Pioneers Celebrating County's Anniversary

Floyd county pioneers are gathering this morning for 25th annual re-union and formal observance of the founding of Floyd county on May 28, 1890.

Among those gathered will be several who were youthful residents of the county on that eventful day 63 years ago, but less than a baker's dozen of those who actively participated in the stirring events which marked the first year of the county's history as an organized unit.

The day will follow the pattern of former years. Time honored custom calls for registrations to begin early. At 9 o'clock the old timers will have begun to move in on the scene and the registration clerks will begin their job.

Weather permitting the whole affair will be held out-of-doors in picnic style, the gathering on the city hall lawn and the dinner for the 50-year class of pioneers at high noon in the American Legion hall.

School Bands To March - Yesterday it was indicated that 54th Air Force band, which last year delighted the big gathering with a concert from 9:45 to 10:45 o'clock and had tentatively accepted an invitation to be back this year, will be unable to participate in the program.

## THE FLOYD COUNTY HESPERIAN

Published by the Hesperian Publishing Co., Inc., at 212 South Main St., Floydada, Texas. HOMER STUBBS, Editor.  
THURSDAY, MAY 28, 1953

tered as second class mail at office at Floydada, Texas, established 1896 by Charles T. under the act of Congress of 1897

### VIEWS AND COMMENT

Every man knows how things should be done, how the country should be run, the economies shaped up, the laws made. In a country where people are trained to think that the government is for the people it is only natural that expressions of opinion should be freely made. Our opinion-expresser is no exception. He knows how it should be done. For instance, as regards big dams and little dams, especially little dams away out on the tributaries where the water falls and collects to make the torrential river after it gathers from little streams for 400 miles. How to finance such a program is always the first problem you hub. Apparently this type of program is barred from consideration by the Interior department and the war department's water engineers. One solution suggested recently was that the state lend its credit to the establishment of dams for domestic water, irrigation, fishing holes and the like in areas where the people would form districts and pool their credit to get such built. Good swimming holes, good fishing places, plenty of water for cities, towns and communities are pronounced handicaps which hamper west Texas towns when they try to sell newcomers from the east on the glories of their country. A good country the easterner may admit but, he wonders, how are you going to do any living where there's no outlet for any of the normal expressions of pleasure-seeking, and no water with which to wash the family car?

We pleasantly note that those gardeners who waited until after the late spring finally arrived did have excellent planting and growing weather last week. Doubtless radishes planted early last week are already up and going, along with lettuce and the like. The Hesperian is a constant symposium of useful knowledge for those who read carefully. The gardeners who go along with nature always find they are right in line with our weather man and the best practices. Those who tried to plant out of season, back there weeks ago in March and April, who battled with the icy cold and the high winds when weather long since had given fair warning there would be no cooperation, had all their time and trouble practically for naught. They worked with the gardens sorter like the old woman did who wasted her time trying to get home too early. The pig she bought was not going to get over the sty. Everything she tried didn't work until enough time had elapsed and she hit on the right combination at last.

This week's puzzle: In the Smith family each daughter has the same number of brothers as she has sisters and each son has twice as many sisters as he has brothers. How many sons and daughters are there in the family?

**Congressman Maritn Dies** thinks America is in peril and he does not mince words. The congressman is the man President Roosevelt sent into political eclipse because he was laying it on straight about the communist infiltration and spying at a time when the president was going to have the Russians turn good boys by his soft talking Stalin. Dies says to expect the Russian government to collapse from within is utter folly. The Russians are used to privation and hunger and they are driven by a missionary zeal unknown in America. On the other hand every segment of the American populace is clamoring for special consideration, seeking a way to side-step the hard facts of our predicament. This, then, is the peril—a merciless enemy, hungry, zealous, with more man for man than we have, opposed to a nation of people who are seeking the easy way out.

We fell out with Mr. Truman, principally, because through his executive orders, he was nullifying the acts of congress. You recall the remark of Congressman George Mahon about the situation when it developed that Mr. Truman was re-shaping the budget adopted by the congress. Mahon said, in effect, it was difficult to see how democratic processes were going to be made to work under circumstances where the executive could spend or withhold at his pleasure funds which had been by the congress appropriated and ear-marked and a tax levied to pay the bill. Last week Secretary of Defense Wilson flatly told the congressman from the 19th district that he planned to do the same kind of thing this year. You can't defend the system of government under which we operate and defend Mr. Wilson's stand at one and the same time. Does not Mr. Wilson understand that the acts of the congress represent the will of the people, who, under the American system, are entitled to make their own mistakes? Apparently his thinking and that of Mr. Truman run parallel.

Washington is full of patriots who have rushed to the capital to save pet projects tentatively set for elimination from the budget for the next fiscal year. These are principally representatives of cities and towns due to fatten greatly at the expense of the taxpayers from such projects as air fields, river dredging, dams, atomic plants and the like. Even Senator Bricker the Ohio statesman, is on the job trying to save a \$1.2 billion atomic enterprise for his state of Ohio. Amusing all of this is no more nor less than another manifestation of the acquisitiveness of human nature, it leaves unanswered the question of how are you going to save and spend at the same time?

LOCKNEY — M. W. Wiley, secretary of the High plains hail prevention association, announces that the association is now in operation in this area.

Drive for co-operating farmers in this area has been going on this week and although more funds are needed, the goal is near enough in sight that plains are to go ahead with the protection for this area, said Mr. Wiley.

It is my firm belief that public lands should be controlled by the various States and developed by private enterprise, so that the federal government will not ultimately achieve a complete stronghold on the entire economy of the Nation.

In the next article I will point out just what your interest is in the Continental Shelf.

Lucky You

by Dick Shaw

Lucky you—you cheated the undertaker with your broken down car

of the Continental Shelf for the following reasons:

(a) The people do not want our Nation ringed by underwater land purely administered by the federal government.

(b) Citizens feel that ownership by the federal government of this rich underwater territory will lead to further over-centralized Washington government.

(c) Separate administrations under separate conservation laws of two belts of land lying off our coast will inevitably lead to waste of our resources.

(d) State police powers and other laws such as the Workmen's Compensation law should apply in this area.

(e) Those who will work these off shore laws will receive "on shore" benefits from Texas — Schools and police protection, for example. We must remember that we are not concerned with the water over these undersea lands, that water is the "High Seas" and can not be claimed by either the State or the Nation. Of course, it can and should be controlled and patrolled for national defense by the federal government.

But the land underneath should belong not only to the federal government but also to the States.

We face great danger from the

powers already entrusted to our national government. One of those powers lies in the absentee ownership of a vast amount of our public lands by Washington.

Right now it is hard to believe, but nonetheless true, that the federal government owns 24% of all the land in our Nation. In Wyoming for example the federal government owns 51% of the entire area of the State under which lies 71% of all the minerals in the State. The Shelf is 1/4 as large as the land area of the United States.

Ownership, control and development by only the federal government would thus give Washington almost 1/4 of all the surface and undersea land of the United States.

Finest example of democracy we know is the process of selecting commencement speakers.

It's wholesome from one standpoint, discouraging from another. This man has achieved distinction in the railroad, life insurance, or airplane manufacturing world. Another was a boyhood chum of a board member. Another has a second cousin living in a nearby city. Rarely are they chosen for their speaking ability. But one and all, they're ready to give advice to the youth of the land.

This one "came up the hard way," so naturally his advice to all youngsters, if they hope to succeed, is "Hit it hard — all the time!" The next one has already had his heart attack from all work and no play, so from the vantage point of fifty-five, he counsels, "Take time for happiness along the way."

This one didn't go to college, so he reminds that, "Education for life doesn't all come from the classroom. This one didn't go to college, either, but regrets it now, so he suggests: "Take a few more years for your formal education. You've got a lifetime for making decisions, and you'll need all the help you can get from the wisdom of the ages."

Now if we could sift all the seniors and put the go-getters in one auditorium; put the lazy boys and girls who need prodding into another; could separate the leaders and the followers into two more groups, then pick a speaker to fit each bunch their advice might be worth more. As it is however, senior classes, like commencement speakers, are made up of all types. So maybe it's a good thing that the democratic freedom of choice applies to listening as well as to speech-making.

In America, even a high school kid knows that if the advice doesn't fit he doesn't have to wear it.

MR. AND MRS. DONALD H. CRAIG

## Home Ceremony Unites Norma June Ross, Donald Craig

Miss Norma June Ross, daughter of Mr. and Mrs. R. C. Ross, was united in marriage to Donald H. Craig, son of Mr. and Mrs. Walter Craig, Floydada, in the home of her parents, Saturday afternoon, May 16, at 3 o'clock.

