

Highway Dept. Waits Go Sign

Parnell Powell yesterday gave it as his belief that a favorable vote on the proposed multi-million dollar four-lane road construction program in Floyd county depends on how well the story is told of the need for furnishing the State Highway Department the necessary right-of-way on U. S. Highway 70 and U. S. Highway 62.

These highways have served their purpose. After 20 years they are being beaten up by heavy traffic and need re-building to meet present and foreseeable future needs. The highway department will spend nearly \$2 million dollars replacing them if the county will provide the right-of-way to re-build to present-day engineering standards.

Powell is president of the U. S. Highway 70 association in Floyd county. He is leading a movement to vote a bond issue of \$325,000 in the county to provide the right-of-way.

Members of the Floyd county Commissioners Court are favorable to the proposal. The large amount of money that will be needed to meet the expense of right-of-way, however, is above and beyond any usual source of revenue.

Additionally members of the court are convinced that the cost of furnishing the right-of-way now is lower than it will ever be in the future and that an interest rate of 2 1/2 per cent for Floyd county road bonds will be a much more economical way to finance the issue than any other way, such as, for instance, the issuance of warrants.

No Absentee Votes Cast

The fact that no absentee ballots had been cast as late as yesterday noon, although the ballots have been available since last Tuesday, indicates that either the interest is at a low ebb or that taxpaying electors are withholding judgment until they are more familiar with the proposal. The bond issue will be acted on on general election day November 2.

Yesterday Parnell Powell, president of Highway 70 association, issued a call for a meeting of citizens of this area to be at the county court room Tuesday night, October 26 at 7:30 o'clock.

Members of the Commissioners Court and representatives of the State Highway Department will be present to answer questions on the proposal for the new highway construction to be passed on by voters November 2.

The \$325,000 bond issue, proposed by the Commissioners court, is based on an estimate of the lands to be taken, the improvements to be made or damaged, and the experience of adjacent counties where similar projects are under way.

The State Highway Department sprang the Highway 70 four-lane proposal and the widening of Highway 62 on the Commissioners court this summer. The department is faced with the need for reconstructing most of Highways 70 and 62 through the county. The present construction is now 20 years old. It is not based to carry the heavy loads that are now using it daily, nor is it engineered for the heavy traffic which flows over it. The department is of the belief that any construction less than that now contemplated will be sadly lacking for the traffic of 10 years hence.

County Judge Ralph C. Johnston says the plan now contemplated, if two-thirds of the taxpayers give their approval, is to issue 15-year bonds that will mature serially at a cost to the county of approximately \$27,204 per year. To carry out this debt service program would require a tax levy of 19 cents based on present valuations, increasing the tax rate from \$1.28 to \$1.47 for next year. The present rate of \$1.28 is 14 cents lower than the rate for 1953.

Meeting Held at Lockney

Lockney Lions Club Tuesday night asked for a meeting in the Plains theatre at Lockney where Resident Engineer James F. Potts, County Judge Ralph C. Johnston and members of the commission met with interested citizens. Joe Wilson, president of the Lions club, presented Parnell Powell president of Floyd County U. S. Highway 70 association. Powell asked officials to go over the highway department's proposal and that of the county in connection with the big road-building program that is proposed.

Several knotty problems present themselves in getting through the environs of Lockney and all the pros and cons were discussed by Mr.

Harley Sadler, beloved West Texas showman, passed at Stamford

Death Claims Harley Sadler

Harley Sadler, 62, nonpartisan West Texas showman for a quarter of a century, is dead. He passed Tuesday of last week at a Stamford hospital following a heart attack that struck while he was serving as master of ceremonies at a banquet.

A one-time extensive landholder in Mt. Blanco community, Sadler retired from the show business to make his home at Abilene. There he served four terms in the state house of representatives. He ran unopposed for the state senate from that district in 1952.

At the age of 16, Sadler ran away from home to join a carnival. In 1911 he returned home and began to study law. He was a good showman but never used those talents in serious government. He was especially interested in oil, gas, and water legislation for West Texas. Sadler traveled with various stock companies in the Midwest and the Southwest in his show days, including an acting show on a Mississippi showboat.

Funeral rites were held October 13 at the First Baptist church in Abilene. Burial was in Cameron. Survivors include his widow, a brother, F. W. Sadler of Dexter, New Mexico, and a sister, Mrs. W. A. Holt of Haskell. An only daughter preceded him in death by several years.

Film of McMillan Tiger Hunt Coming

Floydada Lions club will sponsor a local showing October 28 of the McMillan jungle pictures which feature actual scenes of big game hunting. The movie will be presented at the high school auditorium at 7:30 p. m. and admission prices have been set at 50 and 85 cents.

Lion president E. A. Williams and finance and activities chairman Jim Word state the film has been well received at all points it has appeared over the area, and believe Floyd county people will enjoy the opportunity of seeing these pictures which include, among other things, a real tiger hunt in the jungles of India.

Floydada Lions plan an advance sale of tickets which will be available this week. Those interested in seeing the show who are not contacted may do so by purchasing tickets at the door.

A member of the hunting party will be on hand at the showing to narrate on the thrills that will be pictured on the screen. Profit from the project will go to the club for their public service work in the community.

Mustang Team of Olton will Engage Whirlwinds In District 2AA Opener

The big game in district 2AA will be in Floydada tomorrow night when the Olton Mustangs tangle with the 'Winds. The battle between these two favorites will unroll at Wester field beginning at 8 p. m.

Both Olton and Floydada were picked as pre-season favorites for the district crown, and many thought the championship would be decided when the two clubs met. Since early season, however, the Mustangs and Whirlwinds have both had their share of trouble and neither is regarded as being nearly so strong as they once were.

Olton opened the season with a 21 to 0 win over Abernathy, defeated Morton 32 to 6, took Slaton 13 to 0, won from Dumas 6 - 0, and then lost 13 to 14 to Spur and 6 to 47 to Sundown.

The Whirlwinds have lost to two teams that Olton has defeated, and on the other hand Floydada defeated Spur which in turn downed Olton by a one-point margin. Most observers favor Olton by a two touch-down margin.

