## As A Farm Woman Thinks

(By Nellie Witt Spikes)

**Easy Does It**  
What best removes the mud from shoes?  
What cleans it off, and quick?  
It's not the mat upon the porch.  
It's not the knife or stick.  
It's not the broom, it's not the brush,  
It's not the scrape or tug.  
The mud drops off like magic once  
You tread the front-room rug.

—Richard Armour  
Yesterday, Sunday, it rained, was gloomy and gray but inside the Methodist Church here in Ralls, Leila and Tom Reed greeted their relatives and friends in the sunshine and warmth of their Golden Wedding.

Happiness shone from their faces, as the line continued coming by with their own kind of special greetings.  
Long tables of beautiful gifts, a beautiful punch of wedding cake and golden punch, but the finest gifts of all that were brought were the Golden Love and appreciation that was evidenced to them.  
A happy Golden Wedding Day!  
The Lord has given you  
A wonderful distinction  
That comes to very few  
May he who's given you this day  
To crown your wedded love  
Continue to remember you  
With blessings from above.

We loved Mrs. Carr Surginer -- and how we shall miss her pleasant voice and kindly ways! She loved goodness, truth and beauty, she made me so very welcome as did Carr, also. We enjoyed the hours spent in their beautiful home with its many mementoes and beautiful things present and past.

You have our deepest sympathy Mr. Surginer. We know her many kindnesses and good life will live on. She made the world a better place in which to live.

As to the condition of the "Pure Old Soul" will say that I can put some weight on my right foot. I use a walker instead of crutches. The wheel chair is still a good friend, tho, when I am tired. Using my leg had made it kind of sore and I have to take walking slow for a while.

Chofee Smith was home from WISTC over the weekend.  
Mr. and Mrs. Rudolph McCurdy and Phillip visited her parents, Mr. and Mrs. J. H. Watson in Lubbock Tuesday.

Mr. and Mrs. J. R. Williams, D'Lynn and LaNell were in Plainview on business Monday.

Frank Knox Moore spent Tuesday night with George Furgus in Crosbyton. Charles Moore spent the night with Garrett Boyd of Crosbyton.

Mr. and Mrs. Wayland Jones spent the weekend with their parents, Mr. and Mrs. Fred Jones of Lakeview community and Mr. and Mrs. Weldon McClure. Also they and Mr. and Mrs. Fred Jones visited Wayland's brother, James and family in Ralls.

Tuesday, November 12, will be the next Floyd Association meeting, which will be held in the Cone Baptist church. The board meetings are at 5:30 p. m., supper at 6:15 p. m. and evening services begin at 7 o'clock. Rev. Beck, pastor of the First Baptist Church at Quitaque will be the speaker for the evening.

Mrs. George Smith has been suffering with an injured knee, but is reported to be some better. Uncle George has also been under the weather.

## Flying Change, Air Mark 58 Oldsmobile

Improvement in Oldsmobile history. The Super '88' and '98' series both have the Rocket engine with quad-jet carburetor and developing 305 h. p.

Available as an optional extra on all series is the J-2 Rocket engine with three dual carburetors and generating 312 h. p.

The '98' series has four body styles in 1958. There are five body types in the Super '88' Series.

The budget-priced Dynamic '88' Series offers a wide range of seven body selections.

In all there are 16 body styles. Two Oldsmobile accessory innovations for 1958 are available to customers -- a Trans-Portable radio that can be completely removed from the car for use elsewhere and a safety Sentinel speedometer warning that utilizes both a light and buzzer to warn when any pre-set speed is being exceeded.

Oldsmobile's new 1958 styling starts at the four-beam headlamps in the front end and extends to the new and larger taillights. Rectangular parking lights are integrated in the outer ends of the massive and protective front bumper.

Horizontal trim strips sweep the length of the front fenders and through the rear quarter panels and fenders.

The rear window is a single pane of glass with up to 28 per cent more area.

Oldsmobile's New-Matic Ride is optional at extra cost on all series. This true air suspension system cushions the car on four chambers of compressed air.

The New-Matic system also incorporates a unique leveling feature achieved with special height control valves that instantaneously and automatically adjust the pressure in the air springs to compensate for any change in the load or the road.

In adopting the four-beam headlamp system, Oldsmobile is making functional use of all four precision-aimed lamps for down-the-road lighting.

Interior styling of the 1958 Oldsmobile matches the striking new exterior appointments. The Super '88' and '98' Holiday models present a new "star-light" headlining of sponge vinyl in light colors to set off the "fashion-flair" upholstery offered in a variety of colors and fabrics. Nine fabrics are available.

## South Plains News

(By Mrs. Murray Julian)

SOUTH PLAINS, Nov. 4—Rain began falling about Sunday school time on Sunday morning here, and has been slowly falling off and on, up to this writing on Monday night, with no sign of let up. Just gray skies and rain soaked land. The rain gauge here shows one inch.

Rain has cancelled the Womens Missionary Union and the auxiliaries meeting this afternoon, another meeting which has been cancelled is the all day club meeting which was to have been held at the home of Mrs. Murray Julian on Wednesday.

Mrs. J. H. Barnard of Barwise was the talented speaker at the Friday afternoon meeting of the South Plains P-TA when she gave a book report of "The Preacher With the Plow", and showed many things in connection with her report.

Mrs. Jones Kinslow presided at the business meeting. On December 6, at the next meeting, Mrs. Sylvia Yearly will have charge of the program with a musical recital.

Mr. and Mrs. Fred Marble moved here last week to the erstwhile home of Mr. and Mrs. Ernest Huckabee, which is southwest of South Plains, so Fred will be close to his farm work. The Huckabees have moved to Floydada.

Mr. and Mrs. Sylvain Kinnibrugh, Marilyn and Beth, left Saturday morning for Truscott and Vera where they visited with Mr. and Mrs. W. H. Simmons, and with her mother Mrs. J. R. Spivy, who is ill again with the flu.

