## Absentee Vote Is 60 Per Cent

From all portions of the state of Texas the reports are coming in that absentee voting is running far ahead of the absentee vote in the first primary.

But not so in Floyd county. Yesterday at noon 46 absentee votes had been cast in Floyd county for the second primary. On the same day a month ago 75 absentee ballots had been cast.

The figures are for the same hour on the same day and the same number of days after absentee voting began. Voting in the first primary 75 in the second 46. This is barely more than 60 per cent.

**Machinery Is Primed**  
Meanwhile the county executive committee has arrangements all cooked and primed for the second primary. Ballots and supplies are being prepared and county chairman Ben P. Ayres has advised precinct election judges that their supplies will be ready and waiting at the county clerk's office Monday morning.

Pre-election absentee voting is usually looked upon as a reliable indication of whether a heavy or light vote will be cast. On the surface, however, it appears that the interest in the race for governor is even keener than it was in the first primary. Possibility that the flood of charges and counter-charges in the governor's race may be having an adverse effect, on the other hand, and the apathetic absentee vote may be reflecting this fact.

The second primary date is Saturday, August 28. The voting places and hours will be the same as in the first primary, with the same presiding officials.

**Returns Will Be Given**  
The same procedure as in the first primary as to giving the vote to the public will be followed on Saturday night after the polls close. The two newspapers will work together again to assemble the returns as fast as possible and will work with the county chairman, Mr. Ayres has indicated he will have his office at the Hesperian office on election night, and will receive the unofficial and official returns of the election there.

In the July primary for the first time in the history of primary vote tabulation all returns were in and counted by 10 o'clock. With a much shorter ballot it is expected the returns may be all in by the same time, possibly earlier, on the evening of the second primary.

## MAKES GROUPE GROW BETTER Water From Surface Lake Found Inexpensive and Easy to Elevate

Leonard H. Smith likes to use water from a plains surface-lake for irrigation, he said last week. It has more of something that makes crops grow than does the water from the underground sands. Furthermore, it has a big advantage in lower costs per acre.

The picture above, made several days ago by his son, Leo, shows Mr. Smith and his portable lake-side pumping apparatus, with which he watered something more than 40 acres of forage feed on a 160-acre farm he owns two miles south and a mile east of South Plains. The water filled the lake in the big June rains.

## Pool Building Grain Storage At Dougherty

Pool Grain Company at Dougherty has under construction another 100,000-bushels of grain storage capacity for Floyd county.

Announcement that J. Harlan Foster, of Hollis, Oklahoma, elevator building contractor, is already at work on the job, was made by Kinder Farris of the firm. A completion date has been indicated for October 10.

Farris became a partner in Pool Grain Company on June 1. Prior to that time the business had been operated by W. S. Poole individually under the name of Poole Grain. The new construction will be in five steel tanks of 20,000 bushels capacity each, connected with the operating machinery of the original elevator. The addition will more than double the storage capacity of the plant at Dougherty. The capacity of the unit already constructed is 70,000 bushels. The added 100,000 bushels will give 150,000 storage space with 20,000 bushel "turning" space, Farris said.

## SNAKES TO THE HILLS Floydada Country Club Grounds Swarm with Golfers in Tourney

Rattlesnakes in Blanco Canyon have taken to the hills this week as golfers continue to flog the underbrush along side the fairways of Floydada Country club in the big tournament now in progress. Play has not advanced far enough to establish any definite favorites for the titles and the only marked losers have been the little white pills which are taking the beating.

First round matches are past and most contestants are now in the second and third rounds of play. Losers in the first round of each flight are paired in the consolation bracket of that flight and the winners were advanced in the upper brackets.

Champions of each bracket will have played four rounds or 72 holes

of golf before winning and no one will play less than 36 holes unless of course they are trailing by a number of holes and the match does not have to be completed.

**Semi-Finals Next Week**  
Semi-finals are scheduled to be played by August 28 with the champion matches set for Sunday August 29. Winners will be named at a picnic for golfers and their wives to be held August 30 at the club.

The tournament is a matched play handicap affair in which players are scored for each hole won and not on the number of strokes for the round. Golfers with the lower handicaps are penalized on a given number of the harder holes in an effort to even the matches so all will have an equal chance to win.

## Whirlwinds Are Rated Team to Beat As Coaches Issue Call for 75-Man Squad to Report Monday

Coaches Preston Watson, Dewayne Cleveland, Paul Huntington, and Bobby McGuire of the Floydada schools have issued their call for all high school boys interested in playing football.

Monday August 23 has been set as opening day for practice and 8 o'clock a.m. is the time to report. The Whirlwind club house at the high school is the meeting place. Watson said as soon as a roster can be made and equipment issued the coaches and boys will go to work. Two sessions daily are planned beginning at 8 in the morning and 4 in the afternoon. Noon meals for boys living in the country can be arranged to save them from making two trips each day.

The Whirlwind coaches are expecting the largest number of prospective players ever to turn out here. Watson said Monday that upward of 75 boys are due to be on hand unless farm work holds some out for a time.

**Whirlwinds 'On the Spot'**  
Sports writers over the state have put the 'Winds and their coaching staff on the spot before the season begins. Listing 20 returning lettermen, nine of whom saw much regular service, the writers have tabbed the 'Winds as the team to beat in district 2AA.

Watson was taking a dim view of this forecast and the prospect of meeting teams on each Friday night which were primed to knock off high-rated boys. Losses from graduation last year were few in number but were at key positions that affect both offensive and defensive play.

The squad will be preparing for their first game which will be with the Ralls Jackrabbits here on Western field September 10. The Jackrabbits will have the advantage of one game played since they start their season at home September 3 against Lorenzo.

