Meeting of VFW Post Is Called Tonight, 7:30

W. Harrison Post, Veterans of Foreign Wars, has been called for tonight at 7:30 at the VFW Hall by Commander W. R. Daniel, who says that a critical period has arrived in the organization's affairs which demand attention.

The organization has made an invaluable contribution to the community welfare in its ten-years of operation in the community since World War II. This meeting is designed for mem-

community. Daniel said. In the middle of the problems facing the organization are questions of finan cing on the post's quarters and auditorium on North Second Street.

Speaking frankly, Daniel said the nembership should take part in determining the policy its officers shall take in meeting overdue payments on the post's quarters on North Se-

If the decision is negative, Daniel said, the post must abandon lts proud part in Memorial Day activities, in its representation in national veterans' affairs, its part in the annual Pioneers Reunion, and in the use of the building as a community center

As matters now stand the burden of carrying on the post's activities and working out its problems have fallen in the laps of a handful of veterans. The officials must have broader support from a more active membership or its existence is threatened by the crisis which have developed.

"The post has been most fortunate in the sympathetic attitude of its creditors and all we have to do is to take a positive attitude in support of VFW in Floydada to see it over the crisis," the commander said, adding that what the officers need to know is what the members who are helping or have helped in the past, want to hold the post's affairs together. And this will be determined at tonight's meeting, he

Jesus would also sweep out the Kitchen and all the breakfast, luncheons, and suppers, because when the Scriptures spoke of the Lord's supper it says in I Cor. 11:22 and also verse 34 "What? have ye not houses to eat and to drink in? or despise ye the Church of God, and shame them that have not? What shall I say to you? shall I praise you in this? I praise you not. And if any man hunger, let them eat at home; that ye come not together unto condemnation." Just remember that He said, "My House shall be called a House of Prayer, but ye have made it a den of thieves. (Matt.21:13) We had better take Heed to

Rev. E. O. Adams, pastor, read the double ring ceremony, as the couple stood before an arch of fern and white chrysanthemums flanked by tall floor baskets of white stock and palms. White satin bows marked the bridal aisle.

Miss Naomi Kiker, pianist, played pre-ceremony selections and the traditional wedding marches. She accompanied Miss Wren Patterson as she sang "Whither Thou Goest" and "The Lord's Prayer."

Mr. Finley escorted his daughter to the altar and gave her in marriage. She wore an original model of white imported Chantilly type lace and nylon tulle over net and satin. Designed with a portrait neckline framed with embroidery enhanced with irridescent sequins, the fitted bodice has long sleeves ending in points over the hands and termie direction of Hollis nates with point at center front waistline. From this stems a voluminous skirt. Made of alternating fullsmall "sweep" at back and is worn W. Jones. over hoops to emphasize fullness.

Good soup, when ever and wherbest eating there is. Yet, with modern methods of canning, freezing, drying ready-prepared foods, this rare commodity has almost gone out of existence.

We found some, one cold night last week, in a little restauranttearoom place, and realized how poor most of today's substitutes are It was three-dimensional soup, with a rich, deep flavor that comes from long simmering of good stock, herbs and vegetables.

It reminded us of those long ago days when we'd come in from school on a frosty afternoon and smell soup cooking on the kitchen range. Soup - just soup - was a frequent evening menu when we were kids. probably because it was cheap. But to us it was as tantalizing and satisfying as the most expensive foods. As an aunt who used to visit us would say, "It sticks to your bones." At twelve, we actually wept over poor Oliver Twist in Dicken's novel, whose gruel was always thin!

Although we lay no claim to cookng excellence, even our short-order kitchen can turn out a powerfully good potato soup. The recipe comes from an old cookbook, published long before short cuts became popular. We learned how to make it simcan't find any ready made. Electric Clothes Dryers BEAT THE SUN!

You're sitting pretty with an electric clothes dryer. Reddy Kilowatt does all the hard work . . . eliminates all the bending, stretching, stooping and the carrying of heavy baskets of wet clothes.

Our area has a great climate - plenty of life-giving sun — great for sun bathing or basking on a sunny afternoon. But, unfortunately, our climate is not very kind to our clothes. The sun, which feels good to the skin, treats clothes harshly. It quickly fades out the colors, takes the life **** out of a bright print. You can "beat the sun," keep your lovely colors looking pretty, with an electric clothes dryer - the proven way to dry clothes and with ease.

