Ch'man s Need Vote

Location of 'Communities'

The "communities" indicated in the election call by the PMA county committee, are located roughly as follows:

Showers Promise Season To Dry Lands of County

216 Pints Blood

Floyd county Red Cross chairman N. W. Williams reported late Tuesday that the Bloodmobile visit to Lockney Monday and Floydada Tuesday had netted the nation's blood bank 216 pints of blood.

Drouth Relief Feed Rolling

Drouth emergency feed continues to roll into Floyd county this week and it was estimated roughly by the county PMA committee that everyone in the county who had their names in the pot had gotten some feed at least, while others have obtained as much as a 25- to 30-day supply since the program began the first of the month.

Record Cotton, Forage Crops Are Maturing

Floyd county has had extremely partial rain in the week since Wednesday night of last week, some areas receiving more rain than they needed for current and pre-fall operations, while others still lack sufficient moisture to look forward to successful wheat farming operations.

Reporters Have Measured More Than a Third of Cotton Land

Cotton acreage on over 500 of the 1,584 farm units in Floyd county which have a cotton production record in the years 1951-2 and 1953 had been checked as of Monday night, said Bob Logan, county performance supervisor.

To Close Gap To Crosbyton

CROSBYTON — Blueprints and right-of-way easement contracts for Farm-to-Market Roads Nos. 651 and 1063 were received by County Judge J. M. Rankin Wednesday from the District Highway Engineer.

Drillers Rig Up For Sinclair 10,000-Foot Test For Oil on J. M. Massie Tract, Four Miles North

Floyd county has another oil test all set to go. It is the Sinclair Oil and Gas company, J. M. Massie No. 1, Section 7, Block T, BSAF survey, four miles due north of Floydada. It is 1960 feet from the north line and 660 from the west line of the tract.

The test will be spudded in this week, possibly today. Work of digging the pits was started Saturday, with intention to start machinery to rolling toward Floydada from Hale Center Monday.

Ryant, the tool pusher, said he was the kind of a driller that believed he was going to get oil until he finished the last foot of a hole.

The enterprise is expected to bring 15 families to Floydada for the duration of the job.

Sterling H. Wright Succumbs; Rites At First Baptist

Sterling H. Wright, 82, resident of Floyd county since 1916, died at Peoples hospital in Floydada Tuesday morning at 4 o'clock following an illness that extended over a period of several weeks.

Formerly in the produce business and allied lines in Floydada for several years, Mr. Wright had been in semi-retirement since a grave illness of pneumonia and complications hospitalized him for several weeks three years ago.

He was married to Sylvia Do Neri Whiteley the wife who survives him, at Detroit, Texas, on January 8, 1902. Three sons and three daughters, 15 grandchildren and one great grandchild also survive.

The daughters are Mrs. Noman Hamilton, Claremore, Oklahoma, Mrs. E. E. Crawford, Fort Worth, and Mrs. R. Y. Bradford, Santa Fe, New Mexico; the sons, Paul Wright, Amarillo, Charles Wright, Paducah, and Thomas Wright, Hawthorne, California. One son, Henry Wright, was the victim of a plains highway crash last year. One surviving sister is Mrs. J. R. Maddox, of Floydada.

Active pallbearers were Fred Reeves, Charles Berry, Foster Amburn, P. L. Hart, Wayne Finley, and Ellis Barbee.

All of the members of the family were here at the time of the demise of Mr. Wright.

Helms Shines In Greenbelt Game

Many Floydada football fans went to Childress last Friday night to see two of their favorite gridiron heroes in action in the east-west allstar game played there. Adrain Helms and Bert Grimes who had been bringing the spectators to their feet these past seasons in their high school years on the Whirlwind team were in their same fine form at Childress.

Playing on the west team the two Floydada boys did themselves and their school proud with their sterling performances. Bert Grimes drew a starting spot at offensive guard and played with the offensive team throughout the game. Helms turned out to be the work horse.

After leaving Floydada Monday night the X-ray unit was set up in Lockney at the Lockney Auto Co. and opened on Wednesday for two days. The Floyd county survey will close tonight in Lockney at 8:30 p.m.

Quarterback Club Names Stovall President as School Year Nears

Monday night the Whirlwind Quarterback club held its first meeting of the year at the high school gym. Carl Minor, Jr., retiring president of the club called the meeting to order.

Coach Preston Watson was called on to discuss the coming football season and the needs of the club as regards to the opening training sessions. The club then took up the problem of the football programs for this season and plans to handle the advertising and sales for games this fall.

New officers elected at the meeting included Richard Stovall, president, Everett Perry, vice-president, Kenneth Rimmer, secretary, and Gene Collins, Jr., treasurer.

The new president appointed two committees to get an early start on the business at hand. Everett Perry was named chairman of the program committee which will start immediately on the working up of football programs for all home games. Carl Jarrett was named chairman of the membership committee. Membership cards are being printed up and will be available at the next meeting.

Mr. Stovall urges all interested persons to be present at the next meeting to be held Monday night August 24 at the high school gym. Meeting time will be 8 o'clock. Important business of the club will be discussed and remaining committees named.

Smiths Dept. Store Will Open Soon

Mr. and Mrs. Joe L. Smith announced this week that their new department store on the west side will be open for business in a few days. Most of the job of painting and installing new furniture and fixtures had been completed early this week and the task of stocking had begun.

The new store is in the Farris building which recently had a face lifting with a modern front. Visitors will find that more work has been done in the interior and a large glass door installed at the front entrance.

Mr. Smith said their formal opening party will probably come early in September, but they would be ready to open their doors to the public by Saturday August 22.

ARMSTRONG IN HOSPITAL

N. A. Armstrong was admitted to the Peoples hospital Saturday for medical treatment. His condition was reported good Wednesday afternoon.

BUDGET CALLS FOR MORE THAN THIRD OF A MILLION DOLLARS

Assuming 90 per cent tax collections from the current rolls and figuring in no delinquent collections, a nebulous figure, the receipts for the year should wind up at about \$940,000.

But, however important the job of a commissioner and allowing for the fact that the court does have considerable discretion in spending a portion of the taxpayer's money, the fact is that a very large part of this grand total of more than a third of a million dollars has been earmarked by vote of the people and by statute for definite purposes.

The principal job of the commissioners thus is seen as one of making the outgo stay within the bounds of the receipts.

Debits Table First Place

For instance, servicing the debts of the county will take \$250,000.75 this year. The total county debt at the beginning of the year will be \$282,000, of which \$28,000 of the principal will be retired. The interest bill will be \$27,000.75, the addi-

tioner's figures indicate. And from there the other items by the score set in:

A probable \$6,575 will be spent for court expenses, including jury fees, court reporter's salary, board for petit juries and the like. (District judge and district attorney are paid by the state.) Over \$10,000 is likely to be required to meet the general county road and bridge fund expense including maintenance, repairs and supplies, and travel.

