Joy was unbounded. There may another day like it in the history of the United States—that November 11 of 1918—when the electrifying news went around that World War I was ended. Every community from the smallest to the largest broke loose with the noisiest demonstration they could make. Old and young, staid and frivolous, they were all alike for the memorable afternoon and evening. The Hesperian of the week records it as the biggest, most spontaneous demonstration ever staged in Floydada. Thirty-seven years later the newspaper people are trying to find out for sure whether or not the event is to be celebrated in the town. Too many wars, too many rude reminders that war does not "save the world for democracy." The people do not get steamed up over it.

The Hesperian has at least one important personage on its side in our oft-repeated opinion that the greed and lust for power on continental Europe (and in England) is responsible for most of the woes of the world of the past several centuries. "The trouble with the world is Europe," said no less a personage than Field Marshal Viscount Montgomery, the famed British commander, last week. Such a tragedy that such a beautiful land as Europe could breed such lust and greed as has dogged the people of the world through the centuries. And they still refuse to learn the lesson.

The Hesperian was in error on at least one point two weeks ago in reporting the woes of a county chairman of the Democratic party in Texas. His woes arise out of administering the law, or trying to administer it, as written by the state legislative body. We said that district candidates could be assessed only \$1 per county. This was the rule for years, but more recently the rule is that a district candidate can be assessed in each county that he runs in in the proportionate part of an assessment that would be made against him if he were running in that county alone. You make the assessment and then divide the amount by the number of the counties in the district. In the case of a state senator or state representative the assessment is set at \$5 per county. This coming year a civil court of appeals candidate (ours is the Seventh District) is assessed by the state committee and not locally. In the case of the congressman an assessment made by the county committee must be some amount divided by 25, the number of counties in the 19th District.

It is our opinion, from experience and observation, that a county chairman of the Democratic party in Texas always will be a hewer of the wood and toter of the water and will be treated like one of them is usually treated. Perhaps that is the reason the county chairman's advice and counsel is never sought in the preparation of the statutes governing elections. Legislators, one must assume, are unfamiliar with the technique and procedure of administering election laws which they pass. Otherwise any number of "things" that go to make up the county chairman's quota of headaches would be remedied. There are 254 sources in Texas from which the legislators could get invaluable help if they desired it.

For the most part county party chairmen are not men who are seeking preference one way or another. They do their job simply because it is a job to be done, and for the sake of the party. They usually get their postage stamp bill paid and, maybe, the rest of their expenses, except the leg work, taken

care of, too. We recall that Texas chairmen got somewhat ambitious one year and decided to be important and have a convention. They did have and were to be addressed at a hotel they named by the king pin, Congressman Sam Rayburn. At the appointed time and place they waited for awhile, only to learn by telephone that the congressman was at another hotel in the city all right. "Yes, you boys come on out," Mr. Rayburn is reported to have replied when reminded the crowd was at the hotel leaned back and ready to listen to him. So far as we know the deflated county chairmen have never tried to throw their weight around since in Texas.

Duck hunters are bagging black ducks with white breasts in this area this year in considerable numbers for the first time in a good many years. The black ducks so they say, often pass up this part of the world on their migrations south in the fall and north in the spring. Most ducks are coming in high and hit the middle of the lake this season, making the hunter's job a bit difficult. The casual hunters are not having much luck, only those who work at it.

The 42nd anniversary of the passage of the federal income tax law transpired last week. It was little noted, some newspaper writer digging up the fact. This measure, designed at the time as a soak the rich measure, made possible the financing of two of the world's most colossal wars. It directly reaches into nearly every home in the nation. It now absorbs about one-fourth of the productive wealth of the nation every year. Many complain about it but nobody offers a substitute.

Higher paper prices are seen as a necessity by some, as a gouge by many, especially newspaper publishers who have the task of making a newspaper pay its way. The squeeze between high priced materials and high-priced labor has a good many publishers looking for their ace in the hole. Now, it is also increased postal charges that are threatened. There is always a way out, they say. The newspaper men are wondering which this way is this time. The big people in the business seem to have less cause for comfort than the smaller ones. With a few notable exceptions all publishers are on an allotment basis, even at the higher prices for paper. The situation ought to help the promotion of pulp plants in the south. These have been slow to materialize heretofore.

Since it takes two or three years to organize and build a new print pulp mill a newspaper that is being pinched to death for lack of print paper or for lack of money with which to buy it, could very well suffocate by the time a new plant could be put to work. Since freight also has begun to loom so big in the cost to the consumer a Texas mill could save a southern publisher a great deal of money. A few Texas publishers who got in on the organization of the Lufkin mill realize this to their great advantage.

