

First Bale Heralds Imminent Cotton Harvest

R. R. Ferguson Has Hour Lead Over Jack Pigg

Floyd County's first bale of cotton heralding the rapid approach of the ginning season, was turned out at the Bohannon Gin Monday at 12:50 for R. R. Ferguson who operates farms at Sand Hill and Starkey.

And on the heels of the first bale was also the second, which was turned out at the Scott Gin at 2:00 o'clock for Jack Pigg, who farms just below the caprock.

At least three other aspirants for first bale honors include Tom Sneed of Barwise and W. F. Simpson, Jr., of Blanco. Both had harvest crews ready to take to the field Monday when they heard the first bale report.

W. T. Conner, who farms at Cedar, had the third first bale on Monday. Hi-Plains Gin at Lockney turned out a bale for him in mid-afternoon.

Ferguson is a repeater for the first bale on the local market, his first success in a trial run for the honors was in 1950.

He weighed in 2,160 pounds of seed cotton, got a 520-pound bale of lint and 900 pounds of seed. It was Paymaster variety. He put 40 hands in the field early Monday morning on the Kimble farm near Sand Hill.

W. W. Trapp, manager of the Bohannon Gin, said the cotton sampled strict middling and was slightly less than an inch in length of staple.

O. M. Watson Jr., manager of Floydada Chamber of Commerce, said the first bale premium would be delivered to Mr. Ferguson tomorrow during the program at the noon-day barbecue on the annual soil tour by Dan Hagood, chairman of the organization's retail trades committee. The Chamber of Commerce posted \$100 as a premium for the first bale delivered at the southwest corner of the square.

Shortly after the bale was delivered here it was whisked off to Lockney where it was also exhibited. The first bale at the Scott Gin was strict middling sample, 29-thirty-seconds in length. The grower, Jack Pigg, has a field of 175 acres. It is dry land cotton and should yield one-third of a bale per acre or better, Clay Black, the manager of the gin said. Black saw the cotton Sunday afternoon.

Pigg harvested the 435-pound bale from 40 acres. The county's cotton crop in the week since last Thursday has begun to mature rapidly. Many farmers have a bottom crop that is opening. Practically all of the cotton is late-planted but it had an unusually good August and early September.

Estimate on the crop varies. Plains Cotton Growers, usually conservative, forecasts the Floyd County yield at 73,000 bales. Texas Employment Commission puts the figures at about 90,000 bales. Much depends on the lateness of the first frost or freeze, local growers and ginners say.

The early crop is not in danger except in heavily watered fields, but the top crop is always in jeopardy if an early killing frost takes place. Probably no crop will ever have better handling at gins than this year's big harvest will have. Every Floydada gin, to illustrate, has had a complete re-doing and some of the plants are practically new, with new saw stands and new cleaning devices.

One brand new gin, north of Floydada on the Silverton highway at the junction with the Cedar Hill FM road, will be ready to go shortly. D. B. Lyle is owner and will operate the gin.

MEETING PLACE CHANGED
The Lakeview Home Demonstration club will meet at 2 o'clock p. m. September 26 in the home of Mrs. Clifford Helms instead of with Mrs. Lewis Pyle.

Grain Sorghum Men Schedule Urgent Meeting

Grain sorghum growers of the southwest are "in a bind," Floyd county producers along with the rest, and urgent meetings to do something about it have been called by County President Ewald Quebe and the executive committee of the Floyd County Grain Producers Association.

The first of these meetings has been called for Monday afternoon at 2:30 at Lockney and the second for Floydada at 2:30 p. m. Tuesday at the county court room.

John K. West, who is an alternate delegate from this county to the regional grain growers organization, reported on the Floydada meeting and the problems this week. Said he:

"Floyd County Grain Sorghum Producers Association has several points they want to discuss with the grain growers and President Quebe wants every farmer who is interested in more money for his grain sorghum to be present.

"This is the last year that grain sorghums have to be supported by law at any price. Since the attitude of the Department of Agriculture is well-known as against further support, this, in itself, makes a problem for the 1953 crop.

The voluntary reduction program, which is being proposed by the Hale County Association, will be explained by representatives from that county and we also expect Bill Nelson, executive vice-president of the Texas Grain Producers Association, to be present. There has been favorable comment in Congress on this proposition and we'd like to have farmers' views pointed.

"The Floyd County organization is being asked to support a move to contribute two pounds out of each 1,000 pounds of grain sorghum they produce this year to finance a campaign to get grain sorghums recognized as a basic crop."

Tom Porter is vice chairman of the Floyd County group, R. C. Mitchell is secretary-treasurer. Forrest Mickey is the county delegate.

"We sure do need to do something if we can," Mr. West concluded, expressing the hope that not only grain producers but grain handlers as well, including elevator men, will be present for the Tuesday meeting here in the county court room.

TOMATOES THAT GROW IN A SHUCK NEW FOR AREA
Tomatoes that grow a sort of tanish yellow and in a shuck may be common in Old Mexico, as John L. Green says, but they are new in Floydada. At least new to the reporter who saw a specimen for the first time when Mr. Green returned from a down-state trip last week.

Green said the tomatoes are being grown in the vicinity of Fort Worth by Mexicans there, who like this type for relishes and the like. He left the samples in a Hesperian window.

Two Are Hurt In 207 Crash
John B. Bilibrey of Lockney was injured Friday night when the car he was driving collided with one driven by Andrew W. Jetton, 62, Floydada farmer.

Bilibrey, 35, Lockney business man, was still in the Lockney General Hospital Wednesday suffering from a bruised liver. Jetton was not injured. Both drivers were traveling alone.

State Highway patrol who investigated the mishap, said the collision occurred about 9:20 p. m. on the farm road 207 at the intersection of a dirt road nine miles north of Floydada.

Jetton was attempting to make a left turn when Bilibrey started a round to pass. Bilibrey applied his brakes and the right side of his car hit the left side of the Jetton car as the Bilibrey auto skidded.

Mr. and Mrs. Wiley Rogers, friends of the Bilibreys visited him Sunday and received a report Wednesday that he was still very sore and would probably be in the hospital a few more days.

Clerk of District Court Hospitalized
Miss Mary Louise McPherson, District Clerk, has been convalescing since Monday and hopes to return to her duties today, following an illness that developed Thursday afternoon late and put her in Peoples Hospital. She was very sick for two days.

The attending physician diagnosed her illness as appendicitis and has had her on strict diet.

Soil Conservation Tour Is Scheduled Friday

A tour that will present many of the new farm projects carried on by Paymaster Farm at Aiken will be the finale for the annual soil tour again this year.

But tomorrow morning at 9 o'clock when the caravan forms at the agriculture building and takes off too see agricultural advances made in the year, several new projects are scheduled that are different from anything seen before.

The first part of the tour will show Blue Panic grass on conservation reserve land on the L. H. Dorrell farm east of Floydada. (Blue Panic is a new grass that has great possibilities in grazing.)

Second stop will be east of Center school site where the J. F. Pundt conservation plot will show weeping lovegrass, blue panic and buffalograss.

Traveling further north the tourists will see grain sorghum varieties which have been used successfully this year on Mrs. W. B. Wilson's farm.