Mr. and Mrs. Jimmy McCown and son, Stevie, and Tommy McCown, all of Fort Worth, plan to be here for the coming week end to be with the boy's grandparents, Mr. and Mrs. Walter Wood. They plan to go to Lubbock to the Texas Home coming festivities which will be held on Saturday and will attend the football game.

Mr. and Mrs. Frank McClure returned home from Houston on Saturday after a weeks stay there. Frank spent this Monday in Lubbock with their children, Mr. and Mrs. Don McClure, and Mrs. McClure spent the day in Crosbyton with the grandchildren. They went to Lockney on Sunday afternoon to visit their neighbor Mrs. George Weast, who is convalescing from a long illness.

Rev. Larry Faus was ill at his home with the flu all last week, and this week Mrs. Faus, Vassie Betn, and baby, Lawrence Glenn, are now suffering with the flu. So many people here have been ill, and so many children have been out of

school with colds, flu and other illnesses. Sunday morning at church there were only 11 present due to illness and to the rain which came down in a heavy shower right at church time.

Mr. and Mrs. Skeet Thornton returned home from Hot Springs, Arkansas, on Thursday at noon after several weeks vacation spent there. They also visited in the hospital in Lockney with Mrs. George Weast on Sunday afternoon, as did many of her friends.

Mr. and Mrs. Murray Julian went to Canyon on Friday morning to bring home Kendis Julian, and Alton Higginbotham who spent the week end here with his folks. The boys went back to their college studies on Sunday afternoon with Don Norman of Floydada.

On Halloween night at 7:30 festivities began at the school house with a parade of everyone in costumes. The judges had a hard time picking winners from such an array of characters.

Prizes went to Stanley Pierce in the pre-school group, and Glenda Kay Cummings in the school age children.

Frank D. Jones won in junior high class, and Sparky Parks as a ghostly ghou in the adult prize for the best costume. He and Mrs. Shelby Calahan stood at the school entrance giving spooky hand-clasp to everyone entering.

Games were played in the different school rooms, and adults enjoyed games of 42, with refreshments served to everyone present.

## As A Farm Woman Thinks

Easy Does It

What best removes the mud from shoes? What cleans it off, and quick? It's not the mat upon the porch. It's not the knife or stick. It's not the broom, it's not the brush. It's not the scrape or tug. The mud drops off like magic once you tread the front-room rug.

Yesterday, Sunday, it rained, was gloomy and gray but inside the Methodist Church here in Ralls, Leila and Tom Reed greeted their relatives and friends in the sunshine and warmth of their Golden Wedding.

Happiness shone from their faces, as the line continued coming by with their own kind of special greetings.

Long tables of beautiful gifts, a beautiful table of wedding cake and golden punch, but the finest gifts of all that were brought were the Golden Love and appreciation that was evidenced to them.

A happy Golden Wedding Day! The Lord has given you A wonderful distinction That comes to very few . . . May he who's given you this day To crown your wedded love Continue to remember you With blessings from above.

We loved Mrs. Carr Surginer -- and how we shall miss her pleasant voice and kindly ways! She loved goodness, truth and beauty, she made me so very welcome as did Carr, also. We enjoyed the hours spent in their beautiful home with its many mementoes and beautiful things present and past.

You have our deepest sympathy Mr. Surginer. We know her many kindnesses and good life will live on. She made the world a better place in which to live.

As to the condition of the "Pore Old Soul" will say that I can put some weight on my right foot. I use a walker instead of crutches.

The wheel chair is still a good friend, tho, when I am tired. Using my leg had made it kind of sore and I have to take walking slow for a while.

Mr. and Mrs. J. R. Williams, D'Lynn and LaNell were in Plainview on business Monday.

improvement in Oldsmobile history. The Super '88' and '98' series both have the Rocket engine with quad-jet carburetor and developing 305 h. p.

Available as an optional extra on all series is the J-2 Rocket engine with three dual carburetors and generating 312 h. p.

The '98' series has four body styles in 1958.

There are five body types in the Super '88' Series.

The budget-priced Dynamic '88' Series offers a wide range of seven body selections.

In all there are 16 body styles.

Two Oldsmobile accessory innovations for 1958 are available to customers -- a Trans-Portable radio that can be completely removed from the car for use elsewhere and a safety Sentinel speedometer warning that utilizes both a light and buzzer to warn when any preset speed is being exceeded.

Oldsmobile's new 1958 styling starts at the four-beam headlamps in the front and extends to the new and larger taillights. Rectangular parking lights are integrated in the outer ends of the massive and protective front bumper.

Horizontal trim strips sweep the length of the front fenders and through the rear quarter panels and fenders.

The rear window is a single pane of glass with up to 28 per cent more area.

Oldsmobile's New-Matic Ride is optional at extra cost on all series. This true air suspension system cushions the car on four chambers of compressed air.

The New-Matic system also incorporates a unique leveling feature achieved with special height control valves that instantaneously and automatically adjust the pressure in the air springs to compensate for any change in the load or the road.

In adapting the four-beam headlamp system, Oldsmobile is making functional use of all four precision-aimed lamps for down-the-road lighting.

Interior styling of the 1958 Oldsmobile matches the striking new exterior appointments. The Super '88' and '98' Holiday models present a new "star-light" headlining of sponge vinyl in light colors to set off the "fashion-flair" upholstery offered in a variety of colors and fabrics. Nine fabrics are available.

## South Plains News

(By Mrs. Murray Julian)

**SOUTH PLAINS, Nov. 4**—Rain began falling about Sunday school time on Sunday morning here, and has been slowly falling off and on, up to this writing on Monday night, with no sign of let up. Just gray skies and rain soaked land. The rain gauge here shows one inch.

Rain has cancelled the Womens Missionary Union and the auxiliaries meeting this afternoon, another meeting which has been cancelled is the all day club meeting which was to have been held at the home of Mrs. Murray Julian on Wednesday.