Olton Well Balanced Team

Coach Joe L. Turner's Mustangs are a pretty well balanced team is the report of scouts. The wild horses have ample weight and favor the power type of ball. Olton is not regarded as particularly fast and they do not pass a lot. Their chief threat down the middle is Danny Smith who is listed on the roster at 164, but reportedly hits the line more like a 190 pounder.

Other Mustang starters last week were ends Deryl Machen, 145, and Donald Powell, 171; tackles, Kenneth Harper, 160, and John Carson, 190; guards, Jimmy Priest, 170, and Eugene Edmonson, 140; center, Don Macon, 180; backs, Danny Smith, 164; Jack Gray, 147; Jerry Dennis,

140, and Guy Granberry, 150.

Jinxed by Injuries

Coach Watson's 'Winds have been snake-bit by the injury jinx the last three weeks and any line-up they have planned has been altered to fit the remaining material. Most effective offense they have been able to offer this year was a Spur four weeks ago when the team was at near top strength.

For this week's important battle many of the 'Winds are still on the doubtful list. Early this week over a third of the starters were nursing injuries and several had been sick and were in a weakened condition. It was hoped that by taking somewhat lighter drills most of the boys would be able to go by game time.

Laron Fulton and Robert Stovall appeared to be improving and their return to top strength would be a big help to the team. Jack Womack, who missed last week's game at Slaton, was in the hospital over the week-end with an injured leg. It was not known how quickly it would respond to treatment.

Coaches Watson and Cleveland believe that with any kind of a break in the injury jinx they will be able to field a good team by game time, and though some of the early season lustre is gone the winner of Friday night's game will still have the inside track toward the district crown.

A big crowd is expected for the contest as both Floydada and Olton are noted for their support of their football teams.

Grade Teams Play Tula

Tuesday night the Andrews Ward teams of coach Bob McQuire won one and lost one when they played a double header with Tula. The Floydada 7th grade team took the visitors 13 to 2 and remained undefeated. The 8th grade boys went down by a narrow 6 to 7 count.

Farm Bureau Annual Convention Is Held; Farm Outlook Viewed

In their annual convention held at American Legion annex Tuesday night ninety Floyd County Farm Bureau members and guests enjoyed a banquet, heard reports on activities of the year, got encouraging news of membership standing and discussed and adopted resolutions which this county will sponsor at the state convention.

Following the invitation by Robert Lee Smith, the business session was called to order by the president, Chester Carthel. The welcome was given by Mr. Carthel and announcements were made concerning the Farm Bureau's state convention that will be held in Galveston November 8 - 10, also the national convention scheduled for December 12 - 16 in New York. Board members will select delegates to attend at a later meeting. Mr. Carthel said that this district was leading in membership in the state.

Due to the absence of the secretary and treasurer, Harry Morckel, W. R. Puckett, service agent, read the year's budget report.

Resolutions are Presented

Jack McIntosh, vice-president, presented the coming year's resolutions, replacing Helmut Quebe, chairman, who was unable to attend. The resolutions approved by the members will be forwarded to the state office for action.

It was recommended that the publicity department of the Floyd County Bureau publicize the fact that farmers are not subsidized to any higher degree than industry or any other business, and that their

net income according to investment is no higher than any other.

A resolution that parity for farm commodities be based on net income comparative to industry and labor was explained by Walton Wilson and recommended by the Bureau members.

The vote was carried that the reciprocal trade agreement act be extended for a period of 2 to 5 years.

The members approved that Social Security for farm operators be accepted.

A resolution adopted endorses the Texas Farm Bureau acreage retirement plan, in that it retires the necessary percentage of acres to control production by retiring such acreage completely, except for some recommended soil improvement practice in a given locality, and that to be eligible for supports on basic (See Farm Bureau, back page)

Teachers Banquet On Monday Night

The Floyd county TSTA banquet will be held next Monday night at 7:30 at Lockney high school.

Guest speaker will be Sam Culpepper from the TSTA in Austin. A. E. Baker, principal of Floydada high school, is urging all teachers in the Floydada schools and rural schools to attend.

15 Per Cent Cotton Acreage Reduction For 1955 Will Be Up to Farmers in Vote on December 14

It was announced last week from the USDA office in Washington that a 15 per cent reduction in the cotton acreage for 1955 will be effective if parity payments are to be made for that year.

A 21-million acre crop this year, cut by 15 per cent, would give the cotton producers a national acreage of 18 million in round numbers.

Henry I. Martin, office manager of Floyd county ASC, said yesterday the local office had had no official notice of this matter. He anticipates, however, that proposed allotments on cotton will be here in about a week.

The Washington notice appearing in the daily press said that farmers would be called upon to vote on the department's proposed cut on December 14. It is a foregone conclusion that the vote will be favorable.

Wheat Acreage Not Planted

Going over the outlook for the ensuing crop year, Henry I. Martin said that the 141,000 wheat allotment for Floyd county lacked a lot of having been seeded to date. "It will have to rain before a lot of the acreage is planted to wheat," he said. He noted, however, that some wheat is in the ground and up to a stand and that quite a bit of wheat has been dusted in.

For those who are considering seeding wheat for a cover crop or pasture or some other small grain for this winter Martin has the following suggestions:

You may seed any acreage of wheat for grazing or cover crop and it will not affect your eligibility

for price support, ACP, or cotton allotment if the wheat is totally destroyed by grazing or plowing before maturity. If you have a wheat allotment you may plant any acreage above the allotment for this purpose the same as a person without an allotment.

If you plant and harvest more wheat than your 1955 allotment but harvest less than 15 acres then you will not be eligible for price support on any wheat but you will be eligible for price support on cotton and grain sorghum provided you do not over-plant the cotton for other special allotments and do not plant other commercial vegetables, Irish potatoes, sweet potatoes, and dry edible beans than the average planted in 1952 and 1953 you may plant the balance of your land to grain sorghum, barley or any other crop you desire and still be eligible for price support on all crops and also be eligible for ACP.

This will be about the same type of program as we have in 1954 with the exception of the vegetable, potato and dry bean acreages. More information concerning vegetables will be available in the near future. The price support level for grain sorghum has not been announced at this time. Under the law it is permissible at the option of the secretary at from 0 to 90 percent of parity.

