

REA Annual Meeting Scheduled Saturday

At the big annual meeting of the Floyd County Rural Electric cooperative opening Saturday morning at the American Legion hall the expectation is that there will be representatives of more than a thousand families of the 3,000 or more on the rolls of the organization in Floyd, Hale, Swisher, Crosby, Briscoe, and Motley counties.

Announcing the plans this week for an all-day affair beginning at 10 o'clock, manager Melvin Henry, said that a full day's program is planned, with entertainment features interspersed throughout the day.

Ned Bradley, Antelope, southeast

Floyd county member, will be the master of ceremonies throughout the day, said Henry. Bernie Howell, popular organist of Lubbock will appear both morning and afternoon with organ numbers, and there will be other entertainment. Among those on the entertainment program will be the Eller children of Petersburg, popular amateur entertainers.

The Planning committee for the annual meeting of REA members in Floydada Saturday is not sure how big their crowd will be for dinner, but in anticipation of the probability that there will be a large crowd, yesterday reported 1,000 pounds of ham and 500 pies are on order for delivery Saturday morning, besides drinks and other eatables.

Events Shape Up For Annual Pioneers' Day

While no official session has been held by the executive committee of the Floyd County Pioneers association looking toward their annual reunion Wednesday, May 28, matters are shaping up for the event just the same. Among other things:

President Irvin Bennett is planning for a barbecue for the old settlers who register, promising a 1,400 pound beef for the occasion and wondering if some other donors can't be found to round out "a square meal for the old-timers."

District Judge Alton B. Chapman has been promised that Texas Attorney General Price, Daniel will address the old settlers at their gathering, a non-political talk by the leading candidate for the place of Senator Tom Connally in the U. S. Senate.

Secretary K. D. Crouch of the Floyd County Sheriff's Posse says his organization will join in the old settlers parade and expects to have five visiting riding clubs here as their guests on the re-union date. The posse is planning a barbecue for the visiting posse members and their families. The plan also includes trophies to the first, second and third best posses. Their day of activities will be topped off with a match roping contest and a jackpot roping at the Floydada Rodeo association arena.

Additionally C-C Manager O. M. Watson, Jr., said his organization is ready to help with any plans the old settlers may make, but "without trying to run their show for them." Watson thinks he could be working now on entries for the parade if the pioneers want that kind of help.

May 28, 1890, is the date on which Floyd county was organized and set to work as a political unit by the pioneering settlers. The date has been observed annually for about 30 years.

Radio Station Lusty Year-Old

That radio station KFPLD is a lusty year-old was given ample evidence Sunday afternoon when station officials, employees and friends celebrated the first birthday of the station and local authorities gave their blessings by attendance and participation in the hours long program.

Congratulations poured in from all sides for the owners, Ed Holmes, Marshall Formby and A. B. Robertson, for manager Wayne Robinson and for station employees. Among those who appeared on the broadcast were County Judge Frank L. Moore and Floydada Mayor J. A. Patterson. The station owners made brief talks, acknowledging the praise of their friends and promising renewed efforts to make the station of further use to the area served. A special birthday greeting from Station KPAN of Hereford was broadcast. Programs and personages from Matador, Tulla, Spur, Petersburg, Falls and Lubbock were included in the afternoon's events.

Mr. J. J. Spikes, Hesperian columnist, and Mrs. Maud E. Hollums, secretary of the Floyd County Pioneers association, spoke briefly, and the usual Sunday afternoon program broadcasts were given.

Six hundred visitors from several counties signed the birthday party register.

Irrigation Rate In Effect Now

If you live in Floydada you'll be interested in the announcement that the summer irrigation rates have become effective since the reading of the meters this week and will be reflected in your week 1 statement from the city.

The summer rates, B. K. Barker, city secretary, states, are 25 cents per thousand for the first 12 thousand gallons and 20 cents per thousand thereafter. That's higher than it used to be but a lot lower than some of the other things you buy. It's a chance to keep your lawns and shrubs, trees and flower gardens going at a lower cost, the city secretary said.

Mrs. R. A. Burrows Rites To Be Held This Afternoon

Funeral services for Mrs. R. A. Burrows who succumbed at her home 229 East Kentucky street at 10 o'clock Tuesday morning, will be conducted from the First Baptist church this afternoon at 3 o'clock with the pastor, R. Earl Allen officiating.

Interment will be in the Floydada cemetery under the direction of the Harmon funeral home.

Pallbearers for the service are Norman Hamilton, Milton Jetton, A. M. Dorsey, Aaron Carthel, Joe Martin, and Oscar Warren.

Mrs. Burrows had been in ill health for several years and bedfast for the past month suffering a number of strokes, which caused her death.

Margaret Thomas Burrows was born on January 7, 1882 in Arkansas and was united in marriage to R. A. Burrows on September 19, 1897 in Cleveland county Oklahoma. Mr. and Mrs. Burrows moved to Floyd county in January 1908 from Hale county where they had moved (See Burrows Funeral, back page).

Green Shale, Lime In Adams Test For Oil at 4950 Feet

The drill Tuesday noon was at 4,950 feet in green shale and lime on the Minnie Adams No. 1 oil test of Standard Oil Company of Texas, a half mile west of Lakeview.

I. H. Millican, drilling superintendent for Al Buchanan Drilling company, of Odessa, said the drilling speed had picked up a bit in the 24 hours prior to the report, the drill biting through 10 feet of formation in 70 minutes, whereas the speed had been about 10 feet in 80 minutes. There is nothing unusual about the formation they were in at the time of the report, Millican said.

She's a Beauty—Melinda Louise daughter of Mr. and Mrs. Homer L. Ellis of Floydada won first place in the Beauty contest for Babies at Matador, February 22. The young lady is four and one half months old and weighs 20 pounds. For first prize they awarded her a goldtone 8x10 photograph. Grandparents are Mr. and Mrs. Calvin W. Poteet of Floydada and Mr. and Mrs. A. B. Ellis of Scotland, Arkansas.

