

G WHEAT CROP ROLLS FROM FIELDS

Quick Dollars Fast. The volunteer barley crop with its heavy yields, was the harbinger of the quick dollars being garnered fast this week from Floyd County wheat fields. Weather man cooperating, another ten days will see a multi-million dollar crop safely in storage, with quickened pulse of local business as one major result. This picture illustrates what we mean. It was made last Friday in Woodrow Wilson's barley field on Mrs. R. A. Gar-

KEEP STREETS LITTER - FREE

"You throw away your money if you drop litter on the streets of Floydada," City Councilman L. L. Clark declared this week at the opening of the annual Clean-Up, Paint-Up, Fix-Up Program.

"Every piece of trash which is thrown on the street requires additional work for city employees. This delays other necessary chores of the street and sanitation department which would benefit every citizen."

"Use the trash containers which are conveniently located on Floydada sidewalks when you are a pedestrian and litterbags when in autos," Councilman Clark urged.

"Don't let your tax dollars fall in the street. Instead, let them work for you. If everyone cooperates, our men can do more constructive work, resulting in better and more beautiful streets," Clark said. "Clean up now and keep Floydada litter-free all year round."

Peak Movement Is Viewed For This Week-End

Harvest for the year that Floyd County farmers will be telling their grandchildren about is in orbit this week.

Even fabulous 1937 and the great 1947 crop were not more glamorous than the harvest that got under way last week and is due to crescendo into a peak this week-end.

Except for the acres involved. The crop this year will come from 105,000 acres.

Additionally, the net from a probable \$6 million gross income from wheat and barley will be high. Expense of raising the crop has been lowest in years. Water and power bills have been almost nil.

Fly in the ointment, market and loan value of the crop is about 20 cents below the mark of last year. Market this week was around \$1.99 for No. 1 wheat, \$1.65 for interest loan value. Final loan value will be announced by USDA on July 1. Farm storage is at \$1.75.

Early barley, with yields ranging up to 100 bushels, has a net loan value at the elevator of 81.5 cents per bushel, farm storage 97c.

Barley alone may gross Floyd County farmers about \$1 million. However, late barley, along with late wheat, is taking punishment from heat and dry weather and may prove somewhat disappointing.

Many wheat fields are running above 40 bushels per acre in places and reports of 50-bushel crops are not uncommon from dry land as well as irrigated fields.

There is no shortage of men nor machines. Custom combine operators have been riding the county on hunting crops that are ready to move into. Peak of the harvest should come this week-end. Elevators already are busy, switch engine crews were moving loaded grain cars out of the way on railroads at the various shipping points.

Movement of the grain crop locally started with a small load from Louis Pyle's place delivered to Producers Elevator Thursday afternoon at 3:30. The first load of about 25 bushels loaded 14.8 for moisture content, weighed 63 pounds to the bushel. By the week-end Pyle had harvested machines going in high.

Other early deliveries were made Friday, including the first load to Davis Elevator Company from B. C. Cates and behind it one from Doyle Moore. Both loads were merchantable wheat of high test.

Troy Leonard's first load over the week-end was from S. G. Appleby's place at Mt. Blanco. It tested high, had low moisture content and was making a good yield.

At the Poole Grain plant, Dougherty, Kinder Farris said all wheat offered last week was too high in moisture content. Wheat receipts were good this mid-week, however.

Ralph Johnston was one of Pyle's first barley customers. Johnston had a good barley yield. F. M. Covington delivered 70-bushel barley to the Poole Grain.

Poole has made a big addition to the grain storage capacity of Floyd County plants this season. This elevator now has a capacity of 600 thousand bushels.

Davis Elevator's most recent addition in Floydada consists of two big tanks which make easier wheat moving, storage and handling to maintain condition. A big area of flat storage space was added at the elevator earlier in the year.

At Farmers Elevator Company, Carl Nelson reported the first wheat of the season from Buster Simpson Friday afternoon. Simpson has had his harvesting machinery running since that time.

Wheat reaching the elevators this week is making a wonderful test, up to 65 pounds. Bill Norman had two fields near Dougherty that ran 63 and 64 pounds, with 44 and 47.5 bushels yield respectively.

Late wheat a week or so away is taking the punishment of this week's high temperatures may look pitiful beside the grain that is coming to market this week, says County Agent Cecil Lewis.

Launch Summer Campaign For A Brighter Floydada

The Civic Improvements Committee of the Floydada Chamber of Commerce opens its 1955 Clean-Up, Paint-Up, Fix-Up Campaign on Monday.

W. F. Patrick, chairman of the committee has announced that the campaign will be unusual this year in that it will continue throughout the summer.

"Our committee feels that a three-month campaign will accomplish much more in cleaning up our community than a one week clean-up drive," Patrick said.

Clean-up projects during the coming summer months will be divided into three fields of activity, Patrick announced.

The most important item in the clean-up campaign is the community fight against weeds and trash at homes and on rent property. Property owners are urged to cut weeds and clean up alleys and yards during June to make their homes more attractive and livable.

Vacant lots should receive special attention by the owners. Clean-up officials pointed out. It was also noted that the danger from fire on dry, weed-filled lots is increasing each day.

The committee is putting special emphasis on the need for painting and repairing of Floydada homes and rent property.

