"Some vocal Texas politicians who have campaigned for the Republican party for years and years are now running over Texas hiding their Eisenhower buttons.

"Everybody knows I have opposed this administration with all the means at my command, so it is not necessary for me to issue any expurgatory statements.

"However, no real American can fail to be saddened by the tragic conflict dividing this country. Now is the time for statesmanship, not brinkmanship."

Meeting To Air Cotton Problems Scheduled Here On Monday Night

A meeting of all Floyd County cotton producers and businessmen at which cotton's problems will be discussed has been scheduled at 8 p. m. Monday (Oct. 7) at the Floydada Junior High School.

Cotton producers ginning at all Floydada vicinity gins have been sent special invitations to attend this meeting, called by the Plains Cotton Growers, Inc.

'Little Green' Still Story On Cotton And Maize

Reports from local and surrounding gins this week show cotton to be coming in slowly but should be picking up speed the next few days.

Some gins have had only one bale this season, one reports no bales at all and from four to twenty-two bales at other gins.

Indications are that the bolls are still too green, a number of bales however have turned out good.

Harvest hands in this area seem plentiful, but are finding little to do in the way of gathering cotton.

From 40 - 50 hands are in Wayne Collins field, with five bales delivered to Bohannon Gin Tuesday.

Lackey-Starvel delivered six bales on Tuesday. All bales were of good grade and ginned alright, while some others delivered were still pretty green.

Davis Gin reported cotton coming slowly there. Fourteen bales were ginned this week with seven of them Tuesday coming from the

Hicks and Goen field. The field is being harvested by approximately twenty Latin-Americans. The cotton was said to be 'pretty green' but had a good turnout.

Scott Gin hasn't had too many cotton customers as yet, but what has been ginned was good, and they feel next week will see a pick-up.

Lakeview and Darty Gins reported very little cotton ready in that vicinity. Darty has ginned one bale

and Lakeview none at Wednesday's report.

McCoy had ginned eight bales with a pretty fair turnout from grade standpoint.

Barwise has ginned 16 bales all told with four of those from Les Carlton's field Wednesday.

Farmers Co-op reported cotton brought in there was of average grade considering its still green.

The same story holds true on the grain situation, too green, but drying out fast. Three samples were brought to Barwise Elevator and it looked good, so loads should start being delivered there in the next day or so.

Producers of Floydada are not being rushed as yet. Some loads there are still a little high in moisture, especially the irrigated grain.

Producers at Dougherty have had fourteen loads this week, some reported.

Teachers Will Be Guests At Home Ec Conference

A Home Economics Conference, at which more than 50 plains and panhandle home economics teachers will be present, is being planned by Mrs. Nancy Morckel, Electrical Advisor of the Lighthouse Electric Cooperative, with Manager Melvin Henry aiding and assisting in the planning.

Trends in appliances and demonstrations of the use of new ranges, washers, dryers and freezers, will be featured in a day long program that will bring to Floydada some leading home economists, as well as teachers from at least 25 schools in Area I of the Home Making Education Program. There are 168 schools in Area I, teachers from which were invited.

The meetings will be held at the Lighthouse Electric's guest lobby. Buffet luncheon will be served at the Commercial Hotel Dining Room.

Mrs. Morckel said this week that Manager Melvin Henry has been encouraging her to stage the event for the past two years but this appears to be the first opportunity to put the plan into action.

The day-long program is being held on Saturday to give public school teachers of Area I an opportunity to brush up on the new ideas that are being rapidly presented. "Events held during the week-days find the teachers tied to their teaching duties, so they can't attend," she said.

Early registration at 8:30 a. m. will be held. Coffee will be served the visitors as they register.

At 9 o'clock the formal session will open with a welcome address from Lighthouse Electric Manager, Melvin Henry.

At 9:10 the first discussion will be on the modern trend in appliances, when the fortunate teachers attending will hear Lola Marie Drew, associate Professor in Home Management, of Texas Technological College.

After a 10-minute recess a range demonstration will be given by Miss

Riewe, Home Economist of the Hotpoint Company, Chicago.

Mrs. Morckel will be chairman of the morning session.

After a recess from 11:30 to 1 o'clock for luncheon, sessions will be resumed with Eula Mae Maddole, Home Economist of the Farmers Electric Cooperative, Clovis, New Mexico, presiding.

A washer and dryer demonstration will be given by Abbie Andrews of the Frigidaire Sales Corporation.

The freezer demonstration will follow with Mrs. Morckel and Miss Marie Purvis, Home Economics teacher of Ralls High School, presenting the subject.

Miss Sorenson's address will climax the day, with questions and answers and a conference summary ending the program.

Mrs. John B. Smitherman, wife of the president of Lighthouse Electric Cooperative, of South Plains, will assist in the hospitalities.

Teachers are expected from schools at Anton, Lubbock, Hereford, Shamrock, Bovina, Levelland, Wellington, Childress, Friona, Amarillo, Morton, Sudan, Paducah, Plainview, Matador, Flomott, Ralls, Olton, Spade, Whiteface, Sannwood, McAdoo, Idalou, Memphis, Borger and probably other schools.

Grand Jury Indictment Charges Criminal Assault

Accused Man Is Jailed Without Bail By Judge

A sordid story of beatings and cruelty, including criminal assault, unraveled for W. D. Hollums and District Attorney John B. Stapleton Wednesday night of last week by a young woman resulted in the convening of the Floyd County Grand Jury Monday and the indictment the same day of William Lennis Moore, 42, charged with rape and incest.

