

# Will Name County ASC Committee Tomorrow

## Nine Chairmen Meet at 10 AM

Tomorrow morning at 10 o'clock the County Convention composed of the nine community chairmen, named last week in the ASC election, will meet and name the three men who will constitute the Floyd County ASC committee for the year beginning Oct. 1.

These nine men are the chairmen, respectively, of committees named in elections last Thursday. Each called the highest vote in his "community," and automatically became community chairman on that account.

Present members of the county committee are Buck Sams of Lockney, Tom Porter of Starkey and Herald Lackey of Cedar.

Biggest vote in the history of the operation of the USDA farm program, formerly initiated PMA, now ASC, was recorded in the election of the 27 community chairmen at the close of voting last Thursday. The hot controversy over cotton allotment policy last year is credited with the big jump in the vote.

The canvassing committee announced the results on Friday as follows:

Six hundred and thirteen votes cast in the nine "Communities," with the following chosen from each:

Community "A": Chairman and Delegate, Wiley Nance, Vice Chairman and Alternate Delegate, Herschel Carthel, Regular Member, Kenneth Wolford.

Community "B": Chairman and Delegate, R. G. Duzlap, Vice Chairman and Alternate Delegate, A. D. Monk, Regular Member, John Smeadman.

Community "C": Chairman and Delegate, John T. Carthel, Vice Chairman and Alternate Delegate, Oscar Golden, Regular Member, V. H. Kellison.

Community "D": Chairman and Delegate, Raymond Rucker, Vice Chairman and Alternate Delegate, Milton Ashton, Regular Member, Alvin Wilson.

Community "E": Chairman and Delegate, Lee Burton, Vice Chairman and Alternate Delegate, C. A. Burnell, Regular Member, Carl Smith.

Community "F": Chairman and Delegate, Charles Holmes, Vice Chairman and Alternate Delegate, David Battey Jr., Regular Member, L. D. Smith.

Community "G": Chairman and Delegate, Joe Dunn, Vice Chairman and Alternate Delegate, Greer Christian, Regular Member, Howard Gregory.

Community "H": Chairman and Delegate, H. L. Porter Jr., Vice Chairman and Alternate Delegate, O. L. Bearden, Regular Member, Harold Robertson.

Community "I": Chairman and Delegate, L. F. Gresham, Vice Chairman and Alternate Delegate, Marvin Jarboe, Regular Member, Travis Jones.

## Boys Ranch All Fired Up Over New Horse

Cal Farley, founder and president of Boys' Ranch at Old Tascosa, writes that the boys at the Ranch are delighted with the saddle horse donated by the "Floydada Coffee Drinkers" and delivered to the ranch 10 days ago by Roy Curry and F. A. Faulkenberry.

"The kids are all proud of the horse," writes Mr. Farley. "I was out there yesterday and the first thing they wanted me to do was to get the fine horse, which I did."

"It is a good, gentle horse and one that evidently has had good care and so the kids are all fired up over him."

"We have lots of different things at the Ranch for boys to do but with 90 per cent of the boys there isn't anything that takes the place of riding horseback in a saddle."

The local coffee drinkers made up a purse of \$135.50 to buy the horse. They bought an animal from W. E. Burleson, a big, sorrel, 7-year-old, for \$75. Curry wrote a check for the difference of \$60.50 and turned it over to the Ranch.

## Shurbet Showing New Quarterhorse at Fair

After a good showing at quarterhorse shows including Stamford and Tulla, J. B. Shurbet leaves this weekend for Albuquerque where he will show his yearling pony, Floydada Kid, at the New Mexico State Fair horse show.

Shurbet thought he was out of the quarterhorse business six years ago. He saved one mare because he couldn't stand to see her go when he sold out. She has kept him in the quarterhorse business, and Floydada Kid may turn out to be the best she ever foaled. His birthdate is May 30, 1955.

Shurbet is sure the little stallion has class. How far he will go in the hot competition at Albuquerque remains to be seen, he said.

A talent hour for Latin Americans is in the plans of the Retail Trades Committee of the Floydada Chamber of Commerce.

Bill Hale, chairman of the Retail Trades Committee, announced on Monday that the Amateur Program will be held on Saturday and invited all Latin Americans in this area who sing, dance, or play a musical instrument to register for the program. Winners in the amateur contest will be selected by the audience and will receive \$10.00 for first prize, \$5.00 second prize, \$2.50 for third place and \$2.50 fourth place.

Retail Trades Committee members hope that there will be enough contestants to make a full hour's free show. If the show is a success on Saturday, the committee plans to sponsor a similar program each Saturday afternoon through the harvest season.

The Amateur Hour was selected by the committee to provide another activity in Floydada for the Latin American family.

## Cooper Is Outstanding Conservation Farmer

Paul Cooper, who has farmed four miles north of Lockney for a quarter of a century or more and has made many valuable experiments with legumes and other soil saving projects on his farm, was hailed as outstanding farmer of Floyd County for 1956.

Cooper was presented a plaque denoting the recognition by Gene Collins Jr., president of Floydada Lions Club in a brief ceremony at high noon at Paymaster Farm near Aiken.

The presentation followed a barbecue dinner served to 200 or more Floyd County business men and farmers who made the soil district fall tour and made the noon stop to be guests of Paymaster Farm and Floydada Chamber of Commerce.

Inclement weather cut the attendance but the interest was keen on the part of those who did make the trip.

Don Jones, superintendent of the Lubbock Experiment Station, was the featured speaker of the occasion. He was presented to the crowd by Dr. Harold Loden, superintendent of Paymaster Farms.

Jones told of experiments indicating the value of soybeans as a cash crop and soil builder and likewise told of progress being made in the development of better hybrid grain sorghums. Jones was happy to relate that the quality of cotton being produced on plains farms this year, and the staple as well, are superior to the cottons produced in the area in previous years.