**Coaches Attend Clinic**  
The Floydada coaching staff at

**Steadily Improving**  
Mrs. Edell Dubois reported this week that her son Bill, is steadily improving. Bill has been walking on crutches for about a week, and his other injuries are healing nicely too, Mrs. Dubois said.

tended the coaching clinic at Dallas last week and saw the north-south football game which concluded the activities at the Cotton Bowl Saturday night.

In attendance were Preston Watson, Paul Huntington, Dewayne Cleveland and Bobby McGuire. Don Barber, ex-Whirlwind center, played much in the game in Dallas and called defensive signals while in the contest. The coaches reported Don showed up well on the field. The

game brought together 56 outstanding gridmen from over the state. The north team won 7-6.

**Public Schools Officially Open September 1; Graves Relates Plans**

Floydada Public school will officially open on Wednesday, September 1.

The first day of school will begin at 8:45 a.m. and be dismissed at 2:45 p.m. After the first day, the regular schedule will be followed from 8:45 a.m. to 3:45 p.m. The first grade will be dismissed at noon for the first month in order for the beginning pupils to have time to make necessary adjustment to the school environment.

High school pupils will register the week previous to the opening of school. The following schedule will be observed beginning at 9:00 a.m. each day:

**Seniors — Tuesday, August 24**  
**Juniors — Wednesday, August 25**  
**Sophomores — Thursday, August 26**  
**Freshmen — Friday, August 27**

Books will be issued and lockers assigned immediately after the pupils have registered. Pre-registration urged. "We urge all high school pupils to register at the time designated. Those that do not will be inconvenienced in receiving books, getting locker assignments, and arranging schedules, for they will need to meet classes when school officially opens September 1," said Superintendent I. T. Graves.

Here are the answers to most of the questions that will be asked about the opening of the school year, as given by Mr. Graves:

Andrews ward pupils will not appear previously to the opening of school. Neither will any North ward pupils register before their school begins which will also be September 1.

There will be a faculty meeting for high school and Andrews ward teachers at the high school building at 9:00 a.m. Tuesday, August 31. The North ward faculty meeting will be at 10:30 a.m. August 31 at the North ward building.

**Buses Run First Day**  
All school buses, including busses for the North ward school, will run the first morning at approximately the same time as last year over the same routes. There may be some minor changes which will be determined after the opening of school. Since school will be in operation practically all day September 1, cafeteria lunches will be served the first day of school. They will operate similar to last year in schedule and price which is 30c per meal for Andrews ward and 35c for high school if meals are purchased by the week. The menu will be printed each week in advance in the Hesperian.

It will be necessary for school children starting to school for the first time to have their birth certificates. All grade pupils will be required to be immunized for diphtheria.

## Safety Record Of SWP Passes 2 Million Hours

Southwestern Public Service Company employees have now worked two-million consecutive man-hours without a lost-time accident, the longest continuous accident-free period in the company's history, and one of the top safety records among the nation's electric light and power companies.

Only seven other electric companies in the country have achieved the two-million mark for the entire company, the records of the Edison Electric Institute reveal. The EEI award for recognition of million man-hour or more safety accomplishments was inaugurated in 1943, and to be the eighth out of nearly 300 member companies to reach the two million accident-free man-hours goal is a significant safety achievement for Southwestern Public Service Company.

The present unbroken string of accident-free days began on January 30 of this year. The company is averaging less than one lost-time accident for every million man-hours as compared with a utility industry average of 11.50 lost-time accidents for every million man-hours worked.

The old saying, "You couldn't do it in a thousand years" applies to this recent safety accomplishment, for it would take one man a thousand years to accumulate two-million man-hours without a lost-time accident. The 1850 Public Service Company employees need just over three months to accumulate a one-million total.

Three-million without an accident is the next goal, and the Public Service folks are after it.

## Those In West Texas Who Know Shivers Best, It's Yarborough 4 to 0!

Yes, all four West Texas Senators, Willis of Fort Worth, Wagonseller of Rogers of Childress, and Corbin of Lubbock are actively supporting Judge Yarborough. These are the men who have been in a position to know better than anyone that it is time to break the vicious Shivers machine.

Allan Shivers is the man who never deserted Parr—until Parr quit him.

Allan Shivers' appointed insurance commission has permitted the defrauding of thousands of Texas policy holders in the famous insurance mess in Austin. When Benson announced his flexible price support program, Shivers said "It is like a good program to me and I'll be for it."

Shivers now claims all credit for tidelands, but Yarborough, as Assistant Attorney General, wrote the first opinion asserting Texas' claim, before Shivers what tidelands were. And look what Shivers got for us, along with Eisen and the tidelands—destruction of our farm program, higher interest rates, higher prices for what we sell, higher prices for what we buy, crippling of R. E. A., and a pledge to do away with segregation.

Shivers, without any proof whatever, accuses Judge Yarborough of being a member of the C. I. O. and accepting donations from them. It is a violation of law for a labor union to contribute to a political campaign, and Shivers knows there is nothing in his statement.

A vote for Allan Shivers and his millionaire friends is a vote for low parity payments for the farmers.

A vote for Judge Yarborough is a vote for the great mass of people—the farmer, the small business man, the school teacher, and the worker. The vested interests will be treated with the same fairness but will have no more special privileges than you and I.

The issue in this race is whether the Governor's office can be bought with money. Every time you see Allan Shivers on TV, in the newspapers, and on billboards, every time you hear him on the radio—and you are going to see and hear him again from now until election day—remember that it is an effort to crucify Judge Yarborough on a cross of gold.

