Run-Off For County Judge Will Be Held

Four write-ins for the office of county judge of Floyd county in Saturday's Democratic primary has thrown the race for this office wide open again.

G. C. Tubbs insurance and real estate dealer, and W. E. Grimes, attorney, both of Floydada, are squared away to battle for the majority required for nomination in Texas.

Both have served the county as judge in prior years.

Two write-ins came from Dougherty, with the name of Ralph C. Johnston written in. Similarly one ballot counted by the absentee special board carried the name of Johnston. A fourth vote, cast in Southwest Floydada Box No. 1 was for W. F. Daniel.

Ballot figures for the two candidates stood at 1396 and 1398, with Tubbs two votes in the lead, in the unofficial vote reported Saturday night. This vote was confirmed when the executive committee made their official tabulation Tuesday morning.

With a majority of all votes cast required for election, the committee with 17 of 21 precinct chairmen present, voted 13 to 4, to put the names on the majority primary ballot for August 28.

It is said to be the first time that such a case has arisen in the annuals of Floyd county politics. One other time two candidates were tied for office and the unusual procedure of casting lots as provided by the election law was used by the county committee.

Claude V. Hall, The Hesperian Founder, Died Sunday in Dallas

Claude V. Hall, the man who founded The Floyd County Hesperian in 1896, died Sunday in Dallas, at the age of 80 years.

He was there for a check-up and observation, when the end came at Dallas Medical and Surgical Clinic.

Claude V. Hall, teacher, writer, lawyer, founder of The Hesperian, died at Dallas Sunday.

Funeral rites were held at Commerce, Tuesday where he had made his home since 1922.

A writer, lawyer and educator, Mr. Hall had an unusual and gratifying career.

His survivors include his wife, the former Ethel Alston of Pleasanton, Texas, one son, Ford, of Dallas, and one daughter, Mrs. Graham Johnson, of Denver, Colorado. Three grandchildren also survive.

Best known in Floyd county and in this region as the author of The History of Floyd County, he had a wide range of activities, the writing of the history being only a passing phase of his educational life. The history, written as a thesis for a master's degree at University of Texas in 1922, is widely quoted and referred to for authentic names and dates in the early history of Floyd county.

Mr. Hall founded The Hesperian in 1896. The first issue of the newspaper carried an order of the Commissioners court of Floyd county declaring the results of a prohibition election held on March 18, 1896.

Mr. Hall came to Floyd county in 1890 with his parents, Mr. and Mrs. Jeff Hall. He was an only child. He taught school in Floydada in 1891-2 and at Meteor in 1892-3. Impressions of the decade (See Claude V. Hall, back page)

Floyd County Wheat Growers Favor Quota Controls; Vote In Listless Referendum Shows 91 per Cent

There isn't any doubt that Floyd county, containing by far the largest area of wheat land on the South Plains, wants the wheat production quota program for the 1955 crop.

The vote in this county in last Friday's referendum gave production quotas 91 per cent majority, compared with a nation-wide majority of 73.3 per cent.

It was the lightest vote ever cast in a marketing referendum in Floyd county as well as over the entire wheat belt.

Total vote in this county was 237. Of these:

- 155 ballots were cast at Floydada - 139 "yes" for marketing quotas, 16 against;
- 41 ballots were cast at Lockney - 38 "yes", 3 "no";
- 41 ballots were cast at Cedar - 40 "yes", 1 "no".

The majority "yes" was 217 to 20.

The referendum at Cedar Hill was conducted by Walton Wilson, Clyde Bagwell and S. H. Tackett;

At Lockney the election holders were Chester Mitchell, C. H. Schnacht and Raymond Rucker.

At Floydada Earl Edwards and Chioma Williams presided.

The outcome will be that the government will continue to support the wheat market—somewhere between 75 and 90 per cent of parity, the rate still to be decided. Along with the support price, however, will come stricter production control—acres of land on which growers can produce wheat.

Under the program each farmer is allotted wheat acreage. The allotments were due to go into effect whether or not the farmers adopted the marketing controls.

If a farmer plans more than his allotment he must pay a penalty of 45 per cent of parity on the wheat produced on the excess acreage.

