

Pres. Hail Summer with 4-Day Sales Drive

All-Out Effort To Combat Dull Let-Up In Trade

Floydada retailers — shops, department stores, furniture stores, business establishments of all kinds, numbering a hundred or more—are staging a sales event which they have named Harvest of Values Sales Days, Friday and Saturday of this week and Monday and Tuesday of next, June 21 - 22 and June 24 - 25.

It is a frank and bold bid for elusive mid-summer business dollars.

Yesterday it appeared that the idea has caught on all over town.

Wherever a shopper goes he is due to find a value or an idea that will tempt him.

Tremendous stock of merchandise, shelves and bins overflowing with brand names call for action to get them turned into money.

Numerous trade-catching plans are being employed as will be disclosed by reading this issue of the Hesperian.

The pitch is principally toward people in a section of the plains and lower panhandle covering the greater part of three and a half counties, but there is nothing to keep the people here in town and in close-by communities from joining in. The welcome mat is out for them, too.

Dan Hagood, the chairman of the Retail Trades Committee, says that Floydada merchants have been going all out to hold their home trade and to expand their influence with the buying public.

"Floydada retailers have given much time and study to find out what the people want of their stores and expect of the merchants with whom they spend their money," Hagood said.

"We have learned from our survey taken a year ago, and which has been carefully studied, that people want:

"Wide variety and selection of merchandise, particularly brand names;

"Bright, modern stores that present merchandise attractively;

"Informal sales people who will take a genuine interest in the customers' desires;

"Plenty of parking space, near the stores and shops."

Practically every type of business in Floydada has profited by this study, retailers say.

This week-end and the first two days of next week, the retailers expect to make Harvest Sales Days a test of what their efforts have accomplished.

Consumers who shop Floydada these four days will find:

Clean, bright stores with merchandise attractively arranged and alerted, courteous sales people, who know their stocks, and are anxious to please but not gushy;

Plenty of parking space and no parking tickets or danger of getting a ticket for parking violations.

Places of entertainment for visitors in Floydada during the Harvest Sales Days include the municipal swimming pool, the Capada Drive-In Theatre and Palace Theatre. At the Palace Manager Jack Deakins said he possibly would have matinees shows one or more of the afternoons.

Planning to make their stores interesting places for visitors during the four-day period some of the managers have come up with novel ideas. One butane dealer with a yen for a wider acquaintanceship, has announced a door prize of 500 gallons of butane delivered to the home of the successful registrant. Since not all natural gas, a butane user, he thinks the appeal should be practically universal. His drawing will be held Tuesday afternoon late.

One furniture store has a give-away Electric Clothes Dryer as an attendance prize, based on registrations June 20 through 29.

Another home appliance dealer is marking the 27th anniversary of his organization with a strong merchandising appeal; and a grocer is conducting his Harvest Sales Days appeal with an anniversary gimmick that includes gifts and free drinks.

A sewing machine free with the purchase of a tractor is one offer being made by a machinery dealer and at a popular shop a dress is going to be given as a door prize.

Unusual statement: one of the advertisements is by one furniture dealer who declares "no prices have been Marked Up."

X-Ray Mobile Unit Coming to Floydada Monday

One thousand area residents have an appointment in Floydada on Monday when the Texas Health Department's mobile X-Ray unit is due in town for one day to give free chest X-Rays.

Health Department personnel will begin work at 8:30 a. m. in the Bishop Motor Company showroom and continue through the day until 5:30 p. m.

The X-Rays are free to everyone who is fifteen years old and older.

Response to the free service of the health department has been good each time the unit has visited. Bob Copeland, chairman of the Safety Committee of the Chamber of Commerce Health and Safety Committee, said:

"More knowledge of the need for an X-Ray each year and county wide interest in health is given as the reason for the increasing interest in the X-Ray program."

The X-Rays are processed and examined by health department specialists in Austin. Each person will receive a confidential report on his X-Ray through the mail. If the X-Ray shows that additional study is needed the person is advised to consult his doctor.

"We urge the senior citizens of our area to take advantage of this X-Ray service, too," Copeland said. The health department is making a

special effort to reach as many elderly people in areas as possible as there is a greater danger of lung cancer, tuberculosis and heart trouble in this age group.

Members of the five Floydada Federated Clubs will staff the registration tables on Monday and assist the health department in recording addresses and other needed information. Mrs. H. G. Barber and Mrs. Virgie Shaw head the club registration and hostess committee.

Newspaper publicity, radio and church announcements, and letters to county community leaders are expected to assure a busy day for the X-Ray unit technicians.

The X-ray mobile unit also has a date for Lockney Tuesday, June 25. The unit will set up for business at Lockney Auto Company showroom and will take X-rays from 1 p. m. to 5:30 p. m.

Phoenix Sox, Munsingwear Sox, Springfoot Sox; Arrow Ties, Arrow Handkerchiefs, Hikolet Belts, Suspenders and Jewelry, Wimberly Ties;

K. C. Boysewear, sport coats, slacks (See Name Brands, page 8)

A New Sign that tells its own story graces two of the highways leading into Floydada this week as the result of the enterprise of the FHS Aggie Club and the generosity of John K. West in providing materials with which to build. Here Rex Jones, Aggie who had the know how, is shown with one of the completed signs. Several Aggie boys had a part in the job under the supervision of their coach and instructor, Henry G. Barber. The boys have hopes of doing two more of the monument-type signs next fall if they have the opportunity.

Flash Flood Monday Night Claims Life Of David Rape

A native Floydada man, David Rape, 24, is to be buried this afternoon in Floydada Cemetery following funeral rites at 3 o'clock, his death due to a flash flood on Crawford Draw Monday night that caught him as he crossed the arroyo and washed him down-stream a mile and a half.

He was enroute to Floydada from Crosbyton sometime shortly after 10 o'clock, the exact time not known. His car, a 1954 De Soto sedan was found the next afternoon at 5 o'clock and his body was recovered Wednesday morning about 6:30 after an allnight search by five parties of men from Floydada and Crosbyton had proved unavailing.

The circumstances of his death are matters of conjecture among officers. A terrific rain was falling.

Sheriff W. D. Hollums of Floyd County says he might have whipped down the hill on the south side of Blanco Canyon, and seeing the wall of water, attempted to stop. Wet brakes could have thrown car and man into rocks on the side of the stream, washed road bed, to be picked up by the boiling waters and washed down-stream. A badly crushed car top indicates a terrific blow hit it.

Another possibility is that the wall of water caught him on the bridge and washed him away before he could escape it.

A third possibility is that he drove on to the bridge in the blinding rain and was being washed away before he realized that water was overflowing it.

Trash and limbs left on adjacent posts proved that water had been at least four feet deep over the bridge. A wide, flat terrapin apparently ought to have let the giant stream of water through without covering the bridge.

The victim's car was discovered by Ernest Wayne Latham and Eph Fowler, both of Crosbyton, who were riding horseback on the ranch late Tuesday. They called the sheriff's department at Crosbyton and the searching parties were organized to seek David's body.

Rape's young wife and his parents, Mr. and Mrs. Marvin Rape, did not become alarmed over David's failure to come home Monday night. His mother-in-law, Mrs. Sam Martin, lives in Crosbyton, and they thought he might have sought shelter from the terrific rain in her home.

At 10 o'clock Tuesday morning, however, they told the local sheriff's office of their fears and at 1:30 Tuesday afternoon officers in all the surrounding area were advised by two way radio that officers and the family here were trying to locate the missing man.

Sheriff Hollums of Floydada was enroute to Crosbyton to continue the search when he learned by radio that the car had been found.

The searchers Tuesday night and

Wednesday morning gave up at 4 o'clock after sloshing in mud and debris to resume their hunt for the body after sun-up. Edell Moore and Sheriff Hollums led the searching parties in the night and went to Silver Falls below Crosbyton on the possibility the high waters might have carried the body far down-stream. The young man's wife and his parents kept vigil at the scene and in nearby homes while the search was on.

Jack Hash, of Crosbyton, was the first to spot the drowned body of David Rape. He was flying over the

area and dropped low to find the body lying in silt and dead grass on the broad valley adjacent to the lakes, about 6:30 Wednesday morning.

The rushing waters had drifted the body out to water's edge where it lodged on a slight rise.

When Marvin Rape, the sheriff and Mortician Edell Moore reached the scene Wednesday morning they found muddied silt half knee deep. The body was lying face down. It had been severely beaten.

The waters which threw the wall of water in Crawford Draw cascading down the steep walls of Blanco Canyon to join the main stream four miles below, all fell in an area east of the Ralls-Floydada Highway, according to the picture of the flood area drawn for The Hesperian by people of that section.

At Ralls about 1 1/2 inches of rain fell as was true also at Cone. Northeast of Ralls and east of Cone the flood within an hour had poured out three and a half to seven inches of water, astride the Crawford Draw water shed. Water that fell over 25 to 40 sections of land all had one escape—through the arroyo that is Crawford Draw.

The area of heavy rainfall also extended into the Mt. Blanco community that lies east of Blanco Canyon and also into Lakeview and a part of the Pleasant Hill sector. At Lakeview where the rain was reported at 2 1/2 inches. It was a flood of water south and east for several miles from that point.

Two other carloads of Floydada young men and two brothers from Wake, who had been at Crosbyton the same night made the trip (See Flash Flood, page 8)

Church Census Sun. Afternoon

Floydada Minister's Fellowship is sponsoring a city-wide church census on Sunday afternoon, June 23. Members of the local churches will call at each home in the community to take the desired information.

The census takers will assemble at the Cumberland Presbyterian Church, Kentucky at 3rd St. at 2:00 p. m. for instruction prior to departing to their assignments.

It is expected that most of the census will be completed in the afternoon.

Any homes missed will be contacted again as soon as possible.

Information received will be distributed to the various churches as indicated on the cards.

No census has been taken in Floydada since the fall of 1955, and the Ministers' Fellowship feels that such a census is desirable at this time. The cooperating ministers request that the community support the effort.

No denominational literature will be distributed.

Wheat Referendum Being Held Today

Floyd County wheat growers today are voting on wheat marketing quotas for the 1958 wheat crop.

If two-thirds of the wheat growers of the nation vote for the quotas they become effective. B. L. Breed, Floyd County ASC chairman reports, otherwise the quotas will be lifted.

The outcome of the referendum will decide the level of the available price support for the 1958 crop, as well as whether quotas and penalties on "excess" wheat are used for the crop.

Seven balloting places have been provided for this referendum. Voting places are Lone Star, Lockney, South Plains, Cedar, Dougherty, Floydada, and McCoy.

Crop Prospect Brighter Over Floyd County

First wheat had begun to dribble into elevators in the northeast and the mid-west parts of the county this week, indicating that several crops are about ready to harvest.

But for the most part, particularly at Floydada and points east, where the heaviest rains fell, the harvest date is still far into next week sometime.

First wheat to get to the Barwise Elevator came from L. D. Simpson, who had three loads, two testing 13.41 moisture content and one load 13 per cent.

South Plains elevators were anticipating some movement of the wheat in that area Tuesday but communication to that area was poor and there were no reports received at this office.

At Barwise several combines will go into fields by the week-end for trial runs.

At Dougherty where general rainfall of about an inch is reported by Mrs. W. J. Ross, The Hesperian correspondent, there seems to be no wheat nearly ready. Rains were heavier in that area than in the early reporting sectors. At Floydada the story is "much the same."

In extreme northwest Floyd County along the Hale County line disturbing reports, not pinpointed, indicate there was heavy loss on a few farms from hail and heavy rain with wind Monday night.

Around Lakeview and to the south the heavy rains may turn out to have been a blessing instead of otherwise. Cotton that was not up on one farm Monday night could be seen from end to end down the rows Wednesday morning at one Mt. Blanco farm.

Generally the rainfall was about as desired over the county Monday night, falling gently and amounting to 2-tenths to 7-tenths. Floydada rain gauges showed 39-hundredths to 7-tenths.

Grady Walker had a load of barley at Farmers Elevator Company here Tuesday. It tested too much moisture content.

Ree Jones said a test run on a load of barley at Producers Elevator showed it too green and too much trash for a fair test.

Generally the report from B. A. Howell at Sterley probably reflects the condition of the crop and the late of the mind of the farm people. Said Mr. Howell:

Replanting is finished. Most crops are up and looking good. Since the big rains, have had only about one-fourth of an inch of rain.

Wheat harvest will start at the end of the week. Not a large acreage put a heavy yield is expected. Some smut in the wheat and some of it is falling down due to the heavy grain and the ranks talk. Farmers are all happy over the present prospect.

Missing Girl Sought

Officers yesterday were carrying on a search for Frances, 15-year-old daughter of Mr. and Mrs. Gene Hopker, who live in the vicinity of Erick.

The young miss left home Monday night in a party of young friends and has not been heard of since that time.

The worried parents notified officers when their daughter did not return or call them.

Cut Weeds On Vacant Lots,

Lewis Norman, secretary of the City of Floydada, said that owners of vacant lots in Floydada who have a weed crop since the rainy season can have their lots cut for \$2.50 per lot by calling the city hall and giving name and address.

Norman stated that the weeds this year are causing a definite mosquito problem due to abundant rains and citizens should take immediate steps to have their vacant lots cut.

The Floydada sanitation department is back on schedule this week after impassable conditions of most of the alleys in Floydada for a time.

Every effort during the rains was made to pick up garbage and many of the citizens of Floydada cooperated with the department by putting their garbage cans on the street curbs.

Lid Coming Off. When a construction crew got busy "taking the lid off" of Quitaque tunnel of the Denver lines it brought to light old pictures of the tunnel-building days of 1927-28. This one belongs to Harold Huggins, who was a member of the picnic party pictured from Lockney that spent an afternoon at the site. There'll be no more tunnel soon.

24 Rainbow Girls Plan Trip to Grand Assembly In Dallas

Grand Assembly for the Order of Rainbow for Girls, scheduled for July 1 through July 3 in Dallas, will be attended by 24 girls of the Floydada Assembly No. 235, Order of Rainbow for Girls.

Members planning to make the trip include Charlene Brown, Carolyn Sue Day, Julia Ann Daniel, Rilla Sue Durcan, Betty Jean Foster, Betty Graham, Gaynell Henry, MarGwen Lackey, Gematta Price, Loretta Price, Sue Ann Reue, Jo Ellen Reue;

Mary Word, Ann Word, Nancy Watson, Barbara Gilly, Gayle Rucker, Lois Ann Glover, Kay Golden, Martha Meek, Barbara Smith, Patricia Hill, Linda Smith and Verna Pate.

Mr. and Mrs. Ted Rutherford, Mother Advisor and Rainbow Dad, Mrs. L. A. Pate and Mary Jo Smith of Petersburg, will accompany the group to Dallas.

Miss Barbara Smith will be a member of the Grand Assembly Choir and Miss Betty Jean Foster of Lockney is Grand Representative from Kansas to Texas.

Miss Charlene Brown, Miss Kay Golden and Miss Sonja Beth Wilson, who is unable to attend, will receive their Grand Cross of Colors.

The Floydada group will leave Floydada June 30 at 1:30 p. m. by chartered bus.

Meeting For Mosquito Control on June 27

Interest continues to grow in the program of information on the control of mosquitoes which will be presented in Floydada next Thursday, June 27.

W. D. Power of Lubbock, and health department officials from Austin, will meet with Floyd County residents at 8:00 p. m. in the Floyd County court house and present action which Floyd County families may take to control mosquitoes in the area.

Special invitations to attend the meeting have been mailed to county and city officials, doctors, hospital and community leaders throughout Floyd county.

The program is sponsored by the Health and Safety Committee of the Chamber of Commerce.

Floydada Mattress Co. Is In New Location

More room and a chance to give better service are provided Floydada Mattress Company at their new location, 106 South Main Street, said R. N. Martin, proprietor, this week.

The factory has been operating on South Tree Street south of the new high school building. They moved last week.

As its name implies the factory features innerspring and cotton mattresses. It likewise stocks plastics and fabrics and does seat cover renovating, furniture upholstering and other work of a similar nature.

Equalizing Board To Sit Tomorrow

All renditions of public utilities, railroads, truck lines, pipe lines, and oil and gas leases will come under the scrutiny of the Commissioners Court tomorrow as that body sits as a board of equalization.

A Dallas firm, King, Latham & Stults, will sit in with the court in passing on the renditions on this extensive list of properties. The court's contract with the Dallas firm has run for the past five years, on a year-to-year basis.

