

# Floydada Stores Ready for Straw Hat Day Saturday

Floydada merchants are going all out this week-end to make Straw Hat Day in Floydada a big success. Seven leading stores are featuring the latest in summer styles, and the prospective buyer can find any of the well known brands that suits his fancy.

On these pages are pictured a few of the 1954 straws that have just arrived for the occasion. Many more are waiting to be shown when you visit at Van's Family Store, Smith's Department Store, J. C. Penney Co., Hale's Department Store, Hagood's Department Store, Keim's Haberdashery, and Glad's.

In addition to this attractive showing of summer merchandise these stores will give the men and boys over 18 an opportunity to win a new hat absolutely free. Between now and Saturday night all eligible males may drop in at any or all of the above mentioned places of business and make their guesses as to the identity of the four men pictured on this as well as the front page of *The Hesperian*. The first person to correctly name those pictured will be a winner at each of the stores, but the same person can be winner at only one. Winners will be announced Monday morning.

There is no obligation to buy, just drop by and make your guess.

## ADDITIONAL DROUTH AID ASKED TO NULLIFY LOSS

Despite recent rains, many more millions of relief dollars may have to be plowed into our agricultural economy before the disastrous effect of the drouth are nullified.

The situation remains serious enough to warrant the direct attention of the president of the United States for the second straight year. The problem still remains unsolved.

Governors from five states, including Texas, met in Washington recently to place their recommendations before the national administration. Their initial plan was for a grant of \$15 million to combat dust and wind problems in disaster areas. This amount would be in addition to the \$196 million already earmarked for the agricultural conservation subsidy program this year.

The \$15 million figure is not an unreasonable sum. It would go a long way in relieving the strain imposed the three-year dry spell. However, the request was not accompanied by any concrete recommendations as to how the money should be used.

The Governors frankly admitted they had made no attempt to find any long-range solution to the dust bowl threat and added that the requested sum would cover "Emergency and immediate" problems for the next two months, only. It was not stipulated whether this would be direct relief grants or on a loan basis.

Rains over the state during April were an encouraging factor in the present optimism for good crop production this year. Row crop farmers have a good chance of recovery without much additional drouth aid. But many areas are still far below normal in rainfall and much of our pastureland is in extremely poor shape. Here is where the money must be spent, if any becomes available.

Two supplemental recommendations were made to the federal gov-

ernment. They were:

1. That loan and credit facilities of the federal government be used to give "maximum benefits" to farmers in the drouth-stricken area.
  2. That farmers and ranchers in the five states be "encouraged and helped" in the proper use of land.
- It is in the second recommendation that the true solution to our problem lies — conservation and proper use of our land. To this we might also add the need to conserve our water.
- The State of Texas, alone, is not prepared to assume the full burden of responsibility at this time. Help is needed from the Federal authorities. But in the long run, Texas must prepare to take care of its own in times of natural disasters.

## LIBRARY NEWS

(by Mrs. Roy Hollar)

Mrs. R. G. Henry sponsored the story hour on Saturday. Barbara Perry came to tell the stories to 26 interested listeners. Newcomers to story hour were Dana Scott Galloway, Billy Joyce Taylor, Woody Lynn Berry, Mitchell Abelman, Sammy Dean Duvak and Mrs. Al Galloway who will tell the stories next week.

Mrs. R. M. Stovall brought a treat for the group.

We are especially pleased to learn that the 1929 Study club was awarded first place in the seventh district in their interest in child development. A part of their report was based on their activity in Story Hour.

Memorial books presented in honor of Mr. J. G. Martin are: "Light from many Lamps," by Watson given by Mr. and Mrs. Hollis R. Bond, Mr. and Mrs. J. D. McBrien gave "The water situation in Texas," by Walter P. Webb; Mr. and Mrs. Lorin Liebfried with Mr. and Mrs. Jiggs Jackson and children presented "No Life for a Lady," by Agnes Morley Cleveland; Mrs. John Farris chose "Paul's Epistle to the Romans," by Ernest Finlay Scott and the high school committee chose as their memorial "Prehistoric World," by Carroll Lane Fenton.

An out-of-town visitor was Fleeta Smith of Lubbock who was visiting her grandmother Mrs. G. C. Hillburn.

Five hundred fifty-nine checked out in April in the Lockney branch.

Total for the county 1926. This includes some excellent research work on the part of high school students particularly one group working on oral reports of places of interest in the United States. This report called for a bibliography of several readings and was an excellent library project.

We had some time ago a request for "Norfleet." We did not have the book and had not expected to be so fortunate as to find it since it was published a good many years ago. A copy has just come our way in gifts and it will be ready for shelf about the time you read this in the paper.

Check with Mrs. G. E. Mayo if you are interested in the last of a series of meetings on the constitution. We have been having most interesting group sessions of the American Heritage Group. Dr. Stensland of Texas Tech will serve as a resource person next time and we will have a film at that gathering. We have been glad to have the women representing home demonstration clubs to study the constitution with this group.

Come in and have a look at our reading room. Perhaps you might like to spend a little time there while you are in town? Any number of people and organizations have contributed to this room in some way.

Retroactivity of payments can be made for only 6 months so it is to the advantage of these people to file their claims now in order to prevent loss of benefits, the manager stated. Persons age 75 and older can draw their monthly benefits regardless of the amount of their business profit or whether or not they are working.

Mr. and Mrs. W. B. Winn returned Thursday night of last week from Brown county where they spent several days fishing on Jim Ned creek.

## Accident Victim Buried at Lockney

Funeral services were held Tuesday, May 4, for Johnny Cole, grandson of Mrs. W. F. Fagard of Lockney, who was killed when he fell 133 feet into a mine shaft, while working in Jefferson City, Tennessee. He lived only three hours after the accident.

He was born in 1932 and would have been 22 years old his birthday, May 3rd.

Services were conducted at 2 o'clock, May 4, at the Carter Chapel with Rev. R. E. Wylie, pastor of the First Baptist church in Lockney, officiating. Interment was in Lockney cemetery.

He is survived by his father, William Cole of Carlsbad, New Mexico, one brother and his grandmother, Mrs. W. F. Fagard of Lockney.

## Dougherty Girls Entertain Their Mothers at Party

Dougherty 4-H club girls entertained their mothers Monday afternoon, May 3, from 3:30 to 4:30 with a party at Dougherty school auditorium.

Mother's Day decorations were carried out. Each mother received a pair of sequined earrings her daughter had made.

To receive the guests at the door were Edwina Lewis and Nelda Jones while Jan Cates presided at the register.

Rue Nita Holly, Freida Smith, Sue Ring and Carolyn Cates served angel food squares and punch.

Carolyn Cates gave a welcome to the mothers. Julia Ann Daniels gave a Mothers day reading. The twelve 4-H girls sang 'Vaya Con Dios' and 'M-O-T-H-E-R' accompanied by Mrs. G. C. Tiner at the piano.

Miss Leila Petty gave an interesting talk on keeping records.

Those present were Miss Leila Petty, Mesdames Hal Hines, Harlan Cates, Ruth Daniels, Johnnie Cates, Claude Ring, R. T. Jones, Virgil Scott, G. C. Tiner, Howard Drysdale and R. D. Holly.

The girls present were Nita Ruth Cates, Ethel Scott, Linda Jones, Jan Cates, Sue Ring, Carolyn Cates, Julia Daniels, Nelda Jones, Edna Lewis, Rue Nita Holly, Pat Drysdale, Freida Smith and the sponsor, Mrs. G. W. Smith.

## Mrs. Foster Tells 1950 Study Club of Los Alamos

Mrs. James Wester was hostess to the 1950 study club in the home of Mrs. J. C. Wester on May 4. The president, Mrs. Gene Collins, Jr. presided over the business session.

Mrs. Jim Simpson resigned from the club. Mrs. Louis Lloyd was voted into the club.

Miss Barbara Perry has been chosen to be awarded the scholarship presented by the club to a worthy girl each year.

Mrs. Garland Foster, a guest, brought an interesting program on Los Alamos.

Present were Mesdames Jimmy Price, Jack Kassahn, Bill Greer, Jack Coffman, Gene Probasco, Tom Snead, Hollis McLain, Gene Collins, Jr., Arthur Womack, Jr., Johnnie Collins, Ed Wester, Brac Biggers, Claude Weatherbee, Bob Copeland, David Kirk, W. ## Mrs. Bobby Smith Complimented At Bridal Shower

The annex of the First Christian church was the scene of a bridal shower the afternoon of April 27, honoring Mrs. Bobby Smith, nee Donna Pierce.