Released Wheat For 1955 Crop

Any producer that does not intend to plant his 1955 wheat allotment may turn all or any part to the county committee before November 15, 1954, and still get credit for the allotment as history - Provided wheat has been planted on the farm in one of the three years, 1952, 1953 or 1954. Any producer with an allotment who would wish to plant a part of this wheat that is turned in to the county committee may file

their request before November 12, 1954.

No 1955 Total Allotments

On September 15, Secretary Benson announced that total allotments will not be established for the 1955 crop. This means that if you comply with your wheat, cotton, and other special allotments and do not plant other commercial vegetables, Irish potatoes, sweet potatoes, and dry edible beans than the average planted in 1952 and 1953 you may plant the balance of your land to grain sorghum, barley or any other crop you desire and still be eligible for price support on all crops and also be eligible for ACP.

This will be about the same type of program as we have in 1954 with the exception of the vegetable, potato and dry bean acreages. More information concerning vegetables will be available in the near future. The price support level for grain sorghum has not been announced at this time. Under the law it is permissible at the option of the secretary at from 0 to 90 percent of parity.

**Conservation District News**

**INCREASE COTTON YIELDS BY WATER CONSERVATION**

Data collected by the experiment station at Spur, Texas, show that yields of cotton have been substantially increased by contouring and terracing. The studies cover a 27-year period, 1927 to 1950. These practices increased water retention and caused deeper penetration of moisture in the soil. They also reduced soil erosion and decreased the likelihood of poor crops and failures in dry years.

The experimental work covers field areas having: Rows with the slope, contour rows and contour rows with closed level terraces. The three field areas were planted continuously to cotton for 24 years. The soils were largely Abilene clay loam, which are very similar to our hard-land soils here on the High Plains and were considered fertile but droughty.

An annual record was kept of the rainfall, runoff, yield, value of lint and cottonseed and acre returns for each of the practices.

Contouring alone increased the yield of lint cotton from 122 pounds per acre for straight row farming to 151 pounds, an increase of 24 percent. Annual runoff was reduced by contouring from 2.75 to 1.95 inches. The annual per-acre return

in terms of lint and cottonseed for contour farming exceeded that from straight rows by \$6.60.

The use of closed level terraces increased the yield of lint 57 percent over straight row farming. The annual yield of lint on this area was 192 pounds per acre, which is 70 pounds more lint per acre than was obtained from straight rows. The larger yield represents an annual increase of value of lint and cottonseed of \$15.47 per acre. There has been no runoff from this area. Moisture samples to a depth of three feet, taken May 20 of each year from 1930 to 1950, show that the average moisture content on the area with straight rows was 2.54 inches of water available for plant use. On contoured rows, 2.73 inches of available water were stored in the soil, while on closed level-terraces, 3.18 inches of water were available for the growth of cotton plants. On the closed level-terraced area there was an average of 1.71 inches of water stored in the second and third feet of soil, 1.43 inches on the contoured area, and 1.33 inches on the area with straight rows. The storage of moisture in the subsoil greatly reduces losses from evaporation and weed growth. This leaves a greater amount of water available for deep-rooted plants, such as cotton. The value of subsoil moisture is indicated since each additional inch of moisture stored in the subsoil on May 20 increased the acre yield of lint 104 pounds per acre.

It is estimated that contour farming and closed level terraces would

## TUBELESS TIRES FOR 1955

DETROIT—All five of Chrysler Corporation's completely new passenger car lines for 1955 will have tubeless tires as standard equipment, at no extra cost to the motorist. Miss Joanne Hosier provides a preview peek at one of the new tires installed on one of the company's 1955 cars which will be introduced this fall. Far more resistant to punctures, the new tires also afford much greater protection against blowouts than previously-used tube-type tires. In taxi-cab fleet tests, use of tubeless tires reduced the overall average of "blasts" to only four per 100,000 miles, an 80 per cent decrease. Chances of blowouts occurring are substantially reduced with tubeless tires. Lighter and cooler-running, the tubeless tires on 1955 Chrysler Corporation passenger cars are expected to provide up to 12 per cent more tire mileage.

## SANDY SEZ

Hi, ya! Well, the Whirlwinds traveled down to Slaton for a most disappointing game. Slaton conquered with a 12 to 6 victory. Although our boys lost we, the Floydada High School, are still backing them up for the Oton game. This is our first conference game so let's try to help our boys. We sure could stand some pep in the pep rallies by the student body.

Some familiar faces around Slaton and Floydada were Gail Baxter and Larion Fulton, Sue Nelson, and Cloyd Stephens, Cheryl Crawford, and Jackie Don Jarrett, Jerri Floyd and Dickie Smith, Christine Britts, and Jackie Johnson.

The student council had a meeting on October 12. The student council of Slaton asks Floydada to exchange an assembly with them. They decided to do this. The South Plains Association of Student Councils is to be attended by the council members on November 1. Floydada is to be in charge of a group discussion pertaining to securing student body co-operation in student council projects. George Chapman was chosen chairman of this committee. They also decided to have a week's thought in the Whirl.

Last week's thought was "Seven Days Without Prayer Makes One Weak."

The band seems to have something on their minds. "Wichita Falls or bust?" As a member of the band, they requested me to write this wish for them: The band has improved so much this year and we would enjoy going to Wichita Falls. And it looks pretty doubtful. Will someone help us?

Starting this week, I have decided to have a "Sandy Sez" personality. This week's personality is Sonja Beth Wilson. She is fifteen years of age and a good "oil" sophomore. She was born on November 15, 1938. She is the daughter of Mr. and Mrs. Woodrow Wilson. Her main interest is Bill Harmon, her steady. As her favorite sport she picked basketball and her favorite song, "Give Me Your Word." Bethie is one of the many 900 club fans. Her favorite singer is Eddie Fisher, and Billy May's band was chosen as her favorite band. She dislikes stuck-up people and likes Wichita Falls, (band member) and all kinds of food.

She enjoys band trips and running around. Her favorite teacher is Mr. Foster and her ambition is to be "Miss America."