It was estimated that seventy-five per cent of Floydada homes and rent houses need painting and a program of repair and modernization. The committee hopes to report each week the progress made by individual home owners on their paint-up, fix-up projects.

The third phase of community improvement is an increased emphasis on business building modernization.

A letter was mailed to all Floydada business property owners in May which urged them to keep their business property in the best possible condition throughout the year and also to consider a complete modernization program for their buildings.

The removal of frame buildings around the court house square and in the fire zone has also been recommended by the clean-up committee.

City officials and sanitary and fire department crews have pledged their full support to the clean-up campaign.

The City of Floydada is in the best position in years to assure local citizens a clean community, Mayor J. M. Wilson, Jr., has reported.

A new street sweeper has been most successful since its purchase in May on a campaign to keep downtown and community curbed streets free of dirt and trash. A new sprayer carries on a weekly fight against flies and mosquitoes. Downtown trash receptacles which were furnished by local business firms and organizations through the Floyd County Library (Books on Bikes Club), contributes to the "Keep Our Community Clean" campaign.

The city trash and garbage crew work daily to keep the residential and business street clean.

"With all of these city facilities, however, we must have the complete cooperation of each citizen if we are to have a clean community and a successful clean-up project," Mayor Wilson said in listing the city equipment and services.

Dr. Patrick also announced that local lumber dealers and paint stores will report all clean-up, paint-up programs put into effect by Floydada citizens and that this information will be published weekly.

Wheat Marketing Vote Will Be Held June 20

Floyd County wheat farmers will help make an important decision when they vote June 20, in the national wheat marketing referendum. The Floyd County Agriculture Stabilization and Conservation Committee said.

If at least two-thirds of the growers who vote in the referendum approve quotas for the 1959 crop, B. L. Breed explained, the 1959 or 75 percent of parity.

If the quotas are not approved by at least two-thirds of those voting there will be no marketing quotas or penalties, but allotments will remain in effect as a means of determining eligibility for price support. The price-support rate would be about \$1.20 per bushel, or 50 percent of parity, as provided by law.

Chairman Breed pointed out that wheat marketing quotas and acreage allotments operate only in commercial wheat States - those with allotments of more than 25,000 acres. Texas has an allotment of 4,099,094 acres for the 1959 wheat crop.

Growers eligible to vote in the referendum are those who will be affected by the wheat quotas if they become effective.

Thus, farmers who will have 15 acres or less of wheat for harvest as grain in 1959 and those who are taking part in the 1959 feed wheat program are not eligible to cast ballots in the 1959 wheat referendum of June 20.

The term "eligible voter" in this year's June 20 referendum on 1959 wheat quotas, according to the Chairman, now includes - with one exception - all those farmers in a commercial wheat state who will be engaged in the production of the 1959 wheat crop and who will harvest more than 15 acres of wheat for grain on their farm. The exception is that those farmers who are taking part in the 1959 feed wheat program may not vote on quotas for the 1959 wheat crop.

Eligible voters may cast their ballots at the following polling places any time between the hours of 8:00 a. m. and 7:00 p. m. on June 20:

Lockney - The Beacon Office
Floydada - ASC Office
Dougherty - Poole Grain Co.
South Plains - Dial & Clubb Elevator

The wife of eligible voters may also vote in the referendum.

Schedule 4-Day Harvest Sales June 20 to 24

Prospects for an outstanding sales event in Floydada next week are in sight of Floydada business firms as plans for the 1958 edition of the "Harvest Of Values" sale are being put into shape.

This year's "Harvest Of Values" will open on Friday, June 20, and continue through June 24.

Local Merchants have been making their plans for weeks to offer area shoppers "A Real Sale" of nationally known merchandise during the four day event.

Special purchases have been made in the nation's markets with the idea of making "Harvest Of Values" the biggest town-wide sale in Floydada's history.

Bargains offered by Floydada merchants will range from dry goods and groceries to auto accessories and farm implements.

Frank Webb, chairman of the Chamber of Commerce retail trades committee, said today that he is well pleased with the good response and interest Floydada businessmen are showing in the "Harvest Of Values" event.

Cooperation with the "Harvest Of Values" promotion to show West Texas shoppers what Floydada has to offer them has been beyond expectations, Webb said.

In addition to the sale items, other special events of interest are being planned. The Hesperian Harvest of Value circular will give away almost \$8,500 worth of free theatre tickets and swims at the Municipal Swimming Pool.

J. C. Deakins of the Palace Theatre has announced that each circular will contain one free ticket admitting one adult to any performance at the Palace Theatre during the Friday, Saturday, Monday and Tuesday sale.

Fred Lambert, Elvis Warren and Jeff Hart, Floydada Fire Department board of directors, have invited 8,300 guests to swim free at the Municipal Swimming Pool during Harvest Of Values.

Each Hesperian circular will contain a ticket admitting one adult or child.

"We are expecting to have four big days at the swimming pool," fire chief Lambert said.

Grass Fires Call Fire Department

Floydada Volunteer Fire Department made two calls due to grass fires getting out of control this week.

The first was on Monday night about 9:30 when persons were burning weeds in the east part of town between Kentucky and Tennessee Streets. Gas tanks belonging to the Gulf Oil Co., were nearby and threatened by the blaze before it was brought under control.

