They are expected to hold a session sometime during the progress of the reunion day program, and form a permanent organization.

League Contestants Journey To Capital

ANN DEAKINS

AUSTIN, Texas, May 7 — More than 1,600 high school students are meeting today through Saturday (May 7-9) at the University of Texas to determine state champions in literary, speech, mathematics and many athletic events.

The occasion is the University Interscholastic League's annual state meet. Each competitor is a winner in district and regional competition.

At the same time, the University is holding a huge open house — the All-University Exposition and Power Show — honoring visiting students and friends. The Main University's 53 teaching departments have their facilities on display and counselors available. Many are offering special entertainment and displays.

An open-house highlight will be the 44th annual Power Show 5-11 p.m. Friday (May 8) when more than 100 exhibits will present examples of amazing feats and progress of modern science.

League competition is divided into AA, A and B classifications, according to school enrollments. The

state meet climaxes the planned contests. Over 200,000 high school students participate in the district meets and other thousands contest locally for the right to represent their schools in UIL competition.

Floydada high school and its student body continue to be much in the news. This week, in addition to the cast of characters in the one-act play, which took off yesterday for Austin to compete in the state contest, the school is sending three other champions in literary effort.

Of these Ann Deakins, daughter of Mr. and Mrs. Jack Deakins, and Donald Ray Smith, son of Mr. and Mrs. W. C. Smith, will represent the region in the typing contest.

Leon Wiley, son of Mr. and Mrs. J. R. Wiley, proved that he is sharp in number sense at the regional level and will represent this section of Texas in the state contests.

They leave this week-end for Austin in time to enter the competition Saturday.

Softball Tournament Scheduled By Js'c to Open Monday Night

Seven teams have made definite entry in the Jaycee softball tournament beginning Monday night, which will open the softball season in Floydada officially.

The event will be marked by a bit of ceremony, and Floydada high school band has been asked to play. Mayor J. A. Patterson will throw out the first ball.

A double header game will be played each Monday night, Tuesday night, Thursday night, Friday night in the two weeks.

Entries pledged are from Farmer, Plainview Mitchell Hardware, Matador, Floydada Colored Giants, REA Builders Mart and Center, Edward Wester, secretary said there are still hopes of 10 teams. Lockney and South Plains teams this mid-week, were still undecided.

Admission for adults and children over 12 will be 25 cents.

There will be no entrance fee for the tournament and no prizes, the Jaycees indicate. Accordingly the tournament will be left wide open for all amateurs, including high school athletes to compete.

Playing Field Improved

The Jaycees have just completed extensive work on the playing field at the softball park on the 12th street, where the games will be played. New backstop wire has been stretched for the protection of the on-lookers in addition to a new outfield fence.

The games of the tournament are

expected to develop sufficient interest and evidence enough to tent in the area to organize a league, which the Jaycees have tentatively named the High Plains Softball League. Teams that are in the tournament will be invited to play. Organization of the league is scheduled for next week.

Skeet Thornton has consented to serve as softball commissioner and George Sherrill as vice-commissioner. Edward Wester of the provisional organization, said yesterday.

Decisions on Cotton Acreage for 1953 Important to Texans

(by Bill Rodgers, County Agent Floyd County)

Secretary of Agriculture Benson is asking cotton farmers to produce about 12 to 12 1/2 million bales of cotton in 1953.

The aim of the county agent is to bring facts and situations before the producers and let them make their own decisions.

Texas farmers are averaging about 74 million dollars annually from the sale of cotton and cottonseed. This represents about 36 percent of the total cash receipts for marketing. According to the 1950 census of Agriculture 46 percent of the farming of Agriculture 46 percent of the farmers in Texas produce cotton.

Cotton is not only an important crop to our farmers but it is also important to the general economy of the state, since it must be produced with items purchased from businessmen and it must be ginned, graded, sold, transported, stored and processed before it reaches the final consumer.

Why is Secretary Benson asking for a reduction from the 15 million bale crops of 1951 and 1952?

1. The 15-million bale crops of the last two years have supplied our domestic and export markets and in addition have resulted in carryover from a very low 2 million bales to over 4 million bales.

2. Although our domestic needs for cotton have stabilized at about 9 1/2 million bales, export markets have declined sharply in the last 12 to 18 months so that likely no more than 4 million bales will be exported during the 1952-53 marketing year.

3. These two factors of production and disappearance of cotton have acted to reduce prices by 25 percent or more. It is felt that a smaller 1953 crop will strengthen cotton prices to farmers.