Under the general fund expenditures are listed items such as travel at \$1,500, repairs and replacements \$4,000, cost of elections, auditing fees \$7,575, care of paupers and indigents \$6,000.

Under agriculture and livestock are items that total \$11,810, including tapper, cannery expense, milking, clerical and agent's salaries.

List of Bills Mounts

Feeding prisoners at \$3,000, assessing taxes, tax valuations, sheriff's mileage, car payments, warrent and interest, social security, postage, salary of service officer at \$2,940, county library at \$6,000 make a total of \$30,510. The general fund, always the whipping boy, taking all the totals will be out \$55,465. If no

emergencies arise, or any of a dozen expenses that could arise, do not.

Utilities and telephone expense, chargeable to the permanent improvement fund based on experience, will run about \$9,000. Repairs and supplies will run another \$5,000, to which must be added major repairs not included above, at \$4,000.

Total salaries of elective officials and their deputies including items chargeable to the officer salary fund will be \$54,000.80, the audit figures forecast. On top of this must be added three-fourths of the judges and commissioners salaries which come from the general road and bridge fund. Total of the social security bill for the year is likely to run \$3,000, travel expense incident to road and bridge upkeep is estimated to run \$3,600, insurance of property of the county another probable \$2,000.

After these expenses, and assuming there will be no calamities excessive road damage and the like the commissioners will have:

In present one, \$28,500, in present two \$22,500, in present three \$19,000, and in present four \$20,500, to take care of wages, material and supplies and equipment operation. Since most taxpayers judge their

respective commissioners by the condition of the roads and culverts within the immediate vicinity of their own places, these last figures above are what the commissioners have with which to "make their showing" out of the majestic total of a third of a million the budget shows they will have for all purposes for the year.

No right of way costs, no balliff's fees, no special venires, no capital outlays, no engineering, and numerous other items that could enter into the cost of the county government for the year are given a place in the budget as such.

The way the county's \$1.42 total tax rate is divided up, now that the five-year 75-allocation has run out, is as follows:

Jury fund 15 cents, road and bridge fund 15 cents, general fund 25 cents, permanent improvements 20 cents, library 5 cents, making 80 cents, the constitutional limit that can be assessed without a vote of the taxpayers. To this add the 15 cent road and bridge special tax to get what the auditor calls the operating fund rate of 95 cents. Above this comes the road bond levy of 35 cents and the court house levy of 12 cents to make the final figure of \$1.42.

VIEWS AND COMMENT

DRAFT RULES AND REGULATIONS

(Tenth and last of a series on the draft laws and its rules and regulations)

Ignorance of the law excuses no one. That is something everybody has heard, and it applies to a draft board's deliberations and actions, as well as to any other agency set up to administer public law.

The law makes it the responsibility of the individual registrant to do everything that the law requires of him. The law requires him to do these things within a certain time limit. If he doesn't do them, he can lose many privileges and rights given him under the law.

"It is the duty of every man registered with a draft board to be alert and protect his rights under the law," advises Brig. Gen. Paul L. Wakefield, state director of Selective Service.

"Certainly it is the moral responsibility of parents to have their sons make themselves aware of the necessity of complying with all provisions of law and regulations," he says.

"It is too bad that registrants, parents, and employers often sleep on their rights until it is too late, or extremely difficult under our regulations, to do anything about their cases," he says.

General Wakefield says that sometimes a registrant, parent or an employer never request anything at the board until after an order to report for induction is issued.

Registered men, parents and employers should begin to concern themselves about the Selective Service law and regulations immediately after men register, General Wakefield points out.

The state draft director reminds all registrants, their parents, employers, public officials and citizens in general that the doors of Texas draft boards are always open to tell the people how to get information and help with draft problems.

Floydada does not have enough paved streets and curbs and gutters to make good drainage possible. This is one of the community's continuing sore needs. If you show a profit out of the cotton crop this fall and you live in town why not invest a part of it in the streets and the curb and gutter that surround your premises. You'll be glad you did. You can get the city to "go" with you, is our guess. See what your neighbors think.

Note to Cattlemen: Reflect on this thought from a market observer: "Until such time as the slaughter of females reaches 50 per cent of the total kill—then the cattle population is still swelling . . . Many sections of the southwest not in the drouth areas, are heavily over-populated with cattle at this time." . . . Um-m-m.

The same observer says government agencies are watching the cattle industry very closely for signs that might indicate the cattle population is decreasing. So far there are no such signs, they say. Until such time as 50 per cent of the cattle that reach the market are females there is bound to be continued increase, since nature balances off cattle increase like humans, about 50-50. What the same observer was saying two years ago we do not know.

Quoting this student of the marketing business even further and to an even more pessimistic conclusion, the cattle people of the south and southwest who do not market early, but wait until the fall, are going to head into a chaotic condition on the market as cattle roll into town from the prairies of the mid-west, the northwest and the pacific states. He thinks it quite possible we haven't seen cheap cattle yet! Too many cattle, like too many refrigerators, deep freezes, television and radio sets all looking for a home. We wouldn't know, would you?

If the weather continues to be a bit favorable one thing that Floyd county cattlemen won't have to worry about will be filler for their cattle and they can carry them over if they have to do so. Good rains in the past 10 days in numerous favored spots of the county mean a lot of little feed that will make fairly good. This on top of a lot of irrigated feed that is sure to make a whale of a crop.

Americans Sign Conscious. Americans are sign conscous, so a new slogan which makes the highway signs "signs of life" is due to catch on. The round signs which warn of the approach of railroad crossings, the oblong signs which are mostly regulatory, such as "Speed limit 50 miles", have companions in the diamond-shaped signs warning of dangerous conditions, such as a curve directly ahead, and the eight-sided sign which means stop. Too often this latter sign is taken to mean "slow down". The Texas Safety association says that one-fourth of the annual traffic accident deaths occur in accidents not involving another vehicle, pedestrian or fixed object. Also note these statistical facts: Fifty per cent of the drivers involved in fatal accidents are violating a traffic regulation at the time they are killed or maimed; exceeding a posted speed limit figure in one out of three fatal accidents; only one pedestrian out of every four killed is not violating an obvious regulation; and three out of every five children killed by cars are crossing illegally or playing in the streets. After all people are the cause of the accidents. The signs are the signs of life.

It is better to know nothing than to know what ain't so. —Josh Billings

Chiropractic Recognized In W. C. Statute

AUSTIN — A good portion of the legislation passed at the recent session of the Texas Legislature will go into effect Wednesday, August 26. This date is 90 days after adjournment, which is the time most bills become laws except under certain circumstances.