At 10:30 Tuesday morning, a grass fire near Mrs. Jess Woods' home on Missouri Street, went out of control and was put out by the fire boys. No damage was done by either fire.

Equalization Board To Meet On June 20

Notice issued by County Clerk Margaret Collier last week sets the date for the County Commissioners to sit as a Board of Equalization for 9 o'clock Friday, June 20.

Railway, utility, oil, truck, franchise, and similar renditions are due for scrutiny on that date.

John L. West Is Claimed After Long Illness; Funeral Tuesday

John L. West, a resident of Floyd County for 56 years, passed at the home of his daughter, Mrs. Paul Murff, at 3:30 a. m. Monday, June 9.

His death ended an illness of some three years. He was bedfast most of that time.

Mr. and Mrs. Murff were in Ansony, Miss., at the time of his passing.

Funeral rites were held Tuesday afternoon at 4 o'clock in the First Methodist Church with the pastor, Rev. DeWitt Seago and the Rev. Paul H. Gates, officiating.

Burial was in Floydada cemetery beside his wife, the former Marcella McCarty, who passed in 1945. Harvest Funeral Home had charge of arrangements.

Born in Alabama in 1869, Mr. West was 85 years old this past May 6. He was a retired school teacher, former Methodist minister and farmer. He pastored in churches at Old Emma, Fairview and Center in the early days.

Survivors include the Floydada daughter, two other daughters, Mrs. Senior Moore of Lubbock and Mrs. Ione Matthews, Cornell, Calif.; one son, John Key West, South Plains, night grandchildren; two great grandchildren, two sisters, Mrs. Fannie Power, Electra, and Mrs. Rhoda

ATTEND PROCEDURE MEETING

Tom Hutchins, office manager of the ASC, and Doris Foster and Alene Warren spent Monday and Tuesday in Lubbock where they attended a district meeting on new procedures for grain loans.

Grasshopper Control - Many grasshoppers have been noticed around turn rows, pastures and fence rows around the county.

In most instances the grasshoppers have not left these areas. While in these areas it is usually the easiest and less expensive to control them.

The use of Aldrin, 1 to 2 pints per acre, Heptachlor 1 to 2 pints per acre, Dieldrin 2/3 to 1 1/3 pints per acre, Toxaphene 1 to 2 quarts per acre, will provide satisfactory control.

Pastures next to crop land maybe strip sprayed to prevent infestation in cotton and feed.

Cotton insects - Thrips and fleahoppers tend to be building up in untreated fields. Thrips are causing damage to the new growth and terminal buds. These insects can be easily controlled by proper methods.

Insect meetings have been held in the following communities: Dougherty, Lakeway, McCoy, Barwise, Lockney, Aiken, Lone Star, Sterry, South Plains, Cedar Hill, Fairview, Floydada and Providence.

DICK BAKER, GOSPEL SINGER BO BAKER, EVANGELIST

A brother team of evangelists, BO and Dick Baker, of Dallas, have been announced as the leaders for a revival at the First Baptist Church in Floydada beginning June 15. Preparation for the resurgence of religious fervor has been under way in the local church, with home prayer meetings, revival prayer service and visitations. Rev. Ed Brooks Bowles, pastor of the church, says the brother team has been highly successful in campaigns in other cities. He expects their efforts here will be far-reaching. The meeting continues through June 21. (See story on another page.)

Texas Employment Office Is Opened

Texas Employment service opened an office in Floydada Monday, June 9. C. O. Spence is again in charge of the Floydada branch which is quartered in the Chamber of Commerce Office.

Early this week Spence said he expected to be open for some three weeks during the harvest season. His early calls for help, however, were not for harvest hands but for two hands in the cotton fields.

Farmers needing assistance with their harvest or with cotton choppers are asked to notify Spence who is at present trying to get labor lined up to fill the needs.

Employers and combine men are also asked to check with the employment office for early placement.

Last summer, Nikita Khrushchev told Americans via a television lens that the Soviet Union would in five years outstrip the United States in the per-capita production of meat, milk, and butter plus other agricultural products.

In a word, he was reminding us that a nation is only as strong as its agriculture. But while Russia still appears to have an edge in "Sputniks" that nation is far behind us in farmings methods — yet is determined to catch up.

Fortunately, we are not lagging in our scientific achievements in agriculture. The Russians will have quite a way to go if they catch us because our own progress in farming has been phenomenal.

In 1930, when World War II broke out in Europe, American farmers produced 2 1/2 billion bushels of corn on 98 million acres. Last year, they produced 32 per cent more corn on 17 percent less land.

Since 1933, the national wheat crop has risen from 740 to 940 million bushels, but harvested acres have gone down from 52 1/2 to 43 1/2 million. Compared with 1939, farmers last year reduced outdoor acreage by 46 percent, and still produced 95 percent as much cotton.

The story is the same with livestock. In 1936, dairymen had nearly 3 million fewer cows than in 1940, but each cow produced two-thirds of a ton more milk. For every two eggs a hen laid in 1940, her descendant is laying about three today.

Nearly 100 million cattle and horses grazed the same acreage that in 1940 supported only 83 million head.

