Ready and waiting is Postmaster Edward Wester when his first customer called for special edition stamps honoring the National Education Association. The first sheet went to Henry Barber, left. Occasion for the stamps is the centennial celebration of NEA honoring teachers of America for the past hundred years. Barber leaves tomorrow for Philadelphia and the national convention. — Picture by Kenneth Rimmer.

The overall picture of Floyd County farms this week is a bright one.

Cotton and maize, the row crop standbys, are fast developing under a warm sun. Even on dry land these crops are looking good and will suffer little for another 10 days.

Where lake water is in use prospects were never better and, of course, 2,000 irrigation wells are running round the clock.

But the drama and excitement are in the vegetable fields and sheds.

Potatoes and onions are being harvested and processed, lettuce is being planted, cantaloupe vines are being entwined and watered, cabbage is getting its final touch before harvest, carrots, tomatoes and pepper harvests are in the offing.

First of the Spanish onions began to go to the sheds this week and without exception are yielding higher than the earlier grades, which were hit by unkind weather.

Brown and Badgett started their Spanish yellow onions to the processing shed this week. Billie Brown thinks the yield is between 600 and 700 bags per acre. They are getting the crop a little early on account of the market for mediums. They could wait two or three weeks and get a bigger yield in the jumbos.

The "sight on earth" is the onion crop of Brown Bros.—Rex R. and Harold—northwest of Floydada on the Cowan place, belonging to R. Fred Brown.

There harvest of 35 acres of jumbo Spanish yellow has begun. Weather permitting the crop will be harvested as fast as crews can get them out of the field. Growers estimated the yield between 700 and 800 bags. It could be 900, the reporter thought Tuesday afternoon.

"We got started late on this crop but caught ideal conditions all the time and our crop is up with the other Spanish onions and ahead of some," said Rex Brown Tuesday. "Net profit on the crop at 750 bags per acre will run close to \$400, Rex thinks. They produced the crop cheaper than under ordinary conditions, he says, estimating the cost at a dollar per bag of 50 pounds from seed buying day to the finished graded sack, ready for the market.

The Browns at the suggestion of the county agent are holding back on the five acres of their onions "just to see what they will do." Should the market strengthen up and production climb up to around 1,100 bags it could be a profitable thing to do. Brown said the crop would be let go until the stalks brown and fall, then another application of water will be given. When the ground dries they'll be harvested.

The Brown boys are keeping the onion grader on the Jim Simpson place going at capacity. Simpson built a shed and put in grading equipment this spring on his Blanco farm so he could move his crop when he got ready and without waiting his turn at a custom plant. He won't be ready to harvest until the Brown crop is out of the way.

The Browns are marketing in a Brann & Griffin bag.

At the new wet processing shed most of the bugs have been worked out of the machinery and at least the crop of potatoes has been processed.

This was the Ferguson-Kimble crop. Ferguson was estimating a high yield, but the market is disappointing.

Yesterday the association was handling potatoes from the C. N. Waidling farm. Others are fast getting ready to harvest and the crop will move to the processing plant fast.

### Cotton Putting On Heavy Load

Cotton is fruiting fast. Crops that began loading up July 1 to 10 are beginning to have a real crop in prospect.

The crop this season, because it is late (and cotton tries to mature) should make a little more speed than the averages found in the book, which gives figures as follows:

- From emergence to squares 35 to 40 days;
- From squares to white blooms 20 to 25 days;
- From bloom to open bolls, 50 to 65 days;
- On the 130th day cotton field should be 25 per cent open.

County Agent Bill G. Rodgers said this week the progress of the cotton crop has been better than expected. Weather conditions have been ideal. Legum bugs and some fleashoppers are knocking off some squares, the agent said. The question for the grower to decide is whether to hit these infestations with poison or leave them alone for a little later and catch a crop of bollworms, also.

Can be a mistake either way you go, he pointed out.

As to the forage feeds the county agent agrees that the yields this year should be high and the cost of producing the crop lower than usual, because:

Most farmers have planted hybrids and they tend to make on less moisture than common varieties.

Lake water is being used and there is plenty of it that can be applied fast at lower cost.

Ideal planting time for high yields of forage feeds is June 10 to 20 and that is about the time that most farmers got into their fescues to plant.

All friends of the Williams are cordially invited to the occasion. They request that no gifts be sent.

### Golf Tourney Dates Named

Floydada Country Club second Pro-Am golf tournament, which the club was forced to postpone from a May date on account of rains and high water, will be held on Wednesday, August 14, it was announced this week by Bill Brown, the club's tournament chairman.

And along with this event will be held the club's annual invitational tournament, Brown said.

Qualifying rounds for the invitation will be held on Thursday, August 15, and match play in all flights will be held Friday, Saturday, Sunday, August 16, 17, 18.

Brown and his committee are issuing invitations and promotional information this week.

### MEETING DATE SET FOR BASEBALL ENTHUSIASTS

Don Barrow, president of Little League and Pony League baseball in Floydada, issued a call for a meeting Friday August 9 at 7:30 p. m. The district court room will be place for the gathering.

Barrow stressed importance of the business on the docket and asked everyone interested in both Little League and Pony League to be present.

Plans will be discussed for the 1958 season and a report on this year's activities will be made including a financial statement on the expenditures and improvements of the leagues.

Texas boys got a royal reception in the nation's capital last week while they were attending the American Legion's Boys' Nation. Here Wesley Gilpin, of Houston, left, and Ronnie Downing, are shown as they were greeted by Senator Ralph Yarborough, with the capitol dome in the background.