Following the story told the officials Wednesday night the district attorney asked District Judge L. D. Ratliff to convene the grand jury the first of the week, and this was ordered for Monday.

Meanwhile Moore had been taken into custody, and consenting to a polygraph test, was taken to Austin by Sheriff Hollums and DA Stapleton Friday. A Department of Public Safety official made a brief test, lasting not more than five minutes, according to the officers, and then Moore gave a statement to District Attorney Stapleton. The trio returned home Saturday.

Following the indictment Monday Moore was remanded to jail without bond. Tuesday afternoon Sheriff Hollums removed the accused man to the Lubbock County jail.

Among the witnesses who went into the grand jury room during Monday were the indicted man, his wife, Mrs. W. L. Moore, a stepdaughter Annie Louise Stockman and Margie Moore, a 17 year old daughter.

The defendant also has a stepson, Allen Stockman. An eight-year-old son, William Ray Moore died three years ago. The little boy became ill in the afternoon while at school and succumbed the same night.

The developments of Wednesday night began when a 25-year-old young woman appeared at the J. M. Hopper home, 615 East Kentucky street, and asked for help to go to another city. She said she was leaving home. She is the stepdaughter of the accused man. Her and her mother were married when she was four years of age.

The Hoppers, an aged couple, called in their neighbors Mr. and Mrs. A. C. Collins, 605 East Mississippi, who went down town to summon the sheriff. The latter took the girl to the district attorney.

The Moore family have lived in Floydada since July of 1951. Their home is at 614 East Mississippi St. The defendant grew up in Shelby County. He is a native of San Augustine County.

Remember, when we were kids, how we were always saying "Let's trade places?"

Can't remember now why this was so much fun. But in cars, at church, on the train, or at a football game, place-trading was the subject of much argument and bartering among teen-aged friends.

Last week we saw trading places in a new light. For several years we've entertained with a certain friend, always at our home. It was pleasant and we had the satisfaction of knowing we did more than our share. Now she has a new home and wanted to carry the brunt of the work. This seemed so easy -- no house to clean, no yard to cut and trim, no linens to press. Just the salads and rolls to make, the coffee and pickles to buy, a few dishes and tables to gather up and take to the other house. Nothing to it; or so at first it seemed.

But there was the worry about how much of the work she had to do that we simply couldn't share. There was the question of what time was best to go by or telephone without interrupting her rest or work. When we thought of a better way to arrange the tables, we didn't feel like saying so in her house. We worried about possible food stains on her new rug.

The little extras we had always taken for granted when they came out of our own housekeeping time and budget seemed an imposition when we were on the outside looking in.

Maybe adults should play the game of trading places often. It would help human relations no end if we could all know first-hand that the grass isn't always greener in the other fellow's yard.

Unloading Bus Danger Signal To All Drivers

Three state agencies joined today in urging the continuation of a state-wide program to acquaint the public with the Texas law requiring all vehicles to stop when approaching a school bus loading or unloading children.

The Texas Education Agency, the Texas Highway Department, and the Texas Department of Public Safety are making a joint request that school superintendents, newspapers, radio stations, and television stations participate in efforts to acquaint drivers with the school bus law.

"Superintendents and news editors performed an outstanding public service in this safety campaign last year," said J. W. Edgar, Commissioner of Education. "Yet 7 lives were lost during the school year in collisions involving school buses. There is a continuing need for program of safety education."

There were two more fatalities during 1936-37 than were reported to the Department of Public Safety in 1935-36. The total number of accidents reported declined, however, from 379 to 335. (During the past year the Highway Department erected signs on all major roads warning motorists of the safety measure.) The law says in effect, that upon meeting or overtaking a school bus which has stopped on the highway for the purpose of receiving or discharging children, the driver of any vehicle shall stop im-

mediately before passing. After coming to a stop the driver of the vehicle can proceed with due caution at a speed which is prudent and does not exceed ten miles per hour. The law does not apply within city limits.

Vehicles are not required to stop on highways with separate roadways when the bus is on a different roadway from that of a passing vehicle. Vehicles are not required to stop if the school bus is stopped in a loading zone which is a part of or adjacent to a controlled-access highway and where pedestrians are not permitted to cross the roadway.

All public school buses are painted yellow and have "School Bus" painted in large letters on the front and rear of each bus. They are equipped with flasher lights usually mounted high on the front and rear of the bus. These flashing lights are used only when the bus is in the process of stopping or is stopped to receive or discharge children.

Sand Hill News

(by Mrs. James Jeffress)

SAND HILL, Sept. 30.—The warm weather is wonderful on the crops in the community these past two weeks. The cotton is beginning to open but so far Rafe Ferguson is the only one with any cotton ginned from here.

Some feed is being cut this week. Mr. Gatewood, W. R. Billington and Joe Earp have had some of their grain harvested. In the next two weeks the harvest should begin to get underway.

Vegetables still growing in the community are squash, lettuce, turnips and carrots. There is also one field of cabbage this year so if the weather continues and the frost holds off the year should be a pretty good one after all.

Quite a few from the community enjoyed the Fair at Lubbock last week. Mr. and Mrs. J. T. Spears were over one day and enjoyed it. Visiting in the Spears home and going over with them were his mother, Mrs. Verlon Spears and his sister, Cleotia, who are visiting here.

Approval Given Fire Fighting Fee at Lockney

With opening of the cotton ginning season and the consequent increase in the hazard of fire in gins and on farms of the area the Lockney City Council reached an agreement for a trial fire fighting arrangement with the Commissioners Court last week. The agreement covers the hazards and expense of fire fighting outside the corporate limits.

