The budget, coming to a modest \$6,456.50, covers a wide range of activities, but does not include a special Christmas collection usually made in November to cover pre-holiday activities and decorations. This fund usually amounts to \$500 or more. The budget also does not include tickets sold to the annual banquet.

Last year, Manager O. M. Watson Jr. reported to the board, the Chamber of Commerce spent \$8,866.53.

Details of the budget, as suggested by the budget committee, composed of W. E. Garrett, Joe Giddens, E. A. Williams, Leonard Mader and Dale Goen, and adopted by the board are given below. This budget outlines the projects that will be carried on also.

The directors also agreed that paving projects are most important and that continued backing of the city council in study of the problem would be given by the board.

Some of the committees have already functioned as a continuing activity from the old year.

The agriculture-industry committee headed by Dr. Kimble has announced a public meeting for March 21 (tomorrow) to hear a talk by Dr. Joseph E. Ward, U. S. Department of Agriculture, on the Perishable Agricultural Commodities Act.

This meeting will be open to the public. More than 300 invitations have been sent out to farmers and others who are thought to be interested.

As A Farm Woman Thinks

(Nellie Witt Spikes)

Every time I read the Bible I am amazed and delighted at the beauty and simplicity of the recorded Word.

In thinking over the turmoil of the world today, the wicked rulers, the ways of destruction, these same thoughts came to King David as we find in the 27th Psalm, 35 verse:

I have seen a wicked man overbearing, and lowering like a cedar of Lebanon. Again I passed by, and, lo, he was no more; and though I sought him, he could not be found.

And I think of Alexander, of the Kaiser, of Hitler, and Mussolini, where are they after they towered high in their strength? Again David says, Psalm 33:16: A king is not saved by his great army;

A warrior is not delivered by his great strength. The war horse is a vain hope to victory, and by its great might it cannot save.

I think of the atom bomb, the Sputniks, the modern ways of warfare. I read of the mighty horses of war that Gibbon, the historian in "Decline and Fall of the Roman Empire," says about the immense size and number of the Turkish Cavalry!

"As the subject nations marched under the standard of the Turks, their cavalry, both men and horses, were proudly computed by millions. On this occasion, the myriads of the Turkish horse overstepped a frontier of six hundred miles from Tarsus to Erzeroum."

Commentators, some at least, think these were the horses that John saw in Revelations. The Turks slaughtered their millions but where are they in the history of today? The war horses did not keep the Lord's strength from prevailing.

It was a vain hope without God. The atom bomb will not prevail against the wicked rulers of today without the aid of God. David saw this:

33:12 Blessed is the nation where God is the Lord. The people whom He has chosen for his heritage!

Lions Sponsoring Junior High Invitation Track Meet March 29

Floydada Lions Club is sponsoring a junior high track meet at Wester Field on Saturday, March 29. The meet is for boys through the eighth grade and events to be included are 50, 75, and 100-yard dashes, 440-yard relay, high jump, broad jump, shot put and pull ups.

Junior High Coach, Pete Fuglaar, will be superintendent of the day's events and will be assisted by several members of the Lions Club and other local sports enthusiasts.

The Lions Club will furnish trophies and ribbons for winners of the meet. There will be a team trophy for first, second, and third places, and also for the high point man. In individual events there will be a medal for first and ribbons for second and third.

Coach Fuglaar hopes to have some 12 teams enter in the meet. This will give spectators two or three preliminaries in each dash event and then the full state of finals.

Big worry now is the weather and getting the track ready for practice and for the meet. Continued precipitation has left the track standing under water in many places and keeps the boys indoors most of the time. The coach has an eager bunch of youngsters but isn't too sure what they can do.

The meet should bring well over a hundred youngsters to Floydada for the day along with their coaches, some parents and friends. Junior high boys here and their followers are looking forward to the event.

All are anxious to see the boys perform for the home folks and to get a glimpse of what track talent will be in store for coming years at the high school.

Lodge Acquires W. Mississippi Building Site

When and if Floydada Lodge No. 712, A. F. & M., determines to build a new home they have a site available for it at the corner of Fifth and Mississippi Streets, which the lodge has just bought.

Officially the lots are Nos. 18, 19, 20, and 21 in Block No. 84.

O. M. Watson, member of a purchasing committee for the lodge, said Lot 18 was acquired from Mrs. John H. Reagan and the other three from Mrs. Mary Davis and daughters.

In the purchase agreement for the Davis lots Mrs. Davis retains the right to occupy the residence she owns on the property for the remainder of her life.