Reverend Bill Craig, of Waxahachie, a brother of the bridegroom, officiated at the double ring ceremony. Melvin Craig, another brother of the bridegroom, served as best man.

Mrs. Buck Ragsdale, of Baileyboro, sister of the bride, acted as matron of honor, and Mrs. Ita R. Parrish, an aunt of the bride, played the traditional wedding music.

Little Miss Sonja Kay Guffee was candle lighter. The bride, who was given in marriage by her father, wore a full length dress of white net and lace with fitted bodice and long sleeves. Her finger tip veil was held in place with a wreath of white and pink flowers.

For something borrowed, the bride carried a white bible belonging to a friend, Miss Glenda Meek, and for something old she wore a pearl necklace belonging to Mrs. S. A. Guffee. A blue garter furnished the something blue.

Baskets of pink and white gladiolus flanked each side of the archway between the living room and the dining room, forming a background for the ceremony.

The matron of honor chose for the wedding a dress of pink net, and her corsage was of white carnations. Other members of the wedding party wore white carnation corsages or "white carnation boutonnières."

A reception was held following the ceremony, the table being laid with a white cut work cloth, having a centerpiece of pink and white roses flanked by white candles in crystal holders. A crystal punch service was used, where Mrs. Ragsdale ladeled punch.

The two-tiered wedding cake was decorated in white with pink roses, topped by a wedding bell in which stood a tiny bride and groom. Mrs.

## Driving Through Water is Not the Time to Make a "Big Splash"

Although today's automobile has progressed far beyond the point where a severe spring rain will stall the engine, it still is not an amphibious vehicle.

Failure of the engine to bring you through normal flood waters, which might cover highways, can be attributed mostly to water on the ignition system caused by splashing. Today's engine: are better equipped to combat excessive moisture and driving through water, by the use of such things as improved rubber housings on the spark plug terminals.

These pictures show the splash effect when a car "plows" into a seven-inch depth on a flood highway.

At 20 m.p.h., the water shoots high, completely drenching the

underneath part of the car. At 3 m.p.h., the forward motion of the car creates a small wave running ahead of the front bumper, with control of the vehicle greatly improved.

When you encounter an inundated highway, slow your car down and approach with caution. As a safety tip, on driving through flooded areas, remember to try out your brakes at slow speed immediately after reaching dry ground. When wet brakes do not respond to pedal action, hold brake-pedal down moderately with left foot, while right foot feeds enough power to carry car forward and dry out brakes. This action, over a few hundred yards, should restore your brakes to safe driving condition.

They were "Good Old Days" to Grandmother, but it's she lived to such a ripe old age! Cold drafts, a red-hot boiling kettles in her old kitchen caused many backaches and fingers. Scorched pots and stacks of dishes meant extra fun in the dishpan.

In contrast, her modern granddaughter uses electrical to do tedious household chores. She pushes a button or turns to cool or heat the house, cook a meal, wash the laundry, the garbage. Included in her all-electric kitchen is a machine, pioneered by Hotpoint in Grandmother's day, which automatically washes, rinses and dries dishes, glassware, and

### Hail, Windstorm Damage Reported

Saturday afternoon and night light rainfall was recorded in most parts of Floyd county and Saturday night strong winds did some minor damage, particularly in the south part of the county. Scattered hail peppered Floyd county farms, with varying reports on damage done.

At the Efford Parrish home in the Starkey community the wind storm blew a big barn down, had a little hail, but no damage and they received about one fourth inch rain.

### He Is a Friend Of the Wetback

HARLINGEN, — Out in the dusty, tar-soft sunlight in towns like this along the Rio Grande, Frank Ferree has turned himself into a blazing crusade.

His cause is the "wetback" — the Mexican farm worker who had crossed the Rio Grande illegally in search of American wages. More than a half-million Mexican peons slide the border patrol each year, only to find themselves outlaws and outcasts.

"They can't bargain for wages," Ferree declared. "Or for medical care or housing or food. They have to take what they can get. They have no rights in America."

"And The Water Never Dries" The term "wetback" marks a man who has fled Mexico by swimming the river.

"And the water never dries," Ferree said, "at least in his neighbor's mind. But that's pretty far from the whole truth."

In real life, according to Ferree, the Texas farmer finds a source of cheap, steady labor in the "wetback." It's worth his effort to pay boatmen to ferry the illegal Mexicans.

"A man's back hardly ever gets wet in a row boat," Ferree said. For eight years Ferree has made it his business to care for stranded Mexicans who have no work, no food, and no one to help them. A giant of a man in white clothes and a wide-brimmed hat, Ferree has come to be called "the friend of the wetback."

Has Sold Belongings He has turned part of his house into a shelter. And bit by bit he has sold his belongings to pay for the food and medicine he gives to the Mexicans. Bus lines and airplane companies have given him free service in his journeys back and forth across the border.

Although Ferree has made a full time job of his caring for the desperate Mexican families, he is quick to point out that many border-town farmers care well for their frightened, hungry, foreign-tongued help.

"It's the farmer who exploits them who has turned this situation into a roasting problem."

"I've seen families unload from a farmer's truck on a hot morning. They don't have any food. And the kids cry for water."

All they have is the farmer's promise that he's gone to town to get money for their wages. And, of course, he never comes back."

Came From Nebraska Ferree came to Texas from his home state of Nebraska after he had been a mail carrier, telephone lineman, and railroad radio operator.

"I bought 23 acres of land—slight unseem—and decided to settle down," he explained. He was 50 years old, unmarried. It was time for something permanent.

Then the Mexican problem exploded into his life. He watched a group of surveyors finish their work

and leave. And then he saw a group of Mexicans who had been hiding in the mesquite bushes rush to the spot and pick up the remains of a lunch.

"Those were men in America, and they were eating banana peels. Eating garbage," Ferree decided to do something about it.

He works alone, most of the time. Now and then he hires young girls to act as visiting nurses and visit the Mexican families who have been returned across the border without money or food.

Donations Help Articles in the local newspaper about his work, radio broadcasts, the letters he writes, all bring donations. But even that has not been enough. And so he has sold his land until there remains only his house on one acre.

Ferree would like to see a change in our international agreement with Mexico. He is certain that the Mexican is caught in an economic dilemma, and he is as certain that he can solve that problem and not endanger our own country.

It looks like the American southwest is going to have Mexican labor, he predicts. Why must it be "wetback" labor? The answer, he said, is not a wider river. It's more bridges.

Mr. and Mrs. Carl Rodgers returned home Sunday from a ten-day vacation trip to Oklahoma, Arkansas and Missouri. They visited with relatives in Oklahoma and Arkansas while absent from home.

J. T. Perry, who has been ill for the past 10 days and a patient at Pitts hospital for several days, was reported much better Wednesday. He was removed to his home Sunday afternoon.

### Fabric Range For Homemaker Is Broadened

COLLEGE STATION—The homemaker who sews has quite an interesting range of fabrics to select from in the stores these days. According to the clothing specialists for the Texas Agricultural Extension Service, she also has a challenge to learn the newer fibers and fabrics as she has become accustomed to the more familiar ones.

She has learned most of the characteristics of the four natural fibers from which all our fabrics were made for many years -- cotton, wool silk and flax. She has been able to handle the fabrics in sewing and to care for them later with practical results.

With the coming of the man-made fibers like rayon, acetate and nylon, homemakers entered a new field of fabrics with characteristics of their own. This field has grown to include nine different fibers, Orion, Dacron, Dynel, Acrilan, Vicara and Fiberglass. Each of the newer fibers can be made into many different combinations as well as from the single fiber. Yarns from these fibers can also be made in filament or staple form and fabrics can be finished with special treatments to make them useful in many ways.

The first U. S. post office was established in Boston in 1639.

## LIVESTOCK PEST CONTROL

Livestock pests cost the nation an annual loss estimated as over half a billion dollars.

Who bears the brunt of this loss? Everyone does — the farmer and the consumer pay higher prices for necessary goods due to wasted feed, damaged hides, and both lowered quality and reduced output in such essential animal products as meat, milk, egg, wool and leather.

The common fly is a real culprit in this respect. He cuts deeply into beef and milk production. Insects keep pastured animals from grazing adequately when feeding costs are lowest. Cattle grubs do much damage to hides and may also reduce output of beef and milk.