To be eligible for the support loans a wheat farmer also must comply with other crop allotments next year. Under a cross-compliance program, he can only plant hay, pasture or clover, crops on acres

diverted from wheat. Formerly he could plant any crop on diverted acres.

The 1955 national wheat allotment has been set at 55 million acres, compared with 63 million this year.

Mother of J. M. Willson Passes; Funeral Monday

Final rites for Mrs. D. M. Willson, 87, mother of J. M. Willson of Floydada and Mrs. T. M. Nichols of Tulla, were said Monday afternoon at 4 o'clock at the Hartston-Coe funeral chapel in Fort Worth.

Rev. Hayden Edwards, pastor of the Polytechnic Methodist church, officiated. Interment was made in Greenwood cemetery. Four grandsons and two grandsons-in-laws served as pallbearers.

Mrs. Willson succumbed to the infirmities of age at Memorial hospital in Fort Worth after an illness of a few weeks.

Other survivors include six grandchildren, J. M. Willson, Jr., and David Willson, Floydada, Mrs. Robert Arnold and Mrs. Bill Addis, Dallas, J. W. Nichols of Dimmitt and J. T. Nichols of Tulla. Several grand children also survive.

A native of Tennessee Mrs. Willson and her husband came to Texas in 1885, and made their home at Rhame. Later they moved to Decatur and Mr. Willson was a pioneer banker and merchandiser there.

They moved to Floyd county in 1917 and remained here until the death of Mr. Willson in 1930. Mrs. Willson had been making her home in Fort Worth since that time.

Floydada members of the family returned home Tuesday morning after attending the rites.

Yarborough Gains Convention Control

There seems no doubt that Saturday's county Democratic convention will be firmly in the control of the Yarborough faction.

The convention will be called to order at 2:30 o'clock by county chairman Ben P. Ayres, at the district court room.

Their decisive win over the Shivers backers Saturday in four Floydada precincts indicate a well-organized machine that will go into the convention with 42 votes (old style), whereas the Shivers forces have only 21 votes definitely in the bag.

Twenty-three votes from various precincts in the county will come to the convention unattached, but at least some of these elected delegates are favorable to the liberal wing's Yarborough inclination.

West Lockney with 19 votes and Allmon with two constitute all the positive known Shivers-faction votes in the convention.

Starkey, Lone Star, South Plains, Cedar, Baker, Lakeview, Harmony, Dougherty, Sterley, McCoy, all elected unattached delegates.

In the Yarborough camp are No. 1 Floydada, No. 19 Floydada, No. 23 Floydada and No. 24 Floydada, with a total of 42 votes.

The four Floydada precincts, representing 42 votes in the county convention, sent solidly Yarborough supporting delegation to the county democratic convention, all bound by the unit rule.

In precinct 1 the test of strength came on the vote of the delegations to the convention. Yarborough supporters won this vote 38 to 20. In none of the other three precincts did the contending Shivers supporters put up a battle. All chose delegations unanimously.

About 75 were registered as qualified to take part in Precinct One convention. In the others the crowds were smaller, with only a hand full in Precinct 24.

The rule of representation in the county convention adopted by the county committee was allowed to stand, based on Democratic votes for governor in the last general election. The county chairman said he assumed the county committee had the authority to interpret the statute in that manner and that a telegram advising the chairman to base representation on the total vote for the representation on the last general election was not binding.

W. G. Collins, precinct chairman, was elected chairman of the precinct convention and Ed Muncy secretary. After electing delegates and alternates the meeting adjourned the whole procedure taking not over 10 minutes. Delegates named were: O. B. Olson, Ed Holmes, W. G. Collins, R. D. Probasco, J. M. Wilson, Jr., Greer Christian, Mrs. Z. R. Crawford, Claude Weathersbee, W. P. Ferguson, Rose Jones, B. A. Robertson, R. D. Smith, Gaines Trepie, Ed Muncy, Melvin Henry, Mrs. Thelma Jones, Mrs. P. A. Denison, A. L. Wylie, Jr., A. A. Brown, Bill Hulsey, R. L. Trice.

Alternate delegates named were: Mrs. N. B. Stansell, W. C. Mooney, J. E. Perry, E. L. Thomas, G. E. Fuller, John E. Hoffman, Mrs. John E. Hoffman, Floyd Boren, W. J. Walker, Z. R. Crawford, Earl Rainer, Randall P. King, Riley Teague, Dona Covington, Claude Patton, Lloyd Allen, Ed Johnson, Roy Curry, Preston Badgett, Mrs. Roy Curry.