You can't go wrong by following the advice of Tom Connally and John Nance Garner, who were good Democrats when Allan Shivers was in political diapers—

The pinata was shaped like a drum and placed on a pulley and rope fastened high above the heads of the children. Each child had a try at hitting it with a dowel pin trying to burst it so the things would fall out. After at least two tries for each child, it was burst and then came the scramble to see who could get the most of everything.

Following the games came the lighting of the candles on the cake. Jamie succeeded in blowing them out after several tries.

# THE FACTS

## ABOUT GOVERNOR SHIVERS' BIG REAL ESTATE DEAL

1. May 21, 1946, Lloyd Bentsen, prominent Hidalgo County politician, bought for \$10,000 an option (right to purchase) 13,500 odd acres of wildcat Hidalgo County land at \$75.00 per acre, the option to expire December 15, 1946 at noon.
2. May 31, 1946, Shivers then State Senator and candidate for Lieutenant Governor, signs an agreement to pay Bentsen Development Co. \$25,000 for option, giving his note for that amount.
3. November 4, 1946, Shivers was elected Lieutenant Governor.
4. December 15, 1946, at 12 noon the option expired and became legally worthless.
5. December 16, 1946, Shivers sold the expired and worthless option to Realty Company, a thousand-dollar corporation organized by the Bentsen \$450,000, nothing having been done to the land in the mean time.
6. The \$450,000 was paid in installments after Shivers took office as Lieutenant Governor in January 1947.
7. In 1949, less than one month after Shivers became Governor, the Board of Water Engineers, after refusing for 20 years to grant further Rio Grande water permits for the reason that no surplus water was available, reversed itself and granted a permit for the benefit of the 13,500 odd acres, limited surplus waters and for practical purposes worthless.
8. On the strength of the phony water permit, Texan Realty Company under the land at an average price of \$500 per acre, as citrus land with water rights to victims all over the country, including a number here in the Panhandle of such victims were foreclosed upon, and 20 of them brought suits for fraud all of which were settled out of court without trial.
9. Why were these facts not publicized sooner? Because the facts as to Shivers' connection with the transaction were not known until he was compelled to disclose his deposition in the fraud suits in 1952, and because such facts were not available to the general public until Shivers' deposition was published, over frantic protests, only a few months ago.
10. What did Shivers sell for \$450,000? Not the land, for he never owned it; not the option, for it had expired. Where did the \$450,000 come from — not the Realty Company, for it had only a thousand dollars capital. Ask the Governor — maybe he can tell you.
11. For fuller details, tune in on KCBT-TV, Channel 11 Thursday night, August 19 at 10:00 P. M., for the address of Garland S. Smith, one of the attorneys claimants in the fraud cases—it will be worth your while.

## LIBRARY NEWS

(By Mrs. Roy Hollar)

We call to your attention a new library purchase; a beautiful book about a horse. It was first published in 1877 and for the ensuing three quarters of a century it has been among the beloved books of every child who had a chance to read it. We ordered this because we did not have a copy of the classic and because one of our young borrowers had heard of the book from his grandfather. The book has lost none of its charm in the new printing and the beautiful illustrations still show the ladies mounted on side saddles. Name of the book? Oh, yes, it is "Black Beauty."

Mrs. Kenneth Bain came in to visit the library and to show it to her out-of-town guests, Mrs. Dean Allard, Mrs. Annie Stevenson, and Mrs. A. F. Stevenson, all of Silverton.

On Saturday morning a very small and unidentified voice asked by telephone "Is the library still going on?" On inquiry we found that our caller wanted to be sure if we still had story hour. We are glad to report that we still do and that story hour goes right on. It will not meet on August 28, since the election will be going on in the courthouse — but with that exception the story hour continues to meet regularly.

On the last occasion there were thirty-four in attendance. Mrs. E. L. Norman told the stories and Mrs. R. C. Henry brought the refreshments. Andrew McArlay was a new member of the group and Mrs. Lillie McArlay visited with the children.

The Junior G. A.'s of First Baptist church presented a book in memory of Mrs. Sam Phillips. These young people are sponsored by Mrs. Lee Gollightly and Mrs. Clarence Guffee. The book they chose was "A Plain Man Looks at the Cross" by Leslie Weatherhead.

We appreciated a donation of book jackets in cellophane from Dr. R. Earl Allen.

We are returning 500 juvenile books to the Texas State Library. We have used these books for a year and it was with a sense of personal loss that we packed them for return; however the staff agrees that it was a nice loan and we are indeed glad to have had the chance to use these books which came to us ready to check out. We still have the major portion of the books loaned us and will be able to keep them for a longer period of time. Our Extension Division of the Texas State Library attempts to lend books to young libraries until they are established.

We would like to put in a word for magazines and their use. Your library has a nice selection of cur-

rent magazines and a growing file of indexed periodical reference material. You may take home any but the last issues. Two new magazine additions to our shelves are "Nature Magazine" and "The Rotarian." Both are gift subscriptions and greatly appreciated. One of our sponsoring clubs paid for "Nature Magazine" and the Rotary club of Floydada supplied "The Rotarian."

"Nature Magazine" offers much of interest to our bird lovers and supplies dependable material on a wide variety of other subjects in the field of Nature. "The Rotarian" we prize for the top articles on world affairs. (Take notice if you are on a club program). The July issue offers an excellent business article by J. C. Penney.

# Budget Hearing Set for Aug 30

The budget hearing for Floyd county has been set officially by Floyd County Commissioners court for the morning of Monday, August 30.