Floydada Days This Week-End

Floydada Days again Saturday. That's the word that's going the rounds, of buyers and shopkeepers, department stores and all kind of retailers. The latter are out to catch the shoppers' elusive dollar. They find that the best foot forward is the best way to rope the favor of the shopper and get the purse strings untied.

Floydada days is interested as buy-words for bargain days. Department stores of Floydada and other retail shops, a number of them, are going all out on the idea. They want to make it a mid-month feature of the same type as First Monday is at the first of the month.

You'll shop wisely if you eye the offers these mercantile establishments make and spend your money for the items you need most and like best.

Council Grants Phone Rate Hike Ordinance

In one of the busiest sessions in many moons the city council of Floydada Monday night re-considered and repassed the vetoed ordinance granting an increase in rates to the Southwestern Bell Telephone company, which is supposed to give the company an approximate increase in exchange income of 65 per cent over the rates put into effect in 1948.

The new rate begins at \$7.50 for one-party business telephones. This plus federal tax. The lowest bracket is for four-party residence service at \$3 plus federal tax.

Dissenting Mayor J. A. Patterson vetoed the ordinance when first passed in February, invoking a little known and rarely used provision of the Texas statutes governing municipalities organized under the general laws of Texas.

O. A. Thomas, Amarillo district manager of the telephone company, told the council that an authorization for approximately \$35,000 worth of plant facilities to take care of applications for telephone service now on file had been approved for the third quarter. Thomas told the council in February that the "compromise" rates established by the company were being accepted by the company only because it was a

"move in the right direction." Southwestern had sought a rate increase beginning at \$9 for business telephones. "We will have to come back again" he warned the council, declaring the income from the exchange was insufficient to meet expenses.

The new rates do not affect exchange stations outside of the limits of the municipality, numbering several hundred.

Dismissing Voices Heard
Considerable dissent over the increase has been vocal in the community. One "wing" of dissenters maintain the company should install the dial system and then ask for the increase in rates. Another line of thought, voiced Tuesday by Dr. John W. Kimble, is that the company's service to the community has deteriorated materially and that it "should put up first." Dr. Kimble said he would help back injunction proceedings, if such could be done, to keep the new rates from going into effect. He said he would put \$50 in the injunction pot, noting that other utilities serving the community had advanced rates 14 per cent or less and that the municipality had not increased its light rates whatsoever from the figures established in 1941. "The telephone company is just asking too much for what it is putting out," he declared.

The rates established by ordinance originally passed to go into effect on April 11, are as follows:

Interview Young Artists of Area on C-C Program

On the weekly afternoon program of Floydada Chamber of Commerce at 1 o'clock Sunday C-C manager O-M. Watson, Jr., will interview four or five young amateur artists of the area prior to the opening of the Caprock Community Art show which opens Monday following in the county council room at the court house. The broadcast begins at 1 o'clock.

On last Sunday's C-C broadcast period the secretary presented W. E. Garrett and Mrs. C. L. Minor, Jr., in a discussion of the plans and program of the Municipal Concert association.

The Concert Trio, whose concert association program will be given tonight at the high school auditorium, are, left Bill Hughes, Len Manno, and Bill Palmer.

Concert Trio Thursday Night to Give Last Program For Season

Floydada Municipal Concert association will have guest night and will present its last performance of the season Thursday April 17 (tonight) at Floydada High school auditorium. The feature event will be the Concert Trio which includes two accordions and a string bass.

A drive for membership to the Floydada Municipal Concert association will open in July but it is hoped that many of the present members and their guests will renew their membership during inter-

mission or immediately after the concert. This will very greatly simplify the work of the membership committee, says W. E. Garrett, president of the association.

The Concert Trio consisting of two accordions and a string bass (bull fiddle) is Bill Palmer, accordion virtuoso and concert artist with his colleague, Bill Hughes, accordionist and Mr. Manno, the bassist. Since little music has actually been written for such a combination of accordions and contra bass, the Trio's typical program will consist of: Fugue in G Minor by Bach, Overture to the "Marriage of Figaro" by Mozart, Elephant dance from the "Carnival of Animals" by Saint Saens and a medley from Jerome Kern.

In order to make it possible to play the low pedal notes of organ compositions, Mr. Manno, the bassist, has designed a special attachment for his instrument, the bass viol, to increase the range in the low register.

A unit of national reputation, the Concert Trio have met with tremendous success on their tours and will be a treat of the years for members of the Floydada Municipal Concert association, it is believed. The concert will be held at the Floydada High School auditorium tonight at 8 o'clock.

Not "warmed over" but strictly brand new!

YOU OWE it to your pocketbook to drive this Chrysler engine before you buy any fine car today.

It's not a "warmed-over" engine, but a basically brand-new one!

It gives a new kind of performance that means new value for every dollar you pay out for purchase, upkeep, or operation.

It was built brand-new around a hemispherical combustion chamber which makes better use of gasoline, and also permits sounder all-round engine structure, than any American motor car engine has had before.

