

WATSON CALLS FHS STALWARTS TO REPORT TUESDAY MORNING

Coach Preston Watson this week issued a call to all prospective football boys to report at the club house at 8 p.m. on the morning of September 1. Watson said that equipment would be issued and training would begin immediately thereafter.

The coaching set up will be the same as last year. Besides Coach Watson there will be Jack Meredith, Paul Huntington and Bobby McGuire to guide the 1953 edition of the Whirlwinds. The coaches are expecting between 60 and 70 boys to turn out unless farm work keeps some of them busy the first few days of the season.

Enthusiasm is high among the younger and less experienced boys this year as well as the returning lettermen. With only one returning starter from the last season all positions are regarded as wide open and there will be lots of hustle on the part of those hoping to make the team.

Two practice sessions a day are scheduled until school starts and after that the usual afternoon training period will be held. First game will be the night of September 11 at Crosbyton.

Ex-Whirlwind Stars Again
Adrain Helms came through for the fans again last Friday night at Wichita Falls when he made the starting line-up and turned in a fine game in the Oil Bowl there.

Playing the left half position Helms gained from scrimmage 11, 3, 2, 6, and 5 yards in five tries for an average of slightly more than five yards. He also returned kick-offs for 12 and 16 yards. Though not playing in the defensive line-up he probably saved the game for the Texans when he came across to

the opposite side to down Oklahoma's great half-back Jack Wilucki when it looked like he was going all the way with a Texas punt he had tucked away.

C. M. LYLES FAMILIES GATHER AT PARENTAL HOME

Mr. and Mrs. C. M. Lyles had the pleasure of having all their children and grandchildren home for the first time last Saturday night and Sunday.

Children and their families are Rev. and Mrs. Cloy Lyles and children of Chillicothe, Mr. and Mrs. Monroe Boteler and children from Artesia, New Mexico, and Mr. and Mrs. A. D. Lyles and boys from San Diego, California.

Thada Lackey To Sell Hereford Lions In "Auction Ring" Today

Thada Lackey's yen to make auctioneering a career is bringing her an interesting experience today at noon, when she fills an auctioneering date, the first since she graduated from an auctioneer's short course at A. & M. college this summer.

Her date is to sell—not jewelry, furniture, cattle or farm implements—but Lions Hereford Lions. And she will sell the "Lions" into captivity and servitude each for a day.

It's a stunt cooked up by the Deaf Smith capital city's Lions club. The club decided to raise some money and will auction off such members as they have time to sell in the brief period of a 30-minute program at their noon-day luncheon. The high bidder gets the Lion he buys for a full day to do whatever the buyer wants done. He'll be a "chattel" for 24 hours, so the report goes here.

The club employed Miss Lackey, as one of the southwest's few women auctioneers—first ever to attend an auctioneer's short course at A. & M.—to chant the buyers' bids.

A personable redhead, daughter of Mr. and Mrs. W. E. Lackey of Cedar Hill and sister of Mrs. Wanda DuBois of Floydada, Miss Lackey is reported to be undismayed by the prospect of invading the Lions den at Hereford and making her debut as an auctioneer selling human beings.

BUSINESS FOLDS

Other Interests

Claim Attention

Two of the youngest Floydada business men, Mike Matsler and Bill Potts, were down town Wednesday, carrying their wares right along with them.

They each had a shoe shine kit in wooden boxes all ready to shine the customers shoes right on the spot.

One more week they have before school starts, when the business venture will have to fold for the school term.

Mike is the 9 year old son of Mr. and Mrs. Leonard Matsler and Bill is the 6 year old son of Mr. and Mrs. Jim Potts.

Bill will enter school this year as a first grader, while Mike is a seasoned fourth grader.

Business wasn't so good Wednesday morning, but Bill said he "had some good business. Me and another kid made \$1.06 one time."

Worms, Bugs Threat To Big Cotton Crop

Good Enough Reason for the big smile on the face of W. E. Garrett, right, Floydada and operator of a White Auto Store. Here he is shown being presented a Leonard Home Freezer by W. Erle White, in a recent Wichita Falls presentation. Garrett also received a prize of \$250 in a system-wide sales contest in appliances.

Harmful insects, age-old enemies of the human race, are not going to permit a bumper crop of cotton and forage feed on Floyd county irrigated farm lands without a struggle. This week it became evident that the hordes which damage crops have outstripped the beneficial bugs. The tempo of spraying and dusting operations has been increased as a result.

Lygus bugs and bollworm infestations have cropped up in various parts of the county. In an occasional area also an army type of worm has started a march across some fields.

The county agent yesterday was in a gallop getting around over the county on inspection trips as he got reports from one section and then another, indicating active or threatened infestation. Boll worms in all stages from the egg on the plant to the active stage were discovered in some fields.

In a march across one field army worms took a 200-acre swath of fine looking cotton before the owner could get into action to battle them.

Record Crop Outlook

Meanwhile, unless the insects win the battle, or other disaster hits, there seems to be no doubt that Floyd county has the biggest yield of cotton out in the fields that its fertile lands have ever produced. Estimates climb weekly and although the number of gins has been increased in the area by three this season and all other gins have been primed for the utmost capacity, it is one of the probabilities that the gins of the county will be unable to handle all the volume again this year. Last season considerably more than 100,000 bales of cotton were produced in the county, but ginning figures in the census report showed slightly less than 90,000 bales ginned in Floyd county bounds. Production this season could easily run 125,000 bales if the now good looking acreage of late dry land cotton gets a chance to mature before frost date.

The first of the week cotton fields in areas that did not get heavy rains 10 days ago were still being watered on 24-hour schedules. Forage feeds, much of it now booting and some maturing, also are getting treatment from the wells in dry areas.

Outlook for ample bundle feeds for roughage, based on dry land reports, is good. Thousands of acres of cropland that got rain too late for cotton, was planted in this type of feed. With plenty of moisture production from this acreage could be enormous.

Rotary District Governor Coming to Floydada Tues.-Wednesday

Floydada's Rotary club will be host September 1-2 to Herschel Coffee, governor of the 183rd district of Rotary International, who is making his annual visit to each of the 37 Rotary clubs in northwest Texas.

The district governor will confer in assembly Tuesday night with officers and members of the Floydada club, and will address the regular meeting of the group at noon luncheon Wednesday.

Mr. Coffee is professor and head of the department of economics and government at West Texas State college in Canyon and is a member of Canyon's Rotary club. He is a past president, and was a director and program chairman of the club. He is also a commissioner of the city of Canyon.

He was elected district governor of Rotary International for the 1953-54 fiscal year at the annual Rotary convention in Paris, France, last May. He is one of the 212 district governors supervising the activities of some 8000 Rotary clubs which have a membership of 372,000 business and professional executives in 86 countries and geographical regions of the world.

Wherever Rotary Clubs are located, their activities are similar to those of the Rotary Club of Floydada, because they are based on the same general objectives—developing better understanding and fellowship among businessmen and professional men, promoting community betterment and raising the standards of business and professions, and fostering the advancement of good will, understanding and peace among all the peoples of the earth.

Revivalists Honor Alathean Guests

The Alathean class of the First Baptist church held their monthly covered-dish luncheon and business meeting Wednesday in the dining room of the church, when they honored the visiting revivalist Dr. E. S. James and the singer, D. C. Hamilton. They were special guests, along with the pastor, Dr. R. Earl Allen, Mrs. Allen and daughter Norma.

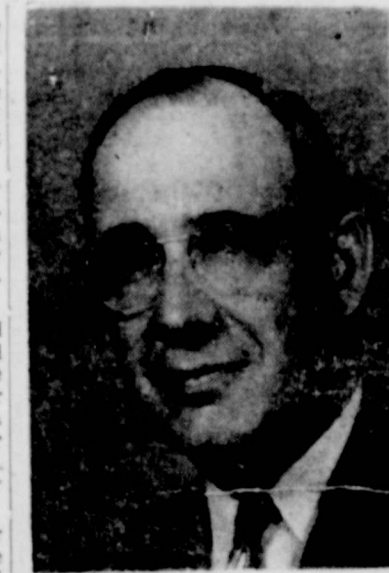

A bountiful lunch was enjoyed by the above guests, also Mr. and Mrs. Al Brian, Mr. and Mrs. Jo Wilson and Miss Vera Meredith and W. F. Cuipepper, W. B. Jordan and Mrs. Sue Herndon.

Members present at the meeting were Mesdames O. R. Goughly, J. A. Grigsby, C. E. Meredith, Katie Collier, L. H. Newell, J. R. Terry, and Mmes. W. B. Cantrell, W. A. Amburn, J. L. Coppell, M. C. Puga, A. H. Manning, W. F. Cuipepper and W. B. Jordan.

After the lunch, devotional was led by the president, Mrs. Katie Collier who also presided at the business session. Dismissal prayer was given by Mrs. W. B. Jordan.

MRS. L. C. McDONALD ILL

Mrs. L. C. McDonald was rushed by ambulance to the Lubbock Memorial hospital Thursday night as a result of a sudden illness. A complete diagnosis had not been made but she was reported rallying Tuesday of this week by her son, Clem McDonald. Mr. McDonald is staying at the bedside of his wife during her illness.