Mrs. J. H. Barnard of Barwise, was the talented speaker at the Friday afternoon meeting of the South Plains P-TA when she gave a book report of "The Preacher With the Plow", and showed many things in connection with her report.

Mrs. Jones Kinslow presided at the business meeting. On December 6, at the next meeting, Mrs. Sylvia Yeary will have charge of the program with a musical recital.

Mr. and Mrs. Fred Marble moved here last week to the erstwhile home of Mr. and Mrs. Ernest Huckabee, which is southwest of South Plains, so Fred will be close to his farm work. The Huckabees have moved to Floydada.

Mr. and Mrs. Sylvain Kinnibrugh, Marilyn and Beth, left Saturday morning for Truscott and Vera where they visited with Mr. and Mrs. W. H. Simmons, and with her mother Mrs. J. R. Spivay, who is ill again with the flu.

Mr. and Mrs. Jimmy McCown and son, Stevie, and Tommy McCown, all of Fort Worth, plan to be here for the coming week end to be with the boys' grandparents, Mr. and Mrs. Walter Wood. They plan to go to Lubbock to the Texas Home coming festivities which will be held on Saturday and will attend the football game.

Mr. and Mrs. Frank McClure returned home from Houston on Saturday after a weeks stay there. Frank spent this Monday in Lubbock with their children, Mr. and Mrs. Don McClure, and Mrs. McClure spent the day in Crosbyton with the grandchildren. They went to Lockney on Sunday afternoon to visit their neighbor Mrs. George Weast, who is convalescing from a long illness.

Rev. Larry Faus was ill at his home with the flu all last week, and this week Mrs. Faus, Yassie Betin and baby, Lawrence Glenn, are now suffering with the flu. So many people here have been ill, and so many children have been out of

## News of Harmony

(By Mrs. Mather Carr)

**HARMONY, Nov. 4**—Mrs. Ethel Smith and son, Jack of Lubbock, were guests in the Floyd Trowbridge home Sunday of last week. They also visited in the D. S. Battey home. Mrs. Battey is getting along very well but is still on crutches since her leg was broken a while back on a fishing trip.

Mrs. Joyce Davis, Jean and Mrs. Mather Carr visited with Mrs. Della Carr of Floydada Tuesday.

Mrs. Davis is the former Mary Edna Pinkner. The Ramseys also came by convalescent home and visited with John Waddill. Mr. Waddill is very poorly. They also came by Littlefield and visited with Mr. and Mrs. Barney Saxton. Mr. Saxton is ill and has been for a long time, but the Ramseys thought he looked better than the last time they saw him.

Jack Smith spent Thursday and Friday night in the Floyd Trowbridge home.

More rain has visited our community which most of the farmers are not very happy to see, but we say everything works out for the best for those who love and serve the Lord. It will dry up some day where they can get their crops harvested.

Several attended the football game between Floydada and Post Friday night at Post. Floydada won 41 to nothing.

Death has visited relatives of our community at a high rate. Glen Pool's father, of Becton, passed away Saturday night in Lubbock. Mr. Pool only lacked two days being ill four months. Funeral services were conducted at 2 p. m. in the First Baptist Church in Petersburg and burial was in the Petersburg cemetery. I believe the preacher who conducted services was Rev. Bayington.

Also passing away Saturday night was Mrs. Belle Bruner of Amarillo, sister-in-law of Mrs. G. L. Snodgrass and aunt of Mrs. Everett Miller and Carrick Snodgrass and a sister to Glad Snodgrass of Floydada.

Early Sunday morning Marvin Smith received the news that his brother-in-law, Carl Reeves, had passed away in the Plainview Hospital. Mr. Reeves had been ill a long time and had received surgery more than once.

Our sympathy goes out to all these bereaved families in the loss of their loved ones.

Our quarterly conference was called off again due to the rain. There were no services at the Chapel Sunday.

Mr. and Mrs. Elmer Williams were in Lubbock to see R. B. Gary. Mrs. Williams reports her father is getting along all right now and probably will be home in a few days.

LIPSTICK LOGIC

Having been born minus a silver spoon, we've never thought of diamonds as a girl's best friend.

Thanks to parents with little money but a wealth of wisdom, we children grew up believing that owning them is a lot like being president of the United States: it's not for everyone; and a lot of responsibility goes with possession.

We can, therefore, admire the sparkle of another woman's expensive diamond much as we enjoy a rare painting. We don't have to own it to find pleasure in its beauty; and by not owning it, we're spared anxiety about having it lost or stolen.

With such a bringing up, we have developed a slightly superior attitude toward diamond lovers -- we almost called them addicts.

But the other day we were invited to hear a "diamond expert" talk, and for the first time began to understand their real charm. The diamond is the hardest stone in the world -- that we know. And it is one of the rarest jewels known. But the thing that makes it so precious is Nature's jealousy in revealing its secret hiding places -- in India, Borneo, South America, Africa, or wherever; and her grim fight against man to hold it.

We learned that the diamond cutter's skill means everything -- and that good ones are rare; how many thousands tons of ore are worked for every gem that is found; how much weight each loses in the cutting. We saw models of the priceless diamonds of the world.

Now for the first time, we see more than a dancing rainbow in these precious stones. We see sweating men braving death to mine them; patient men spending hours carving one small gem; merchants, shippers, and salesmen living by traffic in them. It's not the glitter that entrances. It's the romance and adventure imprisoned there.

OBSERVE WEEK OF PRAYER

First Methodist Women's Society of Christian Service met in the parlor of the church Wednesday, October 30, in observance of the Week of Prayer.

Mrs. W. L. Davis was in charge of the program.

The few hands that are still in the community have tried hard to pull cotton all of last week, but the ground was so wet and cold and every morning the cotton was too wet. This community could sure use some cotton pullers.

The farmers have also tried to combine some grain. Such a time they have had. Just a few high places that would even come near holding up a combine, then they would have to get stuck. Now if they wouldn't be in such a hurry, if the feed was not trying to all fall down and, of course, if we get a real high wind it will all go to the ground.