4. A 1953 crop much in excess of 12 1/2 million bales would almost certainly have a further depressing effect on cotton prices and bring on production controls in 1954 and thereafter. Most cotton farmers do not want to see the results of a large 1953 crop.

What Does the Secretary Suggest?

1. It is suggested that cotton farmers as a whole plant less than five

acres for each six planted in 1953. Some farmers will need to reduce more than the average if the acreage reduction is achieved. It is known that because of unfavorable weather and moisture conditions cotton was not planted or a low acreage was planted on some farms in 1952.

2. It is suggested that soil improving crops and feed crops be produced on diverted acreage. Most farmers need to grow soil improving crops. In addition our large numbers of livestock required more feeds and forage than were produced in 1951 and 1952.

Farmers of Floyd county should study the cotton situation thoroughly and decide in their own interest, and in the interest of cotton producing neighbors whether they will decrease the cotton acreage, increase it or leave the acreage devoted to cotton the same as it was in 1952. It is entirely up to you in 1953.

Complaint Alleges Sale of Liquor

A charge of possessing liquor for sale was lodged against J. H. Caruthers, Lockney tourist court and filling station operator, this week in a complaint sworn out by Sheriff Earl Cooper.

The accused man was in jail at Floydada Wednesday morning early pending hearing and bond. He has been convicted on three previous occasions on similar charges.

Caprock Community Art Show Week Announced for May 25-30

The second annual Caprock Community Art show which is set for the week of May 25 through May 30 will be held at the Southwestern Public Service Co. Showrooms. This announcement was made this week by Mrs. E. J. Barker, chairman of the show.

The Community Art Show is an amateur art exhibit and is open to everyone in this plains-caprock area.

There are few rule changes from last year's show, said Mrs. Barker. Each person may enter two pictures in each medium, but all work must have been done since the A-1, 1952, exhibit. All pictures should be framed. The show will be judged and the Floydada Chamber of Commerce will award first, second, and third place ribbons.

Last year's show drew 106 entries from Motley, Crosby, Hale and Floyd counties. Over five hundred people saw the exhibit in a five-day showing.

Carthel Named To Presidency of Farm Bureau

Chester Carthel, of Prairie Chapel, will be the new president of the Floyd county Farm Bureau, succeeding Helmut Quebe, who has served as the head of the farm organization since the death of Ben Quebe last year.

Carthel was elected at a meeting of the directors Saturday night. With him were elected:

Albert Scheele as vice-president, and Harry Morckel secretary-treasurer.

Floyd county farmers will help carry the battle to Washington for better cotton classing on the plains. A resolution adopted at the Saturday night meeting allocated \$40 to be paid the chairman of the legislative committee, Balford Rochelle, who will make a trip to Washington in company with Raymond Aiken.

The new president, Chester Carthel, and E. L. Turner will spend a week at A. & M. college in August at a farmer's institute, where they will spend a week of instructions and study. The county organization will pay \$25 per person up to \$75 for part of the expenses of this trip.

Attending the Saturday night meeting were Helmut Quebe, Harry Hartman, E. L. Turner, Chester Carthel, Albert Scheele, R. C. Mitchell, Walton Wilson, J. N. Richardson, Harry Morckel, R. R. Kellison, Jack McIntosh, Connie O'Brien, and R. J. Buchanan. W. R. Puckett, service agent, served as clerk of the meeting.

Korean Veterans May Organize For Training Monday

Every Korean veteran that is interested in training under the GI bill for organized group instruction in agriculture, is urged to meet in room 113, Floydada court house Monday, May 11 at 9:00 a.m.

N. S. Abbott, coordinator, Floyd county vocational school, is urging veterans who desire this training to meet in order to begin plans for enrolling.

The veteran should be on a farm and have control of it for the year, or have plans for such control before he enters training. Any veteran of non-Korean action that has at least 90 days of total service, and an honorable discharge, since June 27, 1950 may apply for such training.

South Plains News

(by Mrs. M. M. Julian)

SOUTH PLAINS, May 4 — Rev. and Mrs. W. S. Spearman left for Kirklund, Texas after Sunday evening services. They will leave Charlotte with friends while they go to Houston, Texas, for this coming week. They will attend the Southern Baptist Convention held there, and will not be home until the first of next week. On Sunday, Mothers Day, the pulpit at the South Plains church will be filled by Ted Lanham, who is not a stranger to our community. He grew up here and went to grade school. Everyone will want to be on hand to welcome Ted, and hear his sermon. He is starting out on a brilliant career in the ministerial field.

