### SOIL CONSERVATION DISTRICT NEWS

Conservation strategy for 1956, speedup of upstream flood prevention work, and water legislation for Texas will be the big topics of discussion when farmers and ranchers from all over the state meet in Lubbock Jan. 18-20 for the 18th annual convention of the Association of Texas Soil Conservation District Supervisors.

Dr. H. Wadleigh, chief of USDA's Soil and Water Conservation Research Branch, the main speaker, is expected to discuss research for better control of wind erosion and better use of water in crop production.

L. L. Miles, Cheyenne, Okla., will tell about the first completed upstream flood prevention project in the United States — the system of small dams and land treatment measures on Sandstone Creek Watershed in western Oklahoma.

Bill Durham, Fort Worth, Star-Telegram farm editor and recent appointee to USDA's new Soil and Water Conservation Advisory Committee, will report on the committee's activities.

Other Floydada people who attended the funeral included two nephews, Ben and Herman Galloway and their wives, a niece Mrs. Cotton Wilson and her husband, and Mr. and Mrs. P. L. Orman.

Mrs. Johnson and her family had been residents of Hereford since 1914.

### Marvin Rucker Chosen On All-State AA Team

Marvin Rucker, son of Mr. and Mrs. Bill Rucker, of Floydada, was named Monday to the Texas Sports Writers Association all-state class AA football team. Rucker has just completed his senior year of football eligibility for the Floydada Whirlwinds playing a tackle position for the team.

The selections were dominated by finalists in the state playoffs and Rucker was the only member named to the first team from the high plains.

Mr. and Mrs. Roy Slater visited in the home of Mr. and Mrs. M. B. Swanner Sunday.

There was a good attendance at both services Sunday at church.

We are sorry to hear that Arthur Womack is in Pitts Hospital in Floydada and hope he is able to come home soon.

### SHINGLES or Herpes Zoster

This is an inflammatory condition of the posterior (back) root ganglion and the nerves going into and out of this ganglion.

It is interesting to note that the lesions in the nervous system and the cerebro spinal fluid changes in this condition are the same as in poliomyelitis.

During the inflammatory stage vesicles appear upon the skin along the course of the nerve involved. This is preceded by neuralgic pains. The nerve cells and fibers then begin to degenerate. Upon completion of the degeneration process there is lack of sensation along the previous course of the nerve.

Shingles originally begins from a constant irritation on the posterior root of a spinal nerve. When a spinal bone becomes misaligned it will produce irritation. When the misalignment is so that it irritates the posterior root, shingles follows.

Chiropractic results in this condition are excellent. Investigate chiropractic.

### Plymouth Showing New Model 'Fury'

DETROIT — Plymouth has introduced a new model — the 245-horsepower "Fury" — which combines the finest features of a high-performance sports car and retains all the conveniences of deluxe American production car design.

The engine is similar in design to other Plymouth Hi-Fire V-8s, but with a larger displacement and higher — 9.45 to 1 — compression ratio.

The Fury is a full inch lower than Plymouth's Belvedere and Savoy two-door hardtops.

Mr. Smith is a half-brother of R. H. (Dick) Smith of the McCoy Community.

He is survived by his wife, Jessie, three sons, Frank, Hereford, Edgar and J. C., both of Crosbyton; three daughters, Mrs. J. T. Terrod, Taft, Calif., Mrs. John B. Mays, Plainview and Mrs. J. B. Mrs. E. L. Widener, who is a patient in Plainview Hospital, is reported by her mother, Mrs. G. N. Shirey to be improving. Mrs. Widener had major surgery Tuesday of last week.

### Electricity Sales Show Good Gain

Reflecting the substantial growth of the community in the period of 14 months are figures made available for the city light and power sales by Superintendent J. D. Parks this week.

For the year of 1955 the sales of kilowatt hours reached a total of 3,279,100, as compared with the year of 1954 when the sales were 4,992,900 kilowatts, showing an increase of 286,200 kilowatts.

The change over from Delta to Y circuit was completed within the year, adding substantially to the percentage of sales of electric energy produced, not reflected in these figures, Mr. Parks pointed out.

Mrs. Annie Assiter is married to C. C. Webb.

Mrs. Annie Assiter, prominent widowed farmer of Starkey, and C. C. Webb, also a farmer, of Woodrow, Tex., exchanged vows in the parlor of the First Baptist Church at Crosbyton, N. M., on Dec. 24.

The couple are making their home at Mrs. Webb's farm on the Ralls Highway. Following their marriage they took a trip to New Orleans, La., returning home after an absence of several days.

