★ ☆ ★ ☆ ★ ☆ ★ ☆ VIEWS AND COMMENT

"Sure Looks Good." That's our reaction to the wonderful moisture our area has been getting in the form of snow and rain during the first months of the year. How many thousands it is saving in dollars and cents out on the farm lands where the deep soaking is free can only be estimated loosely. The man who has gas or butane or electricity to sell is "suffering" only temporarily and the same can be said of the cattleman who is losing some grazing time on live stock and spending money on cake for protein.

The underground water supply, meanwhile is being conserved and water level built up for future use. In this respect the rains and snows may be bringing the plains area the greatest blessings of all. "Sure looks good."

Now that the ginning season is over is a good time for Floydada people who would like to get the gins to be more careful with their burrs and with the trash and smoke that often envelope much of the town—now that they have the time to consider such matters and incorporate them into such plans as they have for repairs between seasons—now is a good time to talk with them. Note we said talk with, not at. The gins are of great importance to the community and anybody who would like to see less smoke, less dust, less trash on their premises should consider the nature of the gin's operations and go at the thing in a sympathetic manner. The gin people, no doubt, will be willing enough to do all they can and should. Arriving at what should be done along with what can be done will be the crux of the matter.

The probability is that the cotton fires last fall were scary and serious enough that the gin people themselves have some ideas they are working out. Certainly the fires were expensive over and above what may have been the cost to insurance companies. The point we make is that if there are any complaints or suggestions they could well be made now, not this fall when the gin man is covered up with customers.

Efforts to get a classification for the low grade cotton of the 1957 season that would permit it to "go into the loan" at some price have been unavailing to date. Also efforts to get some of the hurriedly graded cotton re-classified have been only partially successful. About 10 per cent to 15 per cent of the re-classified bales are being put into a higher grade, and made eligible for loans.

Meanwhile, the meeting of cotton farmers and ginners of the north part of the high plains cotton growing territory were unable to find out who "zoned" the plains country and why they did it. They met last Thursday with a cotton classing official who flew in from Washington to talk with them at the Smith-Doxey cotton classing office in Lubbock. Ginners and farmers wanted to know the reason why cotton north of an imaginary line got an automatic down-grade before it ever got to the classing office. There may be

reasons in the trade but reason would indicate that a bale of cotton should be graded on what it is not where it is from. The down-grading has been costing Floyd County farmers a good many dollars for a good many seasons.

Problem of how to save the cotton industry for the United States and keep from breaking the cotton planter at one and the same time is a hard one. And it is a problem about which most everybody has quite definite ideas. Express yourself on an idea that you think might work and find out just how quick you raise a hornet's nest. But we do need to do something and do it quickly. Synthetics and foreign producers are coming right along while we reduce and reduce. Find a way to get it done and you've served your country in a great way.

Pace Too Fast? In a county which (right or wrong) gets credit for being backward, as compared with counties of like opportunities and outlook, Floyd County has one movement which refuses to fold up, despite lack of "official" leadership. This is the organization of women who 30 years ago banded into Home Demonstration Clubs and have carried on in a pleasant and lively way ever since to better the community way of life and to bring to each other inspiration in the exchange of ideas for better homes and better ways of doing things. Fostered by the Extension Service these clubs have done a great deal in a half century to bring good wholesome ideas for "togetherness". Discussion with the members of the Commissioners Court seems to dispel the thought that lack of proper support from the county is at the bottom of the women's failure to have a County Home Demonstration Agent. Possibly, we have thought, the pace is too fast for one woman to attempt to do all the coordinating work and that instead of "a" home demonstration agent, we need an agent and an agent's helper. There's a lot to do and the pace may be just too killing for one person to be willing to undertake to do it all.

They Need Money. With each generation there is a new and different temptation to do "small" wrongs. With the present generation it seems to us that the teen-agers problems revolve largely around money. To be a young person about town it takes more than "the old man thinks". A boy or girl can spend a lot just trying to keep up with the other kids. When you've asked the limit and can't wheedle or cajole any more, then perhaps it's time to use a little ingenuity. That's the only way we can explain a kid's thinking when he swipes the change from containers in public places that catch the generous nickels, dimes and quarters for good causes such as polio, heart and cancer funds and the like. People where the swiping is done practically have to know which "bunch" got the money, but "can't do any thing about it." This business of growing up is a tough job at times, harder than the grown ups think.

TAX - MAN SEZ:

The Internal Revenue Service offices have "Tax Information Days" every Monday morning during the income tax filing period.

The best way to figure your tax is to study the instructions and find out for yourself what you owe.

The income tax folks won't do your figuring for you but they will be glad to snuffer your questions and show you where to put your figures.

Don't go to the Internal Revenue Service office with a shoe box full of receipts and say, "Here it is, Mr. Tax Man, how much do I owe?"

retiring president Mitchell parish presented his successor W. E. Garrett, who introduced the new officials and directors as follows:

E. A. Williams vice president, Dale Goen treasurer, and directors Joe Gidden, Wayne Bennett, Bill Hale, W. W. Trapp, Kenneth Bain Jr., Allen Bingham, Leonard Mat-sler, M. S. Robertson, J. M. Wilson Sr., Judge J. D. McBrien, Postmas-ter Edward H. Wester, and O. M. Watson Sr. Mitchell Parish, re-tiring president, is automatically also a member of the board.

Garrett included O. M. Watson Jr. in the list of those to be pre-sented. Watson, he said, had spent many hours planning and working, coordinating the efforts of commit-tees to get things done for the com-munity.

Plainview, Lockney, Petersburg, Littlefield, Levelland, Amarillo, Lub-bock, Matador and Quanah, were among the neighboring cities which had delegations at the banquet.

Out of town newsmen who covered the annual meeting included Ken-neth May of Lubbock and Earl Gols of Amarillo. Channel 11 and Channel 13 TV stations also had reporters on hand.

"The principal conflict in every community is usually between imagination and stagnation. Many see the difficulty in opportunity while others see the opportunity in difficulty," said the speaker.

