

## Bureau Beauty Contest Slated For July 18th

The Floyd County beauty contest among the daughters of farm families is scheduled for Friday night, July 18. It was announced out of the Farm Bureau office over the weekend.

At the same time it was announced that Mrs. David Battey Jr. will be general chairman, and that committees were named to assist here. They are:

For decorations Mrs. Howard Gregory and Mrs. B. A. Robertson;

For publicity, Mrs. Wayne Battey and Mrs. Robert Lee Smith;

Queen crowning arrangements, Mrs. Ewald Quebe.

With an eye on the grand prize for the state winner an allowance of \$500 for expenses to the national Bureau Federation convention in Boston in December, interest is expected to be keen again this year. Last year 12 young ladies were in local competition to be chosen to represent the district.

Eligibility rules are simple. The contestant must be a daughter of one of the 700 Farm Bureau families actively engaged in agricultural production in the county. She must be 16 by September 1, 1958, and not over 22 on that date.

After the county contest the winner will compete in the district selection. A district winner and an attendant will receive an expense paid trip to the state convention this fall.

Mrs. Wayne Battey, announcing the plans for the contest, said each young lady should be prepared to give a one-minute answer to a question on some phase of a subject pertaining to the Farm Bureau.

Here are some of the questions which may be propounded to contestants:

Your family has a membership in Texas Farm Bureau, how long have they been in the Farm Bureau?

Is it your Daddy or a brother who is actively engaged in agriculture? What are his major crops?

How much do you help with the farm work?

What is your favorite housework duty?

What part of farm work or farm life do you like best?

Do you think that you would like to continue living on the farm?

Do you think that agriculture and ranching has an important place in our national economy?

Do you believe that we should build the soil as well as practice soil conservation?

In your particular part of the country, what factor causes most of the soil erosion?

How far along have you gotten in your schooling?

What are your future plans? If you get to complete your education, in what field do you expect to major?

What part does Farm Bureau play in your community life? In what way do you think Farm Bureau can best serve your family? Why are you glad your family belongs to Farm Bureau?

**Flenniken Family Attending Cowboy Reunion This Week**

She is sponsored by Floydada Chamber of Commerce and will take part in social functions marking the annual event as well as in the contests.

The Flenniken family left Tuesday morning for Stamford. Flenniken, the Lakeway girder, is also entered in the roping events at the amateur contest.

Tommy, the married son of the family, also will be present and competing for roping honors, and his wife, Helen Dean Flenniken, will be a contestant in the barrel races.

**FHA Title I Loans Offer Local Opportunities For Modernizing**

A five or ten year lease on the building will let the businessman plan for the future. To find the per year cost of his modern front the merchants should divide the cost of the front by the number of years he has the building leased.

Local businessmen and landlords must wake up to their responsibilities of keeping their own communities alive and growing.

"Local businessmen and landlords have a suggestion to talk to their lumber dealer, architect, and banker about modernizing their business building this year and assure Floydada citizens a better town to shop in and live in". Committee chairman W. P. Patrick said this week in his clean-up announcement.

Interesting Personality. Bok Sin Lee, a North Korean lass who fled the Communist terror, is spending the summer in Floydada. Currently she is guest of the L. T. Hickerson family. A student the past year at McMurry College she plans to attend American University in Washington, D. C., this winter. Here she is shown with Mrs. Hickerson as they pause in the day's work for a bit of chat. (Photo by Kenneth Rimmer)

## Korean Miss Who Fled Home Land, Spending Summer Here

A North Korean young woman is guest this summer of a Floydada family. After being here only a few days she has made many new friends and said the warm friendliness of the Floydada people has made her feel most welcome and at home.

Bok Sin Lee is a student at McMurry College and is employed at the Floyd County ASC office. She is staying with the Pete Hickerson family, whom she met after coming to this country, and fits into the home like she has been there all ways. Bok Sin said, "I feel as if I have found my home here."