Rex Brown Runner-Up For Plainview City Championship

Defending champion Jack Williams of Plainview and Rex Brown of Floydada, met in 36 holes of golf on the Plainview country club course Sunday to decide the 1953 Plainview city championship.

Williams advanced to the finals with a 5-4 win over Rex Jordan last Friday afternoon and Saturday afternoon Rex Brown defeated Tom Davis 5-3 winning his chance at the title.

The two golfers teed off for the first 18 holes at 9 o'clock Sunday morning while the final 18 started at 1:30 in the afternoon. Brown lost one up. He was awarded medalist trophy and another prize for the runner up.

No other Floydada player entered the tournament. An award presentation was held at 6 o'clock at the club with pro Jack Walker making the awards. Sunday a gallery of about 30 Floydada people watched the matches.

Chester Mitchells are Backed For Master Farm Family Honor

Visitors last week in the home of Mr. and Mrs. Chester Mitchell were Miss Sallie Hill of Birmingham, Alabama, women's editor of the Progressive Farmer magazine, and C. G. Scruggs, associate editor of the Progressive Farmer, from Dallas. Mr. and Mrs. Mitchell live in the Pleasant Valley community.

Mr. and Mrs. Mitchell have been nominated as the Master Farm Family of Floyd county. This is a project of the Progressive Farmer to recognize outstanding families. The Master Farm Family movement was inaugurated in 1923 and three years later The Progressive Farmer and the Extension Service made the first awards in the south. The program was dropped during the depression, but awards were made in Texas in 1937, 1938, and 1941, then not renewed again until this year.

Floyd county was recognized in this program in 1926 when Mr. and Mrs. R. B. Gary of the Harmony community were selected the Master Farm Family for this district.

Eugene Butler, editor of the Progressive Farmer, says, "It isn't enough for a man to be a good farmer or for his wife to be a good homemaker or for both to be good citizens and good leaders, Master Farm Family awards are based on high standards in all these fields." With these principles in mind, the Chester Mitchell family was nominated by the various agricultural agencies and other friends in Floyd county.

Miss Hill and Mr. Scruggs interviewed Mr. and Mrs. Mitchell for their magazine. Miss Hill said the Mitchells were among the 19 families visited in Texas out of 49 or 50 nominations. Miss Lella Petty and Bill Rodgers, Floyd county Extension agents, were also present at the interview.

The Mitchells have three children; Shirley, Warren and Neal. Mrs. Mitchell is a member and former secretary of the Pleasant Valley Home Demonstration club. Both Shirley and Warren are members of the 4-H club and are Scouts. The family attends the Baptist church in Lockney and are outstanding workers in their congregation.

ROSSONS AT BAINBRIDGE, GEORGIA, AIR BASE WITH SON

Mr. and Mrs. Bob Rossion and twin daughters, Gaye and Gayle, left Monday for Bainbridge, Georgia, where they will visit with their son, Lt. Barry Rossion, who is stationed there with the Air force.

Lieut. Rossion will receive his degree from North Texas State college at Denton in absentia. His class will graduate Friday night at the Denton college.

Lieut. Rossion made his first solo flight at the air base on Monday.

Builders Mart, REA, Play Tonight For Chance at Undeclared Farmer

Whether Builders Mart or REA will meet undefeated Farmer Monday night in the contest for tournament championship, will be determined tonight. The two clubs, each with a loss charged against them, will meet at Jaycee park. The game ought to be a good one.

The winner will go on to play Farmer Monday night. The three teams will place one, two, three, depending on the fortunes of the diamond.

Mrs. Gene Collins, jr., president, will preside.

Center News

(By Mrs. J. E. Green)

CENTER, August 25—We are enjoying the nights and mornings since the rains, but the afternoons still remind us it is August.

Men are busy plowing late row crops, or replowing their wheat stubble. All the men take turns about working on the church.

Church services were held last Sunday in the R. C. Ross home. Visitors in services Sunday were Barbara McAda and LaFawn Ballard of Floydada, Bonnie Upton and Virginia Taylor of South Plains and Margaret Vaughn of Plainview. Miss Vaughn is a student at Wayland college. Her home is in Brazil. She has just returned from a visit with relatives in Florida.

Jimmy Dunn reached home Saturday from a vacation trip to points in Arkansas. He made the trip with a group of school friends.

James David Welborn reached home Monday after spending several weeks working on an irrigated farm near Carbondale, Colorado.

Bobby Mack Welborn left Tuesday afternoon with friends to spend a few days vacation at Ruidoso, New Mexico.

Mr. and Mrs. J. D. Welborn returned Friday from Tucumcari, New Mexico, where they took his mother, Mrs. Ida Welborn, to visit another son, Robert Welborn and family. After a few days visit there Mrs. Welborn planned to go to Cimarron, New Mexico, to visit a daughter and family.

Bro. and Mrs. Hodges and Mr. and Mrs. Mankins were Sunday dinner guests in the R. C. Ross home.

Mrs. Hodges, Mrs. Green, June Hartline and Donna Welborn attended the W.M.U. association Tuesday at First Baptist church in Lockney.

Center W.M.U. met at the R. C. Ross home Monday afternoon. There were six women present and four sunbeams.

The Earl Huckabees accompanied by Mrs. Huckabee's parents, Mr. and Mrs. J. T. Myrick of South Plains reached home Tuesday from an eight day vacation trip. They visited in Summerville, Georgia and Chattanooga besides going up on Lookout Mountain.

Mrs. O. C. Vinson returned the first of the week from Corpus Christi where she spent sometime last week with a sister who is ill in the Naval hospital there.

Bro. and Mrs. Hodges and Jerry left today for a few days vacation in the mountains.

Mr. and Mrs. Green visited Monday evening in the D. I. Bolding home.

Church services will be held next Sunday in the home of Mr. and Mrs. Leo Frazier.

Mr. and Mrs. Carl Nelson are the parents of a baby daughter born Friday afternoon at 5:25 o'clock, August 21, in Peoples hospital. The baby weighed seven pounds and three ounces and has been named Carla Willene.

N. A. Armstrong, pioneer Floyd county cattlemen, who has been a medical patient at Peoples hospital for the past two weeks was reported Wednesday as much improved.

Mr. and Mrs. J. P. Moss, Judy and Margaret, are vacationing in Colorado, the Black Hills and Yellowstone National park this week. They plan to return home Sunday.

LIPSTICK LOGIC
BY LOUISE ALLEN

We've just learned that the "average" housewife washes dishes for 30 years. That she probably dries 72 stacks as high as the Empire State building. That she could add 364 leisure hours to her life each year if she could dispense with this bit of household drudgery.

Just about the time we develop a philosophy about an everyday duty such as dishwashing, some statistician gets to snooping around and comes up with some facts that throw the whole thing out of perspective again.

We've spent years convincing ourselves that dishwashing time is good visiting time — provided we can lure another member of the family in to dry them. Or if we're going it alone, it's a time to think things through, plan the day's work, listen to the radio. At times we even fall for the singing commercials, so that we feel we're abnormal if we don't dance into the kitchen, sniff the glorious suds and whistle as we work!

Now comes this news about the skyscraper stacks of dishes we're doomed statistically to spend a lifetime drying. It's depressing.

We know a man who collects beautiful dinner plates. Once when his wife was ill for several months he had to prepare the meals and do the dishes. He got so bored looking at those same plates three times a day that he vowed he'd buy her a variety of beautiful ones to wash and dry thereafter.

Others try to beat the dishwashing game by using paper plates. This, alas, takes all the fun out of eating, which is worse than washing and drying pleasing pottery.

As soon as we've had a few days to recover, no doubt, we'll be able to face a sinkful of dishes once more without seeing skyscrapers. But right now the news is staggering.

Guests of Mr. and Mrs. J. C. Wester last week were Mrs. Wester's niece and husband, Sgt. and Mrs. C. D. Norris of Long Beach, California.

Mr. and Mrs. L. B. Barteo, of Abilene, were here Thursday, guests for a short time of the family of their son, L. D. Barteo, soil conservationist with the Floyd County Soil district.

Barbeque Supper For Lockney B & PW Club Tuesday

Miss Leila Petty, Mrs. Ada Bailey and Mrs. Rita Webster were hostesses to the members of the Lockney Business and Professional Womens club at a steak barbeque supper in the yard of the Bailey home, near Lockney on Tuesday evening.

After the delightful supper, a miscellaneous personal shower was presented to Miss June Haggard, the Club's scholarship girl, who is to enter Texas Christian university in September.

Mrs. Albertine Irons presided during the business session, in the absence of the president, Mrs. Betty Knox who was on vacation.

Plans were discussed pertaining to attending the district meeting to be held in Dumas in September.

Present at the meeting were Mesdames Francis O'Hearn, Ethel McAdams, Birda Foster, Wanda Baker, Estell Powers, Jeffry Griffith, Leo Turner, Jo Ann Moody, June Bybee, Ellen Wiley, Dorothy Shipp, Albertine Irons and Miss June Haggard, special guest, and Mesdames Rosita Hollar and Winnie Angus.

