

## Clear Skies Brighten Area Crop Outlook

### Frost Nips Top Cotton Leaves

Frost came a-nipping at the top cotton leaves Monday night in Floyd County, giving warning that the real thing is not far behind.

Meanwhile the cotton harvest was beginning to liven up and every gin in the county was running 15 to 50 bales a day as early as Tuesday.

Bright sunshine and fast opening cotton yesterday had a lively hunt for harvest hands under way.

Weather permitting gins should be running 2,000 bales a day by next mid-week and by the first Monday in November the big rush should hit.

That's the news and the predictions from the gins and the cotton farms of the county.

Sunday night's cold front that hit Floydada shortly after 4 o'clock Sunday afternoon, dropped temperatures like a plummet and there were 30-degree readings on recording thermometers Monday morning for 15 minutes.

#### Catches Top Leaves

Top leaves of cotton and late vegetables showed the pinch of the frost by 10 o'clock Monday morning, fair warning to gardeners to save what of their late vegetables, such as peppers and tomatoes they want to salvage.

Cotton men for the most part said the dip to the freezing zone was good for their crops. Top leaves are thinning out and the little bolls that had no chance to make it anyhow will be dried up and fall off.

More farmers are found who wanted more frost than those who wanted the cold to wait awhile. The next cold front, it seems freely predicted, will take a little deeper bite and may bring the total kill. The cycle of frosts seems to be running on a weekly basis.

The cold Monday was followed by a slightly higher temperature Tuesday morning, when thermometers registered as low as 32 degrees. There was no ice reported seen during the cold wave.

#### Gins Run At Night

Gins of the county at the end of the day Tuesday had a season run of 2,850 bales, most of the ginning done after night as crews finished the day and brought the cotton in to the gins.

Briscoe County gins, reporting through J. D. Orr at Lockney, had finished 1,639 bales. Orr's report had 1,535 bales in the north half of this county. C. O. Spence showed gins of the south half reporting 1,015.

Of the 2,850 bales ginned to Tuesday night 700 or more were ginned Tuesday.

Cotton is popping open fast all over the county. The guess of the TEC labor men was that some 500 hands could be placed in the county as of yesterday.

## Calls Will Ask Money To Help Needy Millions

"Trick or treat" this Halloween means the youth of the First Methodist Church are collecting money to send milk to the world's needy millions through Christian Rural Overseas Program (CROP).

On Monday night, October 31, the youth will knock at all homes for a Halloween "Trick or treat". Instead of tricks, though, they will be asking for treats in the form of money which will enable CROP to send milk to the world's hungry at the rate of \$20.00 worth of milk for every \$1.00 collected.

Christian Rural Overseas Program is the agency of 35 denominations, collecting food or fibre (or cash to purchase commodities) to be sent through Church World Services to church agencies overseas for distribution.

For every dollar this community contributes this Halloween, CROP will be able to send \$20.00 worth of milk to the places where it is desperately needed. \$25.00 will distribute 5,000 pounds of surplus milk. 700 pounds of milk will provide one cup of milk per day for 30 children for one year, says CROP.

Contributions will be accepted by the youth of our community when they knock at your door on Monday night. Each will wear an official badge and carry specially marked cartons.

Youth are asked to meet at the First Methodist Church and will be assigned streets to work. After making the town they will meet back at the church for refreshments.

### MORE PAVING SCHEDULED

Prospects for more paving seemed good this week as arrangements were being made with the West Texas Construction Co., Inc. to move into Floydada for paving work.

Dub Turner of the Lubbock paving firm was in Floydada on Tuesday and talked with local engineers, City and Chamber of Commerce officials.

Property owners on two blocks on South Fourth and Crockett Streets have indicated that they want their streets curbed and paved. W. R. Puckett is representing the West Texas Construction Co., in Floydada and hopes to add other blocks to the paving contract. The contract will be signed by the company and the Chamber of Commerce with the approval of the City of Floydada.

Cost of the curbing will be \$1.50 per foot. Paving will be \$1.15 per square yard. The curb, base and a seal coat will be put down this Fall. The final topping will be applied in the Spring.

Property owners interested in paving in any section of the community were asked to call Puckett or the Chamber of Commerce office.

### Sand Hill Woman Highway Crash Victim Friday

A crash on the highway early last Friday night near Colorado City, killed Mrs. Cecil Seale, 45, Floyd County farm woman, and also resulted in the injury of her husband and her brother, J. D. Everitt, of Lubbock.

The injured were members of a two-car party which was enroute from Floydada and Lubbock to Miles, Texas, for a football game.

Funeral rites were held for Mrs. Seale at Idalou Monday afternoon at 2 o'clock, with Rev. Charles Gates, pastor of the Stratford, Texas, Methodist Church, officiating.

Burial was in Tech Memorial Park in Lubbock.

The family had lived 12 miles northwest of Floydada in Sand Hill since January, when they moved here from near Lubbock.

Mr. and Mrs. Harding Jackson, Mr. and Mrs. T. C. Hollums, Mrs. Hilery Shurbet, and Mrs. Bud Pope were among the Sand Hill neighbors who attended the rites at Idalou for Mrs. Seale.

The story of the crash as gathered by reporters Friday night was as follows:

The accident occurred 18 miles south of Colorado City on Highway 208. Three other persons were injured in the wreck, Mr. Seale and Mr. Everitt are still in the hospital.

K. E. Pennington of 2611 2nd St., Lubbock, who was driving directly behind the southbound Seale car, said the accident occurred when an approaching car, driven by Bill Casey of Robert Lee, attempted to pass a third vehicle.

Casey, seeing he didn't have time to get back into his lane, swerved toward the bar ditch on the west side of the road. However, Seale also swerved his car toward the

The first appreciation day will be at 3:30 p. m. on Friday, November 4.

### White Auto Store Builds Warehouse

White Auto Store in Floydada has just completed a new warehouse behind their place of business at 117 West California Street. The new structure is all metal and concrete and is 24 feet by 36 feet with a drive-in door at one end and service entrance at the other.

The building is the new wonder building erected by Bob Collier and gets its strength from the rolling oval shaped corrugated top. Reports say this type of construction proved itself at recent bomb tests in Nevada.

W. E. Garrett of White Auto says the warehouse will greatly aid in the handling of Christmas merchandise and lay-aways.

Specimens which helped make the fall flower show a great success in connection with the county fair are shown above. The dahlias were grown in the flower garden of Mrs. John Carthel. The less well-known candle stick, a tropical plant, in the foreground, was grown by Mrs. Leslie Floyd.

### Name Changes for Floydada streets designed to simplify street designations

Plans for name changes for Floydada streets designed to simplify street designations were adopted by Gene Collins, Jr., right, in an open forum meeting of the Chamber of Commerce last week. Left is president T. L. Holland of the organization. Collins is a member of the Civic Improvements Committee, which is convinced the change would be helpful and needs to be done now. Opponents of the plan say it would be expensive and ineffective.

The new plan were adopted the two east and west streets Missouri and California north and south streets Main and Wall would be left unchanged. East and west streets north of Missouri would have alphabetical names beginning with B at Virginia. South of California the east and west streets would be an alphabetical sequence, using tree names or Texas cities, to illustrate. The north and south streets north of Wall would begin with C and run through the alphabet. West of Main the north and south streets would be numbered beginning with 2 and running on out.

### Whirlwinds Face Tough Spurlin Bulldogs Here Friday Night

The Whirlwinds ancient Spurlin Bulldogs, will come to town Friday night to battle the Wester field. The whirlwinds will bring an undefeated team to enter this important clash which gets 8 p. m.

The Bulldogs defeated last week at all but wiped out any chance of their winning a district title. Another loss this week would mean their elimination from the district.

The Spurlin Bulldogs are in a tight three-way race with the Tahoka Bulldogs and will be out to clean sweep of their district.

Best in Years

The Spurlin Bulldogs have won their best team in 10 years. They have won 10 games and lost 2. The Bulldogs are now in the lead in the district.

total of 193 themselves.

The 'Dogs run from the T and winged T formation with Eddie Haggis, 163-pound fullback, and Don Snodgrass, 185-pound halfback giving speed to the attack. Alton Williams at 147 does the man under chokes and the other half is held down by Jerry Dunaway, a 152 pounder.

In the line Spurlin has been using Billy Watson, 161, at center; Carlos Bass, 183, and Bobby Tomason, 170, at guards; Gene Roberson, 194, and David Morgan, 188 at tackles; Ronnie Ensey, 165, and W. Haingrove, 150, at ends.

The Whirlwinds who have been playing good defensive ball know they will have to come up with

#### SPEARS TO AUTO SHOW

Mr. and Mrs. George Spears left yesterday for Kansas City, Missouri, to attend a Nash dealers meeting and preview showing of the new 1956 Nash line of automobiles. They made the trip by car and will return some time next week.

Spears is associated with his father W. M. Spears in the automotive business on North Main Street in Floydada.

# Abernathy Antelopes Down The Luckless Whirlwinds 27 to 0

Abernathy's speedy Antelopes downed the luckless Floydada Whirlwinds Friday night in Abernathy by a 27-0 score. The Antelopes struck for 13 points in the opening period and then were held for two quarters before they exploded again in the final frame for a safety and another pair of TD's.

