The winning lads in showmanship were Donice Casey in the sheep division, George Scott in the sheep division and Eugene Beedy in the beef cattle division.

The plan, as originally advanced by Floydada city authorities, 18 months ago, was for the base station to be installed at the city hall in Floydada where a 24-hour man would be on duty to transmit calls between county units of Floydada and Lockney.

The council of the City of Floydada Monday night formally accepted the water and sewer main job started last summer from Sherman Machine & Iron Works, retaining, however, a bond in the sum of \$14,300 to cover any flaws in workmanship or material which may develop in more than eight miles of mains and equipment within a year.

The revenue bond issue voted by citizens of the municipality was for \$300,000 early last year. Of this \$50,000 was used to retire outstanding bonds, leaving \$241,000 for the improvements contracted.

Detailed plans now are being worked out for the possible administration of polio vaccine to Floyd County children who will be eligible to receive it if it is licensed, Dr. G. V. Smith, county health officer declared today.

As was announced by state health officials, all first and second grade pupils in public, private, and parochial schools in the state and all children who were part of the test groups in the 1954 vaccine field trial but did not receive vaccine at that time, are included in the planned program, he explained.

But parents were warned by Dr. Smith not to jump to the conclusion that the current planning indicated the vaccine already had been proven effective.

Do Not Know Yet The vaccine which will be furnished by the National Foundation for Infantile Paralysis is the same vaccine that was given to 440,000 children last spring, he said.

Under the direction of the State Health Department, Dr. Smith has been conferring with school authorities and physicians who have pledged their full cooperation.

The National Foundation has financed the development and production of the Salk vaccine. Contracts were made with manufacturers for a supply of vaccine costing \$9,000,000 in March of Dimes funds.

BLAZE FLARES UP AT SITE OF CHURCH BUILDING

Little damage was done by fire on the grounds of the First Baptist church Tuesday noon. Fire which was believed to have started from a tossed cigarette caught a pile of empty cement sacks afire and with the wind whipping had a stack of used lumber and window frames ablaze in minutes.

Workmen at the church tried unsuccessfully to put the fire out but it had too good a start.

Floydada Fire Department was called and had the blaze under control in a few minutes.

Jeff Welborn returned home Sunday night from Temple where he had been most of the week with Mrs. Welborn who is recovering from surgery. Mrs. Welborn is to remain in Scott and White hospital there for at least another two weeks for medical treatment. Her condition is believed to be some better, Mr. Welborn said.

Willson Re-Elected Colston President Of Baker Center

J. M. Willson, Floydada business man, was re-elected last week to head McMurry board of trustees at McMurry College in Abilene. S. M. Jay of Abilene was re-elected first vice-president.

The McMurry board of trustees met on the campus of the college during the period of the annual Willson Lectures. The group established a commission of development and expansion for McMurry college and ordered full steam ahead for the construction of a new \$325,000 academic building and a new \$460,000 girl's dormitory for the college.

J. B. Colston was elected president of the Baker Center Saturday night, March 5, at a meeting held at the community center.

Other officers elected were Curtis Williams, vice-president; Mrs. Olen Lyles, secretary; Mrs. Malvin Jarboe, reporter, and Malvin Jarboe, treasurer.

A nice group attended the meeting. Later games and refreshments were enjoyed.

The next meeting at the center will be on Friday night, March 18. All are urged to attend.

Mr. and Mrs. M. D. Shipley of near Rogers, Arkansas, visited last week with John R. Shipley and Mrs. D. D. Shipley. The Shipleys were enroute home after visiting in California.

I'm sure it will be a huge success. Burle Hubbard and his band will be here to play for the big event.

The school is still discussing plans for a recreational center. Isn't there some possible way to have a place where we can go to have some fun? We just want some place to play ping-pong and such games. There must be some way.

