An adequate wiring system is the backbone of the electric set-up within any home.

Electricity is sold by the kilowatt hour just as eggs are sold by the dozen and butter by the pound. A kilowatt is simply a thousand watts and if used in a period of 60 minutes, becomes a kilowatt hour. Every piece of equipment made by a reputable manufacturer carries a wattage rating on it some place. It may be painted on, as in the case of good light bulbs, or it may be stamped in the metal tag fastened to the equipment. This wattage rating informs the buyer that the particular item will use a certain number of watts in an hour's time.

"I want a ticket on the Atomic Super Chief!"

Well, sonny, just hang on to that dream. By the time you're a full fare, it might come true!

Of course there is no "Atomic Super Chief" . . . yet.

But, don't sell American ingenuity and progress short. At the rate things grow new for you on the Santa Fe, you only need to squint your mind's eye just a little to see tomorrow streaming toward you down the track!

You can almost feel the future of Santa Fe in the quickened tempo of its progress in the recent past.

Just count the growing number of Santa Fe diesels that speed your freight and smooth your ride today.

Nineteen years ago there weren't any. Today there are 1422 units. By year's end there'll be 97 more. Steam is disappearing fast. And more than 250 coaling and watering stations have bit the dust.

Santa Fe folks just don't dally when it comes to building new.

For today the Santa Fe is America's new railroad. And it's going to stay that way by growing newer every day—in every way that can mean new safety, better service, new comfort and dependability for you.

It costs millions of dollars to serve you so. But it doesn't add a penny to the taxes you pay. Santa Fe folks are proud of that, too—proud that the newness of the Santa Fe is a part of American progress that pays its own way.

FORMER CROWN JEWEL—
THE ENORMOUS SIZE of this 84-carat diamond, once belonging to the Czar of Russia and recently included in ARTHUR A. EVERTS JEWELERS, Dallas, special exhibition of fabulous gems, makes its brilliant clarity and freedom from imperfections particularly remarkable. Valued at \$150,000, it was a feature in the House of Jewels at the New York World's Fair. Also included in the exhibit at Everts' downtown store was more than \$1,000,000 worth of other rare gems, including a 34-carat Oriental ruby and a 93-carat star sapphire, as well as pink, canary, green, blue, orange and black diamonds and new fashions in fine diamond rings, clips, earrings, bracelets and necklaces.

South Plains News

(by Mrs. Murray Julian)

SOUTH PLAINS, April 20— Despite the chilly weather and many people absent on Sunday there were 77 in Sunday school at the South Plains Baptist church. Among new faces seen were Mr. and Mrs. Johnson who live near Roy Childress; and Mrs. Vincent and three children, who live at the Carl Daniels' place. Others from distant places were Mrs. Leola McManamus and Carol Reeves, Dorothy White from Dallas, Jean Hovis, Evelyn George from Fort Worth and Mr. and Mrs. Albert Bean and family from near Lockney.

Mr. and Mrs. Herman Thornton and Kay accompanied by his father, Pete Thornton, from Sterley left Saturday morning of last week for several days fishing trip to Colorado. The men fished in a private lake in Fountain, Colorado, near Colorado Springs. They all spent the weekend and until Wednesday morning in Manitou, where Mrs. Pete Thornton lives since she moved up there some time ago. When they came home on Wednesday a snow storm was in progress there.

Mrs. P. M. Smitherman Passes
 Mrs. P. M. Smitherman who has been ill many months, was taken to the hospital in Floydada Wednesday night and she never recovered from this last attack. She passed away on Friday at noon, April 17. She was laid to rest in the Floydada cemetery on Sunday afternoon, April 19. The whole community is saddened by the passing of one of our most loved neighbors, who through all the months of illness never complained. We extend sincere sympathy to all the Smitherman family in their hour of sorrow.

Bud Higginbotham has a severe case of the measles, as has Dennis Deavenport. Allen and Maxine Vanek have been very ill too and required medical aid. Jay Frank Parks is ill and out of school at this time.

