

'Busiest' Farm Week Hits as Machines Take to Fields

The busiest week of the year is on in Floyd county farms today. Running full blast are farm tractors, probably in excess of 3,000 in all, on practically every farm in this county.

Thousands of acres of ground are being turned, either in a weed killing process, or planting, or a combination of both. Every conceivable practice that is common in this area is under way.

With his cotton he is viewing with pride the magnificent field of wheat adjoining, either his own or that of his neighbor. Wheat men are still leary of making prognostications on the crop, but speculation on the yield is a welcome subject with any wheat grower, indicating a flattering outlook.

Starkey Calls For Candidate Rally Friday

Starkey Home Demonstration club will be sponsors for a candidate rally and community supper Friday evening of this week (May 9) at 8 o'clock, as the third in a series of meetings over the county to give the people a chance to size up the aspirants for office.

A trickle of cotton planting started last week-end on the heels of early Sudan grass planting for summer pasture. As the week progressed more planters were put into the fields.

What the weather has in store in the matter of hail storms is all a matter of conjecture, too. But most wheat raisers are reading about giant deep snow packs in the Rockies and are taking the queue by insuring to some extent, progressively more as the prospect for greater yields are seen.

Harmony Ranks High in State Neighborhoods

Harmony Community center ranked high in 1952 amongst the neighborhoods of Texas in their efforts at community betterments and progress. It was announced last week by Farmer-Stockman and Agricultural Extension service of Texas.

The change in the outlook, when the weather man begins to turn his eyes favorably toward the high plains, is also reflected in better range conditions. Stock cattle and hogs are in bigger demand. Swine raisers who were liquidating their herds a month ago are now frantically looking for feeder size shoats, for brood sows, gilts and pigs.

Sheriff's Men 'Throw in' with Old Settlers

The parade committee for the Floyd County Pioneers Reunion started to work this week on plans for a first rate parade for reunion visitors on May 28. Floyd County Pioneers, businessmen, schools, communities and county organizations have been invited to have a float in the parade and make the parade one of the largest ever seen at the Pioneer celebration.

"Historical floats, old time vehicles and floats with a western theme have been suggested for the Floyd County Pioneer entries," said sheriff Hart. Floyd county businessmen and West Texas businesses who do business in Floyd county have the opportunity to present special displays and advertise their products and business in the parade. Communities, service clubs and other organizations can be represented with floats pointing out their projects and publicizing their organizations. Five area bands have invitations to be a part of the parade and entertain the visitors during the celebration.

Kenneth Crouch, secretary of the Floyd county sheriff's posse, reports that his organization is looking forward to the Pioneer Reunion when the posse will be hosts to five out of county posses for a barbecue, roping contest and dance on that date. He expects that there will be at least 100 horses and riders added to the parade by the visiting posses. The parade committee has set a goal of 500 horses and has asked that every cowboy and cowgirl bring their horses and ride in the parade.

Conventions Listless

No Rift Seen In GOP Camp

If there was a rift in the ranks of the Grand Old party in Floyd county at either precinct or county convention it was not apparent.

In Tuesday morning's county convention the meeting was moved from the county court room, already spoken for by the State Department of Safety examiners, to the office of the county judge next door.

Dr. John W. Kimble was chosen as delegate to the state convention at Mineral Wells on May 27 from Floyd county and E. E. Wells, who is county chairman, was named alternate. The county representatives at the state convention go uninstructed.

Six Precinct Conventions Republicans in six of the county's 22 precincts had conventions Saturday. In Southwest Floydada No. 1 J. B. Darden was named delegate to the county convention. In East Lockney No. 5 the delegate was Summer Comer, in Lone Star No. 8 A. E. Frizzell, in Cedar No. 11 Mrs. E. E. Wells, in West Lockney No. 13 Joseph Holt and in Southeast Floydada No. 23 Jack Lackey.

Rites for Brother of Mrs. P. J. Wilkes

Mr. and Mrs. P. J. Wilkes returned home last Tuesday from Gainesville where they had been at the bedside of Mrs. Wilkes' brother, W. Wesley Sullivant, who passed away on April 25.

Mr. Sullivant was 78 years of age and had been in failing health for the past two years.

He is survived by his wife and two sons, Aubrey B. and Judge Carroll F. Sullivant. Five grandchildren and one great grandchild, and by three sisters, Mrs. Wilkes, Mrs. R. E. Redding of Caballo, New Mexico, Mrs. M. K. McDonald of Alamogordo, New Mexico, and one brother, J. Henry Sullivant of Hot Springs, New Mexico.

Democrats Back Shivers Demand For An Uninstructed Delegation

About as listless a county Democratic convention as has ever been held in Floyd county was that of Tuesday afternoon, despite the biggest county convention gathering of delegates, alternates and lookers-on that has been seen in several years.

In this convention, of which Richard F. Stovall was elected chairman and Mrs. Fred Zimmerman, Jr., secretary, the "uninstructed" clause was amended to apply to nominees for "president and vice-president only." A resolution offered to instruct the nomination of electors who have pledged themselves to "vote for the nominee of the Democratic party for president" was voted down.

R. F. Stovall made the only talk before this vote was taken. He declared that Governor Shivers as titular leader of the party in Texas wants "an uninstructed delegation to the national convention period." He urged the vote be not to hamper or hamstring the leaders in any way.

There were 67 persons' names signed on the precinct convention roll.

BURGLARS MAKE NUISANCE RAIDS

Burglars so amateur it doesn't make sense are trying the patience of local business establishments and residents, especially such places as have vending machines, and the like. Among those who have reported recent break-ins are laundries, service stations, and a resident or two, probably six or eight in all in the past two weeks.