Johnny West and Elton Turner returned from Kansas City, Mo. Friday afternoon. They were sent as representatives from Floydada to the National Ag. Convention.

Nita Jo Lightfoot had a pretty good slumber party. Just ask some of the freshmen who attended!

Nominees for PFA Sweetheart are Darlene Bryant, Pat Helms, Pontaine Fowler, and Gail Clark. Good luck for one of you gals will be mighty happy.

Well, so long for now and will see you next week.

Sandy.

Visitors in the home of Mr. and Mrs. S. L. Powell over the week-end were their daughters, Mrs. Travis Ray and daughter Gayle, of Grand Prairie, and Miss June Powell of Dallas. They were accompanied by Miss Mary Ann Turner and Miss Given Chandler of Dallas.

W. H. Hodges of Dumas, brother to H. G. Hodges of Lockney, passed away early Saturday morning, October 9, following a long illness. Services were conducted at the First Baptist church Sunday in Dumas.

Princess Elizabeth of England and Lt. Phillip Mountbatten were married on November 20, 1947.

## Noted Prosecutor Will Speak Here

District Attorney Bill Alcorn, of Brownwood, will be the lay speaker who will address the Baptist Brotherhood at their meeting here Monday night at First Baptist church, it was announced this week by John B. Stapleton, president of the Brotherhood.

Alcorn, whose successful prosecution of the conspirators in the Floyd killing in Duvall county, brought him fame throughout the state, is a seaman in the First church at Brownwood and a member of the advisory board of the Texas Baptist Brotherhood.

His work as a leader in the church has included a recent trip to the Los Angeles area where he was a member of a team of lay revivalists. A similar mission will be filled in Kansas by Mr. Alcorn when he journeys to Wichita, with a Texas team on November 10.

He will also journey to Phoenix, Arizona, in January, when John B. Stapleton, 110th District attorney, will also be one of the laymen's revival team.

The address of the visitor will follow a supper served in the basement of the church for members of the Brotherhood who attend and their guests.

Stapleton, Floyd Boren and Leonard Matseier spent Monday and Tuesday in Fort Worth at the state convention of the organization.

## —Boyce House 'I Give You Texas'

The days of vaudeville!

The Orpheum in Memphis was the home of vaudeville, two shows a day, the year round except summer months. Sarah Bernhardt appeared there and — quite a different artist — Chic Sale, who had not yet written "The Specialist." Another star was Eva Tanguay, the "I Don't Care" girl; Fritz Scheff sang "Kiss Me Again" as only she could sing it; then there were Walter Kelley, the "old Virginia judge"; and Swor and Mack, blackface comedians — Mack later was one of the Two Black Crowes of "White-horses-eat-more-than-black-horses" fame). Ernest Ball, who wrote both words and music of several all-time favorite songs, sat at the piano and sang his own compositions.

Another I recall was James J. Corbett, former heavyweight champion of the world. Gentleman Jim was famed for his footwork and scientific boxing and he gave a demonstration as well as relating anecdotes of the ring.

There were performers from South America, Spain, China, Japan — acrobats, jugglers, musicians, song-and-dance teams and animal acts.

The two favorites of the bill were the one-act play, which was highly dramatic, and the comedian.

And of the comedians, the one I remember best had a line which he uttered in a silly voice, "Hark! I hear the distant cannon's roar." Not funny, you say? Well, but you never heard that fellow give it.

Then there was another — or it might have been the same — who had trouble getting the spotlight. The stage would be plunged into darkness, then the spotlight would wander around and when he gave up trying to get it focused on him and walked over to where it was, it would roam away and all the while he would be calling to the electrician, in a pathetic voice, "Spotlight! spotlight!" Well, regardless of what you think, you should have heard the audience roar.

The show lasted two hours and a lad could get a seat in the balcony at a matinee for 15 cents!

Mrs. Meredith, instructor of fine arts at Wayland college, together with Lex Roby, student violinist, will appear at 3 o'clock in a musical program under the auspices of the club on their guest day.

## Club Guest Day Program Feature Talented Artists

Wayland college musician Meredith, instructor of fine arts, and Lex Roby, student violinist, will appear at 3 o'clock in a musical program under the auspices of the club on their guest day.

Mrs. Meredith, who is well known in Floydada and other High Plains towns as an outstanding musician, was presented in recital in Floydada last year. Recently she was asked to give the dedicatory music on the 9-foot Steinway Grand piano which had been presented to First Baptist Church, Amarillo, by the Mays brothers in honor of their mother, Mrs. W. A. Mays.

Mrs. Meredith is a member of the American Guild of Organists and is organist for First Baptist Church, Plainview, in addition to being an instructor of organ, piano and theory at Wayland College. She has studied

under outstanding organists such as William Barclay, Bertram T. Wheatly and Dr. Robert Markham. In piano she has been a pupil of Silvio Scionti, Mrs. Edwin McNeely and Orazio Frugoni. At Baylor University where she graduated cum laude, she was a piano pupil of Gladys Calder Stinson.

Mr. Abston of Houston and a senior music student at Wayland, is music director for First Baptist Church, Hale Center, and has served as pianist for First Baptist Church, Abernathy, the past two years. He is also an accompanist for the Wayland International A Cappella Choir. He is a pupil of Mrs. Meredith.

Mr. Roby, of Avalon, Calif., and a sophomore music student at Wayland, is music director for First Baptist Church, Happy, and a member of Wayland International A Cappella Choir. He is featured as a violinist on many of the choir programs.

We'd like to see ourselves as others see us—we sometimes think. What we really mean is we'd like for others to see us as we see ourselves. Or better, we'd like others to see us as we'd like to be.

But just in case any married reader means the first statement, we've found a way: The next time you're driving home with the spouse in five o'clock traffic, look around you at each traffic stop. Whether you've ever seen the occupants of nearby cars before or not, you can pretty well size up the family situation.

Of course, it's nearly a cinch to decide whether or not your traffic neighbors are married. If she's all dressed up, and he has just come from work, is he looking at her with animated interest? Does she seem to be "eating him out"? Is he in a coma while she talks? Or are they both relaxed into the bored silence of having long since talked everything out?

