

# County Will Need 4,500 Pullers, TEC Forecast

## 2,400 "Ceiling" Set On Import Of 'Nationals'

Texas Employment Commission is forecasting that Floyd County will be short 4,500 cotton pullers at the peak of the harvest this fall and is setting up a local committee to cope with the shortage of workers, it was indicated in a report this week by Bill Day, manager of the Texas Employment Commission in Plainview.

Floyd County citizens, Gerald Sams, George Webster, Dick Whiteley of Lockney, Cecil Hagood and Olin Watson, of Floydada, will serve as County Farm Committee. Mr. Day announced they met with him at the court house last Friday morning to review the total seasonal employment needs developed by TEC.

That there will not be enough native labor to meet the situation is also a conclusion of the Texas Employment Commission, the agency estimating that 2,400 Mexican Nationals will have to be imported into this county to harvest this year's cotton crop.

The County Farm Labor Committee will function under Public Law 78, obtaining facts relevant to the supply of domestic farm workers existing in Floyd County and the shortage of workers, if any, which must be met by importing Mexican Nationals to harvest the cotton crop.

Under Public Law 78 the TEC must supply this information to the Secretary of Labor who must limit the number of Mexican Nationals to be used in this county by granting a "ceiling."

The committee consults with the Local Office Manager to assist him in estimating the number of workers who will be needed, based on current local conditions affecting the cotton crop.

"Ceilings" granted by the Secretary of Labor limiting the importation of Mexican Nationals into this area will be posted in Post Offices in Floydada and Lockney, in the County Agent's office, and in the County Courthouse.

The estimate of the production of cotton in Floyd County, made by the Texas Employment Commission, is higher by nearly 20,000 bales than that of the Plains Cotton Growers issued two weeks ago.

TEC puts the yield of dry land cotton in the county at 3-tenths of a bale per acre and the irrigated cotton at 9-tenths. Result would be 90,800 bales of cotton. Of this 69,900 bales will be hand pulled, the employment agency estimates, and 20,900 will be machined.

The estimate that the county will need 2,400 Nationals at the peak of the cotton crop movement over and above the local supply and the native migrants, compares with the actual needs last year when the peak of foreign laborers employed in local fields was 1,750 persons.

This need was supplied by workers from Old Mexico who came into the country under an agreement between Mexico and the United States, and is due to be repeated again this year.

## Officials to Make Final Fair Plans Tuesday Night

New and favorable turn of events this week give rise to the expectations of a Floyd County Fair surpassing past performances by far.

Signing of a carnival, additional encouragement for the big sing song on the first night, report that 10 to 14 communities of the county will have exhibits, and interest in the other features including the all-cotton style show with live models, and indications that the flower show

will be unusually good this year add up to an interesting and lively fair for 1957.

The dates are September 12, 13, and 14. The opening day is one week hence. Site is the cotton oil mill building in south Lockney.

Yesterday it was stated the officials, directors and superintendents of all departments of the fair will meet Monday night, September 9, when a complete check on preparations three days in advance of the fair opening, will be made. At that time, also, a program is expected to be made showing days and hours of the various events.

As late as the first of the week the hour for the opening fanfare and parade on Thursday had not been set.

The catalog and premium list, issued last week, is in plentiful supply, said Secretary Sam Puckett this week. Prospective exhibitors can have a copy for the asking at his office, or from any of the directors.

Charles Boedeker, president of this year's fair, reported recently that the number of commercial exhibitors who have contracted for space has already outgrown last year's numbers to a considerable extent.

Beef cattle, sheep, swine and jump live stock prizes are listed in the catalogue, as well as community displays, and individual agricultural exhibits.

The women's department runs the gamut of activities, including textiles, nation-wide crocheted contest, canned fruits and vegetables, culinary canned and frozen foods.

Prizes are offered in the youth department, art department, craft department, and a flower show.

These cantaloupes have passed two inspections and are being packed according to size ready to go into the cars for transportation.