CLUB FAMILY NIGHT

The Floydada Country Club will have "Family Night" tomorrow evening, (Friday), at 7:30 p. m. for all members of the club.

A covered dish supper will be served and drinks will be furnished.

Following the supper an evening of Bingo, with prizes, will be enjoyed.

Chest Funds Distributed This Week to Agencies For Welfare

Floyd County United Chest fund drive fell short of its mark in the 1956 drive by more than \$1,000. With a goal of \$115,000 the chest expected to meet its obligations to Red Cross (\$3,500); Boy Scouts (\$3,500); Heart Association (\$1,000); Salvation Army (\$2,330.80); and USO (\$250).

The combined total of these came to \$10,450.00 and the balance between this figure and \$11,000.00 was to be an operating surplus and take care of campaign expenses and publicity.

Report from campaign chairman J. M. Wilson, Jr., and treasurer W. J. Adams shows that the county had only \$9,176.40 as of last week.

Of this some \$2,750.00 was raised by Lockney and the north half of the county, \$6,426.40 came from Floydada and the south half. The Floydada fund was originally \$6,494.00 before paying campaign expenses and other operation costs for the entire county.

Faced with the shortage of funds and the need of paying off pledges to the participating agencies, the campaign chairman and treasurer divided what was on hand in the following manner:

Red Cross received \$2,936.45, and this same amount also received by boy scout fund. Heart Association received \$972.70 and Salvation Army

\$2,330.80. USO was left out. A quota of \$250 had been asked.

Wilson said the volunteer workers he had talked with were disappointed to see the chest fall short as they did not want the county to have to go back to the multiple drives put on by individual charities.

Many around town seem to favor a division of the county as an answer to the problem. Most all rural communities have been doing a good job of fund raising and it was felt that Floydada could meet its quota.

Some proposed to divide the county into north and south half and set up a quota for each or to allow each a quota for each and to join with the group with which it preferred to work and thus set up a goal in that way.

Most volunteer workers who have been willing to give time to the drives feel that separate drives driven through the entire year and work a burden on those who serve. They also fear that the shortage of funds will cause member agencies of the chest to withdraw.

The problem will be worked out in some manner in the next few weeks. 1957 fund drive campaigns for most organizations in the united chest have already been held in other counties. The usual date for the united drive in Floyd County is in the late fall and early winter.

The searchers Tuesday night and

Wednesday morning gave up at 4 o'clock after sloshing in mud and debris to resume their hunt for the body after sun-up. Edell Moore and Sheriff Hollums led the searching parties in the night and went to Silver Falls below Crosbyton on the possibility the high waters might have carried the body far down-stream. The young man's wife and his parents kept vigil at the scene and in nearby homes while the search was on.

When Marvin Rape, the sheriff and Mortician Edell Moore reached the scene Wednesday morning they found muddied silt half knee deep. The body was lying face down. It had been severely beaten.

The waters which threw the wall of water in Crawford Draw cascading down the steep walls of Blanco Canyon to join the main stream four miles below, all fell in an area east of the Ralls-Floydada Highway, according to the picture of the flood area drawn for The Hesperian by people of that section.

At Ralls about 1 1/2 inches of rain fell as was true also at Cone. WCS Women Learn of Pastoral Work Done in Missions

(By Mrs. Gene T. Arwine)
 Susanna Circle of the Women's Society of Christian Service of the First Methodist Church played hostess to members of the Ruth Circle, Monday morning at 10 o'clock in the parlor of the church.

Guest speakers for a round table discussion included the Rev. F. E. Mooney, pastor of the Friendship Methodist Church, Plainview, Mrs. Fanny McIntosh, wife of the assistant pastor, and Mrs. Ivy Pleasant, vice-president of the WCS of that church.

Members and guests were enchanted with Rev. Mooney's warmth and delightful sense of humor which indicated the rare ability to laugh at one's tragedies and praise God for every small blessing.

Rev. Mooney, who lives in Plainview and comes every other Sunday to Floydada to preach, has established 43 colored churches in Texas. The present membership of the local church is 35, with only 16 of them being adults. And yet a limited membership hasn't hampered the ardor, love and hard work of its few members.

Upon the audience's request the minister presented the present dire needs of the church, which came to a total of \$86. A free-will offering was taken and \$48.29 was presented to the Friendship Church. Anyone desiring to communicate with the church may do so by calling Mrs. George Tony and asking for Mrs. Albert McIntosh.

Also on the program agenda for the morning was a report from the Latin American Methodist Church in Floydada. As Mr. and Mrs. Sanchez were unable to attend, Mrs. Ralph Johnston, chairman of the Community Missions of the W. M. U. of the First Baptist Church, addressed the group.

The First Baptist Church has worked very diligently with the Latin American Mission, and it was with great interest that the Methodist ladies heard the report on what was being done and what still needs to be done. The Baptist ladies have contributed Bibles in English for the Mexican children and endeavor to keep the indigent in clothing. As yet no classes have been organized for the instruction of English.

Mrs. J. H. Barnard, chairman of the Missionary Education committee of the W. S. C. S., presented the guest speakers. Mrs. J. M. Willson sr. closed the meeting with a prayer.

Pastors Helpers Met Thursday Afternoon

The Pastors Helpers Class of the First Methodist Church met last Thursday at the home of Mrs. W. W. Trapp with Mrs. Mable Miles, Mrs. Will Small and Mrs. Lila Slaughter as hostesses.

Mrs. Bob Henry gave the devotion-al on "Answered Prayers."

Those present were Rev. and Mrs. Phil H. Oates, Mesdames Ethel King, Luther Fry, W. H. Hilton, Sam Thurman, W. H. Seale, W. A. Shaw, J. J. McKinney, Lillie Henry, W. R. Jahnke, O. B. Olson, J. E. Laughlin, John Walker, Addie Thaggard, D. D. Shipley, W. W. Trapp and the hostesses, Mrs. Miles, Mrs. Small and Mrs. Slaughter.

We nominate for the most fearless man of the year one Jack Smith who has written a magazine story about what poor cooks American women are.

Using a name so commonplace that it must be a pet-name — for safety — he really lets us have it: "It's not enough to say the American housewife is lazy. She isn't. Or stupid. She isn't. Or uninterested in food. Take her to a good restaurant and she will devour anything set before her with the voraciousness of a crocodile," he says.

"The trouble is she simply doesn't like to cook. Cooking bores her. She resents it. And resenting it, she does it badly."

He continues with sideswipes at our shopping, planning, lack of imagination, wastefulness, poor timing and no organization.

"Have you ever finished a stew," he asks, "and aimed a spoon at the pudding only to hear the distressing news that the soup will be ready in a jiffy?"

"Have you ever seen a bowl piled so high with potatoes you thought they were not meant to be spooned up, but climbed? And put them on a plate alongside a sliver of meat that a cow might have surrendered with nothing more than a flick of her tail? Only to find there was no gravy?"

Not only is the guy uproariously funny, he's accurate. He's got our number, right down to the leftovers we tuck away in the refrigerator and call economy.

If we weren't sure our own spouse is so intimidated that he has lost his sense of humor about cooking, we'd suspect him of having been the author.

Let's face it ladies. We're spoiled, well-fed, happy housewives, who love "aring our cake and not baking it." Let's forget the whole thing, make up, and go out to supper tonight.

Floyd-Harrison Marriage Vows Said Saturday

Miss Jerri Floyd, daughter of Mr. and Mrs. Frank Floyd of the Cedar Hill Community, and Jerry Bob Harrison, son of Mr. and Mrs. D. C. Harrison of the Lakeview Community, were united in marriage Saturday, June 8, at the home of the bride's parents.

The Rev. G. C. Applewhite read the double-ring ceremony and presided over the ceremony. The bride, given in marriage by her father, wore a sheath dress of beige linen and lace with brown accessories. She wore a corsage of brown orchids.

Mrs. James Guy of Snyder attended as matron of honor. She wore a white sheath dress with white accessories and a green orchid corsage. Norman Muncy served the groom as best man.

Following the ceremony a reception was given in honor of the couple. The bridal table was laid with a lace cloth over green and centered with an arrangement of roses. A two-tiered wedding cake and crystal appointments completed the setting. Miss Darlean Laminack and Mrs. Don Floyd of Snyder, sister-in-law of the bride, assisted in hospitalities.

The couple are at home in the Lakeview Community, where the bride-groom is engaged in farming after a wedding trip to points of New Mexico.

Mrs. Harrison attended Floydada High School, Harrison, a graduate of Floydada High School and attended West Texas State College and has served two years in the United States Army.

Miss Ann Jones, bride-elect of David Mount, was honored with a miscellaneous shower Tuesday evening from 7 until 9 p.m. at the home of Mrs. L. F. Martin, 428 South White Street.

Many Disabled Persons Covered By New Social Security Benefit

More than one hundred thousand severely disabled people in communities all over the Nation will receive their first social security disability insurance checks in August, John G. Hutton, district manager of the Lubbock Social Security office announced today.

But many other eligible disabled workers 50 to 65 years of age, some of them no doubt living in Texas, have so far failed to make application to their social security offices. Those who have been disabled for work for a long time must apply before June 30, Mr. Hutton pointed out, or they will lose their rights to these new benefit payments.

Any severely disabled person who has worked under social security for at least 5 years and who has been disabled for six months or more should get in touch with his social security office right away, the social security district manager said.

If he is between 50 and 65 years of age, he may be eligible to have his social security record frozen to protect his future right to disability payments, and also his and his family's rights to old-age and survivors insurance benefits.

"Unfortunately there is a lot of misunderstanding," Mr. Hutton said, "as to how disabled a worker has to be to get social security disability insurance benefits or to have his social security record frozen. The rules in the social security law for deciding whether a person is 'disabled' are different from the rules in some other Government and private disability programs."

To be found "disabled" under the social security law, he said, a worker must have a disability which in the words of the law, makes him unable "to engage in any substantial gainful activity." It must be the kind of physical or mental condition which shows up in the medical evidence, including his doctor's report, hospital reports, or special tests. It must have lasted at least six months and be expected to continue for a long and indefinite time.

In general, he said, "substantial gainful activity" means the performance of a substantial amount of work with reasonable regularity in employment or self-employment. A person does not have to be completely helpless to qualify under the social security disability provisions, Mr. Hutton emphasized. Consideration is given to all of the facts in the individual's situation both medical and non-medical.

First consideration is, of course, given to the severity of his condition as shown by the medical evidence. This evidence must show that the person has a condition which makes him unable to perform significant functions such as moving about, handling objects, hearing, speaking, understanding, or reasoning, so that he cannot with his training, education and work experience engage in any kind of substantial gainful activity.

Mr. Hutton said most individuals with such serious disabilities are unable to work. There are cases, however, where a person with such a severe disability is working, or able to work, because of his special knowledge and skills. He would not be entitled to benefits, the district manager said, because he would be able to engage in substantial gainful activity.

A person might work occasionally or intermittently and this would not necessarily mean that he was able to engage in substantial gainful activity. Both the nature of the work and the amount of money he earned would have to be considered.

On the other hand, some persons with conditions somewhat less severe than the ones listed above might be found unable to engage in substantial gainful activity because of the actual facts in their cases. If a person's condition coupled with his work background, his lack of education, training, and other physical and mental resources does in fact prevent him from working, he would have a disability which prevents him from engaging in substantial gainful activity.

activity, and was found eligible under the new disability benefit.

FATHER'S DAY
 Mr. and Mrs. Tom Trapp and daughter Jeanette celebrated Father's Day in the morning at the home of Mr. and Mrs. Trapp. Other guests of the day were Mr. and Mrs. Trapp's daughter Vicki.

Tom Bob is wearing a degree at West Texas State University and will graduate in the fall to serve in the schools.

Mr. and Mrs. Trapp's daughter Vicki is expected to arrive in the morning for a week-end visit with her parents. Mr. and Mrs. Trapp and other relatives were present.

Mr. and Mrs. Trapp's son James, of Lubbock, spent the day with his parents. They also visited with the Wagners during the day.

Grow Hogs, Cows To Make Farm 'Go'

(By Jack Kassahn)

The Fritz O. Schacht family living one mile southwest of Lockney, have re-organized their family farming unit with the assistance of the Farmers Home Administration. Mr. Schacht has formerly been a dairyman and operated a sixty acre irrigated farm with 40 acres of cropland of which he owned 28 acres.

The unit was too small and the Schacht family wanted to get a better farm unit, and re-organize their livestock program. The family needed a long term loan with cheap rate of interest to get their planned program into operations.

Mr. Schacht sold his dairy stock and now farms an 188-acre irrigated farm, of which 28 acres are owned by him.

Instead of looking for new crops, Mr. Schacht is making the maximum use of the experience that he has had with crops he can grow, harvest and market from his farm. As for livestock, Mr. Schacht has set his goal for the raising and marketing of No. 1 hogs.

Mr. Schacht has four acres of alfalfa that he plans to use for hog production. His plans call for a gross income of over \$1500 from the four acres of alfalfa. Unless the market of hogs falls below 15 cents a pound, he will more than meet one-half of his plan by the middle of July.

Mr. Schacht is quite pleased with his hog program and believes this country has a future for hog production and marketing. His sons share in his belief as Morris Don, age 13 and Clar, age 11, have swine as their projects in FFA work. Mr. Schacht has duroc jersey hogs and the boys have hamphire and berkshires.

One advantage of swine production for Mr. Schacht has been the low capital investment of less than \$450. Mr. Schacht has been able to use scrap lumber and pipe for his facilities of his swine outlay. As for fencing, he has had good success in handling his hogs with a single electric wire.

As Mr. Schacht has just began his swine production and has only four sows and 26 shoats and as his boys have four girls, very little time is needed to handle his swine. He has his outlay so arranged it takes

less than 20 minutes in the morning and about the same time in the evening for handling his swine.

The four acres of alfalfa more than takes care of the present swine and as Mr. Schacht knows that hogs do best on a tender and succulent pasture, he plans to mow the hay and feed it to his five head of cattle.

To make maximum use of the 28 acres that he owns, he has two acres in rye which his cattle graze. He will take the cattle off the pasture and feed the mowed hay, letting the pasture rest. By this manner he plans to make the best use of his pasture at all times along with the care of his livestock.

The basic crops on the farm are cotton and grain sorghum. Mr. Schacht is most grateful to the Farmers Home Administration for giving him a new outlook on farming and a new chance to succeed on the farm. Mr. Schacht is well aware of the average production of irrigated cotton under Farmers Home Administration in 1936 which was 362 pounds of lint cotton per acre.

Mr. Schacht in his plans a crop rotation with legumes and fertilizers which is one of the goals set up by the local FFA office in promoting better agriculture.

Billy Gene Warren Named Laboratory Assistant at Halfway

HALFWAY, Texas. — Billy Gene Warren, who is Laboratory Assistant at the High Plains Station at Halfway graduated from high school in Floydada in 1937. His FFA projects were in crops and cattle.

He completed a bookkeeping course at Lippert's Business College in Plainview in 1936. Mr. Warren was for five years an employee of the Producers Grain Elevator in Floydada. He farmed the W. W. Payne place and worked for Henry Hinton on the adjoining farm near Dougherty in 1935-36.

His dryland farming and grain experience coupled with his business training made Billy Gene eligible for the Field and Laboratory job at the station.

Mr. and Mrs. Warren with their three boys now live in Plainview.

Fritz O. Smith and his sons, Don and Klar, of Lockney believe in hogs and cattle to make their farming operations profitable, put them on their feet and on the way to independence. The accompanying story tells the whys and wherefores of their operations.

Fascinating History Of Short Line Being Preserved at Museum

LUBBOCK, May -- Texas Tech has been chosen to preserve details of one of history's most fascinating railroads -- a 30-mile line linking two rail giants whose tracks stretch from coast to coast.

The midsize corporation is the Roscoe, Snyder and Pacific Railroad and the minute books of the operation are being microfilmed for preservation in Tech's Southwest Collection.

Tech Associate Archivist Roy Sylvan Dunn said the acquisition is another instance of growing cooperation between a business and a college research center to preserve invaluable records.

Traffic from the east on the Santa Fe Railroad runs as far as Snyder. The tiny line then transports freight 30 miles to Roscoe to make connection with the Texas and Pacific Railroad for any journey farther west. The reverse is true of west-bound traffic.

According to Roscoe-Snyder officials, 85 per cent of all traffic on the line is of this "bridge" type. The other 15 per cent is local. Officials also claim a substantial saving in time is effected on east-west and west-east traffic by using the short line's services. A car of freight is handled in the average time of one hour and 52 minutes.