If he's nattily dressed, and she looks worn and bedraggled, is he finding life at the office more interesting than he does at home? If so, whose fault is it? His, for not sharing the family load? Or hers, for enjoying the martyr role?

Such a check certainly isn't scientific, but it's a stimulating game—while your own spouse is (1) fighting traffic, (2) settled into a coma of boredom all his own, or (3) telling you something you've already heard.

This absence of self-consciousness while the world looks on is a tribute to the way most of us feel about the family car. We're much more relaxed there than we would be in a glass house or a goldfish bowl—although it has some of the disadvantages of both.

# Floydadans, In Path of Storm, All Reported Safe and Sound

With the howling winds of Hurricane Hazel dying out several states were threatened by flood waters this week. Over-burdened streams burst from their banks and surged through homes in the Carolinas, Pennsylvania, Maryland and Virginia. North and South Carolina have already been declared major disaster areas.

Mr. and Mrs. V. D. Turner have a son, Dorman, who is stationed at Norfolk, Virginia, where the hurricane did a great deal of damage. Word has not been received as yet by the family, but the Turners feel that their son is safe.

Mrs. Tubal Cain, daughter of the C. L. Berrys, called her parents early Tuesday to report that she and her family were safe. Her husband was aboard ship when the storm struck. He has tried to reach the Berrys by phone Sunday, but they were gone at the time. Efforts to reach him at the same number proved fruitless as lines were down. Mrs. Cain said she was undergoing minor surgery at the time of the hurricane in a Norfolk hospital. No damage was done to the apartment building where they live.

### Travis Joneses Are Okay

Travis Jones, son of Mr. and Mrs. Tate Jones, and his family, who live in Petersburg, Virginia, were reported safe. Mrs. Tate Jones talked to a next door neighbor of her son, as the younger Jones' have no phone. Little damage was reported in the Colonial Heights addition where they live, although some damage was done to the down-town district by strong winds. Mrs. Jones said: Dan Jenkins, Brigadier General of the Air Force in Southern Pines, North Carolina, and son of Mr. and Mrs. J. B. Jenkins, was reported safe, as he and his family live quite a distance from the coastal area. The Jenkins family was in Floydada some two weeks ago visiting his parents. General Jenkins is commandant of a combined army-Air Force school there.

Mrs. Jim Willson, Jr., whose parents live in Cary, North Carolina, said that she finally got a call through to them Tuesday after several attempts failed on Monday.

### Farm Bureau

(Continued from First Page) commodities a producer would be required to comply with a recommended soil conservation plan recommended in this area.

### Grain Sorghum Supports

The members voted that grain sorghum be placed in the same category, or on the same basis as corn, for support prices, based in relationship to protein content, also to see that a system of credit be set up to extend long term credit for young dirt farmers to finance the purchase of farm machinery and farm land, and to be limited to qualified farm men and not non resident buyers.

The resolutions that any farmer who fails for any reason beyond his control to plant his allotted acreage of any crop should not be penalized on his acreage allotment for the crop in any succeeding year, was recommended.

A noxious weed control law was discussed and approved for action.

E. C. Mitchell and Robert Lee Smith explained and answered questions on the conservation of soil and water provation in this district. The pros and cons were discussed among the members with the majority voting for provation, if it carried for each district.

Mr. Carthel asked that it be recommended that the local and Hill Plains Water board and the Farm Bureau's committee for water and soil conservation seek out information and feasibility of the Missouri River basin project for a possibility of bringing water to this area from that river.

The president also recommended that local elevators and banks be authorized to make grain loans to farmers as the gins do for cotton loans. This vote was carried unanimously.

Mr. and Mrs. Roy N. Tyler, Betty Jean and Johnny, of Amarillo, and Mrs. John E. Brown, Vicki and Jo Deane, of Lubbock, spent Friday night and Saturday with Mr. and Mrs. J. T. McLain. Mr. and Mrs. Hollis McLain, Marilyn and Alison, of Sandhill, were with them Saturday also.

It was learned Monday that Mrs. Seaton Howard, former resident of Floydada, now of Petersburg, is in Plainview hospital where she underwent surgery last week. Reports indicate that her condition is good.

Mrs. Willson said all communication was down beyond Atlanta. Mrs. J. U. Newman, her mother, said that extensive damage was done to most homes, and people there felt lucky to get out alive. Windows were blown out of the Newman home and some 200 trees uprooted on their property. Mrs. Newman told her daughter that due to the rain still falling there, it was hard to tell just how much damage was really done. The continuous rain is hampering workmen from cleaning up the debris. Mrs. Newman said. Mrs. Willson has a sister, Mrs. V. L. Smith and family, who live in Rawleigh, North Carolina, that are believed safe. Also several close friends who reside in Suffolk, Virginia, one of the hardest hit towns in Virginia.

### Sand Hill News

(By Mrs. James Jeffress) SANDHILL, October 19 — The cotton harvest is well under way in the community. The light frost Wednesday night killed all the top leaves but it wasn't hard enough to kill all the leaves, so hands are still pulling and there is still a shortage of hands in the community.

Mrs. J. R. Turner and children visited with Mr. and Mrs. Mac Howard in Lockney Sunday afternoon.

### Sandhill Club Meets

The Sandhill Demonstration Club met Wednesday afternoon in the club room. Mrs. W. R. Billington was hostess.

It was reported that Mmes J. T. Spears, T. C. Hollums and Duard Everette would attend a recreation school Monday afternoon. The program was given by Mrs. H. P. Jackson on "The State Constitution" in the absence of Miss Petty. Miss Petty will meet with the club on November 24 and give her demonstration on "More Meat cooking".

The next regular club meeting will be October 27 with Club Everette as hostess. The program will be on frozen fruit salads and will be given by the food leaders.

Refreshments were served to Mmes Orbra Miller, H. F. Jackson, Lynn Miller, James Jeffress, Johnny Miller, C. B. Carmack, Duard Everette, T. C. Hollums, J. T. Spears, and the hostess, Mrs. W. R. Billington.

Mrs. Jim Holmes was brought home from Plainview hospital Thursday. She is very happy to be home, although she isn't able to be up very much. Gertie would enjoy seeing all her many friends, I'm sure.

