IEWS AND COMMENT

**Bone of contention** among cotton growers the past season has been the cotton classer and the rules set up for him by the department of agriculture to operate by. Since the government is in the cotton classing business, as was demanded by the public, it apparently needs to go all the way and take care of the customer in a more approved manner. Only one cotton classing office now serves a huge territory with a huge production record. This was the season the cotton classers would have been snowed under world without end had the drouth not intervened and cut production by a half a million bales. Buyers and growers alike had some unhappiness also over the price differentials between grades. Most late cotton sold several hundred points off of middling 15-sixteenths. Landlords were somewhat nonplussed when their renters turned in quite a bit—just quite a bit—less money on approximately the same production as a year ago, with the market price and the loan values indicated at little change. The renter sure likes for his landlord to be pleased.

More storage, more compress facilities seem to be indicated as a part of the general need of the plains cotton producers. Since it seems we are going to ride cotton production into the ground in this area someone had as well fix up to take care of the tremendous overflow of business above and beyond the capacity of the present facilities. Since the compress and storage business appears to be a "tight" arrangement amongst a few operators the steps to be taken are indicated as convincing the men in the business they need to spend more money for facilities, or if this cannot be done, then for the producers to arrange to put facilities where they want them instead of where the compress men are willing to locate them.

A good prediction for the next five years would be that the exact production of cotton in every plains county will be known and made a matter of record, the cotton "history" of every farm is due to come up for consideration, it seems, unless the new department of agriculture heads find a way of cutting production without (1) using the allotment system, or (2) weaning the cotton man away from cotton production by letting him break himself at it.

The telephone company apparently needs to hurry their new telephone directory to the press in Floydada. Their operators are spending almost as much time finding what the new numbers of their subscribers are as they are at ringing. Or so it seems. This is said to have come about with the extensions and cable changes that have made possible more telephone service for more people, and one-line service for others who have been wanting off of party lines. The subscribers are going to begin to call names and expect the operators to give them the numbers like in the good old days if they have to wait for another July to roll around.

Congressmen are right when they insist on looking into the business associations of all the cabinet appointees they are called upon to give the seal of approval. Hold on the Wilson appointment is a well-taken maneuver. Not that there is anything wrong that we know of with Mr. Wilson, but that there definitely is something wrong with a man doing business with himself as a servant of the public. It would be fine and nice for Mr. Eisenhower to have the man of his choice for defense secretary and doubtless a way to do it will be found. But not the way that would have Wilson both giving and receiving a contract from the government. General Motors, of which Mr. Wilson has been president until recently, is the biggest contractor with which the federal government does business. The defense secretary-designate, has many millions invested in GM, which he says, he is not going to sell. The defense secretary, life Caesar's wife, must be not only above scandal but also above scandalous talk. If they can't figure out a way the thing to do is to let Mr. Eisenhower find himself another man.

Of the hundreds of cases of illness in Floyd county and this part of the state a good many would likely be determined as caused by the influenza germ. But many more would likely not be so determined if blood tests were used. In illnesses like the present epidemic the scientists in the hospitals can and do find and corner the germ that is causing the trouble, when time and opportunity present. According to one anonymous doctor interviewed last week in Dallas the various kinds of mycins and penicillin do not pack the right wallop for the flu germ but they do assuage and often stop the ravages of other types of germs that usually go along with influenza. "They" have also developed a germ killer right recently among the antibiotics or among the fuzz-developed enemies of the viruses an exact anti-flu remedy. More recently the doctors have been over-run with patients who come in and call for a shot. With scores pouring into a medicine man's office in a line all day he has little chance to do anything but just give them the shot and let it go at that. A walking patient who has the general symptoms of a cold, la grippe or influenza is probably done just as well by in that manner as he would be by an exhaustive examination and diagnosis.

Plan and begin work now on the flower garden if it is to be a success. Seedbed preparation is important and should be done well in advance of the first plantings. Use flowers that are adapted to your section.

Where Revenue Comes From to Build FM Roads

(Editor's Note — This is another of a series of articles presenting information gathered by the highway policy committee of the West Texas Chamber of Commerce.)

Funds for the building of Farm-to-Market roads come from two sources. They are (1) a monthly allotment of \$1,250,000 or \$15 million per year from the state general fund and (2) money not needed to pay off county or district roads bonds from the Bond Assumption fund, less \$7,300,000 diverted directly from that fund to counties for lateral road construction.

Diversion of \$1,250,000 monthly from the general fund for Farm roads is authorized by the Briscoe-Colston bill enacted by the last Legislature.

As explained in an earlier article, the bond assumption fund was created from one cent of the 4-cent per gallon gasoline tax. Since maturities of road bonds now amount to what is collected from four-tenths of a cent of this tax, approximately six-tenths cent is available for Farm roads and for other types built by the State.

According to the statement of the Texas Highway Department, for the year ended August 31, 1951, receipts to it for building Farm roads amounted to \$20,949,523.50.

The State contemplates eventual-

ly the construction of 35,000 miles of Farm-to-Market roads. As of August, 1951, there were 20,691 miles of Farm roads built and maintained by the State. This does not include hard-surfaced roads built by counties.

CARD OF THANKS

We wish to take this means of thanking all our friends and neighbors for their acts of kindness during our grief and sorrow over the loss of our son and brother, Lloyd Milliken. Also for the many beautiful flowers.

**Five Generations in this Floyd County Group**

This recent group photograph shows five generations of Floyd county residents, all of Floydada, from left to right: Mrs. W. A. Colston, age 88, B. A. Colston, age 63, Mrs. Gilbert L. Fawver, age 38, Mrs. Curtis Sinor, age 19, and baby William Louis Sinor, age 4 months. The families all live in the vicinity of Baker, east of Floydada.

Last Tuesday was something special in American history. All inauguration days are that, of course. But nowadays radio and television bring a new president and his family closer than ever before to the everyday folks in Washington, D. C. and Washington state, and the many Washington counties of the United States.

To women Tuesday was more than an interesting display of 'pomp and ceremony.' It had all the qualities of an exciting novel or play. In imagination, they projected themselves into the role of the new first lady for a day. They felt the excitement of the floodlights and the flattery and the fun. But they also understood some other things, too:

She becomes the mistress of a 54-room house that isn't even her own; She must direct — and make friends with — 64 servants, many of whom know more about her job than she does;

She must give up most of the 'free choice' evenings with her husband during the next four years;

She must learn to hear and read bitter things said about him without losing her sense of humor, or her faith in her man;

Yes, fame is fun to read about, to see in a movie, or on t-v. Yet hardly a woman in the United States but went back to her kitchen on Wednesday morning with a sigh of relief that the next four years of her life wouldn't have to be spent in a gigantic goldfish bowl.

**TWO HONORED ON BIRTHDAY**

Mrs. S. J. Latta entertained Sunday, January 18 at high noon with a three-course dinner at her home.

honoring her daughter, Alice and Mrs. Marion Conner, who celebrated their birthdays.

A centerpiece of blue iris and yellow daffodils was on the dining table.

Enjoying the lovely dinner were the honorees and Mr. Conner, Jackie Alexander, Lyndel Spears, Misses Judy Moss and Darlene Warren, and S. J. Latta.

## Mr. and Mrs. Walter Robertson Celebrate 50th Wedding Day

Mr. and Mrs. Walter Robertson of Floydada celebrated their golden wedding anniversary at an open house in the home of their eldest son B. A. Robertson, Sunday afternoon between the hours of two and six o'clock.

Over one hundred friends and relatives called during the afternoon.

Mrs. B. A. Robertson greeted the guests at the door and Mrs. Charlie Perry and Mrs. A. H. Robertson displayed gifts and were also in charge of an array of interesting old pictures of the family.

The honored couple were married on January 18, 1903, in a buggy, near Lewisville, Texas, where they lived until 1925, when they moved to Floyd county to operate a farm.

