

'Winds Bi-District Game Friday

Turf of Muddy Snow Forecast For Title Fray

Reports of heavy, drifting snow at Amarillo that might make the roads bad and the going rugged on the Sandie field for the Whirlwinds Friday afternoon may be discounted to some extent, thinks Bill Brown of the Amarillo Globe-News sports staff.

When the snow was over Sandie field, where the game will be played, had two to four inches of snow, but there were drifts.

Three days of freeze and thaw ought to make most of the ice disappear.

Brown said the field drains well. However it will get a good churning today (Thursday) and tonight. Carver High school Negro team will play a bi-district game with the Midland school on the grounds this afternoon and tonight Amarillo AF base team plays the Texas Tech B squad on the same field. What condition it will be in Friday afternoon would appear questionable on account of these games. Rising temperatures are expected to dissolve the ice clods, if any, by this afternoon. There will be slick places on the field without doubt.

How the 'Winds' can go in mud or snow they do not know. They haven't had that kind of a field to play on this whole season.

Roads Are Cleared Up

The moderate temperatures following the north plains snow have cleared up the highways and those who have been in doubt about the trip also are encouraged by the fact that rising temperatures are forecast for tonight and tomorrow.

Members of the band and the pep squad are due to make the trip in school buses.

3-A IL League Spring Events Are Scheduled

Floydada schools will be hosts for the events again this year, the officials voting to accept the invitation of local school authorities to meet in this city. Only exception is tennis, which will be played off at Texas Tech courts, according to I. T. Graves, who was elected director general. A. E. Baker was named secretary.

The business meeting was held following a dinner at the high school cafeteria.

One-Act Plays March 24

First of the events of the spring will come March 24 when the one-act play tournament will be held at Floydada high auditorium.

Girls volleyball for both grade school and high school students, will be played off in mid-April.

With one or two exceptions, due to illness, all eight of the school were represented at the Monday night meeting by their superintendents, their principals and their coaches.

Grocery Celebrating Its Sixth Birthday

From a modest beginning the business has grown to enjoy a large turn over, the past 12 months having been its best year in point of volume. J. A. Patterson is owner and manager. Location is on the corner of main and Missouri streets in the Masonic building.

FAMILY OF SIX CHILDREN MEET AFTER 60 YEARS

Mrs. E. C. Henry has had the pleasure of having her brothers and sisters with her this week. This is the first time that the family have all been together in 60 years. Wednesday they were guests at a dinner at Mrs. Henry's home and on Thursday they were in Plainview at the home of Mr. and Mrs. B. F. Jarvis for a Thanksgiving dinner.

Present were three brothers, William A. Ross of Montrepe, North Carolina, Dr. H. L. Ross of Zitacuaro, Mexico, and John C. Ross of El Paso, and the three sisters, Mrs. Henry, Miss Lucy Ross and Mrs. B. F. Jarvis of Plainview.

'SHOP FLOYDADA FIRST' IS GOOD DOLLAR DAY CHRISTMAS SLOGAN

One of the best shopping days for the holiday season comes up on Monday when Floydada businessmen opens the month of December with their first Monday dollar day. Combining a large selection of high quality Christmas merchandise with "Dollar Day" savings, "Dollar Day" makes Monday a good time to do some of that Christmas gift buying.

Floydada's slogan for December is "This Christmas, shop Floydada first." In those five words there is some good advice. Wise shoppers long ago discovered that a purchase in Floydada gave them more satisfaction, and more quality for less money. A comparison of prices brings out that fact.

Floydada's aggressive merchants offer the most modern and beautiful furniture on the market today, the

highest quality of nationally known dry goods, toys, drugs, groceries, farm machinery and farm supplies. Not a week has passed this month that some Floydada automobile dealer wasn't displaying a shining, New 1953 automobile in his showroom. And there will be more new cars shown before January 1.

Local appliance and equipment dealers are rapidly setting up their finest television sets for display and demonstration. Floydada's three theatres and radio station KPLD open the door to the world's greatest entertainers.

"This Christmas, shop Floydada First" isn't just a catchy phrase but sound advice for carpool community shoppers. Monday's "Dollar Day" would be a good time to find that

City Still Urges Property Owners on Highway Improvement Voluntary Plan; Time Running Out

Pressing for a hurry-up answer from property owners on the curb and gutter program abutting Highway 70 through the city limits, the city council this week is anticipating they will have to have the answer not later than their regular meeting date on December 8.

In response to urging from a large majority of the owners who have property adjacent to the two-mile stretch of highway the council passed their order committing the city to a curb and gutter building program in cooperation with the State Highway Department, which is to re-build the highway through the city.

Whether the curb and gutter program will be handled on a voluntary basis, with the department furnishing the engineering and supervising the work or

Whether the city will have to make a separate contract based on assessments to cover the community's portion of the work.

If the job is handled on a voluntary basis, with owner funds in escrow, the cost is estimated to be approximately 20 cents per linear foot cheaper than if the job is handled by assessment ordinance. The city must give an answer to the department not later than January 1.

Property owners will actually pay less than one-fourth of the cost of the curb and gutter if the work is done on voluntary basis. It is estimated in the office of the highway department's resident engineer.

Total cost of the project, paving, curb and gutter, is put at \$110,000. Of this amount the highway de-

partment will absorb about \$75,000, the property owners about \$21,400 and the city about \$13,600.

The plans of the highway department on which both field and office work have been completed, call for a completely re-done roadway through the city. It will be necessary to tear out all the material now on the ground and start over again to meet the engineering needs, especially as to drainage. It is anticipated the changes being made in the plans will eliminate

faulty drainage situations throughout the city limits, so far as the highway is concerned.

Likelihood that the proposal of the city for doing the work on a voluntary basis will be met by the property owners was beginning to fade this week as reports had the snow agreements coming in slowly. Loath to give up the plan, however, the council still is urging the economy and the desirability of the idea. It was not indicated at the city hall that action would be taken immediately but there is no likelihood the city will delay past their regular meeting on December 8, to carry out their agreement, one way or the other with the State Highway Department.

Library Funds Grow as Drive Is Continued

Mrs. J. H. Barnard, chairman of the Floyd County free library general committee, reported Tuesday that the drive for funds and special gifts for the county library is progressing very well. A total of \$393.42 had been received by Mrs. Sam Spence, county treasurer, who is also the library treasurer.

Committees are still working. The drive ends on November 30.

Mrs. Barnard asks those who have not been contacted by any of the workers and wish to donate to the fund or give a book for the memorial shelf at the library to get in touch with Mrs. Sam Spence, mail or bring cash donations to her. Call either Mrs. Howard Drysdale or Mrs. Barnard or any of the committee about the books.

