

Rains Make Road, Farm, Housing Problems

North Floydada Is Under Water

Rains only equaled three times in the recorded history of Floyd County, bringing a total of 7.04 inches since Friday night of last week have brought farm, road and housing problems to a wide south plains area, with parts of Floyd County hardest hit.

Floydada, Lakeview and South Plains have had heaviest rains, according to the information gathered at The Hesperian Office.

In Floydada the rainfall on ground already soaking wet caused heavy flooding, and high water damage.

Of this rainfall 5.78 inches fell in the 15-hour period beginning Friday night and ending Tuesday afternoon. Bright sunshine for a short time Wednesday morning revealed nearly eight blocks of the north part of the city under water and scores of homes running 4 to 15 inches deep in water above the floor.

"Santa Fe Lake" is bigger than it ever was before. This lake on the north outskirts of the city had run water into homes and stopped traffic in that section, except by row boat, as early as Saturday afternoon. It has continued to rise as water from higher ground north and west has kept flowing in to it.

City and Red Cross officials have had difficulty coping with the situation. Many of the residents have refused to move out despite the water.

City authorities had their fears of contaminated water allayed when they contacted the State Department of Health for suggestions and advice.

Out on the farms the frustration has been almost complete. Encouraging reports from an area around Lockney and up toward Lone Star indicate cotton is up to a good stand on many farms. The same is true of a considerable part of McCoy, some of Cedar, Sand Hill and Blanco. But in most any other community of the county you can count on one hand the number of farms which have any appreciable amount of cotton up and growing. Most of them have been too wet for farm work since Easter morning.

Encouraging note: All onion crops except an occasional acre or two inundated and an occasional report of hail damage, are doing wonderfully well at no expense for water.

Added Sour Note: Thirty thousand acres of wonderfully good wheat is ready to mature for the harvest. Every acre that was up to a stand the first of the year or early in January has good stands, is well filled out and has 30 bushels or more wheat to the acre. But one more rain before harvest and it is finished. It will "go down" for the last time, say wheat men. There is some damage, not much, already, and there is some rust in the fields, not enough that sunshine would not counter act it.

For the late wheat (that came up in March) which has heavy foliage the rust condition is more alarming. Of questionable value under favorable conditions, the wheat is in acreage of dry land wheat may or may not get caught by rust or hot winds or other unfavorable development before its harvest time, and it may or may not produce some revenue.

The county began the wheat year with a 133,800-acre allotment. Of this 43,219 acres was put in the Soil Bank, and 30,000 acres is irrigated. Add to this dry land wheat that got enough moisture to come up during the winter, subtract wheat land that was abandoned, and there remains something less than 50,000 acres that is in various stages of stemming, booting out, etcetera, on a gamble that it may produce.

The road problems of the county are compounded by lakes that have covered many paved stretches heretofore travelable in all kinds of weather. The road maintenance crews, under the supervision of Sanford Weeber have had problems around the clock.

Yesterday widely scattered showers from the Weather Bureau forecast for the high plains today.

Hale and Lubbock counties have problems quite similar to Floyd and Crosby County as well to a lesser degree.

Mail Delivery Slowed

Roads through the various parts of Floyd County have been extremely difficult during the five days since the Saturday flood.

Rural mail carriers have been having difficulty. A check on their Saturday runs gives an idea of their difficulties.

On Route One S. L. Powell got as far as Blanco canyon when high water stopped him.

On Route 2 J. E. Weirmon made only 13 miles of his route in a two-hour overtime run, but on Monday he was better prepared and had learned the right detours to make and came in with a report of his entire route completed.

On Route 3 W. O. Newberry negotiated 25 of the 32 miles on his run, with considerably better luck than Oliver Allen had on Route 4, where roads were blocked on both ends of his route by high water.

On Route 5 Burl Huckabee made his 76.4 rounds by traveling 100 miles in all. He put protective covering on the ignition system of a Model A and rode through water that came up to his head lights.

The town delivery men donned hip boots and duck wading britches to make it through streets and

C-C Committee Calls Mosquito Control Meeting

The mosquito control meeting scheduled for the night of June 13 in Floydada takes an added significance this week as the abundant presence of still waters in lakes and pools becomes a certainty.

The date is Monday, June 13. The meeting was called by Bob Copeland, chairman of the health and safety committee, and it stems principally from the fact that two kinds of mosquitoes are common to this area which transmit infectious encephalitis.

Procedures that can be taken to minimize the transmission of encephalitis in the populated sections of the South Plains counties is a major concern of the State of Texas Department of Health, says F. J. Von Zuben, Jr., Chief General Sanitation Services, Division of Safety Engineering of the State Health Department. A large number of people were diagnosed as having this disease in 1953 and again in 1956, and there have been a few clinical cases in the intervening years.

"The growing danger of mosquitoes to West Texas families points out the need for learning more of how to control the insect," said Bob Copeland in connection with the call for the meeting Thursday night of next week here.

"We hope that each civic club farm organization, home demonstration club and study club will have representatives present next Thursday night so that mosquito control information can be carried back to each Floyd County community and neighborhood," Copeland said.

Masters in Library Science Given Ivy Pearl Reber at TSCW

DENTON, Texas. -- Mrs. Ivy Pearl Reber, library science major from Floydada, received her master's degree at spring commencement exercises, June 3, at Texas State College for Women to be known as Texas Women's University.

Dr. John A. Guinn, TSCW president, gave the commencement address before graduates, their families and guests.

Local Bankers Attend Meeting in Amarillo

The annual convention of the Panhandle Bankers Association opened Saturday in Amarillo and continued through Monday of this week. Approximately 800 persons from Texas, Oklahoma and New Mexico registered.

E. L. Norman, Charles Bedford and Mr. and Mrs. Frank Sharnan attended from the First National Bank of this city.

The business session was conducted Monday at the Herring Hotel with James W. Aston, president of the Republic National Bank of Dallas, as principal speaker on "Banking Trends". The convention closed Monday following a luncheon in the Crystal Ballroom of the Herring.

Deputy Hospitalized At McKinney Hospital

Deputy Sheriff Ray Hardin of Floyd County underwent surgery at the Veterans Hospital in McKinney Friday of last week.

He was accompanied to the hospital Sunday of last week by Mrs. Hardin, who returned home Saturday following the surgery.

Mrs. Hardin said her husband is in good spirits and appears to be doing well following the operation.

Two daughters of the family, Mrs. Hays Hamilton of Lamesa and Mrs. Karl Everett with her husband and three sons of Victoria also paid a brief visit to their ailing father at McKinney, and Mrs. Hamilton returned to her home by way of Floydada.

Tornado Warning Group Organized

The ground observer corps of the civil defense and disaster relief tornado warning system for the Floydada area, Jack Henry who heads the ground observer group has appointed workers for all areas surrounding the town to sound the alarm in case of approaching disaster.

Named to serve were Fred Thaxton who watches the area west to Barwise; Connie Devers, the Lockney highway; Walter Hollums, Ralls highway; Wylie Rogers, Dougherty and Matador highway; Horace Edge Silvertown highway.

In the event severe weather is expected in the area Jack Henry is notified by weather bureau from Dallas and he in turn alerts the group of observers. If anything considered dangerous is spotted in the way of a storm cloud the group will communicate by radio and an alarm will be sounded when this is considered the thing to do for the public's safety.

Carmacks Attend McMurry Rites

Mr. and Mrs. C. B. Carmack, Mrs. Don Daley and daughter, Don Dea, of Phoenix, Arizona, and Bobby Carmack, student at Oklahoma A. & M. College, were among those who attended commencement exercises at McMurry College, Abilene, over the week-end.

The family were guests of their son and brother Billy Carmack and his wife, Billy was a member of the graduating class.

Mrs. Daley is the former Cageline Carmack, who has made her home in Phoenix for 15 years. The Carmacks met her and her daughter in Amarillo Friday.

Bobby Carmack plans to spend the summer at home.

THE FLOYD COUNTY HESPERIAN

VOL. LXIII No. 20 Floydada, Floyd County, Texas, Thursday, June 6, 1957 5 Cents 16 Pages Today

State To Join In Right-of-way Land Purchase

The new law making participation by the State Highway Department in the acquisition of state highways has become a reality.

It was put on the books by the legislature which has just adjourned and will become effective September 1.

According to the provisions of the act state funds for the purpose of paying for rights of way will be obtained by an increase in motor vehicle licenses, estimated to average about 10 per cent higher than at present.

The new law states "The Texas Highway Department is authorized and directed to pay to the counties and cities not less than fifty per cent of the right of way as determined by the state . . . or the net cost thereof, whichever is the lesser amount, indicating that the state will be protected from excessive claims for right of way. The various counties and cities are authorized and directed to acquire the rights of way, thus preserving the present status of the law of eminent domain.

A copy of the new law, received at the office of Resident Engineer Sam A. Fowler, is indicated as basing the motor vehicle license payments as formerly, that is on weight, but increasing the fees per 100 pounds. Any motor vehicle which is propelled by a motor which burns anything but gasoline is required to pay on the same basis as other motor vehicles plus 11 per cent.

Collections will be handled through county tax collectors as heretofore and the severance begins after the first \$50,000 is collected (See State Joins back page)

Price Funeral Set For Today

Final rites for Fillmore M. Price, 86, will be conducted this afternoon at 3 o'clock in the First Baptist Church with Rev. Ed Bowles, pastor, officiating, assisted by Rev. W. D. Reeves, pastor of the First Christian Church.

Burial will be made in Floydada Cemetery under the direction of Harmon Funeral Home.

Mr. Price passed Wednesday morning at 5:10 o'clock in Pitts Hospital, following an illness of several months.

Fillmore M. Price was born Jan. 21, 1871 in Smithville, Ark. He was married to Miss Alice Kate Hodges, Dec. 6, 1894 in Melbourne, Ark. The couple moved to Floyd County in 1906 residing in the Lakeview Community. They moved to Floydada in 1916 after his retirement from the farm.

He was a member of the First Baptist Church.

Survivors include his wife; one son, Claude S. Price, Floydada, two daughters, Mrs. Vernon Shaw, Dallas, and Mrs. Robert Renick, Fairfax, Okla.; six grandchildren; nine great-grandchildren; and two sisters, Mrs. Hattie P. Baker, Lubbock, and Mrs. W. R. Blythe, Lovington, N. M.

Funeralbearers will be nephews, Arthur Price, Everett Price, Harvey Price, Phillip Price, Jr., Jeff Price and Lloyd Price.

Armstrong Returns to Floydada As Pastor For Record 7th Year

Rev. Tilden B. Armstrong is returning to the pastorate of the First Methodist Church in Floydada for his seventh year and Rev. Phil H. Gates has been assigned to the Carr's Chapel Methodist Church as pastor.

Fun at the Reunion—Champions of Floyd County in the square dance contest of the old settlers reunion is this Circle 8 Square Dance Group of Lockney. Shown is Raymond Rucker at rear who is caller and Dixie Ford, Jo Reidheimer, Linda Harris, Paulette Kropp, James Ray Wofford, Jimmy Whitfill, Johnny Belt and Audrey McCormick.

City, Red Cross Alleviate Distress In North Floydada

The North Ward district of Floydada is under water since the big rains of last Friday night and Saturday. Water poured into the lake until it has spilled over the Santa Fe tracks into the industrial section around the gins and elevators. On the south the lake has fanned out with water standing almost to the Consumers Fuel Association.

Both reported the flooding as very bad and Wheeler called in George Harper, Red Cross field man to view the scene. Harper set up offices in the county school superintendent's office as soon as he arrived and looked over the area.

By Tuesday Red Cross, City and County officials were coordinating efforts and emergency quarters were located in several of the city's labor camps.

Tuesday afternoon a working crew with three trucks and a boat went to residents of the flooded section offering aid and transportation for those who would move out. They found little business and abandoned the project for the time being.

The big need for flood victims seems to be for food. Monday the county had started to issue some government surplus foods to the needy and the big demand on the Red Cross has been for food since they set up shop and took the lead in the relief project.

Many of the residents depend on farm work and outdoor work for a livelihood and have found their income cut off by the continued rainy spell.

With dry weather and sunshine the flood condition would improve before too many days, but continued rains will force evacuation of a number of homes. Meanwhile the lake continued to rise some as water was still flowing in from the west and north as late as Wednesday.

Water standing more than knee deep in many places made travel very difficult and some were taking in supplies on rafts as boys ran a

(See City, Red Cross, back page)

Wheat Support Price For '57 Set at \$2.01

The basic price-support rate for 1957-crop wheat grown in Floyd County is \$2.01 per bushel for No. 1, according to B. L. Breed, Chairman of the County Agricultural Stabilization and Conservation Committee.

He points out that the county rate will be further adjusted up or down for grade and quality when support prices for the individual producer's crop are calculated. County rates are based on the minimum national average support price of \$2.00 per bushel. For major producing areas the county rates reflect the terminal rates less the freight and handling charges needed to get the wheat to terminal markets.

The discount schedule for 1957-crop wheat will include a 2-cent-a-bushel discount for hard yellow wheat because this sub-class of hard red winter wheat is not considered as high in quality as other wheats of this class.

The discount of 2 cents per bushel still holds for red and white (except Baart and Bluestem) wheats in the West.

The red durum discount continues at 20 cents per bushel. Mixed wheat will have a discount ranging from 2 to 15 cents per bushel, depending on the mixture.

The same discounts as last year apply for grades below No. 1 or garlicky or amity wheat.

The discount of 20 cents per bushel for undesirable varieties of wheat is being continued in the 1957 wheat support program. The discount applies to 23 varieties which were designated as "undesirable" because of inferior milling or baking qualities.

All indications point to a faster downward trend in the production of these varieties as a result of the price-support discount.

Premiums for protein and for No. 1 heavy hard red spring wheat will be paid again this year. However, because market prices for durum are moving back toward their historical relationship with other wheats, the premium for hard amber durum is being reduced from 25 to 15 cents per bushel and the amber durum premium is being reduced from 15 to 10 cents per bushel.

At the same time the wheat support price was announced, the Secretary of Agriculture also advised the local ASC Committee through the state office that the loan support for maize this year would be \$1.57.

Wheat at \$2.01 compares with \$2 in 1956 and maize at \$1.75 compares with \$1.88 in 1956. The maize support price means \$1.57 maize at the elevator this season.

Surface Water Escaping From Plains 'Lakes'

High plains land does not lie flat as is sometimes thought but actually rises toward the west-northwest at the rate of about seven feet per mile.

And when the "lakes" fill up and begin to run over, they "run" ingeneral toward the east.

That's what the accompanying photo shows, for one thing. The picture was made Tuesday morning by Weims Norman.

A lake on the Jess Jameson place east of Dougherty finally filled up with enough water that its level got over the hump of the depression. Being close to the escarpment or caprock the water thus released took off for the foothills below. The volume of the water flow is quite considerable and another two-inch rain would really put it on a rampage.

The water is flowing into the Campbell Ranch from the plains above in this picture. While the drop shown here is only about seven feet the fall in the course of the next mile will be several hundred feet.