The Whirlwinds played one of their best games of the season, but fate refused to smile on their efforts as the close decisions and officials' whistles left them on the short end on all counts.

The Antelopes were quick to take advantage of all opportunities as they rolled both on the ground and in the air to rack up 15 first downs, 318 yards rushing and 36 yards passing to 7 first downs, 105 yards rushing and 0 yards passing for Floydada.

Roy Sons and Fred Apperson were big guns of the Antelope attack as Sons accounted for 147 yards in 15 tries and Apperson went for 90 in 15.

The Floydada attack was headed by Fulton who made 46 in 13, Stovall with 32 in 10, Colley and Swanner each had 10 yards net and Waller 7.

### Whirlwinds Receive

Starting the game the Antelopes kicked off with ConnellyConnell toeing one to Don Colley on the Floydada 12. Colley returned the ball to the 18 where he was brought down. The Winds ran the ball back up field to their 35 where their drive bogged down and Swanner punted on fourth down. The kick was blocked and the Antelopes owned the ball on the Winds 6.

It took all four downs for the Abernathy boys to score and it looked for a time as if Floydada had staved off the attack when they recovered a fumble on the 5 yard line, but after their offensive unit took the field the officials ruled the whistle had blown and the Antelopes retained possession. The pass for extra point failed and the score Abernathy 6 Floydada 0.

Connelly kicked this time to Fulton on the 20 and he ran back to the 31 where he was downed. The Wind offensive failed to function this time and Swanner punted from his 33 dead on the Antelope 23.

### Lateral Starts Long Run

Abernathy made a first down on their 35 before Apperson was stopped for a short gain. The Antelope quarterback was not downed however and with several Winds holding on he lateraled the ball to Sons who worked his way 62 yards to score. Jordan ran the point after and Abernathy owned a 13 - 0 lead.

As the quarter ended Connelly kicked to Colley on the 5 yard line and he ran back to the 33. Opening the second period the Winds were held to short yardage and Swanner kicked from his 35 to Connelly on the Antelope 22 where Larry White went down fast and put a bruising tackle on the ball carrier. A few

plays later Stovall covered an Abernathy fumble and the Winds had possession on Abernathy's 36.

Following the recovery by Stovall Floydada made its deepest penetration and drove to the Antelope 17 where they were held and lost the ball on downs. Abernathy made short yardage and Waller recovered a fumble on the 26 to again give the Winds possession. This time they lost on an interception and Abernathy took over on their 28. James Hartman received an injury on the play and had to be removed from the game.

The Antelopes had gained but 3 yards when Connell punted from his 31 to the Floydada 46. The Whirlwinds began to roll down field this time but were stopped by another interception when Apperson pulled one down on the Antelope 20. The half ended with the Antelopes owning the ball 4th and 1 on their own 29.

### Swanner's Good Kicking

After the intermission the Winds kicked off with Swanner booting to Apperson on the Antelope 20. The kickoff was run back to the 38 where the ball was put in play. Abernathy advanced the ball to the Floydada 25 where the Winds stiffened and held to take possession. Floydada then drove the ball to the Antelope 49 and were held. Swanner punted out of bounds on the Abernathy 5.

The Antelopes then started a drive that carried to the Floydada 32 as the third period ended.

Going into the final stanza the Antelopes were held for downs on the Winds 18 and Floydada took over at that point. Floydada made but one first down and then lost ground and Swanner punted from his 28 to the Antelope 29.

After picking up first down yardage to the 45 the Antelopes shook Apperson loose and he went 55 yards to score. The point try failed and Abernathy led at this point 19 - 0.

The ensuing kickoff was taken by Waller on the Floydada 14 and he ran back to the 29 where he was brought down. The Winds playing with a somewhat patched-up lineup by this time could not gain and Swanner again punted, this time getting off his only short kick for the night and it went out on the Floydada 47.

### Punt Is Blocked

Abernathy drove to the Winds one where they held and took over. A few plays later Swanner attempted to kick out from his 8 but the charging Antelopes broke through again and blocked the punt which rolled out of the end zone giving the Antelopes a safety, and bringing the score to 21 - 0.

The kick this time was from the Winds 20 and Swanner sent one to Joe Smith on the Antelope 45. He returned it 4 yards to the 49. The Antelopes drove to the 20 and on

Grand Champion boar of the hog show at the county fair was this Chester White shown with Eddie Joe Fortenberry and Joe Cunyus, of the partnership of Cunyus, Fortenberry and Sherman.

a pass play completed on the sideline scored their final TD. The PAT again failed. Final score Abernathy 27 - Floydada 0.

The Whirlwinds put up a gallant fight which was much better than the score would indicate. About every boy saw action who was suited out and in condition to play. Several of the younger players showed unusually well on defense and once held the Lopes for downs inside the 10.

Getting into the fray were Don Colley, Larry White, Robert Stovall, Laron Fulton, Gary Huckabay, Loran Nixon, James Teague, Gene Swanner, J. E. Waller, Don Sparks, Stanley Burleson, Grant Cooper, Lynn Raley, Max Crawford, Frank Potts, Dale Lawson, Buddy Watts, Dale Redd, Winfred West, James Hartman, Johnny Timmin, Marvin Rucker, Eugene Beedy, Kenneth Robertson and Elmer Williams.

One of the brightest spots on the Whirlwinds' side this season has been the punting of Gene Swanner who has a very respectable average and has put lots of yardage on most every drive the opposition has had to make.

The Whirlwind defense looked good despite the score and except for several key plays, where runners

were all but snowed under for short gains then broke away to go the distance, the teams were pretty well balanced.

### THANKSGIVING FAVORITES ON PLENTIFUL FOODS LIST

COLLEGE STATION—The November plentiful foods list is heavy with Thanksgiving favorites. So much so, it is described as a shopping list for the traditional Thanksgiving dinner.

Heading the list of favorites for the holiday season is turkeys. Then says Mae Belle Smith, extension specialist in consumer education, there is an abundant supply of rice

for stuffing the turkey and plenty of cranberries, raisins, grapes and potatoes.

Other favorite foods include beef, broilers and fryers, milk and other dairy products and canned tuna. But taking the featured spot for the month are pork and winter pears.

Stocks of lard and vegetable fats continue to increase as hog marketings climb and new crops of soybeans and cottonseed move to market.

All in all, Mrs. Smith should be no stranger to the season and shopping made easier. Reports indicate Mr. L. A. Marshall, who was taken to a hospital last Friday for medical treatment, is in good condition.

"With four children, you want to heat water the SAFE WAY . . . of course, it's Electric!"

says Mrs. Roy N. Byrd, Jr. 1209 20th STREET, CANYON, TEXAS

"When Roy and I picked a water heater for our new Canyon home, the safety of our four children was the first consideration. We had two electric water heaters at our farm, so we knew that we could be safely sure with an electric water heater in our new city home."

"I was really surprised when one new 40 gallon electric water heater proved to be enough in our new home—especially after having two. But, we've never run out."

"My clothes washer works every day—at least once—and yet the water heater keeps up with it and the dishwasher, too, which I use at least two times every day."

"Then, at the sink, I'm always using hot water for cooking, to prepare food for the freezer, or to wash out things for the children. There's always enough."

"Four children can produce a lot of dirty hands—and keep the baths busy. We have a shower and a tub so that we can clean them up in shifts—and that takes lots of hot water."

"My electric water heater gives me plenty of hot water, an extra counter space, and a feeling of complete safety about my children. It goes perfectly with the other work-saving electric appliances in my home."

Recently a woman's magazine carried a story about a very modern new elementary school. Just one story high, and planned for efficient use, it has one completely un-scientific feature. A patio wall looking into the school-yard is made entirely of glass. Every so often, but in no set pattern, a large square of glass in purple, red, amber or green is placed. Visitors always ask what they are for. The answer around the school has become classic: "To look through. Stupid!"

It takes us back to the days when we were very small. We lived in a windswept West Texas town and one of our chief diversions was taking a broken bit of colored glass — brown, purple, bottle green — and looking at the world of our own backyard through it. The color added glamour to the most commonplace things. An unpainted fence, an old tin churn, the family buggy, a horse or cow — seen through this medium — seemed figures from fairyland.

In today's well-kept streets and yards, there is little broken glass lying around for children to enjoy. And if there were any — now that we know so much about sanitation — they probably would be trained not to pick up the old dirty objects. Yet it would be a shame for this bit of children's make-believe to be forgotten.

We salute this modern-day architect, whoever he may be. Perhaps he recalls the childhood need for something on which to feast the imagination. And while it may not help a youngster with his Latin or his sums, he'll be in a much better mood to enjoy language and literature, nature study and art if, on the way to class, he has caught a glimpse at life through rose-colored glass.

### Sand Hill News

(By Mrs. James Jeffress) SAND HILL, Oct. 25—The freeze Sunday night killed most of the leaves on the cotton, so in about two weeks the cotton pulling should get under way. Some have pulled a few bales the past week. Lots of the feed is out and in the elevators. Grain was all over the place at the Barwise elevators last week, waiting for box cars to ship it out.

Mr. and Mrs. Monroe Schulz and family spent the week-end in Vernon visiting in the home of Mr. Schulz's parents. They returned home Sunday night.

It seems that everyone from the community that went deer hunting came home with a deer or two. J. T. Spears, Bud Pope and Chuck Holmes all returned home with deer for their freezers.

