## LOCALS

Mrs. R. M. Pittman, Mrs. Odie Biggers, and Bill Pittman, all of Fort Worth, returned last week to their home after spending two weeks here visiting — one week in the home of Mr. and Mrs. E. L. Price in Friona, and one week in the home of Mr. and Mrs. Joe Pittman's mother, and Mrs. Biggers and Bill Pittman are their sister and brother.

Mrs. J. C. Wilkinson was hostess to the Friona Bridge Club at her home, Monday afternoon.

Mr. and Mrs. Howard Ford of Albuquerque, N. M., spent Sunday here with Mrs. Ford's parents, Mr. and Mrs. W. C. Osborn. Mr. Ford, who is a mechanic in Uncle Sam's army is now stationed at Albuquerque, but will be transferred to some other camp soon.

Bethel Hicks arrived here last week from Northern New Mexico with a truck load of apples and pears, which he has been retailing from the west room of the Warren Building on Sixth Street.

The athletic field of the school was ablaze with the large electric lights Monday night which indicates that football practice must be getting off to a good early start.

Miss Novolene Nailor, daughter of Rev. and Mrs. H. B. Nailor, formerly of this city, is here visiting for a few days in the F. N. Welch home, northeast of Friona.

Tom Galloway of Rochelle, arrived here on Monday of last week, for a ten-day visit with his brother, B. T. Galloway of this city.

Dinner guests in the Bill Baxter home Sunday were, Mr. and Mrs. J. W. Baxter, Mr. and Mrs. Charley Baxter, Mr. and Mrs. Clarence Baxter and children, Mr. and Mrs. Dilger, Mr. and Mrs. George Marshall and daughter, Mrs. Roy Baxter and son, Dean, Mr. and Mrs. Jim Baxter and daughter, Misses Ruby and Vida Baxter and F. S. Truitt.

Donnie Dean Marshall had his tonsils removed Tuesday morning.

Richard and Dwane Baxter spent Tuesday in the J. W. Baxter home.

Mrs. May Sheets, Mrs. A. B. Clark and daughter Alice Lee, and Miss Flossie Clark, all of

### Bond Saleslady

Every stitch and button is right in 2-year-old Toddy Messler's WAC uniform, the only known authentic one of its size. She "wears 'em" as a war bond saleslady in Rochester, N. Y.

Oklahoma City, spent the week end in the Miles Robbins home.

Betty Lou Talkington spent Wednesday afternoon in the Jim Baxter home.

Mrs. Cecil Talkington and daughter-in-law and baby spent last week in California, visiting Neil Talkington, who is stationed there.

Russell Loflin and family of Springfield, Colo., arrived here last week for a visit with his parents, Mr. and Mrs. C. F. Loflin, and Mrs. Loflin's parents, Mr. and Mrs. A. B. Short.

Mrs. F. W. Reeve, accompanied by her daughters, Misses Mary and Ruth Reeve, spent a part of the day Wednesday in Clovis, where Miss Ruth was making arrangements for the coming term of school. She will again teach in the speech and language department of Clovis High School. Miss Mary Reeve will leave the latter part of next week for Pampa, where she has been teaching for the past few terms. The school in that city will begin on Sept. 6.

J. J. Williams, of the Friona Machinery Company, was a business visitor at Amarillo, Wednesday afternoon.

Mrs. J. M. McAdams called at the Star office to enter her subscription for the Star, Wednesday forenoon. She stated that both she and her husband are well pleased with Friona and its people, and are enjoying living here. They are anxious to become acquainted with all our people. Mr. McAdams is proprietor of the shoe shop on Main street.

### Sahara Sou

Mama "Elly" looks a little perplexed about all this attention, but her offspring, Central Park, N. Y. Zoo's newest boarder, doesn't seem to mind. Only a few days old, the baby camel is a her, and mostly feet.

### The Game Gets Rougher

## One Out of Three Taxpayers File Estimate

### Add Sept. 15 to Tax Dates

If you paid an income tax for 1942, you have probably already received a letter from your collector of internal revenue, enclosing forms and instructions for filing a declaration of your estimated income and victory taxes for 1943—the current year. The declaration must be in the mail by Sept. 15.

Not all persons who receive these forms will be required to file the Sept. 15 declaration, however; and the treasury department goes on to state that only the following persons are required to file such a declaration:

#### Who Must File

1. Single, or married, but not living with spouse at the date prescribed for making the declaration (whether or not head of a family) if he had in 1942 or reasonably expects to have in 1943—(1) gross income or more than \$2,700 from wages subject to withholding; or (2) gross income of \$500 or more from all sources if more than \$100 of such income is from sources other than wages subject to withholding.