## Texas Boys Get Attention In Week at Nation's Capital

WASHINGTON, D. C.—Texas' two delegates to Boys' Nation, Wesley Gilpin of Houston and Ronnie Downing of Floydada, were welcomed to the nation's capital by Senator Ralph Yarborough.

Sponsored by the American Legion, the Texas youth were among 96 delegates from all over the nation who were here last week for the national convention of Boys' State organizations. Senator Yarborough is a Legionnaire, a member of Austin's Travis Post 76.

Wesley, Governor of Texas' Boys' State, is the 17-year-old son of Mr. and Mrs. A. W. Gilpin, 6334 Wainwright Drive, Houston. He will be a senior at Reagan Sr. High School in September, and was the presidential candidate of the Boys' Nation Nationalist Party.

Ronnie, whose parents, Mr. and Mrs. Gordon L. Downing, live at 121 W. Tennessee St., Floydada, is Texas' L. L. Governor for Boys' State and served as Campaign Manager for the Federalist Party at Boys' Nation. He will be a senior at Floydada High School in September and is also 17 years of age.

Both boys have been active in high school. Wesley was 11-Y parliamentarian, a track team letterman, and a member of the National Forensic League. Ronnie is a member of the Floydada Football, baseball, tennis, track, and basketball teams, is president-elect of the Student Council, and was class president.

Senator Yarborough warmly praised the American Legion for its Boys' State and Boys' Nation program. Yarborough said: "Boys' Nation and Boys' State furnish some of the finest training in citizenship, government and patriotism that the nation affords. Texas' Boys' States have sent to Washington, in Wesley Gilpin

and Ronnie Downing, two of the finest representatives of Texas youth of today. Nine million Texans have a right to be proud of them."

After being shown the sights around the Capitol by Senator Yarborough, the boys enjoyed dinner with the Senator in the Senate Dining Room of the Capitol. Then, Yarborough introduced them to many of the nation's distinguished Senators, including former Vice-Presidential candidate Estes Kefauver, and the nation's youngest Senator 32-year-old Frank Church of Idaho.

Ronnie Downing, Floydada High School senior, Sunday said the chain of experiences set off by his selection by the American Legion to attend Boys' State in Austin and Boys' Nation in the national capital, would always stand out in his mind as the richest experiences in his life to date.

Floydada's 16-year-old (turning 17) student was particularly happy because he was given so many opportunities to see behind the scenes and watch the operations of important government machinery in action.

Attention by Texas' senators, Yarborough and Johnson, Speaker of the House Sam Rayburn and Congressman Marvin Jones probably highlighted Ronnie's seven-day stay at Boys' Nation. Sam Rayburn impressed the Floydada youth as an intellectual giant. "Mr. Rayburn gave us nearly 30 minutes although we stopped at his office without an appointment."

As to Boys' Nation activities the Floydada boy wound up as his party's political leader and sparked the election of a 17-year-old from Virginia as president. "I had to back the Virginian against my Texas associate. I had a good candidate. To give you an idea, he is an ordained minister of the Baptist Church and has been for four years. That's saying a good deal for a 17-year-old. Our strategy was not to publicly mention his abilities in this line. We stressed other good qualities and let that just get around by word of mouth."

The boys lived on the campus of Maryland University, 20 miles out from Washington. The day began at 6:30 a. m. and ended at 9:30 or 10 o'clock at night. Something was scheduled for every waking hour. One evening they had 45 minutes spare time on their own and hardly knew what to do with themselves.

Flight to Washington was done in about 10 hours and the return home was even faster, Ronnie said. They sat down on the return trip eight hours after they left Washington. On account of the time zones their clocks only showed six hours.

Ronnie feels sure he has made his mind up this summer to enter the ministry. That will not be immediately, though. He recalls that his father (Gordon L. Downing) did not begin preaching until he was 30 and that his father's experiences include several years of private life, six years of this as a worker in the oil fields.

## All-Star Baseball Series Will Climax Little League Activity

All-star games scheduled to start today at 8 o'clock and continue through Tuesday will wind up the 1957 Little League activity, in Floydada. Interest has been high throughout the schedule, though rainy weather in May and early June did cause things to get off to a slow start.

Last game of the regular season is scheduled for tonight between the Red Sox and the Braves to be followed by the first National League all-star game at 8:00.

All star contests will pit a group of selected players of each league against an equal number from the same circuit. Managers of the National loop are Kyle Glover and Sam Puckett of the Cubs and the Pirates managed by Bud Sparks and G. W. Switzer.

Texas League stars will be piloted by Bob Harbor and Charles Horton

in one camp and George Bickly and Glen Jaragin in the other. Some errors were noted in making up of the roster which appeared in last week's paper.

Pitchers for the Horton-Harbor team should be Mac Wilson and Robert Becker. Danny Medley is also on this club and his name did not appear. Pitchers for the Bickly-Jaragin team are Stevie Marler and Jackie Walker.

Texas League games will lead off at 6:00 p. m. with the National League playing the nightcap starting at 8:00.

With only a very few games to be tabulated the Braves still maintained their hold over the Texas League circuit and through last Friday's play had a 11 won 2 lost record which was not in danger, so they can be considered the champions.

In the National it is a little closer with the Giants knocking at the door of the trophy case. They were holding a 12 won 3 lost record as of Saturday which gave them an .800 average in the won lost column. The Indians are breathing down their

necks with a .687 for the same date. The two clubs met Tuesday night in a top game of the season with much riding on the outcome.

At that time a Giant victory would leave them in complete command while a victory by the Indians would leave the championship questionable since the Indians have played more of their schedule than have the Giants who have lost five of their games by the one point margin. The Friday game saw them with victory well in sight but all the close calls went against them.

The loss left the Dodgers in the cellar and the Giants still atop the circuit.

