excellent fashion. You don't have to get out into the territory to know about the wheat crop of the southwest this week for instance, if you've read the Santa Fe report. Our compliments to some of us unknown.

A bit of a peeve we have about a little old thing, that doesn't mean anything at that, is the complete omission of any news from the leading 1951 wheat producing county in the state in a report of the Texas Employment commission on the condition of and the outlook for the wheat crop in Texas for 1952. The report mentions everybody's town and county from Sherman and McKinney to Lamesa and Littlefield except Floyd. Perhaps it tells the story but in the trade they know about Floyd county being generally at the top or second only for all these years, and that's the first county they'd like to see about how things are doing. In small type we admit that the leading county has a good deal of sick looking wheat, and if no rain comes we'd be delighted if the Texas Employment commission continues to ignore the leading wheat county.

SO OFTEN WRONG. — "Folks are so often wrong. Thirty years ago, many thought we were done with cotton. But cotton didn't go. And freezing margarine from unjust taxes didn't ruin the butter market. Less butter is being made, but the milk is going to even more beneficial uses." J. M. Eleazer, S. C. Extension Service.

Anyone who thinks he's indispensable should stick his finger in a bowl of water and then notice the hole it leaves when he takes it out.

CHRYSLER FirePower is so much more than HORSEPOWER

- + It's worth remembering that today's Chrysler V-8 is not a "warmed-over" engine, but basically brand new... the first truly new type engine of modern times. It does, indeed, open new horsepower potentials, but what it can mean to you goes way beyond just that...
- + FirePower gives your gasoline a better place to work... the first hemispherical combustion chamber in a stock-car engine. It makes possible more power from every drop of gas. You feel it the minute you open up a Chrysler, in greater accelerating power than you've ever had at your command...

- + FirePower is also a better-built engine throughout. It doesn't require premium fuel. It runs with less waste, less heat, less wear, less carbon deposit than other type engines can do. More of your gasoline's energy is turned into actual road power, greater reserve for passing and top speeds when needed...
- + Why not drive this revolutionary new-type engine, and feel its wonderful difference for yourself? Let your Chrysler dealer show you how much more than horsepower your money can buy in the engine Chrysler has designed from scratch to do an engine's job better, longer, and more efficiently than previous engines can hope to do!

Texas Voting Service Men

Armed services personnel who are qualified to vote in Texas and who are on extended active duty may vote during 1952 without paying their poll tax and without obtaining a poll tax "exemption certificate." Whether the poll tax is levied by the state or any political subdivision, the serviceman need not pay it to vote in any election.

Any person who, at the time of the election, or within 18 months prior to the date of the election, was on extended active duty as a member of any of the reserve components of the armed forces, a selective service draftee, a member of the national guard, the United States Maritime service, or the United States merchant marine, may vote even though he has not paid his poll tax or obtained a certificate of exemption. To vote without paying his poll tax, the serviceman must be or must have been on extended active duty and not merely on active duty; for example, a reservist on active duty for a week-end or for several weeks during the summer must pay his poll tax to vote.

The constitution waives the requirement of payment of the poll tax as a condition precedent to the right to vote for these servicemen. Servicemen's wives and dependents and civilians serving with the armed forces must either pay their poll taxes or obtain an "exemption certificate." In order to vote, a poll tax receipt, "exemption certificate," or affidavit that the receipt or certificate has been lost or mislaid must accompany the application for absentee ballot made by these persons. Except for these differences, these persons may vote by absentee ballot in the manner here described for voting by Servicemen.

Procedure for Voting

Shepherd's instructions also detailed how servicemen can make applications for ballots and the procedure for voting:

Servicemen may make application for absentee ballot at any time. Application should be made to the county clerk of the county in which the serviceman has his residence. However, the armed forces, air mail, "application for ballot" postcard

will be accepted by the Secretary of State and will be forwarded promptly to the appropriate county clerk. The post card application for an absentee ballot seems satisfactory except that it has no space for the serviceman to indicate whether he is a member of the regular or permanent military establishment.