Clyde Starrett has some colored boys pulling cotton for him. Thursday afternoon of last week they got after a jack rabbit and it took them a good part of the afternoon to catch him, but catch him they did, they were supposed to be pulling cotton.

Joyce Morris has been sick with a sore throat the past week.

Elsie Rathel doesn't know who was scared the most on Halloween night. She was conducting folks through the Horror House and a woman fainted. Just wonder if she might have put her hand on a water-dog in the dark as some were looking for waterdogs to take to the carnival.

BROADWAY, Oct. 29 -- (Delayed Sunday was certainly a lovely day with the sun shining so bright after so many dark damp days. Of course the freeze really killed most all the flowers around the yards.

The cotton fields are getting quite a bit whiter as frost of the leaves were already off the cotton. Now when the ground dries enough the farmers can sow their wheat hoping to get it up as there is so much good moisture.

Tom Adair of San Saba, father of Mrs. L. R. Rainbolt, visited in the Rainbolt home from Thursday until Sunday afternoon.

Winegar, Harvey, Robert and Georgia Ann. Afternoon callers were Mr. and Mrs. Ben Marley, Mr. and Mrs. A. R. Marley and girls, Brenda and Delta, Elaine Webster and

Sharon McDougle, Mrs. T. E. Thornhill and Tommy and Sandra Norris. Mr. and Mrs. Ben Beckham went to Oklahoma last Wednesday. Mr. Beckham went through the clinic while over there. They returned home Saturday afternoon. Mr. Beckham told us what is wrong with him (but for some reason we think he kinda got the words mixed up) but he sure wasn't the least bit mixed up when he brought a new Ford home with him. Sure is a pretty one too.

Jamie Berry, who has been employed at Fort Worth for the past several months has returned home to stay awhile. He is the son of the Cecil Berrys.

Lonnie White, grandson of the Ben Beckhams, has gone to California where he hopes to find employment.

Mr. and Mrs. Jack Thornhill, Pam and Brad of Amarillo, were Saturday night and Sunday morning guests with his parents, Mr. and Mrs. D. D. Thornhill.

All the school children who have been lucky enough to not have the flu have really had a vacation since they only went to school Monday and again Thursday morning of last week.

Mary Ann Starrett and Cheryl Starrett were callers in the D. D. Thornhill home Saturday night. Cheryl wasn't near ready to go home but it seemed her mother, Mrs. S. P. Starrett, thought it was that was what Cheryl said after talking with her on the phone.

Mr. and Mrs. Cecil Berry, Mr. and Mrs. R. C. Rathel and T. E. Thornhill were among those attending funeral services for John Campbell in Crosbyton Sunday afternoon.

## County Mileage of Paved Road Is 245.3 Miles

The mileage of paved roads in Floyd County at the moment stands at 245.3 miles, a pretty fair mileage considering the county began from a standing start in 1928 with no paved mileage in its entire confines.

Of the mileage now paved U. S. 70, U. S. 62 and State 207 constitute 74.1 miles, 148.5 miles is represented by 1 Farm to Market Roads and 22.7 is county mileage, not included in the state system for maintenance.

Approximately 4.5 miles is to be added next year when the gap on the Fairmount road is built on right-of-way now almost ready to turn over to the state.

Construction in the year 1957 included 3.5 miles of road extending south from Allmon to the Crosby County line to tie in with a construction program in that county.

Though the weather is bad, and people are anxious to see the sun shine, they are still able to make jokes about the weather. For my own satisfaction, I promised myself to give each person a button who didn't tell me it was rainy, when I called for the news. I didn't lose many buttons. I did have one man to tell me the water was to the top of his door. Mr. Estep!

## Increase Prize Money For Fair

The meeting of the board members and superintendents of Floyd County Fair, held in the county court room in October gave evidence of enthusiasm as those present reviewed the affairs of the 1937 fair and laid plans for the event in the fall of 1938, said Sam Puckett, secretary of the fair association last week.

Lessons learned from the past season and the desirability of changes to make the fair more interesting were studied while the September fair was still fresh in mind, he said.

Various changes were made for 1938 as indicated below.

Charlie Boedeker, president of the association, presided over the meeting.

Other directors and superintendents present included Mrs. Harry Morckel, Mrs. John Smithman, Chloma Williams, Sam Puckett, Raymond Rucker, Joe Parrish, Jake B. Watson, Mrs. G. V. Smith and Mr. and Mrs. E. J. Barker. Also present was County Agent Cecil Lewis.

The superintendents voted to up the prize money for the livestock division. In beef cattle previous prizes were \$7.50, \$5.00 and \$2.50. These amounts were raised to \$10.00, \$7.50 and \$5.00.

In baby beef division, all awards were raised \$2.00.

Also a class on mature bulls was added to the livestock division.

It was voted that a plaque would be given to the best outside commercial exhibit for inside exhibit.

An increase of community exhibit prizes was also approved by the association. In the past prizes were for \$15.00, \$10.00 and \$5.00. Prizes next year for first, second and third place winners respectively will be \$25.00, \$20.00 and \$15.00.

Other communities that enter and have a possible exhibit will receive \$10.00 for their entry. Regulations are that in order to qualify for prizes in community exhibits, perishables must be replaced early Saturday morning, the last day of the fair.

Also at the 1938 Fair there will be a flower division for children from the 4th grade down in separate classes.

It was voted that the Association write a letter of thanks to The Lighthouse Electric, Southwestern Public Service of Floydada and Lockney, John Carthel of Lockney, City of Lockney, Hugh Counts and Joe Reeves of Lockney, The Lockney Lumber and Supply Co., Builders Mart in Floydada and J. D. Parks of the City of Floydada for all that was contributed toward the success of the fair this year.

## Football Battle

(Continued from Page One)

and then no game in '36. Floydada eked out 12-6 in 1937 and then Lockney took two in a row in '38 and '39.

Floydada then took eight straight from '40 through '46 winning two in the war year of 1943 when a double round robin was played.