Mr. and Mrs. J. R. Turner and family spent Sunday visiting in the home of her sister, Mr. and Mrs. James Peevey and family in Lorenzo. Bonita Peevey returned home with Kay Turner to spend a few days.

Our deepest sympathy goes to all the friends and neighbors of the Seale family in the community on the loss of a dear friend. Everyone was shocked when word was received Saturday morning that Mrs. Seale had been killed in a car wreck. The Seales hadn't lived in the community long but everyone loved them. May God be with her loved ones

in this great sorrow. Mr. and Mrs. W. R. Billington and Jim Holmes were guests in the home of Mr. and Mrs. William Mays Sunday afternoon.

The Youth Revival that was held last week at the Sand Hill Church was one of the largest the church has ever had. Evangelist Paul Carlson held the services. The church was overflowing each night. Many rededicated their lives, many moved their memberships and new members were gained by baptism.

Mr. and Mrs. James Jeffress and family were in Midland over the week-end visiting in the home of Mr. and Mrs. C. H. Jones. They spent Sunday in Crane visiting Mr. and Mrs. Johnny Stokes and family and Mr. and Mrs. Billie Caldwell.

Mr. and Mrs. H. F. Jackson and Mr. and Mrs. Lynn Miller and family were in Tulsa Sunday visiting in the home of Mrs. Miller's sister.

Mr. and Mrs. Roy Slater left last week for different parts in Oklahoma where they will visit relatives and friends for the next few days.

Visiting in the James Jeffress home Friday and Saturday were Mrs. Dorene Jeffress and Wanda Ashley of Valley Farms, Ariz., Lee Ann Ashley of Plainview, Jim Holmes and Jim Jeffress of Silverton.

Mr. and Mrs. Cager Carmack spent the week visiting their son, Bobby in Oklahoma where he is attending college. They reported visiting relatives all along the way.

### Mrs. W. W. Trapp 1929 Club Hostess

The home of Mrs. W. W. Trapp was the scene for the 1929 Study Club meeting last Thursday afternoon.

Mrs. E. L. Norman, president, presided at the meeting.

Program topic for the afternoon was "Know Your America". Mrs. S. J. Latta displayed the United Nations flag and told of some of the work of the United Nations. Mrs. Q. D. Williams, program chairman, introduced the guest speaker, Veterans Service Officer Darnell Ayres. He told of the opportunities for veterans through the Veteran Administration.

Lovely refreshments were served to Meses. W. H. Bethel, Hollis R. Bond, A. B. Chapman, C. W. Dentson, Gordon L. Downing, R. E. Fry, Sam Green, Tate Jones, S. J. Latta, J. D. McBrien, E. L. Norman, Lee Rushing, R. M. Stovall, J. C. Veach and Mrs. Q. D. Williams.

The next meeting will be Nov. 3 at the home of Mrs. Alton Chapman with Mrs. E. L. Norman as co-hostess.

Editors, Binders, bound records, work sheets. Hesperian.

# Officers for 1956 Are Elected By Floyd County H. D. Council

County Council of the Floyd County Home Demonstration Clubs met Saturday in the council room of the court house.

There were 21 members, representing 11 clubs, two visitors and Mrs. Harriette Brummett, county home demonstration agent, present.

The president, Mrs. M. J. McNeill, announced now is the time to start thinking about getting a contestant for the "Homemaker of the year" contest sponsored by the soil conservation program, as names must be in to the council by Feb. 1, where one will be chosen to represent Floyd County.

Mrs. Brummett urged all council members to be present at the next meeting with annual reports. The presidents are to report achievements of their club and council committee chairman have annual report of their work. She also asked each club lady to be prompt in returning the individual reports, she plans to get mailed this week.

Scissors can still be ordered through Mrs. Brummett at 33 1/3 per cent discount to club members.

Presidents are to report to Mrs. Brummett the number of ribbons won by club members at the Floyd County Fair this year.

New officers were elected for '56. They are: president, Mrs. Grigsby Milton, vice-president, Mrs. Elmer Norrell, and secretary-treasurer, Mrs. J. T. Spears.

Mrs. McNeill appointed committees for the annual Christmas party for the out going and in coming council members. The entertainment committee is the council recreation

committee, Mrs. L. T. Woods, Mrs. Raymond Teeple, and Mrs. C. H. Huffman.

Refreshments and table decoration Mrs. J. T. Spears, Mrs. R. G. Dunlap and Mrs. A. H. Kreis.

Place and tree decoration committee, Mrs. Zant Scott, Mrs. Elmer Norrell and Mrs. R. W. Johnson.

Present were: Mmes. McNeill, Grigsby Milton, J. T. Spears, G. W. Smith, Howe Hines, A. H. Kreis, Zant Scott, R. W. Johnson, Raymond Watson, Raymond Teeple, W. D. Nance, Vernon Gross, A. M. Dorsey, H. F. Jackson, L. T. Wood, Mary Simmons, C. H. Huffman, S. J. Latta, W. W. Trapp, H. W. Roberts and Mrs. Brummett.

# Highlights And Sidelights from the State Capitol

(By Vern Sanford Texas Press Association)

Austin, Tex. — Speculation is running high that both Gov. Allan Shivers and U. S. Sen. Lyndon B. Johnson will have leading roles in the selection of the next Democratic presidential nominee.

Both have denied participation in any movement for a Southern coalition to block re-nomination of Adlai Stevenson.

Johnson denies that he is heading up a coalition. Nomination is up to the delegates, he said, and he will support whoever wins out. And he is not a "conservative," the senator stressed, but a "moderate."

Johnson, before his heart attack last summer, was considered a likely future contender for presidential nomination. Some believe, should he regain his health sufficiently, he again will enter the picture.

Gov. Shivers, at the conclusion of the Southern Governors Conference, took a slightly different approach. He said he will vote for the presidential candidate "I think is best for the future of my country, and I hope the Democrats can produce that man." He also said he knew nothing of a drive for Southern control.

### DAC vs DSE

Texas has two Democratic organization drives, highly competitive under way. Selection of Lt. Gov. Ben Ramsey as a harmony-unity choice for Democratic State Committeeman so far has not reduced the competition.

Leaders of the Texas Democratic Advisory Council, set up by Speaker Sam Rayburn, say they plan to carry on organizational and money-raising efforts. This liberal group organized to "carry on the functions of national committeeman" during the years Wright Morrow was barred from the seat, has raised money the past four years for the national party. It now is busy organizing for control of presidential conventions next year.

On the other side of the picture is the Democratic State Executive Committee, conservative pro-Shivers organization. DSE also is carrying on organizational and money-raising efforts and has no intention of stopping, according to State Chairman George W. Sandlin.

A DAC meeting is scheduled for Nov. 4, to select a leader to replace Navarro County Judge Jim Sewell.

Outside observers have suggested a connection between the resignation of Sewell from the liberal group and the ousting by conservatives of Wright Morrow. It is part of an over-all effort, they hint, to rid both groups of extreme left and right-wingers and merge Democratic party factions for a strong voice in national affairs.

### Third Shot Necessary

Officials of the State Health Department have declared that three Salk polio shots are necessary for maximum protection against crippling effects of polio.

Children who have had two shots should have the third "booster shot" early in the Spring of 1956, the Department urged.

In answer to a series of questions, the Health Department explained that it is not known at present exactly how long protection from three Salk shots will last. Experts now estimate protection at about two and one-half years. Perhaps after that time, booster shots again will be advised.

Persons who have already recovered from polio also should have the shots, the Department said. There are three types of polio. Having a case of one type will not set up immunity against the other two. The Salk vaccine as aimed at giving immunity to all three types.

Only nine Texas children have been stricken with paralytic polio despite Salk inoculations, Dr. Henry A. Holle, state health commissioner announced. The nine cases were among 473,830 vaccinated children.

### Entrance Exams Approved

Beginning next fall the University of Texas will admit students on the basis of aptitude test scores. Tests are to be given probably

three times a year, without cost to the applicant, at centers throughout the state.

Rapidly increasing enrollment necessitated tests to eliminate students who will be unsuccessful, the Board of Regents stated.

### Anti-Crime Strategy

A multi-fold educational program to reduce crime in Texas was proposed at an Austin conference of three law enforcement groups.

Suggestions included (1) greater publicity on the cost of crime, (2) establishment of a four-year college course in criminology, and (3) education of youngsters by a touring "crimobile" equipped with latest detection devices.

Participants were the Texas Law Enforcement Foundation, the Attorney General's Citizens committee on Law Enforcement and the State Law Enforcement Advisory Council.

### Booby Prize Stolen

Last year Austin received the "booby prize" in the Safe Driving Day contest. Award was a dented fender which was displayed — but not proudly — on the city hall lawn.

Painted on the fender, in white was "Awarded to Austin, Texas for Last Place in the First Annual Safety Bowl."

Theft of the "prize" was discovered last week when preliminary work began on the upcoming S-D Day. Nobody knows who took it, or when. "We never were too happy about getting that thing in the first place," said Captain Bob Miles of the Austin Police Department. "We didn't keep up with it very closely."

