

Jumps The Gun; Whirlwinds Make Bid for Regional Honors on Childress Field Friday

Tomorrow is another Friday for many communities in West Texas but for Floydada it is football day. The school's football team is going to be followed to Bobcat field at Childress high school by a crowd of fans that may reach 2,000 in numbers.

Yesterday the prospect was that a good many offices, shops and stores will be closed for the afternoon and at other places there will be left a skeleton force to care for the trade.

In the morning the high school band and the pep squad will leave Floydada at 10 o'clock with the intention of making a day of it at Childress. "Not much use trying to have an hour or two of school," said Principal A. E. Baker, "so we just called it a day and will make up the time next spring."

Whirlwinds Try Big Team From Childress High

(by Kenneth Rimmer)

Floydada Whirlwinds journey to Childress Friday afternoon to engage the Bobcats of that city in a regional football contest. The game will be called at 2 p.m. and will be played in the Childress stadium. Both Floydada and Childress were victorious last week in their bi-district clashes. Floydada won from Phillips 13 to 7 and the Bobcats took the measure of Seymour 20 to 6.

The Friday game brings together some temporary seats that are being moved to the field; there will be standing room for the overflow. All the reserved seats are on the south side of the field.

The game is being played in Childress as a result of a bad call of the coin by Coach Preston Watson in Amarillo late Friday after the bi-district fray of the Whirlwinds and Black Hawks.

The officials of the two schools got together and agreed on everything but where this week's game was to be played. For that they tossed a coin, Floydada or Childress. Watson had had enough luck for one day. He called wrong.

The game will be broadcast direct from the field by Carl L. Minor, Jr., over KPLD, beginning at 1:50 o'clock.

He will be accompanied to Childress by Don Steeley, station engineer and by Harold Brown and Bryan Collins, who will help report the game.

Roberts in Good Condition The Childress newspaperman reported the Bobcat squad in good condition except for minor bruises from last week-end game against Seymour. He said the team and the fans there are a little dubious of the outcome. He said Floydada fans, unidentified, had been in Childress Tuesday with some 14-point money on Floydada.

Among Floydada high school students preparation will begin for the game this evening at a giant downtown rally to be staged following the visit of Santa Claus to Floydada.

Meanwhile, report from the high school indicates the Whirlwind squad is in good mental condition for the game, neither downcast nor overconfident. They like to play football and they're going to have a hard game tomorrow and win it if they can, sums up the situation in brief.

HARLEY SADLER "IMPROVED" ABILENE. — Harley Sadler, state senator-elect from Abilene is reported as "greatly improved" today at Hendrick Memorial hospital where he has been under treatment since he suffered a heart attack on Friday.

Burial was in Kress cemetery, under the direction of Carter Funeral home of Lockney. A second service, at the Kress Baptist church, was conducted at 2 o'clock with the same pastors in charge.

Mr. Cates passed away Thursday evening about 6:30, o'clock after an illness of many months, at his home six miles northwest of Floydada. He was carried by ambulance to the funeral Wednesday of his father, W. A. Cates, who was killed in an automobile collision on Sunday afternoon. The father and another son W. C. Cates were enroute to the Elzie Cates home for a visit when the accident happened which took the life of the father and hospitalized eight other persons, including the brother, W. C. Cates and his wife.

Elzie O. Cates was born August 27, 1887, at Cleburne, Texas. He moved with his family to the south plains in 1907 and has since that time made his home near Kress and for the last several years on a farm northwest of Floydada. Mr. Cates was a long time member of the Baptist church.

Survivors include his wife, Mrs. Cora Ann Cates, two sons, D. Roy Cates of Dimmitt and Alton Cates of Lubbock, and one daughter, Mrs. Eulabelle Scott of Lockney; two brothers, B. C. Cates of Floydada and W. C. Cates of Cisco, and four sisters, Mesdames O. M. Fowler of Happy, A. C. Smith of Lewisville, A. G. Eubanks of Floydada and Austin Heard of Lockney; six grandchildren and one great grandchild and his stemmother, Mrs. W. A. Cates of Floydada.

NAME SOLOIST FOR 'MESSIAH'

The Floydada community chorus announced the soloists this week for their Christmas program of music from Handel's "The Messiah". The program will be presented at the First Baptist church on December 17.

Robert Page, from the music department of Eastern New Mexico University in Portales, will direct the chorus.

Featured soloists will be Ruby Lee Beville, Soprano, and Jean Porter, Alto, of Floydada, Kenneth Walker, Bass, of Crosbyton, Dick Bentz, tenor, and George Umberson, bass, from Eastern New Mexico university.

Mrs. Anna Mary Mears, also of Portales, will be the pianist. The forty-member chorus has been in rehearsal under the direction of Miss Beville since October.

City Employee-Executives Health, Sanitation Meeting Here Monday

Officials, departments superintendents and other executive employees of cities and towns in a region covering 50 or 60 counties in northwest Texas have been invited to Floydada Monday to attend discussions and demonstrations on garbage and refuse disposal.

Sponsoring equipment organizations, cooperating with the Texas State Department of Health, are the Oliver corporation of Dallas and the American Tractor corporation of Churubasco, Indiana.

Demonstration leaders will be A. Haneman, Jr., district engineer, state department of public health, and R. D. Vaughan, vector control training officer, also of the department of health.

Mayors, city commissioners, public works superintendents, city engineers, garbage disposal foremen and other interested employees of municipal government are invited, as well as health officers and sanitarians.

Program Begins at 9:30 a.m. Al R. Fuchs, manager of city utilities of Floydada, will be moderator of the meeting.

Assembly and registration are scheduled to begin at 9:30 a.m. and the program will open with a film on sanitary storage and collection of refuse. The film is to be followed by discussion of the subject, covering the period until 10:50, when a film on a related community problem will be shown and discussion follows.

Before lunch time an explanation of the demonstration equipment to be used in the afternoon session will be made. The afternoon demonstration will be on sanitary landfills from 1 to 3:15, to be followed by 15 minutes of final questions and discussions.

At noon time lunch will be served courtesy of the equipment companies. Place of the meetings will be determined this week, probably either in the court house or in the B & M cafe dining room, said city superintendent Al R. Fuchs yesterday.