2. Married and living with spouse at the date prescribed, if he had for 1942 or reasonably expects to have in 1943—(1) gross income from wages subject to withholding, which, when added to his spouse's gross income from such wages, exceeds \$3,500; or (2) gross income from sources other than wages subject to withholding, which when added to his spouse's gross income from such sources, exceeds \$100; and also his gross income from all sources exceeds \$642 for 1943, or the aggregate gross income from all sources of both spouses amounts to \$1,200 or more for either 1942 or 1943.

3. Also required to file declarations are individuals, regardless of marital status, who were required to file an income tax return in 1942 and whose wages subject to withholding for 1943 are reasonably expected to be less than such wages for 1942. Heavy penalties are provided for failure to file a declaration required under law, or to pay the amount of estimated tax which is to be paid when such declaration is filed. Therefore, taxpayers are advised to study the instructions carefully and to

Farmers, classified as persons who derive 80 per cent or more of their income from farming, will not be required to file an estimate until Dec. 15, 1943. file the declaration on or before Sept. 15, if there is any possibility of their being required to file the estimate under the present tax law.

#### Deputy Collector Here Sept. 3

To assist taxpayers in preparing these declarations, Deputy Collector Harry T. Warner of the Internal Revenue Dept. will be in here for at the First National bank on Friday, Sept. 3, from 3:30 o'clock in the morning un-

til about three o'clock in the afternoon.

Mr. Warner will be glad to give all possible assistance but in order to save his time and that of the taxpayers, he urges you to bring the necessary information for estimating your 1943 income and victory taxes with you when you come in. The information needed is a copy of your 1942 tax return; cancelled checks or other evidence of income tax paid on March 15 and June 15, 1943; estimate of victory tax deducted from wages Jan. 1, 1943 to June 30, 1943; estimate of withholding tax deductible from wages July 1, 1943, to Dec. 31, 1943; and definite estimate of Net Income (Gross income less allowable deductions) from all sources for the calendar year 1943.

Mr. Warner will be in Canyon on Sept. 2 and in Amarillo from Sept. 6 to Sept. 15 at the Internal Revenue Office, 329 Federal Bldg.

#### Friona Weather

Very little if any different from last week. Still DRY and getting dryer. Still HOT and getting no cooler. However each day brings us nearer to the cooler season and we have hope of relief in that way from the oppressive heat. As to the end of the drought, it will probably come with the first good soaking rain. —But when?

Mr. and Mrs. George Marshall and daughter, Miss Vida Baxter, spent Monday in the Oscar Baxter home.

Mrs. Jim Baxter and daughter and Misses Vida and Ruby Baxter spent Tuesday in the J. W. Baxter home.

### Federal Aid Threatened in Pension Mix-Up

John H. Winters, newly appointed executive director of the State Department of Public Welfare was in Washington this week to attempt to adjust the differences between state and federal government over the question of old age pensions; and in the meantime the question is still in doubt as to whether Texas pensioners will lose the federal half of their old age assistance grants.

The mix-up over old-age assistance grants came when the legislature passed Senate Bill 169, sponsored by State Senator Grady Hazlewood of this district, which permits employable persons on the pension rolls to earn up to \$250 a year without having their grants cut down or stopped. The bill is in conflict with the terms of the Federal Social Security act, and the Federal government has the right to revoke all federal aid to Texas pensioners.

Since, under the Texas Constitution no award in excess of \$15 a month can be made to

### Mrs. Hinds Moves Music Studios

Mrs. Olive Hinds has moved her music studio from the east side to the west side of North Main street where she will open her fall term of piano instruction on August 31.

Mrs. Hinds, who has been teaching piano here for the past few years, offers special graded courses and kindergarten work.

### Osborn Makes Good Catch in Farm Pond

M. C. Osborn, the seven year old son of Mr. and Mrs. Claude Osborn, was in town last Friday with abundant evidence of his skill as a fisherman, in the form of a fine specimen of "mud cat" weighing about a pound and a half or two pounds.

M. C. caught the fish with his own hook and line from the small fish pond on his father's farm seven miles northwest of town.

### Miss Goodwine Receives M. A. Degree at Tech

Miss Floy Goodwine, who has been teaching at Deer Park near Houston for the past few terms, and who has been spending her vacation this year attending Texas Tech at Lubbock, received her Master's degree from that institution at the commencement exercises last Friday night.

The commencement was attended by her brother and sister, Clyde and Miss Lola Goodwine, and her nephew, David Goodwine, of Friona. Also another sister, Mrs. C. J. Price, who arrived at Lubbock by bus from her home at Vernon, and came on to Friona with her brother and sisters.

