## Queen to Be Chosen Will Represent Floyd County

Floyd county's Farm Bureau queen will be chosen Friday night beginning at 8 o'clock at Floydada high school auditorium, with nine of its lovely daughters vying for the honor of representing the county in district and state competition.

Mrs. Dorris Jones, chairman of the contest, says the evening's events, what with music, the presentation of the young misses and the crowning of the judge's choice for queen should make a most enjoyable program.

Mrs. Jones has been assisted by Mrs. Joe Foster in rounding up the personable daughters of Farm Bureau members who would consent to enter the contest.

Jack McIntosh, vice-president of Floyd county Farm Bureau will be master of ceremonies, and the queen will be crowned by Chester Carthel, president of the Floyd county organization.

The arrangements committee is composed of E. L. Turner, Grigsby Milton and Robert Lee Smith.

Here is the line-up of entries, together with the sponsoring organizations which are presenting them:

Pat Helms, daughter of Mr. and Mrs. P. D. Helms, sponsored by the Starkey H. D. Club;

Ann Belt, daughter of Mr. and Mrs. J. R. Belt, jr., sponsored by the Lockney Lions Club;

Jo Ann Harris, daughter of Mr. and Mrs. Clark Harris, sponsored by the Pleasant Valley H. D. Club;

Joyce Hammonds, daughter of Mr. and Mrs. C. T. Hammonds, sponsored by the Friendship H. D. Club;

Barbara Bullock, daughter of Mr. and Mrs. R. C. Bullock, sponsored by the Floydada Garden Club;

Gwen Richardson, daughter of Mr.

and Mrs. J. N. Richardson, sponsored by the Dougherty H. D. Club;

Glynell Armstrong, daughter of Rev. and Mrs. Tilden B. Armstrong, sponsored by the Floydada Chamber of Commerce;

Barbara Carthel, daughter of Mr. and Mrs. Hershel Carthel, sponsored by the Lockney Rotary club;

June Wiley, daughter of Mr. and Mrs. M. W. Wiley, sponsored by the Lockney Business and Professional Women's club.

The young lady chosen from this list will represent the county in the district contest at Lubbock in September. She will also have an award of \$50 to be used as expense money for herself and a sponsor to attend the Farm Bureau institute at A. & M. College in August.

Mrs. Jones said the contestants will be judged by numbers.

Two of the judges have been named. They are Earl Sears, member of the American Cotton Council, Lubbock, and Representative Elbert Reeves of the 88th district in the Texas legislature, Matador. The third judge is due to be chosen by Jean Leach of the Farm Bureau field organization.

A big crowd of people from practically all areas of the county is expected to be present.

## Cedar Hill, Flomot Road Progresses

Work on the Flomot-Cedar Hill farm to market road is progressing well, reports state this week.

Many of the crew are making their temporary homes in Quitaque, and several are going back and forth from Floydada.

This construction will close a gap in the Flomot cap road from the end of the Flomot P-M road to the Floydada highway. The highway department said that it would take at least four months for completion.

## Damage Is Heavy In Tuesday Blaze

Fire of undetermined origin gutted the stucco home of Mrs. C. Snodgrass at 320 South 2nd early Wednesday morning.

Mr. and Mrs. Gerald Snodgrass were living in one of the apartments at time and Mrs. C. Snodgrass was in Amarillo. The fire was reported to have started in the front north east bedroom which was unoccupied.

Neighbors in that vicinity said they smelled smoke as early as midnight. The blaze smoldered for several hours until fire broke out around 5:30 o'clock a. m.

The damage by fire and water was heavy.

It was stated that the house was covered with insurance and the furniture partially covered.

# Absentee Vote Sets Record For County

Floyd county Democrats march to the polls Saturday and name their preference for nominees of the party for state and districts, and at the same time will choose county and precinct nominees.

By a simple majority they will select a county judge, a sheriff, a county treasurer, and a commissioner in Precinct No. 4.

## Precinct Conventions

If you want to have a part in determining the policies of your political party in Texas, for the next two years Saturday is the day for you to prove it, the place is at or near your precinct voting box and the hour is 2:30 o'clock, if you live in Floyd county.

Here the county Democratic executive committee lists the precinct convention places, the number of votes your precinct will have in the county convention and the precinct chairman:

Precinct	Place of Convention	Delegates	Precinct Ch.
SW Floydada No. 1	Dist. Courtroom	21	W. G. Collins

Contests for only two offices of the county offer the prospect that there may be a local run-off race in August. These are for assessor-collector of taxes and for commissioner of precinct No. 1.

In all the other local district, county and precinct races the candidates are only "one to the hill." Beginning with district judge the voters will also name nominees for district attorney, for county attorney, for district clerk, for county clerk, for county surveyor, for justices of the peace, and for commissioners in Precinct No. 2 and 3, which have no opponents for their respective offices.