One of the new laws that will go into effect on this date will be an amendment to the workmen's compensation law which will permit insurance companies to pay for chiropractic services when workmen suffer back injuries or other ailments originating in the spine.

Under the state workmen's compensation law that has been in operation in Texas, insurance companies were authorized to pay only

for medical and surgical services. With the new amendment, Texas becomes the 39th state to recognize the value of chiropractic in assisting workmen to get back on the job. Insurance company executives have advised officials of the Texas state chiropractic association that between 50 and 75 per cent of the

workmen's compensation claims in Texas in 1952 involved back and spinal injuries. It is estimated that around \$17,000,000 was paid in claims in Texas last year.

Chiropractic leaders said here this week that the amendment to the law will be of interest to all persons

covered by workmen's compensation. Another amendment to the workmen's compensation law into effect August 26 will exempt workers in certain villages to come under the new law.

Adrian Helms To Play in Oil Bowl

After the Greenbelt bowl game in Childress Friday night in which he was named outstanding back, Adrian Helms of Floydada received invitation to play in the 16th annual Oilbowl game.

The game which pits about two dozen stars picked from the entire state of Texas against as many from the state of Oklahoma will be played in Wichita Falls Friday night, August 21. Site of the game will be Midwestern university's new \$100,000 stadium which seats 13,000.

Helms left for Wichita Falls Sunday evening and will spend this week in training with the Texas team.

Originally there were four months between presidential election and the inauguration to allow for slow methods of communication and transportation.

Labor Official Says All Should Return to School; Unlawful Employment

When the officials here hope to answer the question that employment of children is illegal, they will refer to the Department of Home Economics. William J. Department's Wage Public Contracts said he wished he could say in a personal word to every child who has returned to school, "Look good to our parents. You have been working hard during your summer vacation." He said that boys and girls should realize that training is needed for the Armed Forces. He said that young people to get the most out of their training should be trained men and women who are skilled in modern life. He said that modern life is a premium on good education.

stances. In agriculture, it is unlawful to employ children under 16 during school hours, if the farm products go into interstate or foreign commerce. The law, he explained, applies equally to local resident children as well as to migratory children. It does not apply to a farmer's own children working on their parent's farm. He said that by "school hours" is meant those hours when school is in session for the district where the child under 16 is currently living. Farmers themselves are responsible if they employ under-age children during local school hours.

If a local school is closed for several days during a peak harvest season, it would not be considered in session at that time. Furthermore, he added, the federal law sets no minimum age for the employment of children in agriculture before or after school hours, or at any time on school holidays, or during school vacations.

But when the school bell rings on a regular school day, children of age are expected to be in school, he said, adding that he hoped widespread knowledge of the Law would keep them from being illegally employed and so kept away from school.

Floyd County 14 Years Ago

(Taken from the files of The Hesperian, issue dated August 24, 1939)

Fire completely destroyed the S.N. McPeak home on the Silverton highway last Thursday night about 9 o'clock. With the home were lost also all the household furniture of the family and their personal effects. The loss estimated at several thousand dollars was only partially covered by insurance.

Sheriff Fred Clark, Deputy Sheriff Walter Hollums and County Attorney John Stapleton attended a convention of law enforcing officers of the panhandle and plains area at Seminole last Tuesday.

September 4 has been set as the date for the opening of the Floydada and Lockney schools, to begin the years work in the three "R's."

Floyd county tax rate for the current year was reduced by the Commissioner's court from 70 cents on the \$100 valuation to 68 cents, at their recent meeting.

RE-UNION OF BOERNER FAMILY AT FLAGSTAFF

Mr. and Mrs. S. W. Ross and Mr. and Mrs. E. P. Nelson left Friday for Flagstaff, Arizona, where they are attending a family reunion of the brothers and sisters of Mesdames Ross and Nelson, children of the late Mr. and Mrs. W. L. Boerner.

The party made the trip by train from Amarillo and will return next week.

Construction of a new home for Mr. and Mrs. C. L. Miner on lots at the corner of California and South First streets was started last week by F. F. Conner, contractor.

A group of hostesses entertained with an informal social on Monday evening in the home of Mrs. Homer Steen as a courtesy to Mrs. Jessie Brown, who lost her personal and household effects in a fire recently.

The Floydada Garden club members are planning their annual flower show to be held at the Bishop Motor company building on September 9.

Mr. and Mrs. W. G. Collins and family left Sunday for a vacation trip to points in California.

Carthel-Wilson Marriage Vows Taken Saturday

LOCKNEY, August 15.—Two Texas Tech students, the former Miss Joyce Ruth Carthel of Lockney and Charles Edward Wilson, Jr., were united in marriage in a service read Saturday at 7:30 p.m. in the West Side church of Christ.

Mr. and Mrs. John T. Carthel of Lockney are parents of the bride. The bridegroom is the son of Mr. and Mrs. Charles Edward Wilson Sr., 3602 30th St., in Lubbock.

Charles W. Watkins, minister, officiated at the double ring ceremony before an altar of jade greenery flanked by candelabra. The aisles were marked by arrangements of white gladioli tied with white satin bows.

A chorus sang the traditional wedding marches and a wedding hymn. While the candles were being lighted the chorus sang "Wedding Music," an arrangement of bridal music.

Given in marriage by her father, the bride wore an original gown designed by the bride and her mother. The bodice and skirt of sheer white silk French lace was made over nylon tulle and satin. The yoke of tulle was outlined with scallops of lace closing at the neck with a ruffle of tulle. Her fingering veil of illusion fell from a tiara of lace and illusion. She carried a cascade bouquet of white gardenias and rosebuds interspersed with lace matching her gown.

Miss June Carthel of Midland was maid of honor. Mrs. John Lee Carthel of Lockney was bridesmaid and junior bridesmaid was Miss Janis Carthel of Lockney. They wore identical dresses of nylon tulle over tulle faille in shades of blue. Ruffles of tulle outlined the yokes which extended off the shoulders into puff sleeves. Their headresses were ruffles of tulle with matching ribbon. Mitts of tulle completed their ensembles. White gladioli florets with blue and white delphinium formed their cascade bouquets.

Don Andreas of Brownfield was best man. John Lee Carthel and James Carthel ushered.

A reception was held in the home of the bride's parents immediately following the ceremony. A white linen cloth covered the bridal table. The tiered wedding cake centered the table. Assisting in the house-party were Misses June Carthel, Frances Copeland, and Mrs. JoAnn Carthel.

The couple will be at home in Lubbock when they return from a wedding trip August 22. For traveling the bride wore a suit of light blue faille with navy accessories and a corsage of gardenias.

