

South Plains News

(By Mrs. Murray Julian)

SOUTH PLAINS, August 1—July has been a month of vacations for many in our vicinity, and August will see many more off to visit relatives and resort centers. Last Saturday, July 23, the rain was general here with an inch for everyone, and over two inches around South Plains. Only light showers fell in Wednesday's rain, but on the E. J. Kinslow and Sim Reeves farms, the north part of our community received two and one-half inches. Now it is dry again, and feed is so rank farmers are busy with their wells irrigating the fine stand we have.

This Tuesday morning Mrs. H. F. Parks and her granddaughter, Ann Edwards, from Dahlonega, Ga., will arrive in Amarillo, where she will be met by her son, Mr. and Mrs. I. H. Parks and boys. They will be here visiting the Parks for an indefinite time. Other visitors the past week have been Mrs. Parks' nieces, Fayth Lawson from Amarillo and Kaye Burns from Plainview, who spent a week visiting here in the Parks home.

Dr. and Mrs. E. E. Joiner from Midland spent Saturday in Hereford with her folks, Mr. and Mrs. George Brunley. They were in Floydada on Sunday night to attend church and spend the night as guests of Mr. and Mrs. H. G. Barber.

Dinner guests after church on Sunday in the home of Mr. and Mrs. Grigsby Milton and girls were Mr. and Mrs. Arby Mulder and Katherine. Guests calling during the afternoon were Mr. and Mrs. John Smitherman and Mr. and Mrs. Zach Cummings Sr.

Rev. and Mrs. Larry Faus were sponsors of the G. A.'s of the church at a picnic and skating party last Thursday evening at Plainview. A picnic supper was spread at the Plainview Park and afterwards skating at the Plainview rink was enjoyed by the girls in the party. Those attending were Misses Bonnie Upton, Virginia Taylor, Louise Pritchett, June Marble, Juanel Wood, Donita Milton and Rev. and Mrs. Faus.

School days were pleasant callers in the home of Mrs. Sim Reeves last week. On Thursday Mrs. Bill Johnson and Mrs. Jewell Harlan of Idalou came and spent the day with Mrs. Reeves.

We are happy to announce a new daughter named Joni Beth born on Friday, July 29, at the Lockney Hospital to Mr. and Mrs. Dick Guest of Silverton, formerly of South Plains. The new baby weighed nearly eight pounds. Her paternal grandparents are Rev. and Mrs. R. C. Guest of Cone who were former pastor and residents of our community. The maternal grandparents are in Silverton.

Among the visitors at church on Sunday were Mrs. Harper and grandsons from the Ivy Moon place. Also attending were Mr. and Mrs. Cecil Taylor and children, with David still in a cast with his broken leg. They hope he will be able to start to school. Mrs. Brown and daughters were also visitors at church, and they are from the Wade Deavenport farm. The Taylors live on Mrs. Olive Wilson's farm. We are so glad to see all these new neighbors out to church and welcome them to all the gatherings.

Mr. and Mrs. H. L. Marble and Mr. and Mrs. H. R. Hartman went on a nice vacation to Roswell and Ruidoso, N. M. They enjoyed a few cool days in the mountains, returning home on Monday.

Mr. and Mrs. Hub Austin and son Gary of Borger were Saturday visitors in the home of his sister, Mr. and Mrs. Sim Reeves. They also spent Saturday night with the Reeves. Jack Reeves spent the past week end down in Lubbock with friends and returned home on Sunday evening.

Mr. and Mrs. Raymond Upton, Bonnie and Jimmie will leave this Wednesday for Tacoma, Wash., and many other places of interest up there. Their son, Ronnie, is in camp about eight miles from Tacoma, and they will spend most of the time visiting with him. Miss Betty Blum of Floydada will accompany them on the trip. They plan to be gone about three weeks. Mrs. Hartman and Mrs. Bryan Karr will be in the Upton Grocery and the post office while they are away.

Mrs. L. T. Wood received word of the severe illness of her father S. C. Waller of Tucuman, N. M., last week. She left with her daughter Juanel Monday to help her mother care for him. She came home Wednesday as another sister is in the home at this time helping care for the ailing father.

Mac Smitherman, recently stationed in Japan, is now at home with his parents Mr. and Mrs. John Smitherman and will be here until August 11. Then he returns to his unit in Fort Bragg, N. C.

Mr. and Mrs. Thomas Pierce left

Sunday after church for her parents home in Harmony. They went to get their children Steve, Stanley and Beverly Diane, who had been spending the week end with their grandparents, Mr. and Mrs. J. M. Pierce of Harmony.

Mrs. Grigsby Milton Sr. and daughter Linnie of Amarillo left on Tuesday of last week to make an indefinite stay with Mrs. Milton's daughter Mr. and Mrs. Howard Whiting and son, who live in Shawmut, Ala.