Mr. and Mrs. James Jeffress and family visited in the home of her parents Mr. and Mrs. Tom Brown Sunday afternoon.

The dedication exercises of the new Sandhill Baptist Church will be held the fifth Sunday of October, which will be the 31st. Everyone is extended an invitation to meet with us on that day. The program is an all-day affair with Rev. S. G. Sewell preaching the morning sermon. Mrs. Tom Thomas will give the "Past History of the Church". There will be special music at the morning service.

The noon meal will be at the church with each family bringing a basket lunch.

A song service will begin at 2:00 o'clock p. m. and Rev. Franklin Swanner will bring the afternoon message.

Dr. B. P. Maddox will bring the message Sunday night following the regular training union program. A wonderful program has been planned and we are hoping for a big crowd to come and offer thanks with us for our beautiful new church in the community.

### Mother's Going Out!

Be it shopping, bridge or business, mother doesn't worry about leaving instructions for children returning from school. Modern electronics has come up with an easy-to-operate Timex Magnetic Disc Recorder made especially for home use. It records voices and plays back results immediately. If wife's away when hubby comes home, he simply flicks a switch and hears her explain where to find the left-over ham in the refrigerator. And (happy day!) if she starts bawling him out—he can flick off the switch!

VIEWES AND COMMENT

Harley Sadler Passes. The passing of Harley Sadler last week brings to mind that the end of an era in West Texas history was passed some years ago when the showman-citizen gave up the tentshow business to get into other lines of endeavor.

Secretary Wilson's quip about the bird dog and the kennel hound didn't get the same reaction in the average West Texas mind that it got back east with Mr. Reuther and others.

Any peddling ordinance in any city always raises the ire of a considerable segment of the population. The ordinance passed last week by the city council in Floydada is no exception.

The Eleven Amendments. You can find a little wrong with most of the proposed amendments to the state constitution, but more good than bad about most of them.

Four Year Terms. The proposed change in the term an official could serve from two years to four years is not accompanied by a provision, as in some states, that he cannot seek another term or, in other words, succeed himself in office.

The killing Frost. According to one of the major "signs" a killing frost should envelop the plains country tomorrow, night, not later than the week-end.

The condition a man is in can best be judged from what he takes two of at a time — stairs or pills.

The Basic Idea Behind the All-New 1955 PONTIAC

On Display October 29 and 30

ABOUT 30 years ago General Motors Corporation presented to America a new car called Pontiac. This new car was the direct result of a very specific idea.

The idea was this: to create a car which took its style, its engineering principles and its features from the very best and most expensive in America—and to build these into a car priced just above the very lowest!

Naturally, such an idea produced a wonderful and highly popular car—a car which millions of satisfied owners have driven with outstanding pride and pleasure.

Now, nearly three decades later, an entirely new Pontiac has been created for 1955—a car completely new from the ground up!

One thing, however, about the 1955 Pontiac remains unchanged—its basic idea—to offer the American public the very finest car that can possibly be built to sell at a price within easy reach of any new-car buyer.

When you see the new Pontiac on Friday or Saturday—Oct. 29 or 30—you will be immediately impressed by its remarkable new styling. No other car in the world looks like this new Pontiac!

When you drive it you will be astonished at its performance. For the 1955 Pontiac introduces the powerful new Strato-Streak V-8, an all-new engine that has already been proved in more than 3 million test miles!

When you price the new Pontiac you will come face to face with the basic Pontiac idea—you will be agreeably surprised that so much car, so much sparkling newness, so much luxury, so much downright goodness can be priced so near the very lowest.

We cordially invite you to come in on Friday or Saturday and see for yourself what a superb all-new General Motors masterpiece has been created to carry the wonderful name "Pontiac" for 1955.

A space-saver for your freezer would be the boning out of some of your cuts of meat where the bone is of no particular value and is apt

to puncture your wrapping thereby lowering the quality of your meat product. Because air dries out the meat and destroys a lot of flavor, texture and food value.

**Maid of Cotton Will Be Chosen**

LUBBOCK, Texas—South Plains cotton industry leaders have begun their search for an attractive young woman who will be crowned 1954 South Plains Maid of Cotton and represent this area as one of 30 finalists in the national Maid of Cotton Contest early next year.

Officials of the contest, which has been called "the world's most dignified beauty contest" by the Associated Press, have received confirmation that again this year the South Plains Maid will be an automatic entry in the finals to be held in Memphis, Tenn., early in January. Only five other state contest winners throughout the entire South will receive this rating.

Complete plans for this year's South Plains pageant are still pending, but entries are now being received. The contest likely will be held in Lubbock's Fair Park Coliseum about November 22.

**LIBRARY NEWS**

(By Ivy Pearl Reber)

Finally the inventory count is completed. The library has 5,581 books available for the readers of the county. Of this number 2,292 books are on loan from the Texas State Library; 3,289 are "home-owned". 4,454 books are housed at the central library in Floydada, with 1,036 in Lockney. When more room is made available at the Lockney branch, more books will be placed there.

Have you decided upon your ten favorite books? Dr. Norman Vincent Peale, the author of the number one best-seller for the past two years, lists his: his own "Power of Positive Thinking", the Bible, "Adventures of Sherlock Holmes", a volume of English and American poetry, "Robinson Crusoe", Thoreau's Walden, Emerson's Essays "Varieties of Religious Experience" by William James, "The Spirit of St. Louis" by Charles Lindbergh, and "Life with Father" by Clarence Day. If he were using our library, he would have to get along with only half of them! Maybe he would be willing to substitute some others, like "One God", "North to the Orient", and "One Thousand Beautiful Things".

There is to be a meeting of the Texas Library Association, District 1, at Lubbock Saturday. It will be at the new Lubbock Public Library on 19th Street. The program has been planned with a morning session of eminent speakers, including Miss Genevieve Dixon, director of Library Service at Texas State College for Women. Following a luncheon at the Air Port Dining Room, the afternoon session will be devoted to discussion groups. Those attending are invited to bring their problems to be ironed out there. Other speakers and leaders on the program are from Texas Tech, Lubbock Public Library and libraries over the panhandle.