## THE FLOYD COUNTY HESPERIAN

Published by the Hesperian Publishing Co., Inc., at 212 South Main St., Floydada, Texas. HOMER STEEN, Editor.  
THURSDAY, JANUARY 12, 1956

Established 1896 by Claude V. Hall, entered as second class mail at the post office at Floydada, Texas, April 10, 1897 under the act of Congress of March 3, 1879.

### VIEWES AND COMMENT

We are encouraged with the way people who have their investments in Floydada added to them last year. The resume printed in The Hesperian showed that nearly \$600,000 of Floydada money was plowed back into improvements and betterments, not to mention a \$450,000 investment the taxpayers are pledged to make in their school system in the next eight months, and \$375,000 spent for water works and sewer extensions. Outside big business is notably not listed as investing in Floydada, except for small amounts made by Sinclair Oil Company and another pledge by Humble. Both add or will add two or three families each to the total of local population and as such are appreciated. However neither enterprise is the big scale employer of men which every small city dreams of. The local money put into permanent improvements is proof that the people believe in their own community, which is the forerunner of getting somebody else to believe in the community, too.

It is said that Humble chose the site at West Missouri and North Second because they think there will be increasing use of the Sand Hill east and west road as well as of through Highway No. 70. The latter is destined to become overcrowded and so dangerous that travel is going to by-pass it wherever possible. And there is no foreseeable time in which the people may change their minds about bringing it up-to-date.

Miss Grace Kelley, whose engagement to the Prince of Monaco was announced at a press conference called in her father's home in Philadelphia last week, is an example of good American girl. Winning fame as an actress on stage screen and in television, despite wealth and without unusual chaste cake that is a part of the scene in the world of make believe, is an accomplishment all its own. Having won the hearts of the American public and recognition in her chosen profession, it is to be hoped that she now will share with equal charm a home of her own—and live happily ever afterward with her Prince Charming. Incidentally, the prince is said to be about all that the common run of continental "royalty" is not. Which, if true, makes it a story book romance for sure.

The people of Monaco, who would be glad that the prince marry well and live happily, have a mere selfish concern than that, however, in wanting the prince to marry. Should he die without issue Monaco would again have to pay French taxes after many years of freedom from taxes. They would also have to help support a war, should one come, with arms and men. So they are doubly happy to hear of the prince's decision to take a wife. Speaking of being tax-free reminds us: There are a good many things about Europe which confuse the American commuter. One of these is that there are many "to the man born" there who not only do not pay taxes but whose living is obtained through taxing "the people." — But they "toil not, neither do they spin."

About this time of the year an average employer goes through the vexing bookkeeping problems that have to do with taxation. Through the year he collects and collects for the government and pays and pays. At the end of the year the employer then figures and figures to see if he can reconcile his accounts. The employer collects and pays—or

else. Imagine how much a good-sized business has to figure and how much it costs such a commercial organization. Dealing in astronomy the congress levies a tax that ranges up to a possible \$60 billion. It costs the country at least another \$5 billion just to keep the accounts and stay out of jail to get the bill paid. This is not intended to be an exaggeration—just a bald statement of fact. Somehow or other when you get around to mentioning the burden to the congressman it becomes a sort of unimportant matter—one of those matters that just can't be helped!

Not too many people seem to be interested in the subject, taking the poll tax payment record as an index, but the change-up made by the people last fall in the length of term of a county official, may have something to do in the long run with the way party affairs are handled. We mean in particular as regards the financing of primaries. At the time, and it has been that way since 1905, the candidates pay all of the primary election bills. They are assessed on the basis of salary and emolument of the offices which the respective candidates seek. With only six county and precinct and one district office to fill, the bill will be rather steep for each. Two primaries cannot be run through by the county committee for less than a probable \$2,000. At that the primary is always held at a cost lower than the county can do the job. A party can cut some corners legally that the county cannot.

The president's message to the congress on the state of the union was political in nature, as state of the union messages usually are, by the necessity of the circumstances. It was a long message and dealt with many problems, domestic and foreign. The disposition of nearly every problem on the list will have a direct bearing on every family in Floyd County. Here are some of them: Farm legislation, federal aid for school building, tax cuts, balanced budget, foreign policy, foreign aid, military spending, highway program. As noted by Walter C. Hornaday the president did not touch on the natural gas measure. It was too hot a potato to put into the presidential message. The high court has ruled the federal government can invade private property and set the price of natural gas at the well head. It is a case quite similar in nature to that of the Tidelands in that it says the government can take what it wants. It has the additional objection to us that it violates states' rights. "You've got it. We want it. Hand it here." That's the spirit of it. And that is what one of the big battles in congress is to be about. Resisting federal encroachment.