Saturday night the Morckel Farm Chemical company office was ransacked. Harry Morckel, manager, said the intruders took pains to go through storage drawers, and to get through pennies out of the cash register. They tried open the Coca Cola Vender and got a small amount there also. A deep freeze yielded a couple of pieces of choice cake Mrs. Morckel had wrapped up neatly and stored away.

Democrats Back Shivers Demand For An Uninstructed Delegation

Practically all of the precincts sent uninstructed delegations to the county convention. Only in Southwest Floydada No. 1 was there any variation from the addition to the stream-lined procedure proposed.

Deadline for filing applications for names on the Democratic primary ballot for July 26 found few new names added to the list of candidates for preferment of the electorate at the end of the day Monday, May 5.

Of these names only one office carrying emoluments from the public has strictly local import, that of A. D. Fultz, who is asking for the place of county superintendent. Fultz is at this time principal of Andrews ward school in Floydada.

There will be two names on the ballot for county Democratic chairman, the names of Ben P. Ayres and G. C. Tubbs, both of Floydada, having been filed for this job. Six names were petitioned on the ballot for precinct chairman out of 22 precincts.

The name of one new district candidate was filed last week-end with the county chairman. He is T. L. Wright of Hale county, who is seeking the office of state representative of the 89th district.

The complete list of party candidates for all offices on the district, county and precinct level are given below. Candidates for state office apply to the state committee to get their names on the ticket. This list

BAD NEWS AGAIN FROM OIL TEST

No good news this week from Standard of Texas No. 1, Minnie Adams, wildcat prospector for oil west of Lakeview a half mile.

Fact is the news is on the bad side. The driller has made little progress since last Thursday night. The rig was closed down when circulation was lost in a "fracture." This was followed by a drill stem test, and the third packer was used before the testing tool held.

Drilling superintendent I. H. Milligan said the recovery was 1800 feet of mud and 800 feet of muddy salt water. The test was at 6,325 feet.

The rig was shut down for orders at a late hour yesterday afternoon. Depth was 6,386 feet Wednesday morning.

**LIPSTICK LOGIC**

BY LOUISE ALLEN

Public speakers have vainly screamed at heedless Americans for years to "Get out and Vote!" Well, at last they should be very happy people.

Many upright citizens who never before darkened the door of a precinct or ward meeting have hired themselves out—this convention year to see how folks run a government.

One wife in our town, whose husband suddenly got worked up over his franchise, quipped at a party: "I told Jack not to lay his overdue political conscience at my door! He wanted me to break this date to go to the precinct meeting, but if he gets there we'll be better represented than usual."

Those who did go, had a picnic. Half the Democrats couldn't make up their minds whether to bolt or go to their own party meeting. Those who heeded the party line passed high-sounding resolutions and wisely waited to see what floats to the surface as a presidential candidate at the national convention. Newly awakened Republicans, getting their first real inning in much of the Southwest, tilted at Taft and Eisenhower windmills, then voted for party harmony and Eisenhower.

Wouldn't it be amazing if all the recent talk of political corruption should lead to intelligent voting? If we who love to sit comfortably at home and beef about the inadequacy of our elected officials do actually wake up to our voting responsibility, maybe all of the smoke — and some of the fire — in Washington will be justified.

### Death Claims Mrs. Baldwin, the Former Christena Goodman

Funeral services for Mrs. Christena Baldwin, age 40, were held last Wednesday in the church of Christ in San Diego, California. Mrs. Baldwin had been ill for many months and passed away on Monday morning in a San Diego hospital.

Mrs. Baldwin was the former Christena Goodman. She was born in Granbury, Texas, but moved with her family to Floyd county at an early age and lived in the Center, Baker and Sand Hill communities. She had made her home in California for a number of years.

Survivors include her husband, J. G. Baldwin, two daughters, Mrs. Foster Parrent and Miss Yvonne Baldwin and two granddaughters, all of San Diego. Other survivors include both parents, and four sisters, Mrs. H. D. Meredith of Floydada, Mrs. W. D. Carathers of Amarillo, Mrs. Roy Mathewson of Lovelock, Nevada, and Mrs. Frank Hackenberger, of San Diego, and two brothers, Otha Goodman of Monahans, Texas and T. C. Goodman of Tokio, Japan.

All survivors were present for the funeral with the exception of the brother in Japan and sister here, Mrs. Meredith, who was unable to attend on account of ill health. Mrs. Meredith had recently visited her sister in California, however and remained with her for several weeks.

### Dale Hart Ace FFA Farmer of Big District

Mrs. W. A. Amburn, sr., is all pride this week over the farming and stock raising achievements of a grandson, Dale Hart, of Priona, who recently was declared the Lone Star farmer of the Littlefield district of FFA chapters.

Hart's application was selected the best submitted in the district on the basis of outstanding FFA supervised practice and project program records. Requirements for this honor are set up by the state.

Hart's herd of 29 Milking Short horns has topped honors at the Tri-State Fair, Panhandle Plains Dairy Show, Farmer County Fair, Junior Livestock Show and at the Clovis Fair. This dairy program and his row crop project have been termed two of his more successful projects. He grows row crops on 120 acres rented from his father.

A senior in the Priona High school,

Dale is the son of Mr. and Mrs. Leon Hart, Priona. Mrs. Hart before her marriage was Daisy Amburn.