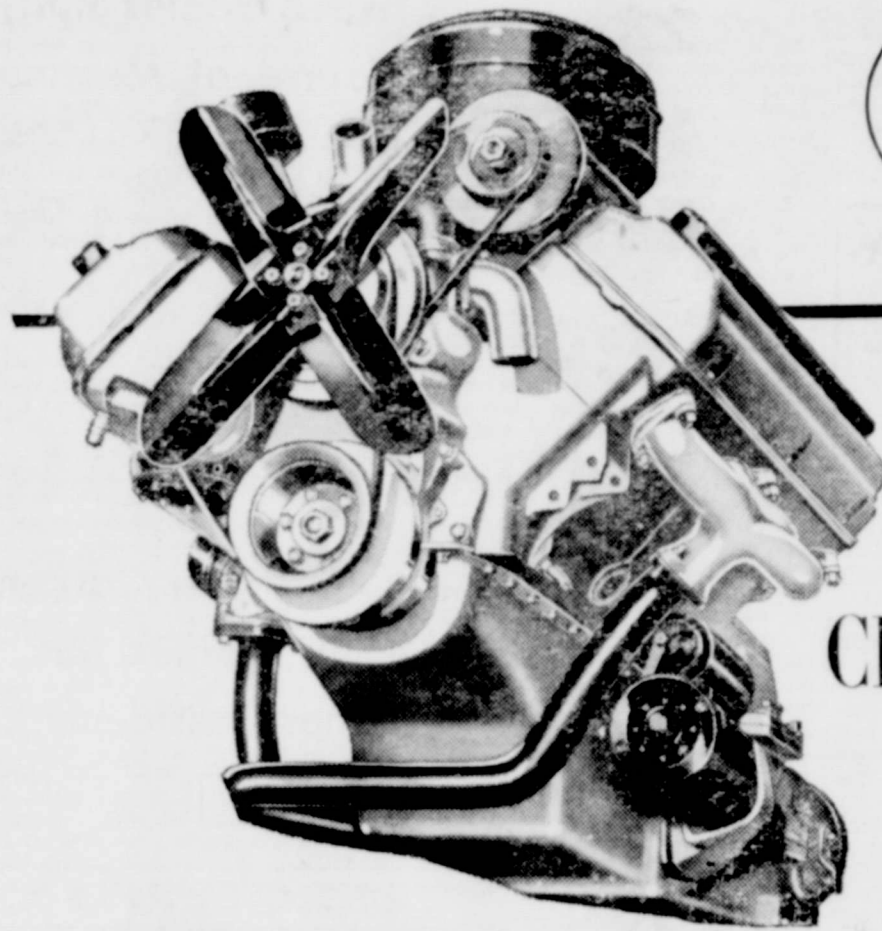

It delivers 180 horsepower... without requiring you to buy premium gasoline. It runs with less waste, less heat, less friction and less wear than previous designs can

equal. Its combustion is so clean it literally develops almost no carbon deposit at all.

It will last longer than any engine you've ever known. It will cost you less along the way. It will stay "young" in performance thousands of miles past the point where an ordinary engine shows old age.

And on top of all that, it makes driving a lot more pleasure! Its smooth response... its safety-power, in reserve for emergencies... its easy scorn for distance or hills... make you just plain feel good at the wheel as you've never felt before.

For the good of your purse and your pleasure too... we invite you to drive it, soon!

Sand Hill Club Entertained at Dougherty Thursd'y

Mrs. Jones, with the president of the club, Mrs. C. A. Caffee, received the guests and Mrs. Bill Smith presided at the guest register.

Mrs. G. W. Smith led the group in a number of get-acquainted games, with Mrs. H. F. Jackson and Mrs. C. B. Carmack receiving gift prizes.

Mrs. W. R. Daniel Guest Speaker

Daniel, guest speaker, and a home demonstration club woman, took the audience with her on a tour of Scotland, England, France, Italy and other points in the eastern theatre of war.

She reached the climax of her experiences when she, with three other Red Cross workers, received awards of honor for going beyond the line of duty in serving donuts and coffee to the GI's just back of the fighting line on a Christmas day.

After some time spent in Porto Rico and other South Pacific islands, she swayed her audience with "Home and what it means to those who have been on foreign soil," with colored films made in the United States, Texas and Floyd county, ending with her own Home, Sweet Home, at Blanco.

Mrs. Daniel high-lighted her travelogue with China, crystal, laces and linens and other articles collected during her war career.

Sand Hill ladies present for the afternoon were Mesdames H. P. Jackson, A. V. Womack, Albert Pricer, John Henry Brock, C. B. Carmack, Fred Jackson, W. Lynn Miller.

LIPSTICK LOGIC

BY LOUISE ALLEN

Considering it's only a bunch of board and plaster, a house can "feel" more different ways. Take this matter of quietness: Sometimes it's a friendly, peaceful quiet, then again it's so oppressive it pushes you right out the front door.

One of the nice human quites comes on a week-day morning, after you've got the family off for the day. Maybe you get up feeling punk, force yourself to get breakfast on the table, the lunches packed and the lost garments found. Then, when the car finally backs out the driveway, you sit down to another cup of coffee and what's left of the morning paper. Have you ever noticed how cozily quiet the house seems? Just wraps itself around you until you feel like putting it in order for the day.

There's another home quiet that's almost as nice. It's the one you feel when you first step inside after an out-of-town trip — a serene, heaven-like quiet. There are other nice ones, too: the silence of a house that's been thoroughly cleaned; that which follows the departure of guests; and the cool, dark quiet of a hot summer day.

But the hollow quite is the one you can't hardly stand. It comes when you're worried, or a loved one is away. Or in a long, sleepless night, when the very quietness becomes a noise.

Maybe the haunted houses of long ago weren't haunted at all. Maybe the boards and plaster grew weary of all the lonely quiet, and wanted some friendly silence once more. So, to attract the attention of human beings, these houses used the device of creaking boards and whistling doorjambes to break the monotony. Maybe they were just house-sticks for a quiet that someone could enjoy.

Chairman Research Goal Saturday Built-in Safety Can Be Planned

COLLEGE STATION—Home accidents are costing Americans over \$600,000,000 annually in wage loss, medical expense and insurance overhead.

Thousands of new homes have been built in the last few years with little or no attention given to the elimination of accidents hazards. This failure almost guarantees to make accident statistics out of the occupants.

Families planning to build should check house plans carefully for every possible hazard so they can be removed before they are built in.

Bernice Clayton, home management specialist with the Texas Agricultural Extension Service, says watch the slant of the stairs on all stairs inside and out; use adequate insulation around furnaces, pipes, fireplaces and chimneys; have sufficient numbers of wall plugs; install electric wall switches at top and bottom of stairs and in bathrooms; arrange kitchen equipment for elimination of fatigue; build adequate storage and closet space for family needs, especially utility and cleaning closets; have medicine chests which can be kept locked and out of reach of children.

If remodeling is planned, Mrs. Clayton says watch carefully and get expert advice so that accident causes are built out of your home. The majority of women do their own housework. If there are children, more hours are spent in the kitchen. So make the kitchen efficient as well as eye appealing.