The route of the tour took the cavalcade to the farms of: Zant Scott and Bill Tucker at Harmony for study of forage sorghum demonstrations; T. H. Chatham and Lane Decker at Barwise for view of wheat overseeded with clover at the Chatham place and sesbania, soil improving crop at Decker's;

Fred Jackson at Sand Hill, field leveling project, and J. T. Huckabay at Sand Hill, bench leveling around a lake;

Raymond Rucker, Lockney, cotton following alfalfa;

Paul Cooper, Lockney, peas in grain sorghum and soybeans;

## FB Group Will Discuss Policy Here Tonight

The Farm Bureau office in Floydada is the place set tonight at 8 o'clock for a meeting in which members of the organization may determine their stand on issues that affect agriculture on the county, state and national levels.

A meeting of this kind was held Tuesday evening of this week at the Lockney High School Auditorium with R. C. Mitchell, policy development chairman, presiding.

Some of the issues discussed at this time were the child labor law pertaining to the cotton pickers children who need to be in school; to encourage the weed control law; encourage the Hi-Plains Underground Water Conservation District to control water from so much waste; and to initiate a program for grain sorghums similar to that of the National Cotton Council.

These suggestions along with those expressed tonight will be discussed and voted on at the Farm Bureau County Convention to be held Oct. 11 at the Lockney High School Auditorium.

## FHS Exes Meet Tuesday Night

## Mrs. Hoffman May Avoid Operation

Hope is that a major operation may be avoided by Mrs. John Hoffman through treatments now scheduled to be administered for a period of six weeks.

The Hoffmans returned home Saturday night from the Mayo Clinic at Rochester, Minn., where tests showed Mrs. Hoffman had had polio about seven months ago when she became ill. Paralysis had settled in portions of her abdomen, the tests indicated.

If response to the treatments is not satisfactory Mrs. Hoffman will be returned to Mayo for an operation.

## RECORD ATTENDANCE FIGURES MADE BY FLOYDADA SCHOOLS

A record breaking attendance was reported this week for Floydada Public Schools by Superintendent T. T. Graves.

A total of 818 students has enrolled in Andrews Ward, 326 students in Floydada High School and 162 enrolled in North Ward. This gives a total of 1306 students in Floydada schools.

Outstanding safety records of Lighthouse Electric Cooperative were recognized last week when Guy D. Herring, left, presented awards to Melvin Henry and Wiley Rogers. Both Henry and Rogers received pins for driving safety having completed 500,000 miles without accident. Rogers is shown here accepting a silver plaque presented to Lighthouse employees who have a record of 250,000 consecutive man hours without a lost time accident.

## Lighthouse Has Piled Up Many Safe Man Hours

Lighthouse Electric Cooperative has compiled an outstanding safety record in serving their large rural area with electric power. The organization was recognized Tuesday of last week for this accomplishment when Guy D. Herring, safety engineer for Employers Mutuals of Wausau, presented them with awards.

A SILVER plaque which represents 250,000 consecutive man hours without a lost time accident was awarded the organization. Also coming in for individual recognition was Melvin Henry, manager of the co-op, and Wiley Rogers, foreman of the line crew, who each were awarded pins for half a million miles of driving without an accident.

Herring in presenting the awards congratulated all those present for their fine record and reminded them that there are only a few such records in the nation to surpass these achievements and very few in the state of Texas.

LIGHTHOUSE is now striving for a gold plaque for 500,000 consecutive man hours with out lost time accident and at present has 33,000 hours toward that goal. There is only one gold plaque in the state for an organization such as Lighthouse.

All employees of the cooperative were called together for the presentation of the awards and enjoyed a coffee break in the kitchen of Lighthouse building here.

## Lions, Guests To Hear Paul Marable Today

## FHS Whirlwinds Go To Paducah For Dragon Battle Friday Night

Floydada Whirlwinds go to Paducah Friday night to take on their ancient rivals, the Paducah Dragons. The Winds, bolstered by their first victory of the season are due to be sharp and primed for the Cottle County boys though no one locally has named them favorites.

Making the trip with the team will be the big Whirlwind band, a large portion of the student cheerleading section, and a host of Whirlwind rooters.

THE BIG game is scheduled to begin at 8:00 p. m. on the Dragon field in east outskirts of Paducah. Game tickets are on sale in Floydada at the office of the school district in the court house.

Ducats are priced at \$1.00 for adult reserved seats. At the gate on Friday night tickets will go at \$1.25. The ticket is good for admission at the gate and also holds that seat number for the fan.

The Dragons of coach John Higdon have not been as impressive this season as some of the Paducah teams of years just past, but they are tagged a rugged ball club. This year they have lost three starts to class AA ball teams. In their opener they were defeated 19 - 12 by Orlinda, then 12 - 6 by Quanah, and 24 - 6 by Electric.

THE DRAGONS run from the T and winged T formations and use an unbalanced line. They have a line that averages 166 pounds according to their figures and 194 pound average in the backfield.

Stories out of Paducah say the chief weakness of the orange and white squad is lack of reserve strength. Scouts report the Dragons as a good looking ball club that has been a little off but that is apt to jell on any game night and mean trouble for the opposition.

The Winds have been looking better as the season progresses, but some injuries and sickness have kept them from being at top strength. Frank Potts is on the sick list and Ronnie Downing was suffering from a slight injury early this week. This could cause some adjustment with either Ratny Vickers or David Mount moving into this spot in the offensive alignment.

With this exception probably the same starting 11 will get the nod as in the past two weeks.

Four new members of the Whirlwind A team saw action last week when Coach Watson moved up some boys from the B team. Of these three are freshman and one a sophomore.

Making the jump were Danny Shipley, a 170-pound tackle, Billy Gilliland, a 155-pound back. Don Vickers, a 160-pound back and John

## Re-Open Doors Of Center For Migrant People

Casa De Amigos, "House of Friends," will open its second year of operations on Saturday according to Rev. Tom Condon, chairman of the Migrant Center Committee. The center for migrant families is sponsored by the churches of Floydada in cooperation with the National Council of Churches and the Texas Migrant Ministry. It will be located in the Hughes Building on North Main Street.

