Judge Brummett's talk featured the trials and tribulations of the people of the area, from the days when Indians were a problem to the days when cotton was first introduced as a farm crop for West Texas. The parade got underway at 1:30 p. m., with one of the largest and most colorful parades the town has ever had. In memorial services at 2:30 p. m., tribute was paid to 78 pioneers who died last year. Church Service Under One Roof Baptist Event

Biggest attendance at Sunday school in the history of the church, and the renewing of old friendships in the church fellowship with former pastors were two of the outstanding features of last week-end and Sunday at the First Baptist church. Equally as important in the beginning of the pastors sixth year of ministry to the congregation and the use of the new building with all the congregation under one roof once more. Attendance at the church-service Sunday morning taxed the capacity of the main auditorium to hear Dr. Allen. The former pastors of the church, who preached one each night Wednesday through Saturday were pressed into fellowship meetings with old friends at the supper table each evening preceding their sermons. Their congregations were assembled in the new chapel. Dr. Vernon Shaw, Rev. L. A. Doyle, Dr. P. D. O'Brien and Rev. S. R. McClung were the visiting former pastors who accepted invitations for the week-end. Meanwhile this week work was being carried on to fully coordinate the new and the old educational units. Dr. Allen, pastor of the church, indicated the possibility of an open house for all friends of the church to inspect the plant sometime soon, probably before June 15, at a date to be announced.

Compressor Blows Up; Wrecks House

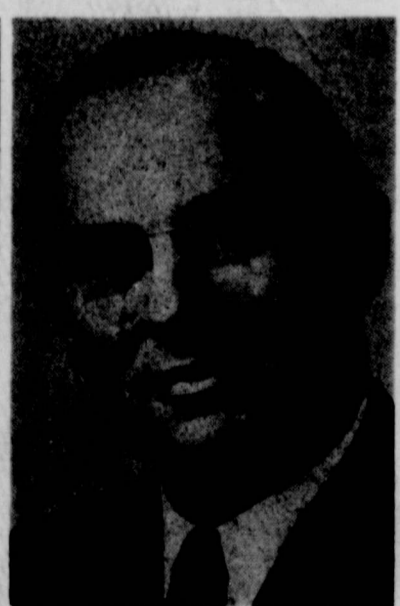

A switch that froze kept an air compressor going in a block house used by R. C. Bullock as a shop, and put so much air into the compressor Monday night of last week that it made a real explosion, when the compressor finally went out through the wall and practically tore the building apart. The compressor landed 88 good steps away from the place it was anchored in the shop. The place is six miles southwest on the Blanco farm to market road. Bullock had no idea how high the pressure got before the explosion took place. He had operated it at a pressure of 350 pounds. His Fifth Year ... in the pastorate or the First Methodist church of Floydada began for Rev. Tilden B. Armstrong this week.

The Little League ball is rolling this week. Youngsters of the community responded in considerable numbers last Friday evening when they met the grown-ups at the rodeo association grounds to organize. Shown above from the group are left Welton B. Winn, named little league commissioner, Russell King, group organizer from the Chamber of Commerce recreation committee and four of the prospective little leaguers. The boys are (kneeling) Darrell Lindsey, 10, Jimmy Oden, 9; David Hull (standing with mitt), 12, and Joe Alvarez, 11. Play in the little league is due to get under way next week. (Photo by Skaggs)

LITTLE LEAGUE ORGANIZED; ANNOUNCE SCHEDULE OF GAMES

Leaders in the move to bring little league baseball to Floydada found interest soaring last Friday evening. The group met at the rodeo grounds and had about 75 boys on hand ready to be organized and get practice underway. W. B. Winn was named commissioner of the league and will be in charge this season. Six teams are the prospect and a regular schedule of games will get under way next week. Big item of business for the meeting was that of uniforms for the team members. Winn told those present that the question of suiting out the teams and furnishing good equipment would be the deciding factor in whether or not the program was a big success or just another half-hearted effort.

Other points brought out were the importance of good umpires, calling the games on time, each team member getting to see action in each game, and the support of the public in the venture. Parents, managers, coaches, and other interested fans who were present at the meeting fell in behind the leadership of Winn and started a money raising project to put the league up in shape. By Wednesday morning the pot had grown to \$480 plus some valuable catching equipment which was made available to each team of the league. Estimated cost of suiting out the little league boys is set at \$1200. This leaves half that amount to go from the present on hand cash. League officials plan to canvas parents of all boys who plan to play and call on business men and the general public for the balance. League officials pointed out they wanted all boys to have suits and donations should be made to the league. The suits will be property of the league and no boy is to have his own suit, but should furnish a glove. Donations can be made to Winn or to any of the managers and coaches listed below. Names of teams made up Friday along with their rosters are as follows: TEAM ROSTERS Giants — Managers and coaches, Jack Kassahn, Ralph Rucker, Clint Keys, Aldine Williams; Members: Randy Hollums, Bobby Fuston, Jim-

The Little League ball is rolling this week. Shown above from the group are left Welton B. Winn, named little league commissioner, Russell King, group organizer from the Chamber of Commerce recreation committee and four of the prospective little leaguers. The boys are (kneeling) Darrell Lindsey, 10, Jimmy Oden, 9; David Hull (standing with mitt), 12, and Joe Alvarez, 11. Play in the little league is due to get under way next week. (Photo by Skaggs)

LITTLE LEAGUE ORGANIZED; ANNOUNCE SCHEDULE OF GAMES

Leaders in the move to bring little league baseball to Floydada found interest soaring last Friday evening. The group met at the rodeo grounds and had about 75 boys on hand ready to be organized and get practice underway. W. B. Winn was named commissioner of the league and will be in charge this season. Six teams are the prospect and a regular schedule of games will get under way next week. Big item of business for the meeting was that of uniforms for the team members. Winn told those present that the question of suiting out the teams and furnishing good equipment would be the deciding factor in whether or not the program was a big success or just another half-hearted effort.