## Cantaloupe Feast to Feature Vegetable Day in Floydada

Saturday in Floydada ought to be a big day for people who are interested in development of the vegetable industry in Floyd County, and those who enjoy cantaloupe to eat.

A 45-mile tour in the forenoon, when 12 different types of vegetables will be seen growing in the fields, will show off what is taking place on the farms.

In the afternoon at 2:30 Floydada High School Band will serenade on the court house lawn, and at 3:15 the state's Commissioner of Agriculture John C. White, will address the assembly from an improvised lectern on the south side of the square.

Yesterday afternoon the proposed tour for the morning hours Saturday was checked by Chamber of Commerce and Extension Service executives. Six farms will be visited on a tight schedule that in three hours will show:

Tomatoes, peppers, carrots, cantaloupe, cabbage, cucumbers, pumpkins, cashaws, beans, peas and squash, and lettuce in various stages of development.

The late evening feast on cantaloupe will be open to all. Members of the 1956 Study Club have promised to serve the luscious food to the lines of visitors and guests. Their aides will be members of the Industry and Retail Trades Committees of the Chamber of Commerce, headed by Parnell Powell, Dan Hagood, Rex Brown, L. A. Marshall and George Spang.

State Agriculture Commissioner John C. White leaves a multitude of new and old activities at his capital office to make the high plains trip and address the Floydada audience.

Sponsors of the day long program here hope to make the event an eye-opener for the commissioner and give him a picture of the newest development in agriculture on the high plains.

The magnitude of the possibilities is staggering when it is considered that the plains country can put enough acreage into vegetables to "swamp the boat," unless an orderly marketing plan can be devised.

make the plains trip indicates his belief in the need to keep abreast of the new trend of developments.

Something to do with idle land, brought into sharp focus by cotton and wheat acreage allotments, is definitely going to result in a new type of agricultural ventures for

radio and TV representatives, bankers, governmental officials, cannery and freezer, have been invited to attend the all-day affair. O. M. Watson Jr., manager of the Chamber of Commerce reports.

While they made their home in Floydada for two years Dr. Looney was with the working unit of the Floyd County Soil Conservation District.

**Agriculture Commissioner White** will pay his first official visit to Floydada this week-end when he comes for the Vegetable Carnival and will be a featured guest and speaker. It is a pleasure to have him.

**The new game and fish revenue measure** passed by the last legislature and due to become effective September 1 is hailed in some quarters as the greatest thing that has happened to Texas since the discovery of oil in paying quantities. The new measure is called a "long over-due step to do something besides talking." The new revenue will come from an added 65 cents to the fresh water fishing license, another dollar for most hunters and the full license fee for salt water anglers. "The gripes will be few when they realize that Texas is really guaranteeing some hunting and fishing for posterity," We quote the Sportsmen's Clubs of Texas for the above.

**Texas Prison System.** From The Echo, printed behind the walls at Huntsville, we learn that the Texas Prison System is no more after August 22. It is now the Texas Department of Correction. The theory is that the stigma of prison clings to one's life after he has served what society has determined as punishment for breaking the law. It recognizes that men in prison are still a vital part of humanity and should be regarded as such. The Echo says the change-over is in line with other phases of improvement within penal institutions, another step in the desire to rehabilitate the incarcerated so they may realize an equal chance of freedom on release. An equal chance of freedom for a man who has been in prison is hard to attain.

**An Echo Quote:** The editor of The Echo (prison inmate periodical) in his quips column, "Now that they've made cigarettes less irritating, I wish they'd start working on the commercials."

**An Open Letter.** Texas makes its prison inmates make part of their own way. Perhaps wisely, we do not know, the system has ten or so farms mostly in northeast and southeast Texas, which the inmates work. They produce much of the food that is consumed by the prison population and they grow cotton as a cash crop. So important are these crops to the welfare of the prison inmates that General Manager O. B. Ellis has written an open letter to the prisoners. In one sentence he says "We could not live without

what we are making by our own efforts. What the state gives us wouldn't pay the grocery bill."