But against all of these indications that there might be little interest and consequently a light vote, the absentee balloting points in the exactly opposite direction.

County Clerk Margaret Collier gave the figures for absentee votes at closing time Tuesday night at 196. This is 59 more absentees than cast ballots two years ago, when several hundred more voters were eligible than are eligible this year and when the heat was on in several hotly contested races, along with a "get out the vote" campaign.

The reason will become apparent Saturday night but this mid-week some well-informed political students professed to be at sea as to what the meaning might be.

Largest number of absentees are in No. 1, Southwest Floydada, with 72 votes, the second in Southeast Floydada and the third in Northwest Floydada. Only two boxes in the county will not be represented in the absentee tabulation that will be made by the special election board.

Total number of poll tax and exemption receipts issued in the county this year was 3,290. Assuming the interest in absentee voting indicates the general interest the total vote should be up close to the 3,000 mark in the county.

With the abolishment of the Aiken precinct there are 21 voting places in the county this year.

In every one of them except two the county committee has arranged for the balloting to be at the same place as in 1952, save and except two.

No. 23, northeast Floydada the voting place has been moved from the upstairs grand jury room to the north end of the hall in the court house on first floor.

The other change in voting place is at Cedar, where the committee has designated the T. F. Love garage as the voting place. It is conveniently located on the pavement in the Floydada boxes this year will have the pleasure of making use of private voting booths, as a gift of Floydada Rotary club. Voting booths are provided for in the election code but they have been a luxury which successive committees and commissioners courts have felt unable to afford. Permission to furnish the booths for voting places was obtained from the executive committee by the service club.

## Floyd County Fair Directors Select K. W. Cook As Manager

K. W. Cook, Lockney life insurance man has been drafted by the Floyd county fair board of directors as manager of the 1954 fair.

It was at this meeting that Cook was induced to take the management of the association. Since the fair will start from nothing except the zeal for a good idea that has persisted in the minds of community and farm leaders for two years, it will have no errors of prior years to correct.

Over the week-end Cook was looking around to find out what is a county fair and what is the manager of a county fair supposed to do.

In Floydada Friday morning Cook said he never attended a county fair in his life and was going to have to find out what it is all about.

The directors of the association, on the other hand, think they have made a "find" in Cook and expect him to help them tremendously in putting life and pep into the plans for the fair—and make it a big success on September 17 to 19.

The fair association directors had their July meeting on Thursday night at the Plains theatre in Lockney.

In business life Cook is agent for the Rural Life Insurance Company. He said last week-end he felt he could hardly go far wrong in promoting the fair since he will work strictly on the advice and backing of such a persistent set of good farm and business people.

After the first county fair in Floydada in September of this year the board of directors will begin immediately to make plans for the second fair in 1955 at Lockney.

The county fair catalogue will be in the hands of the printer by this week-end. Meanwhile those who want to enter live stock in the show should see Dean Walls or Olin Bryant.

The agricultural committee members are Chester Mitchell and Chester Carthel;

For commercial exhibit space Jake B. Watson and Pat Stansell are Committee members;

Mrs. M. J. McNeill and Mrs. Roy Tinsley head the women's department.

And for entertainment features and ideas Bill Norman and Bill Beedy are the representatives of the fair association on the board of directors.

## Bill Du Bois Hurt Seriously In Oil Field Accident

Bill DuBois is a patient in the Plainview hospital this week suffering from painful injuries received in an accident at Ozona Tuesday night of last week.

For entertainment features and ideas Bill Norman and Bill Beedy are the representatives of the fair association on the board of directors.

Bill is employed by the Cardinal Chemical Company and the crew had left Odessa, their office, and to work on an oil well. He was driving an acidizing truck and using the wrench to lift heavy equipment when the guy wire broke pinning him beneath.

Bill was taken to an Odessa hospital and his injuries were diagnosed as a broken pelvic bone fractured ribs, a deep cut on the head, shock and bruises.

He was brought to the Plainview hospital last Saturday and was reported to be improving altho his stay there will be at least eight weeks.

His wife, the former Wanda Lackey is here with him as well as his parents, Mr. and Mrs. Edell DuBois, of Fairview community.

There every type of problem a chamber of commerce executive can expect to "run into" is posed and the right from the wrong solutions are picked out and studied in intensive sessions.

Some of the more able commercial executives of the southwest conduct the seminars and "students" are checked and "graded" on both oral and written work done in the school.

Watson has been attending the institute every year since he returned from the service and entered the field of endeavor as manager of the Floydada Chamber of Commerce organization.

Mrs. Watson accompanied her husband as far as Paradise in Wise county. She has been the guest of relatives there during her husband's stay in Big D.

