

ASC Announces 1957 Cotton Soil Bank Rates

Acres Payments From 21 to 68

Cotton raisers who operate the 1,408 units of farm land with a cotton base in Floyd County will learn this week exactly how many dollars and cents per acre USDA will pay them to put cotton land in the Soil Bank reserve.

The information will come through the Agricultural Stabilization and Conservation Committee of Floyd County. Community ASC committees last week worked over the farm sheets and made their recommendations to the county committee.

Rates announced this week range all the way from \$21 per acre to \$68 per acre.

Farmers who want to go into the deal with USDA can do so beginning Feb. 4, when the first agreements will be accepted. The deadline for acceptance is March 1.

The maximum number of acres which a grower can put into the reserve has been set at 10 acres or 30 per cent of the producer's allotment, whichever is larger. The county average is \$52 per acre, but individual farms range all the way from the \$21 figure to \$68.

The money will be distributed by the county ASC committee. Here is how the distribution will be made:

Farms	Number	Payment	Average
15	\$21.00	750.7	
238	26.00	8,731.5	
52	31.00	4,165.4	
53	37.00	4,962.3	
29	42.00	1,923.8	
113	47.00	4,942.6	
167	52.00	17,789.0	
229	58.00	17,157.8	
377	63.00	25,723.5	
144	68.00	12,294.7	

There is some of each of these categories in every one of the nine "communities" in the county. For the purposes of the ASC office they are numbered A to I.

Thos. J. Hutchins, manager of the ASC office yesterday said the Secretary of Agriculture has allotted \$1,191,600 as the probable amount of the total outlay to carry out the cotton acreage reserve program for the Soil Bank in this county this season. If this works out the acreage put into the reserve would be a probable 22 per cent of allotted acres in the county.

UNLIKE the program of last year, this year's program is strictly an "offer and acceptance proposition" on a dollar basis between the individual and the Department of Agriculture.

Cotton farmers who sign up to put a part of their allotment into the reserve may take more later if they indicate willingness to do so, but this arrangement will be on a first come, first serve basis, until the whole of the reserve fund allocated to this county is exhausted.

A 15-day period for complaints is provided for. If a cotton grower believes he has justifiable grounds for having his farm rate per acre for cotton reconsidered, a written request showing his reasons therefor must be filed with the county committee within 15 days of the date of his notice of the maximum rate of payment established for his farm.

"THE cotton acreage Soil Bank reserve for this season could be a big thing or it could not amount to a great deal," Mr. Hutchins said. "The outcome of weather conditions could play a big part."

Not to be confused with the cotton acres sign up but a part of the general movement to retire cultivated or other acres, the county committee is still accepting contracts for 1957 Soil Bank Conservation Reserve. Most of the allocation for this program has been obligated.

Between 14,000 and 15,000 acres have been signed up on the five- and 10-year basis in the county. Incidentally the long-term lessors who included the year of 1956 in their contracts last fall may expect to get their 1956 rental payments in February.

The payment rate for this is \$11 per acre plus approximately 80 per cent of the cost for seeding the grass.

Dates to remember: Jan. 31 (today) is the final date to place grain sorghum, corn, pinto beans, barley, oats, rye and wheat in the CCC loan.

March 31, maturity date on grain sorghum, pinto beans, barley, oats, rye and wheat placed in the CCC loan.

April 30, final date to place 1956 cotton in the CCC loan; also final date for filing application for payment on wool in 1956 marketing year.

May 1, final date to sign MQ-31 to preserve 1957 cotton acreage history.

Officers Probe Here For Body Of Woman

The mystery of the disappearance of Andrea Phares, Hale County housewife, in May of 1955, touched Floyd County for the first time this month.

Ted Andrews, Hale County sheriff, and Texas Rangers have followed up on many a tip since their early campaign to solve the mystery.

At the sheriff's office here it was said the Hale County sheriff and a deputy, Cleatis Dyer, came over early in this month and did some digging three miles northwest of Floydada with negative results. Sheriff Hollums and Deputy Ray Hardin assisted at the digging, where four workmen used spades and shovels for two or three hours.

The husband of Mrs. Phares has been charged by complaint with the killing but no indictment has been returned by the grand jury. Phares has been released.

The Hale County officers have made scores of sorties in a search for the woman's body, the Floyd County trip being "just another" run-down of reports that might have possibilities, it was said at the sheriff's office.

Chest Drive Is Short of Goal By \$2,449.93

The Floyd County United Chest fund drive is still short of its goal by some \$2,449.93. A check on deposits in the Floydada bank showed the south half total to be \$9,533.57 or about half the county's quota of \$11,983.50. A story in last week's Lockney Beacon stated the collections for the north half to be \$3,618.50.

The drive appeared to be near a standstill with only a dribble of funds reaching the bank here. United Chest funneled funds for Red Cross, Salvation Army, Boy Scouts, Heart Association and USO.

Most workers believe the rural areas to have been pretty well covered in the drive, but feel much of Floydada and Lockney was missed in the campaign which started in early December and was interrupted by the holidays.

Charge Young Negro With Forgery Attempt

J. T. Holmes, a 23-year-old Negro who gives his home address as San Augustine, Tex., has been in Floyd County jail this week on a charge by complaint of forgery and attempted passing of a forged instrument.

A check presented at a Lockney store carried the forged signature of Frank Hawkins, who is manager of the commissary.

When the check-up on the validity of the check started the young Negro ran from the scene.

It developed the man has a record and in fact is out of the penitentiary on parole. He was released in July of 1956, officers said.

Palace Has Shuddery Stage Show Next Week

A stage show so scary the girls can't possibly sit through the whole show is promised by the management at Palace Theatre in Floydada two nights, Wednesday and Thursday of next week — Feb. 6 and 7.

Spooks, ghosts, shivers, shudders and thrills — that's the way it is described, a regular hurricane of hilarity and delightful horror.

This will be a regular show. It is suggested that those who attend should make up their own "Spook Parties." Those who come alone will be afraid to walk home.

Picture feature with the horror show will feature Aldo Ray in "Nightfall."

ANNOUNCE SHOW DATES

Dates for the 24th annual South Plains Junior Fair, Stock Show to be held at the Panhandle South Plains Fairgrounds were set by the Show's Steering Committee at a meeting Jan. 23 at the Lubbock Chamber of Commerce.

The show will be held March 18-19-20, 1957.

Mothers March and Coffee Day Add \$850 To County Polio Fund

The March of Dimes fund drive has been rolling along nicely in the south half of Floyd County, reports Edward Wester. Figures at First National Bank in Floydada show the total deposited to date to be \$1,882.11. Still to be heard from were most rural communities and a few parts of the town which were missed. No check was made with Lockney and the north half as to progress there.

Coffee day last Friday netted the campaign fund some \$174.88 in Floydada with nine businesses donating all coffee receipts for the day. Lunch Box Cafe led the group with \$31.95 contributed to the drive by their customers. Others participating were Curley's Cafe, B & M Cafe, Dairy Mart, Tastes Freez, Arvine Drug, Leonard's Cafe, Withers Cafe, and Floydada Drug.

Monday night the mothers march on polio in Floydada collected \$732.88 as they canvassed the residential districts of the city. All streets were covered except in some areas where a mix up of orders missed parts of the town. Those not contacted are urged to make contributions at the bank or to the coin collectors placed in local stores.

PCA Completes New Quarters

Although the contractor still has some odds and ends to do and the building has not been officially received, Production Credit Association moved into their new quarters at 107 Fifth Street Monday.

E. A. Williams, field representative, in charge of the Floyd County office of the farm production credit association, completed the move from the old location in the Floydada National Farm Loan Building at 319 South Main.

The new building, 25 by 45 feet, is of all-brick and concrete block construction, has a built-in vault and is all-weather air-conditioned. The cost complete is approximately \$18,000.

Leroy Durham is the Floyd County director of PCA which operates in eight counties—Bailey, Briscoe, Castro, Floyd, Hale, Lamb, Parmer and Swisher.

According to the annual report made public recently and to be reviewed at the annual meeting on Saturday, collections were unusually good for the year of 1956.

Williams and several Floyd County members of the association plan to attend the annual meeting to be held Saturday in Plainview. There they will hear an address by W. N. Stokes Jr., president of the Federal Intermediate Credit Bank of Houston. This address follows a luncheon at 11:30 a. m.

Other speakers will be heard and the election of directors will be held.

Poll Taxpayers Far Below 1955

Interest in poll tax payments has picked up a little in Floyd County this week, with 79 stopping at the tax collector's window Monday and 109 Tuesday.

Still the record shows the county far below par — even below 1955 — which the final report on polls paid was given at 2471, together with a few exemptions.

Yesterday at noon 1,828 had gotten poll tax receipts in this county, Assessor-Collector T. T. Hamilton said, and he was doing little business on a bad weather day.

The collector's office will stay open until 10 o'clock tonight for the benefit of late comers.

February Dollar Day Hits Monday

If you like a bargain then you'll like it because the February Dollar Day in several Floydada stores comes on Monday of next week.

Several of these firms are featuring their Dollar Day plans in this issue of The Hesperian.

Shop Floydada often but never fail to shop Floydada on Dollar Day, the retail trades committee advises.

Weather Hinders Cemetery Meeting

The Cemetery Association of Floydada met Saturday afternoon at 2 o'clock at Harmon Funeral Home with F. C. Harmon, president, and C. H. Bedford, secretary, in charge.

Due to weather conditions, Mr. Harmon stated the attendance was short and another meeting was being planned for early spring.