Mr. Robertson was born in Clay county, Alabama, in 1877 and came to Texas in 1893. Mrs. Robertson was born Lela Hyden in Rockwell, Texas, in 1876.

Mr. and Mrs. Robertson have four children, three of whom are living in Floydada. They are B. A., Mrs. Charlie Perry, and M. S. Robertson. One son, A. H. Robertson lives at Bovina, Texas.

There are seven grandchildren all of whom were present at the anniversary with the exception of one.

**Speakers Praise Couple**  
Reverend Tilden B. Armstrong, pastor of the First Methodist church of Floydada, traced the life of the honored couple from the day of their marriage until this anniversary day.

An old friend of the family, Judge Victor Lindsey, of Lubbock, extended congratulations; past Floyd county judge, G. C. Thibbs, offered his congratulations to the couple and Mrs. Jack McNeill, of Lubbock, a former teacher of the couple's two youngest children complimented the Robertson's participation in school activities.

Also appearing was the Lockney Methodist quartet composed of Oliver W. Holmes, Et. Johnson, Clark Harris and C. L. Record.

A tape recording was made of the open-house activities. It was high-lighted when the honored couple told of their early marriage and house keeping articles.

**Flowers and Greenery**  
Decorative color appointments were in gold, white and green throughout the house. Featured in the living room was a large arrangement of jonquils.

The buffet was graced by an arrangement of green foliage with golden balls flanked with crystal holders burning candles.

Crystal appointments were used on the serving table which was draped with a white, drawnwork linen cloth.

The tiered cake, which was topped with a gold archway announcing "50th" anniversary, was served by a granddaughter, Miss Charlene Perry. Spiced tea was served by another granddaughter, Sue Robertson.

## Wesley Girls Class Meets Wednesday

The Wesley Girls class of the First Methodist church held their monthly class meeting in the home of Mrs. J. G. Wood last Wednesday afternoon with Mrs. D. T. Mayo as assisting hostess.

The afternoon was spent in visiting and needle work.

Members present who were served lovely refreshments by the hostesses were Mesdames L. C. McDonald, V. W. Houshawe, George Smith, Tilden B. Armstrong, E. S. Henderson, Roy Curry, S. E. Thurman, S. J. Latta, W. E. Oelmes, J. M. Wilson, W. H. Henderson and Mrs. E. C. Henry, the class mother.

son, from a crystal punch bowl, which was decorated with a garland of gold mums and green fern. Paper napkins on which "Walter and Lela" had been printed in gold were used.

Mrs. M. S. Robertson, daughter-in-law, registered the guest in the wedding anniversary book.

Out-of-town guests included Mr. and Mrs. Jack McNeill, Miss Thelma McNeill, Judge and Mrs. Victor Lindsey of Lubbock, Mrs. Totsey McReynolds of Hobbs, New Mexico, Mr. and Mrs. Harvey Brock of Hereford and Mrs. Florence Simpson of Durango, Colorado.

## Joint Hostesses

## Honor Newly-Wed at Gift Shower

Mrs. Ernest Kendrick was hostess at a seated tea and gift shower honoring Mrs. Henry Bloodworth, nee Beatrice Davis, in her home Friday evening at 7 o'clock.

Co-hostesses with Mrs. Kendrick were Mesdames R. G. Dunlap, W. E. Grimes, S. E. Thurman, John McKinney, Jr., Wilson Kimble, George Smith, Jack Lackey, L. T. Hickerson, Harry Morckel, Ray Smith, E. S. Randerson, G. M. Armstrong, Mrs. G. R. May and Miss Frances Mitchell.

Mrs. Kendrick greeted the guests, presenting the honoree and her mother-in-law, Mrs. W. J. Rhodes, who were each presented carnation corsages by the hostesses.

Mrs. G. M. Armstrong, presiding at the silver service, served hot tea, being assisted in serving the guests by Mesdames John McKinney and Jack Lackey. A beautiful cut work linen cloth covered the table. The centerpiece, a miniature bride and groom, was flanked by lighted pink candles. The angel food chunks, iced in pastel colors, served from a crystal basket, formed part of the table decoration.

Mrs. R. G. Dunlap and Miss Francis Mitchell gave an original toast to the bride.

Mr. and Mrs. Bloodworth are at home at 204 1/2 North Second street, Floydada.

## Couple Will Wed Saturday Evening

Miss Virginia Luctus will become the bride of Earl Crowley, son of Mr. and Mrs. John Crowley, Saturday evening at 8 o'clock at the residence of Rev. H. E. Smith, who will officiate.

The bride-elect is the daughter of Mrs. Lillie Luctus, of Houka, Mississippi. She has been making her home here for the past year and has been employed at Floydada Drug.

After a trip to Mississippi the couple will be at home in Floydada. Mr. Crowley is engaged in farming.

## County Water Vote Results Announced

The Hi-Plains Underground Water District has announced results of the water district vote in Floyd county for county committee-men, following a canvass of the results.

Officially announced as elected for county committee-men are Marvin Shurbet, Grady Walker, and Lee Trice.

Da Vinci, the artist, was first to mention the presence of two different gases in the atmosphere.

MR. AND MRS. CECIL RICHARDSON

## Mrs. Henry Hinton 1929 Study Club Complimented With Shower Tuesday

A group of friends of the Dougherty community honored Mrs. Henry Hinton with a pink and blue shower Tuesday afternoon, January 21, in the home of Mrs. Maurice Campbell.

Co-hostesses with Mrs. Campbell were: Mesdames Bill Smith, Harlan Carr, Kenneth Poole, Ray Crawford and Bob Covington.

In the dining room the guests were served by candle light, Mrs. C. G. and Mrs. Poole serving spiced tea and angel food chunks from a highly polished blonde table. The centerpiece on the table was of dainty white mums in a pink ceramic shoe container, with tall pink candles. Crystal and silver appointments were used. On the buffet, a miniature doll and carriage flanked by small rattlers was placed on a mirror reflector with pink candles. On the coffee table in the living room, a large stork held away.

Mrs. Bill Smith was at the guest register. Before the hostesses presented the gifts to the honoree, Mrs. Bob Covington gave a clever reading.

A host of friends sent gifts and the following registered: Mesdames John C. Gage, Elmer Warren, J. T. Poole, C. R. Woodson, Orland Howard, Ned Bradley, G. W. Smith, Claude Ring, Jack McIntosh, Howard Drysdale and Mesdames F. M. Covington, Russell Crawford, Ruth Daniels, Joe Jones, Sam Lide, C. A. Caffee, Wm. Hinton, Mesdames John Lyles of Plainview, J. R. Hinton, Jim Harper, W. J. Ross, Jim Morrison, R. T. Jones and the hostesses.

Shakespeare was 52 years old when he died.

## Miss Eva Waller, Cecil Richardson, Take Wedding Vow

The First Christian church was the scene of the wedding of Miss Eva Waller and Cecil Richardson of Ralls. The Reverend Tilden B. Armstrong, pastor of the First Methodist church officiated as the couple repeated their vows at 3 o'clock Sunday afternoon, January 11.

Miss Waller is the daughter of Mr. and Mrs. W. J. Waller of Floydada. Mr. Richardson is the son of Mr. and Mrs. Virgie Richardson of Ralls, One, Ralls.

Mrs. Pearl Fagan gave a prelude of nuptial music which included Berceuse and Andantino and Serenade. She also played the traditional wedding marches. She rendered Indian Love Call for the candle lighters. "I Love You Truly" for bridegroom and attendants, and "Always" for the entrance of the brides maid of honor.

Miss Ruby Lee Bevil sang "Because" and as a benediction she sang, "The Lord's Prayer."

Two sisters of the bride, Mrs. Rae Thornton and Mrs. Bob Ewen, both of Tullia, acted as candle lighters. They wore bronze taffeta and green taffeta dresses respectively, with identical yellow carnation corsages.