Immediately north of that demonstration will come the lake terrace system, whereby R. G. Darnley and Dorsey Baker have kept the water out of a lake with more than a section watershed by their terracing practices, despite five and six inch downpours and a wet six weeks in April, May and early June.

Next stop will be for a soil profile demonstration. The dirt will be lifted out of the earth with a special machine and the viewers will be shown the types of soil, their limitations and possibilities.

Lorin Rhodes and Paul Cooper north of Lockney will have the next two stops. Cowpeas interplanted with grain sorghums will be shown at the Rhodes place, while at Cooper's there will be shown:

Soybean planting done two rows to the bed; cotton pruning, and grain sorghum planted double row to the bed. Cooper is a farmer who finds it profitable to experiment. Report has it that his grain sorghum production on this plot is likely to stretch up to around 7,000 pounds to the acre.

See Annual Soil Tour, page 6

They will draw for places on the presentation program and will rehearse their parts at 4:30.

The meeting of the Farm Bureau District representatives will begin at 10 o'clock this morning. The farmers are faced with tough problems which will require tough answers. The session will talk over these problems and arrive at decisions on the many problems which confront farmers.

The session will be held in Lubbock Hotel, due to close at 3 o'clock p. m. Resolutions committee, county presidents, board members, membership committees are expected to attend. The sessions will not be closed and others are invited to attend.

A dinner meeting at 5:30 will kick off the district-wide membership drive. H. L. (Hub) King, director, will be in charge of the meeting.

Big Insurance Policy Written On City Plant
A \$150,000 insurance policy covering accidental loss or damage to the Floydada Municipal power plant was given formal approval of the City Council of Floydada at their session Tuesday night of last week. The unusual policy covers:

Five internal combustion engines with total rating of 3,300 horse power;

Ten electric generators with total capacity of 2,240 kilowatts;

Together with \$15,000 worth of switchboards and panels included in the installation.

The unusual policy, taken out with The Hartford Steam Boiler Inspection and Insurance Company, of Hartford, Conn., cost the city a premium of \$6,225.49 for a period of three years. The company has been written a check for the amount.

Light Commissioner Mark H. Martin, who urged the adoption of an insurance plan against accidents, said this week he was glad to have the approval of the council for the expenditure of the money.

"Accidents" as described in the policy would include faulty operating conditions, human error, acts of sabotage, vandalism, malicious mischief or losses arising from strikes, riot or civil commotion.

Martin said the company's inspector who visited the plant and inspected it before the company would write the policy did not find a thing which he asked the city to spend money for or re-arrange.

"What we like about this protection, for one thing, is that it gives us advantage of periodic inspections by the company's field inspection engineer," Martin said. "This is an accident prevention service which we expect to reduce the possibility of a catastrophic accident, as well as detect accident producing conditions."

"This added protection, in addition to the constant care exercised by operating personnel at the plant, will make all of us responsible for the successful operation of the plant feel much more at ease.

"We think it is quite a compliment to the light plant operating crews of the past 16 years that the inspector found not one little thing wrong with the plant. He didn't ask us to spend a cent before committing his company to the huge liability they have assumed."

Proposal to take out the insurance was made by Martin at a spring meeting, action was tentatively taken on June 21, when the policy was put in force and the formal ratification of the trade was made last week by the council.

Serious Burns Received by Two Monday Afternoon
Two Floyd County men were burned seriously Monday afternoon around 5:15 when their clothing caught fire from sodium bichlorate.

Frank Yeary, 48 of near Silverton, was a reported Tuesday as being in a state of shock in the Lockney General Hospital. Yeary is suffering from second and third degree burns over thirty percent of his body. He received third degree burns on his legs, thighs and forearms and second degree burns on his abdomen and chest.

John Pigg, 38, who farms near Lockney, received a third degree burn on his left thigh and second degree burns on both hands.

The two men were burning Johnson grass off the Yeary place and using hand sprays containing the sodium fluid. Yeary struck a match to set fire when his clothes became ignited. Pigg was burned when he came to the rescue.

Mrs. Yeary was near by and saw the accident. Aid was quickly summoned and the men were taken to Lockney hospital by Bob Merrill and Norman Coudwell.

Third Officer To Be Chosen

Much activity and larger flooding population is being anticipated by the city fathers for Floydada this fall.

This is indicated by their adoption of a resolution last week to employ a third police officer for the months of October, November and December.

The second officer was put to work on the first of the month, following the resignation of E. H. Boling. He is Willie Turner, who returned to Floydada from Plainview. He had been on the Plainview force for six months or so.

Cyrus K. Holliday Recalls Pioneer Days of Railroad

Famous Antique Train To Be Shown In Dallas At State Fair of Texas

An antique train reminiscent of the pioneering days of railroading will be exhibited by the Santa Fe Railway at the 1937 State Fair of Texas, Oct. 5-20.

The famous old Cyrus K. Holliday locomotive, a replica of the original engine which hauled the first freight and passenger over the Santa Fe line in Kansas in 1859, will be brought to Dallas along with its two ancient wooden coaches.

The diminutive locomotive has the famous "diamond stack" with a brass eagle figurehead gracing the engine head, a big oil-burning headlight, brass fittings and other paraphernalia of the early days of railroading.

Although the locomotive is but a replica of the original, the present Cyrus K. Holliday ranks as a museum piece in its own right. Built in 1880, the old engine was subsequently downgraded to a switch locomotive and finally withdrawn after 60 years of active service.

Restored to its original appearance, the train has been used many times in movies of the old West. The engine still operates under its own power.

With the Cyrus K. Holliday, the State Fair will have on exhibition trains spanning nearly 90 years of rail progress. The Texas & Pacific Railway Company will exhibit its old retired steam locomotive No. 909 and one of its crack modern Texas Eagle steamliners. In addition, the Fair's Memorial line, only such system operating in the U. S., offers a sample of yet another type of rail transportation said to hold great promise for the future.

girls. Mrs. Yearly planned to take them back to their home in Amarillo on Tuesday.

Baker News

(By Mrs. J. B. Colston)

BAKER, September 16 — We will have our regular meeting at the community center Saturday night, September 21. Since school and football season has started it is hard to find a night that is convenient for everyone to come to the community center. Let's have a good crowd so we will have enough present to vote on a particular night for our community meetings during football season.

Friday night Mr. and Mrs. Kenneth Willis, Brenda and Karen were supper guests of Mr. and Mrs. Sammie Hale and boys of Oton. Later they attended the Floydada-Oton football game.

Mamie Anderson visited Thursday morning with Voncell Colston. Saturday night visitors in the Ben Galloway home were: Mr. and Mrs. Kenneth Cook and boys of Winters, Mr. and Mrs. Floyd Bradford and boys, and Delzie and Houston Bradford.

Mrs. J. H. Farmer, Lucy, John,

FHS Classmates of Former Year Are Entertained

An array of fall flowers and antique decorations throughout the home greeted several former Floydada High School classmates at a luncheon given by Mrs. Boone Hall, 213 East Roselawn, Plainview, on Thursday, September 12.