Total cost to the lodge for the four lots was \$3,000.

Most of the resident members of the lodge who attend regularly favor moving to a new location, Mr. Watson said.

The lodge's present home is at the northwest corner of the square, where the organization owns a two-story building that has been appraised by a committee at \$15,000.

This property would be for sale when and if the decision is reached to build on the new site.

Polio Chapter Agrees to New Plan For Funds

Officials of the Floyd county chapter of the National Foundation for Infantile Paralysis met Monday night with Mike Hirc, state representative of that organization. The group gathered at Lockney Auto Company in Lockney for a business session.

Present were Edward Wester, Barry Barker, Edgar Hays and Dillon Patterson. Patterson gave a report on the county's fund drive and of the division of that fund.

Of the \$2,700 raised some \$675 or one-fourth goes into an epidemic emergency fund on which the county can call back for help when in need. The remaining \$2,025 was divided equally between county chapter and the national organization.

The new emergency fund cuts down on the amount that remains in the county but gives local officials ready backing if funds are exhausted. In the past the national foundation has called back for all carry-over funds which were on hand on January 1 to take care of counties which were in the red.

Copies of the book are available at all Red Cross chapter offices at a nominal cost to cover printing—75c for paperbound copies and one dollar for clothbound.

The training course for Den Mothers, which was to have started March 18, has also been postponed and will not start until a cub master has been appointed. Date and place will be announced later.

Big March Snows. Floydada "blossomed out" with snow men and snow women this month as generous snows blanketed the many lawns. Sample snow woman done by one trio of youngsters on South Wall, above. Melinda Goen, Margaret Nash, and Linda Smith, teamed up on this snow lady seen on the Woodrow Goen lawn. The kids had fun and probably made history as well. A March 12 snow lady is not likely to be seen again in less than 20 years in Floydada, according to weather lore. (Photo by Kenneth Rimmer)

Adron Field New Owner of Local Agency

Announcement this week by Adron Field and C. W. Giesecke says transactions have been completed and Field is now owner of the insurance firm of Reagan-Giesecke Insurance. Field will continue to operate at the same location and under the same name.

The firm was founded about 1936 by John Reagan who remained active in its management until his death in 1954. C. W. Giesecke became a partner with Reagan in June, 1955, when Reagan's health began to fail.

The new owner is no new comer to Floydada or to the insurance business. Adron Field has represented Washington National of Evanston, Ill. since 1954. He announced this week he will continue to represent this company as well as all lines that were carried by Reagan-Giesecke.

Field is a Floydada boy having finished school here in 1940. He spent three years in the air force and then returned to make his home here. He has been active in business circles of the city since that time.

Assisting him in the new business venture will be his wife Jean and E. K. Cardinal who are on the office staff.

This week's Hesperian carries an advertisement announcing the business change and also a thank you from Mrs. John Reagan and C. W. Giesecke who express gratitude for the friendship and kindness shown them by their many friends and customers.

South Plains News

(By Mrs. Murray Julian)

SOUTH PLAINS, March 17 — There was no school at South Plains on Wednesday due to the big snow fall on Tuesday night, but school was resumed on Thursday. School bus driver Clarence Foster got as far as Grisby Milton on Thursday morning before sticking and having to be pulled out by a tractor.

Snow fall during the night left around six or seven inches here on Tuesday night and by morning the deep white stillness lay heavy over the land. Every wintry spell we think Old Man Winter has had his last fling. Now this Monday it is suddenly freezing weather again.

Church visitors at the South Plains Baptist Church in the morning services were Edith and Connie Blanton with Don Probasco, Mr. and Mrs. Park, Ricky and Steve, James Teague and Fleeta Carthel from Floydada.

Home Demonstration club members cancelled their Thursday meeting of March 13, with hostesses, Mmes. Sylvin Kinnibrugh, Fred Fortenberry, and R. G. Dunlap, due to bad weather and impassible roads. The next meeting will be held on Wednesday, March 26, in the home of Mrs. John Wilson with co-hostesses, Mrs. Johnnie Wilson.

Mr. and Mrs. S. D. Kinnibrugh, Marilyn and Beth spent Wednesday night in Lockney with Mrs. Edith Cox.

The Floyd County Farm Bureau banquet with 265 persons attending was held for the exhibitors of the stock show, judges, officials and special guests on Tuesday night at the Floydada High School and many from here attended.