Greater efficiency means less fatigue. The burden of fatigue often leads to an accident.

Inside stairs are seldom changed once they are built, but the addition of good lighting, carpeting and hand railings can reduce accident hazards.

There are many ideas for securing more storage and closet space in an old house; such as building in cabinets under slanting roofs or hanging wall cabinets for storage of out-of-season items or building them in unused corners.

For information on building a new home or for remodeling contact the local county Extension agent.

PLEDGE TO THE FLAG

How many youngsters, reciting the pledge of allegiance to the flag, understand what they are saying?

Journalism students at Glendale (Ariz.) high school did some research and found these examples of confusion:

A first-grader: "I pledge allegiance to the flag, and to the republic for Richard Sands, one nation invisible."

Another six-year old, asked what the pledge meant, said "I don't know. I didn't learn it in English."

Few of those in the early grades had the slightest idea what "indivisible," "republic" or "allegiance" meant. Last week Glendale's journalism students proposed a revised pledge:

"I promise that I will always love the flag of the United States of America and the country that it stands for, one nation which cannot be divided, with freedom and fairness for all."

Want to Plant Castor Beans?

Are there enough farmers in Floyd county interested in planting castor beans this season to justify going into a program?

Industry and the services are pushing for a big acreage of castor beans to meet a critical situation. Many counties in the state are going into production.

Thos. J. Hutchins, administrative officer of Floyd County PMA, says the county committee wants to go into the matter with producers and get their reaction. They have called a meeting for April 24—next Thursday—to go over the possibilities, see how many might be interested and want to plant castor beans. A new combine variety of the crop is said to be available for seed.

The hour for the meeting is 2 o'clock, the place the PMA office in the agricultural building.

Red Cedar Is Valuable Tree

COLLEGE STATION—The red cedar, native to many parts of Texas, can be used in landscaping the home grounds.

Sadie Hatfield, homestead improvement specialist with the Texas Agricultural Extension Service, says it makes a dense shade in the summer and in the winter forms a colorful spot in the landscape. If used in the yard, plant it at least sixty feet from the house.

One of the most useful ways to use the red cedar is in windbreaks, especially in the northwestern part of the state. It will grow rapidly with a moderate amount of water and will survive surprisingly well during dry years. Once established it is almost immune to wind injury and is damaged less than many other trees during ice and snowstorms. Most of the 349 windbreaks planted in Texas during 1951 contained red cedar.

Because the red cedar will grow in alkaline soils and dry climates, it promises much for the reforestation of Texas. This tree does not spread from roots and rarely grows from seeds. Therefore, it does not threaten to become a pest like the blue spruce and post cedar. It also produces a valuable wood that has uses in the home and about the farm.

Miss Hatfield points out that the Texas Forest Service has been encouraging the planting of this tree for a number of years by selling seedlings on a non-profit basis.

CHARACTER

I have always been intrigued by the story of the two little balls in a box.

One was made of iron and covered with gilt that looked like gold. The other was made of solid gold.

One day the gold ball amused itself by rolling from one side of the box to the other. The gilt ball cried out in alarm: "Be careful! You'll rub off!"

Said the gold ball, "Rub off what?"

News has been received here from the international piano recording contest, sponsored by the national guild of piano teachers, that three of Mrs. Peal Fagan's students had won high ratings with awards. They are Linda Gayle Clark, Ann Hickerson and Betty Elaine Blum.

Linda Gayle Clark, an intermediate 2 "B" student, made superior plus rating, grade 98½, was awarded a gold medal and tied for a \$25 cash prize.

Ann Hickerson intermediate "A" student, won superior rating, grade 97½, and a gold medal. Betty Elaine Blum, intermediate "C" student, received honorable mention and a bronze medal. Her rating was graded excellent.

Each student submitted a record with recordings of three to four solos, including classic, romantic and modern music. April 27 is the closing date for the revival now in progress at the First Baptist church, with Dr. A. A. Brian of Brownwood as the speaker and Dr. Joe Trussell of Fort Worth as singer. Neither of the two men are strangers to the congregation or to Floyd county residents as they both have been in Floydada on several occasions.

Sand Hill Club Entertained at Dougherty Thursd'y

The Dougherty Home Demonstration club entertained the Sand Hill club last Thursday in the home of Mrs. Tate Jones on the Matador Highway.

Mrs. Jones, with the president of the club, Mrs. C. A. Caffee, received the guests and Mrs. Bill Smith presided at the guest register.

An Easter arrangement of colored eggs with sweet peas, flanked on either side by tall pink tapers, formed the center piece on the bare polished table.

From a lazy Susan, Mrs. Ruth Daniel with Mrs. Claud Ring, assisted the guests in serving avocado whip with triangle thins, potato chips, fritos, ripe olives, porky picks and mints. Mrs. Ned Bradley poured coffee.

Mrs. G. W. Smith led the group in a number of get-acquainted games, with Mrs. H. F. Jackson and Mrs. C. B. Carmack receiving gift prizes.

Mrs. Caffee welcomed the guests to Dougherty and reminded them that in the twenty or more years that home demonstration clubs have been observing guest day, this was the first time that these two clubs had visited together.

Mrs. W. R. Daniel Guest Speaker
Taking for her cue the motto for the month, "Happiness is not a station you arrive at, but a manner of traveling," Mrs. W. R. Daniel, guest speaker, and a home demonstration club woman, took the audience with her on a tour of Scotland, England, France, Italy and other points in the eastern theatre of war.

She reached the climax of her experiences, when she, with three other Red Cross workers, received awards of honor for going beyond the line of duty in serving donuts and coffee to the GI's just back of the fighting line on a Christmas day.

After some time spent in Porto Rico and other South Pacific islands, she swayed her audience with "Home and what it means to those who have been on foreign soil," with colored films made in the United States, Texas and Floyd county, ending with her own Home, Sweet Home, at Blanco.

Mrs. Daniel high-lighted her travels with China, crystal, laces and linens and other articles collected during her war career.