The bride will teach in the Lubbock Public School system this fall. She was graduated from Texas Tech and is employed by Scoggin-Dickey Buick Co.

Rehearsal Dinner
A rehearsal dinner in the home of Mr. and Mrs. J. Dee Copeland Friday night honored Mr. and Mrs. Charles E. Wilson, Jr., who were married Saturday night at the West Side Church of Christ in Lockney.

The bride's chosen colors of blue and white were used throughout the table decorations. Places were laid for 22 guests.

The lovely home of Mrs. Buck Hickerson was the scene of a pink and blue shower honoring Mrs. Jerrold Vinson Friday afternoon.

Pink pineapple punch and pink and blue rose bud decorated cookies were served by Misses Floy Jackson, Owen Richardson, and Ann Hickerson.

A large imitation stork surrounded with small ones decorated the refreshment table.

Mrs. Johnnie Hutchinson presided at the guest's book.

Co-hostesses for the occasion were Mesdames Bruce Bishop, Johnnie Hutchinson, Amy Daniel, Buck Hickerson, and Misses Floy Jackson, Owen Richardson, and Ann Hickerson.

Out of town guests registered were Mrs. Reynolds, Mrs. C. O. Stewart and Miss Kathy Morgan all of Slaton; and Mrs. Moody Lackey, Mrs. Charles Miller, Miss Sandra Lackey, Miss Suzy Hattler, and Miss Betty Lackey all of Lubbock.

Guests registered between four and six p.m.

SLUMBER PARTY THURSDAY FOR CLOVIS, N. M., VISITOR
Miss Barbara Perry was hostess for a slumber party given in honor of Miss Barbara Price of Clovis, New Mexico, who was visiting here on Thursday night.

Carter Studies Insurance Under Noted Director

Ernest C. Carter, veteran Floyd county insurance man, with Great American Reserve Life Insurance company for 14 years, was a member of a selected group of Texas insurance men who attended an insurance formula program seminar at Southern Methodist university in July.

Carter's certificate of award for the week of intensive study was received here this week. A. R. Jaqua, head of the school of insurance at SMU, was director of the short course, presented under the auspices of the Institute of Insurance Marketing.

An advanced study of National Service Life insurance, social security, estate and property taxes, was included in the course.

'I Give You Texas' —Boyce House

Texas has had many picturesque outlaws.

Belle Starr, known as the "Bandit Queen," who flourished after the Civil War, lived in Dallas. She was reputed to be head of a band of horse-thieves and robbers. She would dash through the streets of Dallas on her horse, scattering pedestrians, enter a saloon and, after a drink, try her luck at roulette or poker. She moved to what is now Oklahoma and was shot to death from ambush.

Most famous of Lone Star State outlaws was Sam Bass, the "Robin Hood of Texas." He and his band held up a Union Pacific train in Nebraska after a cattle drive to Deadwood and obtained \$60,000 in gold.

Back in Texas, Sam spent the money freely. He and his men held up four trains within two months in a radius of twenty-five miles of Dallas. He planned a final coup—the holdup of the bank at Round Rock and then fleeing to Mexico; but a member of his gang tipped off the Texas Rangers and there was a gun battle in which an officer and one of Bass' men were killed. Sam was mortally wounded.

A Balalaika is an old Russian stringed instrument.

Most musical terms are derived from the Italian language.

Hadrian (122 A. D.) built the Roman Wall in England.

The betrayer lived in fear of his life and died in great agony from poison. Bass' memory is preserved by legends and a song.

In modern times, the most notorious among those who defied the law were Clyde Barrow and his "cigar-smoking moll." Many killings were credited to Barrow before they met death themselves in a burst of gunfire along a country road.

A man who bore the religious-sounding name of John Wesley Hardin killed more men than any other sixgun expert in Texas history. Deceptively boyish-looking, Wes Hardin was not recognized by "Wild Bill" Hickok, the Kansas cattle town marshal, and Hardin got the drop on him by use of the "border roll." Hickok laughed it off and they had a drink together.

Hardin was sentenced to prison for murder in Texas, studied law and, upon regaining his freedom, went to El Paso. There he was shot to death by John Selman, who, not long after was killed by George Scarborough.

Libraries Are Older Than the Christian Era

AUSTIN — Although the present generation takes libraries pretty much for granted, our forefathers had to manage generally without the benefits of a handy library.

Yet libraries, as an institution, are older than the Christian era. Researchers at the Texas State Library in Austin point out. Libraries are older than the works of Socrates, or the printing press, or the invention of paper. For libraries existed at least as far back as the ancient cities of Egypt and Mesopotamia.

In the ruins of the Karnak Temple at Thebes, dating back to the eighth century B. C., has been found an inscription of a "House of Books." The "Keeper of the House of Books" was the original librarian, and for a long time that office was hereditary.

On Ship for Trip to the Moon

The Army isn't planning a rocket ship trip to the moon in the near future, but younger America already is trying to make reservations for the flight.

Junior spacemen are filing their applications for a journey to the moon with scientists employed at the Army Ordnance Guided Missile Development Center at Redstone Arsenal, Huntsville, Ala.

Teen-age interplanetary enthusiasts have submitted their bids to become working members in the construction and flight of rockets weighing 7,000 tons and space platforms circling the earth 1,075 miles away in the wild blue yonder.

Some scientists and engineers have worked out details for building a Satellite station in space, and they estimate the job would take ten years. Huge rockets would carry construction cargo to the satellite. Undaunted by a speed of 17,500 miles per hour determined necessary to reach the orbit of the man-made satellite, these junior spacemen eagerly accept the dangers of the unknown.

Since man stuck his nose into space, development of a platform in space is regarded in many quarters as inevitable eventually. The last frontier—several thousand miles straight up—has not yet been reached. But these young space travelers are making their bids to go.

These bids began when an article was published in the Army Ordnance Guided Missile Laboratory.

All inquiries are being handled by the Ordnance Guided Missile Laboratory, Huntsville, Ala.

Mrs. Meredith Will Teach At Wayland College

PLAINVIEW, August — A Wayland college graduate, Maudell Dukeminier Meredith, Waco, returns to her first alma mater to teach in the music department next session, according to Dr. A. Hope Owen, president.

Mrs. Meredith is at present a graduate assistant in the Baylor University school of music where she was graduated cum laude in 1952 with the bachelor of music degree. During the past session, she has continued her graduate studies and will receive the master of music degree in 1954. She will teach piano, organ and theory at Wayland.

At Baylor university, Mrs. Meredith has majored in piano pedagogy and minored in organ on the bachelor's degree and in music literature and theory on the master's degree. She has also studied piano and organ at Southwestern Baptist Theological seminary, where she went after her junior college graduation and marriage to the late Dr. C. Ellis Meredith, whom she met when they were students at Wayland.