The table was covered with a white lace cloth which made a perfect background for the center piece of a crystal punch bowl which was filled with a pale green punch and dark green ice cubes. Marshmallows topped with gold life savers signified a wedding ring in its box. Angel food squares decorated with green, white and pink icing, carried out the bride's chosen colors of pastels.

Scolloped napkins of pink were engraved in silver with the bride and groom's first names.

Mrs. Harvey Nicholas attended the bride's book, while Mrs. J. W. Walker and Miss Donice Reeves served each guest.

As the bride opened the gifts they were passed around for those present to view and then displayed on a large table.

Many lovely gifts were presented to the bride and groom by their friends.

## Miss Wanda Lester of Spur and T. E. Nelson Married

Wanda Lester and T. E. Nelson were united in marriage with a double ring ceremony, April 24 at 7:30 p.m. in the First Baptist church in Spur. Rev. Lloyd Hilton of Lubbock officiated.

The bride is the daughter of Mrs. Henry Lester of Spur. The bridegroom is the son of Mr. and Mrs. W. H. Nelson of Floydada.

Given in marriage by her brother-in-law, T. D. Roberts of Afton, the bride wore a dress of white organdy eyelid over taffeta which was designed and made by the bride. From the fitted, long-sleeved jacket stemmed a street-length circular skirt. She wore a short veil and carried white carnations scattered with tiny coral flowers atop a white Bible.

After the wedding trip to East Texas, the couple are at home in Lubbock.

One sign of good mental health, we're told, is not to let our emotions bowl us over.

Many of us can lay claim to having shipped some emotional upset—such as those caused by love, jealousy, even anger. But hardly anyone we know can honestly say she never gets thrown by any of them.

Fear, in times like these, is chronic. Atomic weapons, enemy aliens, tornadoes—no one of these dangers is actually lightened by fear of it. If anything, they're increased because afraid we're more vulnerable. Once we can look at danger without panic, we're much more likely to act intelligently.

Two of the most workaday emotions—guilt and worry—are the two we'll most likely give in to.

We live with a guilty conscience, yet half the time we aren't at fault. The baby trips over a toy and skins his noggin. We should have noticed that danger, we tell ourselves guiltily. The spouse comes home from work with a headache. We should have reminded him to wear a hat because the air is colder. We borrow guilt because we're distrustful of our own judgment.

Worry is another overworked emotion, yet there's hardly ever anything to be gained by it. We know a man who goes to a murder mystery movie to get rid of worry. Then, he says, his own problems seem so simple by comparison that he gets back his perspective. Another, who works with people and ideas, says he likes to paint a fence, build a shelf or mow the yard when he's worried. A job so easily brought to a successful conclusion reassures him, and he no longer feels inclined to worry.

Maybe the mental hygienists shouldn't deprive us of our emotional upsets—it tests our ingenuity so to restore emotional balance.

Another, who works with people and ideas, says he likes to paint a fence, build a shelf or mow the yard when he's worried. A job so easily brought to a successful conclusion reassures him, and he no longer feels inclined to worry.

Maybe the mental hygienists shouldn't deprive us of our emotional upsets—it tests our ingenuity so to restore emotional balance.

Worry is another overworked emotion, yet there's hardly ever anything to be gained by it. We know a man who goes to a murder mystery movie to get rid of worry. Then, he says, his own problems seem so simple by comparison that he gets back his perspective. ## Sherry, Melda Jo Ramsey Win Round-Up Trip

Sherry and Melda Jo Ramsey of the Harmony 4-H club were first place winners in the district 4-H contest on Farm and Home Safety. "Safety in the Kitchen and Laundry Room" was the subject of their demonstration.

District eliminations in certain 4-H club contests were held at Texas Technological college at Lubbock last Saturday. Contests were dairy foods demonstrations, grass judging, poultry judging, farm and home electric demonstrations, rifle contest, gardening demonstrations and field crops. The winners in all contests will attend the 4-H Round-Up at College Station June 8-9-10 where they will compete with other district winners from over the state.

Sherry and Melda Jo will also be delegates from Floyd county to the Round-Up, according to the regulations set up this year, and will participate in the activities of that meeting. About 800 4-H club boys and girls will attend, along with adult leaders and some Extension agents.

Sherry and Melda Jo are students at the Petersburg schools. David Mount and Norman Brims, both members of the County-Wide 4-H club, and students at Floydada high school, were second place winners in the field crops contest. They had a lot of competition in their contest.

Miss Leila Petty, county home demonstration agent, was one of the judges in the junior dairy foods contests. W. G. Rodgers, county agricultural agent, was in charge of the entomology contests.

# Another Good Year For The City Light Plant

With the completion of the audit of the City's Affairs for another twelve months, the Light Plant of the City of Floydada has recorded one more healthy increase in Gross Business, and despite a jump in Operating Expense of more than \$18,000, also shows a Slight Increase in net operating profit. The audit shows

## Gross Revenue of \$108,996.11

For the fiscal year ending March 31, 1954. This is an increase of more than \$10,000 over fiscal year of 1953 when the Gross Revenue of the Light Plant was \$98,392.11.

Here are the figures condensed from the auditor's report:

Gross Income	\$108,996.11
Operating Expense	58,399.73
Operating Profit	50,596.38
Cash on Hand April 1, 1954	67,464.03
(about one-half of this amount is in the First National Bank of Floydada, about one-half of it in the Mercantile National Bank of Dallas in escrow to comply with contract on outstanding bonded debt)	
Loaned to General Fund of the city (mostly for Paving)	\$ 31,000.00

In addition to the fact that the city's Light Plant is showing a gain with each passing year, two facts stand out:

## The Electric Service is Good

## The City is Holding the Line on Rates

All you have to do to Prove this statement to yourself is to visit around and compare your local rates with those of surrounding towns where there is no municipal plant.

We are proud of the Loyal Support of so many of the Citizens of the Community, and Point to the Fact that the City Plant is amply powered to take on additional business and take care of it when opportunity presents.

## Four Confess To Burglaries In Open Court

Fifteen felony cases against four defendants ranging in age from 18 to 23, were disposed of in district court Tuesday afternoon.

All the defendants pled guilty and all will serve time in the state penitentiary.

The confessions in open court brings to an end the efforts of peace officers to solve burglaries and thefts in February and March of this year and one theft dating back to last December.

Among the defendants was Charles Webster, 18, of Ladonia, who said he had a part in the theft of the Emmett Hinson pick-up in Floydada in December of last year. He was given two years in the state penitentiary. One other youth charged in connection with this infraction has not been apprehended as yet.

The pick-up was finally recovered. It was found abandoned near Las Cruces, New Mexico, in April. It was in the location the youth described as having left it in December. Mr. Hinson went after the vehicle. Young Webster was under five-year federal probation on a prior charge.

Involved in the burglaries of the Andrews shop at Aiken, the Handley shop at Lockney, the Knox Grocery at Lockney and the Consumers Oil company at Lone Star was 18-year-old R. B. Mize, of Safford, Arizona.

The boy was given two years on each of the charges to which he pled guilty, the terms to run concurrently. The burglars took the Knox grocery safe out into the open country to open it up. They took \$108 in cash, then hauled the safe to an empty private garage near South Plains where the safe's contents were burned.

In the Lone Star burglary on March 29 upward of \$200 was taken in cash, manager Russell Smith, Jr., reported.

Another defendant in Tuesday's proceedings was Bill Jett, 23, of Elol, Arizona. He was charged in each of the four burglaries and got seven years in each case, running concurrently. Since this trouble broke probation on a previous charge of burglary of the Seale Drive-In theatre west of Lockney the probation was revoked by the judge and the seven-year concurrent terms will run on top of the three years given in the previous case, making 10 years in all.

Winfred Boone, 29, of Lockney, pled guilty in each of five cases, including the burglaries at Lockney, Aiken and Lone Star and the theft of a pick-up from the Bacucus Motor Company. He was given four years in the penitentiary in each case, to run concurrently.

District Attorney John B. Stapleton said there is one other defendant charged by indictment in the wholesale burglaries who has not yet been apprehended. He is Vernon Jett, a brother of Bill Jett.

## Free Wills

One Woman in Cherokee County, North Carolina, named God as her beneficiary in her will. To settle the estate, a case was filed naming God as a party thereof. A summons was issued, but the sheriff filed a report which stated: "After due and diligent search, God cannot be found in Cherokee County."