Discussion of future plans and improvements for the cemetery and an election of officers will be held at the spring meeting.

Oil Test Reports

Abandonment of the test for oil at Flomot was reported last week, the West Central Drilling Company siding work to stop at 8,095 feet. Two drill stem tests recovered 8 1/2 gallons of oil and 1 1/2 gallons of gas and mud cut salt water. Location is described as Section 57, Block 4, T & P Survey. The land belongs to W. T. Ross.

At Roaring Springs the Stanolin trial on oil on the "Banty" Brandon farm had progressed to a depth below 2,000 feet early last week.

Meanwhile the W. W. West No. 1 Minnie Carpenter at Allmon in southwest Floyd County last week was at a critical stage, drilling in lime at 4,963 feet. Discoveries to date in that area have been made at a depth of about 5,400 feet. This location is 15 miles southwest of Floydada, near the Hale County boundary line.

Marketing No. One Problem For Growers Of Vegetables

Mounting interest, as measured by doubled attendance at this year's "vegetable" discussion meeting Friday as compared with the 1956 meeting, indicates that vegetable production in Floyd County is likely to be on a broader basis than in any previous year.

The meeting, held in the district court room, drew an attendance of 75 persons, among them numerous growers of some type of vegetables last year. Last year attendance at a similar meeting was 35.

Production, plant diseases, insects and marketing were discussed on a broad level by Extension Service specialists.

THOSE present, principally farmers, were interested more in the marketing discussion than any other phase. What to grow and how to dispose of it were the questions around which interest centered.

Produce growing and marketing in Floyd County is taking the usual course that all present big vegetable producing areas had at their beginning, J. F. Rosborough, the marketing specialist said that "nearly all the vegetable growing areas started out with a few crops at first. As they broadened their knowledge of production, plant disease control, insect control and marketing, they increased their acreage and their markets."

"No doubt about the ability to produce in this area," Rosborough said. "There is enough potential production on the plains to swamp the boat. So those who go into produce growing seriously will need to plan out their program on a long range basis; talk with the trade, study the situation, see what the 'in and outers' are likely to do, then arrange their acreage plans accordingly."

ROSBOURGH had about as many "dots" in his talk as he had "dots." The man who gets in vegetables will have some tough years, and urged his hearers not to go into any deals blind. He has been in vegetable marketing, principally in East Texas, for many years, and his talk was down to earth.

"We have a changing country, changing food habits. Get out and see what the market is needing or is likely to need, what competition you are likely to have and where it is likely to come from," he said.

"Then after you have produced a good crop let the Vegetable world know about it."

Rosborough mentioned the Black Land and East Texas producing areas, and the Rio Grande Valley as potentially competitive. He said

Second Round of District Cage Race Opens Here Friday Night

The Floydada Whirlwinds will start their second round of play in district 2AA basketball here tomorrow night. Opposition will be the on and coming Tahoka Bulldogs who are improving with each game played.

Tahoka will bring a boys team which has a 50 - 50 record in district play. Floydada defeated them in the first meeting there early this month and Post and Slaton also hold wins over the Bulldogs. They have on the other hand defeated Abernathy, Spur and Lockney to show they are still very much in the race.

The Tahoka girls team has yet to scratch. They are still in the cellar of the district standings, though much improved. Floydada girls have been playing without the services of two of their regulars who have been hospitalized. This contest too may be very close.

Mrs. Bill Stringer (nee Molly Earp) who underwent an appendectomy recently has withdrawn from school and will be lost to the squad. Joyce White is expected to be back in the line-up before the season is over.

Graves Gym will be the site of the games and 7:00 p. m. the time. Tuesday night Feb. 5 the locals will play Post here.

Win And Lose To Abernathy

Last Friday night the Winds broke even with Abernathy as the girls lost and the boys won in a photo finish.

Sonja Beth Wilson paced Floydada girls with 20 points as they went down before Abernathy by a 63 - 46 score. Guain hit 25 for Abernathy to take game honors.

ACCIDENTAL TRACTOR FIRE INJURED JONES FARM HAND

Louis Ridley, Negro farm hand of Dorris Jones, received painful burns late Tuesday as he was filling the tractor with butane. A spark evidently caught the escaping gas fumes and ignited the tractor.

Ridley was treated at Peoples Hospital and released. He had burns on the hands, arms and face. The victim has a wife and five children. They reside on one of the Jones farms.

Mrs. Jones reported her husband and others were able to extinguish the blaze which also did extensive damage to the tractor. The butane tank did not explode however.

Plentiful Foods List

COLLEGE STATION, Jan.—The feature spot on the USDA's plentiful foods list for February for the southwestern area goes to eggs. Supplies of this highly nutritive food are heavy and prices attractive. Consumers are urged to take advantage of the situation.

Beef, lamb, broilers and fryers, and ocean perch and haddock filets are also listed by the USDA as plentiful supply.

Other foods expected to be plentiful during February include rice, milk and other dairy products, potatoes, canned sweet corn, canned purple plums and dried prunes.

A monthly survey by the southwest food distribution division, Agricultural Marketing Service, USDA, forms the basis for determining the plentiful foods list for the southwestern area.

Be Wise And Save Use Want Ads

"Every man is worth just so much as the things about which he busies himself are worth." The current issue of a woman's magazine carries this quotation from Marcus Aurelius.

While the truth of the saying still stands, it is interesting to realize that it was written by a Roman emperor-philosopher in the second century, A. D. What things were worth busying oneself about in those days? What is worth busying oneself about today?

We'd like to turn the proverb around and suggest that "The things a man busies himself about are worth just so much as he thinks they are worth." It makes less difference what one does for a living, for instance, than the pride he takes in how well he does that job. The annual income from a trade or profession is much less important than the way a man feels about how he earns it.

The public services he performs, the committees he agrees to serve on—these experiences are valuable to him, and to the community, in direct proportion to how he carries out his assignment.

Recently we heard a story about a 93-year-old man who for many years earned a living as a contractor. When a building was torn down in his home town last month, a brown paper sack, such as nails come in from the hardware store, was found suspended by a string behind some shelves. On it was written in pencil, "I, Joe Smith, built these shelves. It is a good job." The date was 1898.

For the carpenter-contractor, building shelves was as important as being president of the United States, and building them right was a matter of personal pride. If all of us had such pride as that, what would become of crime and delinquency?

Norman-Mantooth Vow Solemnized In Home Wedding

AMARILLO — Miss Sammie Lou Norman, daughter of Mr. and Mrs. V. C. Norman, 4017 Monroe, and Ricky Pope Mantooth, son of Mr. and Mrs. Odell Mantooth of McLean, were united in marriage last Wednesday evening at 7 o'clock at the home of the bride's parents.

Elder E. J. Norman, Primitive Baptist minister and uncle of the bride, of Childress, read the double-ring ceremony as the couple stood before an arch covered with greenery, snap dragons and lily of the valley. Candelabras completed the setting.

Members of the immediate families and intimate friends of the couple attended the wedding.

Miss Dorothy Fish of Paducah, organist, played traditional wedding selections and accompanied Miss Irene Potts of Amarillo, who sang. Both girls are students at West Texas State College, Canyon.

The bride, given in marriage by her father, wore a white lace over tulle sheath designed with a bateau neckline edged in satin. Her hat was of white lace trimmed in satin and accented with seed pearls. She carried a white pearl Bible topped with a white orchid and showered with streamers knotted with lilies-of-the-valley.

Miss Charmaine Brown of Dumas attended the bride as maid-of-honor. She wore a red velvet sheath styled with straight lines. Her matching hat was trimmed with seed pearls. She carried a nosegay of white feathered carnations and satin puffs.

Jerry Guyton of McLean served the groom as best man.

Mrs. Norman, mother of the bride, wore a navy dress with navy and white accessories. The bridegroom's mother, Mrs. Mantooth, wore a peacock blue sheath with a charcoal duster. Both had corsages of red sweetheart roses.

Following the ceremony, the bridal party was feted at a reception. The bridal table was laid with a white linen and lace cloth and centered with a bouquet of white stock flanked by double candelabras. Mrs. Bill Reeves, sister of the bridegroom, served the tiered wedding cake and Mrs. Gilbert Strubling, also a sister of the bridegroom, presided at the punch bowl.

Mrs. Norman Penhal, aunt of the bride, secured names for the guest register. At the home at 205 1/2 Second Avenue, Canyon.

Fine Neighbors Are Consolation To Family in Illness

The C. A. Turner family at Muncy are deeply grateful to neighbors and friends who have been most helpful to the family during a seige of sickness and hospital trips.

Mr. Turner, just out of a hospital bed this week, told The Hesperian about the neighbors who did his plowing and of the neighbor women who helped them in many ways. He went to the hospital Jan. 1.

E. R. Harris, Bob Muncy, Clyde Parr and Jess Shurbet had a hand in arranging his land plowing job, and several sent tractors including Al-Revis Harris, Raymond Bueker, Alton Noland, Clark Harris, Ray Astor, Ed Muncy, Bernie Parkey, M. J. McNeill, W. O. Newberry and Elmer Biggs.

Among the women to whom they feel particularly grateful are Mrs. E. R. Harris, Mrs. Jess Shurbet and Mrs. Clyde Parr. There are others as well who have shown interest in the family and their welfare.

"Our heartfelt thanks to all, and may God bless each and everyone of them," Mr. Turner said.