The sessions are designed with two major objects in mind, Fuchs said. First, to show that light tractor-type equipment, costing \$3,000 to \$4,000 can be used for sanitary landfill garbage.

And second, to show and demonstrate the proper operation of a sanitary landfill.

In view of the fact that the problems to be discussed are common to practically every municipality in the area, it is possible that as many as a hundred city employee-executives may be present. Weather conditions may be a determining factor in the attendance.

Weekly runs vary from 200 barrels to 300 barrels.

So far as is reflected by the county records activity in leasing and royalty dealings in the county has been at a long-time low for the past month.

At least two leases, one of which went at a premium five months ago, have been dropped. One of these, a 160-acre tract within a mile and a half of the Minnie Adams, belonging to L. L. Jones and his sister, Mrs. H. C. Mitchell, of Waco, went at \$100 per acre for a 60-day option in August with a drilling proviso.

The lessee, a Mississippi independent, decided against going ahead with the project.

It was said unofficially at the time he decided he did not have sufficient acreage to justify the chance he was taking.

Stanold Oil & Gas Company, which had held a lease on the J. D. Starks land adjacent to Floydada townsite on the north, for several years and got two extensions before its final expiration, allowed this lease to expire also, at a time when local people were anticipating a test.

A few weeks prior to the Starks lease expiration Placid Oil Company, noted as an independent with a penchant for finding out what they had, leased the W. M. Stammann tract adjoining the Starks 229 acres on the north at \$50 per acre, giving strength to the hope that a test would be made.

A considerable activity in leasing also was noted at the time in the northeast part of the county, particularly in the Howard lands.

Steel shortages, the approach of winter and the disappointing showing of the Minnie Adams, believed locally to have been mishandled when it was brought in, all contributed to the slow-up.

Interest is expected to pick up again after the beginning of the new year. Possibility that Standard of Texas will be the first to make a new move after January 1 has been indicated, but not officially.

Football Squad, Kimbrough Will Be Lions Club Guests

Floydada Lions club will put the big pot in the little one today at their noon-day luncheon for the Floydada high school football squad, and their coaches, at a dinner which is an annual custom of the Lions.

To present a program that will accent football the guest speaker of the day will be Frank Kimbrough, head coach of West Texas State college at Canyon, it was announced by Lyndell Roberts, president of the club.

Library Contribution Reports Show Drive Total Above \$1100

Total contributions in the hands of Mrs. Sam A. Spence for the library from individuals, clubs and organizations over the county jumped from \$393.42 a week ago to \$1,194.92 yesterday at noon.

Club and organization donations not previously reported but included in this week's total are from Floydada Garden club, Lakeview Home Demonstration club, 1929 Study club, Floydada Junior Chamber of Commerce, 1934 Study club, and from the following communities:

Sand Hill, Blanco, South Plains, Lakeview, Harmony, and Allmon.

In addition approximately \$250, not previously reported, came from about 40 individual donors in sums of 50 cents to \$25.

Committees are still working. The drive ends on November 30.

Mrs. Barnard asks those who have not been contacted by any of the workers and wish to donate to the fund or give a book for the memorial shelf at the library to get in touch with Mrs. Sam Spence, mail or bring cash donations to her. Call either Mrs. Howard Drysdale or Mrs. Barnard or any of the committee about the books.

Salvation Army Campaign Gets Going Tuesday

The campaign for \$1,500 in Salvation Army funds to be provided through the Floydada unit for next year's operations, got off to an auspicious start Tuesday morning when more than 20 of the 35 campaigners got together at a 7 o'clock Hotel Coffee shop breakfast and laid their plans.

Host Harry Morckel, campaign chairman for the year, presided at the meeting which had only brief speech-making, principally an explanation of the set-up of the Salvation Army organization, its relation to the state's smaller communities—such as Floydada, and how to present the cause to the public.

J. L. Sharkey, representative of the Salvation Army, made the brief explanation of plans and purposes. A goal of \$1,500 is sought for the local unit, one-third of which fund is kept for operations locally and two-thirds sent to state headquarters. None of the funds subscribed are expected to be sent out of the state.

Sharkey complimented the local unit on maintaining an alert attitude. Floydada is one of nearly a hundred such small-city units which have functioned quite efficiently he said.

Among other things the drive gets the Salvation Army cared for on an annual basis and eliminates the expense and bother of tambourine collectors in stores and shops and on streets.

Confidence that the campaign can be completed with the week ending Saturday night was expressed at the meeting. All of the workers named last week with others added have accepted the call to voluntary aid for the fund drive, Mr. Morckel said.

At the breakfast Tuesday morning were J. C. Ginn of Cedar, Ed Dunavant of Campbell, R. C. Ross of Center, Mrs. Bill Norman and Claud Ring of Dougherty, Wesley Carr of Harmony, Mrs. J. H. Barnard of Barwise, and

Lorin Leibfried, James H. Word, Walter G. Collins, Cecil Hagood, J. C. Wester, Judge W. E. Grimes, Mayor J. A. Patterson, Wayne Robinson, Harry Morckel, J. M. Willson, Jr., W. Edd Brown and Homer Steen Floydada, and J. L. Sharkey, San Antonio.

Supt. W. C. Irons In Dallas Hospital

Superintendent W. C. Irons of the Lockney schools had serious major surgery in Dallas on Monday and was in the operating room for five hours. A tumor was removed from his lung.

Mr. Irons had been ill for several weeks, first becoming ill returning from a football game in Dallas. He spent some time in the Decatur hospital and later in Plainview hospital.

A report from his hospital room Wednesday stated that he was rallying satisfactorily, and hoped to be able to be returned to his home in Lockney at an early date.

MEN AND WOMEN

Men mourn for what they have lost, women for what they ain't got.

Richardson - Tanner Nuptials Said in Idalou Ceremony

Before a background of jade foliage, white mums in floor baskets, flanked by cathedral candelabra holding white candles, and an arch and altar of greenery and white mums, wedding vows were repeated by Miss Estelle Richardson, daughter of Mr. and Mrs. J. N. Richardson of Dougherty, and Robert Dale Tanner, son of Mr. and Mrs. R. H. Tanner of Idalou, Saturday afternoon, November 22, in the First Baptist church at Idalou.

Elder Lee Bolinger of Springlake, Texas officiated with the double ring ceremony.