That Women Are making good jurors seems to come as a surprise, sufficiently so that the fact is made a matter of news. Jury service by women, we surmise, will be found to make no difference in the kind of verdicts we get the same as no change came about in politics when embattled womanhood fought for and obtained the right to vote. The women are no better than their menfolk, the menfolk no wiser than their women, average them up as the jury system does.

Fight Against Pink Bollworm Being Mounted

More Texas farmers than ever before are rallying against the worst of all cotton insect pests - the pink bollworm.

The Plant Quarantine Division of the Texas Department of Agriculture has had excellent cooperation with growers during this season.

In areas of the state where infestation has not been sufficient to force stalk destruction deadlines, many people have asked for voluntary plow-up dates. In the control zones of extreme southern and southeastern Texas where infestation is most serious, stalk destruction deadlines have all been met with very little discussion, and good cultural practices are being followed.

Valley Escrow Program Set Up

In four Rio Grande Valley counties where the pink bollworm menace is a serious threat, cotton farmers recently voted 2 to 1 in favor of an escrow program designed to assure compliance with stalk destruction

rules. Under terms of the program to become effective during the 1956 season, cotton farmers in Hidalgo, Willacy, Cameron and Starr counties will post \$7.50 for each bale of cotton ginned to be put in the escrow fund. Growers who fail to meet the cotton stalk destruction deadline will be required to pay for plow-up of their lands from their escrow fund, in addition to penalties previously prescribed by law.

The First National Bank of McAllen, successful bidder to hold the multi-million dollar escrow fund will return all money remaining in escrow to the growers 30 days after the plow-up deadline. The only deduction will be 6 cents per bale to the bank for salary, material and service costs.

I am personally very pleased to see this concerted effort being put forth by our Valley farmers to make their cotton insect-free.

New Insecticide Developments

Experiments with a new chemical which promises to be even more effective than DDT in combatting the pink bollworm are being held on test plots over the state. The new chemical, Bayer No. 17147, is also believed to be effective against the boll weevil, whereas DDT is successful against pink bollworms only. It is also probable that fewer applications

of the Bayer phosphorus compound would be necessary than the periodic treatments required when DDT is used.

With such intensive research on insecticides, compliance with our vital pink bollworm control regulations, and — most important — the full cooperation of Texas farmers, this threat to a major Texas cash crop will eventually be ended.

gates to the conference that Texas did not seek federal aid to education. Further aid to the school system, he said, should come from the state, but without strings of control from the state level upon the local districts.

Rather than federal aid, one leader suggested "relief from the stupendous federal tax burden" to allow states more latitude for school financing. A re-examination of the state's total tax structure in search of additional school revenue was proposed.

Other problems on which the Texas Conference on Education exchanged ideas were: 12-months-a-year or six-days-a-week use of buildings; attracting and holding good teachers; keeping curricula up-to-date.

A consensus of their findings will be compiled into a report to be taken to the White House Conference.

Court Re-Considers
Texas Court of Criminal Appeals is, for the second time, pondering the legality of the Duval Co. grand jury which returned 104 indictments against county officials.

This time it also is considering charges by Atty. Gen. John Ben Shepperd that it "misrepresented facts" on its Oct. 5 decision nullifying the grand jury's action.

In a vigorous argument for reversal, Shepperd contended the majority opinion reflected on the "propriety and motives" of himself and Judge A. S. Broadfoot. He referred specifically to statements concerning alleged collusion between himself and

Broadfoot.
Judge Broadfoot dismissed one grand jury in Duval County and made arrangements for a new one, which the high court held illegal. Shepperd's office assisted with the South Texas investigations.

Master Plan Outlined
Visitors to Austin will have new sights to see in the Capitol area before long.

Guiding factors for the creation of a "state government center", with the Capitol building at the core, have been outlined by a professional planning firm.

A new state courts building and a state office building are to be constructed in the area soon. In locating them the planning specialists suggested:

1. That none should tower over the capitol dome.
2. That off-street parking be provided.
3. That easy pedestrian access be provided for all buildings.
4. That further commercial development in the capitol area be controlled.

Land Sales Reopened
Requests from over 3,000 veterans were included in a drawing which officially reopened the Texas land program last week.

The first 300 drawn were to receive application forms immediately. The remaining will receive notices of where they stand in line and will receive their application forms at a later date.

Land Office Commissioner J. Earl Rudder looked on as Charles L. Downey, department commander of the American Legion, drew the name of Olin R. Talley of Buffalo Gap as the first on the application list.

Rudder said careful measures are being taken to prevent favoritism. This was one of the factors revealed in the investigations which caused the program to be shut down last November.

Skelton Elected
In electing him chairman of the Texas Democratic Advisory Committee, Byron Skelton of Temple told the DAC they had, in effect, made him chairman of the Democratic Party in Texas.