Mrs. James Armstrong of Lubbock, another sister of the bride, served as bridesmaid. She wore a pink taffeta gown, fashioned after the bride's dress, and carried a nosegay of pink and orchid corsages.

The bride, entering on the arm of her father, was attired in a Chantilly lace gown over satin. It featured a scalloped bodice with long pointed sleeves. Her finger tip veil of illusion fell from a small halo of lace and seed pearls. Her bridal bouquet was of white gardenias atop a white bible.

The vows were spoken underneath an archway of pom pom mums and greenery.

Gene Lamm of Carlsbad, New Mexico, a brother-in-law of the bridegroom acted as best man.

Ushers were Dean Davis of Ralls, Max Preston of Lubbock, and J. E. Waller, brother of the bride, of Floydada.

Immediately following the ceremony a reception was held in the home of the bride's parents, honoring the bride and groom, at which relatives of the couple were present.

Members of the house party were the attendants at the wedding, and assisting in the hospitalities were Mrs. Kenneth Rimmer, Mrs. Gene Lamm and Miss Joyce King, who served punch and wedding cake to the guests.

For a trip to south Texas the bride wore a blue suit with white accessories.

The couple are now at their home in Ralls, where the bridegroom is employed by Lynch-Tinnin Department store.

The bride is a graduate of Floydada high school, class of 1951. For the past year has been employed by Southwestern Bell Telephone company.

The bridegroom graduated with the Ralls high school class of 1951.

## Study Club Plans For Style Show

Mrs. Jimmy Tye was hostess to the members of the 1950 study club in the home of her mother, Mrs. D. W. Burke Tuesday evening, January 20.

Mrs. Jack Coffman had charge of the business session, when Mrs. N. E. Tyler was voted in as a new member of the club. Plans for the style show which the club will sponsor on March 16, were discussed. Mrs. Glen Day, who has moved to Plainview, sent in her resignation from the club, which was accepted.

Mrs. Edward Wester, gave an interesting paper on Gladys Rockmore Davis, an artist, and Mrs. W. H. Simpson, Jr., spoke on the life of Malvina Hoffman, sculptor.

The hostess served refreshments to the following members: Mesdames Bill DuBois, Bill Greer, Claud Weatherbee, Bob Copeland, W. J. Adams, Jr., Gene Collins, Johnny Collins, George Mize, Watson Jones, Lyndell Roberts, Kenneth Ring, A. V. Womack, Jr., Gene Probasco, W. H. Simpson, Jr., Edward Wester, Jack Coffman and Mrs. Hollis McLain.

The next meeting of the club will be with Mrs. W. H. Smith, Jr. on February 3, 1953.

Mr. and Mrs. Claud Carpenter and Mr. and Mrs. Joe Conway of Altus, Oklahoma, were here on Wednesday to attend the funeral of Mrs. R. H. Conway, the grandmother of Joe Conway.

## YOUR NYLONS WILL COST LESS

Retail prices of nylon stockings have gone down. That is good news for American women, who buy more than 576 million pairs a year. The O.P.S. has announced that price ceilings have been removed from Nylon hosiery. Such action is taken when wholesale prices of a commodity stay well below ceilings over a period of several weeks.

Although most women buy stockings more often than other wearing apparel, many of the labeling terms used on hosiery are not clearly understood.

Gause indicates the number of stitches in 1 1/2 inches of knitting—the higher the number of stitches, the finer the knit. When the stitches are smaller and closer together, stockings have more "give" and are less apt to be strained to the bursting point.

Denier indicates the weight of the yarn. The smaller the number, the finer the thread. For example, 15 denier is fine thread, 50 denier is heavy thread.

### Rites of Former County Resident Held Wednesday

Funeral services for Mrs. R. H. Conway 86, of Tyler, formerly of Floyd county, was held in the First Methodist church Wednesday afternoon at 3 o'clock with the pastor, Reverend Tilden B. Armstrong officiating, assisted by Dr. A. Hope Owen, pastor of the First Baptist church of Plainview, interment was in the Lakeview cemetery.

Mrs. Conway, who has been making her home with her son, Henry and family of Tyler for the past 12 years, died at 7 o'clock on Tuesday morning after a week's illness of influenza and complications of age.

Mrs. Ethel Ann Reynolds Conway the widow of R. H. Conway, was born on August 31, 1866, in Missouri. The family moved to Floyd county in 1919 making their home here until the death of Mr. Conway on December 31, 1937.

Mrs. Conway had been a member of the Methodist church many years. The Conway family lived in the Lakeview community during their residence here.

Survivors include two sons, Henry of Tyler, John of Grand Prairie, and two daughters, Mrs. A. T. Isbell of Lynchburg, Virginia and Mrs. G. S. Thebo of Paris, Texas. The daughters were both unable to attend the services of their mother. Also surviving the deceased are eight grandchildren and 10 great grand children.

A son, O. M. Conway of the Lakeview community preceded his mother in death several years ago and his widow, Mrs. Blanche Conway, now lives in Plainview with a daughter, Florrie.

Palbearers at the service were neighborhood friends of the family: Roy and Claud Patton, Fred Battley, Wayne Wright, Brents Bred and W. M. Hambricht.

#### INAUGURAL PARADE

A former Floyd County boy, Marine Sergeant John T. Reeves, 27, son of Mr. and Mrs. Sim Reeves of Plainview, formerly of South Plains, was one of the Marines selected to participate in the parade following President Eisenhower's inauguration on Tuesday in Washington.

### Ralph Hammonds Is Commended For Job in Korea

Captain Ralph D. Hammonds, of Dallas, son of Mrs. Hope Hammonds of Floydada, who recently separated from the service, has been awarded the commendation ribbon with the medal pendant for meritorious service in Korea.

Presentation was made at Hammonds' home, 4923 Elsay, by Dallas reserve officers from Love Field, according to the Dallas Morning News. The citation said that Hammonds performed outstanding duties while in Korea as a civil affairs officer at headquarters of I corps, army, temporarily assigned to the 1st Marine division. He is credited with organizing and supervising establishment of medical aid stations in the battle zone and aiding in maintaining the stations during heavy engagements. His work is credited with saving the lives of many persons, both armed personnel and Korean civilians.

## New Muscles In Old Equipment

The Army is operating one of the world's most efficient repair shops at Yokohama, Japan.

All types of transportation equipment from Korean battle zones are taken there to undergo face-lifting and body re-building that sends them back to work literally as good as new.

The shop-operated by the Army Transportation Corps — can point to hundreds of time, money, and labor-saving accomplishments. An example is the reconditioning of giant 225-horse-power motors that power harbor craft in the Far East.

Regardless of wear or damage, motors that once may have seemed fit only for the scrap heap are rebuilt completely by depot technicians. The big motors would cost \$5,000 to replace, but the Army gives them an overhauling that costs only \$425 and sends them back into action with a tested performance equal to that of a new engine.

All types of transportation equipment receive the same thorough repair. Parts are re-conditioned, inspected, cleaned and packaged in weather-resistant wrappings for storage and ultimate re-issue.

The depot is not only a gigantic repair garage, it also has 14 warehouses and three open storage areas, and controls the issue of every piece of Transportation Corps equipment in the Far East—from locomotives to cotter pins.

Stock clerks keep track of more than 72,000 spare parts on hand in depot storage houses.

Almost 800 Japanese work at the depot, along with 138 soldiers.

#### BIG SHOTS

Of the considerable number of really important men I've met, not one has acted like a "big shot."

Without exception, these VIP's have several elements in common: They are simple — un-assuming, unpretentious — straight-forward, natural. They're invariably good listeners. They take their jobs, but never themselves, seriously.

The only man I've even known who acted like Big Shots are little shots. They try to impress — with pretense — lots of talk — big front — show of knowledge — being hard to see. They take themselves seriously. The amazing thing is that the little shot trying to make an impression never seems to realize that the only one he's kidding is himself. Even he recognizes it in others, but forgets that others can see through him just as easily.