As soon as the ballots are ready, the county clerk may mail the absentee ballot to the qualified applicant who has made application. However, no absentee ballots may be mailed by the county clerk later than three days prior to the day of the election. As members of the regular military establishment are not qualified to vote and as the armed forces post card application has no space to indicate whether the applicant is a qualified serviceman or not, it seems advisable for county clerks to take steps to obtain that information. It is suggested that the statement, "I am not a member of the regular or permanent military or naval establishment of the United States," be added to the application for absentee ballot or to the statement which the serviceman makes under oath and returns with his completed ballot.

The ballot must be marked by the voter in the presence of a notary public or other person qualified under the law to take acknowledgments, and the affidavit on the ballot envelope must be filled out, signed, and sworn to by the voter and certified by the officer.

The ballot cannot be marked sooner than 20 days nor later than 3 days prior to the day of the election, and the completed ballot must be received by the county clerk by 7 p.m. on the day of the election.

Muddy Road ahead for Korean Commi's

GREAT LAKES, ILL.—There's a muddy road ahead for the Communists in North Korea as their railroad tracks and coastal highways are torn apart by shells from the heavy cruiser USS Rochester with such men aboard as John T. D. Wilson, seaman apprentice, USN, son of Mr. and Mrs. R. H. Wilson, and husband of Mrs. Betty F. Wilson, all of Route 1, Ralls, Texas.

The Rochester serving with United Nations forces in Korean waters, has been busy destroying Communist troops, supplies, gun positions, railroad tracks and coastal highways. The damage done to Communist railroad tracks and highways, has forced them to use poor mountain trails in moving supplies and replacements to the forward areas.

These examples of federal waste and inefficiency were unearthed by the bipartisan Hoover Commission. They are a challenge to the safety of our country—a challenge that must be met by you!

- The General Services Agency (a product of the Hoover Report recommendations) found that one federal agency had stocked a 93-year supply of fluorescent bulbs . . . and that another had enough loose-leaf binders to last 247 years.
- The Veterans Administration employs 4 times as much manpower per insurance policy as private insurance companies do, yet takes 5 times as long to pay widows' death claims.
- The Bureau of Reclamation and the Army Corps of Engineers, in jealous competition for public funds, ran surveys for a dam in Hell's Canyon, Idaho. Each survey cost taxpayers \$250,000—only one survey was needed!
- "Hidden" Subsidies to airlines add millions of dollars a year to the Post Office deficit.

During 1951 Congress voted to raise the federal budget by 70%. But little attention was given to the economical management of this huge budget. As a result, important legislation

"These recommendations have got to go through!"

says a business man.

"From now on I'm not voting for any Congressman or Senator unless his platform is to eliminate waste in government. That means full support of bills recommended by the Hoover Report. I'm not just saying that, I'm writing it . . . to my Congressman."

recommended in the bipartisan Hoover Report was passed over with hardly a glance.

This was done in spite of the fact that 100% enactment of these recommendations would cut waste in our federal government by an estimated \$5½ billion!

It's up to you, the individual citizen, to make the score different in '52. You can do this by writing your Congressman and telling him to back the Hoover Report recommendations. This is the only way we can win. For the recommendations face strong opposition from heedless groups who don't want to see their little applecart upset.

Send today for a copy of our FREE booklet, "Saving Dollars." It gives all the facts behind the Hoover Report and shows what must be done to keep our country in fighting trim. Tell your friends about it—and write your Congressman!

First Baptist Revival to Open Easter Morn, Dr. Brian Preaching

Beginning of a revival campaign at the First Baptist church Easter Sunday morning will bring Dr. A. A. Brian, vice-president of Howard Payne college to Floydada as preacher for a two week series of twice daily services lasting through April 27.

R. Earl Allen, pastor of the church said that Dr. Joe Trussell, song service leader for the meeting, will reach Floydada Monday to join in the campaign. Easter music will be featured in the Sunday morning worship by the choir under the direction of Noble Abbott, and the choir also will present an Easter program of music in the evening at 7:40.

Former District Missionary Dr. Brian, prior to his association with Howard Payne college, served pastorates in west Texas and is a former district missionary of this area. He was pastor of the First church at Levelland for 10 years, and of the First church at Brownfield for nine years.

Dr. Trussell is the best-known of all evangelistic singers among Baptists in Texas. He was in the Floydada church some 15 years ago. He has recorded many albums of music.