The unofficial league standings through last Friday's play showed:

National League Standings			
Team	W	L	Pct.
Giants	12	3	.800
Indians	11	5	.687
Cardinals	4	9	.333
Dodgers	2	11	.154

Team	W	L	Pct.
Braves	11	2	.846
Red Sox	6	7	.460
Tigers	5	8	.385
White Sox	3	8	.273

Top hitters in the National League through the same date finds:

Player	Team	BA
Contee	Indians	.371
Teague	Dodgers	.323
Morren	Cardinals	.377
Bonner	Giants	.358

### Cars Damaged But No Serious Injury From North Second Crash

A two-car crash on North Second Street Friday evening of last week did extensive damage to a 1957 Chevrolet, owned by Grier Christian and driven by his son Bobby. Hit in the side by a 1957 Plymouth driven by Horace Little in the block between Calvary Baptist Church and Tascie-Freeze Drive in the Christian car slammed into a fire hydrant at the corner of Grover street, bashing in the other side of the car and breaking the hydrant off at the ground.

Neither driver was injured seriously. The Little car also had considerable damage.

City Police Horace Case said both cars were traveling south. When the youth attempted a turn the car behind plowed into him before the driver could swerve to avoid the collision.

## Seek State's Outstanding 4-H Alumni For Honors In 1957-58

Would you like to nominate for special honors a former 4-H Club member who has become an outstanding citizen? This is now possible through the national 4-H Alumni Recognition program being conducted by the State Extension Service, and sponsored by Olin Mathieson Chemical Corporation, Plant, Food Division, Little Rock, Ark.

To be eligible, candidates should have performed some outstanding service, made a notable contribution to the community, state or nation, or displayed exceptional leadership. The person need not now reside in your state.

There are more than 21 million former 4-H'ers throughout the country, and undoubtedly the beneficial influence of 4-H training and ideals has affected the lives of every one. Among them are men and women whom you know as friends and neighbors — such as farmers, housewives, the family doctor, teachers, local business men and legislators.

By sending in the name of a qualified 4-H alumnus, you may pave the way for well deserved recognition. Two winners from each county will be named for special recognition certificates. Four outstanding persons will be honored in the state, and will receive a burnished copper and walnut plaque.

Eight men and women will be honored during an impressive banquet at the national 4-H Club Congress in Chicago next December. Besides the expense paid trip, each winner will be presented with a gold 4-H alumni key, the national award. The 1958 candidates also will be selected at this time.

Candlelighters were Tommy and Jerry Johnson, Lockney, and flower girls were Misses Mary Ann and Carolyn Byrd, Lockney. James Dorsett, Lockney, was ring bearer.

Alton Kile of Odessa served as best man. Ushers and groomsmen were Dane Clark, Abilene, Robert Stovall, Floydada, Bill Carmack, Abilene, and Norton Baker, Lockney.

Mrs. Johnson chose for her daughter's wedding a powder blue embroidered linen with white accessories and a corsage of white asters. Mrs. Gilbert the bridegroom's mother, wore a black pique, with pink accessories and a corsage of pink asters.

He was 90 years of age. He had been practicing at Eldorado since moving there 26 years ago from Floydada.

Sunday afternoon and evening he was presented to Rotary Club members and their families informally at a reception at the Oden home, and Monday evening he learned about an American lawn picnic party with ice cream and drinks. Bennis, a 25-year-old, told yesterday of his country's struggle for independence from France, which was gained in 1956. A nation now, it has 10 million inhabitants. In its beginning years it is having fiscal troubles and taxes are relatively high. Formerly for four centuries Morocco had been divided into French and Spanish protectorates.

The new nation is not afflicted with splinter parties. However, Morocco is straining to get greater oil production in their own boundaries. They have some oil but not enough for their needs and gasoline, that is bought in America at high price of 30 cents, including tax, sells in Morocco at the equivalent of 80 cents, including tax.

Bennis has been visiting farm projects adjacent to the city, has already had some experience with types of tractors which are new to him.

Members of the Rotary Club are planning other activities which they hope will have value to the visiting young foreigner. He says he is finding social and business relations locally an interesting study.

## Center News

(By Mrs. J. E. Green)

CENTER, July 30 — Such hot,  
 hot weather! If one has not a cooler  
 in his home it is just too bad. We  
 are grateful for the clouds floating  
 over today and the few rain drops  
 that cooled the air a bit. How good  
 would be a 2 or 3 inch rain!

Attendance at Sunday School was  
 less than 20 last Sunday. Some  
 were indisposed, some just don't  
 come, especially on Sunday night,  
 if we don't have preaching. We  
 hope to have preaching next Sun-  
 day, so please everybody come and  
 let us hurry and get us a pastor.

Mrs. Nolan Arney has been laid  
 up with the mumps. Her sister  
 Donna Welborn, has been with her  
 during her illness.

The Greens and the Rymans had  
 a very pleasant trip and visit in  
 Peralta and Albuquerque last week.  
 They visited Clyde Green at Peralta  
 and the J. B. Jordans in Albuquerque,  
 all former Centerites. Weather  
 was cool and delightful, accompan-  
 ied sometimes by showers. Only one  
 hot dry strip of country in eastern  
 New Mexico near Ft. Sumner. The  
 party returned Friday, visiting  
 briefly in Olton and Plainview with  
 relatives.

All the J. E. Green's children and  
 their families were at the Floydada  
 home Sunday. These were Mr. and  
 Mrs. Clyde Green and daughter,  
 Gretche (or Gretchen) and daughter,  
 Peralta, N. M., Mr. and Mrs. Victor  
 Green and son, Jimmy, of Plain-  
 view; Mr. and Mrs. J. M. (Doc)  
 Ryman Jr. and girls, Sara Elaine  
 and Denna, of Sweeny; and Don  
 Clark Green of Big Spring, who was  
 accompanied by Miss Betty Lou  
 Ratfill of Big Spring.