Also high on the list of "profit robbers" are ticks, lice, screwworms, and sheep ticks which take an immense toll in unprotected meat and fibers that should go for food and clothing. Infested animals are "discontented" and cannot produce good quality meat.

Fortunately, most of these losses can be reduced or eliminated. Individual farmers can do much to protect their own livestock but community cooperation can do even more. United action makes for better eradication.

To successfully control insects, farmers and ranchmen must know

what pests attack animals, what insecticides to use, the correct formulas and methods of application.

County agents, entomologists, veterinarians and other specialists can render important service in providing information and leadership to get the more harmful livestock pests in hand. A number of bulletins also are available for research and study.

## People's Forum

To The Floyd County Hesperian:

I notice a heading in The Dallas Morning News, "Democrats For Adlai Join Hands."

This piece goes on to say, "May 17 some 300 Texas Democrats who voted for Adlai Stevenson Sunday formed the Democratic Organizing Committee of Texas and voted to hold a State convention before November 1."

Byron Skelton of Temple was named chairman of the committee, Mrs. Jud Collier, Mumford, vice-chairman, and Creekmore Faith, Austin, secretary-treasurer.

In a shouting speech that brought the spectators to their feet yelling and clapping, Skelton said:

"I charge that the Republican party is in absolute control of the official party machinery in Texas today.

Of course the charge is that U. S. Senator Price Daniel and Governor Allan Shivers have betrayed the Democrats of Texas, and led them into the Republican party.

I notice that Webster gives the definition of a democracy as a "government in which the supreme power is in the hands of the people." And furthermore, up until the last few years the Democratic party has stood for state's rights and local self-government.

Byron Skelton and his bunch are fighting for an empty name, and for a man that stood, not for states rights, or local self-government, but for a government that wants everything to come out of Washington. In his campaign for president he came to Texas, and said that he was for taking our tidelands.

As attorney general, Price Daniel fought for our Tidelands, and refused to compromise, as our U. S. Senator. He has led the fight that passed a bill that gives the tidelands to the states, and in this fight he has won a greater victory, than the value of the tidelands, he has won a victory for democracy, and State's rights, he has won a victory for all of the 48 States. Under the doctrine of "paramount rights" there would be no end to what the federal government could take away from the people.

Price Daniel is a great and fearless Democrat. He has stood and fought for the people, and when Dwight D. Eisenhower came out for Democratic principles, Price Daniel, had the courage and the manhood to support a man that stood for states rights, local self-government, free press, and free speech, rather than vote for a man that does not know the meaning of democracy.

I have heard the assertion made here in Floyd county that no man was going to hold office in Floyd county that had voted for Eisenhower, and that Texas was going to beat Price Daniel and Allan Shivers because they claimed to be Democrats, but supported Eisenhower.

My reply to this was, "that is a same both sides can play."

## Handle With Care

Have you a baby in your home? What a joy . . . and what a problem, too! Of course, your particular problem is those diapers! There they are, and they've got to be done, because your chief aim is the baby's comfort. To make it easier for you, and to get the best results, here are a few rules to follow.

Scheduling is a must in caring for baby, and the diaper duty will fit right in, if you plan it as a daily chore. You'll find this best. Soiled diapers should be immediately dunked in the toilet bowl, holding them by one corner. Then, into a special soaking solution they go, in a 2-gallon enamel pail with a cover. Fill it half full of cold water and 2 tablespoons borax.

To wash them, use HOT water—the hotter the better. After wringing out the soaking solution, wash them in a good, sudsy water and add a half cup of bead-bluing, and a good water conditioner, if necessary. Putting the detergent-base bead-bluing right in the washing water is much better than the old-fashioned way of putting it in the rinse water. There's no chance of over-bluing, and every bit of the soap and detergent is rinsed away. You'll find your washing machine your best friend for laundering baby's things. You need run the machine only 5 minutes if these instructions are followed.

After rinsing, shake them well and dry, then smooth and fold. Never iron. They'll be softer and more comfortable, and why work when you don't have to.

Tires need to be rotated for several reasons—  
(A) — Right rear tire wears twice as fast as the right front.  
(B) — Most all cars wear their front tires a little uneven.  
The rotation of your tires will correct these two problems.  
Much tire trouble on the road can be prevented if your tires are inspected for cuts and bruises.

## Will Not Rebuild on Same Lot, Say The Eubank Couple

Saturday evening about 8 o'clock during the wind and rain storm the home of Mr. and Mrs. W. H. (Dub) Eubank in east Floydada, directly across the Silverton highway, was hit by lightning and destroyed by fire.

Floydada fire department made a run to the scene, but the fire hydrant was a block from the Eubank home across the highway and they were unable to save the home.

Mr. and Mrs. Eubank were at the home of her sister, Mrs. Aldine Williams and Mr. Williams, when the fire broke out. They rushed home to find it completely destroyed.

The lightning hit the kitchen, said Mrs. Eubank. The TV was disconnected, and the lightning did not strike the TV.

The house was covered by insurance and the furniture was about one third covered. A new washer, deep freeze and refrigerator and one bedroom suit were destroyed and all of Mrs. Eubank's clothes.

A living room suit, the TV set and a bedroom suit were saved. Mr. and Mrs. Eubank said they would not rebuild on their lot there as this was the second home to be destroyed by fire at this location.

The home of Mr. and Mrs. A. W. Chowning on the lot was destroyed several years ago by fire. Both Mr. and Mrs. Eubank are employed by the Southwestern Bell Telephone company.

### A THANK YOU NOTE

We wish to express our sincere thanks to everyone who helped us last Saturday night when our home was destroyed by fire.

Especially do we thank the boys, both white and colored, who worked so hard in saving our furniture.

For every kindness, we thank you, Mr. and Mrs. Dub Eubank.

Mr. and Mrs. Bob Read and son, of Silsbee, Texas, are here this week, guests of Mrs. Read's sister, Mrs. L. F. Martin and family and brothers, Billy and J. B. Grundy and families. Mr. Read is joint publisher with his brother of the Silsbee Bee.

what turning under green manure each ton of green manure you are adding 15 pounds of nitrogen. In checking the highest green manure weight of the three clippings made on each, we see that Bennett would be adding 67 pounds of nitrogen per acre. Collis would be adding about 160 pounds of nitrogen.

If this were converted to dollars at the rate it would cost to buy commercial nitrogen, Mr. Collis would have grown \$20.80 worth of nitrogen. Mr. Bennett's crop would figure to be \$8.71 worth of nitrogen.

Nitrogen is only part of the benefit of growing a good soil improving crop such as vetch, Austrian winter peas and sweet clover.

Cover the ground at the time of year these crops are grown is valuable in controlling wind erosion and when snow or rain falls in the winter more use is made of the moisture.

Addition of organic matter to the soil is probably the greatest benefit received from a cover crop. Organic matter helps to prevent soil crusting, holds the soil open, resulting in more efficient use of rainfall and irrigation water, keeps the soil open so air can get in the soil. Air is necessary for normal plant growth.

Soils of this district are very much in need of soil improving crops as is indicated by the response which is received by crops which follow these soil improvers.

Check with some of the farmers who have been using these soil improving crops. Here is a list of men who have used the crops to an advantage: E. L. Thomas, Frank Probasco, Johnnie Miller, Lloyd Collis, W. E. Miller, James Jeffress, Kenneth Probasco, Augrey Holt, Oliver W. Holmes, Truett McCarty, Edd Whitfill, Paul Cooper, Wendell W. Mr. and Mrs. J. R. Tinnin, their daughter, Ginger and son, Johnny with Miss Sammye Copeland, attended a reunion in MacKenzie park Sunday of ex-patients of the polio ward of Plainview hospital, who were patients two years ago in the ward.

Approximately 78 persons were present. Towns represented were Amarillo, Lubbock, Denton, Floydada, Plainview, Kress, Tulla, Pampa, Petersburg, Brownfield, Littlefield and Post.

A wonderful dinner was served at the noon hour and a good time in the afternoon was had, said the Floydada delegation.

Most of the ex-patients were well on the road of recovery, but some were still in wheel chairs.

The group voted to make the reunion an annual affair with the meet to be in MacKenzie park each year.

Monday morning, June 1, at 9 o'clock marks the beginning of vacation bible schools at several of the churches to last two weeks.

Much preparation has been made by the various workers in their churches to make this year's bible schools the best.

The First Methodist church school will open Monday morning with a large corps of workers and officers.

The Calvary Baptist church will not have their vacation school until June 15, when their new building will be near completion.