VIEWS AND COMMENT

Floydada is due for a warm city election in April if the signs fail not. The whole council and a mayor are to be chosen. And all of us, informed and uninformed alike, will take it on ourselves to make pronouncements of whom should be chosen and why. Even, critically, who should not be chosen. Certain it is that we need a wise administration of city affairs the next two years. The city is pledged to do many things that proper handling of the city's money would help get accomplished. Also there are numerous things being let go undone because the city does not have additional money, not pledged, to do them.

Hazing in School. Always there's a good friend who thinks something ought to be written about hazing of freshmen by the upper classmen in high school. That is, when excesses prevail, like reported at term opening and again in January and may be continuing for all we know. Bigger boys always have clobbered the smaller ones. Often the thing is carried to excess, to halt only when it is jerked up short by an irate parent, an accident or a hospitalizing injury. Every generation makes an innovation though. This generation has come up with a demand for money. If the freshman has it not, then he can write a check on the old man and explain it any way he can when the old man sees his bank statement and comes unbuckled. Plumb funny, ain't it.

In Floydada's Search for the grand new enterprise that will bring more breadwinners to the community, speed business activity and make the town boom, do we overlook the opthe purpose of this paragraph, does not mean anybody outside of the hard business corethe people who have doors to open Monday mornings and the people who open them. The others, "we" should know, tolerate us kindly but they have other fish to fry. Their loyalty is only incidental as "we" make their loyalty worthwhile. What about the enterprises "we" already have? Is the business community supporting them like they should? For instance, the photographer, the sign man, the mattress maker, the upholsterer, the sheet metal worker? And, no less, the dentist, the penses and receipts.

cleaner, the insurance man, the electrician, 14 Years Ago the plumber and the florist. Not all of these are small operators by any means. But think on them. This will remind you of others not named here. "We" speak of the great new enterprises that will make the town boom. What do "we" do about the enterprises we already have that need to be kept in a prosperous condition? Think on this if you live and work in Floydada, Building a town isn't just armed forces of the country for moralizing on what other people ought to do.

Every fects and personal belongings in a business loses a little. To be content to let non Doss farm one and a half miles such happen without an effort is a serious north of Floydada, the Bland Wilmatter. Every business dies just a little Tuesday noon. Tuesday's strong wind when it occurs.

Quick, Dr. Krick! We'd have liked to try out Dr. Krick's silver iodide crystals on the high plains during the last week when moisture completely saturated the atmosphere. Lacking only a trigger to make it fall, there was enough rain water overhead to have every surface lake in the country full and the ground wet to the roots of the range grass. This ideal condition does not happen too often but it does happen often enough that portunities already around us? "We", for it must tickle the ingenuity of the scientists who could be a great blessing discovering the secret of how to make the moisture gather into drops and fall on the parched earth. whether or not a cold front was handy to do the job for free.

Thank you, Hoyte. The sun came up this morn of Feb. 4 and its beams made a flery path in the sky as it made the gray louds burn and spread like a prairie fire in days long past. The thermometer is climbing, it is already a warm morning. The ground squirrel saw his shadow yesterday and gets

to sleep some six weeks longer. Lizzie and Margaret Nell went with us a visiting yesterday. We had a nice afternoon with good, dear friends. There are so many jobs in the house and outside that need to be done that I may just sit around and think of them, not deciding where to start.

Talent, training, plus generous portions of experience and hard work, is the basic formula for success in any endeavor. But whether in dramatics or domestics . . . histrionics or home economics . . . it takes the right combination of ingredients to achieve OUTSTANDING results.

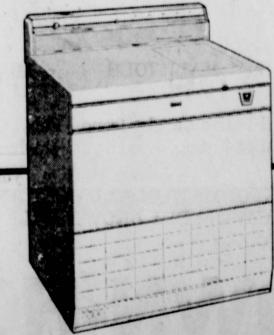

FOR OUTSTANDING LAUNDERING RESULTS CHOOSE AN AUTOMATIC GAS WATER HEATER AND CLOTHES DRYER

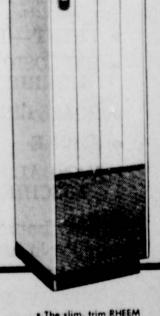

All the detergents, blueing, and fabulous washer-features won't get clothes really clean without plenty of hot water. And the "hotter the water, the whiter the wash". A GAS water heater - vented to the outside for safety's sake will give you MORE hot water . . . FASTER . . . and at LESS COST . . . than any other type of water heater.