The Rymans, the last to leave for  
 home left Tuesday morning. We  
 had a good time while it lasted. But  
 parents, the old folks always feel  
 such gatherings are too few, tho  
 thankful for all of them.

 Grace and Joe Lee, spent Sunday in

 son received word that their son,  
 Ernest of Lubbock, had been in an  
 accident with an electrical saw in  
 which he suffered a bad cut and  
 minor cuts on his right hand. He  
 was hospitalized, but is home now  
 and seems to be recovering nicely.

Sunday, July 21, the Denisons at-  
 tended the Stephens family reunion  
 at Mackenzie Park, Lubbock. This  
 was the family of Mrs. Denison's  
 mother, Mrs. Ada Eaves of North  
 Platte, Neb., who with a sister,  
 Mrs. Ona Wright also of North  
 Platte, two Texas brothers and a  
 sister in Lubbock were present.  
 These and all descendants and  
 families numbered over a hundred  
 who enjoyed the day.

Mrs. J. D. Welborn went to Lafora  
 Wednesday and brought home her  
 mother, Mrs. Kendricks and a bro-  
 ther, Mr. Wright for a ten day  
 visit. Mr. Wright has been ill.  
 Others present in the Welborn home  
 Sunday were their children and  
 families, Mr. and Mrs. James David  
 Welborn of Canyon and Mr. and  
 Mrs. Nolan Arney and Steve of  
 Floydada.

Mr. and Mrs. H. B. Mankins had  
 for the week-end their daughter

# SATURDAY NIGHT Kennamers, Meadors Unhurt In Quake That Shakes Mexico City

Mr. and Mrs. Homer O. Kennamer Jr., who moved to Mexico City in January, are the only people with Floyd County connections who were in the capital of Mexico when Saturday night's earthquake hit, so far as has been learned locally.

A telegram to Homer's parents here Saturday said that all of the family were safe. Nothing was said about damage to their living quarters, and the Kennamers presume they suffered no loss in that respect.

Homer Junior has been in the employ of Anderson, Clayton & Co. for a number of years—almost ever since he graduated from Tech. He was offered a Mexico City assignment the latter part of last year and accepted.

finish out his stay in Mexico and come home this week-end.

The Meadors and Miss Webb flew down to Mexico City Saturday in time to be present at the quake. Joe reports, "Ben was among other shaking things in Mexico City," he said.

Asked if he thought Doug flew down on a hunch Joe said he guessed the lucky devil did. "However, you can quote me as saying that he may get all that stuff by AP and the daily newspaper he has sent out, but he won't put it over on the Tribune. We may mention he is in Mexico City," Joe quipped.

Globetrotter Meador was awakened by the creaking of the big Hilton Hotel, he is quoted by AP as saying. He and his wife were on the sixth floor. They tumbled down to the lobby floor by the light of a candle and joined the crowds which milled throughout the night and into the morning hours.

Digging deep the Hesperian reporter asked how Publisher Meador got hold of enough money to fly to Mexico City, D. F. "I think he cashed a Sell Bank check and took off before his creditors heard about it," Joe, the merciless cousin and savior, replied.

## Bond Sales Good First Six Months

During the first six months of 1937, the citizens of Floyd County invested \$162,731 in Series E and H Savings Bonds. Of this amount \$21,800 was purchased during the month of June. This report was made today by Joe Gidden, Chairman of the Floyd County Savings Bonds Committee.

Sales in Texas during the first half of 1937 were \$85,566,685 or 44.3% of the 1937 goal of \$193,100,000. June sales in Texas were \$12,986,481.

"I would like to remind the people of Floyd County that there is no safer investment in the world today. Both the principal and interest of U. S. Savings Bonds are fully guaranteed by the full faith and credit of our government. Savings Bonds now earn higher interest and mature sooner. Remember, our slogan for 1937 'Part of every American's savings belongs in U. S. Savings Bonds' Chairman Gidden concluded.

## Crop Progress

(Continued from Page One)

carefully stored the need for the grower to hold his crop for more orderly marketing is apparent to the marketing operators.

The Brown boys vegetable venture is one of 10 or 12 in the vicinity of Floydada which will market cantaloupes and lettuce through the Lockney Vegetable Growers Association of which H. E. Frizell is president. Among these growers are Joe Dunn, Lon Davis Jr., and the Stanfords at South Plains, Rex Brown said.

The Browns have 24 acres of cantaloupes and are planting 66 acres of lettuce.

There are nearly 600 acres of cantaloupes in the county. Stanforth seems to have the crop most nearly ready for harvest. Trautman Bros. have a half section growing north of Lockney.

Corn and cabbage both have a good price tag today. The eventuality at harvest time are yet to be learned.

Potato runs this week have been hard to make due to harvest of the spuds in damp ground. Dirt clinging to the tubers has been stubborn and has forced slow-down in operations.

Rainfall in the 10-day period has given considerable moisture in spots and streaks. Last week Lockney and the country-side there had nearly an inch of rain in showers. At the same time all the county had some moisture, with up to two inches and more in limited sections. One of these favored sections was in the southwest corner of the county extending southward from Barwise and into Hale County.

Other rainfall this week included good cotton showers that made a wide circle around Floydada from south Fairview through parts of Campbell, Baker, Lakeview and Starkey. It was too wet to operate in the fields early Wednesday on some farms in the favored areas.