Mrs. Alvin Joiner, of Idalou, sister of the bridegroom, offered nuptial prelude of wedding numbers, also played traditional wedding marches and rendered "Indian Love Call" as the vows were pledged. Mrs. Joiner, also accompanied Mrs. Bob Hagler of Clovis, New Mexico, cousin of the bride as she sang, "Always" and "One Alone."

Delbert Robbins of Idalou acted as best man to the bridegroom. The groomsmen were Alvin Joiner, Idalou, Bill Flores of Hobbs, New Mexico, brothers-in-law of the bridegroom, Harold Bennett, Floydada brother-in-law of the bride, and Bob Evans of Fort Hood and Ardis Montgomery.

She wore the traditional blue garter, also a penny made the year of her birth, in her shoe for good luck. For her bridal bouquet, the bride carried a white bible topped with white orchid streamers with white satin ribbon streamers tied in love knots.

For the daughter's wedding, Mrs. Richardson chose a suit of gray with white accessories and wore a corsage of white gardenias.

LIPSTICK LOGIC

BY LOUISE ALLEN

Who is your favorite teacher? A national magazine asked recently in a contest for teenagers. The best answer saying why a certain teacher was chosen won the prize.

Like the little girl who said each year she had a new favorite, because each one gave her something different, I grew up a teacher "liker." There was Miss Waring, whose eyes twinkled as she wrote "invert" on a stubborn math problem; Miss Miller, who had beautiful brown hair and wore a pretty yellow coat; Miss Flack, who made Latin a game instead of a chore.

But, oddly enough, the name and face of the one who left the most lasting impression are long gone. She remains in memory for only one thing. It was the fifth grade. She must have sat in study hall and pictured her squirming charges as characters in Alice in Wonderland. Anyway, we came up one day acting out the Mad Hatter's Tea Party, to the delight of the rest of the class.

The Mad Hatter himself was a slow, pudgy fellow with staring brown eyes. Decked out in stove-pipe hat and batwing collar, he made those nonsense lines sound as if they were written for him. The Dormouse was an energetic little boy with large ears and a huge nose, which he seemed to be following around expectantly all the time. Probably because I was the girl with the straightest hair and the least sense of humor — and maybe because I wore a white pinafore over my red plaid dress — I got the role of Alice.

That teacher had to spend many after-school hours on that project. And it didn't exactly fit into the English course. But for me she transformed Lewis Carroll's fantasies from perplexing gibberish in childhood to refreshing whimsy for later life.

PATTERSONS ARE HOSTS FOR THANKSGIVING DINNER

Mr. and Mrs. Felt Patterson had as their guest for two weeks Miss Myrna Wilson of Fort Worth. Mr. and Mrs. W. D. Wilson her parents, their daughter Jane, and Floyd Parrish, all of Fort Worth were also here the guests of the Pattersons on Thanksgiving day, and Miss Myrna Wilson returned home with the party.

Other guests in the Patterson home for Thanksgiving were Mr. and Mrs. Dillon Patterson and son, Johnny Dee of Lockney, and Mrs. O. B. Lewis, mother of Mrs. Felt Patterson.

Topped with a miniature bridal couple. The bouquets of the attendants were used as decoration on the bride's table, flanked by white candles in crystal holders.

For a trip to South Texas, the bride wore a blue faille suit with blue and white accessories, with the orchid from her bridal bouquet, as her corsage.

The bride is a graduate of the Floydada high school and she attended Draughon's business college. The bridegroom graduated from the Idalou high school and attended Texas Tech.

After a short trip, the bridal couple are now at home in Lubbock. Guests registered from Abilene, Amherst, Lorenzo, Lubbock, Rails, Crosbyton, Floydada, Levelland, Littlefield, Wichita Falls, Clovis and Hobbs, New Mexico.

South Plains News

(by Mrs. Murray Julian)

SOUTH PLAINS, December 1. — Thanksgiving at South Plains was cold and cloudy, but we received little of the rain and snow that covered south Texas and the panhandle. Football fans braved the frigid weather on Friday to go to Amarillo to the Floydada — Phillips bi-district game, and others cheered the boys at the homes listening to the radio. Several of our boys play in the band, and even noticed in the cold day wasn't even noticed in the game that was played. Among those who went from here were Mr. and Mrs. J. B. Thames, E. E. Joiner, and Mrs. Bill Beedy and Eugene H. L. Marble, Mr. and Mrs. W. M. Staniforth, Jr., W. M. Staniforth, Sr., and Mr. and Mrs. J. K. West.

Mr. and Mrs. Grigsby Milton and children attended the Thanksgiving day program at the Lone Star school on Wednesday night where Mrs. Roy Childress teaches. Mary Louise Childress and a guest were home with her parents over the long week-end from Portales, New Mexico, where she teaches.

Rev. Chas. Joiner went to Abilene Wednesday to spend the Thanksgiving holidays with his brother, Ambrose Joiner and family and Mrs. W. F. Joiner of Tye. He returned to his home in Floydada Saturday.

Mrs. Willie West and Mrs. Kenneth Jones of Silverton were guests at the home of Mr. and Mrs. George West Sunday afternoon.

Mr. and Mrs. Bill Beedy were hosts on Thanksgiving day with a traditional turkey dinner for the following guests, Mr. and Mrs. Walton Wilson and children from Fairview, Mr. and Mrs. Chas Beedy from Amarillo, and Mr. and Mrs. Woodrow Wilson and daughters from Floydada.

Mrs. Ernest Smitherman came home from the hospital at Plainview Tuesday, and is getting along fine now. Mr. and Mrs. Homer Campbell from Haskell spent Sunday and Monday here, and Mrs. Smitherman has had many callers this past week. On Sunday among those who visited in their home were Mr. and Mrs. Grigsby Milton and girls, Mr. and Mrs. Murray Julian, Mr. and Mrs. Arby Mulder and Mr. and Mrs. John Smitherman.

Guests at the home of Mr. and Mrs. Billy Bean and children for Thanksgiving day were Mr. and Mrs. Griffin Brown from Wingate, Texas, Mr. and Mrs. Gilbert Bean from Lockney, and Mr. and Mrs. Shelby Calahan and children. They enjoyed a big turkey dinner with all the trimmings.