We are almost of a notion to begin predicting the weather again. It is one of the possibilities that the "dry cycle" has come near to a close. The only thing that keeps us from predicting some real weather in February, with both wet and cold, is the tradition that February is a dry month. Also January 2 (standing for the second month of the year) was a bright, shiny day. Otherwise there are some "indications." It would be "nice" to wade deep snow and slush for two or three weeks before spring arrives.

All the money in the world is no use to a man or his country if he spends it as fast as he makes it. All he has left is his bills and the reputation for being a fool. — Kipling.

### Club Continues Gifts to Patients In State Hospital

A Japanese wax flower demonstration given by Mrs. Harriette Brummett was enjoyed by the Dougherty Home Demonstration Club when they met the afternoon of Jan. 14, in the home of Mrs. Johnny Cates. The meeting was called to order by the president, Mrs. Jack Ross. The roll call was answered with new party ideas. The minutes were read by Mrs. Howe Hines. The club voted to continue sending gifts to six "forgotten patients" at the Abilene State Hospital and also send gifts to the patient they have had for four years. Mrs. Ned Bradley gave some very good pointers on being a good hostess. Mrs. Brummett gave an interesting demonstration on inexpensive party centerpieces. She also demonstrated how to make checker board, ribbon and pinwheel sandwiches and special party mints. From a table lighted with small floating candles refreshments were served to Mesdames Ned Bradley, C. A. Caffee, Howe Hines, John Lewis, Claude Ring, Jack Ross, G. W. Smith, Mac Ward, Robert Ward, guests, Maurine Campbell, Roy Crawford, Russell Crawford, Fred Conner, Kenneth Poole, Mrs. Brummett and the hostess, Mrs. Cates. The next meeting will be Jan. 18 at the home of Mrs. Claude Ring.

### Demonstration Club Begins Year

The Sunnyside Home Demonstration Club met Friday afternoon at 2:30 o'clock with Mrs. W. H. Hilton as hostess. The presiding president, Mrs. W. H. Bethel, opened the meeting with a prayer. Mrs. Fay Hart led the club prayer and creed. Mrs. J. M. Daniel gave the council report. During the business meeting, Mrs. Bethel read the list of committee chairmen for the coming club year and asked all to study the year book and always be ready with a roll call. Mrs. Roy Curry, program leader.

## THESE ARE IMPORTANT PEOPLE IN YOUR LIFE

Dear Friends

The people in the picture in this advertisement are Humble researchers on their way to work in Humble's Houston Research Center.

They are important people in your life, because their studies and their constant experimentation have only one purpose: to meet your increasing needs for oil and natural gas.

At the Houston Research Center they pool their efforts to make the finding and production of oil and natural gas more efficient. And since they are top people in their different fields, their work has met with notable success.

It has helped to make the Humble Company not only the largest but also one of the most efficient producing companies in the country.

The new ideas, new methods and new practices developed by Humble researchers have resulted in the discovery of new reservoirs of a valuable natural resource in making these reservoirs more productive; and in prolonging their life for your future benefit.

Sincerely

the body is pale yellow in color, giving the worm a ringed appearance when viewed from above.  
 The insect is difficult to control and is so feared by grainmen that its presence in a state is enough to lower the market demand. It spreads into Texas, grain values can drop or, in some cases, be prohibited from shipment into U. S. markets without strict and costly inspections.

# Highlights And Sidelights From the State Capitol

(By Vern Sanford, Texas Press Association)

AUSTIN, Tex.—It seems that all areas of state government — executive, legislative, administrative and judicial — are affected by the insurance debacle. There are Federal overtones too — and of course political.

Developments were numerous as the state moved to close five more insurance or related firms and slapped another under state conservatorship. All this in the wake of the collapse of the \$5,000,000 U. S. Trust and Guaranty Co.

Most far-reaching step was the order by the Board of Insurance Commissioners, for re-examination of all Texas insurance companies, none excepted.

Already under way, at the request of the commission, is a vast

## Forgotten something?

It's all too easy to forget or "postpone" our responsibilities toward our schools. Yet, we know enrollments are growing by leaps and bounds. Unless we plan 10 years ahead, many children won't have enough books or teachers—or even classrooms!

So let's all join in community conferences for better schools—work together to guarantee our children the education they deserve! For a free booklet, "How Can Citizens Help Their Schools," write Better Schools, 2 West 4th Street, New York 36, N. Y.

audit-examination sponsored by the Texas Society of Certified Public Accountants. Auditing costs will be assessed the companies. Any insurance firm refusing to open its books to the unofficial examiners will have its license suspended immediately and an official examination of such firm will start within 48 hours.

Gov. Allan Shivers commended the unusual step and gave his emphatic endorsement.