Mrs. Fred Fortenberry received word on Friday of the passing of her grandmother, Mrs. Sudie McCain, who lived at Fort Worth. With her husband and brothers, Clifton McCain of Amarillo, Cecil and Lawrence McCain of Tulsa, and her sister, Mrs. Elvis Hulson also of Tulsa, she left on Saturday to attend the service which was held in Grapevine on Sunday afternoon. Mrs. McCain had been in ill health only a short time. She would have been 93 in December. The family all returned to their homes on Sunday evening.

The WMU of the Baptist Church met at the church on Monday afternoon at three for an afternoon of Royal Service. Seven members attended, and Mrs. Faus led the interesting study which included, A Sure Road to National Downfall, this being a study of the liquor habit. Mrs. Dock Jones conducted the business meeting, and Mrs. Reeves closed with a prayer. Those taking part and attending the study were Misses Larry Faus, Dock Jones, Sim Reeves, H. S. Calahan Jr., Grigsby Milton Jr., Walter Wood and Murray Julian.

Owen Thornton returned on Friday with the group of farmers from the Panhandle of Texas who went last week on the tour of Colorado farms. They also went to other interesting and informative places, including the Frontier Days Rodeo Celebration, which is an annual event in Cheyenne, Wyo.

Vacationing in Colorado and New Mexico last week were Mr. and Mrs. Murray Julian, Kendis and Bruce, who left on a camping trip last Friday. They returned on Tuesday evening, spending the time at Cimarron, Taos and other spots in New Mexico. They went up to Colorado to Pagosa Springs, Durango, Monte Vista, Alamosa and enjoyed one night at South Fork on the Wolf Creek Pass. It rained every afternoon where they were, making a wonderful cool vacation.

Mr. and Mrs. Bryant Higginbotham visited her aunt Mr. and Mrs. O. R. Beard on Sunday afternoon. Mr. Beard is recuperating from a major operation of two weeks ago at the Scott and White Sanatorium in Temple. She is doing fine.

Mr. and Mrs. S. D. Kinnibrugh and Beth went to Vera and Truscott on Saturday to visit his parents Mr. and Mrs. J. A. Kinnibrugh and her mother, Mr. and Mrs. J. R. Spivey. Burleson and Stanley, Mr. and Mrs. Clayton Bond, Victor and Jane, Juanel Wood, Virginia Taylor, Eugene Beedy and several others were among the group that made up a birthday celebration July 28. It has been held annually for the past several years for Bonnie, Juanel, Victor and Stanley, who have joint birthdays. This year they all packed hampers of food and cool drinks and went to Roaring Springs, where they had a day of picnicking and swimming in the pool there.

A wonderful vacation is planned by Mr. and Mrs. Gilbert Bean and their daughter, Mr. and Mrs. Shelby Calahan, Johnny Beth and Jerry. They plan to leave for Bonneyville, Wash., this coming Friday and will visit Mrs. Bean's sister there. They will also go to Tacoma, Wash., and visit Ronnie Upton, who is stationed near there. Club Meeting At Mrs. Fields

The annual picnic was planned, and time set for Saturday, August 13. It will be held on the church grounds at South Plains, and the Home Demonstration Club will sponsor the annual picnic. Each and everyone in our community is cordially invited to attend. The party will be a tacky one, and games for everyone will be played. Everyone who has freezers please bring ice cream, and those who do not please bring cakes.

There will be a hat clinic held at the council room on September 10, and all interested should make plans now to attend.

Mr. and Mrs. George Weast left Saturday morning on a ten day vacation which will take them from Ruidoso, N. M., where they will spend the week end, to Western Colorado, where they have reservations for the Ski Hi Stampede held at Monte Vista for August 1 and 2. From there they will go to Durango and take several trips from there on the narrow gauge railroad to Ouray, Telluride, etc. They also plan to visit Mr. and Mrs. Bert Douglas of Lubbock at their summer home which is located near Cortez, Colo. The Weasts' granddaughters, Sandra Smith, Sterley and Sharon Evans of Amarillo accompanied them on their tour.

South Plains played ball with the Lone Star Co-op Monday night and won that game, which was a make-up, by a score of 10-7. They are scheduled to play Lone Star Golden Spread this Tuesday night. This will be the last of the regular league games. South Plains is in first place at this time, with Silverton second. The first four top teams are going to have a play-off after this Tuesday's game.

POTATO MUFFINETTES
For new eye and appetite appeal try serving broiled steak or fish accompanied by potatoes prepared in the following manner. Season mashed potatoes and place in well-buttered muffin pans. Sprinkle a little grated cheese and minced parsley over the top and bake in the oven until brown. Remove carefully with a spatula and place them on the platter around the fish or steak.

To keep apples or bananas from turning dark, coat with lemon juice before combining with other ingredients.