### Habbings Move To Dallas to Make Home

Mrs. D. E. Habbings was in Friona Monday afternoon, and while here she visited the Star office and wished that their copy of the Star be sent to them at Dallas, where they will make their home indefinitely, depending upon the condition of Mr. Habbings's health.

She stated that they have tried many places since leaving their farm southeast of town over a year ago, in hope of finding a climate where Dick could have his health or find a doctor that could cure him, but he seemed to grow worse with each move, until they were advised to enter a hospital at Dallas and secure the services of a certain specialist there.

She took him to Dallas on the train three weeks ago and he is now living with his mother, and taking treatment from the specialist. He writes that he has been gaining in health and looks until she would hardly know him, and is feeling so much better.

Mrs. Habbings had visited their farm while here and had several samples of the crops all of which were above the average in size and gave fair promise of an excellent crop of all kinds, especially of the soy beans, of which they have a good acreage.

### Legion Makes Band Report

In last week's issue, the Star carried a brief account of the called meeting of the American Legion at Bovina, in which an account of the program and the name of the speaker was given; but at that time nothing definite had been learned as to the sale of war bonds and stamps.

A communication from A. C. Elliott, of Bovina, gives the following information:

The total sale of bonds amounted to \$112.50 and the total sale of war saving stamps was \$10.00. Collected contributions for cigarettes for the boys over seas amounted to \$15.00.

This cigarette money will be mailed to a large tobacco company which will, in turn, ship through the War Department, a package of cigarettes for each 5c contributed, to be distributed to our boys in the service. The commanding officer of whatever division or department receives the cigarettes, will acknowledge the receipt of the cigarettes. A label will be placed on each carton, showing that the American Legion of Parmer County contributed the cigarettes, and we are sure they will be appreciated very much by the boys.

For the further information of the people of the county, we are just in receipt of a letter from the tobacco company, acknowledging the receipt of \$50.00 which the business men of Bovina sent several days ago, and when we receive acknowledgment of the \$15.00, we will notify the Post.

### Mrs. Cranfill In Hereford Hospital

Mrs. G. Cranfill was seized on Monday of last week with a severe attack of appendicitis and was taken to the Deaf Smith County Hospital where an appendectomy was performed that day.

Latest reports of her condition received Wednesday afternoon were to the effect that she was rapidly recovering and her condition was most satisfactory.

### Dilgers To Visit Son In Mission

Mr. and Mrs. L. R. Dilger left early Wednesday morning for Amarillo, where they were to receive Pullman reservations for a trip to Oklahoma City and Tulsa in Oklahoma, and Fort Leonard Wood, Mo.

They will stop for a few days at Oklahoma City, where they will visit relatives, and while there Mr. Dilger will interview a specialist in the hope of securing further relief from his affliction with Asthma.

From Oklahoma City, they will go to Tulsa, where they will visit for a few days with other relatives; then they will go on to Fort Leonard Wood, for a visit with their son, Sgt. Harlin Dilger, and wife, before returning to Friona. During their absence Dilgers Modern Cleaners will be under the management of the regular help there.

### Where D'ya Think You're Goin', to a---

Citrus Heights, California's menfolk work in war plants in Sacramento during the day, so three years ago the women organized a daytime 10-woman fire brigade, with first aid, rescue, ladder technique, all the trimmings. Here you see them going into action on their truck, left, and "rescuing" a child from a "burning" building, right. Experts say they're fully capable.

that I have held throughout the entire reign of New Dealism up to the present.

But I am going to compare or rather co-ordinate a few paragraphs from the column—"Things in General," in the Muleshoe Journal, of its issue of August 12, with some information given me verbatim by a friend, concerning conditions arising in another state, from one of our "Government Bureaux."—from the Muleshoe Journal.

I QUOTE: "This all fits in with what a Muleshoe citizen told me a few days ago. He stated that he had a nephew working in a certain bureau in Washington. This nephew has a hip pocket full of degrees from leading universities of the country and has been with a bureau of some kind for the past several years. Besides his degrees, this nephew has also been thoroughly inoculated with New Deal theory, which is about the same as getting an overdose of Marijuana. Some months ago this Muleshoe citizen saw his nephew and the young man expounded his new religion as follows:

"This nation never will be successful until the government has the authority to say how many hats a man shall have each year, how many pairs of shoes, pants, socks, etc., and manufactures and distributes same to the people."  
"And folks thought Hitler was nuts. But that is the way our so-called officials are spending their time these days, thinking up more and better schemes of power, while over two millions of our boys are on the foreign battle fronts fighting against the very thing we are about to get at home while their backs are turned.

"It's a laugh to read that a South Carolina senator says that his state will stay with the 'Democratic' party, when said party has been dead so long there is not even any stink left, much less a party."—END QUOTE.