#### BRAIN POWER

For the ordinary person, somewhere around 80 to 90 per cent of his brain power is inborn. There is part of his heritage from which he cannot be cut off in the last will and testament.

While the "fixed amount" of one's capacity to act intelligently is large, improvement can be made in the unfixed amount that may be of tremendous importance — to the individual, his family and the world. And, conversely, great capacity can be wasted through failure of the individual, his family, his school and his community to recognize and foster it.

— Donald A. Laird, Today's Health

#### PURPOSE IN LIFE

Life does not begin at 21 — nor at 40 — nor at 70. It begins when one is captured by something bigger than self-interest — an idea, a person, a cause, to live for and die for.

That rugged Spanish thinker, Miguel de Unamuno, used to say to the young intellectuals of his country, for whom, as for many in the U. S. today, culture meant complete detachment from life — "Find a great idea, marry it, found a home with it, and raise a family."

# That Selection Of All-State Football Team

Local football fans who still like to talk about the Whirlwinds and their 1952 season have commented somewhat on the method of selecting all-state teams in class AA. Some of the questions that have been asked are who votes in the selections and where are those votes.

In a check-up of Region one which has four districts only one sports writer, Dick Kranz, of Amarillo, has a vote so far as we know. In nearby Region two, which also nearby four districts, only Art Gatts is familiar with class AA ball on the high

plains. This is the only two votes that boys from this section of the state can hope to get unless they go to state.

In looking at the number of votes some of the candidates down-state received we find that some received more than thirty, and some of these were on teams that didn't even win their district.

Last season there were thirty-one districts represented in the state play-off and there were 36 votes cast. That would be more than one vote to each district, but eight west Texas districts had only two votes.

One interested fan was Marion Bradford of Floydada who took the trouble to write Burnie Kee sports writer of the Fort Worth Star Telegram and ask some questions about the situation. The questions were not answered but the letter was and appears as follows:

In regard to your letter of January 9 concerning the selection of the 2A all-state team, I think you very definitely have a point.

Unfortunately, there seems to be little that can be done about it. Nevertheless, it's still a bad situation. There seems to be no way of doing justice to all those deserving such honors.

I personally consider most mythical teams as entertainment matter only. Some have proven very fine selections, but others, I hate to admit, are apparently politics.

Perhaps it would be best for all concerned to abolish these mythical teams but that appears very improbable for the players, fans and even the sports writers have become accustomed to looking forward to them. With such a vast area as Texas high school football embraces there just aren't enough concrete factors on which to set up a basis for comparison of players performances.

Don't get me wrong, I'm not defending those making the selections. It is just that I know of no way at present to improve on them. You'll get no argument around here about West Texas supplying the premium brand of football. We agree wholeheartedly.

I realize I haven't answered your question to any satisfaction, but frankly I'm stumped, too.

Thanks for your kind and thoughtful "critical letter." We can always find time to answer that type. Some we receive aren't quite so considerate.

# Floyd County 14 Years Ago

(Taken from the files of The Hesperian, issue dated January 26, 1939)

Members of the First Methodist church are looking forward to a visit of Bishop Ivan Lee Hole, assigned to the Northwest conference, who has announced he will be with the church here on the night of February 12.

The January term of district court opened Monday morning, when the grand jury convened to study eight alleged felonies presented by the officers of the county. The jury returned only five indictments, however.

### Soprano Sings In Good Voice

Last Saturday evening was the opening date of the Floydada Community Concert association's season. A very good crowd of members were present to hear Genevieve Rowe, coloratura soprano, and her husband, Robert Payson Hill, pianist and accompanist, present a varied program, of songs and piano numbers.

Miss Rowe made a pleasing stage appearance, appearing in a rose lace and tulle formal, accenting her brunette beauty. Her voice was excellent and she was the artist in every sense of the word, even to her saying she "would always remember Floydada, as there was a first time for everything."

Miss Rowe gave the program in four parts. Mr. Hill rendered three piano numbers for his part on the program.

The Blue Danube Waltz, with Miss Rowe singing, was especially well received.

The next number of the concert season will be given on February 23

### Thespian's 'Little Women' Play on January 29 and 30

Do you think times have changed since Grandma was a girl? Are you of the opinion that people are different now than they were sixty years ago?

If so you will be surprised to find how similar are the trials, tribulations, romances, tragedies and ambitions of modern families to those of all the old ones when you see, "Little Women," which is the three act play that will be produced by the Thespians in the high school auditorium January 29 and 30.

This particular dramatization of "Little Women" is a comprehensive study of the famous Louisa M. Alcott novel — a story that will live forever in the hearts of Americans. Those taking part in the production are:

Barbara Perry, Myrna Wilson, Jean Porter, Ann Welborn, Sammie Copeland, Bert Grimes, Mona Williams, Minnie Carmack, Bobby Rainer, Grover Smith, Carol Handley, Lonnie Jarrett, Glynell Armstrong, June Majors, Eileen Handley, Jane Pope.

The play has been directed by Mrs. I. T. Graves, who declares that the new dramatization has all the freshness of the original book.

Mrs. J. W. Day, president, had charge of the business session. Plans were made for a community party to be at the Starkey club house on Friday night, January 23. Mrs. O. F. Cummings gave a poem "Pledge for Americans" and Miss Leila Petty gave a demonstration on color for the living room.

The next meeting of the club will be on February 6 in the home of Mrs. W. L. Davis.

Members present in the home of Mrs. Ferguson were Mesdames S. L. Holmes, Keller Holmes, O. H. Day, J. W. Day, Jr., Paul Sparkman, L. E. Kiker, O. F. Cummings, Tom Porter, Guy Shipp, Cleo Fulton, and Mesdames Turner Hunter, Kenneth Morrison and John Shipley and Miss Petty.

## PLEASANT VALLEY CLUB MEETING JANUARY THIRD

The Pleasant Valley Home Demonstration club met in the home of Mrs. Chester Mitchell on January 3 for their first meeting.

Mrs. L. K. Sherman, the new president, presided during the business session. Mrs. Sherman read the names of the new committees for the year.

Mrs. Chester Mitchell gave "Why criticize?" and Mrs. Roy Wilkes gave the pledge for Americans.

Miss Leila Petty was present and gave a demonstration on color harmony in the living room.

The club will meet on January 27 with Mrs. Roy Wilkes as hostess.

## FREEDOM MEASURED IN MINUTES

Out of her iron lung for a few minutes, two-year-old Regina Edwards, stricken with polio in 1932, listens intently to the advice of Lois Christianson, a nurse at the Southwestern Polio-melitis Respiratory Center in Houston. Regina is very young to learn how serious polio can be but the disease that claimed more than 55,000 cases in 1932 seems to prefer young victims. Help is urgently needed to care for polio patients and further research to conquer this disease. Join the 1933 March of Dimes before the fund-raising campaign closes on January 31.

## South Plains News

(by Mrs. Murray Julian)

**SOUTH PLAINS, January 19.** — The South Plains Community club met Friday night, January 16, at the recreation room of the school house with a covered dish supper.

Neighbors gathered to have supper and an evening of fellowship. Games of "42" were played following the supper. It was voted to have the club on the first and third Fridays of each month, instead of Thursdays, as football season is over now. Everyone is invited, so everyone come.

Mr. and Mrs. J. B. Smithman spent Sunday afternoon visiting Mr. and Mrs. Bruce Whitlock at their home, north of Lockney.

The WMS of the South Plains Baptist church will meet Wednesday for an afternoon of study of Royal Society at the home of Mrs. Grigsby Milton. Everyone come and bring your Royal Society books.

Mrs. R. C. Guest underwent surgery in a Lubbock hospital last Wednesday. She is reported to be doing very well at this time. Mr. and Mrs. J. B. Smithman visited her at the hospital on Friday. Mr. and Mrs. George Weast called at the hospital for her on Saturday morning. We all wish Mrs. Guest a speedy recovery.