### Saunders New Chairman

In keeping with the requirements of state law the Insurance Commission named a new chairman for a two-year term. Casualty Commissioner J. Bryon Saunders was selected. He succeeds Garland A. Smith, chairman for the past two years. Smith nominated Saunders for the post.

One of the first moves of the new commission was to suspend the license of the U. S. Life Insurance Co. of Waco. It is one of the companies under the direction of A. B. Shoemaker, who is president of the U. S. Trust and Guaranty Co. as well as U. S. Automotive Service. Both of these firms are now in receivership.

Another Shoemaker concern, Southern Medical and Hospital Services, was placed in conservatorship. This means that a state conservator—virtually the same as a state liquidator—will operate the company until the insurance board determines further action. . . . possibly the selection of new management.

Licenses also were revoked for Dallas Fire and Casualty Co. and American Atlas Life Insurance Co. of Dallas. American Atlas appealed to the district court. This suspends the order against them pending a court hearing on the appeal.

While the Insurance Commission was taking action, Secretary of State Tom Reavley seized the books and records of the Mercantile Investment Corporation, a holding firm, and Merchants National Security Corporation, its subsidiary, for investigation of their sales of securities. Both firms are in Dallas.

In Austin, District Judge J. Harris Gardner instructed a grand jury to

make a full investigation of insurance affairs.

Several legislators had urged either grand jury action or a special session of the Legislature to consider insurance matters.

The Senate general investigating committee is resuming its investigation of the U. S. Trust and other insurance matters. House general investigating committee members will hold a three-day session beginning Jan. 19.

Atty. Gen. John Ben Shepperd wrote district and county attorneys in the 13 counties in which U. S. Trust and Guaranty Co. operated, reminding them that a grand jury inquiry into possible criminal violations need not wait for completion of the state audit.

Federal agencies disclosed that they have begun investigations of the interstate operations of U. S. Trust and Guaranty Co.

And in Washington, U. S. Senator Price Daniel called on Federal agencies to determine if use of "U. S." in the trust company's name violated any Federal law or regulation.

Four Insurance Department examiners have been promised a quick hearing on charges they conspired to defraud the public. Suspended without pay by the Board are Larry W. Blanchard, Robert R. Butler, William J. Noad, and Lee L. Pfeifferkorn.

They were charged in an Austin district court with knowingly making a false examination report in 1952, showing the now defunct General American Casualty Company to be solvent.

Other defendants named in the suit by the state's insurance liquidator were the officers and directors of General American and the banks and surety companies involved in its operation.

Insurance Commission agents are being sent to all Texas military installations to check reports of insurance being sold at higher than state-prescribed rates.

Some servicemen, the commission was told, were paying as much as three times the state rate for automobile insurance.

With candidates for top political offices already talking it up, more stringent regulation of insurance companies will play an important part in the campaign platforms of 1956 in Texas.

## As A Farm Woman Thinks

(Nellie Witt Spikes)

### ROADS

By Strickland Gillilan

They've scattered city boulevards among the country hills. Where rambling friendly roadways that we loved in days gone by. They've taken out the gradients we coasted down with thrills. Till roadways aren't familiar any longer to the eye.

A costly modern stone road-

owned a driver's license and 2,638 were driving with expired licenses or without licenses. Nearly 150,000 drivers' licenses were checked at various hours of the day and night, on highways and farm-to-market roads. . . . Over \$7,000,000 will be spent by the Texas Highway Department in 1956 in an attempt to reduce highway accidents. . . . Joe McMill of Fort Worth has been named by Atty. Gen. John Ben Shepperd as an assistant in the veterans land division. . . . Rain is needed over all parts of Texas, says the U. S. Department of Agriculture. Dried wheat in the northwest is holding on surprisingly well, even though surface moisture is depleted. High Plains irrigated wheat is in good condition. In the blacklands, Central and East Texas, most small grains have fair to good color, but vegetable growth is short and rain is needed urgently. Heavy supplemental feeding of livestock continues over most of Texas. . . . Twelve-month school terms and larger classroom units were among suggestions discussed by a committee of 50 citizens named by the State Board of Education to consider ways and means of better utilization of school personnel and facilities. . . . Lt. Col. Morris S. Schwartz, state selective service director, says the Army will draft 289 Texans in February as its share of some 6,000 men to be called into service nationally. Only board having a preponderance of older men will be asked to fill the quota. . . . Texas construction projects totaled \$949,213,349 for 1955, making it the fifth best year on record. An all-time high \$174,600,000 program of road building scheduled by the Texas Highway Department brightens the construction industry's outlook for 1956. . . . Travis County's three district courts, in which venue of nearly all state cases is placed, are overflowing with veterans land, insurance and other state cases. District Judge D. B. Wood of Georgetown has been assigned to Austin in an effort to catch up with the overloaded dockets.