This is the day on which the commissioners are supposed to give an idea of their plans to any interested taxpayers and to go over the budgetary proposals for the new year.

It is the date on which the individual taxpayer is presumed to be given an opportunity to go into the workings of the county's financial affairs.

However, if the same interest is shown this year as was shown last the total number of lay citizens who call on the court will be none. After the time has elapsed for the hearing the commissioners take the budget as prepared by the judge, make any necessary or desired changes and then formally adopt it.

A brief summary of the budget outlined will be given in The Hesperian next week. Meanwhile a copy of the proposed budget for Floyd county for the year 1955 is on file at the county clerk's office and is open to inspection by any interested citizen.

# Palace Brings Cinemascope to Floydada Area

J. G. Deakins announced this week that everything is progressing on schedule and Palace theatre will present their first Cinemascope production starting Sunday August 22 at 2 p.m. Popular admission prices of 25 and 50 cents will be in effect for this new type of movie entertainment which opens with 20th Century-Fox production "The Robe" in Technicolor.

Mr. Modre of International Theatre Supply of Dallas is in Floydada this week installing the giant wide curved screen at the Palace. The new screen is of plastic construction with the sides curved out toward the audience to give the effect of depth to the picture.

Also to be completed before the opening picture will be the installation of new equipment in the projection room. Lamps to produce many times more light and new projector lenses are among the items required to get the big wide picture.

Sunday 28 Change Over Day The new set up is of all-purpose design and will enable the management to show Cinemascope, Vista-vision, Superscope and all types of big screen productions. Shows between now and Sunday will be shown on the new screen but will be shown with the present projection equipment and in their customary size. Sunday will be the change over day.

Movie critics have ranked The Robe as the entertainment event of the year and may eclipse anything

within memory. Producer Frank Ross has fulfilled a ten-year dream to see the masterpiece created in all its historic pagentry on film. He has been justly rewarded for his patience.

Story of Love and Faith The great story of love and faith stars Richard Burton, Jean Simmons, Victor Mature, and Michael Rennie. The crucifixion of Christ and the casting of lots for his garments make the setting from which the title is taken. The feature continues through Wednesday, August 25, and offers the public four days in which to see this attraction.

Following the showing of their first Cinemascope picture the Palace will follow up with a double feature Mr. Deakins has dubbed the battle of the sexes. The two comics are "The Pruner Brush Man" with Red Skelton and Janet Blair and "The Puller Brush Girl" with Lucille Ball and Eddie Albert. A full evening of entertainment is promised all who attend.

It was a big load of grain, said Mrs. C. A. Caffee, who received it. H. S. Armstrong, of McAdoo, was the producer.

It was a good grade of feed and tested 11 per cent for moisture. Mrs. J. C. Newsom attended the golden wedding anniversary of Mr. and Mrs. Stephen Anderson Beard at Lubbock Sunday.

**VIEWS AND COMMENT**

**Board Got Wet.** The Hesperian's "election board" did get wet, we belatedly report. Probably the reason it hasn't been mentioned here earlier is that the rain which washed the slate clean of figures was just about that size and no bigger. It occurred on Tuesday night following the election Saturday, July 24. Two similar rains have fallen since and a shower or two. But none of them have made enough splash to suit the reporter. What we have in mind is that kind of rain which fell early one August—a good while ago presumably—that soaked the board down for a week. When the sunshine finally hit it the ply board tried to crawl off and down the street. It took two men and a little boy to hold the twisting, squirming boards while a third one clewed it down with well-directed blows with a heavy hammer. It had rained a good deal and was mighty hot that morning as we recall it now.

**The New Tax Bill.** While there are some actual reductions in the new federal tax law passed by the current congress the reductions are mighty little compared with the tremendous amount of money being taken from the taxpayer to carry on federal affairs. What will be most noticeable are numerous inequities which are righted by the new bill. Also the recognition of new conditions which have arisen. Among these we understand a business deduction will be allowed for the expense of a baby sitter while a parent works. Another that will help many small owners of corporation stocks will be a relaxation in the double tax on dividends, quite an unfair thing. It is also said that the depreciation allowance on equipment put back into a business will be made more generous. This last will be quite important to a good many businesses that need to expand but which cannot, because their money was taken away from them as fast as they could make it.

**The Studebaker Case.** Sanity seemed to have ruled at the Studebaker plant last week as the men who make Studebaker products and the men who manage the business got together. So far as we know the first instance of a big concern getting all its people together on a proposition of holding the line, meeting competition by retrenching. That surely must sound a new note in modern American business history. For 10 years to all appearances, the raises in pay, one right after another, have been aimed at milking the public, of taking all the traffic will bear. The in-between costs may furnish the reason why lower farm and live stock prices have been so little reflected in the cost of living for the city family. The first cost now is so small in comparison with the processing costs. In beef, for instance, and cotton for another, selling for five cents a pound wouldn't make much difference in the final cost to the consumer.

**The Polio Drive.** In some parts of the United States the Foundation for Infantile Paralysis is coming in for criticism in asking for an "emergency" campaign for more funds. The treasury is empty, reports the manage-

ment, and the expense bill continues to mount. Care for patients having to be treated is the item that has emptied the foundation's coffers, says the report. In such a touchy situation, with thousands in hospitals needing attention, criticism should be guarded, especially from uninformed people like ourselves. Perhaps it would not be unfair to say the Foundation management should review their position and see if they are keeping their operating expense in line. The outpouring of money from the public furnishing millions annually for a quarter of a century may have made the polio authorities careless. If polio campaigns were the only ones needed it would be different. But also there are other calls on the generosity of the public.