"Urging support of civic and religious influences the speaker said we must measure ourselves from the standpoint of civic stature and religious stature. We either grow in stature or we shrink." He added that the church and the chamber of commerce are two places where this growth can be accomplished.

"The day began in a drab manner and it appeared for a time the weather might slow both interest and attendance, even make hazardous the journey of the speaker from Amarillo. However, in the afternoon the weather opened up in kindly manner and the committee on seat-ing arrangements were called on for added places at the banquet table.

Also the speaker arrived in plenty of time to look about the town. He took occasion to compliment prop-erty owners in the business district on their attractive retail prop-erty, one result of imagination.

"Floydada is going to be just as big as you think it can be," he declared, adding that opportunity comes to communities and towns that go out to the attack.

Mr. Lacy was accompanied by his wife. One of the visiting delegations, from Littlefield, was headed by the son, Jack Lacy Jr., who is following in his father's footsteps as a cham-ber of commerce executive.

Lacy was introduced by Frank Sharman, formerly of Floydada now a fellow townsman of the speaker. Mr. Sharman was accompanied to Floydada by Mrs. Sharman.

T. L. Holland Jr., introduced out-of-town delegations.

Entertainment was provided by a Wayland College male quartette. Mayor J. M. Wilson Jr. was mas-ter of ceremonies.

Rev. Ed B. Bowles, pastor of the First Baptist Church, said the in-vocation.

Retiring president Mitchell parish presented his successor W. E. Garrett, who introduced the new officials and directors as follows:

Drugs For Cancer

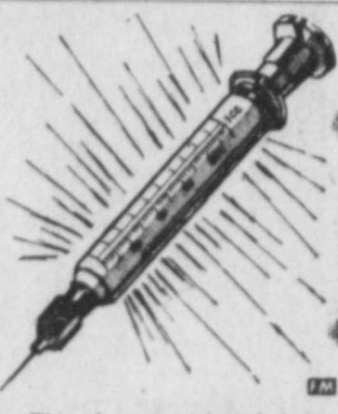

The president of the American Cancer Society recently said that progress in the fight against cancer "will come through hormones and synthesized drugs." When Dr. Lowell T. Coggshall of the University of Chicago said this, he was not writing off the importance of preventive examinations, surgery, radiation, or the patient's own resistance to the spread of the disease.

What he meant was that medi-cines are now available that can stop some forms of cancer tem-porarily - leukemia, the terrible child-killer, for instance. How-ever, as flies learn to live with DDT, cancer cells change their way of living to accommodate themselves to the new drugs de-veloped to fight them.

No drug yet developed can be relied on to eradicate all cells of a cancer. But, in the process of trying new drugs, scientists have found evidence that cancer cells are enough different from normal human cells to be attacked by drugs which won't hurt nor-mal cancerous body tissues.

During the coming year mil-lions of dollars will be spent by the pharmaceutical industry and by publicly-supported research institutions. Thousands of elabo-rate tests against cancer. Half a dozen, at the most, may show promise.

Some of these chemicals are made in the pharmaceutical chemist's test tube, others are made by molds found in soils throughout the world. Drug manufacturers carefully en-courage these molds to manufac-ture hundreds of compounds, some of which the human chem-ist is unable to imagine or to create synthetically.

P.T.A.'s to Celebrate Founders Day 11-Million Members Mark Organization's 61st Year

On February 17 the world's largest voluntary service organization will celebrate its 61st birthday. This is the National Congress of Parents and Teachers, whose nearly eleven million members are active today in P.T.A.'s throughout the 48 states, the District of Columbia, Alaska, and Hawaii. They will mark the organization's Founders Day with a variety of activities aimed at strengthening and expanding parent-teacher work in their own communities.

Mrs. Rollin Brown, of Los Angeles, president of the National Congress, points out that these 43,000 P.T.A.'s have set the pattern for parent-teacher associa-tions in areas where U.S. armed forces have established American communities overseas. And parents of school children in other nations have sought help from the National Congress in forming similar groups to pro-mote education in their countries.

Founders Day activities, sched-uled for February 17, will honor two women whose imagination and concern for children planted the seed for this still-growing organization.

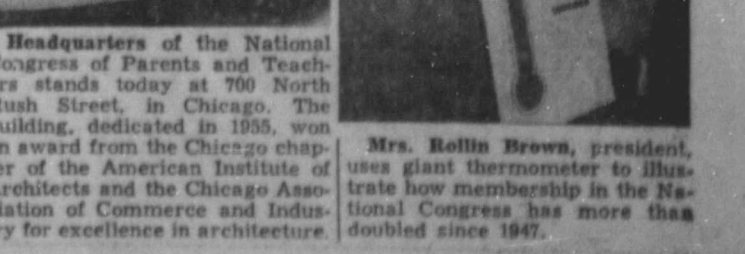

It was in 1897 that Alice Mc-Lellan Birney and Phoebe Apperson Hearst conceived the idea of a National Congress of Mothers to promote the health and welfare of children by helping their parents learn more about how to fulfill a child's physical and spiritual needs.

The first Board of Managers of the National Congress of Mothers

The first Board of Managers of the National Congress of Mothers (the National Congress of Parents and Teachers since 1925). Left to right seated: Mrs. John R. This season the team has won 15 of the 16 games played and is regarded as one of the best junior high basketball units on the south plains.

In the opening round at McAdoo Floydada was matched with Loreno but that school withdrew and so the losing to the A team 43-1. Charles Christian hit 14 points and Rodney Teague 8 for the winners.

Death came to a native Floyd County man, John Lewis Bullard, 53, at his home, 1301 S. Fillmore, in Amarillo, at 12:30 a.m. Tuesday, Feb. 11, following a heart attack.

Mr. Bullard was employed as a taxi driver for the Yellow Cab Co., since moving to Amarillo from Floydada about 16 years ago.

Born Dec. 12, 1904, in Floydada, he was the son of Mrs. O. M. Bullard and the late C. M. Bullard, who passed away in 1947. A brother, Ed Bullard, preceded him in death in 1955.