BUS OVERTURNS ON SLIPPERY ROAD: NONE SERIOUSLY HURT

The North Ward school bus, driven by H. C. Payne, fifth grade teacher at Andrews Ward School, turned over on slippery road Wednesday morning around 8:30 o'clock approximately 1 1/2 miles southwest of Floydada.

Faris A. Wilson, principal of North Ward School, told a Hesperian reporter, that Mr. Payne was making a curve when the bus slid sideways hitting a ditch and turning over. He said there were approximately nine students on the bus and they were taken to the doctor but none received serious injuries.

Local Boxers Drop First 3 Amarillo Bouts

Floyd County Boxing Club found the competition pretty rough at the Golden Gloves Meet in Amarillo this week. Tuesday night in the first three entries from the local club lost their matches.

Last night Dale Brown was due to meet Manuel Gonzales of Plainview in a 136-pound high school division match and C. O. Woody was matched with Kiddo Carillo of Lubbock in the same weight of the open division.

Tuesday night Johnny Fred Brown lost a close decision to Austin White of Memphis in the high school division, 147 pound weight.

Grant Cooper fighting in the 160-weight division lost a hard fought decision to Bob Willis of Amarillo. Frank Paris fighting in the same weight and division as Cooper lost to Don Rouse of Borger. Potts had the misfortune of receiving a cut over the eye which caused the referee to award his opponent a TKO in the second round. The Floydada boy was very much in the fight when it was stopped.

Carlton Fawver is trainer and coach of the Floydada Club which is sponsored by the American Legion Post here. Fawver makes all trips with the boys and acts as his second in the ring. He was in Amarillo yesterday at press time and could not be contacted for comment on the fights.

Car Rams Parked Machine; 3 Hurt

Mrs. Rilla Sue Duncan, daughter of Mr. and Mrs. Albert Duncan, Miss Shirley Walker, daughter of Mr. and Mrs. John Walker and Miss Martha Dyer, daughter of Bill Dyer, all of this city, were victims of an automobile accident Thursday evening around 8:45 o'clock at 121 West Houston Street.

Miss Duncan, driver of the family automobile, was going east when she ran into a parked car belonging to Jack Deakins in front of the Deakins home.

H. R. Cagle, investigating officer told a Hesperian reporter that the girls were probably laughing and talking and Miss Duncan failed to see the parked car. Both cars were badly damaged.

The girls had been to the show and were returning from the Dairy Mart when the accident occurred. They were taken to Peoples Hospital for medical treatment and Miss Duncan and Miss Walker were dismissed that night. Miss Dyer stayed in the hospital until Sunday afternoon.

Due to so many sick folks in our community we did not have to man out for church and Sunday school.

Beginning on Monday night, Jan. 28, a study course will begin at the church with Bro. Maddox of Plainview teaching "The New Testament Doctrine." Everyone is invited to attend. It will continue through Friday night.

Mrs. O. F. Cummings is feeling better and is out of the hospital.

As A Farm Woman Thinks

(Nellie Witt Spikes)

WINTER

The freezing mist is turning blade and twig
To ice, and all the fields and trees
are white.
A fairyland where fencing posts
and stumps
Have turned to white stalagmites
overnight.

The howling wind is snaking ice-
clad trees.
They crackle like a roaring, rag-
ing blaze.
And power lines are snapping in
the gale.
The line-men work undaunted in
the haze.

Atop the giant stalagmite poles
they cling
To do their job no matter what
the odds.
A pagan frantically would offer up
A sacrifice to the avenging gods.

That they might find it in their
will to stay
Their merciless and dread aveng-
ing ire.
And have compassion on poor
mortal man
That he might seek his shelter,
home and fire.

But Christian men will pray their
God for strength.
And thank Him for His great pro-
tecting care.
They look ahead with faith that
this dread cold
Disguises future blessings they will
share.

—Hoyle Sessions Gilstrap.
The above is a very fitting poem
this cold January morning. It was
written by my cousin at Seymour
and in my opinion is very good.
Thank you, Hoyt, for sending me
this poem and others which I find
very good, also.

The American citizen is very busy
reading and writing these days. No,
I don't think the little printed book
is a fashion book, although it will
make your hair curl and make your
trousers shrink with a new style; it
is not a medical book, although it puts
a cramp in your stomach and makes
your knees as weak as water; it is
not a fairy story book, but maybe it
is, your year's riches turn to dead
leaves and are gone with a whiff
of your pen; it is more like a Wild
West magazine as a gun is held,
seemingly to your temple if you
make even one little error; it is a
continued story book that you will
have to read and figure with all
the rest of the days of your life,
you will tear out some of the pages
and fill them in under such words
as gross, profits depreciation (other
times we just hate this word) ex-
periences (and how we did dislike to
pay them last year but they look
pretty good now). It is not a Who-
Dun-It you have in your hand, although
you know very well who has done it
and how much you will have to pay.
My, you have guessed it. Tax In-
come for 1956 is keeping you busy

and pretty miserable.

The other day when we were go-
ing on Avenue T street in Lubbock
I remembered that mother said it
was once called Snuffy Street — you
made a block, then took a dip, made
a block and took another dip —

Uncle Charlie Brown and Mr.
Martin were familiar figures on the
streets of Ralls. Many years we have
known and liked these two men that
left us last week to go on ahead to
the Better World. They will be mis-
sed but they will be remembered by
their loved ones and friends.

Oh no not dead, but past all fear
of dying.
And with all suffering o'er;
Say not that I am dead when
Jesus calls me
To live forevermore.

Ninety-three years of gracious
Christian living, that was given to
Mrs. M. C. Potter of Crosbyton. She
rocked her babies in a lonely little
home in Blanco Canyon when she
and her family were the only resi-
dents of Floyd County.

She sang as the coyotes wailed and
the lone lobo howled. She sang as
she stayed days and nights when
her young husband was away. She
sang as she gathered the wild flow-
ers, red plums and purple grapes
and made them into jams and jellies
for her family and anyone who
would happen to come her way.

The years passed giving her child-
ren and friends; her sweet ways
made one always feel good in her
company.

Then death came to her husband,
to others of her own, to many
friends, still she kept her faith and
did not complain but lived out her
days and then went home leaving
a memory of a good life, well spent.

And death itself, to her, was but
The wide opening to her door
That had been opening, more and
more
Through all her life, and ne'er
was shut.

And never shall be shut, She left
The door ajar for you and me,
And looking after her, we see
The glory shining through the
clef.

—John Oxenham
The sun is coming out as the
heavy fog lifts, the shrubs and trees
are like fairyland scenes. Soon the
ice will fall and make little clinking
sounds as it hits the ground and
then melts into beads of water.
Carey is on his way to the University
of Texas at Austin and we feel
lonesome at his going but proud that
he will be in college to prepare him
for life. God richly bless and keep
you, Carey, in our prayer.

Barker Losing Job With City

In a called meeting of the City Council Friday of last week the council, in executive session, voted to request the resignation of B. K. Barker, veteran city secretary, "with in 30 days," and designated Mayor Lewis Norman to notify Mr. Barker of the council's decision.

Tuesday Barker said the mayor had notified him of the council's action and said he was ready, of course, to turn the affairs of the office over to the council at any time the city can give him an audit. "Filling the job is the council's responsibility and they do not have to ask me to resign," he said. "All they have to do is give me notice."

Possibility that the council and Barker might agree for the latter to continue at his post until the end of the fiscal year on March 31 was indicated by the mayor Tuesday. No action had been taken on this suggestion by the council, however, Norman said.

"Naturally, Mr. Barker will want an audit before he turns the books over to a successor," said the mayor.

The office of city secretary is an appointive one and the selection of a secretary is the duty of the council.

The Hesperian also learned that the session of the council had been called to consider a raise or raises for employees of the city, but action on this matter was not taken, except to promise that it would be done at the next regular meeting of the council. Which employees are being considered for a raise was not learned.

ven themselves as very effective in the prevention of this disease. The National Foundation for Infantile Paralysis is urging everyone under the age of 55 to get these shots and help stop polio.

The supply of Salk vaccine in Floydada is at present plentiful. Families who have children needing these shots who are unable to pay for this service may apply to the county chapter and receive assistance.

The student council of Floydada High School is taking the lead in urging children of all ages to complete their shots now. All local doctors have the vaccine. Dr. George V. Smith is county health doctor and can be consulted by any who have questions or doubts as to use of this new and powerful weapon.

Lighthouse Electric's lobby was used as headquarters for the Mothers March and Mrs. Nancy Morckel made coffee and doughnuts for the group, facts which are much appreciated, said Mrs. Collier.

Brownies Will Organize Here

Plans for two new organizations are being completed this week in Floydada and will be the answer to the dreams of many little girls. The new organizations are known as the Brownies and are being sponsored by the 1954 Study Club.

Brownies, a division of the Girl Scouts, is for girls between the ages of 7 and 9 years old. Any girl between these ages at Andrews Ward School and North Ward School may become members. Requirements are that the girls must pay a fee of \$1 for a yearly membership and they will be expected to buy the national Brownie uniform.

There is no limited amount of girls that may belong to the organization but there will only be 24 girls in each Troop. Plans reveal now that there will be one meeting each week at Andrews Ward and North Ward schools immediately following the school hours.

The programs of Brownies emphasizes Helping Those at Home, Exploring Nature and Learning to Work and Play Together. Projects will be given each girl of the troop by their leaders and assistant leaders, which have not been named as to date.

This organization is to stress good citizenship training and the promises and laws of Girl Scouts which is to give young people a code to live by. This code lays stress on getting along with others, accepting responsibilities and serving the community.