At Baker the convention named Gilbert L. Fawver, Floyd Bradford and C. A. Williams as delegates, unattached.

Lone Star chose H. E. Frizzell, Mrs. C. H. Farish, Wiley D. Nance, Jr., as delegates, unattached.

Harmony convention chose Mr. and Mrs. David S. Battey, Jr., as delegates to the county convention and gave them no instructions.

The South Plains precinct convention elected Bill Beedy and H. T. Bradshaw as unattached delegates.

Dougherty named W. H. Smith, Henry Hinton and Neely Richardson delegates to the county convention, unattached.

At McCoy the convention elected J. B. Fowler delegate and O. L. Bearden alternate, with no instructions.

Cedar Hill will be represented in the county convention by Walton Wilson and Charlie Purnell, delegates, and T. S. Brown and Gene Gilley alternates.

West Lockney's slate of delegates, pledged to support Governor Shivers is composed of Edgar Hays, F. L. Brown, T. B. Mitchell, E. R. Harris, R. E. Patterson, Leslie Floyd, R. C. Mitchell, Kelton Shaw, Chester Mitchell, Mrs. Jesse Cox, Mrs. J. H. Widener, Mrs. Kelton Shaw, Mrs. Marvin Gilbert, J. E. Cox, A. P. Barker, sr., Mrs. R. E. Patterson, Mrs. E. R. Harris, Mrs. T. B. Mitchell, and Mrs. Edgar Hays. A slate of 19 alternates also were named.

F. L. Brown was elected chairman of the West Lockney precinct convention and Edgar Hays secretary.

LIBRARY NEWS

(By Mrs. Roy Hollar)

One hears a great deal about large libraries and, perhaps too frequently, we see a library building or the total number of books. So it was refreshing to come across a clipping from United Press in a recent issue of "The Dallas Morning News" which described the smallest library in the world. It was built in 1943 in Beaver Falls, Pa. The village has a total population of 29 according to our atlas and the library, our clipping says, is nine feet high, six feet wide and one foot deep. It houses 300 books and is named for three different families. Summer visitors and the local population use the library. The clipping did not say where the library attendant stays when it rains. We are hoping there is a cover of some sort for protection from sun or rain.

Miss Erin Gamble sends us "Personal Security, Through Faith" by L. R. Ditzel in memory of her mother, Mrs. Belle Gamble, and "Courage is the Key" edited by Alexander Kuen, in memory of Mrs. Emma Johnson of San Antonio. We also had a package of books from Miss Gamble in addition to her memorial gift. Mrs. Edna Mae Honea, Beth Crawford, and the Kinard family have made the library gifts of books.

There is a great charm about our early history and one of the most charming people of that long gone age is Sacajawea. We have just unpacked a new book about her. It is written by Frances Joyce Farnsworth and is the result of years of collecting data and studying Shoshone folk lore. The book is called "Winged Moccasins" and is complete with index and bibliography. However, we think you will read it for the story and perhaps want to refer again to Daugherty's "Of Courage and Adventure." Much fun as it is to look back and revel in a past that we can be proud of, one must also look ahead and face the realities of today and the perils of tomorrow. So we make mention of another gift book from an anonymous donor. It is called "The Road Ahead" and is by John T. Flynn whom you hear over radio. It is a thought-provoking small volume and we thought perhaps our readers might like to know it is available.

The boy was thrown against the windshield and several stitches were required on his forehead and cheek. He was kept overnight in Peoples hospital for observation. His father was treated for a bruised knee and Mr. Lanier received a bruised shoulder. Both were released after medical attention.

Light System Improvements Are Under Way

A crew of workmen of Hamilton Electric is carrying on a betterment project over the Floydada municipal electric system that will overcome conditions that developed during the heavy loading up of the plant during the past two years.

Under a contract signed with the city in June work that will require three to five weeks at a labor cost of \$3,000 to \$5,000, plus materials furnished by the city, will be done. Labor cost for the basic unit of five men doing the job is running \$1,100 per 40-hour week. Among other things a neutral line to three-phase connectors is being run. A change over in voltage is also being made to balance the load over the distribution system.