The center will contain chairs and tables, toys, games, a religious center and other facilities. There will also be special activities including a hot Saturday Religious Service, health programs or cartoons for the children, and a Sunday morning religious service.

"HOUSE OF FRIENDS" is planned primarily for the migrant workers in our community where they may rest and bring their children out of the weather," Rev. Condon said.

Center committees and chairmen include: volunteer help, Mrs. Carl Minor Jr., rummage, Mrs. R. Fred Brown, publicity, Mrs. John C. Moss, religious activities, Rev. Tilden B. Armstrong. Dozens of other volunteer workers will staff the center on each week-end during the harvest season. Hours for the center will be one p. m. until five p. m. on Saturdays and eleven a. m. until five p. m. on Sunday.

THE NAME "Casa De Amigos" is an original name of the Floydada center. This year local workers have been told by the Migrant Ministry representative that other Texas communities have now adopted that name for their own Migrant Centers.

## County Passes Half-Way Mark in Bond Quota

Texans are continuing their record purchases of Series E & H Savings Bonds. Joe Giddens, County Savings Bonds Chairman announced today. During the year of 1955 and the first eight months of 1956, Texans have purchased more bonds than during any like period since the war years of 1944-45.

Sales in Texas for the first eight months of 1956 were \$130,902,185. The people of Floyd County purchased \$167,137 for the same period. Our county has achieved 52.2% of its 1956 quota of \$320,000.

Chairman Giddens reminded those people whose Savings Bonds have been lost, stolen or destroyed that the Bonds can be replaced by contacting their bank or the Federal Reserve Bank Savings Bonds are absolutely indestructible. Mr. Giddens pointed out.

J. M. Wilson, district chairman of the Savings Bond Committee, reported this week that he had been advised of the appointment of Guy Brown of Amarillo as Area Manager for the Amarillo Area.

Jesse L. Adams, state director, reported to Wilson that Brown is a former insurance man and is expected to do an outstanding job in keeping this district in the lead in the state in the thrift program.

## Dr. Allen Tenders Resignation; Will Pastor Fort Worth Church

Dr. R. Earl Allen has resigned as pastor of the First Baptist Church of Floydada and in October will return to the home of his boyhood in Ft. Worth to assume the pastorate of one of the state's largest congregations, the Rosen Heights Baptist Church.

He tendered his resignation to the local congregation Sunday and announced that he had accepted the resignation. He asked that his resignation become effective early in October. He hopes to take up the new work between Oct. 10 and 14.

Rosen Heights is the third largest Baptist church in Ft. Worth with a membership of about 5,000, according to the Southern Baptist Handbook. From the same source it is learned the church is 14th in size in Texas and stands 25th out of 31,000 churches in the Southern Baptist Convention.

Dr. Allen is resigning in the seventh year of his ministry here. He began work here in the latter part of May, 1950. In that period the resident membership of the First Baptist Church has grown from 760 to 1064 and the total membership from 1014 to 1379.

Growth in the like period in Sunday School enrollment has been from 829 to 1244. Under his able leadership the training union has grown from 182 to 519 and the men's brotherhood enrollment from 25 to 170.

Greatest outward indication of progress of the church has been in the immense additions made to the

church educational plant, which now ranks as an ideal one for use in connection with religious training and education. The congregation, under his leadership, has expended \$150,000 on this new unit, remodeling the old and for furnishings.

Dr. and Mrs. Allen came to Floydada in May of 1950 from Seagraves. The church had not taken any action on the resignation of their pastor the first of this week.

At his new pastorate Dr. Allen will succeed Dr. Jesse Garrett, who has been pastor of Rosen Heights for 33 years.

**Sand Hill, Week Of Sept. 17**

We would like to congratulate Aiken on winning first and South Plains on winning third. We all enjoyed working with the fair. Some of those winning ribbons were Mrs. Lynn Miller, Mrs. Walter Knight, Mrs. Pat Bullock, Mrs. J. T. Spears and Mrs. James Jeffress, also Norma Sue Hollums, Janet Miller and Beverly Jeffress.

## Methodist Youth Fellowship News

(Joy Sparks, Reporter)

The Sunday School Lesson was from Rev. 7 chapter. This book of Revelation is really hard to understand. We feel like these lessons are making the book much plainer to us.

Sunday evening a very interesting discussion was held which was led by Joy Sparks and Keith Armstrong. These two did not begin to finish. Everyone had questions to ask and we did not find all the answers.

The next Sunday evening Bro. Armstrong is to talk to the youth on "Am I a Good Marriage Risk?" After this maybe some of the questions we have been asking will be answered. Don't forget, if you miss this discussion Sunday evening you are going to miss something that you don't have a chance to hear very often. Let's everyone be present and bring others.

The after game party was a success due to every one working together. Linda Welborn, Vaughn Ginn, Bill Smith, Carolyn Cates were on the decoration committee and they had help from every one. Roger Trapp was chairman of the program committee and he did a wonderful job.

Those taking part in the program were Norman Davis, president of the MYF, Kelly King as master of ceremonies, Keith Armstrong, Randall Jones, Douglas Waidling, Kearney Edmiston, Naomi Kiker, Joy Sparks, Pat Hickerson, Jerry Solomon, Ann Wood.

Wednesday of this week Sept. 26 the youth will meet at the church at 8:00 p. m. to pack clothes to send overseas.

(about events at Floydada High)

Everybody has just about recovered from the three weeks' exams. I don't think anyone is very anxious for another three weeks to pass! The English classes started on grammar this week.