A resolution at the DAC meeting in Waco, to leave the national committeeman post vacant until the May convention was rejected. In its place, the committee adopted a resolution setting forth "prime qualifications" for a national committeeman and committee woman.

No direct reference was made to the choice of Lt. Gov. Ben Ramsey, recently named committeeman. Ramsey's appointment had the approval of Speaker Sam Rayburn, who organized the DAC to fill the place of national committeeman after Wright Morrow was ousted from the post.

Johnson Dinner Planned
If plans materialize, a testimonial dinner for U. S. Sen. Lyndon B. Johnson will be given in Austin in December.

Meantime there have been suggestions to name Johnson Texas' "favorite son" candidate for president. Johnson said he had no intention of being proposed as a candidate. He said he had every hope of forming a legislative program in Congress which can be carried to the people. "If we do our job in Congress right, the election will take care of itself."

Texas Schools Praised
A letter to Governor Shivers from Maj. G. Van Houten at Fort Carson, Colo., praised Texas' public school system.

General Van Houten said outstanding trainees are selected from approximately 1,500 newly inducted soldiers each month in the basic training program.

To date the greatest number of outstanding trainees selected have come from the state of Texas," the general said. He is commanding general of the Eighth Infantry Division.

(Taken from the files of the Floyd County Hesperian, issue dated Nov. 13, 1941.)

Complaint Alleges Un-Plugged Gun

On complaint signed by Weldon From, Matador, game warden for Hale, Floyd, Briscoe and Motley Counties a Floyd County duck hunter was fined in Justice P. O. Sterling's court Monday for hunting with a shotgun which had more than three holes unplugged.

A fine of \$25 and court costs was assessed, the minimum, Judge Sterling said. According to the information the gun was plugged incorrectly, so that it actually held four shells. The arrest was made Sunday.

The Hesperian was unable to confirm this week the talk about town that eight duck hunters had been picked up, some hunting without duck licenses and others with unplugged magazines.

The girls selected by a panel of judges were Elizabeth Massey, Tullia, Mitzel Wilson, Dimmitt, and Betty Williams, White Deer.

Miss Parkey, a junior journalism major, is a transfer from Texas Technological College.

SHE KEPT A DIARY OF TELEPHONE CALLS

Mrs. Martha Chance—homemaker, church worker, bowler, and keeper of a telephone diary that revealed an important fact.

Mrs. Chance finds the telephone a young homemaker's best friend

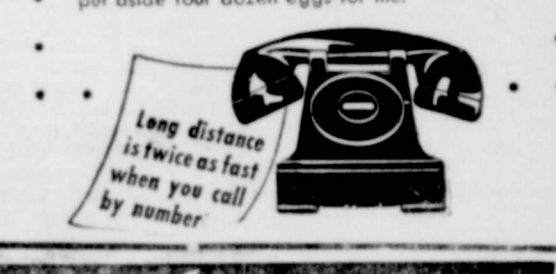

What one service helps the homemaker through busy days more different ways than any other? Mrs. Martha Chance is sure she knows the answer. Her telephone. Mrs. Chance recently kept a week-long diary of telephone calls made and received in her home. The results surprised her.

Mrs. Chance listed 95 calls during the week. Not only did her calls save time and energy in managing her home, but many were actually the start of a pleasant afternoon or evening out.

In Mrs. Chance's own words, "It's so easy to take your telephone for granted. You just don't realize how much it means to you until you stop and think about it as I have."

Mrs. Chance is right. Telephone service is a busy homemaker's best friend.

- Typical calls from Mrs. Chance's diary
- "Called the Millers about going to the civic play tonight."
- "Called Lee (my husband) about plans for family reunion."
- "My bowling partner called about a change in league schedule."
- "Our minister called to remind me of Sunday School meeting."
- "Called a friend in the country. Asked her to put aside four dozen eggs for me."

Whirlwinds, Snake Bit at Goal Line, Lose to Antelopes 20-0

Post's big Antelopes got off to a fast start in the first period to take a lead over the Whirlwinds then held on till late in the third quarter when they led down the victory and went on to win with a 20-0 score.

It was the second district win for the tall Antelopes who downed the Slaton Tigers last week. For the Winds it was the third defeat in as many weeks and left them scoreless in district play.

The winning Antelopes racked up 15 first downs and gained 171 yards rushing and 18 passing to 13 first downs for the Winds who outgained their opponents with 111 yards on the ground and 117 yards in the air. The Winds were still snake bit when they got in enemy territory and never seriously threatened the Antelope goal line.

Ronnie Kennedy was big gun for the winners with 72 yards in 20 carries. Laron Fulton gained 47 yards in 10 tries for the Winds with Stovall close behind with 34 in 10. The locals passing game netted them 117 yards on 9 completions out of 22 attempts while the host Antelopes tried only 3 passes completing one for 13 yards and a

touchdown.