According to a letter from the council advisor in Dallas, this new organization is the only one around this area and they hope by the starting of the Floydada groups there will soon be a troop in other communities.

The Troop committee for the Floydada organizations is composed of Dr. A. E. Guthrie, Mrs. Howard Gregory, Mrs. Charles Reid, Mrs. M. J. McNeill and Mrs. W. F. Patrick.

PASSENGER CAR STYLING comes to the trucking business in Ford's 1957 Style-side Pickup. It typifies revolutionary changes in new Ford trucks which Ford dealers display February 1. Full-width styling has more than just "eye appeal." It widens the truck's load area by 20 inches, and adds 25 percent more load capacity than old-style models offer. This pickup is one of nearly 300 models in the 1957 Ford line which ranges upward to huge extra heavy duty models.

Marshall Calls For Vegetable Grower Meeting

L. A. Marshall would like to see an organization perfected among farmers who are interested in trying out some vegetable planting this season but have not yet associated themselves with any group that is now carrying on operations.

His idea is that a lone wolf in the vegetable business is not nearly so likely to be successful as if he has associated himself with some other and they have all planned together.

So he is calling a meeting at Floydada for Saturday afternoon at 1:30 o'clock, Feb. 2, at the court house, and hopes to meet a group there for a round table talk.

"If you would like to plant some vegetables," says he, "we could organize a group and either build a shed or rent a place."

"Planning together we could find out how many acres of different crops the planners were interested in planting. Then we could elect a temporary president and secretary, get committees appointed and approved to do the jobs that will be called for.

"A good broker or brokers are important. We could advertise in the Packer, national fruit and vegetable paper, for the broker, have him come to meet with the members, and see if what we wanted to plant would be the kind of vegetables we would like to handle.

"Vegetables are handled on a brokerage fee of about 5 per cent, or in case of onions, from 10 cents to 15 cents per sack. The vegetables are graded and shipped under his supervision and are paid for after they are sold.

"It helps on the sales end to ship mixed cars or trucks. So many buyers could handle a mixed load that would not be interested in a solid car of one item.

"The outlook, because of the drought, is good for this season. "Our long look on down the years is to build a storage or warehouse, temperature controlled, to store in when the market points to better prices."

Mr. Marshall has had some actual experience and observation of the way vegetables are handled in California and thinks, on this account, that he can be helpful to local people who are interested in taking a chance on putting some of their say out land in vegetables with a chance of a high return on their investment.

For instance, he has helped plant onions with a machine that does the job as good and much faster than by planting manually, and would reduce the cost of putting out any kind of sets by several dollars per acre.

He describes the machine he has seen used as an "angle iron with car wheels welded on each end, the width adjustable from 8 to 16 feet. The plant setters ride in a seat directly on the ground. Easily adjustable, the plantings can be made single row 18 inches apart, can also set rows 6 inches between rows, and from one to as many rows as desired.

"Suppose you wanted to set onions four rows, 8 inches apart. The sets would drag on the ground, the operator would hold a tray of plants in his lap. The furrow in which he would set the plants is opened in front of plant setter and closed behind him.

"I have helped set 330 acres of tomato plants, using two of these machines, that average 10 acres per day each," he said.

Icy Road Causes Injury To Four Wisconsin Women

Four women from Wisconsin were victims of an automobile accident around 9:30 a. m. Wednesday at the Floyd-Motley County Line on U. S. Highway 62.

Those involved were Mrs. Mary Hickey, age 66, of Menasha, Wis., her daughter, Miss Joan Hickey, age 34, of Milwaukee, Wis., another daughter, Mrs. Genevieve Wolf, age 42, of Keil, Wis., and Mrs. Berniece Gatzka of Menasha, Wis.

The west bound 53 Ford Convertible, owned and driven by Max Joan Hickey, hit an icy place in the road, turned over and came to rest on its wheels.

The women were picked up by a Harmon Funeral Home ambulance and taken to Peoples Hospital for treatment. Mrs. Mary Hickey, suffering from a skull fracture, was taken to Methodist Hospital, Lubbock. Miss Hickey, accompanied her mother to Lubbock. She had received only minor injuries.

Mrs. Gatzka and Mrs. Wolf are being treated at Peoples Hospital for shock, bruises and other minor injuries.

The group were enroute to Tucson, Ariz. to spend several days with Mr. and Mrs. Maurice Hickey.

Cheryl's Chatter

(about events at Floydada High)

This week I think I should make a comment (Hoorsay!) about the marvelous basketball game here last Friday night. The Winds won over the Abernathy Antelopes in an overtime. What a game! That's the fifth consecutive win with no losses in district play!

Louise Johnson was selected as Citizen of the Semester by the Student Council Monday. James Teague was elected January Citizen of the Month. Congratulations, boys!

The Student Council has selected Feb. 7 as the date for their Chili Supper. Everyone be sure and go because I'm sure they would appreciate it.

A Senior Class meeting was held (again!) Monday to decide where the '57ers would go on their class trip. Colorado Springs won out this week, but nothing is definite yet. It has been decided definitely though that the trip will be taken after graduation.

Wednesday was "picture" day around PHS. Favorites, the band, "Whirl" and "Whirlwind" staffs, FFA, and faculty were among those made. Oh yes, and all the little seniors who had been students in the Floydada schools since the first grade.

Everyone who went to Ft. Worth seemed to have some fun! But why did they all look so sleepy? They weren't the only sleepy ones because a lot of the kids had slumber parties with the intention of watching the Telethon, but I don't think too much viewing was done!

Have you noticed? Pat and Judy's broken hearts? That you'd better not be tardy to classes? How sweet Carolyn Cates is? There are no pencil sharpeners in school? The band playing "Baa, Baa, Black Sheep"? Valentine will be here soon? (This is a mild hint from the girls to their fellas. Get it? You're welcome, girls!)

That a lot of "Es" were given on report cards, could be worse? Barbara Smith's new hairdo and also her crush on a junior? Kay Callaway suddenly being so very interested in Taboka? How witty (?) Bob Deik is in English IV?

Couples seen around in the halls, on the drag, and at the D.M. are Naomi Kiker and Jerry Patterson, Lavene Trimble and Stanley Grant, sited Thursday afternoon.

Mr. and Mrs. Shirley Irwin and children visited Mr. and Mrs. Therman Perry and Jan Sunday afternoon.

Mrs. C. T. Hammonds and Roy Nell visited Mrs. Jim Stewart on Monday.

Thursday of last week Mrs. Stewart and Mrs. Hammond went to Morton to attend the funeral of Mrs. Gregory.

Visiting Mr. and Mrs. W. W. Baxter on Sunday were Mr. and Mrs. Ralph Fowler of Crosbyton. On Sunday afternoon Mr. and Mrs. Cecil Baxter and Mr. and Mrs. Roy Baxter visited in their parents' home.

Little Craig DuBois of Floydada spent Saturday night in the home of his grandparents, Mr. and Mrs. Edell DuBois. On Sunday his parents, Mr. and Mrs. Bill DuBois came and spent the day and returned Craig home.

Mr. and Mrs. L. B. Cozy were in Plainview on business Monday. Also they visited Mr. and Mrs. Grady Reeves and boys.

Mr. and Mrs. Marion Burns and children visited with Mr. and Mrs. Lee Burgett on Monday night. Visiting on Sunday with Mr. and Mrs. Burgett were Mrs. Carl Nelson and children of Floydada.

Mr. and Mrs. Chil McClure and Del spent Friday night in Lubbock with Mr. and Mrs. Jay Hammock and children.

Mr. and Mrs. Therman Perry and Jan visited Thursday night in the McClure home.

Mrs. Marion Meek was a hostess to the shower for Miss Eula Huckabee in Floydada on Friday.

S. H. Tackett is working in Ralls now and Mrs. Tackett has part time work in Lubbock.

Bethie Wilson and Larry Glassmoyer, Sharon Edmiston and Keita Armstrong, Annela Thurston and Don Cooley, Virginia Stewart and Jim Hrabal, D'Lene Witkowski and Rusty Tinnin, Virginia Taylor and Deleith Peugh.

Suzi Nelson and Norman Davis, Jerri Floyd and Glad Norman, Pat Hickerson and Grant Cooper, Judy Jackson and Bill Orman, Leora King and Mike Shurbet, Mari Cogdell and Dale Lawson, Carol Lawson and Randall Jones, Juanell Wood and James Teague, Janis Roberts and Kendis Julian, DeAnne Newberry and Rex Jones, Billie Goode and David Blair, Nanel Meredith and Gary Huckabay, Sue McClung and Henry Self, Sue Kendrick and Billy Gilliland, Ann Jones and David Mount, Beth Crawford and A. C. Pratt.

Sue Durham and Herbert Irwin, Maybelle Johnson and Frank Potts, Darlean Johnson and Ray Walker, Donnie Young and Doug Merriwether, Jaynette Marquis and Max Harrison, Freta Caghdel and Jay Johnson, Geneil Cantrell and George Blanton, Virginia Day and Harvey Allen, Sandra Roe and Bobby Christian, Nedra Jarrett and Eddie Childs. Well that is about it this week.

How about somebody new going with somebody? Here's a joke. I suppose it's a joke! Here I sit and fuss and fret While my seat is getting wet. It's enough to make me fume Teacher can't I leave the room? Why delay me when you know That I simply have to go. Really, teacher, I'm not feigning My car top's down and it is raining. See ya next week! Cheryl!