Week-end guests at the home of Mr. and Mrs. Sim Reeves and Raymond was Carol Reeves from Dallas. She is teaching this winter at Buckner Orphans Home. She brought guests home with her for the week-end who enjoyed the branding Saturday and horseback riding. The guests were Dorothy White, also from the Buckner Home who is a teacher there, and Jean Hovis and Evelyn George who are students at the Seminary in Fort Worth. They all returned to their studies Sunday afternoon.

Shower for Mrs. Phillip Smitherman
 Mrs. Phillip Smitherman, nee Mildred Bean, was named honoree at a lovely bridal shower given at the home of Mrs. George West on the Silvertown Highway Monday afternoon, April 13, at three o'clock. Hostesses for the occasion were Mesdames George West, Fred Fortenberry, Raymond Upton, Murray Julian, Paul Snodgrass, L. T. Wood, H. L. Marble, Walter Wood Arby Mulder, Lena King, Owen Thornton, I. H. Parks, J. K. West, Frank McClure, John Wilson, Albert Stewart, Lucy Thornton, Bill Beedy, Gus Whitened and J. P. Taylor.

Mrs. West welcomed and registered the guests on their arrival. They were served golden punch and decorated cake squares from the dining table which was laid with a light rose colored cloth of linen. Mrs. Marble and Mrs. Mulder presided at the crystal punch service set amid pink blossoms of sweet William. An attractive arrangement of delicately colored hyacinths graced the buffet and spring flowers, including narcissus, were in vases throughout the rooms where the guests gathered.

The bride was presented a beautiful corsage of gold carnations. The mothers, Mrs. Earnest Smitherman, and Mrs. J. K. Bean, of Silvertown, were given corsages of white carnations.

During the afternoon Mrs. M. M. Julian played soft musical numbers at the piano.

The hostesses gift for the bride was a set of Revere ware, and one of the most treasured gifts the bride received was a lovely blanket from the

under the leadership of Mrs. Dock Jones. The program was the study of "Our Neighbor, Mexico." Mrs. Shelby Calahan led the song service and Mrs. Frank McClure joined as a new member of the organization. Those who took part in the program were Mesdames Dock Jones, H. L. Marble, Frank McClure, W. S. Spearman, Murray Julian, Grigsby Milton and Shelby Calahan. Mesdames Milton and Julian have been elected to fix the nursery. They are starting with coverings for the floor.

Many people from our community attended the wedding Sunday afternoon in Lockney of Miss Jontha Lee Casey and Mr. W. C. Mercer. Little Diane and Beth Calahan, Jimmy Upton and Dale Brown served as flower bearers, and Alton Karr and Donice Casey were candle lighters at the wedding service. It was a very impressive and beautiful ceremony.

Mr. and Mrs. H. L. Marble and June left Friday morning for Coleman, Texas, where they spent a pleasant week-end visiting with a niece and family and other relatives. They returned home late Sunday evening.

Mrs. John Allen and Mrs. Robert Reeves called on Mrs. Murray Julian Saturday evening of this past week while they were visiting in our community.

Mr. and Mrs. West of Silvertown visited in the home of Mr. and Mrs. Frank McClure Monday. In the afternoon the McClures went to Crosbyton to see their daughter Mr. and Mrs. Don McClure and Donna Jean, their granddaughter.

Mr. and Mrs. W. Fred Cox from Alberta, Canada, took P. M. Smitherman with them to visit in Hart Monday afternoon. The Cox family will leave soon for their home in Canada, flying back in the plane which they left in Plainview. They have been here during the illness of her mother, Mrs. P. M. Smitherman.

Mrs. Leola McManamus, who has been visiting the past ten days with her brother Gilbert Bean and family will leave Thursday of this week for her home in Dallas.

Rev. Chas. Joiner returned from a week's stay in Abilene with relatives Saturday evening. He had been going to an ear specialist in Abilene. He is doing fine and was released from medical care Saturday.