The house was made attractive with indoor furniture of a mixture of styles from the 18th century. Antique clocks in different rooms chimed the hours in resonant tones and furnished interesting conversation topic.

The day was further spent in reminiscence of school days. One note of special interest was that each guest who is a non-resident of Floydada still reads the Floyd County Hesperian and calls Floydada home.

Those present for the happy occasion were Mesdames. Foy Cannaday Meredith, Borge; Bertha Snodgrass Savage and Kathleen Snodgrass Hill, Amarillo; Jannette Bishop Scott, Canyon; Pauline Bishop Dickey, Lubbock; Marie Henry Baker, Weimer; Cleo Andrews Gots, Ethie Thagard Allen and May Montague Garrett, Floydada; and the hostess Ruth Brown Hall, Plainview.

and Homer were Sunday dinner guests of Mr. and Mrs. R. L. Neil, Carolyn and Gene. Mr. and Mrs. Bill Thomas were Sunday afternoon visitors in the Neil home. Mr. and Mrs. J. B. Colston and Teresa,

KITCHEN AND ★★ FIELD NEWS

from Lighthouse Electric Cooperative, Inc. By Nancy Morckel and Claude Westerbe Electricification Advisors

The gold mine in your own backyard - you've heard the old story of how it was overlooked. The same story can apply to the delicious vegetables that grow so abundantly in our gardens and truck patches this time of the year. These vegetables and fruits make a valuable addition to the diet because of their high content of vitamins and minerals. Our nutrition specialists and our experiment stations tell us that such foods properly processed and frozen have practically the same food value as fresh ones. So let's be sure we have an adequate supply in our food freezers for our family this winter.

With the golden ripe cantaloupe in such abundant supply right at this time some of you might like to try the preserves and marmalade so popular right now.

Mrs. Albert King of Lockney gave us a jar of the preserves. They were delicious - here is her recipe:

- CANTALOUPE PRESERVES**
- 3 pounds fruit
 - 2 1/2 pounds sugar
 - 2 cups white karo syrup
 - 4 tablespoons white vinegar and 1/2 teaspoon salt
- Prepare as for other preserves.
- Here is Mrs. L. M. Hones's recipe for Cantaloupe Marmalade - Mrs. Hones lives in Lockney:
- 2 cups cantaloupe, diced or cut into chunks
 - 2 cups sugar
 - 1 cup pineapple (crushed)
- Cook until thick; then add the juice of a lemon.

Corkey Guffee was on vacation last week. He spent most of the week at home doing some carpenter work - they are adding a room to their house, (and by the way Corkey has a mashed finger, too). He and his family spent the week end at Sunray where they were guests of the C. N. Hills.

The mung beans on the Wayne Collins farm are being harvested at this time.

Julia Baker was back Monday morning after a week's vacation.

Mr. and Mrs. Jim Shurbet of Corpus Christi are visiting Mr. and Mrs. W. O. Baker.

Mr. and Mrs. L. D. Goughly and son Bobby were dinner guests on Sunday at the Leslie Fawver home.

Mrs. Johnny Stutts went to Tenaaha over the week end to take her father, Mr. Spurlock, home. He had been visiting here since July. She was accompanied by her sister-in-law Mrs. J. D. Spurlock and her niece Mrs. Edwin Neff.

Mr. and Mrs. E. J. Marricelle and Patey of Idalou spent the week end here with their son and brother Buck Marricelle and his family. David Marricelle accompanied them home for a week's stay.

Mr. and Mrs. Pete Hickerson ate Sunday dinner with Mr. and Mrs. Billy Fulton. In the afternoon they all attended the Asmister-Smith wedding in Petersburg.

Bill Smith and Herman King, members of the Lighthouse Board of Directors, attended the Texas Electric Cooperatives State meeting in San Antonio recently. They report an excellent meeting. They were accompanied to San Antonio by Herman's mother, Mrs. Albert King, of Lockney.

A Closer Look At Farm Poisons

The past two decades of agricultural progress have greatly eased the farmer's burden through many number of inventions, developments and general improvements. One such area of agricultural improve-

ment has been the development of effective insecticides and pesticides which lessen the farmer's fear of crop destruction.

The insect may be asking for a pack of trouble when he invades the farmer's field today; But, so may the farmer be asking for trouble if he fails to use the highest possible caution in selecting and applying these farm poisons. While highly valuable in holding down infestation when properly used, certain insecticides and pesticides can be harmful if mishandled.

Such a group of insecticides which mix blessing in effectiveness with caution in application are those classified as esters of phosphoric acid or certain of its derivatives. Much of the original work on these compounds was done by the Germans during World War II when they were seeking chemical warfare agents. This is not to say, however, that the insecticides developed in this connection are to be avoided. They are of great agricultural value when used with the proper amount of care.

Phosphate ester insecticides on the market today are those which contain malathion and parathion, known under various trade names. They are most effective as farm poisons, but, being dangerous to humans and small animals when absorbed through the skin, inhaled or swallowed, they should never be put to domestic or home garden use.

By far the greatest number of cases of parathion or malathion poisoning occur among unsupervised individuals engaged in some phase of insecticide application. And most of all of these could have been avoided had the warnings on the label been taken seriously.

Petersburg Homecoming Sept. 27

PETERSBURG—The date for the Annual Home-Coming of the Ex-Students of Petersburg school has been set for Friday, September 27th. This is an earlier date than usual, but it is thought best to move the date up on account a later date always proves to be pretty cool weather.

Words cannot express our deep appreciation to our friends and neighbors for the many acts of kindness shown us in the loss of our brother Ransom. For the many flowers, cards, words of sympathy, to those who attended the funeral and those who looked after things at our home and at our farm during our absence we are truly grateful.

VIEWS AND COMMENT

A repeated Compliment: "The Hesperian is still the best county newspaper we have ever read."

The Road Situation in Floyd County has been tragic so long it is beginning to be laughable.

And Street Paving in Floydada is almost in as bad a state as the road outlook.

Roads are now town and city makers, the arteries by which the products of the range and field get to markets. Things are going to happen where bigger and better road programs take place.

What if this is to be that cold winter, with an early beginning and a tendency to hang on? Thought is suggested by the fact that on September 13 the thermometer was down to a reading of 49 degrees. Too early for it to be that low. In the interest of the cotton raisers and tomato growers we are predicting a frost as late as October 27 directly across the indications each recurring week-end when the thermometer reads a wee bit lower.

Appeals To Us. The \$175 a month the city is spending on street sweeping appeals to us greatly. The city is getting about 30 blocks of paving cleaned approximately three times a month at a cost, as indicated, of \$175. You can drive along and see the curb! and no papers, paper cups and other garbage in the gutter! The original intent of the people who voted for incorporation of the city was to protect the health of the citizens and promote the cleanliness of the city. Paving, curbs and gutter and street cleaners are instruments to this end.

Stockfarmers Nightmare. The opening of the hunting season with doves in the fall, followed by open duck and quail season is the annual nightmare of the stockfarmer. Gates left down, feverish bird hunters kicking out fences to take short cuts to "where they lit," damage to this and that, is usual, not unusual. The thoughtful, appreciative hunter is in the majority, but the other kind is also a part of the picture every fall and winter. Some hunters become as careless and forgetful as a little boy as soon as they load up gear and start out hunting, stock farmers and ranchers tell us.