**SHORT SNORTS:** Amar Nandi of Calcutta, India, on tour as a guest of the U. S. Senate Department, visited in Austin last week. He is assistant editor of India's largest newspaper. Only 36 years of age, Nandi spent nine years of his life in prison or in hiding, during India's struggle for independence — Veterans land program profits of \$7 to \$8 million within 10 years and \$40 million after 40 years were predicted by Land Commr. J. Earl Rudder.

Restored confidence and better laws will bring about the gains, he said — Mail Christmas packages to military personnel overseas not later than Nov. 15, Austin Postmaster O. N. Bruck has urged. Even earlier mailing for personnel in Japan, Korea and the Pacific was suggested — Sen. Jimmy Phillips of Angleton said future veterans land inquiries will be hindered by complete overturn of the investigating committee. It's unusual for the coach to put in a completely new team after you have driven from the shadow of your own goal posts to the opposition's 10-yard line," he said.

S. F. Conner, 122 W. Houston, was returned to St. Mary's Hospital Sunday and he underwent surgery Wednesday morning.

Mr. Conner's condition is serious and he will remain for several weeks in the hospital. Mrs. Conner has been with her husband during his illness.

Mr. and Mrs. Ben E. Blackmon and sons, Chuck and Chris, of San Diego, Calif., are here visiting in the homes of Mr. and Mrs. J. Sam Hale and Mr. and Mrs. B. Woody of Dougherty.

Mrs. Wm. M. Campbell, of Neotoma, Oregon, who has inherited property interests in Floyd County, acquired by her father in 1898, has been a business visitor in Floydada this week.

# Hailed Cotton Yields Studied

How much damage does a hail storm do to a cotton crop? Editor Eugene Butler has some surprising answers in his article "Hail Damage to Cotton" in the November issue of The Progressive Farmer magazine.

"We have grossly underestimated the ability of a cotton plant to take a beating and come back with a good yield," he explains.

For the past three years the Texas Experiment Station, under the supervision of Dr. Harry Lane, has been conducting tests at College Station and Lubbock that will tell us a lot more about hail damage than is now known. From their tests and observations of actual farm experience, they have learned that hail seldom reduces the yield of cotton very much by thinning the stand. Total loss of leaves is serious but 75 per cent of the leaves can be lost early in the season without loss in yield. Topping the plant doesn't seem to hurt cotton much, especially irrigated cotton.

Dr. Lane believes that cotton in the Lubbock area damaged by hail before July 1 will usually recover and yield better than cotton replanted at that time. If it has a good root system, some stem, and a little leaf, he recommends that the cotton be left alone.

Dr. Lane feels that the hail tests should show both farmers and insurance companies what to expect from hail-damaged cotton. Such information will provide a better basis for paying hail losses, so that farmers will neither be underpaid nor have to pay rates for insurance that are too high.

# Tech Exes Will Meet Nov. 1st

L. C. Walker, executive secretary of the Texas Tech Ex-Students Association, will address Floyd County Tech Exes when the group meets in Lockney Tuesday, Nov. 1.

Walker will address the group following a dinner, which is scheduled to get underway in the Lockney Ward School cafeteria at 7:30 p. m. The dinner will be the second for the year for the Floyd County Exes, the first organization meeting having been held in May in Floydada.

Notices are being mailed this week to the members by Mrs. Dorris Jones, secretary for the organization. All who have at any time attended Tech are invited to attend and join the organization.

Ned Bradley of the Antelope Community heads the association. Other officers include J. S. Hale, first vice-president; R. C. Mitchell of Lockney second vice president; and Brac Biggers, treasurer.

### THE AFFIRMATIVE WON

One day, Ivy Lee, a publicity man, called on John D. Rockefeller at Pocantico Hills, to discuss a proposal. The old man asked Lee to explain the plan, and Lee made as strong an argument for it as he could.

At the conclusion, Rockefeller was silent for a moment, and then asked Lee to make an argument against it, setting forth the weak points Lee compiled, revealing every danger and weakness he could think of.

Again Rockefeller was silent, and then he said, "Well, Mr. Lee, apparently you have considered both sides of this question, but I think the affirmative has the better of the argument, so we will go ahead."

Great men see with both eyes and hear with both ears. With the facts before them, they can reach a sound judgement. Two other qualities common to highly successful men are frankness and enthusiasm.—The Neighbor.

"Yes, dear?"

"There's a corner torn off your pay check."

"Yes, dear?"

"Well, what did you spend it for?"

Diving ducks (cans, redheads, broadbills) take off by running along the top of the water to gain flying speed; puddlers (pintails, mallards, blacks) spring straight up out of the water in taking off.—Sports Afield

# Why Are Farm Prices Falling

The marked decline of farm income in our nation within the past few years in spite of a business and financial boom is a cause for concern of every citizen of Texas and the nation.

Explanations ranging from rising farm costs and burdensome surpluses to downright poor management have been offered by those who must defend their positions as farm policy-makers.

Actual reasons for farm decline evolve not around an increase in our farmers' operation costs, but in lower prices paid for their commodities, directly induced by the "sliding scale" price support system.

An astounding drop in the nation's farm operator's net family income from \$14.3 billion in 1952 to \$11 billion annual rate in the second quarter of 1955 has occurred in spite of, and not because of, changes in farmers' costs of production. Farm production costs actually dropped from \$23.4 billion in 1952 to an annual rate of \$22.5 billion in the same quarter of 1955. This was probably because of falling gross income made it impossible for farmers to replace worn-out equipment and machinery.

A most unrealistic answer to the economic distress of farmers has been offered by high-ranking officials who say the trouble lies in

increased costs for farm equipment. In the first place, the farm "parity" program as set up in the Agricultural Act of 1948 is disposed to set farm income up on a "par" with the income of other segments of the population.

This being the case, the rise in farm machinery costs should be accounted for, since the parity price is calculated by a formula that takes into account all changes in the prices of things the farmers buy.

Furthermore, farm equipment costs have increased by only about 3 to 5 per cent since 1952. This contrasts with 25, 30 and 35 per cent drops in prices in a majority of commodities the farmers sell. So the problem can't be just explained away that simply.

The obvious conclusion is that which is most evident to the farmer himself: lower prices received for the commodities he produces and sells. These price drops were allowed because governmental policy and weakened farm legislation has removed effective and adequate support.

If this trend is not soon reversed, all other phases of our national economy are sure to realize its damning effects.

Rev. Tom Condon, pastor of the Cumberland Presbyterian Church is chairman of the House of Friends sponsors.

# To the man who's thinking about buying a new truck:

maybe you're missing something...

➤ And what you're missing is more than "maybe," it's for sure—if you haven't yet visited your Dodge truck dealer.

➤ Do you want to miss a rock-bottom price? Perhaps you haven't realized that Dodge trucks actually cost less than you'd pay for corresponding models of most other makes.

➤ Do you want to miss power so high it leads the field? Consider this: with engines of 169 to 175 horsepower, Dodge overpowers every other leading make of truck in the low- and medium-tonnage fields.

➤ Surely you don't want to miss the dependability, the over-the-years economy for which Dodge is so well known.

➤ You don't want to miss Dodge safety—which includes the biggest wrap-around windshield of any truck on the road, the shortest turning radius. Or Dodge superior cab comfort... Forward Look styling.

➤ In short, you can get a whale of a lot more truck for a good deal less money than you think! Stop in and see your Dodge truck dealer right away—don't miss anything!

ED NEWS**

John Nay returned from vacation last Sunday, visiting daughters, grandchildren and relatives in Arizona and California. On the way back he saw Zion National Park, Grand Canyon, Sunset Crater and the Painted Desert. He says the Grand Children are greater than all these nature wonders put together.

Nancy and Harry Morekel left Saturday for Colorado. Harry is going deer hunting while Nancy tries to rest and read. We all hope they have a very nice time.

Mr. and Mrs. Ken L. Walker and children of Clovis, N. M., visited with the Pete and Buck Hickersons on Sunday.

Nylon is a versatile and wear-resistant fabric. It is washable but dyes, finishes and trim on nylon garments may not be, so judge the construction first. White nylon has an attraction for even fast colors so wash it only with other white clothing — not even the palest pastels. Bluing, not bleach, is the remedy if you err.

Orlon is rapidly becoming available in a wide variety of garments and household furnishings. They are wonderfully wrinkle resistant. If properly woven, these garments are thoroughly washable when made of 100% orlon. Blends of the orlon-wool, orlon-cotton and other familiar fibers are also washable. However, when laundering any synthetic blended with familiar fibers also washable, check percentage of synthetic — it must be more than the fiber it's blended with to retain easy-washing, quick drying characteristics of synthetics.

One of the new synthetic fabrics that can be tossed into the washing machine with confidence is dynel — which is extremely resistant to acids, soaps, and strong detergents. This has made it especially popular for blankets, underwear, and children's and infants' sleepwear. Dynel blankets should be washed like wool — in lukewarm water (120 degrees). It is sensitive to excessive heat. Like wool, 100 percent dynel should never be brought direct in contact with heated metal surfaces if temperature is over 240 degrees. Prolonged heating could discolor and stiffen such articles. Blends of dynel and natural fabrics, however, can be ironed at normal "rayon" setting on the electric iron like other synthetics.