Commissioners In Session Two Days

Floyd County Commissioners had a lot of things to talk over with visiting delegations in their February session this week and in addition to the usual routine the annual reports of various officials.

Accordingly their session stretched into two full days.

Roads, county library, road bond sales, and the county's finances were among the matters which the court discussed, but on which no formal action was needed at this time.

This week it appeared that although the Highway Department is working both in the field and office on the road construction jobs in this county it is likely to be weeks before the court needs any money to spend on right-of-way.

The court is having offers on the road bonds but has made no commitments as yet, it was said in the commissioners office Tuesday afternoon.

Bill Cross of Amarillo, son-in-law of Mr. and Mrs. J. B. Bishop, has been added to the Helms Hall of Fame in California. Cross was presented a trophy in an assembly last week at West Texas State by Coach Frank Kimbrough.

Flu Cases Are Prevalent But Not Epidemic

Flu with respiratory trouble has plagued persons in Floydada and the surrounding area for over a month now, some with the bug having to be hospitalized while others take to their beds at home.

Doctors say the flu itself is nothing unusual for this time of the year, however its complications of 'strep' throat, ear infection, and the wet weather are making flu cases hospital cases. Some patients have had light touches of pneumonia.

Dr. A. E. Guthrie, city health officer, contacted Wednesday, said influenza cases were at an average, nothing like an epidemic.

Flu hits both young and old and should be taken care of with bed rest and medication, doctors said.

Other diseases, hampering mostly school children, have been chicken-pox and some cases of mumps. School attendance is about back to normal after some rooms having from five to ten children out at Andrews Ward with these diseases the past two months.

AND Sidelights

TEXAS PRESS ASSOCIATION

AUSTIN — One of the hottest topics at next July's precinct conventions likely will be whether such conventions should be held any more.

Gov. Daniel has suggested abolishing the precinct conventions. His promise is that much of the infighting that afflicts the Democratic Party in Texas originates in these neighbor-against-neighbor squabbles. He proposes instead the electing of delegates (one per precinct) to the county conventions by direct vote at the primary.

Governor Daniel pointed out that the conventions sometimes are controlled by a minority group within the area. Many more people, generally, vote in the primaries than bother to come back to the voting place a second time in one day for the precinct conventions.

Electing delegates by direct vote, contended the governor, would do away with "rumpconventions" and contests over which precinct delegation is entitled to seats at the county conventions.

Governor Daniel's recommendation, made at the State Democratic Executive Committee meeting, came as a surprise counter-offensive to the DOT's "code of ethics" campaign. DOT (Democrats of Texas) is a liberal group openly backing the governor for control of party affairs.

Spearhead of its drive is the "code of ethics" proposal designed, according to its sponsors, to eliminate much of the fighting and give everyone a fair shake at conventions.

DOT members were immediately critical of the no-precinct convention plan. It would eliminate "grass roots" gatherings, they said, the only chance every citizen has to get up and speak his piece. But the governor had an answer for that too. He suggested that the new law provide that any qualified party member could propose a resolution at his county convention.

Both the governor's and the DOT's suggestions are to be studied by the SDEEC. Governor Daniel said if his plan meets with approval within the party, he will submit it to the Legislature next year.

Tax Facts — Texans paid \$2,600,000,000, or one-fourth total income, in state, federal and local taxes in 1956.

In a fact-packed report (its first), Texas State Tax Study Commission traces the history of Texas' taxing patterns from 1832 to 1956. Next in an expected series of about 10 reports will compare Texas taxes with other states. Findings are to be presented to the Legislature in 1959 to serve as background for revenue-strangling.

At present, says the report, Texas taxes are derived 45 per cent from property; 23 per cent, sales; 16 per cent, severance; 17 per cent, all other sources. Basic pattern has not been changed since 1914, but all categories except the property tax have increased at least 10 per cent since 1950.

Price of Progress — Re-locating utilities in the path of the new interstate highway system is going to cost Texas cities more than most officials had originally thought.

Aty. Gen. Will Wilson ruled that state-federal funds may be used only in a limited way to pay for utility moving. Specifically, said Wilson, they may be used to pay for relocation of sanitary sewers and for other utilities, such as water and power lines, only if they must be moved completely outside the road right of way. Cost of re-locating water, power and gas lines within a right of way must be paid for by the city or utility company.

Texas League of Municipalities protested the interpretation, said it would cost Texas cities as much as \$30,000,000 to comply. Chief source of disgruntlement to the city officials is that under the same federal building program, cities in other states are not required to meet the cost.

No Prices For Specs — No mention of price can be made in an advertisement for eyeglasses until the State Supreme Courts clears up questions about the new optometry law.

High court turned down the request of an optical company to suspend the temporary injunction against price advertising until the test case is heard on March 5.

Rival groups of optometrists are at odds as to what kind of advertising should be permitted. One group contends the law passed last spring clearly prohibits certain types of solicitation. Another agrees with the Nov. 18 attorney General's opinion that the law is unconstitutional because improperly drawn.

Contests Questioned — Texas merchants who like to conduct contests or drawings as business builders, were set back, temporarily, by an opinion handed down by the Attorney General's department. Based on the state's laws governing lotteries, the opinion, at first glance, seemed to rule out any type of drawings for prizes.

However, Assistant Attorney General Cecil C. Rotseh, who wrote the opinion, says that the ruling does not change, in any way, the law as it always has been interpreted in Texas. He merely cited earlier court opinions, Rotseh pointed out. And his recent opinion does not alter what always has been considered the accepted procedure in connections with drawings or contests.

Trust Loss Cut — Net loss to creditors of US Trust and Guaranty Co. will be \$1,987,896, reports State Auditor C. H. Cavness.

US Automotive Service had assets of \$4,903,269, said Cavness, partially offsetting the \$6,881,156 in US Trust liabilities.

Cavness' audit of the liquidation division of the State Insurance De-

partment suggested some tightening of methods of handling and selling property in receivership.

US Trust creditors still cannot be paid. Suits filed by groups seeking preference have not been settled.