**Staying Open Holidays.** Noticeable is the fact that big name stores have taken much punishment that goes with closing down completely on Labor Day, which is the day before school opening in most cities and the day of opening in others. People in the public service business where things go on as usual on a holiday the same as on others, can afford to continue the practice, but it is evident that on one of the biggest spending days of the year the bite has become so heavy for the retailer that he can't afford it. So, watch for "business as usual" signs on all retail store doors in increasing numbers. Self-preservation cuts across sentiment. Rather sentiment bows to necessity, always. Nothing more necessary than making a living.

Many neighborhood stores across the nation, whose owners have been willing to stay open before and after convention forces the down-town stores to be closed and on the holidays—many of these, by the thousands, have accumulated modest wealth meeting the needs of the very working people who insist on conventional closing hours that permits them to enjoy shorter hours, more leisure. The small store, self owned owes no allegiance to hours or holidays. It waits on hurried shoppers and makes a good living at taking what the big stores turn away from locked doors.

**Government Cuts Cut.** The Congress that has just adjourned cut the federal appropriations in a sum that ranged between \$4 billion and \$6 billion. Claims vary between these two figures. They say there can be a slight reduction in the tax take of the federal government and a reduction in the national debt as well, when another year comes. The congress has been so much under duress of the executive department for "defense" funds for so many years, backed by demand back home that they have been unable to hold any spending of any kind within reasonable limits. People who are finding the federal tax burdensome have been aggravated no little by the disregard for their pocketbook. It is a remarkable thing that matters have gone along so well as they have, and the country has enjoyed such remarkable well being.

Through indecision, opportunity is often lost.

### Says Asian Flu Will Lay Siege To Texas Soon

AUSTIN—An epidemic of Asian influenza will almost certainly lay siege to Texas this fall and winter. It is possible to make this prediction because the State Health Department laboratory has already isolated the specific virus in throat washings from several patients. Many more specimens are being studied and some of them will undoubtedly yield the virus. A vaccine against this type of influenza is being rushed into production and will probably be ready in limited quantity by mid-September. A goal of 60 million doses is expected to be reached by February.

Looking at the national picture, it is clear that the disease has already made serious inroads. More than 11,000 cases have been diagnosed in the various states. Seven persons have died of flu or its complications. Surgeon General Leroy Burney has publically announced the strong probability of a large-scale outbreak within the next few months.

This appears to be a brand new member of the family of influenza viruses, perhaps closely related to the type which caused the worldwide epidemic at the close of World War I. It started first in Hong Kong in the early spring, and by June had spread over the Orient and into India.

It entered the United States through a West Coast port. The first case in Texas was diagnosed in a Boy Scout who had attended the jamboree in Valley Forge last month. Since then sporadic cases have cropped up at various points throughout the state. Like all influenza, this is a highly communicable disease. Symptoms include a sudden fever lasting from one to six days, chills, aches, and pains in the back and joints, sore throat and a cough.

In the Far East the attack rate has been extremely high—about one of every five persons being affected. The death rate so far has been comparatively low—two deaths per 1000 cases.

Cases experienced in Texas thus far have been relatively mild. But there is no assurance that the virus will not become increasingly virulent as it spreads from person to person.

Military experience indicates that the vaccine is 70 per cent effective. Therefore, thoughtful people will get themselves immunized as soon as possible after vaccine is available.

The State Department of Health will be unable to offer influenza vaccine for general distribution. Physicians will be able to purchase the material directly from commercial drug outlets.

**PARRISH'S ENTERTAIN THEIR CHILDREN AT FLOYDADA HOME**  
 The home of Mr. and Mrs. Omer Parrish was the scene of a family gathering the 4th Sunday of this month. All their children but two were present. Enjoying the dinner were Mr. and Mrs. Carl Parrish and family of Arizona; Mr. and Mrs. George Lampe and family, Mr. and Mrs. Raymond Parrish and Mr. and Mrs. W. T. Watson, all of Lubbock. In Thermal, California, where the temperature rose to 117 degrees one day, the Lyles visited a son, Albert and family. But, Mrs. Lyles said "We enjoyed eating dates from our son's trees under the cooler."