The pastor of the church especially invites those without a church home to attend any of the services and all who come will be assured of a cordial welcome, he said.

Sunday School Growing
The First Baptist church is having growing pains. Among other evidences of this fact is the need for more church school rooms. To remedy this situation temporarily the officers have purchased temporary housing that will be moved to the recently purchased lots adjoining the church property. This will make possible larger attendance in the Sunday school. The Sunday school is setting the highest attendance in the church history. All the church organizations are growing and all of this calls for more room. Pastor Allen said that the church balcony is being reworked and re-seated to provide more space for the worship services.

LIPSTICK LOGIC
BY LOUISE ALLEN

When it comes to hats—and like it or not, it usually does around Easter—Women can be pretty sharply divided into those who like 'em and those who don't.

To the masculine eye, this distinction may be apparent. The average man might argue that all women like hats; that the difference lies between those who like crazy hats and those who like sensible ones.

Furthermore, they'd class as "crazy" any hat which, on Easter morning, vies with the preacher for attention.

But if a woman were asked to line the do's and don'ts up on opposite sides of the middle aisle, she's probably get half the fussy hats on one side, with an equal number of plain ones mixed in, and half on the other.

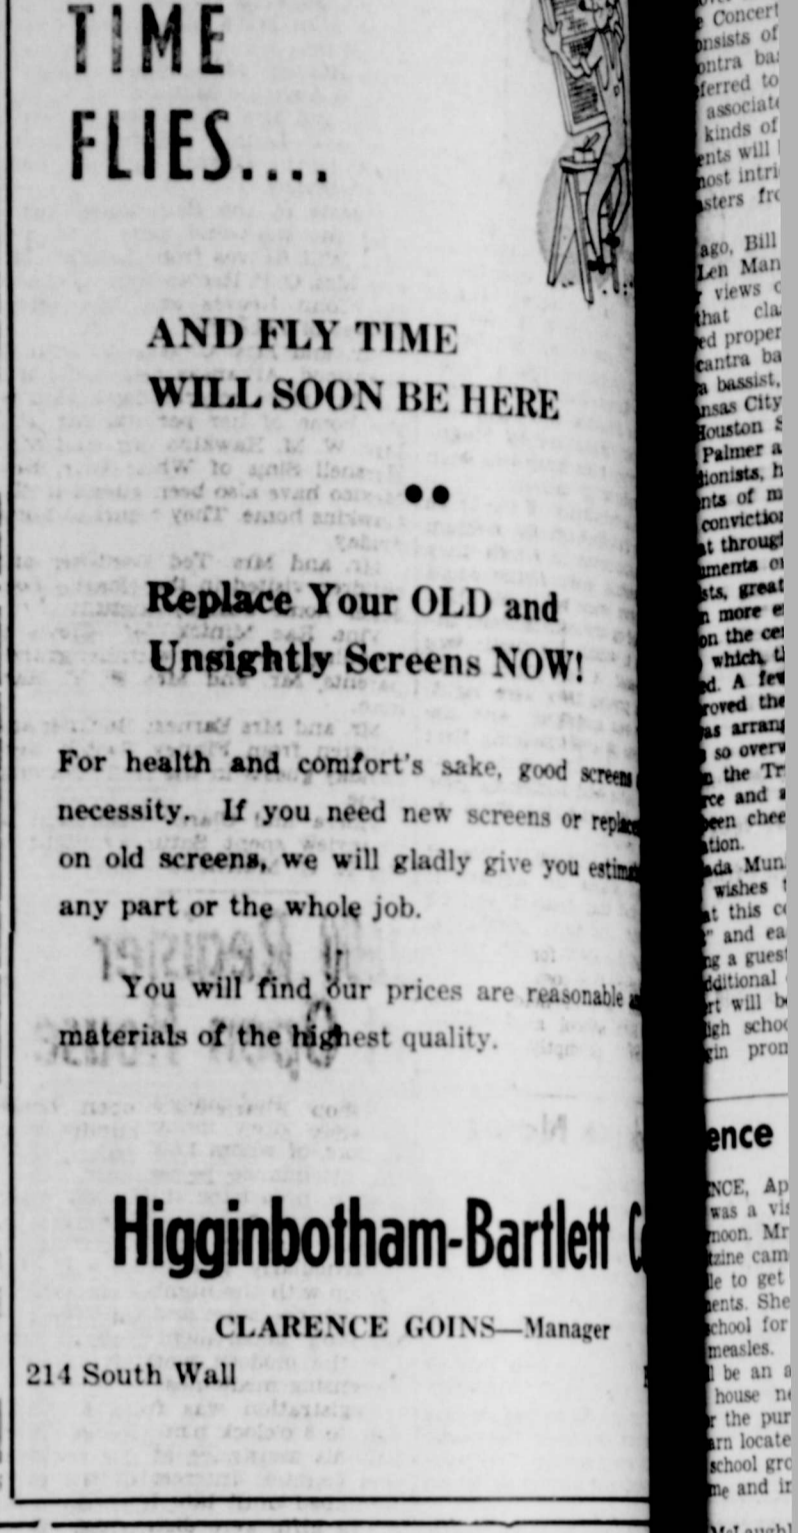