Attending the Worker's Conference at the First Baptist church in Plover Tuesday, April 21, were Rev. and Mrs. W. S. Spearman, Rev. Chas. Joiner, and Mr. and Mrs. H. S. Calahan, sr., from Lockney and Mrs. Grigsby Milton. This is an all day meeting with lunch served at noon by the Plover church.

Mrs. Grigsby Milton and Mrs. John Wilson attended the 4-H club meeting which was held in the school house at South Plains Monday afternoon, April 20.

Mr. and Mrs. Bill Beedy are doing a great deal of redecorating at their home east of South Plains. They are building on several rooms, a den to the east and redoing the outside and much of the inside. We are sure it will be beautiful when finished.

Week of Weather Has High and Low

The week of weather in Floyd county has seen both lows and highs, including two mornings of freezing temperature and two afternoons when the thermometer touched 89 degrees.

The lows were registered when a cold front blew in Friday night and hung on Sunday. Saturday morning registered 26 degrees and Sunday 30 degrees. The low hung on for a little more than an hour both mornings.

Yesterday and Tuesday afternoon both were warm enough to interest farmers in getting seed into the ground. Thermometers registered 89 degrees.

Some cotton has been planted.

Late yesterday and last night local showers brought 26-hundredths of an inch of rain. Thunderstorms are today's forecast.

Troy Lee McNeill

(Continued from First Page) organization.

McNeill's early experiences were on the tough side for his first crop demonstrations were hard hit by a hail storm and the second year just before show time his best beef calf died. But he came back, and has been busy accumulating one of the top competitive 4-H records in the state.

He has done well from a financial standpoint but says himself his greatest gains have come from his associations with others, experience gained from demonstrations and seeing and hearing what others were doing. It has all added up to make him a better citizen and created the desire that has sparked his success.

McNeill has this philosophy, "Things worth doing," he says, "are worth doing right and hard work is part of the job."

He is an active worker in the church and is now district recreation leader and sub-district assistant youth leader.

As for the future, he plans to enroll this fall in the agricultural division at Texas Technological college. Former Floyd county agent R. H. Gibson and local leader W. D. Mount have supervised his demonstration and activity program.

VIEWS AND COMMENT

Mr. Eisenhower's notation to the navy boys to wrap the Mayflower up and put it in moth balls, undoubtedly has brought groans, secretly, from the navy men. He says the Mayflower is a symbol of needless luxury. The general is an army man and a landlubber. He even has a sandy land west Texan for a secretary of the navy. While many may applaud the president for "saving \$6 hundred thousand a year" by putting the Mayflower in wraps, it is another arrow in the wind for the graduates of Annapolis that the navy is going to be in eclipse for awhile. A big navy man wouldn't think a bill of the size it takes to maintain the Mayflower amounted to a lot. Not when they know of a lot of money, many, many times more, that is being paid out of the American taxpayer's pockets for things in darkest Africa and elsewhere in global and free-handed fashion.

An interesting man, Wes Izzard, the polished, entertaining newsman and radio reporter, may be spoken of as tops in southwest journalism. For the first time, so far as we know, he has at last gone off the deep end. Way back in early 1952 he fell for Mr. Eisenhower for president. Progressively he has rejoiced as the first Republican in 20 years waded into the job of presidency. Izzard hasn't found anything wrong yet with what his idol has done. Lately he attended a news men's convention in Washington, D. C., where the boys met principally to give the new administration leaders the once over. Mr. Izzard is enthusiastic about every cabinet member, every appointee, even Mr. Benson. Briefing the public on the new cabinet the other day he felt constrained to explain that few of the cabinet members are millionaires. A millionaire, he says, is not a man who has a million dollars as one may have thought through the years. A millionaire is a man whose annual income is a million dollars! Mighty few millionaires in the new cabinet, he adds.