However, the hunter is not the wanton wastrel he gets credit for being so far as wild game preservation is concerned. The hunter gets only two out of a covey of 14 quail, for instance. Weather, predatory animals and birds and disease are the big hazards in the little feathered kingdom. If there were no hunting there still would be only four out of

the covey of 14 to mature from a mating on the average. Nature holds down the balance regardless of whether or not there are any hunters. And game birds were put here for man to enjoy and use for his benefit.

Mirror Of Events. Numerous head lines have been put on the story of the recent order relating to bus seating requirements for accommodating Mexican nationals. The Ralls Banner makes the headlines an interesting commentary with this one: "Treat your kids any way you please, but — Every Mexican National's rear end must have 16 inches of bus space!"

What to do with all the maize is a problem with which elevator men, railway and storage people are already coping in advance. The biggest crop of maize in recent history is in the making. A very large per cent of it will not mature out ready for the combine before about frost time. A considerable bit of early maize will be moving, along and along through September but the real thing will take place in October and early November. Really fine to have so much to worry about. Dry land farms, fortunately, are going to contribute largely to the big volume.

Look For Surprises. Every biennium there are some new laws passed as well as amendments to old laws that take the uninitiated person by surprise. Mostly these laws are good, sometimes they have a way of getting results different to those intended. We have no particular law in mind at the moment but it most always happens that such is the case. Especially is this true of laws that are pushed by inexperienced organizations, members of which force their home district representative or senator to "run" with their pet ideas.

We still think our congressman (along with others, of course) should have cut the federal budget without cutting off the training of the reserves. All our wars have been fought by reserves (as we have said often and often) and our next one (heavens forbid the next one) will be also. But the army, air force and navy are having to cut down the installations for manpower training to the point of austerity whilst other branches of government are still spreading out.

Ten thousand five hundred lives . . . more than \$989 million . . . that is what fire cost our nation last year! Yet it is a tragic fact that 75 per cent of all fires are caused by some form of carelessness — which means they need never happen! Check your home and your habist of fire hazards today. Stop fires!

Highlights And Sidelights From the State Capitol

(By Vern Sanford, Texas Press Association)

AUSTIN.—For the 72nd time in Texas, the Legislature will convene in special session Oct. 14.

Throughout the summer there was lively debate as to whether such a step should be taken. Gov. Price Daniel put an end to speculation by setting the date. Purpose: to enact laws in regard to lobby control, representation before state agencies, crime study and water development.

Calling special sessions has been more the custom of Texas governors than not. Of the 71 previously called since Texas became a state, 41 have fallen in the 46-year period since 1911 — almost one a year.

Almost all Governor Daniel's predecessors in the past 30 years called lawmakers back at least once. (exceptions: Beauford Jester and W. Lee O'Daniel.) Gov. Dan Moody holds the record for keeping the Legislature busy. In 10 months of 1929 and 1930 he called five special sessions.

Runners-up are Gov. Miriam Ferguson, who called four in 1933 and 1934, and Gov. Ross Sterling, who called four in 1931 and '32. Gov. James V. Allred called three in 1935-1936 and two more in 1936 and '37.

In those days a legislator had to keep his bag packed.

What were the issues that kept the lawmakers so busy in those days? Mostly, the same ones they're working on today.

In the day of Governor Moody's five calls, regular sessions were only 60 days, so a lot of routine business overflowed. But he also called their attention to special problems. Many sound familiar — improvement of the Prison System "along modern and scientific lines," regulation of securities sales, investigation of charges against a state official. At one time Governor Moody vetoed all the appropriation bills and told the Legislature to try again — within the budget.

Governor Sterling asked legislators to enact a program to conserve natural resources, particularly oil and gas, and to help farmers, hard hit by sagging cotton prices. Sterling also had a states rights vs. federal courts problem in that the U. S. Supreme Court had negated Texas' oil proration laws.

Mrs. Ferguson had to call lawmakers back again and again to wrestle with the "hard times" of the thirties. Relief bonds to help the unemployed and destitute were passed. In one of her calls, Mrs. Ferguson, with an eye for housewifely problems, called on lawmakers "to make needed appropriation for re-creation in the Governor's Mansion."

Governor Allred's special sessions dealt with some of the most stirring issues of the thirties. He asked for liquor selling regulations following the repeal of Prohibition and for a law banning pari-mutuel betting at race tracks. He also asked for money for old age pensions (\$15 a month in those days) and for more taxes to get the general revenue fund out of the red.

In most cases, the governors got the laws they wanted passed — sometimes by calling one session on the end of another, sometimes in a session as short as nine days.

WATER PROGRAM OKAYED.—In one area — water development — legislators have their work cut out for them.

A 150-member statewide water committee approved a three-point program proposed by the governor. It calls for:

1. Appropriating \$1,024,000 to set up a planning division under the State Water Board.

2. Laws enabling the state to contract for water storage space in federal reservoirs.

3. An all-out push to rally support for passage of the \$300,000,000 water bond amendment to be voted on Nov. 5. Harry Provence, Waco editor, is chairman of the campaign committee. Lon C. Hill, Corpus Christi businessman, is co-chairman.

WINDOW-JUMPING DEFERRED.—Several people in Austin have suggested forming an "I'm bored with Ben Jack" Club.

Their attitude stems from Promoter Ben Jack Cage's refusal to testify about his part in ICT affairs during his appearances in Austin. During his flamboyant return to Texas several weeks ago Cage promised to tell things about the bankrupt companies' affairs that "would have people jumping out of win-

down." Cage stayed only 10 minutes when he appeared before the Travis County grand jury. When called by the House investigating committee, he invoked the Texas brand of the Fifth Amendment and refused to testify.

If sensational information is to be revealed, it apparently will not come until Cage comes to trial in Dallas on charges of embezzling ICT funds.

OFFICER HITS TRAFFIC LAWS.—Texas is behind other states in traffic regulations and ahead on traffic accidents, says a Texas safety official.

C. O. Conner, assistant chief of the Highway Patrol, said Texas has one of the highest traffic tolls in the nation. It's as much as three times as safe to drive in some other states where more up-to-date laws are being enforced, he said.

Texas had 250,000 accidents last year, Conner reported. He suggested more driver education courses for teen-agers, more traffic courts, more arresting of drunk drivers.

OFFICER LICENSING PROPOSED.—Serving as a peace officer should be a profession, like law, medicine and teaching, says Atty. Gen. Will Wilson.

Wilson suggested a state licensing program whereby would-be peace officers would have to meet certain requirements.

It would be slow getting established, said Wilson, but would raise standards and emphasize the importance of the officers work.

COTTON CROP UP.—Good farming plus early spring rains are paying off for Texas cotton growers. U. S. Dept. of Agriculture predicts the state's 1937 crop will be well above average — 4,800,000 bales. Average for 1946-55 is 3,742,000.

If the crop comes out as expected, it will mean yield-per acre has almost doubled in the past few years. Texans put only about half as much acreage in cotton this year as in previous years when crops of similar volume were harvested.

