

# Casa de Amigos' Scheduled to Open Saturday

## Migrant Labor Family Meeting Place Is Found

(By Mrs. Gene T. Arwine)

At a meeting Sunday afternoon at 3 o'clock at the First Christian Church the workers for the Migrant Ministry Center made final plans for the re-opening of "Casa de Amigos," set for this Saturday at 1:00 p. m. in the Penney building next to Beall's Department Store.

The center, which will be open from 1 until 5 p. m. on Saturdays and from 2 until 6 p. m. on Sundays, is an interdenominational effort to provide the migrant workers with a clean and wholesome place to rest while shopping. Toys and supervised games will be provided by two volunteer hostesses.

On Sunday afternoons, church school and worship services will be conducted in Spanish by David Harrison, area supervisor for the Texas Migrant Ministry. Facilities available at the center will include rest rooms with soap and paper towels, Spanish language Bibles, religious material, visual aids, records, books, magazines, and a machine for sewing. The center will be staffed and supervised by two volunteer hostesses.

The center is a non-profit and self-supporting endeavor to soothe the Latin-Americans into the Protestant churches.

Mitchell Parrish has agreed to loan the building rent-free to the center.

Those present at the center committee meeting last Sunday included Mrs. Bill Brown, chairman; W. D. Reeves, pastor of the First Christian Church; Tom Condon, pastor of the Cumberland Presbyterian Church; Olin Watson, manager of the Chamber of Commerce; Mrs. G. T. Arwine of the First Methodist Church; Mitchell Parrish of the First Baptist Church; and David Harrison, area supervisor in charge of religious activities at the center.

An appeal is being made for volunteer hostesses who will spend one afternoon at the center between October 12 and November 17. Interested church women are urged to contact Mrs. Bill Brown or Mrs. G. T. Arwine. All churches in this area are invited to participate in this project.

## Sec. 23, Blk GM Gets New Test

Yesterday a drilling agreement was filed for record in Floyd County pleading either:

- (1) that the Ralph Abbey test on the Howard land north and east of Cedar will be re-entered and tested in an effort to make a producing well of it; or
- (2) that a new test, an offset, will be drilled on the east half of the section on which the Abbey test was made.

The location is the east half of Section 23, Block GM, Baker-Taylor Drilling Company of Amarillo signed the agreement with the Amarillo Oil Co., which picked up the leases when Stanolin dropped them after Ralph Abbey of Dallas closed the hole and pronounced it dry about two years ago at a depth between 8,850 and 8,920 feet.

The instrument was filed with the county clerk by Mrs. Maud Hollums.

Baker-Taylor is said to have an assignment of quite a bit of acreage in the vicinity in return for pledging to make the test.

## Mayo Takes Dallas Post

Gayle Mayo, who has been district manager for Tractor and Equipment, Inc., of Dallas, for the past year and a half, will be a key man in the southwest for Massey-Harris-Ferguson, Inc., the new organization perfected by the merger of Massey-Harris and Ferguson firms.

Mayo will be general sales manager in the Industrial Division of the merged companies.

The change will necessitate the family moving to Dallas from Floydada.

## Stovall Attends Teacher Colleges Regent's Sessions

Richard Stovall attended a three day special meeting beginning last Thursday at Canyon of the Board of Regents of Texas State Teachers College.

The session which ended Saturday was for the governing body of West Texas State and five other institutions.

This was the first special hearing and meeting since 1952.

Regents and college officials were guests at a luncheon Thursday at the Amarillo Rotary club at the Herby Hotel. Wives of the officers were luncheon guests of Mrs. Henry Sears at Herford.

Board meetings were held Friday morning, Friday afternoon and Saturday morning.

Dinners and bar-b-que were enjoyed during the leisure hours.

# Launch Campaign For Christmas Activities Fund

The Christmas activities committee of the Chamber of Commerce is asking local business men to join them in a community-wide Christmas project this year, and churches also will be given a chance to aid, according to Dan Hagood, chairman of the committee.

The purchase of permanent decorations for the town would duplicate the committee's project and take most of the Christmas money this year, according to the committee's plans recently outlined.

The committee is also asking for financial help from local churches to purchase the one thousand dollar scene.

The scene which portrays the Christ child, Mary, Joseph, the three wise men, shepherds and various animals is made from fifteen life size, hard rubber, permanent figures and may be used indefinitely.

Colored lights again will be used across Floydada streets this year. A Christmas parade is not included in committee plans, Hagood said, although a smaller event will bring Santa Claus to town around the first week in December.

## Distress Maize Loan Will Help During Harvest

Congressman George Mahon thinks the distress loan on milo announced last week by the Department of Agriculture will be helpful this fall during the heavy marketing and shipping season when box car shortage may develop and storage bins fill up.

This week he issued a statement in which he commended officials of the department for announcing the special loan, which had been urged by farmers and farm groups. Mahon presented the request to the department early in September.

The distress loan will provide milo producers with a special loan equal to 80 per cent of the regular loan. It is designed to aid producers who are unable to take advantage of the regular loan by reason of the lack of storage facilities. The producer would have 90 days or not later than March 31 of next year to locate storage and convert his distress loan into regular loan. Details of the program are available through County ASC Offices.