There was a dance last Friday night at the V.F.W. hall. Those seen were Billy Anne Goode and Kearney Edmiston, Gaye Rosson and Joe Smalley, Gayle Rosson and Kelly King, Snow Drop Dunn and Mike Badgett, Pat Helms and Bobby Carmack, Fontaine Fowler and George Chapman, Vanda Carter and Carroll Guthrie, Sonja Wilson and Jack Womack, Christine Brints and Jim Bell, Wanda Jones and Jackie Henry, Carolyn Collier and Elton Turner, Gerry Graves and Jackie Johnson, Roy Nell Hammonds and Melvis Lowrance. I think that about the final total of these guys and gals.

Other dates seen around the "drag" of Floydada have been Fontaine Fowler and Larry Glassmoyer, Ann Finley and Pee Wee Ferguson, D'lene Witkowski and Waldo Baxter, Sherre Darden and Dickie Smith, Sonja Wilson and Don Barber.

Ge, just about all the teens of F.H.S. were seen in Lubbock last Friday. All the girls got formals it seems.

Johnny, what happened to your car? Nita, what did you have to do with it?

The Methodist youth gave last Sunday night services. The youth are having morning services at 8:00 a. m. each Thursday morning. You're invited, won't you join us?

Beware, for I'll be listening for news. You just don't think I'll publish it, do you? Sandy

ODD FELLOWS REBEKAHS MEET IN CORPUS CHRISTI

His First Try. Hal Dean Howe was a first-time exhibitor at the junior live stock show last week. He was a delighted young fellow when his light dry lot calf topped the Herefords in the show and was placed first in the line. He is the son of Mr. and Mrs. Howe Hines of Dougherty. —Rees Photo.

We saw a small boy sitting in the sun last week, gazing intently into the dried grass at his feet. What did he see there? Tiny green shoots pushing through the thick carpet of dead blades, maybe. Or an ant working its way over the Bermuda underbrush with a burden of food.

Whatever it was that attracted this little fellow, the thing he was seeing was not what you and I could have seen. It was magnified by his lively imagination to story-book size.

A first-grader, dawdling on his way to school at noon the next day was so absorbed in the piece of broken mirror in his hand that he lost all count of time. Skinting it this way and that, he caught the sun's rays and refracted them to the ground. Although he couldn't have explained it, he was learning something that would make college physics easier to understand in a few more years.

Only small boys, research scientists and retired millionaires, apparently, have time any more to lose themselves in such intense observation of the wonders of nature. Most of us, hurrying along from one self-imposed "have-to" to another, hardly notice the world around us at all. If we do, it is to wish we might "find the time" to enjoy it.

A pool of silence now and then, away from personalities and from too much awareness of our own duties and problems, would make life richer and deeper for any of us. We are like actors, reluctant to leave the stage for fear of what we may find in the wings.

Dougherty News

(By Mrs. Bill Smith)

DOUGHERTY, March 14—Officials of the junior live stock show called it one of the biggest and best with a capacity crowd. We feel that Dougherty had a part in making it that way. Some of the boys who placed in the show were Wayland Richardson who took third place in the light weight hamshire swine division, Hal Dean Hines who was first in the light-weight dry lot calf division, Billie Don Colston who took third on his baby calf and George Scott third on his lamb. Other boys who entered were Lawrence Lewis, V. V. Scott and possibly others. Perhaps next year there can be more entries. Congratulations to these boys. Keep up the good work and may you have continued success.

Some of the people who attended the farewell tea given in honor of Miss Lela Petty Saturday in Fellowship hall of the First Christian church were Mmes. Ned Bradley, Jack Ross, G. W. Smith and Freida, Ruth Daniel, Johnny Cates, Jan, Carolyn, Bill Smith and Janice Howard, Drysdale, Sam Lide and C. A. Caffee.

Arctic Air Chills Area On Tuesday

The spring like weather the county had been enjoying came to an abrupt end Monday night when old man winter threw some arctic air this way. Although the temperature only dropped to a low of 40 during the night, it was much colder than the 60 degree reading on previous nights. The high Monday was a spring time reading of 82.