The football game last Friday night was really great and we were really proud of the Whirlwinds! Again, we had a good cheering section. Let's all go to Paducah tomorrow night and back the Winds to their second victory. Much of the credit for the spirit goes to our peppy cheerleaders, and especially Kay Callaway!

The after-game party was a scream! Kelly King served as Emcee. He told some funny (?) jokes. Church, political party, run, catch?

Keith Armstrong and Randall Jones did two funny, funny jokes, not to mention "Trees" by Kearney Edmondson and Naomi Kizer as the "viper". The attendance was really good at the after-game parties.

The band's performance of hesitation strut and the majorette "Syncoated Clock" routine at the game Friday night brought back memories

to Gunnison. Mr. Jones apparently won his bet!

The band marched in the "Parade of Bands" Monday at Lubbock for the opening event of the Panhandle South Plains Fair. Everyone had a "ball" at the fair after the parade. The last bus pulled in here around 7:30 and everyone was really "pooped" but we'll have something to talk about this week.

The F.P.A. elected their officers, and the officers elected were: Kennedy Julian as president, Johnny Timin as vice-president, Winfred West as secretary, Elmer Williams as treasurer, Jay Johnson as reporter, and Norman Davis as sentinel. Last Friday the Ag classes made a tour of the Paymaster Farm near Aiken.

The F.H.A. girls are still planning to go to Dallas to the State Fair on Oct. 9-6.

The senior class pictures are to be made Oct. 31. The junior, sophomore, and freshman class pictures are to be made next Tuesday, along with the football pictures.

Couples seen around after the game at the Taste Freezes, and in the halls of F.H.S. were:

Joe Noland and Jean Wofford, Robert Stovall and Mary Cogdell, Marjorie Burleson and Butten Beedy, James Teague and Juanell Woods, D'lene Witkowski and Rusty Trinn, Leora King and Mike Shurtlet, Sonja Guffe and Don Garret, Sue Ring and Gary Malsler, Ronnie Blair and Bobbie Reeves, Pat Hickerson and Gary Huckabay, Kearney Edmondson and Judy Williams, Jane Tye and Roger Trapp, Bob Deik and Freida Smith, Jerry Floyd and Grant Cooper, Ann Jones and David Mount, David Blair and Dee Ann Newberry, Carol Lawson and Don Coiley, Linda Welborn and Vaughn Ginn, Bill Orman and Sue Nelson, Sue McClung and Henry Self.

Sue Kendricks and Billy Gilliland, Carolyn Cates and Buddy Watts, Kay Callaway and Speck Brian, Burdine Huckabee and Delbert Templeton, Sonja Wilson and Larry Glassmeyer, Vanda Carter and Billy Keeling, Jaynette Marquis and Jo Max Harrison, Gloria Cartmel and Jay Johnson, Sandra Roe and Randall Jones, Nanci Meredith and Wel-

don Pruitt, Janis Roberts and Kennedy Julian.

### Homer Martinez, Youth Evangelist, To Lead Revival

Homer Martinez, nationally known evangelist, a former Golden Gloves champion, who was quoting scriptures at the age of six, will preach for a youth led revival in the First Baptist Church here during next week.

The revival begins Sunday, Elton Brian, who is directing most of the preparations, said that two services daily will be on the program for next week — 7:30 a. m., and 7:30 p. m., through Oct. 7.

Buddy Johnson will lead the singing.

Now 25 years of age, a married man with three children, Martinez began evangelistic travel at the age of 15. He graduated from college at Georgetown, Ky., and it was while in school that he began the amateur boxing career which landed him as a finalist for bantamweight title for the nation in Chicago in 1949.

The revival here will be Number 114 for the evangelist since he graduated from college in 1933.

### LIBRARY NEWS

(By Mrs. Lee C. Goughly)

Some new books in the library include: "What is Communism?" by Dr. Grayson Kirk. Here, in one of the most important and significant publications of many years, is a detailed, authentic record of communism in the United States and throughout the world. "What is Communism?" contains some information never before made public and much more which has never appeared in book form, here or abroad.

"Window in the Sea" by Ralph Nading Hill, is the absorbing story of sea life in a great outdoor aquarium. It is the fascinating story of Marineland, the oceanarium near St. Augustine, Fla., which brought the sea and its inhabitants to land for all to observe and enjoy. With faces pressed to the windows in the sea, children and adults alike, have come to love Butch, the sea lion; Herman, the pilot whale who wanted to be a porpoise and who died of a broken heart when the porpoise rejected him.

"Sea War" by Felix Rissenberg Jr. is the story of the U. S. Merchant Marine in World War II. Mr. Rissenberg has based his book on hundreds of eyewitness accounts that could come only from a man who was not only there but has a lifetime of seafaring behind him.

### KITCHEN AND FIELD NEWS

from Lighthouse Electric Cooperative, Inc., by Nancy Morckel and Claude Weathersbee, Electrification Advisors.

Electricity is sold by the kilowatt hour just as eggs are sold by the dozen and butter by the pound. A kilowatt is simply a 1000 watts and if used for a period of 60 minutes, becomes a kilowatt hour.

Every piece of electric equipment made by a reliable manufacturer carries a wattage rating on it as a place. It may be painted on, or it may be stamped in the metal tag fastened to the equipment. This wattage rating informs the buyer that the particular item will use a certain number of watts in an hour's time.

Modern kitchens designed for convenient living.

Experiments made with electric ovens seem to indicate that the dinner of the future will arrive on the table so fast that Dad and the kids had better be washed and seated before Mom pops the potatoes into the oven.

However, there is no need for today's homemaker to dream longingly of the promised land of kitchens and new kitchen appliances. There are wonders enough for today. Kitchens of tomorrow are here today in many shapes and designs. Major electrical appliances and electrical housewares come in a variety of colors to make the kitchen the most attractive livable room in the house.

Kitchens are no longer just a place to cook. They are places which are the very nerve-center of the home, where chores are lightened to allow more leisure for living. Both the physical set-up and the way of life have been undergoing some interesting changes.