Mr. and Mrs. E. J. Cantrell of Cantrell Fruit Market spent last week in Colorado. The Cantrells left Sunday week for Fallada, for a load of peaches and were to return home Friday night, but due to the heavy rains, they were delayed, and arrived home Monday.

### KITCHEN AND ★★ FIELD NEWS

from Lighthouse Electric Cooperative, Inc. by Nancy Morckel and Claude Weathersbee Electrification Advisors

September is here again - - - and with it comes the first day of school. Here is a little poem that I'm sure expresses the feelings of many mothers today—

**First Day of School**  
He marched away to school today,  
I waved good-bye, then turned away  
To see through tears the scattered toys  
So dear to very little boys;  
The teddy bear he takes to bed  
To be a pillow for his head,  
The royal guards and tiny jeeps,  
Nursery blocks in tumbled heaps,  
A woolly dog, a bright red chair;  
Even a doll without its hair;  
I gazed with sadness on each toy  
Remembering the glad schoolboy  
Who on a new threshold now  
stood—  
A door had closed on babyhood!

We are glad to have Carl Lewis back to work again. He came back last Thursday.

Mr. and Mrs. Loy Lee Trice and daughter Darla and Bill Norris spent Monday in Clovis, New Mexico, where they attended the roping contests.

Charlie Boedecker is President of the Floyd County Fair Association and this is what he has to say about the county fair:

"The greatest fun I have each year is at the County Fair—Where farmers take a holiday—and all the folks are there—Where cows, sheep, and pigs receive—the ribbons they deserve—And women are rewarded for—the pies and cakes they serve—I like that carnival for the kids—with candy and balloons—Where barkers shout and lovers see—a dozen different moons—Where there are wheels and bingo games—on which to take a chance—And music for the big parade—or those who want to dance—And whether I take home a prize—or both my hands are bare—The greatest fun I have each year—is at the County Fair."

So let's all accept Mr. Boedecker's invitation and "See him at the Fair," on Thursday, Friday and Saturday, September 12, 13, and 14.

**PRESSURE ON FARMS**

The story of the cost-price squeeze on the nation's farmers has gradually slipped from the front pages of the newspapers. It has been an economic reality so long that it just isn't news anymore.

But it is still with the farmers, just the same. Somehow, the charts

and graphs of rising prices and falling farm prices just doesn't have the same dramatic impact—except to those who are suffering from its effects.

Eliminating the cold charts for a moment, here's what it means to its victims!

Five years ago, it took 951 bushels of wheat at \$2.06 a bushel to buy a 20-29 tractor at \$1,960. Today, it takes 1,139 bushels at the prevailing price of \$1.91 to buy that same tractor at the current cost of \$2,160. This represents 179 more bushels of wheat the farmer must raise to get that tractor.

Here are a few more startling examples.

**CORN:** In 1952, 147 bushels at \$1.73 bought a 2 bottom plow at \$255. Today it takes 214 bushels at \$1.22 for the same plow at \$262, or 67 more bushels.

**RYE:** 1952, 868 bushels at \$1.72 for a combine at \$1,490. Today, 1,328 bushels at \$1.04 for the com-

bine at \$1,590, or 682 more bushels. **MILK:** 1952, 447 cwt. at \$4.38 for a two-ton truck at \$1,960. Today, 744 cwt. at \$3.84 for the truck at \$2,860 or an increase of 297 cwt. amount to 2,850 more gallons.

**MILK COWS:** 1952, seven head at \$254 to buy that \$1,960 two-ton truck. Today, 17 head at \$163 for that truck now costing \$2,860, or 10 more head.

**EGGS:** 1952, 390 dozen at \$0.338 for a wringer-type electric washer at \$132. Today, 562 dozen at \$0.248 for same washer now costing \$140, an increase of 172 dozen.