Born in Daek Chun, N. Korea, in a mountain area, Jan. 29, 1935, Bok Sin completed her high school education, attended the Pun Sun University for a year and one-half, going to school at night and working days.

She worked for the radio station in her home town, Pyona Yanz, N. Korea, and served two years as Army nurse in the Korean 8th Army Division. Most of her duties were beyond the battle front, but one of her nurse friends was killed after being transferred to Pan Min Jun.

While serving in the Army and in college, she and a few of her friends built her a one-room house where she lived while away from her family.

During the Korean conflict Bok Sin's father passed away in 1950. Fearing for her safety her mother advised her to leave their home in North Korea and move with others to the south part. The town itself had been bombed to wreckage, but the Lee home was still intact, out in the country, and camouflaged from the air by growing trees.

The group, fifteen all told leaving South Korea, were only a few hours ahead of the communists. They walked over 80 miles being on the go four nights before reaching safe territory.

Her mother didn't leave North Korea at the time, as her younger children were in another section of the country with relatives. Since leaving there in 1950, Bok Sin has not heard from or has not had any news of her mother, two sisters and a brother the children all younger than she.

Arriving in safe country, Bok Sin was helped by a Chaplain C. Johnson.

## Safe Highway Driving Hints Given July Fourth Motorists

To millions of motorists, the long Fourth of July weekend brings promise of a fun-packed three days of fishing, swimming, boating, golf, camping and other recreation.

The long holiday weekend also will spell tragedy to some of these motorists because they failed to observe the safety code of the highway. To help reduce the holiday accident toll, these suggestions are offered for all drivers:

1. Never pass a car on a hill or a curve where your vision is restricted.
2. If children get out of hand, pull your car off the road and come to a complete stop before administering discipline.
3. Keep on your side of the road, even though no other car is visible.
4. Always give the other fellow more than his share of the road—and be careful of careless drivers who are overanxious to reach their destinations.
5. Be extra cautious when driving on unfamiliar roads.
6. If you stop along the highway for a picnic or to sightsee, pull your car entirely off the road.
7. Never pull out into traffic without first looking to see that the way is clear.
8. Come to a complete stop when entering a "stop" street or when emerging from an alley or private drive.
9. And, of course, don't mix alcohol with your fireworks fun.

## Business Complexion Changing; Three Firms Have New Managers

Changes in business management in Floydada came fast this week. Three important firms announce changes two of which have become effective since Monday and the third takes place Monday.

Ernest Huckabee is the new owner of the Patterson Grocery & Market, Dean Davis has succeeded Bob Finley as manager of Piggly Wiggly and Louis Anderson will succeed Mitchell Parrish as manager of Boal's Department Store Monday.

Announcement Monday at the Piggly Wiggly store in Floydada named Dean Davis as new manager of the local super market. Davis was on the job assuming his duties as of that date.

Parrish came to Floydada in November of 1954 when the Floydada store was opened and has served as manager since that time. In the early spring he was elected to (See Business Changes, page 6)

as to their plans past this point except they would continue to make their home in Floydada for the time being, at least.

Dagley is survived by his wife, the former Woodine Melver; his mother, Mrs. Jim Dagley, Lockney; five sisters, five brothers and his grandmother, Mrs. Nancy Dagley, a pioneer Floyd County resident.

Durham died enroute to the Methodist Hospital after being removed from the wreckage. Dagley's body was pinned in the wreckage for about two hours before it was freed by law enforcement officers. It was not known which man was piloting the Paper Super Cub.

Dagley was born at Lockney Feb. 1909, and moved to Lubbock in 1925. A veteran pilot before entering the service, Dagley served in the Navy Ferry Command and was discharged a lieutenant.

After his release from service he operated Dagley Flying Service near Lubbock and more recently he operated Dagley Aircraft Spraying and Dusting Co. He was widely known as "Dag" Dagley.

He was a member of the Masonic, Elks and Knights of Pythias lodges, and the Rafter class of the First Methodist church.

Funeral service for Dagley was held Tuesday morning in the First Methodist Church at Lubbock, with burial in Tech Memorial Cemetery.