Cussedness of Human nature, for lack of better expression, is why the new cabinet, star-studded as it undoubtedly is, may not get along too good in the roles for which its members have been cast. A man who has concentrated for all his lifetime on the mak-

ing of money has lost the common touch. He performs brilliantly in the realm where he is familiar with the rules. But he blunders like any one else would when he moves into strange activities. Many people think that because a man has been successful in money making that he will also be successful in any other line of endeavor he pushes out into. And he would be, with his natural brilliance, after he learned the ropes. Trouble is he just gets one chance as a public administrator and it is too late after he puts his foot in his mouth. A man with too much money rarely makes the grade in public life. A novice is a novice and does as a novice would do. Rarely, rarely does he become a brilliant performer when he is pushed into the principal role before he learns the rudiments of it.

Weather department report: Cold of the past week-end lacked two degrees of being frigid enough and five hours in length of continuous duration to do you know what we said about the peaches and the wheat. Some damage, of course, but not written off like we told the women folks and the wheat men. Now that the mesquites have begun to put on a coat of green and the cold snap didn't snap hard enough, the chances are 70 to 1 that we missed. Checking back on our calculations we find no error. Must be that the world is slipping on its axis or perhaps the atomic bombs they're exploding in Nevada. You can sure think up things when you're trying to keep from making a flat admission that you missed.

Don't plant now. Our spring admonition not to plant warm weather crops now, still stands. A dry spring like this one is not going to be conducive to the happiness of the operator who has his planter all set and himself eager to go to putting seed in the ground. The earth is too cold. True, an occasional goat head is emerging where the ground has been watered. True, too, a few blue weeds are peeping through the soil, and polk is putting out adventure shoots. But the man with the planter and the woman with the garden will feel better about it if they wait to put anything into the soil that doesn't delight in a cold soil and the wrong kind of weather for cotton and Sudan grass.

DENNIS WILKS IN JUDGING CLASS AT P-P. DAIRY SHOW

Dennis Wilks, son of Mr. and Mrs. W. J. Wilks, who is attending the Eastern New Mexico University at Portales, New Mexico, was a member of the University dairy judging class, who attended the Panhandle-Plains dairy show in Plainview Wednesday of last week. The instructor in agriculture, at the university, W. Newell Page, accompanied the boys.

Mr. and Mrs. Wilks met Dennis in Plainview and had a nice visit with him. They report that Dennis likes the school fine and is doing well.

Smooth Sailing For Canadian River Dam Bill

AUSTIN — West Texas state representatives have high hopes that Senate Bill 126, allowing the construction of the Canadian River Dam project, will now sail through the state legislature without opposition. Last week the \$85,000,000 project made its way through the House conservation and reclamation committee — but only after it was amended by four south plains representatives.

Senate Bill 126 drew fire in its original form from West Texas farmers after it passed the senate. The senators failed to notice that the bill allowed the Canadian River Dam Water Users association to control the underground water in cities along its 12-city route. For example, if the dam didn't come up to par, member cities could have been forced to supply water to the project from their own underground water systems.

This would have meant that one city could have been imposed upon to furnish water on a large scale basis to the project, and thus defeat the purpose of the entire project. Farmers in the area along the Canadian dam route voiced heavy opposition to this part of the bill — explaining that this measure would virtually cause an acute shortage of water in irrigated districts.

Committee Accepts Amendments
Representative Leroy Saul, of Kress, was one of the south plains representatives who opposed the bill in its original form, and with Representatives Reeves, of Matador, Gillham of Brownfield and Osborn of Muleshoe, offered five amendments to the bill — taking away the powers of underground water control from the water pact. Members of the house committee consented to adopt the amendments and passed the bill through its meeting as amended.

"Now we all are satisfied with S. B. 126," Saul pointed out. Our farmers and ranchers certainly realize the need of more water in our area. If the bill had passed as originally set up, farmers in the irrigated region would have been hurt, and the Canadian River Dam Water Users association would have hindered our area's progress instead of being all we hope it to be in helping us."