These few figures bring home the fact that the farmer must produce a great deal more at a reduced price to buy commodities which have increased in cost. It shows better than any chart how inflation combines with steadily falling farm prices to put a strangling squeeze on our farmers.

**Highlights And Sidelights From the State Capitol**

(By Vern Sanford Texas Press Association)

**AUSTIN**—Students are trooping back to school for another year of "readin', writin' and 'rithmetic. But the knottiest school problems are not in the math books.

For parents the problem is the high-cost-of-practically-everything. Tuition at state colleges has doubled. Even the parents of first graders are wincing as they add up the "outfitting" bills. Cost of blue jeans, plus crayons, plus lunch money, takes an ever growing bite out of most family budgets. Many mothers will go back to work this fall to help balance the income-outgo equation.

On a bigger scale Texas school agencies and administrators have the problem of the "old woman who lived in the shoe." They have so many children they don't know what to do. Their problem of trying to balance school facilities against school needs is complicated by the fact that one side of the equation -- needs -- keeps on growing.

Some 1,885,640 children are expected to enroll this month. That is 70,000 more than last fall. To keep the education mills grinding, Texas will spend an estimated \$926,000, this year. It's twice as much as was spent eight years ago. Local districts are pouring some \$40,000,000 into new buildings this year.

Showdown on water—It's now or never for Texans to solve their water problems in an orderly manner. This, in effect, is the attitude of Gov. Price Daniel as he sets the wheels in motion for a "big push" this fall.

First attack will be by a 100-person statewide planning committee appointed by the governor. It will meet in Austin beginning Sept. 9 to develop planning and leadership for a master plan for water conservation and flood control over the state. Committee members include civic leaders and persons interested in and acquainted with water problems from all parts of the state.

They'll also be asked to help plan future water legislation and develop support for the proposed constitutional amendment that would provide a \$100,000,000 bond issue for water projects.

Second phase of the governor's plan is the special legislative session to pass needed additional laws. Target date for the session still is October, the governor has indicated. Two pieces of water legislation are proposed by Governor Daniel: (1) Creation of a state water planning division to draw up a master plan and (2) a law enabling the state to purchase water storage space in federal reservoirs (a measure which failed last session).

Planning division probably would cost from \$500,000 to \$1,000,000 says Daniel. This can be obtained, he says, from special funds appropriated, but not used, for other purposes. If Texas doesn't face the responsibility for its water planning itself, declared the governor, the federal government will take over with a "take it or leave it" plan.

**Greenhill Appointed** — Joe B. Greenhill of Austin will become an associate justice of the State Supreme Court on Sept. 30.

Greenhill was appointed by the governor to replace Judge Few Brewster, who is resigning because of ill health. A former Houstonian, Greenhill, 43, will be the youngest judge on the high court.

He is a former assistant attorney general to Daniel and was the governor's campaign manager in '56. Daniel termed him "one of Texas' ablest lawyers."

**Cotton Crop Slow** — Ginning of Texas' cotton crop is lagging behind 1956, but a larger yield than last year is still expected.

By mid-August only 380,504 bales had been ginned, reports the U. S. Dept. of Agriculture. Last year at this time almost twice as much had been ginned.

But crops in many areas are late due to prolonged rains. USDA still predicts the '57 crop in Texas will be 3,775,000 bales compared to 3,815,000 last year.

**More Errors Found** — All the excitement over moving the State Insurance Department out of the International Life Insurance Co. building in Austin was for naught. Atty. Gen. Will Wilson has ruled invalid that part of the reorganization bill which ordered a new building.

Wilson says the bill was improperly drawn.

**Most Are Sound** — Most Texas insurance companies are strong. He said Judge Penn Jackson in his first public speech since becoming

chairman of the Board of Insurance Commissioners. But, he added, "a smaller number are losing ground and may not be able to survive."

**New Courts** — A new district court in Austin and one in Dallas now are open for business.

**Judge Mace B. Thurman**, formerly of Travis County's Court-at-Law, was named to the new bench in Austin.

**Judge Claude Williams**, Dallas attorney, was appointed to the new court there.

**SHORT SHORTS**

Texas ranked seventh in the nation last year in per capita income, reports the Bureau of the Census. Texas per capita income, \$1,666. National average, \$1,940.