Old Settlers Meet For 28th Session

This morning at 9 o'clock registration began in the city auditorium at Ralls, marking the beginning of the 28th annual West Texas Pioneer and old settlers re-union.

J. Edd McLaughlin is again president of this years reunion and is to welcome the guests and old settlers.

At noon a basket dinner is scheduled when the Lions clubs of Ralls, Lorenzo and Crosbyton and the Rotary club of Ralls are to join the pioneers at the dinner.

In the afternoon an old fiddlers contest will be held with prizes of \$30.00 for first, \$25.00 second and \$20.00 third. Only persons over 50 years of age are eligible to enter the contest.

Following the afternoon program, a visit to the cemetery at Old Emma will be made by the pioneers.

At night a square dance is to be enjoyed by the guests.

Mrs. Ruby Ellis Gilson is secretary-treasurer of the association.

Mrs. Kenneth Rimmer is in Cleburne this mid-week, where she was called Monday by the illness of her sister, Mrs. Perry Threadgill.

Week-Old Phone Strike Still On

Last Thursday morning, a telephone operator strike caused the Floydada housewife no little annoyance at not being able to get a grocery order in to the groceryman in the usual prompt manner. She soon found that a strike was on and only official staff and three of the operators were at the office on California street.

The local office has a personnel of about 20 workers, including the traffic operators, one commercial worker and maintenance workers. Five men workers are included in the strike.

Supervisory employees of the company may not strike. There are nine members of the telephone operators' union in Floydada with three non-members. All union members are off duty.

A union representative Wednesday said the main point in the strike seemed to be not so much the 7 1/2 cents an hour increase in salary as in the alleged refusal of the phone company to sign the operator's yearly contract, which is usually signed by the company in May and as yet has not been signed.

Another contention is that the company is trying to take seniority away from the operators.

Monday morning and again Wednesday, union members and officials from Plainview were in Floydada and had a caucus with the nine operator union members.

There is no complaint on the working conditions at the local office. The office of the union stated the plant is comfortable, maybe a little crowded, but there is an air conditioner. (Some offices of the company do not have an air conditioner).

There has been no picketing at the office nor has there been any violence at the office.

Most of the patrons of the telephone company have been patient in getting their calls through, realizing the handicap with having only half of the normal crew of workers, and no unusual hardships have been reported.

Three New Homes Are Being Built

Three new homes are being constructed in Floydada, two in north Floydada and one in southwest part of the city.

Mr. and Mrs. W. J. Adams, jr., new home on West Lee street is under construction with Brunner Lumber company of Lockney having the contract.

Mr. and Mrs. Jack Kassahn have a new home on West Grover street which the Brunner company also is building.

Mr. and Mrs. A. V. Womack jr., are to be in their new home soon which is being constructed on South Fourth street by Willson and Son Lumber Company.

Home Garage Fire Does Big Damage

Sunday morning at 3:30 o'clock fire was discovered in the garage and storeroom at the J. V. Daniel home, 425 West Missouri street.

Floydada Fire department answered the call and arrived at the scene.

Mrs. Daniel's 1941 Packard was destroyed and materials stored in the garage which was partially destroyed. The garage was only modeled with new car and the garage. The undetermined origin.

To get results use water.

Drapery Workshop Session Tomorrow

A workshop on drapery making was held in the council room of the court house on August 12 and 13, and on Thursday and Friday of last week. Two sections were held, and a final meeting for both groups will be on Friday afternoon, August 28, at 2:30. The workshop is being directed by Miss Leila Petty, county home demonstration agent.

Each person attending made a small drapery complete with pleats. The small drapery has all the construction details as a large one and will serve as guide in making window-size draperies.

Attending the workshop were Mesdames B. P. Neff, Verlon Wright, J. H. Owens and Earl Edwards, sr., of Lakeview; R. C. Mitchell, L. K. Sherman and Shirley Race, Pleasant Valley; Howard Gregory, John Lloyd, Floyd Fuqua and D. T. Mayo, Homebuilders; Albert King and Raymond Teeple, Lone Star; N. S. Abbott, Lockney; J. H. Buchanan and Harry Morcike, Friendship; W. B. Jordan, Center; C. W. Donison and W. O. Tye, Sunnyside; Grigsby Milton and Murray Julian, South Plains.

CLUB MEETING THURSDAY WILL BEGIN A NEW YEAR

The 1929 Study club will have their first meeting of the club year on Thursday morning, September 3, in the home of Mrs. Ross Henry at 716 West Missouri street at 9:30 o'clock, when Mrs. Kinder Farris will give a book review.

The meeting will be a morning coffee.

Wayne Day, Lloyd Cumble and Will Taylor attended the funeral in Fort Worth Friday of B. W. Narron, who died Thursday at his home in Fort Worth. Mr. Narron was manager and owner of the Truckers Exchange in Fort Worth and a personal friend of Messrs. Day, Cumble and Taylor.

Look what your FORD dollar buys !

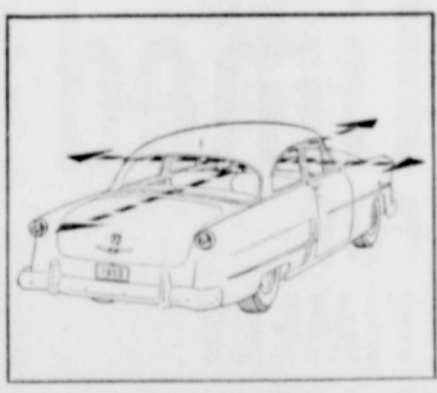

Check the features below against any car in the low-price field and you'll see why Ford's worth more when you buy it...worth more when you sell it.

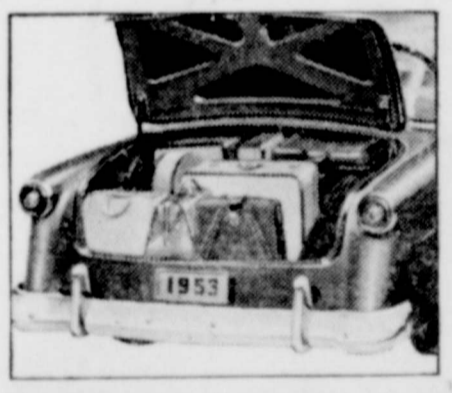

V-8 POWER is yours in Ford—but not in other low-priced cars. It's the product of Ford's experience in building over 13,000,000 V-8's! Ford's high-compression, low-friction Mileage Maker Six with Overdrive, is the Economy Sweepstakes winner.

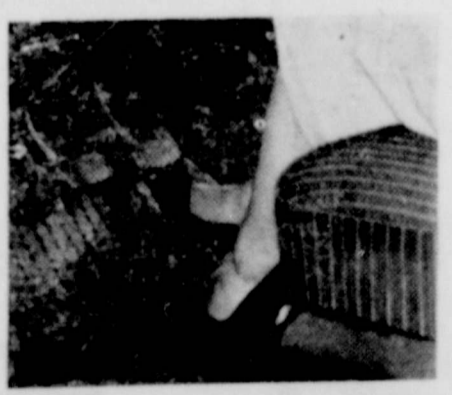

ROAD-LEVELING RIDE reduces front end road shock alone up to 80%. Wide front tread, diagonally-mounted shock absorbers take tilt out of turns. You'll discover in the '53 Ford that a car need not be excessively heavy to ride smooth as silk.

FULL-CIRCLE VISIBILITY is yours in Ford. With huge, curved, one-piece windshield, car-wide rear window and "picture windows" all-around, Ford has more "look out" area than any car in the low-price field. I-REST tinted glass also available.

ROOMY TRUNK is one suitcase bigger... bigger than any other luggage compartment in Ford's field... bigger than you'll find in many of the expensive cars. With Ford's Center-Fill Fueling, there's no long gas-fill pipe to eat up your trunk space.

SUSPENDED PEDALS make braking and clutching easier... allow more clear floor space... eliminate dusty, drafty floor holes. This feature, exclusive to Ford in its field, permits dash-mounting of brake master cylinder for easy accessibility.

FOAM-RUBBER CUSHIONS over non-sag springs in Ford's sofa-wide seats make even long trips a treat. And you'll find that only Ford in the low-price field offers this fine-car feature as standard equipment on both front and rear seats in all models.

FORDOMATIC DRIVE—an optional extra—is really two automatic drives in one. It has a fluid torque converter for smooth, steady power flow. It has automatic gears for greater "get-up-and-go." Ford also offers you Overdrive and Conventional Drive.

MASTER-GUIDE POWER STEERING—an optional extra on V-8 models—gives you the natural "feel" of steering on the straight-away yet takes the work out of turning. Absorbs road shocks before they reach the steering wheel—adds to safety.

If you're interested in used cars, be sure to see our selections.

VIEWS AND COMMENT

Ground Water Depletion. Quoting Senator Lyndon B. Johnson, "Two-thirds of the irrigated acreage (of Texas) is based upon ground water resources. These resources are gradually depleted by irrigation water demands. Production from this land therefore cannot logically be considered a permanent part of the future agricultural economy of Texas. The picture this presents is clear and unpleasant. Texas faces an eventual substantial reduction in farm income unless ground water can be replaced with irrigation using surface waters." A lot of Floyd county people are betting the senator is wrong. His statements are based on a Bureau of Reclamation survey of the Texas water problems.