SHORT SNOTS.—State Health Department reports 71.8 per cent of all Texans under 20 have received one or more polio shots. About 20 percent have had three inoculations.

Durwood Manford, Smiley chicken farmer and one time speaker of the Texas House, will take office as a member of the Industrial Accident Board within the next month. He was appointed by Governor Daniel to succeed Buddy Jungmichel of Austin.

Texas is second in the nation in ownership of airplanes. Texas total, 5,268; California's, 7,420.

Award of Honor For Mike Shurbet

Mike Shurbet, 16 year old son of Mr. and Mrs. Marvin Shurbet of Petersburg, will receive a 4-H award at the State Fair in Dallas on Oct. 4. Mike will be presented the "State Fair Award of Honor" for his outstanding work in the 4-H clubs. His brother, Mack, received this award in 1935.

Both boys completed three years of work to receive the honors and both have been 4-H clubbers over seven years.

Mike and his parents are to be guests of the State Fair in October.

Vanda Carter, daughter of Mr. and Mrs. Ernest Carter, and student at Texas Tech, pledged Delta Gamma sorority this week. This is the first year of college work for Miss Carter.

Display Power; Tame Mustangs Forty-One to Six

recovered for Olton. The Mustangs drove down field on power plays over the middle and it was Hall who went over from the two yard line for the score. The try for point was blocked. Up until this point the game was mostly an Olton show, with the Mustangs showing very little. As the first period continued, however, Floydada began to get the feel of the thing and held the Mustangs in check as the ball changed hands several times on punts, a fumble and an intercepted pass.

Opening the second period Olton owned the ball second and 11 on the Olton 39 yard line. Hall was forced to punt and toed the ball from his 38 to Frank Potts on the 'Winds 28. Potts ran the ball back to his 38 before being brought down. At this point the green and white opened up with everything they had and ran and passed the Olton team dizzily. Mixed with a good running game by Potts and Cooper, Ronnie Downing passed to Huckabay, Beedy and Patterson with Bill Patterson pulling in the TD heave which was good for 26 yards. Huckabay kicked the point after with Potts holding and Floydada went ahead never to trail again. Following the kickoff the Floydada defensive unit put up the stop sign and held the Mustangs in check forcing them to punt. Arno Hall booted it from his 30 to Ranny Vickers on the Floydada 38 and he returned it to the Olton 22. A pass Downing to Beedy made a first on the Mustang 9 but the 'Winds ran out of gas and Olton took over inside their own five.

GARY HUCKABAY Senior Whirlwind Half Back - Weight 158

DANNY SHIPLEY Sophomore Whirlwind Tackle - Weight 187

threw with second down and goal to go.

Opening the second half it was an all Floydada show. The 'Winds received the kickoff and were downed on their 25. Marching down field on a good mixture of plays that saw Downing passing off the T. Potts passing or running off the double wing and Cooper, Potts and Huckabay running from both formations the locals drove down field fast and it was Grant Cooper who banged over from the nine yard line.

A mix up on the pass back robbed Huckabay of a try at the kick and was the only point after that was lost for the night.

Soon after the ensuing kickoff the Olton team owned the ball on their own 45 yard line where they were operating their offensive. Grant Cooper charged through into the Mustang backfield and grabbed a bumped handoff or pitchout in the air and scampered over the goal for another Whirlwind touchdown. Huckabay converted and the score was 27-6.

After another kickoff the Mustangs were again near midfield with their offensive turning toward the air lanes. Buttons Beedy showed his pass snagging form as he shortstopped a Mustang heave and raced 59 yards to score. Huckabay converted again and there was a 34-6 ball game with some five minutes remaining in the third quarter.

Stout defensive play by Floydada held the Mustangs outside the Floydada 20 the remainder of the period and there was no more scoring until the final stanza.

As the last quarter opened Floydada owned the ball first and 10 on their own 31 yard line. Their offensive sputtered and Olton recovered a fumble on the 'Winds 30. The Mustangs could not move with Floydada turning in a rock-hard defense to take over the ball on downs.

Olton was able to hold, too, however, and soon owned the ball on their 38. The Mustang attack bogged down and Beedy recovered a fumble on the Mustang 42 to give Floydada possession.

Penalties and Mustangs set Floydada back to their 34 and Leon Williams punted out of bounds on the Olton 46 yard line. The Mustangs were held and kicked to Williams on the 18 and he ran it back to the 30.

The green and white attack clicked again and this time it was Frank Potts who hit Grant Cooper with a pass and he covered the distance to the goal, the play being good for 45 yards. Huckabay kicked the PAT and the scoring was over at 41-6.

Olton's final offensive effort was cut-short when Coy Grundy intercepted a pass to put the ball in Floydada's hands, where they ran out the clock ending the ball game.

In the game statistics Floydada made 3 penetrations to 1 for Olton; the Whirlwinds collected 13 first downs while the Mustangs made 7; Floydada was penalized 60 yards and Olton drew 30 yards in penalties; The Whirlwinds rushed for a net of 132 yards and passed for 240 yards completing 11 of 27 and having one intercepted; Olton rushed for a net of 92 yards and passed for 18 yards completing 2 of 10 and having 2 intercepted; Huckabay of

Floydada kicked 5 of 6 points after touchdown and had no chance at the other as he was forced to attempt a run for the point.

Potts was leading ground gainer with a net of 96 yards on 14 carries. Downing led the passers with 153 yards on 8 of 18 passes attempted. Pass receivers were led by Bill Patterson who snagged 4 for 86 yards.

No accurate record was kept of tackles but there was some dandy tackling and gang tackling done by the 'Winds stop 'em unit. Bill Gilliland played his first game at the middle guard spot replacing Don Vickers who is still in the hospital. Gilliland turned in a very fine game taking only a few plays to get accustomed to the opposition before settling down to a steady game.

Seeing service for Floydada were Buttons Beedy, Bill Patterson, Edward Whitehead, Dale Lawson, Danny Shipley, Ranny Vickers, Bill Gilliland, Vaughn Ginn, Ronnie Downing, Frank Potts, Gary Huckabay, Grant Cooper, Edward Hartman, Coy Grundy, Richard Graves, Hal Hines, Leon Williams, Rex King, Larry Ivers, Henry Self, Roy Hartman, Arlis Powell, and Keith Hollum. Bobby Christian and Sammy Morren were on the sick list and did not suit out for the game.

Game Scoring: Olton - Arno Hall 6; Floydada - Grant Cooper - 18; Gary Huckabay 11; Bill Patterson 6; Buttons Beedy 6.

Silverton People Are Re-Building

A glimpse into reconstruction work of Silverton reveals a notable comeback after four months of cleaning up, repairing and rebuilding, following the tornado which struck May 15 killing 21 persons and injuring scores of others.

Today, many who were left homeless are now living in new homes while others are renting and waiting for construction to begin rebuilding foundations left by the twister. Today 65 cellars have been dug since the disaster and many more are planned.

Floydada Band To Join 4,000 At State Fair

DALLAS—The Floydada High School Band is one of the outstanding Texas high school bands, choruses and orchestras invited to take part in the tenth annual Music Festival, Oct. 8, at the 1957 State Fair of Texas.