Mr. and Mrs. Kirk Slater Jr. of Ralls are the parents of a daughter born Jan. 19 at 9:10 a. m. at Lockney General Hospital. The young lady weighed seven pounds and three ounces. J. H. Shanklin of Albuquerque, N. M., Agricultural Engineer with the Rural Electrification Administration for western states spent three days the past week at the Lighthouse making an irrigation survey.

Melvin Henry, Manager, and Bill Smith, Secretary-Treasurer, went to Austin Monday morning to attend a conference for managers and directors of Texas electric cooperatives.

Don Myrick went to Fort Worth

last Friday morning with the P.F.A. boys to attend the Fat Stock Show. He returned home Sunday night.

Mr. and Mrs. Bob Norrell and Bobby Jean were Brownfield visitors Saturday afternoon.

Mr. and Mrs. Billy Morris and girls spent Sunday in Lubbock with Mr. and Mrs. T. W. Norvell and family.

Mr. and Mrs. Bobby Kinchele and Mr. and Mrs. Buddy Hatley were guests Saturday night of Mr. and Mrs. Nolan Arney.

Mrs. A. G. Tyler underwent surgery at Pitts Hospital last Friday. She is improving nicely at this time, according to her father, Wiley Rogers.

John Shanklin says he has heard that:

"There is only one use of electricity that doesn't make for better living — the electric chair."

And that, "The only man that can afford to go to sleep at the switch is the man sleeping under an electric blanket."

D. M. Moore is on the sick list this week.

Melvin Henry, Claude Weathersbee and I attended an Electrification Advisors Conference held Monday and Tuesday, Jan. 21 and 22, at the Texas Electric Cooperatives' new office building located at 8140 Burnet Road, Austin. It was a good meeting, with lots of information available. O. B. Bryan, Manager Cap Rock Electric Cooperative was chairman on Monday and Weldon Groves, Manager Hamilton County Electric Cooperative was chairman on Tuesday.

We were glad to see Ted Ford at the meeting in Austin. He is Electrification Advisor at the Deaf Smith Electric Cooperative at Hereford. He underwent major surgery recently and is just able to be out again.

We enjoyed a cup of coffee and a nice visit with our Senator Andy Rogers while we were in Austin.

When we look into the long avenue of the future and see the good there is for each of us to do, we realize, after all, what a beautiful thing it is to work, and to live and to be happy.

How God Answers:

He prayed for strength that he might achieve;
He was made weak
That he might obey.
He prayed for wealth
That he might do greater things;
He was given infirmity
That he might do better things;
He prayed for riches
That he might be happy;
He was given poverty
That he might be wise.
He prayed for power
That he might have the praise of men;
He was given infirmity
That he might feel the need of God.
He prayed for all things
That he might enjoy life.

He was given life
That he might enjoy all things.
He had received nothing
That he asked for - all that he hoped for.
His prayer was answered
He was most blessed.

Sand Hill News

(By Mrs. James Jeffress)

SAND HILL, Jan. 28 — It seemed like spring had arrived Monday night when the thunder and lightning started, but not enough moisture to speak of, fell.

Mr. and Mrs. Bill Stringer, (the former Molly Earp), were honored with a wedding shower last Saturday afternoon in the home of Mrs. E. O. Adams.

About 30 guests were present for the shower with a number of gifts being sent. The hostesses from the community were Meses E. O. Adams, Olin Baird, Pearl Baird, Hollis McLain, J. T. Spears, Judy Williams and Chuck Holmes. Other hostesses were from Floydada.

Church attendance has been way up, since the first of the year. Everyone seems to be turning to the church more and more. Bro. Adams will be away this week end holding a revival in Dimmitt. Bro. Johnny Tims will be doing the preaching this Sunday. Everyone plan to keep the good attendance.

There will be a study course held at the church starting Feb. 13 and lasting three nights. The time was set from seven until nine o'clock with a fifteen-minute rest period in between. Let's all make plans to attend and receive credit for this year's study course.

The Young Married Peoples Class enjoyed a salad supper in the home of Mr. and Mrs. J. T. Spears. Each one brought a different salad. All were enjoyed. Those attending were Bro. and Mrs. E. O. Adams, Mr. and Mrs. Hollis McLain, Mr. and Mrs. J. T. Rouan and the host and hostess.

The Sand Hill club would like to thank Johnnie Miller and Les Stringer for letting them sell dinner at their farm sale. The money taken in will help to keep the club operating in the coming year.

There has been quite a few on our sick list the past two weeks. Mrs. Mattie Baird is still sick and Mrs. D. D. Tate.

Our congratulations are sent out to Mr. and Mrs. Kirk Slater Jr. of Ralls in the arrival of their new daughter, born Saturday morning in Lockney General hospital. The young lady has been named Bettye Jean. She weighed seven pounds, six ounces. Grandparents are Mr. and Mrs. M. B. Swanner of the community and Mr. and Mrs. Kirk Slater Sr. of Ralls.

This is the beginning of a new year and as usual we have lost some of our good neighbors and gained some new ones.

We would like to say "Welcome" to the new families that have moved into the community. To the Rafe Fergusons who will be moving soon to Floydada we wish to say, "We're gonna miss you a lot," but you will be close enough to come back to see us all.

Hostesses for the wedding shower honoring Ann Finley and Gene Ferguson Monday afternoon from the community were Meses Johnny Miller, Tom Thomas, C. B. Carmack, James Jeffress, Fred Jackson, Lynn Miller, M. B. Swanner, E. O. Adams and J. M. Williams.

Congratulations to Ann and Gene on their coming marriage. We will be happy to have you in the community.

Mr. and Mrs. Monroe Schulz and family spent the weekend visiting in the home of her parents, Mr. and Mrs. E. H. Forester in Lubbock.

We were sorry to hear that Mrs. Bill Stringer was operated on Wednesday for appendicitis. We hope she is home soon.

The Sand Hill Club is sponsoring a get-acquainted party for all the new comers to the community Friday night, Feb. 1, at the school house. Everyone is extended an invitation. Let's all go and have fun. The recreation committee will have charge of the games.

Each club member is asked to bring cookies. Other refreshments will be served by the club.

Mrs. Kirk Slater Jr. and her new daughter Bettye Jean are home from the hospital and staying with her parents, Mr. and Mrs. M. B. Swanner for the next few days.

Mr. and Mrs. J. T. Spears had as their guests Sunday, Mrs. E. O. Adams and sons.

James Jeffress and W. R. Billington made a business trip to Midland Monday.

Sharon and Johnny Roy Weaver of Silverton spent the weekend visiting in the home of Beverly, Jimmy and Timmy Jeffress.

Mr. and Mrs. Monroe Schulz and family spent Friday night visiting her parents, Mr. and Mrs. E. H. Forester of Lubbock. Mrs. Forester was celebrating her birthday. The Foresters left for Florida Saturday morning.

Seems like old man winter has finally arrived in the community. Sure has been disagreeable weather the past few days but still no moisture.

Mr. and Mrs. James Jeffress spent Friday in the home of Jim Jeffress and Mr. and Mrs. Shaie Weaver in Silverton.

There will be a visitation program Thursday night leaving from the church. Mrs. Chuck Holmes is in charge of the program.

Sunday dinner guests in the home of Mr. and Mrs. James Jeffress were Mr. and Mrs. Shaie Weaver of Silverton.

The Sand Hill Club has gotten off to a good start this year with the attendance being good at both the meetings. The year books have some interesting programs this year. I feel like everyone attending will learn something to make their home-making easier. We are extending an invitation to all members and all others interested to attend the meetings during the coming year.

Jim Holmes made a business trip to Plainview Monday.

Mrs. W. R. Billington spent Monday visiting in the home of her daughter, Mr. and Mrs. Ross Yandell and family in Plainview.

South Plains News

(By Mrs. Murray Julian)

SOUTH PLAINS, Jan. 29 — Over the week end our world was a fairytale of ice covering trees, shrubs and seeds with lacy, white designs on all. It was beautiful but cold. Many were kept at home with colds and measles again going the rounds. Newest case reported was that of Stanley Pierce, who broke out on Sunday.

Mr. and Mrs. Ronnie Upton and baby daughter moved to Canyon on Monday of this week where they have rented an apartment. Ronnie will be enrolled in the engineering department of West Texas State College. Bonnie Upton was here with her parents, Mr. and Mrs. Raymond Upton from Wednesday of last week and she plans to leave this Tuesday or classes which begin Wednesday, Jan. 30, after a week at mid-term semester. Ronnie Upton and family have been visiting with his folks since he returned from service.

Bryant Higginbotham is heading the campaign for the March of Dimes in our community. Have your contribution ready when he comes around for this worthy cause.

Mrs. Calvin Poteet will be hostess at an Around the World Party on Feb. 14. Everyone is cordially invited to attend. Time is set for 2:30 in the afternoon.

Fred Riggs fell Thursday night in his home, breaking his hip. He was taken by Carter Ambulance to Baylor Hospital in Dallas where he is reported to be doing as well as possible under the circumstances. He has been a semi-invalid, and was just getting so he could get around well, when the accident occurred about 7:15 on Thursday. Mrs. Riggs is also there at the Baylor Hospital where she is recuperating from a fall of about three weeks ago. Our hearts go out in sympathy to Cherry and his parents.

Mr. and Mrs. J. A. Kinnibrugh of Vera, and Mrs. J. R. Spivey of Trustcott came back with the Sylvin Kinnibrugh on Sunday. The J. A. Kinnibrugh stayed here visiting until Tuesday evening, while Mrs. Spivey remained for the week she went home with Mr. and Mrs. W. H. Simmons and Ronnie who came on Friday and spent the night with the S. D. Kinnibrugh.