Other points brought out were the importance of good umpires, calling the games on time, each team member getting to see action in each game, and the support of the public in the venture. Parents, managers, coaches, and other interested fans who were present at the meeting fell in behind the leadership of Winn and started a money raising project to put the league up in shape. By Wednesday morning the pot had grown to \$480 plus some valuable catching equipment which was made available to each team of the league. Estimated cost of suiting out the little league boys is set at \$1200. This leaves half that amount to go from the present on hand cash. League officials plan to canvas parents of all boys who plan to play and call on business men and the general public for the balance. League officials pointed out they wanted all boys to have suits and donations should be made to the league. The suits will be property of the league and no boy is to have his own suit, but should furnish a glove. Donations can be made to Winn or to any of the managers and coaches listed below. Names of teams made up Friday along with their rosters are as follows:

my Oden, Kenneth O'Neal, Van Stovall, Eric Christensen, Joe Lyles, Denny King, Glen Dorrel, Billy Joe Morren, Gary Ray Thompson, Don Switzer, Rodney Teague, James Elza, Fred Thayer; Indians - Managers and coaches, Russel King, Harold Christensen, Elton Goen; Members: Pat Ginn, Jerry Battey, David Hull, Larry Mayo, Geo. Compressor Blows Up; Wrecks House

A switch that froze kept an air compressor going in a block house used by R. C. Bullock as a shop, and put so much air into the compressor Monday night of last week that it made a real explosion, when the compressor finally went out through the wall and practically tore the building apart. The compressor landed 88 good steps away from the place it was anchored in the shop. The place is six miles southwest on the Blanton farm to market road. Bullock had no idea how high the pressure got before the explosion took place. He had operated it at a pressure of 350 pounds. Around Town On Old Settlers Day

(By Jennie Henry)

The "Old Timers", the folks who pioneered in Floyd County, their sons and daughters and even grandchildren celebrated in high fashion here Saturday.

Speaking of fashion, Mrs. Jeffie Boone Smith and Mrs. Beulah Lewis Swepton were quite in style in their pioneer dresses.

N. A. Armstrong enjoying renewing old acquaintances. His granddaughter, Mrs. Bill Van Natter of Lubbock, treated him to a holiday from Abel's Clinic, where he now resides. Mrs. Van Natter's father, Glenn Banker of Kansas, was with them, also.

ded a business meeting last Thursday at Lubbock.

Ladies of the Home Demonstration club entered a float in the parade at the Old Settlers reunion at Floydada Saturday. It was very attractive and I'm sure required lots of tedious work. Those riding in the parade were Mrs. Lewis Pyle and children, Mrs. Weldon Hammonds and children, Mrs. Harold Bertrand and daughter, Mrs. William Bertrand, Lewis Pyle drove the truck.

KID'S KORNER

Mrs. Fred Brown was being her charming self.

LIVES AT CHILDRESS

The yard at the Horace T. Owens home in Childress must really be something to see. It was a pleasure to hear about it from Mr. Owens. He and his brother, C. H. and wife of Paris, Texas, were visiting with their sister, Mrs. S. E. Thurman.

Mrs. Nellie Witt Spikes of Ralls says when she comes to Floydada she feels like she just comes home.

Quite an interesting person — J. J. Cooper of Matador. He's blind but you would never guess it by talking to him. He owns ranch property 29 miles northeast of Matador that was homesteaded by his parents in 1879. His brother and sister were the first white children born in Motley County.

Mrs. Mather Carr dressed typically pioneer.

WINNIE ANGUS

Guess Floydada will always seem like home to Winnie Angus.

C. W. Boothe of Dimmitt, one time grain dealer here, expressing his appreciation to the people of Floyd County for making this reunion an annual affair.

Mrs. J. H. Buchanan, enjoying a spot of tea with her sister-in-law, Mrs. J. W. Buchanan of Los Angeles, California, and the latter's sister, Mrs. J. E. Ash of Surrey, England. Charming people.

It was a pleasant surprise to see Mrs. Kenneth Robertson and daughter, Delores of Petersburg, Mrs. Robertson is the daughter of Mr. and Mrs. Sam Hale.

Mrs. E. C. Henry was in town doing a bit of visiting. She will be 89 her next birthday. Mrs. Henry should write a book on how to grow old gracefully.

Dr. Vernon Shaw, Ceremony Sunday Mrs. Virgie Price Unites Dora Jane Thomas Take Vows Day; Donald Evans

Wedding vows were exchanged Sunday morning between Mrs. Virgie Price Thomas, daughter of Mr. and Mrs. F. M. Price, and Dr. Vernon Shaw, vice-president of Decatur Baptist College.

The ceremony was read in the chapel of the First Baptist Church with the pastor Dr. R. Earl Allen and Rev. Aaron Shaw of Lone Star, brother of Dr. Shaw, officiating.

The matron of honor was Mrs. Kenneth Shaw of San Angelo, daughter-in-law of Dr. Shaw, and the best man was R. O. Carter of San Angelo, father of Mrs. Kenneth Shaw.

The wedding music was furnished by Mrs. Jack Henderson of Roswell, New Mexico.

Molli French Is Wayland Graduate

Plainview, Texas. — Miss Molli French, Floydada, was one of the 67 graduates at Wayland College who took part in the formal exercises at the college on May 29 and 30.

Miss French, who is the daughter of Mrs. Ethel French, Floydada, was graduated from Floydada high school in 1950. She has distinguished herself in many phases of student life and was a member of the Wayland International A Cappella Choir for three years. During this school session Miss French served as vice-president of the Baptist Student Union. She also holds membership in Thespian Club, Mission Band and Future Teachers of America. For two years Miss French was nominated for the beauty pageant and rated first runner-up in 1951.

An art major, Miss French plans to further her art education following graduation. Recently, Miss French, along with Ed Clark of Dallas, presented a voice recital at Wayland College auditorium. The recital was attended by Mrs. French, Mrs. Ona Mitchell and Miss Frances Mitchell of Floydada.

Set Wedding Date

SUNDOWN—Mr. and Mrs. Chester Gray, of Sundown, announce the engagement and approaching marriage of their daughter, Geraldine, to Joe Hopper, son of Mr. and Mrs. Tom Hopper of Floydada.

The wedding will take place June 15 in the home of the bride's parents in Sundown.

Mr. and Mrs. Johnny Carr of Lubbock were here for the week-end holidays. They are leaving Lubbock shortly to make their home in Hamlin.

In a double ring ceremony read at 3 o'clock Sunday afternoon in the chapel of the First Baptist church, Miss Dora Jane Day became the bride of Pfc. Donald Evans.

The bride is the daughter of Mr. and Mrs. R. C. Day, of the McCoy community and the bridegroom is the son of Mr. and Mrs. Raymond Evans, on Ralls highway.

Dr. R. Earl Allen performed the ceremony before an arch entwined with fern and white daisies. The arch was backed with greenery and baskets of white gladioli, flanked with candelabra.

Mrs. Bill Hardin played traditional wedding marches and accompanied Miss Wren Patterson who sang "At Dawning," "Tell Me Why," and "The Lord's Prayer."