Mr. and Mrs. George Weast wrote from Memphis, Tennessee, where they were visiting and seeing sights that they enjoyed the beautiful country and rain down there. From Tennessee they went into Kentucky where they visited one day with Mac Smitherman, who is stationed at Fort Mammoth, Kentucky.

Mr. and Mrs. H. L. Marble and family went to McCoy community after church on Sunday to have dinner and spend the afternoon with

his sister, Mr. and Mrs. E. M. Jackson and family.

On Saturday afternoon the 4-H club dress revue was held at the Floydada High school auditorium and several girls were entered from South Plains. In the 9-10 age group Sherlene Teeple and LaNita Sue Wilson both scored high with their entries. In the 13 age group Charlyn Brown from Lockney won first place with her dress entry and Donita Milton won second place with a dress she had made. We are very proud of all the wonderful things these girls can do. There were about 55 entries in the contest.

Bob Hartman from Camp Roberts, California, arrived home Thursday for a ten day leave which he will spend with his parents, Mr. and Mrs. Harry Hartman. He will have to be back in camp Sunday, May 10. Dean Stewart also spent the week-end with his parents, Mr. and Mrs. A. L. Stewart, and went back to Camp Hood on Sunday night. The boys have all gained weight and look fine.

Mr. and Mrs. R. E. Young were hosts at dinner on Sunday May 10 to a group of relatives who spent the afternoon visiting in the Young home. Those who enjoyed the dinner and afternoon were Mr. and Mrs. G. C. Pitts, Larry and Stevie from Lubbock, Mr. and Mrs. Seymour Brannon and baby son from Silverton, Mr. and Mrs. Grigsby Milton, Donita and Barbara Sue, and Mr. Young's brother, Lotus Young from San Angelo.

S. Spearman, Rev. Chas. Joiner, Murray Julian, Bryan Karr, Grigsby Milton, Frank McClure, Sim and Raymond Reeves, H. S. Calahan, Jr., and Horace Marble.

Thames' three children are all down with measles, Diane and Cathy Calahan have them, Benny Edmonds and Bobby Jones are ill, and Beth and Jerry Calahan are still confined to their home. Many others are just getting over a bout with measles.

Mrs. Reeves was seated between her mother, Mrs. James Haynes, and Bob's mother, Mrs. Sim Reeves, as she opened her gifts. Her corsage made of baby rattles was presented to her by Mrs. Beedy. The hostesses gift was a lovely high chair.

Seated Tea Observes Fiftieth Anniversary of Extension Work

A seated tea was held Tuesday afternoon by Home Demonstration club members of Floyd county in observance of National Home Demonstration week. The tea was held in the council room of the court house and the program in the District court room. About sixty club members and visitors attended.

Mrs. D. W. Burke, of Sunnyside, Mrs. John Shipley of Starkey, and Mrs. M. J. McNeill of Center, served at the tea table. A cut work cloth over pink covered the table. Pink roses were used for the centerpiece on the serving table and register table.

Mrs. W. D. Nance of Lone Star and Mrs. C. W. Payne of Fairview, registered the guests who were received by the officers of the Council, Mrs. W. R. Daniel, chairman; Mrs. Howard Drysdale, vice-chairman; Mrs. M. J. McNeill, secretary; also Mrs. C. A. Caffee, County T.H.D.A. chairman; and Miss Leila Petty, Floyd County Home Demonstration agent.

Mrs. Thomas Marr of Lockney, chairman of the recreation committee of the Floyd County Home Demonstration council, presided at the program in the court room. "The Eyes of Texas" was sung by the group, led by Mrs. Everett Miller of Harmony.

A candlelighting ceremony in observance of the 50th anniversary of Extension Work, was presented by a representative from each of the sixteen Home Demonstration clubs in the county. When lighted the candles formed the figure "50".

Appearing on the program were Misses Marr; M. J. McNeill, Center; Howard Drysdale, Dougherty; C. W. Payne, Fairview; A. H. Kreis, Friend ship; Everett Miller, Harmony; D. D. Shipley, Homebuilders; B. P. Neff, Lakeview; Hoas Cooper, Lockney; C. L. King, Lone Star; Roy Wilkes, Pleasant Valley; Wilfred Stoerner, Providence; James Jeffress, Sand Hill; L. T. Wood, South Plains; J. W. Day, Jr., Starkey; J. H. Davidson, Sterley; and C. W. Donison, Sunnyside.