A pig crop of 90 million in 1936 compares with only 80 million products in 1940.

Downings' Adieu Expresses Heart - Felt Appreciation

We would like to take this means of expressing our appreciation for a little over five years of happiness that this community has given to us. The entire family feels indebted for the many wonderful things that happened to us coming from so many different sources in Floydada.

Five years ago we knew no one in Floydada, but we felt it would be a good place to bring up our teenage children. Now we feel we are leaving a host of friends and our lives have been enriched immeasurably.

After Monday we will be at home at 925 Cypress in Abilene where our work will be with the Northside Church of Christ. Our only hope is that it will be only half as enjoyable and profitable as our stay in Floydada has been.

Small Appliances and What They Can Do For Us
From the earliest discovery of electricity to the present day, attempts have been made to learn the nature of the electric current. Although the years of research have resulted only in a succession of theories regarding the elemental constitution of electricity, definite laws with regard to its action have been established. Electricity can be generated, directed, controlled, measured, and put to work. What it does for the homemaker to-day is nothing short of miraculous compared with our homemaking duties of not so long ago.

Electric skillets, with so many many uses — they are just right for our one-dish-dinners which are so nice for us, especially this hot summer weather.

Here is a recipe for Salmon (one-dish-dinner) that is a bit different from our regular way of preparing it —

1 tall can salmon
1/4 cup coarse cracker crumbs
2 beaten eggs
1/2 teaspoon salt
1/2 teaspoon pepper
1 tablespoon finely chopped parsley

To prepare: Remove bones from fish. Break up with a fork. Add other ingredients. Form into 2-1/2 inch cakes.

Put 2 tablespoons fat into skillet. Brown slowly on each side. Remove to heated platter. Pour contents of one can of cream of mushroom soup into skillet, add 1/2 cup water, mix well and serve with salmon cakes.

SOCIETY

Ring Vows Barbara Hall, Womble

Barbara Hall and John Womble were united in matrimony at the home of Mrs. W. H. Fox on Thursday evening.

A couple of young husbands were sounding off the other night about what poor cooks they had married. They were brothers, and we were all enjoying an excellent meal in their mother's home.

"Mother's a gourmet," the young lawyer said. "She just loves to cook. But Anne! At eleven o'clock she says to herself, 'I must prepare lunch for my husband.' She goes to the deep freeze, takes out a couple of hamburger patties, slaps them in a skillet, adds salt and maybe a pepper. She dumps a frozen vegetable into boiling water, puts a plastic dollie on the table, sets down a plate with the meat and vegetable in it, and that's a meal."

The both had a good deal to say, all in fun, of course. But we couldn't help noticing a few things: (1) they talked as if a pound put on either of their slender wives was a major catastrophe; (2) they assumed that their mother, who really is a superior cook, didn't use frozen or canned goods, mainly because she has the gift of making food seem hand-done; (3) they ignored the tremendous difference in the amount of time and money she can afford to spend on one meal, which their wives, both with young children and a limited budget, can hardly work out.

In fairness, they did admit that "Mother" didn't cook like this every day (fortunate, too, because anyone who ate such rich delicacies three times daily would soon weigh closer to 300 than to 100 pounds).

A woman who loves to eat -- and doesn't mind gaining -- is likely to put delicious meals on a table. A woman who loves to eat and is trying to watch her weight isn't about to make rich dressings, for fear she will yield to temptation.

So, a wise young husband will either let up on his girl friend's about her figure, or else he'll settle for foods that aren't dressed up with creamed sauces and rich desserts.

The new Worthy Advisor chose as her scripture, Thessalonians 5-17, "Pray Without Ceasing." Her motto was Prayer Changes Things. Her colors chosen were yellow and white and her flower, a yellow rose.

In the drill Bibles with yellow net and ribbon and centered with a white rose were used.

At the reception which followed, the Worthy Advisors table was laid with white net over yellow and centered with yellow roses.

The retiring Worthy Advisor, Nancy Watson, was escorted into the bow for services after which she received her Rainbow Bible from her officers and the past Advisor pin from assembly, conducted by Leora King.

Refreshments of angel food squares and lime punch were served by Misses Dorothy Breed and Frances Ashton.

The table was decorated with a white linen cloth and featured a pink feathered umbrella with mint filled miniature umbrellas for the plate favors.

Hostesses for the shower were Misses Milton Weems, Keith Stansell, Lawrence Stovall, Clem Gallows, W. M. Hambricht, Clarence Ashton, Dick Guest, Hershel Nelson, Bobby Smith, Truitt Hartwell, Mac Smitherman, J. B. Bishop, Lyndel Roberts, and Misses Dorothy Breed, and Frances Ashton.

As A Farm Woman Thinks

(Nellie Witt Spikes)

Praise the Lord
He determines the number of the stars,
He gives to all of them their names,
Great is our Lord and abundant in power;
His understanding is beyond measure.
The Lord lifts up the downtrodden,
He casts the wicked to the ground.

Sing to the Lord with thanksgiving;
make the melody to our God upon the lyre!
He prepares the heavens with clouds,
He covers the earth with grass,
He makes grass grow upon the hills,
He gives to the beasts their food
and the young ravens which cry.
His delight is not in the strength
of the horse,
Nor His pleasure in the legs of a man;
but the Lord takes pleasure in those who fear Him,
in those who hope in His steadfast love.