**Dr. N. Jay Rogers** of Beaumont and **Dr. Ira E. Woods** of Oran have been re-appointed by the Governor for six-year terms on the State Board of Optometry.

Another motor vehicle inspection period has arrived. You have until next April 15 to get your neck sticker, however. But early inspections are urged by the Department of Public Safety.

Texas draft calls continue to shrink: October quota is 338. It compares with 387 for September and 241 for August. Inductees will be taken from age 22 and over, except for delinquents and volunteers.

Texas has 308 new nurses. They passed the recent statewide examination for vocational nurse licensure. Two schools have been newly accredited to teach vocational nursing — Maroon Hospital of Vocational Nursing at Ladonia and Pennington General Hospital School of Vocational Nursing at Andrews.

Jobs as examiners with the State Board of Insurance now are open. They are additional posts created by the last legislature. Requirements include a college degree with both courses and experience in insurance accounting.

**L. E. Lincoln Case Continued**

A motion for continuance of the trial of L. E. Lincoln charged in 1956 District Court with issuing a worthless check, was entered this week by Judge E. A. Hill.

The motion for continuance was made by the defendant on Monday. Lincoln is charged with defrauding with a \$42,160 check which he gave H. E. Frazell of Lone Star for approximately 2,000 head of sheep. The check failed to clear.

A suit to recover the value of his sheep was promptly entered by Frazell and officers began seeking the whereabouts of Lincoln.

The indictment by the Hale County grand jury followed.

The accused man charged Sharp had violated his home and maintained defense of his home as a plea of innocence.

The running gun battle which resulted in Sharp's death ended on a road six miles out from Spur. Sharp was found dead by the side of his pick-up with one shot in his head. Tiger, it was alleged in the trial, had used a rifle with a scope light to pick off his enemy in the exchange of shots.

## B. Chapman Urges Graduates 'Be Curious'

to decay from within" he said. "Present day Communists are realists. They seem to recognize our weaknesses even better than we do. There is a method of creeping conquest rather than force," he declared.

He pointed out the graveness of the current labor disputes and warned against the proposed four-day work week. "If the four-day work week is realized," he warned, "we will be one long step nearer to losing our democracy."

On an optimistic note, Judge Chapman declared that communism cannot win over democracy because "communism leaves out religion." Dr. H. B. Smith, dean of the faculties, presided at the program. Dr. William S. Mathis, dean of the School of Music, was organist. Gerry Shaw Weatherby, instructor in voice, sang "Eye Hath Not Seen" from "The Holy City."

The Rev. John P. Barker, Sr., pastor of the Skyway Baptist Church in Colorado Springs, Colorado, gave the invocation. His son John P. Barker Jr., was a member

## Workers Clearing Right-Of-Way On Mt. Blanco Road

**CROSBYTON.**—Precinct employees started the job Monday of moving and rebuilding fences, and telephone and REA employees are moving their lines, preparatory to the building of the farm-to-market road through the Mt. Blanco Community. The road will start in north Blanco Canyon at the intersection with the Floydada road, and extend east eight miles to intersect the Wake F. M. road.

Contract for the construction of this new but long-awaited road was let last Wednesday by the State Highway Commission to West Texas Construction Company of Lubbock, County Judge Cecil Berry reports. The amount of the contract was something over \$100,000, he said.

### SON OF PLAINVIEW EARLY DAY SETTLER VISITS HERE

Mr. and Mrs. J. C. Mapes, of Dimmitt, were in Floydada one day last week, making the trip to Floydada especially to make the acquaintance of Mrs. Maud E. Hollums.

Mr. Mapes was a boy at the time Hale County was organized and the City of Plainview was founded. His father was one of the landowners adjacent to the townsite and uncles of aunts of Mrs. Hollums were also among this number.