The Priona Lone Star Farmer will compete on May 10 at Canyon with winners from seven other districts, and at this time the winner of Area I will be selected to compete in state wide contests.

The Littlefield District in which Hart took top winners, is comprised of chapters at Bovina, Parwell, Priona, Dimmitt, Lazbuddie, Muleshoe, Sudan, Littlefield, Morton, Amherst, Enochs, Threeway, Spade, Hart Springlake and Bula.

**WORKED UP A LATHER**

A couple of farmers in Iowa were discussing a severe drought. One had some wheat which he had managed to harvest.

"The drought sure has made the wheat crop short this year."

"Short? Say, I had to lather mine to mow it!"

**I GIVE YOU TEXAS**

By Boyce House

Whatever happened to the family style boarding house?

Used to be, every town had one and it was the best place in town to eat, too, provided you were on hand when the dinner-bell rung and had a long arm.

When Governor Pat M. Neff visited Cisco, he was taken to dinner (the moon meal, of course) at the leading boarding house.

Want to rent a saw? There's a place in San Antonio that will rent you one.

Purists says the word is, "snout," not "snoot," but "snoot" is what folks say. It's more expressive to say a fellow is "snooty" or has a "snoot full."

In Ardmore, Okla., there is an ice cream stand which advertises, "39 Flavors." Me, I'm a strawberry addict myself.

And there's an establishment which has the intriguing name of "Jim's (or maybe it's Joe's) Alibi."

**MUMBLE - JUMBLE**

He mumbled a few words in church—he was married.

He mumbled a few words in his sleep—he was divorced.

**JAMES' JOB OVER**

The despondent old gentleman emerged from his club and climbed into his luxurious limousine.

"Where to?" asked the driver respectfully.

"Drive off the cliff, James," he announced. "I'm committing suicide."

S/Sgt. J. M. Holt, stationed near Albuquerque, New Mexico, with the Air corps is here visiting his sister, Mrs. Kenneth Ring and Mr. Ring this week.

Mr. and Mrs. Fred Deen and baby, of Indio, California, who spent ten days here visiting his parents, Mr. and Mrs. Tom W. Deen, returned home last week-end.

**GO A-WEIGH!**

A very stout man was walking on the promenade at Atlantic City when he saw a weighing machine with the notice: "I speak your weight."

He put a penny in the slot and stood on the platform. A voice answered: "One at a time, please!"

## Scout Awards In Joint Scout Court of Honor

A joint court of honor for Boy Scout Troop 57 and 64 was held in the district court room of the Floyd county court house on May 5. W. E. Garrett presided. Around 75 Scouts, parents, civic leaders and visitors attended.

The court was opened with the Pledge of Allegiance. After a brief explanation of the Boy Scout advancement plan, Jim Potts awarded merit badges to Bill Baker for safety, Frank Potts for woodworking, carpentry and home repair, Norman Gant for airplane structure, and Rex Jones for airplane structure.

W. E. Garrett gave the requirements for winning 2nd class awards and presented the awards to Gerald Cardinal, Mike Badgett, Harvey Allen, Harmon Gant, Jimmy Hill, Sammy Morren, David Lagrone, Larry Stewart, Dale Lawson, David Badgett, Kelly King, Wayne Catlin, James Badgett and Jerry Chapman.

Scout Master George Milze was presented a special certificate of appreciation by the Floydada Junior Chamber of Commerce for outstanding community service through his work with the Boy Scouts.

The court of honor closed with the Scout Oath.

## Old Settlers

(Continued from First Page) Leland Hart, chairman, Oscar Stansell, O. M. Watson, Jr., Roy Childress, Buck Sams, Calvin Steen, Johnnie Lackey, W. H. Hilton, Skeet Thornton, Lee Noble, C. L. Anderson, Paul Kropp, R. I. Bennett and Glad Snodgrass. Their slogan for this year is "Let's make the Pioneer Day Parade a Big Parade."

Join in on the Feed  
The sheriff's posse at their Monday night meeting this week resolved

to go in with the old settlers to provide the barbecue for the dinner at noon instead of having a private barbecue late in the evening at the rodeo grounds. The posse expects to have a considerable number of riding visitors and bandmen who will want to mix with the crowds on the big day, it was pointed out.

Before they ride in their home parade on May 28 the posse will go to Lubbock on May 14 for the big rodeo there and take part in it.

Tuesday it was said the posse also has promised one other ride out of town, but it comes after the Floydada event. It is at Hereford May 30, where the old settlers will celebrate. For the Lubbock trip the posse members load their horses at the rodeo ground at 11 o'clock. They will wear Levis and red ties. Members who have not done so should pick up their shirts and hats, said secretary Kenneth Crouch.

Reese Air Force band will be available and has virtually promised to be in Floydada for the pioneers' reunion parade, it was indicated this week.

**Make Plans Saturday**  
The several committees of the pioneers reunion organization are at work this week and will make their formal reports when the old timers get together for a check-up Saturday afternoon. This meeting will be in the county court room.

## Team Loses Opener To Abernathy 6-1

Builders Mart team of the South Plains Softball League lost their opener with Abernathy Tuesday night on the home field, score 6-1.

Slow fielding by the Floydada team made the Abernathy score read better than it should have. A pretty fair crowd at the new price of 25 cents was on hand for the game.

Fans appeared pleased with the introduction of a uniformed official in charge of the game, which he handled in a masterly way, so far as the stands were concerned.

Builders Mart's next game will be Friday night, May 9. It will be played against Farmer at Farmer's excellent softball field.