The obvious question which enters the minds of most persons is, "But wouldn't it be more to the advantage of the two big rail companies to by-pass the little Roscoe-Snyder line and build a junction point?"

"No," according to Santa Fe and Texas-Pacific officials. "We stand to lose more than we could gain."

It seems the stature and prestige of the Roscoe-Snyder railway has grown so since its inception in 1906, that the big companies can't afford to be without the service.

The Roscoe-Snyder line employs between 18 and 20 collectors in such key cities as Chicago, Pittsburgh, Pa., Memphis, Tenn.; Oakland, Calif.; Los Angeles, Birmingham, Ala.; Washington, D. C.; Dallas and Houston. These collectors, whose job it is to sell the services of the little 30-mile line are pillars in their communities and form a public relations network so engrained that by-passing the little line would do more harm than good.

Reportedly Santa Fe and Texas-Pacific officials find efficient services offered by the little line to their liking, also.

Many west coast shippers insist that when shipping onions, grapes and certain other perishable items to Cuba through New Orleans, the Roscoe-Snyder line is safer and faster, and as much as eight hours in time alone can be saved in moving freight from west to east.

For in-and-out traffic on the Roscoe-Snyder line, Dallas and Houston have become the top ranking cities in Texas, and Los Angeles the number one point in the United States.

Citizens in the two Texas towns take as much pride in the line's operation as if it were a complete trans-continental railroad. The road was founded and chartered in 1906. The first train ran between the two cities in 1908. Company offices have always been operated by Roscoe

citizens. This "homegrown" talent has proved very satisfactory.

The company also has its shops in Roscoe, and boasts some of the finest equipment in use today. Chief stockholders are the Wooten's Don Wooten, president and general manager, lives in Abilene. Several of the original workers are still with the line.

In recent efforts to get records of West Texas businesses, Tech has acquired the entire ranching-business records of the old Matador Land and Cattle Co. This newest acquisition furthers still this record-gathering process.

Tomato Prices Change Wildly On The Market

College Station, May -- West Texas farmers "backed to the wall" by acreage controls and low grain sorghum prices are scanning the list of vegetable crops in a search for some profitable use of diverted acreage. Tomatoes may fill the bill if growers can economically produce the necessary quality for moving into central states' markets.

A 1936 study conducted by Texas A & M's Department of Agricultural Economics and Sociology revealed that farmers in Bailey, Farmer, Deaf Smith, Castro, Lamb, Hale Lubbock and Floyd counties produced 348 bushels of tomatoe, an acre. Production and marketing costs averaged \$188.00 an acre.

Chief competitor for West Texas tomatoes in the central states area will be California, long-time producer of high-quality vegetables. West Texas growers must realize the importance of management practices such as padding and covering for transporting tomatoes in containers and the advantage of a good grading system if they expect to enter serious competition for any major market.

Unlike most West Texas crops, tomato prices fluctuate widely. Agricultural Economists cannot give a complete set of reasons for the annual price variations, but can partially explain them. Variations in Texas and competing area production of tomatoes as well as variations in the national disposable income are cited as important influences concerning these price differences.

For complete details of this study write to the Agricultural Information Office at College Station; Ask for PR 1925.

Mrs. W. M. Dorsey's son, Robert Montgomery and his wife and baby, Pam, left this week for Abernathy, where they will make their home. Mr. Montgomery, who taught the past year in Almodora, N. M., will have a teaching position in the junior High School at Abernathy.

Mr. and Mrs. Garth Gotcher and family spent last week-end in Houston with relatives and friends.

ARMY BIOCHEMIST—Captain Nicholas V. Carroll studies liver reaction at Walter Reed Army Hospital in Washington. He is preparing the blood-circulating apparatus in which a rabbit liver will be kept alive. Specialists of the Medical Service Corps, by working in 55 fields allied with medicine, allow physicians and surgeons to concentrate their skills and up-to-date knowledge on the patient.

COURT HOUSE

In 119th District Court
Yesterday Judge L. D. Rathoff convened a jury commission to select petit jury and grand jury panels for "July term" of district court.

Case dismissed:
R. J. Battle vs. John C. Hill, suit for damages.
Case filed:
Joe S. Hill vs. W. D. Carroll, suit for damages.
Pauline Wright vs. Verlon Wright, suit for divorce.

In Probate Court
In the matter of the estate of Lena Nelson, order entered admitting will to probate, naming Raymond H. Nelson administrator without bond and independent, and appointing R. E. Fry, M. P. Gorn and G. C. Tubbs appraisers of the

estate.

Grow Hogs, Cows To Make Farm 'Go'

(By Jack Kassahn)
The Fritz O. Schacht family living one mile southwest of Lockney, have re-organized their family farming unit with the assistance of the Farmers Home Administration. Mr. Schacht has formerly been a dairyman and operated a sixty-acre irrigated farm with 40 acres of cropland of which he owned 28 acres.

The unit was too small and the Schacht family wanted to get a better farm unit, and re-organize their livestock program. The family needed a long term loan with cheap rate of interest to get their planned program into operation.

Mr. Schacht sold his dairy stock and now farms an 188-acre irrigated farm, of which 28 acres are owned by him.

Instead of looking for new crops, Mr. Schacht is making the maximum use of the experience that he has had with crops he can grow, harvest and market from his farm. As for livestock, Mr. Schacht has set his goal for the raising and marketing of No. 1 hogs.

Mr. Schacht has four acres of alfalfa that he plans to use for hog production. His plans call for a gross income of over \$1500 from the four acres of alfalfa. Unless the market of hogs falls below 15 cents a pound, he will more than meet one-half of his plan by the middle of July.

Mr. Schacht is quite pleased with his hog program and believes this country has a future for hog production and marketing. His sons share in his belief as Morris Don, age 13 and Clar, age 11, have swine as their projects in FFA work. Mr. Schacht has done jersey hogs and the boys have hamphire and berkshires.

One advantage of swine production for Mr. Schacht has been the low capital investment of less than \$450. Mr. Schacht has been able to use scrap lumber and pipe for his facilities of his swine outlay. As for fencing, he has had good success in handling his hogs with a single electric wire.

As Mr. Schacht has just begun his swine production and has only four sows and 26 shoats and as his boys have four gilts, very little time is needed to handle his swine. He has his outlay so arranged it takes

less than 20 minutes in the morning and about the same time in the evening for handling his swine.

The four acres of alfalfa more than takes care of the present swine and as Mr. Schacht knows that hogs do best on a tender and succulent pasture, he plans to mow the hay and feed it to his five head of cattle.

To make maximum use of the 28 acres that he owns, he has two acres in rye which his cattle graze. He will take the cattle off the pasture and feed the mowed hay, letting the pasture rest. By this manner he plans to make the best use of his pasture at all times along with the care of his livestock.

The basic crops on the farm are cotton and grain sorghum.

Mr. Schacht is most grateful to the Farmers Home Administration for giving him a new outlook on farming and a new chance to succeed on the farm. Mr. Schacht is well aware of the average production of irrigated cotton under Farmers Home Administration in 1956 which was 562 pounds of lint cotton per acre. Mr. Schacht has in his plans a crop rotation with legumes and fertilizers which is one of the goals set up by the local FFA office in promoting better agriculture.

Billy Gene Warren Named Laboratory Assistant at Halfway

HALFWAY, Texas. — Billy Gene Warren, who is Laboratory Assistant at the High Plains Station at Halfway graduated from high school in Floydada in 1947. His FFA projects were in crops and cattle.

He completed a bookkeeping course at Lippert's Business College in Plainview in 1956. Mr. Warren was for five years an employee of the Producers Grain Elevator in Floydada. He farmed the W. W. Payne place and worked for Henry Hinton on the adjoining farm near Dougherty in 1955-56.

His dryland farming and grain experience coupled with his business training made Billy Gene eligible for the Field and Laboratory job at the Station.

Mr. and Mrs. Warren with their three boys now live in Plainview.

Fritz O. Smith and his sons, Don and Klar, of Lockney believe in hogs and cattle to make their farming operations profitable, put them on their feet and on the way to independence. The accompanying story tells the whys and wherefores of their operations.

Fascinating History Of Short Line Being Preserved at Museum

LUBBOCK, May -- Texas Tech has been chosen to preserve details of one of history's most fascinating railroads -- a 30-mile line linking two rail giants whose tracks stretch from coast to coast.

The midsize corporation is the Roscoe, Snyder and Pacific Railroad and the minute books of the operation are being microfilmed for preservation in Tech's Southwest Collection.

Tech Associate Archivist Roy Sylvan Dunn said the acquisition is another instance of growing cooperation between a business and a college research center to preserve invaluable records.

Traffic from the east on the Santa Fe Railroad runs as far as Snyder. The tiny line then transports freight 30 miles to Roscoe to make connection with the Texas and Pacific Railroad for any journey farther west. The reverse is true of west-bound traffic.

According to Roscoe-Snyder officials, 85 per cent of all traffic on the line is of this "bridge" type. The other 15 per cent is local. Officials also claim a substantial saving in time is effected on east-west and west-east traffic by using the short line's services. A car of freight is handled in the average time of one hour and 52 minutes.

The obvious question which enters the minds of most persons is, "But wouldn't it be more to the advantage of the two big rail companies to by-pass the little Roscoe-Snyder line and build a junction point?"

"No," according to Santa Fe and Texas-Pacific officials, "We stand to lose more than we could gain."

It seems the stature and prestige of the Roscoe-Snyder railway has grown so since its inception in 1906, that the big companies can't afford to be without the service.

The Roscoe-Snyder line employs between 18 and 20 solicitors in such key cities as Chicago, Pittsburgh, Pa.; Memphis, Tenn.; Oakland, Calif.; Los Angeles; Birmingham, Ala.; Washington, D. C.; Dallas and Houston. These solicitors, whose job it is to sell the services of the little 30-mile line are pillars in their communities and form a public relations network so engrained that by-passing the little line would do more harm than good.

Reportedly Santa Fe and Texas-Pacific officials find efficient services offered by the little line to their liking, also.

Many west coast shippers insist that when shipping onions, grapes and certain other perishable items to Cuba through New Orleans, the Roscoe-Snyder line is safer and faster, and as much as eight hours in time alone can be saved in moving freight from west to east.

For in-and-out traffic on the Roscoe-Snyder line, Dallas and Houston have become the top ranking cities in Texas, and Los Angeles the number one point in the United States.

Citizens in the two Texas towns take as much pride in the line's operation as if it were a complete trans-continental railroad. The road was founded and chartered in 1906. The first train ran between the two cities in 1906. Company offices have always been operated by Roscoe

citizens. This "homegrown" talent has proved very satisfactory.

The company also has its shops in Roscoe, and boasts some of the finest equipment in use today. Chief stockholders are the Wooten's. Don Wooten, president and general manager, lives in Abilene. Several of the original workers are still with the line.

In recent efforts to get records of West Texas businesses, Tech has acquired the entire ranching-business records of the old Matador Land and Cattle Co. This newest acquisition furthers still this record-gathering process.

Tomato Prices Change Wildly On The Market

College Station, May — West Texas farmers "backed to the wall" by acreage controls and low grain sorghum prices are scanning the list of vegetable crops in a search for some profitable use of diverted acreage. Tomatoes may fill the bill if growers can economically produce the necessary quality for moving into central states' markets.

A 1956 study conducted by Texas A & M's Department of Agricultural Economics and Sociology revealed that farmers in Bailey, Farmer, Deaf Smith, Castro, Lamb, Hale, Lubbock and Floyd counties produced 348 bushels of tomatoes an acre. Production and marketing costs averaged \$188.00 an acre.

Chief competitor for West Texas tomatoes in the central states area will be California, long-time producer of high-quality vegetables. West Texas growers must realize the importance of management practices such as padding and covering for transporting tomatoes in containers and the advantage of a good grading system if they expect to enter serious competition for any major market.

Unlike most West Texas crops, tomato prices fluctuate widely. Agricultural Economists cannot give a complete set of reasons for the annual price variations, but can partially explain them. Variations in Texas and competing area production of tomatoes as well as variations in the national disposable income are cited as important influences concerning these price differences.

For complete details of this study write to the Agricultural Information Office at College Station. Ask for PR 1925.

Mrs. W. M. Dorsey's son, Robert Montgomery and his wife and baby, Pam, left this week for Abernathy, where they will make their home. Mr. Montgomery, who taught the past year in Almgorda, N. M., will have a teaching position in the junior High School at Abernathy.

Mr. and Mrs. Garth Gotcher and family spent last week-end in Houston with relatives and friends.

ARMY BIOCHEMIST—Captain Nicholas V. Carroll studies liver reaction at Walter Reed Army Hospital in Washington. He is preparing the blood-circulating apparatus in which a rabbit liver will be kept alive. Specialists of the Medical Service Corps, by working in 55 fields allied with medicine, allow physicians and surgeons to concentrate their skills and up-to-date knowledge on the patient.

RECREATION DATES

June Party Night For Seventh Graders Saturday at 8 o'clock

Seventh graders of the Floydada area should remember that Saturday night is the date for their June party night according to Mrs. J. D. Parks, chairman of the Chamber of Commerce Recreation Committee.

Boys and girls who will be in the seventh grade in September are invited to the party night at Napoleon Park at eight p. m. The party will be sponsored by seventh grade parents.

Parents of this age group are also asked to meet at the Chamber of Commerce office this afternoon at 4:00 p. m. to final their plans for the party night.

The planning meeting for the ninth grade party which is set for June 29 will be held at the Chamber of Commerce office on June 27.

Tennis instruction classes opened Monday afternoon. Charles Tyler who will conduct the classes said that 23 boys and girls registered for the summer series.

Boys will play from 3:00 p. m. until 5:00 p. m.

'Splash Day' Inaugurates Swim Season

"Splash Day" opened the Floydada municipal swimming pool last Thursday afternoon for the season and a large crowd has been reported each day since the opening.

The pool is opened each afternoon at 1 p. m. and closed at 9 p. m. Admission is 25 cents and 50 cents.

Swimming classes were started Monday morning and lessons are being taught from 10 a. m. to 11 a. m. each morning. The charge for the lessons is \$5 per person.

Lee Roy Terrell is manager of the pool and concessions and Fred March is life guard on duty while the pool is in operation.

The girls are scheduled to play from 5:00 p. m. until 7:00 p. m. Tyler will be assisted by Ronnie Downing and Sonja Beth Wilson.

Mrs. Lynn Miller has announced that the first girl's soft ball game will be at the Andrews Ward school play ground this afternoon at 5:00 p. m. Eleven girls have registered for the soft ball teams.

They will play each Thursday afternoon during the summer recreation program, Mrs. Miller said.

Sonja Beth Wilson will instruct classes in twirling each Monday and Wednesday afternoon from 5:00 p. m. until 7:00 p. m. at Napoleon Park.

Twenty-five cents for each hour's instruction will be charged for these classes.

Flash Flood

(Continued from first page)

through the blinding rain across Blanco to reach their home safely. They had to be ahead of Rape because the bridge was not flooded.

Rape and the other ex-service men had been to a GI typing and bookkeeping school at Crosbyton. When the storm clouds came up they were dismissed early to go home. Pete Loney, who was one of these students, said the occupants of the two Floydada cars were J. P. Dalton, Chas. Collum, Wallace Sprayberry, employes of Piggly Wiggly, Buck Maricle of the REA force, W. J. Adams Jr., assistant cashier of the First National Bank, Don Daniel of Daniel Automotive, and himself.

They crossed the draw on the bridge shortly before 10 o'clock, he thinks, certainly not later than 10. They and Rape and two Wake students, Harold and Claude Myers, left the schoolroom at the same time. All reached home except Rape.

He had left his car in Crosbyton for the repair of a broken axle, riding over to Crosbyton with the other boys. He was returning alone in his car.

Loney said he didn't notice whether Rape did or didn't leave at the same time as he and his party. The rains began falling in torrents before they reached the canyon rim eight miles north of Crosbyton. The group has been studying three nights a week. Rape had been attending the school for about a year.

He was regularly employed at Bohannon Oil where he and his father have been engaged recently in a gin renovating job, working together. Rape was a robust young fellow who did not know his strength. His father was at first only concerned, but later became alarmed when no word was heard from his working partner's son.