Features of the agreement, which runs until January 1 from October 1, include:

Payment of \$75 per month to the City of Lockney by the county, and the county carrying liability insurance on the fire trucks when in action outside the city limits. It has been determined that the compensation insurance carried on the employees is covered wherever they may be on duty.

The Lockney Fire Department is paid a flat \$100 per month by the city, and the money is distributed in whatever manner the members see fit. Accordingly the \$75 and the insurance approaches reimbursement for their services, especially if calls are few.

Cities of Floydada and Lockney were first offered \$50 per month by the county and the offer accepted from Lockney city authorities represents compromise between what the county thinks it can afford to pay and what the city thinks it ought to have.

The temporary arrangement was agreed to by the Commissioners and Mayor J. E. Cox and Alderman Charles Baxter. Formal agreement is due to be signed.

The same offer made to the City of Floydada for a temporary arrangement was taken under advisement by Mayor J. M. Wilson Jr., who said the matter would be presented to his council for attention at their next regular meeting. City of Floydada has a different arrangement with its volunteer fire fighters to that in effect at Lockney. In this city the firemen who answer a fire call are allowed \$3 per man. Generally the city's direct outlay for every fire is upward of \$40.

The matter of county support for fire fighting outside city limits grew out of situations that arose last year when it became apparent that councilmen of cities which allowed their fire fighting equipment and personnel to leave city limits on missions might be held personally responsible for injuries and damage to property.

The county was caught flat-footed, budget-wise, when approached on the matter by the respective cities. They were disposed to see the reasonableness of the cities' proposals but were also faced with a problem of finding the money with which to negotiate.

VIEWS AND COMMENT

You've probably heard it said that stoves cause many home fires. How safe is your stove? Usually, it's as safe as you make it. So be sure your stove is always in good repair. Don't let grease accumulate on burners, oven or broiler. See that curtains, towels and other combustibles can't blow over the cooking surface. Protect your home from fire!

Weeds Fire Hazards. If something is not done about it beforehand, Fire Marshal Hart and the fire department is expecting to have a busy fall and winter with weed fires. Weeds that are due to be as dry as tinder when frost falls, cover a good many blocks in east and northeast Floydada. A jaunt over the area the other day indicates some residents are going to have to skeepaddle to escape the flames that may get started on their premises or adjacent thereto.

The Country has a military man for president, whose training since young manhood has been in anything but the civilian point of view. The republic was founded in the era of the Man on a Horse (Napoleon) and precautions were taken that the country would not come under the domination of such a one, even a beneficent personage. The country should not have had a military man for president and will pay dearly for the great honor that has been done a great military leader. It has not worked and it won't work, as we said back in the first campaign after the Democrats had made the mistake of naming Stevenson as their nominee.

At The Pentagon. Brass at the Pentagon is having some uneasy time this week explaining to civilians in the South why the order for the alert against insurrection went to all points of command in the area, as a result of the Little Rock occupation. The order was "rescinded" publicly but the soldiery is trained in insurrection tactics and since the army has no idea where the president may send them the next time it may be taken for granted the actual alert has not been countermanded.

Old Duty Bound. Some of these days there'll be a World Series that starts on some day besides Wednesday, either that or Wednesday will cease to be a day with one deadline right after another for the country newspaper man. It just so happens that this writer has never yet spent the first afternoon of a World Series hearing about or seeing it on the air. It has occurred to us to pretend a case of flu or come down to the office on crutches complaining of arthritis. In such a case one would be expected to go back to the house at least by noon.

October Enters Calmly. The weather the first of the week has been encouraging for the cotton man and the man with tons of late maize in the field. The frost date set by the writer has only 24 days to go and the thermometer has not hit any new lows. If the frost or freeze holds off, as we predict, or waits even into November, it will be a grand and glorious thing. All together now, with the right thought.

Too Many Judges. Every man is entitled to his say presumably. If such is the case and we are entitled to ours, the Congress, instead of creating a lot more places for federal judges, should cut down on the innumerable offenses that are violations of the federal law. We are said to have 39 new places of federal judges to be filled. All unnecessary and uncalled for, if the congress will stand on its hind legs and quit making everything from crapshooting up a felony offense. One would think the people have lost their capabilities entirely and that Washington has to attend to everything. When the federal courts get to taking business away from the justice of the peace it is some comeuppance.

We often wonder how much of a stir it would create in the old town if the city should decide to publish a complete list of persons and firms who or which are delinquent on their water and light bills. It would be realistic, we think, for the city to cut off a few of the chronic offenders and let the careless ones get scared the same thing might happen to them. It might pay the city to lose (the right) five per cent of the business it has anyhow! A complaining customer, whom you can't please, who rides without good cause, sure can't make you any money.

A New Estimate. New figures now being quoted by Texas Employment Commission on the probable cotton production in Floyd County puts the total at 77,600. Weighing hauling is indicated at 25 cents per 100 and pulling at \$1.50.

Ducks and Hunters. Lots of ducks means lots of hunters this fall. And lots of hunters means grief for the fellow with some cattle in the pasture and a gap in the back fence that can be let down and left that way. A pretty good fellow with a shotgun in hand, a good automobile under him and a flight of ducks to watch, often becomes a pretty sorry one to turn loose in your pasture. Most hunters have learned to respect and protect the owner on whose lakes and pastures they hunt. But there are exceptions, and how Farmer Jon Doe had as well get his fence repair kit and oil it up good.