Jess Jameson believes that this is the third time since 1915 that this particular lake sent water over the escarpment. In that very wet year the water flowed freely from off the plains, and again in the period of the 1941 floods the lakes ran together and finally pushed the water from the last one into the depths below.

There are probably 15 or 20 places on the east side of the plains in this county where excess water gushes off the caprock, Charlie Lewis says. He was born and reared on the Lewis Ranch just below the caprock and has seen the sight at several points in his life time.

Off The Caprock. Floyd County "lakes" are full and running off the east escarpment of the plains which we call the caprock. Here is an instance on the Jess Jameson place two miles east of Dougherty. It has been "running" for five days and will run for several more. Looking on are Bill Norman, his grandson, Norman Kinnier and Oliver Emert.

Established 1886 Entered as second class post office at Floydada, Texas April 10, 1907 under Act of Congress of March 3, 1879

VIEWS AND COMMENT

Congressman George Mahon last week from the floor of the House of Representatives told his colleagues they should stand pat on their plans to cut the national budget. Tremendous pressure is being brought on them by the brass in the army as well as by the president himself. Mr. Mahon says the budget can be cut and that without endangering the republic, if the Congress can make the military and executive departments spend the money as directed and as responsible servants of the taxpayers. Mr. Mahon has specialized for years in the study of successive budgets and of guiding them through the legislative halls. He probably knows only as few men know. He knows more about this particular subject than does the president or Defense Secretary Wilson. The congressman also knows that the executive department has been accepting appropriations to spend for one thing but spending them for something else again. This trouble began back in Mr. Truman's administration, possibly before. Mr. Mahon thinks the Congress should stand up on its hind legs and tell the president and the brass.

At this moment, we verily believe, the military has a thing going that is calculated to make congress soften up. When the howl went up to put a stop to monumental spending by government and give the citizen a chance to spend it for himself, the army adopted an "economy" plan. Know what they economized on first? Training of the reserves! Now every war the nation has fought has been fought by the reserves. If the nation is in danger, as it surely is, the reserves should be at the top of their performance proficiency every day of the calendar. But the army is "economizing" at the touchy spot where the citizenry will let out a yelp—and soften up the congressmen.

Rash of mutilating coins seems to have hit the plains country in the late winter and early spring. Coins which are thus made illegal as tender continue to plague the small retailer, the hamburger man and the soft drink counter. Many of the coins "get by" without challenge. It probably does not occur to the mutilators that they are violating the law. The dime is mine, I'll punch a hole in it if I want to, may be the line of logic. When the number of mutilated coins gets high enough treasury department usually has a man around investigating. That is when faces get red and long.

William R. Sullivan, of Los Angeles, to us unknown, offers the following: "Fines have not solved traffic violations. Better results might be obtained by impounding the car for a few days. If we had to do without the use of a car for a few days we might begin to understand rights of the road." Mr. Sullivan might have something there.

Developments of recent years to us forecast the return of the private, independent school. School business, like labor, is becoming big business, and the independent-minded parent, who will not like the government-ridden type of education will attempt to do something about it. So long as state-supported public schools are operated and controlled locally the public will go along, but the tendency is toward more state authority and even more federal authority. Accordingly, the administrator and his faculty will be so busy following regulations, and will be "wound so tight" in red tape the average parent is going to get disgusted. Do gooders and militant minorities will be responsible, when and if the parents tire of the battle against regimentation and strike out for themselves.

Florida's Governor Collins read out a lesson in tolerance to the Massachusetts tract-writers last week that must have made many a face blush in that state. The governor agonized over a decision to recognize a Massachusetts demand that a Jewish couple be returned to that state on a charge of kidnapping. A child was adopted by the couple. Born of a woman of another faith it developed, when the mother later wanted the child back, that Massachusetts law opposes such a mixed adoption. The couple fled to Florida rather than give up the child. While the governor said he "felt pity and compassion" for the natural mother who now wants her child back, said he: "the great and good God of all of us, regardless of faith, grants to every child born first the right to be wanted, and secondly the right to be loved." Pointing out that both of these rights were denied the baby by its mother he said it was through the foster parents "whom God has assured the child these two rights as one of His children." Thus, a lesson in tolerance as well as a lesson in civil rights.

Federal Budget Hassle. Senator Lyndon Johnson says the federal budget will be much in the public eye—and the public prints—during the next few weeks. The Congress is responding to the cry of dismay at the tremendous budget the president has proposed. More especially has the cry gone up against the give-away WPA for all the countries, big and little, that our state department may be right about, though we and many others have expressed serious doubt. But what you ought to do and what you can afford to do are not always one and the same. There is no doubt the average worker on the plains needs a reduction from somewhere in the cost of living—and one of the worker's biggest expenses is his payroll deduction, a flat take away that he has no gimmick to evade.

LHS Graduating Exercises Held Friday Evening

District Attorney John B. Stapleton, who spent his high school days at Lockney and graduated from that school with the class of 1925, returned to his high school alma mater last Friday night to deliver the commencement address for the class of 1957.

Thirty-nine students received their diplomas from Superintendent H. H. Nicholas as the exercises of the evening neared their close. Valedictorian of the 1957 class was Floy Baxter, daughter of Mr. and Mrs. Bascom Baxter. Salutatorian was Carolyn Cunningham, daughter of Mr. and Mrs. Herman Cunningham.

List of candidates for diplomas in addition to the honor students for the year and were Marvin Christy, Bruce Darnell, David Frisell, Gene Handley, Lonell Hays, Kenneth Kendrick, Sammy Lynn, Morris Meriwether, Jerry Mickey, Roland Watson, Loyd Widener, Marvin Wells, Jerry Workman, Paul Ray Williams.

Jacqueline Boyd, Neida Cates, Ann Davis, Betty Jean Foster, Mary Katherine Ford, Rita Griffith, Frances Hale, Lulu Henderson, Peggy Hall, Lynn Jolly, Frances Lemons, Arlene Mathews, Charles Messimer, Ann McCool, Patricia Reed, Katie Rucker, Barbara Savage, Marjorie Sechrist, Barbara Taylor, Patay Vanek, Shirley Warren Griffith, Neida Widener, and Laquita Helms.

Sand Hill News

(By Mrs. James Jeffress)

(Too late for last week)

SAND HILL, May 28 — Bro. and Mrs. E. O. Adams and sons left for Alamogordo, N. M., where they will spend this week visiting relatives. Week-end visitors in the home of Mr. and Mrs. J. M. Williams were Mr. and Mrs. N. L. Cowan of Claburne, Texas, C. E. Davenport of Oklahoma City, and Eunice and Tom Conley of Mishawaka, Indiana.

Visiting in the home of Mr. and Mrs. Joe Earp Sunday were their son and wife, Mr. and Mrs. Wesley Earp and daughter of Clovis, N. M. Mr. and Mrs. W. R. Billington were in Oilton Sunday viewing the destruction of the tornado that hit there Friday afternoon. These tornadoes are getting pretty plentiful.

The Vacation Bible School of the Sand Hill Baptist Church will begin June 3 at 8:30 a. m. The school will last for ten days, from 8:30 until 11:30 each morning. Mrs. Ed Noel will act as superintendent for the school. Some of those working in the school will be Mrs. J. T. Spears, Mrs. M. B. Swanner, Mrs. J. M. Williams, Mrs. James Jeffress, Mrs. Grover Caffee, Mrs. Oene Ferguson, Pearl Baird and others from the church.

Sunday visitors in the home of Mr. and Mrs. James Jeffress were Mrs. Dolly Kelly of Lockney, Jim Jeffress of Silverton, Mrs. Sophie Love, of Pine Bluff, Ark., and Mr. and Mrs. Henry Price of Floydada.

Visiting in the home of Mr. and Mrs. Jess Starkey and family over the week-end were Mr. and Mrs. D. B. Myrick and family of Hart and Mr. and Mrs. C. W. Starkey and family of Plover.

Other fields of cotton up this week besides the C. P. Carey's are Jim Holmes and W. R. Billington's, the lucky farmers. Most of the fields are still soaked from the rains that have fallen every few days.

Mr. and Mrs. Homer Meil and family of Hale Center were visiting in the home of Mr. and Mrs. Maurice Schulz and family Sunday. The three children are spending a few days with them.

Mr. and Mrs. M. B. Swanner were in Ralls Sunday visiting their daughter, Mr. and Mrs. Kirk Slater Jr. and daughter. Mrs. Swanner said the tornado that hit Ralls Friday afternoon destroyed about twenty-

five houses. Three month Sunday School pins were presented to some twenty-nine members Sunday morning by the Superintendent, M. B. Swanner. These members hadn't missed a Sunday in Sunday School for the past 19 Sundays. They are all working for their six month pins.

BILLY CARMACK WILL COACH AT LORENZO HIGH SCHOOL

Mr. and Mrs. Billy Carmack were at home over the week-end from Abilene, guests of their parents, the C. B. Carmacks and the Travis Lightfoots.

The couple plan to spend the summer at Abilene but will return to the plains early in the fall, and Mr. Carmack will assume the duties of coach at Lorenzo High School at the beginning of the school year.

south from Floydada, one of which in the outskirts of the city, can be negotiated.

One spot on FM No. 784 to Sand Hill:

Two places on 651 to Lakeview; One place on 207 (near the Briarcoe Country place) north from Floydada; One place (at Cedar but not yet blocked) on Highway 97 toward Flomot;

One lake on the Lone Star road to Rock Creek (not blocked); One spot on 2205 (the new road north from Dougherty);

Any new rain of material proportions on Highway 70 east from Floydada will put four lakes over the road, and the same would occur on Highway 70 West at the Seale Drive - in Theatre west of Lockney.

Even road maintenance machinery, with engines high off the ground cannot negotiate the lake on the Lakeview road, three miles south of U. S. Highway 70. Mr. Webber said there is so much water there you get confused about "where the lake is."

On U. S. Highway 62 at Blanco Canyon and this side the water is doing material damage, Webber says. Worst situation is on the north side where the road dips into the canyon. A lake a quarter of a mile away on top of the hill is overflowing through the N. A. Armstrong quarter section, around a vacant house that sits on the hill east of the highway.

There is a dirt road running east and west a few yards south of this house. A culvert across this dirt road was placed to carry off the excess water from the lake through pasture land to the canyon.

The flood of water has exceeded the capacity of this culvert and the water has made a channel down the dirt road and on to the highway. Thence it has whipped down the highway and has cut a gorge 20 feet deep through the rock wall and gutter on the west side right next to the pavement.

Grady Walker said yesterday that one more rain is all that is needed to take out the paving on the north side of Blanco hill. A heavy load might not make it now, he said.

The road bed is also disintegrating in the lake at the Moss place, Webber said. He also has qualms about the condition of the roadbed under the lake at the intersection of Highway 62 and FM 64 when they finally get the water pumped off there.

The pumping crew at this spot were getting results fast when the new rains came Saturday. Now the lake is about six inches higher than it was when they first began operations.

At a good many of the places where the roads are overflowed there is just so much water you can't tell where it comes from, Webber said.

Out past McCoy and at Almon several families were marooned several hours Saturday when lakes toward town overflowed the Petersburg road and to the westward Crawfish Draw was on a rampage for several hours. The waters had receded sufficiently for residents of that section to get out west to Petersburg Monday.

The Lewis Reddys were among those who were hemmed in by high water Saturday.

In Floydada business district there was little flooding although water lapped up on the curbs in most all parts of the business district, Missouri Street and California Street both were running rivers from Second Street to Ninth for several hours during the height of the rain storm.

One Establishment -- the Curmack Seed and Feed Store -- had to evacuate quarters at U. S. Pump Company in the 300 block on East California Street, when water covered the floor three to five inches deep. The new location of the business is at Plains Equipment Company, 313 South Wall. Damage to the stock had not been estimated as late as Monday morning when salvage and moving operations were being completed.

Berry Products also reported some flooding in their store room on East Georgia, and Latta Implement Company's display floor was covered by water for a while Saturday when the flood ran over the curb and washed into the entrance.

QA&P Is Heavy Loser

One of the hardest hit local enterprises is the Quannah, name of Pacific Railway Company. During this week the railway company has had two pile driver crews restoring the bridges on Dutchman, on Pease and on the Red River. At the Dutchman Creek bridge there were 14 panels out that had to be restored. This is close to Roaring Springs.

On Pease River, 25 miles west of Quannah the report was that 10 panels of the bridge were out and being repaired. And on Red River, eight miles north of Quannah the railway bridge had 14 panels out and 25 others damaged.

The heavy rains caught five QA&P power units in Floydada, having just turned an 80-car train over to the Santa Fe. To get home these units had to take the Santa Fe to Sweetwater and back up to Chillicothe thence over the Denver to get to Quannah.

One power unit which left Floydada for Quannah with a 45-car train of freight, was caught at the Dutchman washout and had to tie up. Meanwhile a washout west of Dougherty two miles had to be repaired before the train could be returned to Floydada and re-routed over the Santa Fe.

If the weather permits, the repair jobs on the bridges was due to be finished today and normal service restored. If weather kept the crews off the jobs, however, there would be further delay, according to reports from railway officials.

Quin Baker, president of the railway company, was here Saturday and again Sunday, and Roadmaster O. C. Dettenheim also came out on the line Saturday.

One additional family was having to leave a country home the first of the week on account of high water. This was the W. R. Daniel family, who live and farm south of Blanco two miles. The water had backed into their yard and was lapping up close to their door Monday morning when the family loaded out part of their belongings and moved to the home of Mrs. Daniel's father in southwest Floydada to live temporarily. The domestic water well at the Daniel home was ruined by the high water. A spreading lake nearby was also causing inconvenience to neighbors, including the Bill Daniel family.

WEDNESDAY - SUNDAY JUNE 16

Add Sunday School Rooms As Church Continues Growth

Gilbert H. Rhine, the pastor of the Bible Baptist Church reports they have added more Sunday School rooms and plan to fix two more. He also said if the church continues to grow as it has been doing, even more space will be needed.

They have improved the church grounds by getting gravel on and around all the church grounds and the road by the front entrance.

The pastor remarked that there would be no more muddy feet. They have plans already made to completely air-condition the whole church building in the next few weeks and to also repaint the building on the outside.

The pastor also reports that if the growth of the Church continues they hope to erect a new brick building in the near future.

MRS. THACKER HOME

Mrs. Maud Thacker returned home Friday from a trip downstate and into Louisiana. At Baykadee AP Base, La., she was the guest of her daughter and family, Sgt. and Mrs. M. D. Lewis. She carried Margaret Lewis, who had been here with her grandmother for five weeks, to her home there.

Enroute home Mrs. Thacker visited a sister and her husband, Mr. and Mrs. L. M. Pertsch at Austin, and also made a stop at Abilene, where she was the guest of a sister-in-law and husband, Mr. and Mrs. Clias. Mabry and family.

Jo Mancy left Saturday for Hunt, Texas, near Kerrville, where she will be counselor at Camp Waldemar for girls during the summer months.

Dolores Owen, Herman J. Hoffman Wed In Church Ceremony Tuesday

LUBBOCK — St. John's Methodist Church was the scene Tuesday evening at 7 o'clock for the wedding of Miss Dolores June Owen and Herman Julius Hoffman. Parents are Mrs. Robbye Owen, 1917 24th Street, Roy T. Owen, Southwest Lubbock and Mrs. Frank Mayes, South Pasadena, Calif.