A Good Many People on the ground evidently view the underground water supply outlook with a less jaundiced eye. At least they are spending their money that way. More and more the "irrigation district" grows. Even in Floyd county there is still a considerable increase every week in the number of wells either drilled, drilling, or contracted. One of the major topics of street corner conversation the past week has been the favorable outlook for wells in the "condemned" sections due to the visit of a "water witch" who has located what he terms underground streams. Where his signs say they cross and both at considerable widths he tells the land owners to drill. He has batted a thousand per cent so far. One or two farmers who "witched" the past summer have good wells and a 100 acre or so of feed or cotton "under" the well that promises high yield. It may happen that the underground source will dry up, but it hasn't yet, they say. It is difficult to argue against 4,000 pounds of maize to the acre. A man had much rather believe what he sees in the field than believe a report of the reclamation bureau about a catastrophe right around the corner.

Many think that a reclamation bureau man is just another ten thousand dollar scientist who likes to put down on paper some of his chosen theories, and as for the senator, it may be true he has made his million. But as mortals conclude, sometimes a man makes a million because he was riding the right horse at the right time. Also there are scientific water source tomes in the files of the University of Texas which foretold disaster and distress for plains people who depend on underground water forty years ago. Perhaps the smart men have cried wolf so many times people have become callous. At least they are still betting a lot of money on the underground water supply in Floyd and other high plains counties. If the predictions of the reclamation bureau and the senator come true there won't be enough room at the Wailing Wall.

In a swiflet for months due to our free wheeling discussions of the rainfall for the planting season of 1953, we now have to take

the negative side of the proposition that there will be an early freeze. We contended during the rain-less days of the winter and spring that, while the farmers might not get the rain when they wanted it and possibly not in time to plant what they wanted to plant but what they ought to plant, still there would be rain in time to make a crop. The only way that can happen on thousands of acres and the only way we can be right is for the signs to fail, prairie life, throaty frog chirps, pungent-odor Jimson weeds, mid-summer locusts, tree bark, July northers and all. Even the scientists. We're against them all. We want a killing frost date not earlier than October 18 and we've got to have it. A few nippy nights to make late feed and late cotton dry out and hurry up maturing. But no killing frost until at least the 18th of October. Everybody that looks at it the same way subscribe for The Hesperian!

Farmer Magazine Tells of Jobs Done by Troy L. McNeill

The outstanding work of Troy McNeill, Floyd county 4-H'er, is described in the September issue of The Progressive Farmer magazine. In an article "Leaders of the 4-H Council," it is explained that Troy

is well qualified for his position as co-chairman of the State 4-H council. He has a rich background in 4-H work and is an experienced leader.

Troy has won many local and state honors. He has won the Santa Fe award for records and attended 4-H club Congress. He made the Talent club tour in 1951, and won the Dansforth award in 1952. In 1952 he was also a state achievement winner. This year he attended national 4-H club camp in Washington, D. C.

Troy plans to attend Texas Tech and major in sociology and agriculture.

Name Officials For S-P Fair

LUBBOCK — Approximately 3,000 catalogs for the 36th annual Panhandle South Plains fair, scheduled for September 28 through October 3, have been mailed to exhibitors, county agents, home demonstration agents and vocational agriculture leaders throughout the area, according to Charles L. Adams, Jr., president of the Panhandle South Plains Fair association.

Fair officials are predicting a larger attendance than in 1952 when a record-breaking total of 168,369 paid admissions were recorded, Adams said. More and larger displays are expected and more agricultural and livestock exhibits are expected, he said.

General superintendent of the agriculture department is Walter Y. Wells of the Production Marketing Administration; general assistants

are Raymond L. King, Lubbock Cotton Oil company, and Leo L. White, county agent, Yoakum county, Plains.

Dean Walls, Floydada, is serving as superintendent of the Aberdeen-Angus cattle division of the live stock department and Bill Rogers, county agent, Floyd county, Floydada, is superintendent of the Junior Agriculture Division.

Highway Accident at Ralls Crossing Hospitalizes One

Saturday evening around 7:30 o'clock, Lyndal Patterson, of Lubbock, enroute to Floydada, lost control of his car near the Ralls Crossing in Blanco canyon and crashed when his car overturned.

Dr. Steve Marshall of Roswell, New Mexico, who had been here visiting his parents, Mr. and Mrs. L. A. Marshall, was enroute to Lubbock, stopped and rendered first aid to the injured man before the ambulance arrived.

Patterson was brought to Peoples hospital, by Harmon ambulance, Jim Jones notified Harmon's of the wreck.

Upon examination, at the hospital Patterson was said to have received severe back injuries and head injuries.

His parents, Mr. and Mrs. L. L. Patterson of Lubbock arrived at the hospital later in the evening.

He was removed to Lubbock for further examination Sunday afternoon.

Mr. Patterson is employed by Southwestern Bell Telephone company in Plainview but was enroute from Lubbock to Floydada to visit friends.

The car was badly damaged.

Rats and mice are a constant danger to human health. They are a source of disease to humans, and poultry. Rats and mice also are a source of property means money.

Control is a five-fold process:

1. Seal up all cracks and holes in the building.
2. Clean up the barn and surrounding areas.
3. Use traps and poison.
4. Use fumigation.
5. Use rodenticides.

LIBRARY NEWS

(By Mrs. Rosita Hollar)

Nancy Ann Golightly left us this week to make preparations for attending Howard-Payne college in Brownwood. We count ourselves fortunate to have had Nancy Ann this past summer. She has worked in the local high school library and was for a year a student assistant in the library at Wayland college. Her experience coupled with her other qualifications gave unusual aid for the summer. Nancy is to be employed in the library at Howard Payne as a student assistant.

Our new staff member is Mrs. Ivy Pearl Reber who takes the vacancy left by Miss Golightly. She began work this week and is "learning the ropes" nicely.

Just in! A shipment of new books. These are largely books for young readers. Staff favorites are: **SQUIRRELY OF WILLOW HILL** by the Haders; it is a beautiful read aloud book done as only the Haders do small animals.

Marguerite Henry's beautiful **ALBUM OF HORSES** is a book written and illustrated for every one who likes horses. Another book we recommend to all comers is **MAYBELLE THE CABLE CAR**. This little masterpiece is written and illustrated by Virginia Lee Burton and gives the history of San Francisco's unique transportation system and why there are still some cable cars operating in the city of the Golden Gate. This cable car book is another good read aloud

book.

Our radio hour is 9 a.m. Friday for the rest of August.

Mrs. Leo Turner who cares for our library interests at Lockney came in to visit our central collection last week. She selected a box of books for borrowers with special interests.

Myrna Wilson and Glynell Armstrong told the story for Saturday's story hour. Ann Welborn was having a well deserved "day off." We plan to get a tape recording of the story hour before Ann leaves for school. Carl Minor, Jr., of KFLD has volunteered the time and facilities for the recording.

Brac Biggers set up the film and directed the show for the story hour this week. Southwestern Public Service sent us the film.

Seventy story-hour guests were served refreshments at the end of a banner story hour. Mrs. P. A. Denison furnished the refreshments.

The library reports a memorial book in memory of O. E. Murry given by Mr. and Mrs. M. J. McNeill. A sports book was chosen because of Mr. Murry's interest in the game in which his sons participated.

The highway patrolman who examines for drivers licenses kindly brought the library a copy of **TEXAS MOTOR VEHICLE LAW** with several copies of the **DRIVERS HANDBOOK**.

Far more miles per gallon on the trips YOU take!

On long trips, short trips, all trips, you get far greater gas mileage out of a '53 Chevrolet. It offers important savings in everyday driving over everyday roads!

Out to the golf course. Off for a week-end of fishing. Half across the country on a full-scale vacation. *Wherever* you go—however you drive—you're going to get there on a lot less gasoline in a fine new Chevrolet.

The truth is, this year's Chevrolet owners are enjoying the most important gain in economy in Chevrolet history. Plus more power. Faster acceleration. More "steam" for the steep hills.

That's the beauty of Chevrolet's two great high-compression engines—the new 115-h.p. "Blue-Flame" engine in Powerglide* models, and the advanced 108-h.p. "Thrift-King" engine in gearshift models. They squeeze much more out of regular gasoline—more miles, more pleasure.

Along with this greater gas mileage, you get lower over-all upkeep costs. And Chevrolet is the lowest-priced line in its field. Drop in and let us show you how you'll be better off in every way with a 1953 Chevrolet!

*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

Re-Union And Rodeo to Open At Ralls Today

Thousands of visitors are expected to attend the 28th West Texas Old Settlers reunion being held at Ralls August 27 in conjunction with the 2nd annual Jaycee rodeo, August 27-28-29.

Pioneers will begin registration at 9 a.m., August 27, followed by the customary visiting among old-time friends, a basket lunch at noon and square dancing in the evening. An old fiddlers' contest will be held at 2 p.m., open to contestants over the age of 50. First prize is \$30, with a \$5 prize going to all who enter.