Rites for Durham were conducted Monday afternoon in the First Baptist Church at Carlisle with interment in Lubbock Cemetery.

Authentic Chuck Wagon. The young citizens of Boys Ranch at Old Tascosa are rightly proud of their new chuck wagon, complete with mule team. When they're on a parade, 16 boys on horseback are outriders, two dressed as prospectors appear with three Mexican burros. On trips they eat supper from the chuck wagon, bed down and then have an old-style breakfast next morning.

## DELINQUENT ROLLS City Is Faced With Many Claims Of Certificate, Receipt Holders

Cleaning up a delinquent tax roll and getting a set of tax books on a business basis is a considerable chore and has some headaches. City of Floydada officials and office personnel are finding out.

Mayor J. M. Wilson Jr. said this week the recent notices to delinquent owners of property on the rolls, has stirred up considerable interest and occasional indignation.

Also they are revealing some taxes that have been unpaid for more or less years of which the property owner is unaware; likewise revealing instances where taxpayers have paid and have not been properly credited.

Wilson said the council will consider all the various and sundry claims at their regular July meeting. Meanwhile he is suggesting, at the instance of the council, that those who have receipts which show payment and those who have certificates of taxes paid, leave their names and the type of proof they have at the city hall to be listed at the secretary's office.

The council is expecting that a more modern system of keeping the tax records, just recently installed, will eliminate errors, at least reduce them to a minimum. With this new system a taxpayer who fails to pay his taxes by the end of the period when the property must be put on the delinquent rolls will be put on notice with a notice from the city secretary.

The delinquent roll, in addition to showing numerous pieces of property as being unpaid, and on which the owners have receipts or certificates, also are revealing instances of failure to pay over a number of years. This is especially true as to personal property assessments.

Several delinquents have paid up, it was learned at the city hall. These, along with the unhappy property owners who think they have paid, have made it more than a mildly interesting period for personnel at the city hall, according to report.

Mayor Wilson said he hoped the property owners would be patient while the city is clearing up its delinquent rolls. Those who owe should pay, of course, and those who have claims will have their fully gone into by the city council in due time, and will be given every consideration.

The delinquent rolls were completed by a tax expert and do reflect what the records show. Wilson pointed out. Nearly \$25,000 in taxes are shown as delinquent, much of it on personal property.

Collections have been fairly good.

**Capada Fireworks Display July 4th**

Capada Drive-In Theatre will again stage a fourth of July Fireworks display during their evening show on the fourth. Doyle Mount, manager of the theatre, says there will be a variety of fireworks set off between shows so that all corners may see.

Feature attraction for the evening will be "Last of the Fast Guns," starring Jack Mahoney.

**God's Little Acre** July 6 and 7, which is Sunday and Monday, the feature will be "God's Little Acre." This popular movie is one of the outstanding shows of the month at Capada.

Stars are Robert Ryan, Aldo Ray, Tina Louise and Fay Spain. The story is of a Georgia farmer and family as they till the soil and also look for gold.

## Heavy Rainfall In Most Areas Aid Row Crops

A marvelous wheat harvest is 95 per cent completed, a pronounced movement of the onion crop has gotten under way, and fine rains have practically blanketed Floyd County's flourishing row crops with ample moisture, and cattle are on good grass.

That paints a pretty picture for Floyd County farm lands, gives promise of more good local business and a lot of jobs for the working man.

Even in the storm-buffed section of the county the situation looks better than it did a week ago. Practically all of the wheat that had not been harvested was finished up Saturday, Monday and Tuesday.

There was a big movement of grain to the Daugherty elevators Saturday and Monday. Tuesday was a clean-up day on many farms. Combines by the score were in the fields.

The combines moved slowly and got nearly all the grain, which was "tough" in the husk and was little shattered by the buffeting of torrential rain with fine hail that peppered the area. There was no field called a complete loss. Yields salvaged ranged from 12 to 25 bushels. Grain was light, 55 to 60 pounds.