V. D. Turner has returned from Grand Junction, Colorado, where he went to return his sister, Mrs. Cora Croft, to her daughter's home in Littlefield. Mrs. Croft suffered a heart attack several weeks ago but was able to make the trip all-right.

**MISS PETTY HOME FROM CHICAGO AND STATE FAIR**

Miss Lella Petty, Home Demonstration agent, returned home Sunday from Dallas where she attended the State Fair. She accompanied the Sherwood Ramseys home.

Prior to being in Dallas, Miss Petty has just returned from Chicago where she had been to receive a Distinguished Service award of the National Home Demonstration agents association.

**RED DROUTH PLAN**

Reverse body english was the "grab and giveaway" in Washington recently. The railroads reduced drouth rates by 50 percent for one month, the federal government its aid responsibility one-fourth the normal. Drouth stricken stock-owners half the benefits of the government grabbed the

rate was based on actual cost experience with last year's program in all 15 states.

The flat reimbursement could be applied towards the cost of hay and transportation, they pointed out. It would cut down paper work from five forms now required to only one certificate of eligibility. The end result would be more benefit to needy livestock for less administrative cost.

But instead, half the benefits of the rail cut were wiped out!

If the government intends to spend the money it has earmarked for drouth relief, then state officials argue the program should be put on a more simple and economical basis. As it now stands, the program is not doing the job for which it was intended.

### As A Farm Woman Thinks

(By Nellie Witt Spikes)

#### Just A Long Country Boy

He was just a long country gink, From where the road frogs wink, He was six foot six in brown sock feet.

And kept getting thinner the more he'd eat.

But he was brave as he was thin, When the war broke out he went right in—

Unhitched his mule, put the plow away.

And the old folks heard him say:

Chorus: "Goodbye, Pa; Goodbye Ma; Goodbye mule with your old hee-haw.

I may not know what this war's about,

But I bet, by gosh, I'll soon find out!

O, my sweetheart, don't you fear I'll give you a King for a souvenir,

I'll get you a Turk, and the Kaiser, too,

And that's about all one fellow can do."

A pair of socks was his only load

When he struck for town by the old dirt road.

He marched right down to the public square

And joined the fellows drilling there.

The Sergeant put him in uniform And his girl knit mitts to keep him warm They drilled him hard and they drilled him long, But he kept on singing the same old song: "Goodbye, Pa," etc.

Somehow today the First World War comes to my mind, perhaps brought there by the memory of the songs we sang then. What a hustle and a bustle we found ourselves in on that April morning when we received the word that we were in war with Germany. We bought tiny flags and put them on the radiators of our cars, we pinned knots of red and white and blue ribbons on our coats. The old sad love songs were discarded and we along with the children were singing marching songs, As Its A Long Way To Tipperary and Over There. The Red Cross took over for the women. We met with them in Floydada and were given out big bundles of cut-out goods to be made. Hospital shirts, opened in the back and tied with strings, some of the women balked on making them this way. Nightshirts they knew were not so made. And do you older ones recall the black smocks we made for the children of France? They were also opened in the back with a belt to keep the pleats in at the waist black sateen both for the boys and the girls. We could not understand such a dress but we made them just the same. I was in charge of the sewing. How many times I handed out a garment to be made and had to rip it apart and make it over for the Red Cross was very particular that they be made just so. Seams had to be on the outside, many did not think this should matter, but it did. Pockets sewed on just alike, even the strings should be hemmed and attached with minute precision. Some of the women received big balls of khaki colored wool and made them into warm socks.

And we dressed and cooked and did without for the sake of "Freedom." We cut out Hoover dresses on our kitchen floor, light blue wrap arounds, even caps trimmed with white, as were our collars and cuffs. We were rationed on flour and sugar. One of the tragedies at our home was the time we had enough in the family to get a whole fifty pound sack of flour. We proudly set it down on the floor by the side of the kitchen cabinet to be emptied later in the big bin. At the back of the big range stove sat a small tomato can with coal oil in it holding some corn cobs for quick kindling. Somehow the can turned over. I grabbed the precious sack of flour, but the oil was quicker than greased lightning and the bottom of the sack got wet. I emptied it up, but the coal oil went clear through that sack of flour and until it was gone we had the taste of oil in bread and gravy. Why not

in the cakes, and in the pies, you ask? Well, we did not have enough sugar to make these dainties. We got so hungry for sugar; we could not even buy candy. We used syrup but it did not qualify for the sugar we were used to. I got so I could take a cup of oatmeal and one of flour and make fair biscuits. The potato flour was not very good, nor was the corn sugar very sweet.

We made a good crop of rye and we loved the rye muffins. So did my sister Edna's family at Amarillo, for she wrote these lines:

"We get up in the morning, our muffins to make.

And eat our oatmeal while they do bake.

At dinner our cornbread is light and puffy

And we eat beans until we get stuffy.

With rice as desert, we are happy as kings

For all of these dishes, Victory will bring."

More about our dress styles. I made me a khaki dress trimmed in brass buttons as did many other women. Wilson, our little son, had a suit of khaki, an overseas hat like the doughboys and wore leggings. Our hats looked like helmets. We wore our dress belts around our hips, where the long waist met the narrow skirt. We were very patriotic, we did not like "slackers," we bought Liberty bonds. We sang the Star Spangled Banner at all meetings. We took all the Kaiser's pictures out of magazines. We called the ruler of Germany, Kaiser Bill, and shouted whenever we heard the names of General Foch and General Pershing.

But soon tears mingled with the patriotic meetings, the immortal words of Flanders Field where poppies grow, row on row, between the crosses and we worked harder, did without more and more vital war things, saddened but not without faith we would in the end be victorious, for we had given our best young men and supported them with prayers.

The bells rang, the whistles blew, the people shouted that Eleventh Day of November, 1918, but my husband and I did not hear them. He was hauling in the last load of a very poor crop of droughty bundles and I was working around the house when the telephone rang and the glad tidings of the Armistice took me running to the stack to tell the wonderful news.

How long I have stayed? I hope you have not been tired with the memories of those days. See you soon. A month soon goes. God bless you.