The Bible Baptist church will not have a vacation school as the congregation is without a pastor at present. They may have a school later in the summer.

The First Christian church will have their first vacation bible school in their new educational building. For the past three years they have been working with the First Methodist church in the vacation bible school.

Mrs. Kinder Farris who is general superintendent expressed thanks to the Methodist church people in behalf of herself and the First Christian church folks for their cooperation in the vacation bible schools of the last three years.

An opening devotional and worship period will be each morning, in the main auditorium. A nursery will be provided for the babies and the ladies of the church will serve refreshments to the kiddies every morning.

There will be four departments with leaders in each department. The beginners will have Mrs. Don Barrow as leader, the primaries will have Mrs. R. C. Henry, jr., the Juniors Mrs. George Van Wickel, and with the Intermediates will be Miss Myrtice Meador.

There will be individual periods in handcraft in each department and Mrs. Billy Brown will be in charge of this craft work.

The recreational period will be in charge of Mrs. James Wester, while Mrs. Edward Wester will be in charge of the song period each morning.

Assistant workers in the school will be Mesdames Glen Jarnagin, Preston Badgett, Bill Darden and Clinton Pyffe.

The summer vacation bible school of the First Baptist church will begin Monday, June 1, and close Wednesday, June 10.

The sessions will be held from 8:30 until 11:30 o'clock each morning, Monday through Friday. There will be a place for every child and every boy and girl in vacation bible school. The ages are from birth through 16 years of age.

A bus will be provided through the courtesy of the T.N.M.&O. bus lines for the bible school boys and girls for the pioneer reunion parade, Thursday, May 28. Boys and girls are urged to meet at the church at 1:30 p.m. and ride in the bus in the parade.

The eight days of vacation bible school will offer the same amount of time and training that a boy or girl receives in 24 Sunday school periods. There will be bible stories, singing, games, handwork, and other interesting things for every one.

The Nazarene Church The vacation bible school begins at the Nazarene church June 1st, 8:30 a.m. An interesting ten day school has been planned closing each day at 11:30 a.m.

Mrs. S. L. Wood is the elected superintendent. Mrs. Bennie Rose is supervisor of the intermediate department.

The contest is judged on the basis of records and visits to the communities. Items considered in naming the winners include almost everything worthwhile that could be done on a community basis for improving life in the community.

youths repudiated their former statements before testimony was started and gave new statements to district attorney Stapleton and county attorney Kenneth Bain. This change in attitude by their witnesses knocked the props out from under the state's case against Carothers and they had no alternative but to move for dismissal of the charges. The case thus was dismissed without going to the jury.

A Lubbock firm of attorneys is representing the station man in his suit against the sheriff.

The sheriff said this week that he not only had a warrant for the arrest of Carothers at the time he made the arrest on May 5, but also that he had a search warrant for the premises of the defendant, now turned plaintiff in the civil action. The records show that Carothers was held overnight and was released the following morning on \$500 bond.

Whether the \$3 check, about which the controversy and charges revolve, will come in for further attention, will depend upon the investigations of the grand jury. It is alleged to have been given on

There's a new drug in the old battle of poultry raiser versus disease. The drug is arsenosobenzene — the first of the arsenoso compounds to be used in the veterinary field. Chemist James T. Smith of Omaha, Nebraska (shown above examining test chicks) developed the drug, which he calls Arzene, after more than five years of laboratory work and testing. Arzene, said Mr. Smith, gives positive protection against cecal coccidiosis without interfering with the normal growth of the birds. The drug will be mixed with poultry feeds. It will be marketed this spring, through George H. Lee Company dealers in 48 states.

**SOUTH PLAINS, May 25.** — Rev. and Mrs. Spearman, Jr., Charlotte and Billy, left on Sunday afternoon after brotherhood meeting to go to Farmersville, Texas, where Rev. Spearman's father lies gravely ill. They are expected home on Wednesday afternoon.

The Daily Vacation Bible school of South Plains Baptist church opens for registration on Saturday morning, May 30, at nine o'clock. The school will open for classes on June 1 and close on Wednesday noon, June 10.

Rain and hail fell in this community on Saturday. Wind of great velocity did some damage to a cotton trailer near the Elmo Reeves farm and sheds lost their roofs there. Rain fell from a quarter inch on the Sanders and McClure farms to three fourths inch on the Bryant Higginbotham farm. Miltons and Stanforth received about one half inch.

A brotherhood of the South Plains First Baptist church was organized on Sunday, May 24. Eleven men joined at the first meeting with Grigsby Milton being elected president and Bryan Karr serving as secretary-treasurer. Many other offices were filled in the organization.

Mrs. Rene Yearly will present her music pupils in a recital on Friday evening at eight thirty, May 29, at the Cedar Hill Baptist church, and everyone is cordially invited to attend this musical. There will be music students presented and other readings and songs. Donita and Barbara Milton, Eulalia Sanders and Eddie Parks are music students from here. Kendis Julian will sing.

## Class of 1941-1953 Passes Another Mile - Stone

On September 1, 1941, a huge class started their long trudge for education in the first grade of Andrews Ward. This year according to a rule set up by the school, children under 5 years could go to school, provided they paid a certain amount monthly, so there were a number of young tots. This was the first grade under the new 12 grade system also. Many faces have changed down the years, but among those graduating from Floydada High school the 26th that were a part of that same 1st grade are the following:

Jerry Oden, Ann Welborn, Ruth Stewart, Alice Latta, Weldon Williams, Brooks Chapman, Gayle Daniels, Bert Grimes, Carell Handley, Floy Jackson, Billy Baker, Valdonna Pierce, Grover Smith, Lyndel Spears, Darlynn Warren, Carolyn McDonald, Fern Patterson, Beverly Thomas, Franklin Stovall, and Myrna Wilson.

Eight years of school parties and squirmishes were enjoyed during those carefree grade school days. The boys' athletics were faithfully followed by the girls, and they had some fine teams. Declamation training was begun and we had quite a few speakers who showed beginning traits of talent.

Boy friends and girl friends enjoyed each others company at the eighth grade party given as a celebration of their entering a new career in high school. We held our graduation exercises at the high school auditorium on May 23, 1949, at 8 o'clock. This was the program listed for the night.

**Commencement Program**  
Processional, Ann Welborn;  
Invocation, Bobby Jones;  
Woods at Night (piano solo), Carolyn McDonald;  
In Retrospect, Honor girl, Myrna Wilson;  
Voices of the Woods, 8th Grade Chorus;  
Our Goal, Honor Boy, James Stanley;

Deep Purple, vocal trio, Barbara Hart, Judith Moss, Joan Porter;  
Diplomas and Certificates, Mr. A. D. Fulz;  
Welcome to High School, Mr. I. T. Graves.

We had built up high school in our minds for a long time, so we really hit the school by storm. Our school year was a big success that year, with our football and basketball teams giving the fans a great time. Shirley Teague and Clint Turner were our chosen favorites that year.

We were promoted in statistical standing and no longer lowly freshmen as the school term rolled around the following fall, for we were sophomores. Fern and Adrain were our favorites that year, while Ann Welborn was selected as our queen. Dane Clark was elected to lead us through the year as president, and Adrain Helms vice-president. Fern Patterson secretary, Ann Welborn treasurer.

In just a short while we discovered we were juniors. Perhaps the most eventful occasion of this entire year was the banquet we gave the Seniors and if I may say so, since I was a Junior, it was a very lovely banquet, having May Day as the theme. The faculty chaperoned at our prom later, which indeed made it an occasion to be treasured always.

Now comes the most important

### SENIOR THUMBNAIL SKETCHES

and last of our years in dear F.H.S. Not only because it is freshest in our minds, but also because this year we were the oldest and regarded as the highest group in school. Our football team came through in the mighty way we always knew they would, even when we followed their conquests back in the seventh grade. This year they established their fame as the strongest opponents for miles around, but we could smile and remember we set these goals for them back in grade school when we yelled just as hard and long as we did this year and predicted what great opposition they would be "our senior year." We were very glad to see how well received and praised they were by everyone, but we were even prouder that we could say "We could have told you how grand they were all along."

There was also the long remembered Twirl Week, when the boys were sweeter and the girls broker than at any other time in the history of our class. Of course one of the highlights this year was the Jr. Sr. banquet having us as the guests this time - a very beautiful Chinese banquet too.

Jean Porter and Grover Smith were nominated our favorite people, and Brooks Chapman was elected as president of our class. Kerwin Baxter, Gladys Parkey, Cynthia Whitfill, and Clint Turner were also given offices in our class.