## Bickly Urges Farm Support Cancer Drive

An appeal for support of the Texas Cancer Crusade by farm organizations in this area was issued today by George Bickly, Crusade chairman of Floyd county.

Mr. Bickly emphasized that such support is vital to the success of the American Cancer Society's educational and fund-raising activity.

He quoted statements issued by the Hon. Charles F. Brannan, Secretary of Agriculture, and M. L. Wilson, director of extension work of the Agriculture Department.

Mr. Bickly said that most of the major farm organizations nationally have endorsed the Cancer crusade and have made outstanding contributions to the cause of cancer control.

He urged that farm organizations devote at least one meeting to the subject of cancer in order that rural families might know the life-saving educational message that cancer is usually curable if caught in time.

He urged program chairman of the various farm organizations to contact Mrs. O. G. Glassmeyer in order that films might be scheduled, literature distributed and the cancer story told.

## Eight Floydada Students Seeking Degrees at WTSC

CANYON, Tex.—Eight students from Floydada are among the 196 applicants for degrees at West Texas State college. Baccalaureate services will be held in the college's administration auditorium, Sunday, May 18 at 11 o'clock. Graduation exercises will be held on Monday, May 19 at 10 o'clock.

Rev. Carl Bates, pastor of the First Baptist church of Amarillo, will conduct the baccalaureate services. R. B. Anderson, Vernon attorney, will deliver the commencement address.

Seeking the bachelor of science degree from Floydada are Gilbert Van Collins, Nanette Bishop Cross, Tom Bob Jarboe, Travis Phillippe Jones, Teo Lanham, Kenneth Eugene Mayfield, Otis Joe Walker, and Bobbie Gene Medlen.

## Demo Convention

(Continued from First Page) to "vote for a delegation pledged to support the nominees of the party" also was voted down.

**Convention Delegates Elected**  
The delegation from the county's big box composed of R. Fred Brown, J. R. Yearwood, Conner Oden, Fred Zimmerman, Jr., J. M. Wilson, Jr., R. F. Stovall, C. J. Parr, Mrs. Jas. H. Word. Alternates named were Hollis Bond, J. D. McBrien, Mrs. Jno. N. Parris, D. T. Mayo, Mrs. Earl Crawford, Walton Hale, Mrs. Hollis Bond, and Mrs. Fred Zimmerman, Jr.

In Northwest Floydada J. C. Wester, R. M. Battey and C. E. Pyffe were elected delegates to the county convention with W. E. Grimes, W. E. Garrett and O. M. Watson, Jr., alternates.

In Southeast Floydada convention C. H. Bedford and O. L. Stansell were elected delegates to the county convention, with R. B. Calhoun and John Hopper alternates. In No. 24 Joe R. Robertson was elected delegate.

In East Lockney the delegation elected was composed of G. R. Day, J. J. Harris and Lloyd A. Wofford, with O. C. Bailey, H. P. Puckett and Dee Copeland the alternates. From west Lockney T. B. Mitchell, R. E. Patterson, F. L. Brown and Edgar Hays were delegates, with Leslie Floyd, Hugh Counts, Ed Whitfill and Henry Hodel the alternates. From Lone Star H. E. Frizzell was county delegate, from South Plains John Smitherman, from Cedar J. C. Ginn, and from Sterley Bert Bobbitt.

Two of the precincts in the county—East Lockney and Southwest Floydada, adopted resolutions favoring a preferential primary instead of the usual presidential convention. Southwest Floydada also adopted a resolution in which the senators and representatives from Texas in congress were asked to work for an amendment to the constitution to do away with the electoral college and let the people elect a president by direct vote.

## HE SHOULD BE

"Hello," said the neighbor, "back from your shooting? Have any luck?"  
"Rather," said Jones proudly. "I got 12 ducks."  
His neighbor nodded approvingly. "Were they wild?" he asked.  
"I can't say they were, exactly," Jones replied. "But the farmer who owned them certainly was."

Mrs. Lucille Allred, of Fort Stockton, is here this week for a few days visit and on business.

## Rent House Lost In Sunday Blaze

Floydada Fire boys answered an early morning call Sunday at 6:15 when they made a run to 730 West Georgia and found the rent house back of the Flynn Thagard home ablaze. They used both the new and the old fire truck. The house was a complete loss. The origin of the fire was unknown.

Two passing citizens discovered the fire and awakened Mr. and Mrs. Thagard in their home adjacent.

The Thagards said the loss was approximately \$3500 including the house, the stove, refrigerator and other furnishings. A small amount of insurance was carried.

## POTATOES AGAIN BY MID-MONTH

The old song "Yes, We have no Bananas" can well be sung now by the grocersmen but to the words, "Yes, We have no Potatoes." Only a few potato chips left and a very few potatoes in cans and a very few potatoes and green beans left in some cases.

Some relief is in sight, however, when the California potatoes begin coming this far east. They are being dug now, two weeks late.

Some trucks from San Antonio and Louisiana have a few potatoes and some of the merchants hope to have a few in by the middle of the month.

One merchant said he had not seen a potato in two weeks. Another said he only had a few cans of potatoes and they were gone now.

None can be bought from the wholesale dealers, but they hope the famine will be over by the middle of the month, any way.

Mr. and Mrs. Harvey Tardy attended the funeral of G. C. Renfro in Matador Monday afternoon. Mr. Renfro was an old friend of the Tardy family.

## SUCCESS BY THE BUCKET

He was one of those hot shot salesmen, with all the effrontery in the world, and he burst into the insurance agency office "selling" himself before the door swung too:

"Listen, I'm a hot shot salesman see? Never tried to sell insurance, but I'll betcha I can sell more'n any of the men you got here, see? Give me the credentials and I'll go out right now an' sell the toughest prospect you got."