Ned Bradley, Greer Christian, G. W. Smith, Durris Jones, Mac Ward, C. R. Woodson, F. L. Gresham were probably chief among the wheat and row crop losers in a scope of country, roughly five miles wide by 15 miles long in this county. The rough weather also silted off into southwest Motley, Northwest Dickens and northeast Crosby.

Harry Lang, plant pathologist of the Lubbock Experiment Station, who spent Wednesday of last week in the damaged section and visited some of the farms there again Monday, termed the storm the worst he has seen since he has been on the plains, according to stories released out of Lubbock. He has been here five years. He says that and the next day after the hail did almost as much damage to cotton as the hail.

### Janice Kay Boerner Gets Coveted Award At Arizona State

TEMPE, Ariz. — Janice Kay Boerner, 21, has received the coveted Moore Award as top scholar for four years at Arizona State during the annual honors assembly.

Daughter of Mr. and Mrs. Frank J. Boerner, 5235 N. 15th St., Phoenix she was presented \$50 in cash at the assembly where a number of students were given honors, awards, and scholarships.

The address was delivered by Dr. Ernest L. Parker, professor of animal husbandry. He was selected by his fellow faculty members for the honor.

Miss Boerner, an English major, plans to begin work on her master's degree this summer. She is applying for a graduate assistantship to complete the degree. Her goals are a doctorate and high school English teaching post in Phoenix.

"I can't impress too strongly upon high school students the importance of study," the pretty award winner said.

A native of Floydada, Tex., but Phoenix resident most of her life, Miss Boerner was 1934 salutatorian at North Phoenix High School.

Sister Anne, 17, apparently takes the same attitude toward book acquisition. She will be valedictorian at North High's June 5 graduation exercises. She has won a Board scholarship to the University of Arizona.

**Reveal Wedding Date**

**SAN DIEGO FAMILY PAY VISIT TO KINSMEN HERE**

Mr. and Mrs. Ben E. Blackmon and children, Cris, Chuck and Connie of San Diego, Calif., have been guests the past two weeks of their mother, Mrs. Sam Hale and Mr. Hale and with her parents, Mr. and Mrs. B. Woody in the Dougherty community. They also have visited with her brother, Harold Woody and family in Floydada.

The family plans to leave here possibly Thursday and will go by Abernathy to visit with a brother of Mr. Blackmon, before continuing home.

**ROCKFORD ILL. DAUGHTER VISITS IN THE MAYO HOME**

Mr. and Mrs. Larry E. Hodges and daughter of Rockford, Ill., left this past week-end to return home after visiting in Floydada with Mrs. Hodges' parents, Mr. and Mrs. D. T. Mayo. Other guests in the home during that time was a son, Gayle Mayo and family of Irving.

Mrs. Hodges and her daughter spent some two weeks here while her husband was at Fort Sill, Okla., teaching. Hodges is a reserve officer of the Armed Forces.

Mrs. J. B. Claiborne of Lamona spent from Friday until Tuesday of this week with her mother, Mrs. J. O. Wood. Mrs. Claiborne is doing nicely now having completely recovered from grave injuries resulting from a car accident last year.

It's getting harder and harder to seem queer. There was a time when the proper way to live and think was set by our community. Anyone who varied the pattern of activity was considered a little off base.

But these days a fellow can just about cut his own pattern. If he's reasonably considerate of family and neighbors, he can go around clad only in trousers and sandals -- and folks will hardly notice. If quizzed about his attire, he has only to give a sensible-sounding excuse, such as need for sun on skin, or an allergy cured by racoon fur.

He may set as his chief aim in life a new record for holding his breath; growing bigger gladioli; or carving tiny wooden figures. He can paint butterflies, swallow fire, be a flagpole sitter, toe dance, or clean out swimming pools for a living -- and still be accepted as a normal person just so long as he seems to enjoy it.