Greater Slide For Texas — In a year of predicted recession, the dip in Texas business will be less noticeable than for the nation generally.

This prediction is made by the University Bureau of Business Research on the basis of figures for past recessions. In 1948-49 national figures dropped 19 per cent; Texas, 6 per cent. In 1953-54 the national drop was 11 per cent; Texas, 8 per cent.

Expanding industries and a growing population were noted by the Bureau in explaining Texas' favored position. A period of even greater activity was foreseen for the 1950's.

Short Snorts — Ballot positions for the nine proposed constitutional amendments to be voted on Nov. 4, have been determined by a drawing in the Secretary of State's office. No. 1 position went to the amendment which would give legislators a \$7,500 annual salary. . . . Veterans Land Board has agreed to try to sell the remaining \$87,000,000 in bonds allowed under the program as rapidly as possible. Aim is to get the program rolling again without waiting for possibly more favorable interest rates. . . . Land Office reins are now in the hands of new Commissioner Bill Alcorn, appointed after the resignation of Earl Rudder. . . . Farming of legislation to cut down juvenile delinquency is being discussed with a view toward the '59 session. Gov. Daniel will ask the new State Law Enforcement Commission and the Texas Youth Council to make recommendations.

Death of Lockney Woman Attributed To Heart Attack

Ora Lavina Williams, 60, of Lockney was found dead from a heart attack on the floor of her home last Thursday morning by her son, Curtis Williams and his wife.

Mrs. Williams had only recently moved back to her home after spending some time in the home of her son during a previous illness.

She had been a resident of Lockney since 1915, coming from Bowie, where she was born June 8, 1897.

Rites were conducted Friday in the First Baptist Church at Lockney with the Rev. Quanaah Jobe, pastor of the Assembly of God Church officiating. Burial was in Lockney Cemetery under the direction of Carter Funeral Home.

"I Got a 2,000-lb.-per-acre Increase on 575 Acres of Grain Sorghum."

Lem Brock, of Plainview, Tex., says: "I put down 100 pounds of Phillips 66 Agricultural Ammonia on 575 acres of irrigated maize land, and got an average of 2,000 pounds of grain increase per acre. I also put down 100 pounds Phillips ammonia on castor beans and got an increase of 500 pounds of beans per acre. Also, by using Phillips ammonia I got 1½ bales of cotton to the acre in an otherwise reasonable cotton year."

Other Southwestern farmers have discovered that 82% nitrogen in top quality Phillips 66 Agricultural Ammonia helps them to get more profit per acre, through higher yields and lower production costs.

They have found that, by using Phillips 66 Ammonia they get more cotton that grades out higher at the gin, yields of grain sorghum grain and ensilage are increased, more marketable vegetables are harvested, and profits of wheat are increased through better forage, and higher yields of grain.

Lighthouse Electric Cooperative, Inc. by **NANCY MORCKEL** Home Economist
Mr. and Mrs. Melvin Henry, Mr. and Mrs. Roy Hale, Mr. and Mrs. Bill Smith, Mr. and Mrs. John Smitherman, and Mr. and Mrs. O. A. Williamson, returned from Dallas last Friday, where they attended a successful National Rural Electric Cooperative Association (NRECA) convention held in Dallas, February 3-6.

More than 6600 registered, which was the largest crowd ever in attendance at a NRECA Convention, of course Texas always does everything bigger and better. Among the highlights of this meeting were: The introduction by NRECA Texas Director, R. A. Yarbrough, of Honorable Price Daniel, Governor of Texas, who gave the Address of Welcome to the group. Clyde T. Ellis, NRECA General Manager, spoke on the subject "Stand Your Ground." While Honorable John J. Sparkman, United States Senator, Alabama, Member Senate Banking and Currency Committee, and Chairman Senate Small Business Committee, chose as his subject "The Tight Money Policy and its Relation to the Rural Electrification Program." Kenneth L. Scott, Director, Agricultural Credit Service, U. S. Dept. of Agriculture, Washington, D. C. spoke on "The Administration Looks at REA."

The address by the Hon. Ralph Yarbrough, U. S. Senator from Texas at the Texas State Breakfast, and the address of the Honorable David A. Hamill, the REA Administrator. The National Rural Electric Cooperative Association is a non-profit, non-partisan service organization of approximately 900 (over 92 per cent of the total) rural electric cooperatives, public power districts and public utility districts in 43 states and Alaska.

Members of the NRECA serve 3 1/2 million rural families and establishments. Their purpose is to provide many services and generally promote the best interests of rural electrification. "Adequate, dependable electricity, available to every rural American, the lowest possible cost," is the goal. NRECA is governed by an elected Board of Directors with policies established by its members in national annual meetings. Regional meetings, held each fall in all of the ten regions, also play an important part in the "grass roots" character of NRECA. We are in Region X. Our executive committee is E. B. Moore, of Lovington, N. M., and Howard E. Helmers, Pima, Arizona, and R. A. Yarbrough of Childress, Texas are directors from our district.

Some like it hot, some like it cold - potato salad, that is. But the hot is made differently from the familiar cold salad and maybe a new and appetizing way to serve potatoes in cold weather. Here's a U. S. Department of Agriculture recipe that offers 5 or 6 servings of 1/2 cup each:
HOT POTATO SALAD. - For a cold weather meal:
Ingredients: 3 cups diced raw potatoes; 4 slices bacon; 1/4 cup finely chopped onion; 1 tablespoon powdered dry mustard; 1 teaspoon salt; 1 tablespoon sugar; 1/2 cup water; 1 egg, beaten; 1/4 cup vinegar.

To make: Cook potatoes in a small amount of boiling salted water until tender. Drain. Cook bacon in fry pan until crisp. Remove from pan and chop. Using 2 tablespoons of the bacon fat, cook onions until golden brown.
Blend flour, mustard, salt and sugar into fat. Stir in the water and boil for 2 minutes. Add about 2 tablespoons of the hot mixture to the beaten egg, then stir this into the rest of the mixture. Add vinegar and salt.