Rev. Cecil Matthews read the single ring ceremony as the couple stood before an altar decorated with stemmed peony trees and polished greenery, lighted by tapers rising from candelabra.

Warren Hunt, organist, played pre-ceremony selections and the traditional wedding marches using the wedding chimera.

Owen accompanied his daughter to the altar. The bride designed and made her gown and the bride attendant's ensembles. She wore a bridal satin with insets of turquoise crystaline, topped with a bolero of Chantilly lace designed with a Sabrina neckline and a back bow with hem-length satin streamers.

A corset of scallops made of lace and outlined with seed pearls, centered with ruby and rhinestones, caught her finger-tip veil of imported silk illusion. A white orchid and garnet roses formed her bridal bouquet, which she carried a top a white Bible.

Miss Alice Latta, cousin of the bride, Floydada, attended as maid-of-honor. She wore a street-length sheath dress of white crevet-cotton with a trailing shoulder sash of turquoise crystaline. White elbow-length gloves and a headpiece of turquoise crystaline bows and lace completed her attire. She carried a colonial bouquet of white peonies and garnet roses.

Bridesmaids were Misses Letitia Slemmons, Muleshoe and Margaret Blackwell, Dallas. They wore identical street-length sheath dresses of pale turquoise designed as Miss Latta's costume. They carried colonial bouquets of white peonies and garnet roses.

Candlelighters were Miss Maude Mayers and Miss Angas Mayes, twin sisters of the bridegroom, Pasadena, Calif. They wore dresses of turquoise damask cotton trimmed in crystaline, with wristlet corsages of garnet roses.

Best man was Dick Richards, Lubbock. Ushers were B. J. Williams, Lewis Sutterly and Lt. Ivan Brown, all of Lubbock.

Following the ceremony a reception was given in honor of the couple by the bride's mother in the church parlor. The bridal table was laid with a white crocheted cloth, made by the bridegroom's grandmother, over turquoise. Focal point of the table was the three-tiered wedding cake, accented by silver candelabra and attendant's bouquets.

Comprising the house party were aunts of the bride, Mesdames J. E. Neece, M. P. Funk, R. J. Christian, S. G. Appling, E. L. Norman, S. J. Latta and L. T. Archer. Mrs. Gene Miller and Mrs. Wayne Appling were at the guest register.

For a wedding trip to Grand Canyon National Park, Lake Mead and other points, Mrs. Hoffman chose a dacron suit of navy blue with navy and white accessories, highlighted by a white orchid for traveling.

Mrs. Hoffman received her B. A. Degree in advertising art and design at Texas Technological College, Monday June 3. She is affiliated with the Wesley Foundation, Alpha Eta Chapter and Wesley Players.

Hoffman received a B. S. Degree in chemical engineering at Texas Technological College, Monday evening and has been employed as technical engineer at KDU-TV for three years. He holds membership in the Wesley Foundation and Society of Chemical Engineers.

The couple will live at China Lake, Calif., where Hoffman will work as a chemical engineer at the Naval

Ordinance Test Station.

Out-of-town guests were Mrs. J. R. Neece, Los Angeles, Calif., Mr. and Mrs. M. P. Funk, Duncan, Okla., Mrs. R. J. Christian, Marlow, Okla., Mr. and Mrs. L. T. Archer, Albuquerque, N. M., Mr. and Mrs. S. J. Latta, Floydada, Mr. and Mrs. E. L. Norman, Floydada, Mr. and Mrs. Bert Affleck and daughter, Rebecca, Big Spring, Mr. and Mrs. Wayne Appling, Judy, Jean and Ann, Crosbyton Mr. and Mrs. Frank Mayes, Maude and Agnes, Pasadena, Calif., Mr. and Mrs. Herman Dickten, LaFeria, and Gains Temple, Plainview.

Practical suggestions for Father's Day gifts:

From 15-year-old Jack — A year of safe driving, with no major repair bills, either on the family sedan or his own jalopy.

From 17-year-old Susie — A self-imposed, respectable curfew that will let a fellow get some sleep and cut out the midnight imaginings about her being kidnapped, murdered, or killed in a car wreck.

From his ever-loving spouse, Mary — A well-ordered household, in which there is some peace and quiet, but also some gaiety and laughter; assurance that she is happy, that he is still the light of her life.

From his grandchildren — Dog-like devotion to him as lord and master, as the guy who can fix broken toys and answer all questions.

From his business associates — An occasional look of admiration mixed with envy, that seems to say, "Dadgum it, fellas, you've really got it!"

From his office workers — Flattery that looks like friendly respect; thinking for him without taking away from his self-esteem.

From every good-looking woman he knows — A sly, perhaps imaginary sense of flirtation, just enough to give him the feeling that he's quite a Lothario without actually provoking disloyalty to his ever-loving spouse.

Father's Day is really a Johnny-come-lately among national days of special celebration. But it has a place, there's no doubt about it. What need to be strictly a man's world more belongs to whoever claims it. For the selfish man, it's still his own. For the vast horde of American fathers, it's the family's. They are the ones who prompt us to suggest these practical gifts for Father's Day.

Mrs. Glee Thomas Married May 24

Mr. and Mrs. W. A. Shaw announce the marriage of their daughter, Mrs. Glee Thomas, to Mr. W. M. (Bill) Cornelius, son of the late M. C. Cornelius of Plainview.

The marriage ceremony was performed on May 24 at 1:30 p. m. in Roswell, N. M.

Mrs. Cornelius is employed by Southwestern Bell Telephone Company in Plainview and Mr. Cornelius has farming interests in Hale and Briscoe Counties.

Mr. and Mrs. Cornelius are at home at 297 Independence St., Plainview.

Cows have four stomachs.

MRS. DALE G. SMITH (Formerly Miss Barbara Joan Dufek)

Dufek-Smith Vows Crawford - Pratt Read At Chapel Nuptial Vows Said On WTSC Campus Monday Evening

The Joseph A. Hill Memorial Chapel on the campus of West Texas State College, Canyon, was the scene Saturday, June 1, at 1 p. m. for the wedding of Miss Barbara Joan Dufek to Dale G. Smith.

Casey L. Kay, pastor of the Lubbock Church of Christ, read the double-ring candlelight ceremony for the daughter of Mr. and Mrs. Donald Lee Dufek, 2112 Hickory, Amarillo, and the son of Mr. and Mrs. G. W. Smith, Route 5, Floydada.

The chapel altar draped in white satin, was flanked with seven branch candelabra and floor baskets of white stock and peonies.

Miss Diane Pritchard, organist, played pre-ceremony selections and the traditional wedding marches. She accompanied Eugene Campbell, soloist, as he sang "I'll Never Stop Loving You," "Always" and "Because."

Dufek accompanied his daughter to the altar. She chose for her wedding an original model of white Chantilly lace over layers of nylon tulle. The chapel length gown had a low-fitted bodice with an attached gathered skirt with overlay panels of lace. The sweetheart neckline was cut to match the contour of the lace design.

The finger-tip veil of nylon tulle was gathered on a band of lace which matched the lace of the neckline. She carried a white Bible topped with white roses and cascades of stephanotis, accented with white satin streamers tied in lovers knots.

Miss Kay Bledsoe of Amarillo, served as maid of honor. Setting the fashion for bridesmaids were Miss Freida Ann Smith, sister of the groom, Floydada, and Miss Lynda Sue Dufek, sister of the bride, Amarillo. They wore identical dresses of white lace over pale blue taffeta. The fitted bodices were attached at the hipline with circular skirts. The necklines draped with blue chiffon forming two streamers in the back, extended to the hem of the dresses.

Their hair was soft blue velvet wreaths entwined with blue roses and mixed with green fern. They carried nosegays of blue King asters accented with white lace trim.

Miss Dona Gail Dufek, sister of the bride, Amarillo, served as flower girl. She wore a floor-length dress of lace over pale blue taffeta and carried rose petals in a basket of blue and white.

Best man was Johnny Dale Lloyd, uncle of the groom, Floydada. Ushers and candlelighters were Bobby Green, Plains, and Len McKay, Canyon.

Mrs. Dufek chose for her daughters wedding a pink dress with white accessories and a corsage of white carnations.

Mrs. Smith chose for the wedding a rose linen dress with white accessories and a corsage of white carnations.

Following the ceremony a reception was held at the Church of Christ Bible Chair on the campus of West Texas State College.

When the newlyweds departed for a wedding trip to Rosados, N. M., the new Mrs. Smith wore a white dress designed with a boat neckline and gathered skirt. The bodice featured soft pleats down the front and a sash of draped blue chiffon accented the waistline. Her accessories were of matching blue and she wore a white rose corsage from her bridal bouquet.

The bride was graduated from Palo Duro High School of Amarillo and she attended West Texas State College, Canyon. The bridegroom, graduate of Floydada High School, attended West Texas State College, Canyon.

The couple will be at home June 15, at Route 5, Floydada.

Miss Beth Crawford, daughter of Mr. and Mrs. Russell Crawford of the Dougherty Community, and A. C. Pratt, son of Mr. and Mrs. H. F. Pratt of the Campbell Community, were united in marriage Monday evening on the Wedding Anniversary of the groom's parents, at 8 o'clock at the Dougherty Baptist Church.

The bride's grandfather, the Rev. F. M. Wiley, pastor of the First Baptist Church, Forrest, N. M., read the double-ring ceremony before a Gothic arch topped by seven tapers flanked on each side with baskets of gladioli and palms.

Mrs. Stanley Berge, aunt of the bride, Plainview, played pre-ceremony selections and the traditional wedding marches. She accompanied Mrs. Myron Kattner as she sang "Whither Thou Goest" and Milton Wiley, uncle of the bride of Corpus Christi as he sang "Because" and "The Lord's Prayer."

Crawford accompanied his daughter to the altar. She chose for her wedding an original model of white imported Chantilly-type lace and nylon tulle over satin. The fitted bodice, designed with a Mandarin collar accented with lace appliques embroidered with iridescent sequins, has a sheer yoke outlined with scalloped embroidery, long sleeves ending in points over the hands and terminates with point at center front waistline.

From this stems a voluminous skirt. Made of tulle, fully shirred, it joins a lace yoke that extends into full length panels at center front and back. The immense fullness of lace, tulle and satin is emphasized by hoops and crinoline worn underneath.

Her veil of silk illusion was joined to a coronet of pearls. The bride carried a cascade bouquet of pink roses and garlands of feathered white carnations showered with white ribbon tied in love knots. The bouquet was placed atop a white Bible.

Miss Bonnie Upton of South Plains served as maid-of-honor. Bridesmaids were Miss Cheryl Crawford, cousin of the bride, and Miss Sue Ring. They wore identical dresses of pink and rose brocaded satin accented by pink tulle overskirts.

They carried colonial bouquets of white carnations nestled in pink net and white ribbon.

Candies were lighted by Miss Janice Smith and Miss Juanice Pascal, cousin of the bridegroom of Raile. They wore identical dresses to the other attendants and wristlets of white carnations nestled in pink net.

Miss Jacqueline Crawford, cousin of the bride, was flower girl. Don Probasco of South Plains served as best man. Ushers were Jerry and David Crawford, brothers of the bride, Lawrence Burke and Elton Brian of Tahoka.

Following the ceremony a reception was given in honor of the couple at the church by the bride's parents. The bridal table was laid with a lace cloth over pink and centered with the attendants bouquets. Crystal candelabra bearing pink tapers on round mirrors trimmed with pink tulle ruffle completed the table decor. Mrs. Eva Nell Jones, sister of the bridegroom, served the three tiered wedding cake.

Others assisting in hospitalities were Misses Virginia Taylor of South Plains, Juanice Pascal of Raile and Barbara and Myrna Marshall of Lubbock, cousins of the bride.

For a wedding trip, Mrs. Pratt chose a white linen suit trimmed in pink with matching accessories for traveling.

Mrs. Pratt is a graduate of Floydada High School with the class of '31. She will be employed as secretary at Andrews Ward and Floydada Junior High School in September.

Pratt, a graduate of Floydada High School with the class of '33, has served in the armed forces and will be engaged in farming east of Floydada, where the couple will make their home.

WE want to extend our thanks and appreciation for all the kind words and deeds to everyone who helped in the loss of our brother, May God bless each of you.

The Randolph Family

It took Washington and the members of the Constitutional Convention 56 days to frame the Constitution.

James F. Pollan Wed at Plainview May Eighteenth

PLAINVIEW. — Ricka Hazel Hodges Plainview, and James Farrington Pollan, Floydada were married Saturday, May 18, the Rev. Howard Lyons reading the double ring ceremony at his home, at 10 o'clock in the morning.

Mrs. Pollan is the daughter of Mrs. Johnnie Lee Chaney, 1025 Austin St., and the bridegroom is the son of Mr. and Mrs. Boots Pollan, Floydada.

The bride's sister-in-law, Mrs. Horace Chaney attended her as matron of honor, and Jimmy Deryberry was best man.

Others attending the ceremony were the bridegroom's mother, and Mrs. Deryberry and Mrs. Shirley Bailey, the bride's sister.

For her wedding, the bride wore a blue linen dress with matching duster, white accessories, and her corsage was of white carnations.

The couple is now at home at 606 South Broadway. Mr. Pollan does carpentry work in the Plainview area.

Thomas Jefferson started the Democratic party in 1793 when he resigned from Washington's cabinet and formed his own political party.

Danny Solomon Is Married Thursday

The Tulla Methodist Church was the scene Thursday evening, May 30, for the marriage of Miss Joy Causeaux of Abilene and Danny Solomon, son of Mr. and Mrs. Henry Solomon of Tulla.

The bride wore an ivory satin and lace gown fashioned along princess lines. The empire bodice featured long tapered sleeves and a lace yoke outlined with scalloped satin clustered with seed pearls. She carried a cascade bouquet of stephanotis and white gardenias atop a white Bible. She was given in marriage by M. C. Wheeler.

Miss Charlotte Wheeler attended as maid of honor and Miss Virginia Davis of Panhandle and Miss Joann Stanland were bridesmaids.

For a wedding trip to Mexico City, the bride chose a two-piece costume in light blue with white accessories and a gardenia corsage.

The couple will be at home in Abilene where Mrs. Solomon is to teach school and her husband is a ministerial student at McMurry College. She was graduated from Abilene High School and McMurry College and he is a graduate of Tulla High School.

Floydada dates attending the ceremony were Mrs. M. L. Solomon and son, Jerry, Mrs. W. H. Henderson and N. W. Williams.

MRS. W. E. ODEN DUE HOME FROM HOSPITAL SHORTLY

Mrs. W. E. Oden, 420 West Kentucky Street, who underwent major surgery at Lockney General Hospital on May 29, is recovering satisfactorily this week-end.

Her condition is good now and she is expecting to return home in the next few days, Mrs. James Lee Nichols, a daughter, said yesterday.

Thirteen pieces in a "baker's dozen" originated when King Louis of France warned all bakers who gave under measure that they would be beheaded.