Four books have been received for the memorial shelf, books given in memory of a loved one, from the family or friend of the deceased. They were in memory of Glen Carmack, Mrs. L. H. Lewis, W. A. Cates and Mrs. Lon (Maggie) Davis.

Oppose Phillips For Honors on Amarillo Field

The District 2 A A Champion Whirlwinds of Floydada will meet the Phillips Blackhawks winners of district 1 A A in the first round of the state play off of their class in Amarillo Friday afternoon, November 28 at 2 p.m. The game will be played in Amarillo stadium which seats 15,150.

The site and time of the game were set at a meeting at Canyon Sunday afternoon when officials of the two schools met and made arrangements for the game. Representing the Floydada school were Supt. I. T. Graves, Prin. A. E. Baker and Coach Preston Watson. The school officials stated that it was a give and take proposition with some points being decided by the flip of a coin. The decisions reached were hoped to be in the best interest of the team and their chances of a victory as nearly as this was possible.

Tickets on Sale Here

The east side was designated as the Floydada side and the west stands went to Phillips. Price of admission was set at \$1.50 for adults and 50c for students. Tickets have been on sale in Floydada since Tuesday morning.

The Whirlwinds and their coaches will leave for Amarillo Friday morning at 8:30 to have time to stretch and limber up a bit before game time. They will be followed by a host of fans from Floydada and surrounding territory and a large crowd is expected to be on hand for this bi-district clash of gridiron giants.

Coach Chesty Walker and his Blackhawks have a reputation that is well known all over Texas. In many of the past seasons Floydada teams have clashed with Phillips teams and have always had their hands more than full trying to cope with them. This has been an unusually good year for the Blackhawks and they are riding high after ten straight victories and no defeats. They have scored 386 points and allowed 77 for the season.

Light Rainfall Measures .67

Light rainfall here in a storm period of three days that covered a five-state area, brought 67-hundredths of an inch of moisture in the form of rain to parched areas of Floyd county Sunday night, Monday and Monday night.

The spell was capped off with a feather-thin flurry of snow Tuesday morning at 6 o'clock.

Down-storm rains fell and on the north plains the ground was covered from seven to twelve inches in snow. Considerable wind made deep drifts and stopped traffic for nearly 24 hours. Many schools, but none in Floyd county, were closed for one to three days. Temperature here Tuesday morning was 25 degrees, and on Wednesday it dropped to 16 degrees.

Cotton Gins Still Rumble

The cold and rain stopped all field work, including the cotton harvest but gins of the county yesterday afternoon were still rumbling through a backlog of seed cotton that had piled up on their yards and in their storage houses. Slow-down is due to hit at the gins during this mid-week.

Wheat men had not had time yesterday to assess the value of the rain to wheat already up nor wheat that had been dry sowed.

## Muncy-Gordon Wedding Vows Said Sunday

The First Baptist church, Floydada, was the scene Sunday afternoon at 5:30 o'clock, for the marriage of Miss Betty Muncy, daughter of Mr. and Mrs. Robert Muncy, to Clyde Gordon, Jr., son of Mr. and Mrs. Clyde Gordon of Plainview.

R. Earl Allen, pastor of the church read the double-ring candlelight service.

Proceeding the service, Mrs. C. B. McDonald, played a nuptial prelude, which included, Schubert's Serenade and "Meditation" by Massenet. "At Dawning," "Indian Love Call," "One Alone," "Oh, Promise Me," and "Till the End of Time."

During the vows, "Always," by Berlin, was played by the organist, who also played the traditional wedding marches.

Woodward's palms decorated the chancel. The kneeling bench was backed by floor vases of frost white chrysanthemums and China mums. Cathedral candelabras, holding many candles, backed by palms, completed the decor. The bridal aisles were marked with white mums tied with white satin streamers, and holding lighted candles. The bridal arch was of white mums and greenery.

Candlelighters were Norman Muncy, brother of the bride, and Jerry Bob Harrison.

**Cousin of the Bride Sings**

Miss Sue Hall of Lakeview, Hall county, cousin of the bride, sang "Through the Years" and "I Love you truly," accompanied by Mrs. McDonald. As a benediction, Miss Hall sang, "O Perfect Love."

Misses Beth Beene and Barbara Gaither of Amarillo, Miss Jo Teeple of Silverton, and Mrs. Bernie Parkey of Floydada, cousin of the bride, were bridesmaids, and Miss Mary Walters of Vancouver, Washington was maid of honor.

All the attendants wore identical dresses of nylon net over taffeta in a beautiful shade of turquoise, fashioned with strapless bodices, completed by stoles worn over the shoulders. The bodices, made of shirred net, were outlined at top edge with bands of pleated net. The attached skirt was made of layers of shirred net, over taffeta. Crinoline was worn underneath to emphasize fullness. The head dress was turquoise net and taffeta bands, caught on side with baby yellow mums. Each attendant carried a cascade bouquet of yellow spider mums, tied with yellow satin.

Shirley Hale of Canadian, was the bridegroom's best man and the groomsmen were Ivan Bullard of Canyon, Steve Scott of Canyon, Ernie Ford, Amarillo, and Norman Muncy, Lockney.

The bride was escorted to the altar and given in marriage by her father. She wore a wedding gown of white imported French lace over net and satin, which was designed with sweetheart neckline, outlined with sheer braid. The bodice had small sleeves, completed by long gauntlets worn over the hands and terminated with a deep point at the center front waistline. The skirt, joining the bodice, was made of three full shirred tiers of lace edged with sheer braid, with a small chapel train and was worn over

horns and crinoline. Her veil was of silk illusion, finger-tip length, joined by a matching lace cap, with rows of tiny seed pearls. The bride's bouquet was of white rose buds, stephanotis and knotted satin streamers.

For something old and borrowed, the bride wore her grandmother Crawford's gold wedding band. Something new was her bridal attendant and she wore the traditional blue garters. The bride also wore a penny, made the year of her birth, in her shoe for luck.

Mrs. Muncy, mother of the bride, wore a plum suit, with mauve accessories and wore a pink rose bud corsage. Mrs. Gordon, mother of the bridegroom, wore a smoke blue suit, white accessories and wore a pink rose bud corsage.

**Reception Follows Ceremony**

Immediately following the ceremony, the bridal couple was honored with a reception in the home of the bride's parents, north of Floydada. Mrs. Fred Martin and Mrs. D. I. Holding, Jr., of Midland, cousin of the bride, served wedding cake and

frosted lime punch from a table laid with a maderia cloth, using crystal appointments. The bride's bouquet was placed near the beautiful three-tier pedestal cake decorated with white and yellow lilies. The bridesmaids bouquets were placed on the mantel forming a beautiful decoration.