Now for the other story, which was told to me by a friend from another state, and which I shall try to co-ordinate with the first part of the above quotation, which was in regard to the young man who has a position with some of the government bureaus. (The plural of "bureau" may be correctly ended with either an "s" or an "s.")

This young man is a relative of my friend, but not a nephew, and is the head administrator of the Agricultural Adjustment Administration, better known as AAA in this county, also in a distant state; and his ideas of correct government as stated by my friend are very similar to those of the young man mentioned in the above quotation, in that he thinks all things whatsoever should be directed by the government and that those, like himself, who have charge of the administration of such a government are better, more intelligent and belong to a much higher class of individuality and intellectuality, and in every way superior to the "common herd" of men.

And being thus endowed with such superiority, they could have anything and everything they want, whether other people can be supplied with such articles or not. He believes that they, this superior class or "caste", should be allowed to usurp the ownership of land or other property belonging to the lower, or more common caste. He believes that they should have a new automobile every six months whether they need it or not, and should be able to buy it at a lower price than they can sell their used car for, thus having the liberty of buying a new car twice a year and of selling their old car at a profit. He believes because he has thus been taught by New Deal prophets, that there should be government regulations as to the ownership of land and at any time a man is found not to be complying with such regulations, both as to the letter and the deed, that government attaches—such as he—should have the power to dispossess the owner and appropriate the land to his own use for either sale or tillage. He further believes that the government should take deserted or dependent children and put them in the care of men of his cast, and pay them a handsome sum for their keep, and that he should train these children and raise them up in the belief that he has adopted for himself, and to teach them that as soon as they have reached the age

## Navy's Newest—Elbow Powered

Willing workers and guides for our fighters are the South Pacific natives who, after a taste of Jap rule, are flocking to the Stars and Stripes whole tribes at a whack. Here you see a group of "Fridays" totting a gaudy war canoe out of its thatched shed, preparing to paddle out to a Navy ship. (U. S. Navy Photo.)

their judgment and to cloud their reason.

These so-called idealists are bringing no new truths into existence, for the simple reason that their ideas are not TRUTHS, but only misleading misnomers, calculated to lead even the wise and prudent astray. But there are certain inalienable truths that are truths because they are true, and they have been known and to some extent practiced, ever since the advent of man upon the earth. They were known to Adam, to Cain, to Noah and to Abraham, generations before Moses incorporated them into the Decalogue.

Can anyone imagine that when our heroes return—those of them that do return—from the four corners of the earth, from fighting to suppress these idealistic fallacies, to find that they have uprooted and usurped the powers of righteous judgment and universal justice feel that they have been justly dealt with by those who have been left at home to protect and preserve our vaunted democracy—our AMERICAN WAY OF LIFE? How could they? And if we do not protect and preserve it for them, we are traitors to their cause.

This deadly polio germ is still ravaging our country, and, according to reports, getting close to home. Therefore, this is no time to rest on our oars, so to speak, but to keep up an interminable fight against the weeds and fly menace. Flies are supposed to be carriers of this deadly germ and weed patches are good hiding and breeding places for the flies. Get rid of the weeds and all open cesspools and all kinds of compost and other places that attract and breed flies. No one knows whose home may be the first to feel the attack of this dreaded infantile paralysis. Let us keep moving and make every move count in this work of prevention.

And if the amount of noise made is any criterion as to the number of dogs making the noise, there must have been not less than 117 dogs running at large in the city last Friday night. If all of these dogs wore license tags there must have been an addition of \$117.00 to the city treasury from dog license tax during the past year.

Some of the dogs barked so profano, some barked alto and a few barked tenor, but there did not seem to be any that barked bass in the dog melode that prevailed that night. And some of them just simply screeched—the sort of a noise that sets one's teeth on edge and stands his hair on end. George McLean says there seems to be a sort of dog colony in the weeds on that vacant block over in his part of town.

If they are wrong and the past 177 years of the American way of life is RIGHT, then, it occurs to me that there can be no excuse for such principles being adopted and practiced by such nincompoops, who must be mentally unbalanced or have allowed their little spree of authority to benumb

## COGITATIONS and APHORISMS of Jodok

I do quite a bit of reading when I have an opportunity, that is, when things are not happening too briskly out on the street corners, so that I can have a few carefree minutes for my own mental recreation, and I especially like to read the columns to be found in various county town papers of the Panhandle, The Muleshoe Journal, The Hereford Brand, The Wellington Leader and the Canyon News.