An Oklahoma City woman willed her sunny disposition and her beautiful neck to her two daughters. A henpecked husband provided that in the event his widow remarried, the new husband was to receive \$1,000. "Him that gets her will deserve it," the will stated. Another bitter husband left his wife a quarter "for bus fare to some place to drown herself." A benign boozier directed his friends to wet their whistles over his grave, and his will provided a barrel of beer for that purpose.

Christopher Janus of Chicago inherited four Egyptian dancing girls under the terms of his wealthy uncle's will. A Boston philanthropist bequeathed \$100,000 to be divided in the form of prizes to polite public school pupils.

One woman had her will tattooed on her back. A man used the back of a turtle. An Englishwoman corked hers in a bottle and threw it in the ocean. The under-step of a ladder and a nurse's starched apron have also served.

Even the famous have gone in for strange and unconventional legacies. Robert Louis Stevenson left his birthday to a young girl, who "was born on Christmas Day, and is therefore, out of all justice, denied the consolation of a proper birthday."

## Tuberculosis Is Still a Serious Texas Problem

AUSTIN TEXAS — "In spite of the knowledge of its cause and spread, and of curative methods, tuberculosis is still a very serious problem not only in Texas, but throughout the United States," Dr. Geo. W. Cox, State Health Officer.

"It is true that tuberculosis no longer is first on the list of killing diseases, as it was formerly," Dr. Cox said, "but despite having been reduced to eighth place in Texas, it still is responsible for more deaths between the ages of fifteen and forty-five than any other disease. And this fact exists even though the majority of tuberculosis patients could have their condition arrested if it were recognized early and proper treatment applied."

"Treatment of the early recognized case is essential. It is of equal importance, from a public health viewpoint, that the spread of this devastating infection be prevented. A more intelligent appreciation of this fact would result in the saving of thousands of lives."

"When a diagnosis of active tuberculosis has been made, examination of all of the other members of the immediate family should follow as a matter of course. Tuberculosis runs in families, not because of any special susceptibility to the disease, but because it is communicable, being usually transmitted through close and prolonged contact with the active case."

To reduce the number of deaths caused by tuberculosis, Dr. Cox suggests periodic examination of all adults, a check-up by physicians of the known active cases and contacts, regular examinations of high school children, isolation or hospitalization of the active tuberculosis case, and a more intelligent application of hygienic living principles.

## Painting Given High Priority In Spring Days

COLLEGE STATION — Clean up, fix up, and paint up is a popular springtime slogan and rightly so, says W. S. Allen, extension agricultural engineer.

"Take painting for example, he says. Right now is the time to get a first class paint job. The weather is relatively dry and temperatures moderate."

"The best paint in the world can't stand up if applied in wet or damp weather. In addition, sudden changes in temperatures may cause new paint to wrinkle."

Conditions during April and May are optimum, Allen says. Avoid painting when insects are numerous or when dust is blowing. Paint, at least as much as possible, in the shade. It's easier on the worker and direct sun light does not fall upon the newly applied coat.

Possibly the main consideration is the selection of outside paints suited to the climate. In humid, warm areas, hard type paints stand up better and softer paints are best suited in dry areas. Paint dealers can recommend the best type.

The next rules are simple, but important, he says. Get the surface clean, dry, and free from old, loose materials. Three or four light coats are much better than a single thick application.

Finally, each coat should be allowed to dry thoroughly before the next is applied.

## Folks Club Pauper To Shivers

FLOYD COUNTY HESPERIAN

Just read your editorial, Thursday, April 29, 1954. Governor Allan Shivers old age assistance law and recommended the increase in old age assistance law will be submitted to voters next November as a constitutional amendment.

Now, if you will call back, remember that the people voted four and one-half take care of the men and women 65 years of age, and Allan Shivers as state senator time wrote the Pauper aged to pass it, that paid people of Texas an average \$100 per month.

Old fathers and mothers built the homes, the school and churches, created the Texas, and made it possible for Allan Shivers to hold the office that he had held. Yet he would take care of them an average of \$9.00 per month.

It has been amended from \$100 to \$100 per month, and yet it does not take care of more than a few people more than a few years ago.

He recommended a constitutional amendment to raise the old people money, and yet when he recommended a constitutional amendment Allan Shivers came to the legislature and said that if it carried, he would call the legislature into session, when he knew that he would not have an extra session, and he did this to amend the law, for the reason that many people would not have the cost of a session.

What we say about the rich man's candidate, you know that when he ran for governor, and for that every little paper in Texas carried his name, and you know that he would take care of them an average of \$9.00 per month.

Another present governor got up the boards and perjury out the law, and one of the State Welfare Commission of three members, the policies for handling the welfare money. The government has asked Governor to appoint at least one member to the board that they recommended he has consistently appointed some rich and politicians for the Governor, and you know that the senior citizens, if expecting a nice little sum of money, you intimate we should be satisfied with the money that falls from the rich man's pocket, and be grateful for the money received.

Another thing, George Washington, the example, two terms as a Democratic governor in Texas, and more than two elective terms should Allan Shivers be unwritten law? And we think he will. That great and noble Ralph W. Yarborough is bringing Texas back to the same way of thinking.

After has been endorsed by Peoples club of Floydada, 100 per cent.

## Clears Conscience Of Old "Mistake"

LOCKNEY—J. D. Huggins, pioneer Lockney business man, had his faith in humanity strengthened this past week. He received an anonymous letter through the mail containing \$125 and saying, "A mistake made a long time ago. Forgive me."

Mr. Huggins said that he had no idea of the person sending the letter or of the time the mistake was made but "the writer has my thanks and forgiveness."

Mr. Huggins had been in business for 35 years until his retirement two years ago. He was in the poultry business 25 years of that time.

The letter was postmarked at Lockney on April 9 and the message and address was printed.

## State Primary Ticket is Brief

In contrast with the state Democratic tickets of prior years, with scores of candidates for governor and major state officers, the list this year has three at the most for any office.

The list of applications released by the state Democratic committee show three candidates for governor, three for lieutenant governor, two for U. S. senator, two for court of criminal appeals judge, and one only for each of the other state offices and places on the high courts.

## State Democratic List

Governor: J. J. Holmes, Allan Shivers and Ralph Yarborough.

Lieutenant Governor: C. T. Johnson, George Hinson and Ben Ramsey.

U. S. Senator: Dudley Dougherty and Lyndon Johnson.

# Clean-Up Plans Point to Action by Groups And Individuals, Aim of C. of C. Lions and Garden Club

Clean Up week in Floydada, May 16-22, will be a week of action, is the confident expectation of Floydada Lions club, the Floydada Chamber of Commerce and the Floydada Garden club.

These organizations, working with the blessings of the city authorities and the promise of their active cooperation, have laid out a plan that should make the old town proud of the nice things they have and ashamed not to do something about the others.

Today's program at the Lions club will be given over to discussion of the plans, so as to familiarize that whole group with the set-up. O. M. Watson, jr., will have charge of the program. He will outline the joint committee's work plan. He will point up the various committees, what their jobs will be, and how the average citizen can help them.

**Need More Civic Concern**  
No aspect of the city's social and economic strength will be overlooked in an effort to get an all-out job and awaken consciousness of the need for greater pride, more civic concern. Here are some of the jobs

cut out for the week, to which action committees have been named: Urge repair, modernize, paint up in residential areas. 75% of Floydada homes could take a new paint job — ask lumber and paint dealers to contact citizens. Committee distribute clean up circulars.

Stress clean alleys and streets, see that dirt is removed from downtown alley entrances. Write post card to all property owners whose business property has a broken curb. Contact concrete and repair men for prices to repair curbs, inform businessmen of prices.

Urge clean up of vacant lots. Contact city to see what cooperation is available. Publicize clean-up to prevent fires, ask fire department for cooperation — perhaps a fire fighting demonstration some afternoon, give fire prevention talks on radio.

List eye-sores of town. Contact owners and inquire what action they can take to improve the appearance of their town through clean-up, paint-up, repair, modernize.

Urge planting of trees, shrubs flowers at home, parks, highways, public buildings. Make at least one or two plantings in park or on highways during week.

Ask cooperation of all material dealers to display, advertise, promote clean up materials through newspapers, radio, show windows. Distribute posters to school room, lape buttons, arrange with schools (Andrews, North Ward, High school) for clean school day (Monday) — clean up, paint up, trim shrubs, plant trees, plant grass. Use other publicity.

Contact businessmen and ask what plans they have for modernization of stores, and paint up, clean up, and fix up during week. Stress neighborhood business improvement.

Publicize sale of covered garbage cans and sell them. Contact city and ask what plans are made for spraying this year, other measures to improve city health and safety.