Mr. and Mrs. Donald, their grand Florida, Monday evening at 7 o'clock for the wedding of Miss Dolores June Owen and Herman Julius Hoffman.

RAY Cook returned from Galveston, Texas with Mrs. Cook at 10:30 p. m. Wednesday morning. She may be able to return in 10 days or two weeks.

SAVORY RICE-STUFFED STEAK

Rice stuffing is deliciously flavorful and economical made this way. A little sausage is combined with the rice to keep the stuffing moist. Try it rolled up in a juicy round steak, and be sure to keep this recipe in your file box. By popular request, you'll be making it again and again. (Take a hint and cook a double supply of rice. It is handy for last-minute dishes because it keeps so well and combines with practically all other foods. A good trick in reheating rice to its original fluffiness is to add a few tablespoons of water, cover, and place over low heat.)

A menu suggestion with Savory Rice-Stuffed Steak is whole carrots, molded cherry salad, cloverleaf rolls and spice cake.

1/4 cup flour
2 teaspoons salt
1/2 teaspoon pepper

1 1/2-2 pounds round steak
1/2 pound bulk sausage
1/2 cup minced onions
2 cups cooked rice
1/2 cup shortening

Mix together flour, salt and pepper. Remove bone from meat. Rub both sides of meat with the seasoned flour; pound thoroughly. Repeat until flour is all used up.

Mix together sausage, onions and rice. Spread over meat to within one inch of edges. Roll up meat lengthwise. Fasten with toothpicks or string.

Brown meat in shortening. Cover tightly and cook slowly 1 1/2 to 2 hours or until meat is very tender. Place meat with open edge down on platter; remove toothpicks or string. Slice to serve. If desired, make a gravy from meat drippings.

Yields six servings.

Vacation Bible Schools Making Good Progress

"Wider Relationships" is the overall theme for the Vacation Bible School at the First Methodist Church which started Monday morning of this week and will continue through Friday, June 14.

Bad weather has hindered attendance and work of the various bible schools in progress for the youngsters of the churches.

An attendance of 188 has been recorded for the three day period with a total of 21 workers conducting the series at the Methodist Church.

Mrs. Greer Christian is general superintendent for the school and department leaders are: Kindergarten, Mrs. Ruth Wheeler, Mrs. Garner Weems, Mrs. Milton Weems, Mrs. Lyndal Roberts, Mrs. Dede Walding, Misses Mary Wood, Dana Walding, Sharon Edmiston, Barbara Smith.

Primary, Mrs. A. L. Wylie Jr., Mrs. Howard Gregory, Mrs. Nell Bertrand, Mrs. W. W. Trapp, Mrs. Otter Grote, Mrs. Jack Jordan, Mrs. M. J. McNeill, Miss Ann Word; Junior, Mrs. V. L. Davis, Mrs. John Kimble, Mrs. Nita Thayer, Mrs. J. P. Moss, Miss Margie Parks, Miss Margaret Moss.

Mrs. Guy Ginn is chairman of the refreshments. On Friday, June 14, an open house program will be given from 7 until 9 p. m. for the parents to view the work that their children have done in Vacation Bible School.

Vacation Bible School at the First Baptist Church of this city opened Monday morning at 9 o'clock and will continue through Wednesday, June 12.

There are 12 departments with an attendance of 215 on Wednesday morning, 205 on Tuesday morning and 190 on Monday morning. Commencement services will be Wednesday evening at 8 p. m. in the church auditorium. A display of hand work will be shown to the parents at this service.

A mission offering is being taken each morning and will be sent to the church missionaries, Rev. and Mrs. Lonnie Doyle, to help promote their work in Brazil.

AIR FORCE FLYER AND WIFE HAVE SON BORN MONDAY

Paul L. and Mrs. Arthur Pyke Jr. are the proud parents of a son born Monday morning at 7 o'clock in Lockney General Hospital. The boy weighed seven pounds and six ounces. He has been named James Arthur Pyke III.

Maternal grandparents are Mr. and Mrs. Woodrow Wilson of this city and paternal grandparents are Mr. and Mrs. James Arthur Pyke Sr. of New York state. Maternal great-grandmother is Mrs. W. D. Wilson of this city.

Mrs. Pyke arrived in Floydada around the middle of March to visit with her parents while Lt. Pyke was in Newfoundland for three months with the United States Air Force. He arrived in Floydada several days ago, on leave from Bangor, Me., where he is stationed.

The mother and son are reported to be doing just fine.

PEOPLES HOSPITAL NEWS

Patients in Peoples Hospital reported in good condition are J. R. Vickers, Mrs. E. A. Hopkins, Miss Judy Bullock, V. C. Hagood, N. A. Armstrong, T. M. Noland, Mrs. Arabella Anaya, Mrs. W. T. Brannon, Mrs. Aaron Mata and baby twin girls Mala. Mrs. J. W. Freeman is reported in fair condition.

Mr. and Mrs. Douglas Pitts and daughter, Kathryn Ann and Jean-ine, of Waco, arrived in Floydada last Saturday for a weeks visit with Mr. Pitts' parents, Dr. and Mrs. Donald H. Pitts.

News of Broadway

(By Mrs. T. E. Thornhill)

BROADWAY, June 3 — It looks like congratulations are in order since we saw the Rev. and Mrs. Audie Wiley and boys riding around in a new Ford car. We are very happy for them.

Due to the bad weather we missed the church services Sunday. We realize each time we are absent we miss a blessing.

Mr. and Mrs. D. D. Thornhill visited with Mr. and Mrs. M. R. Owens and boys late Sunday afternoon.

Due to the sick roads and the telephone being out we are kinda scarce on news. About all we have is close at home news.

Friday night the gang enjoyed a picnic supper at the Silver Falls Park. Attending were Mr. and Mrs. A. L. Winegar, Robert, and Georgia Ann of the Cone Community, Mr. and Mrs. D. D. Thornhill, Mr. and Mrs. Ben Beckham, Mrs. Colene Thompson, Monica and Rodney and Mr. and Mrs. T. E. Thornhill and Tony.

It seems everyone is quite busy over at the Willard Richardson, doing some painting and installing storm windows.

All our life we have heard one extreme always follows another, so now it looks like it is extremely wet, tho the farmers are anxious to get to planting we have not heard one around here grumble about the rain. They say it is much better to be too wet than too dry. Of course after about June 20 they might begin to have long faces.

Bible School plans were to go ahead with the school at the church this morning. Attendance may be slight due to road conditions.

Marshall Berry was to go with the McAdoo Boy Scouts to Treva River, N. M., Sunday if the weather permitted.

Miss Mary Ann Starrett and Curtis Leatherwood were among those attending the parade and Old Settlers at Floydada Tuesday of last week.

Mrs. D. D. Thornhill and Mrs. M. R. Owens had quite a time last week trying to visit each other. On Tuesday evening Mrs. Owens came over to visit Mrs. Thornhill only to find she was not at home. Then on Wednesday evening Mrs. Thornhill drove over to visit Mrs. Owens only to find she was not at home, so I guess they are even.

Jack Homer Miller of Croton was Tuesday overnight visitor in the home of Mr. and Mrs. T. E. Thornhill and Thelma.

Mr. and Mrs. Ben Beckham and Mrs. Cozzie Thompson and children had as their Wednesday night and Thursday morning visitors Mr. and Mrs. Jerry Adams of Mansboro. The Adams were enroute to Abilene to spend the week-end with relatives.

Congratulations to Linda Nell Seavert and Billy Hicks who were married in the Methodist Church in Crockett Sunday evening. The starlets are former members of our community. We wish for this young couple many years of happy married life.

Mr. and Mrs. M. R. Owens, Teddy, Phyllis and Mickey were Friday afternoon callers in the D. D. Thornhill home.

T. E. Thornhill and Tommy just knew they were really going to get the planting done in a hurry Thursday as they had gone over to Floydada and brought one of R. M. Spence's tractors over, but for some reason the weather interrupted their plans with another rain, this time on Thursday night through Sunday, somewhere around three inches.

Mr. and Mrs. Calvin Beckham and Barbara Kay of Lubbock were Sunday visitors with Mr. and Mrs. Ben Beckham, Mrs. Colene Thompson, Monica and Rodney went home with the Calvin Beckhams for a few days visit.

Since the road has washed out down at the old bridge I guess we shall be seeing some of our neighbors from Bee-O-Way passing by.

Friday visitors with the J. M. Bennetta were Mr. and Mrs. D. D. Thornhill.

EGG LAW AUTHORS WITH GOVERNOR — Representative Walter C. Schwartz, Brenham, left; and Senator A. J. (Andy) Rogers, Childress, look on as Governor Price Daniel signs the Texas Egg Law which the two Legislators authored during the 55th Session just ended. The Egg Law establishes standards of size and quality of eggs and provides for grading and labeling. Producers selling from their own flocks and not claiming a grade are exempt from the regulations of the law.

County Has Six To Attend 4-H State Round-Up

College Station. — It's roundup time in Texas, the 4-H kind that is. On June 11-13 4-H club members from all sections of the state will be on the Texas A&M College campus for their annual meeting.

The big day will be the 12th when state winners will be determined in 21 different judging and team demonstration contests.

Floyd Lynch, state 4-H leader, says that each county may send two boy and girl delegates and one adult man and woman will act as chaperons. In addition, members of district winning teams who will participate in the state finals may attend. Total attendance, according to Lynch, should approximate 2,000.

Registration is scheduled from 1 to 6 p. m. on June 11 with the first general assembly set for 8 p. m. Extension Director G. G. Gibson will be the keynote speaker. The State-The-Fun Festival will be presented as a part of the opening night program.

On Wednesday, delegates and their leaders will participate in a general assembly and later in discussion group developing ideas for use in launching the People to People program among the 4-H clubs of the state. All judging and team demonstration team members will be voting for state honors and the right in several instances to represent Texas in national contests.

The Chuckwagon Barbecue, sponsored by the Texas 4-H Recognition Committee, will follow the completion of all contests. The final program will be held in the G. Rollie White Coliseum following the barbecue and will feature Chancellor M. T. Harrington of the A&M College System, entertainment provided by the Sears-Roback Foundation and the Heart II by 4-H club members.

Billy Don Colston, member of the Floydada Senior 4-H club and Warren Mitchell, member of the Lockney Senior 4-H club, will compete in the state Safety demonstration contest at the annual meeting, scheduled for June 11-12. Floyd County delegates are John Marlin, Freda Smith, Red Dean Hines and Kenneth O'Neal. This group will be accompanied by Mrs. Loyd Deavenport and Lynn P. Poffard, assistant county agent.

COURT HOUSE

Marriage Record
Paul Monroe Nitties and Joyce Cobb Pitt, May 27;
Johnnie G. Hagan and Nuvvada Beckley, May 27;
Robert Daise Clark and Joan Harris, May 27;
A. C. Pratt and Minnie Elizabeth Crawford, May 27;
James Carl Kinzard and Meta Marie Ragle, May 27;
Walter Don Holliman and Helen Jane Taylor, June 1.

JUNIOR CLASS OF F.B.S. PLANS ICE CREAM SUPPER

The Junior Class of Floydada Senior High School will sponsor an ice-cream supper, Friday, June 7, between the hours of 5 and 6 p. m. at the high school cafeteria.

Admission is 25c for students and 50c for adults. Everyone is invited to come. All the cake, ice cream and lemonade you want will be served by the members of this class.

SECOND SUNDAY SINGING

The Second Sunday Singers will meet Sunday, June 9, at the Lutheran church. Two o'clock is the time of the gathering and all singers and lovers of Gospel music are invited to attend.

Earl Rainer says the late song books will be on hand to be used for the song fest.

Lt. and Mrs. John I. Hammonds and children, of Bryan Air Force Base, have been here for 10 days, guests in the home of Lt. Hammonds' mother, Mrs. Hope Hammonds. The family will return to Bryan this week-end with Mrs. Hammonds accompanying them.

Mrs. A. C. Collins returned from Los Angeles, California, Monday after spending two weeks in travel with her children, Mrs. Holligan and Mr. and Mrs. Curtis Collins, and her mother, Mrs. E. Berry.

Mrs. R. F. Hall and Mrs. D. E. Wesley visited in Station and Lubbock last Friday.

Mrs. Ray Smith of San Angelo is visiting her daughter, Mrs. D. E. Worley.

Floydada ROTC Cadet At WTSC Commissioned

Charles Terrell Julian, son of Mr. and Mrs. Murray M. Julian of South Plains, was one of three Distinguished Military Students at West Texas State College, Canyon, to receive a second lieutenant's commission in the regular army.

The commission were bestowed in a special military ceremony held in the Blue Room of the Student Center on West Texas State campus on May 26 at 2:30 p. m.

Colonel Edward Lindsey, of the Regular Army, officiated at the commissioning. Eleven other cadets received commissions in the Army reserve.

Young Julian graduated from Floydada High School with the class of 1953 and received a bachelor of science degree at West Texas State with the graduating class of 1957, on Sunday evening, May 26.

Julian is the first ROTC graduate from WTSC to be accepted in the transportation corps and is currently stationed at Fort Knox, Ky.

Weather Slows Tree Delivery

Floyd County farmers who have been expecting to receive their cypress trees for windbreak and other plantings at Plainsview on Monday of next week are being advised that adverse weather has kept the nursery people out of the fields and delivery cannot be made at this time.

Oilbert L. Fawver, chairman of the Board of Supervisors of Floyd County Soil Conservation District, says the new date will be about four weeks away.

The nursery has promised to give an exact date the trees can be delivered later.

Judge Decrees Probation For P. L. (Fay) Hart

In a quietly dramatic session of the 126th District Court for Floyd County yesterday morning, P. L. (Fay) Hart, resigned commissioner of Precinct No. 4 was given a two-year probation sentence by Judge L. D. Radloff.

The defendant waived trial by jury and the case was heard before the judge.

Charged with theft by false pretense, the popular commissioner for eight years, pled guilty to the charge and within two hours after the trial began walked out of the court room, a lonely man. By the terms of his probation he is answerable to the Sheriff of Floyd County.

Mr. Hart resigned his post in March, and the indictment followed in April.

The judge said from the bench there were convincing circumstances and there was doubt in his mind if Mr. Hart had criminal intentions. Several friends had volunteered to testify as character witnesses.

WHEN ARMY TRUCK FAILS, IT'S MUSIC IN GERMAN AIR SCHWEINEBURT, GERMANY — If the people of the German town of Trumstadt are heard humming old-fashioned tunes these days, the simple explanation can be given by any member of the 86th Infantry Regiment's band.

Fourteen members of the band gave an impromptu concert for the Trumstadters recently when the truck in which they were riding broke down in the town.

The local populace immediately surrounded the truck and the band's musicians waited on time in waiting the chance to entertain the Germans.

Mrs. Clinton Keys and son, D'von, of Colorado Springs, Colo., spent last weekend in the home of her parents Mr. and Mrs. Andy Owens, Mrs. Keys is the former Jean Owens.