Miss Benita Teaff was at the brides book and Miss Jo Muncy, of Roswell, New Mexico, a cousin of the bride, was in the gift display room. For the wedding trip to Colorado, the bride chose a winter white suit with brown lizard shoes and brown accessories.

After their return, the couple will be at home in Amarillo, where the bridegroom is a civilian instructor at the Amarillo Air Force base.

Mrs. Gordon is a graduate of the Floydada High school, Colorado Woman's college at Denver and West Texas State college at Canyon. She also attended Baylor University.

**RECIPE OF THE WEEK**

By Mary Lee Taylor

**Marshmallow Fudge**

Broadcast: November 29, 1952

8 quartered marshmallows  
1/2 cup cocoa  
1 1/2 cups sugar  
1 1/2 Tablespoons corn syrup

1/2 cup Pet Milk  
1/4 cup water  
few grains salt  
1/2 teaspoon vanilla

Put marshmallows into bottom of greased pan about 9 x 5 inches. Mix in a heavy 1 1/2-quart saucepan the cocoa, sugar, syrup, milk and water. When well blended, cook and stir over medium heat until mixture comes to a boil and sugar is dissolved. Boil until candy reaches soft ball stage (see note) stirring now and then. Cool at room temperature, without stirring, until lukewarm, or until the hand can be held comfortably on bottom of pan. Add salt and vanilla. Beat until candy is thick and creamy and starts to lose its shine. Put on top of marshmallows and spread to edges of pan. When firm, cut into 1 1/2 inch squares. Makes 1 1/2 dozen.

Note: Drop a tiny bit of hot mixture into a bowl of cold (not ice) water. If the candy stays together in a soft ball and does not fall apart when you lift it out of the water with your fingers, then the candy has cooked long enough. Be sure to take the pan off the heat while testing the candy.

# Final Council Business Meeting Of Year Features Club Reports

The final business meeting of the year for the Floyd County Home Demonstration Council was held Saturday at 2:30 p.m. with all officers present, and also a number of the new club presidents and council delegates were visitors.

An annual report was given by the club presidents and the council officers with all clubs represented except Starkey and Sunnyside.

Some of the outstanding reports included the one given by Harmony club that they had organized a new 4-H club and had had eleven special meetings for the community.

The Lockney club reported that they had ten new members for the year.

A splendid way of welcome was reported by the Sand Hill club that they had a "New Comers' Party" honoring the new residents of the community with 112 persons present.

It seems that the Pleasant Valley club were very enthusiastic about basket making with most every member having made a basket.

In a letter from the Abilene state hospital, the request was made that those wishing to send Christmas packages to the hospital do so by December 15 and that medium sizes in clothing were needed. This request did not pertain to those clubs who had a specific "friend" at the hospital, since they are to continue with the sizes that had been previously sent them. The address for those packages to be sent is: Abilene State Hospital, Box 481, care William T. Lawler, Abilene, Texas.

Those attending the achievement day at South Plains reported a wonderful time with a good program and a lot of good food at lunch time and some beautiful new homes to visit in the afternoon. Seventy-one members and five visitors were present for the day, with all clubs represented except Fairview and Lakeview.

The Annual council Christmas party will be the first part of December with all invitations to be sent out as soon as the date and place are decided upon.

Members present at council were: Center, Mrs. Tom Noland and Mrs. M. J. McNeill; Dougherty, Mrs. C. A. Caffee and Mrs. Howard Drysdale; Fairview, Mrs. S. H. Tackett

and Mrs. Galen Holland; Friendship, Mrs. Geo. Stiles; Harmony, Mrs. C. A. Williams; Homebuilders, Mrs. J. P. Moss and Mrs. D. T. Mayo; Lakeview, Mrs. R. L. Nichols; Lockney, Mrs. Thomas Marr; Lone Star, Mrs. C. L. King; Pleasant Valley, Mrs. Roy Wilkes and Mrs. T. E. Cowart; Sand Hill, Mrs. H. F. Jackson and Mrs. C. B. Carmack; South Plains, Mrs. H. L. Marble and Mrs. Bryant Higginbotham; Sterley, Mrs. R. H. Tinsley.

Visitors to council were: Mrs. Sam Jones of Providence; Mrs. I. K. Sherman of Pleasant Valley; Mrs. James Jeffries and Mrs. O. W. Jackson of Sand Hill; Mrs. Henry Willis of Center; Mrs. C. W. Payne of Fairview, and Mrs. W. D. Nance of Lone Star.

## Rushings Are Hosts To Friendship Club Members, Spouses

Members of the Friendship Home Demonstration club, their husbands and guests enjoyed a lovely Thanksgiving dinner on Tuesday evening in the home of Mr. and Mrs. Lee Rushing, northeast of Floydada.

Turkey was the piece de resistance of the lovely meal, served buffet style. The centerpiece on the table was in the Thanksgiving motif.

Games of 84 were enjoyed later during the evening, by the following: Messrs. and Mesdames A. H. Kreis, W. E. Grimes, Mal Jarboe, Harry Morckel, F. O. Conner, E. L. Angus, Sam Green, Mrs. J. H. Buchanan, Miss Lella Petty and Mr. and Mrs. W. H. Bethel, former members, and the hosts.

Mrs. J. H. Buchanan, affectionately known in her circle of friends as "Mom", surprised all the members of the club with a beautiful hand-made Christmas gift, "a little early," she said, but Mrs. Buchanan leaves shortly for California to spend several weeks with a daughter and will not be here during the Christmas holidays.

Mrs. A. H. Kreis is president and Mrs. W. E. Grimes is secretary of the Friendship club.

On November 18 the seventh grade 4-H club girls met in the 7-B room at Andrews ward school.

The roll call was answered with something we were thankful for. Miss Lella Petty gave a discussion on love, security, the need for belonging, acceptance, and adventure. Each of these things were compared with foods.

PT-A President Home From Wichita State Convention

Mrs. J. N. Scrivner, president of Andrews Ward Parent-Teacher association returned from Wichita Falls where she attended the state convention of the Texas Parent-Teacher Congress, November 19 through November 21.

It was the group's 44th state convention, by far the most interesting and successful in the history of the Congress.

The program theme, "Safeguarding Our Freedoms through responsible citizenship," was carried through out programs of the three days.

Over 100 delegates from the 14th district, which includes Floydada, were present for the three-day meet. This was the second state convention of the Parent-Teacher association that Mrs. Scrivner has attended. She stated this meeting was most interesting.

The highlight of Thursday's meeting was a banquet, held in the dining room of Midwestern University, the main speaker of the evening being Mrs. Ernestine Carey of Manassett, New York. Mrs. Carey, a writer of some fame, wrote two best sellers, "Cheaper by the Dozen" and "Bells on Your Toes." There were 2500 persons at the banquet and heard Mrs. Carey talk, her subject being "American Family Life" — Aid to Enduring World Peace.