Tuesdays high was 73 with a drop Tuesday night to 40 and by 6 o'clock Wednesday morning the reading was a chilly 34 degrees.

With spring officially due Monday, March 21, weather predictions are that it will warm up by Friday and a pleasant week-end is in the making.

How we all enjoyed the club meeting Friday with Mrs. Willis in their beautiful and spacious new home! There were twelve members present and one visitor, Mrs. Orville Newberry.

Fairview News

(By Mrs. Clyde Bagwell)

FAIRVIEW, March 14—Mr. and Mrs. E. W. Walls have just completed the landscaping of their yard. They have been planning this since the building of their brick home some two and a half years ago. First thing Mr. and Mrs. Walls did toward their yard work was to dig a deep well and in-

stall a pressure pump and large pressure tank. Winding cement walks have been put in. The landscaping done by Mack Fuqua, a former neighbor of the Walls', consists of evergreens of different kinds, Arizona cypress, low dense, and junipers with Nandinas and Mahonias for color next to the house and flower boxes and a rose garden.

Mrs. Walls also will have numerous other seasonal flowering plants. The front and back lawns have been sodded with African Bermuda grass.

The students are back in school today after having a short vacation while the teachers were in teachers meeting at Lubbock.

Mrs. Clyde Bagwell left Monday for Santa Ana, California where she will visit with her mother, Mrs. C. L. Joiner and other relatives. Mrs. Bagwell will be gone from home two weeks.

IEWS AND COMMENT

Ahead Of Time? Has spring arrived a half month ahead of time or is this weather just a fooler that will let a freeze catch new growth unawares a bit later? Buds are swelling, tender shoots emerging from the ground. In years of another era one would have said for sure a late freeze is right around the corner. However, the "cycle" we have been in recently does not conform for the old timers, and none, it seems, dast predict even a cold snap. The weather man has things in a pretty mess.

A few Oldtimers who like to "see" the signs, watch the sky and speak of what the weather has in store, say there are indications that the long dry is in for a good wetting. But our prairie dog hasn't so much as cheeped in that tone as yet. When hurricane winds whip up the waters on the Yucatan peninsula in January, when a March blow hits in Ohio and Pennsylvania instead of Louisiana and Mississippi, and when the dust bowl moves north to Kansas and Nebraska, we fear the rain may not have us in his plans at all.

Cow Pasture Cities. Big cities in Texas, with "home rule" have greedily reached out on all sides of them to take in adjacent farms, cow pastures and possum-inhabited creek bottoms to incorporate them into "city limits." At Houston and Dallas, Fort Worth, and probably others, you see "city limits" so far away from the main part of town that you can't even see the sky line of 20-story buildings. Smaller cities of the state have done the same, in lesser degree, without regard to the possible value they can be to the sparse population that may inhabit these rural areas. The state legislature may do something about it this year. The imposition has been carried on so ruthlessly that there is a hue and cry for it to be stopped. On the other hand are so many pressing demands on a legislature that has spun its wheels for two-thirds of a session long, this and many other matters may go into the limbo of things that might have been.

If you like pretty homes and gardens — even homes and gardens the like of which you cannot afford — then you'll be wondering how you can arrange to be in Dallas this weekend or next. It is the time for the annual Dallas garden show-off. They call it the Dallas Garden Center pilgrimage. State Fair of Texas is sponsoring the event, which means that it will have some aspects of lavishness and will not lack the spectacular. A big flower show is being carried along with the "pilgrimage" out at the fair grounds.

The laying flock will stay on the job during the winter if ventilation, lighting, litter and water and feeding facilities are handled properly.

Freedom of Information. The Hesperian has not found it difficult to get access to public information of the affairs of county, school districts and municipalities of Floyd county. We have run into diffidence and lack of understanding of what might constitute news, but that would be the news reporter's fault in not cultivating the sources of news more diligently. But nationally Sigma Delta Chi, journalism's most zealous fraternity, had a committee report at its recent 45th annual session which declared that there has been continued growth of the philosophy of the public official that the people's business is his private domain. Further that 44 per cent of congressional committee hearings and meetings in 1954 were in secret sessions barred to the public and press. And, of course, the continued blackout on newscameras in court rooms under a rule set up by the American Bar Association. A growing move is noted on the part of the bar for revision of a rule to impose further limitations on the press in reporting criminal trials. These rules do not at present touch on the lives of the people or activities of the newspaper locally.