Engineers and scientists are providing electric "servants" to take the labor out of housework, do it fast, efficiently and at moderate cost.

They are constantly devising better ways to prepare, refrigerate, freeze, defrost and cook foods. They

have gone a long way toward eliminating garbage. They have made it possible to wash, dry and store dishes and utensils mechanically and automatically.

All this has come about because there is a whole new idea in American kitchens — less bend, less stooping, less steps. Everything is designed for the woman who does her own work.

New appliances have made this possible; some brand new, others improvements on former models. In 1930 there were only 19 different appliances. The automatic washer and food freezer were introduced as recently as 1940. Now there are over 60 appliances, and the end is not yet in sight.

Changing one thing for the better does more good than proving a thousand things are wrong.

A demonstration on Electric skillets and deep-fat fryers was given Monday afternoon in the co-op kitchen for the Consumer Education Chairman of the Home Demonstration Clubs of Floyd County.

A good freezer slogan to adopt is:

Buy one last weekend. Remove each, then make fresh bread at home.

Something to be proud of.

W. F. Weathersbee, Fred Batley, and Paul spent Sunday with Mrs. Cheryl Batley.

**Five Cent Coffee Disappears From Coffee Counters**  
 When the coffee break came last Friday morning in Floydada patrons of the local shops found their favorite beverage had risen to 10 cents per cup.  
 The announcement came in last week's Hesperian with the explanation that the increase in price was necessary to meet the continued increases in coffee prices and high operating expense.  
 The public was very considerate of the matter for the most part and downtown shops reported about the usual run of business.  
 Leonard Matler at Leonard's Cafe in commenting on the matter said Floydada cafes and drug stores had held out to the very last to try and give their customers coffee at the old price while many towns had taken rises two years ago. A break did not come in the wholesale coffee prices however and most felt they had to do something to keep going.

**Raffertys Attend Rites of Kinsman**  
 Funeral service for Robert A. (Bob) Tull, 49, a resident of Plainview, most of his life, and a relative of Mrs. H. L. Rafferty of this city, was conducted yesterday afternoon at 2:30 o'clock in the Presbyterian Church of Plainview with the Rev. Frank Travis, pastor, officiating.  
 Burial was made in Plainview Memorial Park under the direction of Lemons Funeral Home.  
 Tull passed at 12:30 a. m. Tuesday in a Lubbock Hospital following a few hours' illness. He was taken to the hospital by private automobile earlier in the night.  
 He was in the grocery business in Plainview at one time and was employed in the bookkeeping department of the Newman Motor Co. until about two months ago. He was a member of the Presbyterian Church.  
 Survivors include his wife; two daughters, Linda Kay and Debra Ann and one son, Robert Barry, all of Plainview; three brothers, Hugh, Amarillo, Lloyd H., Clemons, S. C. and Marvin T., Plainview.  
 Mrs. Tull is a niece of Mrs. Rafferty. The Raffertys attended the final rites Wednesday afternoon in Plainview.

**LOCAL FANS SEE JACK HENRY PLAY AT TECH SATURDAY**  
 A large number of football fans from Floyd County were in Lubbock Saturday night to see the Tech-Texas Western game. The Red Raiders came out on the short end of the score 17 - 13, but local observers returned at least pleased with the performance of Jackie Henry, an ex-Whirlwind who saw service at a center position.  
 Henry entered the fray several times and called defensive signals while in the game. Henry, a sophomore member of the squad, is the son of Mr. and Mrs. Jack Henry of Floydada.  
 Don Barber, another ex-Whirlwind, who also plays center for the Tech team did not see action Saturday, but reports coming back to Floydada say he is regaining his former zip and is expected to play soon. Tech plays Baylor this week in Waco.  
**TECH EXES TO MEET**  
 A meeting and spaghetti Supper for ex-students of Texas Tech College will be held in the Ballroom of the Hilton Hotel at Plainview Monday night, Oct. 1, at 7:30 p. m. The charge will be \$1.75 per plate.  
 The program should prove very interesting to all ex-Techans, with Coach Paik F. Robinson being the speaker for the evening and a film will be shown of the Red Raiders in action. Also, plans for a more permanent organization of ex-students of Tech will be made at this meeting.  
 J. P. Williams vs. Paul Williams and others, suit for partition. Judgment as prayed for.

**Cancer Society Cuts Ties With United Chest**  
 Ernest Carter, head of the Floyd County chapter of the American Cancer Society, said this week he had been notified the national organization did not wish to take part in the Floyd County United Chest drive. The announcement came from Frank Pendleton, field representative from district three south with headquarters in Lubbock.  
 After reviewing the situation Carter said he talked with several of the local organization and felt there was no need for the present to make application to United Chest for funds or to attempt a fund drive for the Cancer Society by itself.  
 At the time Floyd County United Chest was organized the local chapter of the Cancer Society joined with other charities in the effort believing the united effort was the only way to support these charities. Carter said, "Repeated drives by each organization had worn out all volunteer workers who were willing to take part in the projects and the one drive seemed to be the answer."  
 Believing the United Chest Drive is still the route to go the local chapter of the Cancer Society has no plans for fund raising or re-organization at present. Floyd County has met its quota with the Cancer Society for the past three years, once with its own drive and twice as a member of the United Chest.  
 A news letter from Leonard Gunderson of Amarillo, president of the ACS in Texas stated the society was not opposed to the give once for all appeal for those charities that wanted it but felt it did not do the job adequately, and ACS was limited in its growth under such a program.