Continuous concerts by the various musical organizations will begin at 10 a.m. at three fairground locations—the Magnolia Stage, in front of the Hall of State and in the Auditorium of the Hall of State.

In the evening, more than 4,000 young musicians will participate in a brilliant free Cotton Bowl spectacular. Climaxing the program will be a dazzling fireworks display.

"Memories in music" will be the theme of the mass musical and marching performance to be presented in the Cotton Bowl at 8 p.m. Songs will come from every decade beginning in 1890. Formations symbolizing certain songs will be performed by the bands.

The Music Festival is sponsored by the Texas Music Educators Association and the State Fair.

Pockets Severed Toe to Complete Family Washing

MATADOR—Mrs. Raldo Martin of Plomot carried a severed toe in her apron pocket for two hours last week and finished her washing before she sought medical aid.

A cow stepped on Mrs. Martin's foot and completely severed the second toe on her left foot. She picked up the severed digit and put it in her apron pocket, then administered first aid to herself. She had started a washing before turning some cows and calves together in the lot where the accident occurred.

She returned to the house and finished her washing, then two hours later drove the farm tractor to the home of a relative, Wade Martin, where she sought assistance.

Mrs. Martin was brought to Stanley Hospital here where she received surgery. She is convalescing in her home at Plomot.

Mr. and Mrs. V. D. Turner are in Oklahoma City this week on business and visiting relatives.

Smith-Assiter Vow Solemnized In Petersburg Church Ceremony

The First Baptist Church at Petersburg Sunday at 3 o'clock p. m. was the scene of the wedding of Miss Mary Jo Smith and Mr. Teddy Earl Assiter. Dr. J. Harvey Scott officiated at the single ring ceremony.

Parents of the couple are Mr. and Mrs. Joe L. Smith, Petersburg, and Mrs. C. C. Webb of Floydada.

A Gothic arch entwined with greenery and flowers and white satin rope flanked by lighted candles and baskets of white flowers decorated the church. White satin bows marked the pews of relatives.

Don Barber of Floydada sang "A Hymn" and "Wedding Prayer" accompanied by Roger Trapp of Floydada.

Given in marriage by her father,

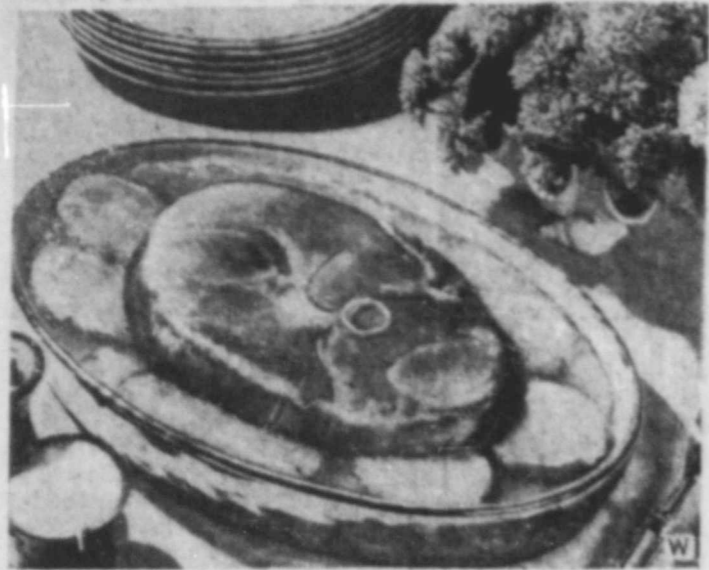

the bride wore a gown of imported lace over taffeta. The bodice featured a scoop neckline bound in satin. Her three quarter length sleeves were finished with tiny satin binding and satin covered buttons. Panels of satin descended from a cummerbund at the waist line. A pill box type hat of iridescent sequins and seed pearls held a veil of silk illusion. Mills of white lace completed the ensemble. The bride carried a prayer book belonging to her maternal grandfather, topped with a white orchid and showered with stephanotis.

Attending as maid of honor was Miss Rena Willis of Floydada, and Miss Betty Lou Sides of Olton and Miss Bonnie Upton of Floydada as bridesmaids. They wore identical

Apple Sauce and Ham Scallop

Know why the family will enjoy this dish? Because it brings together three favorite foods and mingles their flavors with relishing abandon.

You use apple sauce, the ready-to-use kind to make sure of just right consistency and tart "cooking" apple flavor. Fix the sauce with brown sugar and a whisper of nutmeg. Next come sweet potatoes, nicely shaped smooth ones. Then ham steak, thick and tender.

As the dish bakes, the apple sauce gently up and around the potatoes; the ham juices drip down, the flavors mingle, and savory whiffs foretell the good eating on the way.

APPLE SAUCE AND HAM SCALLOP

- 4 medium-size sweet potatoes
- 1/4 cup brown sugar
- 2 cups canned apple sauce
- 1/2 teaspoon nutmeg
- 1 1/2 lb. ham slice

Pare sweet potatoes, halve lengthwise. Combine apple sauce, sugar and nutmeg. Arrange in casserole alternate layers, sweet potatoes and apple sauce mixture. Slice on top. Cover. Bake in moderate oven, 350° F., 1 hour. Sweet potatoes and ham are tender. Yields 4-6 servings.

sheath dresses of white antique brocade satin accented with chiffon cummerbunds with tails of taupe brown. Their head-dresses were chiffon halos trimmed with pearls. They carried cascades of button mums centered with large bronze mums and tied with taupe brown ribbon.

Tommy Assiter of Floydada served his brother as best man. Another brother, George Assiter of Lubbock, was groomsmen. Clayton Earl Cumble of Floydada, cousin of the bridegroom, was ring bearer.

Wedding guests were seated by Bobby Assiter of Lubbock, nephew of the bridegroom, Norman Davis, Bill Walker of Floydada, and Lonnie Smith of Olton, cousin of the bride. Bobby Assiter and Norman Davis also were candle lighters.

A reception held in the church dining room followed the ceremony. Organ selections were played by Roger Trapp. The serving table was laid with taupe net over white and held the attendant's bouquets centered with a three tiered wedding cake and bronze tapers. Appointments were of crystal.

Misses Nancy Burks of Littlefield, Donna Burrow and Sharon Smith, of Olton, the latter a cousin of the bride, assisted in hospitalities.

After a wedding trip to points in the southwest the couple will be at home south of Floydada.

The bride chose for traveling a wool jersey sheath of mink brown with accessories of corresponding shades of brown. She wore the orchid from the center of her bridal bouquet.

Mrs. Assiter is a graduate of Floydada High School and attended West Texas State. The bridegroom also graduated from Floydada High and attended McMurry College.

Granddaughter of Mrs. Scott King Married

Mr. and Mrs. Rolein B. Smith of Ft. Worth announce the marriage of their daughter, Terry, to Mr. John E. Beard of Ft. Worth on Saturday, August 24.

After a trip to South Texas they are at home at 4205 Locke, Ft. Worth.

Terry is the granddaughter of Mrs. Scott King of this city.