Martha Lee Sanders has returned to her college studies in Denton after spending the Thanksgiving holidays with her parents, Mr. and Mrs. Otho Sanders, Richard, Roger and Curtis. She was home from Tuesday until Sunday when Mr. Sanders took her back to school.

We send get well wishes to Mrs. P. M. Smitherman who is ill at her home. Her daughter, Mrs. Cox, is here visiting Mr. and Mrs. Smitherman, and they have had many visitors while Mrs. Smitherman is having bed rest.

Thanksgiving at the home of Mr. and Mrs. Zach Cummings was a happy one with a group of relatives in attendance. Those who enjoyed dinner at the Cummings home were Mr. and Mrs. H. S. Williams-Nelson Wedding Vows Read Nov. 21

The home of Mr. and Mrs. E. L. (Loyce) Turner in the Harmony community Friday evening, November 21, was the scene of the wedding ceremony of their niece, Miss Loene Williams, daughter of Mr. and Mrs. Elmer Williams, and W. H. Nelson, Jr., son of Mr. and Mrs. W. H. Nelson, Sr., both of Floydada.

Reverend Tilden B. Armstrong, pastor of the First Methodist church read the double ring candle-light service.

With an improvised altar of greenery and white mums as a background, two floor baskets of white mums formed the decoration for the ceremony.

Miss Clara Mae Jones was bridesmaid. She wore a blue knit afternoon dress with white accessories and wore a white rosebud corsage.

Don Pope acted as best man for the bridegroom.

Escorted to the altar and given in marriage by her father, the bride chose for her wedding an off white suit, with navy accessories and carried a white bible topped with a purple orchid, with knotted satin streamers. She wore rhinestone ear screws, a gift of the groom, and for something old a necklace belonging to her grandmother, Mrs. R. B. Gary. Something borrowed was the white bible of Mrs. Clyde Owens, of Lubbock, something new was her bridal attire and she wore the traditional blue garter.

Immediately following the ceremony a reception was held, with Miss Reda Mae Gary of Lubbock, an aunt of the bride and Miss Charlene Perry serving the wedding cake to the families of the couple and a few friends, with gold punch from a crystal service. The confection was a pillow-heart shaped placed on a reflector with ruffled net edging around the base, the cake being decorated with yellow roses and lilies of the valley. Triple English silver candelabra with white lighted candles and white mums completed the decor. White mums in crystal container was placed on the buffet.

Mrs. Neida Dees presided at the brides book.

After a short trip to Mexico the couple are at home on their farm east of Floydada.

The bride graduated with the class

of 1952 from Floydada high school and has been employed by the First National Bank since that time. The bridegroom graduated from Floydada high school with the class of 1950 and has been engaged in farming since then.

Electricity is your cheapest commodity. The dollar today will buy less than one-third what it did in 1900. But that same dollar buys more than twice as much electricity now as it did in 1913. Today the average cost per kilowatt of electricity is the same as it was in 1939 and yet cotton was selling for 9c per pound then, hogs 6c per pound and beef 5c per pound. Those prices have gone a long way since then, but electricity has stayed the same.

A number of persons have bought REA cook books during the past week to give for Christmas gifts. There are some wonderful holiday recipes in the book.

Murder, Burglary Charges are Filed
 Two complaints, one charging murder, the other burglary, have been filed in Justice O. B. Olson's court this week and will be the subject of investigation by the Floyd county grand jury, called to convene next Thursday, December 11.
 Of these charges Thurman Kefter, of the state highway patrol, swore to the first before District Attorney John B. Stapleton, charging J. C. Dossey with murder without malice in the connection with the highway death on Thanksgiving day of Mrs. T. V. McClure west of Lockney, J. C. Dossey, 40, is a resident of Floydada.
 Named defendant in the burglary charge is Louis Alvarez, who is alleged to have taken 14 suits from Brown Cleaners at Lockney early last week. Alvarez, officers say, has led them to the suits. Testimony is due to be presented to the grand jury to substantiate a claim the suits were disposed of to fences in Lubbock.
 Alvarez also is being charged with the theft of \$500 and clothing from Mexican nationals, while the latter were employed at the H. E. Frizzell farm near Lone Star. Alvarez is being held in Floyd county jail until bond is made.
Jimmie Murrell's Rites Held Monday
 Funeral service for Jimmie Murrell, 35 of Plainview, who died at his home last Friday morning, was held Monday afternoon at the First Methodist church with the pastor, Dr. J. O. Haymes officiating. Interment was in Plainview cemetery.

'Death March' Was Merciful Says Jap
 TOKYO — A former Japanese general, who commanded a division in Bataan, contended recently that the march of American prisoners from Bataan to San Fernando in 1942, during which thousands of Americans died, actually was a Japanese act of mercy.
 The fact that it became known as the "Bataan Death March" was "a victory for American propaganda," Lieut. Gen. Susumu Forioka said.
 His version of the "death march" was told in the Japanese magazine Hanashi.
 The Japanese army, General Morjoka said, was short of food for its own men, as well as for the prisoners.
 "If we had left them where they were, 50,000 Americans and 45,000 Japanese soldiers would have starved together."
 "To make a forced march of 45 miles is normal with the Japanese army. We did it often with full arms. That is why it was surprising to us that they called this an atrocity."

Earthquakes Unlikely In Flat, Level Areas
 LOS ANGELES — Earthquakes occur more often in mountainous regions than where the ground is more level.
 All mountains, except those of volcanic origin, result from the uplift of the earth's crust, followed by erosion which etches out these features. Where these processes are going on, great stresses are produced in the crust, and when the strain setup are relieved, great fractures called faults are produced. As huge blocks of the crust move along these faults, they set up the vibrations called earthquakes. In regions that are flatter, active mountain building processes are not going on. Such stress are not produced, and earthquakes are less common.
Presence of Molecules Explains Expansion
 SCHENECTADY, N. Y. — Why does heat make things expand? Matter is made of molecules which are in constant motion, and the higher the temperature, the faster they move. If you have a volume of gas in a rubber balloon, the pressure of these molecules against the rubber is balanced by its pull. Warming the gas makes the molecules move faster, so they push harder against the rubber. It yields a little, and the gas expands.
 With cooling, their motion is slowed, they exert less pressure, and the volume of gas gets smaller. Something similar occurs in a liquid, and also in a solid, although the molecules are held more tightly together. The amount which a solid expands for the same rise in temperature is considerably less than with a gas or liquid.