So seldom is a lone road  
That used to take me home.  
I liked the old roads better,  
For they wandered through the fields.  
With honey at the hubs and  
blossoms at the fender.  
The breeze was sweet with incense  
that the mellifluous yields  
The memory of one rutted road  
is vivid yet, and tender—  
'Twas not a modern stone road  
It often was a lone road.  
But yet it was my own road  
That led me to my home.  
The boughs of fragrant orchard  
'Twas in apple-blossom time  
Would kiss the carriage body as  
we slowly rolled between.  
The sand-and-gravel hill slopes  
were a heavy task to climb.  
The center was a rugged ridge  
with weeds and grasses green.  
But now we have a stone road.  
A never-left-alone road  
I'd rather have my own road  
Whose windings led me home.

Thanks very kindly, Maud Hollums for taking the time to send me this lovely poem. It brings a homesickness for the old freight road I once travelled with my father and mother and sisters and brothers to Canyon City and Amarillo. Many a time I travel it in memory. I see my beautiful mother pinning back the heavy duck wagon sheet as we entered a town so her children would not miss the joys of seeing new sights. There was always a baby in our family and a safety pin was available. Then the road to grandfathers home, the road to the little white schoolhouse where hung the

bell that called us to come and learn. There was the rock road down the steep canyon walls, then there was the sad road to the "graveyard" as we said then. Sweet and precious are their memories and the poet has caught the longing for the things that will never come again.

Checking back it has been some weeks since I have gotten out this column.

The hurry and getting for Christmas, the good smell of the rich fruit cakes, the baking turkey with its side kick of dressing and gravy . . . the opening of presents, the stars in the eyes of children and loved ones. . . the Star in our hearts and minds that shone long ago at Bethlehem. . . the warm sunny day of the holidays. . . the constant flow of beautiful cards and greetings from friends and relations both near and far. . . the beautiful Golden Wedding Celebration of our good friends the O. B. Olsons of Floydada. . . but, oh the ache in our hearts at the passing of so many friends.

We recalled the gracious sweetness of Mrs. "Fiddler" Robertson as we ate the delicious meals she knew how to prepare. . . the always kindly greeting of Andy Wooten and Calvin Smith when we had occasion to visit in Crosbyton. Lige Dean who married our neighbor girl and lived near us so many years. "One by one" the old song rings.

Mr. Winfrey whose nice smile lighted up his face as he greeted his friends. "Gathering Home, Gathering Home, God's Children are Gathering Home." A sad road? But

Whether idling at curbside or cruising, this new Chevrolet talks in a well-mannered whisper. You scarcely ever hear more than a soft undertone of power from its deep-chested V8. (One reason is the hydraulic-hushed valve lifters now in all Chevrolet engines—V8 or 6.)

## Employee's Tax Due in January

Farm operators who have paid as much as \$100 in cash wages to any farm employee during the year 1955 should file an employer's tax and information return for agricultural employees, form 943, D. I. King of the Internal Revenue Office, in the Plainview, announced today. This tax return should be filed with the District Director of Internal Revenue, Dallas, Texas, together with the social security taxes on the wages shown on the form.

King emphasized that this annual report of wages paid for agricultural labor must be filed with the Internal Revenue Service before Jan. 31, 1956. The return must show the name, social security number, and wages paid every employee whose cash wages from the same farmer amounted to \$100 or more.

Farmers, who must take these tax returns and have them reviewed or written for the proper forms, should write the District Director of Internal Revenue, Dallas, immediately in order to be sure of getting the report filed before the Jan. 31 deadline, King urged.

## Lakeview News

(By Mrs. F. B. Estep)

LAKEVIEW, Jan. 9 — My, how time is flying by. January will be gone before we know it. There has been much activity in our community. People have settled down to everyday living. There is still quite a bit of sickness.

Mr. and Mrs. Jack White of Lorenzo visited Sunday afternoon with Mr. and Mrs. R. H. Peel. Mr. and Mrs. Peel visited Mrs. A. T. Pratt in Crosbyton Hospital Wednesday.

Little Jory Fort has been sick for the past week with a cold and the group so Mrs. Fort hasn't been with Bro. Fort at church the past two Sundays.

Mrs. Wayne Russell visited Mrs. Warner Johnson Wednesday morning.

Mr. and Mrs. J. K. Bradshaw were Friday dinner guests of Mr. and Mrs. Warner Johnson and on Saturday Mr. and Mrs. Henry Dickerson ate dinner with the Johnson family.