H. G. Barber and J. M. Carroll, accompanied by Gayno Scott, Alvin Batey and Carl Brock left Tuesday morning to attend the Future Farmer of America annual state convention in San Antonio Wednesday through Friday.

The group plan to return home Saturday.

## Watson Spends Week in 'School'

Floydada Chamber of Commerce manager is in school again this week.

O. M. Watson, jr., left Friday of last week for Dallas and is attending sessions of the Southwestern Institute for Chamber of Commerce executives.

## YOU KNOW HOW TO VOTE?

Under the new Election Code, a voter, in marking his ballot, may use either the old method of striking or marking out the names of all candidates in each race except the name of the candidate he wants to vote for, or he may use the new method of placing an "X" or other mark in the square beside the name of the candidate in each race for whom he wants to vote.

However, he should not combine the two methods in marking his ballot, for by doing so, he makes it difficult for the election judges to determine how he intended to vote, and slows down the counting of votes.

The two styles of voting are entirely different. Do not make the mistake of mixing them. County Chairman Ben P. Ayres explains it as follows:

If you use the old method of marking your ballot by striking or marking out names, you should leave on the ballot only the names of the candidates you want to vote for, striking or marking out all others.

If you use the new method of marking your ballot by placing an "X" or other mark in the squares besides the names of the candidates, you should place an "X" or other mark in the square beside the name of each and every candidate you want to vote for, including any unopposed candidates; you cannot vote for an unopposed candidate merely by leaving his or her name on the ballot as under the old method—you must place an "X" or other mark in the square beside his or her name.

Whichever method of marking your ballot you use, mark your ballot carefully, clearly and completely—there is no point in voting if your ballot is miscounted or thrown out altogether due to poor marking, and the job of an election judge is thankless and poorly paid at best—don't make it any tougher by careless voting.

Finally, do not strike out the party pledge from your ballot—the law requires such pledge, and directs that no ballot be counted without it.

## Miss Kinsey Given Shower at Turner Home Tuesday Nite

## Crosbyton Couple Anniversary Day Is Next Saturday

A bridal shower honoring Miss Mildred Kinsey, daughter of Mr. and Mrs. Tommy Kinsey of Lubbock, bride elect of Clifton (Popeye) McPeak, was given in the home of Mrs. V. D. Turner Tuesday night. Clifton is the son of Mr. and Mrs. Vernon McPeak.

The wedding ceremony is planned for July 25.

The serving table was covered with a lace cloth underlined with green. The center-piece was a miniature bride and groom, accented with green streamers and candles. Green punch and cake were the refreshments. Napkins with the names of Mildred and Clifton were the plate favors.

In charge of serving was Charlotte Johnston, Wanda Jones and Carolyn Collier. Audeen Turner received the guests and Mrs. Doyle Turner presided at the registering book. Thirty-five guests registered.

Corsages of white carnations were presented to the honoree and her mother.

Hostesses were Meses Beamus Carver, Charlie Warren, Bill Norris Leroy Burns, Gene Lawson, L. W. Queen, L. B. Stewart, D. D. Turner, Doyle Turner, V. D. Turner and Bill Ferguson.

## Beth Hinson, Air Force Officer Take Vows in Ceremony July 10

The sanctuary of the First Christian church was the setting of a double ring ceremony in which Miss Beth Hinson became the bride of Mr. Richard Sage Harper. The vows were read by the Rev. W. D. Reaves pastor of the church, on July 10, at 4:30 p. m.

The bride is the daughter of Mr. and Mrs. Emmett Earl Hinson sr., The grooms parents are Mr. and Mrs. Edwin S. Harper of Idaho Falls, Idaho.

The organ prelude and traditional wedding marches were played by Miss Cynthia Alexander of Dallas. The altar of the church was decorated with an arch of white asters and greenery. Baskets of white gladioli and tall candelabras of white tapers flanked a white prayer bench. Miss Suzanne Jackson, daughter of Mr. and Mrs. C. F. Jackson, Cotton Center, lighted the candles. Given in marriage by her father

the bride wore a gown of imported Chantilly lace and long sleeves. The fitted bodice, accented by a portrait neckline outlined by pleated tulle, joined a bouffant skirt. The skirt, lace over a wide band of pleated tulle, ended in an aisle width train. The veil of French illusion, cascaded to finger-tip length from a lace cap which featured pleated scallops of tulle encrusted with pearls. Her bouquet was of baby orchids and stephanotis.

The three attendants wore identical strapless ballerina length gowns of ice-blue lace and net with tucked bodices, net stoles and full skirts with lace over-skirts. They wore bandeaux of blue lilies of the valley, with nose veils touched with rinstones. The bridesmaids carried colonial bouquets of yellow roses.