## Tigers Down Whirlwinds 6 Friday in Rugged Battle

Slaton Tigers drew Friday night and went 6-0 over the Floydada 21 before punting to the Whirlwind 40. The Winds only owned the ball a short time, however, as Jarrett fumbled and Slaton again had possession. The Tigers were unable to move and punted from the Floydada 40 to Stephens on the Floydada 5. Stephens fumbled the kick and the Slaton team took over with a first and goal on the Winds 2 yard line.

With first and goal on the Floydada 2 the Tigers found the going a bit rough and after four stabs at the line were still six inches shy of pay dirt.

A penalty stopped the Winds in their attempt to run the ball out and as the second period got underway Baxter punted from his own 1 to Ronald Smith on the 35. Smith returned the ball to the Winds 5. Shortly thereafter Smith scored a drive.

from the 2 yard line and Lee Ham's attempted kick was blocked.

### See Saw in Second Quarter

The second quarter was a see-saw affair with neither club seriously threatening until just before the half when the Winds recovered a fumble on the Slaton 14. The Winds had driven in to the Tiger 8 before time ran out at the half.

Opening the third quarter the Tigers kicked to Floydada and then held them at the Winds 40 where Baxter punted to the Slaton 28. The Tigers were able to gain nine yards and on fourth down found themselves shy of first down yardage as the ball went over to Floydada on the Slaton 36.

The Whirlwinds drove in on running and passing plays to the Slaton 3 where Stanley Vickers drove over for the score. Joiner's kick was no good, and the game was tied up at 6-6.

Before the period ended Floydada had kicked off to Slaton on their five and they carried back to the 39. Opening the final period the Tigers continued the drive and carried on down to the two where Muse carried over for the touchdown. The kick was no good and the Tigers led 12-6.

Neither team threatened again until late in the period when Floydada owned the ball on the Slaton 35 following a short punt by Tommy Shearer. The Winds drove to the 24 before losing the pig hide on downs and the Tigers took over.

### The Clock Runs Out

Slaton owned the ball only a short time however as Larry White pounced on a fumble to give the Winds possession on the Tiger 39. At this point there was 3:39 seconds on the clock. The Winds found their drive cut short again as they fumbled and Slaton recovered on the 31.

With only seconds remaining Walker recovered a fumble on the Slaton 47 and the Winds tried a series of breathtaking passes as the clock ran out which carried them to the Tiger 20 where time again ran out on the hard fighting Winds. Final score Floydada 6 - Slaton 12.

In the statistics Floydada made 9 first downs, 140 yards net rushing and 55 yards passing to 8 first downs for Slaton, 108 yards net rushing and 0 yards passing. The Winds were penalized 30 yards and the Tigers 25 yards.

Stanley Vickers was leading ground gainer of the contest with 92 yards in 16 tries. Stephens was credited with 40 yards net in 10 tries. For the Tigers Ronald Smith made 61 yards net in 25 runs. Muse made 26 in 7 cracks at the line.

Starting the game for Floydada were Bobby Carmack, Cloyd Stephens, Glad Norman, Gordon Joiner, Kent Covington, Walter Simmons, Gene Swanner, J. E. Waller, Keith Marble, Carroll Guthrie, Marvin Rucker, and Stanley Vickers.

## District 2AA Play Starts This Week

District play gets underway this Friday with two games on tap for 2AA teams. Leaders Olton and Floydada meet in Floydada in a contest that could decide the district championship. In the other game it will be Muleshoe at Lockney to see who can challenge the two leaders. Tulla will entertain Price College in an inter-sectional game, the last of these for any district team.

The district has lost what little prestige it had by the continued defeats of Olton and Floydada. Three weeks ago these two ball clubs were very highly regarded on the south plains, but now both seem to have fallen apart at the seams. The game in Floydada this week may show if either will be able to pull themselves together enough to title run.

Winner of district 2AA will be matched against winner of the Phillips district in the first round play-off games.

# Floydada Pump Company Forms A Corporation

One of the fastest growing new organizations in Floydada, the Floydada Pump Company, this week is announcing a change in name, an added member of the partnership and the forming of a corporation.

The new name is Texas Pump and Machine Corp., the new stockholder-partner is Randall King, and word that the application for a charter as a corporation is being processed by the state secretary was received last week-end.

The incorporators are Paul Garrison, Cal Skaggs and Randall King, with Garrison president, Skaggs secretary. Important to irrigation farmers and other power farm operators is the announcement that the firm will have a machine shop adequately equipped and manned to give good service to the people of the area. Equipment is due to be installed soon in a new building erected at 314 East California street. The company has moved to this location

from 125 South Wall street and is occupying a newly-constructed iron clad building.

Garrison and Skaggs began operating as Floydada Pump Company 18 months ago. Garrison comes to Floydada from Rails where he conducted a similar business. Skaggs was formerly in the sales business here, resigning a district sales connection to work with Foote Butane from Pampa. King is extensively interested in farming operations in the county. This is his first venture in any business other than farming. He is the son of the late R. P. King

New FORD THUNDERBIRD

A personal car of distinction ...with Trigger-Torque performance

Something totally fresh is here - a bewitching new all-steel beauty that sets the styling keynote for other Ford cars to come.

But, styling gives the merest hint of what the Thunderbird has to offer. In traffic and on the open road the Thunderbird's Trigger-Torque performance is literally a revelation. Here is hair-trigger response... fleet, liquid agility... backed by a reserve of swift, sure power to meet safety's every demand. Trigger-Torque performance stems from Ford's new Thunderbird Special V-8 - a high-torque engine with 4-barrel carburetor, dual exhausts, wide-opening valves and Ford's famous low-friction design. And you can have the Thunderbird with the transmission of your choice - Conventional, Overdrive, or new Speed-Trigger Fordomatic.

Ford's Ball-Joint Front Suspension not only velvet-cushions your ride, it also allows the Thunderbird to handle with utmost ease - to corner with greatest stability.

But, more important, the Thunderbird is the product of the same advanced engineering... the same manufacturing skills that have made Ford products so dependable, so value-full and so desirable to so many.