Heart Movie At Lakeview Friday Night

(A Contributed Story)

The Human Heart is the most wonderful pump in the world. It keeps the blood moving through our bodies continuously during life. It is no larger than a man's fist, yet it pumps more than 4 quarts of blood to the body a minute. It beats from two to three billion times in an average life. It is automatic, and can repair itself.

This is an invitation to all the farmers in and about Lakeview to bring their families to the movie on Heart Disease at 8:00 Friday night to learn more about this marvelous piece of machinery.

If it were a meeting on rain making or how to stop the rains which have been more than abundant, all the men in our community would be there.

We find this piece of standard equipment so fascinating, and several people in your community are going to a lot of trouble to bring this informative feature to your attention that we hope Lakeview Community will pay those people for their efforts by having the school house filled to overflowing.

Lakeview women are well known for their abilities that have always brought the finest dishes to any gathering that required good food, and this is to be no exception. All the ladies are bringing the best home made cookies you'd find anywhere.

Everyone come to the movie Friday night and bring some one with you.

This movie will definitely be shown Friday night unless the weather is bad, or it rains again and the roads are impassable.

LORD MAYOR'S U. S. VISIT RENEWS ARMY FRIENDSHIP

Friendships that began in Germany were renewed here recently during the visit of Paul Meyle, lord mayor of Hildesheim, Germany.

For more than two years before it came to Carson last fall, the 6th Infantry Regiment was stationed just outside Hildesheim. Unit members prepared a special program to honor Meyle, who is visiting several American cities to observe this country's approach to such problems as housing, water supply and traffic.

In addition to seeing his old Army friends, the lord mayor greeted nearly 500 former citizens of Hildesheim who now live at Fort Carson and in nearby Colorado Springs.

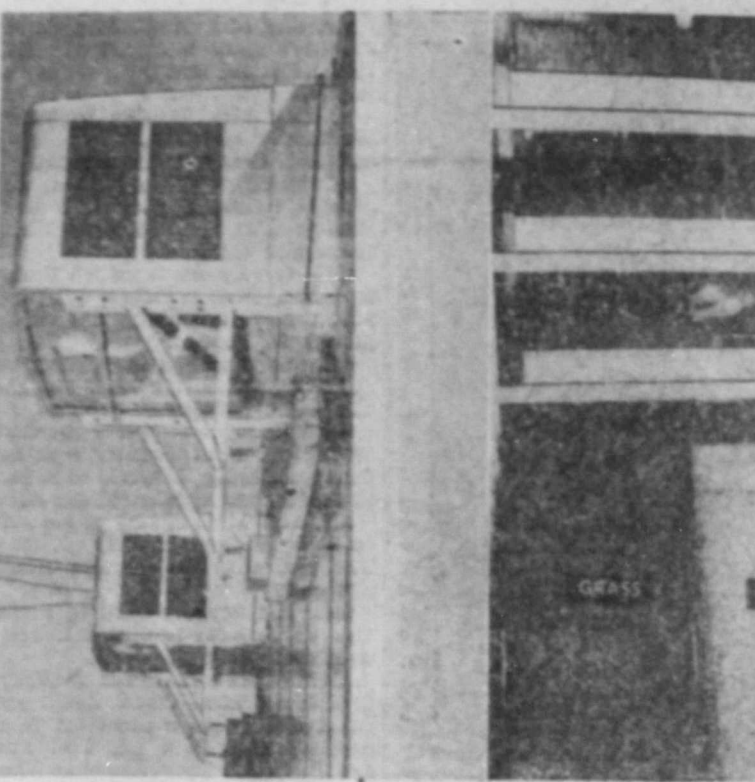

80 ACRES IN YOUR GARAGE

ELECTRICITY BRINGS THE PASTURE TO THE COW

Fantastic, No! Latest innovation of the application of electric power actually brings the pasture to the cow, and dairymen in many sections of Texas are using the machine for supplemental feeding. The magic equipment is a cereal grain "incubator" which grows grass 6 to 8 inches in six days.

Secret of the installation, called a Herbage machine, is in the use of electric heat pumps for accurate temperature control and a practical application of hydroponics. Hydroponics is the cultivation of plants by placing the roots in liquid nutrient rather than in soil.

The cereal grains are pre-soaked, allowed to drain, then put in trays and racked like a file cabinet. With proper control of heat, humidity, light, and chemically

Moist and circulation is controlled by units attached to sides of incubator building. These units have whirled the mold problem which plagued the earlier models of the machine.

Mr. A. O. Blankenship, Blankenship Co., Amarillo, inspects a crop of five days old grass. Lower left, two batches show grass root development after 6 days of growth.

Happy is the bride who receives Time Gifts. These are the "NEW HEIRLOOM" MATERIAL LASTS THE BRIDE'S LIFETIME. WE HAVE AN ASSORTMENT OF WONDERFUL PRESENTS... SEE OUR SELECTION OF KITCHEN WARE TOASTERS PERCOLATORS ELECTRIC SKILLETS DEEP FRYERS RADIO ELECTRIC CO. Ph. YU 3-2324

Steel Now Has Big Gift Role For The Bride

In choosing a gift for a bride, the Golden Rule is — as usual — a good rule of thumb. Just put yourself in her white satin shoes and think what you'd like to have — something practical, of course... a gift that would get constant use. You wouldn't want one of those hopeless presents that clutter an attic until it's dusted off and put on display when the donor is expected to visit. Take the kitchen, the center of home life. Just about everything these days that goes into a kitchen — except the bride, of course — is made of enduring steel. All appliances — large and small — are made to last. Pots and pans, knives, gadgets and utensils, garbage cans, canisters, ice crushers — the list goes on and on. Personal Gifts, Too. For other parts of the house, you will always find practical gift ideas. An electric bed cover to keep her warm and an electric fan to keep her cool are bedroom equipment. There are items to keep her beautiful and feeling fit as a bride for years to come: hair dryer, electric shaver, manicuring set. Don't forget the personal gifts

SHOWER GIFT PUT TO USE right away by the new bride. No coffee-making problem here — not even for the girl who's never boiled water. An automatic coffee maker is one of the most needed and treasured gifts a bride can receive.

such as a sports watch, luggage or umbrella (if she didn't get one at the shower). A clock is a timely gift. It will help her help him get to work on time. A clock-radio gives years of pleasure. One of the most pressing items is a steam or dry iron. And don't forget the ironing board. Perhaps she likes to garden. Tools are a sharp idea. Brides like to start out being tidy. What could be more helpful than matched closet accessories: shoe, tie, bag and belt racks; multiple skirt, blouse and trouser hangers, hat stands and garment bags. An inviting closet is good for husband training too. He wouldn't be caught throwing his clothes around with lovely surroundings to hang them in. A gift that won't last very long, steel though it is, will be so deeply appreciated she'll forgive it its short, merry life. It's a gift box of canned delicacies such as smoked clams, cocktail meat balls, date nut bread, boned chicken and other yummys. These are wonderful for the bride and groom as a party of two or when they're entertaining.

For Bride's Desk Since marriage has its business side, why not outfit the bride's desk with stapler, paper clips, letter opener and scissors, hole puncher, pencil sharpener and file boxes for recipes and bills? You'll be smoothing the way for the rough budgeting sessions ahead. Decorative gifts include trays, bowls, pitchers, vases, ashtrays, cigarette boxes and lighters, book-ends, wall brackets. And don't forget stainless steel flatware, the pride of the bride's dinner table. For the bride who likes to entertain, why not folding snack tables, bridge chairs and table, ice bucket, cocktail shaker, or chafing dish? And for outdoor entertaining lawn furniture or backyard barbecue grills can't be beat.

DAUGHTER BORN WEDNESDAY TO YOUNG FLOYDADA COUPLE Mr. and Mrs. Sherman Irwin are the parents of a daughter born Wednesday, May 29, at 11:55 a. m. in West Texas Hospital, Lubbock. The young lady weighed six pounds and thirteen and one-half ounces. She has been named Kimberlee Dawn. Maternal grandparents are Mr. and Mrs. V. D. Turner, Matador Highway, and paternal grandparents are the late Mr. and Mrs. F. C. Irwin. Mr. and Mrs. Tom F. Nelson and Mr. and Mrs. Gene Nelson and son reached home Saturday from Dallas and Oklahoma City, where they spent a week in the homes of relatives and friends. Mrs. H. R. Cage is leaving today with her daughter Ella Mae for Mayo Brothers Clinic in Rochester, Minn., where the daughter is to undergo examination. Plans for their return home are indefinite, Mrs. Cage said. Police Chief and Mrs. H. R. Cage had their married sons and their families with them Sunday for a visit. They are Dan and his wife of Lubbock, and David and his wife and two children, of Fadsuch.

Floyd County 14 Years Ago

(Taken from the files of the Hesperian, issue dated June 10, 1923.) Quite considerable re-planting is being or is to be done in Floyd County again this week, as the area from one end to the other suffered along with neighboring counties from rain, hail and wind storm damage Friday and Sunday afternoons of last week. So heavy was the rainfall in some sections that the ground will not be dry enough to work before the weekend. Lieut. and Mrs. John Stapleton are here this week for a brief rest and visit with the parents of Mrs. Stapleton here, Mr. and Mrs. Roy Patton, and Lt. Stapleton's mother, Mrs. G. J. Stapleton of Lockney. Born to Mr. and Mrs. Harold Berry, a son that has been named Char-

les Lewis. He weighed six pounds and six ounces. The little son is a grandson of Mr. and Mrs. C. L. Berry.

The Ministerial Alliance of Floydada, composed of several of the pastors of the community, will conduct religious services each Saturday afternoon for the general public on the court house lawn. It was announced this week.

As small grains rapidly ripen and producers and handlers make feverish preparation to harvest and market the crop, it appears probable the storage situation in terminal elevators may be better than at the opening of last year's harvest, but that the railroad car situation may not be so good.

Mr. and Mrs. Audie Noland are the parents of a daughter born June 3 at the Pitts Hospital. She has been named Janice Audine. She is the granddaughter of Mrs. Mary Lee Dillard of Lubbock and T. M. Noland of this city.

NORTH WARD TEACHERS LEAVE FOR PRAIRIE VIEW NORMAL

Lifetime Gifts

Give her gifts of steel

When a special friend or relative is taking that important step from Miss to Mrs., show her your delight: Give her gifts of steel. For steel gifts are stylish gifts that last a lifetime. When you buy them for a shower or wedding, you're giving the bride much more than just an expression of your affection. You're giving gifts that will endure as long as she needs them. Showering the bride with gifts of steel means choosing from countless items made to give stylish service — from coffee makers to canisters, folding chairs to flatware, trays to toasters, clocks to cutlery. No matter what you choose to give, she'll appreciate your good taste and thoughtfulness. And any bride would glow with pleasure to see the lustrous quality shining through every gift of steel. And she can be assured these good-looking items will go to work in a thousand ways to prove their lasting value. For only steel can do so many jobs so well. So when you shower the bride, make it a Steel Shower. And when you shop for the bridal gifts, make an investment that is fashionable and practical. Look for the store displaying the Steel Shower symbol — and get the gifts that will last a lifetime.

UNITED STATES STEEL Pittsburgh 30, Pa.

\$24.97

may not be a pot full

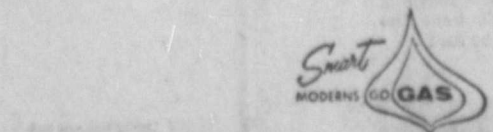

...but that's how much you can save a year using economical GAS for Clothes Drying!

If you're a lucky one who already has a pot full (money, of course), might as well skip to the next ad. But if you feel that \$24.97 is a sum to reckon with, heed these words of wisdom: "Go first class with GAS and save the difference!" That's right. With gas, the average cost per year to a family of four is only \$2.64 — 9 times less than it costs to dry the same family's clothes with any other fuel. And without any fancy figuring or digit dodging about it, these figures mean that you can actually have a new dryer every 10 years free with the savings you make using economical gas for clothes drying. Add to this the fact that gas dries clothes faster, safer, and more dependably... and it makes good sense to go GAS like so many Smart Moderns are doing.

Meet the new Hamilton gas clothes dryer Model 395G, with automatic ignition.

Wedding Plans of Bettie Johnson Told at Coffee

LOCKNEY -- Announcement of the forthcoming wedding of Miss Betty Johnson, daughter of Mr. and Mrs. Ike Johnson, and Orisad Gilbert, son of Mr. and Mrs. Marvin Gilbert, was made Saturday morning, June 1, at a coffee, given by the bride-elect's mother in her home.

Focal point of the table, covered with grass linen cloth, were figurines of a bride and groom standing in the doorway of a church with the wedding date, July 27, inscribed on the white church steps. Small pink rosebuds brightened the setting flanked by ribbons bearing the couple's names. Coffee was served from a silver service.

Miniature wedding bands and mock orange blossoms were attached to a scroll, revealing the wedding date and announcement, with pink ribbon.

The bride-elect, a graduate of Lockney High School, is a senior at Hendrick Memorial Hospital School

SPRING TIME

— Mike Smith

The trees are growing,
The machines are sowing,
The farmers are planting,
The children are playing,
Some children are fishing,
Others are wishing,
Do you hear the rain?
The time has come for Spring.

Third Grade, Original Poems, Ball School, 1956, 37 Betty Mae Wells, Teacher, and were compliments to Mrs. Spikes. I am sharing them with you as I think they are pretty good. I will from time to time take them as they come in the neatly written book and I am sure you will get fun and pleasure from them.

As A Farm Woman Thinks

(Nellie Witt Spikes)

THE REAL EASTER
— by Adella Esquibel
The Real Easter is not Easter eggs or bunnies,
Easter isn't even funny,
Because Christ arose on Easter Day,
That's what we all say.

THE PUMPKIN
The pumpkin is yellow,
He is a cheerful fellow,
And by and by,
He'll be baked into a pie.
— by Adella Esquibel

THINKING AND THINKING

— Ridney Ellis

I am sitting up a-thinking
When I should be in bed,
I have thought until I am sick in the head.
I guess this is one poem I will have to skip,
For daddy says if I don't go to bed
He will get a belt and whip.

MY LITTLE SISTER
Wilma Hill age 9
Frances Shirlee, my little sister
Believe me she is a twister,
Today she will be five,
Believe me she is alive.

Mr. Spikes and I had such a lovely day at Floydada last Tuesday at the Old Settler's Reunion. It was good to see old friends and to make new ones. Mr. and Mrs. L. W. Francis of near Silverton told me they would like to come to our Reunion in August. Mr. Francis said he saw the tornado that wrecked Silverton some half mile from his place.

"I had dipped and branded my cattle that morning," he said, "they had got as far away as they could, saving their lives. One calf was blown a piece and killed and then twisted up in barb wire. I lost a good fence but it missed my place and my son's house, went on to Silverton and blew away another son's home."

On and on we heard of the tornadoes. "My son weighs two hundred and fifty pounds," one woman told us. "He put his whole weight on the chain to the cellar door. It almost lifted him out of the cellar."

But not much time was lost by talking of the present troubles, we were too busy rounding up the past. It was nice to meet Mrs. Floyd Evening of Amarillo and her sister, Mrs. Cora Bybee of Plainview. Wish I had had more time to visit with these very sweet ladies.