Mr. and Mrs. S. H. Tackett of the Fairview community were Sunday dinner guests of Mr. and Mrs. W. U. Bagley of Lakeview.

## A Clean Stove Saves Fuel

The easy way to clean an oven. Leave a bowl of soapy water and ammonia in the oven overnight with the door shut tight. Next morning, suds the interior with a stiff brush. Dirt and grease wash off easily, thanks to pre-softening.

These are days of hearty meals and much home entertainment—and time to check the efficiency of your kitchen to save you time and money. A good start is the kitchen range.

Sputtering burners and smoky ovens are signs of trouble and wasted fuel. A good rule to follow is "a clean stove cooks better, saves fuel and lasts longer." But don't make a chore of it. Keep your stove in working order. Like the proverbial "stitch-in-time," constant care saves hours of hard labor.

Wipe the top and burners with a soapy cloth after each use, but let the stove cool first. Enamel may crack if water is applied while hot. However, wipe up spillovers at once with a DRY cloth or paper towel, lest they leave permanent stains. Follow with soap and water when the stove has cooled.

To keep carbon from jamming the pilot light, first turn it off; then scrub the housing with a soft wire brush and wash with a soapy cloth. Make sure surrounding surfaces are completely dry before you relight it, and that connections are "seated" correctly.

Pour grease off the broiler while it is still warm, but let it cool before you soak and scrub it in hot soapsuds. Rub mineral oil on the racks occasionally and they'll resist rust better and longer.

Treat the deep well cooker as you would any aluminum kettle. Lift it out and scrub with hot soapsuds, particularly along the outer edges. Non-insulated covers can be tub-washed, but insulated covers should just be wiped clean with a damp cloth.

They were strangers in our town—friendly, western born; she a homesick New Englander. We sat with them at a church supper. There were four of us, and we were older, so we included them in the talk.

"You'll soon love it here," we said with confidence.

Her eyebrows lifted ever so little. "I don't think so," she said quietly. "There's nothing to do."

"Nothing to do!" we chorused. Then the spouse, who never has time for half the things he enjoys doing, launched into a description of the town's opportunities. All around us were other young women working earnestly in the church supper and bazaar.

Her husband looked at her fondly: "We've been in the west four years and she hasn't learned to like it yet," he said.

Soon our talk drifted into the intimate jargon of old friends and we saw the longing in her face. She's unhappy because she left her heart in New England, we thought. She packed it away in mothballs in her home town. She can't learn to like our town until she sends for her heart. Meanwhile, her husband, already getting ahead in his profession, is trying to "make a home where the heart is" all by himself.

We wanted to whisper: "Wake up quickly, little girl! Your handsome man belongs in the west. When you choose him, you choose his way

of life. If you let this chance go by, you'll regret it the rest of your days!"

It's easy to forget, when our senses are dulled by the nearness of the familiar, that the little gestures of friendliness we make toward strangers can touch off their pleasure at living in our town. And what seems to be coldness on their part is only a tremendous longing to feel at home again.

BRIEF PEPLUM

If you find a brief peplum to suit your needs, it may be smart to have two of them. A velveteen one is perfect for the evening or more formal occasions, while a crisp linen will go to most daytime functions smartly.

SALAD CONTAINERS

Grapefruit and orange shells, halved and scooped out pineapples and melon wedges make attractive salad containers. A bit of lettuce leaf may be used, if desired, for green color notes.

Mrs. Galen Holland, Council delegate, gave the council report during the business session in the afternoon. It was voted to send the clubs adopted patient at Abilene a Christmas gift.

Games were enjoyed by the club members, directed by Mrs. E. W. Walls and Mrs. T. L. Perry.

A guest, Mrs. L. B. Cosby, jr., and the following members were present: Mesdames S. H. Tackett, Galen Holland, L. B. Cosby, sr., T. L. Perry, Walton Wilson, Lee Burton, E. W. Walls, Jim Stewart and Cleburne Payne.

## Give You Texas Boyce House

One of my illusions was broken when I was about 10 — and it had to do with millionaires.

My father was a druggist in a small town and there were many kinds of patent medicines on the shelves of his store, such as extract of wine and iron, chill tonic and syrup of figs. One was an emulsion of cod liver oil, which was as white as library paste, nearly as thick and about as flavory. The box had a picture of a man with a fish almost as big as he was slung across his back.

I accompanied my father on a buying trip to St. Louis and in one establishment he said to me, "This is Mr. Blank, who manufactures emulsion of cod liver oil; he is a millionaire."

I turned and gazed up at him. He did not have a big fish across his back — but I had only half expected that I had always supposed however that millionaires were set apart in appearance from ordinary mortals — and he looked exactly like all other men.

It was my first shattered illusion. There have others since.

A way that cafes could save money: Quit serving homogenized milk. Homogenized milk of course is milk that will not let the cream gather on top, leaving the rest as "blue john." This has advantages. But most restaurants serve you a glass of milk by placing a half-pint bottle in front of you and when you pour the milk into your glass (if it were ordinary milk) it would mix up any

how and you will have drunk it before it would have time to settle—so why does a cafe pay a premium for the specially-treated milk?

Incidentally, two cows were in a field and they looked at a billboard which said, "Drink Jones' Dairy milk—pasteurized, homogenized and Vitamin B added." One cow said to the other, "We cows don't have much to do with it any more, do we?"

Ralls Youth Best 4-H Dairy Manager

Kenneth Sellers, 19, of Ralls, has received recognition for excellent work in dairy production and management. As state winner in the 4-H Dairy Achievement program, he will attend the National 4-H Club Congress in Chicago as the guest of Lederle Laboratories. A 4-H'er for nine years, Kenneth learned the application of modern scientific methods, and the importance of cleanliness and sanitation in the handling of dairy animals. Starting with two dairy cattle he now tends a herd of 88 animals. Tests run on them at Texas A. & M. College show that the average butterfat production is greater than two and one-half times the "average" dairy cow in the United States. Kenneth has won 17 grand championships, 108 firsts, 53 seconds, and 15 third places. He has served in every 4-H office in the county, the last three years as junior leader.

### News of Dougherty

(by Mrs. W. J. Ross)

**DOUGHERTY, November 23.** — In the regular November meeting of the Community club it was decided to sponsor a community Christmas tree and program. The date for this event has not been set. There was a somewhat smaller crowd than usual due to the cotton harvest and illness in several families. Everyone present enjoyed the films shown, courtesy of Southwestern Public Service Company. Later punch and cookies were served under the supervision of Mrs. Claude Ring.

Despite the cold weather 49 were present for Sunday school and church. Brother Harris reports Mrs. Harris improving rapidly.