Her training has been under such outstanding piano teachers as Silvio Scionti, Mrs. Edwin McNeely, and Oratio Frugoni. At Baylor university she has done her major work under Gladys Calder Stinson. In organ, she has studied with William Barclay, Bertram T. Wheatly and Dr. Robert Markham.

While at Baylor university, Mrs. Meredith has served as organist for Emmanuel Baptist church. She is a member of the American guild of organists. In recent years, Mrs. Meredith has been organist for many Baptist conventions.

All the World loves the circus clown and all the circus clowns love little kids as is pictured here of Mickey McDonald with a young admirer, Mickey comes to Plainview with 15 other funny fellows in the all new 1953 Shrine Circus in Plainview coming for two glorious days and nights at the High School Football Stadium, Friday August 21 and Saturday August 22 with performances twice daily at 2:30 and 8:15 p.m. rain or shine.

Mrs. Meredith is the daughter of pioneer West Texans, Mrs. J. A. Dukeminier and the late Mr. Dukeminier of Wellington. Because she was valedictorian of her class in Wellington high school, she won a scholarship to Wayland college. She and her sister, Mrs. Ernest Elliott, the former Tomazene Dukeminier, frequently appeared before Plainview and panhandle-plains audiences during their student days.

Her husband was the popular pastor of First Baptist church, Arlington, at the time of his death 3 years ago. Mrs. Meredith has a four year old daughter, Margo Meredith.

Football Comments

(By Kenneth Rimmer)

Comments from many of the most loyal Whirlwind fans about the way west Texas colleges in general and West Tech in particular have had a way of overlooking Floydada boys every year in their search for football players reached a high pitch following Friday night's game in Childress.

Many Floyd county lovers of the game would like to see more college football, and would like to see it close to home and with a personal interest in some of the boys playing in the game. They would like to see some boys they have watched through high school have a chance to make the team.

Friday night they saw one of their favorite sons named as the outstanding back of the Greenbelt bowl game, a game in which most of the 48 boys that saw action were last winter named to all-state teams. In the same backfield with Helms were such players as Doyle Traylor of Temple who has received high praise from most of the sports writers and coaches of the state.

Tech coaches turn their back on boys like this, and say too light to play both offensive and defensive ball as the new rules call for. Yet a coach and football player like Sammy Baugh, one of the state's all time greats, used Helms the entire game with the exception of three plays, when he could have had a heavier man at the position or a fresh one that had seen little service.

Helms didn't get to see action as a ball carrier, in the greenbelt game but on a few occasions when the west squad faced 3rd down and two yards to go when they were near the goal line we were out on the edge of the seat wishing they would hand the ball off to the little half-

back that was wearing the sweaty dirty suit and get that important first down that would lead to another TD on the scoreboard.

So maybe when Tech gets through sending out of state coaches and state players to give their athletic scholarships to, they will import out-of-state fans to fill up the big new stadium. Our interests will be elsewhere.

Mr. and Mrs. George Van Wickel and daughter Françoise were in Dallas Monday and Tuesday of this week on a business trip. Mr. Van Wickel was at the Dallas market to select merchandise for their store here.

Misses Joyce and Doris Earp of Lubbock visited Mr. and Mrs. Charles Hartzell and daughter Charis Sunday.

Deadline Extended For Applications For PO Examination

WASHINGTON — The Civil Service Commission has extended the deadline to August 25 for filing applications in the examination for postmaster at Floydada. The time limit was extended because the number of applications received so far has not been sufficient for adequate competition.

Applicants must have several years of experience which has demonstrated their ability to effectively supervise and manage a business organization the size of the post office. They must also show they can deal effectively with the general public. The applicants will also take a written test.

Application forms and additional information are available at the

post office. Application forms must be received by the U. S. Civil Service Commission, Washington 2, D. C., on or before the deadline date. Another examination announced for an early date by the Civil Service Commission is that to fill the position of rural carrier for the post office at McAdoo.

To be eligible for this examination an applicant must have been a patron of the office for at least a year.

Shrimp on Skewers for Your Next Barbecue

SPEAR YOUR SHRIMP — right in your own backyard. Remove shells from 2 pounds of fresh or frozen shrimp. Make a sauce by melting 1/4 pound butter or margarine, adding 1 clove of garlic (minced fine), and simmering 3 minutes. Skewer the shrimp. Brush with the garlic butter and sprinkle with salt and pepper before holding or placing over the hot coals. Cook about five minutes. Turn often, brushing with sauce.

Floyd Farmers View Colorado Farm Methods

A party of 10 Floyd county residents interested in better farming methods returned home last week-end from a three-day tour of farm production and marketing plants in the vicinity of Rocky Ford, Denver, Greeley and Fort Collins, Colorado. The tour, arranged by county agents of the counties visited, included views of farms and feedlots, vegetable producing areas, potato and onion farms and the stockyards at Denver.

Rotation and fertilizer plots at Colorado A&M college, Fort Collins and a glimpse of the Colorado — Big Thompson project which annually brings 300,000-acre feet of western slope water to the eastern slope, were among the highlights of the trip.

On one leg of their trip the party saw a place where beet and other crop yields have been doubled in 10 years by the use of sweet clover pasture and manure spreading operations.

Headed by County Agent Wm. G. Rodgers, the party from this county included L. D. Bartee, soil conservationist, Gilbert L. Fawver, Earl Crow of Floydada, Herschel Carthel, Floyd Jackson, Robert Thomas, Paul Cooper, Clyde Parrish, and L. A. Cooper.

Housewives will need very little prodding to choose beef and beef products for her family. They know that the protein in beef is needed by young and old alike, and that variety meats in particular are good sources of important vitamins and minerals. Lean beef is a valuable source of B-vitamins and of phosphorus and iron. Protein and minerals are found in beef liver, kidney and heart. And liver, with its iron and copper content, is an important blood builder.

But the best news is that after years of almost prohibitive prices, beef is now coming within the family budget. As a result, week-end chefs of both sexes who go for outdoor cookery on summer evenings will be even more active in the next few weeks.

The barbecue baron may rely on easy-to-fix hamburger sandwiches, topped with onion or tomato sauces. Or he may choose the ever-popular frankfurter on toasted roll with a generous garnish of relish or sauerkraut. But grilled steaks and other cuts are expected to top the list.

Whatever his preference, beef will score a hit every time.

I figured on paying about \$200 more for a new car... until I discovered all that Chevrolet offered me.

You're "sitting pretty" behind the wheel. Take this Bel Air model. First thing you'll notice is the rich-looking upholstery and appointments and roomy, comfortable seats. Just turn the ignition key to start the engine and you're ready to go.