Mr. and Mrs. Earl Edwards spent from Wednesday until Sunday at Abilene with their daughter, Mrs. Frank File and husband and little Don, who is still in the hospital. Mrs. Edwards says the baby is gaining weight and doing fine. There

## LIBRARY NEWS

(By Mrs. Lee C. Goughly)

According to records set up by the Library Board, tax money designated for the library is to be used within the calendar year. Reports for 1955 show a balance of \$10.34 at the close of the year. Other interesting figures are:

Gifts — \$283.30  
Memorials — 345.14  
Coke Machine — 87.50  
Fines — 191.50  
Lost Books — 31.73  
Circulation for 1955: Lockney, 6135; Floydada, 12,984. Grand total, 19,119.

Borrowers Cards: Lockney, 616; Floydada, 1745. Total, 2361.  
Books Accessed to date, 5247.  
Starting Jan. 11 and continuing through Jan. 29, the public is invited to view another art exhibit by kindergarten pupils of Mrs. E. B. Chesnut. Pictures will be exhibited crayon and pastel will be exhibited by Susanne Guthrie, Nancy Fowler and Brenda Walls.

Many people have commented on how much they enjoyed the art displays before Christmas by Douglas Walding, Darrell Lindsay and Mrs. D. D. Shipley. Following this exhibit, there will be other art exhibits by the pupils of Mrs. Chesnut and Mrs. Barker.

We would like to emphasize again the importance of returning books on time, and also the care of borrowed books. The library is growing steadily, and Floyd County has every reason to be proud of the large number of books on the shelves. The average cost of a book is from \$3.00 to \$5.00. Several last books will soon run into money! The cooperation of everyone in returning and caring for them will mean more new books for the shelves.

## Center News

(By Mrs. J. E. Green)

CENTER, Jan. 10 — Such a beautiful spring day today. Makes one want to get out and garden. One thing we'd ask for would be a good, slow rain.

Some of our crowd were missing from church Sunday, mostly from sickness.

Terry Wesson was sick Sunday with an unusual infection and the members of the family present returned to Plainview after church.

Mr. and Mrs. Elmer Warren were confined at home Sunday with severe colds.

Mrs. R. C. Ross who has had a cold for two weeks was able to be out again Sunday.

Among those from Center who attended the wedding of James David Welborn and Nancy Smith Saturday afternoon at McCoy Baptist Church were Mr. and Mrs. Frank Dunn and family, Mr. and Mrs. Leo Frizzell, Mrs. Jackson, Mr. and Mrs. J. E. Green, Jimmy Dunn, and Mr. and Mrs. J. D. Welborn and family.

Mr. and Mrs. Jimmy Dunn attended the wedding Sunday afternoon at Ronnie Upton and Betty Bum at the City Park Church of Christ.

Mrs. Charles Horton is doing better since her sick spell Sunday.

Mr. and Mrs. Charles Horton attended funeral services at Spur on Monday for Mr. Horton's uncle, a long-time resident of Spur. Charles' mother who also attended came home with them for a few days visit.

Mr. and Mrs. Floyd Montgomery of Shallowater visited while Saturday evening with his sister and family, Mr. and Mrs. Frank Dunn and children.

Mr. and Mrs. J. E. Green visited the D. I. Beddings Friday evening and Monday evening.

We are glad to have a family move into the brick house on the Guiffee place. They are Mr. and Mrs. J. W. Clay and two children from Lockney.

Mrs. Ernie Widener is in a Plainview hospital where she had surgery one day last week.

Center Home Demonstration club will have a called meeting at Mrs. Henry Willis home on Grover St., on Thursday afternoon, Jan. 12. Every member please try to be present. Important business.

**NO WHITE CHRISTMAS**

Mr. and Mrs. E. J. Barker, who returned last week from a Christmas stay in Chicago, Ill., as guests of their daughter, say no snow fell in the Windy City during the holidays and they had no white Christmas.

The daughter at Chicago is Mrs. L. V. Asster. Mr. Asster is an architect.

The car says GO and the price says...

# Invest in Dependability... get a Bonus in Go!

You can buy it on its name alone—this big, high-powered '56 Pontiac—and be safe in the knowledge that you couldn't have made a better investment in years of dependable, carefree motoring.

The good things you've been hearing about Pontiac for years assure you that.

But "go" is the word for '56! Performance so new and dramatic it must be experienced to be believed!

A short spell behind the wheel will nail that statement down as a fact. Come along for a drive and see.

Waiting for the light to change, you can't hear the engine. But touch your toe to the accelerator and in a split second there's a torrent of power, sparked by the most advanced engine of them all—the blazing 227-h.p. Strato-Streak V-8.

Team this terrific power plant with Pontiac's all-new Strato-Flight Hydra-Matic\* and you've got the smoothest take-off that ever brightened a highway.