Given in marriage by her father, the bride wore a ballerina length dress of Chantilly nylon lace over dacron. The bodice featured a low neck and three-quarter length sleeves, and was accented with rhinestones.

Her finger tip veil of nylon tulle was joined to a white cotton lace hat trimmed with rhinestones. She carried a cascade of red garnet roses.

The bride wore the traditional something old, new, borrowed and blue. For something old she wore a pair of pearl ear screws belonging to the groom's mother, Mrs. Raymond Evans. Something new was her wedding attire and she wore a blue garter, belonging to Jo Day, aunt of the bride. Something borrowed was a lace handkerchief belonging to the bride's grandmother, Mrs. Robert F. Day. She wore a penny in her shoe for good luck.

Miss Mary Wilks attended the bride as maid-of-honor. She wore a waltz-length dress of pink crystal-ette. Her pink hat was horsehair braid and she carried a nosegay of pink baby rosebuds.

Mrs. W. H. Ford of Wichita, Kansas, and Miss Jo Day, sister and aunt of the bride, wore candle-lighters. They wore identical dresses of blue pima cotton with wristlets of yellow rosebuds.

Mack Hickerson served as best man. Ushers were Robert Day, brother of the bride and Charles Hartman.

A reception was given in honor of the couple in the home of the bride's grandparents, Mr. and Mrs. Robert F. Day.

The bridal table was decorated with a white lace cloth over blue and centered with a two-tiered wedding cake. Crystal appointments were used. Arrangement of mixed cut flowers and blue candles were used.

Presiding at the table were Miss Carolyn Collier and Miss Wanda Jones. Mrs. Ronnie Evans registered the guests in the brides book.

For a short wedding tour the bride chose a rosewood broadcloth two piece dress with a white trim. She wore white accessories and a corsage of white baby rosebuds.

The bride is a 1955 graduate of Floydada High school. The bridegroom also attended Floydada high school. He is now serving in the armed forces as an instructor in guided missiles. He is stationed at Fort Bliss, El Paso.

MRS. DONALD EVANS

Following the wedding trip, the bridegroom will return to his duties at Fort Bliss. The bride will remain in Floydada during the summer months before joining her husband.

Center News

(By Mrs. J. E. Green)

CENTER, May 31—We have been having such pleasant weather but we had a whiff of hot summer wind this afternoon. The wind is high and it looks like some neighboring communities are receiving showers.

Johnny Lynn Warren, Center's only high school graduate this year preached a good sermon for us Sunday morning. Sunday night services were not held due to the bacalaureate ceremonies and all were privileged to attend.

Mr. and Mrs. Leo Prizzell and Mrs. Jackson were dinner guests of Mr. and Mrs. Elmer Warren and Johnny Lynn Sunday.

Mr. and Mrs. Herbert Meredith of Dougherty were in our church Sunday morning. Afterwards they went to Lubbock to visit Curtis Meredith who received surgery last Wednesday. The latest from the Methodist hospital there says that he will soon be able to be moved home.

Mrs. W. B. Jordan visited Mrs. Green Sunday afternoon.

Mr. and Mrs. Jimmy Derryberry and children of Floydada and Mr. and Mrs. John Hinsley and daughter of South Plains visited Mr. and Mrs. Don Craig and son on Sunday, May 22.

Wasn't the weather perfect last Saturday for Old Settlers? The dinner was delicious and the program was very enjoyable. There was a good crowd but we didn't see too many of our neighbors there, especially men. Too busy planting I guess.

Mrs. Maude Sandefur of Austin came Saturday to visit for several days with her sister-in-law, Mrs. Walter Sims and Mr. Sims, also with other relatives.

Sunday dinner guests of the Sims besides Mrs. Sandefur were Mrs. P. T. Gentry of Slaton and Mrs. Ida Farrier of Lockney, both sisters of Mrs. Sims, also Mr. and Mrs. Charles Horton and boys, Mrs. Horton and boys, Mrs. Sandifur and Mrs. Sims went to Lubbock Tuesday.

Mr. and Mrs. H. B. Mankins and Mr. and Mrs. D. W. Burke went to Tucumcari Sunday where they attended the wedding of the Mankin's granddaughter, Shirley McAda to Don Scott. The wedding was at 2:30 p. m. at the First Baptist church. The groom also of Tucumcari, is now in the Navy. Shirley lived here at Center as a small girl. We all wish for the couple a happy life together.

Mrs. W. A. Huckabee is keeping two of the children belonging to her sister, Mrs. Lee Burton. She is ill in Peoples hospital.

Mr. and Mrs. J. W. Norton of Oklahoma City visited the T. R. Nolands and other local relatives over May 22 week-end. They are Mr. Nolands aunt and uncle.

Come to church next Sunday. We regret the passing of Sidney Johnston, such a busy, forceful, personality to have to lay down so soon. May his good work follow him. His family has our deepest sympathy.

Mr. and Mrs. Billy Grundy and Mrs. W. H. Hilton left last night for Silsbee and Waco where they will visit with relatives. Mr. and Mrs. Grundy will visit with his sister and family in Silsbee and Mrs. Hilton will visit her sister, Mrs. J. C. Goss and Miss Nell Scooby.

R. L. Mooney of Bowie, Miss Jo Beth Mooney of Lubbock, Buster Mooney, recently discharged from camp Rucker and Miss Nancy Walker of Lubbock, were week-end visitors in the home of Mr. and Mrs. O. R. Mooney.

Women shoppers, some folks think, are all alike.

Actually, any resemblance they bear to each other is purely coincidental. Some shop by telephone, never go near a store unless they have to. Some insist on buying from the same merchant, even if they have to drive across town for a loaf of bread. Others never develop a speaking acquaintance with any one storeowner.

Certain women shoppers haunt bargain basements, others would be ashamed to be seen in one. Some buy all their clothes on sale, others shun 'specials' as they would polo.

We saw two of these mis-matched buyers out together the other day. They were buying a going-away gift for a friend. One was the humming bird type. Normally, she'd walk into a store, make a bee-line for one counter, state her business and her price, say "I'll take that one," and zoom off to find the next item on her list. The other, by nature, had the manner of a bank examiner.

She wouldn't tell what she was looking for until she had to, would scrutinize the entire inventory before reaching a decision. Furthermore, no decision was final. The clerk would get out her sales book and start to write up the purchase, only to be halted with "Don't you have something in blue?" Or "What about a nightie? She might like that better."

The quickie shopper, who would have bought now and thought later, almost developed amnesia from the strain of stretching a five-minute purchase into a half-hour deal. The thoughtful shopper was frustrated from having so much decisiveness added to her own indecision. And the saleswoman, torn between amusement and annoyance, was near collapse from trying to please both women at once.