The distress loan is necessary by reason of the very heavy milo production, limitation of elevator capacity and the critical shortage of boxcars to transport the milo to available storage.

Mahon said it is his hope that the distress loan would tend to stabilize the marketing of the milo crop. He said that he hoped the new program would not have to be used in a very big way as it had certain disadvantages and was primarily meant as an aid to more orderly disposition of the crop.

At the same time the distress loan was announced, a 3 cents per hundred weight increase in the loan rate was announced. The previous rate was an interim rate. The new rate is the final rate for the 1957 milo crop.

Light showers and early morning fog has hampered feed and cotton harvest this week.

Showers Sunday dropped 35-hundredths on Floydada as reported by the Pioneer Natural Gas Co., with heavier showers to the west and north and some communities reported from a half to one inch or more and others only a trace.

Sprinkles Thursday night and early Wednesday morning showed no measurable amounts. Clouds were still heavy however as the weatherman predicts fair skies toward the weekend.

High reading for this week since last Thursday was 86 on that day and on Friday. Maximum day time reading was 88 at 2:30 p. m. Wednesday. Low reading was 52 Wednesday morning.

See What I Mean? About we need a late frost? This young fellow is Craig Edwards, son of Mr. and Mrs. Wilson Edwards, McCoy. He is standing his full five feet in a field of his father's cotton, now maturing. One hundred forty seven bolls of cotton was counted on one of the stalks, 112 of which will make good cotton should it frost this week-end. Give it another two weeks before frost and the other 30-some odd bolls will make good cotton, too.

## Formby Strongly Supports Right-of-Way Bonds Nov. 5

State Highway Commissioner Marshall Formby, who is chairman of that body, told an audience of 78 Floyd County voters at Floydada Rotary Club yesterday the commission had laid their plans carefully for the development of the Floyd County road system and that he hoped they would back the commission in its new plans for Floyd County cardinal road building program.

The commission's program for this county for the early future is to spend over a million dollars on Federal Highways 70 and 62 and "we have the money in the black bag" for the purpose.

Formby was here on invitation and the club had several guests from various parts of the county to hear for themselves what the highway commission chairman had to say about the plans the commission has made. The commissioner was well aware of the fact that what every community wants is wider expansion of the F-M system and addressed himself to this situation.

"I know everybody here is interested in farm to market roads," Mr. Formby said. "Everybody wants more roads. The county F-M system in this county is gradually being expanded and will continue to be, as the legislature makes the money available and as our ability to maintain the F-M system grows."

Floyd County has one of the best planned road systems in the state, Formby said, and one or two others only, having better. "I was not on the commission when the planning was done but whoever did it did a good job. The county now has 1573 miles and this is being gradually expanded. We will build the gap to Quitaque as soon as the right-of-way is provided. We also have the Lakeview road in mind and other changes that the times may bring about."

Formby made it plain, however, that the F-M System and the Primary road system programs have no connection. They are separate and distinct programs, he said. "They are not related, not connected in any way" were his words.

Formby gave voice to the future needs of Highway 207. He put it in the class of the primary system, although it has no federal designation. "When we get through building in Armstrong County there is going to be a big increase on through travel from the Oklahoma line toward Post Big Spring and the border on this route. We must foresee future needs there."

Noting that the bond issue had been twice defeated he said he hoped the outcome would be the opposite this year. The bond issue was defeated in November of 1954 and again in March of 1955, getting about 60 per cent for and 40 per cent of the votes against. A two-thirds majority is required.

The highway commissioner was presented by Arthur L. Wylie Jr., program chairman for the day of the Rotary Club.

FLU SITUATION UNCHANGED Public school authorities contacted in Floydada Wednesday said there is no increase in absenteeism. Medical authorities report flu cases here about the same as last week.

Improvement of Highway 70 east from Floydada to the Motley county line will be third in line, he intimated. He said the map done last week and appearing in the newspapers is the plan of the commission, and that the whole program when completed would represent about one and a half million dollars.

Formby pointed out that he is a taxpayer in Floyd County and has an interest in the success of the election on November 5 from the angle of a taxpayer as well as of a member of the highway commission.

"I hope that everybody will vote whatever their sentiments may be," he said. "But I hope the citizens will consider they are voting for the children and for the future of the area as well as of this county."

FB Directors Meet Tonight Yesterday it was announced that the board of directors and alternates of the Floyd County Farm Bureau will meet tonight (Thursday) at the Farm Bureau office in Floydada to make plans for the annual county convention to be held the night of October 17 at a place to be announced.

Ferry Cooper, chairman of the FB resolutions committee will present his committee's recommendations to the county board tonight.

Robt. L. Smith is president of the county organization, and called tonight's session.

## Mrs. Claiborne Is Recovering Nicely

Reports this week from friends of the family say Mrs. J. B. Claiborne is home at Lamesa from the Methodist Hospital in Lubbock where she had been for three weeks.

Mrs. Claiborne is said to be able to have her meals at the table and to sit up some. Her condition is greatly improved and improves more each day.

She and her husband were injured in a car-truck crash near Lamesa in mid-August.

Mrs. J. G. Wood, mother of Mrs. Claiborne is at the Claiborne home caring for her and the family.