The county's farmers who have been using all available local labor and many transients since mid-June in weed cleaning operations, have augmented the demand for manpower since the beginning of vegetable work.

Estimate yesterday was that in addition to several hundred crewmen in vegetable fields and sheds, about 200 Mexican nationals are being given employment.

## Sand Hill News

(By Mrs. James Jeffress)

SAND HILL, July 29—Hot and dry pretty well sums up the weather in the community. Hoing, watering and spraying seems to be the big talk. It seems the weeds are the worst in several years. The ground is already dried and big cracks are beginning to show up in the cotton fields and the insect problem seems to be quite bad this week.

The Sand Hill club day will be changed starting in September from the second and fourth Wednesdays to the first and third Wednesdays of the month. Let's all begin thinking about this change and try to remember it. The club will furnish the drinks. Mr. and Mrs. H. F. Jackson visited in the home of Mr. and Mrs. Bill May Friday night.

Mr. and Mrs. Leroy Durham have been gone this week to South Dakota. They will return home sometime this week-end.

The junior boys were the last group to attend the Baptist camp at the encampment this week. Bro. E. O. Adams took the boys to camp. J. M. Williams spent Thursday with them and Lawrence Baird brought them home Friday. It seems that all attending camp this year had a very enjoyable time. The junior boys attending were Joe Ed Noel, Bard Earp, Cecil Jackson, Rodger and Darrell Adams and Grover Earl Coffee.

A going away party was given Thursday night at the church in honor of Rev. and Mrs. E. O. Adams and family. Group singing was enjoyed followed by Bible games led by Mrs. J. M. Williams.

Mrs. M. B. Swanner was mistress of ceremonies for a "Queen for a Day" program, with Mrs. Adams being elected queen. She was presented a Universal electric coffee maker.

Refreshments were served to Rev. and Mrs. Adams and family; Mr. and Mrs. Dale Stringer and Stinson; Mr. and Mrs. Grover Coffee and family; Mrs. J. T. Spears and family; Mr. and Mrs. James Jeffress and family; Mr. and Mrs. J. M. Williams and Judy; Mrs. McKibben; Mr. and Mrs. M. B. they also visited in the home of Mr. and Mrs. Joe Handley of Lockney.

# Floydada Pony League 'Nine' Drops 2 Games

Floydada Pony League's all-star entry in the district tournament at Post dropped two straight games and was eliminated in the first day of play. In their first outing they looked like a million dollars through six full innings of play and went into the final frame leading Littlefield 2-0, needing only three outs to advance in the upper bracket.

Starting the fatal seventh, however, and in their second game also very little can be said in their favor. Faced with very good opposition the boys fell before Littlefield which started a last inning rally and scored seven runs before the fire could be put out. The Floydada team more or less lost its composure in that deluge of runs and never looked like the same team again. Final score Littlefield 7 — Floydada 2.

Mrs. Cecil Baxter, Mr. and Mrs. W. W. Baxter visited with them on Sunday.

Visiting in the W. W. Baxter home on Sunday were Mrs. Ray Hopkins and Glen of Tahoka and Mr. and Mrs. Cliff Stephens of Matador.

Mrs. S. H. Tackett and Mrs. Mal Jarboe made a business trip to Lubbock on Thursday.

Visiting in the Tackett home on Wednesday were Mrs. L. F. Ellison and children and Zane Ellison of Crosbyton and Miss Barbara Dodd of Houston.

Mrs. Jim Stewart left early Saturday morning with Mr. and Mrs. Bill Horton and Mrs. L. A. Horton of Plainview to attend the Mullen Reunion at Glenrose. They returned Monday afternoon.

Mr. and Mrs. Shirley Irwin and children went to Lubbock on Sunday to attend the Waller family reunion.

Mr. and Mrs. Clifford Helms and children of Lakeview visited Thursday with Mr. and Mrs. Shirley Irwin and children.

Coming back with only a few minutes rest Floydada played Slaton and went down 14-1 apparently still in the same slump as in the final inning of their first game.

Bright spot as far as Floydada fans are concerned is the fact that the local team was made up mainly of younger first year boys who will be eligible again next season.

Lubbock SW won the district Pony League title Monday night when they defeated Slaton 5-4. Slaton had taken an early lead but went into the bottom of the seventh with the score tied 4-4. Johnny Sims stole home with the winning run for Lubbock. The winner will be eligible to enter the area playoffs at Monahan early in August.

## ★ ★ ★ ★ ★ VIEWS AND COMMENT

**Make Cotton Competitive.** Most everybody in the know as regards cotton seems to think that the cotton industry needs to move fast to make American cotton competitive with the synthetics and cotton from other countries, so as to save the markets and not dry up the cotton raising industry in this country. How to do this and arrange some kind of compensatory payments to keep from breaking the farmers while the change is being made, is the big problem. George W. Pfeffenberger, of Plains Cotton Growers, says the final outcome of any action in the congress is in doubt. A split in the farm bloc over other commodities has the whole agricultural program stalemated for the present. He fears no other legislation will be forthcoming this year. Just back from Washington he says the situation is not completely hopeless, but leaves the impression it is almost.

**The USDA opposes all new farm legislation** except its own plan, which is to give the secretary full authority to set support prices anywhere between 0 and 90 per cent of parity, or at best, between 60 and 90 per cent, and without any increase in acreage. This information comes from the Plains Cotton Grower executive. Mr. Benson doesn't see eye to eye with most of us.