**Like in Floyd.** The Foundation, to bring the matter a little closer home is putting its Floyd county forces in an embarrassing spot. They have no more than completed raising the biggest pot raised in the county in a good many years, the public pouring in something like \$1,500 more than was asked of them in an outburst of generosity. Instead of holding the \$1,500 against a call another year the committee divided up the whole according to the rules and forwarded the Foundation its part. Whether to get out and clobber the public for some more money before the ink gets cold on the check or to appear apathetic to the call of need is the position the Floyd county organization is in now. It doesn't pay to embarrass your friends and co-workers. The reaction to the situation is likely to be about the same the nation over.

**Those who hope for the re-nomination of Governor Shivers in the primary August 28 are reminded that the statistics of former races for governor are against them.** It is said that the incumbent votes his strength in the first primary. The history books indicate that when an opponent gets enough votes to get into the runoff he is the winner. He gets all the other votes almost solidly. Accordingly, those who want the governor re-nominated will have to find enough Shivers votes that were not cast last time to make up the difference. This is assuming that most everybody will be of the same opinion still when August 28 comes. It is a possibility, of course, that the opposition voted more of their strength relatively than did those who favor the governor. In this lies a possible victory for the pro-Shivers group.

**TOP LOSSES**  
 A conservative estimate of losses from drought on only two major crops amounts to more than \$100 million for this year. The crops comprising the losses could be termed as drought conditions. To follow a line from the Red River, through Washington county, south to Midland, northwest to Midland and a portion of the county area generally approximately two million bushels of annual cotton crop is lost to the weather this year. The lack of growing or pre-growing each bale worth about \$10 means a minimum loss of \$20 million in cotton alone. Only 17 million bushels of sorghum and 80 million bushels of wheat are grown in this area.

## The hit that's changing the sales standings puts you way ahead 3 ways

**1. More new car for your money**

Buick prices start close to the lowest—just a few dollars above those of the traditional "low-price three." But those few more dollars for a Buick get you a lot more automobile—more room, more comfort, more V8 power, more ride steadiness, more solid durability—plus the advanced "tomorrow" styling that has taken the country by storm.

**2. More money for your present car**

With our great and growing sales volume, we can offer you a bigger trade-in allowance on your present car when you buy a new Buick. After all, the more new cars we sell, the better deal we can make with you. So you get the benefit of our great success in the form of a higher trade-in allowance.

**3. More dollars when you trade**

Because Buick's broad panoramic windshield has started a whole new styling trend, you can be sure that today's Buick will keep its modern look for years to come. So you are assured of a higher resale figure when you trade it in later on.

Come see for yourself why—

# Political Road, Bridge Building Menaces State

Marshall Formby of Plainview, member of the Texas Highway Commission, today expressed deep concern that Ralph Yarbrough, candidate for governor, is reported promoting roads and bridges in parts of Texas, in an effort to garner votes.  
Formby is a Plainview attorney and owns interest in several West Texas radio stations. He was appointed to the commission by Governor Allan Shivers in February 1953.  
Formby said that Yarbrough's recent promise to build a \$5,000,000 highway and bridge in Galveston county and along the Gulf Coast, if he were elected Governor, is an example of political promises that would eventually harm the fine Highway department in Texas. His

full statement follows:  
"I am deeply disturbed when I hear of the dozens of promises that Mr. Yarbrough is making to the people offering to build new roads and bridges in various parts of the state."  
"For more than a quarter of a century the highway department has been completely free of political road and bridge building. The Texas Highway Department has built roads and bridges based strictly on merit and need."  
"Texans everywhere take great pride in the highway department stressing the fact that there are no politics in it, and for the good of all Texas I sincerely hope that they can continue to have that pride."  
"The present commission has no spent one dime on a political road or bridge since I have been a member, and I know that the three members would never vote 15 cents to fulfill any political obligation."  
"I have been a member of the Commission for 18 months and during this year and a half Governor Shivers has never once requested me to spend one dime on any particular road or bridge, but has insisted to me that every expenditure be based strictly on need and merit as far as the money would go."

"To my mind, that is the only way a highway department can be run." Texans must see that this condition continues to prevail."  
Mrs. T. K. Holdsworth of Kerrville and Mrs. D. W. Wilson of Beeville, visited their sister, Mrs. Roy Hollar on Thursday and Friday of last week. They came to get their daughters who had been spending the week in Floydada.  
Mr. and Mrs. Louis Norton and son Bob of Peoria, Ill., visited last Wednesday night with Mr. and Mrs.

### Mrs. C. B. Smart, Jr. Complimented

LOCKNEY — A bridal shower honoring Mrs. C. B. Smart, Jr., the former Arleta Orr, was given in the home of Mrs. Dwight Jackson, Tuesday, August 10. Calling hours were from 3:00 until 5:00 o'clock.

The refreshment table was covered with a white handmade linen cloth over pink baby mums and greenery on a reflector. Pink and white flowers were placed at vantage points about the entertaining rooms. Hope McGee and Doyleene Harrison was in charge of refreshments.

Mrs. Doyle Harrison registered the guests and Mrs. John Alvin Dorman and Mrs. Durwood Jack were in the gift room.

Hostesses for the occasion included Mmes. Floyd Dorman, John Alvin Dorman, D. J. Phillips, Oscar Golden, Durwood Jack, Doyle Harrison, E. A. Bonner, M. W. Wiley, Jack Taylor, Bill Sherman, Floyd Jackson, Ben McGhee, Marvin Gilbert, R. L. Knox, Sr., B. J. Wolford, Harold Jeffcoat, Hershel Carthel, Beulah Roberson, J. T. Griffith and Dwight Jackson.