Mrs. C. A. Caffee introduced Mrs. B. M. Harris, of Hale county, the guest of honor. Mrs. Harris is president of the Texas Home Demonstration association. Mrs. Harris told of her job as head of the Texas association. Among the meetings she has attended as president was the 50th anniversary celebration of Extension work at Terrell February 26 when she represented the 4 1/2 million Home Demonstration club women in the United States, Alaska, Hawaii, and Porto Rico.

She told the people there that among the things that Home Demonstration Work has given county women was security. Under security she listed the opportunities for continued education, for financial security in knowing how to buy wisely, make money go farther, and to save wisely. Social security was another aspect of the work, for women have learned to take advantage of the opportunities that have come their way and now rural women are recognized as leaders everywhere. Mrs. Harris told of the plans for the state T.H.D.A. meeting at Galveston September 30, October 1-2. Her plans made everyone present want to attend.

Mrs. P. A. Autry of Hale county, district vice-president of the Texas Home Demonstration association was introduced. She expressed her thanks for the cooperation of the women in the district and especially for the help of the Floyd county members at the District T.H.D.A. meeting at Lubbock April 30.

Mrs. W. R. Daniel, council chairman, presented gifts to Mrs. Harris and Mrs. Autry on behalf of the club women in Floyd county. These were woven reed trays made by Mrs. Weldon Smith and Mrs. L. K. Sherman of Pleasant Valley.

Mrs. Marr expressed the appreciation of the group to all committee members who worked on the program. Others not already named were Misses R. H. Tinsley, B. P. Neff, G. Milton, Wilfred Stoerner, J. P. Moss, James Jeffress, and Weldon Smith.

Right Answer \$1 DAY CALLS EATS UP \$10

If you didn't get a telephone call the morning of the first dollar day, and get a chance to answer "This is dollar day" for a dollar, blame it on your letter perfect neighbors who were higher on the list than you.

Manager O. M. Watson, Jr., envisioned 150 telephone calls before he disposed of the retail trades committee's \$10 appropriation at a dollar a shot Monday morning. Choosing at random he had his first several score names on a little list and expected to make another list or two. It was not to be so. In the first five calls three chirped "this is dollar day." And it was all spent in the first 25 name list.

Pretty good interest manifested, Mr. Watson thinks. Out of 1600 names in the book the first 25 in widely scattered areas answered right and quickly.

Jesse K. Reeves Burned to Death In Flames of Home

Fire that destroyed the two-room home of Jesse K. Reeves, on East Tennessee street at 12:30 Wednesday, snuffed out the life of Mr. Reeves.

Answering a fire alarm the fire department found Mr. Reeves' badly burned body in the house. There was no sign of life. Fire Marshal Carl Rogers' report indicates the probability of escaping butane gas causing an explosion that caught the victim unaware. Mr. Reeves was seen standing in the door of his home at 11 o'clock by passing boys.

Funeral services for Jesse K. Reeves, 52, was held on Wednesday afternoon at 4 o'clock in the First Baptist church with Reverend Joe Wilson officiating. Interment was in Floydada cemetery under the direction of the Harmon funeral home.

Palbearers at the service were Roy Lynch, M. J. McNeill, T. L. Perry, Enos Jones, Earl Pierce and L. G. Withers.

Mr. Reeves was born in Mississippi on October 1, 1900, the son of Henry K. Reeves of Plainview, formerly of Floydada.

He was a veteran of World War Two and was a member of the Methodist church. He moved to Floydada about two years ago from Portales, New Mexico, and was making his home with a brother, Lawrence at the east Tennessee street address.

Survivors include his father, H. K. Reeves of Plainview, three sisters Mesdames Thelma Davis of Portales, New Mexico, Irene Richardson of Plainview, and Inez Cannon of Hollywood, California, and seven brothers, Fred, Carl, Harry, Lawrence and Robert, all of Floydada, Grady of Plainview, and John of Portales, New Mexico.

ATTEND ENMU RODEO Mr. and Mrs. W. J. Wilks and daughter Mary attended the Eastern New Mexico University Ag club annual rodeo at Portales, New Mexico, Friday night and Saturday afternoon. Dennis Wilks, a student at the university and son of the Wilks' was a contestant.

Training Ends Tuesday Night With Big Game

Coaches at Floydada high school and their charges have only a few more days to go in their spring football workouts. Tuesday May 12 has been set as the last day of training and on the night of May 12 the returning hopefuls that will make up the 1953 team will take on the seniors in a game on Wester field.

Coach Watson stated that he was well pleased with the practice sessions thus far and except for a series of minor injuries over the past few days everything was running smoothly.