You get more power on less gas. Here's all the power and performance you could ever ask for. And along with it comes the most important gain in economy in Chevrolet history! That's because of Chevrolet's two great high-compression engines.

You can see all around. You look out and down at the road through a wide, curved, one-piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

Biggest brakes for smoother, easier stops. An easy nudge on the brake pedal brings smooth, positive response—right now! Chevrolet brakes are the largest in the low-price field—extra large for extra stopping power.

It's heavier for better roadability. You're in for a pleasant surprise at the smooth, steady ride. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than other low-priced cars.

And it's the lowest-priced line. A demonstration will show you that Chevrolet offers more in the lowest-priced line in the low-price field.

You get greater getaway with the new Powerglide.* Finer performance on less gas. That's what you get with the new Powerglide. There's no more advanced automatic transmission at any price.

Even Power Steering, if you want it. You ought to try Power Steering to see how easy driving can be. You can spin the wheel with one finger! It's optional, of course, at extra cost, and available on all models.

Let us demonstrate all the advantages of buying a Chevrolet now!

horse of the game playing on both offense and defense as well as being on the receiving end of several long passes, one of which accounted for the only TD the west squad made.

The game was a close one all the way and a thriller from the starting whistle. The east came out on top 7 to 6, but were outgained in total yardage by some hundred yards. Long passes that could go the distance were the order of the day and no one left the stands until the last play was reeled off.

Helm's Named Outstanding Back
At the end of the contest coaches turned in their votes for the outstanding players of the game. Jerry Tubbs, center from Breckenridge, was named outstanding lineman. Adrain Helm's of Floydada received the trophy as outstanding back.

Helm's received this high honor for his fine defensive play, blocking back and as a leading pass receiver. The Floydada rooting section, one of the largest there, didn't get to see the little halfback carry the ball as they had expected to, but were just as proud of his performance when the game was over.

Mr. and Mrs. Roy Hale and family are vacationing in Red River, New Mexico.

New Type Garbage Can to Be Sold By Lions Club

Pictured above is the 20-gallon garbage can that will be offered the public by the Floydada Lions club. Officials of the club stated the can is a sturdy one with handles, lock on lid, and with a raised bottom to prevent rusting to a large degree. Crunden Martin Manufacturing Co., makers of this can, say it has a galvanized coating that is rolled on and has locked seams that will not leak.

Members of the city council have approved this can for use in Floydada and it is recommended by the club. Sanitary measures which are being taken by the city in connection with the putting into use of their new garbage truck, a 13 yard hydraulic unit on a 2 1/2 ton truck, will call for a can of this type.

The present type of collection with the large 55-gallon barrels is not satisfactory for several reasons. The tops are not closed to prevent flies and the containers are too large to be handled by members of the sanitation department. City Attorney Richard Stovall stated that an ordinance clarifying the situation was being prepared at the instance of the council and will be presented to the council for their consideration at the meeting September 7.

Price of the cans has not been set by the club, but T. L. Holland, chairman of the committee on public health and sanitation, stated the cans are being bought at carload prices and would be offered to the public at a money saving price as a public service of the club.

Mr. and Mrs. O. T. Morgan, of Abbott, TEXAS, were here Saturday, guests of Mr. and Mrs. R. F. Jackson. Mrs. Morgan is a niece of Mrs. Jackson. On their journey home the Morgans were accompanied by Mrs. Ethel Gunter, who had been here for six weeks, guest of her sister, Mrs. R. F. Jackson, and Mr. Jackson.

Wheat Growers Give Allotments Heavy Majority

Floyd county wheat growers Friday joined the rest of the farmers in the nation in the adoption of the acreage allotment program for wheat for the crop year of 1954.

Tabulation made Friday night at the close of the election by Henry I. Martin, executive officer of PMA, gave "for" marketing quotas 525, "against" 41 votes. The per centage was slightly more than 94.5.

Wheat growers seen on the day of the election said that the way the proposition was stated made it practically impossible for a grower to vote against the proposal. With quotas set the producer is assured a parity price of \$2.20. Without the quotas parity would be about \$1.23.

There were more votes against the acreage allotment plan in Communities One and Two than in any others.

The vote was held at three places in the county. Communities One, Two and Three, as the PMA has them listed, cast their ballots at Lockney.

Communities Four and Five voted at Cedar, and Communities Six, Seven, Eight and Nine at Floydada.

The vote by communities was as follows:

Community	For	Against
No. One	94	12
No. Two	48	9
No. Three	27	2
No. Four	40	1
No. Five	88	5
No. Six	49	3
No. Seven	53	5
No. Eight	34	0
No. Nine	122	4
Total	525	41

Prior to the vote the county committee had sent out notices indicating individual farm allotments at reductions from the 1951-52-53 average at about 10 per cent.

While there is enough dissatisfaction with the figures arrived at by the committee to make considerable discussion at the PMA office the figures generally are less irritating to farm operators in view of the trend toward cotton production in the county during the base period, it was said.

The county allotment will total slightly more than 170,000 acres as compared with a probable 200,000 acres that would otherwise have

Verdict Assesses 4-Year Sentence

O. D. Sims, Negro, 37, was sentenced to four years in the state penitentiary by a jury in 110th district court Monday.

Sims and a white man were arrested March 19, 1953, by Sheriff Earl Cooper and were held for the theft of a white-face calf from the N. A. Armstrong pasture.

Cooper said the two men butchered the calf and were returning to town when their pick-up overturned at John Hoffman's farm southwest of Floydada.

Yesterday it was indicated the defendant would not appeal but accept sentence.

The trial for Don Green, also indicated in the theft has been set down for trial Monday, August 31.

One Floyd County Man Called Up For Armed Forces Exam

Neither Floyd nor Motley county has a registrant for military service with the Selective Service system who will answer the August 28 call for induction. There are only three in number, two from Hale and one from Swisher. With them will go three volunteers, all from Hale.

On the same day, however, the board will process four boys for pre-induction physical examination. One of these is a Floyd county boy. He is Haskell C. Davis of Lockney. The other three to go up for their physicals are Lonnie D. Cates, Henry L. Yates, and Ralph L. Neese, all of Plainview.

Mrs. E. L. Norman, Jr. of Level-land, was here for three days this week. She was a guest in the home of her parents, Mr. and Mrs. A. B. Clark, and also of her parents-in-law, Mr. and Mrs. E. L. Norman.

been put into the ground. This week the county committee is busy going over applications for review of allotments. Growers have until Monday to file applications for review.

Double Header Games Tonight In Tournament

Two games tonight in the Floyd county softball tournament, which started off with a bang last Thursday night, at Jaycee park.