More than 100 guest registered or sent gifts.

ertson saw that I had several squares of the bacon in the beans and I am sure we all enjoyed his pleasure in serving them.

It was a good day, a day to go down in Crosby history. Old friends some coming long distances to be there. Hope we will be here to go next year.

Then on Friday the pioneers and oldtimers met in the auditorium at Rails to talk and spread their dinner together as in days gone by. Every minute was precious, packed full of happy memories and good things of the present. Another day of good eating and to this hour we are not even a bit sick—sorry to have missed the Estacado reunion yesterday.

All came to the conclusion that Crosby county is a good place to live, a good county to be from.

I went to church yesterday with only one ear-ring. Never knew it until my attention was called to it. No, I was not trying to set a new style, or is it an old one? Just as I was almost ready to go, Mr. Spikes called out in an injured tone and said he could not go with me. At once I asked if he was sick, and he said, "My shoes are gone." And I remembered seeing the night before a pair of low shoes on our grandson's feet and in an instant I knew the shoes were by the side of Carey's bed. Wilson brought them up and Mr. Spikes got to go with me. As I taught Mrs. Gillon's class every one must have noticed the one decorated ear.

We are going to shell peas today. Baskets of peas, buckets of peas. Even as I write my hands seem to be holding a blackeye ready to rip it open and shell out the round balls of goodness.

My sister, Mrs. Carl Hill of Amarillo, her husband and their grand daughter Pat Hill spent the night with us Saturday night. We decided to make ice-cream. Wilda brought in the milk and eggs. I went over to Wilma's to get ice, as she had not returned from the farm. I went back to get salt, seemed as if I hadn't anything, even I had to go back over and get sugar. At last it was made and eaten with a big red watermelon. Carey made fancy Paris hats for Margaret Nell and Pat. They looked very chic. Joe Ellis played the guitar, the others ran here and there while the older ones visited. A grand time was had by all, as the papers would say.

Two years of pleasure and sweetness, Johnny Jeff is two years old today and every day we love him

more as you do yours.  
Happy birthday to you, dear Johnny, happy birthday to you.

Mrs. Mollie Kinnard had her brother, O. R. Kinnard of Salt Lake City, Utah, here this past week visiting her. Mr. Moore is a former resident of Floydada.

Mrs. T. M. Bartley of Waco and Mr. and Mrs. Howard Bartley and children, Carol and Sarah Sue of Quanah, visited in the home of Mr. and Mrs. J. C. Moss and Mr. and Mrs. Jack Henry this past week. Mrs. T. M. Bartley is a sister of Mr. Henry and the grandmother of Mrs. Moss.

Mrs. J. D. Cantrell received major surgery Tuesday morning in Pitts hospital. She was reported as resting comfortably.

American women living in Germany are pretty upset with the Army, we read in the papers. Seems they feel that, being citizens of the United States, they should be free to wear what they want to, and customs be changed.

Well, we'd go along with the girls about wearing their midriffs, jeans or shorts to the grocery store — if they were at home in the United States. And that in spite of the fact that we sometimes think they are guilty of bad taste. American women, with all their freedom, sometimes get confused as to their own proper type. And — let's face it — it's one thing for a woman under 30, with the proper measurements, to appear in public in shorts, midriff or jeans. But it's downright poor judgement to call attention to her charms if she doesn't have them. At home in the United States, that's all there is to it.

But — when she's living in a foreign country, she's representing American women everywhere. And some of us just naturally don't like being thought of as a middle-aged midriff gal. Or paunchy Mesdames American. Or 200-pound pikies.

Actually, we suspect that the general who issued the unpopular decree had more serious reasons than appearances for his ruling. Either it was made for the protection of the women themselves, or as a concession to the customs of the country in which they're living. And if the American women who were lucky enough to get to go with their husbands on foreign assignments haven't the courtesy to respect the traditions of another land, maybe they need a little coaching from the military authorities on the finer points of fashion!

### As A Farm Woman Thinks

(By Nellie Witt Spikes)

This Monday morning finds us still busy. I told myself I just did not have time to get this column out this week but I remembered a very sweet woman from California who was at the old Settler's Reunion and I will take time to write it. Mrs. Lillie Rippey told me she missed it so when it was not in the paper and looked carefully to see if by chance she had missed it. Thanks, Mrs. Rippey, a whole million. You were very kind and gracious to tell me this. We still claim you, tho we know you love your adopted state. God bless you and yours.

We sat in the shade of the trees at the roadside park east of Crosbyton and had a wonderful day. John McDermott, the Range Boss, worked all the day to make folks happy. Only a few of the old ranch hands, keeping alive the days of the roundups and the brandings, still recalling the names of the boys and even the cow ponies they rode. And to make it the more complete day of days, Mrs. Julian Bassett and Mrs. J. Frank Smith sat with the rest and enjoyed the day. Seems red beans with little square bits of good pork never was as good. Our plates were crowded with them and the fine barbeque salads, creamed onions and pies and cakes. Fred Rob-

# Giant Mercy Program of CROP Great Christian Opportunity

(By Tildon B. Armstrong)

Talk about a giant "give away program," here it is. The national government through its surplus commodity program has asked CROP (Christian Rural Overseas Program) to give away \$1,000,000,000 (one billion) dollars worth of surplus commodities each year for three years. At the end of the three years if CROP has done a good job of making friends with food, it will have the opportunity to do even more.

Friends, this is a chance and an opportunity that the Christian people cannot afford to miss. To shut our pocketbooks in the face of this opportunity would be a tragedy. It would be a shame that the Christians of this generation could never live down.