One of the main speakers was "Cotton John" from Amarillo, part of the program with Bill Beedy, was broadcast over KGNC on Wednesday noon. Present from here were Messrs. and Mmes. L. T. Wood and Juanel; Loyd Deavenport, Dennis and Newton; Bryant Higginbotham and Bud; I. H. Parks, Eddie and J. Frank; Grigaby Milton; R. G. Dunlap; John Key West and Dale; Jimmie Pritchett, Eugene Beedy and Mr. and Mrs. Bill Beedy. Mr. Beedy was president of the Fat Stock Show.

Mr. and Mrs. Fred Fortenberry went to Amarillo on Tuesday and spent the day with her brother, Mr. and Mrs. Larnce McCain, then attended to some shopping during the afternoon. Fred had sent a load of cattle to the Amarillo Sale Ring by truck on Tuesday morning.

We offer sympathy to the family of Mrs. Jesse Covington, who passed away on Tuesday and was laid to rest on Thursday in Floydada. Many of our community had known her through the years, as her work brought her here many times.

Mr. and Mrs. Bill Hopper are proud parents of their first son, who was born last week-end at Lamesa. Mrs. Hopper has been staying with her folks. The new son has been named David Eugene. Grandparents who formerly lived here and now reside at Barwise, are Mr. and Mrs. Gene Hopper. We add our congratulations to those of the neighbors for the Hoppers.

The El Dorado refinery has through-put capacity of 20,000 barrels per day.

Among those on the sick list the past week have been Mrs. Roy Bledsoe, Mrs. M. K. House, and Mrs. Thomas Pierce who has been ill with the flu.

Mr. and Mrs. R. G. Dunlap attended the Junior-Senior Banquet which was held on Friday night in Floydada at the F.W. Hall. Among seniors from here who were present were Donita Milton, Button Beedy, Newton Deavenport, and Roy Hartman. Juanel Wood helped serve.

March 16-22 is National Library Week and those of you who do not make it a habit to go into your library when you are in town are missing such a great pleasure. As we read we help our children to get into the habit of learning from all the great writers who are at your finger tips in your library. Let's all get the library habit, and read the fine books you will find on the shelves of the County library.

New Ideas In Spring Styles Are Modeled At Annual Style Show

Men took the spotlight for the first time in the Annual Spring Style Show Monday night presented by the 1938 Study Club in the High School auditorium. Approximately 500 persons turned out for the event which proved favorable in spite of the nippy weather.

Spring ensembles in the way of Easter frocks, casual dress, sports wear, formal wear and children's clothes were shown by 46 models from six Floydada leading merchants.

Mrs. Lon Davis Jr., president of the club, made the welcome address and introduced Mrs. Billy Brown, who unfolded the story of Lewis Carroll's "Alice in Wonderland." Alice was played by Susanna Collier and the white rabbit by Marc King. Background music was furnished by Kelly King.

The Children's Parade of models was viewed first, from the tiny garment worn by little Jan Kassahn to a more mature age, a suit by Michael Parrish.

Baucy pet hats, styled like mother's, matching gloves and handbags, and shiny slippers accented the costumes worn by the younger females.

The boys dress clothing took on an air of gentility with a bow or long tie, just like dads, and the new shirt with French cuffs.

For sportswear, short or long pants of a solid color, and a jacket matching stripe or plaid.

Play clothes were the tiny tots and teenagers delight, Ivy League. Teenage girls are wearing walking pants this year instead of peddle pushers, all styled to a comfortable fit, drip dry with little or no ironing. Shorts too, are still a must in the girl's wardrobe.

Date dresses are styled with cumberbumps, full skirts and petticoats with yards of ruffled net of nylon.

The new look for this spring is the sack dress. Not to be outdone, it will be worn with accessories consisting of long rope beads, long gloves and sharp toed shoes with French heels, all styled from the early 20's, the rage during that time as far as the new look was concerned.

For the matron, the two-piece dress is still in demand which can be worn as casual or dress with the switch of accessories.

Western wear is a must for all ages, whether it be for the youngsters or mother and dad. The complete suit or just the pants and shirt, accented of course with the cowboy boots, western tie and hat.

Casual and dress costumes for the men were modeled by Fred Cooper, helping the men in the audience decide whether they liked the latest in man's apparel.

During intermission George Amegin and Honerhea Denton, Wayland College students, presented music selections.

Tommie Copeland and Wren Patterson sang, "Over the Rainbow," accompanied at the piano by Mrs. Bob Copeland.