H. L. Hartsells Observe Fiftieth Wedding Anniversary Sunday

Mr. and Mrs. H. L. Hartsell of the McCoy community were honored Sunday with a reception celebrating their fiftieth wedding anniversary. The affair, planned as a surprise for the couple by the children, was not announced to them until Saturday. Flora Carpenter and Hugh L. Hartsell were married August 6, 1905, at Bridgeport, Wise County, Texas. The couple lived in Wise County until 1929 before moving to Floyd County. They settled in the McCoy community where they still reside. The children, all of whom were present with their families, include: Mrs. Amy Fisher, Orlan; Mrs. Opal Whitmore, Kress; Mrs. Joyce Taylor, Canyon; Claude Hartsell, Petersburg; and Charles Hartsell, Floydada. Also present were Mrs. Hartsell's only brother and sister, Mrs. Nora Norris of Floydada and M. L. Carpenter and family of Baileyboro, and Mr. Hartsell's brother, J. A. Hartsell of Floydada. Guests were served from a table laid with a cream lace cloth over gold and centered with an arrangement of yellow mums tied with yellow satin ribbon having 1905-1955 on the streamers. "Mom and Dad Hartsell" was printed in gold on the white napkins. The three-tiered cake was decorated with gold and topped with a golden arch encircling golden "50". A crystal punch bowl and crystal candelabra holding lighted yellow tapers completed the table decor. More than 175 guests registered during the afternoon. Many lovely gifts were presented the honorees.

Popular Disney Film At Capada Starts Sunday

Capada Drive-In Theatre is pointing with pride to their feature attraction which starts Sunday and runs through Tuesday, August 9. The management believes this will be one of the most popular movies of the summer season.

"Lady and the Tramp," a full length cartoon by Walt Disney with characters as lovable as Snow White's seven dwarfs, is the story movie goers will want to see.

Hailed as the show of the month in July Redbook here is what this critic had to say about the Disney production:

Since all the world loves a lover and since men and dogs are proverbial best friends, it's a foregone conclusion that a good love story about dogs will be a hit, especially when done by Walt Disney. "Lady and the Tramp" is his first full-length cartoon in CinemaScope, and it required almost 200,000 drawings. It's a story Walt has wanted to tell for years, inspired by a lovable puppy he once gave his bride as a peace offering. Walt recognized that dogs belong to families, but they also have lives of their own. Lady is a sweet, limpid-eyed cocker, owned by newlyweds, and watched over by her neighbors, Trusty, a bloodhound, and Jock, a Scotty. Into her life comes a brash but appealing mongrel, Tramp, from the wrong side of the tracks. The picture concerns their romance and gives an interesting dog's-eye view of living with humans. Since the course of true love doesn't run any smoother for dogs than for people, there are plenty of amusing incidents in the film.

Among the animals are a bulldog with an English accent, a Chihuahua, fascinating Siamese cats, a frowny Peke who sounds like Mae West and a beaver who hisses when he talks, as if his teeth didn't fit properly. Stan Freberg did the beaver, and Peggy Lee played four parts and composed some of the songs.

What Lies Behind Gambling for Charity Benefits

Gambling for charity is one of the most bitterly fought-about issues in America today. Although many of our most respected religious and social institutions raise money for their good causes by games and lotteries, a Redbook investigation shows that this kind of gambling is almost always inefficient — and often dishonest. Racketeers and professionals are still active. Costs are high. Robert Gorman reports on his findings after months spent among both the friends and foes of charity gambling.

"Complicating efforts to assess the facts about charity gambling are its strongly religious overtones, especially the controversy over bingo. In general, Protestant opinion has condemned the game, while most Catholic and many Jewish leaders have either approved certain forms or remained neutral. "But even within each of these groups there are sharp differences of opinion. Catholic Bishop Georges Melancon of Chicoutimi, Quebec, Canada, for example, shares with many Protestants the objection that giving in the hope of gain 'perverts true generosity.' And Samuel Cardinal Stritch of Chicago and Archbishop Joseph Rummel of New Orleans at one time banned bingo on the ground that it tends to dull church members' responsibility toward their religious obligations. "The New York Board of Rabbis, a few months ago, opposed bingo because the game lowers the syn-

agogue's high standards of morality and dignity. Protestants, too are far from united in their attitudes toward church gambling.

Some ministers raise money by games. And those who oppose the practice arrive at their seeming agreement from different directions.

"Why do racketeers move in so quickly when charities go after the easy money? Gambling seems to have an irresistible attraction for crooked operators. They tirelessly seek out worthy organizations from which they can borrow a measure of respectability. In most communities a good front also gives them legal immunities, privileges — and customers.

"But why do churches and charities co-operate with them? In many cases officials are duped by smooth-talking operators. At least as often, pastors, club chairmen and other leaders fail to investigate closely. Pressured by a need for money, they take the attitude that a little revenue is better than none.

"One of the most serious charges against gambling for charity is that it encourages normally law-abiding people to ignore or defy the law. A few years ago a Louisiana sheriff who had long tolerated wide open gambling in his parish suddenly began to crack down. At the next election, the gamblers threw their support to a friendlier candidate.

"Assuming that people who gamble for charity have a genuine desire to help some cause, how well do they succeed? In recent years Americans have been donating about four and a half billion dollars annually for religious, educational and philanthropic work. Informed estimates put the additional revenue from gambling at a fraction of one per cent of this amount.

"Gambling adds little because, even when it is honestly conducted, it is an inefficient method of raising funds. One of the world's biggest charity grab bags, the Irish Sweepstakes, returns only 20 per cent of its gross take to the hospitals in whose name it is run.