Mrs. Nancy Morcel, home economist of Lighthouse Electric, and Melvin Henry, its manager, shown above, were assisted by Mrs. Henry and Mrs. John B. Smitherman, of South Plains, wife of the president of the cooperative, in the hospitalities of the day for the family life education conference in Floydada Saturday. See story on another page. ## Plan United Nations Program For Tuesday Night Next Week

In observance of United Nations week starting October 14 the 1954 Study Club of Floydada is planning a very interesting program.

Members of other clubs and the general public have been extended an invitation to an open meeting which will be held in the district court room on Tuesday night, October 15, starting at 7:30.

Mrs. J. H. Barnard is in charge of arrangements and along with other club members poses these questions:

"Do you believe the U. N. is the best mechanism yet devised for harmonizing the actions of nations in order to maintain peace and security?"

"Are you convinced that because it is a free association of sovereign states it can be effective only to the extent of which each nation is willing to cooperate for the common good?"

In answer she says we believe the

## U. N. is laying the foundations for a peaceful world by reducing poverty, disease, and illiteracy. We support U. N. programs of technical assistance which are working to raise standards of living throughout the world.

The U. N. is not a cure-all for the world's problems, but despite Communist-bloc obstructions on many vital issues, we believe the U. N. is doing much to create conditions favorable to peace, security, and well-being for mankind.

To take a look at a few highlights in the record at this program is the invitation of the program chairman to the interested persons of the Floydada area. The official theme for the day is "Your World."

An official proclamation from the Mayor of the City of Floydada, J. M. Wilson Jr., in this week's Hesperian carries through with the U. N. idea and proclaims October 14 through 26 as United Nations Day in Floydada.

## New 'Junk' Ordinance Calls For Records To Be Kept by Dealers

With two members absent — Roe Jones and Bill Hale — with symptoms of the flu, the city council's meeting Tuesday night was a brief 45-minute session.

No action was taken on request that the council pass an ordinance giving Pioneer Natural Gas Company a 25c increase from \$1.25 to \$1.50 in the minimum charge that can be made on domestic gas bills. Also there was no action on the county's offer of \$75 per month for fire protection to property outside the city's confines. Discussion indicated the council feels the proposal of the county is inadequate to meet actual dollar and cents outlay for the equipment to make calls.

Current bills okayed by the council totaled \$6,900, low for the year. An ordinance was voted on favorably to require records to be kept of purchases and sales made by dealers in "junk."

## Plentiful Foods List For October Revealed

COLLEGE STATION — The crisp fall evenings are hard to beat so far as the choice of seasons for an outdoor meal is concerned. Outdoor chefs will find one of their favorites, broiling and frying chickens, heading the list of plentiful foods for October.

The U. S. Department of Agriculture's Marketing Service reports that industry and government will cooperate during October to promote the sale of broilers and fryers as well as cheese and dry peas. These foods headline the October list of plentiful foods.

Canned and frozen peas are also expected to be in ample supply as are apples, potatoes, onions, peanuts and peanut butter.

### VIEWES AND COMMENT

**Protect The Kids.** People old enough to drive automobiles have more judgment than most of the kids who ride in the school buses throughout Floyd County and the State of Texas. Since the youngsters are preoccupied with their own affairs they are careless of their safety at loading and unloading time. For their protection it is made a law that a motor vehicle approaching a school bus either loading or discharging pupils must come to a stop—and then proceed with caution. Quite sensible. Bus accidents took seven pupils last year in Texas, none we hope from careless motorists who expected the children in front of them to have the judgment of a grown-up.

**Overseas Telephone Service.** A new brochure just received from Southwestern Bell Telephone Company, tells an interesting story of conversation around the world. Most anywhere you go in 120 countries and territories abroad one can be contacted by telephone. Even ships at sea can be contacted through radio telephony. These calls present a problem in that the ship is a distant moving terminal. Telephone business is quite complex, to put it mildly. The further away from home the more changes in languages and customs the "more complex" it gets. One thing that cannot be overlooked is the march of time around the globe.

**Good Old West Wind.** Many people of the southwest still depend on the winds to pump their wells for live stock and domestic water. The recent spell during which little wind blew for days on end almost had some people in distress. Once upon a time the west wind was a necessity for everybody. All got their water that way. While cattle bawled weather-beaten faces turned skyward seeking a sign of the west wind.

**The Sportsmen's Clubs of Texas,** acting on the assumption that the people of the country are not going to permit their right to bear arms to be taken away from them in the current hysteria to have everything ordained out of Washington, are making plans for a fire arms training program, jointly sponsored by public and private agencies. Gun safety and supervised outdoor routine for youngsters in the teen-age group is the goal. City lads in particular do not have a chance to learn about guns. Pent up energy would be harnessed to make their natural interest in hunting and the use of weapons pay off in a common sense knowledge of guns, particularly modern fire arms, some of which are more complex than the old-fashioned kind.

Ideas are the stuff of which progress is made.

Mrs. Roosevelt's recent report that the Russian Soviet is a "going concern" seems pretty well borne out by the events of the past week. At least they have put sufficient scientific know how into launching a satellite to get the earth-made globe into the air and zooming around the globe at the dizzy rate of 18,500 miles an hour. Blow and brag at the Pentagon seems not to have impressed the Russians too much. They just went ahead and put their little moon into the air, while the branches of the service in our country waged war among themselves for the top assignments, and the right to run the show.