**Dr. E. N. Jones, Tech's president,** has quite a problem on his hands, trying to hold things together for the West Texas school. The regent's action in refusing to renew the contracts of three professors has set the school on its ears and there has been considerable repercussion in the press, some of it from the plains newspapers of an uncompromising nature toward the board of regents. Some of the Hesperian's readers have thought we ought to take up the cudgel. Ralls, Tullia newspapers unloosed stinging censure of the board. At Ralls Editor Joiner estimated last week that if Haley would leave his gun at home Joiner could whip him in a fair fist fight, while Tullia spoke of the meeting of the board as the "Texas Tech debauchery." The man who is caught in the middle is Dr. Jones. He has been through some difficult crises in his teaching career. He really has a challenge this time.

**We are unfamiliar with most of the men** who comprise the board of regents of Texas Tech. But two of them we know pretty well. We hesitate to jump off the deep end condemning C. I. (Stony) Wall and Harold Hinn. We have thought the Midland newspaperman substantial and levelheaded, also. The board is reported unanimous in the decision to let the professors go. The board no doubt considered the hazards and arrived at their decision after due deliberation. Bucking the accepted rules of tenure and the national collegiate organization's possible blacklist are two of these.

**It didn't ruin the University of Texas** when the regents let Evetts Haley go nor did it ruin the university when Homer P. Rainey was let out after he had his fling as president there. It won't ruin Texas Tech when three professors are or are not retained in the

teaching staff there. Only question is one of fairness and justice to the men who are presumed to be dismissed.

**Every fifth car that passes a given point** in the suburbs of the City of Floydada is a "foreign" car, that is registered in some other state or county in this state. This means there are 400 "prospects" a day for a business situated on the highway in suburban Floydada, who want services that are incident to travel. To capture more of these swiftly moving dollars would add measurably to the total volume of business done in the community. Various communities in the southwest have adopted novel plans to catch the fleeting glance of the traveler. Getting him to make a voluntary stop is something for the ingenious tradesman to come up with. Note that when the car comes to a halt the whole family piles out and begins to spend money. A good deal of this kind of money goes on by Floydada unsolicited every 24 hours.

**Is local capital "scared of its horses?"** Afraid to venture a bet on its own community? On the doorsteps of the biggest boom in the history of agriculture, which must result in more people and more demand for goods and services, do we note a tendency to lag in spending to keep up with the march of progress? Lack of interest in paving, in parks and playgrounds, in street marking, in generally brighter and better appearance of the business and residence community may be only the outward manifestation of an inward inhibition. Fortunes are made and lost by a people who make or lose because they dare or do not dare.

**Respecting The Court, Says The Dallas News:** The president says we ought to respect the Supreme Court; it is "one of the great stabilizing influences in this country to keep us from going to the extreme." That is what the court ought to be. And a court which is one of the great stabilizing influences in this country is not hard to respect. But, when the referee insists upon carrying the ball himself, who then is referee?

**Blowing fuses, flickering lights and shrinking TV pictures** when additional electrical appliances are turned on are signs that circuits are overloaded. For safety sake, call in an electrician and ask his advice on what should be done. Don't play handy-man, warns W. L. Ulrich, extension ag engineer, with something that can be as dangerous as electricity. Safety Week might be a good time to do some checking.

### DIPLOMACY

"Yes," said the conceited young bachelorette. "I have the greatest admiration for women. But I wouldn't marry one of them—not me!"  
"I see," said the sweet young thing. "you not only admire women, but have a sincere regard for their welfare."

Our country! in the intercourse with foreign nations may she always be in the right; but our country, right or wrong!  
—Stephen Decatur, Toast, April 1816

## Start Repairs On Pavillion At Roaring Springs

In a statement given the Matador Tribune last week, Ebert Reeves, president of the Molley-Dickens County Old Settlers Reunion, said that work had been started on the pavilion at Roaring Springs Pioneer Park, putting it in repair for the annual reunion.

Pouring of the new concrete floor for the pavilion will be completed as soon as possible, Mr. Reeves said. Other improvements will include rebuilding of the speakers stand and general repair of the old pavilion, including the structure.

Some repair work is also scheduled about the rodeo arena. The entire plant will be in shape for the reunion, August 22-23-24, directors said.

Rope and saddle fans look forward to the rodeo performances which have attracted larger crowds each year. Some fans who attend rodeos in all parts of the country say the Old Settlers amateur rodeo is second to none.

## Floyd County 14 Years Ago

(Taken from the files of the Hesperian, issue dated Aug. 5, 1943.)

Cooling winds with somewhat heavy skies yesterday morning for a few hours halted only temporarily a heat wave that has held the plains area in its grip for 13 days.

While breezes had turned wind-mills since last week-end and put water supply back somewhat to normal on farms and stock ranches the sun continued to beat down and complaint of damaging row crops have begun to come in.

Miss Mary Lee Thacker left Sunday in company with her aunt, Mrs. Virginia Miller of Austin and three other teachers who will make a tour of Old Mexico. The teachers are making notes that will be used in an education course in the interest of the state university.

Floydada is one of nearly 100 spots in Texas on which the State Department of Health is focusing attention this week in an effort to get citizens to separate filth from their communities in a fight to prevent further spread of poliomyelitis.

## Cotton Damage By Herbicides Is Wide-Spread

In contrast, not a single report of damage has been received from counties where the Texas Department of Agriculture regulates the sale and use of herbicides.

Some 129 counties are regulated by the Texas Herbicide law. Permits must be obtained for applying herbicide chemicals in these counties and a Department of Agriculture inspector must supervise spraying operations.

The remaining 129 counties are exempt from the law and it is in counties where crop damage has occurred.

Inspectors make certain that spraying is not practiced within certain distances of susceptible crops—in relation to wind velocity. It is also important that clean equipment is maintained. Much damage has been done by poisoning cotton with equipment which has been used in making application of herbicides.