The agency partners conferred a while, decided to give the super salesman the credentials and send him out to see the toughest prospect in town, a crochety old man who had regularly tossed insurance salesman out as often as they called.

"O.K.," said the hot shot. "I'll be back in an hour with this bird's signature on the dotted line for a \$100,000 policy."

The agency partners winked at each other but said nothing.

Sure enough, in an hour the salesman was back, and sure enough he had old Scrooge's signature on an

application for a \$100,000 policy. The partners checked carefully, but found only one thing wrong:

"You see, you forgot to get a specimen—a little glass bottle full for the doctor to check." The salesman said he'd rush right back and get the required sample.

The afternoon wore away, hour after hour, but he didn't return. At dark, the agency partners sat in the office and waited, and finally the salesman showed up, carrying a brimming full bucket in either hand. As he set them down on the floor the partners explained:

"No need for all this. All you were supposed to get was a specimen, a little one ounce vial."

"Sure," said the hot shot, reaching into a vest pocket and producing the vial of yellow fluid, "but while I waited for the old man to get around to it, I decided to go out and sell a couple of group policies."

Buzzards do not scent carrion. They locate it by sight.

Application of the statute which provides for representation in county conventions by precincts on the basis of one vote for every 25 cast for governor in that precinct for the party candidate in the last general election, cost several precincts in Floyd county a vote in the Democratic presidential conventions last Saturday. Assuming, as usual, that every precinct should have at least one vote in the Democratic primary The Hesperian said last week the total voting strength in the county convention Tuesday of this week would be 41 votes. The fact is that every precinct did not have a voice in the county convention and there was no need for such precincts to hold conventions. It would have been a waste of time. With these (assumed) votes eliminated by the factual rule of law the total voting strength in the county convention was 32 votes. The precincts (which should have had a voice in the presidential conventions) however, ruled themselves out by indifference of their own electorate last November when they didn't go to the polls and vote. Only real unfairness, after you consider the matter, we would say, is in the precinct where there are not actually as many as 13 votes (to make a major fraction of 25.)

A thing we have intended to mention aforesaid is the considerably greater number of voting boxes in Floyd county than in any of the neighboring or comparable counties in the high plains country. One of the reasons for this is that Floyd county was generally settled for many years before some of the other counties were put into farms. Thus, with slow transportation and communication compared with present-day, there was a need for the larger number of voting precincts. Since custom and what the people are used to have a lot to do with things it has been easier, and possibly just as well, that the larger number of precincts be continued as formerly. However, there are some parts of the county where some of the citizens think that their precincts should be abolished. But since there are not a great many elections in a year, and there are some citizens in practically every precinct who object to the abolishment of their precincts, the successive commissioners courts let the matter rock along. However, we have streamlined everything from baby sitting to road maintenance and had just as well streamline the voting precincts as well.

The working man is the man who is in the real danger under the present trend of the government to interference in the affairs of its citizens and their property rights. Instead of being his friend and protector against the avarice of smarter and better-heeled the government is now assuming the

role of his boss. The president surely, surely, does not know what he is doing, nor does the citizen who passes up current happenings with a shrug, or actively supports the actions of the executive department. There is no chance for the government's stand to be right. Property rights have, and do, and always will go with human rights. That's a part of the dignity of being a human being. When you tamper with this thing you've gone wrong.

A prominent Texas Communications of America officials says the CWA is now "laying the ground work for more increases in telephone workers' wages and benefits." He points out that the present "contract" expires early in June. Additionally, another proof that the telephone folks are getting ready to make their demands is contained in the fact that Joseph A. Bierne, national president of CWA, has quit his government job as a member of the Wage Stabilization Board to give all his time to the "rather involved dispute in the telephone industry." Fifty thousand telephone workers in the southwest are getting set to give Mother Bell the works again, is what this means. When between them labor and management in the telephone business get their "involved dispute" settled and square away to give you and us the resulting works, we have a great curiosity to know what answers their leaders come up with to the question: How far will the public let them push the customers before the law of diminishing returns begins to take over? The telephone is a great, great convenience, in many cases an absolute necessity.

Paving is so common in residential areas in such cities as Dallas that a recent story of a giant improvement program gave one sentence to 70 paving projects in different parts of that city now ready to get under way. Of course, there hasn't been a day in many, many years that paving has not been going on in some portion of that metropolis. Contrariwise even in residential blocks of Floydada where property owners have thousands spent for good homes they still take indifferently the mud and dust of unpaved streets. It has been 24 years now, according to the records, since Floydada had a real paving program get under way. Meanwhile the town has grown tremendously in area, in numbers of people and in need for paved streets.

Despite the high production of recent years, the U. S. reserves of feed grains are now at five year lows. Higher production of these crops are needed to meet the ever-increasing demands both for livestock and human food.

## Old-Age Payments Vary Widely, Says S. S. Administrator

"Just what is old-age and survivors insurance?" That question is frequently asked since the Social Security Act was amended to include the self-employed and regular farm and household workers, according to H. M. Cleveland, Manager of the Corpus Christi office of the Social Security Administration.

In answer to the question, Cleveland said, "It is a plan under which families have a regular monthly income when their earnings are cut off by retirement or death."

"The insurance is paid as a matter of right because it is earned and paid for by workers, (including the self-employed,) and employers," Cleveland explained.