These beautiful strength-giving
lines are from the 147th Psalm in
the first chapter. I look up to the
starry skies and think how man
has been able to name only a few,
but God has named them all and
they keep their course in the heav-
ens by His command. The more
you will read and study the Old
Testament the more you will appre-
ciate the men and women of old
who stayed true to God, and loved
to tell and sing of His wonderful
mercies and goodness.

and always enjoyed the visits. We
went to see Brother West but as
he was asleep we did not talk with
him, but Hester and her husband
made us very welcome. Then we
went to see the Olsons and spent
a few minutes there. How quickly
time goes when good friends get
together. We will always love
Floydada and its fine people.

The past week was a busy one,
even for us. I cut a few weeds in
the cool of the morning, marveled at
the beauty of the new leaves, all
different on each kind of tree and
shrub.

The grapevine had long tendrils
trying to catch something to hold
to, tiny green grapes hung among
the leaves like little green emer-
alds. I stopped to crush a bit of
the pecan leaf in my fingers, en-
joying again its fragrance.

I stroked the long pine needles.
The two blue spruce with their
long new growth are lovely beyond
words.

Our new neighbors were busy
getting their broom hares ready
for the tiny seeds of grass that will
turn them to lawns of green.

Mamie Sam Henry came by and
brought me a Queen's Wreath to
set out and enjoy its delicate heart-
shaped leaves and long bunches
of pink flowers.

I started to move a step from the
front porch that we had made of
concrete blocks and a stone from
the old bank building, but when
Johnny saw what I was doing, he
pressed to let it stay. Said he
used it all the time and even loved
to sit on it, so I moved the two
blocks back I had taken out and
put them in place again.

Dale mowed the lawn. Carry
went to Lubbock and drove the
car for us. We had a good day
with mother, sisters, Lois and Jo.

It was a good week, every morn-
ing a "new beginning" as the Lord
has promised us, and we thank him
every morning for this "new begin-
ning." The Sunday of yesterday we
did not do the mistakes we made,
are forgiven us as we try another
day to do better.

Well the washing machine has
stopped and it is time to hang the
clothes out in the warm sunshine
to dry and get the smell that
nothing else can give. So I will
use my next week unless I get too
lazy, as it is easy to do sometimes.

(By Mrs. Murray Julian)

SOUTH PLAINS, June 9 — Dr. John Freeman, interim pastor here, from Wayland, preached at both services on Sunday at the Baptist Church. He will be here for prayer meeting on Wednesday night at 7:30. Mrs. Freeman and children accompanied Dr. Freeman, and they were dinner guests in the home of Mr. and Mrs. Gene Morrison and Gary after church.

We were sorry to hear of the fall and broken leg of Mrs. Menard Fields of Floydada. The accident occurred last Saturday and she is in a cast now. Mrs. Fields is the mother of Mrs. John Wilson and Mrs. W. M. Stanforth Jr. here.

Wednesday morning at 8:30 farmers here will meet at the Morrison Gin for an insect instruction meeting and go on at 10:30 to the J. D. Webb farm to get some first hand information in the field.

Sixty-seven boys and girls were registered during the vacation Bible School, which closed with such good and interesting commencement exercises on Friday night. Mrs. L. T. Wood and Mrs. Bill Beedy acted as leaders for the group. There were 18 workers, including Mrs. Leighton Teeple, Mrs. Hansel Sanders, and Mrs. Jones Kinslow. Mrs. Sim Reeves acted as secretary. After the exercises everyone went to the parsonage where punch and cookies were served to all attending.

We extend sympathy to John Key West and family whose father, John L. West, 89, passed away in Floydada on Monday morning at 3 o'clock after a long illness. Interment will be in Floydada Cemetery after services at 4 on Tuesday afternoon. Dinner for the family was served at the Murf home on Monday in Floydada.

Mr. and Mrs. George West and Mr. and Mrs. Frank McClure went to Plainview on Thursday afternoon to see the colorful parade and later they had supper with George Beedy, after which all three couples attended the rodeo in Plainview which was held on Thursday, Friday and Saturday.

Many started cutting their wheat this week including Skeet Thornton, Raymond Upton, Ernest Spitzerman, and Early Pritchett. Last week barley was cut on the Leighton Teeple, J. D. Ramsey Support Is Wide - Spread

Eleven daily newspapers representing all sections of the state already have announced support of Ben Ramsey of San Augustine for re-election as Lieutenant Governor. Ramsey's headquarters reports.

"The soft-spoken East Texan has drawn strong backing from Texas to El Paso, and Ft. Worth to Victoria," says the announcement.

"Often, the electorate pays but little attention to the important office of Lieutenant Governor, often not considering the candidate as a potential governor," the Marshall News-Messenger commented. "In the case of Ben Ramsey there will be no fears. He is capable, efficient and his long, solid record has been built on honest, diligent and intelligent efforts."

Other newspapers supporting Ramsey include the Fort Worth Star-Telegram, Texasiana Gazette, Dallas Morning News, Victoria Advocate, Houston Chronicle, Nacogdoches Daily Sentinel, Kilgore News-Herald, El Paso Times, Lubbock Daily News and the Houston Post.