Next time anyone asks you about women shoppers, just answer that some spend money and some spend time!

Center Club News

Center home demonstration club met Friday, May 27 with Mrs. Earl Huckabee. The meeting was called to order by the president, Mrs. Oliver Allen. Mrs. W. B. Jordan led prayer and Mrs. O. C. Vinson read the minutes and called the roll. Roll call was answered by what I do when I do as I please.

In business meeting the club voted to pay \$7.50 to the 4-H club fund.

Provision was made for materials needed at the next club meeting for making the new spring bonnet. This meeting is scheduled to meet June 10 with Mrs. Frank Dunn.

A demonstration, places for keeping records, was given by our agent, Mrs. Brummett. She made us feel the importance of having a definite and safe place for important papers and showed how simple and conveniently this could be arranged.

Refreshments of Hi Ho crackers, angel food cake and lemonade were served to Mmes. Oliver Allen, W. B. Jordan, O. C. Vinson, J. E. Green, J. A. Hartsell, Earl Huckabee, Sandra Huckabee, Mrs. Brummett, and visitors. Mrs. W. A. Huckabee and Miss Eula Huckabee.

Mr. and Mrs. Norman Hillburn and sons, Jerry and Chris, spent the week-end with Mr. Hillburn's parents, Mr. and Mrs. G. C. Hillburn.

Mark Douglas, son of Mr. and Mrs. Bud Turner, is ill with a throat ailment this week.

Assembly Camp Breaks Record of Attendance

The Assembly of God youth camp, meeting at the Plains Baptist Assembly this week, has broken all attendance records with 430 registering for the four-day session. This is the second year the assemblies have used the camp, 301 having attended last year.

Registration began on Monday afternoon, with the opening service in the tabernacle Monday night. The young people will break camp after the noon meal on Friday.

The camp is sponsored by the West Texas district of the Assemblies of God. Rev. Kenneth D. Barney, pastor at Levelland and district youth leader, is in charge. The camp evangelist is Rev. Bob Willis of Waxahachie, who is district youth leader for North Texas district.

Visitors from surrounding towns make the tabernacle well-filled for the night service.

One of the highlights of the camp was the dedication, Tuesday morning, of a 1955 Chevrolet station wagon purchased by the young people of the district for Missionary Quentin Shorter, who is returning in a few weeks to Guatemala.

A brief memorial service will be held Friday morning for a 14-year

Cotton Report Tells Progress of Promotion

Due to so many conflicting schedules in the county, the crowd was small at the Farm Bureau's meeting at Lockney high school Tuesday night.

Those who came were enthusiastic over the well-delivered flannel board display of facts and figures by John Gregg of the American Cotton Council showing what the farmers 10 cents per bale collected for them was doing. Many expressed surprise to know how much was being accomplished in sales promotion of cotton fibers.

Gregg says the south needs to improve facilities, quality, production and marketing, textile processing and foreign trade to the cotton industry. He also warned the farmer of many competitions such as nylon and rayon, and finished his discussion by saying cotton future will be what we make it.

O. K. Hoyle emphasized the cotton council works and said that four of the council board are Farm Bureau officials.

Hoyle brought an illustrated lecture on the family membership in Farm Bureau showing their Committees and duties such as membership, resolutions, legislative and services, showing how the Insurance program was paying return on membership paid in this company. He outlined the program from the community to the national level. He also called attention to the labor problem and warned of forthcoming minimum wage scale, now sought by union leadership.

Chester Cartmel explained some of the points on the Weed Control Law recently enacted and on a motion by L. B. Brandes a unanimous vote was taken to start an education program in the county as soon as a full copy and confirmation is received from the state office. It was agreed that a petition be circulated, to call for the organization of a county district as soon as possible.

Those who failed to attend this meeting missed one of the most interesting meetings held in this county, officials declare.

Dr. J. S. Hill left yesterday for San Antonio where he will attend the state convention of Naturopath doctors. He plans to return to Floydada Sunday.

Citizens Seek Cooperation For Floydada Clean-Up Drive

the removal of fire hazards, broken signs, trash and old buildings; cleaning and painting of homes and places of business; assisting in the hauling off of the rubble accumulated in the drive, and the planting of grass and shrubs to improve the appearance of the town.

The Lions are not pointing to someone else to do this while they sit back. They are prepared to take the lead with the rakes and shovels and are only asking that the town join them in doing the

job.

Pick-up day is set for the morning of Thursday, June 9. Businesses, wherever possible, are asked to close for a half-day to allow their personnel to join in the drive to haul off the trash. Pick-ups, trucks and working crews are asked to report at the west side of the courthouse at 8 a. m. to join in the clean-up drive.

Bad weather last May caused postponements and much delay in the campaign. Some complaints were voiced in the effectiveness of the venture. More results are promised this year — to insure this goal, join your neighbors and the Lions club.

Be on a pick-up crew Thursday and guide them down your alley — that is more effective than a phone call wondering why you were missed — and the workers are all volunteers.

Mrs. W. T. Branson who lives in Floydada had to spend two days back in Pitts hospital. She was taken there early Saturday morning by Dr. Geo. Smith. She is back home now and we hope she won't have to go to the hospital anymore. This was her second time to be in the hospital the past two months.

We offer our heartfelt sympathy to Mrs. Sidney Johnston and family in this their time of sorrow. Bro. Johnston passed away at 7:45 Sunday evening in Peoples hospital where he had been a patient for two weeks.

Mrs. Lee W. Burton entered Peoples hospital Monday morning for medical treatment for strep throat. We wish for Mrs. Burton a speedy recovery.

Mr. and Mrs. T. L. Perry and Jan visited in Plainview Sunday with Mr. and Mrs. Grady Reeves and family.

Sunday morning visitors at church were two much loved former members, Mrs. G. M. Bullard of Floydada and her daughter, Mrs. Kate Crabtree of Clovis, New Mexico. They visited in the L. B. Cozby home while in the community. They also attended the old settlers re-union Saturday in Floydada.

Mr. and Mrs. J. C. Crabtree of Lubbock visited in the home of their daughter and family, Mr. and Mrs. Chil McClure and son Friday and Saturday.

Mrs. Ray Hopkins of Ralls was up to attend old settlers re-union Saturday and visited awhile with her parents, Mr. and Mrs. Walter Baxter. On Sunday Kerwin Baxter visited with his grandparents, Mr. and Mrs. Walter Baxter.