**Hundreds View New Telephone Company Home**  
 Southwestern Bell Telephone Company's new business home and plant in Floydada was viewed by 816 patrons Monday afternoon and evening, when open house was held. Their new plant, completed in the spring and cut in to service on July 22, is seen as the last word in Telephone service.  
 Until Monday it had never been seen by the general public, who viewed the wonders of the working devices with much interest.  
 Unheralded into the business office the crowds traveled through the maze of the intricate wires and equipment. They were served refreshments on the spacious backyard lawn and warehouse as they completed the trip.  
 J. C. Oakley, local manager, and J. E. Blackshear Jr., wire chief, and other members of the local staff, including Duane Stephens, Miss B. Dean Pate, Mrs. Rita Trapp and Mrs. Pat Helms were assisted in the courtesies and demonstrations by the following plant and commercial department representatives:  
 Odell Dial, Royce Brookmore, Vernon Cannon and Earl Richards of Lubbock;  
 Wendell Williamson, Prentice Baker, Gay Thomas, Roy Howard and Mavis Reecer of Plainview.  
 "We wanted the people of the area to view the highly efficient mechanism which the telephone company has set up and housed in such a magnificent building and the response to our invitation was gratifying," said Mr. Oakley following the event.  
 Members of the city council, radio and press were guests of Mr. Oakley at a luncheon Monday noon, preceding the open house.

## Didn't Sell Out, Says TV Man Redd

Redd's TV & Appliance has not sold out as numerous people misunderstood from a story which appeared in last week's Hesperian.

In this story it was intended to be related that the service department had been acquired by Dennis Aldridge and that he would carry on with the service department in the location with Redd's TV & Appliance.

"Several have asked me what I was going to do now that I had sold out," H. N. Redd, proprietor of the TV and appliance store said. "My reply has been that I have not sold out and will continue to do business at the same stand."

Mr. Redd built a new display and shop room at 316 North Second Street last year, giving the business greatly enlarged quarters. He is continuing the appliance business as formerly, with Aldridge, the new service man in charge of the Service Center.

## Homecoming Day Prospects Get A Big Boost

Prospects for Floydada High School's first big homecoming are looking up this week as volunteer workers pushed their ticket sales to finance the event. Last Saturday around \$100 had been turned in and it appeared sales would pick up as the event draws nearer.

Ernest Carter, president of the association, has a crew of ex-students selling tickets for \$2 each to those who would like to attend the barbecue and entertainment planned to go along with the homecoming football game with Spur on Nov. 16.

Some of the out of town ones who take The Hesperian already have seen the news of the big doings and first among these to write for accommodations was Donnie Beth (Nichols) Todd who sends the following letter:

Mr. O. M. Watson Jr.  
Floydada Chamber of Commerce  
Floydada, Texas  
Dear O. M.:

Received my Hesperian Saturday and was thrilled to learn you were having a homecoming. Please send me cards for three. My class if you have forgotten is or was 1939. It sounds like a very interesting day. I have wanted someone to get a reunion together for so long I wish I were closer there so I could help. And if there were anything I could do at this distance please let me know.

What are the arrangements for Hotels or Motels? Are there any reasons for us to make reservations in advance? If so, if you will let me know the better place to write will do so. I will be coming in Thursday night and will want a place to go.

Sincerely,

## Senator Johnson Sets Exam Dates For Academies

WASHINGTON — Senator Lyndon B. Johnson has announced that Civil Service examinations for Texas boys seeking appointment in 1957 to the Army, Navy and Air Force service schools will be held Nov. 20 at 71 cities and towns throughout the state.

Senator Johnson uses the results of these examinations as a guide in making his appointments to the military academies.

Entrance requirements vary, but all three academies require that appointees be United States citizens. In the case of applicants to be considered by Senator Johnson, they must be residents of Texas. They must be between the ages of 17 and 21 years upon entry, must be single and must pass a rigid medical examination and a physical aptitude test. Candidates for the Air Force Academy must be able to pass the medical examination for flying training and a pilot aptitude test.

Persons interested in taking the competitive examination on Nov. 20 are advised to write Senator Lyndon B. Johnson, Senate Office Building, Washington, D. C., not later than Oct. 15.

## The Business Of Not Raising Hogs

Is history repeating itself again? A certain "famous" letter is back in circulation again which would indicate we are completing another agricultural cycle.

Back when Henry Wallace was Secretary of Agriculture, one Ramon Ortiz de la Munoz inquired about the possibility of "not raising hogs." The letter appeared again recently in the Gorman Progress in Eastland County and, in these days of soil bank when it is profitable to not raise wheat and cotton, it has a very timely note. Here is the letter:

Amigo Mior:  
My amigo, Pedro in Brazoria County received a check for \$1,000 from the government this year for not raising hogs. So I am going into the "not raising hog business" next year.

What I want to know is, in your opinion, what is the best kind of farm not to raise hogs on and the best kind of hogs not to raise? I would prefer not to raise razorbacks, but if that is not a good breed to raise, I will just as gladly not raise any Berkshires, Durocs or Poland China.

The hardest work in this business is going to be keeping an inventory on how many hogs I haven't raised. My Amigo, Pedro is very joyful about the future of this business. He has been raising hogs for more than 20 years and the best he ever made was \$400 back in 1918 until this year, when he got a thousand dollars for not raising hogs.

If I can get \$1,000 for not raising 50 hogs, then I will get \$2,000 for not raising 100 hogs, etc. I plan to operate on a small scale at first, holding myself down to about 4,000 hogs, which means I will have \$80,000.

Now, one other thing. These hogs I will not raise will not eat 1,000,000 bushels of corn. I understand that you also pay farms for not raising corn. So will you pay me anything for not raising corn not to feed the hogs I am not raising?

I want to get started as soon as possible as this seems to be a good time of the year for not raising hogs. Yours truly,

Ramon Ortiz de la Munoz  
P. S. Can I raise 10 or 12 hogs on the side while I am in the business of not raising hogs? Just enough to get a few sides of bacon to eat?

## Water Needs To Double In 50 Years

**MINERAL WELLS** — If Texas continues its present rate of growth for the next fifty years, water use by urban dwellers alone will be doubled. This fact is pointed out in a publication released by the Brazos River Authority. It is noted that this expected increase in water use does not include industrial needs.