An exact estimate of the total cost of the changes is not available. N. P. Mathieu is the engineer supervising the project.

Buys New Switch Gear
The city also has contracted to spend \$9,705 for a new switch gear to be installed in connection with the new 1800-horse power engine in the power plant. Graybar Electric Company, Samuel S. Rutledge, manager, was awarded this contract Friday night. Delivery is promised in 28 weeks. Cost of installation will be in addition to this contract.

Joan Crawford Dons Levis For Johnny Guitar

Starring Joan Crawford in one of the most startlingly different screen roles of her entire career, Republic Studios presents a powerful drama of love, violence and suspense. Set against the picturesque grandeur of old Arizona, "Johnny Guitar," arrives at the Palace Theatre next Sunday, Monday and Tuesday.

Other outstanding players in the film are Ward Bond, Ben Cooper, Ernest Borgnine, remembered for his portrayal of the sadistic sergeant in "From Here to Eternity," John Carradine and Royal Dano.

In "Johnny Guitar," Joan Crawford dons levis and six-guns. Furious opposition threatens her frontier saloon strategically located on valuable land through which will pass a new railroad. It's a strong story of physical violence and dynamic emotion; of mass hysteria and lynch mobs pitted against a consuming love which rises to tense emotional heights above the turmoil.

Such taut drama played against the harsh backgrounds of rugged Arizona desert country is in contrast to the vivid beauty of Cocconino and Prescott National Forests in Northern Arizona.

DIAGNOSED? SO WHAT?

One of the most common symptoms found in bodily disorders is a headache. Headaches may indicate a functional disorder of almost any kind. Certain periodic headaches are called migraine headaches. When there is nausea and vomiting, it is sometimes called bilious headache. Kidney disorders, stomach and heart trouble, high blood pressure and etc. often have symptoms of headache.

But even though an accurate diagnosis were made, what then? From a treatment standpoint the ways and means of correction are varied — diets, rest, drugs, surgery, change of environment.

Chiropractically speaking, most of these measures are secondary. As chiropractors see it, the basic cause of most disorders and symptoms are due to nerve disturbance.

Falls and accidents frequently strain or shock the spine, and displace a vertebra to a degree sufficient to pinch nerves. This disturbs function, lowers resistance, and results in the beginning of a disorder which will yield various symptoms.

Chiropractors never treat the disease itself. They are trained to locate the point of nerve interference and are skilled in making such spinal adjustments as are necessary to release the pinched nerves. Having cleared the nerve channels, much as a lineman removes the grounding from an electric wire, service or function is re-established and the symptom and disorder tend to disappear. Consult a chiropractor to improve health and don't worry about a diagnosis.

Improvements At Wester Field Are Coming Along on Schedule

Improvements on Wester field are coming along fine, reports coach Preston Watson. The new stadium is all but completed, and only a few touching up jobs are left to be done on the new press box.

Fixtures for the additional lighting that is being installed are all here with the exception of the switches which are due any day. City electricians have been working with the school for some time on the lighting problem and yesterday morning had started hanging the cross arms for the new lights.

The electric scoreboard has not arrived as yet but is expected momentarily. Invoice for the board is already here and plans about completed for its installation.

Concrete, Steel and Wood

Pans who have held off on purchasing reserved seat tickets until they could see what they were buying can get a pretty good picture of the new plant now. The stadium, on east side, is of steel and wood construction set in concrete. All joints are welded with seats bolted on. Walk ways are wide and protective rails border the stadium on all sides.

The press box is a 7 x 20 foot structure. It is of frame construction covered with drop siding and sealed with ply wood. Joe Hendricks of the school's industrial arts department is the builder. Mr. Hendricks has done a very good job on this box which will have plenty of glass in the front and ample lighting and electric outlets on the inside. The building can be locked and there are wood shutters to protect the

glassed in front.

Coach Watson has been in charge of the building program and has been busy at the field since the closing of school. Working with Watson were Glad Norman, Stanley Vickers, Marvin Rucker, Jimmie Collins, Dale Reed and Larry White. The last two named have worked mainly on the field, with the other boys doing most of the construction work.

The Whirlwinds start their season this fall with a home game for their new field when they take on the Ralls Jackrabbits on September 10. Practice sessions are scheduled to get under way August 23.