How Can We Participate In This

## PH. 79

FOR BUTANE SERVICE  
**WYLIE**  
Butane Company

Program? By making a contribution to CROP. Just that simple. Every dollar you give to CROP can be used by CROP to buy \$20 worth of wheat, or \$20 worth of cotton, or \$20 worth of dried milk, or \$20 worth of eggs. In other words the Christian people are in position to buy more with their dollars than ever before.

As one pastor in this community, I have been stressing the importance of this matter for six weeks in connection with CROP's need for wheat. My plea has fallen on too many deaf ears. I want the Christian people of this community to know that this is not just a Methodist program but it is a program, about which every Christian of every church ought to feel a keen sense of responsibility. Last fall when we made an effort to get cotton or cash for Korea, 83% of the cash came from members of the Methodist church. That should not be the case. Mr. Christian, of what ever church, this is your one great opportunity to join heart and hands in sharing with the needy of the world.

Has Done A Good Job

You see, the reason why the national government has asked CROP to dispose of a billion dollars worth of commodities at the rate of 20 to 1, is that it has seen what an efficient job CROP has been doing in collecting and distributing food and fibre to the places in the world where the need was most critical.

Friends, CROP is an agent of 37 churches in America. Most of the churches in Floyd county are represented in this number. Here is the list:

African Methodist Episcopal, American Baptist Convention, Augustana Evangelical Lutheran, Church of the Brethren, Colored Methodist Episcopal Church, Congregational Christian Churches,

Evangelical Unity of the Czech-Moravian Brethren of North America,

Danish Evangelical Lutheran Church of America, Convention of Disciples of Christ,

Evangelical and Reformed Church, Evangelical United Brethren Church,

Religious Society of Friends of Philadelphia,

The Methodist Church, The Moravian Church,

National Baptist Convention, U. S. A. Inc., National Baptist Convention of America,

Presbyterian Church in the U.S., Presbyterian Church in the U.S.A., Protestant Episcopal Church, Reformed Church in America, Seventh Day Baptists, Syrian Antiochian Orthodox Church,

Ukrainian Orthodox Church, United Lutheran Church in America,

United Presbyterian Church of North America,

Southern Baptist, Cumberland Presbyterian Church, Nazarene Church,

American Friends Church, Church of God, Assembly of God, Pentecostal Church, Mennonite,

Lutheran, Mo. Synod. Billions In Surplus

The government has 7 billion dollars worth of surplus commodities on hand today. If CROP does a good job in feeding and clothing the hungry and the naked with the billion dollars worth of food and clothing that will be available each year for the next three years there is no doubt that it will be asked to continue.

So, fellow Christian, let us all put some of our money where it will go the farthest, buy the most, feed more and clothe more than we have ever had the opportunity to do before. Charlie Bedford down at the First National Bank is the county treasurer for CROP in Floyd county. When you drop in to make a deposit, don't forget to leave an offering for CROP with Mr. Bedford.

When I read about how the other counties all around us are giving wheat by the car load, cattle by the truck load, milk by the can, etc., I blush with shame. What in the world will it take to extract a little milk of compassion from the people of Floyd county? Todate we have \$137.50 in cash and 35 bushels of wheat. Let us take up from there and really let the world know that we are mission-minded; that we are Christians interested in meeting the needs of hungry humanity. Let us forget our denominationalism and work for the cause of Christ that calls us to unity in service.

I want to assume that you did not know about CROP before reading this article and that beginning now you are going to be a booster and a contributor. You see, this is a year-around program. This is not all. In

The Powell's Ford received an estimated \$750 damage and the pick-up driven by Hearon was demolished.

JULE O. FOSTER, Dallas, is a recent appointment to Wayland college faculty as an instructor of piano and theory. Fall semester at Wayland opens September 12.

the fall there will be need for cotton or cash again. Next spring it will be wheat or cash again, cattle, eggs and milk are needed in all seasons. So, set your heart on answering the call of CROP. Talk to your preacher, pastor, minister or elder about this matter. Let us get all of our churches behind this giant give away program that is available to Christians who really care.

# New Law Will be Very Adverse To the Farmer, Mahon Thinks

Congressman George Mahon takes a dim view of the so-called sliding scale, support procedure for handling the basic crops, as advocated by Secretary of Agriculture Ezra Benson. The new plan in some shape, will go into effect at an early date.

Mr. Mahon says that no doubt the secretary of agriculture is sincere in his belief that the sliding scale will discourage over-production — that if you cut the farmer's income he will produce less. But the congressman of the 19th district feels that it will be human nature for exactly the opposite to take place. That if supports are lowered the farmer will have to seek to produce a larger volume in order to get sufficient income to carry on.

Here is a summary of the congressman's point of view as related in a bulletin to county offices of Extension Service, PMA, ACS committees, farm groups and farmers:

"It seems clear that the 90% program is on the way out. I think the consequences of this action will be very adverse to the farmer. The blow is being softened for 1955 by way of set-aside programs, etc., which are provided for in the new farm bill. The real, damaging blow to agriculture which is now being set in motion will not have its full impact until 1956 and 1957. In other words, the real impact will come later, and people should not be misled by the sugar-coating which is proposed for 1955.

### Producers are Disturbed

"Producers with good cause are greatly disturbed over the kind of program which may be placed in effect next year with respect to diverted acres — acres diverted from cotton, wheat, and probably milo. Secretary Benson has advised the House and Senate committees on agriculture that he will place into operation next year a program which will control the use by farmers of these so-called diverted acres. I think we will all agree that, if we reduce the acreage of a crop where there is surplus production, it does not make sense to use the so-called diverted acres for the production of other crops which are in surplus. On the other hand, for producers to be put in too much of a straight jacket, so to speak, with respect to the use of diverted acres, could bring on very serious difficulties.