Some recent news stories started us thinking about these things. A woman has set a record for church attendance -- an unbroken score for 83 years, all in the same little church. A Yugoslavian girl has broken the high jump record for women. A New Yorker keeps 49 dogs in her home because she can't stand to have them tied up; police uphold her right to spend \$30 a day on dog food, and live in a menagerie, provided she'll clean the place so it's normally sanitary.

Personally, we don't want to keep half a hundred dogs, jump high, or spend an entire life time in one place, but we cherish that right for others. Takes all kinds to make up this wacky world.

**TWENTY BROWNIES ENJOY DAY AT HARMONY MEETING**

An all-day Brownie Girl Scout meeting of Troop 11, was held Monday at the Harmony Community Center. Back lunches were brought and enjoyed at the noon hour. Games and hikes were also enjoyed by the twenty girls present.

Mothers meeting with the group were Mrs. Jimmy Wilson, Mrs. M. J. McNeill, and Mrs. W. F. Patrick.

Other guests in the Henry home last week were supper guests on Thursday, Mrs. Joan Lewis and children of Canyon and Charlie Moore of Holdenville, Okla.

**FORT WORTH GUESTS**

son, who in turn introduced her to Carroll Jones, now of Surrency, Tex., who was with two Floydada youths, Keith Armstrong and Bob McGuire, in Korea at the time on a mission for CROP.

Through the help of Jones and Methodist churches of this area, Bok Sin left South Korea Aug. 10, 1936, by plane and arrived in Seattle, Wash., the 13th then to San Francisco and on to Amarillo where she was met by the Jones family.

The following semester she was admitted to McMurry College where she is now majoring in International Relations, pertaining mostly to the middle east and far east problems.

Her dream is to return to her stricken country and help in any way she can and possibly some day be in an embassy in a foreign country.

Bok Sin is a talented and delightful person. She speaks seven languages, French, Russian, Japanese, Chinese, German, Spanish and English and her own native tongue.

She is a member of Delta Beta sorority at McMurry, sings with the Chorus there, plays the piano and does sketches. She also writes short stories and poetry. She won first place for a short story in McMurry College magazine, published semi-annually.

Her immediate plans after working in Floydada this summer is to attend the American University at Washington in September.

The Hickerson family met Bok Sin in September of last year and again in December when the youth Department of the First Methodist Church sponsored a trip for her to Floydada. The invitation extended her by the Hickersons to spend the summer here was gratefully accepted.

"It has enabled me to meet new friends and to deepen my friendship with those I have already met," Bok Sin said.

## Onion Crops Are Moving

Onion grading machines set up shop all over the county the latter part of last week. Yesterday crews were at work in Floydada. Newest operator here is the S&H Onion Shed, owned by Buck Hickerson, J. S. Hale Jr. and L. D. Simpson. They opened up Tuesday in the Massee Wholesale House on the Industrial Switch. They leased the building from Hollis Bond. Their first run was on onions from the Simpson field. L. R. Russell, of Colorado Springs, is handling their sales.

W. E. Jordan, of Griffin & Braun, who is handling sales for Floydada Growers & Marketing Assn., said that onions from five or six fields were being processed Tuesday. The percentage of No. 1 onions is running high, he said. Production is from a low of 200 sacks to a high of 650, so far. Both white and yellow grades are being harvested, along with a few Bermudas.

Several farmers will process through an onion shed set up on the W. H. Simpson farm at Harmony.

At Barwise the shed has handled some onions from four fields, Barbara Barnard said. The crop is of good quality, but the tonnage is

## light, 200 to 300

Later there will be Barwise.

Price-wise the crop is running at \$2 to \$3 on as reasonably high profitable as high enough.

### VIEWSON COMMENT

**At Least Interesting.** From Marco Polo down, the pages of history are filled with the reports of roving reporters, whose stories, partly truth, with a dash of imagination, have become accepted as historical fact. Coronado's man Friday started the talk about the Staked Plains, and Buntline, the Philadelphia dandy, who came west in early Buffalo and Indian days, made up quite a bit of the accepted lore of mining camps and hunting escapades. In latter days newspapers put rovers around over the country to print interesting yarns about the people they see and the stories they hear with a twist of human interest. Frank X. Tolbert, who has twice traveled around the perimeter of Texas just to see if the boundary posts are there, also makes forays into the hinterland from his air-conditioned office in The Dallas News building. The heat appears to affect him at times but he does print interesting pieces about things that are and what he heard used to be.