The bridegroom was attended by Donald F. Vincent of Swannanoa North Carolina. Ushers were John C. Conroy of Port Huron, Michigan and the groom's brother, Howard H. Harper of Idaho Falls, Idaho.

Reception in Church Parlor  
At the reception that followed in the church parlor, Mr. and Mrs. Edwin S. Harper joined the bridal pair to receive the guests.

Presiding at the guest book was Miss Betty Barnett of San Antonio. At the bride's table was Mrs. Howard H. Harper of Idaho Falls, and Mrs. Edwin M. Harper of Twin Falls Idaho, sisters-in-law of the groom. They were assisted by Mrs. T. W. Whigham of Amarillo and Mrs. W. L. Leubfried.

An ecru cutwork table cloth and roses provided the setting for the three tiered cake.

For the wedding trip, Mrs. Harper wore a toast-colored linen jeweled sheath with matching jacket. Her ensemble was completed with white accessories and a corsage of small green orchids.

Following her graduation at Floydada high school, the bride was graduated from Texas State College for Women and is employed at Kelly Field where she works for the Air Force Security Service.

On his last laundry run it was alright, but it happened to it while it was in the wash.

After several comments from lady customers, it was decided that the heat must be it, altho it was hotter the days before than it was today. But, as he said, it must be the heat.

## LIBRARY NEWS

(By Mrs. Roy Hollar) Gifts have come to us this week from Miss Nell Swinson, Mrs. J. H. Widener and Tommie Assiter. New Books from current reading lists are: "The Black Swan" By Thomas Mann; "The Royal Box" by Frances Parkinson Keys; "A Stillness at Appomattox" by Catton; "Himalayan Assignment" by Nevil Shute; and "Rebirth of a Citizen" by Roupp.

Looking back over the daily circulation records for the past week or so we note with some pleasure that our non-fiction record is well assorted. A sample of one day shows one book each of philosophy, religion, social science, science fine arts, two books in the field of useful arts, three in history and the same number in adult biography. These with one pamphlet make up the non-fiction for one day with forty-three fiction titles and 29 children's books for the sum total. It has been a real pleasure to have our summer school and correspondence students make use of the library for their courses. These accounts for some of the days when our non-fiction record showed almost twenty volumes in widely assorted fields. This use of reading matter other than fiction during vacation is complimentary to our local reading taste. During the school term we used a wide variety of subject matter because of these as-

signments at school. The library staff appreciates our opportunity to serve the students of the entire school system.

Mrs. Clyde Harmon terminated her employment in the library on last Saturday. We regret her going and appreciate her weeks of work with us. Her home duties just now involve both moving and remodeling and thus are taking all her time.

Mrs. Harmon grew up in Floydada. She was Sabra Thaggard before her marriage and has many friends here. We shall hope to have her in often. Story Hour flourishes no matter what the thermometer registers. Mrs. Downing told the stories and directed the games. Her flannel board is a great favorite with all the children. Mrs. Clyde Harmon furnished refreshments for the group after the games on the lawn. New faces seen were Donna Sue Baker and Michale Lawlis of Millington, Tennessee.

We were glad to have Superintendent and Mrs. Joe Gibson of Canyon and Mr. and Mrs. John L. Heim of Austin visiting us on Saturday. It was a pleasure to show our library to those people who were re-visiting their home town.

We like the Saturday afternoon when the county council of home demonstration clubs meets. Our friends from all over the county are represented and often they drop in for books that otherwise might stay on the shelves.

Please note our farm safety board. The artist is Douglas Wadding and the creation is entirely his own. We appreciate his help with this and other projects calling for artistic aid.

Mrs. Ivy Pearl Reber will take over for Mrs. Harmon. Our borrowers know Mrs. Reber and will be glad to have her in the library again.

Hickerson of Grand Prairie, Texas, Mr. and Mrs. Elmer Dazey and Billy Mack of Clovis, New Mexico, Mack Hickerson of Fort Hood, Texas, Mrs. John Wahl, Buena Holmes, Pat and Ann Hickerson.

The July issue of The Cinnamon News, a booklet published by the Texas Engineering Extension Service, a part of the Texas A. and M. College system, in cooperation with the State Board for Vocational Education and the Texas Job Training and Safety Committees of the Texas Rural Electric Cooperatives, was dedicated in memory of the late E. L. (Ed) Williams, Former Head of the Texas Engineering Extension Service.

Mr. Williams was founder of the Texas Engineering Extension Service, of which the rural electric training program is a part. He died June 14th at Bryan, Texas, hospital, two weeks following his retirement as operating head of the service. He had served as an industrial vocational educator at Texas A. and M. College since 1925.