I find the views of these columnists quite interesting, especially as some of them have almost, if not quite, become almost radically opposite to what they were a few years ago, and these changed views of theirs being almost entirely in accord with my own personal views

**Let's Cook Something**

"Some has meat, and canna eat And some wud eat that want it But we has meat, and we can eat And see the Lord be thanket." Robert Burns wrote that little ditty a long time ago and while we may not have as much meat as we would like to have this coming winter, we are reasonably certain that we will have enough. Here is a list of relishes to top off your meat supply that you can be getting ready now while fresh vegetables are plentiful.

- With roast beef, grated horse radish.
- With roast pork, apple sauce
- Roast veal, tomato or mushroom sauce.
- Roast mutton, current jelly or plum jelly.
- Broiled mutton, caper sauce.
- Roast lamb, mint sauce.

Here is a good tomato relish recipe. There is nothing new about it for Mrs. Ray Barber has used it for years and she got it from a friend in Emporia, Kan. It has just the right consistency and flavor and goes good with roast beef, roast pork or baked ham.

**Tomato Relish**

- 30 large ripe tomatoes
- 10 large onions
- 4 large red peppers
- 22 tablespoons sugar
- 5 tablespoons sal.
- 7 cups cider vinegar.

Scald and peel the tomatoes, chop onions and peppers fine and mix all together. Add the vinegar, salt and sugar and boil slowly one and one-half hours or until thick. Pour in sterilized jars while hot and seal.

**Forecast Your 1944 Wheat Yield Now --- By Formula**

Amarillo—A simple formula has been developed that will help Southern High Plains wheat farmers forecast next year's yields and to take advantage of favorable seasonal conditions or to foresee and avoid soil erosion hazards when they plan for fall wheat sowing in an effort to meet expanded acreage goals set by the War Food Administration.

H. H. Fennell, research specialist of the War Food Administration Soil Conservation Service of Amarillo, extracted the formula from records on 901 wheat farms in soil conservation demonstration projects, and he said it has worked successfully "hundreds of times under a wide variation of seasonal and soil conditions."

Of all the factors influencing wheat yields, July rainfall and soil moisture at fall planting

time are most important, Fennell said.

In the light of the Fennell formula, a generally favorable July rainfall in the West Texas High Plains has raised the prospects for the wheat harvest 11 months later. He pointed out that generally in the Panhandle this year the July rainfall has been considerably above normal, and, in some localities, approaching an all-time record. This condition, the research specialist pointed out, coupled with the further accumulation of a soil moisture supply between now and sowing time, will have much to do with giving the crop a good start which will enable it to weather the hazards of uncertainty natural to the spring growing season.

His long experience in erosion

**Looking at the New London**

**Folks in Uniform**

"But honorable Tojo, you said you wanted to inspect your fleet."

control research and use of soil conservation practices has led Fennell to accept this formula as a reasonably accurate way of forecasting next year's wheat crop on the basis of this year's known conditions.

Multiply the number of inches of July rainfall by 2 1-3.

Divide the number of inches of depth of soil moisture penetration at wheat sowing time by 3.

Add these two values together and subtract 6 1-4.

The number obtained, Fennell declared, will be the average expected yield per acre in bushels of wheat; and, he added, the "chances are two to one that this average will be within three bushels of the actual yield harvested."

If a crop failure, or an extremely low yield is indicated, wind erosion dangers are greatly increased. Preparing and seeding the land, without getting a good cover of wheat to protect the soil, will leave fields subject to severe wind erosion during the winter and early spring "blow season."

"Taking advantage of favor-

able seasonal conditions to increase production is just as important as avoiding a waste of seed and labor where conditions are so unfavorable as to predict an almost sure failure," Fennell said.

"As an example of the application of the formula," the research specialist said, "suppose the July rainfall was 3 inches and the soil was moist 42 inches deep. 3 times 2 1-3 equals 7. 42 divided by 3 equals 14. 7 plus 14 minus 6 1-4 equals 14 3-4. Where these conditions exist the chances are two to one that the yield harvested the following year will range somewhere between 11 3-4 and 17 3-4 bushels per acre.

"Suppose the July rainfall was only 1 1-2 inches and the soil was moistened only to a depth of 15 inches, by the same formula an average yield of 2 1-4 bushels would be expected, or the chances are two to one that the yield would be between 0 and 5 1-4 bushels.

"These effects do not hold good, however, above 5 inches of July rainfall and 60 inches of soil moisture penetration," Fennell reminded, "for the reason that excessive quantities of moisture are not utilized by the crop with the same efficiency that moderate supplies are used."

Farmers can't do anything to increase the July rainfall, Fennell said, but they can use soil conservation practices to store more of the water in the soil.