"The Duncan's settled on Blanco Canyon in Floyd County while most of the kin settled on Runningwater Draw around Plainview," Mapes recalled. "We just wanted to see and talk with Mrs. Hollums" (a daughter of Arthur B. Duncan), Mr. Mapes said.

Mr. and Mrs. E. W. Furrow and son, Roscoe of San Diego, California, left Floydada Saturday to return to their home after visiting here with his parents, Mr. and Mrs. W. R. Furrow. Will Harrison, father of Mrs. E. W. Furrow returned to San Diego with his daughter and family and will visit for a few months.

If you've fallen into the habit of measuring the change of seasons as a cycle of changing (but unending) clothes-line hazards, then surely it's time for you to install a new gas dryer. Neither the hot summer sun nor howling autumn wind can ruffle your temper or fade and fray your clothes, when an automatic gas dryer takes over the drying job. And who wouldn't trade hours of bending and reaching, tugging and lifting for the simple turn of a dial! As for economy, you can dry clothes for an average family of four — for as little as \$2.64 a year! ### 'Winds Host Tough Wellington Skyrockets in Season Opener

Captain Preston Watson's green and white clad Whirlwinds will raise the curtain on the 1957 football season tomorrow night when they host the double tough Wellington Skyrockets of district 2AA. Game time is set at 8:00 p. m. at Wester Field and admission prices are \$1.00 for adults and 50c for students.

A big crowd is expected to be on hand and cheering for both teams as the Rockets are expecting big things this season and Floydada followers are faithful and hopeful though the dopsters leave them little chance for more than an average season.

Bands of the two schools will perform at the half-time. Band members like the football players have had little time to prepare for the opener but have crowded in as much practice as possible in order to entertain the fans and back their teams.

Friday's game should produce lots of fireworks if the Skyrockets and Whirlwinds both start going off at the same time. Followers of pigskin pickings however say the big experienced and fast Rockets will be more than a match for the locals. Some say that Coach John Furley's Wellington team will be much stronger than his last year's club which won nine and lost only to district champion Perryton.

The Rockets this season have 14 returning lettermen. Tank Forrester a 204 pound guard and three letter winner is a main stay in the line. Along with him are such boys as Jerry Elbert a 230 pound end and Harry White a 215 pound tackle and several other fine boys of a little less weight.

In the backfield will be Charlie Welch a 190-pound fullback who is fast enough to run the anchor leg on the sprint relay team. Quarterback Pat Wilkins, 145, halfbacks Ferris Wood, 180, and Carroll Nunnely 180 round out the backfield.

In the last two meetings of the two teams in 1946 and 1946 Wellington won handily with scores of about 37 - 6 and took bi-district

honors along with the victories. Vengeance for Floydada may have to wait for at least another season however. The Winds beside being the underdog have suffered heavily to injuries in early practice and are not expected to be able to field all of what was first expected to be their starting team.

Center James Teague broke his foot before the training season started in an accident on Blanco Canyon. Ronnie Downing has been suffering with an ailing knee which was hurt in basketball play at Boys State in the early summer. Backs Gary Hackabay, Frank Potts, Grant Cooper and Ranny Vickers have also taken some bumps on and off the field which have slowed them some.

Tuesday Coach Preston Watson's guess at a starting line-up for an offensive team was Buttons Beedy and Bill Patterson on ends, Edward Whitehead and Dale Lawson at tackles, Danny Shipley and Bill Gilliland at guards, Vaughn Ginn at center. In the backfield (depending on who was ready) it would be Ronnie Downing or Frank Potts at quarter, Potts, Ranny Vickers or Gary Hackabay at halves and Grant Cooper at full. If all were ready Vickers might be moved back to a guard position and Shipley to a tackle.

A few of the most ardent Whirlwind fans have not ruled out the possibility of a green and white victory over the visitors Friday night but most agree that team spirit would have to be extremely high and coupled with determination to accept nothing less than victory for their efforts.