Grasshoppers Emerging. How wide-spread will the scourge of grasshoppers prove to be in this part of the plains? We should know quickly. One crop was emerging from the fence rows and pasture lands last week and the flicker of their wings is beginning to be heard. In some parts of the five-state southwest, a battle with grasshoppers is being joined by state and national agriculture departments on public land as well as on farms and ranches belonging to individuals. At the moment thrips and fleahoppers present the greatest threat to Floyd County cotton and the battle is being concentrated on these pests, which require a different type of poison bait. They are suckers, (is that right?) while the grasshoppers are chewers.

Use Extreme Caution. Floyd County farm lands are being sprayed with poison in ton lots and will be further along during the cotton growing season. The poison that will eliminate insect pests also presents a threat to animals and small children and to the elders who handle it carelessly. Use great caution.

Haste Makes Waste. Caution harvest workers this week in particular not to forget to be careful. Machinery with fast moving parts highly volatile gasoline, grease, heat, exhaust fumes, tall, dry stubble, all are present to trick and trap the harvest operator who forgets to think — who takes the short cut. Tragedy lurks in every field.

Texas Employment Commission has not endeared itself to plains farmers this year. The farmers want help in their fields. The Commission, evidently taking orders out of Washington, says hire some of the many thousand unemployed already in the state. Imagine a farmer trying to hire an unemployed mechanic or welder to work in his fields. That fellow either is (1) driving the wheels off his car trying to find the kind of a job he knows how to do and wants to do, or (2) he is drawing unemployment compensation. Meanwhile the man who wants help seethes. He knows there's lots of help to be had except for officialdom.

Most powerful man in the nation today is Walter Reuther, the fiery leader of the auto workers unions. And Reuther has political ambitions. He has counterparts in Texas. In this state the unions are using minority groups to further their ambitions toward political domination. It may be bad in Texas now, as is claimed, but we frankly do not think so, not had like they say. But you haven't seen anything until a junta dictates the affairs of a state. They tell you, they don't ask you.

The Modern Strike. In the modern strike the strikers do not know what they are striking about until they get a bulletin from headquarters. The power to call the strike was long since delegated. Our experience in the local telephone strikes leads us to believe the above statement to be true. There was considerable local disruption of business and there was irritation. Why should the public be punished in a disagreement between the employer and the employed? We thought it was pertinent to have the answers. What was the strike about? What were the issues? Nobody here knew, and The Hesperian's nosing into the affair apparently was resented. The only answer we had was that they had not got a bulletin on the progress of negotiations. Where from? St. Louis. Why the

public is not entitled to look behind the scenes and see what is going on is the mystery part to us. It's the public that takes the beating, and pays the bill.

WHERE'S THE AMERICAN SPIRIT?

(Queries Lyndon B. Johnson)

What has happened to the spirit of America?

Ten years ago we set out to answer the challenge of communist aggression. With a great sense of unity and determination, we dedicated ourselves to meeting strength with strength. Where people in the world were hungry, we fed them; where people were naked, we clothed them; where they were destitute, we shared our abundance.

This was a great show of America's spirit, the spirit of free men. And the world trusted us and respected us for it.

Eight months ago the communists challenged us anew with the firing of the first Russian Sputnik.

This time the American answer was slow in coming. There was no great unity, no immediate dedication. For each voice raised to say, "Let's move, let's get going," there were other voices raised to say, "Wait—let's not do too much."

Again, when our great economy began to falter, this same confusion, this same kind of cross-purposes, appeared in our midst.

When friendly neighbors began to ask questions about our policies, again this reaction came — division where once there was unity, hesitation where once there had been action.

Outbreaks of anti-Americanism have come in many parts of the world — in Venezuela, in Peru, in Lebanon, in France, in Canada, in the British Parliament, in Indonesia.

These are not hostile nations. These are people who have been, and must continue to be, our friends.

But what has happened? It is far too easy for us to say that the communists have been at work. That is more an excuse than an answer.

Many of these nations love freedom and loathe communism no less than we do. While the stone-throwers and the mobs in the street may be a minority, there was a day not long ago when these elements would not have dared attack symbols of American freedom openly.

What has changed? The American spirit has not shown through the gathering clouds. Boldness, courage, new ideas, new directions, new initiative — these have not been forthcoming.

This has not been the America that free men used to know, the America they could trust and respect.

The love of freedom — the zeal for freedom — must burn in men's hearts before it can be given meaning in a nation's laws.

We must rekindle those fires of liberty within ourselves before we can warm the hearts of other men in other lands to a new trust in America.

There is no single word that will answer the questions Senator Johnson raises. But two words, broadly speaking, do give the answer: Bargained Away. And four words tell what and where: Bargained Away at Washington. America has been most unfortunate in its leadership since the second administration of President Roosevelt. First, a sick man, then a self-willed man with too many friends of the wrong kind, and now a military idol, who delegates decisions, which when made, he calls his own.

The Women's Home Demonstration Hobby Show on Old Settlers Day had a nice turnout. I am sure if we had another try next year and invite the 4-H girls and boys to take part it would even be a better one.