David Rape served in the army. He was married two years ago on June 17 to Alta Faye Martin, of Crosbyton, daughter of Mr. and Mrs. Sam Martin. They have a son, David Randell, who was a year old on March 16.

Sam Martin, his father-in-law, died about a month ago at Crosbyton.

Besides his wife and child and his parents, David is survived by a sister, Mrs. Leslie Nixon.

The funeral is planned to be held at 3 o'clock this afternoon at the First Baptist Church, with Rev. E. K. Lewis, the pastor, officiating.

C. Penney Company, 118 East California Street; R. N. R. Fashions, 116 South Main Street; Miladies Specialty Shoppe for Women, with variety, brand names and service, is located at 120 West

NATIONAL WARNING System, including some 28,000 miles of wire, is shown with its intricate connections to 200 civil defense warning points across the nation. The new network may be used to sound a single national attack alarm from the Federal Civil Defense Administration's National Warning Center at Colorado Springs, or if necessary, from similar warning centers at Stewart Air Force Base, N. Y., or Hamilton Air Force Base, Calif. From the warning points, State and local civil defense hook ups would pass the word along to the people to evacuate or take shelter.

New In Floydada

Two Western Wear Stores in Floydada, The Wagon Wheel, located at 414 West Houston Street, and Modern Shoe Shop, located on South Main Street, feature the latest in western wear for girls, ladies, boys and men.

Mens fashions in sport coats, jackets, shirts, ties, socks, jewelry, etc. can be found at Keim's Haberdashery, 204 South Main Street, and Mad Snodgrass Mens Wear, 208 South Main Street.

These merchants spend an average of 20 days a year in the markets to keep up with the trends, to keep abreast of the new, and do much of their buying.

Pittard And 4-H Group Are Home

First Lt. Lynn P. Pittard returned home Saturday from United States Army Reserve Summer Camp at Ft. Sill, Okla.

Pittard, Battery Commander of Battery A-330 Field Artillery Battalion, accompanied 22 men and three officers to Ft. Sill from Plainview.

Mrs. Pittard and son, Joel Lee, visited in Garland with her parents, Mr. and Mrs. L. R. Brooks and in Santa Anna with her husband's parents, Mr. and Mrs. W. H. Pittard, while their husband and father were gone.

Pittard joined the Floyd County 4-H group at the 4-H State Round-up in College Station, June 11-13.

Those from Floyd County attending were Warren Mitchell, Billy Don Johnston, Hal Dean Hines, Kenneth J. Neill, Freida Smith, June Marble and Mrs. Loyd Deavenport, adult leader.

This group returned home last Saturday evening.

A man whose normal weight is 150 pounds would weigh about 50 pounds if all the water in his system were dried up.

Interest Grows As Baseballers Get Into Form

With more than a week of dry weather league baseball in Floydada has begun to gain in interest. All three circuits have been playing a full schedule for several nights now and favorites are beginning to show up in the team standings.

There will be no let up in play this week unless the weatherman interrupts. The schedule shows three games on tap for tonight (June 20) White Sox vs. Tigers; Cardinals vs. Giants; and First National vs. Lighthouse. Friday night will see White Sox take on Braves; Dodgers battle Indians; and Farm Bureau tangle with VFV. Monday it will be Cardinals against Indians; First National vs. VFV. Next Tuesday's schedule shows White Sox against Red Sox; Dodgers against Giants; and Farm Bureau against Lighthouse.

In play last Thursday and Friday night VFV took First National to the tune of 11 to 6 behind the fine pitching of Danny Hernandez. James Campbell was the losing hurler.

At the new Sherrill field on Thursday it was the Braves 20 to the Tigers 10. Jackie Walker hit the first over the fence home run in the new park to win for himself a new baseball and help for his teammates in their victory. The Cardinals took the Indians in the nightcap by a 14 to 4 score. Billy Morren was winning pitcher and Ronnie Payne the loser.

Leading batters in the pony league taken from those with 10 or more times at bat show:

Player	Team	Avg.
Max Campbell, Lighthouse	---	.600
Henry Williams, Farm Bureau	---	.582
Edwin Pierce, Farm Bureau	---	.582
Richard Marler, VFV	---	.529
James Campbell, 1st Natl.	---	.500
Chick Owens, VFV	---	.427
L. C. (Willie Mayes) White, 1st Natl.	---	.416
Larry Orman, VFV	---	.416

CORRECTED DATE GIVEN

Hale Department Store's advertisement, appearing on another page in this issue, indicates Harvest Sale Days as beginning June 26. This is in error. Date should read June 21-22, June 24-25.

Friday night saw Farm Bureau down Lighthouse 19-13 while at the other park it was Red Sox 28 to Tigers 11 in a pitchers duel, and the second game was Giants 9-Dodgers 8. Samuels was winning pitcher and Watts the loser.

Unofficial team standings from games played through last Friday night are as follows:

Pony League			
Team	W	L	Pct.
VFV	4	0	1000
Lighthouse	2	2	.500
First National	1	3	.250
Farm Bureau	1	3	.250

National League			
Team	W	L	Pct.
Giants	3	0	1000
Indians	2	2	.500
Cardinals	1	1	.500
Dodgers	0	3	.000

Texas League			
Team	W	L	Pct.
Braves	4	0	1000
Red Sox	2	2	.500
White Sox	1	1	.500
Tigers	0	4	.000

Floydada Is Unique as Farm Machinery Center

scrap bearings, had to make an effort to learn about improved farm machinery.

As day follows night, so will a large share of the farm capital goods market go to the dealer who has bestirred himself to learn more about helping his customers by stocking the equipment and the supplies that make faster, less laborious, more profitable farming, and who has explored what it takes to make his shop efficient and profitable.

Implement dealers in Floydada with a combined record of 138 years of service to farmers in Floyd County and surrounding areas have built up a mass of outstanding ability to offer counseling to the farmer in farm machinery, each in his own particular line of implements and other power equipment.

Today there is an estimated \$54,500,000 of operating margin through these dealers which includes parts, machinery and shop service equipment and the buildings from which they operate.

There is a total of 43 employees in the eight firms represented which includes the managers, part managers, mechanics, shop foremen and bookkeepers.

The farm implement firms in Floydada are:

- Allis-Chalmers, L. C. McDonald, 210 West California Street;
- Minneapolis-Moline, S. J. Latta, 211 East Missouri Street;
- Massey Harris, Floydada Implement Co., 320 East Houston Street;
- International-Harvester, Martin & Co., 216 South Main street;
- John Deere, Stansell-Collins Co., 215 South Main Street;
- J. I. Case, Witkowski Implement, 116 West Missouri Street;
- Ferguson System, Bryant & Smith, 121 South Wall Street;
- Ford System, King Tractor & Motor, 910 North Second Street.

Other lines of power farm machinery that can be found at these firms includes, Allied stalk cutters, plows and ditchers Krause plows; Crust-buster go-devils; Graham plows; Planter Junior Vegetable planting equipment; Service shredders; Caldwell press wheels; Wind-power rotary hoes; and Briggs and Stratton parts and service.

These dealers want to consider their customers as their partners in seeing that machines keep operating at peak efficiency and at lowest possible cost. It's their job to uphold the reputation for giving longer and better performance in the fields each with his particular line of implements.

These dealers want farmers to feel free to call them whenever dependable service is needed, or genuine replacement parts, advice or information as has been the custom during the years of service in Floydada.

The McDonald Allis-Chalmers firm is the oldest A. C. dealer in point of service in the Amarillo branch which covers New Mexico and West Texas cities.

CORPORAL FRED MARBLE IS STATIONED AT MEDIA, PA.

MEDIA, PA. — Fredrick L. Marble, son of Mr. and Mrs. Horace L. Marble, South Plains, Tex., recently was promoted to corporal while serving with the 176th Antiaircraft Artillery Missile Battalion in Media, Pa.

Corporal Marble, a section chief in the battalion's Battery C, entered the Army in January 1956. He received basic training at Fort Bliss, Tex.

The 22-year-old soldier was a farmer in civilian life. He is a 1952 graduate of Floydada High School. His wife, Carolyn, lives at the Village Green Trailer Park in Media.

News of Harmony

(By Mrs. Mather Carr)

HARMONY, June 17 — Mr. and Mrs. R. B. Gary returned home last Friday a week ago from Omaha, Nebr. following a two weeks visit with their daughter and family, Mr. and Mrs. Loyce Turner.

Mr. and Mrs. Dale McClennen and daughters of Duncan, Okla., visited in the Everett Miller and Carrick Snodgrass homes during the weekend. Mr. McClennen's grandmother was also a visitor.

The Women's Society of Christian Service met Wednesday afternoon in the home of Mrs. Chloma Williams. The business meeting was conducted by Mrs. Marvin Smith, president. The program was led by Mrs. Sherwood Ramsey with each present taking part. Those present were: Mmes. Marvin Smith, R. G. Morris, Phil H. Gates, Joyce Davis, M. D. Ramsey, Sherwood Ramsey, Mather Carr and the hostess, Mrs. Williams.

Club met Thursday in the club room with Mrs. Don Finkner and Mrs. Zant Scott as hostesses.

Mrs. Leslie Surginer of Washington, D. C. was a guest Friday in the Everett Miller home. Mrs. Surginer is a niece of Mrs. G. L. Snodgrass.

Miss Carolyn Williams, niece of Chloma Williams and granddaughter of Mr. and Mrs. M. D. Ramsey, went to Lubbock Friday to enter Nurses Training School at Methodist Hospital.

Mr. and Mrs. Emmitt Foster of Hart spent Saturday night and Sunday in the home of their daughter, Mrs. Marion Tucker and family. Mr. Foster attended services at the Chapel Monday morning.

Mr. and Mrs. Chloma Williams and Sue spent Fathers Day in Amarillo with Chloma's parents, Mr. and Mrs. L. A. Williams.

Mr. and Mrs. M. D. Ramsey were dinner guests in the Bill Finkner home on Fathers Day.

Guests in the R. B. Gary home for Fathers Day dinner were Miss Reda

Mae Gary of Lubbock, Mr. and Mrs. H. Nelson and son, Dirk, Floydada, and Mr. and Mrs. Elmer Williams and sons, Elmer Dean and Leon. Guests calling in the afternoon were Mr. and Mrs. James Halcomb of Lubbock and Mrs. Norman Mathews of Lakeview, in Hale County.

Mr. and Mrs. Mather Carr and Horace were dinner guests for Fathers Day in the Wesley Carr home. Visitors in the afternoon were Mr. and Mrs. Elmer Williams and son, Leon, Mr. and Mrs. H. Nelson and son, Dirk and Ronnie Tucker.

Rev. Phil Gates preached two good sermons at the Chapel Sunday. Rev. and Mrs. Gates were dinner guests of Mr. and Mrs. Marion Tucker.

Russell Shannon of Petersburg spent the week-end in the Marvin Smith home.

Mrs. Buddy Smith of Lubbock has been a guest in the Marvin Smith home for several days. Marvin has been suffering from a hand and foot infection, which he thought might have occurred from seed treating.

Dinner guests for Fathers Day in the Floyd Trowbridge home were Mr. and Mrs. Albert Clubb and sons, Dick and Mike, Mrs. Charlie Smith and son, Jack, all of Lubbock, Mr. and Mrs. Harry Hungate and son, Larry, of Canyon, W. C. Clubb of Petersburg, and the host, Mr. and Mrs. Floyd Trowbridge and son, Steve.

Lincoln Indicted On Frizzell Deal

As an aftermath of the March 30 transaction in which H. E. Frizzell, of Lone Star, was defrauded of \$42,000 with a worthless check given to pay for 2,000 head of sheep, an indictment has been returned by a Hale County grand jury against L. E. Lincoln of Lubbock.

Lincoln was taken into custody in California early in April and has been out on bond. His bond based on the indictment last week was set at \$10,000.

DON SMITH, LOCKNEY, NAMED FOR NEW MEXICO PATROL

LOCKNEY — Mr. and Mrs. Don Smith and son, Mike, returned Wednesday from Frankfort, Germany, where he had been stationed for nine months with the Third Armored.

Mr. Smith will be a member of the New Mexico Highway Patrol and will be assigned to duty on July 1.

Mrs. Smith is the former JoAnn Reecer.

Henry Clay is credited with saying "I'd rather be right than president."

Are You Interested In Noxious Weed Control

Election July 20 on Control Law For County

(By Chester Cartheil)

Since there will be an election in the near future for the purpose of organizing a weed control district in this county, many questions have been asked concerning the operation of such a district. This is a county-wide election, and, therefore one in which everyone should be interested.

As many of us know, we have a great many noxious weeds in this county and state, and certainly, unless some effective means of control is started the problem will become one of much greater magnitude in a short while.

This article is written solely for the information of the public and those interested in controlling the spread of noxious weeds in our coun-

ty. Space will not permit printing the entire law here, but listed below are some of the main points of the law, and the ones in which most people seem to be interested. This will be in the form of questions, and reference will be made to the section of the law answering each question.

1. WHO DOES THIS LAW AFFECT AND WHAT WEEDS ARE TO BE CONTROLLED?

Section 3. As used in this Act, unless the context otherwise requires: (a) "Noxious Weed" means any weed or plant which at the time is defined as a noxious weed by any statute of this state or which has been declared a noxious weed by the Commissioner of Agriculture of the State of Texas by authority of the Texas Seed Law or any other law of this State.

(b) "Landowner" means any natural person who holds title to lands lying within a district organized under this Act, who has attained the age of twenty-one years, and is a resident of a county, all or any part of which is included in such district.

(c) "Land occupier" means any person, firm, or corporation holding title to or being in possession of any lands lying within a district organized under the provisions of this Act, whether as owner, lessee, renter, tenant or otherwise.

(d) "Resident property taxpayer voter" means a qualified voter residing within the district who owns taxable property therein and who has duly rendered same to the county tax assessor for taxation.

(e) "District" means a noxious weed control district organized under this act.

2. HOW SHALL THE BALLOT BE READ?

Section 11. The ballots for such election shall have printed thereon the following propositions: "For creation of the district and uniform assessment of benefits not to exceed three cents per acre" and "Against Creation of the district."

3. WHO WILL GOVERN THE OPERATION OF THE DISTRICT?

Section 14. The district shall be governed by a board of directors composed of five members, each of whom shall be a landowner within

the district. The first board of directors shall be appointed by the commissioners' Court.

4. WHAT ARE THE POWERS OF THE BOARD OF DIRECTORS?

Section 16. The board of directors shall have the following powers: (a) To determine which noxious weeds shall be subject to control. (b) To determine the method or methods of control, either by spraying, cutting, burning, tillage, or any other appropriate method.

(c) To prescribe the specific area within the district on which the control measures are to be carried out. (d) To prescribe the period within which the control measures are to be carried out. (e) To take such other action as is necessary to effectuate the purposes of this Act.

5. WILL IT BE NECESSARY TO CLEAN FARM IMPLEMENTS BROUGHT INTO THE DISTRICT?

Section 17. The board of directors is specifically authorized to promulgate rules and regulations requiring the cleaning of farm implements and machinery which is brought into the district or which is moved from one location to another within the district, and prescribe the method of disposition of materials taken from such implements and machinery.

A violation of the rules and regulations shall constitute a misdemeanor and shall be punishable by a fine of not less than twenty-five dollars nor more than two hundred and fifty dollars.

6. DO OUR ROAD RIGHTS-OF-WAY COME UNDER THE PROVISIONS OF THIS ACT?

Section 18. It shall be the duty of the county commissioners' court in each county to comply with the control measures on rights-of-way of all public roads and other public lands within the district.

7. OTHER POWERS OF THE BOARD OF DIRECTORS.

Section 18. The board of directors or any inspector appointed by the board shall have the right to enter upon any land within the district to determine whether control measures prescribed by the board are being carried out. If it is found that any land occupier is not complying with the board's directions, the board shall give him written notice ordering him to comply with in a stated time.

If he fails to comply with the order, the board may file a suit for a mandatory injunction in the district court of the county in which the land is situated to compel him to comply with the order. Any land occupier against whom an injunction is issued shall be liable for all costs of the suit and for a reasonable attorney's fee, to be fixed by the court.

8. WHAT IS THIS GOING TO COST?

Section 19. The board of directors may levy an annual uniform assessment against the land within the district, not to exceed three cents per acre, for the purpose of paying the expenses of the district. The moneys collected shall be deposited in the district depository selected by the board.

The chairman of the board of directors shall file an annual report with the county clerk of each county in which the district lies, before the first day of April of each year.

showing the total amounts expended during the preceding year, together with the balance remaining on hand.