The Jaycee rodeo opens the same day with a parade of floats, sheriff's posses, bands, and contestants at 4 p.m. The NPRA-approved rodeo begins at 8 p.m. on each of the three days. Nearly \$2,000 in cash prizes are offered to winners, in addition to three Leddy roping saddles and silver buckles. Events include bronc riding, ribbon roping, bareback riding, calf roping, bull riding, wild mare race, bull scramble and ladies barrel race. Stock is furnished by W. W. Branscum of Muleshoe. The announcer is John Townsend of Henrietta, Texas.

This year's rodeo will feature between-the-act entertainment, with rodeo clown and special horseback maneuvers by area riding clubs. Rodeo fans will have at their disposal a new paddock swimming pool, constructed by Ralls Jaycees from funds derived from the annual rodeo.

Dancing will be held nightly during the three-day affair.

Seymour Re-Union Marks Presence of Five Generations

SEYMOUR — The second annual reunion of Mrs. Fanny Laney, her sisters and brothers was held in the Seymour City Park, under the spacious shed on July 25 and 26.

Those children of the original family present were: Mrs. Fanny Laney, Seymour; Mrs. Rittie Richardson, Floydada; Mrs. Lydia Mil-

ler, Mr. D. G. Holden, Hamlin; the Companions of those deceased who were present were; Will Stewart, Lubbock; Mrs. Rosie Holden, Hamlin.

A Picnic lunch was served Saturday night.

A barbecue and steak dinner with all its trimmings were served Sunday at noon.

There was five generations present of whom were: Mrs. Fanny Laney, who is ninety years old and one of the honorees, her daughter Mrs. V. V. Vaden and her son Mr. Edward Vaden all of Seymour; Mrs. Sterling Lewis, the former Elaine Vaden and her small son, Bobby Lynn, five weeks old, of Knox City.

Others Present included: Mr. and Mrs. Nealy Richardson and two children; Mr. and Mrs. Harold Bennett and two children and Harvey Allen from Floydada;

Mrs. C. L. Lively, Lubbock; Miss Jo Ann Pollard, Gatesville and Mrs. Edward Vaden, Seymour, 1953 Committee Members were carried over for another year.

New Seed Test Fee Announced

AUSTIN, August — A new seed testing fee system will be put into effect September 1, by the two seed laboratories operated by the Texas Department of Agriculture in Lubbock and Austin, Commissioner John C. White has announced.

A complete test of all seed will be made for \$2.50 with the exception of chaffy grasses, native grasses, mixtures and trashy seed. This fee can be broken down to \$1 for germination tests or \$1.50 for purity analysis, only.

A fee of \$5 will be levied for purity and/or germination tests of the four exceptions — chaffy, native mixtures and trashy seed. During a rush season, however, trashy seed may be rejected for testing purposes, White added.

Noxious weed seed will be examined for \$1 per sample.

Analysis of seed by an accredited laboratory is required before legally offered for sale without the tag from the Department of Agriculture.

Charge for a seed tax has been increased from 1 to 2 cents. The Texas seed law requires that one tag be attached to each container or bag of seed sold or exposed for sale in the amount of 100 pounds or a fraction thereof.

Money for the tests must accompany the samples. Checks or money orders should be made to the Texas Seed Act Fund. Charges will be effective on all samples which reach either of the two laboratories after September 1, regardless of the postmark date, White said.

This will be the first year the Texas Department of Agriculture has charged for seed tests. The fees are the result of a new plan to make the department more nearly self-supporting and less dependent on the taxpayer's money.

Commissioner White said he had not asked the legislature for appropriate tax money for this project for the next two years. The fee system was initiated so that the expense would be borne by those who benefit from the service.

Mrs. G. Scott King had as her guests, last week, her children, Mrs. Rolein Smith and children of Fort Worth, Mrs. Rusty Russell of Mineral Wells and Mr. and Mrs. Dale King and son, Scotty of Plainview, formerly of Umbarger.

PEGGY GAIL ANDERSON

Peggy Gail Anderson, 17, daughter of Mr. and Mrs. B. L. Anderson, sr., of Ralls has been chosen by Ralls Jaycees as their official Hostess and Rodeo Queen at the Second Annual Jaycee Rodeo being held August 27-28-29. Miss Anderson is a senior student at Ralls high school, is editor of the school annual and cheer leader. She is an expert rider and lives on a farm six miles south of Ralls.

At Glorietta, NM, Baptist Assembly

A group of Baptist young people left Monday morning for Glorietta Baptist assembly at Glorietta, New Mexico, where they will remain for the week, returning home Saturday.

Included in the party were Al Brian, youth director of the First Baptist church, Bill Hardin, Bob Durham, Donald Evans, Jerry Oden, Ray Cook and Misses Sammie

Copeland, Jo Day, Dot Holmes, D'Ann Withowski, Gloria Ratjen Carolyn Kiker.

Miss Janet Lloyd, who attended the assembly last summer, and Miss Betty Veach left with a group of Texas Tech students from Lubbock earlier, and will join the Floydada group.

The theme was "Christ Meets the Need." On Tuesday there will be morning services with the afternoon for recreation.

Mr. and Mrs. W. Fred Cox from Edmonton, Alberta, Canada, flew in last Friday from Canada. They had brought their daughter and family home to Fort Worth after a vacation in Canada. They are visiting her father, P. M. Smitherman, and brothers, John and Ernest Smitherman and their families. Mrs. Altha Edwards, of Wichita Falls, is visiting here with the Cox family. She will accompany them back to Canada for a visit there.

Marine Sergeant Jack Reeves arrived home this Friday from Washington, D. C. where he has been in training. He is visiting here with his folks, Mr. and Mrs. Sim Reeves and family. He is through with his service training. This coming winter he will go to Roswell, New Mexico, where he will be an English instructor in the high school there.

Mrs. Billy Bean Complimented

At Shower Thursday

Mrs. Billy Bean was honored at a pink and blue shower on Thursday afternoon of last week in the beautiful home of Mrs. George Weast.

The hostess and honoree received the guests at the door. Mrs. Douglas Beedy presided at the guest register.

The rooms were lovely with cut flowers and the dining table held pink roses in a novel decorative scheme with small booties and cradles surrounding the flower arrangement. Mrs. S. A. Thornton poured punch and Mrs. K. W. Cook served cookies and sand tarts with pastel mints at the refreshment table. The table was laid with a beautiful pastel linen cloth.

The honoree and Mrs. Gilbert Bean were presented beautiful corsages of yellow and pink asters.

Co-hostesses with Mrs. Weast were Mesdames H. L. Marble, S. A. Thornton, Douglas Beedy, Ernest Hucksabee, L. N. Johnson, George Beedy, Kenneth Cook, Sim Reeves, John Smitherman, Ralph McGuire, and Garvin Beedy.

Registering and presenting gifts

Sending gifts were Mesdames E. L. Woodburn, W. S. Thomas, sr., G. D. Russell, Kendall Cummings, A. L. Stewart, Elmo Reeves, Chas. Boedecker, Bill Beedy, Bryan Smith, E. A. McLeod, Jack Calahan, Hillburn Casey, Frank Brown, W. S. Thomas, Jr., Dick Guest, Arby Mulder, Paul Snodgrass, Walter Wood, L. T. Wood and Miss Shirley Reeves.

On Friday evening Mr. and Mrs. Otho Sanders and family were hosts at a lawn supper at their home. Those who enjoyed the supper and an evening of visiting were Mr. and Mrs. B. A. Howell and Mr. and Mrs. J. F. Colston of Sterley.

Mr. and Mrs. E. T. Evans and children from Amarillo, were visiting her parents, Mr. and Mrs. George Weast on Saturday afternoon. Saturday night guests in the Weast home for an evening of "42" were Mr. and Mrs. Otho Sanders and children.

Mr. and Mrs. L. T. Wood and Juanel left on Friday for their vacation which will take them first to Ruidoso, New Mexico, and other places of interest in that state. They will visit her parents, Mr. and Mrs. S. C. Waller in Tucumcari. They plan to go up into Colorado for a few days. They will be gone about a week.

Mr. and Mrs. Bryant Higginbotham and sons enjoyed a short visit of his brother, Arch Higginbotham of Wichita Falls. He arrived on Sunday and visited with them until Tuesday.

Mr. and Mrs. J. B. Thames and children went to Plainview on Thursday evening of last week.

Mr. and Mrs. Thames, sr., of Plainview came to spend Sunday with the children.

Mr. and Mrs. George Weast were hosts at a lawn supper at their home on Thursday night of last week. The occasion was the birthday of Mrs. W. R. Smith of Sterley. Supper was served from seven until eight. Those who enjoyed the evening were the honoree and her husband, W. R. Smith, Mr. and Mrs. Brian Smith, of Lockney; Howard Smith, of Sterley; Mr. and Mrs. Jill Thompson and two grandchildren of Plainview and Mr. and Mrs. Robt. Lee Smith and children of Sterley.