Lockney put together their longest win streak which saw them take five in a row. In 1952 Floydada broke this with a 32-0 win and continued to down the Longhorns through the 1956 season. Last year it was Lockney again as they went through Floydada with a 33-21 score.

From these forty years of Floyd County football the Whirlwinds have won 28 games and scored 892 points while the Longhorns have won ten games and scored 339 points. There has never been a tie throughout this time.

The 1937 Longhorns are regarded as decided favorites. They have many seniors on their ball club who have played together since junior high days. They are very fast and have a smooth working offense with excellent timing. Their defense is very good also and they have an aggressive line. The Longhorns have not relied on the pass but have completed a very high average of those thrown with several going for scores.

Coach Rudy Halle's Longhorns lost only two starters, a center and quarterback, from last year's fine team. Both of these holes were filled with experienced squadmen. Bill Race was moved from fullback to quarter and Duane Griffith from reserve guard to the center slot. Dickie Barton filled in nicely at the FB vacated by Race.

Beside these are Jimmy Minter and two other boys who work well in the quarter position and Cliff Hardy who alternates with Calloway at right half. The Longhorns have ample reserve strength.

Jerry Williams is their speed merchant and Barton the bang'em out fullback.

The probable starting lineups appear on another page of this week's Hesperian.

For Coach Preston Watson's Whirlwinds the job appears to be a big one. They lost heavily to graduation last spring, but for the most part the replacements look better than the ones that went before.

So far this year they have not looked as smooth and polished as the Longhorns, but they have not been short on hustle, spirit and fight. Their passing has been good most of the season and their running game is improving. The Whirlwind defense has been good in most games but has not faced the speed which Lockney is known to have.

The Whirlwinds, their coaches and most of the fans are conceding nothing to the rampaging Longhorns, but have taken a wait and see attitude.

Early this week there appeared to be no serious injuries or unusual sickness on either club though a few boys were not quite up to par. With good weather the capacity of Wester Field will probably be taxed to extend the crowd which usually starts gathering long before the 8:00 o'clock whistle.

Game officials for the important clash are Curtis Barnett, referee; Cliff Jones, umpire; Everett Peel, judge; Cotton Neeley, linesman.

Coaches and school officials expect no trouble at the game as both teams have demonstrated this year that they are well coached and will be using their energies playing good hard football. The past five years the two schools have shown fine sportsmanship with the annual meeting bringing out the best performance of which they are capable.

## Mrs. Belle Bruner Died Saturday at Amarillo Hospital

Eugene Slaton, pastor of the Polk Street Methodist Church officiated. Burial was in Llano Cemetery under the direction of Blackburn-Shaw.

Mrs. Bruner died Saturday at 7:10 p. m. in Northwest Texas hospital, following a lengthy illness of a heart condition.

Born Belle Snodgrass in Mt. Pleasant, Texas, March 17, 1860, she came to Floydada at an early age and was married to Mr. Bruner here April 2, 1899.

The couple later moved to Hereford, the city Mr. Bruner used as headquarters in his ranching operations. The family moved to Amarillo in 1931. She was a member of the First Baptist Church and the Wednesday Morning Book Club. Mrs. Bruner is survived by two daughters, Mrs. Lloyd Mundell of Amarillo and Mrs. W. J. Wallace Jr., K. ## Center News

(By Mrs. J. E. Green)

Come again some sumpier day! Of course rain is good on wheat, but farmers are feeling blue after having a good crop for the first time in so long, and now it is about to be damaged by so much rain.

When it clears up and the ground dries enough, no doubt people will really "Make hay while the sun shines."

Just a small crowd at church Sunday. Johnny Warren held services Sunday morning, there were no services Sunday night—Raining.

## "Hypnotic Marvels" Show Is Cancelled

"Hypnotic Marvels", which was to have been a big show last Friday night, fizzled out when the hypnotist did not reach town in time to meet his audience. As well he didn't, however, since the crowd was all gone to the football games.

Fire Chief Fred Lambert gave the hand full of paid customers their money back, and hoped for better luck next time. It was not the intention to book a conflicting date with high school football, he said. The contract was made for the date by mistake.

No new date has been set for the show.

## Amendments Given Majorities Here

Vote on the three amendments to the state constitution was even lighter Tuesday in Floyd County than the vote on the road bond issue.

However, each got a substantial majority in this county. Reportedly all three were adopted by voters of the state.

On the proposed amendment to provide a more adequate retirement plan for state employes the vote was 679 for, 429 against.

The old age pensions increase was given a big majority, 1006 to 136.

The state water bonds proposal carried in this county 872 to 262.

The figures are from complete unofficial returns received Tuesday night.

VIEWES AND COMMENT

Department of Public Safety officials declare they "have the answer" to more than 50 per cent of the highway casualties. The figure is even higher than stated here but we do not have them available at the moment. Speed is the answer. And the speed limits of 55 and 60 miles are set in this state for a simple reason after many tests. The most of us are not as alert as we think we are and do not react to situations on the highway fast enough to justify our being permitted a legal 70-mile or more speed on the highway. A few—a small per centage of drivers have reactions that would justify the higher speed limits, but the great majority do not. There are, in fact, many people for whom 40 miles would be a safe driving speed limit.

The whole trouble with enforcement of speeds, from the point of view of the highway safety department officials, is that they have been able to get public acceptance of their program. Accordingly the slaughter on highways continues. The greatest killer is the man behind the wheel. To prove their point that it is speed that causes most of the accidents they point to the high ratio of one-car crashes resulting in injury and death. Compliance with proper speeds as shown on highway signs would reduce deaths and injury by 60 per cent overnight. At this time the ratio of accidents in which law violations are involved is 86 per cent. But the department is unable to get us, the public, to accept their findings. As Sgt. Fred Marshall said in Floydada recently the big problem is to get the driving public on their side. Until that time comes the slaughter will continue. It is as simple as that.