"Major charities will have nothing to do with gambling as a fundraiser, Ralph Blanchard, executive director of the Community Chests and Councils of America (whose members raise about 300 million dollars every year), said. "We don't want to leave charity to chance," he said, "and as a practical matter such methods just give people an excuse for not contributing in a dignified way."

"Dignified" giving, which is responsible for the overwhelming bulk of philanthropy's income, also costs less. The president of the American Association of Fund Raising Councils testified recently that total costs of ethical campaigns range from 3 to 17 per cent. Sponsoring organizations receive 83 to 87 per cent of what the public pays out.

The Catholic Charities of the Archdiocese of New York raised more than \$11 million at a cost of 5.7 per cent; the Federation of Jewish Philanthropies took in \$17 million at a cost of 10.2 per cent. The national welfare and rehabilitation programs of the American Legion and Veterans of Foreign Wars are financed — without recourse to gambling — at costs of under 15 per cent.

New Variety Winter Barley Cold Resistant

COLLEGE STATION—Kearney, a new and unusually cold and green-bug resistant barley for the High Plains area of Texas, will be available to growers for 1955 plantings.

The variety was developed by the Nebraska Agricultural Experiment Station. Tests covering its adaptation and resistance to greenbugs have been conducted at the Amarillo Experiment Station at Bushland. It is recommended for the area west of the Caprock and from Lubbock north through the Panhandle.

Kearney has a survival of 97 per cent at the Amarillo station in 1951 compared with 59 and 0 for Reno and Cordova, respectively. It is a true winter type barley and will head normally only from fall plantings.

It matures later and grows taller than most other commercial varieties grown on the High Plains. Kearney has outyielded Reno and Ward but in seasons when winter survival is not a factor, less hardy varieties, such as Cordova, may yield more.

The new variety probably will produce less early fall grazing than the upright growing tender varieties but because of its superior winter-hardiness, should be more suitable for winter and spring grazing on the High Plains. Its test weight compares favorably with other varieties.

Seed were released to commercial and certified growers in the fall of 1943 and limited quantities will be available to farmers for 1955 fall plantings. No seed will be available to farmers from the Texas Agricultural Experiment Station, Foundation seed may be obtained from the Nebraska Station at Lincoln for the production of certified seed.

HOME FIRE PREVENTION

No homemaker or family can take too many precautions to prevent the outbreak or spread of fire which in the U. S. alone takes a toll of more than 10,000 human lives annually; the financial loss for the year 1953 was well over \$903,400,000.

Statistics show there is a steady increase in fire losses in the United States since 1938; from 1938 to 1942 the increase was gradual, then it moved up sharply until 1949. In that year and again in 1950 a decline in loss appeared only to resume rising again in 1951.

These staggering figures could be greatly reduced if the housewife and the members of her family would adhere to the following simple rules:

- Never allow rubbish, such as paper, rags, old clothing, boxes, etc., to accumulate in closets and unused rooms.
- Never fill coal oil lamps after dark or near an open fire.
- Never run stove pipes through a wooden partition or through the

roof without proper protection. Never allow furnace to contact with wood. Never put up gas line they can be swung against window casings or close to ceiling. Never put ashes in a receptacle. Never allow smoking to inflame material. Never take an open lighted amine a gas meter or other device. Never smoke in bed or bed by candle or lamp. Use sand and not water to quench an oil fire. When gasoline, benzene or are used, keep same in safety cans.

Warlike Indians are believed to have known a secret escape route. They often used the sanctuary, holding captives there. This day has not been called.

WORKING MEN'S HEALTH IS KEY

This also applies to men. So many people are wishing they were in better health. Ask those men who have tried chiropractic and you will be convinced.

It's time to stop worrying about it. Health including many other doctors. Whatever the cause, there has to be a way for it.

This woman, age 28, had trouble for 10 years. She was medically diagnosed as having stomach ulcers, put on a strict diet and to take before and after meals also had dizzy spells, bowel action, legs ache.

This same woman stopped worrying and came to our clinic. A complete spinal was made which located all of her trouble. One session to correct that and then her under chiropractic.

We dismissed her 2 weeks and she was happy and so were other patient completely free of chiropractic care. She is a regular bowel action, no spells and best of all she anything she wants now.

Health is yours for the

In Expansion Program, Sinclair Oil Dealership

announced this week the expansion of the Sinclair dealership in the Floydada area. The new Sinclair dealership is being located on East Highway 70, just west of the town of Floydada. The new dealership will be operated by Floyd Johnston, who has been in the Sinclair business since 1941. Johnston has just added a new storage tank and a new display case to the existing equipment. The new dealership will be open for business now and will continue to operate in the past and future lines to better service the people of the Floydada area.

With their venture into these new fields the personnel at Footes feel they can better serve this irrigation district of west Texas with all their fuel, oil, tire, battery and appliance needs. An open house will be held at the formal opening of the retail station on east highway 70 later this month. Floyd Johnston will continue to operate this station. Both the wholesale and retail outlets are open for business now and invite the public to come and visit to see what they have to offer.