The exes will be a little short handed for the Tuesday night scrimmage but were feeling confident they could take their opponents with ease. Plans were being made to suit out before the week is over to brush up a bit on their timing and get the feel of the suits again.

Probable starters for the exes will be about the same that started for the "Winds" last fall, with Chapman and Stoval at ends, Baxter and Hartman at tackles, Grimes and Reddy at guard, Carmack or Bill Baker at center, Bearden at quarter, Helms and Hartline at half and Clark at full. For the relief chores the exes will have Evans and Cummings, and Carmack may see duty as quarterback in place of center if a hand injury permits.

24 Probable Starters Coach Watson said that he would be able to suit out a squad of about 24 men that for the present are regarded as the A team. No starting lineup was given but a roster of players with positions follows:

At ends — Kent Covington, Bobby Ashton, Jack Womack, Doyle Grundy.

At tackle — Jimmy Dunn, Stanley Vickers, Gary Carthel, Marvin Rucker.

At Guard — Gordon Joiner, Bobby Carmack, Walter Simmons, James Welborn.

At Center — Don Barber, Jackie Henry, Carl Guthrie.

At Fullback — Jackie Jarrett, Keith Marble.

At Halfback — Norman Muncy, Ronnie Upton, Glad Norman, Cloyd Stephens, Laron Fulton, Bill Walker.

At Quarterback — Jerry Bob Harrison, J. E. Waller.

The final whistle will close the football activities at high school for this school year and will be the last time the seniors will don the green and white on the local field.

1953 Whirlwind Schedule September 11 — Crosbyton, there. September 18 — Tulsa, here. September 25 — Lockney, there. October 2 — Paducah, here. October 9 — Ralls, there. October 16 — Slaton, here. May Is Automotive Safety Month

Could THIS Happen To YOU? ONE out of THREE accidents may be blamed to CAR failure rather than DRIVER failure!

You flirt with death if your car hasn't been Safety Checked at every danger point by a skilled technician.

It Costs Less to Drive a Safe Car

Little troubles have a way of growing into big troubles. An inexpensive repair job may save an expensive job later—and more important, it may save someone's life, even your own!

During Automotive Safety Month we're offering six specialized safety services at all these vital points:

- BRAKES (Can you stop before it's too late?) LIGHTS (Can you see clearly? . . . Can the driver facing you see clearly?) STEERING (One bad turn may be your last.) WINDSHIELD WIPERS (In driving rain, your vision is no better than your wipers.) HORNS (Your horn must not fail!) TIRES (Are they as good as they look.)

You can be lulled into a false sense of security by car failures which develop gradually so you aren't aware of them—until it may be too late.

VIEWS AND COMMENT

Whether school teachers can afford to work at the wages it seems are going to prevail until such time as the people of the state (or the people of individual school districts) can make up their minds to pay a considerable tax bill, or whether they will seek other employment remains to be seen. At the moment the legislature is hesitating before the prospect of a staggering raise in taxes, which they assume the people back home won't take complacently, or of doing an injustice to some worthy public servants. Just what will be worked out remains to be seen. An early decision on the gas tax bill by the higher courts would strip the controversy to its bare bones. If the new tax, which is being contested, should prove an unconstitutional one the tax matter would be back where it was three years ago. Should the tax, now being collected and impounded at the rate of a million a month, be declared constitutional, it would afford about one-third of the money which the teachers are asking for. That would help some.

Public is beginning to visualize how much their improved highway through the city is going to add to the appearance of the "front yard" of their community. Assuming the few complaints are justified, and that some things are not exactly as it was hoped by some of the property owners the overall improvement will be marvelous. The fact that almost 100 per cent of more than a hundred property owners get together on a voluntary basis to make the improvement also is a matter of marvel. Perhaps it is even more marvelous than the improvement itself. We had assumed it couldn't be done, but better informed authorities and citizens assumed differently and more correctly. We pat the collective community on the back.

Now if we had South Main and South Wall centers paved, where the dream of boulevard street went with the realization that the bill was to high to maintain, and also where it became apparent finally that room was what was needed—if we could get these done and approximately 100 more blocks within the next 12 months it would be something to make jubilation. Good paving in a community the size of Floydada is not an expense. It is a paying investment.