9. CAN THIS DISTRICT BE ABOLISHED, OR WILL WE HAVE IT FROM NOW ON?

Section 21. This district may be abolished in almost the same way in which it is established. That is by an election.

For those desiring to study the entire law, copies of the law are on file at the Farm Bureau office in Floydada. They would be glad for anyone interested in the law and desiring to read it to come in and do so. You will notice that this is a law for the control of noxious weeds. We hope this brief summary will answer some of the questions concerning this law.

July Plentiful Foods Are Listed

COLLEGE STATION. — Turkey and ice cream are the featured foods on the U. S. Department of Agriculture's July plentiful foods list. These two foods will get special promotions during the month. . . Mid-Summer Turkey Time, July 25-August 4 and Ice Cream Festival, July 1-31.

Turkeys have long been thought of in terms of Thanksgiving and Christmas, but changes in production methods have made this old favorite available the year-round. Ice cream just goes with summer time and increased supplies of milk and butterfat have also increased the amount of ice cream available.

Fresh fruits are prominent on the July listing and include peaches, lemons and limes. Frozen straw-

berries will also be in good supply. Milk and other dairy products, in addition to ice cream, will continue seasonally plentiful. Eggs are another high protein plentiful.

Texas new crop of onions will be abundant, but other fresh vegetables are not listed for this state. Peanuts and peanut butter and vegetable fats and oils are shelf items included on the July list.

Expanded Markets, Increased Farm Income Goal of New Bills

LUBBOCK — Four bills pertaining to increased farm income and expanded markets for cotton have been introduced recently in Congress. Of primary interest to South Plains cotton producers is the bill introduced by Cong. Paul C. Jones (D. Mo.).

It is the bill that the Plains Cotton Growers, Inc. was instrumental in developing at meetings held last month in Memphis with other groups of the American Cotton Producers Association.

Cong. Thomas Abernathy, (D. Miss.) co-authored the bill in the House and Sen. Stuart Symington, (D. Mo.) is to introduce the bill in the Senate.

Hearings on the bill began June 14 in the House. Geo W Pfeifferberger Lubbock, Executive Vice-President, Wilmer Smith, New Home, Vice-President, and W. L. Edelman, Friona, member, are representing the Plains Cotton Growers at these hearings.

The PGC backed bill calls for five main points:

1. Establishment of National

Clarendon Fourth Of July Events Begin On July 2

CLARENDON, TEXAS — Clarendon's Annual 3-Day Celebration will begin this year with the first of four big rodeo performances at the Rodeo Grounds at eight o'clock on Tuesday night, July 2. Persons performing in the rodeo must register sometime before 1:00 p. m. on Tuesday.

The Clarendon Outdoor Entertainment Association will offer prizes in the amount of approximately \$3,500.00 for the four performances.

The high point of the big celebration will be a free barbecue beginning at 11:30 a. m. on July 4. Last year some 5,000 people were fed on beef barbecued by H. M. (Flip) Breedlove, Donley County Agent. Another high point of the program will be an Old Settler's Reunion which will begin at 9:00 a. m. on the 4th. All old settlers in the surrounding communities are invited to this reunion.

Immediately following the free barbecue there will be a big parade with floats sponsored by business men and various organizations of Clarendon and surrounding communities.

marketing quota of not less than estimated consumption, plus exports

2. A "domestic percentage" shall be determined by dividing the domestic consumption and exports into the domestic consumption. This percentage shall be applied to each farm to obtain the domestic allotment.

3. Level of price support at 95 percent of average world price as estimated by Secretary of Agriculture.

4. Equalization payments on domestic portion of crop to be made by the first buyer (who would be reimbursed by CCC) in amount equal to difference between average spot market price or support level whichever is higher, and 80 percent of parity, but, if funds are not available for carrying out this provision, price support would be set in accordance with present variable formula.

5. Producer would be eligible for participation in the Soil Bank only if he reduced acreage below 1957 allotment.

Pfeifferberger, in explaining the bill, said that it is the general consensus that the national marketing quota would be estimated 9 million bales domestic and 3 million bales export.

In point number two the domestic percentage is figured by assuming the domestic estimate to be nine million bales and the export to be five million total 14 million. The domestic percentage would then be 9/14. Each farmer's allotment would be divided into the domestic allotment of 9/14 of his total and the export allotment would be the remainder. For example if a farm had 140 acres total allotment, there would be 90 acres for domestic and 50 acres for export, he explained.

"Point number three mentions the level of price support. This would be five percent below the world estimated price which is believed to be about 27 or 27-1/2 per pound. This would make the loan at about 26 cents. It is believed this loan will help hold up the world price and also put a floor under the cost to the government," Pfeifferberger said.

Point number four concerning equalization payments was explained: "In the original bill it was proposed that the government make direct subsidy payments to the farmer. This was not satisfactory to all groups working on the bill and it was decided that in order to avoid limitations as much as possible the subsidy payments would be made to the buyer, who will in turn make them to the farmer or producer."

Pfeifferberger said the PGC does not agree with the wording of the bill that adjustments in the subsidy itself are necessary for various qualities and locations, because this would be taken care of by the differences in the market price. He added representatives will oppose this item in preliminary meetings in Washington.

The last point of the bill concerning the Soil Bank was included to take care of commitments of the government on the Soil Bank. It means that anyone participating in increase of acreage would not be permitted to enter the Soil Bank. On the other hand if he so elected farmer could go into the Soil Bank but would not participate in additional acreage through this plan, Pfeifferberger concluded.

An oil-carrying ship was launched recently, by far the largest tanker ever constructed in the country. Second only to the liner "United States" in over-all dimensions, the 737-foot "World Beauty" can carry 16,500,000 gallons of oil and oil products. This load equals that of three of the oil-carrying giants of World War II, and would fill a 17-mile train of present-day railroad tank cars. The "World Beauty" and her sister super-ships reduce operating costs and increase the speed of delivery.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH
Floyd County Soil Conservation District board of supervisors had their regular monthly meeting on June 4, at the agriculture building. SCD supervisors present were R. G. Dunlap, G. L. Fawver and Fred Jackson. Others present were Allen Cross, district equipment operator, N. S. Abbott, secretary of the board, Bill Rogers, County Agent, Aubrey Dalrymple and H. T. Kistner of the Soil Conservation Service.

Thirteen district cooperative agreements were reviewed and approved by the board as follows: Shelby J. Calahan, Lindsey Graham, Frank Probasco, Pauline Hamlin, Gear Hopper, Charlie Boedecker, Benton Ritchey, R. E. Fry, (two), V. H. Kellison, James L. Nichols, P. T. Gentry, and M. A. Martin, for a total of 2,119 acres.

Other business discussed included putting out a monthly SCD news letter and work was started on it.

Plans for the annual tour in September were discussed and action will be taken on it later.

Moisture penetration tests made by Bob Daniels, SCS technician, before the June 1 rain was 18 inches on flat pasture land with poor vegetative cover and 24 inches and better on pasture land with good cover, while the cultivated land had a penetration of 30 inches on clean tilled soil and 26 inches and better on stubble mulched and deep broke land.

Test was also made on pre-irrigated and dry land, where the depth of penetration was found to be about the same on both irrigated and dry land. The results so far show that the more litter that is left on top of the soil the deeper the penetration.

Floyd County 14 Years Ago

(Taken from the files of the Hesperian, issue dated June 24, 1943.)

Harvest of Floyd county's wheat crop, estimated at only slightly less than three million bushels from 150,000 acres, struck its peak today under a white hot sun, as farmers put hundreds of combines and trucks on 16 to 20 hour schedules.

And as late as yesterday afternoon the expected grain car shortage had not developed, except for a few minutes at a time, at any Floyd County point.

The 1943 wheat loan rate for Floyd County was announced officially by the local AAA office at \$1.10 per bushel for number 2 wheat stored in local elevators or warehouses. Farm stored wheat will bring \$1.26 per bushel for number 2 wheat which includes the seven cents storage advance.

Mr. and Mrs. Woodrow Badgett and sons, David and James, returned Tuesday to their home in San Antonio after a month's visit here with Mrs. Badgett's parents, Mr. and Mrs. W. Edd Brown.

Mr. and Mrs. Clement McDonald were hosts to the Victory 42 club which met Friday night at 8:30 o'clock. Mrs. Byron Clark and J. G. Wood held high score during the game.

Ruth R. Jenkins, daughter of Mr. and Mrs. J. B. Jenkins, who has been at home for a rest and visit while on leave, has had a promotion in rank and is now first lieutenant in the Women's Army Auxiliary Corps. She is in charge of special training at the second WAAC Training Center in Daytona Beach, Florida.

Two Floyd County boys, seamen in Uncle Sam's navy, have made brief visits home in the past week. They are J. W. Gilbreath, who has returned to duty on the west coast and Homer G. Kennamer, who has returned to duty on the East coast.

Church Dedicates New Building As Pastor Resigns

Joining with the congregation in the dedication of a new educational unit was one of the last acts of Rev. C. O. Halle as pastor of the Aiken Baptist Church.

Rev. Halle has served the congregation for the past four and a half years. He resigned effective at the close of services last Sunday to accept a call from the church at Hagerman, N. M.

Due to the departure of their pastor the church membership decided to have the dedication service although the educational unit was incomplete. The dedication was during the worship hour Sunday morning, and was followed by a basket dinner.

The new unit is a one story brick veneer, 36 by 42 feet, designed to house young people and the intermediate department of the Sunday School.

C. L. VINCENT INDICTED

C. L. Vincent, of Lockney, who has been under \$3,000 bond on a complaint charging murder in Hale County, has been indicted by the grand jury in that county and his bond set at \$5,000.

The indictment grew out of the fatal shooting of Virgil Johnston in Plainview the night of April 6.

NOTICE! To WHEAT GROWERS

The Floyd County Wheat Loan Rate Has Been Announced at \$2.01 per bushel. However, the Department of Agriculture has revised the U. S. Wheat Standards Effective June 15.

These new and revised Standards will concern most wheat grading factors and will therefore affect the sale price of your wheat or its Eligibility for the Government Loan.

The New regulations mean, in every-day language, that the farmer will be allowed about half the trash and cracked grains that he has been allowed heretofore.

Due to these much stricter limitations on wheat grading, imposed by the Department of Agriculture, we feel you would be interested in several of the more important ones which will directly affect you.

(1) A reduction in the limits of total Foreign Material in Grades 1, 2, 3, and 4 respectively, compared with 1 per cent, 2 per cent, 3 per cent, and 5 per cent now permitted.

(2) A reduction in Shrunken and Broken Kernels in Nos. 1 and 2 to 5 per cent and in No.3 to 8 per cent. Present tolerances are 7 per cent for No. 1 and 2, and 10 per cent for No. 3.

Highlights And Sidelights From the State Capitol

(By Vern Sanford, Texas Press Association)

AUSTIN, Tex. — It's vacation time in Texas. During the next three months millions of people will stream to every corner of the state in search of relaxation.

But a lot of home folks will stay home. They make a living catering to the tourists. Vacationing is big business in Texas. And it promises to get bigger.

Last year nearly 8 million out-of-staters visited Texas — only 12 per cent on business. They spent \$350,000,000 for food, lodging, gasoline and entertainment.

Next year voters will decide whether to try to hustle in even more visitors and money through nationwide advertising. A proposed constitutional amendment to remove the ban on spending state funds for advertising was passed by the last Legislature. It will come to a vote at the November, 1958, general election.

Meanwhile, several state agencies and a host of municipal and private organizations give out information on how to have fun in Texas.

State Highway Department has just issued a brand new map telling how to find your way over the state's 100,000 miles of roads. It includes 20 full-color pictures and a warm welcome to the "land of hospitality." Available free from the department.

State Parks Board, housekeeper for 49 state parks, plans many new camping, swimming and picnicking facilities. It got a "generous appropriation" from the Legislature, said the Board.

Texas Game and Fish Commission has help and advice for the one in every four Texans who hunts or fishes. Its numerous publications give guidance ranging from where the fish are biting to what to do for a snake bite.

YEAR'S WATER SUPPLY — Without another drop of rain, Texas' 33 major reservoirs now have enough water stored to last a year.

Heavy spring rains poured six million acre feet of water into the reservoirs filling them to 92 per cent capacity, reports the State Board of Water Engineers.

Storage is about twice that of a year ago.

FLOOD SURVEY SOUGHT — But the unprecedented rains brought problems. State Water Board wants money to make an emergency survey of what the flood did with a view to learning how to prevent future destruction.

Both the Board and Gov. Price Daniel requested an appropriation for this from the last Legislature. But it didn't go through, so now the Board has asked donations from the state's five water districts and river authorities.

It wants several thousand dollars from each totalling \$17,000.

NEW INSURANCE COMMISSION — A district judge, a federal Justice Department attorney and a former commission member will take over reins of the reorganized Board of Insurance July 1.

As chairman for the new board Gov. Price Daniel appointed Dist. Judge Penn J. Jackson of Cleburne. Serving on the bench since 1944, Judge Jackson is former president of the State Bar of Texas judicial section.

Other new member will be David B. Irons of Fort Worth, former assistant attorney general under Daniel, now with the Justice Department in Washington. Joe P. Gibbs of Seguin, retired board member, who returned last spring at the governor's request, fills out the new board.

An acting commissioner of insurance is to be named by the board to serve until Sept. 1 when legislation for a permanent commissioner takes effect. He will receive \$20,000 a year, and be charged with administration of the department.

Present board members John Osorio and Mark Wenz will continue to serve until the new appointees take office.

GOODYE TO CHIPS — Texas gambling has got to go, says Atty. Gen. Will Wilson. An all-out effort to shut down the multi-million-dollar empire in Galveston was called just the beginning.

Wilson and Department of Public Safety Director Homer Garrison Jr. cooperated in planning a massive raid on Galveston's illegal establishments. But the gamblers got word, closed up and cleared out ahead of the raid.

Wilson's staff followed up by filing pedlock suits — boxes full of them — to try to prevent the places from reopening.

Wilson and Garrison said they would follow the same pattern in other areas. First, local officials will be called on to suppress gambling and state cooperation offered. But, said Wilson, "if local officials fail to do this job, we will do it from the state level."

Gov. Daniel gave his full backing to the crackdown, hailed it as the "beginning of a new era in law enforcement."

MORE SCIENCE FOR TEENS — More study, with emphasis on science, will be required of future

high school graduates.

New standards set up by the State Board of Education direct that:

1. Graduates complete 16 units of study, rather than present 15, including two years of laboratory science.
2. Physical education cannot be counted in compiling the units.
3. Not more than one class period of the day may be used for competitive athletics.

New rules will take effect during the 1958-59 school year, but are to be applied to ninth graders next fall.

SHORT SNOOTS — No one person has a right to all the water in the river, ruled the Third Court of Civil Appeals. Its decision favored the Great American Development Co. which sued a Comal County landowner, Clayton N. Smith, after his irrigation pump had dried up Rebecka Creek.

Gov. Price Daniel has asked the Army Corps of Engineers to remove silt and sand blocking the mouth of the Brazos where it enters the Gulf. Recent floods have shown the need for an adequate discharge channel, he said.

State Supreme Court upheld an order of the Industrial Accident Board preventing two Waco attorneys from practicing before it. While the Board does not have authority to disbar attorneys, ruled the court, it does have a right to require ethical practice from those appearing before it.

At the end of the first five months of '57 Texas farm products were commanding the highest prices since February, 1955. Prices of hogs, beef, lamb, chickens, eggs and wool were up substantially over the previous months. Overall increases was 1 1/2 per cent.

Number of polio cases in Texas has hit a 10-year low, reports the State Health Department. Up to mid-June the state had had 142 paralytic. Five months total for 1957 was 172 cases, compared to 375 in 1954; 548 in 1952 and 505 in 1950.

Generals Lee and Grant fought on the same side in the Mexican war.

Search Begins For '57 Queen of Farm Homes

The pleasant process of scouring the Texas countryside to find the fairest and most charming young farm or ranch girl to receive the title of "1957 Texas Farm Bureau Queen" has begun.

The search -- already under way in some counties -- will culminate with the crowning of the queen Nov. 18 at the state convention in Dallas. The winner will attend the American Farm Bureau Federation convention in Chicago the following month with all expenses paid.

Purpose of the contest, according to the queen contest committee of the TFB Board of Directors, is "to give recognition to the farm and ranch girls of Texas."