★ ☆ ★ ☆ ★ ☆ ★ ☆ VIEWS AND COMMENT

The Supreme Court of Texas hasn't made a law like the federal supreme court did in their history-making desegregation case which now plagues school boards all over. But the Texas jurists recently did recall the painful fact that the state has a clear and concise taxation law, which at the same time, is unworkable. The court was cornered, as it were, and had to re-state the fact that property in the form of money in Texas is taxable the same as any other property. That is and has been the law since 1876 when the "new" state constitution was adopted. An effort was made to enforce the money-taxing statute for years and many and diverse were the ways by which men with means divested themselves of their cash for the period of 24 hours covered by the first day of the year. In the early 1900's all county tax collectors quit trying to make this unworkable law work and passed up, by common consent, the question of money on hand on the inventory blank. But it still is the law that cash money is taxable in Texas. But try to assess and collect the tax!

Taxing Natural Resources. Texas is exporting a great part of its natural resources and many people of the state are convinced that only powerful lobbies at Austin prevent suitable taxes being levied on these exported natural resources, meaning, in particular, natural gas that goes by the billions of feet to the north and east. So far efforts in this direction either have been abortive or have been declared unconstitutional. The resource is being exhausted at a rapid rate. The mine-run citizen thinks that Texas should be getting something for the children of the state out of this exported natural gas before it leaves the state boundary or as it leaves. Such a tax would relieve a great deal of the burden borne by other resources of the state in carrying on the state's educational program. Whether indignation at the delay in tapping this natural resource will finally boil over and legislators have to take action willy nilly is to be seen. Apparently people who feel strongly in the matter will have to talk with their representatives about it.

Most of our troubles, as a nation and people, spring from the "entangling alliances" which began a generation or so ago. Embarked on this tangent we have been unable to find a stopping place. We have "fixed up" every nation on the globe at one time or another in the last 20 years. Soviet Russia and China not expected. We are still borrowing money to keep it up. We have not had a balanced budget since 1933. We are still taxing ourselves for do-good programs that the man on the street can only imagine in far-off climes which the taxpayers have never seen and barely heard about. Every president that comes along calls for three or four billion

for the executive department to spend as it sees fit. We are even donating money and arms and the services of "social workers" (many of whom are good friends of somebody in authority and want to get a little travel experience) to nations which have balanced their budgets and got their own houses in order, so far as money matters go.

Doubtless there was good reason for the president and the other governments' heads to meet at Geneva with the Soviets in the sweetness and light conference. We mean good reason to meet and hold discussions with a straight face as though Russkys had not violated every publicly known previous pledges they had made at similar "summit level" meetings in times past; as though the Soviets were not at the very moment holding captives and slaves many of our own and other nationals; as though Soviet hands in the meeting were not stained with the blood of many human beings whom they had ruthlessly disposed of. The president had to have full knowledge of these things as did Mr. Dulles and the others; also, that the freedoms of many smaller neighbor nations have been sacrificed to the Russian lust for power. And not to mention the major build-up of military might in North Korea in direct violation of the armistice agreement.

The president knew, when he went into the conference, that of the 52 agreements the Soviets have signed since before the beginning of World War 11, fifty have been broken. An "agreement" does not mean anything in the Soviet way of reasoning. So, one has to look for some other reason why the American delegation went to Geneva than to try to reach some "agreements" which they knew would be phoney, when and if signed. You can't reach a goal of good will among men unless there are men of good will on both sides to undertake it. The only conclusion we can reach is that the American side decide to gamble one more time on their ability to get the ears of the peoples of the world and wrest from the Soviets the advantage they have held for so many years.

Effective January 1, 1956, swine that have been fed raw garbage at any time in their life and products derived from them will not be permitted to move interstate unless given special processing. The special processing reduces the value of hogs in some cases as much as 50 percent.

During the past year competition in the consumer market has become extremely keen. Credit has been used to promote sales with the result that credit outstanding has increased faster than income and is near peak levels.

CROP PRODUCTION OUTLOOK

The 1955 crop report points out the false idea of selective acreage controls. Acreage forced out of one crop pops up in another to create a new surplus.

Cotton and wheat cuts have gone into soybeans, grain sorghums, hay and other products. Neither does lower price supports discourage planting. The farmer plants more to make up his losses in price.

Here are the details of the bumper 1955 harvest expected in the nation:

FEED grain supply will be the highest in history.

CORN crop forecast is almost 3 billion bushels — 16% over 1954 — coming from a new record yield of 42.7 bu. per acre despite acreage cuts.

OATS supply looks like a record 325 million bu. — also the highest, than last year. Carryover is about 325 million bu. — also the highest.

BARLEY will be about 524 million bu., about 75 million more than last year. Carryover is estimated at

a record 140 million bushels.

GRAIN SORGHUM in Texas will approach and probably break records but production is not yet estimated. The same should hold true for the nation. Acreage is about 23 million, putting production estimates unofficially above the record 233 million.