Our class sponsors, Mrs. Ray Johnson and Bob Copeland worked very hard with our group all year in money raising campaigns; our efforts were finally realized and we, the senior class, took a delightful trip to the Heart O' The Hills Inn at Kerrville. While there everyone had a wonderful time at the grand dances, swimming, "Playing Pool," and just having a good time with everyone. This breathless whirl we have had lately will always be representative to us of graduation.

The round of parties and picnics, invitations, many, many lovely gifts, thank you's, and end of school preparations will always bring a twinge of nostalgia as we remember high school.

The wonderful times with our friends and classmates will become in later years our most precious memories. Even though we have loved high school gaiety to the utmost and have lived times never to be forgotten, we the seniors of '53 have reached a milestone in our lives. May this training and experience help us to face disappointment and success in our bright and fast-approaching future.

# THE WHIRL

Senior and Final Edition for the School year 1952-53, published by pupils of Floydada High School; This is Volume 1, No. 34, for which space is provided by The Hesperian to tell the story of the graduating class in more complete detail than was possible with the usual facilities available at high school. Carolyn McDonald is editor-in-chief.

## Class of 1941-1953 Passes Another Mile - Stone

On September 1, 1941, a huge class started their long trudge for education in the first grade of Andrews Ward. This year according to a rule set up by the school, children under 5 years could go to school, provided they paid a certain amount monthly, so there were a number of young tots. This was the first grade under the new 12 grade system also. Many faces have changed down the years, but among those graduating from Floydada High school the 26th that were a part of that same 1st grade are the following:

Jerry Oden, Ann Welborn, Ruth Stewart, Alice Latta, Weldon Williams, Brooks Chapman, Gayle Daniel, Bert Grimes, Carrell Handley, Floy Jackson, Billy Baker, Valdomina Pierce, Grover Smith, Lyndel Spears, Darrynn Warren, Carolyn McDonald, Fern Patterson, Beverly Thomas, Franklin Stovall, and Myrna Wilson.

Eight years of school parties and squirmishes were enjoyed during those carefree grade school days. The boys' athletics were faithfully followed by the girls, and they had some fine teams. Declamation training was begun and we had quite a few speakers who showed beginning traits of talent.

Boy friends and girl friends enjoyed each others company at the eighth grade party given as a celebration of their entering a new career in high school. We held our graduation exercises at the high school auditorium on May 23, 1949, at 8 o'clock. This was the program listed for the night.

Welcome to High School, Mr. I. T. Graves.  
We had built up high school in our minds for a long time, so we really hit the school by storm. Our school year was a big success that year, with our football and basketball teams giving the fans a great time. Shirley Teague and Clint Turner were our chosen favorites that year.

We were promoted in statistical standing and no longer lowly freshmen as the school term rolled around the following fall, for we were sophomores. Fern and Adrain were our favorites that year, while Ann Welborn was selected as our queen. Dane Clark was elected to lead us through the year as president, and Adrain Helms vice-president. Fern Patterson secretary, Ann Welborn treasurer.  
In just a short while we discovered we were juniors. Perhaps the most eventful occasion of this entire year was the banquet we gave the Seniors and if I may say so, since I was a Junior, it was a very lovely banquet, having May Day as the theme. The faculty chaperoned at our prom later, which indeed made it an occasion to be treasured always.  
Now comes the most important

and last of our years in dear F.H.S. Not only because it's freshest in our minds, but also because this year we were the oldest and regarded as the highest group in school. Our football team came through in the mighty way we always knew they would, even when we followed their conquests back in the seventh grade. This year they established their fame as the strongest opponents for miles around, but we could smile and remember we set these goals for them back in grade school when we yelled just as hard and long as we did this year and predicted what great opposition they would be "our senior year." We were very glad to see how well received and praised they were by everyone, but we were even prouder that we could say "We could have told you how grand they were all along."

There was also the long remembered Twirp Week, when the boys were sweeter and the girls broker than at any other time in the history of our class. Of course one of the highlights this year was the Jr. Sr. banquet having us as the guests this time — a very beautiful Chinese banquet too.

Jean Porter and Grover Smith were nominated our favorite people, and Brooks Chapman was elected as president of our class. Kerwin Baxter, Gladys Parkey, Cynthia Whitfill, and Clint Turner were also given offices in our class.  
Our class sponsors, Mrs. Ray Johnson and Bob Copeland worked very hard with our group all year in money raising campaigns; our efforts were finally realized and we, the senior class, took a delightful trip to the Heart O' The Hills Inn at Kerrville. While there everyone had a wonderful time at the grand dances, swimming, "Playing Pool," and just having a good time with everyone. This breathless whirl we have had lately will always be representative to us of graduation.

The round of parties and picnics, invitations, many, many lovely gifts, thank you's, and end of school preparations will always bring a twinge of nostalgia as we remember high school.  
The wonderful times with our friends and classmates will become in later years our most precious memories. Even though we have loved high school gaiety to the utmost and have lived times never to be forgotten, we the seniors of '53 have reached a milestone in our lives. May this training and experience help us to face disappointment and success in our bright and fast-approaching future.

## Riches of Class Are Bequeathed To On-Comers

Before we, the Seniors of 1953

## 1963 Re-Union Reveals Class Has the 'Class'

On May 26, 1963, Mr. and Mrs. Scott Paulkenberry were hosts to the class of '53 at the resort they recently purchased, The Heart O' The Hills Inn, near Kerrville. Most of you will remember Mrs. Faulkenberry as the former Winona Hatley.

As I arrived, I noticed that the crowd had gathered at the swimming pool where Glynis Sparks was demonstrating the new strokes she used in her recent swim of the English channel. Her trainer, Zach Cummings, last year's back stroke champion, said he enjoyed his work with Glynis. Could this be love??

As we approached the lodge to go to our rooms, I met Mr. and Mrs. Roy Teague checking in. They have just returned from Washington, D. C. where they saw Jerry Oden receive the Congressional Medal of Honor for his bravery on the field of battle in the last world war. Shirley and Roy are raising a football team; the backfield is already complete.

I was quite surprised to see my roommate, Jo Day, ambassador to Slabbonia. You may read about her work in the comic strip, Lil' Abner. While I was dressing for dinner and talking to Jo, I was interrupted by a caller, Fern Patterson, my life long friend. Fern is the first woman warden of Sing Sing prison. She took the job to be near her husband.

"Ever see a flaker pie crust?" asked the guy sitting next to me as we were eating our dessert. The one asking the question was none other than Charles "Pie Crust" Hartman, maker of the world's finest pastries and delicacies.

**Frank 'Sinatra' Stovall Sings**  
Entertainment for the night consisted of songs by Frank 'Sinatra' Stovall. He is the latest rage of the bobby soxers with his latest hit song, "Hotchy-Hotchy." Grover Smith and Bert Grimes assisted in the entertainment with a comedy act. They have taken Dean Martin and Jerry Lewis' place in the entertainment world. Donna Smith, nee Donna Pierce, gave a fine exhibition of the native dances of Hawaii. Donna is now living with her husband in Hawaii.

After the evening's entertainment, the class journeyed over to the pavillion for a dance. The music was furnished by Roger Sanders and his new dance band. He had just employed Ima Jean Noland as his featured vocalist. They will open in the Catillon club in Houston owned by Lonnie Jarrett next week. About half way through the dance we stopped and Jean Owens and her husband, who is a matador in Mexico City, gave several perfectional performances to a very appreciative audience.

Since our youth is fast fading, we

all went to bed early.

Bright and early the next morning Joe Richard Noland, famous tennis star, was challenging his old friend, Curtis Meredith, who is a dentist at Cone, Texas, to a game of horse shoes. When the breakfast bell rang, everyone hurried into the dining room and to our surprise Joe Hopper was serving as head waiter. Joe married Shirley Reeves and has a good job as head waiter in the coffee shop of the Statler hotel in Washington D. C. Rev. Glen Wood, pastor of the First Baptist church of South Plains, Texas, led in the morning prayer. He proudly presented one of his most faithful Sunday school teachers, Miss Floy Jackson.

**Tight Rope Walkers**  
The morning was spent renewing friendships. Alice Latta and Lyndell Spears told some very exciting tales about their professions. They had a tight rope act over Niagara Falls. They reported that they saw Myrna Wilson last week on her annual honeymoon. During the winter she spends her new found freedom in Reno.