The rules provide that this is to be an "honest-to-goodness queen contest," with the contestants to be judged on "grace, poise, charm, vivaciousness and all the other qualities that go to make up winsome Texas future homemakers."

Any daughter or sister of a Farm Bureau member engaged in agricultural production is eligible for participation. She must be single, age 16 to 22, and to enter district eliminations, must have been in a county queen contest with at least two participants.

Not eligible to enter are former state winners and daughters of employees, state directors, county presidents and secretaries.

Communities in participating counties (counties must have at least 25 members to participate) will select community queens who will enter county eliminations. Winners of the county contests will compete in district eliminations prior to Sept. 1. The 13 district winners and an attendant for each will receive an expense-paid trip to the state convention, courtesy of the Texas Farm Bureau, to compete in the finals.

The state Farm Bureau queen and her matron escort will be allowed \$300 for expenses to the AFBF convention. Runners-up will receive beautiful wrist watches.

Last year's TFB queen was Joann Vaughn, daughter of Mr. and Mrs. Marshall Vaughn, of Tulla, Swisher County.

Club at Sand Hill Has Demonstration On Accessories

The Sand Hill Home Demonstration Club met June 12 in the home of Mrs. Orba Miller. In the absence of Mrs. J. T. Spears, Mrs. R. L. Bullock conducted the meeting.

Mrs. Bullock announced the Mosquito Control meeting for June 27, 8 p. m., to be held at the county court house, also the chest X-ray to be Monday, June 24, 8:30 a. m. to 5:30 p. m., at Bishop Motor Co. showroom.

Mrs. Orba Miller read the recreation recommendations and the members voted to adopt them.

Mrs. J. T. Myrick read "Who Chisels the Farmer" from Capper's Farmer.

Mrs. Arlon Miller was leader for their recreation period. Mrs. R. L.

Bullock won the prize. Mrs. Harriette Brummett announced this was her last meeting with the Sand Hill Club and invited the members to attend the county council since the district agent, Mrs. Aubrey Russell was to be present.

In the demonstration on accessories Mrs. Brummett said to remember simplicity when choosing accessories. "Do not repeat a line in a hat or jewelry that you do not want," she said. The hostess served sandwiches.

cookies and punch to visitors: Mrs. Don Daily and daughter Doni Dee, here from Arizona; Mmes. T. C. Hollins, W. L. Miller, W. R. Billington, J. T. Myrick, C. B. Carmack, R. L. Bullock, H. F. Jackson, Harriette Brummett and two 4-H girls, Janis Miller, and Norma Sue Hollins.

Next club meeting will be at the home of Mrs. W. M. Knight, June 26, 3 p. m. This will be Pollyanna Day. The 4-H girls will give the demonstration.

These Forty Years!

Forty years ago, in June of 1917, the Humble Company received its charter from the State of Texas.

The Company was formed through a merger of the properties of a number of independent oil operators. Its founding brought together a remarkable group of men who occupy an important place in the annals of the oil industry:

R. S. Sterling and his brother, F. P. Sterling, the principal organizers of Humble Oil Company from which the present company acquired its name; W. S. Farish and R. L. Blaffer composing Blaffer and Farish; H. C. Wiess with assets from Paraffine and Reliance Oil Companies; Walter W. Fondren and C. B. Goddard, producers; and L. A. Carlton and E. E. Townes as lawyers.

All of these men contributed greatly in adopting the principles, in shaping the policies, and in laying out procedures that have guided the Company's

progress through these forty years. Their influence will survive as long as the Company continues.

They possessed courage and business judgment. They established high standards of performance. They built a strong organization of competent men and women.

The Company, as it stands today, is a tribute to the leadership, the vision, and the work of its founders.

But it is doubtful that these men, with all their foresight, visualized the changes that have occurred in the oil industry since 1917, or the size and complexity of Humble's present operations, or the extent of the Company's contributions through the years to the progress of our society.

To all who have made those contributions possible--employees, customers, shareholders and the people of the states in which the Company operates--Humble extends its thanks.

HUMBLE OIL & REFINING COMPANY

HUMBLE

Let The People Know, Senator Johnson Urges

In his weekly letter released on June 12, Senator Lyndon B. Johnson says:

Throughout my life, I have held firmly to a fixed belief. It was summed up by Thomas Jefferson when he said:

"I know of no safe depository of the ultimate power of society but the people themselves; and if we think them not enlightened enough to exercise their control with a wholesome discretion, the remedy is not to take it from them, but to inform their discretion by edu-

cation." Because of this belief, I did not deplore the fact that the Russian communist leader Nikita Krushchev was able to come into our homes by television and state his case. I believe Americans have too much sense to be deceived by open communist propaganda.

I did not regret, however, that we did not answer his broadcast with a demand that the Russian leaders grant spokesmen of our own choosing the right to appear — uncensored — on Soviet television and radio. — I am willing to back the American case against the Communist case any time — because I am confident the American case will win.

Since the end of World War II, this nation has taken the lead consistently in trying to rescue mankind from atomic conflict. We have offered to rescue armaments; to share our atomic secrets; to allow "open skies" inspection to enforce

disarmament agreements. We have asked in return only reasonable safeguards to insure that the Soviets will not violate the agreements and use them to further the communist cause.

These agreements have come to nothing because the communist leaders have been able to conceal the facts from the Russian people. Future agreements will meet the same fate unless we find a way of penetrating the "iron curtain" so the Russian people will hear our side of the story.

I believe we should demand the right to make weekly telecasts and radiocasts to the Russian people. They should have the chance to hear our businessmen; our labor leaders; our professionals; our leaders of agriculture.

In return, we should be willing to grant them the same privileges in our country.

This offer should be pressed upon Nikita Krushchev every time he is within earshot of an American representative. And if he refuses,

he will have to explain to the whole world why we are willing to let him state the communist case to our people but why he is not willing to let us state the case of freedom to the Russian people.

Let the people know. Once they have the facts, they can make the honorable, just and fair decisions that will rid us of fears of world wide atomic war and the arms race.

Harmony Club News

"Accessories improve the appearance if they are used wisely," stated Mrs. Harriette Brummett as she met with the Harmony Home Demonstration Club June 13.

The meeting was in the club room. Mrs. Don Finkler and Mrs. Zani Scott were co-hostesses in the place of Mrs. E. W. Turner who has moved from the community.

Roll call was answered with "My Favorite Accessory."

Mrs. Truman Dunavant presented the surprise idea. She showed many of her huck towels which she has decorated with weaving. She had several original designs she had created which were very beautiful.

Mrs. Brummett presented an interesting demonstration on "Choosing Accessories." She reviewed the 14 points of a well-dressed woman, stressing the fact that you may have less than 14, but never over, to be well-dressed.

She also pointed out that if you wear glasses you should never wear a veil over your hat.

The hostesses served refreshments to the following:

Meadames Glenn Pool, Truman Dunavant, Monroe Schulz, Bob Hopper, Harriette Brummett, R. B. Gary, Mather Carr, Elmer Williams, Ted Rutherford and Chloa Williams.

The next meeting will be at 2:30 p. m., June 27 at the club room with the 4-H Club in charge of the program.

McCoy News

(By Carleta Reeves)

McCoy, June 17—The farmers of McCoy are taking advantage of this fine weather we are having. They are either trying to get the cotton in the ground or trying to get it up.

Mrs. Payne and daughter, Bonita, visited in Dimmitt Friday. She visited with her other daughter, Mrs. James Sinclair.

Mrs. A. L. Sparks visited in the home of Mrs. P. D. Helms Friday.

Carleta Reeves spent Thursday night with Mrs. Ken Carter of Plainview. She also visited with Mays Johnson while she was up there.

Mrs. Carl Reeves and Mrs. Payne visited in Mrs. Huckabay's home Thursday.

Visiting in Snyder this week-end were the C. C. Price family.

Mr. and Mrs. Olin Rapp of Slaton visited Mrs. Rapp's parents, Mr. and Mrs. A. L. Spark's and Roy.

Mr. and Mrs. Claud Payne visited their daughter, Mrs. Orvis Phillips and family on Sunday.

Mr. and Mrs. Carl Reeves and daughter attended a fathers day

Mrs. Hollis Is Claimed After Long Illness

Mrs. Aura (Adams) Hollis, 77, who was a pioneer resident of Floyd County, died in Crosbyton Hospital on Friday, June 7, and interment of the remains was made Sunday afternoon at Slaton, following funeral rites held at 3 o'clock at the First Baptist Church there.

Rev. J. T. Holding of Lubbock, officiated. He was assisted by Rev. J. T. Williams, of Mt. Blanco, and Rev. Ted Glaze, pastor of the Slaton church.

The body was at King Funeral Home in Crosbyton from Friday until Sunday when it was moved to Slaton.

Interment was made by the side of her husband, who preceded her in death 25 years ago.

Mrs. Hollis was born Aug. 16, 1879 in Stewart County, Ga. She moved to Ellis County in 1887, and then to Floyd County in 1891, with her parents, Mr. and Mrs. Winfield

celebration honoring Mr. Reeves' father, H. K. Reeves of Plainview. All the children were present for this occasion except one son, Robert, and a daughter, Mrs. R. A. Cannon of California. Lunch was served at the noon hour in the park in Plainview.

Mrs. Bobbie Joyce Clannuch and children have been visiting in the home of her parents, Mr. and Mrs. P. F. Stephens. She went home Monday.

Friday afternoon the Junior G. A.'s had a birthday party for Betty Sue Wallace and LaRue Price. They went swimming at Floydada.

LuTricia Stephens spent the night in Kay McCown Friday night.

Diana Smith had a slumber party for all her little friends Saturday night. The ones attending were Shirley Wallace, Betty Hodges, Debbie Carter, Kay McCown and Betty Sue Wallace. They all had a good time.

Last week McCoy Baptist Church had their Vacation Bible School. The total enrollment was 69. There were 50 children and 19 workers. The average attendance was 64. As far as we can find out, this has been the largest Bible School at McCoy. Saturday there was a picnic at the Church for the close of Bible School. Everyone seemed to have had a good time. Sunday night the Vacation Bible School had its commencement. The Bible School gave a short program and then the children took their parents back to see what they had made during the week. I can truly say that God was with us last week and is still with us, and always will be.

Let's all go to Church somewhere Sunday. It is very important that we should go and take our children to church. Our children need a spiritual education as well as a school education.

Scott Adams.

She was reared at Lakeview, where her father, a confederate veteran, made his home for many years.

She was a pioneer teacher in this area, having taught in Motley, Dickens, Lubbock, Dawson, Crosby and Lynn Counties. Her first school was in Floyd County in 1904, and in 1913 she moved to the Big Four community where she taught for two years. She taught twice in the Crosbyton schools first in 1920-21, and again in the late '30's.

She had made her home in Slaton for a number of years, but in recent years had spent much time with her sister, Mrs. George Smith, of the Mt. Blanco Community. A brother, Dr. S. H. Adams, who died in 1932, was the Santa Fe doctor at Slaton for many years.

Survivors include three sisters, Mrs. Smith; Mrs. Fred Denham of Lubbock; and Mrs. K. J. Matthews of Phillips.

MAYOS—DAUGHTER IS GUEST OF HER PARENTS THIS WEEK

Mr. and Mrs. D. T. Mayo have as their guests this week their daughter, Mrs. L. H. Hodge and daughter, Lynn, from Colorado Springs. The Mayos visited the Hodge family over the week-end at the Colorado resort.

Mr. Hodge will join his wife and daughter this week-end and after a brief stay the family will return to their home at Rockford, Ill. where he is chief engineer of the J. I. Case Company. He has been in military reserve training camp at Colorado Springs.

SOCIETY

Ceremony Unites Laura Taylor and T. E. Bowman

Standing beneath a white giardioli arch, Miss Laura Belle Taylor and Mr. T. E. Bowman, groom, became the first couple of the First Methodist Church of Canyon, accompanied by Miss Rose.

The groom's mother and father began the processional, followed by the vocal selection "Entreat Me Not to Leave Thee," by Gounod sung by

Mr. Gallehon, Mrs. Taylor was then escorted to her seat. The minister, Rev. Joe B. Taylor, uncle of the bride and pastor of the First Baptist Church of Burnett, the best man, James Taylor of Quitaque, and the groomsmen, Jim Rescine and Roy Lowe of Canyon, attired in white dinner jackets and navy trousers entered from the Pastor's Study and took their places at the Altar.

The bridal attendants then began their march down an aisle marked by pale blue satin ribbons, which also denoted pews reserved for relatives and close friends, to the beautiful arch which was flanked on each side by double candelabra holding white tapers, palms and baskets of white giardioli and blue daisies. Blue wedding bells caught by a massive white satin bow and long streamers centered the arch. "Trumpet Voluntary in D Major" by Purcell was used as the Wedding March.

The candles were lighted by Miss Virginia Faye Taylor of Lockney

and Miss Adele Grundy of Quitaque who wore identical bare shouldered ballerina length dresses of white net over taffeta, the full skirts of which were enhanced by the fitted bodices and tiny waistlines. Each girl wore a tiny wrist corsage of red roses on a white frame.

The Maid of Honor, Miss Earlette Grundy of Quitaque, and the bridesmaids, Misses Phyllis Gardner and Barbara Jo Taylor wore ballerina dresses of light blue dotted swiss over taffeta with fitted bodices, scoop necklines, cap sleeves and bouffant skirts. The attendants wore wide brimmed picture hats, worn by the bride, were of the same material trimmed in white tulle. Their short white gloves were of tulle, open-fingered and pointed to match those of the bride. These girls carried ruffled white moline fans pinned with sprays of red roses and cascades of white streamers.

The bride, escorted by and given in marriage by her father, wore a floor length wedding dress of starlight bridal satin and chantilly lace which she designed and made. The Victorian bodice was fashioned with an off the shoulder neckline, and elegantly into a softly flared skirt made full at the bottom by an inset gathered satin flounce with an inch wide band of satin completed by a second band of satin and a bouffant ruffle of lace which swept the floor as the lovely bride made her way to the altar. She wore a tiny white organdy bonnet which becomingly framed her face and a fingertip veil of organdy and silk illusion. She carried a corsage of white carnations and gardenias on a white Bible.

To the soft background music of "Psalm 20" by Marcello, the bride's uncle led the nuptial prayer, spoke lovingly to the young couple about the beauty and responsibilities of establishing a Christian home then united them as husband and wife in one of the best read, most impressive ceremonies ever witnessed here. Following the closing prayer, and the Recessional was played by Miss Rose at the organ which had furnished the lovely music during the entire ceremony.

The bride's mother chose a blue cotton sheath featuring a bloused back with pin tucks and matching lace running full length of the front for her daughter's wedding. White accessories and a corsage of pink carnations completed her attire. The groom's mother wore a beige linen dress trimmed with insets of darker beige lace over blue, completing her ensemble with beige accessories and a white corsage.

Reception Held

Following the ceremony, the couple was honored with a reception held in Fellowship Hall of the First Methodist Church. The table was laid with a floor length ruffled organdy cloth over blue linen and was centered by a three-tiered square wedding cake. The cake was topped by the traditional bride and groom standing under an arch of white glads and blue daisies, and was decorated with blue frosting. Silver candelabra held three white tapers on each side of the cake.

Wesley Girls Class Hears French Miss At June Social

The Wesley Girls Sunday School class of the First Methodist Church enjoyed the June social in the home of Mrs. D. W. Burke, 221 West Kentucky Street, Wednesday, June 12, at 2:30 p. m. with Mrs. C. J. Parr and Mrs. H. C. Love as co-hostesses.

The class president, Mrs. D. S. Battey, presided over the meeting. Mrs. J. M. Willson Sr. introduced Miss Daniele Lamarre as guest speaker for the afternoon. Miss Lamarre told of the customs of and conditions in France.

She came to the United States for a six-months visit in the home of Mr. and Mrs. C. D. Fouts and stated that she had fallen in love with Texas and would like to go to college or get a job here. Miss Lamarre also stated that "she still wanted to see a real Texas cowboy".

The next class social will be in September. Those present for the occasion were Mesdames W. H. Henderson, Frank Probasco, D. S. Battey, L. P. Lewis, W. O. Tye, J. E. Turner, J. D. Colville, Billy Stanforth, J. M. Willson Sr., J. H. Barnard, Ethel Sawyer, S. J. Latta, Lillie Henry, E. S. Randerson, W. E. Grimes, Geo. V. Smith, Miss Daniele Lamarre, and the hostesses, Mrs. Parr, Mrs. Love and Mrs. Burke.