Mr. and Mrs. Fred Fortenberry and Elmo spent Saturday in Amarillo visiting her three brothers and their families during the day. They returned home Saturday night.

Several have been on the sick list in South Plains this week. Yvonne Karr was home ill Sunday and Monday. Bud Higginbotham was ill Sunday. Barbara Sue Milton was on the sick list Sunday, and Curtis Sanders with a bad cold.

Guests at the home of Mr. and Mrs. H. L. Marble and children on Sunday were Mr. and Mrs. Gilbert Bean and Rev. Chas. Joiner of Lockney, and J. L. King of Floydada. They were dinner guests and afternoon visitors.

Wade Deavenport will hold his sale at his home north of South Plains Thursday. The Home Demonstration club of South Plains will sell pies at the sale during the day.

O. T. Hewitt went to Amarillo over the week-end with a big load of cattle for the market Monday morning.

Mr. and Mrs. Early Joiner visited with Mr. and Mrs. Murray Julian and sons Saturday afternoon and had supper at their home.

Brother Wayne Williams gave the morning and evening sermons at the South Plains church Sunday. Mrs. Williams and the children came out from Plainview to be present at the night service. Brother Williams is a student at Wayland college.

We are indeed sorry to hear about Mrs. P. L. Marble's fall in her home the first part of last week. On Wednesday morning they operated on her leg at the Plainview hospital. She will be confined to her home for some time to come, so everyone remember her with cards and other messages of cheer, if you can not visit her. We hope she continues to improve day by day.

Mr. and Mrs. Arthur Brown and Karen have moved back to Lockney from Malvern, Arkansas and are getting settled in a new home, and Karen back in school.

Mr. and Mrs. E. T. Evans came down from Amarillo Friday evening and spent the night with her parents Mr. and Mrs. George Weast, Saturday they visited his parents, Mr. and Mrs. E. T. Evans in Floydada and Sunday they stayed with her sister, Mr. and Mrs. Robt. Lee Smith of Sterley.

The Brotherhood of the First Baptist churches of the Floyd Association met in Silverton Monday night, January 19 for a very interesting program and barbecue supper at the First Baptist church there. The barbecue supper was followed by speaker Tommy Allen, of Spur, who gave an inspirational message to the group. Those attending from South Plains were J. B. Thames, Rev. C. A. Joiner, Dock Jones, G. H. Hilton, Murray Julian, Sterling Cummings and H. S. Calahan, Jr.

## 411 Sheepskins from Texas

"Where do General Electric's engineers come from?" a visitor asked us. "I suppose they all got trained at MIT, or Cornell, or Michigan."

His question set us pondering, so we started plowing through the file cabinet for an answer. And, of course, it turned out as you'd imagine—NO. General Electric engineers don't always come from eastern technical schools. They won their slide rules from colleges in every state.

Maybe you'd like to hear how many of our bright engineers got their engineering education in your home state. Here's part of the list . . .

328 came from colleges in Kansas . . . 207 from Oklahoma . . . 125 Nebraska . . . 103 Montana . . . 97 South Dakota . . . 87 North Dakota . . . 47 Arkansas . . . 41 Wyoming . . . 411 came from Texas colleges . . . well, the list includes every state.

One out of every twenty employees at General Electric is an engineer or scientist. You know that a big part of our work is improving products and working out new ideas.

Right now young men from your home state are working on big and important engineering jobs at General Electric. You should be mighty proud of them because—take our word—they're doing a swell job.

*You can put your confidence in—*

The value of maintaining a "healthy" soil cannot be overestimated. Just like humans, soil can get "sick" due to deficiencies in its "diet". When planning crops for a certain plot of land, the farmer should know what that soil needs in the way of proper fertilizers. The initial cost will be returned in better yields.

### News of Harmony

(By Mrs. Mather Carr)

**HARMONY, January 19.** — There was a working and cleaning at the church Monday and Tuesday night and also Friday. The men did some carpenter work which had been needed for some time and they also helped the ladies with the cleaning of the ceiling and walls. The ladies did the finishing touch Friday by mopping and oiling the floors and cleaning windows. This makes the church look much better.

Glenn Pool and his father, S. A. Pool of Beckton, attended the funeral of S. A. Pool's brother Riley Pool, who passed away January 13 at Weatherford, Texas. Burial was at Moran, Texas, January 14. Riley Pool was an uncle of Glenn Pool. Glenn returned home Thursday evening.

In spite of the illness in our community there was a fair crowd out for mid-week services. Loyce Turner brought the devotional, which was a good one. His subject was luck. The lesson was read from Genesis. The Krebs family were all able to be present after all the boys had been ill with flu.

The community center regular meeting was held at the regular time Thursday with Horace Carr's Committee hosts. They were Everett Miller, Glenn Pool, Chas. B. Smith, Mrs. Bill Edwards, Mr and Mrs. Chloma Williams and Horace. After the business meeting recreation was directed by Mrs. Miller. One new trustee was elected as Zant Scott was going out. Chloma Williams was the new trustee who was put in. After recreation the committee served coffee, bottle drinks and doughnuts to all present. There were about 40 members and three guests present. The guests were Mr. and Mrs. W. R. Puckett and Miss Petty of Floydada.

We have not said anything about our cotton that was raised on the Center property. I think this was five bales. They saved quite a few seed which are for sale. These are very good seed coming from Texas Tech. Anyone wanting some of these seed see these trustees.

Also we want to mention the new screens that have been made for the windows and the painting of the windows and frames which add a much better appearance to the building.

Mr. and Mrs. Loyce Turner made a business trip to Oklahoma City, Okla. Thursday of last week and returned Saturday.

Mather Carr was taken to Lubbock Friday for treatment of a severe sore throat, and also to Floydada Sunday morning for treatment for his throat.

There are several sick in our community, among them E. W. Turner, Mrs. J. R. Turner and probably others.

Mrs. Hermon Krause attended the services at the chapel Sunday. She reported Mr. Krause as being better which we are happy to know.

Guests in the Mather Carr home Sunday were Mr. and Mrs. R. B. Gary, Mr. and Mrs. Everett Miller, Mr. and Mrs. G. L. Snodgrass, Mr. and Mrs. Wesley Carr and sons, Mr. and Mrs. Chloma Williams and daughter.

Guests in the Everett Miller home for Sunday night supper were Mr. and Mrs. Chloma Williams and daughter, Mr. and Mrs. Wesley Carr and sons and Horace Carr.

Mr. and Mrs. R. B. Gary visited in the Claud Robinson and Hermon Krause homes Sunday afternoon.

### AN APPRECIATION

I would like to thank friends and relatives for being so kind to us during my stay at Scott and White hospital in Waco.

Especially, do I want to thank you for the beautiful flowers, cards, letters, visits and your prayers.

May God bless each of you.

### SOIL TESTING

Instructions sheets may be obtained from local branches of the Soil Conservation Service, Production and Marketing Administration offices, or direct from the testing laboratories. In many cases, the procedure for handling samples has been changed to eliminate the necessity of taking samples from the subsoil.

The universal practice now is towards making a composite sample from cores or slices of soil taken from 15 or 20 different spots of a field. Small areas that differ in color, texture or drainage should be avoided or sampled separately.

New report sheets from the laboratories have been revised to give more information on soil types, drainage, slope and the crop rotations to be followed. This information is used by soil specialists as a partial substitute for subsoil samples in interpreting the results of laboratory analyses.

Soil testing should be considered on a crop rotation basis where it is possible. Sampling soils every three to five years, or once during a rotation cycle, is sufficient to maintain an adequate mineral level and make necessary adjustments in fertilization practices.

# Flu Epidemic Is Letting Up

At the schools and around over the community the epidemic of colds and influenza appears to be subsiding from the high but there still are enough cases to keep the doctors busy and the druggists rolling pills.

The epidemic is a rather prolonged one, considering that practically all cases have been mild. It hit the epidemic stage during the Christmas holidays and has been really raging all through January.