Mrs. Grigsby Milton was hostess on Thursday afternoon at 2:30 to a group of neighbors who gathered in her home for an Around the World Party. Mrs. Doris Troff of Plainview, was in charge of the merchandise and games. Mrs. Milton served coffee and cookies to Mrs. Olive Poteet, Mrs. Gertrude Smitherman, Mrs. Jewell Fortenberry and Mrs. Madge West.

Mr. and Mrs. Elvin Hulson and

Letressa from Tulsa spent Wednesday here with her sister, Mr. and Mrs. Fred Fortenberry. On Sunday the Fortenberrys had dinner and visited with his brother, Mr. and Mrs. Robin Fortenberry of Cedar Hill Community.

Terry Julian was home with his parents during the mid-term period, returning to school at WTSC at Canyon on Saturday evening in time for the basketball game between Texas Tech and Canyon. Classes begin on Jan. 30, but he is working until Wednesday on inventory.

We extend sincere sympathy to neighbors Mr. and Mrs. W. M. Stanforth and family in the loss they suffered recently by the death of his sister, Mrs. Agnes Thomason of Gainesville on Jan. 11, and the passing of his step-mother, Mrs. M. W. Stanforth, 80, also of Gainesville, whose services were held on Friday, Jan. 18. The family went back for both services.

Mr. and Mrs. Don Probasco, formerly of Floydada, were visitors at church Sunday morning. They joined the church at night services. They are new residents here and are living in the new house of Deral Young which they bought and moved to the Probasco farm. The farm is located just south of the Arby Mulder place. We wish to extend to them a warm welcome to our community.

We are sorry to learn of the illness of Mrs. Frank McClure. They had started by car to Houston last week and were as far as Grand Prairie where they stopped for a medical checkup at the sanatorium. Because of the illness of Mrs. McClure they are still there. Mr. and Mrs. Donald McClure of Houston came up to see them on Friday and Saturday at Grand Prairie.

Youth Revival at Church

The Youth Revival at the South Plains Baptist Church closed on Sunday night with wonderful preaching by young Dale Cain. Frank Rainey led the singing and Voncille Cadenhead played the piano and violin during the four days they were here. Several additions to the church with many dedications occurred during the week. BIBLE BAPTIST CHURCH OF FLOYDADA

A CHURCH WHERE EVERYONE IS SOMEBODY

Neighbor, if you are only looking for a church that has a big pretty building, with foam rubber cushions on the seats and where all people dress in their latest style; where they have many social get-togethers; where they use other things to teach from instead of the Bible; where they use the Revised Standard Version of the Bible in place of the King James translation; where the preaching makes you feel comfortable, then you probably would not be pleased with the Bible Baptist Church. The Bible Baptist Church is a Bible believing church, where they carry their Bible. The bible is the text book used in our Sunday School and preached from our pulpit. We do not use the Revised Standard Version of the Bible, because it cast a shadow of doubt on the Virgin Birth of our Saviour. (Check Isaiah 7:14 in the R.S.V.) If you know the names of the people that helped write it, then check official files of the F. B. I. and you shall find that nine and maybe more were members, or affiliated with the Communist party. If we were members of a church that used it, backed it, and that supported it, then it would make us guilty of helping the Communist and Satan. The Devil denies the Virgin Birth of Christ and so do the Communist. We believe in speaking out against the Devil and his many devices. Three, and a half years ago I lost the friendship of many, because I took this stand that I did. If I had it to do over I would still make the same stand. WHY? Because James 4:4 tells us if we have the friendship of the world we are an enemy of God. I do not want to be an enemy of God. (Read Revelation 22:18,19 then turn to Acts 5:29 and read it.)

Adoption of Two Sons Brightens Home of Pleasant Valley Couple

Mr. and Mrs. Ray Pleasant Valley couple of Lockney, married childless, have just adopted two new sons. The boys, ages 4 and 5, are the sons of Jack Aston, who died last year.

The boys were adopted by the Astons from the Lutheran Welfare Home at Des Moines, Iowa. They have been living in a foster home under the sponsorship of the Lutheran Home and the Astons went through considerable paper work and legal tangles in order to receive permission to adopt the boys. They have been working on the matter for several months.

After completing the legal technicalities by mail, the Astons left Lockney Jan. 4 and saw the two boys for the first time on Jan. 7. The boys had been prepared for the event and immediately began calling Mr. and Mrs. Aston "Daddy" and "Mamma." The Astons were expecting to spend a week at Des Moines getting acquainted with the boys before starting home with them but that wasn't necessary. They spent three hours with the boys the first day, kept them out all day the second day and then officials decided that they had become acquainted well enough to start for home.

The trip home was an adventure in itself, since a blizzard was on at the time and the return trip required three days. A blinding snow storm and 15 degrees below zero helped to slow them down.

While in Iowa the Astons visited with three other children, brothers and sisters to the two boys, who now make their home with an aunt, Mrs. W. K. Hulick of Indianola, Iowa.

Newly adopted sons of Mr. and Mrs. Ray Aston of Pleasant Valley are Lee, left 4, and Billy Ray, 5, adopted in this month through the Lutheran Welfare Home in Des Moines. The little boys are sons of a brother of Mr. Aston, who died in August of last year.

★ ★ ★ ★ ★

Grandparents of the boys are Mr. and Mrs. Jack Airhart of Blue Ridge, Tex., and T. M. Airhart, also of Blue Ridge is the great grandfather.

Honored at Shower

The Aston boys were named honorees at a gift tea Tuesday evening in the J. A. Noland home in Pleasant Valley community.

The serving table was covered with white linen and centered with an

attractive farm scene. Refreshments were coffee, punch and cookies.

Highlight of the evening was the opening and displaying of an array of gifts received by the elated and appreciative youngsters. Gifts included clothing, toys, gift certificates and money.

Eighty-five guests called and many others sent gifts.

Hostesses for the evening were Mrs. J. A. Noland, Burt Holt, Gail Hawthorne, John Cox, Hall Ferguson, Elmer Biggs, Harmon Handley, R. C. Mitchell, Chester Mitchell, C. H. Rose, Linton Pruett, Weldon Smith, Raymond Rucker, Clark Harris, Bob Muncy, Forrest Mickey, Dick Taylor of Quitaque, Lansley Graham and Bennie Teaff of Floydada.

Stella Campbell Betty Crocker Contest Winner

Stella Campbell has been named the Betty Crocker Homemaker of Tomorrow in Floydada. She is the daughter of Mr. and Mrs. L. A. Campbell.

She received the highest score in a written examination on homemaking knowledge and attitudes taken by graduating girls in North Ward High School. Stella, 17, a senior, is a good student, says her home instructor, Mrs. Mary Wilson.

Her examination paper now will be entered in competition with those of 665 other school winners to name this state's candidate for the title of All-American Homemaker of Tomorrow and will also be considered for the runner-up award in the state. For her achievement, she will receive an award pin designed by Tri-

fari of New York.

Each state winner will receive a \$1,500 scholarship and an educational trip with her school advisor to Washington, D. C., colonial Williamsburg, Va., and New York City. A \$500 scholarship will be awarded the runner-up girls in each state. The school of the state winner receives a set of the Encyclopedia Britannica.

The program is designed to assist schools in education for home and family living and to emphasize through a sound scholarship award program the personal qualities and sense of values necessary to successful homemaking. A total of \$106,000 in scholarships will be awarded.

The national winner will be named May 2 at the American Table banquet in the Waldorf Astoria Hotel, New York City. The scholarship of the All-American Homemaker of Tomorrow will be increased to \$5,000. This year for the first time girls who rank second, third and fourth in the national finals will receive \$4,000, \$3,000 and \$2,000 scholarships respectively.

VIEWS AND COMMENT

You can help write history in Texas this year if you pay your poll tax before the end of business today. It is your last chance to have a part in any elections which may be called in your city, school district, county or state between now and next January 1. One vote has often and often changed history. Yours may be the one this year. Some don't like poll taxes, some do. Anyway, that is the law of the land as of the moment. You play the game the way the rules are made. You won't get them changed by refusing to take part.

We have never felt that the poll tax is particularly a burden, any more than any other tax. So we don't join in the hue and cry against it. Because a good many states have adopted other means of registering their citizens for voting does not mean that these states have any better system than we have, just for the reason they are different. The poll tax is as good a way as any to raise tax money and many a man who couldn't or wouldn't otherwise contribute a cent pays a small part in this wise. Any law can be subverted, a "registration" law for instance. The fact that the poll tax law is abused is nothing against the law particularly.

Probably worthwhile. The number of lives lost annually in highway mishaps is high. Accidents and carelessness together are taking a toll that is equalled only by the volume of warning and advice which is dinned into the public by officials, volunteer organizations, the press and through the air lanes. Evidence that the warnings and advice are having some salutary effects are seen. But while people are using better practices on the highways, their number also is increasing. The number of killed and maimed is showing an appreciable drop, only if you measure the tragedies percentage wise.

The Bracero comes up out of a hole in his native country, seeking work in the fabulously rich fields of Texas. When he gets here this year he is going to have to be furnished better living conditions than most of his employers enjoy. At least, that is the word that is going the rounds. New requirements of Department of Labor are said to be elaborate. Just one of those things when the federal government takes a hand. Remember to check before you hire Mexican Nationals this year. A farmer might not be able to meet the requirements and there will be "spot checks," says the bulletin.