**Much In Evidence.** Reports we have and which we verily believe, are that the FBI, despite Mr. Hoover's desires, was much in evidence at Little Rock in pre occupation days and still are. Whether they tapped Gov. Faubus' telephone lines may be questionable but it is correct that they pushed local officials aside and went into the school affairs in Arkansas' capitol city busily. The thing has become highly political. A presidency and political ascendancy for ambitious men are involved. Apparently Attorney General Brownell is the man who is master minding the palace guard.

Thousands of school boards all over the country are losing sleep over the problem of how to keep from getting sucked in to a mess. And plans for private schools, which dot the north, will doubtless spring up in the sections of the country which have depended mainly upon the public school system for many years. Enforced mixing of the races (any races) will not work successfully anywhere, north or south. People will find a way out. The system in vogue may not be the ideal one. It may be doing injustice to a part of the citizenship. But people are going to try to do the way they want to do. Supreme Court decisions on what is the law of the land doesn't change human nature.

**Selling Land Bonds.** The State Land Commissioner is repeating the news that the state's veteran land bonds cannot be sold at the present because of the market. Bonds draw a higher rate of interest at the moment than is legal for the Texas bonds to bear. It may be as well. Whereas once there was only one way for farm land, to go —up— there is now a lot of room below the present prices. A man who bought now might not be too happy with his purchase a little later. However, far be it from us to fish for a catastrophe or anything to make land seek this lower level.

Think that day lost whose low descending sun Views from thy hand no worth action done.

### Watch Out For The Witchweed

A cluster of small reddish flowers on low-growing weeds may spell death to a corn crop in a matter of days.

Witchweed, a parasitic plant that attacks primarily corn, plus a few other crops, has been found in the United States.

Although the weed has not yet come to Texas, farmers are warned that it can thrive in the South and Southwest. At present, it is believed to be confined to about 38,000 acres near the coast in north and South Carolina, but all areas have been alerted to be on the lookout.

Farmers are asked to watch for an unfamiliar weed with bright green, slightly hairy leaves and the bright generally reddish flowers. First discovered in the Carolinas in the fall of 1956, it is known that the plant can spread rapidly.

Symptoms of this parasite resemble damage done by acute drought; the corn plants are stunted, will quickly and turn yellow. The witchweed accomplishes its work with a vast network of fast-growing roots which intertwined with roots of the host plant. This mass of witchweed root chokes off the food and water supply of its host, starving it and making fructification almost impossible.

The first witchweed blooms usually appear in June and will continue to bloom until frost. The flower is small and usually brick red, although it can be scarlet, yellowish-red, yellowish or even almost white.

Any farmer suspecting the presence of this plant should notify his county agent. The agent can arrange for positive identification and suggest measures for eradication. Witchweed plants or seed SHOULD NOT BE MOVED from the field, since the minute seeds are easily spread. And one plant can produce up to half a million tiny seeds.

The Texas Department of Agriculture has a limited number of copies of "WATCH OUT FOR WITCHWEED". It can be obtained by writing John C. White, Commissioner, Texas Department of Agriculture, Austin.

## Mr. Grain Sorghum Producer

A serious problem for grain sorghum producers has developed. A declining market with a continuously expanding production for exceeding the present demand, makes it imperative that the farmer himself take some action to rectify the situation. You will agree that for a more prosperous agriculture area, the market for grain sorghum must be expanded and more favorable legislation enacted.

The Grain Sorghum Producers Association is attempting to improve the "picture" for grain sorghum producers through an expanded program of RESEARCH, MARKET DEVELOPMENT and LEGISLATION. There is now an agriculture economist experienced in grain marketing on the Association staff to develop these activities.

We urge you to support this program by requesting your local elevator to deduct TWO POUNDS OF GRAIN out of each 1,000 pounds you deliver and deposit it to the account of the Grain Sorghum Producers association in your name.

Every grain elevator in Floyd County has agreed to deduct the grain with your permission as their contribution to this program.

MRS. TERRY JULIAN (Leona Marie Althof)

### Leona Marie Althof and Lieut. C. T. Julian Take Vows at Roscoe

The First Baptist Church of Roscoe was the setting for the double ring wedding ceremony of Miss Leona Marie Althof and 2nd Lt. Charles Terrill Julian on Saturday evening October fifth, at 7:30 o'clock.

Parents of the bride are Mr. and Mrs. R. E. Althof of Roscoe and the bridegroom is the son of Mr. and Mrs. Murray M. Julian of the South Plains Community near Floydada.

Reverend Glen Roenfeldt read the double ring ceremony as the wedding party stood before the church altar which was adorned with a double archway of blue candles and greenery, and on either side of the archway stood double candelabras. White chrysanthemums and fern palm trees completed altar decorations. The pews were marked with blue candles and white satin streamers entwined with greenery.

The candles were lighted by Miss Virginia Freyer, Roscoe, cousin of the bride, and Bruce Julian, Floydada, brother of the groom. Miss Freyer's waltz-length dress was of powder blue taffeta and she wore a wristlet of white carnations.

Mrs. Herbert Williams, organist, gave the wedding music and nuptial prelude of "O Promise Me," "I Love You Truly," "Always" and "Indian Love Call." Before the ceremony, Mrs. Williams accompanied Mrs. Glen Roenfeldt as she sang, "Walk Hand in Hand With Me," and "Be-cause." At the close of the ceremony Mrs. Roenfeldt sang "The Wedding Prayer" as a benediction.