Pour the hot dressing over the hot diced potatoes. Mix in the chopped bacon.
Serve hot.

"Home Freezing of Fruits and Vegetables," long popular among U. S. Department of Agriculture bulletins, has been slightly revised in time to help many homemakers who want to freeze early fruits and vegetables this spring. If you would like a copy of this bulletin, single copies are free on request from the Office of Information, U. S. Department of Agriculture, Washington 25, D. C.

Mr. and Mrs. Henry Scarbrough and Glen Carmickle of near Petersburg, were Co-op visitors last Thursday morning.

The mixer, the beater, the dishwashing miracle. Who can behold them and wax less than lyrical? Loud do I praise them yet say of them all. The handiest gadget a man can install. Mrs. Robertson's Sister Injured In Road Crash

As A Farm Woman Thinks

(By Nellie Witt Spikes)

Tiny Trainman
The engineer went racing down that kitchen railroad track, streaking through the darkness like a rocket in the sky;

with his bells clanging, clanging, and his whistle tooting, tooting, he was bound to make the run before the sandman caught his eye.

The brakeman must be careful of the chairs and bric-a-brac, never bumping into doorjams, keeps one really quick and spry; with his wheels a turning slower, little kiddie car conductor hear the sandman lullaby.

—Mary Vivian Small

At first thought death seems so final. We are stunned with the separation of friends and loved ones. We cannot see through the thick tears and hear above the pounding of our broken hearts. The blue of the sky is dimmed to a lowering gray, days. As they seem to have stopped singing. But there comes to us a still voice, saying "Come all ye that are heavy laden and I will give you rest," and we are comforted.

Many, many years we have known, liked and appreciated George Tubbs for his many services to our beloved West Texas and Floyd County, in particular. He has had many honors which he so well deserved. Now his good works follow him and make the going easier and plainer for many to follow.

My mind goes back to one February many years ago when father was sick at their home in Lubbock and I went over to stay and help out a few days. As the others were worn out with sitting up, I took the long night hours.

There was a big coal heater in the room which I had to keep going but not too hot. I would try my best not to disturb the sleeping ones when the fire needed renewing. I had two big chairs put together which I tried to lie on and rest. I would quietly get up, then just when I would try to get a little coal on the shovel, the noise began. The stove door squeaked as it opened, the horns bit the side of the door and father would stir.

I would quit a few minutes but the ashes just had to be poked out at the bottom for the coal to get air to burn. I blacked my hands on the poker as I poked it up, hitting the coal scuttle in the act.

I opened the bottom door and began trying to get the ashes out without any noise, but they made me sneeze and my hands dropped the poker on the tin under the stove with such a clatter those in the other room stirred.

The fire powdered coal would leak out of the scuttle and it had to be swept up and of a morning the big pan of ashes and clinkers had to be taken outside and emptied and more coal brought in.

What a blessing came into our lives with the coal oil heaters.

Mrs. W. O. Payne, 59, a San Antonio woman and sister to Mrs. A. H. Robertson of Floydada, is reported to be improving in Plainview Hospital and Clinic where she has been since Wednesday of last week suffering with injuries sustained in a car pickup accident.

Mrs. Payne in company with her son, Otto Payne Jr., his wife and three children, were enroute home to San Antonio from Amarillo where they attended funeral rites for the younger Mrs. Payne's mother. They were traveling south on Farm Road 400 toward Petersburg when the mishap occurred.

Reports from investigating officers said Guadalupe Gonzales driver of the pickup, made a U-turn in front of the Payne car, which Otto Payne was driving. The car overturned after the collision.

Relatives here said Mrs. Payne was suffering from head, eye and face injuries, a broken leg, five broken ribs and a chest injury. None of the other occupants were injured.

Mrs. Payne is the former Myrtle Horn, daughter of the late R. H. Horn, and sister to the late Roy and Ray Horn. She was born and reared in the Campbell community where she taught school in later years. She also taught at McCoy. Her husband is a brother to Claude Payne of the McCoy community.

Mrs. Wiley Rogers returned home this week from Pitts Hospital where she has been since Thursday of last week with flu. She was said to be doing nicely.

which did not demand so much. Only the oil tank to be filled, the burnt cleaned off the wicks for the cookstove and there you were with perhaps all the mess a little oil spilled on the floor to be gotten up.

Then we got butane on the farm and got along alright only when we would forget and let the tank go dry, maybe we missed a breakfast and got plenty cold in the winter while waiting for the truck to bring us more.

Now the gas flows on and on into our stoves, we turn on a burner, or run a little wheel up and down and sit and remember the days when this was not so.

Many different kinds of fuel I have used. The dry cowpicks which made such a quick hot fire. I wrestled with the long bear grass at mother's and father's house in New Mexico as I tried to push it into the fire box of the range. As the bear grass was cut off the new farm it was dried and piled in long high stacks on the north side of the corpen, thus doing duty as a wind break and making fuel.

It was a sticky business getting it in the house and the stove. One's arms and hands would be stuck here and there with the job; but it made a fire, and biscuits and meat and potatoes with the rest of the food, were cooked with it thus the first settlers of Eastern New Mexico were able to stay on the 160 the government had given them if they could stick it out five years.

I have cooked with coals, with long heads of maize that popped as they burned, and seemed as we were burning food. That reminds me, it is time to cook dinner.

50th Wedding Day Observed By Pioneers

LOCKNEY—A host of friends and relatives were on hand to compliment Mr. and Mrs. E. M. Lawson on the occasion of their 50th wedding anniversary. Hosts for the memorable occasion were children of the couple.

E. M. Lawson moved to Lockney in 1907 from Bernard Ranch and the Tom Coble Ranch near Spearman. From 1907 to 1908 he carried the mail from Lockney to Lubbock in a mail delivery buggy.

He married Miss Emma Reed in February, 1908, and the couple moved to a farm at Petersburg where they lived two years.

The bride had moved to Lockney with her parents in 1892 from Bell County in a covered wagon drawn by oxen.