He was a man of high purpose whose "get-it-done" attitude was a

source of inspiration to those who worked under him. Mr. Williams was a native of Michigan "yankee." Mr. Williams, being one by "birth" rather than by "birth." Launching his career as an old factory worker, he became recognized as a leader in vocational education. He is the man in overall Texas, come true.

Mr. Williams visited Lighthouse Electric Co-op on April 20th when the Latta Student's Conference for Texas was held here.

John Nay says: Got to thinking the other what the favorite saying of co-op personnel might be is a few guesses:

Wayne Collins — It won't get equal rights, it will come down from them. Melvin Henry — The only that Texans won't stand for are their mules. Corkey Guiffee — I can't point out a girl from my pointed one out to me.

Wanda Hickerson — We're long hours anymore — they 60 minutes each now.

Shorty Neff — When a nightwatchman I never get until one morning it dawned.

Catherine Appleby — I want to answer the dose if it answers you back unless it's a ocratic primary. If elected I shall continue you the best that I know. Sincerely yours (Political Advertisement)

Mr. and Mrs. W. M. Sunde last week in New Mexico his sister, Mrs. J. W. Beebe arrived home late Sunday.

## Conditioner Fails; Workers Swelter At Court House

Over at the court house they're not banking too much on having air conditioning again for use this season, Judge Ralph C. Johnston said this week. But it was nice when they did have it.

The court house workers have been sweltering for more than 30 days now. The air conditioner that made a job in the court house a pleasant one, isn't operating any more. The experts the county has had looking the situation over tell them that low water pressure when the freezing unit was operating is to blame.

The commissioners don't know exactly what the bill will be nor how soon they will get repairs done. The coils in the freezing unit are steam boiler. The coils froze and burst. The bill is sure to run several hundred dollars when they can find a freezer man with the equipment and know how.

If it turns out the court has to pay the damaged unit the bill will be somewhere above \$2,000.

## Softball League Schedule Ends Tonight; Play-Offs to Follow

Tuesday, July 27, is the last regular season game night for the Hi-Plains Softball League.

Starting immediately after that date will be the play-offs which will match the first and fourth place teams and the second and third place clubs in the first round play-off.

In the second round it will bring together the two losers playing for third and the two winners who will fight it out for the one, two spots.

An invitation tournament is planned to follow the league play-offs and is scheduled for early August. The tournament will probably conclude the softball season at the local diamond.

Four more games are on tap before the play-offs get under way and these should all be top-notch attractions.

Tomorrow night (Friday) it will be Plainview versus McCoy at the rodeo grounds in Floydada, and REA will go to Farmer for the other contest.

Tuesday night, July 27, it will be Builders Mart against Plainview at the local diamond and REA against McCoy on the McCoy field.

Play the past week in the league saw some very close ball games. Friday night it was McCoy 7 and Farmer 5 in an eight-inning game played in Farmer. The winners were forced to come from behind to knock off lowly Farmers who are in the cellar position in league standings.

The Friday night go in Floydada was a 6-2 affair and was won by Builders Mart, REA being the losers.

Monday night at Lockney in two non-league affairs REA defeated Lockney Fire Department 4 - 1 in a nine inning thriller. McCoy took

## Capada Enlarging Screen To Show Cinemascope Soon

W. D. Mount announced this week that work would soon be completed on the screen at the Capada Drive-in Theatre. An additional 30 feet in length and 6 feet in height is what the plans call for, and this will bring the screen to a size of 72 x 36 feet. Mount said this will give us one of the largest screens in West Texas and the largest one in Floyd county.

Also included in the modernization program is complete new equipment in the projection booth. The new set-up will enable the management to show the latest pictures in both cinemascope and the big screen panoramic shows.

Completion date for the work in progress has not been set as yet, but a grand opening for the new type pictures is planned by the Capada in the near future. Patrons are asked to watch the Hesperian for an announcement of the change over. Nightly shows are running as usual in the meantime and a schedule of the week's entertainment appears on another page of this week's paper.

## Clubs Initiate Napoleon Park Improvements

Floydada Lions club, Floydada Junior Chamber of Commerce and Floydada Garden club have initiated a new program of improvement at Napoleon park which they hope to make a beauty spot in the community.

Former abortive efforts forgotten, the three organizations anticipate they are going to have the backing of the community, and the backing and aid of the city council.

E. A. Williams, president of the Lions, said that a new sod of grass new trees, curb and gutter are in the plans. This week R. L. Kendrick donated a good job of deep plowing which will be followed by leveling for more efficient watering. The city has removed dead, neglected trees from the premises.

Improvements viewed as desirable left on the lots are the remaining trees that are in reasonable condition, along with the tennis courts and the garden club's rose plot.

Park improvement funds are expected to be available from the city's coffers as time goes along, reports the Lions committee that waited on the city council in connection with their plans.