#### SCRIMMAGE SESSIONS SHOW WINDS HAVE LONG WAY TO GO

Practice sessions against Crowell on Saturday night and Crosbyton on Monday afternoon showed a few bright spots to local fans, but for the most part pointed out that much was still to be done.

Whirlwind backs turned in a few good runs and there was some good passing and receiving by the green and white. On the other side their blocking was still ragged and much of the time they were content to wait for the ball carrier to come to them before making a tackle.

As soreness begins to leave and the boys pick up a little more speed and aggressiveness they will probably look much sharper. Team spirit appears to be good and experience should give the team more confidence and polish.

#### QUARTERBACK CLUB MEETING MONDAY NIGHT SEPT. 9

First regular meeting of the Whirlwind Quarterback Club will be held Monday night September 9 at 7:30 p. m.

On the program will be the showing of the films of the Wellington game and a report on the next game with Olton.

Some business matters will be discussed and decisions made for the year. Fred Cardinal is president of the club this season.

All fans and players are invited to attend the meeting which will be held in the athletic department of the new high school.

## Beuna Mae Holmes, John David Dallas Vows Said Sunday

Beuna Mae Holmes, daughter of Mrs. Charles Ed Holmes, became the bride of John David Dallas III son of Mr. and Mrs. J. D. Dallas of Cross Plains, September 1, at 3 p. m. in the City Park Church of Christ.

Gordon L. Downing, minister, performed the double ring ceremony.

Altar baskets of white gladioli, palm greenery, ferns and white tapers in candelabra decorated the church. Wedding music by the Broadway Church of Christ Chorus included "One Alone", "I Pledge My Love" and "Be With Us Lord" both professional and recreational.

Given in marriage by her brother, Charles Eddie Holmes Jr., the bride wore a floor length gown of champagne lace and net over taffeta, princess style with the neckline buttoned to the waist. A v-shaped front panel of net flowed from the waist to the hemline. Long tapering sleeves came to petal points at her hands.

Her finger tip veil of silk illusion was attached to a lace heart shaped cap, and she carried a cascade bouquet of white orchids and stephanotis on a white ribbon.

Something old was an heirloom necklace of her family, something blue was the traditional blue garter, something borrowed was a silk handkerchief and something new was her wedding attire.

Feminine attendants wore identical dresses of aqua chrysalis over taffeta designed with fitted bodices and crisp cross sashes of the same material looped at the back of the waist length bouffant skirts. They wore picture hats of aqua net decorated with rhinestones and each carried crescent bouquets of bronze chrysanthemums and white stephanotis.

Miss Dorothy Holmes, sister of the bride, was maid of honor. Bridesmaids were Miss Carolyn Downing and Miss Naomi Allen. Junior bridesmaid was Nancy Holmes, also a sister to the bride. Candle lighters were Sara Holmes, sister of the bride and Douglas Dallas, brother of the groom.

The bridegroom's best man was

Gerald Dallas of Abilene. Ushers were Bobby Eagleton, Borham; Don Williams, Cyril, Oklahoma; Ronnie Downing, Floydada and Bob by McGuire, Lubbock.

Mrs. Holmes, mother of the bride, was dressed in grey cotton with black accessories and a corsage of pink rose buds. The groom's mother wore navy silk with white accessories and pink corsage.

A reception held in the parlor of the church followed the wedding. The serving table was covered with a white crocheted cloth over blue decorated with the bridal bouquet and centered with a three tiered wedding cake. Assisting in hospitalities were Mrs. Charles Eddie Holmes, Jr., Misses Donna Copeland, Plainview, Jerri Graves, Floydada, Daniele Lamarre, Lubbock and Judy Williams, Abilene.

Mrs. Dallas chose for her wedding trip a black and white two piece cotton sheath with white collar and cuffs and black and white accessories.

The bride is a graduate of Floydada High school and a Junior at Abilene Christian college where she is majoring in Music Education. The bridegroom attended Cross Plains High school and is majoring in Commercial Arts at AOC.

The couple will be at home at 1433 Cedar Crest in Abilene after September 19.