And remember—this easy handling dream is actually among the biggest, huskiest cars built!

Now for the final test—the greatest "go" on wheels. You can challenge. Wiggle the wheel on a stretch of rough road that you'll be glad to see you for years.

Now see why they're calling it the greatest "go" on wheels. More than that—it's the buy on wheels! And that's to prove.

Then take a look at the check on our deal. Nothing will stop the beauty from being yours!

You can actually have a big, glamorous Pontiac 860 for less than you would pay for 44 models of the low-priced three!

NEWS

Incas, read "The Lost City of the Incas" by the man who found the place in 1911, Hiram Bingham. All of these trips were made by jeep, train, boat, both freight and passenger planes. And in all kinds of weather except hurricanes.

The work consists of evaluating home extension work carried on by some 13 girls, assist them by giving demonstrations on various subjects, which means a great deal of planning, and having to consider that they have to be given under adverse conditions.

Then there is the duty of planning work for home agents to follow and make surveys in new areas to learn how home extension could further progress in Bolivia. Then even go so far as making post reports. There is the problem of getting subject material in Spanish to provide reading matter that will help them to help themselves to plan their work to meet family needs.

A two week's Extension Conference was held for some 83 farm and home agents which was so ably planned and conducted under the direction of K. K. Hennessy, who comes from the western state of Arizona, and who is director of Extension here.

Besides the above there is a report to submit each month. Then the usual activity such as waiting on planes to take off, which is not uncommon during rainy seasons. The breath taking trips via planes are more comfortable than the long dusty jeep trips even though one has to fly over the Andes and along the hills into the tropical areas.

With all the draw backs and hardships that we encounter through the day the job has been most interesting and a pleasure. The people have been very interesting to work with. One certainly broadens one's education to be able to study all areas of a new country other than your own. The job has enabled me to study most all areas of Bolivia, customs and homes. Each has its own distinct culture. Climate is usually different. So is the soil structure and vegetation. Therefore each place is all the more interesting and challenging.

The job of getting used to poor hotel accommodations and problems enroute to various places that might include eating with flies and not being able to drink water at will is overruled by the pleasure one gets working and associating with capable people and the friends we make.

I have had time to go shopping and picked up items such as hand woven articles, wood plaques, hand made rugs, copper vases. Now I'm beginning to wonder what I will put with them and where I will put them after returning to the States — I don't even have a 2 by 4 house. But it has been fun to shop and learn how another part of the world lives.

Because of being in the work I'm in I have lots of opportunities to learn how a household operates without modern appliances. You have modern equipment and have to learn how to use them to secure maximum results or use from them, but here the homemaker has the job of hiring some one to come in and do the work for her. She has a good organization if she herself has learned to train the one who does her cooking and cleaning. If not, the house and the one she employs runs her.

Most of the time this is not understood by her and one generally finds a great deal of malnutrition among well to do families and a poorly managed kitchen. Some of the American women who come down welcome the occasion to be free of house work and some times manage well and then again they find that they had rather go back and manage their own pots and pans.

When you have time let me know how things are going at home. I am always interested in hearing from you.

As ever,  
Lena Mae Anlauf,  
La Paz, Bolivia.

Mr. and Mrs. Melvin Henry and family spent Sunday in Matador with Mr. and Mrs. Ellithorp and family.

A. V. Womack underwent surgery at Pitts Hospital on Monday.

Food for thought:  
Too much time is spent wishing for the better things of life which you might well have if you didn't waste so much time wishing.

The hair, as well as the hair, can often be trained properly through the use of a brush.

For something a bit different in the way of pies, combine a mixture of spices, nuts, and raisins and you have a fragrant, chewy dessert to set before the family. Serve it with whipped cream and plenty of hot coffee, or tea, and bring it out when the neighbors stop by for a chat.

Spice Pie  
2 eggs separated  
1 cup sugar  
1 teaspoon cinnamon  
1 teaspoon cloves  
1/2 cup pecan halves  
1/2 cup seedless raisins  
1 tablespoon melted butter  
1 tablespoon vinegar  
8 inch unbaked pastry shell  
Unsweetened whipped cream

Beat the egg yolks until light and thick. Add the sugar gradually which has been sifted with the cinnamon and cloves. Then add the pecan halves, raisins and melted butter. Beat the egg whites stiff but not dry, and fold them gently into the sugar mixture. Do not beat in. As you fold them in, add the vinegar. Pour into the unbaked pastry shell. Bake in a hot oven (450 degrees) for ten minutes, then reduce the heat to 350 degrees and bake 25 minutes more.

The crust and top should be crisp and nicely browned.