Allan Shivers . . . took the oath of office as governor of Texas for his second elective term yesterday at noon in ceremonies at Austin.

## Leroy Saul Named on 5 Committees

Leroy Saul, of Kress, representative of the new district No. 89 in the House of Representatives, last week was appointed on five committees by the speaker of the house as follows:

1. Agriculture, common carriers, conservation and reclamation, highways and roads, and privileges, suffrage and election.
2. Important legislation and action by the legislature is due to come up for consideration under each of these committees, which means the session is due to be a busy one for the representative from this district, composed of Hale, Floyd, Swisher and Briscoe.

## March o' Dimes

(Continued from First Page)

and has served previously as chairman of the Mother's March.

In accepting the chairmanship of mothers' march, Mrs. Henry said: "Like every woman, I want to do my part in the fight against polio by assisting in the March of Dimes. We never know where or when polio will strike and must therefore do everything we can to raise the money for any emergency, whether in our own county or in a distant part of the nation."

"In accepting this honor, I share the feeling of every woman in Floyd county who places the safety and well-being of her children above any other consideration."

### Eighty Women to Help

Eighty women volunteers of Floydada will take part in the Mothers' March on polio on the evening of Thursday, January 29, between 7:00 and 8:00, Mrs. Henry said.

These marching mothers will be organized into a volunteer army led by six district captains, and eighty-four block wardens. They will be ready for the signal to march at 7:00 on the evening of January 29.

This signal will be the switching on of porch lights in most of the homes of the city. A light burning

on the porch or in the window of any home that night will be an invitation to the marching mothers to ring the doorbell and receive a contribution to the March of Dimes.

"The local mothers march on polio is part of a vast, nationwide effort on the part of mothers to strike a telling blow against polio," said Mrs. Henry. "The fruits of this march of mercy will be the improved health and well being of thousands of boys and girls and men and women, not only in our own community, but throughout the nation."

### Earl Crow MOD Treasurer

Earl Crow, vice-president of the First National Bank of Floydada, and a leader in civic affairs, has accepted the position of treasurer of the March of Dimes campaign for Floyd county. Mr. Crow will accept and account for all monies raised in Floyd county for the fight against infantile paralysis.

Half of the March of Dimes funds raised here is used by the local chapter of the National Foundation for Infantile Paralysis to pay for local patient care or, in emergencies, to finance patient treatment elsewhere. The other half goes to the national headquarters. Whenever a local chapter uses up its funds, national headquarters gives supplementary financial aid so long as there is a need. A community hit by a polio epidemic may receive more from national headquarters than it contributed to the March of Dimes. Texas has received more money from the national headquarters for the past several years than it has collected from the March of Dimes.

### What Your Dimes Do

1. Work all year around.
2. Supplement other resources in paying for cost of care for these infantile paralysis victims who need financial assistance in whole or in part, regardless of age, race, creed or color.
3. Finance research in hundreds of laboratories and medical schools into the cause and treatment of infantile paralysis. This takes millions of dollars annually and it is here that the final battle will be won.
4. Buy expensive equipment, such as iron lungs, hot pack machines, wool for packs, physical therapy equipment.
5. Supply front-line shock troops, such as doctors, physical therapists, epidemiologists, nurses, etc., in epidemic stricken areas to fight the disease. These remain on the scene as long as needed.
6. Provide for professional education of physicians, nurses, physical therapists and other medical personnel needed for the fight against polio.
7. Make possible a ceaseless educational campaign through newspapers, magazines, radios, etc., to inform the public of precautions against polio and what to do if it strikes.
7. Assure every American the best available care and treatment when polio strikes.

## Lakeview Vacancy Hearing Jan. 30

Earl Crawford, chairman of a committee of southeast Floyd county land owners interested in the outcome of the Don Reid 'vacancy' strip application at Lakeview, said this week there had been no change indicated by the state land board in the date for the hearing on Reid's application.

Property rights of about 80 land owners will be affected by the outcome of the hearing. Crawford said a considerable number of these are expected to attend the hearing in Austin.

Members of the state land board are the governor, the attorney general and the state land commissioner.

### Response

Hoping to inspire his workers with promptness and energy, a New York executive hung a number of signs reading "DO IT NOW" around his factory and office. When he was asked some weeks later how his staff had reacted, he shook his head sadly. "I don't even like to talk about it," he said. "The cashier skipped with \$4,000, the head bookkeeper eloped with the best secretary I ever had, three typists asked for an increase, the factory workers voted to go out on strike, and the office boy joined the Navy."

### HOME, BILL

When a man's pet hound disappeared he put the following ad in the local newspaper: Lost or ran away, liver-colored bird dog named Bill. Will show signs of hydrophobia in about 3 days.

The dog came home next morning! —Reformatory Pillar

## What Diseases Can You Catch From Your Dog?

With the perfect casualness that only a baby can muster, she picked up the bone the family dog had been gnawing and popped an end of it into her mouth.

Worry flashed across the young mother's face. Her teatime visitor saw it and laughed. "Forget it," she said. "A dog's mouth is cleaner than a human's."

But is it? No, says Dr. J. Raymond Currey, Washington, D. C., veterinarian and former president of the American Animal Hospital Association.

"A dog probably has as many bacteria in his mouth for a dog as a human has for a human," he said. "It would be just as natural for bacteria to transfer when a dog licks your hand or face as it would be for human bacteria to transfer when two people kiss."

But can your dog make you sick? The answer is both "yes" and "no."

### Some Diseases Shared

Dogs get "strep" throats, conjunctivitis—commonly known in its human form as pinkeye—worms, fungus infections and other ailments that their two-legged masters fall heir to.

But the chances of your catching a disease from your dog are pretty slim. "It's in the realm of a possibility, not a probability," Dr. Currey adds.

The kind of streptococcus germ a dog gets sick from isn't the one that causes a sore throat for humans. These strep bugs are cousins, but each sticks to its own kind so far as infections are concerned. A veterinarian-physician team once studied a series of homes where both children and dogs came down with tonsillitis. They concluded that kids

and animals may have gotten the infection from a common source, but that they didn't make each other sick. Cultures taken from infected human tonsils have been injected into dogs without causing strep illnesses. Neither have dog cultures injected in humans.

One of dogdom's commonest ailments is distemper—an influenza-like disease. But you won't get dog flu from your pet; distemper bugs just won't take a hold in your lungs.

The kind of worms dogs get aren't the same kind of parasite that make people sick. You'll pick up the eyelash-clogging conjunctivitis a lot faster from family towels than from your dog.

The specter of rabies is a dog world bugaboo. However, effective weapons against it exist, and in some countries rabies as a human danger has been wiped out. Leptospirosis—a sometimes fatal jaundice-like infection of the system—can be contracted from water contaminated by a sick dog or by getting its urine on a break in the skin. Leptospirosis among humans is on the increase but most frequent carrier is the rat; cases of infection from a dog are rare.

More of a problem are fungus diseases—like ringworm—that dogs get and can be transmitted to humans. These, however, are annoying and hard to get rid of rather than dangerous. Allergic reactions can be caused by the dander of pets, but the individual likely to be such a victim would probably be equally allergic to horses or other animals or even some people.

Your dog conceivably can make you sick. But the danger isn't enough to worry veterinarians who have to handle thousands of them a year. Concludes Dr. Currey: "There's no occupational hazard in a small animal practice—except bites."

## World War Is Over, Atty. General

AUSTIN — The General's Office acknowledged that World War is over.

Acknowledgment last week in an official statement issued by Attorney General James H. Hargis in reply to a question by the Texas Department of Safety relating to the status of the war.

In 1945, the state's emergency laws provided that the state's emergency laws would remain in effect until the president should issue a proclamation and order for the suspension of the laws and until the president should issue a proclamation and order for the suspension of the laws.

The doctor left his office and joined the party like the rest of the crowd. "Well, doc," said Babel, "I'm not crazy, but she sure looks like me and the kid."