"Although the two factors of July rainfall and fall soil moisture store account for only 41 percent of the total influence of factors determining the wheat yield, this is a sufficiently large proportion of the total of what it takes to make a crop," the research specialist said. "There is no reason why wheat growers should not begin to take these factors into account in planning their crop management. Although such other factors as wind erosion, the date of planting, and the spring rainfall enter definitely into the increase or decrease of wheat yield, the amount of soil moisture present at sowing time is by far the most important single factor, exercising more than one-fourth of the total weight of all factors effecting the yield of grain."

Fennell said that a practical method of determining available soil moisture is to bore into the soil with an auger or to sink a posthole digger until the layer of soil too dry to ball up in the hand is reached; then measure the depth to which moisture has penetrated. This measurement, he explained, is sufficiently accurate to be used in the formula.

As to the rainfall records, an actual measurement in the immediate locality is more dependable; however, the Weather Bureau record at the nearest weather station can be used with a reasonable degree of accuracy providing it has been observed that the rains were approximately equal in size and number during the month in both localities.

"Try making a forecast," Fennell challenged, "and see how it comes out before accepting this method, and bear in mind that one out of three results may be expected to fall outside the range calculated. The two to one odds are not high but where the necessity for gambling is admitted, it is better to have two to one odds in your favor than none at all. Advance information about your crop production possibilities can be used to increase war production with safety against erosion hazards."

By MRS. MERLIN KAUL

Another week of hot, dry weather, with row crops badly in need of rain. However, there is a hint of cooler weather in the atmosphere.

The windmill at the Merlin Kaul farm tore itself to pieces Saturday afternoon. Luckily, there was a new mill ready to put up. T. B. Cox, Maurice Tannahill, Joe Landers, and R. M. Gunn helped put it up Monday.

Visitors present at Sunday School Sunday were Mrs. Pauline Dunn of Amarillo and Virginia, Connie, and Winifred Riddle. The election of Sunday School officers was postponed until next Sunday.

Mrs. Bud Hopson and Jerry Ray and Glen Hopson of Hereford spent Sunday in the Grady Wilson home.

Mr. and Mrs. Ulys Pierce and children and Sammy Jones of Hereford were dinner guests Sunday in the A. C. Pierce home. Mr. and Mrs. Merlin Kaul and boys were callers in the afternoon.

Mrs. Pauline Dunn of Amarillo was a week end guest in the Earl Little home.

Mr. and Mrs. R. M. Gunn were dinner guests Sunday of Mr. and Mrs. John Huntzinger at Hereford.

Mrs. Claude Calson, Charles, Margery, and C. W. went to Wellington Friday to visit Mrs. Calson's mother and other relatives.

**'All Around?'**

"A little more off the top, please," says Sgt. T. C. Townsend, on the receiving end of Painter D. E. Regan's tonsorial routine in the South Pacific. Handy, those Seabees.

**'Old Goat'**

Commended for bravery in the Solomons . . . 25 years a U. S. Marine . . . mortar expert . . . father confessor . . . these are the attributes of gossiped Master Gunnery Sgt. Leland (Old Goat) Diamond. His real age is a military secret. (U. S. Marine Corps Photo.)

Mrs. Merlin Kaul returned home Friday from Dallas where she attended the state convention of Texas Home Demonstration Clubs.

Mr. and Mrs. R. Y. Corder, Kenneth and Roberta of Panhandle were guests Friday night in the home of Mrs. Corder's sister, Mrs. T. B. Cox. The Corders are teaching in Panhandle this fall.

Mr. and Mrs. Alvin Nickols and Ruby Jewell of Floydada were guests Saturday night in the T. B. Cox home. Mrs. Nickols is a sister of Mr. Cox.

Mr. and Mrs. T. B. Cox and children accompanied by Mr. and Mrs. R. Y. Corder and children and Mr. and Mrs. Alvin Nickols and daughter attended a family reunion of Mrs. Cox's relatives at the home of Mrs. Cox's mother Mrs. L. B. Hooten at Tulla Sunday.

Mr. and Mrs. R. M. Gunn spent Thursday with their daughter

Mrs. Guy Lawrence at Hereford.

Word received here from Elvin Wilson states that he is located in Vallejo, Calif., and expects to start to work in a few days. He has visited the Tom Roe family at Richmond, Calif. The Roe family is busy, all but the youngest son being employed.

Erman Campbell has been moved from England to North Africa according to information received by friends here.

Mr. and Mrs. T. B. Cox and children were Bergen visitors Wednesday.

Nina Beth Hartman accompanied Mr. and Mrs. Orville Houser to Floydada where they spent the week end visiting relatives.

Teddy Carthel accompanied his parents Mr. and Mrs. Hershall Carthel to the mountains in New Mexico last week after a visit of two weeks in the home of his aunt Mrs. Maurice Tannahill.