A ballet, "The Dancing Princess," was presented by Misses Randy Brown, Christi Brown and Deborah Roberts, under the direction of Mrs. Johnny Roberts.

Firms represented in the evening's show were Beal Brothers, Mildred, Hagoods, Hale's, R. N. R. Fashions and the Wagon Wheel.

Your Opinions, Please

This is No. 1 of a series of questions asked the citizens of Texas in the Hale-Aikin state-wide study of the Texas public schools. If you cannot attend the county committee meetings in person, you are invited to write your own answers, clip out this questionnaire, and send it to the Study Chairman of your County, H. H. Nicholas Lockney.

- What subjects should be added or what courses should be strengthened in Texas public schools? What should be dropped or given less emphasis?
- Does an examination of the elementary school program in your county show that the following areas are taught adequately?

READING	WRITING	GEOGRAPHY	PHYSICAL EDUCATION
SPELLING	ARITHMETIC	HISTORY	MUSIC
SPEAKING	SCIENCE	HEALTH	ARTS AND CRAFTS

- What should be done in your county to insure that every child has adequate to insure that every child has adequate

(This questionnaire is printed by your local newspaper as a public service to the Hale-Aikin Committee in Floyd County).

For Mother; Against Sin. The time for candidates to begin their efforts to stir up interest and attract votes is imminent. Watching their various ways of operating will be interesting. Suggestion for an amateur candidate: Come out strong for mother, hard against sin, and repeal of some irritating tax law. It is a notable fact that in all the history of mankind there never yet has been erected a monument to a man for sponsoring a tax bill.

Ramsey Is A Candidate. The public prints tell us that Lieutenant Governor Ben Ramsey is a candidate to succeed himself. His announcement was made last week. He is running for his fifth term. In the many years he has been in politics Mr. Ramsey has had a chance to make enemies, and in that period they have not failed to comb his personal and political record for "issues" they could use against him. So far as we are informed, "they" have come up with charges that he is a "czar" in the legislature (which the lieutenant governor, of whatever political stripe, has to be); and that he is a tool of the business interests. (The business interests are the people who make the wheels go round.) Mr. Ramsey himself says mighty little, undoubtedly the man of least words ever in Texas politics. Many people in Texas are "sold" on Mr. Ramsey and his opposition will find it difficult to unseat him.

Studying The Schools. A state-wide study of the school system of Texas, aimed at getting a composite of the thinking of the people of the state, is being carried on under the general direction of a "Committee of 24". The study is already under way by committees in every county in the state. But it is impossible for a committee to know what the constructive thoughts may be of many others who have ideas on the many phases of public education. So as to make it possible for everyone to have a voice and make it heard, a series of questions are being propounded through the press. (See below). This series will run for six weeks and will cover practically all policy questions that might arise in connection with the public school system. Your answers are sought, as you will note. Who knows but you have an idea that may be invaluable? Fill out the blanks and mail as directed.

Off the Deep End. How times change and the ingenuity of mankind works out new ideas to fit new conditions has been demonstrated so many times one can safely discount both the prophets of dire doom and the glorious horizon at one and the same time. As for instance, the idea that mankind may loose a chain bomb that will destroy the human race at one fell blow or that a nation may evolve a system of attack that is beyond ability to face and thus subjugate all the races of the globe, is in the same category as the theory that some day nobody will be hungry, that disease will be banished from the earth and that there will be no wars or rumors of wars. None of these for this earthly existence. Neither a watery grave in the deep nor a cloud bank with a cloudflet for a foot stool. Something always happens just before all is lost, all is gained.

The theme of the banquet was "Outward to Destiny" which was carried out in the decorations. The table favors were Sputniks and the table settings were rockets. The ceiling and walls were draped with pink paper, white stars hung from the ceiling. The stage was decorated in blue and silver of the universe, representing the future space travel and the future for the seniors.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—Two supercharged issues — taxation and recession — like two strands of a high-voltage electric fence, seem to be twisted through every area of Texas government.

Recession, though considered mild and temporary, is here and now. New taxation in the light of official estimates, will be practically unavoidable next year.

Even though the recession is labeled "mild" and new state taxes the inevitable result of explosive growth, having both issues come up at the same time makes each seem worse. New tax talk, never popular, is even less so with people feeling the chill wind of a cut in income.

Barring an unexpectedly swift upturn in the economy, the twin issues will break through the middle of next summer's political campaign. It'll be particularly rough campaigning for those who have to get on one side or the other of the taxation fence.