Mr. and Mrs. Cecil Payne and C. J. visited in Floydada Sunday with Mr. and Mrs. Gene Payne and family and in the afternoon they all went to Roaring Springs on an outing.

Mrs. C. O. Wise of Floydada is spending a few days with her son, Cargile Wise and family, Monday afternoon Mrs. E. W. Walls visited in the Wise home.

Mr. and Mrs. L. A. Horton of Plainview visited Sunday night with Mrs. W. B. Wilson. Monday visitors in the home of Mrs. Wilson were Mr. and Mrs. L. H. Randolph and their grandson, Jimmy Ray Randolph and Mrs. Orbie Armstrong, all of Earth.

Mr. and Mrs. Lee Burgett visited with Mr. and Mrs. John Crawley east of Floydada Sunday afternoon and also in Floydada with Mrs. W. T. Branson and Mrs. W. B. Cantrell. Daily Vacation Bible school will begin at Fairview Baptist church on Wednesday, June 8 and will close June 17. The hours are 8 o'clock until 11 o'clock each morning. Mrs. Clifford Helms will be the principal for the school and Mrs. Jim Stewart will teach the primary group and Mary Ann Wilson will have charge of the juniors. Other teacher and helper will be announced later.

Charles Kitchens of Vernon visited Wednesday with Mr. and Mrs. Lee Rushing.

Week-end visitors in the Edell DuBois home were Mr. and Mrs. Bud DuBois and family of Lamesa and Mr. and Mrs. Bill DuBois and son of Floydada.

J. C. RALEY FOUND AND ENJOYED OLD FRIENDS

J. C. Raley, of El Paso, who left Floyd county and went into the cotton growing business in the Rio Grande valley 20 years ago, was among the pioneers who registered for the 1955 re-union.

"I met a lot of former acquaintances and old friends," Mr. Raley said Monday morning, before he left returning home. "It gives you a pick-up and helps your morale to spend a day like that."

Mr. Raley also visited his son, Morris and family at Aiken for a short time while he was here.

FAIRVIEW, May 31—Mr. and Mrs. Walton Wilson, Mary Ann and Judy went to Lubbock early Sunday morning, where Mary Ann was to make preparation for the baccalaureate service Sunday night. The rest of the family visited in the home of Mr. and Mrs. John Austin until time for the services. The Wilson family went to Lubbock again on Monday where they attended the commencement exercises at Tech college Monday night. Mary Ann was one of the Tech graduates this year. She is a Spanish major. We congratulate Mary Ann on her achievement.

Our community was well represented at the Old Settlers re-union on Saturday. However a large number of others would have attended had it not been such a busy time. Farmers are real busy these days trying to get all the planting done while the moisture is in the ground.

Mr. and Mrs. Dean Walls made a business trip to Las Vegas, New vada, last week-end to get Dean's son Larry Dean, who will make his home here with Mr. and Mrs. Dean Walls. Larry Dean is 6 years old. We welcome this little fellow among us.

Mrs. H. D. Gartman and daughter Pat of Tahoka came over Sunday afternoon to visit their daughter and sister, Mrs. Audie Wiley and family. They remained over and attended church that night. Other visitors in church services Sunday evening were Mr. and Mrs. Russell Crawford and son of Dougherty. Mrs. Crawford is a sister of our pastor, Rev. Audie Wiley.

We welcome all of these folks back among us and also extend a special invitation to all folks in the community to attend each and every service of the church.

Mrs. T. J. Jarboe of Lockney came over Thursday afternoon and spent the night with her sister, Mrs. E. W. Walls and Mr. Walls.

Mrs. G. A. Stewart who has been in Amarillo for several weeks is here at this time visiting in the home of her son Jim and family. Others spending memorial days in the Jim Stewart home were her parents, Mr. and Mrs. L. A. Horton and her sister and family, Mrs. Walter Welch.

Mr. and Mrs. Gordon Bullard of Lubbock visited Saturday with his mother, Mrs. G. M. Bullard in Floy-

Established 1896 by Claude V. Terrell as second class mail at office at Floydada, Texas. Approved under the act of Congress of 1897.

VIEWS AND COMMENT

Lobbyists Are Needed. The word "lobbyist" has been bandied around in connection with the work of the state legislature to make it connote an evil influence. In Texas this year the lobby influence has been tremendous and the results will be reflected in the laws that have been or will be put on the statute books. True, there are evil influences at work on capitol hill. Millions are involved. The love of money has men—good men—do queer things. But the fact is, as we view it, without a lobby the legislature would ruin Texas in two sessions. Inexperienced men, a sparkling of crackpots, a mixture of men who do not understand the theory of government, an occasional unwary fellow who is caught in the net, and you have enough to out vote the solid men who must hold things together.

Nowadays in Texas, the legislature is not playing the game for fun. The stakes are high and the best brains that can be employed are at work to protect the interests of the people who hire them to keep the legislature from doing, or vice versa, to get the legislature to do. And every interest which sends a man to Austin to "get them fellows to do the right thing," has sent a lobbyist there. The newspaper men and the farmers had "lobbyists" in Austin this year. They were more or less ineffectual, true, but truly trying to get the legislature to "do the right thing." The newspapermen now have a lobbyist in Washington trying to keep the post office and labor departments from pushing laws through the congress that could spell doom for the publishing business. And so it goes. If you have government you have to have men at the seat to present your angle of the problems for the legislature's consideration.

Farmers are rapidly becoming a minority group. Their present influence in the halls of congress is largely a protective one. They are having to battle against ignorance of their problems, ignorance of the fact that their occupation is basic to the welfare of the country. There are plenty of men in congress, otherwise pretty well-rounded, and certainly well-intentioned, whose knowledge of farming and a farmer's needs is barely above their text book knowledge of the difference between a bull and a bumble bee. This means that the tactics of the farming people working with the congress is undergoing a change that is demanded by the times. As for instance, people who believe in the farm home as basic to the welfare of the country run into the problem of the farmer who operates as an investment. Going by the rules and operating wholly within the law, legitimately and above-board, he collects thousands in "subsidy" money. He has his point of view and his rights. But he is putting the farm family subsistence operator out of business just the same.

Do all the good you can,
In all the ways you can,
In all the places you can,
At all the times you can,
To all the people you can,
As long as ever you can.

Lubbock people went to Austin the other day and presented to the highway commission a plan for their highway program for that county for the next 10 years. They got high praise for their planning, and a promise that their program would have every consideration from the department. In that county they have stayed two to five years ahead of the highway department. Every time the highway department gets around to Lubbock county the planners there have made it easy for the commission to follow a good plan already laid out. W. O. Jones, one of the early-day Lubbock planners said once that when good men get together good is bound to come of their meeting. The point is they got together and are still getting together. Problems iron themselves out when you do it that way.