Ushers were Kendis Julian Canyon, the groom's brother, Harold Althof, of Roscoe, brother of the bride, Van Doren Massier, of Crawford, Wilbert Althof of Roscoe, the bride's cousin, and Gordon Joiner, formerly of Floydada, now of Lubbock where he attends Texas Tech.

Miss Carolyn Althof, of Roscoe, the bride's sister, was maid of honor, and bridesmaids were Misses Ernestine Parrott of Abilene, Floy Nell Whisenant of Roscoe, and Tommie Ruth Wallace of Dallas, formerly of Roscoe.

Miss Althof wore a waltz-length powder blue cotton satin dress with design similar to the bride's gown. The bodice was featured with a square neckline and the bouffant skirt was accented with a huge butterfly bow with streamers draping to the hemline.

The bridesmaids wore identical waltz-length dresses of powder blue cotton satin which were fashioned with square necklines, cap sleeves and bouffant skirts. The empire bodice was marked with wide navy velvet cummerbund.

Shallow circular tulle picture hats, which were seeded with pearls and accented with navy velvet bows, completed the costumes. Each attendant carried a crescent shaped arrangement of white baby mums and fleur d'amour contrasted with blue net ruffling and blue satin streamers.

Kendis Julian of West Texas State College of Canyon served his brother as best man.

Debra Gail Althof of Roscoe was flower girl. She wore powder blue taffeta and carried a basket of white carnations and blue streamers. In her hair she wore a head-piece of white flowers. Gary Glen Kafer, of Roscoe, was ring bearer and he carried a white satin heart-shaped pillow edged in lace.

The bride, entering on a white aisle cloth with her father, wore a floor length gown of French Rose-point hand clipped lace. The bouffant skirt was fashioned into a chapel-length train which was enhanced by scalloped lace panels, front and back. On each side of the bouffant skirt were ruffle on ruffle of pleated tulle. The scalloped square neckline sparkled with seeded pearls and rhinestones and the long sleeves ended in petal points over the hands.

The gown was worn over white satin, and her finger-tip veil of silk illusion fell from a tiara of seeded pearls. The bride carried a crescent bouquet of a cascade of white carnations centered with an orchid, and she wore the traditional something blue and something borrowed, which was a penny given to her by a friend, Ernestine Parrott. For some-

thing old the bride carried a gold bucket belonging to her maternal grandmother. She wore a strand of pearls, a gift of the groom.

The bride's mother chose a native embroidered peau de sois dress with black accessories. The bridegroom's mother wore a blue satin dress accented with white. Their co-sages were of white fleur d'amour.

Miss Dorothy Plunkett of Lubbock registered the guests at the church.

The reception was held in the educational building of the First Baptist Church. An arrangement of white mums decorated the room. The serving table which was covered with a white cutwork cloth over blue was centered with the bridesmaid's bouquets, and the five-tiered wedding cake was iced in white, trimmed with blue rosebuds, and topped with a miniature bride and groom.

In the house party were Mrs. Wilbert Althof, Roscoe, Mrs. Edwin Althof, Jr., Acuff, Mrs. Edgar Baumgardner, Lorraine, and Miss Sharon Burnett of San Antonio.

Miss Janis Roberts of Floydada gave piano selections during the reception.

### Wedding Vows Plainview Ceremony

For a wedding trip to the Gulf states the bride chose for the trip a dress of black velvet. The cowl neckline of nylon chiffon draped to a V in the back and panels flowed to the hem. Her accessories were of black and she wore a corsage from her bridal bouquet.

Mrs. Higdon attended Our Lady of Victory in Fort Worth for two years and Texas Tech two years. She was employed at the ASC office in Floydada at the time of her wedding.

The groom attended Oklahoma A&M two years and Texas Tech two years where he received his degree in agronomy. He was employed in Roswell prior to his wedding.

E. Higdon and Martha of El Reno; Mr. and Mrs. Charles Galloway and children of Olton, Clyde Damron and children of Dimmitt and a host of other relatives and friends.

Flower girls were nieces of the bride, Jeannie Damron of Dimmitt, and Barbara Galloway of Olton. They were wearing identical skirts of red, and white blouses with red headbands. They carried white baskets with red rose petals.

Ring bearers were Clyde Damron Jr. and Margaret Galloway, niece and nephew of the bride, carrying the rings on a white lace pillow. The candles were lit by the Acolytes. White gladioluses decorated the altar, with six candles. The side altars held two candles.

Music was furnished by the Church Choir under the direction of Bill Deardis. Ushers were Joe Gidden, Ed Shilling and Marshall Kemp. Mrs. J. K. Langley, mother of the bride, wore a black dress with black and white accessories. Her corsage was of white carnations. Mrs. L. E. SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Cooperators of the Floyd County Soil Conservation District are encouraged to plant vetch now.

Hairy vetch is adapted to all cultivated land in the district and is one of the best annual winter legumes for soil conditioning.

Many farmers have experienced from 25 to 50 percent increase in yield from crops following vetch.

Vetch, like other legumes has the ability to take free nitrogen from the air and store it in the soil.

has been estimated that one ton of vetch will store 12 pounds of nitrogen in the soil.