Sand Hill ladies present for the afternoon were Mesdames H. F. Jackson, A. V. Womack, Albert Pricer, John Henry Brock, C. B. Carmack, Fred Jackson, W. Lynn Miller.

LIPSTICK LOGIC
BY LOUISE ALLEN

Considering it's only a bunch of board and plaster, a house can "feel" more different ways. Take this matter of quietness. Sometimes it's a friendly, peaceful quiet, then again it's so oppressive it pushes you right out the front door.

One of the nice human quites comes on a week-day morning, after you've got the family off for the day. Maybe you get up feeling punk, force yourself to get breakfast on the table, the lunches packed and the lost garments found. Then, when the car finally backs out the driveway, you sit down to another cup of coffee and what's left of the morning paper. Have you ever noticed how cozily quiet the house seems? Just wraps itself around you until you feel like putting it in order for the day.

There's another home quiet that's almost as nice. It's the one you feel when you first step inside after an out-of-town trip — a serene, heaven-like quiet. There are other nice ones, too: the silence of a house that's been thoroughly cleaned; that which follows the departure of guests; and the cool, dark quiet of a hot summer day.

But the hollow quiet is the one you can hardly stand. It comes when you're worried, or a loved one is away. Or in a long, sleepless night, when the very quietness becomes a noise.

Maybe the haunted houses of long ago weren't haunted at all. Maybe the boards and plaster grew weary of all the lonely quiet, and wanted some friendly silence once more. So, to attract the attention of human beings, these houses used the device of creaking boards and whistling doorjams to break the monotony. Maybe they were just house-sighs for a quiet that someone could enjoy.

Chairman Research Goal Built-in Safety Can Be Planned

COLLEGE STATION—Home accidents are costing Americans over \$600,000,000 annually in wage loss, medical expense and insurance overhead.

Thousands of new homes have been built in the last few years with little or no attention given to the elimination of accidents hazards. This failure almost guarantees to make accident statistics out of the occupants.

Families planning to build should check house plans carefully for every possible hazard so they can be removed before they are built in.

Bernice Clayton, home management specialist with the Texas Agricultural Extension Service, says watch the slant of the stairs and be sure there are hand railings on all stairs inside and out; use adequate insulation around furnaces, pipes, fireplaces and chimneys; have sufficient numbers of wall plugs; install electric wall switches at top and bottom of stairs and in bathrooms; arrange kitchen equipment for elimination of fatigue; build adequate storage and closet space for family needs, especially utility and cleaning closets; have medicine chests which can be kept locked and out of reach of children.

If remodeling is planned, Mrs. Clayton says watch carefully and get expert advice so that accident causes are built out of your home. The majority of women do their own housework. If there are children, more hours are spent in the kitchen. So make the kitchen efficient as well as eye appealing. Greater efficiency means less fatigue. The burden of fatigue often leads to an accident.

Inside stairs are seldom changed once they are built, but the addition of good lighting, carpeting and hand railings can reduce accident hazards.

There are many ideas for securing more storage and closet space in an old house; such as building in cabinets under slanting roofs or hanging wall cabinets for storage of out-of-season items or building them in unused corners.

For information on building a new home or for remodeling contact the local county Extension agent.

PLEDGE TO THE FLAG

How many youngsters, reciting the pledge of allegiance to the flag, understand what they are saying? Journalism students at Glendale (Ariz.) high school did some research and found these examples of confusion:

A first-grader: "I pledge allegiance to the flag and to the republic for Richard Sands, one nation invisible."

Another six-year old, asked what the pledge meant, said "I don't know. I didn't learn it in English."

Few of those in the early grades had the slightest idea what "indivisible," "republic" or "allegiance" meant. Last week Glendale's journalism students proposed a revised pledge:

"I promise that I will always love the flag of the United States of America and the country that it stands for, one nation which cannot be divided, with freedom and fairness for all." — Pathfinder

THE WEATHER

A considerable swish of rain fell over practically all of Floyd county Friday of last week as the rain clouds from the disturbance of the period began to clear away.

Accordingly most of the county is in fair condition for moisture. Wheat, now ready to shoot up stems for the boot, has been making remarkable progress in the week. Minimum rainfall reported at any place in the county has been a half inch and numerous reports of an inch and a half have been made from many areas.

At Floydada rainfall in the week was 1.35 inches.

Mrs. W. U. Riggie returned home Tuesday afternoon from a visit in Tulsa, Oklahoma, with her daughters, Ruth Riggie and Mrs. Raymond Baker. Mrs. Riggie enjoyed the Easter pageant at Tulsa and also enjoyed a singing convention which was held there on Saturday.

Mrs. Richard Stovall and sons, Robert and Van returned home late Monday from Calvert, where they had been since last Thursday visiting Mrs. Stovall's mother, Mrs. Tyson, and other relatives.

Mr. and Mrs. H. N. Porterfield, of Tucumcari, New Mexico, spent the week-end here as guests of their daughter, Mrs. Earl Edwards, sr., and Mr. Edwards.

Want to Plant Castor Beans?

Are there enough farmers in Floyd county interested in planting castor beans this season to justify going into a program?

Industry and the services are pushing for a big acreage of castor beans to meet a critical situation. Many counties in the state are going into production.

Thos. J. Hutchins, administrative officer of Floyd County PMA, says the county committee wants to go into the matter with producers and get their reaction. They have called a meeting for April 24—next Thursday—to go over the possibilities, see how many might be interested and want to plant castor beans. A new combine variety of the crop is said to be available for seed.

The hour for the meeting is 2 o'clock, the place the PMA office in the agricultural building.

Red Cedar Is Valuable Tree

COLLEGE STATION—The red cedar, native to many parts of Texas, can be used in landscaping the home grounds.

Sadie Hatfield, homestead improvement specialist with the Texas Agricultural Extension Service, says it makes a dense shade in the summer and in the winter forms a colorful spot in the landscape. If used in the yard, plant it at least sixty feet from the house.