Organize trucks, men, areas, arrange for stores to be closed half

day. Arrange for PA system, truck driver, announcer for each day — announce plan for each day and following day.

Arrange newspaper and radio publicity. Distribute posters, other special activities.

## Mrs. W. N. Jones

(Continued from first page) Gordon Mayfield, John Farris, Ott Glassmoyer, Mark Martin and Willie Lolk the latter of Electra.

Those remaining to cherish her memory are a daughter, Mrs. Hazel Mitchell, Waco and one son, Lovell Jones of Floydada, two granddaughters, Mrs. Lane Decker of Floydada, Doris Jean Mitchell of Waco, and one grandson, William Mitchell of Waco, one great-great-grandchild, Charlot Decker, Floydada, one brother, Otha Fickes, of Buffalo, Wyoming, three sisters, Mrs. Nancy Purinton, San Gabriel, California, Mrs. Nettie Clure, Harrington Kansas, and Mrs. Lessie Hayes, Independence, Missouri.

Out of town relatives and friends attending the funeral services were Mr. and Mrs. Otha Fickes, Buffalo, Wyoming, Mrs. Nettie Clure and Mrs. Hollis Baker, Kansas, Louis Hayes and mother, Mrs. Lessie Hayes of Missouri, Mrs. Alma Horton and Mr. and Mrs. D. H. Horton, Lubbock, Dr. and Mrs. A. H. Daniel, Brownfield, Mr. and Mrs. Willie Lolk, Electra, Mrs. Frank Clay Pool, and Mr. and Mrs. Raymond Clay Pool of Stafford, Kansas and Mr. and Mrs. Johnny Carruthers of Hereford.

Mr. and Mrs. Milo Clemens left here Sunday enroute to their home in Bramer, Missouri after spending several weeks in the Fred Lam home.

Mrs. Dean Lam of Hobbs, New Mexico is here visiting with relatives, Mr. and Mrs. Fred Lam.

Columbia typewriter carbon, best yet. Hesperian.

## Highway Paving

(Continued from first page) projects would be \$1,530,000. The county's total outlay would be \$200,000 for the three.

The new road from Floydada to the Hale county line would cost about \$30,000 per mile or \$600,000. To build to Crosby county line the cost would be \$330,000, and from Floydada to the Motley county line another \$600,000.

Sixty feet of right-of-way from Floydada to Hale county line on Highway 17 route, it is estimated would require 126 acres of land (for 60 additional width) the moving of 9 miles of high lines, the removal of four houses and one irrigation well.

U. S. Highway 62 route (state No. 207) would require 40 acres of land (for 10 feet additional on each side of the present right-of-way), the removal of 24 miles of telephone lines, 7-tenths of a mile of REA lines and seven miles of Southwestern Public Service lines.

The project from Floydada east to the Motley county line would take 126 acres of ground, would require moving 4.4 miles of power line, three irrigation wells, one transformer-sub-station.

## CLINTON KEYS BACK WITH OK RUBBER WELDERS AFTER ARMY SERVICE IN KOREA

Clinton Keys is back on the job at OK Rubber Welders in Floydada after 24 months army service. Keys served 16 months of this time in Korea where he was supply sergeant in the Korean Military Advisory Group.

The Floydada soldier was discharged April 10 at Fort Bliss, El Paso, Texas. He is the son of Mrs. Ernest Robinson of Dumas. Clinton is single and at present is living at 222 West Virginia street.

## Meredith Named Coach at Happy

Jack Meredith, assistant coach at Floydada high school for the past two years, announced this week he had accepted the position of head coach of the Happy schools for the next school term.

The Merediths will probably move to their new home immediately after school is out here on May 28. Coach Meredith will be in charge of a summer program in Happy that will get underway June 1.

High school athletes and fans of Floydada hate to see Meredith leave but are wishing him well in the new venture. Coach Meredith has been popular throughout his stay here and is considered as capable in his profession, especially so in his work as line coach in football.

The high school will also lose his services as a teacher of world history and physical education.

Preston Watson, director of athletics in Floydada schools, said Tuesday night that no plans had been made following Meredith's resignation here. Watson expressed regret at losing such an able assistant and voiced the opinion that it would probably be some time before plans would be announced as to replacing him in the athletic set-up here.

The Merediths have two children, a daughter, Christy, age 5, and a son, Jackie, age 2.

Happy is in a classification in football and is located in district 2A of the interscholastic league. Some 22 coaches were being considered for the Happy position until about two weeks ago when the field was narrowed to three. The announcement came from Happy only a few days ago.

## COACHES WILL ACCOMPANY WOMACK TO STATE MEET

Coaches Preston Watson and Bobby McGuire will accompany Jack Womack to the state meet in Austin this week-end. The party will leave Floydada Thursday morning in order to have ample time for the long drive. A short lay over is planned for the afternoon when Jack will workout.

They will report at meet headquarters Friday morning for further instructions. It is not known if there will be preliminaries in the mile run or not. Finals are scheduled for Saturday afternoon.

According to reports in the daily papers only one entry in the class A division has clocked a better time this year than Womack's 4:45.0, and that a 4:43.8 by a Bay City boy.

### VIEWS AND COMMENT

**Impact of service in the armed forces for most of the young men of the community is more far-reaching than we casually think.** At the time most of the young men who are registering or have registered under the draft law, which we call selective service, are attaining their responsible days of manhood in a camp or on a ship. And the dream of bringing a boy up to begin taking over in a home-town business or on a farm, getting into the swing of things is shattered. We are reminded of this by the arrival of spring and the search for young fellows with the softball fever. They're not here. Some of them, of course, are in school by permission of the military establishment, but most of the good short stops, pitchers and catchers are learning this sport or some other in another clime, both physical and mental.

**The tax bill of the average citizen is not an inconsiderable thing.** To pay taxes the ordinary mortal is now spending a fourth of his working days. A lot of this tax is indirect—gasoline, cigarettes, travel, communication, for instance. It has been created by conditions brought on by the folly of letting Hitler get loose back in the thirties. But, nonetheless, we need to keep one important matter in mind—that of providing for the aged needy who, for one reason and another, did not get on Social Security basis. Presumably their number will decrease as the Social Security system is spread to cover more and more categories of endeavor. That is the long range plan. But for the immediate future the pinch of rising costs leaves a staggering problem for the individual who has attained a physical state past helping himself. It is to this immediate problem the taxpayer must be sympathetic. Somewhere between the cynic, who would let the payments to the aged go by default for lack of extending the provisions of a law, and the other extreme belief that you can spend yourself into wealth — somewhere in between these we must do our utmost to provide against the sickening tragedies of the past—like the thirties.

**The "rugged individualist" and the highly critical aged persons are both wrong in our belief though one must be sympathetic in his attitude toward the latter.** A man past helping himself is past helping himself. On the other hand the belief that you can levy taxes that you don't have to help pay, that will be paid by someone else far away, is a fallacy that the aged in particular fall for. The middle of the road policy is the better. That pleases neither the rugged individuals nor the organized aged people—nor those who prey on the aged, their "friends" for the dollars and cents of it.

**As to Farm Supports:** A man high in the department of agriculture is of the belief that there will be a gradual withdrawal of the federal government from its role as farm income stabilizer through price supports. He says "we are going to have to sweat through four or five tough years before the farm surplus problem can be licked." His idea is that by 1960 the farm surplus situation will have leveled off due to three factors: (1) Increasing consumption of farm products at home, (2) increased exports, and (3) diversion of considerable acreage from production to soil rebuilding.

**Plastering the land:** Meanwhile, whatever else may be said, it is true that the land is being replastered by mortgages. Farm income may be down only three percent or whatever figure the Bureau of Census says, but the drought and the market and high costs are stark facts to the man who is trying to wrest a living from the soil.

**In the public prints it is revealed that at least one state-wide candidate is in favor of a state commission that would set utility rates in Texas.** He predicates his campaign on a fight against high telephone rates. The Hesperian at least for the present, is not in favor of a three-or-five-man commission sitting in Austin setting the utility rates. Admitting that the present arrangement in Texas is cumbersome and bothersome, we do not now see good reason for making a change. The remedy would be worse than the situation it would be designed to cure. For the nonce, let the telephone companies and others keep coming to their customers about the price the customers will be charged for what they get. We already have, in effect, a commission that sets the rates that will be charged for natural gas service. The state railroad commission, in this instance, has the final authority, if we are not incorrectly informed.

**If moisture conditions permit the planting of substitute crops for those taken out under control allotments, very little productive Texas cropland is expected to remain idle.** The overall labor needs on the State's farms are not likely to be materially reduced because of the shift in plantings.