Saul stated that he and the other West Texas lawmakers, who worked on the amendments, certainly favored the Canadian River Dam Project as amended.

Mr. and Mrs. Clarence Guffee and daughter, Sonja Kay, and Mr. and Mrs. Olin Watson visited relatives in Paradise, Texas, over the weekend and also attended the Ice Capades in Fort Worth on Saturday night. The party returned home late Sunday afternoon.

Ivanhoe Coming To Capada For Four-Day Run

Sir Walter Scott's "Ivanhoe," which has enthralled generations of readers throughout the world is being brought to Capada Drive-In Theatre for four days beginning Sunday, by M-G-M in a magnificent and eye-filling Technicolor production filmed in England with a cast of thousands, headed by Robert Taylor, Elizabeth Taylor, Joan Fontaine, George Sanders and Emyln Williams.

Brought to life with consummate artistry and a breathtaking scope against the medieval pageantry, rich costumes and spectacular settings of the England of 1200 A.D., when knighthood was in flower, here is a story of chivalry and romance, battle and intrigue. It is the story of Richard the Lion-Hearted, England's Warrior King, who is held

captive at the close of the Third Crusade to free the Holy Land and sets all Britain aflame with a struggle for power between Norman and Saxon knights. And it is the drama of his loyal follower, the Saxon knight, Wilfred of Ivanhoe (Robert Taylor), and his efforts to raise the ransom to free the King, against the bitter opposition of the latter's brother, Prince John, who conspires with Norman knights to seize the English throne. Set in these turbulent times, the action follows the adventures of Ivanhoe as he disguises himself as a roving troubadour and matches his wits as well as his strength against that of his Norman enemies. His love for Rowena, the Saxon Queen (Joan Fontaine), and his devotion to the beautiful Rebecca (Elizabeth Taylor) bring his conflict with the forces of Prince John to a tumultuous climax in which Ivanhoe, declared an outlaw, leads England's loyal archers as armies clash in thunderous battle that restores Richard the Lion-Hearted to his rightful throne.

In what is undoubtedly the most spectacular and costly Technicolor production ever to be filmed in England, this engrossing adventure drama of one of the most colorful and virile periods of world history has been brilliantly transposed into pictorial terms under the discerning

direction of Richard Thorpe, with Pandro S. Berman at the production helm. They have taken full advantage of every arresting detail of medieval architecture, costuming, feats of archery, jousts and horsemanship, and such scenes as the storming of the fabulous Norman stronghold of Torquilstone Castle; the colorful tournament at Ashby, in which the masked Ivanhoe meets in turn each of five Norman knights and unhorses each opponent; and the savage battle between Ivanhoe and De Bois-Guilbert (George Sanders), with the former using an axe as his weapon and the latter a chain mace, are among the most thrilling ever shown on a motion picture screen.

As A Farm Woman Thinks

(by Nellie Witt Spikes)

I Did Not Weep — Edgar Guest

"I did not weep to see him dead, because upon his face I saw a smile of glory spread a touch of heavenly grace. And tho' my form he could not see, I fancied that he knew That I was there, and spoke to me the way he used to do. I fancied that I heard him say, who battled long with pain, A miracle occurred to me today and I am well again! I did not cough last night and wake from fever's restless sleep. To wait to see the morning break and hear the wagons creak. And I am well, and I am strong and glad I am today. The burden I have borne so long has now been put away. And standing in that darkened place, the smile of long ago, Which God had left upon his face, told me it was better so."

Some old friends sat in the church with bowed heads as Rev. Charlie Watkins said the last words for Hugh Goggin. The dearest flag in all the world covered the casket where the body lay, still and peaceful in death after almost a life of suffering and pain. For this same flag, Hugh Goggin had gone across the sea to fight that it might fly over a free America. What memories were brought back. Our strong young men, going across the stormy Atlantic. Victory bonds signed up in schoolhouses with the aid of flickering coal oil lamps. tiny flags flying from the radiators of every car one met. long lists of casualties. news about the dreaded gas. the long Bertha gun trained on Paris. the cold wet trenches. barbed wire fortifications. Red Cross centers everywhere even in every little country school house. knitting needles flashing as hearts were heavy girls, even, going to France to drive trucks and ambulances. the Salvation army doughnuts. Hitler and his boches-our doughboys.