"This family insurance partially replaces the loss of earned income of retired workers and the close relatives of deceased workers."

"The payments range from \$15.00 to \$150.00 a month depending upon the members of the family and the average earnings of the worker," Cleveland explained.

The insurance is paid to eligible applicants whether the money is needed or not, but an application must be filed with an office of the Social Security Administration before the payments can begin.

For more information concerning filing for social security benefits, you should contact the local Social Security office located in Lubbock, Texas, and a representative of the Lubbock office will visit the Post Office in Floydada Wednesday, May 14, 1952, at 9:00 a.m.

## THE RECORD SHOWS THAT

By ignoring laws, and in many cases their own better judgment, motor vehicle operators manage to kill 37,100 of themselves, their friends and their relatives, and mangle or in some way injure nearly two million others.

Thanks to this sobering record, automobile rates have reached new highs. Over two million men, women and children had it brought home to them that it costs more money than ever before to repair smashed property, smashed bodies — and to die.

**GRAIN STORAGE**  
The Texas Department of Agriculture  
warehouseman is no holder of goods left in storage. He must also be a responsible person. The program of grain storage being initiated by the Food & Drug Administration is designed to promote safe habits in grain storage and elevators. A "rule of thumb" test for badly contaminated grain as interpreted by the F&D, can be made by the farmer or warehouseman, himself. Wheat, for example, may be classified as unfit for flour if it contains three or more weevil exit holes per quarter-pint of grain, or one or more rat or mouse pellets per pint. But the warehouseman cannot bear the sanitary burden alone. The farmer must take steps to protect his grain from infestation and contamination before storing it in a public grain warehouse or elevator. In some cases, the warehouseman may be forced to reject farm-stored grain that is obviously in bad condition. Federal authorities maintain that no undue hardships will be imposed on farmers and warehousemen in the program. A series of articles has been made available to warehousemen with suggestions as to means of maintaining sanitary conditions. If the farmer is in doubt as to how he can comply with sanitary procedures, he should consult his warehouseman or elevator operator.

### ALMOST OVER NOW

Well, the school year is about finished, and your Hesperette Staff is signing off. The Juniors and Seniors will handle the paper the rest of this year. Some of us will be leaving and we wish the best of luck to next year's staff.

We would also like to thank the student body for its co-operation in helping make our paper a success. We urge you to support next year's staff, and we are sure that you will.

We also wish to express our thanks to the various members of the faculty who have been so helpful. Last but not least we would like to express our appreciation to our sponsor, Miss V. Jones. She has been a great help, and we could not have gotten along without her.

So long, and good luck to next year's staff.

## Austin Trip Made By Cast of Play

Thursday morning at 4:00 Mr. and Mrs. Graves, Jean Porter, Myrna Wilson, and Barbara Perry left for Austin where they were to attend the State One-Act Play Contest. They had a very nice trip down except for a slight delay caused by a blinding rain and hail storm which lasted only a few minutes. Arriving in Austin at 2:00, they immediately left for the Speech Auditorium where they attended the AA contest. Port Aruther won the contest.

There had been a misunderstanding about the room reservations but the management was kind enough to let them stay in the pent-house for the two nights there.

Friday they saw the Regional A play which is the Floydada division. That was also the day for Jean's declamation. She didn't place but did a remarkable piece of work. We all feel that she was honored to be one of the seven in our state and we are very proud of her. New London took honors in the declamation contest, with Jacksonville winning first in the plays.

The group left for Floydada by route of the beautiful River road Drive, arriving here about 8:30.

Due to the fine trip all said they had been well entertained and learned much from seeing fifteen excellent plays.

## 'Ex' Football Game To Climax Training

Coach Watson announced Monday that the "Winds" football squad of "33" would scrimmage the Seniors and Exes of Floydada High school. The game will be held Wednesday night, April 14. There will be no admission charged.

Last year the futures dumped the Exes 19-0. However this year the teams should be evenly matched.

Several injuries have occurred so far in spring football. Denny Smalley cracked a bone in his neck and will see no more action. Donald Evans also will miss the rest of the season due to a leg injury. Brooks Chapman is out with a broken finger.

Running on first team so far are Connie Bearden and Frank Stovall ends, Kerwin Baxter and Charles Hartman tackles. Lewis Reddy and Bert Grimes guards and Don Barber center.

Rounding out the backfield are Billy Carmack, quarterback, W. J. Hartline and Adrain Helms halfback, and Dane Clark fullback.

Promising newcomers up from the "B" squad are Jerry Bob Harrison, end and quarterback, Jimmy Dunn and freshman Stanley Vickers, Gordon Joiner and Billy Baker, guards, Cloyd Stephens and Glad Norman, halfbacks.

All members of the first string will be senior lettermen next fall except Don Barber who will be a junior next fall. Hartline is the only member who is not letter. W. J. is up from the "B" squad. However, he should see plenty of action as halfback and linebacker next fall.

Coach Watson has been stressing power plays and pass offense thus far in Spring Training. The prospects for next fall are brighter than usual. This may be the "Winds" year.

## CANDID CAMERA

Well! Kids we have so many wonderful seniors that it's hard to choose to be the guinea--. Pardon please! the Candid Camera each week. But we have chosen this week a very wonderful girl of the senior class. She stands 5 feet 6 inches tall and weighs 132 pounds. She has light brown hair and blue eyes. This very lovely girl is none other than Wanda June Poole. Wanda was born April 8, 1933 and the proud parents were Mr. and Mrs. J. T. Poole of Floydada.