Saturday Rites Are Said For Homer Howard

Homer Howard, postmaster of the Lockney postoffice for 21 years, former school teacher and law officer was buried in the Lockney cemetery last Saturday following funeral rites at the Main Street Church of Christ there. Mr. Howard passed away Sunday, September 22, at Seal Beach, California. Death was attributed to a heart attack.

Service was conducted at 2:30 p. m. by Chas. W. Watkins, Church of Christ minister. The body arrived Friday from California with Carter Funeral Home in charge of arrangements.

Mr. Howard had resided in Seal Beach since he left Lockney in 1944. He was born December 4, 1875 at Spencer, Indiana. The family came to Texas settling at Jacksboro around 1890 and came on to Floyd county in 1892, being among the first settlers of this area.

Mr. Howard attended the old Lockney Christian College, completing his education there. He taught school for 12 years in this county, teaching at Lone Star, Meteor, Starkey and Curlew (at South Plains). He also served as deputy sheriff of this county for a short time and was a school trustee for many years.

He served Lockney as postmaster from 1905 to 1914 and again from 1921 to 1933, making his tenure the longest of any person who ever held the office.

Mr. Howard was married to Ella Messingale at Jacksboro in 1894. She passed away in November, 1901. He was married to Essie Baxter in November, 1902 at Lockney and she passed away in 1943. In 1947 he was married to Eleanor Harrison at Seal Beach. She is among survivors.

Mr. Howard was a member of the Westminster Church of Christ at West Minister, California, at the time of his death. While living at Lockney he was a member of the West Side Church of Christ. He was a member of the Lockney Masonic Lodge for more than 50 years. He was also a member of the I. O. O. F. Lodge and the M. W. A. Lodge.

Funeral services were held at Seal Beach, Calif., Thursday of last week. Pall bearers at the Lockney rites were members of the Lockney Masonic Lodge.

Survivors include his wife, four sons, Oscar of Kerrville; Roy of Lewisville; Joe Ed of Seal Beach and Homer Gene of Anaheim, Calif.; three daughters, Mrs. T. S. Robbs of Hereford; Mrs. Saide Wise of Fort Worth; Mrs. Chloe Franco of Buena Park, Calif.; two brothers, Frank of Paris, Texas, and Ed of Monette, Mo.; also surviving are 24 grandchildren and some 40 great grandchildren. Orland Howard of Dougherty and Seaton Howard of Pecosburg are nephews.

Highlights And Sidelights From the State Capitol

(By Vern Sanford
 Texas Press Association)

AUSTIN—How much will Texas' drought-shocked farm economy be able to come back, thanks to 1957 rains?

U. S. Bureau of Crop Estimates says Texas' 1957 cash income, from all farm and ranch products, may be as much as \$209,000,000 higher than last year.

Actual statistics now in are not so rosy. Reports from the University of Texas Bureau of Business Research show cash income, as of July, down 13 per cent from July of last year. Farm income for July is 70 per cent of the 1947-49 average.

"Farm income," says a BBR analyst, "is still the most depressed sector of the Texas economy, although rising prices and a better outlook

for crops give some grounds for optimism."

Some attribute the poor cash showing in reports thus far to lateness of crops in areas where continued springs delayed planting.

Whatever final statistics show, most farmers and farm observers seem to regard 1957 as the beginning of better things. It rained. And though the rains may have washed out cotton, rotted melons and milled grain, it "put a season in the ground."

LITTLE ROCK REPERCUSSIONS—News from Little Rock, Ark., brought expressions of concern and disapproval from the Texas Capitol.

Gov. Price Daniel, on hearing the President had sent in federal troops to enforce school integration, fired off a telegram to the White House. Such action, said Daniel, was "reminiscent of the tactics of Reconstruction Days."

"Does this mean you will occupy with troops every nonintegrated school in the South?" the Governor asked. "If so, your action will destroy the public school systems and good will among the races which most of us in the South have labored so hard to preserve."

U. S. Sen. Lyndon B. Johnson, who was in the State Capitol at the time, for a Democratic women's gathering, said he was "concerned and disturbed."

"I think there should be no troops from either side patrolling our schools campuses," said Johnson.

NEW LAWS SUGGESTED—Speakers of the ICT investigations are no longer interested in what Ben-Jack Cage did or didn't do. Or in what he says or doesn't say. They are more interested in the effect the ICT matter will have on future insurance regulations.

Cage answered a few general questions for the Senate investigating committee. But he refused to answer 99 others on grounds of possible self incrimination.

However, officials of the State Insurance Department spoke to the committee specifically and without hesitation. Commissioner William A. Harrison suggested need for possible legislation in four areas:

1. Board authority to determine the competence of management and to pass on management contracts. (Jack Cage Co. had a management contract with ICT.)
2. More board control over financial record keeping by companies.
3. Change in the minimum capital requirements for organizing (presumably to require more capital).
4. Changes in insurance investment restrictions.

FLU FUROR FIDES—After the shock of the first flare-up, most Texans seemed resigned to living with the Asian flu threat for awhile. Although cases tripled (to 9,151) in a week, health officials in some areas reported a decline. Some said they felt they were "over the hump."

SHOEMAKE'S POLICY DROPPED—An Austin district judge has ordered the state receiver to stop paying premiums on A. B. Shoemaker's giant insurance policy. Value of the gradually diminishing policy was down to \$19,000.

At one time the policy would have been worth \$1,000,000 on Shoemaker's death. Money would have been added to the assets of the bankrupt US Trust and Guaranty Co.

Shoemaker attempted to kill himself after his company collapsed. His death seemed imminent, and the \$20,000-a-year premiums were kept paid. Now, doctors say Shoemaker may live another 15 years.