Score On First Drive

Opening the game Post received and James Teague kicked off for Floydada sending one to the Antelope 20 where it was taken and returned to the 27. The Antelopes then proceeded to put on their best show of the night when they drove down field on power plays with Kennedy and Morris carrying the mail and penetrated to the Floydada 18.

When the Winds stiffened the Lopez took to the air and completed a pass to Noel White in the end zone for the first score. The kick was missed and the score was 6-0 Post before the Winds had touched the ball.

The Antelopes then kicked off with Novis Pennell doing the honors and sent one to Robert Stovall on the Floydada 20. Stovall returned the ball 15 yards to the 35 before being brought down. Floydada was able to gain only short yardage before being forced to kick and Gary Huckabay toed one to the Post 5 yard line from their own 42.

The Antelopes ran the punt back 20 yards to the 15 where it was put in play from scrimmage. The Antelopes then gained to their 32 yard line where they got in trouble and quick kicked to the Floydada 33.

Punts See-Saw Over The Field

The Winds had gained to their 42 before the first period ended and going into the second quarter they ran out of steam on their 42 and Huckabay punted to the Post 30. The Antelopes found the Floydada defense pretty stiff and made but 15 yards before they called on their punter Kennedy who kicked from his 47 to the Winds 15.

Floydada's offensive men worked for 31 yards and bogged down on the 44 yard line on the Whirlwind end of the field. Huckabay punted to the Post 20 where Kennedy took the ball and was downed immediately.

The Antelopes were held to a 2 yard gain on the next series of downs and Kennedy quick kicked from his 22 to the Floydada 20. The Whirlwinds had advanced the ball to their 36 when time ran out on them at the half.

Opening the second half Laron Fulton took Pennell's kick on the Floydada 5 and ran it back to the 27 where he was downed. The Winds then began to roll and looked like they were on their way but the ball got away from them on the midfield stripe and Carpenter recovered for the Antelopes on the Floydada 47 to end the drive.

The locals then made a determined stand and allowed the Antelopes very scant yardage with Stovall knifing through to throw James Williams for a 3 yard loss at one point. Kennedy then punted 11 yards from the Winds 39 to the 28 and Floydada again owned the ball.

Third Quarter Score

The Whirlwind offensive had trouble on the 34 yard line and Huckabay backed up to punt at this point. The pass from center was bad and the kicker had to retreat ten yards to retrieve the ball. Facing a desperate situation Huckabay ran the ball back to the 35 lacking but 3 yards making a first down, but the damage was done and Post took over on the Floydada 35.

The Antelopes then advanced the ball to the Floydada 4 and Kennedy drove over to score from that point. Murray kicked the point with Williams holding and the Antelopes held a 13-0 lead.

Before the third period ended Post had again kicked off with Fulton taking the ball on the 12, but the pig hide got away from him and he was forced to back to the 5 to retrieve it. As the fourth quarter opened Floydada owned the ball second and 8 to go on their own 10. On the first play of the final frame a fumble was recovered by Andy Schmidt of the Antelopes and Post owned the ball on the Floydada 11.

Officials Are Confused

The Antelopes advanced the ball to near the Floydada one yard line and the head linesman signaled the ball went over to the Winds. After a delay and some substitutions another play was run by Post which looked to have also been stopped short of the goal. Another discussion took place and Post lined up to kick the extra point so everybody presumed they had made a touchdown at some point of the drive. Don't know who — don't know when — don't know where. Murray again kicked the point and Post had a 20-0 lead.

Floydada was penalized 15 yards on the following kick-off and Pennell booted one from the Floydada 45 to Don Colley on the Winds 5. Colley ran it back to the 20 where he was downed. The Winds trying desperately to crack the goose egg on the scoreboard then started an

offensive which carried them to the Post 46 where the ball went over to the Antelopes.

Three running plays lost 4 yards for the Antelopes and they punted from their 41 to Don Colley on the Whirlwind 29 and he returned the ball to the 27. The Winds also lost yardage and Huckabay kicked short from his 19 to the Floydada 31 and the Antelopes had possession of the ball again.

Post gained 9 yards on four tries and Floydada gained possession after fourth down on their 22 left the Antelopes short of the needed yardage.

A Whirlwind passing attack netted 49 yards to the Post 29 but the Antelopes held and took over to end the Winds best effort for the night as the ball game ended.

Robert Stovall, Johnny Tinnin, Laron White, Marvin Rucker, Elmer Williams and J. E. Waller were high men in the stop 'em department for

the Winds. Starting the game for Floydada were Don Colley, Larry White, Robert Stovall, Laron Fulton, Gary Huckabay, James Teague, J. E. Waller, Eugene Beedy, Marvin Rucker, Loran Nixon, and Max Crawford. Others seeing considerable action included Jim Womack, Ronnie Downing, David Mount, Buddy Watts, Dale Redd, Don Sparks, Dale Lawson, Johnny Tinnin, Elmer Williams, Grant Cooper, Kenneth Robertson and Winfred West.