Mrs. Hal Hines, who underwent surgery recently at St. Mary's hospital in Lubbock, was moved to her mother's home in Lubbock Saturday where her medical treatment will continue.

### KITCHEN AND ★★★ FIELD NEWS

(from Floyd County Rural Electric Cooperative, Inc.)

by Nancy Morckel and Claude Weatherse

Let us remember to give thanks for America the land of opportunity where God's richest blessings have been administered in lavish abundance. No other country in the world has been blessed with the spirit of individual freedom, collective self-confidence and private enterprise that prevails in America today.

Let us remember that it is this spirit that has made America great. Let us realize that today there are some countries in which the spirit of "Thanksgiving cannot be publicly proclaimed, and determine anew that the people of America shall never be denied the observance of Thanksgiving.

We are glad to have Buck Maricle back as an employee of the Co-op. He left two years ago, November 12, for service in the U. S. Army. He was at Camp Carson, Colorado, most of this time.

Cleo and Johnny Pratt of Cameron, Texas, visited Monday night with their uncle Johnny Stutts.

Mrs. Jackie Duke is a new member of the Co-op family. Jackie and Ruthie Cantrell were married on November 14.

Bob Gibson, county agent, gave an excellent demonstration, November 19, on boning a turkey and making turkey steaks. Mrs. S. H. Tackett, of the Fairview community, Floyd county, furnished a turkey for the demonstration and after the steaks were made she fried them and served them so everyone present found out just how delicious they really are. This is a nice way to store some turkey in the food freezer.

### Center News

(by Mrs. J. E. Green)

**CENTER, November 25.** — This morning the wind is howling and some snow, but the sun has come out. The radio promises us real Thanksgiving weather for the holidays.

Our Training Union study course is in full swing, under the leadership of Ben Douthett of Palestine. Our largest crowd was on Sunday night when Fairview came over to be with us. In spite of threatening misty weather "we were 39."

Mr. and Mrs. R. C. Ross and Norma Jane were Sunday dinner guests in the Clarence Guffee home in Floydada. Other guests were Mr. and Mrs. S. A. Guffee and son, Homer, of the Campbell community.

Mr. and Mrs. Fred Robertson and children, Fredna and Nancy of Barwise and Father and Mother Robertson of near Dallas were Sunday guests of the J. R. Robertson family and attended church here.

Margaret Green spent the weekend in Plainview attending the Wayland Homecoming.

Sunday dinner guests of Mr. and Mrs. Leo Prizzell were Mrs. Marvin Jackson and Bro. and Mrs. Hodges and Jerry.

Kit Zimmerman of Floydada was a week-end guest of Donna Wellborn and attended church services here with the Wellborn young people.

Mr. and Mrs. Noland Arney were Sunday dinner guests of the Wellborn family.

The most recent letter from Pvt. Don Clark Green of Camp Stone-man, Pittsburg, California, says most of the final preparations for sailing have been made. He wishes to be remembered by friends at Center and elsewhere and appreciates the good time at the party the night before he left, and the gift of the beautiful leather billfold with his name engraved on it. We ask all to remember him in prayer along with all our other boys who are over

Sherwood Ramsey, Mather Carr and several children.

Mid-week services were well attended. Charles Mather Carr brought a good lesson. Following the prayer service several songs were sung.

The regular monthly Community Center meeting was held Thursday night at the center. Items included a business session, a Thanksgiving supper and an exhibit of articles made by the club ladies. Mrs. Charles B. Smith presented the library free will offering to the people. Some contributed. Mrs. Ted Rutherford directed recreation while Mrs. Loyce Turner, Mrs. Wheeler Turner, Mrs. Everett Miller and Mrs. Roy Hale and Mrs. Chloma Williams prepared themselves for a short play, "Begin to Diet Tomorrow." They received nice applause.

Mr. and Mrs. Everett Miller, G. L. Snodgrass, Riley Holmes and son, J. Riley, Mr. and Mrs. Carriek Snodgrass, Mr. and Mrs. Chloma Williams and daughter, went to Canyon Friday night to the football game between Floydada and Canyon. All rode the old iron horse up except Mr. and Mrs. Williams. After the game Mr. and Mrs. Williams drove to Amalillo and spent the night with Mr. and Mrs. L. A. Williams.

Everett Miller, Walter Hanna, Carriek Snodgrass and Bill Morris left Saturday for Colorado on a deer hunt. They plan to be away for about a week.

Mrs. Marvyn Smith, Wesley Carr and Lajuana Sue Williams were ill last week.

Mr. and Mrs. Sim Burrows of Plainview were guests in the Mather Carr home Sunday.

M. and Mrs. L. G. Pierce and children from Lubbock were Sunday guests of Mrs. Pierce's parents.

Mr. and Mrs. Perry Tipton of Arkansas are guests of the Tipton's daughter and family, Mrs. Sherwood Ramsey.

Professor and Mrs. John Penick and daughter of Lubbock were guests in the Loyce Turner home Sunday afternoon.

Mrs. Billie Dave Scott of Lubbock was a guest in the Zant Scott home Sunday. She also attended services at the chapel.

Rev. Krebs preached Sunday morning and night at the chapel. The Krebs had dinner in the R. B. Gary home and supper in the Wesley Carr home.

Mr. and Mrs. Laurence Davis and children and Floyd Dunn of Cone attended services at the chapel Sunday night, when Mr. Davis brought a lay talk. Following the talk Rev. Krebs preached.

Folks do not forget the Mexican supper December 4 at the Harmony community center at 7:00 o'clock. You can secure tickets from the club ladies or call Mrs. Walter Hanna for information about these tickets. If you want to attend this supper set your tickets now.

Mrs. Wesley Carr was called to the Peoples hospital Sunday night to assist with the patients, who were in the car crash which took the life of W. A. Cates.

Attending the Thanksgiving supper night at the Harmony community were Mr. and Mrs. Glad Snodgrass, Mr. and Mrs. Edd Johnson, Judge and Mrs. Clifford Tubbs and Mr. and Mrs. Ham Smith of Floydada, Mr. and Mrs. Perry Tipton of Arkansas, and Rev. and Mrs. H. G. Krebs and sons of Cone.

Mr. and Mrs. G. L. Snodgrass and Mrs. Everett Miller spent the week-end in Jerico guests of Mr. Snodgrass sister, Mrs. Will Reeves.

### "BUY DEFENSE BONDS TO REPLACE OLD TRACTORS," SAYS 'MAID OF COTTON'

Tractors, cotton and thrift are woven together in the fabric of American life, according to Miss Fat Mullarkey, Dallas, Tex., 1952 Maid of Cotton. Today, there are a million tractors on Southern cotton farms and 25,000 are added annually, sparking the trend to cotton mechanization. These tractors will last about 10 years. By putting the annual depreciation of the tractor, 10 per cent of the purchase price, into U. S. Defense Bonds each year, the thrifty cotton farmer can pay cash for a new tractor when he needs it. So, the young lady in the made-of-cotton costume reminds the cotton farmer: "Save for your new tractor the easy Defense Bond Way."