An old friend used to stay in a continual lather about the state of the nation. "The corporations have about got us," he would say, and then elaborate on how it wouldn't be many years until this and that would transpire. A good many of his "thises and that's" have in fact taken place. Big, impersonal business has come to us in a big way. In fact, big impersonal business, with its origins back yonder in the soils or the bowels of mother earth, operating under the American system, has about out-grown

the country that nurtured it. Now has come that world-wide, cartel — let's divide this melon up—attitude. Straw in the wind the other day. The Texas Railroad Commission and other agencies in the oil states are worried about the large percentage of imported oil used in America. Tankers are running to all points of the compass across the oceans bringing in oil in competition with the home oil. Now, if we had all our oil stored, in the ground say, and none of our economy built on oil production then there would be no import problem. But since we do have the home oil to sell imports can ruin millions of oil land owners, lease holders, oil producers, refiners, and whatnot, including the Texas school system. Well, the commission sought some help from the big importers in solving the import problem, pointing toward reducing imports. One or two of the larger operators took the attitude there was no problem. When you get that big, you're too big.

Report has it that a new oil test is going down in Crosby county, and in a new area where tests have been very few, none so far as we know at all, northwest of Ralls a few miles. Crosby, like Floyd, has been punched full of holes to no avail. Only luck in this county has been in the extreme southwest corner and in the central south, at Allmon and Lakeview. Maybe it is Crosby county's turn to get something besides a duster. Incidentally, the report continues current that a test is being planned for northeast of Floydada in the Center district, a test in which four or five operators are venturing some money. With imported oil running out the ears of the country there is little pressure for new discoveries. Accordingly one takes such reports with a grain of salt, at the same time hoping there is "something to it." Since we went off the deep end about the Lakeview producer and there has not been even so much as an offset to it staked in nearly a year afterwards we wonder if the oil people may have about all they want to say grace over now without hunting anything further.

This generation's young matrons are blooming out as good cooks. For a time during the twenties and thirties it began to appear that cooking would be a lost art by the time 1950 rolled around. The mammas weren't teaching their daughters or something of the kind. Maybe it was the lack of money to spend on daughter's cookery education. The wealth of intriguing foods now being turned out by the womenfolks, mostly the youngish sort, gives proof there has come about a renaissance in the love of evolving a good dish and making it tempting to the taste buds.

During the past two years, approximately one million acres of mesquite in Texas has been sprayed with chemicals. Results have generally been good.

Ralls and Crosbyton each have two candidates listed to graduate in May. At Crosbyton are Helen Marie Berry, with an elementary education major, and Florence Terry Edwards; at Ralls Juanell Gomez Wilmett, elementary education, major, and Donna Marlene Pope, elementary education major.

"Go-togethers"

Newlyweds and the electric freezer-refrigerator combination are perfect go-togethers. The small family finds ample storage space in the freezer compartment of the combination, and gains the economy that the big family finds in the home freezer. Roasts, stewing chickens, ham, and other economy meat cuts can be stored and made into individual meals that are both economical and attractive. Thus you end the usual "cooking for two" expense, which usually means expensive "one time" meat cuts. When there are two, and the marriage is new, it's the freezer-refrigerator for you.

These detergents, probably because the "wetter" water gets through the oil in the duck's feathers — which is the reason a duck is ordinarily water proof and able to float. It stands to reason, Dr. Cox points out, that if these compounds will cut through grease and film, and there is no doubt that some of them will — they also penetrate the natural oils of the skin and cause irritation and discomfort if the condition is neglected.

The health officer's recommendation? Keep some hand lotion with in easy reach and apply it liberally after using detergents for household cleaning or laundry.

service with several leading and Mrs. M. D. Ramsey at the piano. We had a very good service. All are invited to attend these services.

Well as there is a piece in the Hesperian about our community good neighbor contest we will not say much, but we do not want to leave it out entirely. We had a very nice time and as you have heard before we have entered the contest for another year. We are very proud of our community for we do work together trying to have a better community in which to live and bring up our children and for older people as well. People are always welcome to visit our community at any time.

Mr. and Mrs. R. G. Morris who have moved south of the church attended services Wednesday night and Sunday at the chapel. The Morris has two sons. They come from Sterley.

There was another figurine painting at the community center Thursday afternoon. Several attended. These are very pretty figurines and require no baking which makes it much easier and faster to do.

Lake P. Pylant Injuries Fatal

Reverend Lake P. Pylant, 51, religious education teacher at Wayland college, Plainview, was killed April 25 when his four-place Stinson plane crashed near the Amarillo Air base.

Rev. Pylant, a student pilot, left the Hale county air port at 1 o'clock Saturday afternoon for Abilene and departed from Abilene for Plainview about 6 o'clock. The plane was due to be back in Plainview at 7:45 p.m.