Need of a park in walking distance of children of the community, with adequate attention and police protection, are among the crying needs, in the view of the clubs and Jaycees.

Members of the Lions improvement committee are Gene Collins, Jr., W. O. Baker and Claud Weathersbee.

## Storage Is Bottle Neck in Supply Of City Water

Water Superintendent B. V. Carver, who with his men, has been sweating it out on the acute water situation, sees the probability that the condition will be permanently relieved soon. And temporarily there'll be plenty of water in the mains most of the time.

The situation has been not exactly what the public has thought, Carver says. The fact is the city has ample water resources for the needs and ample pumping power if they could operate the wells and the pumps around the clock. The shortage is in storage.

"Along about 1 o'clock in the morning when you get everything full you have to stop the pumps," said Carver this week. "This four or five hours the pumps lose is the answer to the low pressure in the late afternoons and evenings."

Shortly there will be 200,000 gallons additional overhead storage and a tremendous increase in the pumping capacity as well, but that isn't now. The city has been borrowing a portable power plant for their new well. Occasionally Tye & Son, the owners, have to have their equipment for a time. When this happens the six inch stream the well could be putting into the supply tank through the 2,200-foot aluminum pipe line laid on the ground is cut off.

To meet this emergency the city expects to have a stand-by engine on the job by the week-end.

Meanwhile the city has the pipe on the ground to connect the new well, has a big motor ready to install, together with poles and service lines, when all matters in connection with the location of the line can be settled and the easement granted for it. Possibility that the highway may be widened adjacent to the location of the new city well has had something to do with this delay.

The customers are using a million gallons of water a day and would be using more if the pressure were maintained at all times, Carver reports.

Carver explained that for protection against fire more than 100,000 gallons of water is automatically retained in the tanks at all times regardless of whether water flows freely in your bath tub.

## Palace Announces Cinemascope Soon

The new look in cinema is coming to Floydada. Cinemascope, Vistavision, Panavision, Superscope and the rest of them will be duck soup for projectors and screen at the Palace Theatre soon, reports Jack Deakins, manager of Floydada theatres.

Engineers have measured and checked the Palace and have figured out all the measurements for the new curved screen, which they are building and will install soon, said Deakins.

The date for the change over can't be definitely set yet, but it is not too distant. Use of the much wider new curved screen and anamorphic lenses will give the illusion of depth, said the theatre man.

"We are doing some other things to add to the pleasure of the theatre goers and to keep up with the times," reported Mr. Deakins.

### VIEWS AND COMMENT

The Election Law under which we are operating at the time seems to have ironed out some of the "bugs" in the machinery that plagued former party authorities — the chairmen, precinct, county and state. These matters deal with the administrative side of the operation Election. Often, it is said, when a bill is introduced in the legislature to iron out some of such matters as elapsed time between events, some legislators, with good intentions doubtless, argue the legislative body into making new impossible requirements. Generally speaking, though, we at this time have about the best set-up in state history for administering elections within parties. County and precinct chairmen who have the responsibility of handling the elections would be good people for the legislature to get advice from on such matters.

The rabble rouser is getting to be more and more a thing of the past in the councils of the farm and ranch people. Organizations representing the farm people for the most part (altogether, so far as we are informed) have eschewed the intimations and the near approach to slander that used to keep a good many farm people out of farm organizations. Nowadays the farm organization has its policies determined after much debate and study in countless community and county meetings. The farmers and ranchers realize that selfish agriculture cannot long endure. Their welfare depends on their relations with the rest of the people that populate the country. On the other hand the people who make up the rest of the country—the farmers' customers—realize that agriculture cannot be left to the violence of a strictly supply and demand economy. So, between them, with reasonable farm and ranch people and reasonable customers good is bound to come up for the future.

This kind of talk leads up to the fact that the farm population is faced with controls and acre diversion more drastic than in previous years. Rough sledding is ahead for agriculture. Congressman George Mahon last week states that "those who have been seeking to drive a wedge between the city consumer and the farmers are succeeding in part." The support program is the crux of the matter. Mahon and others are arguing that the 90 per cent support program on basic crops has not been responsible for the high cost to the taxpayer of the farm program. It is the flexible program on non-basic crops that has run the bill so high. Basic crop supports have cost not over a million a year for 21 years, a very cheap price to pay. But this argument so far has been rejected. The president and the USDA officials strongly believe that the flexible program is the better of the two plans. Meanwhile, with all other commodities, except

farm-based commodities, showing a higher tendency there is every reason for the farm man to proceed with caution.