One of the most useful ways to use the red cedar is in windbreaks, especially in the northwestern part of the state. It will grow rapidly with a moderate amount of water and will survive surprisingly well during dry years. Once established it is almost immune to wind injury and is damaged less than many other trees during ice and snowstorms. Most of the 349 windbreaks planted in Texas during 1951 contained red cedar.

Because the red cedar will grow in alkaline soils and dry climates, it promises much for the reforestation of Texas. This tree does not spread from roots and rarely grows from seeds. Therefore, it does not threaten to become a pest like the blue spruce and post cedar. It also produces a valuable wood that has uses in the home and about the farm.

Miss Hatfield points out that the Texas Forest Service has been encouraging the planting of this tree for a number of years by selling seedlings on a non-profit basis.

CHARACTER

I have always been intrigued by the story of the two little balls in a box.

One was made of iron and covered with gilt that looked like gold. The other was made of solid gold.

One day the gold ball amused itself by rolling from one side of the box to the other. The gilt ball cried out in alarm: "Be careful! You'll rub off!"

Said the gold ball, "Rub off what?"

LIQUID PETROLEUM

ECONOMY WITH THE WORK OUTPUT OF GASOLINE

MASSEY-HARRIS

3-4 plow 44 L.P.

Liquid Petroleum burns cleaner, reduces carbon deposits and practically eliminates crankcase dilution.

Massey-Harris 44 L.P. is custom designed and built for efficient operation on L.P. fuel. And because it is built as a complete L.P. unit, the 44 LP gives the same high-power rating as the 44 Gas—the same belt and drawbar efficiency.

In addition you get the economy of operating on low cost fuel, and the low engine upkeep that results from the use of clean-burning, high-octane L.P.

For a demonstration of the 44 L.P. ... let us show you the tractor that gives you lower operating costs and maximum power in its class.

Views and Comment

We haven't been out in the wheat fields to see what the rains (and the freezes which preceded them in two successive waves) did to the wheat. We assume the wheat that was already stemming out and had joints is beginning to wave in the breezes. The resultant thrill as the wheat man's eyes wander over the scene is a pleasant one. What we suspect the man will find out a little later is that the wheat he makes will be from the suckers that began to come out after the freezes hit. Most likely this will be true, too, of the man who watered his crop, and had it stemming out and going great guns when the freezes came. Wheat is a winter crop until after the joints begin to form. Afterwards it no longer bitter cold of the kind we had early in April. Now, what the wheat man should have done, like we said, was to have kept his crop grazed down until it rained, whatever date that was to be. If no rain then keep the cattle on. Why they don't come around and ask us about things like that in the years of cold, dry springs is more than we can understand! Possibly one reason none got our advice was that our number was busy rationing out admonitions on other important problems of the farm and home.

According to Fred Bell, the Census Bureau reporter, the sales of cotton ginned in Floyd county on March 1, was 92,661, a figure much below the hoped-for 125,000 bales which was expected the record would show. What actually happened is general information, namely that gins in nearby areas, which had much less to turn out than Floyd county gins, caught the overflow in steady streams, a half dozen of them. Wonder how far the farthest away that any cotton actually traveled to a gin from this county? One of the natural consequences confidently looked for was that a good many more gins would be built in the area this year. So far only one has actually been announced in the county that we know about. Others which have been in the talking stage are still in that same category.

On better understanding: Perhaps one of the reasons that residents of the U. S. and the residents of Britain engage in considerable tart repartee and backbiting is that they do not speak the same language. Fred Brown in a note from London said he asked the waitress in a cafe what he owed. Hite and hite, she replied. He found out his bill was eight shillings and eight pence. Don't take this too seriously, Fred might have just thought that one up.

Foreign Travel department: Since we mentioned Fred Brown in London we might as well continue the lesson in foreign affairs. The Doc Pitts' sent a note along with a copy of the London Daily Telegraph, air mail edition, from Madrid, Spain, on April 6. On

the tenth they left for Barcelona and Palma, Spain in particular and the Latin countries in general have a fascination for the doctor. He doesn't talk about it a lot, but once back in the Spanish civil war, staged with Messrs Hitler and Stalin as backers, he ran a big army hospital for one of them in that war-torn state. All he tended to was his own business and the hospital, he told us once, adding that it was in the contract that the American consul had to be notified every day of his whereabouts and welfare.

Of the roles that were never expected of the public schools to play in prior years one is that of rearing the children. It had come to be expected that they would teach the children, and later on that the school would also feed them a good, substantial meal at noon-time. Now the school has the child from early morning, when he gets on the bus, until late in the afternoon when he alights at the gate of his home. He has had many more waking hours in school than he has at home. Teachers are being given more responsibility all the time by the parents.

Pre-reading tonight's Municipal Concert association's program for the two accordianists and the bull fiddle player indicates they really mean it when they say the musicians are doing a program from the classics, Bach and Mozart and Debussy, Grieg and Saint Saens, even Strauss, are names appearing on the program. They do bend enough to turn the program up with a medley of Kern's Showboat hits, including Old Man River and Here Comes The Showboat. Those who are continuing to back the concert association are hoping the trio will finish the season with such an enjoyable program that the other needed support will be sufficient to secure a series next season. Many people, unfortunately, have heard "classical" music laughed at so long they close their ears to the enjoyment of it. They call it music only when sung through the nose to the twanging of guitar accompaniment. Or, if it be gospel music, it must be arranged to ragtime.

Note to bread eaters: If you're one of that fast vanishing breed that likes good bread we suggest you try one of those un-sliced loaves that J. W. Walker is making over at Floydada Bakery now. A lot of folks have eaten the kind they haul in from out of town and keep "fresh" with something that makes the slices feel like leather to the touch and taste somewhat the same way—they have eaten that kind so long they don't know but what it is normal for bread to taste sorter like it had been run through something or other.

Some folks are always looking for the silver lining—in other folk's pockets. —Howard W. Newton

Verse Is Dedicated to Mrs. T. J. Gilbert

The following verse has been submitted for publication in loving remembrance of a dear old friend and neighbor, Mrs. T. J. Gilbert:

She has crossed the mystic river,
And beyond the golden shore
Is rejoicing with the angels,
And her loved ones gone before.