Indeed, the woman who dislikes all hats are more unpredictable when it comes to buying an Easter bonnet than their hat-loving sisters. One type will reason, "I won't wear this thing but once anyway, so what does it matter?" Another, perhaps timid by nature, will admiringly study some vivacious acquaintance, then select a bold number that suits her own personality about like a pink

ribbon would suit a dashhound. Still another, protesting the whole idea, will choose the plainest model possible. Occasionally a woman with the courage of her convictions shows up amidst all the ribbons and flowers completely hatless.

Hat lovers, on the other hand, can be spotted less easily by their headgear than by their manner. To most of them, whether the hat cost

How to have a winning TELEPHONE PERSONALITY
by EMILY POST

We're often judged by the way we use telephone service. Good telephone technique and good telephone manners are important to a winning personality... and help you get the most from your telephone service.

A friend of mine who travels a lot tells me she has found a way to improve her telephoning on trips.

"It saves a lot of trouble," she says, "to have a list of the numbers you may want to call with you. I carry mine in a handy little book. And you would be surprised how much faster long distance calls go through when you give the operator the number you want." Incidentally, the telephone business office will be glad to give you a pocket-size book—handy for use at home, office, or when traveling—to list your long distance numbers in, and it's free for the asking.

My mail shows that many people have friends who use an extra-loud voice over the telephone. They ask, "Does shouting over the wire help?"