Floydada people have got to go to thinking in terms of putting more into their investments here. Crying need of the moment is more good homes for people who, for reasons of their own, had rather pay somebody else to own the property and let them be tenants. Need, too, for better looking streets, more paving, more curb and gutter, more good looking store fronts, fewer gotch-eyed awnings, more paint, more light, more up-to-dateness. That is if we want people to come to our town to trade, to amuse themselves. People of our area are "just crazy" for us to snap into it and let them be proud of Floydada. But we have to spend our money. Before you can take you have to put.

An American general is reported to have spent \$52,000 in government money to fix up a house for himself in Germany. That is quite a bit of money to spend to assure yourself of a permanent home in the dog-house.

The president seems more and more attracted to his farm in Gettysburg. Those who want him to run again better give the matter some thought. How are you gonna keep him off of the farm after he's seen D. C.?

June Dairy Month

The world's most nearly perfect food—milk—takes the spotlight of the nation's attention during June. Milk, which will be in abundant supply this month, can be rightfully called one of the most valuable products of the farm. It offers some 100 different nutrients—a long list of vitamins and minerals, fats, sugar and high quality protein. In addition, milk and its many products have great taste appeal for the American public. June is traditionally observed as "Dairy Month". It is the time of peak milk production and this year it is expected to reach near record high levels. There will be plenty for consumers to use liberally. Milk is the basis for a whole family of dairy goods. Its family tree includes cream, buttermilk, evaporated and condensed milk products, nonfat dry milk solids, dry whole milk, ice cream, numberless varieties

of cheese and butter. It has infinite variety and countless thousands of uses. The nation's dairy industry has organized a mammoth celebration of June Dairy Month again this year. It is joined by the Texas and U. S. Departments of Agriculture in promoting consumption of this healthful food. Advantage to the consumer will be in the form of large quantities of dairy products at an economical price. Liberal amounts of other good farm products will be promoted this month, also. Broilers and fryers may fit well into the family budget in addition to being appropriate in warm weather menus. Citrus and citrus products such as California lemons, processed orange and grapefruit products are expected to be abundant. Beef supplies continue heavy and the price should be attractive. Others on the list include fish and related products, small prunes, raisins, rice and vegetable fats and oils.

Sanford: Texas Press

Beer was tapped off as the Senate expected \$40,000,000 in new money in two years.

Striped out of the Senate passed tax bill were House proposals for a levy on cigars, snuff and tobacco. Added was a token one-20th of a cent levy on "dedicated" natural gas — long term exclusive contracts, payable by the long pipelines — and expected to produce \$2,000,000. Gas pipelines were put under the intangible assets tax.

Dropped were Senate proposals for manufacturing taxes and gross receipts taxes on department stores hotels and motels. Rejected by the Senate was a gross receipts tax on the metals and chemicals industries.

Sen. Grady Hazlewood, slender, graying member from Amarillo, emerged with the winning combination to unblock the long and confused Senate fight for new revenues.

At Friday's session, Sen. Otis Lock of Lufkin, who termed himself the "coercer sponsor" of the tax measure, offered a new "in between" plan which salvaged part of Governor Allan Shivers' original recommendations and made concessions to an obdurate House.

Lock proposed a 1 1/2 cent increase on gasoline, halfway between the two cents the Governor wanted and the one cent the House voted; and 1 1/2 cents on cigarettes; along with a 25c per \$1,000 franchise tax levy on corporate stocks. It would bring in the needed \$56,000,000 to the general revenue fund, he said.

But Senator Hazlewood came up with his substitute and it was favored, 22 to 9, over the Lock plan.

The final vote put both House and Senate on record for a one-cent increase on gasoline, making the entire bill more palatable for House concurrence.

Beer industry leaders, who had successfully fought off a proposed \$1.30 per barrel increase in the House and also in Senate committee (which would have raised the total rate to \$3.30, or to 1c per bottle) suddenly found their industry saddled with a tax of \$5.30 a barrel—or an additional 1c per bottle tax.

VETERANS LAND

New batches of indictments against former Land Commissioner Bascom Giles were returned in Travis county. Five indictments charging theft linked B. R. Sheffield of Brady with Giles. Eight charges of forgery were made against Sheffield. Then five more indictments against Giles and Sheffield charged theft and conspiracy of theft.

A court of inquiry on Land Office affairs dined on, questioning all employees of the land office.

Giles' scheduled first trial at San Antonio, on a bribe charge, was postponed until August. Postponement was granted on an affidavit that a House member, Rep. Cecil Storey of Longview, had been employed as one of his lawyers. This was statutory grounds for postponement until 30 days after the end of a session.

Both the trial judge and the district attorney criticized the law forcing such postponement.

Rep. Dolph Briscoe, Jr., of Uvalde, author of a series of bills to clean up the veterans' land administration, immediately put in a bill to restrict employment of legislators. Briscoe's bill would limit the automatic postponement privilege to legislators hired within one week after a case or indictment was filed — or to cases where the Legislator was the only attorney representing a defendant.

SHORT SNORTS

Governor Shivers vetoed a bill raising speed limits on all highways from 60 to 65 miles an hour and to 70 miles on four-lane divided highways. It would increase traffic deaths and accidents, he ruled.

In all the turmoil of the tax deadlock the House took time out to pass a constitutional amendment resolution to create mosquito tax districts.

A badly slashed Trinity River Authority bill passed the Senate. A feature was inserted to allow downriver users additional water above their old "normal flow" rights, without paying for it.

Rep. J. O. Gillham of Brownfield won House passage of his bill to raise college registration fees from

Mid-Term Move Spoils the Fun In High School

Jo Earp, high school senior daughter of Mr. and Mrs. Joe Earp of Sand Hill, is one Floydada high school graduate for whom the end of the school year and her high school career was more of an anticlimax than a climax.

Although of high scholastic rating, a good basketball player, a lively youngster and all that, she didn't make the Whirlwind annual, the list of "Who's Who" or anything. She graduated, and that's all.

However, it was not the fault of Floydada high school or her classmates either. It was just one of those things.

Jo was going great guns in her final year at Kress when the family moved to Floydada district at mid-term. She was best all-around girl at Kress, had a scholastic average above 90, was captain of the basketball team, and right in the middle of everything. Her mid-term registration here cancelled all of that.

However, Jo is not downhearted. She finished with a four year average of 92, and is learning to like her new associates here.