The Alsups, father and son, reporting in the Saturday Evening Post, recently painted a picture that will be distressing to people who live out where we think America is, referred to in the metropolitan press as the hinterland. From this report it seems evident that cloak and dagger business is now common in the national capital. Executives fear to talk freely in their own offices, where "bugs" may have been planted, and things of that kind. Grown too large our executive department needs a good trimming, is one of the principal thoughts we get from their report. We have a bureaucracy housed in a chambered nautilus, where men vested with power hide from each other and from the people the things the people are entitled to know in a merry-go-round of greed, envy, and avarice. The web is wound so strong that many good men who go into government service find themselves helpless against it.

External and internal parasites claim one farm animal out of each 20 and cost livestock producers about one billion dollars annually. Much of this loss could be stopped if producers would follow recommended parasite control practices.

Farm and home accidents happen every day. The hazards are increased by winter conditions. Don't take chances, cautions the Texas Farm and Ranch Safety Committee, for '55 is still young and who, they ask, wants to leave early?

The true use of speech is not so much to express our wants as to conceal them. —Goldsmith

Livestock Pointers to Increase Profits

The saying goes, "Nature takes care of its own" — in the animal kingdom and otherwise. But in these days of small profit margin on farm livestock, a little assistance from man is necessary.

With the spring crop of animals coming on, the difference between profit and loss may be only one or two pigs, calves or lambs for the average farmer in certain sections of Texas. Some pointers offered by the American Foundation for Animal Health might be helpful in holding down the death loss.

"Be sure that mother animals get top notch rations," the foundation suggests. "They should get plenty of suitable proteins, vitamins, minerals and good legume hay."

"Keep brood animals comfortable and clean in properly-ventilated quarters."

"Be sure the young are born on clean pasture, or in clean, dry well-bedded quarters, away from drafts if possible."

"Near the end of the gestation period, be on hand so that if assistance is needed in delivery, a veterinarian can be called to disinfect

the navels of the young.

"Check up to see that the newborn nurse properly. Calves should get the cow's milk first. Baby pigs should have access to clean sod or an iron preparation which will prevent anemia."

"Be alert for signs of scouring. It may indicate over-feeding, improper feeding or disease."

"Have pigs vaccinated against cholera around weaning time. Also, check with your veterinarian as to whether other stock may require vaccination."

"If any unexpected sickness should appear, get an expert diagnosis without delay. Prompt action may mean the saving of many valuable animals — and make for that vital difference between a gain or loss in stock raising."

HOTTEST BUICK IN HISTORY
No wonder you see so many 1955 Buicks on the highways — they're rolling up bigger sales than ever before in history — topping the popularity that has already made Buick one of the "Big Three" in total national sales.

A "Small Car" price makes it yours

—delivered and ready to roll

WE keep coming across a good many people who still are surprised when they see the low delivered price of the Buick shown here.

They're surprised because they know that this price is just about what a lot of the smaller cars are asking — if not more.

But that's just the point.

What's making the 1955 Buick the hottest one in all Buick sales history is the simple fact that its low delivered price buys so much more automobile.

Much more automobile when it comes to the lift and life of great V8 power — Buick power in record might.

Much more automobile when it comes to style and size and room and ride steadiness — and the integrity of construction that comes of Buick building.

Much more, too, when it comes to matching your motoring needs to the simple practicality of your budget — because Buick offers you

DID YOU KNOW —

- that the Buick SPECIAL is priced below any other car of 188 horsepower and 122-inch wheelbase?
- that the Buick SPECIAL is priced below some models of the three best-known smaller cars?
- that the Buick SPECIAL gives you more pounds of automobile than any other car at its low price?

a stunning choice in just about every price class...