Cooling Showers Measure an Inch in Some Sections

Showers that cooled off practically all sections of Floyd county have fallen during the week. Nitrogen-laden rainfall brightened forage feeds and greatly aided cotton.

Monday some areas of the east and southeast part of the county had light rainfall.

Early Wednesday morning rains fell in the small hours that reached 1.1 inches in portions of Pleasant Valley, Sand Hill and Barwise, an inch at Muncy elevator, a half inch at Harmony, 4-tenths of some places in Lakeview, 3-tenths at South Plains, and a half inch at Floydada. Three-tenths of an inch fell at Lockney, and only a few spots indicate fall that was not measurable. The heat wave has held temperatures in the high nineties and on several occasions has shot temperatures up above 100 degrees.

Cotton, on dry land as well as on irrigated land, however, appears thrifty. Feed crops, mostly late, are due to hold up another several days.

Schools to Open September First

Floydada high school and Andrews ward school will open for the school year on September 1. It was announced by I. T. Graves, superintendent, this week.

More definite announcement concerning the opening of the North ward school will be given later. Faculty announcements and the dates for pre-registration are due to be given out later this month, also.

Survivors include four sons, Zollie, Floydada; Willie, Clovis; John, Bowie; and Lester, Garland; two brothers, Wesley, Lamesa and John, Harton, Alabama. Also surviving are two sisters, Mrs. Carroll McDaniel and Mrs. Lillie Burgett of Harton, and 10 grandchildren and 16-great-grandchildren.

Pall bearers were Creed Parrish, Horace Marble, George Beedy, Grady Dunavant, E. W. Dunavant and E. L. Cornelius.

Burial was in Floydada cemetery under the direction of Harmon Funeral Home.

Brother of R. B. Calhoun Succumbs

Dr. J. S. Calhoun, 72, a retired Dallas physician and surgeon, died at 1 a.m. Sunday in a hospital at Glen Rose. He was a brother of R. B. Calhoun of Floydada who with his wife attended the funeral.

Dr. Calhoun practiced medicine in Dallas for many years until he retired in 1930 and moved to his ranch home at Walnut Springs.

He was a past president of the Dallas Medical Society, a 32nd degree Mason and a Methodist.

Surviving are a daughter, three sisters and four brothers.

Funeral service was held Monday at the Brister Chapel in Meridian, Rev. Robert Goodloe, a Bible professor at SMU and a brother-in-law to Dr. Calhoun, officiated. Burial was a Hamilton.

Sparkling Clean City Pool Report

Patrons of the city swimming pool last week-end were high in their praise of the cleanliness of the pool. The Floydada Volunteer Fire Department closed down operations for a time last Thursday and did a big clean-up job and then gave the pool a good airing before opening for business.

Swimmers found the water fresh and sparkling when operations were resumed. Carl Rodgers of the fire department expressed confidence that it could be kept that way. A new filter is on the way and will be installed as soon as possible.

Dick Ellis is operating the pool for the fire department which has the plant leased from the city.

Claude V. Hall

(Continued from front page) and a half of his continuous residence here as a young man came readily to him when he visited Floydada on May 28 of this year, on the occasion of the old settlers re-union.

In 1903 he eschewed the publishing business, selling The Hesperian to Crie & Adair, and resumed study for a higher education. He graduated from University of Texas law school in 1910. Meanwhile he taught school at Slaton, Matador and in Hunt county. In 1912 he entered the practice of law in Floydada. His further studies at University of Texas continued and he received a masters degree there in 1920.

In 1922 he went to Commerce as a member of the faculty of East Texas State College and there remained until his retirement at the age limit of 70. He had a wide law practice in the civil courts which he acquired after retiring from ETSTC.

THE FLOYD COUNTY HESPERIAN

Published by the Hesperian Publishing Co., Inc., at 212 South Main St., Floydada, Texas. HOMER STEEN, Editor
THURSDAY, JULY 29, 1954

Established 1896 by Claude V. ...
tered as second class mail at the office at Floydada, Texas, April ...
under the act of Congress of ...
1897.