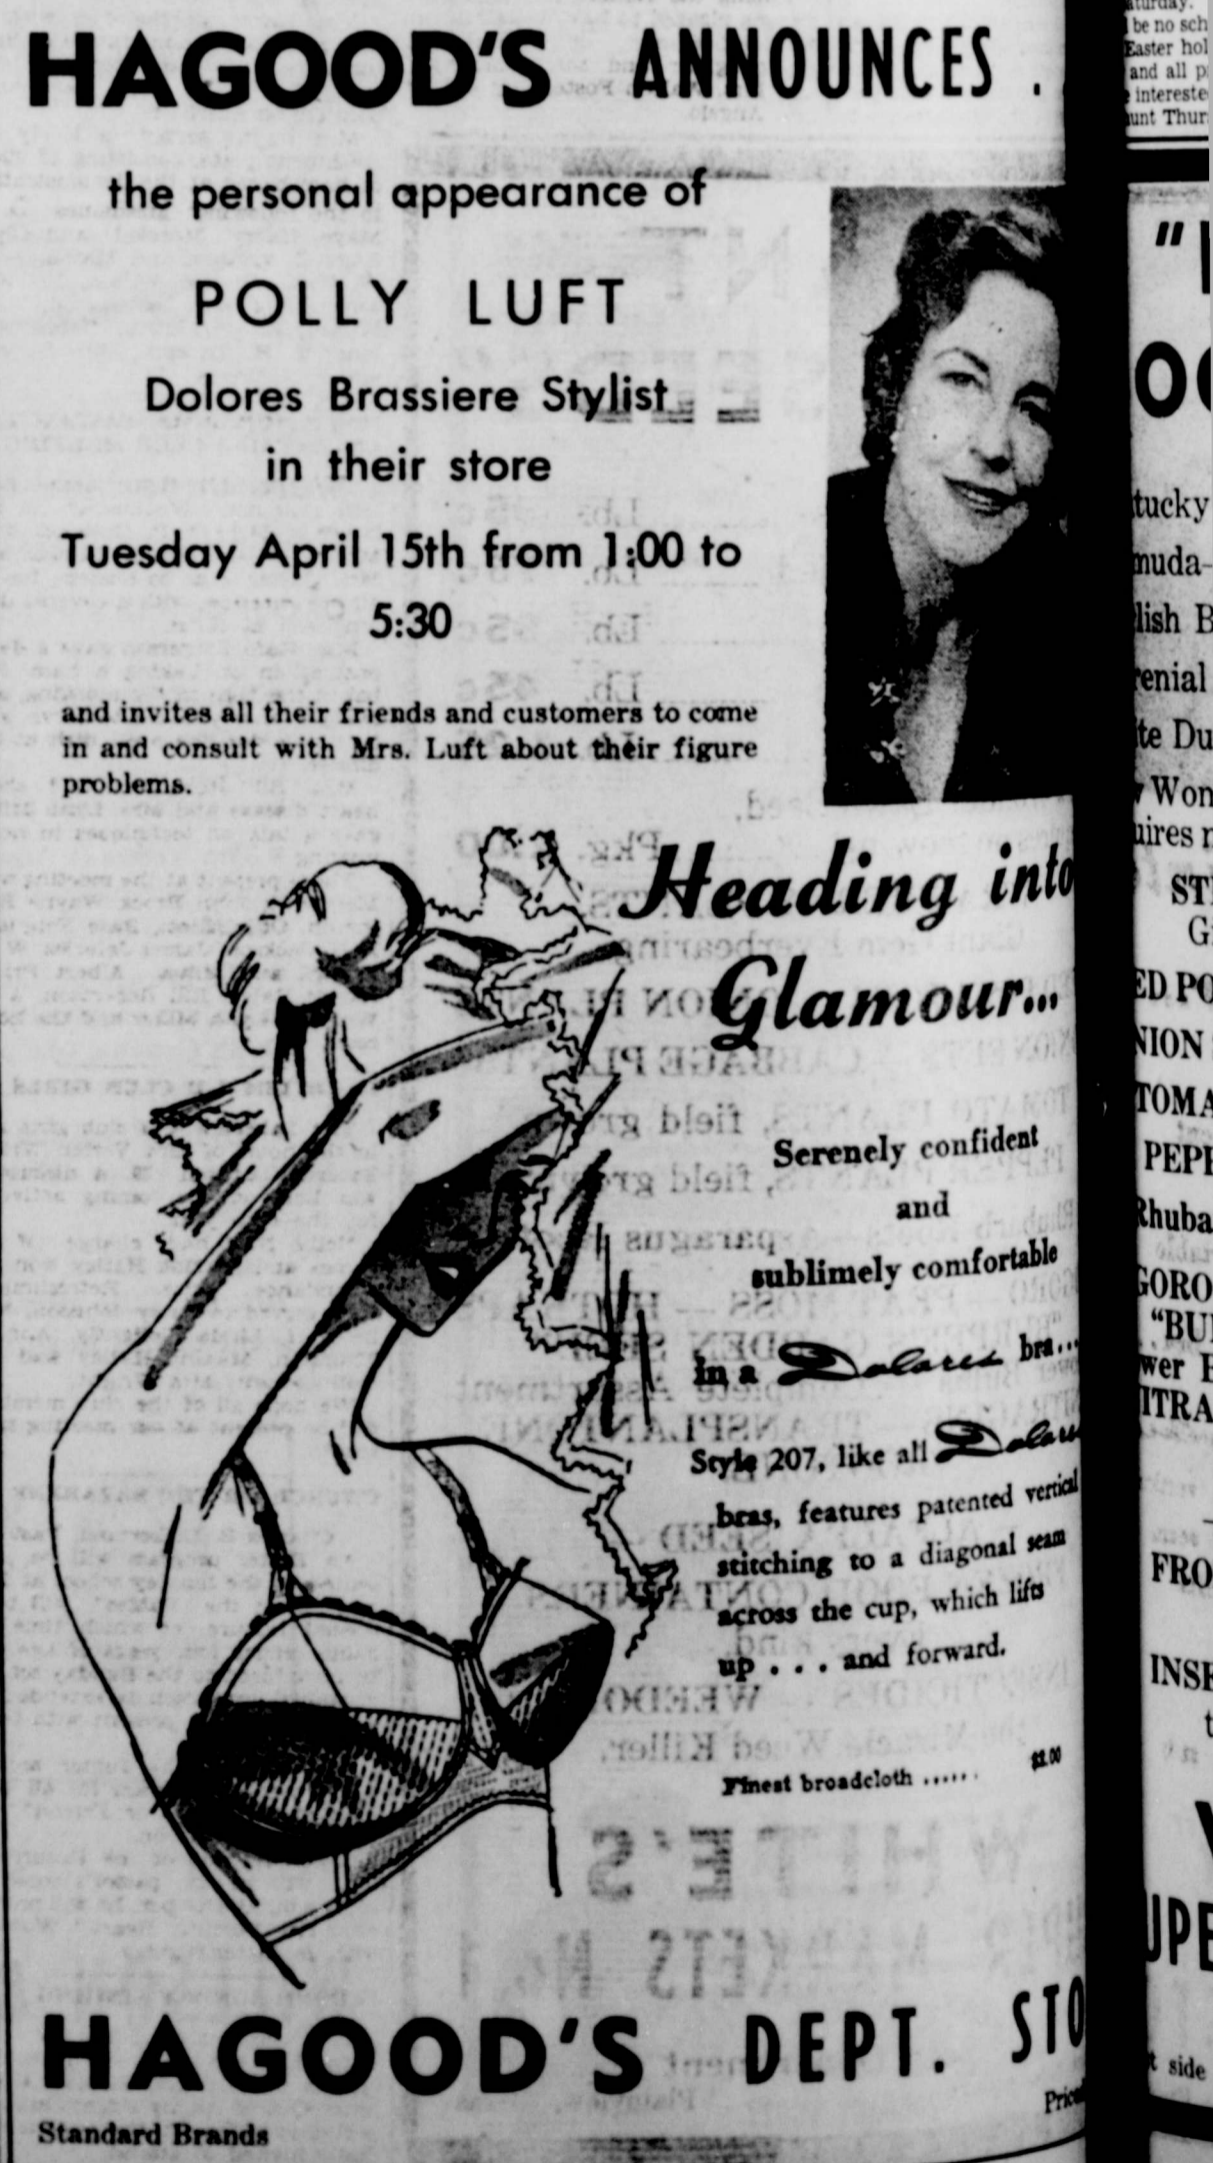

No, quite the contrary. A loud voice is always unpleasant and does not mean that you can be heard better. A special effort to talk clearly and distinctly into the receiver makes it easier for your friends to understand you, and it brings rewards in the form of a more pleasant telephone personality.

A correspondent who lives in the country on a party line asks, "Should emergency calls be given special priority?"

I think the obvious answer is "Yes, of course." Don't you? After all, it's just plain good manners to let your party line neighbor use the telephone when some special need arises. And then, too, the more consideration you show, the more consideration you will receive.

Ode to Lakeview School Written By Graduating Girl

(The lines below were written by Maxine Hatley of the 8th grade in the Lakeview school, on her graduation from the 8th grade to high school. — Ed Note)

I'll Never Forget Grade School.
As the school bell rang today
There was a sad feeling in my heart,
In the school house I longed to stay
But yet I knew that we must part.

It was not like the other years,
For again I would return in the fall,
But next year we'll have other fears,
For we won't return at all.

As I walk out of the big arched doors,
I'll remember the days that lay behind it,
For lessons I'll enter no more,
Never again in the old desk I'll sit.

Now I look at the front of the school
I think how I've studied day after day,
And how I've tried not to break the rule,
Oh, how I wish that I might stay.

But the time has come to say good-bye
And on to high school I must go,
But I'll try to keep my spirits high
And make my grades the best I know.

I'll always remember everyone and everything,
I'll remember every class and every class room,
I'll always remember the old bell and its ring
And always in my heart these days will bloom.

Holmes Thinks TV Coming To Plains in '53

Daytime radio broadcasting has the brightest future in history, and although TV is coming to every area in years to come, it will not affect daytime radio.