**Look at your watch—every time it ticks off 15 seconds someone, somewhere is injured in a traffic accident.** Every 15 minutes one or more life is lost from the same cause. The Texas Farm and Ranch Safety Committee says you can do something about the situation—be more careful and observe the rules of safety.

**According to the boys in the back room, a naturalist is one who throws a lot of sevens.** Speaking of colleges, some of those institutions seem to be lowering entrance requirements with an end in view—not to mention promising tackles.

**Now is a good time in most sections of the state to do outside painting.** The weather is relatively dry and temperature moderate. In humid, warm areas, hard type paints stand up better while the softer plants are best suited in dry areas.

**Springtime means clean up, fix up and paint up jobs should be done.** Labor not needed for other jobs on the farm can be profitably used on them.

**'Garden-fresh' means vitamin-rich.** The fresher the food, the better the taste, the less the waste. There is still time to plant a garden.

**Professional entomology is 100 years old.** Entomologists are now using atomic science to better study the insects which affect the daily lives of practically every citizen of the nation.

**You don't have to be in a key position to open the door of opportunity.** — Biblical Recorder

### George W. Foster Funeral Conducted At Lubbock Friday

Funeral services were held in Lubbock last Friday for George W. Foster, 79, a one time resident of Floydada, who passed away April 28 at his home after a lengthy illness involving a heart ailment.

Services were conducted at 2:30 p. m. Friday at the First Baptist church there with the Pastor, Dr. J. Ralph Grant, officiating. Burial was in the City of Lubbock cemetery under the direction of Sanders Funeral home.

Survivors, in addition to his wife, include five daughters, Mrs. E. E. Patterson, Mrs. Earl Moore, Mrs. Ruth Carter and Miss Valla Foster all of Lubbock, and Mrs. B. K. Gambell, San Angelo, one son, George W. Foster, Jr., Inglewood, California, three sisters, Mrs. W. A. Amburn, Floydada, Mrs. Cora Southard, Lovington, New Mexico, Mrs. Grace Green, Pomona, California, and one brother, Clarence Foster of Floydada.

**Once Resided Here**  
Judge Foster lived in Floyd county from 1898 to 1902. He was a native of Mississippi, moved to Jack county in the early eighties and was married there before moving to Floyd. He ranched near Hillcrest and taught the school there in the school year 1901-2, according to pioneer records. He moved to Dawson county where he ranched and later became county judge for three terms.

He was in the dry goods business here with his brother Clarence from 1916 to 1918, lived in Wichita Falls and engaged in the oil business for a short time before moving to Lubbock in 1922.

He retired from active business 10 years ago.

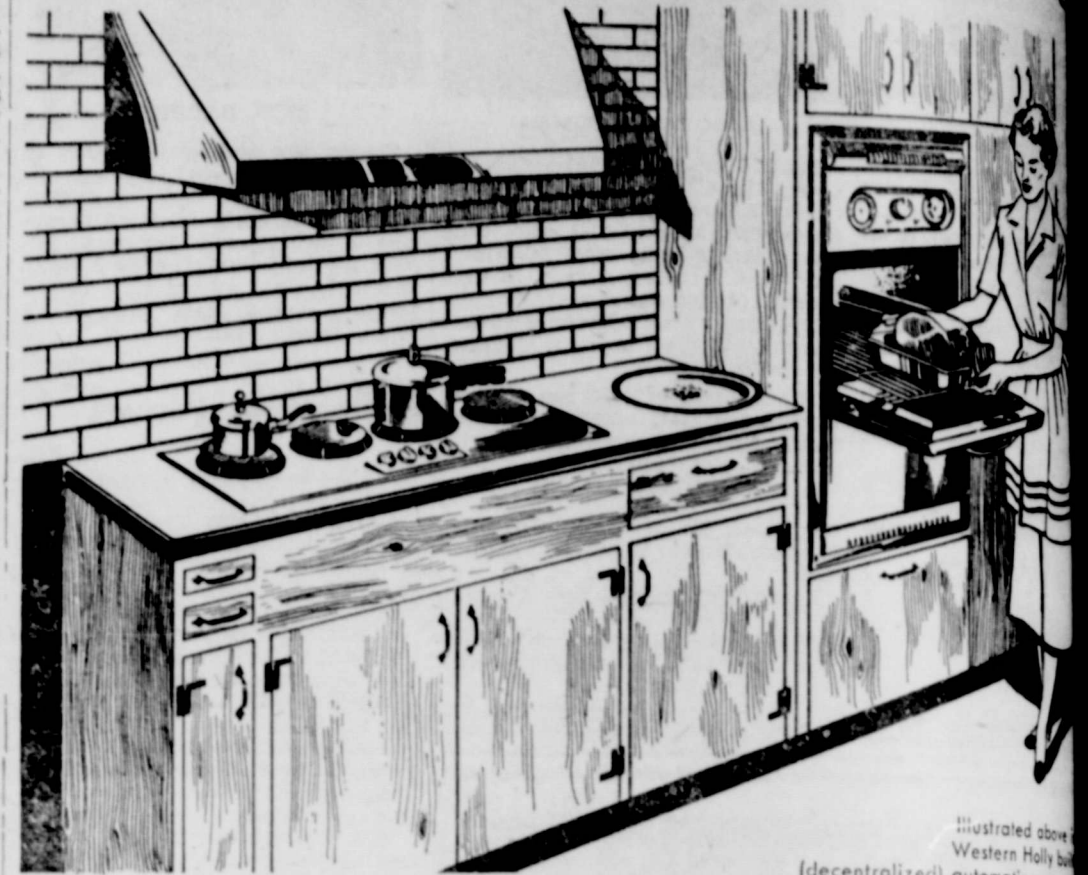

Geo. W. Foster was a member of the Baptist church and was a 32 degree Mason.

Attending the services from this area were Mr. and Mrs. Clarence Foster, Mrs. W. A. Amburn, Mr. and Mrs. Garland Foster, Foster Amburn, Mrs. Alva Jackson and Mr. and Mrs. Junior Calahan of South Plains.

**LOCKNEY.** — Mrs. J. M. Jeffcoat, who has been ill since last December has been seriously ill the past few weeks. Mrs. Jeffcoat is the mother of George and Cleatis Jeffcoat of Lockney.

## Strictly Cowboys in Stamford Rodeo

Stamford, May 6 — When a gate opens and a bucking horse bounds into the arena and somebody whoops, "Ride 'em, cowboy!", you can be sure that shout is strictly accurate—at the rodeo of the Texas Cowboy Reunion in Stamford.

In most rodeos, the contestants are men who make a career of going from one show to another and it has been a long time since some of them roped a calf or broke in a horse on a ranch—and some never have worked on a ranch at all.

But at Stamford, the cowboys are really that; they have come in from the range to compete and, when it's over, they will return to the range.

This eight week course trains enlisted personnel to perform general supply duties, to serve as unit armorer and to assist in supply operations and logistics. Student training includes instruction in subjects as mathematics, typing and administrative procedures, the Army supply system, fitting of clothing and footwear, arms and carpentry.

He will graduate from the school on June 12, 1954.

Billy Rex Carver, 19, Husband of Katherine Carver, Floydada, Texas, is completing his Air Force basic military training course at Lackland Air Force Base.

The Floyd County Hesperian, Floydada, Texas, Thursday, May 6, 1954

They look forward to the glory of competing at the tradition-rich Texas Cowboy Reunion. Dates are July 1, 2, 3 and 5 — (the Fourth falls on Sunday). There will be a rodeo performance each night, also a matinee on Monday, July 5.

Mr. and Mrs. Frank McClure and daughters, Mr. and Mrs. C. J. McClure, Mr. and Mrs. T. V. McClure and children of Lockney visited Mr. and Mrs. Grover Freeman in Littlefield Sunday.

## Women Form of Greek Sorority

**ORGANIZE SORORITY.** Members of a new group, Iota Xi chapter of a non-academic sorority, Epsilon Sigma Alpha, are pictured above. From left to right, standing, Jean Owens, Sherwyn Shurbet, Mary Ann Trice, Norma Britton; Seated, left to right, Millie Carmack, Gloria Ratjen, June Powell, Floy Jackson.

When Jean Owens, Norma Jones, June Powell, Mary Ann Johnson, Mary Ann Shurbet, Millie Carmack, and Floy Jackson were pledged to the national sorority, Epsilon Sigma Alpha. The pledges in a candlelit room in Mrs. Vera Ott, president of the Sigma chapter in Floydada.