Everyone enjoyed the windows in the Town filled with the antiques. D. W. Pyffe had so many interesting things to exhibit. A Spanish Grant to land in South Texas... a hand embroidered shawl hand made fringe on the edges, a Bible and a dime from England... doctor books from women doctors in his mother's family... old letters without stamps with the word "Forty Cents paid" on them... An old Christian Advocate, very large and the

paper in excellent condition.

Mr. Pyffe told of his people living in Greenville, Texas, some of them crossing the Plains a "way back". I have forgotten the year. He had sold nuggets as an ancestor made the gold rush to California in 1849. I want to see these old things again and read a bit from the old Bible, the doctor books and the Spanish Grant from the King of Spain.

All the displays were fine. Wish I had space to tell of them.

Would like to go this morning to the island-valley of Avilion with the poet who sang so sweetly.

Where falls not hail, or rain, or any snow,
Nor ever wind blows loudly...

The hail fell with such a force and noise that we felt almost paralyzed. It drowned the bleating of the poor sheep at Mr. Boward's. We did not hear the plaintive cries as the hail tore at the backs of the newly-shorn sheep. We could not see that seven of them lay down to get up no more to eat the green grass and weeds. We could not hear the howling of the cows in the same lot as their backs were pelted as if by giant things leaped at the ends... it was so blinding we could not see the red roses whipped off and the green limbs splintered... the young tender garden beaten to the earth. The hail lashed at the big window, we thought it would break any minute... never had we been in a hail storm that lasted so long... almost an hour... the hail covered the ground, then piled up... the waters rose from the four inch rain in this part of town, the hail floated and did not melt for hours... all our lovely shrubs and flowers gone, injured past all hope...

CARD OF THANKS

We are very grateful and appreciative for all the acts of love, kindness and sympathy that have been shown and felt in the passing of our loved one. We thank everyone for the home and hospital visitations, cards, flowers and food. Especially we thank the Oddfellows and Peoples Hospital staff. May God Bless you.
The George Rudy Family.

ELECTRIC LIVING IS FUN!

"Here are 4 BIG REASONS I LIKE ELECTRIC COOKING!"

says, MRS. GEORGE C. KUHNER, of ROSWELL, NEW MEXICO.

"Christy likes the push buttons. I like them, too, because they are out of reach of the smaller children... besides electric is the cleanest kind of cooking."

"Shelley likes the big oven and I agree. The automatic timer is very handy. Also, it is nice to be gone for an afternoon and have your dinner all cooked and ready to serve when you get home."

"Kathy likes cooking with her fudge set and the fast surface units are certainly our answer when working on a tight schedule."

"Laurie likes it because it cooks good chicken and when we cook chicken, or anything else, it doesn't heat the kitchen—just the food."

**Light Marriage Vows
Joan Harris, Dane Clark**

While the candles were being lighted and the guests seated, Mrs. Charles L. Record, organist, played a medley of wedding selections. Soloist was Miss Dorothy King of Throckmorton college club sister of the bride at McMurry College. She sang "Because," and "O, Perfect Love," as pre-nuptial numbers, and "The Lord's Prayer" for the benediction.

The bride attendants

The candlelighters were Cheryl Rucker, cousin of the bride, of Lockney, and Kent Clark, Floydada, brother of the bridegroom.

Attendant of the bride included college classmates, Miss Letha Scott, of Stamford, her roommate for two years, maid of honor, Miss Hollis Haynes, Stamford, Miss Sandra Meyers, Lockney, Mrs. J. E. Waller, sister of the bridegroom of Floydada, and Miss Gayle Rucker, Lockney, bridesmaids. Miss Carolyn Harris, the bride's sister, was junior bridesmaid.

Flower girls were Jan Wofford and Susan Simmons, Lockney, and ring bearer was Charles Neil Harris, cousin of the bride, of Kress.

L. L. Clark, Jr., served as best man for his son Groomsmen were Brooks Chapman, Waco, Bert Grimes, Lubbock, Hershel Roach, Killeen, J. E. Waller, Floydada, Ronald Harris, the bride's brother and Orland Gilbert, Lockney, and Donnie Campbell of Tulsa.

back. Their large picture hats of the same material as the dresses were accented at the back of the crown with sprays of yellow sweetheart roses. They wore yellow lace gloves and carried small white baskets from which cascaded beautiful arrangements of yellow roses.

The candlelighter's dress was of pale yellow silk organza, styled similarly to the other attendants. She wore a pale yellow ruffled wristlet with yellow roses, and a bandeau of yellow sweetheart roses outlined with ruffling.

The small flower girls wore dresses of pale yellow organza, with full gathered skirts, accented with lace medallions down the front and sashes tied in large bows at the back. They wore matching picture hats, white lace gloves and carried white baskets decorated with yellow net ruffles and tiny satin bows, from which they scattered yellow rose petals on the bridal aisle.

The bride's mother wore a dress of mauve French lace over silk, with matching accessories, and a corsage of pink rosebuds. The bridegroom's mother wore a beige dress of linen and silk, matching accessories and her corsage was of yellow roses.

Traditional Wedding Gown

Mr. Harris escorted his daughter to the altar and gave her in marriage. Her wedding gown of finest white imported French lace, enhanced with ruffles of pleated tulle over net and taffeta, was an original model. The portrait neckline was framed with appliques of lace, elaborately embroidered with iridescent sequins and seed pearls, and the long sleeves of lace ended in points over the hands.

The magnificent skirt of lace cut on circular lines, with shaped bouffant drape, was accented with appliques of lace holding a wide ruffle of pleated tulle at the bottom edge. The immense fullness of lace and pleated tulle over layers of net and taffeta swept into a long and graceful train. Hoops and crinolines were worn underneath to emphasize the fullness.

The bride's veil of silk illusion was joined to a crown shaped double pointed tiara outlined with seed pearls and embroidered with sequins to match the dress. Her only jewelry was a strand of cultured pearls, a gift of the bridegroom. She carried a yellow throat-

**Miss Joan Harris
Complimented at
Shower Saturday**

Miss Joan Harris, bride-elect of Dane Clark, was honored with a miscellaneous shower Saturday evening, May 28, between the hours of 7 and 9 o'clock, at the home of Mrs. L. T. Hickerson, 214 West Kentucky Street.

Guests were greeted by Mrs. Hickerson and presented to the honoree, her mother Mrs. Clark Harris of Lockney and Mrs. L. L. Clark Jr., mother of the prospective bridegroom.

The refreshment table was laid with a white cut-worked linen cloth and centered with an arrangement of yellow and white roses. Yellow layers in crystal holders and white napkins completed the table decor. Mrs. Lewis Reddy and Miss Glynell Armstrong presided at the table.

Miss Dwana Beth Scott presided at the guest register.

Hostesses for the occasion were Mesdames D. W. Burke, Winnie Angus of Quanah, Virgie Shaw, Zant Scott, Ted Chowning, Gene Lawson, W. E. Grimes and L. T. Hickerson.

The hostesses presented Miss Harris with a bedspread and matching yellow sheets and pillow cases. Approximately 75 guests registered or sent gifts.

HALF-MINUTE INTERVIEWS

Mrs. Galen Holland: "One good thing about all this moisture that fell is that it has stopped the men from telling lies about how much rain they got."

CALLAWAY — BRIAN NUPTIALS ANNOUNCED FOR JUNE 7

An invitation is being extended this week by Mr. and Mrs. T. L. Callaway to friends and relatives to attend the wedding of their daughter, Kay, to Elton L. (Speck) Brian, son of Mrs. A. A. Brain of San Antonio and the late Dr. A. A. Brain, at 8 o'clock the evening of June 7 at the First Baptist Church.

The guests are invited to the reception to be held in Fellowship Hall immediately following the wedding ceremony.

CARD OF THANKS

The relatives of Mrs. Ella Johnson wish to thank Dr. Pitts and the nurses, Rev. Moseley and the many neighbors and friends for all their kindnesses to their mother through her long illness.

May God richly bless each one of you.

Mr. and Mrs. Steve Johnson
Mrs. Jettie Johnson

IT'S EASY TO SEE A BRIGHT FUTURE FOR THE BRIDE WHO CHOOSES AN ELECTRIC RANGE

Electricity is the clean and economical fuel for the kitchen range. It gives you automatic control, safety and assurance when you are away.

Electric appliances last and last. There is no need to buy a substitute... buy the best... get an automatic electric range and enjoy modern cooking at its best.

If you are looking for gifts for the June Bride remember electric appliances... they are gifts of steel and will be appreciated for a long time.

Call your City Light Plant if you have an installation problem they are anxious to assist you and you will know the job is done right.

CITY LIGHT PLANT
FLOYDADA, TEXAS

Highlights And Sidelights From the State Capitol

(By Vern Sanford, Texas Press Association)

AUSTIN — Fifth-fifth Legislators will have a shorter-than-usual "vacation." Gov. Price Daniel says he will call them back, probably about October, for a special session.

Final score showed 47 out of 51, or better than 90 per cent, of the governor's recommended bills passed in the regular session. But the missing 10 per cent are vital, says Daniel, he still wants:

1. His law-enforcement commission, a sort of statewide grand jury to investigate official misconduct.
2. A lobbyist registration act, registration of persons who represent others before state agencies, and, possibly, other "betler government" bills previously advocated.
3. A state plan for buying water storage space in federal reservoirs. A constitutional amendment to do

this died in the past session. Since amendments cannot be considered in a special session, the governor said he is working on a satutory plan — possibly the creation of a statewide water district with authority to issue bonds and levy taxes.

4. Action on "other matters that may arise" after the Travis County grand jury reports. Jury is looking into any irregularities that might have caused the ICT Insurance Co. collapse and alleged payoffs to legislators by the Texas Naturopathic Association.

So, instead of the usual post-session lull, the Capitol faces a summer of suspense followed by a frenzied fall.

NEW JURY AT WORK — Texas has generated more troubles than one grand jury could see in two months. Hence, a brand new Travis County jury begins this week where the old one left off after digging away all during April and May.

Its study of ICT's past and naturopathic legislation will probably last all summer.

A Dallas grand jury already has indicted Ben Jack Caga, onetime ICT manager, on charges of theft and embezzlement. Authorities are trying to get him returned from South America so he can be tried.

Who, What, Where and When? —

Texas' off-again, on-again Insurance Commission is still a prime source of speculation.

Past legislature passed laws abolishing the old board and enabling the governor to appoint new members. It also directed the commission to move within three years from its leased office quarters into a building to be erected with insurance tax revenue. And it passed dozens of new restrictive insurance laws for the new commission to administer.

Old board members Mark Wentz and John Osorio promptly resigned. But Gov. Daniel refused to accept their resignations. He says they'd have to stay on until their successors were named.

Then Atty. Gen. Will Wilson ruled the insurance tax revenue couldn't be used for a new building. It goes into the general revenue fund and is already earmarked for other things, he pointed out.

And, until the new commission gets going, insurance men over the state are uncertain as to how to comply in detail with some of the new laws.

ETHICS QUANDARY — Just who should do what to comply with the new code of ethics is still being discussed in the Capitol.

Some 163 legislators and state officials have given the secretary of state statements about their connections with businesses under state regulation. Assets ranged from Cuban oil companies to small town dry goods stores.

Sec'y of State Zolie Steakley said failure to file such a statement would be grounds for removal from office, but that he didn't have authority to enforce it.

Gov. Daniel said he saw no need for his filing, since the constitution prohibits a governor's serving as officer or director of a corporation under state regulation. But, he suggested the secretary of state might ask for an attorney general's ruling to clear up other points about the law.

BONDS GO BEGGING — First sale of the second \$100,000,000 issue of Texas veterans land program bonds attracted no takers.

In today's "tight money" market the constitutionally-prescribed 3 per cent interest doesn't lure buyers, said Land Commissioner Earl Rudder.

He said the bonds would not be offered again until conditions improve.

CROPS LAG — After years of longing for water, most Texas farmers now are trying to "recover" from the rains.

State Agriculture Commr. John White estimates flood damage to crops at \$50,000,000 or more. Cotton planting deadlines had to be extended by the state office because farmers were delayed in ploughing their wet fields. Even so, some crop loss was foreseen from inability to plant.

In some areas of North Texas small grains were reported hurt by too much water. But dryland cotton farmers in South Texas said they would use a little more moisture.

Texas already has received more rain in the first five months of 1937 than in the entire year of 1936. Sample totals for 37: Dallas, 36 inches; Austin, 24 inches; San Antonio, 19 inches; Greenville, 44 inches.

NEW BUILDINGS SLATED — From four to six new buildings are to go up soon, moving toward the eventual creation of a "state government center" clustered around the Capitol. In the offing are:

1. A State Courts Building, now under construction, to cost about \$3,750,000.
2. A State Office Building, for which contracts have been let and site-clearing begun, to cost about \$1,500,000.
3. A Central Power Building to furnish heat and air conditioning for the Capitol and other buildings. Authorized by Legislature with directive that it be ready by October, 1938.
4. A State Archives and Library Building for which Legislature appropriated \$2,500,000.
5. A Texas Employment Commission Building, and an Insurance Commission Building. Lawmakers told each to move from rented quarters, but money for new buildings is not immediately available.

SHORT SHORTS — June will see a raise in the number of job holders in Texas, despite layoffs from school endings, predicts the Texas Employment Commission. More jobs in industry will make up the difference. Despite overcrowding, moral of Texas prison inmates is good — no longer "hopeless and forlorn" — reported Pardons and Paroles Board members after a week-long tour. More space is due as a result of a \$3,500,000 appropriation last session.

Sesame in Texas

About five years ago, an ancient plant never before grown commercially in this country was introduced to farmers in the cotton producing areas in Texas.

It was Sesame, a plant that grows under conditions favorable to cotton. It produces tiny seeds from which vital oils are extracted.

At the time, Sesame was hailed as a new cash crop for those areas where cotton production was curbed by allotments. But a big obstacle to profitable production was the Sesame plant's tendency to shatter its seeds.

The Texas Research Foundation at Renner was primarily responsible for development of the crop in Texas. And after much research, the foundation has been able to produce a "nonshattering" variety.

This new variety has produced amazingly high yields, particularly where irrigation is applied.

On the High Plains, Sesame has been termed the No. 2 money-maker for irrigation farmers, who last year averaged \$121 per acre in gross returns — second only to cotton.

The Texas Sesame seed growers announced that the 1936 Sesame crop totaled 3,300,000 pounds. The crop was sold for \$341,800. TSSCO is a production and marketing organization composed of farmers. It handles the bulk of the U. S. Sesame crop.

Sesame production runs as high as 1,200 pounds per acre. Last year's

crop was sold for \$341,800.

Dougherty News

(By Mrs. W. J. Ross)

DOUGHERTY, June 3 — This area has received heavy rainfall the past several days. Several citizens report from eight to nine inches since Thursday night. The Antelope area received less. Quite a bit of water damage has been reported to cess pools in the village of Dougherty.

One or two houses have been flooded and water lapping at the doors of others. Although the highway was under water near, the railroad traffic was never stopped.

A large volume of traffic has been through on the local farm to market road as several highways have been closed.