Here are some suggestions on how to wash the new miracle fabrics:

Today we cannot rely on grandmother's way of washing clothes because clothing then was woven in four natural fibers — cotton, linen, silk and wool. In this day and age our clothes can be made of those

Others who helped with the booth included Manager Melvin Henry, Engineer Claude Weathersbee, Line Foreman Wiley Rogers and others.

plus many man-made fibers which can be washed in the washing machine but require special care as to water temperature and the use of chemicals.

The handsome and long-wearing fabrics made from these fibers have many amazing qualities, never before thought feasible — warm though light in weight, they can be washed and dried in a jiffy; they shed wrinkles and keep their shape over long periods; they require little or no ironing; and they are completely unaffected by moths and mildew.

But, to get the most out of them, it takes a little know-how. If you follow a few simple rules in their laundering, their "right from the store look" can be made to last for years, and they'll wear like iron.

First of all, as with all fabrics, check whether a garment made of the new synthetics is actually washable. There is only one safe way — look at the label. And don't forget to check the lining, trimming, buttons and belt for washability.

In general, when laundering these miracle fabrics, it is a good policy to separate light from dark garments. Avoid long soakings and be wary of using strong chlorine bleaches.

Dacron is famous for resistance to wrinkles, stretching, heat, wear and sunlight. Garments of complete dacron construction can be washed in warm water (140 degrees) along with nylon, orlon and acrilan (which resembles wool), using a mild detergent and a washing period of about 3 to 6 minutes. Do not put through dry cycle, wrinkle, or wring out garments with hands to get rid of excess water — you may set wrinkles that are hard to get out. Most synthetics dry rapidly because they absorb little water and what is held in the fabric drips out quickly. "Drip-dry" is the recommendation for the new fabrics. This means to hang the garment on a wooden hanger to allow for weight of the water left in the garment to do the "ironing" job for you. The weight of the water left in the garment literally presses it.

same ditch and the two vehicles hit head-on. Casey suffered minor injuries.

## Thrown From Car

Seale was thrown from his car, which apparently overturned. Pennington said so much dust was raised he did not actually see the car flip. He said, however, that although the car came to rest right side up its top was caved in.

Mrs. Seale was riding in the rear seat of the car with Everitt's two children, Linda 12, and Jerry, 7, neither of whom was seriously hurt. Everitt was riding in the front seat with Seale.

Pennington said that he, his wife, Mrs. Everitt and the other two Everitt children were riding in his car as part of a two-car party going to a football game at Miles, which is near San Angelo. Pennington's son is coach at Miles. Pennington is a brother of Mrs. Everitt and Mrs. Seale was a sister of Everitt.

Besides her husband and brother, Mrs. Seale is survived by one son, Donald; a grandson and another brother, A. R. Everitt of Lubbock.

Mrs. Albert Pricer, with five sisters from Cone, Idalou, Lubbock, Coleman and Corpus Christi, visited relatives in Tyler over the weekend and attended the Rose Festival there.

## Mrs. J. A. Fawver Passes; Rites Held Friday Afternoon

One of the few remaining pioneers of the plains who knew Floyd County in the days of the open range passed her Wednesday afternoon of last week at 5 o'clock. She was Mrs. John A. Fawver, 82, who died at her home, 429 East Tennessee Street. She had been in ill health for three years.

Funeral service for Mrs. Fawver was conducted last Friday afternoon in the Calvary Baptist Church at 3 o'clock with Rev. Laveal Merriott pastor, officiating. Rev. H. E. Smith assisted.

She was born Mattie M. Johnson May 16, 1873, in Coryell County. She moved with her family to Floyd County in 1886. She married John A. Fawver in Floyd County, Nov. 7, 1889. They moved to Plainview in 1907 and returned to Floydada in 1916. Mr. Fawver passed away Sept. 30, 1952.

Mrs. Fawver was a long time member of the Calvary Baptist Church. Survivors include three daughters Mrs. Gus Lloyd, Mrs. Travis Corley, Mrs. Mable Epperson, all of Floydada; two sons, John Alley Fawver of Floydada and Joe M. Fawver of Amarillo; nine grandchildren; and seven great-grandchildren.

Palbearers were Lee Noble, Duncan Hollums, Bud Breeding, Marion Barton, Wylie Rogers and L. G. Withers.

Carl Brock's Angus calf placed ninth in his class at the Dallas Fair last Wednesday and was sold with the other winners at auction. His calf sold for 35 cents per pound. Carl said that he had learned a lot and that he would be in a better position to produce a winner the next time. He plans to show two calves at the Fort Worth Fat Stock show in the winter if they develop as he wants them to. He purchased the calves from Bill Norman of the Dougherty community.

The Floydada Chapter of the Future Farmers met in a regular meeting Tuesday night at which time twelve Green Hands were raised to the degree of the Chapter Farmer. Those that were raised were Lynn Jackson, Jerry Perry, Vaughn Ginn, Jerry Finley, Winfred West, Ranny Vickers, Don Norman, Keith Hollums, Charles Ogden, Leslie Trimble, Basilio Compos and Pat Gross.

There were 22 present. Refreshments of doughnuts and pop were served to all present.

Plains Boys Show At Dallas Fair

Junior cattlemen of the high plains competed quite successfully in the live stock show at the Dallas Fair, which closed Saturday.

One Floydada boy had an Aberdeen-Angus steer that placed ninth in the middle weight class. He was Carl Brock, son of Mr. and Mrs. W. H. Brock.

Five Petersburg boys were among the competitors, the most successful being Mike Shurbel, son of Mr. and Mrs. Marvin Shurbel. His Aberdeen-Angus steer won first place in the Aberdeen-Angus heavy weight class, with 12 animals showing.

Other Petersburg boys who were in the prize-winning list were Jerry Scarborough with a light weight Poland China barrow, Sammy Ellerd with a middle weight barrow, Pat Scarborough with two Hampshire light weight barrows that placed second and third in their division, and Donald Castelberry and Kenneth Ellerd, who showed in the same class.

W. M. Steen Died Wednesday; Rites At Harmon Chapel

W. M. (Bill) Steen, 83, a resident of the high plains since the early nineties, died in a convalescent home near Amarillo yesterday morning at 10:15 o'clock.

The body was returned to Floydada Wednesday night and the final rites will be held at Harmon Funeral Home chapel this afternoon at 2 o'clock.

Interment will be made in Floydada Cemetery.

Surviving is one brother, I. M. Steen, of Canyon, and a score or more of nephews and nieces, of whom three—Mrs. W. G. Collins and Calvin and Homer Steen—live in Floydada.

Mr. Steen had been a resident of Floydada for forty years or more. A native of Hamilton County he came to the plains and lived at Canyon many years before moving to Floydada.

CBR SCOUTS WILL GATHER CLOTHES FOR NEEDY FROM FLOYDADA HOMES HALLOWEEN

Cub Scouts of Floydada will turn Halloween night into a collection hour for old clothing to be used for the needy, it was announced this week.

The boys are hoping that porch lights will be left on where donors will be visited. A canvas of the whole town is contemplated.

Glen Jarnagin is Cubmaster, George Bickly is pack chairman, representing the Floydada Lions Club.

## Mail Overseas Parcels Early Advice of P. M.

Mail Christmas parcels for armed forces overseas (APO and Navy addresses) before Nov. 15 to insure delivery by Christmas, is the advice of acting postmaster Edward West.

Do not send perishable items overseas. The Armed Forces are furnished with pies, cakes, etc., by their own units and these should not be shipped by their families.

Packages should be securely packed and tied, as most damage enroute is due to lack of knowledge of basic rules to follow in mailing packages.

Helpful facts about wrapping and shipping packages are contained in a well illustrated pamphlet entitled "Packaging and Wrapping Parcels for Mailing" which will be available free at the Floydada Post Office in the near future.

This pamphlet describes the types and sizes of cartons best suited for outer and inner shipping containers; gives details for the internal protection for goods being shipped; lists hints on wrapping chinaware, stemware, framed pictures, books and other goods; and gives instructions for marking various types of parcels to insure the quickest possible delivery.

Parcels may be marked, "Do Not Open Until Christmas" that they may be distinguished from other parcels.

Pack securely—address carefully—Mail early—send no perishables. Duck Season Opens November 2

All hunters who plan to hunt Ducks this coming season must have a Migratory Bird Stamp. These stamps may be purchased from any of the Post Office Clerks, cost \$2.00 each.

## Veterans Land Program Ready Reports Ayres

D. G. Ayres, County Service Officer, Floyd County, has received the following data from the Veterans Land Board of Texas, concerning the procedure for securing application forms for purchase of land under the Veterans Land Program of Texas:

1. New application forms have been prepared and can be obtained from the Veterans Land Board only. Such forms will be mailed to interested applicants after October 31, 1955, in the following manner:

A. The distribution of all application forms will be controlled by the Veterans Land Board and will be mailed to interested Veterans in the numerical sequence in which their requests are received. This control by the Veterans Land Board is necessary in order that all contracts to purchase may be handled in an orderly manner and consummated within a reasonable length of time. Only a limited number of application forms will be mailed to interested Veterans, as those on hand are closed.

B. When a Veteran has found a tract of land which he wishes to purchase through the Veterans Land Program, he should write the Veterans Land Board and request that the necessary forms be forwarded to him.