"A committee in the Department of Agriculture in Washington, D. C. under the direction of Mr. H. Laur-

ence Manwaring, a Deputy Administrator of the Commodity Stabilization Service, is working on the details of a diverted acres program for 1955.

### Question On Diverted Acres

"I am strongly of the opinion that farmers and farm groups should give the question of diverted acres very serious study and make recommendations to Mr. Manwaring and to Mr. Claude McCann, State Director of ASC, College Station, Texas. I have personally explained our problems in this field to officials here, seeking to be helpful, but I think grass-roots recommendations are necessary.

"Our cotton acreage is allotted in Texas, generally speaking, on a percentage-of-cropland basis. Individual histories on cotton farms with respect to other crops vary drastically. If great care is not used in making the program sufficiently elastic, many producers could very well be seriously damaged. The general idea seems to be that the year 1953 will be a major factor as a base in working out the diverted acres program. I hope farm groups in West Texas will give this matter immediate consideration and suggest ideas which probably should be embodied in the diverted acres program."

## Smiths-Browns Put Bob Smith In Office Again

Floydada's police chief, Bob Smith, has the record for holding office without ever a sign in 34 years of an opponent to challenge his record.

Sunday he was re-elected president of the Smith-Brown cousins re-union held at Luger park near the big dam adjacent to Altus.

The cousins — double cousins — had their first meeting at Plainview 34 years ago. Mr. Smith was chosen president then and the kinsmen just keep re-electing him from year to year. And his cousin, Mrs. J. C. Fuller, of Plainview, has held the post of secretary-treasurer for the same length of time.

There were 152 cousins who registered at the Altus meeting last week-end, and three old friends of the family. Present from this area at the meeting were Mr. and Mrs. Chas. B. Smith, Mr. and Mrs. Bob Smith, Mr. and Mrs. Ham Smith, Grover Smith and son Warren, all of Floydada; Mr. and Mrs. J. C. Fuller and Mr. and Mrs. Lee Kidd of Plainview; Bob and Miss Bell Brown of Lorenzo, Miss Mary Beth Brown of Idalou, and Mr. and Mrs. Bryant Higginbotham of South Plains.

Three old friends of the Smith-

Browns present were Mr. and Mrs. Henry Price and Mrs. Lizzie Oglesby of Addington, Oklahoma.

The plains cousins got out-voted again this year and the re-union will be held at Altus next year. The plains Smiths and Browns are not displeased, said their president on his return home the first of the week.

## LIBRARY NEWS

William K. Peace, acting director of Library Extension, from the Texas State Library in Austin arrived in Floydada last Thursday. He was in process of making a two weeks tour of the libraries of West Texas.

Mr. Peace is acquainted with Richard Moorehead, Austin correspondent of the Dallas Morning News, so he felt at home in the Commercial hotel.

Prior to his visit in Floydada Mr. Peace had visited in Paducah Spur, Dickens and Ralls. None of these points have libraries supported by county funds and giving county-wide service, but the club libraries at each point were glad to have interviews with a representative of the Texas State Library. All of them hope to enlarge their service as soon as they can finance the undertaking.

Mr. Peace's duties include selection of books for the Extension Division and the prorating of book loans to new libraries and the visiting of county libraries with a view to strengthen the service.

While in Floydada, Mr. Peace was

a guest of Judge and Mrs. Ralph Johnston.

Wayne Wallace, son of Mr. and Mrs. D. E. Wallace, was returned to his home in the McCoy community Monday, after receiving medical treatment at Peoples hospital. Wayne received serious burns two weeks ago when he came in contact with a 7500 volt electric wire.

## IF YOU WERE GOVERNOR OF TEXAS WHAT WOULD YOU HAVE DONE?

—Statement by Adlai Stevenson, (Aug. 19, 1952) upholding Truman's veto of the tidelands bill, handed to Governor Shivers at Springfield, Ill.

- IF . . .** You considered the future and welfare of TEXAS the most important part of your public career, and
- IF . . .** You knew that the future of TEXAS was vested in the education and training of TEXAS youth, and
- IF . . .** You knew that the loss of Texas tidelands would mean depriving TEXAS school children of \$32,000,000 annually in educational funds, and
- IF . . .** The democratic convention in session at Amarillo in September, 1952, INSTRUCTED you to do all within your power to RETAIN THE TIDELANDS FOR TEXAS and protect this income for TEXAS SCHOOL CHILDREN, and

FINALLY . . . **IF . . .** WITH THIS IN MIND, YOU SAT FACE TO FACE

AND ASKED HIM IF HE WOULD SUPPORT TEXAS IN ITS RIGHTFUL FIGHT TO RETAIN THE TIDELANDS FOR TEXAS — FOR THE SCHOOL CHILDREN — AND THE ANSWER WAS NO — VERIFIED BY LETTER!

THEN, I ASK YOU . . . WOULDN'T YOU, HONESTLY, PUT TEXAS AND TEXAS SCHOOL CHILDREN FIRST?

OTHERS WHO PREFER THE TEXAS WAY OF LIFE? I HAD TEXAS IN MY HEART! SO . . . THAT'S EXACTLY WHAT I DID!!!!

WOULDN'T YOU HAVE REMAINED A TRUE TEXAS DEMOCRAT ALONG WITH MILLIONS OF

RESPECTFULLY,

WON'T YOU HELP ME SAVE TEXAS FOR TEXANS?