The planting situation is causing grave concern. One small acreage of cotton has been reported up. A considerable acreage was planted last week before the big rain. Farmers are now contemplating the possibility of missing a cotton crop. The consensus of opinion seems to be it would be less painful to miss a crop because of drought.

Buddy Reeves passed away at an Amarillo hospital May 26. He had been hospitalized there since the accident that took the life of his parents last July 22. Interment was at Hedley on May 28. He is survived by two brothers and a sister, Mrs. Bill Jones.

Wednesday evening John Wolly, Leroy Scott and Bob Ross were involved in a car-tractor accident. All were hospitalized in Crosbyton where x-rays revealed no serious injuries, although both boys received bad cuts. Mr. Wolly and Bob were released from the hospital Friday evening. Leroy is recovering nicely and probably will be home in the next day or so.

Ethel Scott returned home Friday after visiting relatives at Morton. Vinson Smith and son Jim of Silverton were guests of Mr. and Mrs. Bill Poole Sunday.

Billy Gene Dean, of Wichita Falls, is the house guest of his aunt, Mrs. J. T. Poole.

Mrs. Lilburn Havey and daughters were guests in the W. J. Ross home Sunday.

Mrs. R. D. Holly and her mother, Mrs. Lydia Warren, visited in Lubbock and Meadow on Friday. Mrs. Holly returned home Saturday.

Mr. and Mrs. G. W. Smith returned home Sunday after visiting in Amarillo and Canyon since Friday. At 6 o'clock Friday evening they attended the rehearsal dinner at the home of Mr. and Mrs. Donald Lee Dufek in Amarillo.

Saturday evening they attended the wedding of their son Dale G. and Jo Ann Dufek at the chapel on the campus of West Texas State College at Canyon. They were guests in the homes of Mrs. John Lewis at Canyon and Mr. and Mrs. Shelby Cook in Amarillo.

News of Harmony

(By Mrs. Mather Carr)

HARMONY, June 3. — The rain has been fine so far, although some cotton has been covered up. Here at the Mather Carr farm the rainfall measured seven inches from Friday night until Saturday night and I think it was about the same for all the community.

There were no services at the chapel Sunday owing to the blocked roads caused by the heavy rains.

A number of people of the community attended the Old Settlers Reunion Tuesday last week, although many were out owing to the great need of being in the fields and getting their cotton planted.

Mrs. Buddy Smith returned home Thursday from the Plainview Hospital where she underwent treatment. She is feeling fine.

Mr. and Mrs. Ham Smith, Mrs. Beulah Olive and Mrs. Maud Morris and grandson, of Floydada, visited in the Everett Miller home Friday.

Everett Miller was taken suddenly ill Friday evening and was taken to Methodist Hospital. X-rays showed he was suffering from kidney stones. He was much better Saturday and started home but was water bound. He came in Sunday by way of Estacado. Mrs. Miller and Ham Smith took him to Lubbock.

Mrs. Charlie Reed left Friday for Germany to be with her husband, who is stationed there. Her parents, Mr. and Mrs. Carrick Snodgrass accompanied Mrs. Reed to Lubbock where she boarded an airline for New York. She will go by ship from New York to Germany.

Rev. Phil H. Gates was sent back

Scout Explorers Post Registered

Boy Scout Explorer Post of Floydada has re-registered for the coming year. They are sponsored by the Methodist Men of Floydada.

Jack Henry will serve as institutional representative. L. T. Hickerson and S. E. Sparks are the committeemen with Greer Christian as chairman of the committee.

The advisor for the post will be Dr. Woody Guthrie.

There are eight boys registered now, and plans are to meet at the First Methodist Church on Monday at 7 p. m., when other eligibles are invited to attend and take part.

by the annual conference for another year as pastor at Carr's Chapel.

Mr. and Mrs. Alvin Roper and Mr. and Mrs. Charlie Bailey, of Dumont, came over to Wesley Carr's Sunday. Mr. and Mrs. Bailey, Mrs. Wesley Carr and son, Bill, left Monday morning for Redlands, Calif., where they will visit the Bailey's son, J. C. They plan to be away some two weeks.

Captain Weldon E. Edwards, wife, son and daughter, of Biloxi, Miss., came Wednesday for a visit with Captain Edwards' parents, Mr. and Mrs. W. W. (Bill) Edwards. They left Sunday returning as Capt. Edwards had to be back to enter school Wednesday. It seemed that they were not going to get away on account of high water, but by going by Estacado they were able to make it.

WOLFE CITY MAN IS GUEST IN THE C. L. BERRY HOME

Mr. and Mrs. Wesley Pharr of Wolfe City, are visiting in the C. L. Berry home. Mr. Pharr is a brother of Mrs. Berry. Bob Pharr of Plainview also was a guest in the Berry home Saturday and Sunday, leaving for San Antonio, where he re-enlisted in the army.

Mr. and Mrs. Gene Trapp and three small daughters of Fort Stockton, also were visitors in the Berry home. Mrs. Trapp is a daughter of the Pharrs.

First use of the abbreviation U. S. A. was to stamp approval on barrels of gunpowder made at a mill near Frankfort, Pennsylvania, for Washington's Army.

The extended right arm of the Statue of Liberty is forty-two feet long.

It takes 16 inches of snow to equal an inch of rain.

Recharge Well Taking Over Million Gallons of Water a Day

Weather
rains
ground

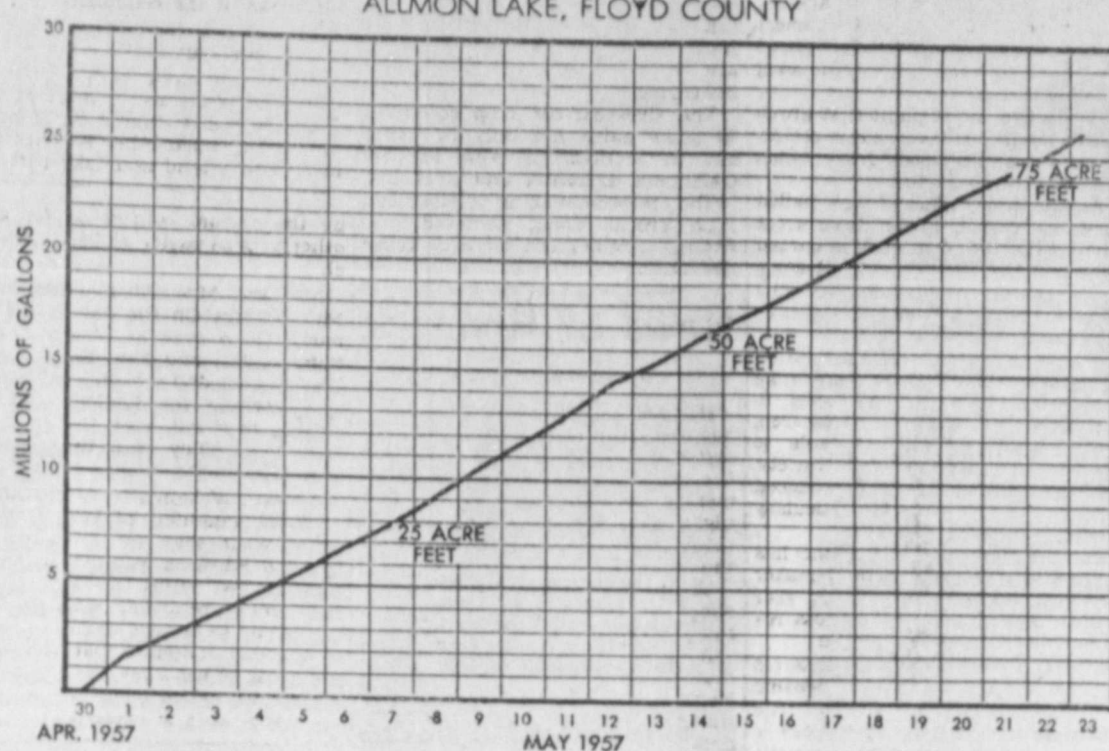

In the fall of 1953 a well was drilled near the edge of the lake. Total depth was about 390 feet. It was cased with 12-inch steel casing, the bottom 150 feet being slotted. It was developed by pumping with a test pump and produced about 1,100 gallons a minute.

A pit was dug around the well and filled with cotton burs. An 18-inch concrete pipe was laid from the bottom of the lake to the pit, the lake end being equipped with a valve and the pit end had a meter for measuring the flow of water from the lake to the well.

Assistance to the project was given freely by numerous local interests recorded on a sign at the recharge site, including: Southwestern Public Service Company; Fox & Higgins Drilling Co., Petersburg; Bill Wolf Irrigation Service Co., Abernathy; Peerless Pump Division; W. C. Allmon, Route 1, Petersburg; Gifford-Hill-Western, Inc.; Commissioners Precinct No. 1, Floyd County; Commissioners Precinct No. 2, Hale County and West Texas Pioneer Gas Company.

In June 1954 the area received a heavy rain and the lake caught 52 acre-feet of water. After a few hours wait, in order to let the coarse silt settle to the lake bottom, the valve was opened and the water flowed by gravity into the pit. However, it was soon discovered that the cotton burs, although fully composted, did not prove satisfactory

RESULTS OF RECHARGE EXPERIMENT
ALLMON LAKE, FLOYD COUNTY

as a filter. Nevertheless muddy water entered the well at the rate of 1,050 gallons a minute.

The well was not equipped with a pump and as a result, after eight days of recharging, the formation became clogged with silt. A test pump was again installed and after a few hours of pumping several yards of sand and silt were removed from

the well and it produced equally as good as after the first development.

This original test proved that the lake water could be drained by gravity into the water bearing formation; but it also proved that unless the mud and silt were removed during the recharging period the formation would become clogged and would no longer take water.

During the week in April 1957, the area again had about 5 inches of rain and again the lake became filled with water. In the meantime a concrete meter box was built at the pit-end of the 18-inch concrete pipe, and an 8-inch steel line, equipped with a flap valve, was laid from the meter box to the well. The pit was filled and a pump base was built around the well.

The land owner, Bill Allmon, had agreed to install a permanent pump, but the day he intended to set his pump the rains came.

On April 30, 1957, at 10:35 a. m. the valves were opened and the water entered the well at the rate of 1700 gallons a minute, going into the formation and filling the well casing. The rate at which the formation took water is indicated in the chart shown herewith.

It is significant to note that during the first 24 hours the well took water at the average rate of 920 gallons a minute, that during the second and third days the rate was about 770 gallons a minute, and that during the fourth day the rate was 620 gallons a minute, showing that the silt was gradually clogging the sand.

On Saturday, May 4, 1957, a 7-stage number 10 pump bowls and 180 feet of 8-inch pump column pipe and 10 feet of suction pipe were set in the well. The pump was operated for 4 hours and produced a large quantity of silt, sand, and water at the rate of about 1,000 gallons a minute.

The pump was stopped, the valve was opened, and again water started pouring into the well. During the next 20 days the recharge is shown graphically in the illustration.

Again it is significant to note that whereas the rate of recharge during the first 4 days of the experiment decreased from 920 gallons a minute to 620 gallons a minute, with pumping only once a day to remove silt, the rate of recharge was maintained at a rate of about 920 gallons a minute until the lake was drained.

Just as the lake was drained the rains came again and the lake refilled to the previous level and the operation of recharging continued.

Although the problems of artificial recharge are not fully solved by any means, the work that has been done by numerous individuals, by the cooperative work of the Board of Water Engineers, U. S. Geological Survey City of Amarillo at the

McDonald Well Field in Randall County, and the work of the Water District shows that the problems can be solved and in the future millions salvaged that otherwise would be wasted.

LEO DUVALL IS STATIONED AT FT. MACARTHUR, CALIF.

Port MacArthur, Calif. (AHTNC) — Charles E. Duvall, son of Mr. and Mrs. Leo Duvall, Aiken, Tex., recently was promoted to specialist third class at Fort MacArthur, Calif., where he is a member of the 933rd Antiaircraft Artillery Missile Battalion.

Specialist Duvall is assigned to the battalion's Battery A. He entered the Army in October 1955 and received basic training at Fort Ord, Calif.

Duvall is a 1955 graduate of Lockney High School.

SUNNY LAWSON INSTALLED

Sunny Lawson, daughter of Mr. and Mrs. Reed Lawson has been installed as Worthy Advisor of the order of Rainbow for Girls at Lockney.

The installation of the new officers was held last week at the Masonic Hall.

Officers elected to serve with Miss Lawson are Hope Cox, Worthy Association Advisor, Shirley Mitchell, Charity, Loy O'Brien, Hope and LaHona Rowell, Faith.

... Chevrolet with Turboglide!

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST, GET A DEMONSTRATION! The Bel Air Sport Coupe with Body by Fisher.

Chevy's come up with the newest, sweetest, smoothest automatic drive—Turboglide. It's the first and only triple-turbine transmission!

Turboglide is something really new and different in automatic drives. In the first place, there's only one forward-speed position on the control panel. There's no "Low" needed.

Turboglide handles everything with the oil-smooth action of triple turbines. You travel from a standstill to top cruising speeds with never a lurch or lag to mar your motion.

When you see a steep downhill stretch ahead, you set the selector at "GR" (Grade Retarder) and Turboglide helps slow you down. Try Chevy's new, nothing-like-it automatic drive. It's optional at extra cost—and worth it.

Tests Provide New Varieties Native Grasses

College Station, May --- Greatly improved native grasses developed by the Texas Agricultural Experiment Station are now being tested throughout the state. Seeding these selected grasses in combinations may be a practical substitute for the long-sought "miracle" grass needed for restoring low-producing, drought stricken ranges.

In the past, many promising grasses have failed to withstand the ravages of drought, satisfactorily or to respond properly under necessary range management practices. Extension Range Specialist A. H. Walker says stock farmers not only need drought resistant pastures, but also must have grasses capable of setting good seed, producing plenty of leaves; and establishing themselves quickly.

Walker says the improved native varieties will probably lend themselves to more economical seeding and land preparation than grasses introduced in the past.

Four years of breeding and selection has produced a sideoats grama, a blue grama and a hairy grama -- all with runners like buffalograss. Over 200 varieties of sideoats grama are now being tested, one of which can set plenty of good quality seed and hold it long enough for a single combining operation. Another variety produces a higher than average ratio of leaves to stems, and another promises plenty of green forage for March and April.

Forty different varieties of 15 grasses are being tested in 68 plantings over the state, Walker says. Tests include plantings of old reliable grasses such as the grama grasses, cane bluestem, green sprangletop, little and big bluestem, switchgrass and plains brome. The specialist says these tests may provide means for revegetating old fields and denuded rangelands. Ranchmen may now entertain hopes for adapted native grasses which will stand up to heavy stocking, wind and dust.

Walker advises a visit with the local county agent for assistance in solving reseeding problems. Ask him if one of these demonstration plantings is located in your county.

Mr. and Mrs. Tom W. Deen arrived home Friday from a month's visit in California with their children and grandchildren.

Mrs. W. A. Lovell returned home Sunday from California after an extended visit with her children and their families.