Some legislative candidates are already being asked "If there has to be a new tax, what kind will you vote for?" Some say they haven't decided what they'd vote for, but will say what they'd vote against. Others say they're making no decision until after the State Tax Study Commission completes its reports.

Lower, But Growing — Latest report by the Tax Study Commission

shows some of the possible directions in which Texas may have to move to get additional tax money.

It notes that: Besides Texas only two other states are without either a general sales tax, personal income tax or corporate income tax. Texans in 1956 paid lower state and local taxes than the average for other states — \$129.50 per capita for Texas compared with \$137.50 per capita national average.

Rate of tax increase for Texas has been much faster than U. S. average. Texas rate of increase from 1953-56 was 23.4 per cent; national average, 19.4 per cent.

Commission's next report will deal with future spending needs, says Sen. William S. Fly, chairman.

Unemployment Up Again — Texas Employment Commission reports claims for unemployment compensation at a new high.

There had been a slight drop for the previous week. But latest weekly tabulations showed TEC paid out \$1,438,448, compared to \$996,494 for the same week a year ago. Number of persons filing claims was 82,578, almost double the 42,706 who filed a year ago.

Even so, most recent nationwide figures show Texas to be a highly favored area. Labor Department's Bureau of Employment Security says that Texas has the lowest rate of unemployment of insured workers of any state in the nation — 3.6 per cent here compared to 7.9 per cent

On Plus Side — Other business barometers tend to bolster the view that Texas' economy is weathering the squally weather well.

First 1958 reports from the Bureau of Business Research on overall business activity showed the January index up eight per cent from December, one per cent from January, 1957.

Texas Banking Commission's spring call for conditions of Texas banks brought reports of hefty increases in money deposit. Some cities showed drops in bank deposits, but in general they were up with some cities setting records or near records.

BBR's report notes that "although evidence of recession is plain, the strength of the state's economy is shown by its stubborn resistance to further decline."

A small increase in building activity in early 1958 may be the forerunner of a general revival of the home building industry this year, says BBR.

On the state's No. 1 economic headache — sagging oil production — a BBR spokesman says competition of cheap foreign oil could "flatten out" Texas' growth curve. Suggested antidote: bring in other industries with strong growth potential to "fill in the gap."

Governor To Battle Imports — Gov. Price Daniel has asked Washington to reduce oil imports.

He has presented evidence gathered by the state oil imports study commission on how Texas economy is hurt by cutbacks in oil production. Governors of other oil-producing states have joined him in asking that imports be limited to the 1954 level.

Though many economists predict that the problem of foreign oil is here to stay, Texas officials hope to gain at least enough relief to get the stymied domestic industry going again.

Juvenile Immunity Cited — A trial of teen-agers who commit serious crimes may come before the proposal to allow criminal court next Legislature.

Dr. James A. Turman, director of the Texas Youth Council, suggested a study in this area at the joint Austin meetings of the Attorney General's Law Enforcement Conference and Texas Law Enforcement Foundation.

Turman said he felt that in some cases "chronic and serious" juvenile offenders were being over-protected by the law at the expense of society. Under present law boys under 17 and girls under 18 cannot be tried in criminal court. One "serious offender," related Turman, told officers, "You can't touch me. I'm a juvenile."

Not so in Canada, said a visiting speaker from the Royal Canadian Mounted Police. Canada has no minimum age for sending offenders to the penitentiary, reported the Mounties, and "we are not troubled by many murders and rapes by youngsters."

Health Drive On — Governor Daniel has joined a young father from Baird, Texas, Bob Stanley, in urging Texans to participate in the fight against nephrosis and other critical kidney diseases which claim thousands of lives each year.

Stanley, who has lost two children

to nephrosis, visited Daniel recently and won his support in the campaign to organize additional chapters of the National Nephrosis Foundation in Texas. The Foundation now has chapters in El Paso and San Antonio, but victims of nephrosis are found in all parts of the state.

Governor Daniel designated March as Nephrosis Month and urged Texans to give financial support to research studies to determine the causes and seek cures for diseases of the kidney.

Anti-Accident Study — A brand new commission is at work to find ways to prevent needless deaths of industrial workers.

It is the Industrial and Occupational Safety Study Commission set up by the last Legislature. Former Civil Appeals Judge Malloy R. Blair of Austin is chairman.

Governor Daniel told members that Texas presently has 600 to 700 deaths yearly from industrial accidents. He said 98 per cent are considered preventable.