This is the opinion of Ed Holmes, president of KFLD who has returned from Chicago where he attended a radio and TV meeting. He was accompanied to the Chicago meeting by Clint Formby, manager of KPAN in Hereford, and Marshall Furnby, owner of KPAN and vice-president of KFLD. Due to business reasons B. A. Robertson secretary-treasurer of KFLD was unable to make the trip.

These three men spent several days in Chicago attending the meeting and conferring with radio organizations. A number of Texas radio men were at the meeting.

Best Years in History

Radio stations which properly give local coverage and provide local audiences with ample music and other entertainment are enjoying the best years in the history of radio. Mr. Holmes pointed out that radio stations working in cooperation with the local newspapers have done more for small towns in America than is realized in building up trade and good will for the "Home Town."

Holmes said that he expected TV to come to the Panhandle perhaps in 1953. "But it is not coming here as soon as some of the boys in Amarillo would make us believe. Eventually it will come to the smaller towns. But right now the higher cost of operation, and the higher cost necessary to charge for advertising makes it an impossibility for the smaller towns. We'll be glad to see it come to the Panhandle area for it works hand in hand with daytime radio and local newspapers."

'Crucifixion' Is Impressive Presentation

The Community chorus presentation of John Stainer's "The Crucifixion" as a pre-Easter cantata last Sunday afternoon was an impressive musical event in the life of the community. It was heard by an appreciative audience.

Forty good voices, some of them unusually well-trained, had parts in the cantata, either in solo or chorus. A distinguished guest soloist with the group was Robert Page, director of the Eastern New Mexico University choir. Four other members of the New Mexico singing group also sang with the chorus.

Local singers, Myron Kattner, O. M. Watson, Jr., Bob Copeland had featured parts. Mrs. Bob Copeland was organist and Miss Ruby Lee Bevil was director.

Guest singers who came with Mr. Page and sang with the chorus were Miss Ellen Jane Poch, Norman Hatch, and Mrs. Anna Mary Mears, the latter a sister of Miss Bevil.

As indicated by the title the cantata told the story of the crucifixion. The numbers were given as follows:

The Agony, Page, Kattner, Rev. Tom Waters and Chorus; Processional to Calvary, Page and Chorus; And when they came, Kattner; Cross of Jesus, Chorus; He made Himself, Kattner; The divine humiliation, Page; God so loved the world, Kattner and Chorus; Litany of the passion, Chorus; So Thou livest, Page and Kattner; And one of the malefactors, Kattner, Bob Copeland, Olin Watson, Jr.; Adoration of the Crucified, Chorus; When Jesus saw His mother, Page.

EDITORIAL EASTER

Easter is the spring religious festival, which honors the resurrection of Jesus. One is that it marks the return of Christ to life. Second is that it means the end of forty days of Lent. Third is the holiday for the greeting of spring.

Some Easter customs are quaint and others are full of meaning. Just as earth is dressed in a new cloak of greenery, people too are expected to wear new spring clothes. The idea of Easter eggs originated in Persia. The eggs are a sign of new life, and legend has it that they are laid by the Easter Rabbit on Easter Eve. In every Easter celebration a picture model of the Cross is presented to remind one of the day's religious meanings. White lilies decorate every church altar, as a symbol of purity and light.

CANDID CAMERA
Our candid camera, Betty Blum, is a very cute and likeable girl. She is to be the sophomore cheerleader for next year. Betty was born at Slaton, Texas on November 16, 1936. She is 4 feet 11 inches tall, has blue eyes, light brown hair and weighs 102 pounds.

Betty likes fried chicken, creamed potatoes, simple and neat clothes, friendly people, and to have lots of fun.

She dislikes unfriendly people, and boys that show off.

Betty tells us that her favorite actor is Gordon McRae and her favorite actress is Doris Day. "Show boat" is very definitely her favorite movie.

Betty's most perfect day would begin as she gets up at 9:00 a.m. and eats a breakfast consisting of ham and eggs. She would go for a ride until about 11:30, then eat a lunch of fried chicken, creamed potatoes, English peas, rolls, and a tall glass of cold milk, pie-a-la mode. She would fool around the rest of the day. For supper she would eat a light snack, then be in bed by 10:00 p.m. (Say, Betty, what do you plan to do until 10:00?? huh??)