Spur Undisputed Leader

Spur now holds undisputed lead of district 5AA following their win over Abernathy last Friday. Abernathy and Tahoka each have one defeat with Tahoka still getting a

crack at the Spur boys on November 18. Post has two district wins and Floydada and Slaton have a tie between them in sharing the cellar position.

This week district leading Spur plays Post, Abernathy visits Slaton and Tahoka plays the Whirlwinds. In district 6AA, where the bi-district opponent of our district winner will come, Crane and Kermit are deadlocked for the lead with four wins and one loss each. Crane holds an early season win over Tahoka of this district having downed the Bulldogs by a 19-18 score.

Land Scandal Gets Into Week's Feature Story

—The Texas land scandal is the first multi-part feature in the history of the magazine. The piece of legislation which the state legislature passed in the approval of the Thompson observes in the November 12 issue of the Evening Post.

The national reporter continues, "the tax payers, in whose names votes were made."

Those Texas land cases are the case undoubtedly. Bell is convicted with the question of the law to get the law set up this winter.

those who turned this veterans' benefit into an unparalleled larceny," Thompson comments, "his motive has become suspect."

The magazine's comprehensive report on the land fraud tells the parts played by Roland K. Towery, the Cuero newsman who won the Pulitzer prize, and Wiley L. Chestnut, an. DeWitt County attorney, and the whole incident is referred to as the most explosive scandal in Texas since the impeachment of James E. (Pa) Ferguson, in 1917.

Thompson reports that fixing the precise amount stolen will take a long time. However, the topmost estimate at the time of writing was \$10,102,001, he says.

Filmed History Traces Gospel From Apostles

The history of the Bible in documentary films, tracing the gospel story from the first century writings of the Apostles, down to the most recent revision in 1952 will be shown at the First Methodist church as follows:

Nov. 13, "Formation Of The Bible";

Nov. 20, "The Bible Spreads Across Europe";

Nov. 27, "Making Of The English Bible"

The time each evening will be 7:00 p. m.

More than 250 actors, unidentified, participate in the film which was shown to critics in a preview at 1600 Broadway. No actor plays more than one role, but these include men and women of many races, colors and historic periods, from ancient Hebrews to American Sunday School children of today.

'Not As Stranger' To Be Shown Here

"Not As A Stranger," opening on Sunday at the Capada Theatre through United Artists release, is a screen adaptation of one of the best-selling novels of all time. Morton Thompson's 948 page book dealing with the loves, the aspirations, the heartaches and the triumphs of a doctor, has been read by an estimated four million people, and it's still selling at a tremendous rate.

Stanley Kramer, who produced "Not As A Stranger," also makes his debut as director. The stars of the picture are Olivia de Havilland, Robert Mitchum, Frank Sinatra, Gloria Graham, Broderick Crawford and Charles Bickford. The large featured cast is headed by Myron McCormick, Lon Chaney, Jesse White, Harry Morgan, Lee Marvin, Whit Bissell and Mae Clarke.

Many friends and other relatives from distant points were here for the final tribute.

Dr. R. Earl Allen officiated at the rites, assisted by Rev. Joe Wilson of Floydada and Rev. Joe Watson of Dallas.

Through The Years

An early scene shows a hooded figure, whose face is not revealed. This is described as Jesus reading aloud from the scroll of Isaiah to a small group of people in a Nazareth synagogue. From there the story moves through the early writings of the Apostles, and the Emperors Constantine, who early in the fourth century ordered fifty copies to be made of original manuscripts, down to Jerome and the Latin Vulgate, authorized text of the Roman Catholic Church.

The history continues through episodes which depict Martin Luther, William Tyndale, who was burned at the stake, and King James I of England, responsible in 1611 for the version familiar to Protestant church goers for more than 300 years. It shows also the discovery in the 19th century of Greek manuscripts and other archaeological finds, which led to several modern revisions, culminating in the Revised Standard Version of 1952.

Dr. Eric M. North, general secretary of the American Bible Society, was superintendent of the film project.

The public is cordially invited to attend this series.

SHAMROCK'S NEW MOTOR OILS

GUARANTEED... the new multi-viscosity motor oils will do more to improve the winter starting characteristics and extend the life of your car than any other petroleum lubricating oil.

It's a scientific fact... most engine wear occurs:

1. During the warm-up period before ordinary oil thins down enough to circulate freely.
2. At high operating temperatures when ordinary oil thins down too much to give proper protection.