Like the rock-bottom-priced SPECIAL — the high-powered CENTURY — the extra-spacious SUPER — the magnificent and custom-built ROADMASTER. Each is a Buick through and through — and each is a big reason why Buick sales are soaring as never before.

Why not drop in on us this week and see how much your new-car dollars can really buy — in thrills and fun and comfort and deep satisfaction — when you buy Buick.

Frank Ray Pettit, Former Hesperian Publisher Passes

Frank Ray Pettit, who was co-publisher of the Hesperian for about two years in 1909-10, and later spent nearly 40 years as a Linotype operator on the Fort Worth Star-Telegram, passed Friday morning at his home, 1908 Texas boulevard in that city.

He had been ill with cancer for about three years.

Besides his two years in Floydada, Pettit also established and operated a newspaper at Lazare for a short time and later lived briefly in Plainview. He moved to Fort Worth in 1912, and began work on the newspaper there. He retired in 1950.

Of Pettit, the burial plans and survivors the Star-Telegram Sunday reported:

Pettit, a native of Killeen, was a member of Typographical Union 198, Julian Field Masonic Lodge, the Shrine and the Ridgela Presbyterian church.

MIGRAINE

Migraine, better known as sick headache. In simple migraine, with no complications, the sufferer may be perfectly well between attacks. Very often, the day before the attack the patient notices certain discomforts which for him are, in a sense, a warning.

There are three principal symptoms — headache, digestive troubles and disturbances of circulation. The pain usually settles in one side of the head. The most intense pain is around the eyes, and is sometimes made worse by light, noise or movement. Vomiting is common. The circulatory troubles usually consist of dilation of the blood vessels of the face on the side of pain.

Results have proved that chiropractic is almost a specific for migraine headaches. You don't know what you're missing if you haven't tried chiropractic.

(Reprint of a Statement issued by the Commissioners Court of Floyd County March 3, 1955)

TO THE CITIZENS OF FLOYD COUNTY

On February 14 your commissioners court was presented a petition to call a road bond election in the sum of \$300,000 for the purchase of right-of-way for the widening of Highway 70 from the Motley county line to the Hale county line and for widening Highway 207 from Floydada to the Crosby county line.

This petition bore the signatures of 133 citizens of the county.

After checking the tax rolls and considering the matter the court on February 17 voted unanimously to call the election and set the date for Saturday, March 26, 1955.

For your information, in considering the matter we give the following data:

The taxable valuations of Floyd county for 1954 were \$14,811,200.

The tax rate for 1954 was \$1.28 per \$100 valuation.

To finance a bond issue of \$300,000 to be paid out in 15 years an increase of 19 cents in the tax rate would be necessary. This would increase the tax rate from \$1.28 to \$1.47 per \$100 valuation.

On this basis the increased tax on a quarter section of land would be \$3.65 per year to pay off the bond issue in 15 years. The increase on a Ford or Chevrolet, 1954 model, would be 86 cents per year.

We, the members of the Commissioners Court, are in favor of this bond issue. The county has a favorable record for ability to pay. We hope this information will be valuable to the voters in making up their minds.

Respectfully Presented,

W. E. GRIMES, County Judge

As A Farm Woman Thinks

(Nellie Witt Spikes)

We go this way once, O heart of mine, So why not make the journey well worth while, Giving to those who travel on with us A helping hand, a word of cheer, a smile?

We go this way but once, never more Can we go back along the self-same way,

To get more out of life, undo the wrongs, Or speak love's words we knew but did not say.

We go this way but once. Then let us make The road we travel blossomy and sweet

With helpful, kindly deeds and tender words, Smoothing the path of bruises and stumbling feet.

—Author Unknown.

I think if you would read and re-read these lines from the poet it will help you as it has me, to be more careful and to get and give more joy out of living.