At the Amarillo air field, Rev. Pylant made a normal approach to the landing strip but his plane bounced two or three times after it touched the runway and the pilot pulled the craft up. When it had gained one or two hundred feet altitude it spun to the ground. The craft did not burn. The crash crew arrived two or three minutes after the plane fell and removed Rev. Pylant from the craft. He was dead on arrival at the Amarillo Air base hospital.

Rev. Pylant had been taking flying lessons for two or three months and this was his first solo cross country flight.

Funeral service for Rev. Pylant was held April 27 in the College Heights Baptist church, of which he was a member, with Rev. Ralph Reasor pastor, officiating, assisted by Dr. J. W. Marshall, president of Wayland college. Interment was in the Plainview Memorial Park.

Rev. Pylant was well known to many Floydada people, and several attended the last rites in Plainview.

AGRICULTURE

Released by Texas Department of Agriculture

FARM SAFETY MEASURES
Farming is a dangerous job. The risks are physical as well as financial. In the last year of record, about 15,000 U. S. farm residents were killed in agricultural accidents. Another 1,300,000 were injured.

Each farm is a separate sphere of management and operation which involves a wide variety of activities and working conditions. The heavy toll of accidents caused by these different farm tasks wipes out some 17 million man days of labor every year.

Texas farmers may face one of the major accident creating situations this year—labor shortages. When hired help is scarce, the farmer takes on more of the work load. He toils longer hours and becomes tired long before the job is done. As a result, he is tempted to take risky short cuts or postpone needed repairs on machinery and buildings. This sets the stage for crippling accidents.

Farm machinery is the big killer. Careless handling of equipment causes many mishaps but even a careful operator may be hurt if he is running broken or worn machines. A good maintenance program for machinery could do much to keep down farm tragedies.

Another common cause of injuries is farm animals. Some accidents with animals are unavoidable. Still, many result from impatience on the farmer's part or an underestimation of the animal's dangerous traits. An ill-tempered bull not properly confined can easily kill or maim the farmer, worker, or member of the family.

Fires are a greater hazard on the farm than in the city. They cause 3,500 of the 15,000 farm deaths each year—not counting the millions lost in valuable food, domestic animals, clothing, buildings and equipment. These fires occur at the rate of 300 per day and most can be traced to defective heating

As A Farm Woman Thinks

(by Nellie Witt Spikes)

THE UNIVERSAL LANGUAGE

God speaks to us through music:
In dulcet violin;
In symphony, in choir;
His voice is heard within
The bird song in the woodland,
In brook and waterfall,
In fragrant winds that rustle
Through pines, serene and tall.

God speaks to us so clearly
Through music, when a throng
Gathers to offer tribute
And worship Him in song;
In stirring diapacons
From organ pipes, or notes
Of sweet, enraptured voices
From happy children's throats

God speaks to us through music.
If we would but be still
And listen to His message,
Resolved to do His will,
His harmonies eternal,
In every tongue the same,
Would make us all true brothers,
United, in His name!

The other day when all radios around were carrying the forecast of coming high winds and nerves were coming close to the skin, it was quieting to hear one announcer say, "It will be nothing but a West Texas wind, let's listen to some music." And we all know a mother singing to her child, calm him to restful sleep. The power of music. I got over a fear when I heard my father coming whistling to the door in the dark of night. I recall mother singing to us when the dark cloud overhead threw down huge hail stones and lighted the earth with sharp silver blades of lightning and shook the house with claps of thunder. Aunt Mirt sang us the old love songs of that day. The Silver Dagger, Young Charlotia; My Bonny Black Bess; I can hear her sweet voice yet as she charmed us for hours. It seemed that I grew up in a singing world. People sang as they worked, when they went to church, when they stopped a few hours for play and companionship.

This busy day we hear singing but the folks at home do not make it, they only listen most of the time. It may be much better singing but I get homesick for home singing. No, I do not sing as I once did. There was a day when it seemed that bits of songs came from my lips all the day long.

Most of the music in the homes of the past week has been made by the vacuum sweeper, accompanied by the swishing of the dusting rags.

units, flammable roofing materials, overloaded electrical wires and lack of protection from lightning. But the farmer and city dweller share equal risks right in the home. Four thousand farm residents die each year from accidents inside the house. Thus, home safety is a prime starting point in eliminating accidents which rob families of their livelihood.

Now that another season is underway, a little more caution and advance planning may help assure you of being around when the time comes to reap the harvest from seeds you've planted today.

That is after the whistling, shrieking and howling of the winds had died down a bit.