Those attending the Ra's J. Chamber of Commerce Banquet from our community Friday night were Mr. and Mrs. O. F. Cummings Jr., Mr. and Mrs. Atkins, and Mr. and Mrs. John Fowler.

Mrs. Claude Porson of Dimmitt, Mrs. Thelma Jones and Mrs. G. H. Tardy of Floydada were guests of Mr. and Mrs. Harvey Tardy and LaNell Saturday. Mrs. Porson is the former Miss Cleo Cowan and used to teach school at McCoy, so I am sure a lot of fond memories were brought to mind from this visit.

Sorry to hear that the Wilson Edwards lost a very good workhand last week. They found the negro dead after he failed to show up for work Friday morning.

Mrs. Clarence Reddy, Mrs. John Fowler, Mrs. O. L. Bearden visited Mrs. Bearden's sister, Mrs. Joe Meador and Mr. Meador in Paducah Saturday. On their return trip to Floydada that evening we visited with Mrs. Reddy's mother, Mrs. Culpepper and husband. The Culpeppers had just returned from their honeymoon which they spent in parts of East Texas and Louisiana.

Mr. and Mrs. Major and family visited her sister, Mrs. Lloyd Pace and family over the week-end. The

Majors are from Borger. Mr. and Mrs. O. L. Bearden and Mrs. Clarence Reddy visited in Amarillo Sunday. The Beardens were guests of their daughter, Miss Thelma Bearden and Mrs. Reddy visited her brother, Mr. and Mrs. Doc Switzer, and her sister, Mrs. Thelma Blackwell and family.

We are happy to welcome Mr. and Mrs. Roger Poase and daughter from Borger back in our community. They are living in the Leo Davis House.

Mrs. Robert Smith, Mrs. Clarence Reddy and Mrs. O. L. Bearden were in Lubbock last week. Mrs. Bearden went back several days going around the clinic. I am happy to report that her report was good.

Mr. and Mrs. Keilar Holmes have had their daughters visiting them and I am sorry that I do not know their names, but I couldn't reach Mable by phone.

"I Cut 2,190 Tons of Ensilage From 104 Acres of Maize"

Leo Bezner, Bushland, Tex., says: "I put 2,190 tons of Phillips 66 Agricultural Ammonia plant on 104 acres of irrigated maize land. I cut tons of ensilage, or slightly more than 21 tons per acre. I use Phillips 66 Ammonia to help increase on all my cash crops."

Other Southwestern farmers have discovered the 82% nitrogen in top quality Phillips 66 Agricultural Ammonia helps them to get more profit per acre through higher yields and lower production costs.

They have found that, by using Phillips 66 Agricultural Ammonia, they get more cotton that grows higher at the gin; yields of sorghum grain and other crops are increased; more marketable vegetables are produced, and profits on wheat are increased by better forage, and higher yields of grain.

See your Phillips 66 Agricultural Ammonia distributor about profitable Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer.

TELEPHONE TALK

by J. C. Oakley, Manager

SOUTH PLAINS COMMUNITY

Within the coming weeks your telephone service here in Floydada will become more valuable to you than possibly it is today.

I know without a doubt that a lot of you in the Floydada area have friends or relatives living in the South Plains Community. Most of this area, as you know, is now without telephone service and in order to communicate with your friends and relatives you have to drive some 17 miles to do so or they must make this drive to communicate with you.

In the near future you will be able to call these fine people in this community and of course they will be able to call you and any other 1900 plus telephones connected to the Floydada telephone exchange.

There has certainly been a great deal of hard work done by a lot of fine people in South Plains as well as in Floydada to obtain telephone service for this community.

I know that each who worked on it will feel proud of the fact that their work did not go in vain, but that the goal that they set out to do was reached.

FOR PARENTS ONLY

Now that summer is here and the children are out of school, I imagine the family's telephone service is getting an extra-good workout.

I guess teenagers, and even the smaller fry, need the telephone more often during vacation months. They use it to line-up sand lot ball games, swimming parties, movie dates, and a good many other things, as we all know.

It would be hard to find a better time than now to order an extension telephone. Put it in a room where it will be handiest for the youngsters. They'll enjoy the privacy and so will you. Best of all, you'll save yourself no telling how many dashes to answer incoming calls that always seem to be for them.

To order an extension, just call the telephone business office, YU 3-2891. The cost is only \$1.00 a month for a residence extension, plus tax and installation.

MEMO TO BUSINESSMEN

I heard a businessman remark recently that he's going over his operations with a fine-tooth comb to trim unnecessary expenses. And one item he planned to cut was Long Distance.

I wonder if he wasn't making a mistake. I can understand the desire to cut costs. But, rather than cut Long Distance, he should use his telephone even MORE for out-of-town calling.

Many businessmen have proved it for themselves, and here's how: Instead of you or your salesman taking a day to visit several prospective customers in other cities, call them Long Distance. It saves travel on the highway, and turns travel time into selling time. And a telephone call is almost as personal as a visit and just as appreciated.

Try it yourself and watch the results. I think in the end you'll agree with our belief that Long Distance doesn't cost, it pays.

Call by number. It's twice as fast.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN. — Texas Board for State Hospitals and Special Schools is working toward getting a gold star when an economy-minded Legislature hits Austin next year.