Wanda's main likes are friendly people, basketball, baseball, swimming, Mr. Weatherhead, Miss Swepston and good movies. Speaking of movies, Wanda's favorite was "Leave Her To Heaven" and her favorite actress and actor are Jeanie Craine and Randolph Scott.

Among Wanda's dislikes are: "Smart alecks," mayonnaise, and un-

friendly people.

Wanda's ideal boy should be about 6 feet 2 inches tall and weigh 180 pounds. He should have black curly hair and brown eyes. He should have a wonderful personality and like all kinds of sports; be friendly and firm, but also have a good sense of humor. (Wanda could this be the boy that drives the Bel-air?)

When it comes to eating, Wanda's favorite foods are: Fish, asparagus, french fried potatoes, English peas, hot rolls, cheese, liver smothered in onions, corn, chocolate cake, banana splits and milk. (Wanda tell me your formula for not getting fat.)

Wanda's ideal day would begin when she would indulge in a hearty breakfast at 6:00. Then she would swim for an hour or two. Then again at 12:00 she would eat and then go horse-back riding all evening. She would leave at seven for the rest of the evening and just have a good time.

Wanda's ambition is to be a beauty operator.

Wanda we want to wish you success in everything you strive to do. Luck to a wonderful senior.

## Ramblin' Reporter

It will be only a few more days until school will close for the summer holidays. Some of the students are rejoicing over the fact while others are regretting it. They regret it because some of them will not be in the passing group. They were warned several weeks ago, however that they would have to go to work if they were to pass. Only by studying and working hard can good grades be made.

As for the seniors, some are wondering whether or not they will graduate. For some, it has been four long years of hard work. For others, it has been four of play; therefore, the students not passing will have to make up their work in summer school or come back next year to begin the fifth year.

The majority of the students will probably make it to the next higher grade. There will, however, be a few who will be left behind and will regret that they did not put a little extra work to get those necessary points that were needed so badly. So, the best of luck to the passers and may the stragglers work harder in the future. Might add a warning to future Seniors as well.

### One To Another

MISS FRAIZER says the class was requested to write a composition on famous kings. The following gem came from a twelve-year-old boy: "The most powerful king on earth is working; the laziest is shirking; the wittiest is joking; the quietest is thinking; the object is winking; and the noisiest is talking."

GERALD tells this story of the days when Londoners were frequently jammed into air-raid shelters. "Elbert, you really shouldn't have kissed me like that, with all these people so close around, even if it was in the dark."

"I didn't kiss you," said the boy, looking angrily around in the crowd. "I only wish I knew who it was—I'd teach 'im."

"Elbert," sighed the girl, "You couldn't teach 'im nothing."

"Happy Pelton, Guess Who? quizzmaster, has discovered the longest word in the English language. It's the one following the statement, 'and now, a word from our sponsor?'"

### Praises BIG 12 For Relieving Her Nagging Aches and Pains

Every day people from all over Texas write in telling how BIG 12 has helped them regain their old time feeling of well being. For instance, take Mrs. Blanche Styron of 402 West Henderson in Cleburne. Mrs. Styron is a nurse and it wasn't so long ago that she had a hard time carrying on her profession. Then she heard how BIG 12 was helping other people with a similar condition caused by deficiencies of Vitamin B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron and decided to try it. But let Mrs. Styron tell her experience with BIG 12 in her own words.

"For some time I had aches and pains all over my body. I suffered terribly all during that time. Then I heard about BIG 12 and out of sheer desperation I got a bottle. With that first bottle I felt a great change for the better and I have since taken thirty or forty bottles. I have now returned to my work which is practical nursing. At present I am walking two miles each day to take care of my patient. I am still taking BIG 12 and will continue to take it for it has helped me more than I can ever say."

There is nothing miraculous about BIG 12 but sometimes results like those secured by Mrs. Styron almost make it seem so. It is a proven fact that lack of Vitamin B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron can cause nagging aches and pains, stomach distress, sleeplessness, nervousness, poor appetite and a general run-down condition due to a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron but get a bottle of pleasant tasting BIG 12 from your drug store today.

Mr. and Mrs. W. N. Anderson, who have been making their home at Plainview for several months, have returned to Floydada. Their Floydada home is at 329 West Jackson.

**Milk Sheds Supply Cities From Huge Dairy Yields**  
Enough milk was produced in the United States in 1931 to have filled a river 3,600 miles long, 40 feet wide, and three feet deep. The river has nearly 25 million

sources—the number of cows milked during the year on U.S. farms. It flows at an annual rate of 56 billion quarts a day for every man, woman, and child in the country. From farm to housewife's refrigerator, this tremendous flood of milk and milk products moves in channels that could be drawn on a map. Such a U.S. milk map would resemble a series of spider webs spun around each city and town in the country.

Each tangled web would cover an area which dairymen called a "milk shed," much as geographers term the boundaries of a drainage system a "watershed." Around the largest cities of America are the great milk sheds of the world. Long before cities are awake each day, milk is moving in the supply

lines which form the milk sheds. From the slow beat of milking machines to the clink of paper-capped bottles on the nation's doorsteps, one of the world's fastest distribution systems is in operation. Rigid health and legal standards determine the pattern of milk supply. Federal marketing orders, State milk legislation and municipal health departments control the manner in which the "most nearly perfect food" is produced and sold, and hence define, to a large extent, the size and shape of the milk sheds. Chicago, crossroad of the nation's railroads and of much of its food, receives its milk from a dairying area which extends like a giant button hook down the length of Wisconsin to curl around the tip of Lake Michigan.