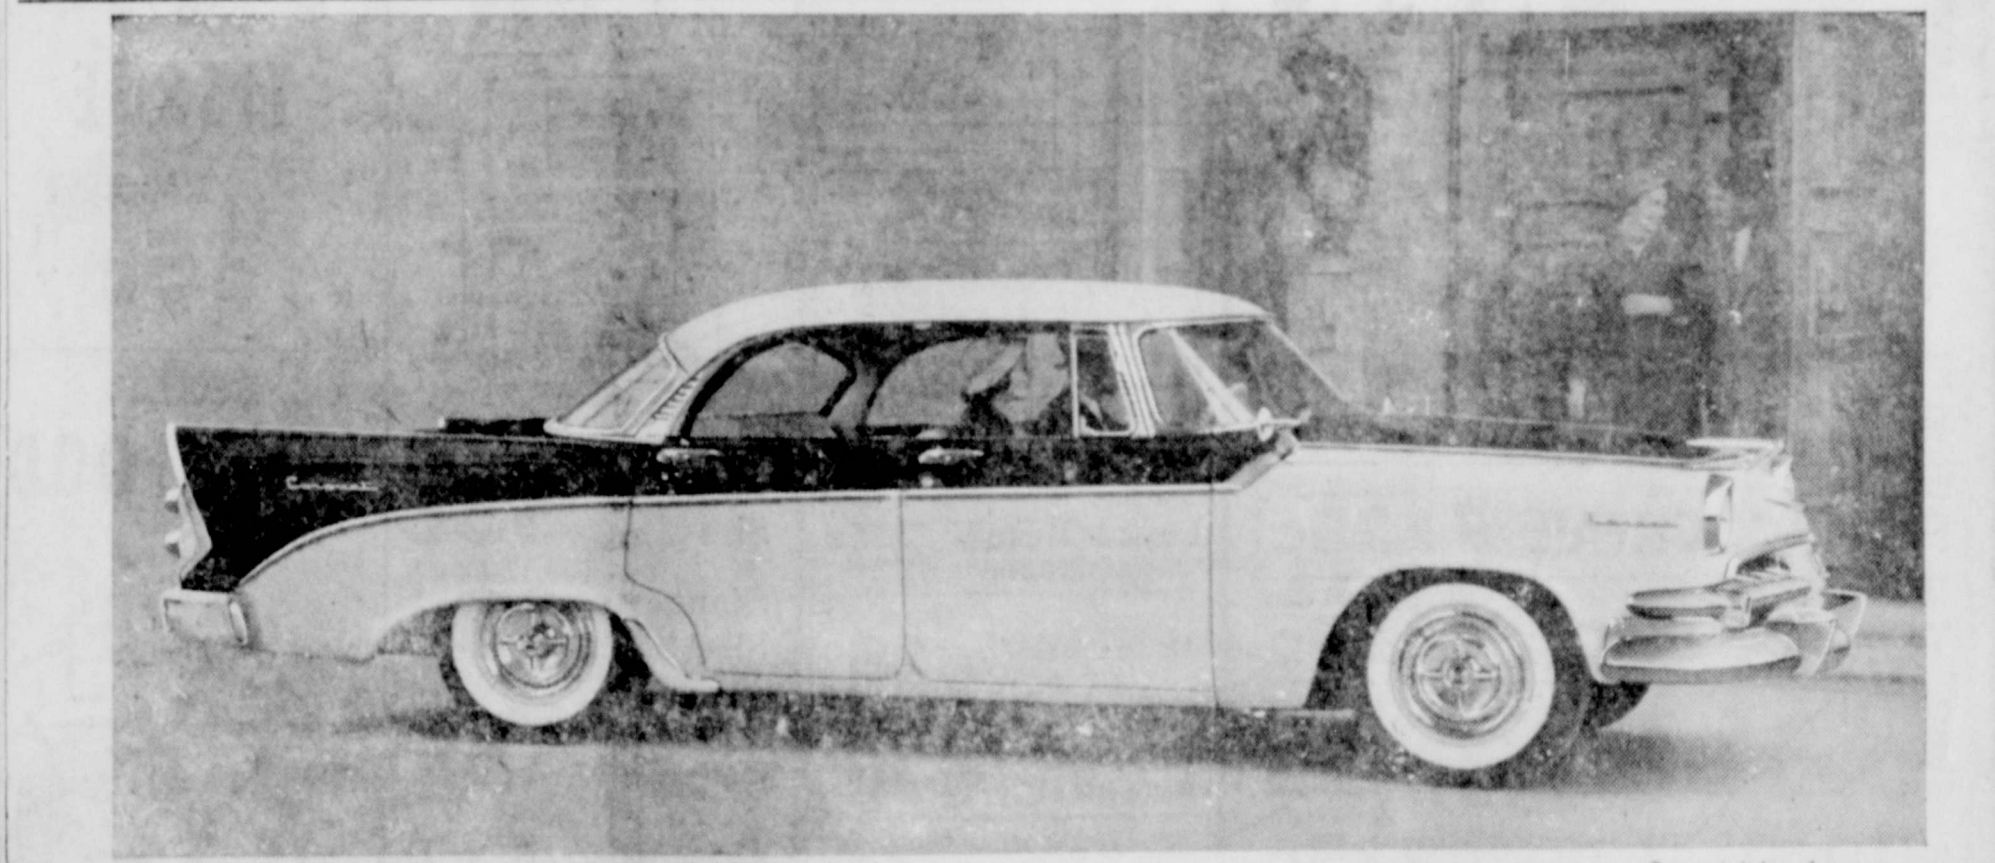

It's a scientific fact... Shamrock multi-viscosity motor oil steps this wear because:

1. It circulates freely in temperatures as low as 30° to 25° below zero.
2. It retains its viscosity (thickness) at highest operating temperatures.

Improve the performance and extend the life of your car with Shamrock 5W-20 or 10W-30 motor oil. Ask for them at the Shamrock station near you.

"WE WIRED FOR HELP!"

says Mr. Roland Champion, 808 S. Plains Park Drive, Roswell, N. M.

The lifetime of modern living is your home electrical wiring system. When it's up-to-date, you're up-to-date.

Mr. and Mrs. Roland Champion of Roswell know the pleasures of modern electric living, for their home is wired for today — and the future.

Mr. Champion says: "With our home wired for our needs, we live very comfortably, and certainly conveniently."

Wiring — good wiring — is an investment that never depreciates. And good wiring never cuts less than it does when you build.

As H. D. Danenberg, who wired the Champion's home, points out: "With their present system, they won't have any expensive additions in the future."

Whether you build or remodel, be sure that wiring is part of your plan — if you plan to live the modern way.

Mrs. Champion gets right down to cases. "Our wiring lets us have an electric range. I wouldn't have any other kind. The outlets in the kitchen are so handy, and in the living room they're just right for the arrangement of furniture. Our wiring serves us from daylight to dark, right around the clock."

For pleasant living — electric living — wire ahead in your home now.

Motley County Widening Work Started on 70

MATADOR—Work has now started on the \$450,000 State Highway Department project of widening and improving US 70 from Matador to the Cottle County line.

R. L. (Bob) Nabers, Assistant District Engineer of Childress, said that contractors are moving in and starting operation which will probably require 25 men. He said, however, that as soon as the work gets underway approximately 50 men will be employed from six to eight months.