COMMONWEALTH DAY
 July 25 was chosen as "Commonwealth Day" because Puerto Rico had observed that date throughout much of its history; under Spanish rule, as the day dedicated to St. James, Spain's patron saint; later, as the anniversary of the landing of a 3,415-man U. S. liberation force under Major General Nelson A. Miles in 1898.
 Anne Ford, by Gainsborough, is the Cincinnati Art Museum favorite. The model later married one of Gainsborough's patrons, Sir Phillip Thicknesse, who admired the painter for finishing "with his own hands every part of the drapery," instead of following the 18th century custom of letting an assistant do the costume.

Floyd County Hospesian, Floydada, Texas, Thursday, December 4, 1953
WHY?
 Could I climb to the highest place in Athens, I would lift my voice and proclaim: "Fellow citizens, why do you turn and scrape every stone to gather wealth, and take so little care of your children to whom one day you must relinquish it all?"
 — Socrates
MOST PRACTICAL
 If your budget can give you only one ensemble, then the most practical one would be a silk print dress with a fitted faulle coat to go over it. The full-skirted coat can go over other dresses, and the silk print dress can be worn alone or with a topper as an alternate.

C-C Mgr. To Wed Whirlwinds Play Paradise Girl on December Seventh

Mr. and Mrs. O. M. Watson leave Saturday for Paradise, Texas, where they will attend the wedding of their son, O. M. Watson, Jr., to Mrs. Lena Mae Whitaker on Sunday, December 7.

Mrs. Whitaker is the daughter of Mr. and Mrs. C. W. Caruthers of Paradise, and is a member of the faculty of the Paradise school system.

Mrs. Whitaker is a niece of Mrs. Clarence Guffee and visited in Floydada during the summer months.

Mr. Watson is manager of the Floydada Chamber of Commerce.

Mr. Watson and his bride will be at home in Floydada in a new home recently completed in Western addition, after a short trip.

Mr. and Mrs. Clarence Guffee and daughter, Sonja Kay, and Mr. and Mrs. Corkey Guffee will also attend the wedding on Sunday.

Lakeview Store Looted Thursday

Lakeview store lost \$50 or \$60 in merchandise and a safe drawer containing deposit slips and bank statements in an early-morning burglary on Thanksgiving day.

E. H. Spears, owner of the store, found the front door pried off when he came over from the residence nearby Thursday morning.

The burglar or burglars took gloves, caps, candy, cigarettes, and merchandise of the utility kind, leaving watches and other expensive merchandise undisturbed.

The intruders got no money.

Lockney Stores Raided
Burglars made a haul of 12 or 15 new men's suits at Brown Clothiers in Lockney Monday night of last week and a recent break in at Brunner Lumber Company was followed by an unsuccessful attempt to get into the safe there.

A Chevrolet truck belonging to Shirley Race of Pleasant Valley was stolen from the Patterson gin at Lockney but was found unharmed by Joe Handley near Sand Hill the following day and reported to the owner.

Officers are working on clues to some of the infractions while on others they have only scant leads.

EARLY BUYERS, MAILERS AVOID THE LATE RUSH

Mrs. Barbara Smith, postmaster, reports that the rush Christmas buying of stamps for cards and letters started as early as November 20. Mrs. E. S. Randerson bought stamps for her cards on that date and Mrs. B. H. Schultz bought stamps for her Christmas cards on December 2.

Mrs. Smith stressed early buying to avoid the usual last minute rush.

prove nothing as the only thing that counts is the score at the end of Friday's game.

No Weak Ones Left

Coaches Preston Watson and Jack Meredith have been hard at work this week preparing their Whirlwinds for the all-important game. The belief was voiced by the coaches that all of the weaker teams have been eliminated and that on each succeeding week the games will become tougher on those teams fortunate enough to remain in the running. Childress is viewed as a good ball club, one of the best the Winds will meet. The Bobcats are at the peak of their seasonal form and represent a large school. A school that only three years ago was playing conference games with such teams as Wichita Falls and Lubbock.

The Whirlwinds will carry a perfect record into the game. To date the mighty Winds have scored 369 points and allowed a sparing 14. Adrain Helms, hard running half-back for the locals, is the sparkplug of the Winds running game. Helms has carried the ball 193 times for an average gain of 1468 yards and an average of 7.9 yards per try. Dane Clark is hoping to see more action in the Childress game if he recovers sufficiently by game time. Dane has gained 961 yards in 128 attempts for a 7.5 yard average.

Gain 4041 Yards Totale

Connie Bearden and W. J. Hartline also have fine records in the backfield. Both have good running averages but have been called on considerably fewer assignments. Billy Carmack, quarterback and ball handler deluxe, has also chewed off a considerable chunk of yardage running from scrimmage and has been on the throwing end of ten TD passes. Carmack, Clark, Bearden and Helms have all shown their passing form this season, Carmack being responsible for much of the 1074 yards the Winds have gained through the air.

Total yards gained on both running and passing plays from the line of scrimmage this season for the Winds is 4041 yards.

Both of the Floydada ends and all of the backs have proved to be good pass receivers. Franklin Stovall has credit for five TD's on passes. Brooks Chapman has three that counted and several that were called back for penalties. Helms and Bearden each scored once on TD heaves. Of course most of the passes did not go all the way for scores and no record was made for the individual yardage on these plays.

No record has been kept on the number of blocks and tackles made in the games played, but we can point back to the scores and yardage which has been chalked up and know that the boys in the line and those in the backfield who were not in possession of the ball were all busy making the play go, and defensive record of the team is a thing that belongs to the entire club.

Bobcat Starting Team

Probable starters for the Childress Bobcats and their weights are listed for their offensive lineup: Billy Browning, RB, 130; LaNoel Castelberry, QB, 170; Perry Morren, FB, 180; Billy Colyer, LB, 150; Tom Chestnut, C, 190; Ben Purcell, RG, 170; Claude Lane, LG, 165; Joe Norman, RT, 206; Sam Wrinkle, LT, 195; Ted Lane, RE, 188; Troy Boykin, LE, 148.