Cool and serve with unsweetened whipped cream.

Jim Moeller of Brownfield is a new employee at the co-op. He plans to move his family here over the week-end.

John Nay and Mrs. Lillian Hilley attended the play "An Ideal Husband", Saturday evening in Plainview. This play was performed by the famous International Dublin Players.

Mr. and Mrs. Claude Weatherbee, Tommy and Leigh Ann went to Snyder over the week-end to be with his mother, Mrs. Eunice Weatherbee, who had surgery on Thursday of last week. Her condition was good.

Mr. and Mrs. Glenn Pool and Mrs. Pool's father, Mr. Turner spent the Christmas holidays in Dallas guests of Mrs. Pool's niece, Miss Hilda Rice who was married on Dec. 27. Hilda has visited her aunt here many times and is well known in the community. She and her husband, Mr. Measure are attending Wayland College in Plainview where he is studying for the ministry. They are living in Plainview until he completes his education.

Mr. and Mrs. R. G. Morris attended funeral services last week at Plomot for Mr. Morris' grandmother who passed there.

Mr. and Mrs. J. C. Rice of Dallas spent Sunday in the home of Mrs. Rice's sister, Mrs. Glenn Poole and husband.

Mr. and Mrs. Sherwood Ramsey were supper guests Monday in the home of Mr. and Mrs. M. D. Ramsey.

The Womens Society of Christian Service met Tuesday at the chapel with six members present. Mrs. R. G. Morris was program leader.

Mr. and Mrs. Chloma Williams were in Lubbock Tuesday and Wednesday to visit Mrs. Williams' brother Wesley Carr who was in Methodist Hospital.

Mr. and Mrs. G. L. Snodgrass were taken to the Carrick Snodgrass home Wednesday to spend several days. They have been at the home of Mr. and Mrs. Everett Miller since returning from the hospital. They are both improving satisfactorily and we hope they continue to do so.

Little David Goodgame of Midland and Mr. and Mrs. Wes Carpenter of Plainview were guests in the Mather Carr home Tuesday. Mrs. Carpenter left Wednesday for Midland for a ten day stay with her daughter, Mrs. Paul Goodgame and family. The Goodgames have a new son.

The Chapel church was supposed to pound their pastor and wife, Rev. and Mrs. Gates Friday night, but only a few went and found the pastor and his wife away. They gave them the pounding at the church Sunday.

There has been quite a lot of sickness in the community since the holidays.

Mr. and Mrs. Chloma Williams and Lajuna Sue spent Sunday in Amarillo with Chloma's parents, Mr. and Mrs. L. A. Williams. Mr. Williams has been in the hospital with a leg ailment. He was home and improving.

Rev. Gates preached two old-time Gospel sermons at the Chapel Sunday. Be sure and come to hear Bro. Gates, if you can.

The Gates family had dinner and supper in the E. W. Turner home Sunday.

Lawrence Holcomb is a guest in the home of his nephew R. B. Gary and wife. Holcomb is 84 years young and comes from Mabank, Tex. He attended services at the Chapel Sunday. He has been a member of the Methodist Church for 71 years.

Mrs. Lester Hargis and son Marvin of Floydada were guests in the Mather Carr home Sunday evening.

Rev. Gates also visited while in town.

G. L. and Carrick Snodgrass and the Sherwood Ramseys were visitors in the Wesley Carr home Sunday evening.

We are happy to report that M. D. Ramsey is still able to be up and attend services at the chapel.

We are sorry to lose one of our good neighbors, the J. R. Turners, who have been making their home on the R. B. Gary farm for a number of years. They have moved to the Providence Community where Mr. Turner will continue farming. We wish them success and happiness in their new home. The Elmer Williams family of Floydada will make their home on the Gary farm. We welcome the Williams back to our community. Mrs. Williams is the daughter of the Garys.

M. Y. P. and Church met early Sunday night so those who cared to could go to The First Methodist Church in Floydada to see the movie they had there. Several from here attended.

The Kenneth Stewards who left before Christmas for California to make their home decided to stay in Arizona instead.

Rev. Phil H. Gates and wife asked me to thank the Carr's Chapel Church for the nice pounding they gave them on Sunday.

News of Harmony

(By Mrs. Mather Carr)

HARMONY, Jan. 9 — Wesley Carr had an accident Monday in which he fell hitting his head. He was unconscious for sometime. He was taken to Methodist Hospital in Lubbock for a check-up and remained in the hospital until Thursday. He is much better although he still has a bump on his head. He doesn't know how he fell but thinks he might have tripped on some cord he was using while working on the heating system in the dining room.

Mrs. Ellery Smith and daughter of Abilene were guests in the home of their daughter and sister, Mrs.