IEWS AND COMMENT

Floyd county forage on dry land will stand another 10 days or two weeks of dry weather without serious damage, in our opinion, and the dry land cotton is still growing. Cotton generally has put down the best tap root in a number of years. Another favorable angle is the fact that most dry land crops are clean of weeds and carry a good mulch in the middles. Irrigated cotton is booming but will have to continue to get ample moisture to keep from burning up later in the season.

Election August 28. The fourth Saturday in August is the date on which the second or run-off primary is to be held, as set by the election law. This is the fourth Saturday in the month. Some years the fourth Saturday comes as early as the 22nd. Generally there is a different attitude in the second primary to that in the first and the total vote is less. On what heat is generated this year in local and state races will depend the total vote when August 28 rolls around.

Per Centage High. The absentees gave the right slant on the probable per centage of votes cast in the first primary. There is no way of knowing exactly how many votes were cast last Saturday, but it was close to 3,000—certainly upward of 2,900. The total number of eligibles recorded (by poll tax receipts and exemptions) was 3,260. Probably less than 300 recorded eligibles did not cast a ballot. On the other hand the number of people in Floyd county who are entitled to vote without a poll tax or exemption receipt is high. Taking the figure of 3,260 as the recorded strength of the county and to this adding the over-age and under-age eligibles one will get a figure considerably above 3,700, quite possibly 4,000.

The Governor's Race. The Hesperian is of the same opinion still and we take it for granted all the neighbors are, too, on the contest for governor. Mr. Shivers hasn't done it all by himself, of course, but he has worked with the legislature and the other agencies of the state and federal governments to have a wonderfully constructive program going for the advancement of Texas. But the thing that makes us go off the deep end for Governor Shivers is that he is battling to save as much as he can of our sovereignty as a state and people. That sounds a little stilted for the day and time in which we live, but it says it about the way we think it, and seriously. That doesn't mean that Mr. Yarborough would not make the state a good governor. He might do it, indeed. But so far as the national party is concerned he will have to be a meek little lamb or have it out hammer and tongs with those who would make the Democratic party a captive party. There is no way of telling at this stage what he could or would do. Mr. Shivers on the other hand, has drawn the line. We know exactly what he will do. The way he is battling the bosses suits us good. It may not suit others, who will want to vote against him for the very reasons we want to vote for him.

Not Warped Yet. The Hesperian's election board has not had any dampness on it as yet. Good chance last week for it to warp all out of shape from getting wet and drying out under a hot sun. We leave it up awhile. It always rains about August 25. If we have to wait that long we will. Meanwhile we predict the election board will get a good wetting before that time. We read or heard something the first of the week about storms forming in the gulf and on the eastern coast. Practically impossible for it to be a wet July. Probably August is the month.

The Frost Date. Slightly early to be talking about frost dates when the thermometer is trying to burst out the top of the glass. However, we go for long shots. One sign we always go by says October 17, another October 23, while still another infallible sign says November 5. We are just a wee bit stronger for the October 23 sign we saw than for either of the others. This irrigation and everything has got the wee things of the prairies all mixed up, and they tell all kinds of stories now. Not like the good old days, when all the signs agreed and it was a lead pipe cinch to tell the people just how things were going to be.

An agent which does not appear related to any previously reported organism is credited with producing arthritis, bursitis and tendovaginitis in chickens. The discovery was made by a Texas Agricultural Experiment Station pathologist, Dr. F. K. Wills. The disease has been noted in broilers, 4 to 8 weeks of age in Texas, Arkansas and the Delmarva area.

A part of the safety program on every farm should be adequate liability insurance to protect the farmer against the legal risk resulting from injury or death to another person.

The egg is a perishable product. It cannot stand rough treatment nor maintain the high quality and grade it possessed when laid if given improper care. Frequent gathering and rapid cooling are two practices which will pay-off during hot weather.

The number of cattle and calves slaughtered in Texas for the first four months of 1954 is higher than for the same period in 1953 while hog slaughter was down.

In 1947 an average of 89 days were needed to produce broilers of market size. By 1952, advances in breeding, nutrition and disease control had reduced market age of broilers to an average of 72 days reports the USDA's Agricultural Marketing Service.

Losses to the nation's livestock industry due to brucellosis amounts to considerably more than \$50 million annually.

The best place to find a helping hand is at the end of your arm. Be careful, says the Texas Farm Safety Committee, for an accident could remove your helper.