This was the life that handsome, kind spoken Hugh Goggin met in his youth and he gave his best. A life of pain followed and I am sure that each one who sat there so quietly as the choir softly sang haunting melody, "As the Life of A Flower," felt humble and grateful that men like their departed friend,

kept us free while we stayed at home to "Keep The Home Fires Burning." So the above poem is quoted for his sisters, Mrs. Bush Travis and Mrs. Inez Goggin Heafner, so that they may find a bit of comfort in the lines. At the Old Emma cemetery he was laid to rest by the side of his parents, and his brother, Neal, and the very earth in this old graveyard of the pioneers seemed hallowed ground to every one that stood on it that afternoon. So I had my flowers of words, red and white as the bars in the flag, blue as the ground of the stars, a wreath to lay at a soldier's last resting place.

Mrs. Temple Ellis and I went over to the Lubbock Hotel to get a look at some four hundred librarians from all over Texas. They milled around, from one book exhibit to another, talking and making friends, and having a good holiday. Flora McNeill and Mrs. Barnard were there with the new librarian from Floydada. They were very happy and excited about their library that will be opened to the public the first of June. And they should be. I found this in a magazine:

"Many people are not aware of the surprising range of services offered by public libraries today. They'll lend you magazines and pamphlets, sheet music and phonograph records, and famed paintings for your home. Want to find out how to make a fruit cake, who won the world series in 1929, and how to plant a rose bush, the best route to El Paso, how to preside at a meeting, what companies manufacture safety shoes, when and how your home town was founded? Chances are your public library can tell you in a few minutes — and is glad to help with the answers to these and other questions, on almost any subject — but whatever its size, every public library offers, free, a priceless store that everyone may use and enjoy — books."

And do not forget to place books in this new library in memory of loved ones who have passed on to the Author of the Book of Life. Everyone who reads this book will be made better by the contact with the love of the living for the beloved dead. Last summer when in Amarillo, Dorothy Nordyke told her husband, Lewis, that she wanted to place the History of Crosby County in the Potter County Library in honor of my nephew, George Hill, who gave his life for his country in Korea. Somehow the sweetness and lovely thought of this, made me almost overcome with joy and pride as I knew that many, many years to come, boys and girls, men and women, will read this story of the settling of the western plains of Texas, and read the name of George Hill, who died to keep it as free as the men and women of early days, found and left it. So see to it that

the shelves are filled with these precious gifts as memorials. Flowers fade and perish, books live on and give comfort and hope, reveal the past, which is so soon gone and otherwise forgotten, entertain, teach, and give hours and hours of information and pleasure.

I have always loved books. My first one was made of starched linen, with colored pictures and alluring black letters mother said were words and things, which I wanted to learn. I had left at my play house, chewed it up, good and proper. I cried, and mother washed it, starched it and ironed it out. Many of the pictures and words were faded out and gone, but it was still my book. Only a few weeks ago, I decided to burn some old books with the backs torn off. Somehow I could not. Each one had been a friend to me in hours I needed company on the farm, when only a horse was the transportation to town and to visit. I put them in a box, but I know that one by one, I will put a gay paper cover on them and slip them in the house somewhere, already over run by books, now.

I do hope the Crosby county will follow Floyd county in this fine project and that Crosbyton, Ralls and Lorenzo will have libraries for the profit and pleasure of the citizens.

It is cold this Saturday morning of April 18. I recall one April 18th when I grew up at Emma, there was a deep coat of snow on the ground when mother called us to get out of bed and look. There never was a snow which gave us so much pleasure, it seems to me now. We ate it by handfuls, packed it down tight in big buckets and put it in a cold dark place, so that we had the good of it several days after it had melted outside.