Right now precautions being urged are pointed at farm machinery operators. In his hurry to get cotton or grain to the gin or elevator the operator forgets that failure to provide red spot lights and tail lights on trailers makes him a potential killer. The department says such carelessness is an invitation to death or injury to the driver and to other people on the highway. Justice of the Peace P. O. Sterling last week issued a warning which said in effect that he would have no alternative but to "stick" a man who is proved to be operating without proper warn-

ing lights and tail lights on trailers. Which is another way of saying that hurry and carelessness add up to plans for the funeral.

**Where'd They Go?** Thursday morning there were plenty of ducks on most all the lakes. Friday morning thousands of them had departed. Only a few of the scores of duck hunters on the first day of the season got any ducks, and a mighty few who got their limit. The other "stake outs" proved in vain. Cover of weeds, sorghum alnum and the like are the best in several years, but a good cover and decoys do not serve any good purpose when the game has left for other parts. Where'd they go?

Good argument for some kind of an authority in the state to protect vegetable growers against irresponsible marketers who prey on them is furnished by the experience of Floyd County growers this year. Making allowance for the lack of experience of the growers which kept some of the crops from coming to maturity in condition that the market demands, there is still need for protection against marketers who ship out a load of wonderful looking produce only to report in two or three weeks that it reached destination in bad condition and had to be dumped into the river. One result is that growers are making connections with buyers who will take the produce in the field and pay for it then and there. The vegetable business has to grow up, as is well-known, but a protective agency against predatory high binders is one of the things needed for the industry to do so.

**World Oil Cartel.** The fiscal affairs of the State of Texas and of other states as well are being materially affected by the uncontrolled shipments of oil from the Middle East. The big tankers are loading up in flotillas daily and heading for American shores. The matter goes further than just to affect the state tax revenues. The cut down on domestic production is so low that the "allowable" daily flow is not sufficient to meet current expenses on many leases. The independent is the fellow who is bleeding as it were. The president has threatened to slap somebody's wrist

Seven Seniors Seek Eligibility In College Try

Seven seniors of Floydada High underwent a National Merit Scholarship test recently. The test was to determine the suitability of a student for college work. Those taking the test were Ronnie Downing, Frank Potts, Virginia Stewart, Snow Drop Dunn, Billie Goode, Lourie Johnson and Jerry Cardinal. Several others were to take the test but were ill and could not be there.

The test consisted of two parts, a vocabulary test and a math test, each an hour long. Scores were based on the College Board system. The scores will be sent to different companies throughout the country. The outcome of the scores will determine whether a senior might win a scholarship to a college of his choice.

Results of the test will not be known until in December.

name. "At that time we also adopted an emblem signifying Quanah Route. In the tail of the "Q" there was inserted the word "Route," and in the circle of the "Q" there is a picture of an Indian, which Chief Quanah claimed was his likeness, and, I may add, it was so intended. This emblem, or trade-mark as generally referred to, was imprinted with boldness on all of our new equipment including engines, passenger equipment and freight cars, and is used on all our stationery and forms and will continue to be used as long as this railroad exists.

"Shortly after the line was placed in operation, an invitation was received from the Dallas State Fair Commission to bring Chief Quanah and his tribe to the Dallas State Fair, using Quanah Line locomotive and cars and this was done; the train being parked on the fair grounds, with Chief Quanah and his tribe pitching tents and creating quite a bit of interest to the visitors.

"Chief Quanah was frequently at the depot in Quanah on the departure and arrival of trains, and would tell his friends, 'That's my Railroad.'

"The railroad is well known throughout the Railroad Fraternity as the Quanah Line and the name 'Quanah' causes inquiry and gives us a frequent opportunity to tell the story of Chief Quanah Parker.

"Chief Quanah's philosophy was sound, his judgement good, and what he may have lacked in education, he more than made up with good sense.

"I shall always look back with a great deal of pleasure to my good fortune in having known Chief Quanah—the great Indian—the last Chief of the Comanches."

## Big M To Show 1958 Models On Tuesday, Nov. 12

The 1958 Mercury will go on display in Floydada on Tuesday, November 12. Cline and Rainer will be showing place for the big M and they will have several models for the public to see.

With a big new "super Mercury" series called the Park Lane, and major styling and engineering changes in its full line of cars, Mercury for 1958 will blanket the whole medium price market with a total of 20 models.

The new Park Lane, with three models, is the biggest and most luxurious Mercury ever built.

It has a wheelbase of 125 inches and it is 220.2 inches long—nine inches longer than the 1957 Mercury.

"By extending our car line into the upper-medium price bracket, Mercury for 1958 offers a big car with matching power and performance through the entire range of the medium price field," said James J. Nance, general manager of Lincoln and Mercury Division and vice president of Ford Motor Company.

Matchless performance throughout the entire driving range is provided in a series of four new Mercury Marauder overhead valve V-8 engines with horsepower ranging from 312 to 400. These new engines feature such unique engineering as water-jacketed intake manifold and combustion chambers in the engine block rather than in the cylinder head.

Full air cushion suspension, which improves the ride considerably by greatly reducing pitch and other road driving disturbances, is optional. This suspension uses air as a springing medium instead of steel, and it maintains the height of the car at a constant level regardless of number of passengers.

## Nix Resumes Ministry At Former Home

Sunday, October 20, marked the golden anniversary in the ministry of J. F. Nix, interim pastor for the Baptist Church at Lockney.

During the fifty year period Rev. Nix retired after serving nine years with the church at Abernathy be-

cause of throat trouble. He moved to Lubbock, regained his voice and for a time was the assistant to the pastor of the First Baptist Church at Lubbock. Ill health forced him to retire again in May 1956, but he regained his health and is again preaching.

Rev. Nix's first full time pastorate was at Fort Sumner, N. M. Following that he served as pastor for three years at Texico-Farwell, three years as pastor for the Portales church and 16 years as pastor for the First Church at Clovis, N. M.