The wedding took place in the home here, parents, Mr. and Mrs. T. Z. Reed with Rev. J. A. Weather, Baptist preacher, and the late father of Mrs. Edd Whitfill, reading the vows.

In attendance were Mr. and Mrs. Tom Rigdon, Mrs. Bill Virden, William Rigdon, Lockney, and Mrs. Ollie Wilson, Floydada. All but one of these also were on hand to help the couple celebrate their 50th anniversary Sunday.

In 1909 the couple made a trip to Hansford to visit Mr. Lawson's uncle, J. C. Sanders at Hansford, and they traveled across Palo Duro Canyon in a buggy before any roads were ever cut.

The Lawsons moved to a farm at Lone Star in 1910 where they lived for 35 years. He retired in 1945 and moved into Lockney where they have made their home since.

Children born to the couple are Reed of Lone Star, Billy Jack of Kress, and Mrs. Viola Rowell, Lockney. All the grandchildren helped with hospitalities at the open house Sunday.

Guests who numbered 144 and 24 other friends sent gifts. Out-of-town guests included Mrs. Minnie Crawford, Mrs. Elizabeth Rigdon, Mr. and Mrs. Melvin Allen, Mr. and Mrs. Frank Allen and Mr. and Mrs. Marion Allen, all of Amarillo; Mr. and Mrs. Walter Allen, Mr. and Mrs. Charlie Dillard, Plainview; Mrs. Ollie Wilson, Mr. and Mrs. Ernest Lee Thomas, Floydada; Dr. J. S. Hill, Ralls; Mr. and Mrs. Elsie Kirkwood, J. P. San Angelo; Ira Clover, Spur; Mr. and Mrs. Elmer Bass, Kress; Mrs. Roe Bryant, Fountain, Colo.; Mr. and Mrs. Heston Bennett, Decatur, Tex.

McCoy - Starkey News Letter

(By Mrs. John Fowler)

Hi, Neighbors:
It's really cold outside to-day Did you get your Texas CoOp Power paper today? Well I did and read the piece in it about our paper and how it got its name, too. Also they have discovered what a nice editor we have. So glad others realize it too.

Dr. and Mrs. J. U. Borum and children of Brownfield visited her parents, Mr. and Mrs. B. L. Sandefur.

Mr. and Mrs. Clarence Reddy have been visiting in Plainview with their daughter and family, Mr. and Mrs. Bill Cooper. They are getting acquainted with the new boss of the Cooper family, namely John Paul Cooper.

Mrs. Lewis Reddy has had the mumps. Betcha she knows now what Mita meant when she said, "They hurt".

Mrs. B. P. Sandefur and Mrs. John Fowler attended the Floydada Garden Club Tea Saturday. It certainly was a nice demonstration and if you didn't go remember you missed a lot.

Mr. and Mrs. Oliver Scott of Pampa visited the O. L. Beardens over the week-end. Mrs. Scott and Mrs. Beardens are sisters.

We are sure sorry to lose Mr. and Mrs. Olan Lee Lowrance and little daughter. They are moving to California. We wish them luck in their new home.

Among those I know that were at the Chamber of Commerce Banquet Friday night were the Tom Porters, Lloyd Pates and John Fawcetts.

Those visiting in the home of Mr. and Mrs. E. M. Jackson Sunday were Mr. and Mrs. Bruce Whitlock and Mr. and Mrs. Jesse Cox of Lockney and Mrs. C. J. McGee of Plainview.

Our club had a luncheon in the home of Mr. and Mrs. Tom Porter Friday. Our guests were Mr. and Mrs. B. P. Sandefur, Paul Sparkman, Turner Hunter, Larkin Dyeus, and John Shipley. The club members were Mrs. Sparkman, Shipley, Hunter, Dyeus, Luther Holmes, James Backus and John Fowler. We are having a Valentine party at the club house on Friday night, February 14. Everyone is invited to come and bring a guest if you like.

Agriculture

Egg Law Effective January 17

For more days remain in Texas Egg Law becomes effective January 17th, of the new law of the Texas Department of Agriculture. After that date will no longer be in the Union without the law for the egg industry.

The egg law is essentially a labeling act. Briefly all eggs sold within the state and eggs must be properly marked as to the brand and the eggs must meet specifications indicated on the crate whenever they are taken from the department's frequent spot-check level of trade.

As a result of this new law all persons connected with the egg industry are being advised to market high quality eggs that bring a premium price for his eggs, the more and his good quality produce.

South Plains News

(By Mrs. Murray Julian)

SOUTH PLAINS, Feb. 10 — On Thursday night snow covered the South Plains area to a depth of over two inches, and drifts were deep in places. By Saturday temperatures dropped very low and on Sunday and Monday fog and freezing drizzle glazed everything with a heavy coating of ice. Although the trees and everything look beautiful, it is a mighty cold picture.

In spite of falling sleet and freezing weather on Sunday morning a good crowd of 65 were in church services. This is Boy Scout Week and the Boy Scouts of America were recognized as a group and honored. Taking part in the ceremonies were Bobby Paus, Gary Morrison and Nathan Mulder, who acted as ushers, and Gary stepped into the pulpit with Reverend Paus to read the morning scriptures from Acts 5.

Mrs. Robertson's Sister Injured In Road Crash

Mrs. W. O. Payne, 58, a San Antonio woman and sister to Mrs. A. H. Robertson of Floydada, is reported to be improving in Plainview Hospital and Clinic where she has been since Wednesday of last week suffering with injuries sustained in a car pickup accident.

Mrs. Payne in company with her son, Otto Payne Jr., his wife and three children, were enroute home to San Antonio from Amarillo where they attended funeral rites for the younger Mrs. Payne's mother. They were traveling south on Palm Road 400 toward Petersburg when the mishap occurred.

Reports from investigating officers said Oquaidine Gonzalez driver of the pick-up, made a U-turn in road of the Payne car, which Otto Payne was driving. The car overturned after the collision.

Relatives here said Mrs. Payne was suffering from head, eye and face injuries, a broken leg, five broken ribs and a broken hip. None of the other occupants were injured.