By far the best time of year to catch big pike musky and walleye is after surface temperature of the water has dropped below about 45 degrees F.—Sports Afield

## Hit Stride, Down Ralls Rabbits By 24-7 Score

High School's young stars as they downed the Rabbits by a 24-7 score. It was a sweet victory for the Whirlwinds who had lost their previous game against very rough opposition.

Leading ground gainer for Floydada though he did not score was Gary Huckabee who ripped off 95 yards net on 14 carries. Stovall went for 53 net in the same no. of tries. Lewis McNeely led the Ralls attack with 40 yards net and second was Ocie Forbes with 34 yards to his credit.

The Whirlwind passing game also came in for some good gains with 3 completed heaves accounting for 90 yards. Ronnie Downing hit Don Colley for 21 and Beedy for 26 and a TD. Another beauty that covered 50 yards and a score was called back. Colley connected with Huckabay for 20 and Beedy for 8, and Huckabay hit Bill Patterson for 15. A few good heaves slipped through anxious fingers, but the percentage was much improved from last week.

David Wheeler of Ralls connected on three of 10 heaves for 49 yards, most of which was in the second half.

Starting the game Floydada kicked from the south end with Teague booting to Ocie Forbes on the Ralls 10, Forbes ran it back to the 30 before being downed. Floydada held

and forced the Rabbits to punt and took the ball on their 38. McNeely of Ralls then intercepted one of Downings heaves and the Rabbits again owned the ball on the Ralls 49.

Ralls lost yardage on the series of plays and were forced to punt. The Kick went short to the 50 yard line.

The Whirlwinds then put together their first march to the goal. The drive was saved at one point by James Teague when he recovered a fumbled ball and made a first down. Climax of the march came when Robert Stovall went over his left side to score from 25 yards out. Teague's kick with Mount holding failed.

The next score came soon after the kickoff when the stubborn Whirlwind defense refused to budge the Ralls backs got into trouble and fumbled over the goal line and Robert Stovall and Buttons Beedy pounced on the ball for the score.

The second quarter score was set up when Ranny Vickers knifed through to tackle McNeely for an 8 yard loss on a fourth down gamble. The Winds then took the ball on their 46 and moved down field for the tally. Gary Huckabay went for 40 yards and Robert Stovall hit for the final 3 and the score. At the intermission the Whirlwinds led 18 to 0.

The third quarter score came fol-

### IEWS AND COMMENT

**Southwestern Bell Will have to "shake a leg" now that they have their much publicized increase in telephone rates at Floydada. Their remarkable new plant and business home. In their effort to make mechanics take the place of manpower the company may find they have over-done the thing. For instance, unverified reports of "blocked cables" — inability of people to get telephones installed— and loud and vociferous complaints in some quarters about long distance service, waits for somebody off somewhere to come in on the line and give a hurry-up connection. Bell people, the nicest in the world, will find Floydada people, also the nicest in the world, short tempered about these things. Bell had as well be sure what they are doing and the way they are doing it can be justified.**

**Meanwhile Bell's new plant was found to be a thing out of this world by many visitors Monday afternoon and evening. The open house was pleasing and informative for several hundred people. Bell and its parent organization, American Telephone & Telegraph, have certainly added immeasurably to the sum total of communication and progress in research. But the human element is still there and will have to be coped with.**

**Harnessing Solar Energy.** The nearest approach to the harnessing of solar energy for the use and benefit of mankind was being shown by Southwestern Bell Telephone Company here at their open house Monday. The engineers think of it as the first approach to the solution of a problem that men have puzzled over for so long. We think we know the sun is the source of all power. Why can't it's rays be harnessed? At present the approach is "crude" or is that the word? Anyway, too "bunglesome" to be practical, in most instances. But what man can imagine, he can do, we are told. The solution will be found?

**Bad Eating Habits.** If you are overweight—10 per cent of us are—you have an aesthetic problem, one based to an extent on vanity. The Health News Institute says that not only does an overweight person have this kind of problem, but that overweight also points back to a diagnostic indication of possible disease. Unfortunately, says the same health agency, too many of us are "overweight but undernourished." That is we are eating improperly. Check before experimenting with wonder drugs and diets to see if yours is a case of serious self concern or just one of vanity. Obesity is a medical problem and more often than not one of proper diet, not a starvation diet but a sensible diet.

**About Marketing Tomatoes.** A woman from another state said that there they raise tomatoes for the cannery and only market otherwise when the price gets high enough to justify. Their operations are based on what their canneries can afford to pay. Appeared to be somewhat like raising wheat or any other commodity, so far as the marketing side is concerned. Always a local place to go with the tomatoes regardless of the marketing conditions.

**Doctors Business Involved.** Doctors who have turned their "ethics" over to an absentee administrator have begun to find theirs a much involved art. Men in the hierarchy make so many rules the physician has to read a book to find out whether or not he is in violation. Example of a good idea gone to seed.

**The Stock Market,** not speaking of live stock, but of stocks and bonds, has bogged down in recent weeks. According to the story we get by grapevine many of these stocks are getting into the same position the farmer is, namely cost-price squeeze taking all the profits. In the same reports it is indicated an all-out drive to get a "broader base" of ownership in these companies is being well planned. Be wary of what you are offered in this connection. The heavy ownership of shares in unprofitable concerns will be passed on to others if it can be done. The time has come when people are in the right state of mind for a quick profit in something they do not know anything about, since their own efforts are resulting in a state of "spinning their wheels."

**Crowding the Binder,** row binder that is. Local cattlemen who find they need a little bit or a lot of bundles this year may wait too late to get in on the limited crop of forage feed that will be put into shocks. Reports say that in some Floyd County fields the down-state cattle people have followed the binder and carted the bundles away in the green stage and that more of the same is due to take place. Need for roughness is terrific, what with the drought that has played havoc with the economy all the way around.