The children of Mr. and Mrs. R. E. Young were home with them Sunday for a bountiful dinner. In the afternoon Ted Pitts entertained them with slides of Deral Young and La Faun's wedding and other pictures of interest to the family.

Mr. and Mrs. Don Sherbut have been visiting friends and relatives in and around Lubbock the past week. Don will go to New Jersey on September 15. From there he will be sent to Europe. He has been an M. P. at Fort Som Houston. Those who enjoyed the day with their parents were Mr. and Mrs. Don Sherbut, Mr. and Mrs. Ted Pitts, Larry and Stevie from Lubbock, Mr. and Mrs. Seymour Brannon and sons from Silvertown and little Sam Wade Allen.

Winnie Hartman celebrated her seventeenth birthday with a slumber party at the home of her parents, Mr. and Mrs. Harry Hartman last Saturday night. Those who spent the night with Winnie were Bonnie Upton and Virginia Taylor here and Patsy Robertson and Barbara McAda from Floydada. They all attended the morning services of the church in Center which was held Sunday at Mrs. Ross home.

The Fortenberry annual family reunion was held this year at Clovis, New Mexico, at the I.O.O.F. Hall. It was held last Friday and seventy five registered. Devotional periods, talks, music and singing were enjoyed by everyone. A bountiful dinner was spread at noon. Mr. and Mrs. Fred Fortenberry and Elmo attended from here.

The previous record of 50,446 feet was set in 1948 by a British Vampire jet.

HOLIDAY BOOM

January, February and March have become increasingly popular months for vacation-minded Americans. A recent survey reveals that 15,000,000 persons took vacations during the first 90 days this year.

This is more than twice as many winter vacationers as there were in 1940. The survey indicated the trend is likely to continue.

British Jet Claims Altitude Records

LONDON — A new world's altitude record of 63,666 feet is being claimed by the British Camberra jet, the first type of plane to cross the Atlantic Ocean both ways in one day.

The claim is made by the Royal Aero Club. The club has submitted its record claim to an international ruling body for authorization.

As A Farm Woman Thinks

(by Nellie Witt Spikes)

Long, long after,
When new settlers put up beam and rafter,
They asked of the birds, "Who wanted this fruit?"

As we watch the new and beautiful homes go up on these South Plains of West Texas, these lines come to us: Who gave this fruit? The answer is the pioneers set out the fruit bearing trees, so to speak. They stayed through good and bad, cold and heat, drought and rain. They did without, they labored long and hard. Now they watch the beams and rafters go up, see the wonderful inventions for beauty, comfort and ease, look over the acres of fruiting fields where water comes from deep under the ground.

The pioneers, the ones who are left, are meeting once more to remember and talk of the past. Coke Fullingim's fiddle will bring up memories when feet were nimble and bodies young and strong to dance to the merry tunes. Women will talk of lace stripe hose, ruffled gingham and organdy dresses, huge cobbles and chess pie. The men will recall the best old cutting horse a man ever had, or tell of an experience in hauling freight from Amarillo. They will sigh for sour dough bread and antelope steaks. They will wipe away tears as they pass through the old Emma cemetery where loved ones have long been quietly sleeping. 'Tis good to have a day once a year for the pioneers and oldtimers. God bless them and may their memories grow richer through the years to come.

I had a tiny box, a precious box of human love,—my spikenard of great price;
I kept it close within my heart of hearts,
And scarce would lift the lid lest it should waste
Its perfume on the air. One day a strange

Deep sorrow came with crushing weight, and fell
Upon my costly treasure, sweet and rare,
And break the box to atoms. All my heart
Rose in sorrow and dismay at this waste;
But, as I mourned, behold a miracle
Of grace divine, My human love was changed
To Heaven's own, and poured in healing streams
On other broken hearts, while soft and clear
A voice above me whispered,
"Child of Mine,
With comfort wherewith thou art comforted,
From this time forth, go comfort others,
And thou shalt know blest fellowship with me,
Whose broken heart of love hath healed the world."

My sweet cousin, Mary Lee and her husband, R. T. Waddell, owned such a precious son. He gave his life in Germany that we might be free.

Not a sound of his going to meet the Lord he loved, quiet as the falling of a bright leaf from a parent tree, or a red petal from the mother rose, he left this world. Beauty loved, the fine things of life, the best music and art. Talented and brave and handsome, a short happy life, given to his loved ones with devotion and love. As his parents sat near the casket blanketed with the red roses he loved, his mother was handed the grand old flag for which Waddy, as he was lovingly called, had given his all. "Greater love hath no man than this, that a man lay down his life for his friends."

His sun went down in the morning. While all was fair and bright; But was now and eclipse of darkness That hid him from our sight: For the valley of death was brighter Than the hills of life he trod, And the peace that fell on his spirit Was the calm, deep peace of God.

CARD OF THANKS

We wish to thank our friends and neighbors for the many kindnesses and help given while Mrs. Weempe was in Peoples hospital and since her return home. Especially do we want to thank the kind nurses at the hospital. May God bless you everyone.
Mrs. C. M. Weempe and family.

Clem McDonald and Gary Oden returned Wednesday night from South Dakota, where they had been overseeing the harvest at the McDonald ranch near Hayes. They reported an excellent oat and barley crop and the best hay crop in five years, but the wheat was damaged quite a bit by rain and rust.

Miss Millie Carmack has returned home from a two-month visit in San Diego and Fresno, California. While there she was guest of relatives and friends. She also visited the Oille Meeks, former residents of Floydada.

14 Years Ago Floyd County

(Taken from the files of The Hesperian, issue dated August 31, 1939)

Walter Travis, former county school superintendent, will begin his first year Monday morning as superintendent of Floydada schools when the 1939-40 school year officially gets under way. Enrollment this year at FHS is expected to be the largest in history.

W. D. Newell Monday was appointed surveyor of Floyd County succeeding Geo. A. Linder resigned.

Mrs. C. A. Caffee will be installed as district vice-president of the Texas Home Demonstration association at the biennial convention that will be held at Lubbock in September. Her duties will be to preside at all district meetings.

Diagnosis indicates infantile paralysis, attending physicians told Mr. and Mrs. J. C. Wester, and muscles of the throat and chest were effected in the recent illness of their daughter, Jean.

Emma Louise Smith is the newest addition to Floyd county's official family, her appointment recently as deputy clerk having been announced by A. B. Clark, clerk. She succeeds Mrs. J. B. Claiborne at the post and has shown considerable aptitude for her duties. Mr. Clark said.

Mrs. Authur Stewart honored her daughter Betty Gail on her fourth birthday with a party, August 23, 1939.

Born to Mr. and Mrs. Floyd Lawson, a son, August 25.

Mr. and Mrs. G. N. Shirey and daughters, Lanell and Edith, left Thursday for San Pedro, California, where they will visit their son, and brother, Gilbert, who is in the navy.

The 1939 football season will officially open Friday morning when the Floydada Whirlwinds report at Floydada high school for practice. The first game is scheduled for September 15 on Wester field when the Whirlwinds tangle with the Slaton Tigers.

Carolyn Tye celebrated her third birthday Tuesday when her mother Mrs. W. O. Tye entertained from 4 to 5:30 with a party at their home.

Dale King Named on School Faculty

Dale King, son of Mrs. G. Scott King and the late Mr. King will be sixth grade teacher and coach at the Highland elementary school in Plainview this school term.

He is a 1933 graduate of West Texas State college at Canyon and a graduate of Floydada high school finishing with the class of 1944.

Mr. and Mrs. King and baby son, Scotty are at home in Plainview. Dale's picture appeared in the Sunday edition of the Plainview Herald.

Bolin Also on Faculty
Harve S. Bolin, a former Floyd county boy, will teach in the Plainview school also this year. He will teach in the Hillcrest elementary

school as teacher and coach. Mr. Bolin is a graduate of the West Texas State college, receiving his degree in June 1933. He is married and has one child. Mr. Bolin is the son of Mrs. Harve Bolin of Plainview and the late Mr. Bolin, a former peace officer of Floyd county and Hale counties.

The New Texas Motor Vehicle Inspection Law

AUSTIN — The old Texas Motor Vehicle Inspection Law died at midnight August 25 after a somewhat turbulent existence. The measure, which saw heated debate in the last session of the Legislature, has been replaced by a modified version which calls only for the inspection of auto brakes, lighting equipment, horns, rear view mirrors and windshield wipers. It became effective August 26 but Homer Garrison, jr., director of the Texas department of Public Safety has announced that the state Public Safety commission has officially set the new inspection period for September 15, 1939, through April 15, 1940.

George Busby, chief of the motor vehicle inspection division of the department of Public Safety, has said that there will be about 3,000 inspection stations ready to operate on the opening date.

"Trained mechanics who are versed in the new law and its requirements will be set to go, and they will have an adequate supply of stickers and other materials on hand," Busby stated.

Garrison added that he could see no possibility of a "log jam" of motorists at the official inspection stations at any time unless too many people put off getting their autos checked until the last few days of the seven-month period.

"Lack of sufficient inspection stations plus last-minute waiting contributed to the long lines and lengthy delays under the old law in the Spring of 1932," Garrison said.