### Bi-District Game

(Continued from First Page)

Reddick is close behind with 76 points to his credit. Allen Grever of the Blackhawk has thrown 13 TD passes this fall to show the power of the Phillips passing game. The Hawks are deep in reserve power and are described as a big, fast, smart ball club. They run mostly from the T formation.

The Whirlwinds also have a record of which they are proud. They have won ten straight and scored 356 points while allowing only 7. The "Winds" also have some high scoring backs headed by Adrain Helms who has cracked the scoreboard for 103 points. Carmack has accounted for 75 points and Clark is close behind with 73. Connie Bearden has 43 points to his credit and has been improving rapidly in recent weeks.

Blocking and defensive play of the "Winds" has been a strong point this season as the backing of their last 9 opponents will show. The Whirlwind line has been the subject of much lavish praise that is well deserved and they have been backed up by a backfield that is equally point stinky on the defense.

**Injured and Ailing**  
Injuries in the "Winds" lineup have been of major concern to the coaches this week. Monday Kerwin Baxter was sick and unable to be in school. Brooks Chapman and Dane Clark who missed the game last week at Canyon were still on the doubtful list. Brooks was working out but had lost considerable weight. Dane is still out and it is not known if he will be able to play.

Probable starters for the "Winds" in the Phillips game will be Franklin Stovall and Brooks Chapman at ends, Kerwin Baxter and Charles Hartman at tackles, Lewis Reedy and Bert Grimes at guards, Don Barber at center, in the backfield Adrain Helms and Connie Bearden at the halves, Billy Carmack at quarter, and W. J. Hartline at full.

The Whirlwinds fully realize the strength of their opponent and know that they will have to be ready both mentally and physically and at the same time be clicking to cope with the Phillips team. The fans, too, are high for the game and believe it will be the game of the year as far as Class AA high school football is concerned.

Yesterday it was announced that both Station KPLD of Floydada and Station KHUV at Borger will broadcast the game directly from the Sandie stadium.

**NO PACKAGES**  
An armful of packages makes it seem that your job hunting, sandwiches between shopping tours, is only incidental.

War was never formally declared against the Confederate States in 1861.

### Guest Minister Named for Sunday

Reverend Tilden B. Armstrong, pastor of the First Methodist church left Wednesday for Washington, D. C., where he will be one of 400 clergymen from different parts of the nation, gathered in the capitol to help conduct a new experiment in evangelism there from November 28 through December 5.

On Sunday November 30 Reverend Clarence F. Letchworth of Plainview, will be guest pastor at both the morning and the evening service hour at the First Methodist church, in the absence of the pastor.

On Sunday, December 7, the choral club of the North Ward school will give a concert at the Methodist church at 7 o'clock. This club is under the direction of Miss Earline Miles, music teacher in the school.

### HANDICAPPED HOMEMAKERS ARE TAUGHT HOUSEKEEPING

Most women in America would lead easier and certainly healthier lives if they could learn some of the lessons in housekeeping with experts are now teaching physically handicapped homemakers.

A number of hospitals and health departments are now employing home economists to serve on rehabilitation "teams" to help women who have suffered a serious illness or a crippling accident. There are an estimated ten million such women in the United States; all of them must learn to make their housework as easy and non-fatiguing as possible and many of them must learn to work with appliances or from wheel chairs.

In helping these women learn housework, home economists are finding it necessary to throw out the "time" in the time-motion efficiency systems which are used to help the physically handicapped in factory work. Knowing that one is supposed to clean the upstairs bedroom in exactly forty-five minutes is fatiguing all by itself, and the schedule won't work out if children need attention or if the doorbell rings. It is far more important to know how to clean a room efficiently and to have the right equipment stored in the right place; time will then take care of itself.

The keys to easier housework for any homemaker, the home economists point out to their patients, are these three factors: efficient methods of work, proper equipment, and proper arrangement of equipment.

### SPEED OF STARS

Is it true that the star Arcturus moves faster than any other? No. The speed of Arcturus, with respect to the Solar System, is about 84 miles per second, but many stars are moving much more rapidly. One of the fastest known is a faint star designated by its catalog number as "Washington 5583." Its speed, as measured from the Sun, is about 370 miles per second.

### Cross-Ties

The number of railroad cross-ties treated in 1951 rose almost 1 percent over 1950 to 37,769,832.

were not in the stores the year around and just before Christmas the merchants began spreading their merchandise of gifts, after being unloaded from a freighter's wagon. Seasons then were clearly marked. Wool dresses trimmed in ribbons of silk or plushy pieces of velvet were for winter. Thin lawn, organ-dies, and foulards for spring and summer. Hats of felt or beaver, trimmed in long willowy ostrich plumes, sparkly pins and gay ribbons, were put on in the fall and their place was taken the following spring by hats of fine straws, or soft swishes of tulle, piled high with flowers or shiny fruit.

Grandma did not wear her granddaughter's hat, hers was a little black model with a tiny sprig of purple pansies or forget-me-nots. We did not have tomatoes in the winter, or lettuce or strawberries. We did not have oranges and apples much only at Christmas. Our ice-cream was either made with snows of winter, or turned around in a bucket of ice only to be had when the ice was not home made.

People had to dress warm. The houses were cold, the fuel had to get and not much money, either. Do you remember trying to pull a pair of black cotton hose over a pair of long handles and to make the job smooth and not bunched in the back of the leg. We laced up our tall shoes or hunted desperately for the button hook if ours was the button kind. And how a button hook could pinch if part of the skin was caught!

Now a girl just slips on a pair of filmy nylon hose. All her worry is to see that the seam is straight. She steps in a pair of low heels and is gone. Now I am not looking back with longing for the things of yesterday. I just started out to tell about trying to get out of work this cold wintry day and you see where my thoughts took me!

As I look outside the world seems so empty of color. Gray skies over a brown earth. But the blue roof at the Verrett's new home looks pretty among the roofs of red and brown and green. A red truck comes down the highway followed by a blue car, a green car, a white car, a red car. A line of color, like a long train with cars of Joseph coat colors. A light gleams from Maude's and Walter's window, a yellow rose among the gray.

I think I have told this story before but it is worth telling again. In my reader of long ago, there was a piece about a cold rainy day, a young rich lady dressed in woolen and furs, a little girl in a ragged dress, without a coat or hood looking into a store window gay with things of the rainbow colors. "I

choose that color, I choose that color," the young lady heard the girl say in rapture. So this day of November we can choose our color for the gloom of the day. It can be a color of faith rich in beauty and glowing with jewels of the mind by the following of Jesus or we can choose the color of defeat and despair, of discouragement. We can choose our colors! The little girl did know that was all she could do.