One of Tolbert's late yarns repeats that old canard about how Floydada got to be named Floydada. He is half right, which is more than most newspaper men get credit for being — right so, for all we know since one is his own fraternity's poorest critic. Tolbert recites about Dolphin Floyd, the bachelor who died at the Alamo, and for whom Floyd County was named. Then he adds — the easy way out — about the Ada being for Ada C. Price. The fact that Billie Montgomery, Colonel Massie, J. D. Starks, Judge Duncan, Doctor Andrews, and others who were here when the town was named, gave the story another way, doesn't make any difference. Floydada is stuck with it. The Tolberts win going away. They always have.

Did you read Senator Andy Rogers' announcement in last week's issue of The Hesperian? It has food for thought, for uneasy thought. What it lacked for the average man to get his teeth into was somewhat of a pin-pointing? When you got through reading what the Senator had to say didn't you have a sort of an uneasy feeling that all is not right? We did. We intend to support Senator Rogers. Report has it that he is most thoroughly honest. But not all other men in state government can be unfaithful to the trusts they swore to uphold. The senator writes with a facile pen, shoots with blunderbuss, a splatter gun. He makes one want to tear something or somebody apart. For purposes of strategy perhaps he has to bide his time to be specific to spring the trap. We have no doubt the senator has been offered a chance to be a good boy. The stakes are high and many men think that money can do anything. So that honesty, the kind of honesty that doesn't merely look the other way, is at a high premium. The senator tells us that all still is not well at Austin. We'll heed him and go with him but there has to come a time when the chapter and verse are recited.

Planning For Accidents? Many people this week are making their plans to go too far and stay too long during the Fourth of July

holiday. One hates to repeat the stark fact but many a family which thinks it is planning for a holiday of fun and recreation is in fact making plans for an accident and crippling injuries. They are going to travel too hard, too long, too far, or they are going to meet a date that may make them disregard the rules of safety.

What the Big Three and Mr. Reuther of UAW have been forgetting in their forever yak, yak, which they call negotiations, but which may be just a frame up, is that the lifeblood of the automobile industry flows out where the thousands of dealers present the finished product to the millions of prospects. That's where the industry gets its cash to operate, the working man his take home pay, his fringe benefits. These dealers put America on wheels. People are beginning to realize that the huge concentration of auto making power has made it possible for the Big Three and Big Labor to belabor the dealers and make them "take" a great deal they wouldn't take from anybody who did not have a strangle hold.

Floydada can share more largely in the \$20 billion spent for tourist travel if it will work harder to support the efforts of the Highway 70 Association. The association is not the biggest one in the country, it has had to fight some bad situations in some states, but most of this is behind now. Highway 70 travel is more pleasant from end to end than travel on any other route from end to end that takes one across the continent. Chas. Hassing, the Oklahoma banker, who is president, says the association is solvent. He recites any number of accomplishments in the past year that will be helpful in corralling the Tourist Dollar by communities on the Route. The communities which fare the best are those which have something out of the ordinary to arrest the attention of the traveler and get him to stay that extra half hour. When one is traveling, it is spend, spend around the clock. Somebody come up with an idea for Floydada that will catch the fancy of the traveler. Fist Ansley at Amarillo corralled some prairie dogs in a "dog town" that has made him many a customer. People from Maine to California fall for that one. And get they money's worth. Good ideas pay off.

Some person said the goddess of reason has no temples in the realm of politics. But the nearest approach to reason in the game is to accept the verdict of the majority as right and do it gracefully. Often the majority is wrong and finds out that it is wrong. The next time they can remedy matters, but meanwhile the voice of the people has been heard. Those who lose in politics always can live to fight another day, and may win when that time comes.