Always active in school affairs, Annela has just finished editing the high school annual, the Whirl.

She is secretary for the Future Homemakers of America Club.

On Wednesday nights she teaches a preschoolers class at the City Park Church of Christ.

This lovely brunet was chosen to represent the Lakeview Community as their beauty nominee in the Farm Bureau Queen contest last summer. Annela plans to attend Abilene Christian College next fall.

Thursday afternoon the Q. D. Williams' almost got a new gas clothes dryer. The roads were so muddy the truck had to go back to Lubbock without getting down to the house. It is supposed to be delivered today if the roads stay dry.

Tuesday was round-up and branding day at the T-Bar. Cowboys trying out their spurs were Billy Norris, Rex Pope, and James Williams. Their parents gave them a holiday from books. After all, the schools can't teach everything.

The nine year old boys rode and roped and held calves right along with the men. Arthur McCravy presided over the branding irons as usual. Fifteen people sat around the dinner table at noon.

The men finished working just ahead of the snow.

This week I received a letter from Senator Lyndon Johnson telling of his efforts to curb foreign importation of oil. For weeks I had written to him urging action on this important business. So much cheap petroleum has been brought in that Texas is being allowed only nine days of pumping in March. A lot of Texans working in the oil business had their pay checks cut or were fired. I just can't see sending our tax money to develop backward countries so their cheap labor can produce and put our own people out of pocket. If the government is following a policy you dislike, write them about it. They read your letters and consider your suggestions.

Mr. Harve Thomas has made an amazing recovery from his recent illness. Mr. and Mrs. Thomas were visited by their daughter, Mrs. Holt Bishop several times during the week.

This week I received a letter from Senator Lyndon Johnson telling of his efforts to curb foreign importation of oil. For weeks I had written to him urging action on this important business. So much cheap petroleum has been brought in that Texas is being allowed only nine days of pumping in March. A lot of Texans working in the oil business had their pay checks cut or were fired. I just can't see sending our tax money to develop backward countries so their cheap labor can produce and put our own people out of pocket. If the government is following a policy you dislike, write them about it. They read your letters and consider your suggestions.

Cotton Beautiful!

When it comes to cottons, what wonderfully-exciting fabric witchery shapes the many cotton fashions!

Cottons are polished as in satens; crisp as in broadcloth, pique, cotton cords and madras; supple as in chambray, combed cotton and knits; sheer delights in powder-puff muslin, organdy and batiste!

Cottons shape up playwear and at-ease wearables in crisp twills and duck; poplin, denim and like-linens; a sailcloth and cotton homespun.

Specially-processed to resist shrinking and creasing—often so easily washable that you just dip and dry them, cottons continue to blend wisely, miraculously with rayon, with rayon fibers, acetate or orlon.

IMPROVING SLOWLY

Mr. and Mrs. Bobby Plumlee and family of Fort Worth visited last week here with his parents, Mr. and Mrs. W. C. Plumlee. A daughter of the Plumlee's, Mrs. Johnny Hinds and family of Plainview were also recent guests in the home.

Mrs. W. C. Plumlee is still steadily improving from a bout with flu and complications in February, but slowly.

Knee Length Swim Pants Newsy Look

With a look that's borrowed from the turn of the century, the "knee length swim pants" steps into the fashion spotlight — complete with blazer jacket, white flannel pants and seersucker straw, snap-brim hat.

Seaside or poolside — young, gay blades will plunge into the fun in knee-length swim pants . . . yes, we said "knee length."

In addition to knee-length styles, swimwear will go to the mid-calf; or be abbreviated or boxer-styled — and, all will be bright! Most all will have matching shirts.

And, don't forget the snapbrim seersucker straw with white flannels, shirt and shoes — newly-topped by a red blazer jacket in blue!

UNCLE LUKE IS A SKEPTIC

To be truthful about it, Uncle Luke is plumb "ornery" about a lot of things. He rants at the blasted "airplanes" that scare his chickens . . . he fusses about the way women dress nowadays . . . he's never been to a picture show . . . and one of his pet hates is those "ix"x" squawk boxes" somebody around the house is always turning on while he's trying to read his newspaper. Oh yes! Uncle Luke likes his newspaper . . . dots on it in fact. Says it's the only way a feller could tell what's really going on in this crazy world nowadays.

Thank Goodness, we don't have to put up with many folks like Uncle Luke . . . but if you have an advertising message and want to be sure Uncle Luke sees it . . . put it in your HOME TOWN NEWS-PAPER.