Vetch can be planted with a common grain drill at about 20 pounds per acre, or it can be planted at 10 pounds per acre in later furrows with special equipment that is available to farmers in the district.

Further information can be obtained concerning vetch and other winter legumes by contacting local SCS personnel in Floydada.

The Floyd County SCS board of Supervisors met at their regular meeting October 1, at 1:30 p. m. in the Agriculture building.

The Board approved fifteen new applications on a total of 10,127 acres. The application were on the following farms:

Some corn had been going and cotton was beginning to open enough for everyone to be thinking about hands. Some of those lucky enough to get some cotton out were Jim Holmes, Wayne Billington, Jim Becker and of course, Rafe Ferguson, so we are all hoping for some dry hot weather in the coming days.

Twice recently some progressive neighbor has meddled with the untidy grace of our backyard living. A season or two ago, the folks next door uprooted a privet hedge, and planted roses. With our premises thus exposed to view, we had to move the woodpile, take out a one-sided peach tree and tidy up the backyard flowerbed. The covered-up feeling we had grown to love left with the bushes, and ever since we've questioned groceries and laundry in plain sight of the front street traffic.

For 15 years now, a row of Lombardy poplars has protected us from west wind, the afternoon sun — and any hope of a decent lawn. The inter-lacing roots of twenty-odd trees made an underground network of our back yard. But because we're peaceable people, we adjusted to this menace, taking the good along with the evil and smiling happily in our grove-like garden.

Not long ago, however, the populars acquired new owners, who promptly began cutting them out. Now our yard is about as private as the courthouse square.

A crab apple tree that grows at the garage door has spent 15 years leaning eastward, away from its overpowering companions, to get a daily drink of sunshine. Now that the giants who shaped it are gone, it seems like a timid hunchback suddenly thrust into fame.

The wild luxuriance of our trees and shrubs elbowing each other for growing room was appealing when concealed from public view. When seen from the street as we enter our drive, it seems messy and ill-planned. Progress, though nice, undoubtedly takes its toll from carefree living. Come spring, we'll be girding up our own shrubbery, to hold our own in so proud a block!

Lobby Control — Opponents of this bill are trying "to picture it as a struggle between business and labor," said the governor.

"This is ridiculous... the bill would require registration of those employed by both labor and industry to influence legislation.

"Vast majority of Austin lobbyists are legitimate operators who identify themselves and honestly earn their work. They have nothing to fear from this bill."

Opponents of the bill, said Daniel, are "modern-day carpetbaggers who hide their identity and improper expenditures."

Federal School Aid — "Full responsibility for the operation and financing of public schools should be exercised by the states and their political subdivisions."

Governor Daniel sent a resolution to this effect to the Federal State Action Committee meeting in Chicago.

"With federal dollars comes federal controls," commented Daniel. As a single exception, Daniel favored federal aid for schools with a heavy enrollment from U. S. military installations.

Little Rock Controversy — Governor Daniel suggested that both President Eisenhower and Arkansas Gov. Orval Faubus had fumbled in handling the school integration problems there. Neither, he said, had "exhausted every means at their command" to avoid a violent showdown.

"Of course, here in Texas," said the governor, "we would have sent a couple of Texas Rangers to handle the situation."

Bright Future — Texans can look forward to more money, but a little less elbow room in the next few years.

So says U. S. Sen. Lyndon Johnson in predicting a population of 12 million for the state by 1967 with a total personal income of \$24,000,000,000. This compares with a \$9,000,000,000 income for some 9,500,000 people in the past few years.

Senator Johnson forecast a 1975 farm output of \$2,900,000,000 up a billion from now, and factory production worth \$8,600,000,000, nearly three times present production.

But, said Johnson, we cannot operate a \$24,000,000,000 state on the basis of our present water use. The rosy prospects for the future will quickly vanish unless we act to control our water resources.

"Texas," he said, "is a growing giant wearing last year's shirt. It's going to strangle, he said, unless there is quick action."

Weather toll — Cost of Texas' natural disasters in 1957 would be \$12 for every man, woman and child in the state.

Latest Civil Defense Department reports put the year's toll from blizzards, floods, tornadoes and Hurricane Audrey at 61 dead, 638 injured and \$106,000,000 in property damage.

Once again, said Department Director William L. McGill, Texas holds the dubious distinction of being the first in the nation in major disasters.

TB in Texas — Startling facts revealed about tuberculosis in Texas came from Dr. Patrick McShane, head of the state's TB hospitals.

In a twin-panel session composed of newsmen and doctors, Dr. McShane reported that 22,000 Texans have active tuberculosis. One out of three persons has TB germs in his body.

"Texas spends \$6 per patient per day on its TB hospitals," Dr. McShane advised. "And we fink in the bottom fourth on what is spent in trying to get them well."

School Panel Named — Way is clear for a new study into needs of the public school system. Six appointments by Gov. Price Daniel completed membership of a new commission created by the last legislature to do the job.

Daniel's appointees: Dr. J. W. Edgar, commissioner of education; Dana Williams, Gladewater superintendent and president of the Texas State Teachers Association; Ed Ray, executive editor of the San Antonio Express and Evening News; Mrs. L. E. Dudley, Abilene; H. K. Jackson, Gatesville; Felix Tijerina, Houston.