TUG O' WATER—Water contests are back in the news.

City of San Antonio has been trying for more than three years to get permission to take 100,000 acre feet of water annually from Canyon Dam to be built near New Braunfels. Guadalupe-Blanco River Authority opposed the request, and last July the State Water Board turned down San Antonio's application.

San Antonio has now filed suit in an Austin court to get the board's decision nullified.

Fort Worth had better luck with the Water Board. It gained permis-

UPGRADE TO SHAMROCK 10W-30 MOTOR OIL NOW PROTECTS THE LIFE OF YOUR CAR'S ENGINE AND BATTERY

Shamrock 10W-30 Motor Oil is the fact that the typical passenger car spends most of its useful life between the cold start and warm-up temperatures. The temperature decreases. The Shamrock 10W-30 and conventional oil is that it thickens less at low temperature. The effect on your car's performance is important.

When you change to Shamrock 10W-30, the improvements you'll notice immediately are: (1) that even on the coldest mornings the engine will turn over quickly and easily, and (2) a marked increase in gasoline mileage.

These advantages are the most obvious, but not necessarily the most important. Frictional wear in the engine takes place at a very high rate during the first few strokes when starting an engine. So lubricate on the cylinder as this wear, flowing quickly... At high temperatures a better job of keeping metal cool. 10W-30 being thick

at high temperatures gives your engine full protection at this end of the temperature range, too.

With Shamrock 10W-30 in the crankcase you will: (1) extend the life of your car's engine, (2) extend the life of your battery, (3) increase gasoline mileage and (4) reduce the octane requirement. We don't claim miracles for it, but you probably will.

CONGRATULATIONS TO TOM SNEAD BRINGING THE FIRST BALE OF 1957 COTTON TO McCOY GIN

AND READY TO SERVE YOU

Opening of another ginning season we wish to express appreciation to the farmers of the area who we have served and to extend an invitation to everyone to visit with us.

A modern gin plant has been overhauled and tuned to top performance. We have added new reciprocating cleaners behind the gin to better remove moats, green leaves etc. We can give you a clean and turn out you can get anywhere.

In the past we will offer some special services such as burlap and there you want this material returned to the soil.

As A Farm Woman Thinks

(By Nellie Witt Spikes)

Roses are red, Violets are blue, sugar is sweet and so are you, in sending me lovely cards, coming to see me and bringing lovely gifts and asking my folks about me.

"The 'poor old soul' is doing just fine. I have learned how to get around in a wheel chair and by the time you read this I will be walking on crutches. Time has gone by very pleasantly.

"At night when I cannot sleep I look at the stars. There is one star that must be very busy. It slips behind the bottom of the water tower and moves briskly on. When I awake about 12 it is out of sight. It has no companion star to travel with and is passing the stars that stay fixed as if scornful of being so lazy.

I think of the millions that have watched the stars and have found comfort and interest as I do. I think of the mighty hand that flung the glittering jewels in the black curtain of night. Maybe, I fancy, some far off day, I will get to go the "rounds" on this busy star.

Monday morning, we came back home Saturday and it was good to be here altho time passed rather quietly and pleasantly while I was away. There may not be any varnish on the bottom of the doors and furniture, but I am getting along under my own power.

The girls cut the legs some 1 1/2 inches shorter on Mr. Spikes' walker and to my delight and surprise, I can walk a little. I get tired and muscles unused get sore, but it surely gives me freedom to a limited extent and I am very thankful. With a walking stick on my "buggy" I can reach for things.

The skies look like fall, not the deep blue of summer, but a lighter blue, the white clouds veil here and there.

I see the late flowers still holding on, the turnips are growing. It is good to be alive and doing so well and to appreciate the goodness of God. It always gives me comfort when I read that God knows the stars by name, millions and millions of them.

To everyone of you, I thank you gratefully for all you have done for me, your prayers, flowers, gifts, visits and well wishes that will never be forgotten.

At the request of the pastor the First Sunday Singing at Calvary Baptist Church will be discontinued. (Signed) C. A. Breeding, President.

'Winds Put Paducah Game On Ice In First Quarter; Win 34 to Six

The Floydada Whirlwinds exploded for 20 points in the first period here Friday night and went on to win over the Paducah Dragons 34-6. It was the 'Winds third victory against one loss and was the fourth straight set back for the Dragons.

Frank Potts was the spark plug of the green and white offensive punch as he lugged the ball for 191 yards in 17 carries and scored three of the 'Winds 5 touchdowns.

Big gun for Paducah was Tom Goodgame the Dragons big fullback who banged out 52 yards net on 15 stabs at the line.

Biggest ground gainers for the night, however, were the officials who stepped off 60 yards against the visitors and a staggering 147 yards against the locals. Clipping, holding and a roughing penalty or two kept the offensive teams rocked back on their heels and nullified many of the prettiest runs of the night.

Statistics of the game showed Floydada with 16 first downs to 11 of Paducah. The 'Winds rushed for a net of 287 yards from scrimmage and passed for 31 yards on 2 completions in 12 attempts. Paducah collected a total of 100 yards net

rushing and passed for 33 yards completing 3 of 17 attempts.

Opening the game Floydada kicked off with Rannie Vickers booting to Tommy Richards on the Dragon 30 where he was downed immediately.

The Dragons had gained yardage for their 45 when they were forced to punt and Goodgame toed one to Frank Potts on the 'Winds 30. He ran it back for 10 yards before being downed.