Crosbyton and Lockney meet in the first game tonight and their contest will be followed by a battle between Builders Mart and Farmer. Lockney and Crosbyton are both one-time losers and Builders Mart and Farmer are both one-time winners in the tournament.

The Tournament Today
Bringing the tournament down to date it got underway last Thursday night with Lockney defeating Rudy's 14 to 4 in five innings. Al Willis was the starting and winning pitcher for Lockney, Paul Kropp also pitched the latter part of the game. A. G. Tyler was the losing pitcher. This is the American Legion team from Lockney, and it has brought in a good team.

In the second game Thursday night, REA defeated McCoy, 7 to 4. It was a pitchers duel between Bill Lingle of REA and Louis Reddy of McCoy. Lingle struck out 13 men and allowed 4 hits, while Reddy struck out 9 men while allowing 7 hits.

Friday night, Builders Mart defeated Crosbyton 7 to 1, behind the steady pitching of Joy Ward. Gregory was the losing pitcher for Crosbyton.

Monday night games were rained out.

In the opening game Tuesday night McCoy edged Rudy's in a very close game, 4 to 3. It was a very good game, with Reddy the winning pitcher and Duke the loser.

In the second game Tuesday night REA defeated Lockney 19 to 1. This was a better game than the score indicated. One costly error accounted for 10 of the REA runs. Kyka Davis was the winning pitcher allowing 5 hits, while Al Willis and Paul Kropp were the pitchers for Lockney.

Tonight, Crosbyton and Lockney meet in the first game, and Builders Mart and Farmer meet in the second game.

Friday night, REA will play the winner of the Builders Mart and Farmer game.

Monday night, McCoy will play the losers of the Builders Mart and Farmer game, and Tuesday night, the winner of the Crosbyton and Lockney game will play the winner of the McCoy vs Builders Mart or Farmer game.

Year at North Ward To Begin On August 31

School year at North ward school in Floydada will begin one week earlier than the Andrews ward school I. T. Graves, superintendent, said this week. North Ward school opening date is August 31.

In view of the fact that many of the north ward youngsters' parents need them to help harvest cotton this fall the school will have a week to "play on" and the children can be used in the fields without violating the U. S. labor law.

A considerable increase in attendance of scholastics at North ward is indicated by the enumeration figures.

The school will have the same faculty this year as last, with Richard Crawford as principal, and Mrs. Annie Taylor, Earline Miles, Gracie Pinkard and Freddie-Mae Golden as teachers.

Further details of plans for the Floydada schools will be given next week, said Mr. Graves.

Bandsmen Meet Monday
The new band director has announced plans to meet members of the band daily next week beginning Monday to begin instruction and organization for the band year. The new director is Hubert Carson, who comes from Throckmorton. Monday morning's date is for 8 o'clock. Meeting place will be the high school.

LaVerne Fowler, Sidney Muse Wed Saturday Evening

Before an archway of greenery and white mums, flanked by floor baskets of white and honey colored glads, six candelabras with white candles, Miss LaVerne Fowler and Sidney Muse repeated their wedding vows on Saturday evening, August 15, at 8 o'clock. White satin ribbon marked the bridal aisle.

Reverend Tilden B. Armstrong, officiated at the double ring ceremony in the main auditorium of the First Baptist church.

Parents of the couple are Mr. and Mrs. Ernest Fowler of Floydada and Mr. and Mrs. Lee Muse of Clarendon, Texas.

Miss Roberta Garrett, organist, offered pre-nuptial music and played the traditional wedding marches. She accompanied Mrs. Lowell Heckman, of Sundown, sister of the bridegroom as she sang "Time Alone," "O Promise Me" and at the conclusion of the ceremony sang the "Lord's Prayer."

Candle lighters were Misses Claudine Gowen, Floydada, and Dorothy McCasland, Tulsa. They wore white formals of tulle and taffeta and carried colonial white mum bouquets, centered with a white candle.

Ushers at the wedding were Fred Conner and Bill Jones of Floydada, John McCarty of Amarillo and Bill Waygood of Sundown.

Eugene Mayfield, Floydada, served the bridegroom as best man.

Sister Is Attendant
Mrs. Luther Bain, Plainview, sister of the bride, was the bride's only attendant. She wore a dress of nylon tulle and satin over taffeta of honey shade, fashioned with

strapless bodice completed by net stole. The bodice was of shirred satin with fold filled in with pleated ruffles of net, terminating with rounded waistline. Joining this was the immense waltz length skirt, made of shirred tulle embellished by double ruffles of net held with matching roses.

The headress was a matching nose veil, attached to velvet bandeau. She carried a colonial bouquet of white carnations tied with honey colored satin ribbon.

The bride, entering with her

father, who gave her in marriage, was gowned in a wedding gown of white imported Chantilly lace and nylon tulle over satin, designed with strapless bodice topped by buttoned up-the-front lace bolero with small collar and long sleeves ending in points over the hand. The bodice was of shirred tulle with deep point at center-front waistline. Attached was a voluminous waltz-length skirt made of tulle and encircled at hipline with wide band of lace that dropped in back, and layers of tulle over satin emphasized by the crinoline worn underneath.

The bride's veil of silk illusion, was joined to a lace cap outlined with band of satin embroidered with seed pearls.

Her bouquet was two dozen white roses with white satin ribbon.

Honeymoon in New Mexico

For her going-away dress, the bride chose a suit of imported textured rayon linen in light oyster shade with navy piping. With this she wore a navy hat and gloves with navy shoes and bag.

For her daughter's wedding, Mrs. Fowler wore a cocoa-colored orlon dress complemented with brown accessories. Her corsage was of yellow carnations.

Mrs. Muse, mother of the bridegroom, wore a navy linen suit with navy accessories and wore a corsage of pink carnations.

The bride is a graduate of the Littlefield high school, and West Texas State college, where she was a member of Pi Omega Sorority, Alpha Chi national honor society, and Who's Who in Universities and colleges of America.

The bridegroom is a graduate of Clarendon high school and Clarendon Junior college where he was personality King and attended West Texas State college, one and half years, where he was a member of Epsilon Beta fraternity. He is now employed by the Great Western Oil Company of Sundown, where the couple will make their home.

There's a back-to-school feel in the air. Even with no calendar in the house, we'd sense it. Downtown, revitalized mammas, wearing mixed expressions of determination and relief, search for sizes in junior clothing stores. On the school grounds, mowers hum, trucks unload supplies, janitors air long closed classrooms. But even if we never went shopping or drove by the schools, we'd know we're on the threshold of a big event.