Speaking of Niagara Falls, I heard that Los Lingus Falls has become the Niagara Falls of Texas. Weldon Williamson and Carell Hardsley are joint owners. I overheard them say that Aurie Belle Eubanks and her husband were among their first visitors. Aurie Belle and her husband travel quite a lot I hear. He is connected with the Southern Assemblies, with a knife throwing act.

A crowd was gathering on the lawn to watch Barbara Hart and Ruth Stewart, lady wrestlers, demonstrate a few of their new holds. Barbara and Ruth will wrestle in Madison Square Garden for the championship. These gals are great wrestlers!

The crowd was quite surprised when Mr. and Mrs. Ray Cook, nee Beverly Thomas, came flying down in their new jet. Their first flight to the moon is scheduled for next week. Bev and Ray have added tremendously to the field of science. I believe C. B. Capshaw will assist Ray in piloting the ship. Speaking of the science field, Glen Parkey has just perfected a new space suit. This suit will enable one to fly and reach his destination faster.

Mid-morning refreshments were served by Robert Day. He owns a chain of snow cone stands throughout Texas. He is making pretty good money I hear.

**A New Face in Black Hills**  
If you have been up to the Black Hills of South Dakota you probably saw a brilliant young artist carving another face in the mountain. This artist is none other than our own Dane Clark. He is carving a picture of James Stanley, famed manager. He seems to have managed nearly everything now. Anything from ladies dress shops, and football teams to TV shows. Incidentally he has been featuring that famous song and dance team, Pratt and Pierce. Yes, A. C. and Dorothy have made quite a hit.

I wonder over where Kerwin Baxter and Jackie Alexander were talking. Kerwin poses for the before picture for Charles Atlas Muscle Company, now owned by the world's biggest muscle man, Jackie Alexander who poses as after. Kerwin told me that Dub Hartline is the owner of the famous Greyhound racing team. Bill Baker manages the dogs. They are both bachelors and live in Raton, New Mexico.

At lunch we were surprised to see

Ruth Wood and Glenda Meek passing out candidate cards and propaganda in behalf of their candidates, Truman and Milton Dunavant, who are running for president of the United States in next election. Ruth is campaigning for Truman and Glenda for Milton. I learned from Ruth that Cecilia Langley is now teaching Einstein some of his new theories. I also heard that Cynthia Whitfill was on her way to Alaska. It seems she heard there were fifty men to every woman and she thought she might make a catch.

**Fortune Goes to Stray Cats**  
I notice that Wanda Fox hadn't been taking part in many activities. She has been quite ill over the loss of a fortune that was to be left her by a rich uncle. It seems at the last minute her uncle changed the will and left his fortune to stray cats. Who wouldn't get sick after a deal like that? And by the way, what would stray cats do with a fortune?

Ray Nell Irby is still wasting her days trying to win the favor of Connie Bearden, the world pool champ, who hasn't left the pool hall since he arrived. He spent the afternoon teaching Melvin McPeak, famed designer, some new pointers. Melvin just recently designed a house for Loydean Sims and her husband. They are sponsors of a joint boy and girl Scout organization.

While talking to fortune teller Millie Carmack, she told me that she revealed a bright future for June-bridge-to-be Gladys Parkey, last week. Glad has served for eight years as secretary to Adrain Helms. After eight years together they are finally getting married. Abe owns the Mighty Whitey Dairy Factory in Dallas. Millie also brought some news from India, where she just returned from her vacation. She says Judy Moss is very contented living in the jungles with the monkeys.

About the most surprising news was that of Virgil Boothe and Lawrence Burke. They are now teaching English IV in F.H.S. who would ever think they would make English Teachers?

Another surprise was that Terry Julian, who has given up charming the girls, has taken up snake charming as a profession. Seems to be quite successful.

**Doc Treats the Horse**  
While talking to Charlene McCormick, bronc rider in an all girl rodeo, we heard someone screaming, "Is there a doctor among us? Some one has fallen off a cliff on a horse." Brooks Chapman immediately jumped up and ran to the scene of the accident. I learned later that horse and boy were doing fine. Dr. Chapman did wonders for the horse but it seems he just didn't have the right medicine for the boy. Brooks is a horse doctor. The boy was Bill Carmack. I thought he would always be a faithful dairyman but now he is raising goats.

After a good supper the entertainment of the night was begun by a senior of '53, Coach Richard Sanders. Richard has a flea racing team which has won many honors. He brought his trick flea, Elfonso, for his part of entertainment.

Several of the class of '53 have reached stardom in Hollywood. Among these are Darlynn Warren and Clint Turner, the new Ma and Pa Kettle. They gave several previews of their latest pictures. Jean Porter, also a hollywood star, appeared on the program. She can be seen in her latest musical, "Bert, Wait For Me." Brings back memories of the senior trip, doesn't it? You remember joke

No. 39?

**Couldn't Make the Re-Union**  
Ann Welborn is advertising for Ringling Bros. circus. She couldn't come to the reunion because of her job. She is now standing on her head on the top of the Empire State building doing various things like playing pianos, drawing maps, and typing news articles for the New York Times. She has been there almost three months now.

I read in the New York Times that Joanne Huckabee is running a Lonely Hearts club. She is now trying to patch up the marriage of Bobbie Stephens and Troy McNeill. Bobbie and Troy live in New York. Troy is employed as a taxi cab driver.

A telegram was read to the group from Gayle Daniels, police woman in Chicago, that she was sorry she had to miss everything but sent her regards.

The following morning everyone packed and left. It had been a joyous visit and reunion. Scott and Winona were very gracious hosts and had planned this reunion to perfection.

I guess everyone has gone their various way, some of whom we'll never meet again. I, too, went back to my old job as columnist for the Quitaque Post in Quitaque, Texas.

I wonder what we'll be in 1973?  
Your Editor,  
Carolyn McDonald

## Grimes, Welborn Ideal Mr., Miss

Bert Grimes and Ann Welborn will share the honor Mr. of and Miss F.H.S. Ideal this year. Checking over the different Ideals boys and girls in the Whirl each week, they seem to have the most votes.

Holding second position, a three way tie for ideal boy, Brooks Chapman, Dane Clark, and Grover Smith, and Jeanie Hines as 2nd place Ideal Girl. Jackie Jarrett holds boy's third place and Betty Blum, Ann Deakins, and Dot Holmes tie for girls third place.

This survey does not include the class issues.

## The Ideal Boy

The F.H.S. Ideal Boy would have the following qualifications: He would have the hair of James Welborn, the eyes of Don Barber, Johnney West, or Bill Fulton, a nose like Norman Muncy's, the teeth of Don Barber, and the ears of Jackie Jarrett. His mouth would be like Larry Glassmoyer's or Jackie Henry's with a smile like Bill Fulton's. His hands would be like either Dub Hartline's or Frank Stovall's, his feet like those of Bobby Carmack or Max Crawford, and his complexion like Jackie Henry's. He would be able to sing like Dale Smith. He would have Jimmy Dunn's height and Bert Grimes' physique. His neatness would be like Brooks Chapman's and he would dress like Dane Clark. His athletic ability would be like Abe Helms, his enthusiasm like Grover Smith's, and his manners like Dane Clark. He would be as cooperative as Grover Smith, as ambitious as Bert Grimes, and as friendly as Ronnie Upton. His personality would be as that of Bert Grimes', and Red Hartman's.

Say, who wouldn't want an Ideal Boy like that ????

## The Ideal Girl

The beautiful Ideal Girl of F.H.S. has Jean Owen's hair, Jeanie Hine's eyes, Jo Day's or Norma Self's nose, and ears like Carolyn Tye or Myrna Wilson. With a complexion like Gladys Parkey's, and a mouth like Beuna Holme's or Ann Deakin's, she must have a smile like Dot Holmes's and teeth like Fern Patterson's. Her hands would be like Betty Martin's and her feet like Carolyn Tye's. She would have the figure of Jeanie Hines, and the height of Donna Pierce. Our local girl would

dress and be as neat as Ann Deakins. With the enthusiasm of Bev Thomas and Carolyn McDonald, and the ambition of Cynthia Whitfill, she would be as athletic as Dot Holmes and as cooperative as Carolyn McDonald. Miss F.H.S. Ideal is as friendly as Ann Welborn, as mannerly as Ann Deakins, Betty Blum, and Pat Spears and has Barbara Perry's personality. Wow! What a gal!!!!