MEN IN SERVICE

NORFOLK, Va. (PHNOC) — Scheduled to return here from Korean duty August 22nd aboard the destroyer USS Cushing is Gilbert H. Shirey, chief boatswain's mate, son of Mr. and Mrs. Gilbert N. Shirey and husband of the former Miss Betty F. Newell all of Floydada, Texas.

The Cushing and Owen left the U. S. early in January for service off the east coast of Korea. While there they served as escorts in fast carrier Task Force and participated in shore bombardment of the Wonsan area.

The trip to and from Korea resulted in an around-the-world cruise for the destroyers. They transited both the Panama and Suez Canals. In addition to visits to

Japan they made the ports of Manila, Singapore, Colombo, Ceylon; and in the Mediterranean Athens, Genoa, Cannes, Algiers and Gibraltar.

You can tell in an instant it's a Very great 8

At idling speed, the engine of this 1953 Buick is deceptively docile. All you hear is a silken whisper, a kitten purr, a smooth flow of air channeling quietly through metal passageways. Then—you want to go. You nudge the pedal. You go. That's when you discover that you're sitting behind an engine of electrifying response. That's when you begin to know how the power of the first Fireball V8 can handle getaway, cruising, hill-climbing. That's when you learn what Buick's biggest-compression engine in fifty great years can mean in spirited and soul-satisfying road command. It's an experience too wonderful to miss—the bossing of this brilliant new V8 Engine that powers every 1953 Buick SUPER and ROADMASTER. So we cordially invite you to come in and try it. We cordially invite you to hold rein on this truly advanced V8—the world's first V8 with vertical valves, with "T" type intake manifold, with zero-power-loss muffler—and the first standard-production American passenger-car engine to reach 8.5 to 1 compression ratio. Why not come in for a sampling? That way you can also try the other Buick gems—like Twin-Turbine Dynaflo*—and the Million Dollar Ride—and the room and visibility and handling ease of the greatest Buicks yet. Can you make it this week?

Report Great Improvement In Soil Conditions

FT. WORTH — The Soil Conservation today reported greatly improving soil moisture conditions in some drought-ridden areas of Texas and Oklahoma with markedly lessened prospects of widespread wind erosion damage in the coming winter and spring months although general rains are still needed before the extreme drought is relieved.

The improved moisture in 43 counties in western Texas and 10 counties in western Oklahoma has touched off one of the most determined efforts to produce soil cover in recent years, says Regional Director Louis P. Merrill of SCS.

Hundreds of thousands of acres in the Rolling Plains, the South Plains and the rain-blessed Panhandle sections of Texas already have gone into grain sorghums, sweet sorghums, sudan grass and other cover producing crops. SCS field men have reported to Merrill. Most of the plantings are up to good stands, and with a good rain or two would make needed cover or even a crop of grain barring early frost. In the Panhandle of Texas and in northwestern Oklahoma sizable areas have accumulated moisture for wheat planting next fall but too many farmers are turning under an effective stubble mulch before sufficient moisture has been trapped to sustain a stand of wheat.

Eighty-six counties in the less fortunate areas of southwestern and southern Texas still have received no effective moisture or not enough to relieve the record drought conditions.

Range grasses are growing rapidly in areas which have received moisture in the last five weeks, Merrill reported. Returning from a trip into the High Plains and Rolling Plains this week Merrill observed that on short range in poor to fair condition there is the temptation to keep too many stock where numbers have not been materially reduced as in the Panhandle counties.

Where numbers have been reduced there may be a tendency to restock. He says it should be remembered that grass gets about 95 per cent of its food and energy from the air and sun, 5 percent from the soil. The leaves must feed the roots. The food reserve of living plants in drought areas has been exhausted and most of the needed vigor must

come from new growth. The amount of growth required about equals what can be expected between now and frost. The rancher who waits until late spring to re-stock and who saves a feed bill this winter will be ahead of the one who doesn't. Heavy range use now is like putting a sick man to work.

Merrill said one of the most encouraging signs has been the new attitude of people in the drought-hurt areas. Farmers and city residents alike have seemed to realize the threat that drought, with wind erosion, has brought to their communities and are determined to get protective and soil-improving cover on their lands.

In the South Plains a drive to get plant cover on exposed lands is being spear-headed by a committee of business men, soil conservation districts and agricultural leaders. Charles Maedgen, president of the Lubbock National Bank, heads the advisory group. With "For Land Sake Cover" as a slogan, the group is sponsoring a week-long publicity crusade urging the use of soil conservation practices to produce cover on insufficiently protected lands.

In Brownfield, center of one of the most troublesome areas in the wind erosion season, J. O. Gilliam, president of the State National Bank and Trust Company, has launched a drive against the single-crop system of farming which leaves land exposed to winter winds.

The SCS report this week contained news regarding adequate moisture and cover conditions for the entire area of Louisiana, 30 counties of Arkansas, 75 counties in eastern Texas and the eastern half of Oklahoma. About 25 counties in Arkansas, comprising northwest and southeast areas, are in very dry condition still, with severely damaged pastures. Approximately 30 counties in central Texas and about the same number of counties in central and western Oklahoma are in very dry condition but have effective cover.

Merrill recently said that in his opinion there should not be a return to wind erosion conditions of the 1930's. He gave the following reasons:

- (1) Farmers and ranchers have the "know how" to prevent widespread erosion;
- (2) Owners cooperating with soil conservation district are using sound erosion control practices on hundreds of thousands of acres of farm and ranch lands;
- (3) Owners have more and better machines with which they control erosion;
- (4) Larger areas have irrigation facilities available for growing plant cover, and;
- (5) Farmers and ranchers have to much "horse sense" to let the conditions return.

Delay of 30 Days For Lt. Johnson's Return to States

A recent picture of First Lt. Harold S. Johnston, son of Mr. and Mrs. Sidney Johnston, Floydada, appeared in Lubbock papers, released by the United States Air Force.

The picture shows Lt. Johnston, a U.S. Air Force B-29 Superfort pilot with the Okinawa-based 307th Bomb Wing, making a last minute check of his aircraft's instrument panel prior to take off on another routine training mission.

Mrs. Johnston, mother of the Lieutenant, said Wednesday she had received a letter from her son on Tuesday, in which he stated that he will be delayed 30 days in getting to come home.

He was to have started home on September 3, but now it will be in October before he can do so. He is kinda blue, stated the mother.

Lt. Johnston has been in the service about two years.

McCoy Re-Union Sunday Expected To Be Big Event

McCoy will hold their re-union on Sunday, August 30 in MacKenzie Park when resident and former residents of the community will meet and renew old friendships and enjoy the day.

A basket dinner will be served at the noon hour.

President of the homecoming group is Raymond Hurst of Happy, and Mrs. Harry Jones is the secretary-treasurer. Mrs. Jones mailed over 400 cards to ex-residents of the community to come and enjoy the day.

Friends are expected from near by towns, and the R. G. Elliott family of Modesto, California is expected, said Charlie Berry, one of the committee members who has worked on the project.

Harmony People Anticipate Many At Home-Coming

Mrs. Charlie Smith, member of the planning committee for the Home-coming at Harmony Friday night, says everything is in readiness for the big event.

Basket supper will be served, which will include fried chicken, salad and dessert.

Mrs. W. C. Snodgrass, president of the Harmony home demonstration club sponsors of the event, will welcome the guests in the name of the club. Loyce Turner, president of Harmony Center will welcome the visitors in the name of the community. He will also address the group following the dinner on "Agriculture through the years."

Any one having at any time lived in the community is cordially invited to attend this event tomorrow night and renew old friendship.

Visitors will be asked to tell of outstanding memories of Harmony. A large crowd is expected and the welcome mat is out to present and former Harmony-ites.

Grandma Gets Plenty of Aces But They Cost

WELLINGTON, N. Z. — In a period of three months, Mrs. Isabel Small has holed-in-one nine times, one of the oddities of golfing.

She began golfing five years ago and now plays five days a week with her husband, a retired engineer.

"The whole thing is really just a run of luck," she says. "I just hit the ball and that's there is to it."

Holing-in-one has proven a costly proposition, however, for the golfing grandmother.

Each time, in keeping with golf club tradition, she has had to buy drinks for all the other golfers—720 so far.

Making a hole-in-one is a 5,000 to 1 shot.

The Romans introduced brick-making in England in A. D. 44. After they withdrew in the fifth century, the craft was almost forgotten, but was revived in the thirteenth century. It was in this period that Little Wenham Hall was built. Completed in 1260, it is one of the earliest examples of brick used in a dwelling, and was so sturdily built that it is standing today.

Milk Bar For Piglets is Newest Farm Device

LONDON — The London Daily Herald reports that a "milk bar" for piglets is the latest mechanical device for British farmers. It may, the newspaper reports, increase Britain's output of bacon and pork chops.

The "milk bar" can feed fourteen piglets at one time and can provide nutriment that a sow cannot. The mechanical weaning machine avoids the danger of the piglets contacting diseases from the mother.

The inventor was reported worried about only one thing, whether the lack of grunts would upset the infant pigs. He reports however, that the pigs seemed cheerful without the noises.