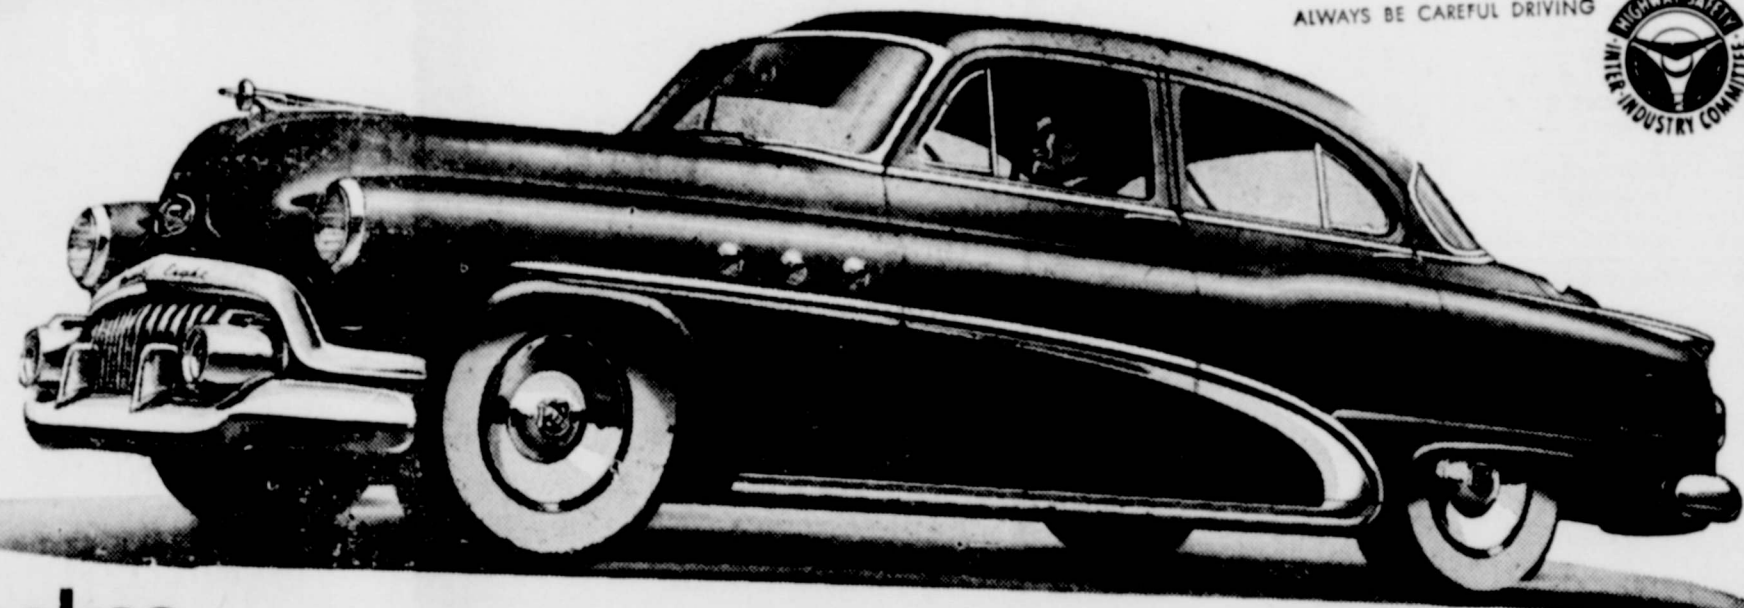

## "Here's Why I Prefer Natural Gas for Cooking"

- ★ **FLAME COOKING IS FAST...** The instant I turn on my modern gas burner, cooking begins.
- ★ **FLAME BROILING DOESN'T SMOKE...** I know from experience that the gas flame in my broiler actually eliminates the smoke. This, definitely, keeps my kitchen cleaner and more pleasant.
- ★ **FLAME COOKING IS AUTOMATIC...** Modern gas range automatic controls make cooking easier, more exact—and actually fun!
- ★ **FLAME COOKING IS ECONOMICAL...** I know from experience that natural gas cooking costs only a few cents per month in West Texas. The dependability of natural gas helps me prevent expensive food spoilage bills.

## It makes each drop of gas say uncle

ACCORDING to combustion experts, there's as much energy locked in a drop of gasoline as there is in a drop of nitroglycerine. But the problem is to put that energy to work. So Buick engineers aren't content just to mix that drop with air and touch it off. They've designed an engine that brings it catapulting into a cylinder head where it strikes a turbo-top piston—gets whipped into a churning, swirling ball of tight-packed energy.

Then it's fired. And when that happens, a drop of gasoline certainly lets loose power. This isn't something that happens in a "car of the future." It happens in a Buick Fireball 8 Engine today. It's a high-compression engine. It's a valve-in-head engine. But it's also a Fireball in performance as well as name. And it puts extra power under the hood—and extra miles in the fuel back in the gas tank. Now, power is great, but what goes with it? Mister, that's something you ought to find out—and soon. What goes with it is an automobile as sweet-handling, eager and willing as anything that ever made your pulse leap to a faster beat. It's a car that seems to know what you

want it to do—true and sure in its course on a straightaway—beautifully balanced on curves. It's a car with Dynaflo Drive\* to feed power with infinite smoothness—and a road-hugging levelness of ride that took a million in cold cash to perfect. And it is, with all this, a very tidy bargain. Why not price it, drive it, know it for yourself? We'll be glad to arrange a demonstration. Equipment, accessories, trim and models are subject to change without notice.