According to Babel, she was to reach Heaven.

**As A Farm Woman Thinks**

(by Nellie Witt Spikes)

The weather-man blows warm and cold winds this January of 1953. I get out heavy coats and then they are needed only a few days.

I have been catching up on some three years of scrapbook making. Everything got so full of clippings there was not room for more. I dislike pasting them in the books, but am very proud of my scrapbooks when they are finished. It is a fine hobby and will give pleasure to many through the years. Trouble with me I find too many hobbies that appeal and go from one to another, keeping me rather busy.

We enjoyed Mr. and Mrs. Will Snell of Floydada when they came down to visit and go to the formal opening of the Methodist church sanctuary. This beautiful sanctuary fills one's soul with beauty. As the prairie sun shines on the windows, the colors glow like the sunsets this same sun will make in the heavens as it sinks in the west. When I was a child I played with bits of broken china and glass. The colors fascinated me. Now as I look at the many colors in the windows, I find myself a child again, thrilled with the varied bits of color in the windows.

We hope the Snells will come again. They have been friends many years.

Two of our friends have gone to the Great Beyond the past week. Mr. Switzer of Floydada, we knew at McCoy long ago. Mr. Broyles Terrell since the year of 1906. Two good men, needed men have left us. But their lives go on, the good they have done will not be forgotten.

These lines are for the dear ones both men left to grieve for their passing.

**Waiting Youner**

"They are not dead, those loved ones who have passed Beyond our vision for a little while. They have but reached the Light while we grope In darkness where we cannot see their smile. But smile they do, and love us, and do not Forget, nor ever go so far away But that their hands still clasp our hands and hold Us safely from falling when we faint would stray. They are not dead. Theirs is the fuller life. There is the victory, the joy, the gain; For us is still the waiting and the strife. For us the loneliness, for us the pain. Then let us grid us once again with hope And give them smile for smile, the while we wait; And loving, serving, when our Father calls, We'll go to find our dear ones wait us at the gate."

— H. A. C.

Since 1900, the population of the U. S. has doubled, but the number of persons 45 to 65 years has tripled, while the number over 65 has quadrupled.

—Federal Security Agency report

It took Moses 40 years to reach the Promised Land.

The name David means beloved.

**McAdoo Auto Hits Culvert End; Four Are Injured**

Mr. and Mrs. C. M. Lyles, of Campbell, witnessed an unusual accident on the highway seven miles east of Floydada Sunday afternoon about 6:30 o'clock.

Parked by the side of the road at their turn north, they awaited the passing of a car traveling east approaching from behind. As the car passed it struck a culvert curb and turned a complete flip without serious injury to any of the four occupants.

Two of the occupants of the car, a 1951 Mercury, were Mr. and Mrs. Milton Bradley of McAdoo, names of the other couple are not available. The Lyles' brought the four to the Pitts hospital here for treatment of cuts and bruises and shock.

Although the Bradley car was considerably damaged it was driven on home the same night by the McAdoo couple.

**Decline Air Trip to South America**

Mr. and Mrs. Billy Stanforth, Jr. and Mr. and Mrs. Menard Field have been invited by radio station KFYO of Lubbock to be their guests in a goodwill visit to south America. They were invited to go as the guests of the radio station, along with other prominent South Plains farmers and ranchers on a month long trip.

The group will visit six countries, including Brazil, Chile, Peru, Argentina, Panama and New Guinea.

The group are to make the trip by air and return home by air.

# Jeffrey Wows Supper Guests of Baptist Men

The men's brotherhood of the First Baptist church met Monday night in the church basement with over a hundred members and guests present. Special guests for the occasion were the Whirlwind 1952 championship football team and their coaches, and the guest speaker, James N. Jeffrey, a football great of Baylor university.

Mr. Jeffrey proved to be a very entertaining speaker. He held the attention of those present with ease as his humor proved very popular with young and old alike and then turning to the serious side stressed "seeing life through to a worthy conclusion."

Instrumental in arranging the fine program were John Stapleton, president of the brotherhood, Bill Greer, program chairman, and Leonard Matsler who had charge of preparing and serving of the food.

Barbecue, beans, coffee, pie and the trimmings were enjoyed by those present.

The speaker, Mr. Jeffrey, was on a very close schedule driving up from Carswell air base at Fort Worth for the program, and returning to his base immediately afterward. Mrs. Jeffrey accompanied her husband to Floydada, and was also a guest of the brotherhood along with Mrs. Bill Greer, wife of the program chairman.

### CARD OF THANKS

I want to thank the doctors and nurses for being so nice to me while I was in Pitts hospital, and also thank all who sent me cards and made visits while I was there.

To my friends and neighbors who brought the good food, after I returned home. May each of you have just such good friends when you are in need, and may the Lord bless all of you.

Mrs. Fred Balthus

## KITCHEN AND FIELD NEWS

(from Floyd County Rural Electric Cooperative, Inc.)

James W. Holman and Harry K. Webb from south of Crosbyton were co-op visitors on Saturday morning. They were making plans for connecting their new dairy barn. This will be a Grade A Dairy — milk will be sold to Bell Milk Co. of Lubbock. Our best wishes go to these two young fellows in this new venture. They came to the plains country last year and are working with their uncle, H. Work. Mr. Holman came from Tennessee and Mr. Webb from Oklahoma.

Ben Childress of Peerless Pump company, Plainview, was a co-op visitor last week.

A. A. Howard of Silverton connected a small irrigation motor last week.

W. A. Waters, Abernathy, has connected an irrigation well. Mr. Waters is a member of the board of directors for the South Plains Electric cooperative, in Lubbock. He is in the process of connecting three more wells.

Mrs. R. C. Yarbrough says she really is enjoying her new electric range. It was a surprise Christmas gift — they came home one afternoon to find it installed and all ready for operation.

Wanda, Pete and Pat Hickerson, and L. A. Sargent ate Sunday dinner with the Olin Bryants. It was Wanda's birthday.

Mr. and Mrs. Buddy Neff and Vivian, visited his sister, Mr. and Mrs. I. W. Capshaw and family of Hereford on Sunday.

Jimmie Hill who has been staying with his sister, Mrs. Corkey Guffee, and attending school in Floydada has gone back to Plainview to be with his father and to attend school in Plainview.

Mr. and Mrs. Red Gregory and Noel Wallace, spent the week-end in Quanah visiting Fay and Noel's sister and her family.

There will be a demonstration for the Mt. Blanco club given Thursday at the home of Mrs. Bruce Allen of Crosby County.

Mr. and Mrs. Leland Woodward and Kathy have moved to Lamesa to make their home.

Today's Dollar — One dollar buys 44 cents of food, One dollar buys 49 cents of clothes, One dollar buys \$1.10 of electricity.

**HAZARDS OF MIS-USE**  
The electric wires which bring so much convenience and comfort into the homes today can be fire hazards — if improperly installed — if they are in need of repair or if they are misused.

When a fuse blows, the specialists remind home owners, that's a danger signal either of an overload or a short circuit. Substituting a larger fuse is highly dangerous because then wires, instead of the fuse, heat up and a fire may start inside house walls. When new equipment has been added, additional circuits may be needed.

Wiring should always be done by a competent electrician. After wiring the job should be approved by a licensed wiring inspector.

Overloading wires is not the only cause of fires from the misuse of electricity. Badly worn cords also are fire hazards. Forgetting to disconnect an electric iron or other appliances has caused many a fire.

When buying electric equipment for the UL label of the Underwriters' Laboratories on both electrical equipment and cords which show that the article has been tested and passed as safe.

Electric chick brooding has many advantages. Electric brooders are well-liked because they greatly reduce fire hazards and eliminate loss of chicks from overheating or asphyxiation from fumes or smoke.

Electric brooders do not heat the brooder house, which is a benefit because it eliminates overheating with the result that moisture does not condense on the ceiling, walls and floors. This one feature reduces disease and parasite infection since heat and moisture are necessary for their development.