Mrs. Payne is the former Myrtle Hearn, daughter of the late R. H. Hearn, and sister to the late Roy and Ray Hearn. She was born and reared in the Campbell community where she taught school in later years. She also taught at McCoy. Her husband is a brother to Claude Payne of the McCoy community.

Mrs. Wiley Rogers returned home this week from Pitts Hospital where she has been since Thursday of last week with flu. She was said to be doing nicely.

As A Farm Woman Thinks

(By Nellie Witt Spikes)

Tiny Trainman

The engineer went racing down that kitchen railroad track, streaking through the darkness like a rocket in the sky. With his bells a clanging, clanging, and his whistle tooting, he was bound to make the run before the sundman caught his eye.

The brakeman must be careful of the chairs and bric-a-brac, never bumping into doorframes, keeps one really quick and spy; with his wheels a turning slower, little kiddle car conductor near the sandman hullyaboo.

—Mary Vivian Small

At first thought death seems so final. We are stunned with the separation of friends and loved ones. We cannot see through the thick tears and hear above the pounding of our broken hearts. The blue of the sky is dimmed to a lowering gray, the birds seem to have stopped singing. But there comes to us a still voice, saying "Come all ye that are heavy laden and I will give you rest," and we are comforted.

Many, many years we have known, liked and appreciated George Tubbs for his many services to our beloved West Texas and Floyd County, in particular. He has had many honors which he so well deserved. Now his good works follow him and make the going easier and plainer for many to follow.

My mind goes back to one February many years ago when father was sick at their home in Lubbock and I went over to stay and help out a few days. As the others were worn out with sitting up, I took the long night hours.

There was a big coal heater in the room which I had to keep going but not too hot. I would try my best not to disturb the sleeping ones when the fire needed renewing. I had two big chairs put together which I tried to be on and rest. I would quietly get up, then just when I would try to get a little coal on the shovel, the noise began. The stove door squeaked as it opened, the hotel hit the side of the door and father would stir.

I would quit a few minutes but the ashes just had to be poked out at the bottom for the coal to get air to burn. I blacked my hands on the poker as I picked it up, hitting the coal inside in the act.

I opened the bottom door and began trying to get the ashes out without any noise, but they made me sneeze and my hands dropped the poker on the tin under the stove with such a clatter those in the other room stirred.

The fine powdered coal would leak out of the spout and it had to be swept up and of a morning the big pan of ashes and clinkers had to be taken outside and emptied and more coal brought in.

What a blessing came into our lives with the coal oil heaters.

50th Wedding Day Observed By Pioneers

LOCKNEY—A host of friends and relatives were on hand to compliment Mr. and Mrs. E. M. Lawson on the occasion of their 50th wedding anniversary. Hosts for the memorable occasion were children of the couple.

E. M. Lawson moved to Lockney in 1907 from Bernard Ranch and De Tom Coble Ranch near Spearman. From 1907 to 1908 he carried the mail from Lockney to Lubbock in a mule drawn buggy.

He married Miss Emma Reed in February, 1908, and the couple moved to a farm at Petersburg where they lived two years.

The bride had moved to Lockney with her parents in 1892 from Bell County in a covered wagon drawn by oxen.

The wedding took place in the home of her parents, Mr. and Mrs. T. Z. Reed with Rev. J. A. Weather, Baptist preacher, and the late father of Mrs. Ed Whitfill, reading the vows.

In attendance were Mr. and Mrs. Tom Rogers, Mr. Bill Vander, William Ripston, Lockney, and Mrs. Ollie Wilson, Floydada. All but one of these also were on hand to help the couple celebrate their 50th anniversary Sunday.

In 1908 the couple made a trip to Hansford to visit Mr. Lawson's uncle, J. C. Sanders at Hansford, and they traveled across Palo Duro Canyon in a buggy before any roads were ever cut.

The Lawsons moved to a farm at Lone Star in 1910 where they lived for 35 years. He retired in 1945 and moved into Lockney where they have made their home since.

Children born to the couple are Reed of Lone Star, Billy Jack of Kress, and Mrs. Viola Rowell, Lockney. All the grandchildren helped with hospitality at the open house Sunday.

Guests who called numbered 144 and 146 other friends sent gifts. Out-of-town guests included Mrs. Minnie Crawford, Mrs. Elizabeth Ripston, Mr. and Mrs. Melvin Allen, Mr. and Mrs. Frank Allen and Mr. and Mrs. Marion Allen, all of Amarillo, Mr. and Mrs. Walter Allen, Mr. and Mrs. Charlie Dillard, Plainview; Mrs. Ollie Wilson, Mr. and Mrs. Ernest Lee Thomas, Floydada; Dr. J. Primitive Baptist Church Building Work Progresses

Progress report on the commodious new home of the Primitive Baptist Church indicates that practically all of the outside work had been completed until after the brick work is done and brick is now on the ground for the walls as soon as the weather will permit the brick men to do their work.

Norman of Wellington; Third Sunday night Elder Willie Fox of Amarillo; Fourth Sunday, Elder Dennis Taylor of Floydada; Fourth Sunday night, Elder C. L. In Dickens County the poll tax gives the figure for the year ending at approximately 1,300 or normal of 1,800 to 1,900.

In Floyd County the poll tax collector last week likewise reported the qualified voter list as being the previous year. This year's lists are 2,552 polls paid.

TELEPHONE TALK

By J. C. Oakley, Manager

BACKWARD GLANCE

At the start of 1957 we had 1854 telephones working in Floydada and at the end of the year we had 1823, or a gain of 69. Average number of local calls made each day in Floydada was 7,692; also the average number of long distance calls was 256 per day.

Folks in Floydada depend on their telephones to do many jobs for them in 1957 and we plan this year to continue offering the kind of service that telephone users here have come to depend on.

AT YOUR SERVICE

Some friends of mine are high in their praise of the telephone for its dependability in practically any kind of weather, day or night. They're happy with their telephone service and we're glad they are. But we're not content to rest on our laurels.