Probable starters for the Whirlwinds as given Wednesday after-

noon will be Franklin Stovall and Brooks Chapman, ends, Kerwin Baxter and Charles Hartman, tackles; Bert Grimes and Lewis Reddy, guards; Don Barber, center; Billy Carmack, quarterback; Adrain Helms and Connie Bearden, half-backs and W. J. Hartline at full back.

Kinsman is Victim in Nederland Blast

Lloyd Collis and sister, Mrs. Gladys Hammonds, flew Sunday to Nederland, Texas, to be with a sister, Mrs. G. O. Robbins, whose husband was one of seven victims burned to death in the explosion that wrecked a refinery of the Pure Oil Company last Saturday night.

Nederland is half way between Beaumont and Port Arthur.

A dozen men were working in the cracking unit, a giant boiler, when a big flash came, stated Max Sniffen, staff assistant to the plant manager. The plant is the 10th largest of the 67 refineries in Texas owned by the company. The refinery capacity was 55,000 barrels of crude oil daily.

A mass funeral of the dead was held there on Wednesday.

Mrs. Robbins was the former Eunice Collis, daughter of A. B. Collis of Lockney, and a sister of Mrs. Clyde Henderson and Mrs. W. M. Goode, both of Floydada. The father of the family has been critically ill with a heart condition for the past few months and the family have been at his bedside this week.

MACAO OLDEST WEST OUTPOST IN FAR EAST

MACAO — Macao, tiny but teeming port on the South China coast where fatal skirmishing between Chinese Communist troops and the Portuguese colony's small garrison has occurred, is the oldest European outpost in the Far East. It was the first haven in all the China seas for Western mariners trading with the hostile Orient.

In their golden era of glory as discoverers of exotic lands, Portuguese navigators extended the Cape of Good Hope passage blazed to India by Vasco da Gama, and came upon Macao, a peninsula at the mouth of the Canton River. The place where they landed is some thirty-five miles from the more recent British colony of Hong Kong.

Portuguese Since 1557

They settled upon approximately three square miles of the Peninsula about 1557. The red, green, and gold banner of Portugal has waved from its height ever since. Sometimes the Portuguese have had to fight to hold their rich China trading post, as when the Dutch five times attacked it in the seventeenth century, but more often they have persevered through strict neutrality.

Present population of the colony is something over 300,000 people, the great majority of them Chinese. Thousands of picturesque junks, many now equipped with auxiliary engines, use the harbor of this second largest fishing port of China. In addition to fish, major exports are firecrackers and incense, beloved of the Chinese.

As good sailors, the Portuguese in 1864 built the Guia beacon on Macao, first to light the China Sea. Even while sending their own Jesuit missionaries into the Orient, they gave haven to the Protestant missionary Robert Morrison, who translated the New Testament into Chinese and whose six-volume Chinese-English dictionary unlocked the treasures of Chinese literature.

They allowed the English to build a cemetery, "God's Acre," on Macao. Here Morrison lies buried, and also American clipper ship crewmen and British "hearts of oak" seafarers who died in the hard China trade.

Portuguese have built on Macao charming homes of pastel hues re-

miniscent of Mediterranean architecture.

COFFEE 'SNEAK' BECOMES 'BREAK' IN LOS ANGELES

LOS ANGELES — The first municipal recognition of man's inalienable right to drink a cup of coffee during working hours on the bosses' time is working out fine for both the City of Los Angeles and its 15,000 employees, according to Samuel Leask, Jr., administrative officer.

Los Angeles became the first U.S. city to legalize coffee breaks for municipal workers when it passed an ordinance authorizing employees to take 15 minutes each morning and afternoon at no loss of pay or time to themselves. Previously, city workers had been permitted to take such breaks but the time was deducted from their lunch periods when—and if—employees respected it.

According to Leask, replacement of the coffee "sneak" with the regulated coffee break has been a decided "plus" operation for the city. "The purpose of making the coffee breaks legal and regulated was to increase work output and thus promote efficiency and economy in the conduct of city business," he said. "After several months of observation, it certainly seems to be working out that way."

"Just like the coffee break in offices and factories, our city rest

C. W. Lane, the Santa Fe agriculture man says it is about the right way about the weather and the wheat prospect: "The only definite statement that can be made, aside from the fact that it has actually rained again, is that a feeling of optimism is dispelling the gloom that has prevailed for several months." To this should be tacked the statement that his outlook is for the region where the rainfall has been ample. Perhaps, his statement would be even a bit more conservative if he had been talking about Floyd county alone, in which less than an inch of rainfall was vouchsafed by last week's storm. Floyd county wheat definitely needs more moisture.

The citizens of Washington, aided and abetted by the Republican organization, are going to put the big pot in the little one when inauguration day rolls around. One of the signs of the times is the special train that is being talked out of the South Plains. A sheriff's posse or so is likely to go. Present plans call for the train to leave on the seventeenth of January and get home the twenty-third.

News from the railway front is that all railroads are being besought to make application for permission to cancel passenger schedules in every instance where the schedule is not being operated at a profit. In view of the fact that railways are spending a great deal of money to keep up appearances or to get along with town on their lines is hurting them in another way, that is adding to the cost of their needed freight service. Their freight rates already are so high that they are pricing themselves out of the market for a good many hauls. Additionally, every time the roads tack on another rate raise it adds to the threat of government ownership. A large segment of the public, for reasons that are beyond our ken, wants ownership of the railroads to rest in the government. The government can't even operate the post office department at anything less than a huge deficit, largely on account of politics, perhaps, but a loss just the same, and there is no reason to assume the same in a much larger proportion would not also be true of government ownership of the railways. Thus, we would say that anything, even drastic, that the railways can do to cut their operating costs should be undertaken. Most of the plains and west Texas townspeople have the same idea, doubtless, since none of them to speak of, including Floydada, registered any complaint when the Santa Fe, the Q A & P and the FW & DC South Plains cut out their passenger service in this area.

The demand for products from the farms and ranches of Texas is expected to continue high during 1953—especially the first half. Farm costs are expected to edge upward in the months ahead continuing the cost-price squeeze on farm operators.

You can unwrap this Christmas Package at your Ford Dealer's, December 12th

No fair peeking until next Friday, but oh boy, what a car Ford is going to have for you!

You know, of course, that Ford has had other makers doing a jig trying to catch up with such things as a huge one-piece windshield and an automatic transmission like Fordomatic. So when Ford says the '53 Ford is '53's finest, the jig department will have to start all over again.