WHEAT supply is estimated at 1.890 billion bu., about 30 million more than last year's record. Carryover next July may be around 955 million bushels with no break in sight on the surplus supply situation.

SOYBEAN crop is not estimated yet but unofficially it looks like a peak of 360 million bu., or more, based on 1954's near-average yield.

RYE crop is forecast at 27.2 million bu., 15% more than last year. **FLAXSEED** is estimated at 43.4 million bu., up 4% from a year ago.

PEANUTS are planted on 2 million acres, 5% above 1954's 1.9 million.

HAY is forecast at a record 109 million tons. Alfalfa and its mixtures also is at an all-time high of

53 million tons. **RICE** crop of 42.2 million 100 lb. bags is expected; 12 million less than 1954. In Texas, however, a record crop is anticipated but production is unavailable. The production comes in spite of cutbacks.

Tragic End Comes to Harley's Widow Over Week-End

End came for Mrs. Sadler, 58, one-time widow of the late Harley Sadler, which made West Texas history for two decades. She was found shot to death in Austin last week. The presiding magistrate's verdict of death was a surprise. She had been shot in the heart. A physician, the Associated Press, said she had been ill for some time.

Living in Austin in 1943, her husband had been a state senator in the district and as an attorney had lived at the time of her death. Her body was taken to Cameron Saturday and funeral rites were held Sunday. Interment was made in the family cemetery plot.

Law Broadened On GI Building

County Veterans Service Officer Darnell G. Ayres is calling attention to two recent changes in public laws passed by the congress and approved by the president, which affect loans to veterans.

Of these one, adopted on June 20, extends two years to June 30, 1957, and broadens the direct VA loan program. The broadened provisions add authority for loans for:

- "The construction of dwelling, purchase of farm or repair, alter or improve a farm residence owned and occupied by a veteran. These direct loans are made only where private financing is not available."
- Formerly these loans were only for buying or constructing residential homes (in towns or cities) or building or improving a farm house.
- The second law, which has now been signed, equalizes veterans who live in the country with those who live in the cities.
- This law increases to \$7,500 or 60 per cent — whichever is less — the amount of a loan that the VA can guarantee on a farm house.

The Stansells were honored with a going-away party Wednesday evening at the home of Mr. and Mrs. Ralph Taylor.

One hundred people gathered yesterday at the one-day farmers short course held at the Lockney City Auditorium and heard demonstrations and lectures on the subject "Food and the National Defense." Mrs. A. H. Kreis, Floyd County council president presided at the meeting.

Mrs. W. A. Shipley was given a surprise birthday party Tuesday, the occasion being her eighty-eighth birthday. The party was held at the home to Mr. and Mrs. Carl Surginer.

Judge and Mrs. Howard had their 11 children and their families Sunday in their home. The occasion was a double reunion of the family and in honor of the 50th wedding anniversary of Judge and Mrs. Howard.

August 30 has been set as the deadline for signing applications for all-risk crop insurance on the 1942 wheat crop. All farmers interested are urged to call at the county office at once.

Hog raisers of the South Plains area, who expected their swine herds to grow off and do good, after the exposure of the continued rains have hit a snag. Their high-priced porkers are giving them trouble still. Reports indicate cholera in some herds but this does not seem to be the general symptoms among the swine.

Jack Stansell, who has been associated with the Stansell-Collins implement agency here, assumed the duties of bookkeeper in the office of the Plainview Production Credit Association Friday. The Stansells were honored with a going-away party Wednesday evening at the home of Mr. and Mrs. Ralph Taylor.

One hundred people gathered yesterday at the one-day farmers short course held at the Lockney City Auditorium and heard demonstrations and lectures on the subject "Food and the National Defense." Mrs. A. H. Kreis, Floyd County council president presided at the meeting.

Mrs. W. A. Shipley was given a surprise birthday party Tuesday, the occasion being her eighty-eighth birthday. The party was held at the home to Mr. and Mrs. Carl Surginer.

Judge and Mrs. Howard had their 11 children and their families Sunday in their home. The occasion was a double reunion of the family and in honor of the 50th wedding anniversary of Judge and Mrs. Howard.

August 30 has been set as the deadline for signing applications for all-risk crop insurance on the 1942 wheat crop. All farmers interested are urged to call at the county office at once.

Hog raisers of the South Plains area, who expected their swine herds to grow off and do good, after the exposure of the continued rains have hit a snag. Their high-priced porkers are giving them trouble still. Reports indicate cholera in some herds but this does not seem to be the general symptoms among the swine.

Previously the limit was \$4,000 or 50 per cent. The guaranty is now under the same terms and conditions as apply to residential housing. Service Officer Ayres says, as he understands it, the new law does not change existing maximum entitlement of \$4,000 for farms with-out homes.

Mr. and Mrs. W. F. Daniel had as their guest last week their granddaughter, Bari Crull, daughter of Mr. and Mrs. Jack Crull of Lubbock.

CONSISTENTLY HIGHEST RESALE VALUE—Mercury protects your investment better than any other car in its field. Independent reports show that Mercury consistently returns more of the original purchase price at trade-in time. In short, no other car offers you bigger reasons for buying it. And you couldn't pick a better time to get a deal. See us today.