\$25 to \$50 a semester. But it was modified to exempt students working 20 hours or more a week. Sen. Jimmy Phillips of Angleton promised to fight it until adjournment if taken up in the Senate.

Sen. William H. Shireman of Corpus Christi abandoned his bill requiring lobbyists to register. Opponents amended it until he said it affected public officials more than lobbyists.

Rep. J. E. Cox's "unfair sales" bill passed the Senate after it had been watered down until opponents said it was unconstitutional — but meaningless even if valid. The Conroe representative's bill was restricted to grocery stores. Its prohibition against selling below cost also prohibited a merchant from limiting sales or refusing to sell his entire stock to competitors at the advertised price. This would enable competitors to buy the bargain merchandise before housewives had an opportunity to take advantage of an advertiser's specials.

Jack Henry Signs With Red Raiders

Jackie Henry, son of Mr. and Mrs. Jack Henry, signed a contract last week with the Texas Tech Red Raider football team. Henry was a star center for the Whirlwinds last fall and has received an invitation to play in the Greenbelt bowl game at Chidress in August.

Jackie will report to the Tech coaches in September. He will be a candidate for the freshman team. He will be the third Floydada boy to go to the Red Raider fold in the past two seasons. from
Lighthouse Electric Cooperative, Inc., by Nancy Morckel and Claude Weatherbee.

An electric roaster is nothing more or less than a portable electric oven; because it certainly can do anything an oven can do, including baking, stewing and roasting. With the broiler grid - an optional accessory - foods can also be fried, grilled, toasted and broiled. With the timer clock - another accessory - food placed in the roaster will start cooking at any selected hour and will stop when "done" all without any so called pot-watering.

Faced with a church supper, school picnic, civic outing or even a gathering of the immediate family - a roaster has what it takes to do quantity cooking.

Fifty persons can be served from a roaster with foods such as scrambled eggs, baked beans, spaghetti or chili, and the roaster can be counted on for 50 cups of coffee at a time.

Many homemakers find their roasters useful for water bath canning of tomatoes and fruit, and for making jams and preserves in quantity. They are excellent for rendering out lard - the heat makes a nice finished product.

"Mobile" is a word that fits all small appliances nowadays. Since our modern-day living affords the freedom and facilities to go places and do things I feel sure the so-called-small-appliances are purpose-designed to follow the family from room to room, to the patio, porch or out-door-garden or wherever there is a need for them. Food cooked in the roaster will stay hot for as long as six hours if the roaster is wrapped in a blanket. So often out-door wiring is available in picnic grounds or even in your own back yard and there is nothing to prevent the roaster, toaster, waffle iron, griddle, fryer, percolator or the electric skillet from being

"plugged-in" right on the spot. It is just too bad the so-called "small appliances" in our homes to-day are not used more. They are small in size and light in weight but they are big about making housekeeping more efficient and entertaining less of an effort. They are practical to use and inexpensive to operate.

A mixer might be spoken of as "an extra pair of hands with muscles." Be sure it is on the job when there is any mixing to be done. Don't forget that with one beater removed milk shakes can be whipped up in a jiffy.

To own appliances and not put them on a full-time basis is a needless waste of the homemaker's time, energy and investment. It's abuse, not use, that makes appliances old before their time.

MCLAIN EXPRESSES THANKS

I wish to express my appreciation for the pleasant and courteous way for the ladies who prepared the meals for the pioneer shut-ins cooperated, to Lee Noble and other members of this committee, for assisting in the delivery to some of the homes and for the expressions of thanks by the shut-ins or of others for them.

Also to apologize for lateness of delivery to some. This seemed unavoidable. Also if some eligible ones were missed. I assure you that this was unintentional on the part of any of us.

Co-ops are the heaviest taxpayers in many communities!

Let's take a look at the record!

What cooperatives pay in taxes is an open book for anyone to see. You'll find that cooperatives rank at or near the top in many communities.

Supporting community institutions through taxes is a responsibility which cooperatives have accepted willingly.

Cooperatives are locally owned and controlled. Those who own or work for the cooperative, live in our community. They are interested in good schools, good roads and good government because they are good citizens . . . and because it is their community.

We got along with this . . .

until we did something about it OURSELVES!

We were still using lanterns on the farm 20 years after our relatives in town were enjoying electricity. Just a couple of country miles kept us from the modern comforts and the time-saving, work-saving benefits of electric power.

We might still be doing chores by lantern light, using our backs instead of electric motors, if we hadn't organized co-ops to get the job done. In the few years since our co-ops took over, most farms in the country have been totally electrified.

The rapid change in farm living because of electricity seems almost a miracle . . . but near miracles are possible when many people with a common need work together for their common good . . . through cooperatives.

Whatever the great advances of the coming years may be, cooperatives can be used to distribute the benefits of such progress to the greatest number of people.

HEALTH IS NATURAL

The normal body contains within itself all of the factors less oxygen and nutrition necessary to good health. In health every organ functions properly so that exactly the right amounts of all body substances are produced.

It is only when an organ or gland in the body fails to function, that we begin to notice evidence of dis-ease. The function may be excessive or insufficient.

Every organ, gland and cell receives its supply of nerve energy from the brain. It is this energy that activates body function and regulates the amount of function. Consequently, when you report your illness to a chiropractor, he begins his analysis by looking for interruption to proper flow of nerve energy between the brain and the part of the body affected.

Upon locating the interruption he will locate the exact position of the spinal segment which is misaligned causing the interruption. Upon correction the misalignment, normal nerve supply reaches the affected organ. Function will then return to normal and health is the natural result. Health restored in this manner is permanent because the cause of the condition has been corrected.

The fly is a universal pest, responsible for extensive damage to crops in early season. About 1/2 of an inch long, they are active, active bugs, pointed at both ends and varying in color from light yellow to almost black.