This morning our grandson, Billy Wheeler, came running over with his over coat on. Now I had not seen him wear this all winter and asked why he had it on after letting it hang up all winter, "Why, grandmother," he explained, "This is the first time I have needed it."

The accident happened when a young man ran a red light, Mrs. Kenady said. The car struck Mrs. Bolin rolling her 25 feet against a curb. She suffered cuts about the face, a broken thumb, and severe bruises.

She is still in the Plainview hospital but is improving. Mrs. Bolin is the widow of a former Floyd county deputy sheriff.

Pole Planter in Action

THIS VERSATILE NEW TELEPHONE TRUCK can dig a hole, pick up a 20-foot pole and plant it in position faster than a man can set a fence post. This is one of many new technical developments that are helping us push telephone lines out into farming areas at a record-breaking pace. In just seven years we have set 256,000 poles in a construction program that has increased the number of Southwestern Bell rural telephones in Texas six times. And this year we hope to extend service to many more families and businesses in rural areas.

PROCLAMATION

By the Mayor of
The City of Floydada

On Sunday, the third day of May, 1953, the United States Junior Chamber of Commerce, through its OPERATION PRAY will be offering individual and collective prayers asking for divine guidance and help for our national leaders in this time of crisis. The Jaycees of Floydada will be part of this great movement. In aid and assistance of such a worthy project, I, Jess Patterson, as Mayor of Floydada, Texas, do hereby proclaim Sunday, May 3, 1953, to all the citizens of Floydada to, each in their own way, offer prayer for the successful leadership of President Eisenhower, the Cabinet, Congress and Judiciary in the affairs of our beloved country and of the entire world for the establishment of lasting peace and international understanding.

JESS PATTERSON,

Mayor of Floydada, Texas

Notary Public Appointments Up Next Month

Secretary of State Howard Carney has announced from Austin that he will reappoint all persons who now hold notary public commissions and that all such persons must qualify by filing an oath and bond with the county clerk of their residence between June 1, 1953, and June 10, 1953. The law specifically required county clerks to approve notary bonds and individuals should not send money or requests for commissions direct to the Secretary of State. All notary matters can only be received by the Secretary of State after the county clerk acts thereon.

Any person who has not heretofore been a notary public should apply to his county clerk between May 1, 1953 and May 23, 1953, if he desires to have this application given prompt attention in the state department, as the rush of reappointing all old notaries may slow up the ordinary process of making new appointments and issuing commissions.

Secretary of State Carney said, "Each person applying for a commission as a notary public must be at least 21 years of age and a resident of the county for which he is appointed; exact names and permanent addresses should be given to the county clerk in applying for a commission, as location of the notary may be necessary long after he has notarized a particular instrument."

Mrs. Donald Thomas and daughter, Mary Kay, of Fort Worth were week-end guests of her mother, Mrs. Pearl Pagan and other relatives. Mrs. Thomas is the former Merle Pagan.

Sidelights From Washington

(by George Mahon)

At this writing the decision has not been made as to whether there will be a price support program on cottonseed this year. The question has been in the debate stage in the Department of Agriculture for weeks. I have been urging that the price of cottonseed be supported. Under the law, a support program is permissible but not mandatory. A ninety per cent of parity support program has already been announced for soybeans, a competitive product.

Under the circumstances, I feel that a support program for cottonseed should be announced, and I think the chances are now fairly good that such a program will be provided. All cotton farmers have a direct interest in the matter. I agree that many complications are involved. A large cotton crop is anticipated and the government already has on hand 437,500 tons of cottonseed oil.

Law on Imported Labor

The senate has not yet taken action on the bill which would continue in operation beyond 1953 the law which provides for the importation of agricultural labor. On April 15, by a vote of 259 to 87, the House voted to continue the measure in its present form for three additional years. The law should be amended, but the members of the House committee on agriculture who sponsored the legislation were afraid to seek a change, fearing that such action might result in defeat of both the amendments and the resolution to continue the program. In a speech in the House, I pointed out that the present program was lopsided in favor of Mexico and called for a more satisfactory administration of the law.