C. When each Veteran's request number is reached in the normal order of processing, a set of application forms will be mailed to such Veterans, who will be given a Thirty (30) Day period of time for the completion of such forms and return to the Veterans Land Board. These forms must be completed in accordance with the specifications as set out herein before they will be acceptable.

D. If a Veteran fails to file his completed application forms within the specified period, he shall lose his priority and must again submit an additional request for application to have another opportunity to participate in the program.

## New Mattress Factory Formal Opening Set

Kenneth Martin is opening a mattress factory in Floydada which will feature the manufacture of new cotton and innerspring mattresses as well as Big Boys, box springs and latex foam rubber mattresses.

He will operate under the firm name of Floydada Mattress Company at 110 North 4th Street, the former location of the Grigsby Laundry.

Formal opening of the new plant will be held on Monday, October 31. In connection with the opening of the Floydada business, Mr. Martin said "we feel that Floydada and its trade territory would rather have a factory here to offer one-day service in town and most of the country than to travel elsewhere for their mattress service."

Mr. Martin formerly operated the Slaton Mattress Company at Slaton from 1946 to 1951. Later he was a salesman for Acme Mattress & Spring Company of Lubbock.

## Congregation Observes U. N. Day At Dinner

United Nations Day was observed at the First Methodist Church last Wednesday evening at 7 o'clock.

A lovely dinner of food cooked by foreign recipes was served in Fellowship Hall.

The tables were decorated with small United Nations flags and souvenirs of other countries. A birthday cake commemorating the 10th anniversary of the U. N. decorated the center table.

This was followed by a program on "What the U. N. has accomplished in its first ten years." Speakers for the evening were Mrs. William G. Dingus, who is a world traveler and has attended several sessions of the U. N. in New York. She is now president of the Woman Society of Christian Service of First Church in Lubbock; Mrs. Roderick Shaw, who is a member of the Lubbock Council for United Nations and Peter Monasch, who has been an American citizen since 1948. He is a graduate of German and French Universities and is now chairman of the Lubbock Citizens Committee for U. N. Day.

Arrest of Two Boys Solution Of Crime Here

Two youngsters who have made statements to Sheriff Earl Cooper, are being charged with the burglary of Capada Drive-In Theatre which occurred the night of Oct. 12.

The boys gave their names as Bill Kirk, 17, and Tony Andrews Jr., 16, when the Floyd County officer talked with them in Paducah.

A money sack from the Capada was the give-away which led to the boys' entanglement with the law here. The pair said they robbed a Paducah theatre the night of Oct. 11, did the job here the night of the 12th. They had returned to Paducah and made a haul from a boot shop, when they were apprehended by the Cottle County sheriff, and the loot from the Floydada theatre found among other things.

The boys will be turned over to Floyd County after they have been tried in Cottle, Sheriff Cooper said. In a statement in connection with the charges filed against the two itinerant youngsters here, Sheriff Cooper took cognizance of reports to the effect that he had received a call on Wednesday morning following the Capada burglary but had refused to investigate. "The sheriff's office did not receive a call of this nature Wednesday and did not know of the burglary until the following Monday," he said, for the benefit of those who had been informed otherwise.

Two Floydada Men Headed For Deer Country in Crash

Kenneth Ring and Oway Oden are in hospitals at Floydada and Santa Fe, N. M., respectively, this midweek as the result of a highway crash near Parkview, New Mexico, Thursday morning.

The two were headed for deer country in Colorado, when a tire blew out on a curve. Oden, driving a pick-up, could not control the machine and it crashed into a car passing in the opposite direction. Four persons in the other car were injured. All were treated at Espanola.

Oden's injuries were most serious. He had recovered from shock by the week-end, however. He had both jaws broken and one leg was broken. He was due to have his leg set today at Santa Fe where he was taken Monday.

Ring was brought home Tuesday from Espanola, reaching Floydada in a Harmon ambulance after being flown to Amarillo. He has a broken ankle, cuts and bruises.

Mr. Ring's wife, his mother, Mrs. Claude Ring, and Mr. Oden's parents, Mr. and Mrs. Earl Oden, went to Espanola Thursday night. The Mmes. Ring returned home Tuesday. The Odens are at Santa Fe with their son.

The pair of hunters left Floydada Wednesday evening and were due to hunt in the mountains near Pecos Springs, Colorado.

## MOUNTS LAND BIG ONE

Mr. and Mrs. Doyle Mount landed another big fish last week when they returned to their favorite fishing spot at lake Kickapoo near Archer City. The prize catch this time was a 30-pound cat.

The Mounts made the trip to the lake last Wednesday and returned Friday. Members of the family have made several fine catches at the lake this year with some fish weighing over 40 pounds.

## Library News

(By Mrs. Lee C. Golithly)

"A Few Buttons Missing" by James Tucker Fisher will be reviewed by Mrs. Hollis Bond at the First Christian Church, Nov. 1. Friends are cordially invited to coffee in Fellowship Hall at 9:30 and to hear this very interesting book reviewed afterward in the sanctuary. "A Few Buttons Missing" is a popular book in the library and many will be happy to the opportunity to hear it reviewed.

New in the library is "Karankaway

Country" by Roy Bedichek. This is a little known section of marshland along the Gulf coast of Texas, once inhabited by a fierce and giant tribe of godless Indians. Lying between Galveston and Padre Island, Karankaway Country is the natural habitat of marsh birds, coots and ducks. Besides bird life, there are deer, coon, opossums, bobcats, wolves, lizards, terrapins and many others. Mr. Bedichek describes and philosophizes about the wild life of Karankaway Country as only an expert naturalist with a touch of the poet can.

### LAND LEVELING

Leveling is done to save water. It is one of the most important conservation practices that we have. Many farmers in the area are planning to do leveling as soon as the crops are harvested. The filling of small lakes and removing of high spots that interfere with irrigation and farming operations are among the leveling jobs that are being done. Most of this work is done between crops, from Fall to Spring. More than 1500 acres have been leveled during the past year in the Floyd County Soil Conservation District. It is estimated that as much will be leveled during the next year, or even more.

Now is the time to start planning for field leveling. It is very important to have the surface of the land as smooth as possible. Accurate surveying for leveling can not be done on land that is too rough. Most earth moving contractors say that cutting of the stalks and a light once over with tandem discs is best. Some tillage operations, such as deep plowing, leave the land surface too rough for accurate survey work. Also, some types of earth moving equipment can not operate efficiently in loose, deep plowed soil. The shredding of grain sorghum stalks is also helpful.

Financial assistance for land leveling is available through the ASC (PMA) office, and technical assistance is available through the Soil Conservation Service. Both offices are located in the Agricultural Building east of the Court House in Floydada.

Please take advantage of these services, which are available to all farmers in the area. "Helping you to do a better job of conservation farming" is their business. Land leveling is one of the best ways to do "conservation farming"

## ★ ☆ ★ ☆ ★ ☆ ★ ☆ VIEWS AND COMMENT

### NEW LOOK NEEDED?

The Lockney Beacon says editorially that "perhaps we need to take a new look at the Scouting program" on the South Plains. The ideas of the newspaper publisher are presented thus:

"There is considerable dissatisfaction among those familiar with the Boy Scout movement in this area with the budget for the South Plains Council. The budget for next year is \$98,000 for the 20 county area of which Floyd County will contribute some \$3500. Local Scout men are wondering just what we get for that \$3500. True a Scout Field Executive visits the local troops occasionally but he has so many troops to visit that he gets around only at long intervals. Much of the money goes to Camp Post but a much smaller amount is spent on Camp Haynes, near Silverton, which is the camp most Scouts in the part of the Council prefer.

"No part of the funds in the Council budget come back to the local troops except in minor services. If the local troop needs funds of any kind it must arrange to secure them through other means or get them from its sponsoring organization. We're not as familiar with the Council budget as we should be but the many comments from Scouters of this area indicate that those who are familiar with the program are dissatisfied.

"The program appears to be centralized in Lubbock and apparently that is where most of the money is spent."

**Good Long Record.** At 73 Congressman Sam Rayburn, who is at the same time Speaker of the House of Representatives, is nearing the 50-year mark in the public service. He began as a representative in the Texas Legislature in 1907. In 1912 he was elected to the U. S. Congress. These facts are recalled in connection with the news that the Sam Rayburn Library Building at Bonham will start construction in November. Mr. Rayburn's wealth of documented American history will be housed in the library. He has served under seven presidents, through two wars and a depression, the like of which there may have never been another. A man who has survived politically through that many kinds of vicissitudes of political life must be pretty well grounded in the hearts of his constituents. An interesting fact is that Mr. Rayburn is not through by any means.

**Budget Plan Houses.** The Texas Retail Merchants Association is issuing a warning to people who are hopelessly in debt concerning persons who pose as professional budgeting experts. Proposals of these firms sound very attractive to a person who is so far in debt (and a lot of them are getting that way in Texas) that he cannot see how he can ever get out. Much better, says the association advice, to face up to your creditors and let them work out a plan for you and them, than to take on another debt in the form of a

service fee of 15 to 40 per cent for a man to do for you what you ought to do for yourself.

**No money down, first payment in 1957.** That's the rage now. If you're tempted by the long terms and extravagant offers to buy something you know you ought not to buy, better say "get behind me" to the tempter. Otherwise you'll be looking for one of those "budget adjusters."