Yesterday I put away my quilt piecing for the summer. It has been quite a task but one I have enjoyed to make some beautiful quilts for my grandchildren. No they are not quilted but will be some day as they get ready for them.

The yard and garden calls me and I gladly respond. I forget my arthritis and the pain of getting up. The onions are set out, the lettuce and greens planted. Everywhere I look there is something to be done and if the wind did not stop me now and then, I would probably work too hard.

Last Sunday when we got home from church I hurried off my things to get dinner on the table, leaving my ear-rings in the living room. The next morning I noticed them and picked them up to put them away. To my surprise and embarrassment I saw they were of two colors, one white, the other yellow. Well, anyway I knew I had worn

them to church and Billy said he noticed them. New style. . . .

Every morning when we go for the mail, we drive around and see the progress on the new houses in Ralls. All over the city we see them under different stages of construction. Looks good.

We enjoyed all the programs of the School Week. The television, the radio and the school visiting.

To end the week of seeing how our young people are doing we went to Miss Ruth Bartley's music recital. The girls were as sweet and pretty as spring tulips in their many colored dresses, the boys sat quietly with a dignity of an older person. Each rose and went to the piano and did his or her part. Waltzes, sacred songs, marches, and captivating tunes of all kinds thrilled us. Songs and violin music were also on the program.

Right here and now I want to pin an orchid on Miss Ruth for the fine work she has done in her community, reaching out, even, to other communities to teach the art she knows so well. The children of the neighborhood have had the privilege of the best music teachers available tho they do not live in a big city. They have learned to play and to better appreciate the music of all times. Not alone has Miss Bartley's ability been confined to her teaching. She has played at the church, for weddings and funerals. No one can estimate the value of this to a community. Quietly she has gone about all this, not for praise but for the service she could do for others. I am sure if you had

The Floyd County Hesperian, Floydada, Texas, Thursday, March 17, 1955

an orchid to pin on some one this day, you could not forget Miss Ruth. . . .

Paul Davis tells the story of when he first came out here he was fixing a fence with another fellow. The

south wind was blowing hard after the day's before blow from the north. "The south never did take anything off the north, so she is sending the cold wind back to her," the other fellow dryly remarked.

LIBRARY NEWS

(By Mrs. Lee C. Goughly)

"How to live 365 days a Year" by Dr. John A. Schindler is a new book now in circulation. Several have reported it to be a good book. It's checked out now but we would be glad to put your name on the waiting list. There is one copy at Floydada and one at Lockney.

Quite a number of gift books have been brought into the library in the last few days. Those giving books are C. J. Barnard, Wichita Falls, Texas; Mrs. Hartman; R. E. Fry and daughters; Miss Lelia Petty and Mrs. J. H. Barnard.

We also appreciate a complete file of 1922 Study club year books dating from 1926 to 1954. The year books belonged to the late Mrs. W. I. Cannaday, and were presented to the library by her daughter, Mrs. L. J. Welborn. They will be kept in the library for reference.

A report to the Library Board March 10 gives an idea how much the library is being used, with a total of 1725 book circulation for the month of February.

Mrs. E. L. Norman, in charge of the story hour-Saturday morning reports 21 children present, with Mrs. Billy Brown, the much-loved story teller, as entertainer for the morning. The story hour certainly peeps up book circulation on Saturdays.

H. H. Mills from the Lockney branch library was in last Wednesday.

day. She selected a number of books to carry back to Lockney. Mrs. Mills is doing excellent work in the Lockney library.

feel that the Library benefited by the work and the instruction of the employees of the library will continue to render the Library in the future a more responsive or tripe to Library.

Are you a "Do-It-Yourself" Driver?
Or would you rather be waited on hand and foot?

Rather shift for yourself... or let Powerglide do it?

Shifting's smooth and easy with Chevrolet's new and finer Synchro-Mesh transmission. A flick of your wrist is all it takes to shift gears.

Powerglide, too, is better than ever this year. Even smoother and sturdier. It's the most popular automatic transmission* in Chevrolet's field!

Rather roll your own... or just push a button?