Although the Texas Department of Agriculture does not have official jurisdiction in unregulated counties, farmers are urged to use extreme caution in applying weed and brush killing chemicals. Department inspectors or County Agents should

be contacted for further information on proper safeguards during spraying operations.

Copies of the Herbicide Law, listing regulated counties and material relating to proper usage, may be obtained by writing: John C. White, Commissioner of Agriculture, Austin, Texas.

## As A Farm Woman Thinks

By Nellie Witt Spikes  
Herirooms

By Virginia Scott Miner  
All precious herirooms woven, embroidered or crocheted. Are like a soft voice saying, "Behold what I have made."

Though decades fly like minutes, this message they call clear: "My work extends my lifetime. Look closely I am here."

And as we stand at the store windows, and look at the precious herirooms that have been handed down, we know the makers are with us, if we look closely.

Friday at the Rails Reunion of Old Settlers and Pioneers you will hear men and women calling one another by their given names, too little heard as we have grown older. The tears that smart our eyes may have been caused by the smoke of the campfires lighted again in memory by all present. The smiles on old faces are put there by the old jokes we all know so well, but like to hear over and over again. The pain in our hearts by the missing of so many old friends is soothed by the comfort and love of those present.

Talk about the Fountain of Youth! It has nothing compared to the getting together of folks who have known one another in the west, since the wind started blowing. I notice that rheumatic knees are straightened out, wrinkles go out of faces, and weak arms grip round necks strong as of old. Eating and talking together, remembering with pleasure, instead of pain, the trying days of the New West, recalling the happy times with shouts of laughter, too soon we are separated, each to go back to the present duties of the times, but with thankfulness in each heart for the blessed

There's Uncle Em, and Lishe and John. And Uncle Bud, they've journeyed on. Aunt Mary and Uncle Pan. Dear Aunt Teck and Grandma Van Uncle John Sawyer and Grandma, too. Have gone to a Land forever new. Don't forget Joe, and Aunt Lucy so dear. Uncle John Noble we miss you here. And Aunt Ophelia, and Mother. Grandmother Ragle, all these are gone. We miss your dear remembered faces. From their old familiar places. Uncle John Kerlin, your beautiful life. Will live forever thru time and strife. They left old ties and settled here

And made their homes, each pioneer. Reared their children, in honor and truth. Won the love of the aged and the youth; They left their marks upon the land. Their old landmarks shall always stand.

I am bringing a guest with me Friday, Maude Bedingfield Scott and I am sure you will enjoy her talk.

Let Me Live By the Side of The Road

Maude Bedingfield Scott  
My parents, Mr. and Mrs. J. A. Bedingfield built a little two-room house, boxed it and stripped it and dug a good dugout that served as both kitchen and bedroom. They built by the side of the old mail road route that went from Emma to Plainview. Here they reared their five children to maturity, ever entertaining the many strangers as well as friends. As dad would say "In so doing you may entertain strangers unawares."

Many were the drummers that passed our way by buggy and team. Often they would stop for dinner or to spend the night in our home. How they would brag on the fried chicken, chest nuts and ground mild cereal and rich cow cream. And when dad and mother would refuse the price for their stay, they would often give us children a nickel apiece all our very own. And how happy we were. It did not usually go for candy but to R. N. Martin's Store for six lead pencils, which sold for a nickel, some ink and pen points or other school needs.

Then there were the circuit riding preachers that spent many nights with us. There I learned the Plan of Salvation listening to them and dad in their friendly discussion which would probably last 'till 12 o'clock. Among these was Brother Winn, a Baptist preacher from Plainview. Another was Brother Bentley, the Methodist Circuit Rider from Canyon City who weighed over three hundred pounds. They were so good-natured and patient with the wayward youngsters. All the young people loved Brother Bentley and if he sent an announcement to preach, they would call off their dance and go to preaching.

Then there were friends and neighbors from Estacado and Farmers that spent many nights with us which they served on the jury at Emma. They would spend the Sunday nights before court opened on Monday with us, and come back at night while they served. I can still hear Will Elliott coming down the dugout steps as soon as mother would get breakfast going, saying, "Mrs. Bedingfield, I've jest got to have a little bit of Arbuckle."

Bob Lynn and dad made "medicine" the night before the elections, that was plans for the men of their choice to be elected. One night I recalled five strange men stopped out of a hard rain after we had gone to bed. How did we bed them? Mother had made up a supply of

quilts and comforts before leaving the cotton country and she knew how to make pallets and the way-farers knew how to sleep on them and to appreciate the privilege. Then there were the cowboys who often stopped for buttermilk or other food. It would be a two gallon crock of slubber with salt and pepper to taste.

Then the pioneer preachers of our faith always made our place their home, riding the six miles to Emma twice a day in the farm wagon with our family. This included Joe Day and Charlie Smith. Then the prospectors would stop or some water for their teams and or fix a meal. Mother, so hungry or women companions would go out to the wagon and invite them to come in and cook on her stove and she would give them milk. Often they would accept her invitation to sleep in the house, and how we enjoyed having them!

The mail route was owned and started by Stant Rhea and Bob Montgomery who drove two little Spanish mules to a backboard. How handy it was to run out and open the pasture gate for them to mail our letters at Plainview or maybe we wanted a ride to Estacado. We rode without charge.

Later on the owners were able to hire drivers. I can recall Will Reagan, Mr. Fannin, Charlie Oliver and Lee Wardlow. Sometimes when it got bitter cold they would stop in and warm by our fire.

Thus we grew up in Crosby County.

# And From Capitol

that "a real emergency exists." He asked the President's help in obtaining a limit on foreign oil imports. "More drilling rigs are being stacked," the governor's wire noted, with an adverse effect on state revenues.