**Watch your insecticides.** All the insecticides which are found in a reputable place of business of late years are made for definite purposes and for definite uses. They are labeled carefully and the user is protected by rigid inspection, both of officials and manufacturer. So that they can be used with confidence if used as directed. So many of them are offered on the market, however, that the user may become careless in the use of insecticides that can be harmful or even cause death when handled improperly. Read the instructions on any new type of insecticide, learn its characteristics, what it is stated it can and will do. Remember the preparation is okay if the user handles it right. Some preparations are harmless, some are not. Any remedy that is bought to kill any living thing has to be poisonous in some manner to some type of creature. Watch out for what the label may say as regards warm blooded animals in particular.

**Grain Storage Troubles** The grain handling people, along with agricultural engineers and students of drying and storage of grains have learned that without doubt all grain storage troubles can be traced back to moisture. Insects, heat and mold follow where there is high moisture content. If you have dry enough grain kept dry enough you don't have trouble. Otherwise, you are in for loss. This lesson learned by the grain people in connection with government storage contracts can well be used by any person who finds that he wants to get into the storage business. It appears that a good many Floyd county people will want to do so when fall comes, especially if, meanwhile, a kind providence sends good or late July or early August rains.

Cotton has been successfully cultivated with a rotary hoe at speeds up to 18 miles an hour by H. E. Ray of the Texas Agricultural Experiment Station. This is rotary hoeing at the rate of 6 to 8 acres an hour. Details on the hoe and the tests are available from the Agricultural Information Office, College Station. Ask for Progress Report 1691.

Last year 700 fatal farm accidents involved tractors. The Texas Farm and Ranch Safety Committee urges farmers to operate their tractors carefully; to keep all machines in top shape and all guards and safety devices in place.

#### CAUSES OF CATTLE BLOAT

A clue to a major ranch headache, livestock bloat, has been found in legumes.

Agricultural researchers believe they have discovered the culprit in saponins, those plant materials that produce a soapy lather. Scientists say this helps explain the steady increase of bloat in recent years as improved varieties have increased the use of legumes in pasture mixtures.

In recent tests, alfalfa saponin was fed five yearling ewes, two goats and one heifer. In 8 out of 10 cases, the saponin caused definite distention. Bloat was severe enough in one sheep given 55 grams of saponin that it required immediate treatment to prevent death.

Legume saponins had long been suspected as causing bloat but they had never been isolated in identifiable form and in amounts sufficient for testing until recently. Now it is possible to obtain several pound of saponin per ton of dry alfalfa.

Proof that alfalfa saponin can cause bloat is the first big lead in the all-out effort by the government and industry to find the cause of an ailment which costs millions of dollars annually. Bloat not only kills animals, it reduces milk yields and retards fattening of beef cattle.

Actually, these preliminary investigations have just scratched the surface. They will be extended to include studies of the active or toxic forms of saponins in different varieties of alfalfa, as well as in ladino

and other clovers. The federal Agricultural research service is the leader of the project. Many states, including Texas, are actively cooperating with federal agencies in a search for other possible causes of bloat. Other states are working independently on this important problem.

If bloat can be reduced only slightly, it will mean many thousands of dollars extra for Texas cattlemen.

# Cancer Crusade Finds A Ready Response; Quota Over-Donated

The drive for funds in Floyd county for Cancer Crusade Tuesday had exceeded the quota of \$1,035 by \$400.22 Monday night, said E. C. Carter, chairman of the fund campaign.

A few additional donations may come in but the major part of the work has been done, and the crusaders mark the job up as completed with very good response from the entire county. One or two committees did not get to meet their assignment due to illness and the like, said Carter.

Mr. Carter said the committee is expecting to report and remit the assigned quota of \$1,035 to the Cancer Crusade headquarters.

Unless there is disapproval of the move the recently-organized local unit of the Cancer Crusade will retain the \$400 and any additional funds that may come in to cushion against next year's call for help in the battle of research and treatment of cancer.

Carter was emphatic in pointing out, however, that the widest local

publicity to this action is wanted. "If there is material objection to the idea we can change, but our thinking is that, since \$1,035 appears to be Floyd county's quota, that is the amount to forward. The cancer fund kept here will remain intact against future need." (The Floyd county remittance was actually \$1040.22.)

In these days when newspapers are full of tales of violence...  
 When parent tortures child, husband shoots the man who steals his wife, family friend kidnaps and mistreats a minor...  
 When men in high office misuse the trust placed in them, then declare they've done nothing wrong...  
 When our minds are filled with distrust of our fellow man... We are reassured by a closer look at the people we really know...  
 The wealthy widow who puts three nephews through college...  
 The successful doctor who backs a promising poor boy...  
 The friend who goes out of his way to help another get a better job...  
 The neighbor who brings over a freshly baked cake and cleans up her neighbor's kitchen when unexpected guests arrive...  
 Somehow the hundreds of home-acts performed each day—that never make the headlines—help remind us that Americans are usually good Christian folks. That restores our faith...  
 Then we remember that people in other lands don't know this side of our country; the across-the-fence kindness that really makes up American life. And we wonder what they must think we are like over here—with all our luxuries and our killings and our easy way of life, which we don't seem to appreciate...  
 And so we wonder if they have another side, too, the French and Indians and Japanese. Maybe they are a nation of good people also, with only a few who get out of line...  
 And are we judging them by what Senator So-and-So says their leaders think, instead of by the door-to-door philosophy of the people who really make up a land?  
 And it makes us wish we could do a better job of understanding and helping our fellow man.