## Senior Thoughts

For us, the Seniors of '53, this is

the end; the end of a full twelve years. We have had of laughter and crying. Now we must go out into the world and make a place for ourselves. We will never forget to us. We may think a Senior's life there's a note of sadness. Each thing we do will be for us. We've learned to do these four years. It's the best place on earth. You (See The Whirl, Next

# WHIRL LEE TO LEOLA

Floydada, Texas  
May 24, 1953

Dearest Leola,  
Well, this is my last letter to you this year. It's been so much fun snooping around and reporting all the dirt about the little kiddies here in F.H.S. I'll have to leave my position to some lower classman whom I am sure can do a much better job than I have.  
This week we'll get a blow by blow description of the Senior trip, and as it is my duty to report all the gossip, here goes!  
From what I hear the "pool table" was the girls main rival during the whole trip. Maybe we'll have a "pool hall" in Floydada before long since it was such a fascinating game. If you could part the smoke, Kerwin and G. B. could usually be seen at the shuffle-board.  
The dance on Saturday night (and Sunday morning) seemed to be the highlight of the trip, and by the way, if you hear "No. 19" yelled out in the upper hall, and all the Seniors go into convulsions laughing, if you look at Carolyn Mc. who will probably have her head in her locker, you'll know the joke was on her.  
Gladys and Brooks sure seemed to enjoy each others company on the bus! Really, though, Barbara you should be proud of him for his excellent conduct.  
As for Grover — he acted like all "steady going" boys should. Just ask anybody. Second thought, maybe you shouldnt!  
Naturally Bev and Bill and Rainy and Connie were together, usually at mealtime, unless they stayed in the "pool room."  
Scott seemed to have inherited a blanket when he came home. One with holes in it? He was really innocent though.  
Jeanie and Frank sure had a good time on the trip too, and needless to say so did Jean and Bert, Ann and Abe, and Red and Jo.  
Hear Beverly got a record player for graduation from Ray.  
Gracious me — ain't love grand? Who is the Melvin we hear so much about from Glenda here lately? From Silverton, no doubt.  
Donna has a flashy new diamond too, and a sailor, too, it seems. I call that luck!  
If you have noticed a bright twinkle in Fern's eye maybe Troy being home could have something to do she?? Her ideal boy must be sweet, understanding, always friendly, have a good sense of humor, and be neat. He has mischievous brown eyes, and pretty, wavy hair. Incidentally, if you will look on her left hand; she has found him!!  
This young snooper is June Payne and I want to congratulate her on the excellent work she has put out for the paper, even though it was gossip. She has done an invigorating article, if you will pardon that word, and I am quite sure everyone has enjoyed going to school with her. Good luck for all time and I also wish you the best of everything in your future married life. June, you have been a grand person to know.

with this.  
Bobbie Joy and Frank sure weren't wasting any time Sunday evening.  
Carolyn and Doyle have been seen together quite a bit lately. I believe I saw them at the Senior Prom together. Guess Reese lost out, but that sure was a nice birthday present he gave her.  
For a report on early breakfasts just ask any senior how he likes to eat at 3:30. Be prepared for a nice strong answer.  
My! What happened last Friday? Looked like about three hundred cowhands coming in off the range, all carrying fancy shootin' irons, and all the other trimmings. Western Day no doubt.  
Since there is a woman shortage on in the senior class the girls didn't have any trouble getting a partner to march with. They got the white caps and gowns too, I see. Lucky.  
Judy Moss sure is wearing a pretty new watch. My, boy friends must be nice to have around.  
Well, this about ends my letter for this week, and this year too. I've enjoyed writing each week, and thanks a million kids, for keeping my can filled and for letting me in on the top secrets. It's been gobs of fun, and I hope next years "see-hear, and tell-it-all" will enjoy writing the gossip column as much as I have.  
Sincerely,  
Lee  
(June Payne)

## Class Week-End Annual Trip Is To Kerrville

On Thursday night, April 30 at 10:30, the Senior Class of 1953 left Floydada for Kerrville, Texas and the Heart 'O the Hills Inn. The trip down was very damp because it seemed as if all the seniors (and some of the sponsors) had one or more water guns apiece. We stopped a few times to refill water guns and to get drinks, etc. Later we ate breakfast at about 3:30 in the morning in San Angelo. It was a little after 7:00 when we got to the Heart 'O The Hills Inn.  
As soon as we had checked in and unpacked, some of us went in swimming at 7:45. Others headed for the play room and the pool table. Anytime during the day or night one could find a good game of pool going. The other seniors played croquet, ping pong, swam, went boat riding, hiked, played horse shoes, shuffleboard, etc.  
After about four and one half hours, (which seemed like ten) dinner was served. The lunch was good, but there was not quite enough of it; so after lunch, some headed for the little store down the road a piece where one could buy fritoes, olives, potato chips, etc., to tide him over

until supper.  
Some went horseback riding that evening and others slept. The pool hall gang (Dub Hartine, Bill Baker, Reg Stanley, Melvin McPeak, Connie Bearden, and G. B. Capshaw) were behind the "8" ball, as usual. Carell Handley and Weldon Williamson were taking anybody in shuffleboard.  
**Turning In Time at 12**  
After supper, when we had steak, potatoes, beets, bread, salad, milk, and ice cream, some couples danced in the play room while others chased lightning bugs or played croquet or other games. The turning in time was set for 12:00, and most of us went to bed a little ahead of time. Of course, the Pool Hall Gang stayed up until they had to go to their rooms.  
Next morning nearly everyone was up for breakfast at 7:30 (except Lyndel, Jackie, Carolyn, Glad, Fern and Jean) and ate a good breakfast of scrambled eggs, bacon, pancakes, with syrup and butter, and coffee. Then each person started doing what he wanted to do. One could hear sounds of "Hold that pose," "Smile!" "Look at the birdie," and "Slick" as film after film was taken. Some of the boys went fishing and caught a few perch, but the fish were usually too small to keep. Troy went in swimming with his clothes on after the boat in which he was riding turned over. Kinda got his boots and pants wet.  
**Same Routine with "Incidents"**  
After a nice lunch, the same routine started again except for a few incidents. While swimming, June Payne got caught under the raft when some one turned it over. However, she did not almost drown, but came out just fine. Bill Baker and Carolyn McDonald tried diving in ankle deep water and came up with a few scratches. Jerry Oden got to bothering the girls in the boat and Bert so politely pulled him into the water, clothes and all.  
Later that evening the volley ball net was strung up and a good (?) game started. Cries of "That was out," and "It was not!" could be heard as the game progressed. Fern Patterson's remark "Stop your bickering!" topped the afternoon. The game began to disband just before supper when everyone cleaned up for the meal and for the dance later. Right after dinner some returned to the game room and the "ole pool table while others hunted for nickles to put in the juke box so that some could dance.  
Later nearly everyone went to the dance floor which was a little way across a pasture. The pavilion was lighted by colored bulbs. The night air was good and cool, and later we could see the moon rising above the hills across the creek. Many missed only two or three dances, and some became rather tired. About 10:30 we roasted weiners and drank cokes.

After we sang a few songs, we returned to the dance floor for more "Paul Jones," square dancing, schottisches. Put your little foot, and just plain dancing. The music was shut off at 12:45, and the last dance of our senior trip was over.  
Some of us went in swimming about 1:30. The water was very nice, but the air was a bit chilly. We attempted to fix the raft, but one barrel would not go in place; so we left it and returned to our rooms dripping wet. Soon, most of us were in our rooms (some were in bed) but others were playing cards or something else. Some of the boys went boat riding at about 2:00 in the morning and they say it was nice. Meanwhile, nearly everyone was getting a little sleep; but some were determined not to doze off, but later they did (Just ask Dub).  
We got up at 6:30 Sunday morning (after about 2 hours of sleep) and ate breakfast. Then everyone started repacking his clothes, and it seemed as if the bags had shrunk. After hunting under beds and dressers for socks, shoes, shirts, etc., we finally got everything together, and we were ready to leave for Floydada and home.  
The trip back was much drier than the one down. Coming back we sang, talked, looked at the scenery, or slept. Later we ate in San Angelo, and before we left, we bought comic books, joke books and magazines to entertain us for the remainder of the way.  
After we left San Angelo, a joke session, headed by Scott Faulkenberry and Brooks Chapman, started. The favorite joke turned out to be the first one "No. 19" with these sounds accompanying it: "Scottie! Eeee!" This joke is about Carolyn McDonald, who has not learned the full meaning of it yet. June Payne's sides were sore from laughing all the way back. Fern was sore, too, but not from laughing. (Who won the fight for the pillow, Fern?)  
The jokes had reached No. 39 when we pulled into Floydada at the bus station at about 6:00 p.m. We all thanked the bus drivers for being such good sports and nice fellows. Then we told our sponsors, Mr. Copeland and Mrs. Johnson, and our two other wonderful chaperones, Mrs. Copeland and Mr. Baker, what a great, unforgettable time we had on this trip of the seniors of Floydada high school of 1953.