**Peach Tree Borers.** The Extension Service tells us that peach trees will live as long and do as well in this part of the world as in any other if we'll control the peach tree borers in the orchard. Now is the time to do business with the borers. A powder with a long name that you sprinkle around the base of the tree according to directions will do the job, if you'll then spray once or twice during the spring and summer with DDT. Of the peach trees that die everyone has a rotting sort of condition right at the top of the ground. This is where the borer stuck in his bill and cut the life line of sap of the tree.

**If you Haven't then you'd better department:** Drain that irrigation engine before it comes a real freeze and costs you a few hundred to get ready to do business again in the spring.

**Fine Law Point.** The current debate in the circles of the State Bar Association that has gotten considerably into the public prints has a point of law that may have been overlooked. The question of how the acting district judge organized his special grand jury that brought the indictment against officials of the Benavides school district and the officials of Duval County, is the one that may have serious aspects as regards the rights of the accused in the indictments the special grand jury returned.

**Whose Game Pictures?** It may turn out the Quarterback Club will not be too happy having their Whirlwind games put on film. The story goes that a film of the Floydada-Canyon game was in Ralls all the week before the Floydada-Ralls game and it may be the same thing happened at Abernathy. Whose negative it it after the film is made and who has control of its circulation?

**Big Shot Dealers** in automobiles are advertising everything from a free trip to Bali to a 10 year supply of dog flea powders. Their crude ballyhoo lacks only a callopie accompaniment to make you certain you are at the carnival.

Experience has shown that progress toward improving a community can be made where there exists a spirit of cooperation and a will to do and share with neighbors. A community organization is a must.

Too many people are thinking of security instead of opportunity. They seem more afraid of life than death. —James F. Byrnes.

## Floyd County 14 Years Ago

(Taken from the files of the Floyd County Hesperian, issue dated Oct. 30, 1941.)

The Whirlwinds of Floydada High School and the Lockney Longhorns have an important engagement for Friday afternoon. In addition to the natural rivalry between the two schools the game is due to have a most important bearing on conference standing and on district championship in football.

Marjorie Kirk of this city, a senior at West Texas State College has been selected to represent the college in the list of "Who's Who in American Colleges and Universities." Clay Tyler, superintendent of drilling operations on Montague No. 1 oil test in Briscoe county for Phillips Petroleum Corporation, last night said the drill was at a depth of 4,520 feet.

Rain hit once more in Floyd County beginning early last night, and although little moisture had fallen at 10 o'clock this morning, there was no respite in prospect according to the weatherman. Instead the possibility of snow and also the possibility of freezing by night is indicated in the reports.

Miss Floy Jean Hale entertained the members of Gamma Sigma Kappa with a Halloween dance Tuesday evening at the home of her parents, Mr. and Mrs. Walton Hale. The crowning of the carnival queen of Floydada High School will get the spotlight of the junior carnival Friday night.

Dr. Donald H. Pitts, practicing physician in Floyd County since October, 1938, will open, officially a \$15,000 new fifteen room hospital Wednesday. The building, an oriental style stucco and frame structure is located at the corner on intersection of Houston and Fifth Streets on highway 70.

**NEW ARRIVAL IN LAVON SHEARER HOME, OCTOBER 20**  
Mrs. L. Y. Woolsey of this city received a telegram Friday afternoon telling of the arrival of a great-grandson, Edford G. Shearer, born Oct. 20, the son of Mr. and Mrs. Lavon Shearer of Quinn, S. D.

Grandparents are Mr. and Mrs. Heuther of Wall, S. Dak., and Mr. and Mrs. O. G. Shearer of Quinn, S. Dak. His other great-grandparents are Mr. and Mrs. J. G. Shearer of Amarillo.

## LOCAL CHESS PLAYERS HAVE CLUB SESSIONS BI-MONTHLY

Several local chess players have formed a club which meets every other Monday night around at their homes.

Usually their session of chess matches are accompanied by coffee and cold drinks.

Last week the club met with Dr. W. F. Patrick and next Monday night they will meet with Lane Decker.

Besides these two, members of the club include W. F. Bertrand, John P. Moss, Kenneth Bain Jr., L. D. Goltightly, Kelly Hagood, W. E. Garrett, Jimmy Tye, Dale Goen, Brac Biggers and Don Skaags.

They have no secretary or president, keep no lists and have no dues.

Mr. and Mrs. Oliver Allen and Mrs. Addie Thagard accompanied Mrs. Callie Darby to her home in Altus, Okla., Saturday. Mrs. Darby had been visiting in this vicinity for six weeks. Mrs. Thagard remained for a visit in Mrs. Darby's home.

'56 Chevrolet sets new Pikes Peak record in top-secret test!

Not long ago a hush-hush, camouflaged '56 Chevrolet scorched the nerve-breaking road up Colorado's Pikes Peak for a new NASCAR® certified record—the first time that old King of the Mountains has seen a new official stock car record in years! And what a road! 170 churning turns and no guardrail! It's the first and only time a new model ever proved itself such a great road car before its introduction! The '56 Chevrolet showed the kind of performance that makes driving safer and more fun. So wait for the car that beat the King of the Mountains!

## Center H. D. Club Keeps Old Officers

Center Home Demonstration Club met Oct. 14 with Mrs. W. B. Jordan as hostess.

The meeting was called to order by the president, Mrs. Oliver Allen. The members answered roll call by "Early recollections of Sunday School and Church."

In the program opened by prayer, the responsive reading, the 23rd Psalm, was led by Mrs. Green.

"God left His Challenge in the Earth" was given by Mrs. Jordan. "Family Graces" was given by Mrs. Huckabee.

After the program the club went into the business meeting for the election of officers. After some discussion, a motion was made to retain all present officers for the year of 1956. The motion carried ruling that the following officers would be: President, Mrs. Oliver Allen, vice-president, Mrs. Henry Willis, secretary-treasurer, Mrs. O. C. Vinson, council delegate, Mrs. Earl Huckabee and reporter, Mrs. J. E. Green.

A rule was suggested (that we try out) that all absentees be fined 10c for each absence.

Mrs. D. T. Mayo gave an interesting report on the T. H. D. A. meeting at Ft. Worth.

## Man's Best Friend Poor At Figures

A dog may be man's best friend, but his affection stops somewhat short of cooperation in the maintaining of a costly movie production schedule. All of which led the cast and crew of "The Kentuckian" to revise the old saw to read: "A dog is a man's best friend, but he has no head for figures."

"The Kentuckian," which co-stars Burt Lancaster, Diana Lynn and Dianne Foster, was filmed on location in the Kentucky wilderness, in CinemaScope and printed in Technicolor. It opens Sunday at the Capada Theatre.

"The Kentuckian" is the story of a man and his son and their dog on the frontier in 1820, and it was during frantic effort to shoot a dog-fight scene that the fair-weather

The Floyd County Hesperian, Floydada, Texas, Thursday, October, 27, 1955

friendship of canines came to light. Twelve dogs, local Kentuck hounds, steadfastly refused to fight each other or with Faro, a Hollywood canine who plays the leading dog role in the picture. No amount of goading (including the presence of a possum and a rabbit) could induce the dogs to so much as a snarl at each other.

It wasn't until a dog named Blackie was introduced to the "The Kentuckian" set that things got properly started. Blackie, a truculent hound, took an instant dislike to Faro and every other dog present, and Blackie — with the cameras eagerly eating it up — started one of the biggest canine donnybrooks ever filmed.

## Bureau Adopts 10 Resolutions At County Meet

Floyd County Farm Bureau in their annual meeting Tuesday night of last week, made a digest of the reports from community meetings over the county and put them into the form of resolutions, which will be presented to the district and state conventions for consideration.

The following is a brief outline of the recommended resolutions by the board of directors:

1. Be it resolved that we recommend as a remedy for reducing over-production, and surpluses on basic and non basic commodities in agriculture that there be not to exceed 10% of the tillable land be left out of production, only to be summer fallowed or planted to soil building or cover crops without grazing or harvest, and that under the new formula on parity, that Parity be set at 100% on basic crops, and a minimum of 85% on storable non basics.
2. Resolved that grain Sorghum be made a basic commodity.
3. Be it resolved as a means of increasing the general revenue tax for State Highways, schools etc. that Natural Resources such as Natural Gas, etc., be taxed for that purpose.
4. Resolved that H B 175 and B B 135, which was a re-write of the Texas Feed Control Law, as recommended by the Texas Farm Bureau, Southwestern Cattle Raisers Association, Sheep & Goat Raisers Association, be endorsed and enacted.
5. That a request be made to the Extension Service that a Marketing & Research Specialist be appointed for Research & Study of the High Plains area conditions etc.
6. Resolved that the State and County ASC committees be required to re-allocate allotments within their county that have been returned to them unused.
7. That it be recommended that the ASC committee follow the intended interpretation of the law in regard to trend pertaining to cotton.
8. Resolved that we recommend the redistricting of directorate districts each 5 years, and that such redistricting be based on number of memberships, and that each district be given an equal number of representation according to number of members in the district.
9. Resolved that the Texas Farm Bureau continue its stand on exemption of Tax on Gasoline for non-highway purposes.
10. Resolved that the state and national Farm Bureau advertise the true facts concerning the equity of parity, take home pay or net income pay of all agriculture problems and accomplishments, as compared with labor and other subsidized industries.