THE BIG MOVE IS TO MERCURY

Mercury is setting new sales records every month. More than 2,000,000 Mercurys have been bought since 1946.

Solid line shows how the number of Mercurys on the road has steadily increased every year since 1946.

There is no 'out of season' for products of your garden and orchard if you have a food freezer. Freezing is one of the simplest and least time-consuming ways to preserve foods at home. It keeps the natural color, fresh flavor and nutritive values of most fruits and vegetables better than other methods of home food preservation. Frozen fruits and vegetables are ready to serve on short notice because most of the preparation they need for the table is done before freezing. There are, however, some important steps to follow in freezing food successfully.

1. Select food of good quality.
2. Speed foods to the freezer.
3. Wash and sort vegetables carefully and scald or steam according to the directions for each vegetable.
4. Cool and drain quickly.
5. Pack in airtight containers.
6. Freeze at once.
7. Keep frozen foods in the freezer until you are ready to use them.

What to freeze must be decided on the basis of family needs and what they like to eat, on freezer space and on other storage facilities available.

Why Package Foods?

The purpose of packaging is to keep foods from drying out (commonly called freezer-burn), and to preserve food value, flavor, color and a pleasing texture.

All containers should be easy to seal and waterproof so they will not leak. Packaging materials must be durable and must not become so brittle at low temperatures that they crack.

To retain highest quality in frozen food, packaging materials should be moisture-vapor-proof, to prevent evaporation. Many of the packaging materials on the market for frozen food are not moisture-vapor-proof, but are sufficiently moisture-vapor-resistant to retain satisfactory quality of fruits and vegetables during storage.

Glass, metal, and rigid plastics

are examples of moisture-vapor-proof packaging materials. Most bags, sheets, and waxed cartons made especially for freezing are moisture-vapor-resistant. Not sufficiently moisture-vapor-resistant to be suitable for packaging foods to be frozen are ordinary waxed papers, household aluminum foil and cartons for cottage cheese and ice cream.

Important Things To Do

When packing containers remember these important things to do:

1. Pack food and syrup cold into containers. Having materials cold speeds up freezing and helps retain natural color, flavor, and texture of food.
2. Pack foods tightly to cut down on the amount of air in the package.
3. When food is packed in bags, press air out of unfilled part of bag. Press firmly to prevent air from getting back in. Seal immediately allowing the headspace recommended for the product.
4. Allow ample head space. With only a few exceptions, allowance for head space is needed between packed food and closure because food expands as it freezes.
5. Seal carefully.
6. Label packages plainly. Include name of food, date it was packed, and type of pack if food is packed in more than one form. Gummable, colored tape, crayons, pens, and stamps are made especially for labeling food packages.

Head space to allow between packed food and closure:

- Container with wide top opening—Liquid pack: Pint 1/2 inch, Quart 1 inch;
- Dry Pack: Pint 1/2 inch, Quart 1/2 inch;
- Container with narrow top opening—Liquid pack: Pint 3/4 inch, Quart 1 1/2 inches;
- Dry pack: Pint 1/2 inch, Quart 3/4 inch.

Freeze Plentiful Eggs

When eggs are plentiful, why not freeze a quantity of them for the time when there's a slack period. They can be used very satisfactorily in most types of foods.

- To freeze whole eggs:
1. Select fresh clean eggs. Discard cracked ones.
 2. Wash eggs. Break each one into a saucer and examine it before

adding to the remainder of eggs.

3. Break yolks and blend thoroughly with whites being careful not to beat in air.
 4. To eggs that will be used for scrambling or in salad dressings add one teaspoon salt to each pint of eggs. 1/4 teaspoon salt to each 3 eggs.
 5. To eggs that are to be used for desserts or in baking, add one tablespoon sugar to each pint of eggs.
- To freeze egg whites:
- Egg whites may be frozen without adding anything. Just freeze in quantities to be used at one time such as the amount for an angel food cake, meringues or frostings, ect.
- To freeze egg yolks:
1. Separate egg yolks from whites.
 2. Break egg yolks and mix thoroughly but be very careful not to whip in air.
- To each cup of egg yolks add one tablespoon sugar or 1/2 teaspoon salt. The addition of salt prevents coagulation of yolk solids during storage.

When packaging eggs, place several packages in one container such as a plastic freezer carton.

Eggs Keep Well

Eggs are among the most satisfactory of all foods to freeze. They keep well for 6 to 8 months and, when used it is impossible to tell them from fresh eggs. The volume of the frozen egg white is equal to fresh egg whites and, if frozen properly, they continue to keep their fresh taste.

There is one important fact to remember when freezing eggs. They must be strictly fresh, for the frozen product is only as good as the fresh or original product.

Eggs do not hold up long after they have thawed. Therefore it is not recommended to freeze a large quantity of eggs in one container unless the full amount will be used at one time.

Thaw eggs before using them—preferable in the unopened package in the refrigerator.