Thomas A. Edison was dismissed from a job as a young man for sleeping on duty.

Niece of Floydada Couple Married In Evening Ceremony

Miss Carolyn Joy Huggins and Loye (Mickey) Hollis were united in marriage Saturday night at 8 o'clock in the First Methodist Church at Plainview. Parents of the couple are Mr. and Mrs. James Emory Huggins of Plainview and Mr. and Mrs. Herman Lester Hollis of Gail.

Baskets of gladioli and mums with white satin bows decorated the altar. A white satin kneeling bench finished the setting.

Traditional marches and vocal accompaniments were played by Mrs. Charles Dean, vocal selections were rendered by Miss Joan Roberts. The Rev. J. H. Crawford officiated at the double ring ceremony.

The bride's father gave her in marriage. She was gowned in white French lace and nylon tulle over net and taffeta fashioned with a portrait neckline framed by scalloped sleeves and a taffeta cummerbund ending in a bustle like bow at the back. Alternating bands of scalloped lace encircled the skirt which was bordered with a wide tulle ruffle flowing into a train.

Her silk illusion veil joined to the crown of iridescent sequins and seed pearls embellished with tear-drops at the front. The bride carried a prayer book covered with white roses and stephanotis with white satin streamers knotted with pearls and rose buds.

Attendants to the bride were Mrs. Jack Young and Mrs. Jerry Don Webb, both of Houston, Mrs. Jack Harris and Miss Vola Dawn Taylor, of Lubbock.

Candle lighters were Rickie Taylor of Lubbock and Larry Teuton of Amarillo. Susie Reasonover and Christy Cranford both of Lubbock were flower girls. Norman Huggins, brother of the bride, carried the rings.

Bob Hawkins of Odessa was best man. Ushers were Cooper Blount and Ronald Crouch, both of Lubbock, and Jerry Webb of Houston.

A reception following the ceremony was held in Fellowship Hall. The couple will be at home in Odessa where the bridegroom teaches school.

Mrs. Hollis is a graduate of Plainview High School and attended Tech. Her husband is a graduate of Dodd City High School and attended Paris Junior College.

Mr. and Mrs. Harold Huggins of this city attended the wedding. The bride is a niece of Mr. Huggins. Grandparents are Mr. and Mrs. J. D. Huggins of Lockney, who also attended the ceremony.

Club-minded ladies are shaking out their banners to march into fall. Lazy days in the yard, or comfortably slumped in an easy chair reading, will be only a memory for the next nine months, and talk will turn to membership lists, speakers and assistant hostesses.

Almost every day the mailbox yields a reminder of what's to come. Here's a statement of club dues: "Do try to have these in by the 15th of the month, so your name can appear in the yearbook." Yesterday it was tickets "enclosed for your convenience," to a fall style show — one club's annual fund-raising project. Last week it was a request for "your choice of activities this fall," right down the list of a dozen or so, through the ambitious "Others you suggest."

Telephone committees, biding their time till everyone got back into town — and the children were off the phone — are swinging into action. Each morning brings us out of the kitchen for a couple of calls: "Susie is moving away; can you take the chairmanship?" "We'll need your glass plates and cups, if you don't mind."

And with the club buzz comes a general tightening up. The long, unscheduled days of summer are gone. Fall clothes begin to beckon from shop windows and newspaper ads. Eyes that have seen only family activities for weeks and weeks now dare face their owner in the mirror: Have I gained weight? I must get a permanent! Is that a leather mask or just my face?

Yes, the club season is here. So shoulders back, ladies! Chin up and hips tucked in! Shake out your banners and march into fall!

Baptist Women Meet at Encampment Lodge

The women of the Adult department of the First Baptist church met in the recreation room of the new lodge at the Baptist encampment for a covered dish luncheon Wednesday, September 11.

Bond Now Required Fruit Buyers

Under the law, commission merchants, dealers, brokers and agents not paying cash to the vegetable or fruit farmer must execute a written contract at the time of purchase. "A licensed buyer is a bonded buyer," Commissioner White pointed out. "And the farmer is protected from bad checks or contract failures."

Those subject to the law can be fined up to \$1,000 and given a year in jail upon conviction for violations. Among the violations are false charges, fictitious sales, fraudulent statements and failure to sign a purchase agreement with the farmer, White said.

The commissioner cautioned farmers against doing business with unknown or "traveling" buyers on a credit basis unless they are licensed by the Texas Department of Agriculture.

The Agriculture Protective Act, until this year, affected only certain counties in South Texas and the Rio Grande Valley.

Farm Gas Tax Refund Claims Due On Sept. 30

The last day of September is the deadline for Texas farmers to apply for refunds on gasoline used for farming between July 1, 1956, and June 30, 1957. The rebate amounts to three cents per gallon on gas used in farm operations during that period.

The opportunity for a small return is also available on gasoline purchased during the first six months of 1956. The Dallas office of Internal Revenue Services says that two cents will be repaid on each gallon used during that period.

Texas farmers are reminded, however, that only one refund claim per farm operator will be permitted. Each claimant is cautioned to make certain that his refund request includes all eligible fuel used.

Form 2246, for filing the 1957 tax refund claim, has been mailed to each farm and ranch operator who applied for the tax refund in 1956.

CHAT with PAT

Hi Gang and Football Champs. We did it again! What? Best those Mustangs 41 to 6. There is nothing that can stop those Winda! We play Ralls there this Friday night, so let's beat them too!

We had a pep rally Friday outside the school building. This seemed to have lifted the school spirit. Keep it up!! The cheerleaders had a very wild skit and everyone enjoyed it a great deal.

An assembly was held Thursday for the installation of Student Council officers. Ronnie Downing is president, Silas Duncan is vice president and Snow Drop Dunn secretary, and there is one representative from each home-room. I'm sure these kids will do a good job this coming year.

Have you noticed — Elton Turner's request on the Hi-D-Ho Hit Parade; the two new steady couples; Roger Trapp is ticklish; all the College kids are gone; how tiny and cute Verna Pale is; the good football team; what pretty hair Carol Lawson has; who Kelly King can laugh like; the coming track stars by the two words "Band Assemble"; our opera stars in play practice.

If you had been out riding around last week you would have probably seen the following couples together: Sandra Roe and Bobby Christian, Gaynell Boothe and Harvey Allen, Suzie Nelson and Norman Davis, Mary Cogdell and Alton Higginbotham, Judy Jackson and Bill Orman, Jane Tye and Weldon Pruitt, Leora King and Joe Noland, Kay Robertson and Don Sparks, Glea Adams and Bill Patterson, Glenda Morgan and Dale Lawson, Sally Jo Redd and Johnny West, Sherley Gregory and Donnie Taylor, Pat Allen and Jerry Battey, Carolyn Cates and Dale Brown, Fleeta Carthel and Buttons Beedy, Freida Smith and Keith Reeves, Elfa Womack and Price Prichett (new steadies), Ann Word and Charles Carr, Marisue Burleson and Max Crawford.