Chevrolet gives you separate crank controls both for windows and ventpanes. It's one of many extra conveniences in Chevrolet's Body by Fisher.

Your fingertip adjusts all four windows with automatic window and seat controls.* Are available on all Bel Air and "Two-Ten" models.

Position the seat yourself... or let electricity do it?

Chevrolet's big, beautifully upholstered front seat moves up and forward or down and back into your most comfortable driving position.

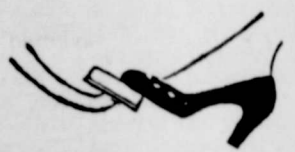

No worry about your battery, in a new Chevrolet. It's the only car in its field with the reserve power of a 12-volt electrical system!

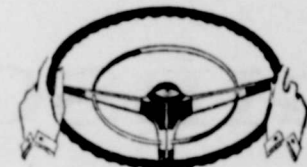

Apply the brakes like this... or have power make it easier?

Improved brakes and new swing-type pedals make stopping a cinch. And Chevrolet's exclusive Anti-Dive control gives you "heads up" stops!

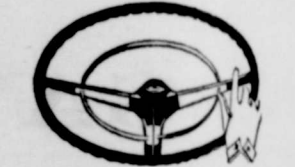

Chevrolet Power Brakes* are better than ever this year—let your stop by a simple pivot of your foot from accelerator to swing type brake pedal.

Want standard steering... or extra-easy Power Steering?

Try this easy new Chevrolet steering. Only Chevrolet and some higher-priced cars use a ball bearing system to cut friction to a minimum.

There's nothing quite so easy as Power Steering, of course. Good news: Chevrolet's new linkage-type Power Steering* carries a reduced price!

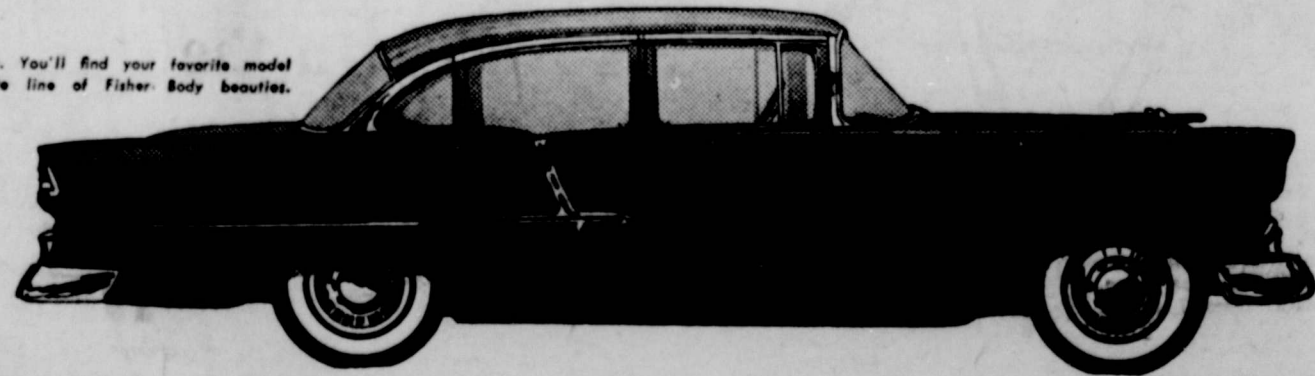

Automatically—

Chevrolet's stealing the thunder from the high-priced cars!

What's a high-priced car got that Chevrolet hasn't? Not automatic power features. Not style—just look below. Not performance—just try out Chevrolet's new V8 or one of the new 6's. Not ride

—perhaps the thing that will surprise you most is Chevrolet's fine, solid feel on the road. Come put it to the test. See how Chevrolet's stealing the thunder from the high-priced cars in every way!

Deadline for introduction of new bills in the Legislature arrived at midnight Friday. It found a wide variety of "big" tax bills out of which the House may choose its selection of \$35 million in new money for general purposes—and a possible \$45 million for highways.