Because of lowered demand for Texas oil, the Railroad Commission set the August allowable at 13 producing days, same as for July. It is the lowest producing pattern ever used in the state.

**INDIVIDUAL INCOMES UP**—Texans are getting richer, according to Uncle Sam's tax reports for fiscal 1957.

For the five-state Southwest area federal tax collections hit the all-time record total of \$4,346,149, 316. More than half of this—\$2,569,867,402—came from Texas. This is a 7 per cent increase for this state over last year's collections.

Of this total, 75 per cent comes from income taxes, the remainder from employment taxes, excises, etc. Revenue officials attributed the big jump to higher salaries in the Southwest.

**IT'S AN ILL WIND**—Cricket season came early this year in the Capital City. The pesky, black jumper which pay Central Texas an annual visit in great numbers, are here. But Marion Toole, aquatic biologist for the Texas Game and Fish Commission, says it's a lucky season for fishermen. Crickets, it seems, are considered a real delicacy by all game fish. But sunfish and bass bite them best, he says. "It's too good an opportunity for any fisherman to pass up."

So, while merchants fight them in downtown areas and home owners spray, both fish and fishermen can have a field day. "And they'll be with us until early September," Toole added.

**TRAFFIC TOLL UP**—Texas traffic deaths and injuries jumped an estimated two per cent for the first six months of this year as compared to 1956.

Reports from the Department of Public Safety for January-June, 1957 show 96,785 accidents. Total for the same period in 1956 was 91,555 accidents. Final figures on deaths and injuries are not yet tabulated.

One bright spot, however: deaths dropped from 5.7 per million vehicle miles to 5.5 for this year.

**VEES DUE REFUNDS**—Some \$16,271 in fees will be returned to veterans who started, but did not complete, transactions with the Veterans Land Board.

Before it was amended by the last Legislature, the law did not allow the board to return fees to veterans who changed their minds about buying land.

Average refund will be about \$70, largest \$100, according to Land Commissioner Earl Rudder.

**"FLU" WATCH ON**—An outbreak of Asiatic "flu" in Texas is likely, say State Health Department officials.

Many Texans were belatedly exposed at a church conference in Grinnell, Iowa, and at the Boy Scout Jamboree in Valley Forge, Pa.

Adding to the uneasiness was a report that 50 sailors stationed at Corpus Christi had been stricken.

Present vaccines are ineffective against this Asiatic virus, said Dr. J. E. Peavy, chief epidemiologist. "But I hope a new vaccine will be ready by fall."

**VICE CAMPAIGN IN THE RED**—Att. Gen. Will Wilson's department is having to use "rubber checks" to carry on with its campaign against organized gambling.

Because of its extra activities, the department ran out of money, with no more due until the new fiscal year begins, Sept. 1. Governor Daniel granted the department \$17,425 from his special emergency fund of \$200,000. But, because of a technicality in the wording of the bill, this money isn't officially available either until 1959.

Hence, the checks written on the fund are deficiency warrants, which, said the controller, are really "hot checks." Banks can't get their money from them until the Legislature meets and makes them good.

**OPTOMETRISTS WRANGLE**—Texas optometrists are still in a hassle as to whether the state can regulate their advertising—and if so how much.

Prior to the last Legislature the State Board of Optometry Examiners tried to set up advertising regulations. Suit was brought challenging its authority and the effort was dropped.

Last session a new law was passed barring "fraudulent, deceitful or misleading" advertising. At a recent meeting the board is reported to have set machinery in motion to form an advisory committee from the profession with powers to set restrictions. But some practitioners objected and talked of trying to get advertising media to bring suit to test the constitutionality of the new law.

A board spokesman promptly explained the board wasn't contemplating any ban on advertising. He said the statewide advisory com-

mittee was only to make recommendations which would not be binding.

**SHORT SNOOTERS**—Half as many legislators with twice as much pay has been proposed by Austin's Sen. Charles Herring. "I've found it difficult to deal effectively with such a large number of lawmakers," said Herring, but added that he doubted the halving plan would be adopted.

A total of 92 new firms employing 1,587 persons was started in Texas last month, reports the Texas Employment Commission.

Low bids totaling \$14,063,208 were tabulated by the State Highway Department in its July bid opening for road construction projects.

One of the largest organizations in Texas was launched this week at a convention leading up to the merger of state labor groups into the Texas AFL-CIO.

Gene Lathem of Dumas spent last week with his sister, Mrs. Buck Murrice and her family.

Jackie Henry spent the week-end in El Paso.

Wiley Rogers, J. C. Odum, Gene Hopper, Harry Reeves and Marion Barton, the Pulpit Committee of the Calvary Baptist Church, in Floydada, attended church Sunday morning at Wilson in Hockley County and at the First Baptist Church in Happy on Sunday night.

Mrs. E. B. Chesnut accompanied Mr. and Mrs. E. J. Barker to Dumas last week where they visited Mr. and Mrs. A. O. Beck.

It was nice to have Mrs. Jim Hart of Hereford come by Monday afternoon for a visit. She and Mr. Hart were in Floydada on business. They are former residents of the Baker community. They now live seven miles from Hereford on the Dimmitt road. She said they enjoy living where they are now located but still miss their Floyd county friends. I forgot to ask her if she still does the beautiful handwork she used to do when they lived here. Maybe she will come to see us again soon.

One group of the Women's Missionary Society from the Methodist Church in Crosbyton, come Monday for a demonstration on "Planning and Preparing Summer-time Meals." There were fifteen women in the group that came over for this meeting. A film on how we can live better electrically was shown to the group in the afternoon.