Mr. Nabers said the concrete bridges and culvert work will be first in the progress of the improvement project. The road is to be widened to four-lane and a new bridge will be constructed across Teepee creek to eliminate the dangerous curves in the present route. The curves at the east Motley county line will be removed and the highway will make a different approach into Cottle county.

Matador will be served by one of the major east and west highways when the improvement on US 70 is completed. Local business firms see a favorable influence on the community's economy during the period of construction of the highway.

Firm of Cooper & Woodruff are contractors on the US Highway 70 construction. Engineering is under the supervision of Bill Ham, resident engineer of the Childress district office.

The family of Mrs. W. P. Cuipepper will hold in grateful memory the many kind expressions of sympathy during the loss of our loved one.

South Plains News

(By Mrs. Murray Julian)

SOUTH PLAINS, Nov. 7—The Old Farmers Almanac has forecast a severe winter for our section of the United States. This Monday the wind, snow and sleet, with a low of 22 degrees has given us a good taste of winter, after such a beautiful fall.

About 75 were present at church on Sunday morning to hear Rev. Larry Faus bring his first sermon after an absence of ten days at Loving, N. M. One of the interesting experiences he had while away was a visit to the American Potash Mines near Carlsbad, where the potash comes from the ground like crushed, red rock, and after the many processes, it comes out snow white and is shipped to all parts of the world.

How good it was to see our neighbor Albert Bean at church on Sunday after an illness of several weeks.

Little Vicki Calahan, daughter of Mr. and Mrs. H. S. Calahan Jr., was hurt in a fall from the family pickup on Saturday evening while the parents were hauling grain. She was rushed to the doctor, and found to have severe bruises of the arm, and other hurts, but is at home, and getting better each day.

Mr. and Mrs. S. T. Reeves were hosts on Saturday to a group of girls who visited in their home. Billie Ann Cramer, Betty Faye Dickey and Peggy Mayfield, all of Lubbock, came out to spend the day with Carol Reeves, who also was home with her parents to spend Friday and Saturday.

Albert Stewart was ill on Friday evening and was taken to the hospital in Lockney. He remained until Sunday evening, and then came home where he is now convalescing.