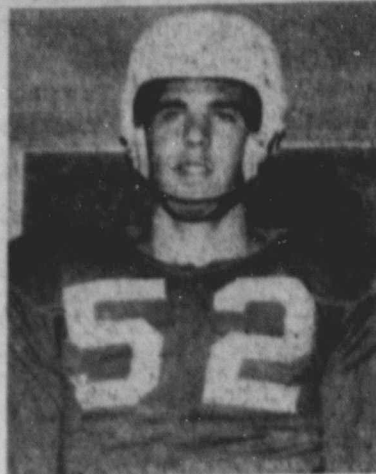

Frank Potts then ripped off 55 yards to the Dragon 6 and after a penalty to the one drove over his left guard to score. Huckabay's kick with Potts holding was good but a penalty was called and the next effort was short of the cross bars and the score was 6-0.

The next kick was taken on the Paducah 20 and the Dragons could not move from that point. They punted to Rannie Vickers on the Paducah 40 and he ran through, over and around the Paducah boys with aid of his team mates and went the 40 yards to score. Huckabay's kick was good and Floydada owned a 13-0 lead.

After Paducah had received again they ran into trouble when a bad

pass from center got by their backs and was recovered by Rannie Vickers on the Dragon 15.

Penalties were coming pretty fast and several good plays were called back before quarterback Ronnie Downing hit Buttons Beedy with a pass that was good for 16 yards and a touchdown. Huckabay's kick was good and the score was 20-0 still in the first period.

Before the period ended the Dragons had driven into the Whirlwind 10 where they were held for downs.

A rash of fumbles then broke out with the ball changing hands 3 times. Biddy made a recovery for Paducah on the 10, Danny Shipley recovered for Floydada on the 7 and then Goodgame got possession for the Dragons on the Floydada 8.

On fourth down James Moxey drove from the 2 yard line to score the Dragons lone score. Goodgame's attempted kick was no good.

Following the ensuing kick-off both sides had staged an offensive drive without success when Edward Hartman pulled down a Dragon pass on the visitors 25 and ran it back to their 16. From this point the green and white moved in quickly and it was Potts who climaxed the drive scoring from the six. Huckabay kicked and the score was 27-6.

Before the half ended the 'Winds at one time advanced as near as the four yard line where Goodgame laid a bruising tackle on Gary Huckabay. Penalties, however pushed them back to the 40 where Huckabay punted dead on the Dragon 4-yard line.

The Dragons had advanced to their 45 when the half ended. One farring stop of the Dragons was made by Roy Hartman who held the runner for no gain.

The third quarter showed some fine defensive play along with a little good offense.

One Floydada drive, died when Jackie Biddy intercepted a Downing pass on the Dragon 31.

Rannie Vickers and Bill Gilliland then turned in some fine tackling and Ed Hartman broke up a pass forcing Paducah to punt.

The punt went to Vickers on the 'Winds 40 and he returned it 5. Penalties pushed the ball back to the 26 and then Biddy again pulled in a Downing pass this time on the Floydada 41.

The Dragons made short yardage and were stopped when Danny Shipley knocked down a fourth down pass on the Winds 24.

Before the period ended Huckabay had punted to the Paducah 22 and the 'Winds dug in to take the ball on downs at the Dragon 31 where they owned it as the final quarter got underway.

The green and white drove in quickly making a first down on the 14 and again on the four before Frank Potts went over from the four yard line behind his charging line men to score from the four yard line. Huckabay's kick was again good and the score came to 34-6.

Vickers kicked off to the Dragons and Ceal Townley took the ball on his 10 running it back to his 29 before going down from a hard tackle by Grant Cooper and Danny Shipley.

The Dragon offensive got some stiff opposition with Dale Lawson making one key tackle. Frank Potts and Edward Hartman broke up a long pass play and then Huckabay intercepted on the Floydada 10 and ran it out to the 23 before being downed.

Penalties pushed Floydada back to their nine, but they came back to push out to midfield where they were halted when a wild pitch out missed Rannie Vickers and he retreated to cover the ball for a long loss. Vickers then punted from his 46 to the Dragon 24 dead.

As the final Dragon drive got under way it was Arlis Powell and Vaughn Gunn who came in for key steps to hold the visitors in check.

Starting for Paducah were Johnston, Maxey, Townley, Goodgame, Richards, Burruss, Holley, Jones, Arnold, Shover, Skaggs and Rehta.

Coch Watson used about everyone in uniform and all the boys turned in good performances. Seeing service for Floydada were Buttons Beedy, Danny Shipley, Dale Lawson, Rannie Vickers, Bill Gilliland, Vaughn Gunn, Ronnie Downing, Frank Potts, Gary Huckabay, Grant Cooper.

Edward Hartman, Rex King, Edward Whitehead, Coy Grundy, Ric-

hard Graves, Hal Hines, Leon Williams, Larry Iby, Sammy Moren, Henry Self, Roy Hartman, Arlis Powell, and Keith Hollums.

We Wonder Why

people come into our lives and walk with us a mile, and then because of circumstance they only stay awhile.

They serve a need within the days that move so quickly by, and then are gone beyond our reach. We often wonder why.

God only knows the reasons that we meet and share a smile — Why people come into our lives and walk with us a mile

"A good excuse" — A boy was about to buy a ticket or a movie one afternoon. The boy asked, "Why aren't you in school?"

"Oh, its all right, sir," said the boy earnestly, "I've got the measles."

"This hat can be sat on, carried in a pocket, or shoved in a duffel bag," said the salesman. "It will come out increased and resume its present shape."

"Let's sit on it right now and see what happens," said the customer.