Our '53 car is the absolute tops in many years of Ford engineering, styling and plain value leadership. In fact, with 41 "worth more" features, it is designed and built to be worth more to you not only when you buy it but when you sell it.

So—if you're thinking about a new car, don't make a move until you've had a chance to see the '53 Ford—the safest place to put your new car dollar! You'll find it the new Standard of the American Road.

Carrying the ball in most Floydada conversations this week is the football prowess of the green and white clad boys of Floydada high school. More as a matter of history than otherwise it is put down here that this is the first football team of the local school ever to get a shot at quarterfinals in Texas interscholastic records. This week-end the Whirlwinds undertake a big team that has played in class AAA football for more than a decade until a year ago in a district with and against Wichita Falls, Vernon and similar-size towns. Sometimes the bigger they are the harder they fall. Most of the members of the Whirlwind team started in the first grade together over at Andrews ward and there is a touch of sentiment in their long years of association, beginning with a sandlot size pigskin.

Also just to record it against the next time you hear a gripe about city employes, a city crew was on the job putting up street decorations and lights for the holiday season last Friday when the temperature was below freezing, the wind was from the southeast at 15 miles, a mist was falling, and the Whirlwinds were playing a bi-district game of football.

What can the state do about roads, schools and water? These are the primary things on the peoples' minds, when at the same time the sentiment grows stronger day by day against any kind of new taxes? This feeling against more taxes certainly is likely to retard some of the demands for enlarging state services and functions. At the same time the spiraling population and activities point up the road and school problems. The demand for something to be done about water is intensified by the unusual drouths of recent years.

The drouth is responsible for conditions that can cause trouble for livestock producers unless corrective measures are taken. Rations of pastured animals should be supplemented with vitamin A rich feeds to prevent respiratory troubles and vitamins A, E and C to prevent the condition known as "white-muscle disease."

Sweet potatoes are a rich source of vitamin A; a worthwhile source of vitamin C and contain small amounts of B vitamins and minerals.

Now is the time to prepare the beds for shrub planting in January and February. Check the soil for drainage; locate the plant site for each shrub with a peg and spade and fertilize the soil.

Fruit trees infested now with San Jose Scale should be given a temporary treatment and in the winter be thoroughly sprayed with a 3 per cent dormant oil spray.

Shrub Planting Time Is Near

COLLEGE STATION — January and February are good shrub planting months for most of Texas, but now is the time to get ready for them. You will get best results with new shrubs or those transplanted from other areas if you plan for the location, spacing, treatment of the soil with fertilizer, and the cultivation.

Sadie Hatfield, homestead improvement specialist for the Texas Agricultural Extension Service says working six to eight weeks ahead will enable you to have shrub beds that give more satisfaction in your landscape plan. Miss Hatfield offers three suggestions for the preparation of the planting area.

First, check the soil for drainage. You may need to terrace, contour or level the soil around the house to conserve the rain or to prevent washing.

Then, the specialist suggests, locate each plant you hope to include with a peg giving it ample distance from the foundation of the house, walks, drive and other plants. Most shrubs need to be from four to six feet from the house and large shrubs need to be even farther away from walls or walks. Careful spacing also eliminates unnecessary pruning.

The third suggestion in shrub bed preparation is spading and fertilizing the soil. Spade the soil eight or ten inches deep in beds about six or eight feet wide. Work in 5-10-5 or 4-12-4 fertilizer for sandy soils, or 16-20-0 for blackland and soils of West Texas. Leaf mold and barnyard fertilizer will also aid in building up the soil. Remember, the specialist says, shrub beds should be prepared at least six weeks prior to planting the shrubs. For further information on fertilizing for small areas, ask your county agricultural agent for a copy of L-166 How Much Fertilizer Should I Use.

Conservation District News

Gilbert L. Pawver was elected chairman of the board of supervisors of the Floyd County Soil Conservation District. This was the first meeting of the board since the election in the southwest sub-division of the district. Mr. Pawver was re-elected to serve another term as supervisor in that part of the district.

W. F. Ferguson was chairman of the board last year but insisted that the duties should be passed around among the other members of the board.

Bert Bobbitt was elected vice-chairman, R. G. Dunlap was elected treasurer and Cecil Purcell secretary.

"Some Conservation Activities"
Will Campbell, five miles west of Floydada, has about 18 acres of land which he had leveled in the summer. He now has it seeded to small grain.

Sam Baker, a neighbor of Mr. Campbell, has leveled about 47 acres of land which has a good deal of bindweed on it. He has seeded this area to irrigate pasture, and is attempting to whip the bindweed problem with a different approach. He plans to graze the bindweed in his pasture. Livestock seem to graze the bindweed pretty good - especially sheep.

J. P. Moss, four miles south of Floydada, had about 40 acres leveled. This area was put to wheat this fall. Soil Conservation Service technicians do not have a report from him, but no comment is needed to know it has been worth a lot to him in grazing for his sheep.

Bill Norman of Dougherty has leveled some of the flat land on his farm. He has seeded this 25 acres to grass. This planting has made remarkable growth.

Guy Goen of Aiken has done the largest leveling job completed this year. He has leveled 73 acres which he eventually plans to seed to a permanent irrigated pasture. However, it is his immediate plan to seed most of it to wheat this year. When he gets his wheat crop off he will go in and re-finish his leveling to get it in peak irrigating condition before seeding it to any type of permanent irrigated pasture.

Raymond Williams, who lives about three miles south of Floydada, has just completed about 32 acres of leveling. He plans to seed part of this area to wheat now and the remainder to Ruban clover in the spring. This will give Raymond an opportunity to come in and re-finish his leveling. By using Ruban clover as the following crop he will replenish the organic material in his top soil; which has been removed in the process of leveling. The Ruban clover, being a tap rooted plant, will open the soil and make for better water in-take.

This is probably the best system to follow after land has been leveled.

Duard Reves, of South Plains, is in the process of leveling a plot.

Robert Lee Smith waiting for a contractor to get started on some acres which he hopes to get finished in 1952 program year.

Ray Cook and Guy Roy, roommates at Texas Tech in Lubbock, were here for the Thanksgiving holidays with their parents, Mr. and Mrs. Ray Cook sr., and Mr. and Mrs. J. E. Roy.