I was terribly sorry about Harold Brown's fall last week. Harold is such a nice person and also a good announcer. I like his poems he reads and hope this part of the program continues.

To paraphrase an old poem:  
The happiest days of the year have come,  
With Thanksgiving at hand  
And Christmas drawing near

## Views and Comment

Right now football is much on the minds of people of our immediate area. For the first time in some years Floydada high school has an unusual football team. For several weeks the week-end has been given over to football as the chief athletic diversion for people who take naturally to competition of that kind. Looking back over the season we are glad the Floydada team has had reasonably good fortune in the type of officials which have called the football games in which our boys engaged. Some of the other teams in the close vicinity have not been so lucky. Ralls and Lockney both got bad deals as is reflected in the reports of the sports writers of those towns, and even reflected in the editorial columns of the Banner and the Beacon. The Banner editorial writer abhors football in school and says so in no uncertain terms, whereas at Lockney the opinion is strongly in favor of the football program in high school. Both, however, are pretty well agreed that when a set of officials get the fans up in arms it is almost always the fault of the officials themselves. Our own belief is that all the rhubarb at football games traces back to the officials who should run the game and are presumed to be impartial umpires to apply the rules. Players and fans alike will take some run of the mine mistakes in good grace. When the "situation gets out of hand" you may be sure the finger rightly should be pointed at the men out on the field who let it get that way.

School people are pretty well right, in all probability, when they take their bi-district games to "neutral fields" to be played. The practice is general and has been for some time throughout the region. There must be a reason. However, we'd like for the Floydada team to go to Phillips this week or the Phillips team come to Floydada on a day and date and hour determined by lot. The way for smaller communities to get to be bigger communities is to grow with the opportunities as they come along. This week it is true the facilities for handling the crowd, the ground on which the bi-district game will be played—all the things that go with a contest of the kind—will be better than could be afforded at Floydada, we admit. But there will be many a follower of the green and white, who has carried on through good years and bad, supported the team as we express it, who will not have the chance to journey a hundred miles and back to see his team play. We have an idea the same is true of a sizeable number of the Blackhawk fans. Had Floydada fans missed the chance to see their team play at home, those who could follow the football boys to Phillips would have seen a wonderful set-up for athletics—and all kinds of scholastic activities, for that matter—the like of which Amarillo offers no better, so far as quality goes. But the authorities and practically everybody, save and except us, think the thing to do is to high tail it off to a big town to strut our stuff tomorrow. Which is just all right with us. We're just thinking of how we would like for it to be if we had our druthers.

One good thing about the America we treasure is that even the most uninformed newspaper man may express his opinion about anything, worldwide or local, and no man to gainsay him. Even the most ignorant newspaperman's most ignorant reader also may express himself freely about any subject including those about which he knows nothing. The right not to know, you might call it.

Two Good reasons why America will win out in the long run is that while we revere the individual and respect a man's claim to his own soul, the Communists do no do so. In fact, the Communist doctrine, as you know, cuts across two of the primitive urges of man, both of which our nation of people ardently support. These are the right to own property and the right to have the religion or no religion of one's choice. Our nation does have some unsavory alliances and we are doing some things on the international plane which are indefensible, except that we live in an imperfect world. The fact remains the great heart of the American people is right. We aim to do right and we will do right as Providence vouchsafes us the wisdom and the ability.

This leads us to the thing for which we can be thankful on this Thanksgiving day in this perturbed world, now full of sound and fury, of war and rumors of war. Originally the Thanksgiving day the people had was to give thanks for the material things—food and clothing and a harvest that would see them through a hard winter ahead. But we now have far and away more for which to be thankful, thankful for a people who put their trust in God to uphold a righteous cause, to see us through times more parlous than even those of the colonial times. For this time it is the extinction of enlightenment and a return to the dark ages that are at stake.

Evidence that election officials in Floyd county or perhaps the authorities that arrange for elections, should be more alert to protect voters in their right to a secret ballot, than was the case in the general election is contained in complaints of some voters. This was especially true of precincts where quarters were crowded and a voter could mark up his blanket-size ballot before a multitude of witnesses or not vote at all. That kind of thing can run into intimidation, especially where the lookers-on are inclined to be big-mouthed and overbearing, which some are. For whom and for what an elector votes, also against whom and against what, are matters which should be inviolately between himself and his conscience. For a person to be forced, even by wholly unintentional circumstances, to vote under his neighbors' gaze, is a serious violation of his rights. If we're getting grown up enough in Floyd county for hard-surfaced roads all over the county, public libraries, swanky stores and the like, we're also able to provide means by which a man can have the privacy when he goes to vote that he is guaranteed by the constitution and the laws of the land.

There are people a-plenty who think that the forecasters are far wrong in their estimates of what the cotton crop in Floyd county will turn out to be. Among these are some who think the crop will wind up closer to 80 thousand bales than it will 130 thousand that Mr. Klapp and others are saying. Too much acreage can be found where the crop was a big disappointment and too much acreage where the production fell considerably short of what it gave promise of doing. Won't be long now, until we know, with the freezing weather here. Faced with high cost of production and higher cost of harvesting a good many growers are taking short cuts with considerable waste as a result. We'd say a tenth of the crop is going that way.

### Pink Bollworm Progress Report

Mention the insect "Pink Bollworm" to farmers in central and northern portions of Texas and you'll get reactions varying from mild alarm to complete disinterest. But mention it in South Texas! The effect is immediate and explosive. Some farmers fully realize the dangerousness of the situation and its potential threat to the entire cotton industry. Others concede the seriousness of the insect but are violently opposed to some control measures necessary to fight it.

Yet all agree on one point. The Pink Bollworm has hit them hard in the pocketbook. This year the insect took about one out of every four bales of Rio Grande Valley cotton and destroyed upwards of 40 million dollars worth throughout the infested cotton areas. Left unchecked it would spread throughout the entire state and ruin our cotton production.

This past season was "Get Tough With Pink Bollworm Year". And it was time we did. There are 220 Texas counties now infested. Forty-five of these are "heavily infested" and 183 "lightly infested." Sixty-one counties are under planting and plow-up regulations which are enforced by law.

No extensions were granted in areas where stalk destruction deadlines were set. Since we have no poisons which are effective against Pink Bollworm, then our best method of control is to set planting and plow-up deadlines and stick to them unless weather conditions prevent it. These deadlines cut down breeding and build-up periods and help assure few insect carry-over the winter.

Cooperation by farmers in the program was excellent. Only about 100 of them in the entire 61-county area affected failed to clean their fields on time. As a result, if we

have a cold and comparatively damp winter, we can expect only a minimum infestation next season.