- 1 1/2 tablespoons thawed white equals 1 egg white.
- 1 tablespoon thawed egg yolk equals 1 yolk.
- 2 1/2 tablespoons thawed whole egg equals 1 egg.

Your food freezer can be a source of constant pleasure and convenience to you. Nothing will bring you as much pleasure, or save as much time, or add as much convenience to a busy homemaking schedule as your food freezer.

You can make every meal a surprise for your family for all their favorite foods can be right at hand in your food freezer.

You can freeze those school and picnic lunches ahead of time. Take them out in the morning and, by lunch time they will taste as fresh as when they were made.

You can cook for your guests ahead of time and spend your time with them and not in the kitchen.

MRS. GREEN IS HOSTESS AT BLUE BONNET MEETING

Mrs. Starkes Green was hostess at the home of Mrs. Oliver Allen for the meeting of the Blue Bonnet Needle Club held Thursday afternoon of last week.

Other members present for the meeting were Mmes. Everett Collier, Ernie Widener, Woodrow Wilson, Layton Dorrell, Pete Kendrick, Luther Dorrell, Dennis Dempsey, Everett Perry and Greer Christian.

Next meeting of the club will be on the afternoon of August 11 at 3 o'clock with Mrs. W. W. Goen as hostess.

Mr. and Mrs. B. P. Sandefur were in Clovis, New Mexico, last week-end on business.

Mr. and Mrs. Clarence Guffee and Sonja and Mrs. Guffee's sister and family, Mr. and Mrs. Henry Kelly and children of Paradise, spent last week-end in Colorado Springs.

Old-fashioned homemakers who were once old-fashioned "business girls" would get quite a surprise if they went into an office today. The working hours may be shorter, but the main change is not in how many hours there are supposed to be in the work day. It's in how many hours the office worker works.

Take the "Coffee Break." Once it was an occasional sneaking away. Now it's an accepted tradition. When 10 o'clock in the morning and in the afternoon roll around, everybody clears out. It's not two or three secretaries, strolling a block or two to the nearest "greasy spoon" for refreshment.

Meanwhile, the wheels of industry—or whatever—stop. If the boss sticks his head in the door and asks Mary to take a letter, he's more surprised if she's there than if she isn't. And does he storm, as an old-fashioned boss did? No, indeed. He goes meekly back to his desk and waits for the end of the coffee break.

A few resourceful employees have put refreshment machines in their own buildings. Today's office ethics demand that no one be disturbed about business details until he returns to his desk. But in case of an emergency, a manager figures he'd know where to look for his secretary.

To an old-timer, trained to believe an honest day's work was eight to twelve and one to five, with an occasional three minutes out for a drink of water, the new office etiquette is strange and exciting.

Could be that the old-fashioned boss, who let five of six employees sit and twiddle their thumbs until he put in an appearance, then expected them to stay after hours to finish a job, set the present generation of office workers a bad example.

HOSTS FOR BRIDGE DINNER

Mr. and Mrs. Ham Smith Jr. entertained their dinner bridge club on Saturday night.

Mr. and Mrs. Lamar Haines of Springfield, Colo., were guests for the evening.

Members present were Mr. and Mrs. Lon Davis Jr., Mr. and Mrs. Billy Brown, Mr. and Mrs. Billy Stanforth, Mr. and Mrs. Carl Minor Jr., Mr. and Mrs. Jim King and the host and hostess.

Mrs. Davis held high score for the ladies and Mr. Haines high for the men.

SANDWICH TIME FREEZING TIPS

A home freezer can be your "treasure chest" for summer eating. Let it simplify your meal-making during August, Sandwich Time.

The complete sandwich meal scores as one of America's favorites. Freeze sandwiches, from the hearty he-man type to dainty tea morsels—for easy-do, around-the-clock meal preparation when the mercury climbs.

Sandwiches keep as long as two weeks in the freezer or freezing compartment of your refrigerator. If you're planning to use sandwiches within a week of freezing, a double thickness of heavy waxed paper is sufficient protection. For longer storage, a moisture-vapor-proof material such as aluminum foil, plastic film or cellophane gives best results. Store sandwiches away from sides of the freezer to minimize frost inside the wrapper.

When preparing sandwiches for the freezer, spread the bread with butter or margarine before adding the filling. Do not use mayonnaise as a spread since it separates on freezing and soaks into the bread.

The best fillings for frozen sandwiches include peanut butter, sliced or ground meat, fish, chicken and cheese or cheese spreads. You may add sliced or chopped olives and dill or sweet pickles to any of these fillings. Lettuce, celery, tomatoes, carrots and other crisp vegetables change in flavor and texture on freezing and are best added just before eating. Hard-cooked egg yolks freeze well but the whites develop off-flavors and tend to toughen.

Most sandwiches will thaw in 1 to 2 hours—just enough time in many cases to drive out on a picnic. Open-face sandwiches thaw most quickly. Do not remove the outer wrapping until the sandwiches are partially thawed. If not served immediately after thawing, hold sandwiches in the refrigerator. Sandwiches should be eaten soon after thawing to prevent spoilage.