Yellow fruit punch was served from a crystal service by Miss Adele Grundy and blue and white cake squares were served by Miss Virginia Taylor. Mints and nuts were also served to the 65 wedding guests who were registered at the reception by Mrs. Roy Lowe of Canyon. Other ladies assisting with the reception were Miss Minnie Mae Roberson, Mrs. E. W. Ewing, Mrs. Curtis Lee, Mrs. A. L. Morris and Mrs. Dick Taylor.

Out of town guests were Mr. and Mrs. E. B. Collins and Mr. W. H. Roberts of Houston; Rev. and Mrs. Joe B. Taylor and Joe Frank of Burnett; Mr. and Mrs. Elmon Jacobs, Miss Kathy Pattison, Mrs. Ernest Archer, Mr. and Mrs. Earl Archer, Mrs. Helen Pattison and Pat of Spearman; Mr. Jesse Roberts and Mrs. Oleta Harris of McLean; Mrs. Jasee Wayne Roberts of Dumas and Misses Daisy Tate and Mary Elizabeth of Wichita Falls; Mrs. R. T. Bowman, Mr. and Mrs. J. P. Taylor, Huella and Linda of Canyon; Mrs. Lala B. Owen and Miss Lurline Bowman of Pampa; Mrs. Kenneth Stephens of Silverton; and Mr. and Mrs. Jack Merrell and Bruce of Tampico.

For traveling the bride chose a lavender silk shantung suit with white and silver accessories. After a short trip the couple will be at home at 2515 15th Street, Lubbock, Texas.

State Teachers College, Canyon, in the Spring Commencement exercises. This fall, he will enter training at the Naval Officers Cadet School, Newport, Rhode Island.

Dinner Honors Couple

A Rehearsal dinner was given in honor of the couple by Mr. and Mrs. Webb Taylor on Friday evening preceding the wedding at the spacious ranch home of Mr. and Mrs. Harry Blair of Quitaque. The entire wedding party was included in this enjoyable affair.

DAUGHTER BORN JUNE 7

Mr. and Mrs. David M. Ramirez, Route 1, Floydada, are the parents of a daughter born Friday, June 7, at Medical Center Hospital, Plainview. The young lady weighed six pounds and seven ounces. She has been named Rose Mary.

Rose Mary's father is the greengrocer at the Floydada Country Club.

Party Is Home After 18 Days Vacation Tour

A party of five Floydada people are just home from an interesting, 3,000-mile vacation trip that took them through portions of 18 states, principally east of the Mississippi river.

Mr. and Mrs. William Culpepper, their daughter, Kay, and Mr. and Mrs. Robt. F. Day made this jaunt. They returned during the week-end.

States they touched included Arkansas, Tennessee, Kentucky, North Carolina, Virginia, West Virginia, Georgia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Ohio, Indiana, Illinois, Missouri and Oklahoma.

Their tour of the National capital and its environs included Mt. Vernon, the home of George and Martha Washington, the George Washington Masonic National Memorial, the International Eastern Star Temple, the capitol building, the historical museum, Supreme Court building, the White House, the tomb of the unknown soldier and the Arlington National Cemetery.

Their stay in North Carolina was enlivened by a visit to the museum of the Cherokee Indians. There they saw how the red man lived before the white man tamed the American wilderness.

At Chattanooga they viewed the National Military Park, where the

north and the south battled for the control of Chattanooga; also beautiful Rock City atop Lookout Mountain, from the summit of which they saw into seven states. They also saw little publicized Ruby Falls where the nation's deepest cave is reached only by elevator.

When they got to Maryland they visited Charles, Nita Jo and Junior Hartman, who joined them for the New York City portion of their tour. The Empire State Building, Radio City, a boat trip around Manhattan and through the Statue of Liberty, Central Park, Manhattan Bridge, the historical museum—all the usual points that tourists see. In addition there was for them the Bill Cullin show, "The Price Is Right," which Mrs. Day said they enjoyed.

Nearer home they viewed the Will Rogers memorial and museum at Claremore, Okla., and at McAlester the Masonic Temple and the international home of the Order of Rainbow for Girls, as well as the Oklahoma State Prison.

The finest piece of roadway the party saw was the Pennsylvania Turnpike. It is a marvelous road, where by use of tunnels, the mountainous terrain has been whipped.

"That," said the fortune teller pocketing the five dollar bill, "will entitle you to have two questions answered."

"Isn't that a lot of money for only two questions?" asked her startled client.

"Yes, it is," said the fortune teller "and what is your second question?"

Lots of people have great aims in life, but never pull the trigger.

KITCHEN AID ★★ FIELD NEWS

From Lighthouse Electric Co-operative Inc., by Nancy Morekel and Claude Weatherbee Electrification Advisors.

OUR SUMMER TIME MEALS

When the weather gets hot and we get tired there is a tendency to cut down on our cooking and on our meals. This is good if we do not cut down on the nutrition that our family's need to keep them in good physical condition.

Household appliances play a big part in our kitchen work, and the work of feeding our families. It seems that very few of us make the most use possible of the things we have available.

Another important thing is our planning — a thing well planned is half done. I really believe this — you just try it and see if you don't agree. There are so many things that can be made ahead of time and kept in your refrigerator or in your freezer — be sure to do some advance planning and preparation and make this summer the most pleasant one you have ever spent.

Here is a dessert-salad that is very colorful and nice that you might like to try:

- Rainbow "Cake"**
- 1 package orange flavored jello
 - 1 package raspberry flavored jello
 - 1 package lime flavored jello
 - 3 cups hot water
 - 1 1/2 cups cold water
 - 1 cup pineapple juice
 - 1/2 cup sugar
 - 1 package lemon flavored jello
 - 2 1/2 cups graham cracker crumbs
 - 1/2 cup sugar
 - 1/2 cup butter or margarine (melted)
 - 1 cup heavy whipping cream

1. Prepare jello cubes as directed on package, using 1 cup hot water and 1/2 cup cold water for each package. Pour each package into separate pan and chill until firm.

2. Combine crumbs, first amount of sugar, melted butter and mix well. Press into large square pan, loaf pan, or pie pans may be used.

3. Heat pineapple juice to boiling. Pour over lemon jello and add the other 1/2 cup sugar, stir until dissolved. Cool until slightly thickened.

Whip cream until thick. Then fold into the slightly thickened lemon jello and add the jello cubes made from the first three packages of jello. (cut cubes about 1/2 inch square).

Pour into crumb lined pans and chill for several hours, or until firm, in the refrigerator.

Mr. and Mrs. Corkey Guffee, Larry and Phyllis Ann spent the week-end in Sunray with Mr. and Mrs. C. N. Hill and family.

Bob Morris of Amarillo was a co-op visitor on Tuesday morning of last week.

Sam Rutledge with Graybar Electric Company, Amarillo, was a co-op visitor last Wednesday.

A visit at the Lockney Cannery last Thursday afternoon found them getting into their spring house-cleaning and getting all set and ready for another busy season of canning and preparing foods for freezing. Isn't it wonderful the help two canneries in the country give to homemakers?

Mark Davis of Lubbock was a co-op visitor last Tuesday afternoon.

Mr. and Mrs. Bob Norrell are the proud parents of a son born last Tuesday morning at Peoples Hospital. He has been named Terry Lee; he has an older sister, Bobby Jean.

Melvin Henry attended regular monthly manager's meeting held in Plainview on Wednesday of last week.

Tom Killian of Amarillo was a co-op visitor last Wednesday.

We are glad to have Carl Lewis back at work Monday morning after several days in the hospital.

Mr. and Mrs. Willard Pollan of Dalhart spent Saturday night in Floydada. Willard was on his way to Austin to attend the Job Training and Safety meeting there this week.

Mr. and Mrs. E. H. Guffee of Plainview visited Sunday with her brother, Shorty Neff, and his family.

Mrs. Marvin Dykes returned to her home at Meadow Sunday after spending several days here with her daughter and family — Mr. and Mrs. Bob Norrell, and children.

Mr. and Mrs. Emmett Walker of Brownfield visited Mr. and Mrs. Jim Moeller and family on Sunday.

Mr. and Mrs. Don Webster of Lubbock spent the week-end with her parents, Mr. and Mrs. Bill Baker Mr. and Mrs. Tom Hutchins and

boys and his mother, Mrs. J. H. Hutchins of Halls went to Vernon on Sunday.

Troy Watson, Lubbock, Job Safety and Training Instructor with A & M College was at the co-op Monday morning for his regular meeting on Safety.

Julia Baker, Assistant Bookkeeper was on vacation last week. She and her husband, Bill Baker, spent from Sunday until Thursday with his mother, Mrs. Jessie Quinton and Mr. Quinton, of Prairie Grove, Arkansas. They stopped at Lake Diversion on their way home and spent last week-end there fishing. They got home Saturday.

Mrs. E. C. Cope of Plainview, Mrs. John Gray and L. A. Sargent were dinner guests, Sunday, of Mr. and Mrs. Pete Hickerson and Pat.

Mr. and Mrs. Leslie Fawver and family visited Mr. and Mrs. Roy Fawver on Sunday afternoon.

D. M. Moore, caretaker at the Lighthouse for nearly five years is retiring. E. B. Chestnut is taking his place. We will miss the Moore's; but we welcome Mr. and Mrs. Chestnut as new members of our co-op family.

Monday morning coffee and cookies were served to all employees; at which time a fishing rod, reel and tackle box was presented to Mr. Moore, a gift from all the employees, just a small gift of appreciation for the many nice things he had done for all of us through the years he

had been here.

Something To Think About It has been said, "One gives away and still has plenty left in the power."

District Agent Attends County Council Meet

The Floyd County Home Demonstration Council met Saturday afternoon at 2:30 o'clock in the council room of the court house with Mrs. Grigsby Milton, chairman, presiding.

The Homebuilders Home Demonstration club had on display a collection of art and craft work done by the members of the club.

Mrs. Sam Jones, Civil Defense committee chairman, announced the Texas Health Department's Mobile X-ray Unit would be in Floydada on June 24 and in Lockney on June 25. She urged that all attend the Mosquito Control meeting scheduled for June 27 at 8 p. m. in the county court room.

Mrs. Loyd Deavenport, Misses June Marble and Jana Smith gave a report of their trip to the State 4-H Round Up at College Station.

Mrs. Harriette Brummett, home demonstration agent, announced that a 4-H leaders training meeting would be held, June 18 at 2:30 p. m. in the council room and a training meeting for all club leaders on "Your Best Colors", June 28 at 9:30 a. m. in the council room.

Mrs. Brummett also announced that she had score cards at her office on "Texas Homemakers of the Year" and anyone eligible to enter from the 14 clubs in Floyd County is asked to pick up one of these cards.

Mrs. Audrey Russell, district home demonstration agent of Lubbock, discussed the duties expected of the county H. D. agent and suggested that the members should work and plan with their agent.

The next council meeting will be Saturday, July 20, at 2:30 p. m. in the council room.

Those present were Mesdames

Grigsby Milton Jr., chairman, Johnnie Cates, G. W. Smith, Dougherty; E. M. Rutherford, Zant Scott, Harmony; W. W. Trapp, Elmer Norrell, Homebuilders; Lavon Johnson, Lockney; E. O. Barrett, W. D. Nance, Lone Star; Sam Jones, Ben Brandes, Providence; J. T. Spears, Lynn Miller, Sand Hill; John Smitherman, L. T. Wood, South Plains; Tom Porter, Starkey; A. D. Schaffner, Sterley; W. H. Bethel, Sunnyside; visitors, Mrs. Harriette Brummett, Mrs. Audrey Russell, Mrs. Loyd Deavenport, Misses June Marble and Jana Smith.

Baker News

(By Mrs. J. B. Colston)

BAKER, June 17 — Friday night is meeting night at the Community Center. The hostesses have asked each family to either bring a freezer of ice cream or cake and bowls and silverware.

Diana and Beth Holmes of Lubbock spent the first of the week with their cousin, Doris Fawver.

Mr. and Mrs. William Anderson and family of Lubbock, Mr. and Mrs. Louis Anderson and boys of Plainview, Mr. and Mrs. Floyd Anderson, Martha Sue and Ted, and Mr. and Mrs. Otis Anderson, Elaine and Connie visited Mrs. A. W. Anderson Sunday.

Mr. and Mrs. Kenneth Willis, Brenda and Karen visited Mrs. and Mrs. Ted Furgeson and girls Sunday night after church.

Mr. and Mrs. Roy Lee Ellis and boys of Crosbyton were Sunday afternoon visitors with the Olan

Lyles family. Carre and Yvonne Willis of Abilene spent Friday night with Conley Bradford.

Mr. and Mrs. Otis Anderson and girls ate supper with Mrs. Anderson's mother, Mrs. Jim Jones Saturday night.

Mrs. R. L. Niel and Carolyn visited with Barbara Willis Thursday afternoon.

Mrs. Annie Jewell Willis, Carre and Yvonne of Abilene, Mr. and Mrs. Claud Fawver, and Mr. and Mrs. Floyd Bradford and boys gave Mrs. George Fawver a surprise birthday dinner Sunday at her home.

Mr. and Mrs. J. F. Furgeson and children of Goodland visited Sunday afternoon with the Ted Furgesons.

Monday Mrs. A. W. Anderson and Leon and Nelda Barbee were supper guests of Mr. and Mrs. Floyd Anderson and family.

Mrs. Emma Towry of Odell and Mr. and Mrs. Claud Fawver spent from Tuesday until Friday with their sister, Mrs. Frank Wells, and family of Red Oak, Oklahoma.

Mr. and Mrs. Kenneth Willis and girls enjoyed Sunday dinner with Mr. and Mrs. Henry Willis.

Mrs. Hudson Holmes and children of Amarillo and Mr. and Mrs. Floyd Bradford and boys ate dinner Monday with Mr. and Mrs. Claud Fawver.

Sunday Mr. and Mrs. B. A. Colston of Lake Diversion were hosts for a family reunion of Mrs. Colston's relatives. Those attending from Floydada were: Mr. and Mrs. G. I. Fawver and Doris, Mr. and Mrs. Curtis Siner, Will and Lee Mr. and Mrs. R. A. Colston, Mr. and Mrs. J. B. Colston and Teresa, and Mrs. Iris Colston.

Others attending were: Mr. J. D. McBride, Mr. and Mrs. Charlie Fuster, and Mr. and Mrs. Billy Lile, Phillip, and Lorenda all of Hobart, Oklahoma; Mr. and Mrs. J. S. Ellis, and Mr. and Mrs. Roy Keele and Jackie of Lovington, N. M.; Mr. and Mrs. Roy McBride and Joyce of Texaco, N. M.; Mrs. Irene Flaherty, Ross, Georgia; Wayne, Carl Wood and Fannie Jackson of Tulsa, Oklahoma; Mr. and Mrs. G. G. Holmes, Diana, Beth, Jim Bob, and Mr. and Mrs. A. M. Allison, and Jenney of Lubbock. Mr. C. E. Naylor of Lake Diversion also enjoyed the day.

VISIT IN FORT WORTH

Mr. and Mrs. Will Snell accompanied their son and family, Mr. and Mrs. B. W. Snell of Lubbock to Ft. Worth last Friday for a visit with relatives.

They visited their son and brother, W. J. Snell and wife; Mrs. Will Snell's sister, Mrs. C. B. Trent, another sister, Mrs. Emma Jones, a brother, O. H. Jones and family, and her niece and family, Mr. and Mrs. Hal Snipes.

On their return trip home Monday they visited Mr. and Mrs. Buster Shepard and family in Electra.

PASTOR MOVES TO ARIZONA

Rev. R. E. Wiley and family have completed their move to San Manuel, Arizona, from Lockney, where Mr. Wiley was minister of the First Baptist Church for nearly four years.

Rev. Wiley accepted a call to the Arizona Church early in May and has been pastor at that place since May 16.