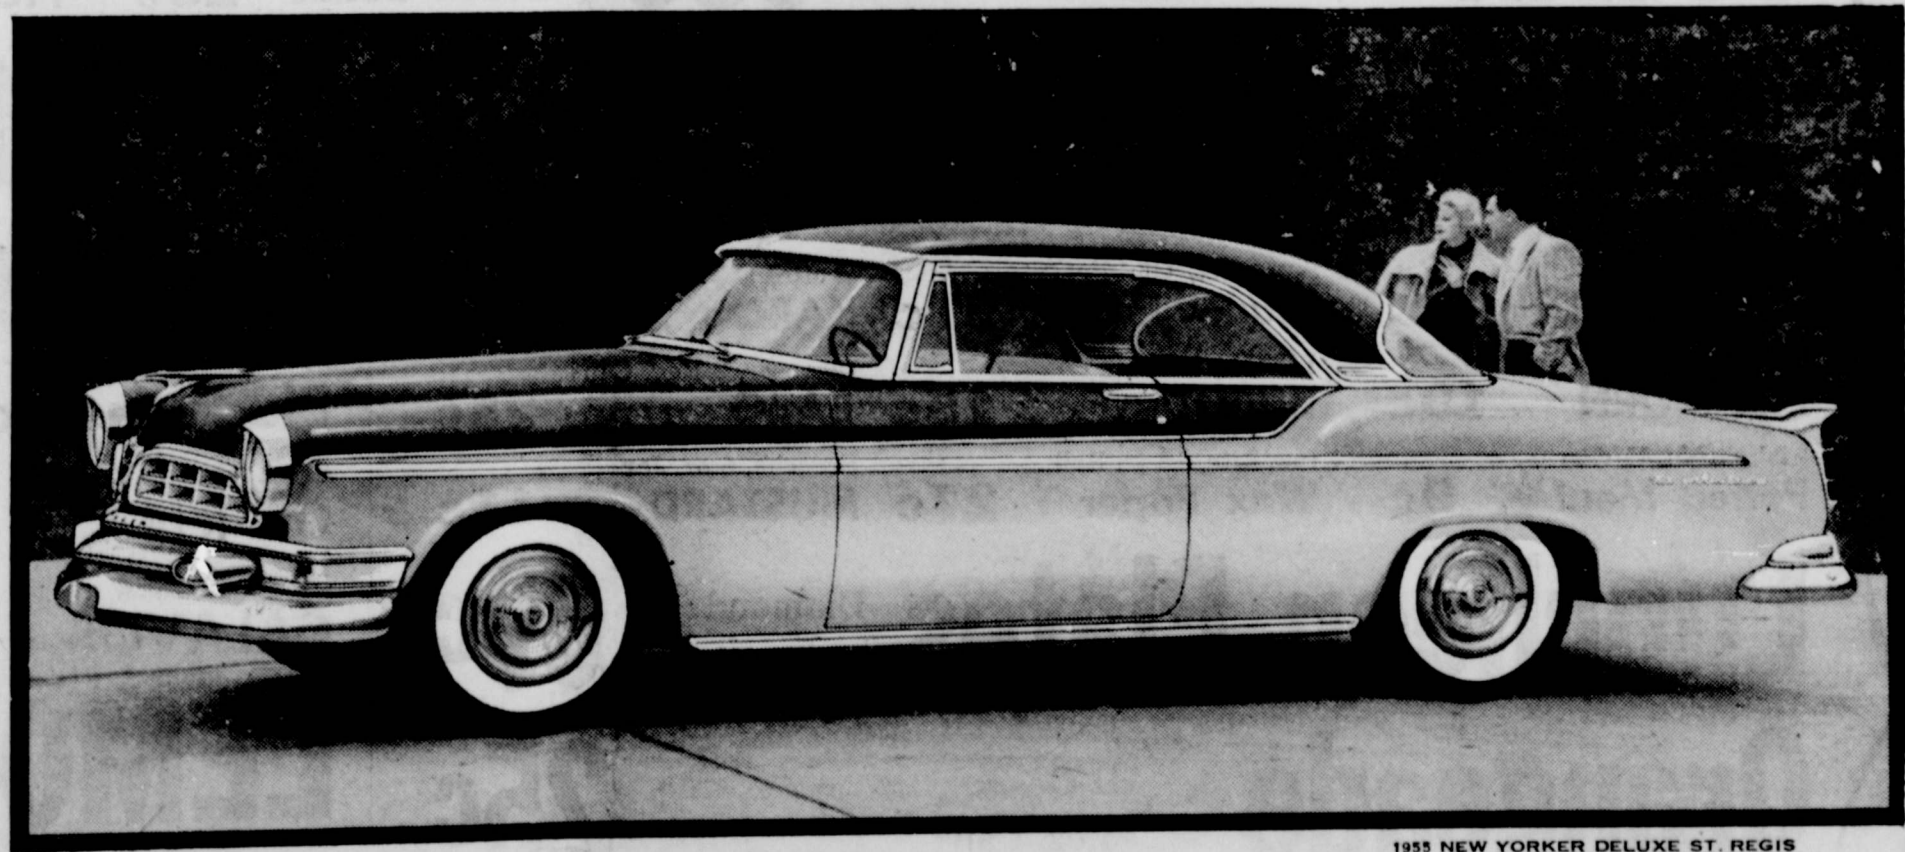

The flea hopper feeds on the juices of tender parts of the cotton plant, causing greatest damage to immature squares. The infested plants grow tall and whip-like with fewer branches, produce only a few bolls near the top.

Get higher cotton yields with dieldrin

THIRPS and FLEAHOPPERS
Use dieldrin early to kill thrips, fleahoppers and other cotton insects. Dieldrin-treated cotton gets a good early start... pays bigger dividends. You get better quality cotton and earlier harvest—less danger of heavy loss due to early frost.
Tested at Texas A. & M. (1954), dieldrin-treated cotton produced almost three times as many bolls in a three-week period after treatment as did the untreated cotton. It pays to use dieldrin! Here's why:
It's long lasting! Dieldrin gives long-lasting protection. Days after application, dieldrin still has lethal effect.
It's easy to use! Used as a dust, dieldrin is smooth-textured, free-flowing. In a spray, dieldrin forms top-killing emulsions... eliminates nozzle clogging.
It's economical! Two to three applications at the recommended dosage—1-10 pound of actual dieldrin per acre gives top control.

gov't. graded quality meats

The mouth watering aroma of good meat cooking over a charcoal fire — the sharp tangy smell of a bit of hickory smoke — the cool fresh look of a table set in a grassy, tree shaded yard: These are the things that make summer appetites grow and grow. Try it this week end. Piggly Wiggly has just the right things.

Mix 1-1/2 pounds Beef Chuck lightly with 1/3 cup catsup, 1 teaspoon prepared mustard, 1-1/2 teaspoons Worcestershire sauce and 1 teaspoon salt. Shape into 1-inch patties. Broil 8 minutes to a side. 6 patties.

Choose tender club, T-bone, porterhouse or sirloin steak. Trim off outer fat. Use this to rub on hot grill to keep steak from sticking. Broil first side of steak to desired brownness; turn. Do not pierce meat. Salt and pepper browned side. Continue broiling till steak is done to a turn. Season second side. Top with a pat of butter. Come and get it!