## Gasoline Shortage Is The Real Thing Because We Are Fighting This War On a "Sea of Oil"

Stating that "this gasoline shortage is the real thing, and it is primarily because we are fighting this war on a 'sea of oil'" a representative of the Continental Oil Company in a letter, copies of which were distributed to all field representatives of the company, this week made plain the need for the cut in gasoline rations in the mid-west and southwest. O. E. Easley brought the letter to the Brand office this week.

Because it comes from a responsible representative of the oil industry who cannot be charged with "carrying the propaganda ball" for any particular government agency, The Brand believes that motorists in the Hereford area will be interested in the facts presented and will be ready and willing to cooperate with the order when they understand its necessity.

**Deficit Of Supply**  
The oil company's statement starts out with the definite declaration that there is a gasoline shortage. The deficit of supply in relation to demand is still not large, except on the Atlantic seaboard, where shortage of transportation adds to the difficulties. The deficit is growing larger, however,—and it will continue to become more severe. As soon as the movement of crude oil through the "Big Inch" pipe line from Texas to the Philadelphia and New York refining areas has released the thousands of tank cars now being used to move that crude oil, the tank cars now assigned to the movement of crude oil, will be assigned to the movement of petroleum products from the southwest and middle west refining centers into the east. Therefore, with a moderate shortage already existing in the supply centers of the middle west and southwest, there will be an increase in that shortage when more of the supplies are transferred east to those newly available tank cars. Nothing but the tightening up of the ration allowances in the middle-west and southwest will permit these additional withdrawals without impairing the farm needs, the war plant workers' transportation needs and the essential trucking needs in the central United States.

**Misery DOES NOT Love Company**  
To clear up another erroneous impression, the letter goes on to point out that only a small part of the additional deliveries scheduled for the east will actually go to relieve the plight of "hard holders" who are today forced to get along on 1-1-2 gallons of gasoline a week. By far the greater part of it will go to supply the needs of the Army and Navy—and by way of proof, it is pointed out that "excluding aviation gasoline purchases by the armed forces, there is today being taken for the Army-Navy and Lend-Lease more than 1,000,000 barrels (not gallons) a day of petroleum products. This is now slightly more than one-fourth of our total American production, and this amount is scheduled to increase steadily until we have won the war."  
**Itches Is Right**  
The oil company goes all out in denying that the new rationing order is prompted by any "misery loves company" theory. Also denied is the widely believed statement that gasoline production could be greatly increased. "The industry is producing as much gasoline of all grades as is physically possible," the letter states, and continues, "We in the oil industry believe that Mr. Harold Ickes has made a conscientious effort to inform himself and the public of the real facts. He has been right every step of the way so far with respect to the enormous pro-

### Field Fixer

Wearing goggles against the glare of the torch, a 3rd Army maintenance soldier repairs a tank tread on maneuvers in Louisiana. In battle, there often are no garages handy.

### For Work or Play

Of sheer wool nutria brown, this modified wrapper fastens at one side with a large wood button with pearl inset, and features deep hip pockets. The blouse is wide-sleeved, of men's pin-stripe shirting closed at the neck by a string-type bow tie.

## CHANTS from the Chanticleer

We were talking with Ben Galloway last Saturday and Ben stated that he had been down to Rochelle to see his brother, Tom Galloway, who came home with him for a visit of about ten days.

Ben said he also came by Glen Cove for a short visit with his father-in-law, J. G. Wilson, at his home there. Mr. Wilson has been in Friona a number of times and seldom, if ever, failed to pay the Star of-ice a friendly visit. He is a fine intelligent gentleman and his visits at the office were highly appreciated. He sent his kindest regards and friendly greetings to us, and he also told Ben that he thought very highly of us but that the Republicans are no good. They are always going to do something great but never get to it. This, of course was very disconcerting news to us, but we are afraid Mr. Wilson is too nearly right about it.

We met J. M. Bradley on the street recently, and he was telling about having been shooting sudan, and how hot the sun was, and how high the stubble was and how hard and dry the ground was, so that it almost blistered his feet, wading the stubble and carrying the heavy bundles.

We believe it was J. A. Johnson who asked him why he did not take his overshoes off, and he replied that he was afraid his feet would get cold. We have heard of people getting "cold feet", regardless of the season and the weather. That may have been what Jim had in mind when he made the remark about his feet getting cold.

Zach Malone tells us that he is opening a "canvas repair shop" in the building with Mr. McAdam's Shoe Shop, so that Friona farmers will not need

biem of petroleum supply." As the letter concludes, most Americans will react in a cooperative spirit once they know that their sacrifices are not asked just to please some bureaucrat's whim or just because of somebody's blunder.

to go to some other town to have such work done. Zach is using the right tactics for getting work at his shop, by placing his advertisement in the Star. Success to you, Zach.