Center News

(By Mrs. J. E. Green)
CENTER, June 27 — It is cloudy and cool today. Farmers are busy as bees. Lots of seed have gone into the ground the last week.
Sunday was Father's Day. Parents dined with their married children or the children came home to be with their parents.
 We had a good crowd of parents at Sunday school, but our young people had gone elsewhere. We miss them when they are not here.
 Mr. and Mrs. Leo Frizell and Mrs. W. M. Jackson went from the church to dine with Mr. and Mrs. Garvin Beedy and children of South Plains.
 Mr. and Mrs. Frank Dunn and children spent Sunday with their son and family. Mr. and Mrs. Jimmy Dunn, and baby Debbie of Lubbock.
 Don Clark Green was home Sunday from Big Spring.
 Mrs. Marion Carpenter and daughter Jane Ann of Altus, Okla., came Thursday for a visit with relatives. W. M. Jackson, Mrs. Leo Frizell and Mr. Frizell. They returned home Saturday.
 Mr. and Mrs. Charley Batley visited Saturday afternoon with the J. E. Owens, the Rymons and Mrs. K. J. Matthews at the Green house.
 Mrs. Anthony Latta and Mrs. Will Latta came up Friday to bring Mrs. Matthews of Borger to stay over the

week-end with the Greens.
 Mrs. J. M. Price dined Sunday in the Green home and Mrs. Matthews spent the night with Mrs. Price.
Sunday, June 24, dinner guests of Mrs. Ola Warren were her son and family, the Thomas Warrens, Mr. and Mrs. C. N. Batley and Mr. and Mrs. Fred Batley.
 Mr. and Mrs. C. W. Denison had all their children and grandchildren present for the week-end and Father's Day. These were the Gilmer Denisons of Lubbock, and the C. W. Jr. of Brownfield. The two older grandchildren, Keith and Gilda Lane of Lubbock who have been visiting their grandparents for the past ten days, returned home with their parents.
 Mr. and Mrs. Joe Richard Noland of Lockney spent Father's Day with his parents, the T. R. Nolands.
 Sunday week dinner guests of the Nolands were Mrs. Oscar Warren and Allene and Mr. and Mrs. Gordon Hambricht. Visiting at the T. R. Nolands Monday were Mr. and Mrs. Alton Noland and a niece, Arlinda Billington of Amarillo.
 Mr. and Mrs. J. E. Green and Mrs. Doc Rymon Jr., and children returned home Wednesday from Hubbard where they attended last rites for Mr. Green's sister Tuesday.
 Come to Church Sunday.
 The width of the United States ships is determined by the Panama Canal, and the height by the Brooklyn Bridge.

Library News

(By Mrs. Lee C. Goughly)
 A total of 85 boys and girls have joined the Readers Club for the summer. This number includes both Floydada and Lockney. There is still time to get your name on the readers list. Ask for information at the libraries and try for a Readers Certificate and a prize. The Readers Club starts with the first grade and goes through high school.
 New in the library—“The Turn of The Tide” by Arthur Bryant. This is a history of Field-Marshal Lord Alanbrooke, Chief of the Imperial General Staff. The author terms Lord Alanbrooke's diaries “the most important of all contemporary personal records of the war.”
 For the little folks — “You and the United Nations” by Lois Fisher. You and the United Nations is based on Louis Fisher's famous chalk talk. Willard Johnson, vice-president, The National Conference of Christians and Jews says, “It is one of the most outstanding presentations of the United Nations that I have been privileged to see. I hope that it will have an enormous circulation both in this country and abroad.”
Memorial Books
 Given in memory of Lewis Randolph by Mr. and Mrs. W. O. Tye.
 Given in memory of Mrs. Ella Johnson by Mr. Buford Terry.
 Given in memory of Mrs. Ella Johnson by Books on Bikes Club.

WEEK-END VISITORS

Mr. and Mrs. Norman Muncy of Leesville, La., arrived in Floydada on June 7 for a week-end visit with their parents, Mr. and Mrs. Robert Muncy and Mrs. R. A. Garrett and to attend the Floyd-Harrison wedding on Saturday, June 8. Norman Muncy is stationed at Ft. Polk near Leesville with the United States Army.
AT SAFETY TRAINING MEET
 Melvin Henry, Wiley Rogers, and O. A. Neff of Lightouse Electric are in Austin this week attending a safety training program for electrical workers.
 The trio left Tuesday morning and are expected back Saturday.
 Mrs. W. N. Hall and children, of Greenville, Texas, were here for two weeks until Saturday, guests of Mrs. Hall's father, Will Harrison. Mr. Hall came up Saturday to visit briefly and return to Greenville with the family Sunday. Mr. Hall is a son of Mrs. R. F. Hall.
 Mr. and Mrs. K. Crouch, and daughter, Anita Kay of Roswell, N. M., were here Friday afternoon and were guests of the Joe Dunns Friday night, returning home Saturday.
 On December 27, 1776, George Washington was made dictator of the United States -- the only one we have ever had.

ELECTRICITY IS YOUR BIGGEST BARGAIN AND---

Electric Living is FUN!

LINDA BAXTER
 HOMEMAKING STUDENT AT
 LOCKNEY HIGH SCHOOL

Linda Baxter demonstrates, to her mother, modern cooking techniques learned in school homemaking class.

Under guidance of teacher, Mrs. Quentin Adams, Linda Baxter practices cooking techniques on modern electric range.

"Our daughter sold us on ELECTRIC COOKING!"

says Mrs. CLYDE BAXTER
 College and 5th Streets
 LOCKNEY, TEXAS

Mrs. Clyde Baxter, like many adults, has had the advantages of electric cooking pointed out to her by her high school student daughter, who learned that the modern way is the accurate, dependable way. Of course, it's electric! Says Mrs. Baxter, "I'm mighty glad we installed an electric range when we built our new home. The counter-top height oven gives perfect baking results and we get more broiled foods since getting the new range".
 Sixteen-year old Linda Baxter is a sophomore student with two semesters in homemaking. Her teacher, Mrs. Quentin Adams, says, "Although our department has both types of household cooking equipment, most of our girls prefer to use the electric range".
 Why not "take a tip from your teenager"? If you are not yet cooking electrically, ask your daughter to tell you why you should.

performance for guar and apparent
 assurance of crop production, even
 on lands following winter crops
 of small grain.
 Seed is in plentiful supply from
 wholesale seed houses and avail-
 able through retail seed dealers.
 Plant guar like milo or negari, but
 only 5 to 8 pounds per acre, and
 cultivate to keep fields clean. It
 harvests readily with standard com-
 bines.

As A Farm Woman Thinks
 (Nellie Witt Spikes)

Still copying from the Third
 Grade poems of Mrs. Wells' Class:

My Daddy
 My daddy is big and tall,
 Beside him I feel small.
 He pats me on the head
 When he tells me to go to bed.
 Sometimes I act bad
 And that makes my daddy sad,
 He spanks me like he should,
 That makes me know to be good.
 When I grow up to be a man
 I hope to be like him if I can,
 And I hope that he will be
 Always proud of me.

— Jack

Our Visit to Mrs. Spikes
 When to Mrs. Spikes we went,
 We enjoyed every minute we spent
 Seeing many pretty rooks.
 One after another like beautiful
 blocks.
 I saw a bird who cocked his head
 He looked like he wanted to be fed.
 There were many colored rooks,
 They didn't look as soft as socks.
 — Ann Davis

I Am so Happy
 I am so glad I like the day
 I'll never be sad in my own happy
 way
 The sun is out, the sky is clear
 And I can see you little dear
 — Jan Kathryn

My Mother
 My mother is nice
 And my daddy has nice
 My mother works all day
 My daddy gets to play
 My mother takes care of my sister
 Can you do it, Mister?
 — Dennis Morris

The Real Easter
 The real Easter isn't a rabbit.
 Thinking this is a bad habit.
 The real Easter is the Resurrection
 Thinking this is perfection

And at the dark time
 Mary went into the room,
 She saw her Jesus was gone
 She began to cry but not for long.
 She heard a voice say, "Mary"
 "It is I and not a fairy."
 — Sharon K. Wells

Wayland
 Wayland is my name
 I can walk with a cane
 all day in the rain
 Right down lover's lane
 Without one pain
 But I have the same name
 — Wayland

My Goat
 I have some goats
 They like oats.
 They run and play
 And eat lots of hay.
 When the goats butt
 You had better run in a hut
 — Lester Bownds

Mrs. Spikes
 Mrs. Spikes was very nice
 To all of us little tykes
 She showed us her rock collection
 And we tried to show our affection.
 — Dwayne Phillips

Sherry
 I have a little friend
 Her name is Sherry Green,
 She has the longest hair
 That ever you have seen.
 She has a pretty face,
 She has a pretty nose,
 But all she ever talks about
 Are her pretty clothes.

— Jo Priddy

Well so much for the poems. I hope
 you have enjoyed seeing them in
 print and sometime I will have the
 others ready for your enjoyment.

I have cut back the roses, the
 roof is brand new, dark blue this
 time, the garden has been reset and
 up and we are beginning again. The
 pines and Colorado Blue Spruce
 are hurt mighty bad. They will not
 have as pretty a shape.

Cub Parrish has only gone on
 ahead to the Glory Land ahead of
 some of the ones he loved. He did
 so many things, little things, some
 of them but not little in the sight of
 God or in the memory of those who
 knew him.

Cattle Numbers Down a Little

COLLEGE STATION, — For the
 first time in seven years, cattle num-
 bers are down in the United States.
 A nation-wide drop of 3 percent in
 total cattle numbers last year coupled
 with recent widespread rain creates
 a better-than-average chance for
 higher prices.

The long drought was largely
 responsible for this decline, and
 cattle numbers have not yet turned
 downward in either the South or
 Midwest although Texas registered a
 7 percent reduction in 1956. Actu-
 ally national numbers are now at a
 low level.

McHaney says American cattle-
 men can generally expect higher
 cattle prices in a few years if the
 over-all economic activity and non-

point of balance and could swing
 either way if moisture conditions
 keep on improving.

Extension Economist John Mc-
 Haney says cattle prices will prob-
 ably improve if rains continue to
 fall at the right time and in the
 right places. He figures this would
 cause many ranchers to restock,
 holding back good heifer calves
 from slaughter. He says it also
 might create a better demand for
 steer and heifer stockers.

McHaney says American cattle-
 men can generally expect higher
 cattle prices in a few years if the
 over-all economic activity and non-

farm income remains high. He bases
 this prediction on the declining cattle
 to people ratio in recent years with
 the assumption that it will continue.

The economist advises cattle rais-
 ers to finish animals out by late
 June to avoid heavy July and August
 marketing. There were 4 percent
 more cattle on feet in January than
 a year earlier and indications this
 year point to a longer feeding period.
 Feeder cattle prices won't increase
 greatly by next fall, but they will
 probably be slightly higher. In-
 creased pork and poultry supplies
 will compete with beef.

side. We find thy dear face, looking
 through death's shadows, Not
 changed but glorified.

AS AN EXPERIMENT Fall-Planted Onions Big Enough To Go To Market June Fifteenth

In my experiment to determine if the farmers here on the plains can profitably raise their own onion plants instead of ordering them from South Texas:

Last October 1, I planted in my garden yellow grano and California Red Onion seed.

I transplanted these onion plants about March 1. I left some onion plants in the bed that I did not transplant. These onions I felt are over three inches in diameter. The plants that I transplanted are two inches in diameter.

I bought some South Texas plants and set them in March. Yellow Bernudas, also the South Texas granos from plants, as of June 15, are not half as large as the onions raised here from seed.

I did this for comparison. I was told by a supposed authority that the plains farmer could not raise his onion plants, because they would freeze out in our severe winters. Even if they survived they would make fruit stems, which would make the onion unsalable.

I wish to report that the onions planted October 1 did not freeze out and not a single fruit stem or seed stem in the transplanted or in the onions not transplanted.

Meaning we can raise our own onion plants here on the plains. What this experiment is all about is this: Our farmers paid South Texas farmers \$200 thousand for onion plants this last March, when we could have paid this money to some of our own farmers.

Again this year our Central Texas onion grower neighbors have run into difficulty. Their crop is badly damaged.

Onion prices jumped to \$4 per pound sack this last week. It could

be possible for a repeat performance on last year's prices. This part is outstanding — our "hit the market" timing is excellent.

Here is a thought worth considering:

Last year some of the boys planted their onion land to lettuce around August 1. The lettuce paid about the same as onions.

Or this onion land could be planted in "one eleven" Pinto Beans in July. They require only one watering. In 20-inch rows they produced two tons per acre and they fertilize the land.

For anyone who might be interested I can give plans to build their own onion seed planter — very simple and economical to build.

See a comparison of onions from home raised plants and South Texas plants in the Hesperian window or at my place, 602 South Wall in Floydada.

L. A. Marshall
P. S. Our high plains irrigated onions are excellent, sweet and juicy, tender as a woman's heart.

Fairview News

(By Mrs. Theron Perry)

FAIRVIEW, June 17 — Our community had around a quarter inch of rain on Monday night, and it was quite welcome. The ground has been so hard where water stood and planting has been cloddy.

There are two important events coming up at Floydada that should interest everyone. The first one is the free chest X-Ray which is on Monday, June 24, at the Bishop Motor Company, 114 W. California, from 8:30 a.m. to 5:30 p.m. Everyone who is 15 years or older is urged to have this chest X-Ray. It is free, the reports are confidential, and there is no need to undress. This X-Ray detects possibility of lung cancer and heart disease as well as tuberculosis.

The other date is the Mosquito Control program. This is to be in the Floyd County Court House on Thursday, June 27 at 8 p.m. The program will be presented by the Texas Health Department. Everyone interested or who has questions is urged to be present.

A pink and blue shower was given for Mrs. Buddy Nichols Tuesday afternoon at the home of Mrs. Shirley Irwin, Co-hostesses with Mrs. Irwin was Mrs. Chil McClure.

The house was decorated with pink roses. Refreshments of punch, cookies and mints were served to the guests. Present were Mesdames Lee Burton, Walton Wilson, Jim Stewart, L. B. Cozby, Dean Walls, E. W. Walls and Theron Perry, the honoree, Mrs. Nichols and hostesses, Mrs. McClure and Mrs. Irwin and children, Sharon, Dick, Carolyn and Phyllis Burton, Jan Perry, Del McClure, Judy Wilson, Roy and Larry Walls and LaJuna, Loreta and Harvey Irwin. Those sending gifts were Mesdames L. B. Cozby, Don Branson, Cecil Payne, Albert Hinkley and W. W. Riggie.

Mrs. Jean Lenti and children, Reed and Susan, spent the weekend with her sister and family, Mr. and Mrs. Chil McClure and Del.

Mr. and Mrs. Joe Rushing and children of Lubbock spent Fathers day with Mr. and Mrs. Lee Rushing.

Mr. and Mrs. Arthur Orr and children of Elberta, Ala., visited from Friday morning until Sunday evening with her sister and family, Mr. and Mrs. Shirley Irwin and children.

Mr. and Mrs. Theron Perry and Jan visited in the Irwin home Friday night.

Mr. and Mrs. Dean Walls' boys visited Sunday for Pothers Day in Plainview with Mrs. Walls' parents, Mr. and Mrs. R. C. Mangum. Others present were Mr. and Mrs. James Hall of Olton.

Mr. and Mrs. Ralph Johnson and girls of Colton, Calif., cousins of Mrs. Dean Walls, came to Plainview Sunday night. They came for the funeral of Mr. Johnson's stepfather, Mr. Thatcher.

Rev. and Mrs. Albert Hinkley and girls visited Thursday night with Mr. and Mrs. Dean Walls and boys.

Visiting Mr. and Mrs. C. W. Payne on Sunday of last week were Mr. and Mrs. Clyde Bagwell of Floydada.

Mr. and Mrs. Travis Burgett and family of Fort Worth came Sunday evening to spend a few days in the home of his parents, Mr. and Mrs. Lee Burgett. Others present Sunday were Mr. and Mrs. Bill Burgett and family of Shallowater and Mr. and

KNOX GELATINE
SWANSON Boned Chicken
CAMPBELL'S SOUP Cream of Chicken

RECIPE

1. Sprinkle 1 envelope Knox Unflavored Gelatine on 1/2 cup cold water to soften.
2. Place over boiling water and stir until gelatine is thoroughly dissolved.
3. Blend 1 can Campbell's Cream of Chicken or Cream of Mushroom Soup with 1/2 cup cold water, 1 tablespoon lemon juice and dash black pepper.
4. Add dissolved gelatine and mix thoroughly. Chill to unbeaten egg white consistency.
5. Fold in 1 can Swanson Boned Chicken or Turkey, sliced, 1/2 cup chopped celery, 1/2 cup chopped green pepper, 1 tablespoon chopped pimiento, and 2 teaspoons grated onion.
6. Turn into a 3-cup mold or individual molds, and chill until firm.
7. Unmold on crisp salad greens and serve with salad dressing.
8. Makes 4 servings.