You're a swell girl, Betty. Lots of luck, always!!

Another one of our freshmen students is Glad L. (Sorry, Glad) Norman which we have chosen for our other part of the camera. Glad was born in Amarillo November 10, 1936. He is 5 feet 7 1/2 inches tall, has brown eyes and black hair, weighs 136 pounds.

He likes chicken, corn-on-the-cob, gravy, and iced tea. Also, he likes simple sport clothes.

Glad tells us that he dislikes turnips, lockney, and girls that think they are too good for the boys. His favorite actor is very definitely James Stewart and he says he surely likes Ma Kettle. "The Jolson Story" is his favorite show.

On his most perfect day, we find Glad rising slowly out of bed at 9:00 and going down to eat a light (?) breakfast of sausage, two eggs, a glass of milk and a piece of toast. He would then get out and get in his Cadillac (with skirts and twin spot lights, no less) and go by and get Larry, Jackie Don, and Bill and speed out to the new country club (the one they are talking about building, I suppose) and watch a television show and then go swimming. Then, he would come back to town. Now, he would go to Amarillo to a big dance and afterwards he would start for home. Now, he would go by the girls house and they would cook for Larry, Jackie Don, Bill, and Glad (Of course) a big Mid-night snack. He would then go home and go to bed. Whew!! What a day.

Good Luck to you Glad. You are a great fellow!!

My Kind of Man
Glynell Armstrong..... He would be 6 feet tall, have dark hair, and be very likeable. He would like to do what I do. He would be understanding and be good in sports.
Beuna Holmes..... Just any old thing.

My Kind of Woman
Jackie Henry..... She would be pretty, understanding, and like to do everything I like to do. She must be friendly, and be liked by everyone.
Jackie Womack..... She must be pretty and neatly dressed. She would like to do the things I like to do. She must like everyone of my friends, and she must not two-time me.

What Would U Do?
(If someone handed you a Pip-it) Gordon Joiner..... Take it home and feed it.
Mr. Foster..... Give it away.
Roger Poage..... Kill it, I guess.
Bob Copeland..... I don't know.
Barry Pyffe..... Eat it with ice-cream.
Bobby Carmack..... I'd ride it.
Buena Holmes..... Give it to Captain Video.
Betty Blum..... Wear it.
Darlene Bryant..... Throw it away.
Dolores Gee..... Give it to Ruthie.
Gerry Graves..... Sell it.
Jack Womack..... Eat it, I guess.
Jackie Henry..... Take it on a date.
Larry Glassmoyer..... Let it be my slave.
Doyle Grundy..... Give it cornet lessons.
Mrs. Graves..... Teach it "Moon-calf Mugford."
A pip-it is a small bird, similar to a lark.

a thought for easter

The message of Easter is far deeper and more vital than can be symbolized by rabbits, or lilies, or even the latest in Spring attire!

Just as Spring brings an awakening of much in nature that seemed dead during the Winter, so Easter brings to our souls the glorious assurance of divine victory over death.

(By Mrs. J. E. Green)

CENTER, April 8. — Easter will soon be here. We have been having some beautiful spring days and nights lately. But this is West Texas. It pays to still take along our coats when we leave home.

We were glad to have Mrs. Fred Jones of Wichita Falls, also Mrs. Jackson of Floydada in our church services Sunday.

Bro. and Mrs. Hodges and Jerry were dinner guests Sunday of the R. Robertson family.

Mrs. R. C. Ross was unable to be church Sunday, but about all our people who were ill are up and able to be out again.

The J. E. Greens made a flying trip to Plainview Saturday.

3-4 plow 44 L.P.*

Liquid Petroleum burns cleaner, reduces carbon deposits and practically eliminates crankcase dilution.

The Massey-Harris 44 L.P. is custom designed and factory built for efficient operation on L.P. fuel. And because it is built as a complete L.P. unit, the 44 L.P. gives you the same high-power rating as the 44 Gas—the same belt and drawbar efficiency.

In addition you get the economy of operating on low-cost fuel, and the low engine upkeep that results from the use of clean-burning, high-octane L.P.

Ask for a demonstration of the 44 L.P. . . let us show you the tractor that gives you lower operating costs and maximum power in its class.