Sue Ring and Gary Matsler, Sonja Guffee and Don Garrett, Patricia Tucker and James Hale (new steadies), Juanelle Woods and James Teague, Linda Welborn and Vaughn Ginn, Donita Milton and Aris Powell, Sally Jo Redd and Larry Glassmoyer, Sherley Walker and Weldon Kirk, De Anne Newberry and Rex Jones, Carol Lawson and Gary Hucabay, Edwina Overstreet and Ronnie Downing, Janis Roberts and Kindis Julian, Martha Smith and Elmer Williams, Sue Williams and

Leon Williams, Fontaine Fowler and Robert Stovall, Bobbie Reeves and Buddy Watts, Thelma Ferguson and Spencer Hatley, Joellan Jackson and Jackie Myrick, Grace Ann Potts and Mike Shurbet, Sharron Edmiston and Jerry Solomon.

INKLINGS: A diet is what you keep putting off while you are putting on.

SAND HILL CLUB MEETING HELD WITH MRS. MILLER

Mrs. Arlon Miller was hostess for the Sand Hill Home Demonstration club on September 4.

Mrs. J. T. Spears presided, Mrs. M. B. Swanner led in the singing of two songs and Mrs. Ed Noel offered prayer.

Mrs. Swanner also gave a report on health and safety, stressing that poor vision is a major cause of accidents.

Mrs. Miller gave an account on what took place in the sectional meetings attended at the THDA meeting in Houston. Mrs. Miller said, "Women must share in time, place and utility, but femininity never changes."

Mrs. Spears related the happenings in the recreation section of the THDA meeting.

The hostess served cantaloupe, almonds and ice tea to one visitor, Mrs. C. C. Burns and members, Mrs. T. C. Hollums, Hollis McLain, Orba Miller, B. L. Bullock, Johnny Miller, C. B. Carmack, Ed Noel, James Jeffers, J. T. Spears, M. B. Swanner, Lynn Miller and Mrs. H. F. Jackson.

HOOD COUNTY MEETING

The meeting of Hood County friends has been set for September 22 at Macaenize state Park, it has been announced by Mrs. Mike Peveler.

The invitation to attend is extended to all persons who have lived in Hood County. "Bring a smile and a picnic lunch," Mrs. Peveler suggests.

News of Harmony

(By Mrs. Mather Carr)

HARMONY, Sept. 16—Mrs. Ethel Smith of Lubbock, Mr. and Mrs. Floyd Trowbridge, Mr. and Mrs. D. S. Battey Sr., and the Battey's daughter and children of Perryton left Thursday of last week for Cowles Mountainview Ranch in New Mexico, on a fishing spree.

While there Mrs. Battey had an unfortunate accident. She and Mrs. Smith were walking along a mountain side and some children on top were rolling rocks down. One weighing 30 or 35 pounds struck Mrs. Battey, breaking her left leg in three places, two small bones near the ankle and the shin bone.

She was taken nineteen miles to the nearest doctor and he could do

nothing for her. She was sent to Santa Fe, New Mexico, where x-rays were made and her broken bones set and put in cast.

The accident happened Saturday and Mrs. Battey remained in the hospital until Tuesday evening.

The party returned home Wednesday night. Mrs. Battey is doing fine.

Several attended the Floyd County Fair at Lockney over the week end some in our community won blue ribbons. Mrs. R. B. Gary received two blue ribbons, one on her crocheted table cloth and the other for a crocheted hand bag. Mrs. Chloma Williams won a blue ribbon on her peaches and many others won ribbons.

Everett Miller, Chloma Williams and Sue attended the football game between Floydada and Olton at Olton Friday night.

Marvin Smith left Sunday for Abilene Lake to do some fishing.

Mr. and Mrs. Wesley Carr and son, Bill, spent Sunday in Dumont visiting with relatives of Mrs. Carr.

Susie Reue of Floydada spent the week end with Beth Scott. Susie also attended services at the Chapel Sunday morning.

W. C. Clubb of Petersburg was a dinner guest Sunday in the Floyd Trowbridge home.

Patricia Tucker was a dinner guest of Sue Williams Sunday.

The Joyce Davis family returned home this week from Possum Kingdom where they had been fishing.

Mr. and Mrs. Floyd Trowbridge and Horace Carr were visitors in the Everett Miller home Sunday night.

Mr. and Mrs. R. B. Gary went to Lubbock Sunday to visit with their daughter, Mrs. Loyce Turner and Mr. Turner and son, Gary, who flew in from Omaha, Nebraska, to Lubbock to visit his parents, Mr. and Mrs. E. W. Turner. The Garys returned home Monday and their daughter and family returned with them for a visit.

Mr. and Mrs. James McKinley and son, Mark of Midland, and Mr. and Mrs. H. Nelson and son, Dirk, of the Baker community were guests Sunday in the Elmer Williams home.

TELEPHONE TALK
 by J. C. Oakley, Manager

Long Distance Calls By Number

I imagine that you may get a little tired of hearing the same old tune, "Will you please make a note of that number", when you place a long distance call without knowing the distant number.

Of course there are good reasons for asking you to do this.

As you know, your long distance operator can dial numbers in distant cities without any assistance from a distant operator. If you do not know the number, she will have to dial the distant city twice, once to get the number you wish and again to dial the number you wish.

It is very necessary for you to know the numbers you call frequently because the day isn't too far away when you will be dialing your own long distance station-to-station call.

By knowing the number you wish to dial will certainly speed up your call.

Safely Back To School

Well, it's September and school bells are ringing again. It's a good time of year to remind ourselves to be even more cautious in our driving—especially until we get accustomed again to "school stops" and small-fry pedestrians.

Here at the telephone company, we've always stressed safe driving—"Safety consciousness" as well as care and skill handling our cars and trucks.

Telephone men like the ones in Floydada deserve much credit. Year in and year out, they drive thousands of "safe" miles. Thanks to their records and similar ones established by telephone drivers in other cities, Southwestern Bell again won the National Safety Council's Award of Honor in 1936.

Don't Run! Reach!

Next time your telephone rings, think about this: Can you reach out and answer it... or do you have to run for it?

Is it handy? Or is it in some out-of-the-way place? Maybe even on a different floor?

The cost of having telephones wherever you need them around the house is surprisingly low, especially in comparison to the comfort and convenience they give you.

Each extension home costs only \$1.00 a month plus a one-time installation charge.

Why don't you call or come by the telephone business office? Let us help you plan complete convenient telephone service. More and more people are learning the modern idea is to have phones within easy reach.

Call by number. It's twice as fast.

GET A WINNING DEAL ON A NEW CHEVY—THE GETTING'S EXTRA GOOD!

More People Drive Chevrolet Than Any Other

Better try it soon—Chevrolet Bel Air Sport

There seem to be two kinds of roads around the country lately. There are dull, ordinary everyday roads. Then, there are the same roads when you take them in Chevrolet—fun roads!

Stepping along nimbly, surely—staying on course—traits like these come just a little more naturally to Chevrolet. Few cars at any price are so beautifully balanced. None in Chevrolet's field have Ball-Race steering, extra-long outrigger rear springs—or Body by Fisher—just a few of Chevy's exclusive features.

As for spirit, well—take a Chevrolet out and feel that extra horsepower! Just drop in to your Chevrolet dealer's—soon!

Spunk to spare!