Floydada's chapter would bear the name Iota Xi.

Epsilon Sigma Alpha, one of the exclusive non-academic Greek letter sororities, was founded in 1928 by a group of women in order to establish sisterhood based upon high standard of character, ESA, meaning pursuit of learning, has a three-fold purpose: social, philanthropic, and culturally educational.

On April 6, Iota Xi chapter were guests of Alpha Sigma chapter of Plainview. After the program, officers for the Floydada chapter were elected as follows:

Gloria Ratjen, president; Mary Ann Trice, vice-president; June Powell, recording secretary; Floy Jackson, corresponding secretary; and Sherwyn Shurbet, treasurer.

Immediately following the election was the installation of the officers.

The first home meeting of the Iota Xi chapter was held in the Southwestern Public service office where business and future plans of the sorority were discussed. Attending the meeting were four members of the Plainview chapter.

Gloria Ratjen and Mary Ann Trice served as hostesses and it was decided that June Powell would have the meeting in her home on May 6, today.

## Creative Writers Meeting Tonight

The Creative Writers held their regular meeting last Thursday night at 7:30 at the county library with Mrs. Albert King serving as chairman.

A letter was read from Miss Laura V. Hamner, asking the members here to join the Southwest Regional group and the Amarillo Pen Women.

The next meeting will be held tonight at 7:30 p.m. at the Library.

Mr. and Mrs. Bud Turner returned home Friday from a visit to parts of Oklahoma. They visited Mrs. Turner's family, Mr. and Mrs. J. C. Calahan of Tribby, and on uncle of Bud's, Mr. and Mrs. Ira Medley and family of Oklahoma City.

Ford's new 130-h.p. Y-block V-8 is the most modern in the automobile industry... the only V-8 in the low-price field! And Ford's 115-h.p. I-block Six is the industry's newest Six. Both of these engines give you the smoothest, savinest performance you've ever experienced.

You'll see more Fords parked in front of the finest homes and country clubs than any other car in its field. One reason is that many people who have owned the costliest cars realize that Ford offers the same beauty, quality and distinction—and for a far more practical price.

Ford is unsurpassed in riding comfort or ease of handling. A big reason is Ford's new Ball-Joint Front Suspension... which allows more total up and down front wheel travel for a smoother ride... keeps front wheels in line longer... so handling stays easy longer.

Surveys show Ford cars return more of their original cost when they are sold than any competitive make. So a Ford car costs you less to own.

Over the latest seven-month period covered by available figures, Ford has been the nation's best seller. That's because Ford has proved that it offers the most... in engineering advancements—in trend-setting styling—in value! Ford is America's best seller because it's America's best buy!

Worth more when you buy it...

# Final Concert Given by Band At Auditorium

About 600 adults and students attended the final performance of the school year of Floydada high school "Whirlwind Band" at the high school auditorium last Monday night.

It was also a farewell concert for the band director, John Jay Horn, who will enter military service at the end of school.

Special numbers were presented by a saxophone trio made up of Texe Kennamer, Jerry Coltharp and Bobby Rainer, and a brass quartet composed of Doyle Grundy, Walter Simmons, Keith Armstrong and Jimmy Collins.

The Tonette band, composed of 4th and 5th grade students, started their studies in February of this year, participated in the concert. The Tonettes played four numbers from memory. They are the foundation for the future Andrews Ward and Whirlwind band.

The Andrews Ward Band is composed of the 6th, 7th and 8th grades, who will in the future years replace the graduating members of the Whirlwind band. They have received practice in marching, as well as technic and problems of concert playing.

The Whirlwind band, who has improved tremendously this year, gave their version of Band Jive, among other numbers, which was tremendously applauded by the audience.

Expressing his thanks and gratitude for the band's cooperation, Mr. Horn hopes that the students continue their practice this summer as they have the past year and hopes that at least 10 members can participate in the band schools of the colleges in this area. They offer training for beginners as well as advance students, he pointed out.

The Whirlwind Band banquet will be held at high school May 15 and the Andrews Ward band banquet will be May 7 at the high school cafeteria.

**Band Places in Regional**  
More than 1,500 students participated in the Region I Interscholastic League contest which closed Saturday at Lubbock.

Sweepstakes winners were Lubbock, Plainview, Levelland, Brownfield, Abernathy, Sundown and J. T. Hutchinson Junior High school of Lubbock.

Thirty-two bands took part in the contest held on the final day of the two-day meet. The bands were judged on a four point system in all events. Organizations receiving a I rating were considered superior; II considered excellent; III, considered good and IV, fair.

In class AA the Whirlwind band placed second in marching, third in sight reading and fourth in concert

## KITCHEN AND ★★★ FIELD NEWS

from Lighthouse Electric Cooperative, Inc., by Nancy Morckel and Claude Weathersbee.

We noticed this comment in the REA LINES, a newsletter put out by Glidden Rural Electric Cooperative, at Glidden, Iowa:

**How About It?**  
Are you trying to operate "Cadillac" equipment on "model T" wiring? It isn't cheap! It isn't efficient!! It isn't safe!!!  
Make necessary wiring changes now—remember, the home you save may be your own.

Occasionally a member comes into the office and says, "My bill is much too high! I just couldn't have used that much electricity. The meter must be out of order."

The only way to tell how much electricity you have used is by the meter reading you send in. It is possible to make a mistake in reading the meter and it is possible to make a mistake in figuring the bill; so

anytime you receive a bill showing a big jump in the number of kilowatts used, the first thing to do is re-read your meter. Then check with us and they will be glad in the billing department to find if there has been a mistake made either in the reading or figuring. If the reading is correct and it has been figured correctly get a dependable electrician to check your appliances and wiring. Meters very often get slow, and sometimes stop, but very, very, seldom do they run fast.

Mr. and Mrs. Edwin Pollan and children visited in Lubbock Sunday with Mr. and Mrs. Bill Ward.

Mr. and Mrs. Wiley Rogers and Cecilia Ann spent Sunday with Mr. and Mrs. A. K. Fair and children in Lubbock.

Bill Hulsey went to Vernon to the rodeo Saturday.

Mr. and Mrs. John Austin of Lubbock spent Sunday with the W. A. Shaws.

Carl and Ina Lewis and Buck and Willie Mae Marricle went fishing over the week-end.

Francis and Shirley Money, Alene Brown, Pat Brown and Alta

Stroud visited with Catherine Appaling at her home Sunday night. Punch and cookies were served to the group.

Mrs. Wanda Hickerson and daughter Pat, Sally Jo Redd, Mrs. Elmer Cooper and sons Mac and Gary went to Lubbock Saturday afternoon.

Wayne Collins says: — "Sure is cold weather, I nearly froze to death."

Wanda Hickerson visited a short while with Mrs. Marion Curry while in Lubbock Saturday. On the way home she visited her aunt, Mrs. Flossie Sargent who lives in Rails.

John Nay says: — We, the employees, are so proud of our beautiful remodeled Co-op building that we have a burning desire to improve our working efficiency. To help us in this spirit, signs have been placed in their appropriate places to remind us, such as:

Note to engineers too:  
Always find something to do;  
If it bores you so  
To walk to and fro  
Reverse it and walk fro and to.  
Don't argue with Wanda — after all its only your word against thousands of hers.  
Catherine — don't worry about

## MOTHER'S DAY MAY 9

FOR MOTHER

LIFE FOR MOTHER HAS BEEN MADE EASIER WITH ELECTRICITY

Each year Mother's many household burdens have been made easier through electricity.