When you go Ford V-8 you get this fine car power without paying a premium.

What kind of engines are you finding in more and more of America's finest cars? Yes, V-8 engines. And no wonder, for no other type of car engine available today can beat V-8's for compactness... and for smoothness. And Ford and only Ford offers you a V-8 engine in a low-priced car! It's the wonderful result of Ford's experience building more V-8's than all other makers combined... over 13,000,000 of them.

It's just one of 41 "Worth More" features that make Ford worth more when you buy it... worth more when you sell it.

Imagine! A car so low in first cost keeps its value better than any other car on the American Road. Used car figures on last year's cars prove that. And with its 41 "Worth More" features, this newer, finer '53 Ford holds still greater promise of long-lived value. You'll find built-to-last Crestmark Bodies. You'll find a new kind of ride that practically "repaves" the roughest roads. And these are but samples of the reasons why Ford is worth more when you buy... worth more when you sell.

## 'Whirl' Editor, Her Likes And Dislikes Told

On May 8, 1935, a little six-pound baby came bouncing into the world to make her home with her parents, Mr. and Mrs. Clem McDonald, at Quitsaue, Texas. Her name was to be June Carolyn. Now this little miss is a member of the 1933 graduating class of Floydada high school.

Carolyn is a 5-foot 4-inch senior with brown hair and eyes. She is a friendly girl who likes to have fun, is lots of fun, funny, and her friends call her Mac. She says that she has enjoyed this year very much and especially being the editor of the Whirl. She thinks the student council has done wonders for our school and is very proud to be a member of this 1933 class. She plans to enter Howard Payne college at Brownwood this fall.

She has served this year as business manager for the Whirlwind, our annual, and editor of the Whirl. She is a member of the Choralettes, Blue Notes, P.H.A. Club, Thespian Club and the Band.

Her likes are many. Some of them are green olives, shrimp, Choralettes, Blue Notes, good music, South Dakota, Pontiacs, slumber parties with the gang, good times, and the colors green and yellow. She, like any other normal person, has some dislikes. They are coconuts, sandstorms, Lockney, getting up in the morning, two-faced people, and leaving of F.H.S.

Audie Murphy and Jane Powell head the list of her favorite stars. She also likes Marge and Gower Champion. Her favorite movies were "Show Boat" and "King Solomon's Mines."

Music plays a prominent part of Carolyn's life. At the present time she thinks "Lean, Baby," "Ruby," and "Song from Moulou Rouge" are her favorite songs. She says Billy May is by far her favorite dance band but Fred Waring has for a long time topped the list as her favorite. Les Paul and Mary Ford are also favorites of Carolyn's. Her greatest ambition is to sing with Fred Waring or be connected with music in some way for the rest of her life.

Carolyn's most exciting moment is very unusual, I would say. She says it happened at the Boys club rodeo this year at Lubbock. It seems that Audie Murphy, her favorite actor, appeared in person there and when she was taking a picture of him, he smiled, winked, and said, "Hi, kid." Later on she tells me she got to talk to him. That would be rather exciting, I guess.

Not to leave out school affairs entirely, I asked her who her favorite teacher had been through high school and her favorite subject. It seems that she likes coaches for she answered, "Coach Gresham and Coach Watson." Geometry was her favorite subject.

Her ideal day would be spent on a ranch in South Dakota. She would swim, ride horses, hike, listen to records, and fish all day. She would come home and get ready for a busy night. After going to a shrimp supper, she would take in a rodeo (with Audie Murphy as guest star), and afterwards go to a real good square dance. After a night like that she would come home, retire and sleep until noon the next day.

Carolyn, you have made a swell editor and a real senior. May you always have the best of luck and we hope all your hopes and dreams come true.

## 'Manumission' Day Comes At Last to Class

Do you know the definition of manumission? There was a time when I didn't, and I'll tell you how I made its acquaintance.

It was a lovely spring day with the birds singing and the air balmy—the kind of day when you love every body—except the man who invented studying, and there your compassion for humanity comes to abrupt halt. The type of day when studying just shouldn't be done!

As I came into English class with my usual tardy slip, Miss Sweetest looked so gay that I was sure she felt the same way I did and we all would celebrate the arrival of spring by relaxing just a wee bit and not taxing our brains so much. With this thought in mind, I picked up the school paper and began to delve into its contents. As I was engrossed in the Windy Column I heard someone say, "Get out your pen and paper and put away your notes."

This statement was followed by a groan from Lawrence, so I knew it was really the death sentence and we, who hadn't studied, would meet our doom.

These were the conditions under which I met the above word. Having no knowledge of the subject, the result was a grade of forty. As soon as class was over and I reached the office, I consulted Mr. Webster and was informed that manumission was a noun meaning freedom from slavery.

But our English study didn't solely consist of vocabulary enrichment. We also studied nouns, pronouns, phrases, clauses, diagramming, punctuation, and many other phases of English. But it really wasn't all work. With Miss Sweetest's delightful personality and all the explosive senior personalities, it could only add up to an interesting, enjoyable, as well as constructive class.

And now as we are on the verge of receiving our "manumission" and leaving the dizzying heights of Floydada high school forever, we not only take with us the knowledge of English rules, etc., but we take the

knowledge of other lessons we have learned in English IV: how to laugh, how to live.

On behalf of the Senior Class of 1933, I would like to say a hearty "Thank you" to our English IV teacher who has also been our confidant and our friend.

### IT'S ALL OVER

Well Seniors, it's all over isn't it? But haven't these four years in F.-H.S. been fun? Yes, we have closed the doors of our high school fun forever.

I have one question to ask. Is success in your future?

The work you did in high school will insure your success. What you did while you were still in high school laid the foundation for what you will do later in life. Our country needs more successful people and less failures. Success depends on determination. If you are determined to do something and you want to do it badly enough chances are you will succeed.

We all can not be lawyers, doctors, or career women but we can all be a success in what we do best. Each one of us has some gift. It might be the gift of the ability to be a farmer or a housewife or a teacher. The future of our country depends on us, the youth of America.

Your success may not lie in being a good leader but in being a good follower. Your name may not be in the newspapers, but you and God will know how well you are doing and in the end you will be rewarded accordingly to what you have done.

Seniors, don't stop now. Do every thing possible to make your life a great success. Make success in your future.

## Senior Thanks To Everybody For Everything

Now that we the Seniors are leaving old F.H.S., we would like to have this opportunity to give our thanks to those who helped to make our high school days one big happy moment.

First of all we want to express our appreciation to the cafeteria ladies, who, in these four years, have done their best to prepare good meals everyday for us. These ladies have worked very hard in trying their best to please us.

Our two school secretaries, Mrs. Doloris Cannon, who was secretary during our freshman year and our present one, Mrs. Nita Jo Copeland

have also done their part in making our moments happy ones. What would we have done if there was no one to ask for change, take lunch money and do various other little jobs we ask of them.

Next we would think of our faithful janitors. Through our years at F.H.S. Mr. Moore, Mr. Holt, Mr. Bishop, and Mr. Dutton have faithfully served the school and done an excellent job which we appreciate. No one will ever know the important part our janitors have played and we hate to think what our school would be like if we didn't have these men with us. Thanks very much for all you have done.

**The Very Best Sponsors**

We have had the very best sponsors our four years in high school. Our freshman year it was Mrs. Graves, and Mr. Hill, sophomore year Mrs. Graves and Mrs. Sevick, junior year Mr. Copeland and Mrs. Johnson, and our senior year Mr. Copeland and Mrs. Johnson. You all make wonderful sponsors and we appreciate everything you have done for us.

Some of the most important people of our lives are our parents. They have helped us in every way possible throughout all our years in high school and they have given us many nice parties, picnics and all-round good times. Especially do we thank you for the nice Senior Prom you gave us Tuesday night.

There are many others we would like to thank, our principal, Mr. Baker, our superintendent, Mr. R. Graves and the many bus drivers who have taken us so many places.

I would like to take this opportunity to thank the student body for all the help you have given me. I have enjoyed being editor of the Whirl and I know you will have a wonderful editor next year.

Again we the class of '33 say, "Thanks for everything."