Rapidly Falling Water Table Is Seen For Plains

More than one-fourth of all water ever pumped for irrigation on the southern high plains was pumped last year. A rapidly dropping water table is the result. This problem is discussed in the article "High Plains

Water—How Long Will it Last?" in the August issue of the Progressive Farmer magazine.

W. L. Broadhurst, chief hydrologist for the High Plains Under-ground Water Conservation district urges farmers to make sure they get the maximum return for each acre-foot of water pumped.

Information collected the past 50 years show the supply of ground water in high plains is limited and is replenished from rainfall. Where the water-bearing formation is shallow, the cost of pumping may come to exceed the returns. In isolated spots it may give out in a very short time. Quite a few wells will fail this summer.

Mr. Broadhurst explained that

the water conservation district of- fice is constantly working to do something about the situation. They gather and make public facts about the supply of underground water in different parts of the district. They assist the extension service in de- veloping plans for most efficient use of storage water, and aid farmers in recovering greatest amount of water at lowest cost. The extension ser- vice is also doing research on pro- per time and amount of water to apply to crops.

B. B. Thurmond, irrigation asso- ciate for the extension service, be- lieves wise use of the underground water is the best answer. He advises winding up cotton irrigation by Sep- tember. He feels that good land pre-

paration and long range of irrigation systems are important in making the most of the water.

Mr. and Mrs. Leroy Chas. Vernon were here over the week- end visiting relatives and their two children, Debra and Douglas who have been here past three weeks visiting their parents, Mr. and Mrs. A. W. C. Petersburg and great-grand- children, Mr. and Mrs. W. M. Dorney.

Fred Gross of Sand Hill com- munity was brought to Progres- sive Hospital Sunday where he is receiving medical treatment.

DO YOU NEED GRAIN STORAGE SPACE? OR A MACHINE SHED?

There is a Rilco Building designed for your needs.

Why some combines cost \$150 a year more than others

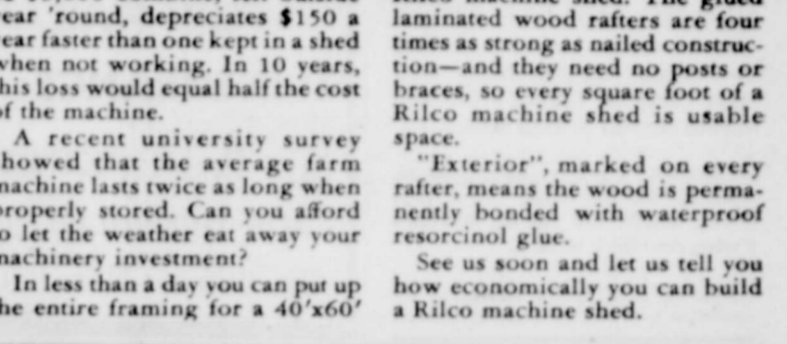

A \$3,000 combine, left outside year 'round, depreciates \$150 a year faster than one kept in a shed when not working. In 10 years, this loss would equal half the cost of the machine.

A recent university survey showed that the average farm machine lasts twice as long when properly stored. Can you afford to let the weather eat away your machinery investment?

In less than a day you can put up the entire framing for a 40'x60' Rilco machine shed. The glued laminated wood rafters are four times as strong as nailed construction—and they need no posts or braces, so every square foot of a Rilco machine shed is usable space.

"Exterior", marked on every rafter, means the wood is permanently bonded with waterproof resorcinol glue.

See us soon and let us show you how economically you can build a Rilco machine shed.

All material for this Rilco machine shed will cost only about a dollar a square foot, and will pay for itself in a few years by cutting machinery depreciation.

I am interested in building. I'd like to know how Rilco Rafter's can be used in:

Chronic Polio

The polio season is with us again when healthy rosy-cheeked youngsters suddenly and with heart-rendering effects are turned into cripples.

Scientists are working day and night to isolate its causes. Chiropractors are working, too, laboring under the knowledge that polio is a disease of the spinal cord.

You will find these facts illuminating.

Results of a survey of chronic polio under chiropractic care in the United States recently revealed that:

Under chiropractic care, treatment of polio cases was 100 days although the average condition has existed 10 years.