Classing Office Prospects Poor

Some time ago, I joined with members of the Farm Bureau and cotton producers, generally, in urging the establishment of an additional cotton classing office in West Texas. Department of Agriculture officials have now turned down the proposal. On Monday of this week, I appeared before the House subcommittee on agricultural appropriations in an effort to promote the West Texas application. Present prospects, unfortunately, are not good.

Mrs. Hobby Capable Person

Mrs. Oveta Culp Hobby has become the first Texan in President Eisenhower's cabinet. I joined with others in creating the new position which she now occupies. I think she is a very capable person. I first became acquainted with her during World War when she was head of the WACS. At that time, she frequently appeared as a witness before congressional committees. Secretary of the Navy Robert Anderson is from Texas, but he is not a member of the cabinet. The cabinet position is occupied by the secretary of Defense and not by the secretaries of the army, navy and air force.

NEW GIN AT CONE

RALLS — Jean D. Smith is building a new complete 4-90 saw gin, with all steel building at Cone, west of his present gin he has owned and operated for three years.

Mr. Smith has also built four new residences in Cone for his employees.

News of Harmony

(by Mrs. Mather Carr)

HARMONY, April 20 — Mrs. Wesley Carr visited Mrs. John Carr Monday and Tuesday. Mrs. Mather Carr spending Monday night and Tuesday with Mrs. Carr, who has been ill. Mrs. Carr is much improved and is staying alone now.

It is reported there was a nice crowd attended the figurine painting demonstration at the community center Wednesday. This type of painting requires no baking and is very pretty.

Mrs. Everett Miller and Mrs. Wesley Carr made a business trip to Cone Wednesday of last week.

The Negro club, The Black Tops of Harmony, met Wednesday of last week with Rosa D. Nelms in their regular weekly meeting with 11 members present. A guest of the club, Mrs. Carrick Snodgrass, gave a demonstration on preparing salads and Mrs. Mather Carr directed recreation for the club members. Mrs. Snodgrass made an interesting talk about religion, cleanliness, cooking and recreation.

Other members of the Harmony home demonstration club will give demonstrations for this club. A refreshment plate was served at the end of the meeting.

The regular monthly meeting of the community was held Thursday night at 8 o'clock in the center. The new president, Loyce Turner presided. The community has decided to enter the contest for another year. The judges will be here April 29 to judge our community. Of course we hope we win again this year. After the business meeting refreshments were served to a large crowd. Hosts for the meeting were Messrs. and Mesdames Glenn Pool, Donald Pinkner, Walter Hanna, Chioma Williams and probably others.

The majority of the community attended the annual rural electric cooperative meeting Saturday at the Graves gym. There were some members of this community who received gifts at the meeting. They would like to take this means of thanking the cooperative.

Mrs. Rubeen Rutherford of Plainview spent the week-end in the home of her brother and nephew Hal Wright Scott.

Guests in the Mather Carr home Sunday were Messrs. and Mesdames Sim Burrows, of Plainview, Everett Miller, Wesley Carr and sons and Chioma Williams and daughter.

Mr. and Mrs. G. L. Snodgrass spent the week-end in Jericho, guests of Mr. Snodgrass' sister, Mrs. Will Reeves.

Mr. and Mrs. Zant Scott and children visited Rev. and Mrs. Newt Daniels at Lockney. They also visited Rev. Daniels' father and mother who make their home with the Rev. Daniels. Mr. Daniels is bedfast and has been for some time.

Rev. Krebs is conducting a revival meeting at Sterley for Rev. Pickens. Those who attended the services from our community Sunday night were Messrs. and Mesdames M. D. Ramsey, Sherwood Ramsey and children, Marvin Smith and children, Zant Scott and children, Everett Miller, Chioma Williams and Mather Carr and Horace.