To give you an idea how the insect can spread, Pink Bollworms were found in 39 new counties this year where it had never been seen before. To combat further spread, we will set up about 300 new seed sterilization points in East and North Texas next year to establish a "front" beyond which few "pinkies" can pass.

Continued cooperation and vigilance on the part of cotton farmers will be required to minimize the threat. Seed from infested areas should always be cleaned of stalks soon after harvest. And a constant watch should be kept for the insects appearance in new areas.

Perhaps a new systemic poison will be developed which will affect the pest. But until that time, we must rely on present controls and the willingness of the farmers to protect Texas' largest industry — cotton.

## OLIVER 100 SERIES PLOWS

easy to handle  
light in Draft

You'll be pleased the way the compact, loaded Oliver No. 100 tags your tractor around corners. The power lift is foolproof and quick. Its ball-bearing depth adjusting screw is easy to turn. The wide arch in the "lucky curve" furrow axle promotes high clearance. A simple, under-the-hitch pulls from a point between the front axles to equalize and lighten draft. The plow is still lighter to pull are the exclusive bottom throws, with shares so inexpensive they throw them away when dull.

# Prove Conference Calibre Topping Canyon Eagles 32 - 0

Whirlwinds finished the season of football with a 32 to 0 victory over the Canyon Eagles in the 2AA championship game at Phillips in the city.

The Canyon team was with a large crowd of mostly boys, 700 of whom made up the special train. It was a night, but the spectators were warmed by the sparkling game of football the 'Winds' won.

W. J. Hartline saw service in the backfield of the offensive line up, and Kent Covington and Zack Cummings saw more than usual service at ends.

Conner had their Eagles ready and they put up a game fight all the way, but only in the third quarter were they able to hold the rampaging 'Winds'. The Eagles gave the 'Winds' a good scare in the second period when they made a first down inside the Floydada five yard line, but the locals dug in and four plays later had driven the Canyon team back to the 19.

Coaches Preston Watson and Jack Meredith were minus two of their regular starters in the Canyon game. Dane Clark and Brooks Chapman were on the ailing list and unable to play, but their teammates moved into these positions and filled them well. W. J. Hartline saw service in the backfield of the offensive line up, and Kent Covington and Zack Cummings saw more than usual service at ends.

Starting the game Canyon kicked to Floydada on the 30. Before the 'Winds' got their attack going good McDonald of the Eagles intercepted a Carmack pass and the Eagles took over at midfield. The 'Winds' held and forced the Canyon team to kick and Williams booted to the Floydada 26. After a five yard penalty pushed the locals back to the 21 Helms tucked the ball away, found his teammates giving him some good blocking and sped 79 yards to score the first TD. The point after TD was no good and the score 6-0.

**Another First Quarter Score**  
The next score came late in the first quarter. After the ball had changed hands on a punt fumble and punt the 'Winds' got possession on the Canyon 47 yard line and started a drive that netted another score. The last 20 yards were added by Connie Bearden who scored the touchdown. The kick again failed and the score at the end of the first quarter was 12-0.

The 'Winds' added two more counters in the second period, Helms carrying for both. The first came on a 12 yard jaunt and the second was driven over from the 8. The 'Winds' got possession on a fumbled ball on the Canyon 38 to set up the first score. The second came after a short punt gave them the ball on

the Canyon 30.  
Before the half ended the Canyon team made their only serious threat when they intercepted a pass to the 40 and returned it to the 25. From this point they advanced to the 2-yard line before the 'Winds' stiffened and made their goal line stand. One of the 'Winds' kick for point in the second quarter was good and the score at half time 25-0.

**Bands Perform at Half**  
The bands of the two schools gave fine performances at the half. Several numbers were played and some good marching was in evidence. A Canyon twirler gave a fire baton twirling act with the lights out that was enjoyed by all.

Opening the second half the Eagles took the field with determination and held the 'Winds' scoreless for the time. The entire third period was a defensive show and punting duel.

Starting the final frame the Canyon team had possession on their 30 facing fourth down and McDonald punted to Helms on the Floydada 35. The 'Winds' then got a drive under way that gave them their final score when Helms went over from the 28. The kick was good and the score 32-0. Before the game ended the 'Winds' threatened again but were unable to score as time ran out on them. Helms was again broken into the clear late in the period but the gallant little halfback was about spent and was downed when his blockers were unable to keep the defenders from overtaking him.

**Helms the Big Threat**  
The 'Winds' gained 412 yards rushing and made 17 first downs. The Eagles made 54 yards rushing and 5 first downs.

Helms was again the big offensive threat gaining 264 yards in 23 tries for an average of over 11 yards. Bearden was in fine form and had one of his best nights with a 7-yard per carry average. Hartline and Carmack added substantial yardage and Stovall gained on an end around play.

**Reserves Show Up Well**  
The Whirlwind line was in its usual hard charging form and was very stingy with the Canyon boys. Grimes and Stovall were again outstanding in their line play but were pushed for honors by their teammates.

Coaches Watson and Meredith played more than the usual number of reserves in the game and about the entire squad saw action. At the close of the game a team mostly reserves were gaining consistently and only time prevented their scoring another TD.

**Other Scores Last Week**  
Lockney 27 - New Deal 14;  
Ralls 19 - Crosbyton 12;  
Hereford 34 - Tulla 12;  
Phillips 27 - Dumas 0.

## FHS Band News

### Self-Draining Lake George is Alaskan Natural Wonder

Surviving stronghold of the ice age, Alaska hides strange quirks of nature among its remote ranges. One of the strangest is Lake George, 45 miles east of Anchorage, Alaska's largest city. Each July during the summer thaw Lake George empties its billions of gallons of water as if someone had lifted a giant bathtub stopper.

Crevasse Knik Glacier, creeping westward, jams against a rocky wall of the Chugach Mountains on a 7 1/2-mile front. Ten months of the year the glacier acts as a high dam breast. It is the stopper. To its south rain, melted snow, and glacial seepage fill a depression 15 miles long and five miles wide. When brimful late in June, the lake thus formed is more than 200 feet deep.

In July, Alaska's Lake George sends its first trickle of overflow across the softening ice barricade.

Heat of the short summer helps the stream to scour a channel where glacier meets mountain wall. In two weeks or less the brimming lake becomes a mudhole filled with strand-

ed icebergs, while the race down the Knik Inlet.

Advertise for it. Hesperian

# Thanksgiving

The one day of the year dedicated to giving thanks for the many blessings we enjoy as Americans... the one day when many will pause to say a prayer for peace throughout the world, for plentiful and nourishing food for everyone, for integrity and honesty in governments, and for love and understanding in the home. May the prayers of Americans for these things be answered.