THOUGHT AND ACTION

Some THINK without ACTION.
Some ACT without THINKING.
Some LACK both.
Few THINK and follow thru with ACTION.
All should THINK and follow thru with ACTION.

We who KNOW chiropractic, KNOW there is nothing ANYONE can give or take from the sick person to RESTORE health.

We who KNOW chiropractic, KNOW that normal natural life, health and function are internal inherent inborn qualities and quantities exclusively, which flow from brain to tissue cell, (from within-out), (from above-down), within patient himself or herself.

This FLOW that maintains life, health and function flows over the nerve channels in our bodies. It is the continuous flow of this FORCE that keeps us healthy, functioning and alive.

Produce pressure against the nerve fibers over which this force flows and the flow will be interfered with. What happens when your crops doesn't receive the flow from your irrigation ditch? What happens when your light bulb doesn't receive the flow from the gas tank or the battery? different types of effects are noticed in each case but the cause is the same in each one, an interference to flow. Now what do you think will happen when a certain part or portion of your body doesn't receive the FLOW from brain? Of course, it will not work right and will become weak, deficient in function, or uncontrollable function.

95% of all cases that are sick have a bone in their spine which is out of normal position that is producing pressure on the nerve channels which run from your brain down thru your spine and out to all parts of the body. When a patient comes to our office we first examine the spine to determine whether patient has pressure on nerves. If so, we make blue prints (x-rays) which tells us just which bone is out of position and in what direction and to what degree. Now chiropractic adjustments are started to get the bone back into normal position. When this is accomplished, the nerves are free of pressure which again allows free FORCE FLOW to all parts. This allows RESTORATION of health. To show you the unlimited scope chiropractic covers we will list a variety of conditions and the corresponding case number of patients who have been to our clinic and thru the above principle and practice have had a return to better health.

Kiss 'em goodbye, Mom...

but be sure you see them again!

Children home alone, the youngest ones especially, would be helpless to escape if fire should strike while you're away.

This tragedy happens every day and actually is the cause of one out of every three child fire deaths.

Never leave small children alone. Even if it is necessary to leave the house for only a few minutes ask a neighbor to stay with the children. And, whenever you must go out for a longer time, leave the children in the care of a baby sitter who not only has been told what to do in case of fire but who is also physically and mentally capable of carrying out such instructions.

DON'T GIVE FIRE A PLACE TO START!

Inadequate wiring and overloaded service outlets are very dangerous fire hazards — Consult your light department and secure the services of an electrician if your home wiring is out of date.

hot weather difficulties. Something else worth looking into is the spreading use of automatic coin-type vending machines to sell eggs.

These refrigerated road-side wonders are solving the marketing problem for a number of producers in various states, including Colorado, Alabama, Missouri, New York, and California, to name a few.

All a farmer needs to sell his eggs mechanically is the machine, a good location such as a shopping center, a service station or just a busy roadside, and some good quality eggs. He's more apt to maintain a stable market with less down price variation and the difference in marketing at the retail level could pay for the machine in a few months.

One New York firm makes an egg vendor which handles two different grades and keeps the eggs cool in summer and warm in winter, selling for \$1.495 f. o. b. the factory. A special shelter that fits over the machine costs an extra \$150.

With savings in time, money and trouble, this type of automation may be just what the egg producer needs.

South Plains News

(By Mrs. Murray Julian)

SOUTH PLAINS, Sept. 30.—Our news this week centers around the birth of our pastor's first son; the World Series baseball games which everyone will watch or hear, and some from here will attend; the beginning of the grain harvest in some of our fields, and the wedding of the eldest son in your correspondent's family.

All the neighbors and innumerable friends have clustered around the General Hospital in Lockney all last week and this hoping for good news of our friends, Mrs. George West, who has been very ill with encephalitis. This Monday noon her husband reported that she had a bad night last night, but is resting better today. She had been unconscious for many days, and is now somewhat better, but is in pain from the dreaded disease.

Mrs. Elmo Reeves was taken to the hospital in Lockney again on Sunday, and we are sorry to hear she is still there, and will be a few days. We are happy to announce the birth of a son, Lawrence Glenn, who arrived on Thursday morning, September 26, at the Peoples Hospital in Floydada, born to the Reverend and Mrs. Larry Paus. He is the pastor of the South Plains Baptist Church, and this is their first son. The baby weighed eight pounds and four ounces, and was twenty and one half inches long at birth.

The Faus' have a small daughter, Vassie Beth, who will be four years old on November 29. Maternal grand parents are Mr. and Mrs. Lloyd Fincher of Lamesa.

Mr. and Mrs. John Wilson and La Nita Sue went to Roaring Springs on Sunday to attend a singing there. We are glad to find Oletha is able to be up and out since her recent illness.

We congratulate Wendell M. Johnson on getting the first bale of cotton of 1957 at the Morrison Cotton Gin in South Plains. The cotton came in Friday, Sept. 29, and with 1700 pounds of seed cotton, it made a 440 lb. bale. Gene Morrison paid fifty cents a pound for this first bale of the season. Bill Beedy brought in the second and third bales soon afterwards.

Kendis Julian and Alton Higginbotham from WTSC at Canyon came home on Saturday afternoon to stay the night and Sunday with their parents. Elton Karr from Wayland College at Plainview was also home with his folks over Sunday.