Chicks tend to be livelier, to eat more, and to feather faster in cold rather than in heated brooder houses. Insulation in the brooder confines the heat to the lower area. This results in economical use of electric power.

Infra-red heat lamps have been used in recent years in brooding chicks (and pigs also). This is the most economical way of brooding. All that is necessary is the purchase of the infra-red lights and the rest can be built out of scrap lumber.

Mrs. Menard Field left Saturday to join her husband in Benkleman, Nebraska, for an indefinite stay. Mr. Field has been in Benkleman for the past few weeks. He is interested in ranch lands in that area.

## Fairview News

(by Mrs. Clyde Bagwell)

FAIRVIEW, January 20. — Our weather last week reminded me of the young man who was sent to Texas to be stationed while in training in the air force. This was his first time to be in Texas and he said "Texas could have more kinds of weather in a weeks time than any place he ever heard of." The only kind we lacked last week was wet weather.

Revival to be at Fairview  
Our pastor, Rev. Bob Hickling wishes to make this announcement. On the week-end of February 20, 21, 22, which is Friday night, Saturday night and all day Sunday, Rev. Paul McCray will be here to preach. Rev. McCray is one of the outstanding young Evangelists in America today. This 22 year old preacher has seen thousands accept Christ under his preaching. Converted in 1949 he has been preaching ever since, holding meetings in some of the largest churches in Oklahoma, Illinois, Missouri, Kansas and Texas. Johnny Bueangno, a converted dance band leader will lead the singing and bring inspirational solos on trumpet to the Glory of the Lord. There will be a great deal of special music each night. Friday night, February 20 will be the big night. Plan to attend Friday night and then come for all services starting at 7:30 p.m. Arrangements are being made for extra seating space. This is your personal invitation to attend every service. This invitation is to everyone in any community.

Mr. and Mrs. Jim Stewart and Jim Dan spent the day Sunday in Plainview at the home of her parents, Mr. and Mrs. L. A. Horton. Others present for the day were Mr. and Mrs. L. D. Horton and family, Mr. and Mrs. Odell Stapleton and sons and Mr. and Mrs. Walter Welch. A bountiful dinner was served in honor of the birthdays of Mr. Horton and his daughter, Mrs. Welch. Mr. and Mrs. E. W. Walls attended church Sunday morning at Lockney and were dinner guests in the home of Mr. and Mrs. D. D. Tate and in the afternoon they saw television in the Tate home.

Mr. and Mrs. Lee W. Burton and children went to South Plains after church Sunday and spent the rest of the day visiting her parents, Mr. and Mrs. J. T. Myrick. The Home Demonstration club meets Monday afternoon, January 26 at 2:30 in the home of Mrs. W. B. Wilson. All members are asked to be present.

Mrs. E. W. Walls went shopping in Plainview Wednesday.

Mrs. C. W. Payne visited in Floydada Sunday afternoon with Mrs. W. W. Payne.

Troy Lee Johnston and Shirley Nelson of Floydada spent the week-end with their grandparents, Mr. and Mrs. Lee Burgett. Their parents, Mr. and Mrs. Carl Nelson came out Saturday afternoon to get them and visit for awhile.

Mr. and Mrs. C. W. Payne and June and Mr. and Mrs. Clyde Bagwell visited Mr. and Mrs. Cecil Payne and C. J. Friday night all watched television and home made candy to the group.

Mrs. Ernest Hernandez returned to her home in Whittier, California last Friday after being here several weeks with her sister, Mrs. L. B. Cooby, Jr., and family.

Thursday afternoon Mrs. C. W. Payne and June visited Mrs. E. W. Walls.

Mr. and Mrs. Shirley W. Irwin and daughters went to Odessa Friday where they spent the day with her parents, Mr. and Mrs. R. R. Waller. Mr. and Mrs. Bud DuBois and Larry and Sandra of Lamesa were up to spend Sunday with Buds parents, Mr. and Mrs. Edell DuBois. Larry and Sandra remained for a weeks visit with their grandparents.

Mr. and Mrs. Gene Hopper and daughters visited Sunday afternoon with Mr. and Mrs. Shirley W. Irwin and daughters.

Mrs. Lee Rushing has been ill for the past several days with flu. She is better at this writing and said she thought she would be able to be out soon.

Mr. and Mrs. Walton Wilson went to Plainview Tuesday and visited with Mr. and Mrs. Sim Reeves and Mrs. E. C. Austin before they left the next day for California.

Tuesday night Judy Wilson spent the night in Floydada with Jane Ann Carpenter.

Joan of Arc was convicted of heresy.

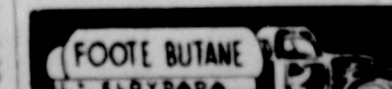

Robert Owen organized the first model factory system.

### MACADAM HIGHWAY TO ICONIUM

Modern Turkey has macadamized the 160-mile highway from Ankara, capital of the republic, down across the high plateau of southwest central Anatolia to Iconium, the city in which Thecla met the Apostle Paul.

The beautiful legend of St. Paul and St. Thecla is perhaps better known to adherents of the eastern church than it is to the laity of the west. According to the apocryphal "Acta Pauli et Theclae" of the 2nd century, Thecla was a noblewoman of Iconium who was so inspired by the sermons of Paul that she, too, became a preacher of Christianity.

Like Paul, she was persecuted for her belief. Roman masters of Asia Minor tried to burn her at the stake. Miraculous rains quenched the flames. She was thrown to wild beasts in the arena. A lioness licked her hand, then guarded her against the other animals.

Thus spared to Christianity, Thecla labored in the work of Christian missions until her death at Seleucia. She is now revered by the eastern church as an "Apostel and protomartyr among women."

Iconium, now known as Konya, was old in St. Thecla's day. Mysteriously Hittites, whose inscriptions record their history back to 3000 B. C., had a city on the site. Mongols, Aryan Phrygians, Persians, the Greek of Alexander the Great, and the legions of Rome held sway over Iconium in their turn.

The movie newsreel became a daily feature during President Wilson's administration.

### DWARFISM CATTLE PROBLEM

Dwarfism in cattle is becoming a serious problem to range cattlemen. Until quite recently, dwarfism was mostly a problem in improved purebred herds. But, as these herds began providing range bulls, it was inevitable that the condition known as "dwarfism" become prevalent in range cattle.

Their indicate that in some herds even out of 10 range bulls are carriers of dwarfism. This is bound to result in severe losses to range cattlemen. A national effort is underway to control dwarfism.

Dwarfism can be eliminated, at least theoretically, through the use of a device called a profilometer. The instrument sketches a mature bull's head revealing the bluge in the mid-forehead bones if the animal is a dwarf carrier. When such

bulls are mated to carrier cows, the offspring will be dwarf calves. Large scales test on this device are being conducted in an effort to stop dwarfism before it starts.

### MORE LIKE FISH

America's newest submarines come close to matching the abilities of their namesakes, the fish of the deep seas.

They "breathe" underwater. They travel faster submerged than on the surface. They carry uncanny new weapons as "teeth," and sensitive electronic "ears." Such advances in the world of undersea warfare have already made the U. S. fleet submarines of World War II as obsolete as the Model T Ford.

An even greater undersea revolution is promised by the world's first atomic-powered submarine, U.S.S. Nautilus, now on the ways near New London, Connecticut.

With uranium as fuel, atom subs should be able to cruise indefinitely at great depth. No air would be needed for the atomic engines. It has been estimated unofficially that the first nuclear-powered submarines probably would be able to make 35 knots submerged — considerably faster than the top speeds of most modern surface warships.

Thus the prediction of Comdr. Edward L. Beach, skipper of one of the Navy's newest attack submarines, U.S.S. "Trigger":

"A number of submarines — and that includes me," he said, "foresee the day when all warships must be able to submerge, or court disaster."

Religion has been the greatest inspiration for subject matter in the visual arts.