South Plains News

(By Mrs. Murray Julian)

SOUTH PLAINS, June 3. --- Most of our community went to Floydada Tuesday to attend the Pioneer Reunion Day, and to enjoy the parade, events, and the outdoor dance which ended the Reunion Day in the evening. Among the directors chosen for the coming year was Skeet Thornton, from here, and among the prize winners was little Sara Stanforth who had one of the best decorated bicycles in the parade.

Mrs. R. G. Dunlap is working in the primary department of the Vacation Bible School of the First Baptist Church in Floydada this week, with classes beginning on Monday, June 3.

Bobby Faus is staying with Mr. and Mrs. Sim Reeves while his brother, the Rev. and Mrs. Larry Faus and baby are in Chicago for the Southern Baptist Convention. They are expected home on Thursday. The Reeves visited on Monday in Floydada with Mr. and Mrs. Tec Bell.

Mr. and Mrs. Menard Field returned on Monday from Brady, Tex., and reported much rain, wet, boggy fields all down that way, with no signs of crops visible.

Floydada High School closed for 54 seniors on Tuesday night, May 23, at 8 o'clock when they received diplomas from I. T. Graves. "We Choose the Future" was the theme for 1937 graduation class exercises. Kendis Julian from here was one of the brass quartet on the program. Wearing caps and gowns of green, seniors from South Plains were Virginia Taylor, Alton Higginbotham, Donnie Young, Kendis Julian, and Louise Pritchett. Parents of the above and many friends attended the exercises.

Mr. and Mrs. George West and Mr. and Mrs. Sylvia Kinniburgh, Marilyn and Beth, were guests in the home of Mr. and Mrs. Frank McClure on Saturday night, Sunday Mr. and Mrs. Don McClure and girls of Crosbyton visited the Frank McClures, and left little D'Ann with her grandparents for an indefinite stay while they are having their home all torn up in the throes of redecoration.

Sunday, June 2, was International Shut-In's Day. It is nice to remember our shut-ins here with cards, visits and other tokens of remembrance. Mrs. Thomas and Fred Riggs have been confined to their homes for years, and Mrs. Brister and A. L. Stewart have been ill the past few months, and not able to be out much.

Mrs. Barty Scott, sister of Mrs. Lee Pearson, from Albuquerque, N. M., arrived here Tuesday to visit until Saturday in the Pearson home. She came with Mrs. Adams of Albuquerque, who was visiting in Silverton. She had lost seven of her

Civil Defense Gets 37-Millionth Chevrolet

The nation's civil defense program was spotlighted as Chevrolet Motor Division marked production of its 37-millionth vehicle. The milestone unit, a four-wheel drive Chevrolet truck, was turned over to the Federal Civil Defense Administration recently at the company's Willow Run, Mich., truck assembly plant. E. N. Cole, left, Chevrolet general manager, and Val Peterson, FCDA national administrator, examine gear from a rescue kit near the 37-millionth vehicle.

relatives in the tornado of May 13. Mr. and Mrs. W. H. Simmons came from Truscott on Friday to get their son, Ronnie, who had spent the week visiting here with his aunt, Mrs. Sylvia Kinniburgh and family. The Simmons' spent Friday night and Saturday here and left for Truscott on Saturday. Due to rain and closed roads, they had to go home by way of Wichita Falls. Marilyn Kinniburgh went home with them, and is going to Vacation Bible School there this week.

Eddie Parks will be one of the 16 representatives to go to the national Scout Jamboree, at Valley Forge, Penn., July 12-18. Eddie belongs to Boy Scout Troop 57 of Floydada. James Wood and Jewel Elms will accompany the boys when they go on their trip.

Mrs. Kenneth Bean and daughter, Diane, left by plane from Lubbock on Thursday for Houston on a business trip, and returned by plane to Lubbock on Friday where they were met by Kenneth. They returned as far as her parents, the John Key Adams, where they spent the night, and at noon they got home in spite of over six inches of rainfall on Friday and Saturday.

Mr. and Mrs. Murray Julian and Bruce went to Lubbock on Wednesday and again Friday for business reasons. While in Lubbock they visited John Cassel in his office and went to the home of Mr. and Mrs. R. G. Cassel and visited. The Cassels are finishing a storm cellar, and said that about 300 new storm cellars were being built since the tornado storms have been reported around Lubbock.

Mr. and Mrs. Lee Pearson and Mrs. Barty Scott, their house guest, went to Amarillo Wednesday to spend the day on business.

Funeral services were held at 3 p.m. in Floydada at the Wall Street Church of Christ Saturday afternoon for Mrs. A. S. Cummings, 62, who passed away Thursday in Canyon. Interment was on Sunday at the Floydada Cemetery, due to inclement weather on Saturday. Mrs. Cummings was the mother of Mrs. Jack Southerman of Hart, and the Cummings family used to live here at the old home place of the John Key West, many years ago.

Mr. and Mrs. Fred Fichtenberry went to Tulla to see her mother, Mrs. N. C. McCain on Sunday. They started out by the Silverton route,

and were turned back at the Jones Kinslow farm by waters across the road there. They started on by way of the Lone Star through road to Rock Creek, and were turned back by water across the road from lakes there. They finally got to Tulla by way of Plainview, and got to see her brother, Mr. and Mrs. John McCain and family of Amarillo, in Tulla, and a sister, Mrs. Elvin Hutson and family. Mrs. N. C. McCain returned here with them to spend the coming week visiting in their home.

The Seventh and Eighth grades of the South Plains School were hosts at a party last Thursday night at the school recreation room honoring their teacher, J. M. Williams and Mrs. Williams. Games were enjoyed during the evening, and refreshments of cakes, candies and cookies were served. The 822 grade graduates presented Mr. Williams with a gift. Those present besides Mr. and Mrs. Williams were Price Pritchett, Frank Jones, Wayne Adams, Donnie McCullough, Bobby Faus, Nathan Mulder, Jimmie Respondek, Eddie Parks, Sue Wilson, Sherlene Teepie, Yvonne Karr, Kay Taylor, Eulalia Sanders, Bary Kinslow, and JoAnn Newton.

Terry Julian arrived at Fort Knox, Ky., on Saturday night, and his studies will begin on Wednesday. He

will be stationed at Fort Knox for the next 16 weeks. He reported intense rain all the way to Kentucky.

Mr. and Mrs. John Smitherman were hosts on Monday night to aunts, Mrs. Oral Roberson of Corpus Christi, Mrs. Delma Gardner, of Winters, and Mrs. Jay Reeves of Houston, who were visiting here.

On Friday and Saturday nights guests for over night in their home were Mr. and Mrs. Ennis Cummings of Friona, who were here for the services of his mother, Mrs. A. S. Cummings on Saturday afternoon. From all parts of our community there are reports of heavy rainfall, and much hail fell on the W. M. Stanforth farm, in particular, where the onion tops were cut off above the ground and the potato plants which had been so beautiful the day before, badly torn up. Wheat is down in many fields. The Stanforths reported more than eight inches of rain on Friday and Saturday. Over six inches fell on the Sim Reeves farm north of town and six and a half inches on the John Smitherman home place, with Grigby Milton getting about the same as Stanforths. Farther east the O. R. Bearis had over nine inches by Monday, with the lake nearly up to their house. Scies are still cloudy and showers falling at this time.

Mr. and Mrs. I. H. Parks, Eddie and Jay Frank, left over the weekend for New Mexico, where they are fishing at Conchas Dam. Conchas Dam is northwest from Tucumcari, and east of Las Vegas. They will vacation there while it continues to rain.

Tuesday morning it still continues to rain. All our rural areas are water-logged, with all the lakes full to overflowing. The lake to the south of Stanforths is as full as old timers ever saw it. Most people can reach the highway by tractor, but the Calvin Poteets are cut off by lakes across the roads both to east and west of them. They are able to get out south by going across Smitherman's fields. The lake is over the paved highway at the Bryant Higginbotham farm. Many telephones are out and over nine inches of rain has fallen so far. Sim Reeves took off the car belt from his pickup and was able to get

Dr. Daniel Russell (right) of Texas A & M was one of 10 years of outstanding Christian leadership in the Overseas Program. Greeting Dr. Russell is the Rev. I. H. Parks, pastor of Calvary Episcopal Church of Richmond, Tex. Dr. Russell has served with CROP since 1926. He accompanied a CROP shipment to Germany. He is a sociology department of Texas A & M and has been a Federal Government on several occasions as an agent of CROP is the food-and-fiber program of Christ W.

through the high water across the road near Kinslows.

James Jeffress, of Sand Hill, was among the patients who underwent surgery at Lockney General Hospital last week. He had the operation Thursday and returned home Monday. In the absence of the family lightning struck and killed four cows during the heavy rains.

Friday night, the rain continued to fall, and the water was seven or eight inches deep.

Mrs. W. H. Faus was hospitalized in the hospital in the home of a Leonard Pope in the late.

FUNERALS AND DEATHS

Eudy Friday

George Ivey of Sunday afternoon at the Cumberland with Rev. T. W. ... Burial ...

Mrs. Cummings Is Claimed; Funeral Rites Saturday

Funeral service for Mrs. A. S. Cummings, 81, was conducted Saturday afternoon at 3 o'clock in the Wall Street Church of Christ with O. W. Kirk, elder, officiating. Graveside service was held at 3:30 p. m. Sunday in Floydada Cemetery under the direction of Harmon Funeral Home. Mrs. Cummings passed Thursday morning at 11 o'clock in Neblett Hospital in Canyon following a long illness.

Mrs. Ella Johnson Rites Conducted At Funeral Home

Final rites for Mrs. Nannie Ella Johnson, 83, were conducted Saturday morning at 10:30 o'clock in the Chapel of Harmon Funeral Home with Rev. C. H. Mosley, pastor of the Nazarene Church of this city officiating. Burial was made Sunday afternoon at 1:30 in Floydada Cemetery under the direction of Harmon Funeral Home. Mrs. Johnson passed at 9:30 p. m. Thursday in Pitts Hospital following a long illness.

Mr. and Mrs. Pete Hickerson and Pat spent Memorial Day in Grand Prairie with his parents, Mr. and Mrs. F. L. Hickerson.

Mr. and Mrs. Delmar Keisinger and children of Sunday spent the week-end with Mr. and Mrs. Corky Guffee and children.

Mr. and Mrs. Edwin Neff and daughter and Mr. and Mrs. Shorty Neff and Aubrey Lynn visited in Amarillo on Sunday.

Mrs. E. J. Marricle and Patsy of Idalou are spending the week with Mr. and Mrs. Buck Marricle and boys.

Mrs. Carl Shipman and children of Lubbock spent the week-end with her brother, Buck Marricle and his family.

Mr. and Mrs. Marvin Dykes of Brownfield stopped in Floydada Sunday enroute home from Oklahoma where they had been on vacation.

My sister and her husband, Mr. and Mrs. Hershel Fields, left Tuesday morning for their home in Inglewood, California, after a few days visit with us and other relatives here.

My brother and his wife, Mr. and Mrs. Paul Buchanan of Springfield, Missouri, and their niece, Terrell Ann Williams of Halltown, Missouri, came last Friday for a visit with us.

Guests in our home last Sunday

KITCHEN AND FIELD NEWS

From Lighthouse Electric Cooperative Inc. by Nancy Moreck and Claude Weatherbee Electrification Advisors.

There's always a reason for a party—it may be your best friend's birthday; it may be your turn to entertain your club or you may just know some nice people you would like to have over to your house. But good parties, like all good things, do not just happen, they must be planned.

It has been said that luscious-looking food is a tonic to the eye, a tickler to the palate, a challenge to the imagination. Food in itself is beautiful, so that "special" look is easy to achieve. Begin by cooking properly so that none of the rich, sharp colors are lost. Prepare food simply, making the most of the natural shape and texture. Use smart decorative touches, just as you would on a basic dress if you want to give your food sparkle. Supply the proper background—which may be a beautiful dish, an unusual container, a tasteful table—and there's your formula for pretty as a picture party—or just a meal for your family.

George Chapman of Amarillo spent the week-end in Floydada with Jackie Henry and other friends.

Mr. and Mrs. J. M. (Doc) Ryman and girls, Sara Elaine and Donna Irene, arrived Friday for several weeks visit with her parents the J. E. Greens, while Doc attends summer school at Tech. Don Clark Green arrived Sunday morning from Big Spring, where he taught last year. These and the Victor Greens of Plainview were all present for Sunday dinner at the Greens.

Mrs. Fred Cone of Wichita Falls spent some ten days here visiting her sisters, Mrs. Ava Jackson, Mrs. Leo Prizzell and Mrs. A. E. Prizzell.

If you like fresh pineapple be sure to prepare some for your freezer—it is easy to prepare and most delicious.

Laundry Tips: Research has found that powdered bleaches worked best if the water was hotter than 120 degrees F. Starching: For dark colors try tinting the starch with bluing; for brown add some clear tea to the starch. This eliminates the problem of having white starch show on dark colors.

Something to think about—"Do not judge until you have walked at least a mile in the other fellow's shoes."

Mrs. W. J. Ross of Dougherty left Monday night for Shamrock in company with her sister, Mrs. Hugh Foster and Mr. and Mrs. Fishburn White of Falls, due to be guests of relatives there for a few days.

Mr. and Mrs. Hershel Fields of Inglewood, California; Mr. and Mrs. Paul Buchanan of Springfield, Missouri; Terrell Ann Williams of Halltown, Missouri; and my mother Mrs. J. H. Buchanan, who lives with us.

Center News

Mr. and Mrs. Dan Hagood and Mr. and Mrs. John Buchanan had a family get-together and a delicious supper on Monday night at the Hagood home, which was an enjoyed very much.

It was our pleasure to have the 4-H club girls of the county, their mothers and guests last Friday afternoon for a freer demonstration in the kitchen here at the Lighthouse Electric. Fruits and vegetables were actually prepared for the freezer. Methods and reasons for processing were discussed.

A food freezer equals, food conservation, convenience, economy and well planned meals—and in order to have the best results and top quality foods from our freezers the necessary steps might be summed up as stated below:

1. Select food of good quality—wash and sort carefully.
2. Speed the food to the freezer.
3. Freeze fresh fruits and vegetables in small quantities.
4. Scald or steam according to the directions for each vegetable.
5. Cool and drain quickly.
6. Pack in Moisture-vapor-proof (AIR TIGHT) containers.
7. Mark or label each carton giving description of contents and date it was placed in the freezer.
8. Start freezing at once.

Little or no special equipment is needed for freezing foods. It is one of our best methods of preserving food for our families today.

Memorial Day was very cool and beautiful early in the morning. A large crowd was at the cemetery to honor our war dead. A beautiful custom!

Visitors in the Green home Thursday afternoon were Mrs. Jackson, and Mr. and Mrs. Victor Green and Jimmy and E. J. Green of Plainview. Thursday evening visitors were Mrs. Joe Evers, Mr. and Mrs. Fred Battey, city, and Mrs. Charley Neil of Amarillo.

Mr. and Mrs. J. M. (Doc) Ryman and girls, Sara Elaine and Donna Irene, arrived Friday for several weeks visit with her parents the J. E. Greens, while Doc attends summer school at Tech.