Sunken Treasure Is Only a Legend

LEWES, Del. —For years treasure hunters have tried to locate a sunken British privateer that was supposed to have carried \$10,000,000 to \$40,000,000 in Spanish gold.

The ship, the Braak, went down May 27, 1798, in Delaware Bay about one mile off Cape Henlopen. One year later, the British tried to float her, but their effort failed.

Since that time, generations of treasure hunters have tried to find the Braak. Her location is listed in a Bible owned by descendants of the sloop's co-pilot.

Now a research student at George Washington College, who spent eight months on Braak research, reports that the records of the British Admiralty show the Braak was carrying copper and cocoa, but no gold.

Another legend of sunken treasure vanishes.

Insects Thrive While Vacation Absents Family

COLLEGE STATION, July — Household insect pests may take advantage of the owner's absence from the home to get a lot of dirty work. Vacationists returning home may find the insects in control and manage considerable, says Neal Randolph, entomologist for the extension Agricultural Extension Service, unless advanced precautions are taken before closing the house.

The kitchen is always a favorite "hand-out" for household insects and trouble can be avoided by leaving this room clean and free of any traces of food. Cupboards and shelves may be sprayed with a 5 percent DDT spray to get the stray insects which get into flour, cereals, crackers or dried foods during the hot season.

Chlordane, says the entomologist, is more effective against cockroaches or waterbugs. He recommends using a small amount of 2 percent chlordane on the baseboard behind and under the sink or refrigerator and other places where these insects run. He cautions against using this insecticide where food or cooking utensils will be in contact with it.

Cleaning the floors, rugs, and upholstered furniture by vacuum is advised to pick up lint, bits of fur, hair or feathers on which insects may live and to also eliminate any larva or eggs of insects which may be in the house. Protect rugs by spraying with a DDT spray and use the same material on the baseboard and other places where insects may

hide. If pets are allowed in the house, the cleaning and spraying will take care of the fleas which may hatch from eggs previously dropped from the family cat or dog.

Army Develops Life-Saving Lift

WASHINGTON — The Army Chemical Corps developed the new back-pressure arm-lift technique for artificial respiration.

Now adopted as a standard life-saving technique in the United States, the method combines pressure on the victim's back with lifting motions of his arms.

The American Red Cross—which had adopted the technique — considers it the most effective means of restoring the breathing of persons in danger of death by drowning, hanging, electrical shock and other causes.

The new technique — also called the Holger Nielsen method — makes it possible to press more than 1,000 cubic centimeters of air into a victim with each movement. This is more than twice the number of cu-

bic centimeters estimated as possible under the old method.

When brickmaking first started in America, about the year 1630, the methods of production were little different from those employed by the ancient Babylonians or the craftsmen of the Middle Ages. But today in America, over 600 plants making brick and tile turn out between six and eight billion units annually by means of completely mechanical methods.

Schools Open at 8 o'clock on Sept. Seventh

(By I. T. Graves, superintendent of Floydada schools)

(Practically all the essential questions parents of school children will ask about school opening plans are answered below in a statement by the superintendent. — Ed note.)

School will open the first day, September 7th, at eight a. m. and turn out at noon. The reason for taking up early the first morning is that due to pupils not having previous assignments, we think it best to have a short schedule this day but four hours of school will be required by the Texas Education Agency to count a full day of school. All classes will meet this day, but time for each class will be reduced.

Beginning Tuesday, September 8th, school will open at 8:45 a. m. and turn out at 3:45 p. m. The cafeteria will not open until Tuesday, September 8th. Mrs. W. W. Britts will be supervisor for the high school cafeteria and Mrs. Dooye Smalley will be supervisor for the Andrews ward cafeteria.

The school buses will run about thirty minutes earlier than usual the first morning of school in order to get pupils to school by eight o'clock. Beginning Tuesday morning, the regular schedule will be followed. Each bus will arrive at school about 8:30 o'clock each morning. Approximately the same routes will be followed as was this past year. Floydada has nine school buses. Four buses come from other districts. Sand Hill, South Plains, Dougherty, and Lakeview bringing their high school pupils to Floydada.

North ward school will open August 31st. The buses for this school will also run early the first day of school in order to get the pupils to school by eight o'clock. After the first day, the regular schedule will be followed.

The care keepers of the building are Emmett Dutton, W. C. Holt, Floyd Murry, and G. C. Bailey. They will have the buildings in excellent condition for the opening of school. They have cleaned walls, cleaned and waxed the floors, and varnished the desks. The interior of high school cafeteria, Andrews ward cafeteria, and Andrews ward gymnasium have been painted. The ceiling of Andrews ward gymnasium has been repaired. The buildings for North ward school have also been put into good condition.

One name was left off the high school teachers list last week. Mrs. Evelyn Reeder who will teach English. Another teacher has been assigned to the Andrews ward school since the list for teachers was printed, which is Mrs. Dorothy Weddle of Amarillo.

We all have a patronymic. It's our family name.

O. E. Murry Rites Held on Saturday

O. E. Murry, 61, long time resident of Floyd county, died at his home north of town Thursday morning, August 20, at 4:30 o'clock of Coronary Thrombosis.

Mr. Murry had been in failing health for a year.

Funeral service was held at the Wall street Church of Christ on Saturday afternoon, August 22, at 2:30 o'clock with Eld. Alva Johnson of Turkey conducting the service. Interment was in Floydada cemetery under the direction of the Harmon Funeral home.

Active pallbearers at the service were Burt Huckabee, Bill Jackson, Ed Dunavant, Alva Sparks, Riley Teague, Grady Parker, C. B. Carmack and Aaron Carthel.

Honorary pallbearers were Bob Muncy, A. H. Manning, R. E. Fry, Jess Patterson, A. C. Carthel, Wade Warren, F. A. Faulkenberry and V. M. Manning of Petersburg.

Otis Elsworth Murry was born, January 31, 1892 in Jack county, near Jacksboro. He moved to Jack county in 1910 from Jack county.

On December 14, 1913, he was united in marriage to Miss Clara M. Day, daughter of the late Joe J. Day and Mrs. Day, Floyd county pioneers. His widow and twin sons, Lloyd of Las Vegas Nevada, and Floyd of Orange, California, survive, as do six grandchildren, all of whom were present for the last rites.

Also surviving are two brothers, Will Murry of Waterford, California, and Frank Murry of Jacksboro, Texas, and four sisters, Mesdames Oia Ketchersid of Sulphur, Oklahoma, Bertha York of Stockton, California, Joe Campsey and D. Campsey both of Jacksboro. Many out-of-town relatives and friends were present at the funeral service for O. E. Murry.

Burglary Charges Filed Against 2

Willie Cork, of Plainview, has been arrested by Hale county officers and is charged by complaint with the offense of burglary. He is said to have signed confessions to burglarizing two drive-ins, one at Plainview and one at Hale Center. A kinsman, John Weisenhunt, is charged in the same offenses.

The arrest of Cork was made Friday.

Floyd county officers questioned the pair in regard to two burglaries of the Seale Drive-In west of Lockney, but no charges have been filed.

BIBLE BAPTIST CHURCH

Everyone is cordially invited to attend the services of the Bible Baptist church in Floydada. Bible school begins at 10 a. m. and preaching service at 11 a. m. Evening services are at 8 p. m. and the mid-week prayer service is at 8:30 p. m. Tune in KFLD each Sunday morning at 8 a. m. for the radio message.

Deposit Refund By Gas Company \$11,655 Here

West Texas Gas Company last week-end put \$11,655 into quick circulation in Floydada, when their policy of requiring a "security deposit" from customers for meter installation was abandoned.

Checks mailed out, or delivered in person by Manager Roy Leslie, went to more than 1,100 customers in Floydada. They "hit" Friday. To numerous long-time patrons of the company the checks represented an "investment" which they hardly realized they had. For the domestic consumer the pay off was in the form of a check for \$10.40, representing the amount of interest the company had been required by the state to pay for the money they held in escrow.

The pay off is system-wide, said Mr. Leslie this week, and will be completed within the next few weeks in every one of the 43 communities served by the company. The pay off is a big job, with 85,000 customers to be refunded their money. The clerical work involved is being staggered over a 60-day period.

Leslie delivered the last check due a Floydada customer Saturday afternoon.

Building Summer Load
The solution to a "summer load" problem to counter-balance their peak winter business in this area of their territory is being solved in a novel manner by irrigation farmers. Natural gas is being piped from the lines to scores of farms for engine fuel to pump wells.

The way the plan works the farmers who find it practical to work out plans for a pipeline to their wells, build the lines to an agreed point for tie in to the big supply mains. At this point a master meter is installed and also a meter is installed for each customer. The company did a lot of business this summer with these irrigation well owners as their customers. Farm consumption of gas for the month of July in Floyd county is reported to have been nearly six times the combined consumption in both Floydada and Lockney for the same period.

AN APPRECIATION

With sincere appreciation we extend this word of thanks to our friends and neighbors for the many good deeds rendered the family during the lengthy illness of our husband and daddy, the late J. H. Farmer, sr.