It is the time of year to remember the day the Jones family started to help tame the plains of west Texas. My birthday, May 4, is a family remembering point. That was the very day the long, hard journey was started. And that is why I am sweeping dirt out of my house in this country instead of dodging tornadoes in Kansas, as that was the place Grandpa Jones contemplated going.

The Good Thought for the week comes from the Upper Room for Sunday, May 3, 1953 and is:

"Hezekiah prayed before the Lord." (11 Kings, 19:15)

King Hezekiah was faced with one of the greatest crises in the history of Judah. The king of the powerful Assyrian empire had captured all the fortified cities of Judah. Jerusalem itself was endangered. Receiving an insulting and threatening letter, Hezekiah took it to the temple, "spread it before the Lord," and "prayed, and Jerusalem was saved."

We can profitably follow Hezekiah's example. When some crisis comes, we can "spread it before the Lord," in the privacy of our own home. If we take our difficulty to Him, we shall either find the solution to our problem or the strength and courage to meet the situation which cannot be changed. Only by seeking God's will through prayer and following His will can we find happiness.

In addition if some joy has come to members of our family, let us also "spread it before the Lord," "with thanksgiving and praise."

It is nice to be still these bad days and I fill some of my time with the seed catalogs. One especially intrigues me. It is from the Pearce Seed Company of Morestown, New Jersey. From all over the world, the seeds and plants come. Maybe they are "weeds" in some portion but flowers in the other. I am fascinated as I read. There are not many illustrations, only glowing descriptions. Priprioses, Lily of Peru, Blue Star of Texas, The Golden Asphodel of Bible times. How they attract one. Rock Purple, Paint Brush Flower, Gold of Araby, I see Goldstar, Bleedingheart, The Bluebell Gentian I want them all. Gazania everblooming, I must have. Southern Star, Star of Texas. I put them all down. Flaming Rugs, seed of Blue Spruce, Dew Plant, Golden Genista. I want seed of all these and I add them up. My, how they do run up in price. Maybe I had better cut a few. I read each description carefully, put the same names down. Where in the world would I plant all these? I go outside in the stiff wind and stand, look around, decide I want nothing in this country, knowing fully well

that I will order the seeds and plant them somewhere, hoping for rain and enough water this summer to make them grow and bloom. The gloomiest day we had last week was the one where not even a flower catalog had any interest.

4-Way Proof that Dollar for Dollar you can't beat a Pontiac

Here's how to prove Pontiac value:

First, get behind the wheel and drive it—see how Pontiac puts you out in front in traffic, skims you along the open road with surprising economy; how its big, husky high-compression engine provides power to spare.

Next, take a good long look at its distinctive styling and its luxurious color-matched interiors. Consider, also, Pontiac's reputation for unsurpassed dependability, long-range economy and high resale value.

Finally, compare its low price—so low, in fact, that if you can afford any new car you can afford a Pontiac. Why not come in and see for yourself?

Presenting their arguments to the city Monday night for aid in getting a relaxation in the rules for curbs abutting their property were Rudy Inornston, C. D. Foste, Roy Lynch, Geo. B. McAllister, T. L. Shijman, and Welton B. Winn.

Meanwhile this week curb and gutter work had progressed from the north end of the contract footage on highway 17 past Second street, southward to Houston at the wye on highways 70 and 297, and east on Houston past the QA & P railway tracks.

Resident Engineer Potts said yesterday that if property owners will be patient the several hundred yards of dirt will be moved by crews from adjacent property and street as it is reached. This crew will be followed by others who will finish the approaches to driveways, streets and alleys. Property owners will not be at the job of cleaning up after the contractor's crews.

The meat picture given in the Food and Home Notes put out by the United States Department of Agriculture — Office of Information for April 29th is as follows: This year the average consumer will eat about 70 pounds of beef, but only about 61 pounds of pork, predicts the Bureau of Agriculture Economics, U. S. Dept. of Agriculture. If the prediction proves true it will break the record for this century in rate of beef consumption over pork. By contrast, last year the average consumer ate about 61 pounds of beef and 72 pounds of pork, based on estimates from wholesale carcass weight.

The Bureau states that the total meat picture for 1953 is more beef to eat and less pork, but little change from last year in the total supply of "red meat." It estimates that at least 15 percent more beef will be produced this year than last — or even more if dry weather or other unfavorable conditions should step up marketing. Offsetting the increase in beef will be shorter supplies of pork by about 12 to 15 percent.

Our Mother

THE ONE that doesn't get tired.

THE ONE that stands by when all others forsake.