Floyd County Hesperian, Floydada, Texas, Thursday, November 7, 1957

During these years he served as a member of Hospital commission of the Southern Baptist convention, Home Mission board and president for three years to the New Mexico Baptist convention.

This information is learned from the Baptist Standard, which records the minister's experiences in a recent issue.

Rev. Nix preached one of his first sermons for the church which he is now serving as pastor. In his early manhood he moved to Floyd County from North Texas and was a resident of this county when he was called to the ministry.

Mr. and Mrs. L. L. Clark Jr. and son, Keni, returned home Saturday from Abilene where they attended the homecoming and visited their son, Dane and wife. Dane was selected senior favorite at the ceremonies.

## Whirlwinds Down Post In Game Marked By Rough Play and Fouls

The Floydada Whirlwinds downed the Post Antelopes with little difficulty Friday night winning 41-0. The contest was played before a small crowd at Post on one of the prettiest football nights so far this season.

Coach Preston Watson's 'Winds jumped off to an early lead and were never pushed throughout the game. Post's only threat came late in the fourth period against Floydada reserves when they drove to the 'Wind 19.

Floydada scored 13 points in the first quarter, 14 in the second, and 14 in the third as they won going away.

It was the roughest game a local team has participated in in several seasons. A number of players on each team were ejected from the game for fouls, the Post team seeming more intent on hurting someone than they were in playing ball.

Floydada used reserves freely clearing the bench in most of the last two periods.

In the statistics the penetrations were 7 to 1 favoring Floydada, first downs were 21 to 6 for the green and white, penalties were 75 yards for the 'Winds and 60 for Post. Floydada gained a net of 252 yards rushing and 51 passing while Post had a net 31 rushing and 36 passing.

Opening the game Floydada kicked to Post and held them at their 15 forcing a punt. Rannie Vickers took the punt on the Antelope 45 where he was downed. The 'Winds drove in fast and soon Grant Cooper picked up a first on the Post 6. Huckabay went over the goal but it was called back for a penalty and then Downing took the ball on a keeper and scored going around right end. The kick was wide and score 6-0.

The kickoff went to Post on their 20 yard line and when the ball was put in play from scrimmage Don Vickers got on a fumble to give Floydada possession. Huckabay made a first down on the eight and then drove to the three before a penalty set it back to the eight a-

gain. Two plays later Cooper scored from the two and Huckabay kicked the point, score 13-0.

The teams exchanged fumbles near the Post 20 following the next kickoff. Then as Post put the ball in play time tackles by Rex King and Grant Cooper caught them short forcing a punt. The kick went from the Post 22 to Rannie Vickers at midfield. Vickers ran it back to the Antelope 30.

As the second period opened the 'Winds owned the ball on the Post two yard line and Frank Potts carried over on the first play to score. Huckabay kicked and the score 20-0.

The next Floydada drive died on the Antelope 20 with a fumble. Post was held and punted and Vickers brought it back to the Post 41. This time the 'Winds scored again. Downing picked up the first on Post's five yard line and Potts drove in for the TD. Huckabay kicked and the score was 27-0, but a penalty put the ball back out to the 17. Downing then hit Bill Patterson at the goal and he was credited with the extra point.

The half ended soon after with no further scoring.

Post kicked off opening the third quarter and Beedy took it at the 25 returning to the 50. The 'Winds had ground out half the distance before Grant Cooper carried the remaining 25 to score. The kick was again good and the score 34-0.

The kickoff was fumbled and Huckabay recovered on the Post 13 to give Floydada possession. Downing made a first on the one yard line and then Huckabay scored from that point and kicked the PAT to end the scoring at 41-0.

The remainder of the contest saw many reserves in action and mostly Post passes and Floydada fumbles as the game began to get rough.

Bill Patterson intercepted to stop one drive, Leon Williams broke up a long Post heave that looked like a TD and some stout line play snuffed out all the Antelope running attempts.

Wording—Home or There is for teams in left hand column.

Starting for Floydada were Buttons Beedy, Danny Shipley, Don Vickers, Leon Williams, Edward Hartman, Rex King, Gary Huckabay, Ronnie Downing, Grant Cooper, Rannie Vickers, Edward Whitehead. When the 'Winds went on offense four changes were made with Bill Gilliland, Vaughn Ginn, Frank Potts, and Bill Patterson going in.

Dale Lawson was the only Whirlwind not suited out and the rest saw action giving a good account of themselves.

One offensive lineup saw Richard Graves at center, Don Vickers at quarter and Leon Williams and Coy Grundy rounding out the backfield. Snapback trouble and timing bothered these boys however and fumbles cut short every offensive try.

Frank Potts was big gainer for Floydada with 100 yards net from scrimmage and two touchdowns for his night's work.

### Tomorrow Night's Clash Tells Story

The district 2AA race was narrowed to two teams Friday night when all but Lockney and Floydada were eliminated. The bi-district representative of the loop will be named in the Lockney - Floydada clash regardless of what happens the following Friday night when the schedule is completed.

Most observers believe 2AA will win over district 1 and go to the regional game without too much difficulty. All eyes will be on the two Floyd County teams come Friday night.

### What Price Can You Afford for Pigs?

The price a farmer can afford to pay for feeder pigs depends on the value of the finished hogs, cost of raising them, and death loss.

Recent studies on midwestern hog raising has produced a gauge for estimating in advance, the possibilities of profit and loss.

To determine the finished value, a farmer first estimates the prices at the time he will sell the hogs, and their probable weight. For example, if farmer Jones wants to buy 35-pound feeder pigs in late May to sell in October, he may estimate their ultimate weight at 225, the price at \$16.

The weight is based on experience with rate of gain, and the price is a forecast. His expected income or net value at the farm is 225 pounds times \$16 per hundredweight or \$36 altogether.

Probably costs should be estimated next. Figures vary from year to year and farm to farm but experimental results show the average midwestern farmer uses 330 lbs. of protein supplement to add 100 lbs. weight.

This would be a total of 665 pounds (about 12 bushels) of corn and 100 pounds of supplement to increase the 35 pounders to 225 pounds.