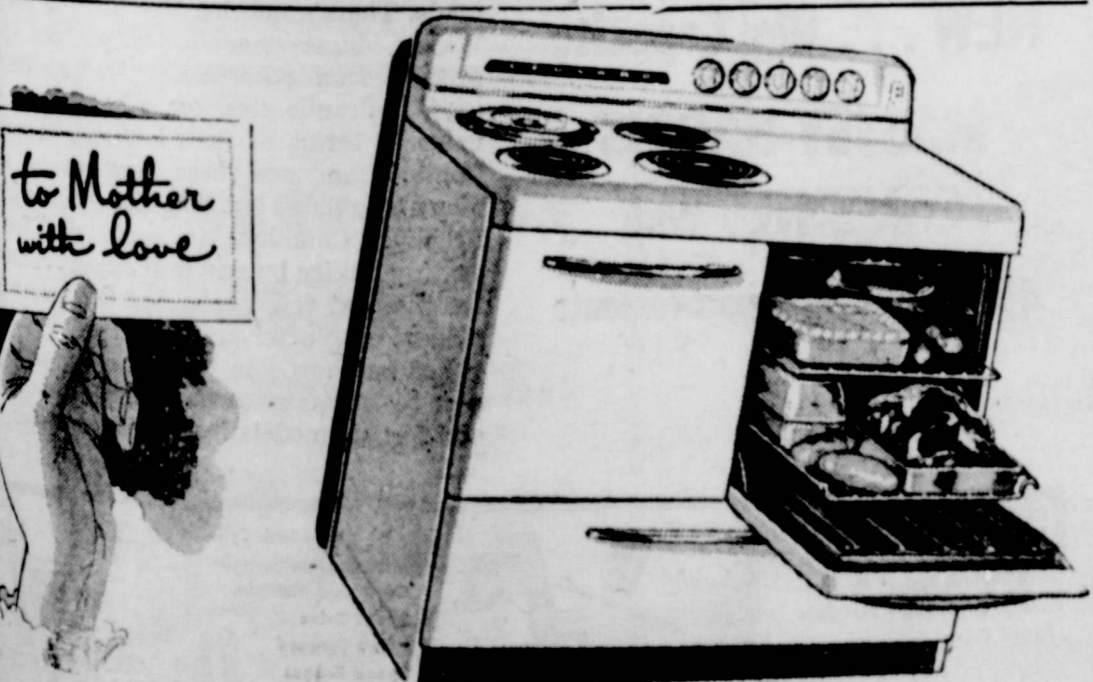

And that is only right, for Mothers have a tremendous task of raising their families, acting as counsellor in times of need, as doctors in time of sickness, and educators in the American way of life.

Since the early days of electricity, more chores have been lifted from mother... yet at less cost, for electricity has become man's cheapest servant.

On this MOTHERS DAY, give her a gift which means the most to her... more time with her family through electrical appliances.

(Texas Press Association)

AUSTIN, Texas. — Texas politics started with a rush as Governor Allan Shivers broke a log jam by announcing that he would ask the voters for an unprecedented third term.

Actually, Shivers is now in his third term; he took over as the state's chief executive upon the death of Governor Beauford Jester in July, 1949.

When his present term is ended, he will have served longer than any other governor—five years and five months.

Looming as Shivers' chief opposition were Ralph Yarborough, Austin attorney who ran for governor in 1962; and Reuben Senterfitt of San Saba, speaker of the House of Representatives.

Both held up their formal announcements for several days after Shivers made his intentions known.

Yarborough is a loyalist Democrat who will ask for the support of those voters who went along with Adlai Stevenson in the last presidential race.

Senterfitt is a conservative who differed with Shivers over several issues during the last special session of the Legislature.

Officially entered in the governor's race was J. J. Holmes, an Austin contractor.

Congressman Lloyd Bentsen, who recently announced that he would not try for re-election, had been considered a potential candidate for governor if Shivers did not run, said he would seek no political office this year.

Others who had been considered as possible gubernatorial material dropped out of the picture prior to Shivers' announcement.

Lieutenant Governor Ben Ramsey, Agriculture Commissioner John C. White, and Attorney General John Ben Shepperd will ask for another term in their present offices.

**Opposition Develops**  
As Ramsey entered his race for a third term, he had two opponents.

Representative George T. Hinson of Mineola filed for a place on the ballot and said he would make an active campaign. He favors increased taxes on natural gas pipelines.

C. T. Johnson, Austin insurance man, is also a candidate who has been traveling over the state and meeting the voters.

Senator A. M. Akin of Paris who had been discussed as a possible contender in the Lieutenant Governor's Race announced that instead he would run for re-election to the Senate.

**Water Is Topic**  
Water conservation was a prime subject for the political speakers.

That problem is one of the state's biggest, and influenced him in deciding whether to run for governor again, Shivers told reporters.

He said that in his opinion Texas has sufficient water if the supply is conserved, adding:

"Texas can solve its own water problems. It ought to be done in large part on the local and state level."

Backing for Shivers came from Guy C. Jackson, president of the Texas Water Conservation Association.

Jackson said he believes that the governor "plans to go all out with his usual energy to see that the next session of the legislature dedicates itself to an intense, patriotic study and ultimate solution of our water situation."

Yarborough, speaking at Hempstead, said that the answer to the water problem "is action, not a continual bickering between the State and Federal Government." He added:

"The State Government is wasting its energy and killing time by continuing to call the Federal Government names."

C. T. Johnson, as part of his platform, proposed the construction of 100,000 small dams in Northwest Texas to hold rainfall.

He also recommended a canal to connect 10 Texas rivers and provide an interchange of water to balance irregular flow.

Senator Lyndon B. Johnson also urged thousands of small dams in the upland areas of Texas for water storage and protection against floods.

**Race for Senate**

Senator Johnson drew opposition in the person of Representative Dudley T. Dougherty of Beeville, wealthy rancher and oil man.

Dougherty cranked up his campaign by sending to Johnson in Washington a telegram asking him some questions. Dougherty wanted to know:

Does Johnson approve of the use of U. S. troops in Indo-China?

Does Johnson favor sharing atomic secrets with other nations?

Will Johnson assist in the investigation of federal loans on Texas hotels and apartments?

**Justices Will Run**

Elsewhere on the political front, Associate Justices Few Brewster of Temple and Clyde E. Smith of Smithville announced for re-election as members of the Texas Supreme Court.

And Chief Justice J. E. Hickman said he would file soon. The other six justices still have parts of their elective terms to serve.

Most members of the legislature will seek re-election.

Martin Dies, of Lufkin, has filed for re-election as Congressman-at-Large.

**Teacher Pay Boost**

Passed by the special session of the Legislature, a bill to increase Texas public school teachers' pay by \$402 per year was signed by the governor.

Present for the ceremony were House and Senate sponsors of the bill and members of a committee that worked out the compromise plan for teacher pay.

Governor Shivers already has signed a tax bill raising the money for increased teacher pay and other purposes.

**Close the Gaps**

E. H. Thornton, jr., chairman of the state highway commission, told a Kaufman County delegation that the commission's policy is to complete gaps in the farm road system before beginning new routes.

Thornton's statement was in response to a Kaufman County representative's question on a local road problem.

"We will not be limited in our thinking by precinct lines," Thornton said. "We are proud of our farm-to-market road system in Texas. There is about 22,000 miles built or under construction. It is high time to start connecting these roads."

Thornton said that federal aid for roads has been increased for next year, and with matching funds, Texas' highway program will expand by \$35 million a year.

**Inspection Stickers**

There are 2,650,000 vehicles in Texas that have passed the automobile inspection test—but a quarter of a million cars are going around without the required stickers, according to the Department of Public Safety.

Automobiles lacking the evidence that they have been inspected will be sought out and the owners given warning tickets or court-summmons tickets.

April 15 was the deadline for the automobile inspection.

**Surplus Feed Grain**

Advantages are to be had by sale of the government's surplus feed grain, says John C. White, state commissioner of agriculture.

Such sale, the commissioner believes, would result in bringing the cost of livestock feed down and would bring relief to the cattlemen's drought problems.

Speaking at Vernon, White said further that sale of the feed would also save the taxpayers many millions of dollars because the government would get a return from products that are now merely clogging warehouses where space is needed for new crops.

News of Harmony

(by Mrs. Mather Carr)

HARMONY, May 3 — Work is progressing on the community center with different ones donating work everyday. It will be sometime before it will be ready to use as it will have to have equipment. The club is buying 52 chairs. It will be possible to hold the community meetings there but the club meetings will probably have to wait until other equipment can be purchased.

The Women's Society of Christian service met Tuesday at the church in its second study. This was given by Mrs. Marvin Smith and Mrs. R. G. Morris.

Mr. and Mrs. Sim Burrows of Plainview were guests in the Mather Carr home Tuesday evening.

Mrs. Marvin Smith, Mrs. Sherwood Ramsey and Mrs. R. G. Morris attended the teachers training school at Lockney Wednesday. Mrs. Horace G. Krebs also attended. This was for the vacation Bible schools that are soon to be held. Carr's chapel will have a vacation Bible school and invites all who will and want to attend.

Prayer services were fairly well attended Wednesday night. Mrs. R. G. Morris brought the devotional, reading from the book of Jeremiah.

Mr. and Mrs. R. B. Gary left the middle of the week for Wellington, Kirklind, Quannah and other points in Texas as well as Clinton, Oklahoma, for visits with relatives.

There will be a short Mothers day program at the chapel next Sunday morning. Flowers will be given to the oldest and youngest mothers present so all be sure and attend.