# Farm Accident Rate Is High; Care Is Urged

President Eisenhower has proclaimed the week beginning July 25, 1954, as National Farm Safety Week. His proclamation calls attention to the vital importance of the farm safety campaign.

The National Safety Council and the Department of Agriculture are again sponsoring National Farm Safety Week in cooperation with the States and counties, farm organizations, farm press and radio, and many other groups interested in agriculture. The united action of all these groups has done much to effect a substantial reduction in farm injuries. There are still far too many farm accidents, however. Many of them can be prevented by developing awareness of hazards and habits of carefulness.

The number of fatal accidents to farm workers is greater than in any other occupation in the United States. Serious injuries are nearly 85 times as many as the fatalities. Last year there was 59 deaths for each 100,000 farm workers, as com-

pared to 14 deaths for each 100,000 workers in manufacturing, and 44 deaths in transportation. Seven hundred of the fatal farm accidents involved wheel tractors. One-third of the fatal tractor accidents reported involved persons under 20 years of age. One case in 10 was a child under five years of age.

Modern insecticides are powerful. Read the labels carefully and follow instructions to the letter.

Work around the barns may be as hazardous as work in the fields. Remove these hazards and avoid risks to reduce accidents in farm work.

Motor vehicles are responsible for the greatest number of accidents to farm people. There were 267 deaths per 100,000 farm people in 1952, as compared to 15.5 deaths in the home, and 16.9 deaths at work. Accidents to farm people caused by motor vehicles account for nearly one-fourth of all deaths and injuries that occur on rural highways.

Total deaths to all farm workers was about 3,800 last year, with some 320,000 total injuries. Let us therefore develop habits of extreme carefulness and "farm to live and live to farm."

## Announce Pancake Supper Next Week

A pancake supper to be served for two hours the evening of July 30 will be used by the Methodist Youth Fellowship as a fund raising enterprise, Becky Potts, secretary of the fellowship and chairman of the committee, said this week.

You get Tomorrow's Style in Today's Buick

## It's a Million Dollar Ride-and no foolin'

YOU can see for yourself the gay and gorgeous styling that's sure to be the fresh note next year, too.

And you can easily learn that here is power a-plenty—the highest V8 power, Series for Series, in the annals of Buick history.

But what you can never know, till you try it yourself, is the feel of a Buick in motion.

It's a ride as precision-soft and firm as only coiled steel can make it.

Yes, coil springs on all four wheels. And a full-length torque-tube drive for true tracking. And a massive X-braced frame for solid steadiness. And specially calibrated shock absorbers, V-braced struts,

wide-rim wheels, a unique front-end geometry—plus a host of other betterments too numerous to mention.

You feel the result of this advanced engineering every mile you drive—in what is literally and figuratively a Million Dollar Ride.

You feel it in the superb and buoyant cradling. You feel it in the serene levelness of your going over ruts and ridges. You feel it in the precise snubbing of jars and jounces. You feel it in a new kind of steadiness, handling ease, curve control.

Only thing for you to do, we believe, is to come try this miracle of motion—and we'll be glad to oblige.

That way you'll also learn firsthand about the style, the power, and the value that have made Buick such a best-selling success this year. For Buick today is out-selling all other cars in America except two of the so-called "low-price three."

(Smart tip: With Buick such a beautiful buy this year, think what a winner it's bound to be at trade-in time! Come see us this week!)

Stomach Ulcers

The stomach is an amazing efficient machine, sorting, evaluating, retaining and dissolving the chemical elements of foods.

But when a healthy stomach stops producing digestive acids in proper quantities, manufacturing too much or too little, the lining of stomach breaks down the protective wall.

Ulcers are the inevitable result.

Chiropractors have scientifically proven that treating the ulcer is not sufficient, and the cause must be removed, and the cause, generally is traced to the nerves supplying the stomach and producing the proper amount of acid.

Chiropractors know that when the stomach does not function properly, the nerves themselves are at fault and should be examined.

Chiropractors meet this problem by locating the vertebrae interfering with the proper flow of nerve impulses and by chiropractic adjustment restore the vertebrae to its normal position.

Chiropractors have successfully treated thousands of stomach ulcer patients as attested by the many acknowledgements sent to their office.