To improve their and your service, new ideas to improve telephone equipment are constantly tested by telephone scientists. New methods are continually put to work to help your calls go through easier and faster. Behind the scenes, experienced telephone employees work "around the clock" to give you the best in telephone service.

These three reasons; new ideas, new methods and experience, are why telephone service never stops improving, yet remains easy on the family budget.

OUT OF THE PAST

I was thumbing through some old magazines the other day and found some household hints that had been published during the war years. One column suggested using an egg-timer to limit your Long Distance calls to three minutes.

I started wondering if anyone is still using an egg-timer out of force of habit. I hope not because you certainly don't need it.

Today, there are plenty of Long Distance lines. You can talk as long as you like and as often as you like. In fact, it's wiser to take your time on Long Distance calls and say every thing you want to say. One six-minute call always costs less than two three-minute calls. The longer you talk, the less it costs on a per-minute basis. And, you save an additional one-third when you call station-to-station.

Call by number. It's twice as fast.

CHAT with PAT

On KSEL you hear this, "don't say hello but say hi-dee-ho." So a big hi-dee-ho to all of you! Tomorrow night tells two things—whether we win district and whether the girls will be getting a big box of candy (Valentine). So everyone bring your candy to Tahoka and back the team.

Congratulations to Keith Hollums for getting Citizen of the Month of January. This is a big honor so everyone should try their best.

Well the Seniors are still at it — that is they are still trying to get money for their big trip. They are now making plans to present an Operetta entitled "The Wizard of Oz". The date hasn't been set yet but when it comes let's all go and back the Seniors.

Vote, for-no, Elect-no — well I guess you've guessed it by now. The campaign started Monday Feb. 10, for election of the Student council, Whirl and Annual Editor.

Nominees for the Student Council president — Silas Duncan, Jerry Solomon and Mary Cogdell. Vice President — Hal Hines, Bill Gilliland, and Don Garrett. Secretary — Tommy Copeland, Judy Wilson, Sharon Edmiston, and Sonja Guffee.

Running for Annual Editor are Linda Welborn, Edwina Overstreet and Glea Adams. Whirl Editor candidates are Judy Jackson, Estella Wyatt and Gaynell Boothe.

The campaign managers are real busy making posters, tags and etc. Let's everyone vote for our candidates and then let's everyone back those who are elected.

Everyone be on guard. We have fighters among us. Beware of a Junior and a Senior boy who are both about 5 10, dark hair and are plenty rough. No seriously we want to extend our congratulations to Johnny Brown and Grant Cooper for winning champion titles in the Amarillo Golden Gloves tournament. Good luck to you.

Would everyone please start saving pennies. The Junior class needs them bad. The Junior and Senior banquet will be March 14. So as you can see we need them now.

Have you noticed — Richard's party, (never a dull moment); All the girls hopping for a box of candy; Juanelle's new hair cut; Some sophomore boys cars won't start, (thumma wonder why); The success the three act play was; Basketball boys beat Post; Stanley Burleson car (had a wreck); How much Roger and Anella are together; A lot of West Texas kids were home; Verna Pale's new car; Sally and Bill Day — constant company.

While hunting for parts of cars the following coupes were seen: Jarlene Johnson and Cliff Jones, Billie Holmes and Richard Graves, Martha Smith and Elmer Williams, Judy Wilson and Harvey Allen, Leora King and Billy Gilliland, Fleeta Casthel and Wayne Adams, Sandra Roe and Grant Cooper, Sally Reed and Bill Day, Sue Williams and Leon Williams.

Maria Burleson and Bobby Christian, Nelda McCary and Bob Ed Dempsey, Janice Robert and Kendis Julian, Leora King and Joe Noland, Judy Jackson and Bill Orman, Jane Tye and Weldon Pruitt, Linda Welborn and Vaughn Ginn, Mary Cogdell and Keith Hollums, Carol Lawson and Gary Hucabay, Juanel Wood and James Teague, Anella Thurston and Roger Trapp, (new steadies).

Sue Kendrick and Rannie Vickers, Thelma Ferguson and Spencer Hatley, Joellen Jackson and Jackie Myrick, Carolyn Cates and Dale Brown, June Marble and Marvin Wells, Donita Milton and Arlis Powell, De Anne Newberry and Rex Jones, Sonja Guffee and Don Garrett, Sue Plennick and Johnny Witkowski, Sue McClung and Henry Self, Mary Cogdell and Danny Shipley.

Kay Robertson and Kearney Edmiston, Addie Adkins and Norman Ferguson, Elva Womack and Price Pritchett, La Juana Womack and Mike Shurbet, Shirley Gregory and Donnie Taylor, Estella Wyatt and Ronnie Downing, Billie Ann Goode and David Blair, Glenda Morgan and Dale Lawson.

duct will not have to compete on the same levels with inferior eggs. The housewife, too, will be relieved of the hit-or-miss methods of egg buying. No guesswork is involved when she picks her eggs at the market. The grade on the box is the grade of the egg inside and she still will have a wide choice of quality and price according to her cooking needs.

The entire egg industry can expect a boost, also. For years, Texas eggmen have been plagued with false or misleading labeling methods within the trade. Various phrases were used in advertising which lead to confusion in trying to buy high quality eggs. Now the trade has a uniform system of grading on which to base their price.

In addition, egg handlers can buy and sell Texas eggs of a known quality without having to rely on out-of-state purchases for accurately graded eggs. This will help to keep Texas money in Texas.

When the Legislature passed the egg law, it also set up a Texas Egg Marketing Advisory Board to aid in policy making and enforcement of problems. Agriculture Commissioner John White is chairman of this board, with D. W. Reneau of Seguin serving as vice-chairman.

Other members of the board are: T. D. Craddock, Hamilton; G. P. Siebel, Burton; Jim W. Whitaker, Paris; Jack Dubose, Gonzales; Marvin Gilbreath, Weimar; Dewey Stringer, Houston; Tom R. Boothe, San Antonio and Frank Ehrle, Childress.