February 15 is the income tax report deadline for farm and ranch families who did not file an estimate and payment before January 15. Extension Farm Management Specialist C. H. Bates says county agents can supply information on both income and social security taxes. Ask for a copy of the Farmer's 1956 Tax Guide.

If present indications are carried out, the 1957 turkey crop could exceed the record crop of last year. Producers are urged to study the demand and supply situation in planning for the year ahead.

What helps luck is a habit of watching for opportunities, of having a patient, but restless mind, of sacrificing one's ease or vanity, of uniting a love of detail to foresight, and of passing through hard times bravely and cheerfully.

Those who help themselves get help. It gravitates to them. Because there is something to help do. Positive, not negative, as in the case of handing a dime to a beggar. Instance is help the City of Tulsa is getting in widening the pavement on loops and on farm roads inside the city. In Floyd County there is little help because we are not helping ourselves. We have in prospect one highly desirable and greatly needed 4.3 miles of roadwork the Highway Commission is authorizing. It is true. That is on the caprock to give a connection to westbound traffic from the Quitaque area. We could be getting a lot of other things, but we are not. We are not doing. We are waiting for somebody to come do for us. It may work but it is not the nature of things to be that way.

In this day of specialization it turns out that of the scores of house buyers in a community many do not know the names of the most important parts of the house they buy. A Southern Pine Association handout points out about things they can't see and feel. Sills, joists, studs and rafters are obscure things in a house. They are vital to a good house. These things, which the home owner leaves to the professional, mean the difference in the comfort of the house, its life span, and its value in later years.

The palace guard at the White House has in its numbers men who view a recession as one of the needs of the times. Their viewpoint is reflected in the higher cost of money, one of the most plentiful things. Higher money cost doesn't stop speculation. Rather it tends to make people desperate for a "killing" followed by the consequent unhappy endings for most of these efforts. Unbridled speculation has flourished in our nation's history when money cost 11 per cent, plus trimmings. Many remember such days.

Hard to Believe. Surely it must be true, but it is hard to believe that two out of three people in the world are underfed, hungry. They also are financially unable to pay for the food they need. Which makes a problem for a country that has abundant surpluses and would like to sell some of it.

National egg production in 1957 is likely to exceed the 1956 record output of 169 million cases by about 2 percent. The lower egg prices of late 1956 are expected to continue through the first quarter of the new year.

Texas farmers in 1957 will continue to be in a price-cost squeeze, but crop restrictions and increased agricultural exports may tend to relieve pressure created by large surpluses of cotton and wheat, says extension economist John G. McHaney.

Good temper, like a sunny day, sheds a ray of brightness over everything; it is the sweetener of toil and the soother of disquietude!

Although men are accused of not knowing their own weakness, yet perhaps few know their own strength. It is in men as in soils where sometimes there is a vein of gold which the owner knows not of.

The greatest remedy for anger is delay.

Aid to Irrigation Found In Usually Dry Creek Bed

Many thirsty Texas farmers and ranchers may be overlooking a potential water hole that's been underfoot all the time, namely the usually dry old creek bed.

In several instances, at least, Texans have managed to make tanks of water from mere trickles by proper treatment of nature's forgotten irrigation ditches which run through most everybody's land.

Use of small check dams is nothing new, but seldom have they taken so individual a turn as in the case of J. G. Brunson, Lamar County farmer who sub-irrigates 50 acres of corn and bottomland alfalfa from an old horse-shoe shaped creek bed on his place.

Brunson created his irrigation supply by damming up the lower end of the creek so that water stands 10 to 15 feet deep in the old channel now by-passed by the Red River.

The dam raised the water table in nearby bottom lands to within 10 to 12 feet of the surface, creating a natural situation for sub-irrigating.

Another dry creek bed, this one in Williamson County, became an incidental source of stock water when County Commissioner E. E. Martinets of Granger dug out tons of gravel from Donahue Creek bed for road construction purposes.

When now-rare December rains came to the area, the enlarged creek

beds caught and contained a great deal of water. Had the beds remained shallow, the valuable supply would have run off as it does in most cases to be swallowed up in the Gulf.

Use of small dams and ingenuity in at least one other Texas county are attempting to place run-off waters where they are most valuable — underground.

Several Uvalde county groups are attempting to check the vicious flood waters which come up unexpectedly with heavy rains along rivers and streams of the upper Edwards Plateau.

In one project on the Leona River, the entrance to a large underground cave beneath the river bed was emptied of flood debris and fitted with a system of iron bars

similar to a cattle guard. When and if the flood waters come, the washed-away trees, sod and grass will be swept on downstream while a sizable amount of the otherwise-wasted water should be sent to the underground cavity, raising the critically-low water table.

Small dams are also being spotted-placed to retard the run-off waters in order to give them a chance to sink into dwindling underground supplies.

It is hoped the current session of the Legislature will provide some

financial means of financing most apt means of retarding waters.

Plunderbund Plucked \$7,187 Benavides Schools in One Day

ERICK HODGSON 187.80 from the school district treasury.

The chubby Mr. Heras lists 101 checks made out to fictitious names, the whole batch amounting to \$67,414.17. His affidavit makes interesting reading.

"I know George B. Parr of San Diego, Duval County," Mr. Heras swore. Although he has dominated the Board of Trustees for many years, and has taken it upon himself to countersign all vouchers issued by the District, Mr. Parr has never within my knowledge been an employee of Benavides Independent School District. W. M. Benson of San Diego, who keeps Mr. Parr's books, and who offices in Mr. Parr's office across from the Courthouse in San Diego, has served as auditor for said Benavides School District for many years.

"B. W. Milligan is Superintendent of Schools in the Benavides Independent School District, and W. F. Reed is Principal of the Freer Schools in said Benavides District. During the years I worked for the Benavides District the method of handling Teacher Retirement moneys was to make up the teacher contribution lists from the payrolls, and then to issue vouchers against the School District to Mr. Milligan or Mr. Reed for the amount of the Teachers' contributions. These men in turn were to purchase cashier's checks to be remitted to Teachers Retirement System.

"I have carefully examined annual report of School Funds to Texas Education Agency submitted by Benavides Independent School District for the year ending August 31, 1950, and have also examined a like report submitted for the year ending August 31, 1951. These reports were prepared and submitted by the Texas State Bank of Alice, the depository for Benavides Independent School District. In these reports I have found many irregularities. On Exhibit A to this affidavit, I have listed a number of vouchers issued by Benavides Independent School District to fictitious persons. The persons so listed as fictitious are actually fictitious, never existed, and of course never performed the services for which the vouchers purportedly were drawn. Many of these vouchers were issued at the express direction of W. M. Benson. At times I would deliver the vouchers to Mr. Parr or Mr. Benson. At other times, I would present them at the depository bank, where I would be handed an envelope containing money. This envelope would then be delivered to Mr. Parr or Mr. Benson.

"On Exhibit B to this affidavit, I have listed another group of vouchers which were issued in the same manner and under the

same direction, to actual persons. However, none of these listed persons who are payees in the listed vouchers ever performed the services for which the vouchers were purportedly issued, and these persons did not receive such vouchers. Such vouchers were handed in the same manner as those issued to fictitious persons.

"On Exhibit C to this affidavit, I have listed another group of vouchers which were issued, in the same manner as all of the above, to actual persons. However, none of these listed persons who are payees in the listed vouchers ever worked for said Benavides District.

There you have it. And this sort of thing has been going on in Duval County for half a century.

The Diego Heras affidavit tells but a small part of the story of how the plunderbund operated in one school district during one short period of time. More of the Benavides story can be found in the transcript of the trial of D. C. Chapa, tax assessor and collector for the district. Chapa is now free on bail pending a hearing on his appeal from a five year prison sentence.

Equally enlightening facts can be seen in the official transcript of the trial of B. F. Donald, former cashier of one of Parr's banks put out of business by Shepperd in 1955. Donald, too, recently was given a five year prison sentence for conspiracy to steal Benavides school funds.

It is no wonder that evidence-destroying bonfires blazed like a Fourth of July celebration all over Duval County when Attorney General Shepperd arrived on the scene with a small army of assistants, including State Auditor C. H. Cavness. County records vanished in all directions.

A political boss on plunder bent must have a machine so well armored that no dent can be made in it. But machines grow old and rusty and the engineers sometimes get careless. This happened in Duval. Some of the thick rust crust flaked off, revealing the bright metal of loot beneath. It is no wonder that the Parr machine fought with every legal, and semi-legal, weapon at its command to keep an honest auditor out of the Courthouse in San Diego. It took the full power of the State of Texas thirteen months to put Donato Serna into office in Duval.

The result, according to Attorney General John B. Shepperd, is the first honest audit of Duval books in more than half a century. And, to quote Shepperd, "Nobody can steal anything else in the county without getting caught."

George B. Parr's two banks, one in San Diego and the other, the Texas State Bank in Alice, Jim Wells County—the bank mentioned by Diego Heras as the depository for funds of the Benavides School District—are both out of business. "In Liquidation" signs posted on the windows.

Highlights And Sidelights From the State Capitol

(By Vern Sanford, Texas Press Association)

AUSTIN — A number of the "Better Government" bills requested by the Legislature by the Texas Press Association have hit the legislative hopper.