Mr. and Mrs. Fred Portenberry went to Fort Sumner, N. Mex., on Friday to spend that day and Saturday with her youngest brother and family, Mr. and Mrs. Cecil McCain. The Portenberrys have heard from Elmo this past Thursday, but because of the change in his sailing orders, no plans can yet be made for his wedding to Miss Patsy Harrison, which had to be postponed from Sunday, Sept. 22, since he does not know yet when he will be home.

Mr. and Mrs. Paul Snodgrass went to Andrews last Thursday to visit her brother and wife, Mr. and Mrs. Jack Welch, who are part of the teaching staff at Andrews this winter. Mr. and Mrs. Raymond Upton were hosts in their home in South Plains on Thursday night at eight o'clock at a hostess party for the women, and games of forty-two for the men.

The women present made plans for the pre-nuptial shower for Miss Virginia Payne Taylor, whose marriage to Mr. Joe Taylor of Lockney is set for October 12, at a wedding in the home of her parents, Mr. and Mrs. J. P. Taylor.

The wedding shower will be held on October 8, between the hours of 7:30 and 9:30 in the home of Mrs. Raymond Upton. After the games were over Mrs. Upton served refreshments of sandwiches, cupcakes and coffee to Messrs. and Mmes. Horace Marble, Orisby Milton, Ernest Smitherman, Bryan Kay, Bill Beedy, Early Pritchett, John Key West and Mrs. Bryant Higginbotham and Raymond Upton.

Other hostesses unable to be present were Mmes. H. R. Hartman, Dock Jones, R. E. Young, M. M. Julian and L. T. Wood. Mr. and Mrs. Ursel Taylor and children, Mr. and Mrs. Bryant Higginbotham and Bud, and Raymond Upton and son, Jimmie, were South Plains people seen at the Panhandle South Plains Fair and the Holiday on Ice on Monday of last week. Terry Julian arrived home on Friday from Fort Knox, Ky., where he had spent the past several months in the Armor School. He left on Saturday morning to spend a few days in Roscoe with his fiancée Miss Leona Althof and her parents, Mr. and Mrs. R. E. Althof. He will be home again on Tuesday and go to Canyon to visit friends at West Texas College Tuesday afternoon and Wednesday.

Herman Thornton was among the big winners at the Panhandle South Plains Fair in Lubbock this past week, showing one of his fine Black Angus yearling bulls and winning the Grand Championship with him. Mr. and Mrs. C. G. Cobb of Tulla were all day visitors in the home of Mrs. Cobb's sister and family. Mr. and Mrs. Arby Mulder, Nathan and Katherine on Sunday.

Miss Kay Garrison from Silverton was a dinner guest with Miss Donita Milton on Sunday at noon, and was a visitor at church for the morning services. James Teague of Floydada was also a church visitor with Miss Juanel Wood.

Mr. and Mrs. Sylvan Kinnibrugh and girls left Friday evening for Truscott, Vera and Crowell, where they visited his and her folks over the week end. Her mother, Mrs. J. R. Spivey was writer and able to be out of the hospital at Crowell. They returned home on Sunday night.

Mr. and Mrs. Bradford Beedy and Scott of Lubbock came up on Friday evening for the football game between Floydada and Paducah, and Scott remained the week-end here with his grandparents, the Bill Beedys. Mrs. Bill Beedy took him to his home in Lubbock this Monday. She plans to go to Stinnett to visit another son, Mr. and Mrs. Charles Beedy and children on Tuesday, October 1, for the birthday celebration of her granddaughter, Cynthia.

Mr. and Mrs. Billy Stanforth Jr. left this Monday morning from Lubbock by plane for New York City where they plan to be for the next few weeks. They will enjoy the World Series baseball games. They have planned many things of interest to do in New York, and will sight see. Among plays they will go to see "My Fair Lady," for which they had gotten tickets. Others from our vicinity who will also see the World Series will be Mr. and Mrs. J. K. Bean, of Silverton, parents of Kenneth Bean, who left by train on Thursday from Amarillo and who will visit their son, Donald, who is stationed in New Jersey.

Mr. and Mrs. Carvin Beedy and children were dinner guests and afternoon visitors in the home of Mr. and Mrs. Rex Smitherman and family on Sunday. Mrs. Larry Paus and baby son, Lawrence Glenn, were able to come

home to the parsonage on Saturday. James Hartman is still in Pitsa Hospital at Floydada but is hoping to be able to come home this Monday. He was bruised, shaken up and sore all over from the wreck which occurred last Thursday night about twelve as he was coming home from Floydada, and was a few miles out. No one knows exactly what happened, whether a tire blew out, or what occurred, but his car turned over several times, and was damaged beyond repair. We are just glad to know that James was not severely hurt, and no bones broken.

Mr. and Mrs. John Smitherman left here on Saturday to go to Denver, Colo., where John will attend this week the REA Convention which will be held there. They called home last night, and reported that yesterday in Denver it was 90 degrees, which is uncommonly hot at this time of year, as Denver has had frost some time back. They will arrive home sometime on Wednesday.

Among those from here who have gotten out a few bales of cotton are Bill Beedy, Wendell Johnson, Early Pritchett and Chester Hidalgo. Mr. and Mrs. Frank McClure arrived home from Houston on Wednesday night after visiting their son Donald and family for a week. They had just had their grandson, Frank Wayne home from the hospital where he had suffered with pneumonia. They went to Lubbock on Thursday on a business trip.

Mrs. Otis Sandusky, from Denver, Colo., will arrive by bus in Canyon on Thursday and will come home with her nephews, Kendis and Terry Julian, and be here with Mr. and Mrs. Murray Julian for the wedding of Miss Leona Althof and Terry Julian which will take place in Roscoe on next Saturday night.