Whoever will be free must make himself free. Freedom is no fairy gift to fall into a man's lap. What is freedom? To have the will to be responsible for one's self. — Stirner

Special group sessions will be held for those with specific interests — such as educators, ministers, welfare and social workers, law enforcement officials, labor and industry, and those interested in the community aspects of the problem.

Though student attendance will be largely drawn from those whose professional work brings them into contact with alcoholism, anyone interested in the subject for whatever reason is eligible to attend. It is anticipated that all will carry back to their communities the latest available information concerning this complex illness and that they will apply this knowledge in combating the menace of alcoholism — now recognized as the third most serious public health problem confronting our nation.

Sessions of the Institute will be held in brand-new, ultra-modern completely air-conditioned Kinross students will likewise be boarded and housed. Registration fee for the Institute is \$25, and board and

## Unusual Quest Is Hunt For Washpot Left In Floydada

Robt. W. Castleberry, who taught chemistry and physics 1922 to 1924, in Floydada High School and went to Amarillo in 1925, was in town on an unusual mission Tuesday.

He was hunting an old-fashioned washpot that belonged to his mother's grandmother. The family brought it to Floydada and had to abandon it here in 1924. His landlord was probably J. H. McMurry and the pot was left on the premises where he lived.

Now he would like to have the old-fashioned chunk of metal back in his possession again. It dates further back than the pot-bellied washpots one sees, nowadays, although even these are largely discarded. The old pot may have been sold to the junk man in some now forgotten junk iron drive, Castleberry reflects. On the other hand, it might still be around.

When Castleberry was here J. C. Wester was principal of the school, J. N. Johnston the superintendent. Since leaving Floydada Castleberry spent 15 years in Alaska, has had two hitchhikes in the U. S. navy, got a master's degree at the University of Texas, and met and married a wife in the Dakotas.

He and his wife now operate a motel in Amarillo and make their home there.

Chippy Griffin and family of New Orleans, La., accompanied by his sister, Mrs. Garland Foster and children of Floydada were in Odessa last week where they were attending a family reunion. While at Odessa they were guests of a brother, Riley Griffin and family and a sister, Mrs. Clarence Oster and family.

Mrs. W. H. Seale was in Plainview a few days last week visiting with the J. W. Smith family.

## Major Advances Claimed For Texas Farm Legislation

AUSTIN — A major advance for the Texas Department of Agriculture was claimed by Commissioner John C. White this week with the announcement that Texas now stands first among 12 southern states in the amount and enforcement of farm legislation.

"Since 1951, we have jumped from seventh to first position in modern farm laws," said White. "These legal provisions have enabled us to increase our service in Texas by as much as 300%. As a result, Texas can no longer be regarded as an agricultural dumping ground for inferior products from other areas."

The 33-year-old commissioner, who is seeking re-election to the top farm job in Texas, added that "ten years ago we were a convenient garbage pail for the nation. Today, we can put more trust in our own production and know that farm goods shipped into the state must meet certain quality standards."

"Our goal during my past seven years in office has been to increase state services without making constant demands for new tax money," White stated. "The cleanup of the state grain scandals, better seed laws, more effective insect control and establishment of a market news service are just a part of the accomplishments under this system," he added.

Born and raised on tenant farms in North Texas, White said that "the challenge today is for even greater progress in our most vital industry—agriculture. It calls for devoted and experienced leadership in the future."

Before election to office, Commissioner White was head of the Department of Agriculture at Midwestern University, Wichita Falls. He and his wife and three sons now live in Austin.

## Vet Land Buying Volume Climbing

AUSTIN — More veterans are buying land every month through the Veterans' Land Program, Land Commissioner Bill Allicorn reported this week.

In March, the Veterans' Land Board bought 37 tracts of land for Texas ex-servicemen. In April this number increased to 95, and in May the Board bought 127 tracts.

Through June 30, 118 tracts have been purchased through the Program and before the month is ended, this figure is expected to rise to 175.