Yes sir, right here in the home block the neighborhood kids give it away. Not by what they say, but by the last-thing abandon by their deeds. Early morning games of Indians have been shriller this week. Patient hours of piano practice are now displaced by wild peals of discordant notes. Water fights are wetter, trumpet calls louder, inroads into the tool shed — so carefully averted all summer — now harry the yardman. Flowers get beheaded, trees stripped of their boughs. Children leave skates and wagons on the walk to make late passers by.

A block away, a high school football player has finally been pinned down to painting the backyard fence. A twelve-year-old boy chops resolutely at knee-high weeds. Healthy brown bodies enjoy the last few days of vacation undress, and neighborhood dogs cling closer to skinny brown pals at play.

We've loved the easy-going vacation days, with late breakfasts and casual lunches and nothing to show for the day. But like all other householders throughout the town, we're just about ready for mankind to shed its summer cocoon and get back into the fall-winter routine of more work and less play.

1. Broil pineapple slices along with hamburgers, lamb chops, or ham. Brush them first with melted butter or margarine, sprinkle with brown or granulated sugar, broil (without turning) 5 to 8 min., until hot and lightly browned.

2. Fry pineapple slices or chunks to go with chicken, meats, fish, or steaks. Drain the pineapple first, dry with paper towel, brown in a little lard or margarine. Takes about 10 min.

3. Glaze pineapple chunks and serve hot with browned corned beef hash patties or sausages or soup. Heat 1 cup drained chunks in 1 tbsp. butter or margarine, add 2 or 3 tbs. each catsup and brown sugar, and cook, stirring, about 15 min., until glazed.

4. Edge pineapple slices or half-slices with color to garnish platter of turkey, baked ham, meat loaf, salmon loaf, etc. Just roll edges in paprika, or in finely chopped parsley—or do some each way, and arrange alternately.

5. Top drained slices of pineapple with thin slices of green pepper; use as hot or cold salad. Or slice to accompany lamb or pork chops.

"gladdest" to see who. This permeation of good will was present also with all Floydada people in my meandering around — it never ceases like the post office that always showed a loss — they never stamped it out. So I'm back to the pleasant Co-op working day and have already discovered that a cigarette lighter works better if he takes his feet off the desk."

Corn Gaining Popularity

Sweet corn has become one of the most popular vegetables for freezing and probably has gained more in popularity recently for home and locker-plant freezing than any other vegetable, says the Georgia Experiment Station in reporting a 5-year study on the subject. The report notes that more of the newer varieties are being grown for freezing and a recent trend toward more intensely yellow varieties, both for attractiveness and higher vitamin A value. No relation was found between color and flavor and tenderness, however, the Station reports.

Those who are freezing sweet corn this summer may be interested in the following points stressed as affecting quality in frozen sweet corn: variety, condition when harvested, length of time between harvesting and processing, amount of scalding before freezing, and length of storage time in the freezer.

The station found that any variety of sweet corn good for eating fresh is good for freezing, though some varieties rated higher for freezing than others. Corn for freezing should be fresh, sweet and tender, gathered at the milky stage when ears are almost fully green. Then it needs to be processed as promptly as possible — within two or three hours, or if necessary to hold overnight, kept in the refrigerator or in cracked ice. Sweet corn is highly perishable. It hardens and loses sweetness not only if allowed to remain on the stalk too long but also if held more than a few hours after harvesting. The tests showed that during the first 24 hours after harvest sweet corn lost 50 percent of its sugars at room temperature and 27 percent when covered with cracked ice. Many home freezing specialists have advised harvesting and preparing small quantities of corn at

a time in order to handle it promptly so that it will freeze in best condition.

Corn on the Cob

Because of the popularity of corn served on the cob, many people want to freeze it this way. The Georgia Station says the advantages are that it is easy to prepare and takes a minimum of time from garden to freezer; the disadvantages are that the cobs take up so much freezer space — as much as 92 percent more than the cut kernels. The Station found it desirable because the heat must penetrate both kernels and cob to inactivate enzymes which otherwise both flavor and color of the frozen product. Corn to be frozen on the cob calls for an average of 19 minutes advance scalding compared to only 3-4 minutes for corn that has been cut off and frozen. Also frozen corn on the cob must be entirely thawed before cooking while frozen kernels or cream-style corn may be put on to cook while still frozen.

Whether corn is to be frozen on the cob or cut off, the first step is removing husks and silks, trimming, scalding and chilling the ear. The report suggests that for sweeter flavor ears may be scalded in water containing sugar.

Two mistaken ideas still held by some housewives and even some locker plant operators are: that corn in the husk may be successfully frozen with the husk used as the wrapper and that corn needs no advance heating before freezing. The Georgia scientists found that unscalded corn, whether in the husk or out, developed an unpleasant flavor within a month after freezing. Only about two-fifths as much space in the freezer was required by husked, trimmed, closely wrapped corn on the cob as that left unhusked. Pre-heating in the husk is not successful. The husks soften and separate and so give little protection as a wrapping, yet after freezing it is difficult to remove them and the corn stinks.

Tests in locker plants and home freezers show that frozen corn on the cob should be used in less than 9 months in the freezer, cream-style corn in less than 12 months, and whole grain corn in less than 15 months.

BRADLEY YEARY MAKES ANNUAL VIRGINIA VISIT

Bradley Yeary, of South Plains, returned several days ago from southwest Virginia, where he annually spends several weeks in the homes of four sisters in his native county of Lee. Three of his sisters are at Pennington Gap, on the Powell river. They are Mrs. Rebecca Barker, Mrs. Joe Myers and Mrs. J. D. Turner. The fourth sister lives at nearby Bristol, Virginia. A fifth sister lives in South Texas.

Mr. Yeary, the only surviving son of the family, had five brothers. He has been returning at least once a year to Virginia for the past seven years.

Mr. Yeary left Virginia, emigrating to Texas now more than 50 years ago.

LIBRARY NEWS

Thursday was our busiest day to date—that is the day we had most books checked out. Total of 86 in the central library. We credited the good increase to the rain.

We added 30 borrowers last week. Our radio hour next Friday is 9 a.m. instead of 9:15.

Our young readers are taking out a great many hero stories. Daniel Boone, Andrew Jackson, Custer's Last Stand, Benjamin Franklin, and Buffalo Bill all ride again from the door of the Floyd county library.

Perhaps the most popular book in the entire collection is "Lassie Come Home." We have four copies and it is a rare occasion when any returning copies stay with us a full day before going out again.

Our latest addition to the Memorial shelf is Mrs. Harry Morckel's gift, Young's Bible Concordance. It

was presented in memory of Maggie Davis. The library has just received an order that was over a year old. The books are just now being shipped. The books are: "The News, Summer Thunderhead, Nancy Cook's Mystery at Leaning Tower and Shadow in the Pines." We are describing a story hour by paraphrasing Count 'em. I led cakes prepared by Mrs. C.