**Food Handlers Note.** Hundreds of transient workers in the area make problems of food contamination of which food handlers may well take warning. Diseases peculiar to the unlearned Latin American and the others who are ignorant or careless are hard to stamp out, once they begin to spread. All come from lack of proper sanitation. Sterilize is the watchword in the kitchen, both public and private.

**We once thought in Texas** of absentee voting as a boon for the traveler, who must be away from home on election day. More recently with "sharper" operators the connotation has become synonymous with ballot stuffing and the like. Means that there is going to be a change, more difficult to vote absentee. Thousands of "absentee" ballots were cast in Texas this year most likely. The devious working of a man's mind, bent on mischief.

**President Eisenhower's talks** in his campaign for re-election are beginning to sound reminiscent of that other great and good man, Herbert Hoover, who served the nation as president, and who found himself surrounded by lieutenants whom he trusted but who failed him.

**There are many things that can be done** to relieve a cold, but up to the present it remains true that the untreated cold will last about seven days while with careful treatment it can be cured in a week.—Exchange.

### As A Farm Woman Thinks

(Nellie Witt Spikes)

#### The First Day Of School

I took her to school and her eager blue eyes Held something of fearlessness too. I wanted to hold her up close to my heart— But I left her. What else could I do?

I told her I'd meet her quite promptly at noon. And deliberately hurried away. For if she had whispered, "I want to go home!" My heart would have filled with dismay.

But she staid her lip, and I managed a smile. And somehow the moment passed by. For she had grown older, my dear little girl. In that moment, and also, had I. —Eleanor W. Bartleson.

Jars of darkened sweet pear preserves are added to the store I have been so busy getting ready for winter as the hot dry days of summer have passed by.

How many years have I stirred pear preserves as they slowly cooked to be almost a candy state? I have not kept the record, but the spring of 1907 we set out four pear trees on our farm. This one has survived the nearly fifty years. It was a year old when it was set near the old milkhouse. I poured the wash water from my pots and tubs after washing the clothes. Some said the soapy water would kill the trees, but it was handy and I kept on.

The cats of many generations sharpened their claws on the young trees. In the fall I would wrap bandages of string to keep the Rabbits from gnawing the tender bark. In the passing of the years the three others died.

The one left grew tall and spread out. In the spring it was a bride dressed in snowy white, the peach trees her bridesmaids dressed in soft pink. Some years the tiny green fruit stayed on unhurt by the freezes, some years the hail beat and

ruined the crop. But many, many years the fruit hung on in the storms and the high winds of summer storms. Birds bit out tiny pieces, worms bored deep in some of the green pears, but most usually there was plenty that hung on the tree until we gathered them a cold day when we were afraid of a freeze.

After the frost the tree was always a blaze of fire that it seemed I could warm my cold hands by as I passed hurriedly to and from the milking lot. Days and days it would hold its fire, then one by one the leaves turned loose and fluttered to the ground to glow like red hot coals for a few days till they turned brown as the dirt they lay in. So to us they are not ordinary pear preserves but sweet with memories of fifty years the good Lord has given to us.

When we lived in Floydada our good neighbor Mrs. Troy Wellmaker brought us some pear mince meat pie she had made. And we will not forget the good honey that Troy brought us from his own bee hives. I have made this mince meat and it is delicious. Maybe some of you would like to have the recipe so here it is:

1 lbs. pears, peeled and cored, 1 orange; 1 lemon, 2 apples; 1 lb. seedless raisins, 1 cup grape or other juice (not too sweet) 1 tablespoon each of ground cinnamon, cloves, allspice, 3 lbs. sugar; 1 cup vinegar; 1 teaspoon salt.

Grind pears, orange, lemon, apples and raisins. Take seed out of orange and lemon before grinding. Mix with all other ingredients and boil two hours. Seal in jars while hot.

When I bake my pies I usually add butter or margarine. Bake with two crusts.

## So you want to be STRONG

Remember this: "Some folks just naturally wouldn't want a Farm Bureau as strong as all farmers working together could make it."

It is so easy to be "Against" things—A few loud voices can do farmers a lot of damage. Indeed, it is quite another thing for "Loud Voices" to be "for Something" and make it work.

Farmers, through Farm Bureau, have never made a policy of attacking any program without first advancing a better program. **WHAT HAVE YOU DONE TO MAKE IT WORK?** Do you exert your thinking in shaping policy making resolutions? Do you attend meetings?

Do you accept responsibilities of holding community and county office?

Do you accept committee assignments?

"Loud Voices" don't attack, criticize, and destroy that which they have helped to build.

ministration of a law enacted by Congress in the immediately past session which placed upon the Selective Service System responsibility of screening the nation's entire standby reserves. Colonel Morris S. Schwartz, state Selective Service director, said Thursday.

"Standby reservists, both men and women, are being mailed the questionnaires," Colonel Schwartz said. "By law, these reservists are required to fill out these questionnaires and return them to the local boards for use in determining the reservists' availability in time of emergency."

Colonel Schwartz pointed out that standby reservists cannot be called to service unless an emergency is declared by the Congress.

Based upon information furnished in his questionnaire, each standby reservist will be placed in one of three categories:

I-R — Available for service.

II-R — deferred because of civilian occupation essential to maintenance of national health, safety, or interest.

III-R — deferred by reason of extreme hardship and privation to dependents.

In time of war or emergency declared by the Congress, the standby reservist in category I-R can be recalled to service by his armed forces. Those in II-R and III-R will not be recalled to service unless there is a change in status which places them in category I-R.

"The standby reservist has the right of appeal if he is not convinced his category is correct," Colonel Schwartz said. "The standby reservist has a legal responsibility to keep his local board informed of any change in his address or status."

Colonel Schwartz said the program provides two services:

1. The standby reservists know their emergency recall status.
2. The armed forces can be advised of the availability of their standby reserve pools.