Mr. and Mrs. Grigsby Milton, Barbara Sue and Donita, went to Lubbock Saturday.

Mr. and Mrs. Fred Fortenberry were guests at dinner on Sunday at noon in the home of Mr. and Mrs. Cephus Fortenberry of Cedar Hill, where they spent the afternoon.

Mrs. Elmo Reeves came home from the hospital at Lockney last Tuesday, and was able to be at church on Sunday. Mrs. Charles Wright and baby son are also at home and both are doing fine.

Mr. and Mrs. O'Dell Mulder and Patricia, from Albuquerque visited from the first of last week until Friday in the home of his brother, Mr. and Mrs. Arby Mulder and children. They went on to visit the boys Uncle Jim Mulder and family.

Mr. and Mrs. Frank McClure left on Friday afternoon for Ft. Worth to take his father to a family reunion, and they then went on to Houston, where they will visit several days with their son, Mr. and Mrs. Donald McClure.

The intermediate G. A.'s will meet with their sponsor, Mrs. Larry Faus, on Tuesday evening at seven, in the home of J. P. Taylor with Virginia Taylor acting as hostess for the group.

Teaches Latin Americans

Mrs. Bryant Higginbotham started teaching Latin Americans at the South Plains School on Monday. Mrs. S. H. Whitaker taught them several days last week while her school in Flomott was not in session. These are the children of the families who are here a short time in the cotton pulling season.

Rev. and Mrs. Larry Faus and children had as their dinner guests and afternoon visitors after church on Sunday, Mr. and Mrs. Arby Mulder and children.

Mrs. J. R. Spivey, from Truscott, visited Tuesday and Wednesday night with Mr. and Mrs. S. D. Kinnibrugh and girls. Taking Beth with her she went to Earth on Wednesday to visit her sister until Thursday when they returned here. On Friday they all went to Vera and Truscott where they spent the week end at the Spivey home, and at the J. A. Kinnibrugh's.

Mrs. Skeet Thornton was hostess at a party at her home east of Lockney on Tuesday afternoon at three. Games of canasta were enjoyed during the afternoon, and Mrs. Thornton then served refreshments to Mmes. George Beedy, Estes Woodburn, Harry Hartman, John Smitherman and George West.

Mrs. Sim Reeves enjoyed a visit from her brother, E. P. Austin, from Abilene who came on Monday and spent the day with the Reeves.

Mr. and Mrs. John Kinnibrugh and family of Vera, came home on Sunday night with his brother, Mr. and Mrs. S. D. Kinnibrugh and girls to spend several days here. On Monday they all went to Lubbock where they spent the day shopping and sightseeing.

Miss Jane Fitzgerald, from San Diego, Calif., has been here over two weeks, visiting with relatives in Lockney, and with her aunt and family, Mr. and Mrs. Arby Mulder, out here.

Mr. and Mrs. Grigsby Milton will open their new home for the annual Home Demonstration Club Christmas Party. This is the time of the year when members bring their husbands and together they enjoy the Christmas tree, and exchange of gifts.

PTA Meeting Held Friday

South Plains P-TA met at the school auditorium on Friday afternoon, with S. H. Whitaker's room of 6th, 7th and 8th grade pupils presenting a musical program and Eulalia Sanders at the piano for the group singing. The P-TA, Builds Sound Bodies was the theme for the P-TA program, and health was stressed in the readings given by the pupils. Mrs. Wesley Carr, County Health Nurse, was guest speaker and showed the parents how she checked ears, eyes and discovered any defect that tended to

effect the pupils school work. Her talk ended with an interesting film on Health. After the program, a business meeting was held with Mrs. Milton presiding. Mrs. Carr left a reminder for everyone that the X-ray unit will be in Lockney on December 6 and at Floydada for two days, December 7 and 8. This is a free service and every adult should make an effort to get a check up.

Mr. and Mrs. George West had as their guest, Mrs. George Lee, of Lubbock who visited them on Tuesday. On Sunday evening the Wests went to Amarillo to spend the night and Monday with Mr. and Mrs. E. T. Evans.

Mrs. Cecil Taylor was elected as bible study and prayer chairman. Present at the meeting were members, Mmes. Larry Faus, Sim Reeves, Shelby Calahan, Murray Julian, Cecil Taylor, Grigsby Milton, Bryan Karr, John Smitherman and guest, Mrs. Thos. Pierce and boys.

Elevator And Grain Fire

Tuesday morning at South Plains the Harvest Queen Elevator caught fire, and with all the grain in storage, the buildings around it, with wheat stored there, burned to the ground. Dock Jones manages the elevator, and although the fire trucks came out from Lockney there was no water available for such an emergency. There is no way of knowing how the fire started. Perhaps there was a short in the wiring as smoke started pouring from the top of the structure.