Six appointments each were made earlier by the Speaker of the House, the Lieutenant Governor and the department of education.

Business Year Uncertain — Despite its present high level, Texas business faces uncertainties in ending the year.

There is little evidence pointing to any substantial rise, observes Dr. John R. Stockton, director of University of Texas Bureau of Business Research.

Causes for concern: softening of the building outlook, slackened expenditures by the federal government and business concerns. Bright hopes: expanding expenditures by state and local governments, high level consumer spending, continuing population increases.

Short Snorts — House Speaker Waggoner Carr is entitled to use capitol quarters for office space, Atty. Gen. Will Wilson has held in an opinion requested by the State Comptroller. Salary for secretary and expense for stationery, supplies, telephone and telegraph also were approved.

John H. Hargrove has been appointed chief of the staff services division of the State Insurance Department by Commissioner William A. Harrison. Hargrove was formerly with the Texas Research League.

# Area Teachers Home Economics Get Point

## All-Day Group Study Is Made Of Appliances

The modern trend in home appliances is fast moving these months, so that apparently forty-odd home and family life education teachers in public schools of Area 1, covering 38 parishes and south plains counties, were glad they gave up their leisure day to attend a home economics conference held at Light House Electric Cooperative's home economics conference, here Saturday.

Keynote address of the conference was that of Lola Marie Drew, associate professor in Home Management, Texas Technological College. More efficiency, more leisure which scientists and management are bringing into the home must be translated into greater happiness for the people and this is the challenge to the public school home economics teacher, she pointed out. Concretely she declared:

per cent of all brides are teen-agers. This makes the role of the home-making teacher of teen-agers an all-important duty."

Then Miss Drew chose for discussion the home appliances which reports show the major percentage of these girls plan to buy now. They are, she said, ranges, refrigerators and freezers in combination, vacuum cleaners and automatic washers.

Followed the range demonstration by Neva Riese, Home Economist of the Hotpoint Company, Chicago, the washer and dryer demonstration by Abbie Andrews, Home Economist of the Frigidaire Sales Corporation, Fort Worth, and the refrigerator-freezer demonstration by Mrs. Nancy Morckel of the Lighthouse Electric Cooperative jointly with Mrs. Marie Purvis, Home Economics teacher of Ralls.

Miss Drew's presentation of a film "The Kitchen of Tomorrow," was a push button dream of the use of electronics in cooking, used with refrigeration and deep freezing.

The experts pulled one trick out of the bag right after another and the questions and answers came thick and fast from the eager audience of teachers.

Following the registration period

the teachers, lecturers and demonstrators were welcomed by Melvin Henry, Manager of Lighthouse Electric, who said the idea for the public school conference was originated by Mrs. Morckel because teachers had indicated an interest and apparently were willing to give up this one day of leisure to keep abreast of the times in their profession.

The nearly 50 teachers, speakers and demonstrators were guests of the Lighthouse Electric as a buffet luncheon at Hotel Coffee Shop. A delightful meal was served.

Mrs. Melvin Henry, wife of the coop manager, and Mrs. John B. Smitherman of South Plains, wife of the president, assisted in the hospitalities of the day.

Coffee breaks throughout both morning and afternoon sessions helped to make the day pass quickly.

Miss Esther Sorenson, of Plainview, who is Area Supervisor, Area 1, Home and Family Life Education of the State Department of Education, epitomized the day's program, when she declared the challenge in the home economics field today for teachers is not alone greater efficiency, greater comfort, more leisure, but the end goal of greater happiness in the home.

Presiding at the morning sessions was Mrs. Nancy Morckel, in the afternoon, Eula Mae Madole, home economist, Farmers Electric Cooperative, Clovis, N. Mex.

Door prizes were carried home by at least four of the teachers, some of whom traveled distances as great as 150 miles to be present at the conference. Registered for the event were:

## As A Farm Woman Thinks

(by Nellie Witt Spikes)

"The Lord Is My Shepherd; I Shall not Want," how many many times these comforting words of this beautiful psalm have come to me lately. I shall not want. Once we had a bunch of sheep and realize how they depend on their human shepherd.

"He leadeth me beside the still waters. Sheep will not drink where the water flows swiftly.

"Surely goodness and mercy will follow me all the days of my life," what a wonderful promise if we accept the Good Shepherd and let him lead us.

Life from a wheel chair is something new in my life, but it enables me to go on with my house keeping in a limited degree. With an electric skillet, coffee pot and toaster, breakfast is easy. I can brush the crumbs off the kitchen floor, dust the furniture that is in reach and keep many things to their places.

I have found a light walking cane to be very useful. I can pick up papers which have fallen to the floor, pull my walker to me, push a chair in place, draw things that are out of reach to me. I learned I could put the crook of the cane around my foot and lift it into bed with ease. It is good not to be dependent entirely on others and I am very thankful.

Every day more beautiful cards come to make the day brighter. Aren't these nice days? Any way warm and rather still, just what cotton and maize needs to mature quickly.

Yesterday Nelson and Marjorie came, railed the wheel chair down the steps and helped me into the car. We rode along the familiar highway and came to the new home of Paul and Wilma that they are building and then drove west to the farm where we lived so long.