## Fairview News

(By Mrs. Clyde Bagwell)

FAIRVIEW, Oct. 25 — Winter seemed to have hit us lightly the first of the week. The smell of frost was in the air and cotton leaves showed the effects of it.

W.M.U. did not meet Monday afternoon on account of the funeral of Mrs. W. B. Jordan. The president, Mrs. Clifford Helms, told us the same program that was to have been given Monday will be presented Monday of next week.

The entire community and everyone else-where, was shocked to learn of the death of Mrs. W. B. Jordan a long time resident of the Center community and a former neighbor of this writer. Mrs. Jordan will be greatly missed in her own church at Floydada and all churches of the district, for she was a worker in all W. M. U. work over the territory covered by District 9. Our heartfelt sympathy goes out to her

## ARTHRITIS

Frequently, patients will ask their chiropractor a question like the following: "I know that I now enjoy better health than ever before in my life and I think it's wonderful that my headaches and nervousness have disappeared but I have a friend who has arthritis and I wonder if chiropractic could correct that condition."

The answer, of course, is that chiropractic is not limited to any certain type of disease. Time after time patients are amazed at what chiropractic adjustments can do.

In the first stages of arthritis the joint membrane becomes inflamed and its cells secrete large amounts of synovial fluid which accounts for the swelling and pain. In this stage your chances of complete recovery are great. When the condition has progressed to the crippling stage there is still a chance of complete recovery but is less, however most of these cases are greatly helped.

Why suffer when there is a chance of getting well. Don't wish for better health, possess it.

visited home folks, the J. E. Greens, over the week-end.

Johnny Lynn Warren of Wayland College spent Sunday with his parents, the Elmer Warrens.

Mr. and Mrs. Leo Frizzell visited Monday morning at Ralls with Mrs. Clifford Carpenter and Mrs. Jackson.

Sunday dinner guests in the C. W. Denison home were Mr. and Mrs. C. W. Denison Jr. and family of Fairview, and Mrs. Clyde Bagwell of Fairview. The occasion was Mr. Denison's birthday.

Mr. and Mrs. Floyd Montgomery of Shallowater visited his sister and family, the Frank Dunns, Sunday evening. They were enroute home after visiting over the week-end with her parents in Canyon and attending the Homecoming at W.T. S.C.

Don Clark Green and Mr. and Mrs. Floyd Montgomery were out-of-town callers to see Mrs. Bolding in the hospital Sunday evening.

Visiting in the Robertson home Friday and Saturday was her cousin, Mrs. L. P. Bronson of Dallas. She stopped off here while the husband and others proceeded on to Colorado on a hunting trip.

The Frank Dunns visited the J. D. Welborns Friday night. The Greens called in the Welborn home Tuesday evening.

Grandmother Meredith, who has been ill for several months, was reported not so well the past week.

Mr. and Mrs. Curtis Meredith have moved to our community in the house once occupied by the Ross Greens. We are glad to have this young couple with us. Let us all bid them welcome.

Words cannot express the shock and feeling of great loss at the sudden passing of our long time good neighbor, Mrs. W. B. Jordan. She died of a heart attack Friday night in a Baytown Hospital. She had arrived in town that morning for a week's visit with a son, Rev. Arthur Jordan and wife and had planned to attend the state convention with them this week.

How we shall miss this punctual, dependable, companionable, busy soul in home, community or church. Anywhere there was need — in sickness, discouragement, in sorrow — she was there with a capable helping hand, ever about the Master's business.

Her host of friends grieve and sympathize with her beloved family in the untimely going. May the many good works of Mr. and Mrs. Jordan live after them.

We sympathize with all others who have lost loved ones.

## As A Farm Woman Thinks

(Nellie Witt Spikes)  
More things are wrought by prayer than this world dreams of. Wherefore, let thy voice rise like a fountain for me night and day. For what are men better than sheep or goats? That nourish a blind life within the brain. If knowing God, they lift not hands of prayer. Both for themselves and those who call them friend.

—Tennyson  
All our neighbors' house-tops were white this morning when we got up, now they are taking on their usual color. Not so the tender plants, they will not take on their beautiful color until summer comes again.

My thoughts turn today to the putting up of coal and wood stoves of my growing up and early married life. It was a dreaded time for the women, because they knew what the results would be and the tensions caused by this unpleasant job.

The rusty stove pipe that was fairly good only last winter was got out from under the house, or the barn or where it had been laying useless all summer. Usually a trip to town in a slow wagon or buggy would have to be made for an extra joint or so. Then the day dawned, the man gritted his teeth, the woman grabbed her bonnet and home made gloves or mitts, got the broom near. The stove was red from rust, not from heat. The man pulled it under the hole in the ceiling, many homes boasted of a joint of big well casing for a flu, others had only jointed thin stove pipe to the roof above. The man took the joints of pipe and pushed two together, twisting them to a tight fit.

But I forgot for a minute the worst part, after the tin bucket was removed from the top of the pipe, the bunch of rags from the flu above the ceiling which had kept out the dirt and soot, the man carefully held a tub under the flu, the woman climbed on a cane bottom chair and gently pulled at the rags. They stuck, she jerked harder at the command of husband who was getting tired of holding a tub above his head. Down the rags came followed by a shower of black sticky soot and bits of rust. Most of it hit the tub but some spread all over the house. Much of it sticking to the man's face and hanging like black ornaments from his mustache.

The woman grabbed the broom, but, alas, the soot smeared all over instead of being swept up. Things were beginning to warm up, even if the stove was hot up and hot.

The woman took a peek at her clean white bed, spots of soot made her sick at her stomach, even the baby had soot on its face. The man took a long stick and poked at the soot and rust in the flu, bringing down more showers.

Then he was ready to put the pipe together. It just would not fit, he twisted and had his wife to help. He wiped his sweaty face with his sooty hand. He became an evil looking person and the red in his face did not show for the black. The damper should have been in the joint above the stove, when the pipe was all up and fitted to the stove, it was noticed that the damper was in the pipe near the ceiling. Words became useless, both the man and woman worked speechless but angry.

The pipe was taken down and the damper joint righted, but baby cried and black streaks were on its little face. The older children kept out of reach. The dog even left.

Then at last the job was done as far as father was concerned and he put on his hat and left for the calm and peace of the lots and field leaving mother to finish the "battle of putting up the stove."

She swept, she washed, she scoured with lye water, her hair hung down in wispy strings, her feet ached, her anger was giving away to self pity.

That night a blue norther blew up, rolling away the tub that father had neglected to bring in after he emptied the soot, freezing the water in the barrel at the windmill, but in the little house was peace. Pa smoked his pipe his face clean from the hot water from the teakettle. Mother held the baby, everything clean and free from soot. The damper worked like a miracle. The mesquite popped and crackedled in the stove that mother had polished with stove polish after everything else was done. Even the rusty stove pipes were as shiny black as the new one. By the stove was red from heat and the children saw father and mother, not as enemies in the battle, but as dear parents they loved.

**Mahon Expects Cotton Change**

Congressman George Mahon advises that he has this week renewed his appeal to Department of Agriculture officials in Washington and Texas urging that West Texas be accorded a fair share of the state cotton acreage allotment for next year.

In commenting on the controversy, Mahon said, "I am glad that farmers and farm groups are urging reconsideration of the proposed program. We recognize that there will be a small reduction in the entire state next year. Any reduction will work a hardship on most farmers, but to undertake to shift large acreage to Central and East

Texas areas, which have about abandoned cotton production is improper and out of keeping with the spirit of the program. The original would have that effect.

"I am assured by Agriculture Department officials in Washington that some modification of the original plan can be expected. It is urgent that a reasonably fair plan be agreed upon. Any plan adopted will

**Why NOT Change Floydada Street Names**

1. Don't let anyone kid you—changing street names will cost three to five dollars, maybe more, to the cost of every abstruse Floydada from now on—long after all of us are gone and forgotten.

2. Wholesale changes of street names can result in nothing but wholesale confusion — in mail addresses, in utilities and in delivery services. How do you suppose they get about in Dallas, San Antonio and New York, hundreds of times larger and more complicated than Floydada? Maybe they do change street names in Lubbock every morning before breakfast, but they do a lot of other silly things over there.

3. Present street names are part of Floydada's history — Henry, Burrus, Childers, White, Hallie, Leonard, Marivena, Massie, California, Missouri, Wall — who would change "Ellum" in Dallas, Broadway in New York, and a thousand others over the world?

4. Maybe it is only sentiment to keep street names as they are — BUT It is only sentiment that has preserved the Liberty and the Alamo.

It is only sentiment to have the annual Old Settlers Reunion. It is only sentiment that your children cherish Davy Crockett instead of Rutherford B. Hayes (P.S. He was a Republican president)

It is only sentiment to name your children as you please — why not promote efficiency and avoid confusion and duplication by letting the Chamber of Commerce assign street numbers?

5. No plan of street names and numbers will work unless streets are plainly marked and people know in general the location of the various streets. Marking streets is the responsibility of the City Council, but a street and house number map, now being distributed free of charge, will help you find your way around your map in the lobby of the Post Office or at the West door of the Court House.

6. Don' confuse motion with progress—a merry-go-round may be pretty fast and makes lots of noise, but it is a poor way to get places.