The Texas Department of Agriculture

countryside is dotted with a greater number of sturdy, well-kept farm houses than ever before. The tended fields and neat houses reflect the pride a man takes on land and goods which are his own.

Through loans which were unavailable from any other source, the PHA became the liberator of many thousands of farmers. It removed the albatross of farm tenancy from around the farmer's neck and helped make him independent.

The record of this agency is excellent. Before it was established, only one farm in 10 was served with electricity in Texas. Today, only one farm in 10 is without this service.

A couple of decades ago, only 58 per cent of the farms were owner operated. Today, 75 per cent are in this class. Yet, this program's cost amounted very little in the over-all tax figure. Only two cents out of each tax dollar is spent on farm programs - and this includes all the other grants for soil conservation and similar projects.

The evils of farm tenancy are well known to most land owners. Absentee land ownership coupled with disinterested tenants have put scars on the face of this earth which may never be healed in our lifetime - if ever. The economy of the farm tenant and the living standards of Tobacco Road are near kindred. The condition of farm tenancy and the practice of mining the soil are first cousins.

I realize that many tenant farmers are good farmers. But they are 100 times better farmers when they are working for themselves on their own land. The PHA has been a major factor in helping them achieve this goal.

Mrs. Gladys Wimberly spent the Thanksgiving holidays, from Wednesday through Sunday, in Fort Worth the guest of her brother, Earl Evans and Mrs. Evans. The parents, Mr. and Mrs. I. D. Evans of Marksville, Louisiana, also spent the holidays in Fort Worth, making the event a family reunion.

Thanksgiving Crash Claims One, Turns Festivities into Mourning

Mrs. T. V. McClure of the Lone Star community, north of Lockney, was the second Floyd County casualty in a week of automobile collisions. She was killed instantly last Thursday morning about 11 o'clock when the 1952 Pontiac she was driving with her three children collided with a 1940 Ford, driven by J. C. Dossey of Floydada. Dossey was returning to Floydada from Plainview.

Riding with Mr. Dossey was his niece, Freda Cork age 3, of Plainview who was enroute to the Dossey home in Floydada to spend Thanksgiving. The parents of Freda Mr. and Mrs. Willie D. Cork were in their car directly behind the Dossey car. Freda was uninjured. Mr. Dossey received a fractured jaw and cuts and bruises.

Mrs. McClure and her three children, Velma, Garland and James Carroll were driving west to the Frank McClure home for a family dinner. Mr. McClure had been to Plainview and did not know about the wreck, until he drove by the scene, and recognized his family car. Mr. McClure was returning to Lockney with Fred Pascal, intending to go to the Frank McClure home for dinner.

The three children were treated at Plainview hospital. Garland received a fractured left leg, with cuts and bruises, Velma Payne facial cuts, fracture of right arm and severe

eye injury. The youngest son, James received various cuts and bruises. Velma Payne and James were riding in front seat of the McClure car and Garland was in the back seat.

Highway patrolman Thurman Keffer who investigated the accident said the left side of the McClure's sedan was partially sheared off. The motor of Dossey's car was knocked clear of the chassis by the impact. A truck was in front of the Dossey car heading east. Mr. Dossey started around the truck, striking the McClure car.

Garland McClure is still a patient in the hospital. The two other children were able to attend their mother's funeral Saturday.

but the full rotary action makes stitching faster," says Harry Morckel of the Morckel Farm Chemical Company, dealers.

Piaff sewing machines are money-savers too, he points out. An evening dress that costs \$75.00 in a local department store can be made in practically no time at all on a Piaff for approximately \$24.75, making a total saving of \$50.25. When this is applied to the sale price of the machine, it is easy to see how the device will pay for itself.

A real boon to all women who have ever been harassed by bothersome and time consuming attachments is the fact that Piaff "Dial-A-Stitch" sewing machines need no cumbersome attachments. No longer is it necessary to be a mechanic in order to operate a sewing machine. By a simple twist of the wrist the "dial" is set for the type of stitching desired (patching, mending, buttonholing, appliqueing, button sewing, overcasting, blindstitching, hemming, darning, monogramming, bartacking and embroidering), the foot lever pressed and rapid stitching action follows.

Women who heretofore have been "scared" of sewing machines will now find that operating one is as simple as dialing a favorite television program — and equally as enjoyable.

Fire In Matador Church Disrupts Sunday Service

MATADOR, November 30 — Services were held as usual in the First Baptist church here Sunday night after a fire disrupted the morning service.

The blaze, originating in the young peoples classroom, caused an estimated \$3,000 to \$5,000 damage, most of it from smoke and water. Fire Chief Fred Welling said the fire probably was caused by an over heated gas stove.

Smoke was first noticed at 11:45 a.m. and Rev. Keith McCormick dismissed the congregation. Matador volunteer fire department extinguished the blaze. Volunteers from Roaring Springs, eight miles away, also responded, but found the fire under control.

Church members worked through the afternoon to clean up the debris in time for service Sunday night.

Most of the loss was reported covered by insurance.

Problems of Texas Cities Are Similar

Mr. and Mrs. Leonard Matsler and Mr. and Mrs. Alfred Fuchs returned home last Wednesday night from Dallas, where they attended the state convention of The League of Texas Municipalities held Monday through Wednesday of last week.

Mr. Matsler is a city alderman and Mr. Fuchs is superintendent of utilities for the city of Floydada. They report a good trip, with plenty of entertainment, and highly informative sessions.

Councilman Matsler said it was remarkable how many problems of the cities, big and little, have the same pattern.

Breda O'Sullivan, 24, told reporters: "There is no romance, and there will be no wedding."
"That's right," agreed Frank Hayostak, the 27 year old arc welder of Johnstown, Pa.
He started the whole business when he tossed a bottle with his address in it from a ship taking him across the Atlantic in 1945 as a homeward bound GI. She plucked the note off the beach, and they started to correspond.
Recently he flew from America to meet her. They visited Blarney castle to kiss the famed Blarney stone, as all tourists must. The stone is supposed to impart to those whose lips touch it the gift of moving eloquence.
And Breda and Frank were eloquent when they blushed, laughed and told hovering reporters there would be no romantic storybook ending to their friendship. However, Breda said she and Frank would remain good pen pals.