## Holding Water Where It Falls Is Vital Topic

Marvin Shurbet, director of the High Plains Underground Water Conservation District, and Tom McFarland, manager of the District, spent two days recently in Austin attending hearings held by the Texas Water Resources committee.

"The conservation of water seems to be the main topic of discussion all over the State," Mr. Shurbet stated. "I was surprised to see how much everyone is concerned with methods for holding rainwater on the land where it falls and the storing of flood water for future use," he added.

The importance of conservation of ground water of Texas was stressed by two organizations appearing before the Resources Committee, The United States Geological Survey and the State Board of Water Engineers were both very emphatic in stressing the importance of ground water conservation.

The Bureau of Reclamations and the Corps of Army Engineers also presented very interesting discussions on the impounding and controlling of flood water of the State.

# Floydada Club Wins Plaudits of Club Women

Child welfare activities of the 1929 Study club of Floydada has been cited as outstanding in the Seventh district of the state federation of clubs.

Meeting in Dalhart on April 21 the district federation awards committee voted the Floydada women's organization first prize, a blue ribbon, for the report. The committee for the judging was selected from the 1946 Study club, the First Methodist church and the First Baptist church of Dalhart.

Mrs. E. E. Joiner, president of the 1929 Study club received the notice of the award and the ribbon confirming it the first of the week from Mrs. H. P. Mundy, of Shamrock, Seventh District president.

The idea for the child welfare program of the local club grew out of the establishment of the Floyd county free library. The story hour initiated by the study club is covered in the report. The report is as follows:

**Story Hour Report**

The 1929 Study club of Floydada was among the early supporters of the idea of a library for Floyd county. When the library was finished by the Commissioners court, this club inspired to further planning for the success of the project. To this end they gave as a club donation in cash and later decided to adapt the story hour as their special project.

The Story Hour began immediately on the opening of the library on July 1, 1953. At the close of the year it has missed no Saturday meeting in spite of hot weather or rain or the early hours. Six girls have had the excellent opportunity of working with a group of children. Each Saturday one or more club members have been present to help with the smaller children and to plan the seating and the passing of simple refreshments. Attendance has reached into the seventies at times.

**Children's Films Shown**

On more than half of the meeting days special children's films have been shown. A color movie of Story Hour was made under the arrangements handled by the Library committee of this club. It is now held for club programs and PTA meetings when it may be desired to use it. Two tape recordings of the story hour have been made through the courtesy of KFLD, our local radio station. One of the tapes was purchased by the Texas State Library for use in its public relations program; the other is the property of the 1929 Study club and is held in the library for use during Book Week and in a variety of other ways. The club has voted money to buy recordings to be used on the record player given the library by one of the club members for use during the story hour.

This the 1929 Study club has made a contribution of money and time which will develop character among our smaller citizens and leadership among our older girls as well as contributing to the development of the library's use, and the personal relations program of the local and state libraries.

# As A Farm Woman Thinks

(by Nellie Witt Spikes)

**Mother's Diary**

— Elsie Duncan Sanders

I found a little record of her days in the old home. A few short lines Each day were all she wrote. My mother's ways were simple. When she planted columbine She put it down; the day she set a hen;

The little calf she weaned from mother cow; Her daily household tasks, or when She visited the sick—but, oh, somehow One line apart from others seems to stand—

"I went to the mail-box," she would say—

I looked upon it—here in her own hand—

"That one short line she wrote from day to day.

Dear God, on high. Can mother see tonight

These tears, for letters I failed to write?"

Sunday I will wear with loving pride and happiness a red rose, in honor of my dear mother who lives in Lubbock. And these lovely lines will be in my heart and I send them on to her.

God made a wonderful mother  
A Mother who never grows old,  
He made her smile of the sunshine,  
He moulded her heart of pure gold.

He made her as nearly an angel  
As anyone ever could be;  
God made a wonderful Mother  
And He gave that dear Mother to me.

And I am sure that is what you can say of your own mother.

Did you ever have your mind play a trick on you? Well, I have. Only last week I had been invited to review our History of Crosby County and Mrs. Temple Ann Ellis was to tell of her own experiences. Only the day or so before I had looked at my letter of invitation to make sure I knew the day, the hour and the place. While we were riding along to Petersburg, Mr. Spikes going along for company and to visit in town, it came to me that I could not recall the name of our hostess, though it was very familiar as we had known the name through the many years we lived on the farm. Nothing could bring it to me: blankness, the wire was cut. We got to town. I asked where the club was meeting. Six miles out at Mrs. Allmon's. There was a lady coming from Ralls to give the book review. I knew there was some mistake, that was not the place I was going. We went to the News office. I was desperate. The time of three o'clock had come and was going — At last I found out, of course it was to be at Mrs. Guy Lynn Scarbrough's.

Mrs. Ellis and I started out with full directions. We stopped where a man was working on a plow.

"Is this the way to Scarbrough's?"

"Yes, there are three of them living up this road."

"We want to go to the one who has a new house."

"All three have new houses."

We began to feel like the Arkansas Traveler. We thanked him and watched him smile as we drove away. Well, we could tell by the number of cars, anyway.

What a beautiful home we found. What a gracious hostess. What a number of interested ladies. My mind played me a trick but now was doing its best for me as we

talked of the history of the west, especially the part that we could put in the confines of a book.

We had such a lovely time. The little boy and girl of the house tried in their way to show us a good time. We looked over the house, its beauty and well-planned usefulness made us happy for farm women to share the modern conveniences with their city neighbors. We came away, longing to go back. To see the growth of the hedges, the finish of the one room not done — To eat good home-made ice-cream and cake — to sit in an easy chair on a cold day and look out of the big picture window on the north and see the white snow flakes come from the gray woolly clouds overhead and settle on the green of the cedars. Thank you, ladies of the "36" Study club for a wonderful afternoon.

I found out later that Mrs. Pauline Watkins of Ralls was to give the book review at the other club meeting in the Petersburg neighborhood.

My first trip to Petersburg after our marriage was made one afternoon in a low-wheeled wagon, my husband taking some discs to be sharpened. Many times when I lived at Emma, father and mother had gone through there on our way to Canyon and Amarillo. From that warm spring afternoon to the one of last week, I have always enjoyed going to this pleasant little city. As we near the town, it always has looked to me like a mile of Dresden ribbon on the prairie. The soft greens of the trees, the blurred red of the bricks and the shingles on the houses, the yellows and whites, the blues and the pinks, they shimmer in the misty mirage and the ribbon seems to softly wave a greeting to me.

I like to go in the stores, the friendly news office and often I wonder how Mr. Suits gets so 'het-up' when he takes his editorial pencil when he is so calm and entertaining in talking. Not that his column is not of interest. It is. We also enjoy the Gift Shop of Ella's in the same building as is Tom's Variety Store.

Not half enough time and we only had a few minutes to visit a spell with Mrs. John Allen and have her tell us, "You are better than looking at a television show." Thanks, dear friend, My, this column had better stop or you will quit me before you finish.

**HAVE NEW DAUGHTER**

Mr. and Mrs. J. W. Day, Jr., of the McCoy community, announced this week the adoption of a baby daughter born April 2. The young lady has been named Cindy Helen and weighed 7 pounds and 8 ounces.

Grandparents are Mr. and Mrs. G. H. Day of Floydada and Mr. and Mrs. J. W. Day, Sr., of Burkburnett. Great grandparents are Mr. and Mrs. S. M. Woolsey of Floydada and Mrs. W. D. Day of Duval Oklahoma. Cindy Helen arrived at her Floyd county home April 30.

**IN APPRECIATION**

We gratefully acknowledge, and sincerely appreciate, the many acts of kindness and various expressions of friendship shown us during the illness in our home. The lovely flowers, your many beautiful cards, every word of encouragement and prayer helped give us strength to withstand the anxious days and nights that we went through.

Mr. and Mrs. Fred L. Lam

Fred L. Lam who has been a patient in Plainview hospital & clinic for the past two months, was returned to his home at 516 West Tennessee St., on Friday, April 30th. He is still confined to his bed, but will be pleased to have his friends come by to see him.

## Ardena Special Hormone Cream

a new formula to help bring new vitality, new glow, a new look of youth to your complexion

To the notable list of her contributions to the art of looking younger than you are, Miss Arden now adds a most exciting new one—

**Special Hormone Cream** is a new combination of natural estrogenic substances whose function is to help re-vitalize the millions of little cells which make up your skin and in this way help it to regain the fresh, clear color, the firm texture, the aliveness of your younger days.

Price \$3.50 Larger sizes also available \$6.50 and \$12.00 plus taxes