Final results showed that 63.1 percent made complete recovery; 26.3 percent were much improved; 5.3 percent were slightly improved and 5.3 percent recorded no change in condition.

The group surveyed included 53 percent male and 47 percent female.

Of course prevention is much better than cures. With such a splendid record in chronic polio cases, it is reasonable to assume chiropractic can be equally effective in preventing it.

Stay healthy. Call Dr. A. E. Hewitt, Chiropractor, dial 3389, today for an appointment.

Gilbreath Gets Nod for Judge Motley County

Vance Gilbreath was nominated over Yates 661 to 450 in the Motley county primary Saturday.

John Stotts was nominated for sheriff over Sterling Price by a heavy majority, 731 to 392.

In commissioners Precinct No. 2 of Motley county J. E. Monk is in a run-off with J. D. Spray. The first race was a five-man campaign.

New Judge in Crosby
In Crosby county J. M. Rankin lost the nomination for the judge-

ship to Cecil Berry, who got a majority of the votes in a three-man campaign. Berry had 1,285 votes, Rankin 735 and W. C. Odam 324 votes, the unofficial returns indicate.

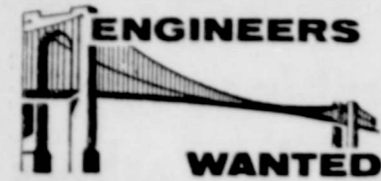

Roy E. Hillin for sheriff of Crosby county had a commanding lead for re-election with 1212 votes against 646 for J. T. Herrington, 123 for E. D. Justus and 44 for Otho Ottwell. Hillin lacked 54 votes of getting a majority.

In Brisco county a run off in the Sheriff's contest is indicated. Incumbent Raymond Grewe received 475 votes and will run off in August with A. L. Morris, who received 318 votes. Johnny Lanham got 295 votes and Alvie Mayfield 150.

In Deaf Smith county a former Floyd county resident, E. W. Solomon, was elected justice of the peace of Precinct 1.

Louie F. Moore for Lubbock county clerk, was returned to office by a narrow margin of 66 votes, 6620 to 6,584 over Russell Hardin, his only opponent.

Another former Floyd county man, H. J. (Doc) Blanchard will be in a run-off campaign with James Weeks for county attorney of Lubbock county, and Dudley Brummett will be in a run-off for county judge of that county with Walter Davies.

Scientists, too—by the modern world we live in. The future can be bright for youngsters who will prepare for careers in these rewarding professions. But preparation must start early by taking math and science courses in high school.

TO THE VOTERS OF FLOYD COUNTY

I AM DEEPLY GRATEFUL TO THE CITIZENS OF FLOYD COUNTY WHO RE-ELECTED ME TO THE SHERIFF'S OFFICE.

There is work to be done and I am asking the help of the people and the rest of the officials for their full cooperation.

Good Law Enforcement now might save you a lot of grief in the future — or save someone's life.

We are fortunate to have a county as clean as ours. But, at the same time, you would be surprised to know what goes on in Floyd County.

I am 100 per cent for Law Enforcement and I'm sure you are, too, or you would not have elected me to the office for two more years.

Some officers try to play both ends against the middle. When this happens he is unable to enforce the law. I am happy to say that this has never happened to me, and with God's help, it never will.

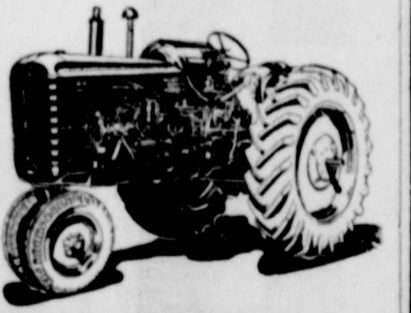

I shall continue to carry on the duties of the sheriff's office the best I know how.

Thanks again for your wonderful support.

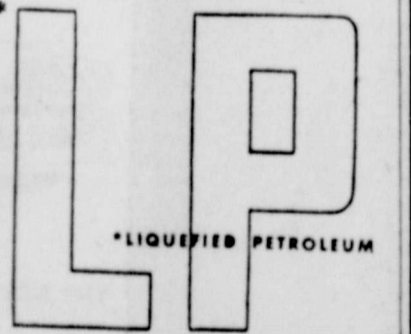

Sincerely,

EARL COOPER