With corn at \$1.15, the cost for 12 bushels would be \$13.80. And with supplement at \$5 a hundredweight total cost would be \$18.

Feed is the largest cost item, but labor, shelter, equipment and veterinary count too. Usually, these amount to one-fifth of the feed costs. This is \$3.76, bringing total production costs to \$22.56.

Difference between income and total costs is the first estimate of the price a farmer can afford to pay for a feeder pig. This figure is \$13.44. But the amount should be adjusted for death loss. Probable survival rate is multiplied by the margin over cost per pig.

For example, Jones expects a death rate of 5 percent -- or a sur-

plus of 64 percent. Multiplying margin per pig (\$13.44) by 0.95 gives price per pig: \$12.77 in this case. If Jones pays this price for a feeder pig, he can expect to get market price for his feed and average wages for his labor. In addition, he will cover all his costs for shelter, equipment, and other items. When a pig may be purchased for less than \$12.77, the difference constitutes profit.

**SAND HILL, Oct. 28.** (Delayed) The first frost appeared Thursday morning in the community with a beautiful day following, but Friday morning was a different story when rain and sleet woke everybody up hitting the windows and making us wonder, "Will we be able to save this crop after this year?"

The fog seems to be coming down in the community this week. Billie Gail Holmes was brought home from the hospital Thursday and was feeling some better and thought she might be able to return to school soon.

Mr. and Mrs. Darrell Mayo of Floydada were visiting in the home of his parents, Mr. and Mrs. William Mayo Wednesday afternoon.

Did you see the Russian Satellite Thursday night? That was the question asked in the community Friday morning. Quite a few remembered and looked for it and some missed it. Just wonder if it has anything to do with this awful weather we are having in this county.

Harvest was started this week in the Gene Blois turnip field but was stopped pretty shortly by the weather. There was some pretty good looking turnips being pulled, the lettuce turnips are still pretty green but so far none has been harvested from our community.

Mrs. J. M. Williams and Mrs. J. T. Spears entertained their junior classes with a H-Halloween party Saturday night in the home of Mrs.

The cheerleaders along with the Student Council have planned a new and different type of pep rally. One which we hope will pep up everybody and win the 2AA district championship title over Lockney Friday night.

Come on 'Winds let's go "District." We know you can do it and we are behind you all the way.

Congrats to Carol Lawson who was given the title of "F. F. A. Sweetheart". Nominees for "F. H. A. Beau" are Kern Cooper, freshman, Larry Irby, sophomore; Arlis Powell, junior; Jerry Perry senior. May the one with the most penny votes win!

A secret committee composed of students is to make a list of likely prospects for favorites in the school. The student body is to vote on the candidates the latter part of this week. I will give you the results next week.

With so many nice apples this year some might like to try the old fashioned apple butter for a special holiday treat when all the family gets together.

One whiff of apple butter's orchard-and-spice fragrance takes us back to the old days when apple butter was a major treat, and making it was a family project.

Here's a modern apple butter that has all the fine flavor of the old-fashioned variety. The difference is in the making - this recipe lets your oven take over the cooking, so there's no need of standing over the butter, stirring constantly to prevent burning and sticking as it cooks down.

About the only equipment you need is a large pan that will fit into your oven, and four pint jars with tops for sealing.

You can make this "spread for your bread" any time of the year when you can get good cooking apples - such as Stayman Winesaps, Roman Beauties, Jonathans, and others.

Soaking the apple slices in salt water keeps them from turning dark before cooking; helps you to get butter with a nice color. And the trace of salt on the apple slices adds to the fruit's goodness.

To bring out the fruit flavor, the apples are cooked in cider - that's a trick we've copied from Grandmother.

Spice measurements given here are only a guide. You may want to use a heavier hand with one or another of them, depending on your taste - or maybe on your apple butter memories. But always apply spices with good judgement, lest they overpower the apple flavor.

**Oven Apple Butter**

Mix together 2 quarts of water and 2 tablespoons salt.

Wash, quarter, core, peel and slice into the water approximately 6 pounds of apples (4 quarts of sliced apples).

Drain well, but do not rinse slices. Grind slices through the food chopper.

Measure pulp and juice. You should have 2 quarts.

Combine with 2 quarts of sweet cider.

Place in a large enamel pan - a dish pan works fine. Center the pan in the oven. Let simmer at 250 degrees until cooked down about halfway, and mixture is thickened and mushy. It will take about 3 hours or more. Stir occasionally, about every half hour to keep it cooking uniformly.

Put mixture through sieve or food mill.

Measure. Should have 2½ quarts. Add: 2½ to 4 cups sugar

1 teaspoon cinnamon

¼ teaspoon cloves

½ teaspoon allspice

Return to oven and continue simmering for about an hour, or until

thick. Pour into hot sterilized jars and seal.

Makes 4 pints of delicious apple butter.

I received such a nice letter yesterday from Mrs. Larry White who is in Germany with her husband. Gail said:

"I thought I would drop you a few lines to let you know we think of you often, and to let you know how much we are enjoying the cook book you gave me. Almost every meal we prepare your cook book is used. Larry and I are living with a couple from Clovis, New Mexico. Germany is a very beautiful place, wish you could come and visit with us. The weather here, at the moment, is very freakish; one day it is very hot and the next day it is very cold."

It was nice of Gail and Larry to think of me and I was certainly glad to hear from them.

Speaking of cook books - we are getting a lot of orders for cook books for Christmas gifts. It is a gift that lasts on and on after the holiday season is over - in fact, down through the years. A lady recently ordered ten of them to help with her Christmas shopping - and just this morning a letter came from New Auburn, Wisconsin, with money for a cook book.

The minister, after shaking hands with the father and mother took the hand of their five year old daughter and asked "What did you think of the service today?"

"The music was nice," the five year old replied, "but I thought your commercial was too long."

Mrs. Roy Tinsley of Sterley was a co-op visitor Monday afternoon.