Nearly everybody we talk with tells us this is the hottest spell of weather, and the long-est spell of hot weather that we have had here for the past 30 years. Judging by our own personal feelings and to the best of our recollection, they are just right about it.

And that is not all about the weather. It is just as intensely dry as it is hot, especially in this immediate locality.

As we crossed the street last Tuesday afternoon, we encountered a group of youngsters apparently deeply interested in the discussion of some important matter and thinking we might add some prestige to the group by adding a considerable amount of age, we stopped for a few minutes.

The discussion seemed to be about eggs, and one of the youngsters said he could not go in on it as he had already sold all his eggs and had the money spent, so we at once jumped at the conclusion that they were trying to get up an egg-sucking contest. But we missed our "jump" as usual. It was nothing of the sort.

This group of youngsters consisted of C. S. Lloyd, F. H. Hadley, W. C. Norwood and A. C. Wickard and a fine jolly group they are when one gets to know them.

Bill McEltohin, of the Regal Theatre, seems to be having some difficulty in getting program of shows for a week at a time, straightened out, some times not being able to get all of them in time to get his advertisement in the Star.

Such was the cast last week, and one of his shows did not arrive at all. The one for Wednesday and Thursday night of last week. The crowded condition of the mails and the express service and the irregularity of the trains, evidently is the cause for so many delays.

But Bill gets in the good shows, and this week he has the complete program for the week in his ad on another page of this paper. Better read it.

It is a good plan to go right ahead with the weed cutting and otherwise clearing up about the home premises, especially during this continued hot weather, for polio seems to be increasing rather than decreasing, and as school begins parents should be more than usual careful about the health of their children. Let us do all we can to head off the polio germ.

We have not heard anything lately of the Friona Youth Council that was organized a few weeks ago. The Council has some mighty good work planned out and a lot of it, so we hope the organization will be able to start the "ball rolling" and keep it going.

### SONS

in the  
SERVICE

San Antonio Army Service Forces Depot, San Antonio, Tex.—Second Lieutenant Gordon E. Shackelford, son of Mr. and Mrs. Bert Shackelford of Friona, is stationed here in the Engineering Section. Lieutenant Shackelford was commissioned in the Reserves on May 29, 1941. Before reporting here on July 29, he was stationed at Granite City Engineer Depot, Illinois. Lt. and Mrs. Shackelford reside at 2143 West Cincinnati Ave, San Antonio.

A-C J. L. Weis, V-5 U. S. N. R. Kilgore College, C. A. A-W. T. S., Kilgore, Tex., writes the following:  
Kilgore, Texas,  
August 17th.

Dear Uncle John:  
To inform you that all is well in the city of Kilgore. The climate down here is somewhat hotter than most places I've been, but I guess thousands of our boys are in much hotter places than we have in the States, so I'm not complaining. I am progressing very nicely in my training at this station. Some week and a half ago, 25 enlisted men were shipped in here. They are from all over the country and a swell bunch of fellows. They have all seen action in the war and most of them have medals. One fellow, who was on the aircraft carrier "Hornet" won the Navy Cross. Mr. White, due to some error, my paper is still coming through Austin. I am confident that you will look into the matter at once, and thanks again for sending "The Star".

Respectfully,  
A-C J. L. Weis.

Yes, J. L., I will attend to the matter and get your address straight again this week.—U. J.

Av-S Jim Roy Roden, son of Mr. and Mrs. J. R. Roden, has been transferred from Sherman to San Antonio, as stated in the following letter.

San Antonio, Texas  
8-17-43.

Dear Mr. White:  
This is just a short letter to notify you that I have been transferred to San Antonio from Sherman, and will appreciate very much your sending The Star to this new address. To miss an issue of the good old Friona Star would be a great loss, for I couldn't keep up with the boys of Friona. I heard from Lee Spring and he seems to be having the time of his life in New York but thinks he will have to leave any day now. I sure miss Lee and those good chess games we had at Tech. Must close now and hit the sack for I have just finished a six-hour exam today, and have another tomorrow. Don't forget the Star.  
"Keep 'em flying",  
J. R.

We are glad to get your letter, Jim Roy, and I'll sure attend to that change in address. If you do not get the Star all right, write me again.—U. J.

The following little parody was sent to us by Charles Lewis Jones, A-S. It is quite appropriate to the times, and should have been in last week's issue of the Star, but we missed it. Beg your pardon, Charles.—U. J.

Old MacDonald had a farm,