Outstanding among those introduced are:

1. A Mandatory Publications bill, designed to force public officials to print public notices as called for by present statutes. Requiring removal from office of any public official who refuses to publish financial reports called for under existing laws. This bill would eliminate such occurrences as have happened in Duval County in recent years. Introduced by Sen. Preston Smith of Lubbock and Rep. John Lee of Kermit.
2. A bill to provide for public notice of applications of veterans applying for loans under the Veterans Land Act. Notices, to appear in the veterans' home town newspaper, would specify name of veteran, describe the land, and quote the price he will be paying. Sen. Charles Herring of Austin and Rep. Louis M. Anderson of Midland have introduced companion bills in the Senate and House.
3. Rep. Virginia Duff of Ferris and Sen. Crawford Martin of Hillsboro have introduced measures which will require publication of annual financial statements by school districts and other official bodies. Again, a measure to help prevent situations similar to that in Duval County.
4. Sen. Otis Lock of Lufkin and Rep. Howard Green have introduced bills in their respective houses which would make it unlawful to bar newspaper reporters from precinct conventions. Object: To prevent instances when newsmen are unable to report convention facts to their readers because they are refused admission to such political meetings.
5. Meetings of public bodies would be open to the public, including newspapermen, if a bill introduced by Sen. Henry B. Gonzalez of San Antonio and Rep. Don Kennard of Ft. Worth is passed. This bill will insure the "public's business" being kept public.
6. A measure providing for removal of officials who refuse to testify concerning their duties. Sen. Doyle Willis and Rep. Howard Green, both of Ft. Worth.
7. Two bills introduced by Rep. Jack Welch of Marlin would require insurance companies to publish financial statements annually, and provide a penalty for furnishing false information to the insurance commission.
8. Sen. Culp Krueger of El Campo has introduced a measure calling for publication of the full text of ordinances, rather than merely the caption. Publication of captions only, as now allowed by law, frequently does not give the public sufficient information as to what the ordinance contains.
9. Another bill by Rep. DeWitt Hale of Corpus Christi would require each treasurer receiving or controlling funds of a school district to keep a full account of all funds, and to file an annual report of those funds each school year. Present laws do not provide adequate protection at the local level for such accountings.

Among other items in the still-abundant flow of suggested legislation are bills which would:

1. Require voters to register by parties. By Sen. Henry B. Gonzalez of San Antonio.
2. Provide paid investigators to assist grand juries. By Rep. John T. Cox of Temple.
3. Refund state taxes on gasoline paid by cities. By Rep. Robert W. Baker of Houston.
4. Exempt widows, old age pensioners, injured veterans and others from state property taxes on the first \$5,000 in value. By Rep. D. Roy

Harrington of Port Arthur.

5. Place liquidation of insurance companies under supervision of Travis County district judges rather than the Insurance Commission. By Sen. Charles Herring of Austin.
6. Make Texas Thanksgiving the same as the federal holiday. By Sen. Dorsey B. Hardeman of San Angelo.
7. Re-organize the Industrial Accident Board and increase workmen's compensation benefits. By Reps. Kennard and Wade Spilman of McAllen.
8. Provide for annual sessions, boost legislators' salaries to \$7,500 a year and the speaker and lieutenant governor to \$12,500. By Rep. Truett Latimer of Abilene.

MONEY HERE, MONEY THERE — House and Senate committees now are neck-deep in hearings on the paramount issue of the 55th session of the Texas Legislature — how much money to appropriate and to whom.

Facing them are these requests:

1. A \$2,000,000,000 appropriation bill submitted by the Legislative Budget Board.
2. A bill to increase public school teachers' basic salaries from \$2,800 to \$3,204. Introduced by Sen. A. M. Aikin and Rep. James A. Turman.
3. A bill to give state employes a 15 per cent raise on the first \$3,000 of their salaries. By Sen. Charles

Herring, Reps. Charles Sandahl and Wilson Foreman of Austin. Another bill by the other Travis County member, Rep. Obie Jones, asks a 25 per cent raise.

4. A bill to appropriate \$3,000,000 to aid the totally disabled. By Sen. William S. Fly of Victoria.
5. A bill to raise judges' salaries, from \$9,000 to \$16,000 for district judges, from \$12,000 to \$20,000 for civil appellate judges, from \$17,500 to \$24,000 for Supreme Court and Criminal Appeal judges. By Sen. Doyle Willis.

NEW WATER PLAN — With two previous plans junked, a third recommendation has been made for buying state water storage space in federal reservoirs. Earlier plans included, first, a fishing and boating tax, and then a water users tax. Both met strong opposition.

Now Sen. George Parkhouse of

Floyd County Hesperian, Floydada, Texas, Thursday, January 31, 1957

Dallas, water program leader, has substituted a plan to finance storage, buying with a \$100,000,000 bond program. This is separate from another \$100,000,000 bond proposal to aid local governments in financing water conservation.

SHORT SNORTS — Butane fuel is not "gas" as far as the state gross receipts tax is concerned, the Supreme Court ruled. It ordered the comptroller to refund taxes paid by a Rankin butane company. . . . State

draft quota for February calls for 695 men, a drop from the January call of 861. A total of 65,094 men registered with Texas draft boards last year, according to State Selective Service Headquarters. . . . Governor Daniel has re-appointed William L. McGill as director of Texas Civil Defense and Disaster Relief Headquarters.

Mrs. Ama Smalley, of Clovis, N. M., was a week-end guest of relatives here.

FAMOUS Esso Extra GASOLINE

gives extra anti-knock performance in modern engines

Modern cars, especially the 1957 models, have engines with high compression ratios.

Even at this altitude, these engines require the extra performance of Humble's famous Esso Extra gasoline.

It's the best premium gasoline you can buy . . . with extra anti-knock performance . . . extra power . . . extra protection against vapor lock . . . extra mileage . . . extra quick starting and warm-up.

Fill up with Esso Extra gasoline under your neighbor's Humble sign — it's famous for performance.

Prevent "the knock you cannot hear" — use famous Esso Extra gasoline.

Engineers call it "trace knock," a knock so faint that only a trained technician can hear it. But like all knocks, it robs your engine of power, forecasts engine damage. If yours is a modern car in any price class — especially if it's a 1957 model — prevent "trace knock" with Humble's famous Esso Extra gasoline.

SESAME PRODUCES WELL

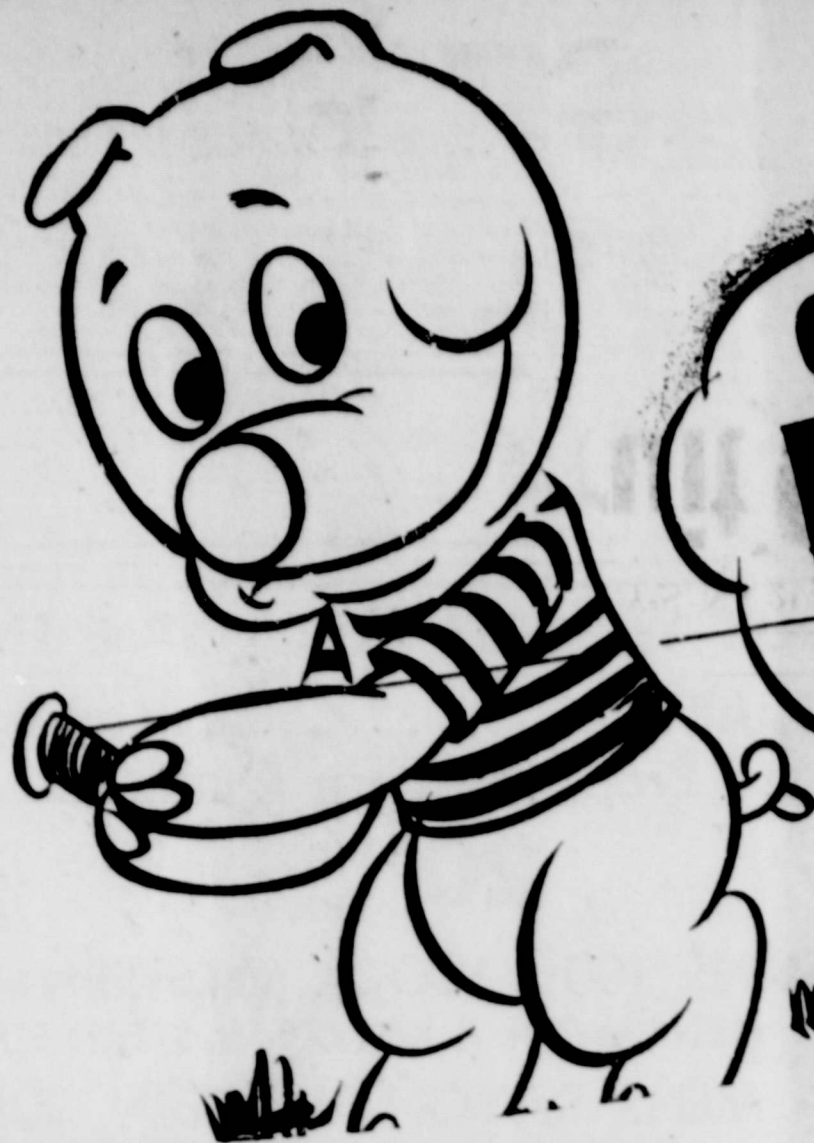

OLTON — Sesame, that ancient oilseed crop of Bible times which emigrated in new varieties to Texas in 1953, has made a big hit with three farmers in Lamb County. W. T. Hall Jr. hoped for 750 pounds and produced 1,045 pounds per acre when he grew the crop for the first time last year. Donald Spain, farmer-merchant, got about 1,000 pounds per acre. Paul Spain, a first-year Sesame grower in 1956, produced 1,155 pounds per acre on 32 acres.

The Suez Canal is 108 feet wide and 31 feet deep.