Administration-sponsored were the Murphy two-cent gasoline tax increase and the Kirklind one-cent cigarette tax increase. Neither has been set for committee hearing.
Hearings by committee and sent to sub-committee was Rep. Jerry Sadler's \$3.30 per barrel beer tax.
Other top tax bills included:
1. A bill by Rep. Curtis Ford to apply the chain store tax to filling stations.
2. Rep. Jerry Sadler's \$160 million-a-year one-cent processing tax on gasoline and condensates.
3. A constitutional amendment by Rep. Robert Patten, to raise a billion dollar permanent school fund surplus by added taxes, one-fourth to one-cent on gas one to five cents on oil, and increases on other natural resources.
4. A constitutional amendment by Rep. Jerry Sadler and Rep. M. O. Bell to require statewide voter approval of any new tax before it becomes effective.
5. Rep. C. D. Kirkham's proposal for a "road use" tax on trucks.
6. Revenue Chairman Stanton Stone's omnibus revision of the tax code, with the gasoline and cigarette increases included.
7. Rep. Robert Patten's "added value" bill on manufactured goods, estimated to produce \$20 million a year.
8. Rep. Charles Sandahl's bill for a three-per-cent levy on radio and TV sets.
9. An indirect revenue-producer, Rep. J. B. Walling's "anti-waste" minimum price bill for natural gas, estimated to add \$20 million a year to income from the present tax.

News of Harmony

(By Mrs. Mather Carr)
HARMONY, March 14—Mr. and Mrs. R. B. Gary spent several days in Wellington last week.

Mr. and Mrs. Wes Carpenter had friends for dinner Sunday of last week from Plainview and New Jersey. Among them were two Nazarine ministers and their choir directors for their meeting.

The W.S.C.S. met Tuesday at the church for their first lesson in their study. There were five members present.

Mrs. Bill Edwards spent Wednesday and Thursday in Odessa visiting friends. She accompanied the Wesley Cobbs of Petersburg.

Mr. and Mrs. Wesley Carr and sons made a business trip to Lubbock Wednesday evening.

Non-club members of the community were guests when the Harmony Home Demonstration club entertained with a luncheon at the club room Thursday, March 10, at 1 o'clock p. m. There were 17 members, four children and six guests present.

Hostesses for the occasion were the recreation committee of the club, Mrs. Loyce Turner, Mrs. W. S. Hanna and Mrs. Marion Tucker.

The St. Patrick motif was carried out in the table decoration.

Each club member brought a covered dish, using a new recipe her family had enjoyed. One dish that made a special hit was a bean meat-kid recipe, using three different kinds of beans, with seasonings and meat balls, brought by Mrs. Glenn Poole, and another was yun-yun potatoes brought by Mrs. Chas. B. Smith.

At 2 o'clock the ladies adjourned to the auditorium where the regular club meeting was held.

Mrs. E. A. Williams, chairman of a fund-raising committee reported the club would hold two bake-sales, Saturday, March 19, and Saturday, April 8, at Bishop Motor Company and at Arwine Drug. Each member is to furnish one cake and one pie, or two cakes each Saturday.

Miss Lelia Petty, the demonstration agent, talked on keeping records. She pointed out that it was important to keep records of deeds, bonds, wills, valuable jewelry, etc., in a safety deposit box or a fire-proof lock box. Also records should be kept of births, deaths, marriages, divorces, etc., and records of income tax returns should be kept at least 3 years.

Miss Petty held the lucky number and received the attendance prize.

Mrs. W. S. Hanna directed recreation. A St. Patrick Day game was used and a clever original game in which every member's name was used in the answer.

Mrs. Forrest Gound and Mrs. Truman Dunavon joined the club. Others present besides Mmes. Gound and Dunavon were Mrs. David Battey, Jr., and son David III, and daughter Ann, Mrs. Milton Evans and son Darrel, Mrs. Elmore Payne and Miss Petty. Members present were Mmes. D. J. Parkey, D. S.