And though her voice is hushed and still,
Tis joy for us to know,
That she was right with Christ
her Lord
And was prepared to go.

So, friends and loved ones do not weep,
But bravely stand the test
For we all know 'twas God's own will
That she was called to rest.

Just be prepared to meet thy God,
When you cross death's cold tide,
And, with her you will share the joys
Upon the other side.

And if you are not prepared to go,
Just hear this statement true,
God holds your life in His own hands
And soon he'll call for you.

So let's be ready for the call
We know not when 'twill be,
That we'll be called out by our Lord
To meet eternity.

—One who loved her.

"Oklahoma" is a Choctaw Indian word for "red people."

Success in Track

Floydada won the track meet which proves that she does have some outstanding athletes. In football and basketball she was not too strong but in track she did fine. Coach Watson worked very diligently to have a winner in something. After a failure at winning the district in football, he put in extra hours to make a showing in track. He did too, with his boys scoring almost twice as many points as their closest rival. He will take seven or eight boys to the regional meet at Lubbock the 19th and we feel sure that these boys will not go over in vain. He knows that they will be giving it everything they have to win at regional and get a chance to go to the state meet at Austin the following week-end.

On Monday, 14th, Coach Watson begins building another football squad. With the loss of eight seniors, he will have to do some rebuilding. We feel sure that there are plenty of boys who are capable of taking seniors place and they will make a team that can't be beaten. Best of luck to the track boys and the football boys next year. Give it all you've got.

Well, out of news this week so so long until we meet again

CANDID CAMERA

The very outstanding boy under our spotlight this week is none other than our one and only "Jackie Hutchinson." Jackie was born on June 2, 1934 in Pecos, Texas.

Jackie is 6 feet 1 inch tall and weighs 170 pounds. He has brown eyes and attractive black hair. Jackie has a wonderful personality and gets along with everyone. Well! with one exception. He says, if there is anything he detests, it is to eat at the same table with McGuire. We'll leave this battle for them to fight though.

Jackie has one secret ambition. Sh! this is strictly a secret now, and that is to find a job where he won't have to work.

When it comes to sports Jackie's favorites are: tennis, basketball, track, and football. Which he is very good in.

Jackie's likes are: Clara, pretty weather, popular music, Coach Watson, and women.

His main dislikes are: snooty people, pickles and windy days.

Did someone say food? Well! Jackie is always at the head of the line. His favorites are: fried chicken, creamed potatoes and gravy, ice tea and fruit salad.

Jackie's favorite movie was "Bat-aan". His favorite actor and actress are Alan Ladd and Piper Laurie.

To begin his ideal day Jackie would get in his Cadillac convertible to the track and run a 100 yard dash in 9.5 Then he would eat a good breakfast of ham and eggs then go to Franklins and see what he had to gripe about. After this he would go by after McGuire and Wilks and they would discuss the oncoming track meet. By then it would be time for dinner so he would go and eat. After dinner he would sleep for an hour then go for a swim at the beach. And then he would get in his Cadillac convertible and go get his girl and they would go out for supper. After supper they would see a good movie and then get a coke and!!! home for a good nights sleep.

Jackie's ideal girl should stand 5 feet 3 inches tall, weigh 120 pounds, have hazel eyes and blond hair and do exactly what he wanted her to Clara, so you meet these qualifications??

Jackie you are really a swell guy. We are certain you will make good in everything so Good Luck!!

high school and become a housewife.

In sports, Clara enjoys football, basketball, volleyball, and track. (What's left.)

Her favorite movie was "Show Boat" and her favorite actor and actress are Dale Robertson and Virginia Mayo.

Clara's ideal day would begin about 9:30. Jackie, Loene, and H. would come by and they would go for a swim by the beach. They would lie around and swim all morning and then have a very nice lunch. They would then dress and go dancing until mid-night, have a light snack, and go home.

Her ideal boy should have black hair, brown eyes, weigh 170 lbs. and be 6 ft. 1 in. tall. He should be very understanding and like to do the things she likes to do.

Clara, we want to wish you the very best life offers and may you always succeed in whatever you set out to do.

My Kind of Man

ANN DEAKINS — My kind of man must be tall, dark, and handsome. He should have a good sense of humor, love all sports, and like to participate in them. Above all he should be a good dancer, like to ride horses, and swim. He should be very, very understanding and be honest with me at all times. He should respect me and take pride in doing the little courtesies that are expected of a boy, but still he should be a little "masterful." He should love to be around me and like to take me places.

JOYCE WEBB — My kind of man would be considerate, polite to everyone, and not be bragging all time about something he did, or is going to do. He should wear dress clothes on a date, and be able to carry on an interesting conversation.

BARBARA PERRY — My kind of man must be tall, dark, and handsome. He must be very understanding and like to talk and run around. He should love sports and like to go to school activities. He should like to do things I like to do. He should always appear to be having a good time whether he is or not. He must be very trustworthy.

FRANCES ASHTON — I like a man who is taller than I am, who has a good sense of humor, and is not a smart-aleck. He should like to go places, and be with people. He should be nice looking, be neat in appearance, have a good personality, and be friendly to everyone. He should be courteous and like the things I like.

MARLENE ROBERTSON — My kind of man should be kind and considerate to everyone. He should like to do the same things that I like. He should be loyal and should stand up for me no matter what. He should like to run around with other people. He should have a good personality. (Have you found him, Marlene)

What Would U Do?

(If you, a pedestrian, were caught in the middle of the street between an oncoming street car and a bus?)

Miss Swepton — "Catch the street car."

Glenda Meek — "Close my eyes, hold my breath, and hope for the best."

W. J. Hartline — "Catch the street car, or bus, I guess. It wouldn't matter."

Jo Clark — "Say my prayers, lay down in the middle of the street and hope both of them were women drivers."

Bobby Jackson — "That would be a job for Superman."

Dot Pierce — "I'd run!!" (To where)

Lonnie Jarrett — "I'd stop the street car if possible!"