Launching a new tight-purse policy, the Board reported to prohibit superintendents of individual state institutions from (1) using left-over funds without Board permission and (2) making any expenditure of more than \$1,000 without Board approval.

Sometimes individual hospitals develop surplus funds resulting from smaller patient loads than had been expected, or other reduced costs. New rule puts an end to no-strings-attached spending of such surpluses. These lapsed funds could amount to as much as one million dollars, according to Board Member W. G. Kirklin of Odessa.

Chill Wind—Hospital Board's move pinpointed the spot where the state's money shortage is expected to pinch hardest — administration of state's services.

A revenue shortage in excess of \$100,000,000 by next year has been freely predicted by various authorities for months.

A survey of the platforms of legislative candidates over the state shows a fairly consistent approach by these making statements on the revenue dilemma. General pattern of promises to voters:

(1) Continuation or, often, increase in state obligations for education, welfare payments, road building, soil and water conservation, etc.

(2) Opposition to certain new taxes or sometimes new taxes in general.

(3) Cuts in state spending by "elimination of waste, duplication and needless services by state agencies."

Actual achievement or near-achievement of this fiscal magic will put a real squeeze on every state department.

Not Me — Likelihood that someone may draw the "black bean" of new state taxes has group after group telling the State Tax Study Commission how overburdened they are already.

A spokesman for the Texas Motor Bus Association told the Commission taxes on that industry are heavy and discriminatory. He said many smaller lines were having to go out of business.

A representative of retired people asked tax relief for people living on pensions.

"We are no longer concerned with eating the goose that lays the golden eggs. Our goose was cooked when we lost our ability to work and earn," said W. B. Wood of Port Arthur.

On behalf of the Texas Association for Tax Relief for Texans over 65, Wood asked for tax exemption for the first \$3,000 of property owned by older people. He also opposed

increase in state obligations for education, welfare payments, road building, soil and water conservation, etc.

Republiant — Texas Supreme Court is considering the question of whether a former Democratic candidate is entitled to a position on the Republican primary ballot.

Grover Cantrell, Dallas labor leader and onetime Democratic candidate for the Legislature attempted to file against Texas' only Republican congressman, Bruce Alger. He called himself a "Stevenson Republican," an apparent parody of Eisenhower Democrats.

A lower court ruled that Cantrell, as a member of one party, was not entitled to seek nomination in another party's primary. Cantrell appealed to the high court.

Since there is usually only one nominee for each office, Republican primaries do not ordinarily attract a heavy vote. It is widely assumed that many Republicans cross party lines to vote in Democratic primaries where most state offices are decided.

Cantrell's candidacy is generally interpreted as a move to force Republicans to stay in their own primary.

Diesel Tax Change — Proposed revisions in the diesel fuel tax law are being planned by the State Comptroller's Department.

Next Legislature will be asked to change the law so diesel fuel taxes would be collected from the wholesale distributor rather than the user, said a Department official.

This is expected to make it easier for tax agents to keep track of consumption and purchases.

Comptroller's Department staffers admit that there are some evasions of the state motor fuels tax, but contend that Texas collects more per vehicle than any other major state. They discount as too large Sen. Charles Herring's guess that some \$25,000,000 in fuel taxes went uncollected.

Senate investigating committee looked into records in the Houston area to discover if small staffs, vague laws or insufficient penalties were causing the state to lose revenue.

Over the Hump — Texas' general revenue fund is back in the black, according to State Comptroller Robert Calvert.

During the spring, state expenditures got ahead of tax receipts. A month ago the fund was in the red by some \$1,250,000. But collection of corporation franchise taxes and insurance company occupation taxes during the month put finances back on schedule.

Now there's more than \$12,000,000 in the fund, said Calvert.

Ventilation, Moth Trap, Riches From Strawberries

(Fisherman) Marshall says something this simple would help the wheat grow an extra buck, I think probably one of our best routes to market our products is the freeze route. For things that are suitable they are the ones that bring the better money. Twenty or more farmers could build a co-op freezer storage, that would pay off.

Rhubarb is an item that is very salable. It is very easy prepared, cut into one inch sticks, place in one pint cottage cheese containers, fill with water and freeze. It will keep for years and make excellent pies, etc.

If some one wishes to plant five or more acres strawberries, I will donate the plants free for the good of the cause. These plants are from pedigreed plants.

I paid \$12 per thousand for the plants. It takes around 6000 plants per acre.

I would wash the plants day in strips two feet wide and leave two feet strips.

Strawberry plants must be watered each week to 10 or 15 days. They have shallow roots and if allowed to dry out they die very quickly.

God made this earth three-fourths water and one fourth land and being a fisherman, I understand he expects us to fish three days and plow one day.

L. A. (Fisherman) Marshall

Judge Hunt is a third generation Texas lawyer seeking the Position One post of Associate Justice of the Supreme Court of Texas to be vacated December 31, by St. John Garwood of Houston who is not running for re-election.

"The impact of decisions of the Supreme Court of Texas now and in the years ahead are of increasing vital concern to Texans in every walk of life," Judge Hunt said.

"It is therefore important that Texas voters weigh carefully the qualifications of those candidates seeking election to this high post," the veteran jurist added.