Memories sweet and precious of a new two room house on the prairie, of three children playing and making our hearts and home glad with their presence. Memories that warm our hearts and lives as we sit quietly at home, busy days behind us.

The week has passed pleasantly in most ways but there was sadness also. Many beautiful cards and nice letters came with love and cheer. Many friends came to see us. We will miss Granny Brentz — miss her kind pat on our shoulder

and to hear the warm welcome she always had for us. Her resolute power to throw off pain, even breaking her hip and walking again at her advanced age, came to me in the darkest hours of pain and gave hope and comfort.

I know it was hard for her to carry on, but to me she never complained. She smiled with love and encouragement to everyone who came her way.

"We loved and lost!" Why do we call them lost? Because we miss them from our onward road? God's unseen angel o'er our pathway crossed, looked on us all, and loving them the most, straight way relieved them from life's weary load.

"They are not lost; they are within the door that shuts out loss and every hurtful thing, with angels bright, and loved ones gone before; In their Redeemer's presence evermore, and God Himself their Lord, and Judge and King.

"It bids us do the work that they laid down: Take up the song where they broke off the strain; so journeying 'til we reach the heavenly town, where are laid up our treasures and our crown and our lost loved ones will be found again."

I looked out the south window to my flower bed and was amazed and delighted at what I saw. Four red spider lilies on tall stems coming out of the brown earth without a leaf anywhere. These are fascinating plants. By spring you will find a clump of green leaves — in the summer they disappear, leaving not a sign. You forget about them until one day in September or October you see them, and your breath is almost taken away by their beauty.

I have just found out why I am not beautiful. I have always washed my face the wrong way. I read an article saying that young women should wash their faces with upstrokes, not down. If they want their faces not to sag when they get old.

The next time I washed my face after reading this, I found I had kinds washed around and around.

But it is too late now. So I will keep on the old way.

Looked like the only beauty treatment I tried when a girl turned out disastrously. I heard some "big" girls say to wash your face in pepper sauce. I did not hear them say to add it to water. I went home and used it full strength, and for hours I walked the floor and the yard, wetting my burning face with cold water every few minutes. Oh, yes. This was to bleach your face.

When I heard the "big" girls saying that eyebrows needed to be shorter and thinner, I amazed and horrified my mother and father when I appeared with mine completely scissorsed off.

Then with good advice I made a mixture of buttermilk and meal and spread it over my face, and went to bed hoping to look like Snowwhite the next morning. How that dry meal did scratch as I turned over and over. And the next day I was still sunburned . . . Oh me, oh my.

The quiet days that some of you have been enjoying are all over now. Bang-bang-toot-toot—were back again! Man, we band kids flat had a ball at Big "D". We stayed at the Tower Motel and they had telephones and radios in every room along with a heated swimming pool. Can you imagine going swimming in the middle of fall—oh, but we did. The three days we lived like Kings and Queens.

Of course we had some work to do along with our fun. We had a five hour rehearsal for the big performance in the Cotton Bowl, Tuesday night which was televised. We would like to thank all the people in Floydada for supporting and backing us all the way.

Thanks again for making this trip possible!

Thursday we had a Thespians meeting and elected officers. President Dick Galloway, Vice President Mary Cogdell, Secretary and Treasurer Laurie Nelson, Reporter Laurie Johnson. We have big plans and high ambitions for the coming year. Now we are working on a 3-act comedy play, "A Date With Judy". We hope to present it sometime during the middle part of November.

Glea Adams and Bobby Christian have both been sick and out of school for nearly two weeks. Sure do miss them at P. H. S. and hope they get well real soon.

Bok Sin Lee, a Korean girl attending McMurry College spent the week end with us. She gave a talk at the Methodist Church Saturday night. She told about her life experience in Korea which included many hardships during the Korean War. Those who made the trip to Abilene Saturday after Bok Sin were Roger Trapp, Anella Thurston and Janice Smith and Vaughn Gunn, Linda Welborn, Sharon Edmiston, Roger Trapp and Jerry Solomon took her back to school Sunday evening. We all enjoyed knowing Bok Sin.

I dug the drag and this is what I saw: Leora King and Larry Irby, Judy Jackson and Bill Ormish, Mary Cogdell and Keith Hollums, Kay Robertson and Bobby Christian, Sandra Roe and Grant Cooper, Carol Lawson and Gary Huckabay, Marisue Burleson and Frank Potts, Fleeta Carthel and Larry Smitherman, Carolyn Cates and Dale Brown.

SCARED NEEDLESSLY, ALL HE HAS IS A SIMPLE CASE OF HEMORRHAGIC HERPES ZOSTER

Poultry and egg dealer C. L. Berry was pretty badly scared ten days ago when he thought he had symptoms of heart trouble.

Fortunately it turned out, as the doctor told him, that he had a good heart. Nothing to worry about. All he has is just a little old case of Hemorrhagic Herpes Zoster. Ought to cure up in a few weeks.

Berry says that Hemorrhagic Herpes Zoster does to you is hurt so bad you can't sleep a wink. It's that simple.

"LAND HO!"

At 2 a.m. on October 12, 1492, a lookout stationed above the moonlit deck of the Nina sighted a new world; a dramatic moment in history. Today we still celebrate this eventful voyage of discovery; supreme achievement of Christopher Columbus.