Freida Jarrett — "I haven't the

slightest idea."

Billy Baker — "Stand and wait for the END."

Patt Patterson — "I guess I'd get out of the way."

Neil Langly — "Run!"

Lyndell Spears — "Why I'd run for all I was worth."

Betty Hall — "Sprout wings and take off."

Johnny Howell — "Lay down and hope one or the other turned or broke down."

Ann Deakins — "Close my eyes and cross fingers."

Bobbie Stephens — "If the driver was cute, I might try flirting."

Darlene Bryant — "Jump in a man hole."

WTSC VARIETY SHOW

We of P. H. S. were well entertained last Wednesday by the West Texas State college variety show and collegians band in the auditorium.

There were jokes and gags as told and done by the M.C.'s — Dan Stallings and Ray Wells.

A pantomime done by Ralph Wayne and Dave Evens was very good.

Several good numbers were played by the band.

There was a good dance number by Skip Summers and Dave Maxwell.

Three good vocalists, Pat Cantrell and Donna Erwin and Jerry Jones and many other good acts.

Everyone this reporter talked to said that they enjoyed the program very much and wished that the band and show could come back soon. We certainly hope that it is very soon.

ELEVEN BILLION COLLECTED

NEW YORK—Tax collections by the government were a record \$11 billion last month—almost \$2 billion over the previous record, made in March, 1951. Income taxes alone accounted for almost \$10 billion of the take.

The federal deficit stands now at \$3.3 billion and will probably rise to only \$5 billion by the end of the fiscal year instead of the \$8 billion forecast in President Truman's budget message.

FERGUSON SUIT AGAINST FORD SETTLED!

On April 9, 1952, the United States District Court for the Southern District of New York entered a final judgment, with the consent of all parties, which ended four years of litigation between Harry Ferguson, Inc. and Ford Motor Company and others. It was ordered and adjudged that:

- The sum of \$9,250,000 shall be paid to Harry Ferguson, Inc. as royalties on Patents Nos. 1,916,945; 2,118,180; 2,223,002 and 2,486,257.
- Ford Motor Company shall not manufacture, after December 31, 1952, such tractors and Dearborn Motors Corporation shall not sell any such tractors manufactured after December 31, 1952, as have
 - a pump having a valve in its suction side, as for example in the present Ford 8N tractor, arranged to be automatically controlled in accordance with the draft of an implement, or
 - a pump for a hydraulically operated draft control system for implement control and a power take-off shaft both driven by the lay shaft of the transmission, as for example in the present Ford 8N tractor, or
 - a coupling mechanism on the upper portion of the center housing, of the form employed in Ford 8N tractors manufactured prior to November 22, 1949; and Ford Motor Company and Dearborn Motors Corporation must affix a notice on any long coupling pins, manufactured by them, to the effect that the pin is sold only for replacement on 8N tractors made by Ford prior to November 22, 1949.

This notice will continue to be affixed until October 25, 1966.

- The Ford Motor Company and Dearborn Motors Corporation shall have a period of time, expiring not later than December 31, 1952 in which to make these changes.
- All other claims and counter claims are dismissed and withdrawn on the merits.

A copy of the consent judgment is available to anyone interested in reading it.

This settlement between Harry Ferguson, Inc. and The Ford Motor Company resolves the issues. The inventions in their entirety with which this action was concerned will be found only in the Ferguson Tractor and in the Ferguson System in the future.

It is fitting that farmers all over the world... and especially in the Americas... shall continue to look to Ferguson for fulfillment of all that these inventions contribute to a greater and more prosperous agriculture. Better implements, better farming practices, more abundant production, and lower farming costs have resulted from the Ferguson System as employed in the Ferguson Tractor.

Now, indeed, the Ferguson with the one and only complete Ferguson System is the tractor that meets more of the needs of more of the farmers more of the time. This can be proved to you at a demonstration on your own farm. Such a demonstration can be quickly arranged by telephone. Won't you call us about it?

(By Mrs. Murray Julian)
SOUTH PLAINS, April 14 — Church at the First Baptist church was well attended at South Plains Easter morning. Many communities were represented, and there were about one hundred present. Johnny Winters, from Plainview, came out and held his first song service, and the revival started in the evening service with Rev. Webb giving his first sermon.

Our community received over half an inch of rain last Friday, and it was a general fall all around here. Everybody is hoping this shower is just the beginning of many April rains.

Rev. C. A. Joiner is feeling much better from his recent operation. He is now suffering from a food rash which has given him considerable discomfort with quite a bit of swelling on his face.

Mr. and Mrs. Aubrey Breed from Cedar Hill were among the welcome visitors in church Sunday morning. They went home with Mr. and Mrs. Bryant Higginbotham where they had Easter dinner and spent the afternoon.

Mr. and Mrs. Murray Julian had as their guests at luncheon Wednesday Rev. and Mrs. J. H. Allen, who were out making calls.

Mrs. Ruth Childress was called back here by the sudden death of her mother, Mrs. E. A. Franklin, in Happy last week-end. Mrs. Childress had been with her daughter, Mrs. Morris, in San Marcos just one week following the burial of her husband March 21. Mrs. Childress and daughter, Joy, have been spending the past few days with other relatives in Happy since Mrs. Franklin's passing. We wish to offer our sincere sympathy to Mrs. Childress in all the sorrow she has been called upon to bear.

Barry McDonald, son of Mr. and Mrs. Chas McDonald of Plainview, had the misfortune to fall from a tractor last Thursday, and broke his leg. He is recovering from the accident, but will have to miss quite a lot of school.

The Quarterly Sunday school and church supper, which was to be held Friday night, was cancelled due to the rain. Johnny Winters and others came out from Plainview, and they were the guests of Rev. and Mrs. Allen at supper.

Mr. and Mrs. Billy Bean and children, from Lockney, were at Sunday school and church Sunday. Mrs. Bean's mother, Mrs. Parrish, from Artesia, New Mexico, accompanied them. She was spending the Easter Holidays with the Beans.

We wish the Fields the best of luck in their new home.