In October, the Board expects to level off its purchases at about 350 tracts a month Allicorn says.

This land is being bought with money from three sales of Veterans' Land Board since December, 1957, which have made \$37½ million available for land purchases.

Mr. and Mrs. Leroy Burns and children returned home Sunday from a two weeks vacation spent in California. Mrs. John Burns, mother of Leroy who accompanied them on the trip, remained to visit with her daughters.

The Burns' said the temperature was 116 degrees through the desert.

Mrs. G. E. King, mother of M. S. Emmitt Dutton, was quite ill last Friday, but is reported by the family to be greatly improved this week.

**STATE CAPITAL**  
**Highlights**  
 AND **Sidelights**  
 by Vern Sanford  
 TEXAS PRESS ASSOCIATION

AUSTIN — Texas has a fairly new addition to its long and much-vaunted list of "firsts" and "mosts." But this one's no fun to brag about. Texas has the greatest number of designated potential enemy bomb targets of any state in the union, says State Defense Coordinator William L. McGill.

This added to Texas' long-standing record of leading the nation in natural disasters, puts a heavy responsibility for defense preparedness on Texas. McGill told the annual State Defense Advisory Council conference in Austin.

Officially designated "arming areas," as they are called, are Fort Worth, Dallas, Houston, Austin, San Antonio, Galveston, Beaumont, Port Arthur, Amarillo, Corpus Christi, El Paso, Laredo, Lubbock, San Angelo, Waco and Wichita Falls.

Others considered possible targets because of nearby military installations are Abilene, Beaville, Bryan, Wink, Big Spring, and Brownsville, Dalhart, Del Rio, Kilbuck, Marfa, Pecos, Phobe, Sherman, Victoria, and Wink.

Texas has received a \$320,000 federal grant, conferees were told, to draw up a state Survival Plan. Several larger city plans are complete, and the state plan, a massive and complex thing affecting the lives of millions, is due to be finished by December 31.

Rural residents cannot feel themselves invulnerable, the Council was told. In case of a large-scale bombing, it is felt likely that radioactive fallout would cover most of our terrain, contaminating crops, cattle, pasturage and ponds.

Under the present national civil defense plan, considerable responsibility for advance training and preparation rests with the individual family. Each would be responsible for feeding itself for the first two weeks of a post-disaster period. After that, state and local government would take over for two weeks, and after that, if necessary the federal government would step in.

Persons or organizations wanting to obtain official civil defense information and study materials may write the State Defense and Dis-

ter Relief Office, Capitol Station, Austin.

**Price Ads Ok Again** — In a rare reversal of one of its own rulings, the Texas Supreme Court has held it is not unlawful for optometrists to advertise the prices of their eye-glasses.

Last spring the court upheld a temporary injunction issued by a Beaumont court prohibiting Lee Optical Co. and others from advertising prices. Suit was brought by a competitor, Texas State Optical.

At issue was how to interpret a law passed by the Legislature in 1937 barring optometrists from advertising that is "fraudulent, deceitful, misleading . . . including statements of bait, discount, premiums, price, gifts . . ."

In its more recent ruling the court decided, 7 to 1, that the apparent legislative intent, or sense of the thing, is only to prohibit price advertising that is false or misleading. Effect of this is to knock out the injunction against Lee Optical.

**Hot Potato** — Atty. Gen. Will Wilson is being asked to give an official ruling on a highly controversial question.

It is whether Texas, under present law, can accept additional federal funds to extend the period of unemployment payments. Texas Employment Commission and Gov. Price Daniel are asking for the opinion.

Pets and cats already have been the subject of heated discussion. A recently passed federal law would allocate to the state, funds to provide an additional 12 weeks of \$11-a-week payments to persons who had already come to the end of their 24-week benefit period. An estimated 60,000 Texans are in this category.

But to receive this money, the state must repay the funds to the federal government. If it doesn't get the money by some other means, such as the normal accumulation during high employment periods, it would be pledged to raise the tax on employers after Jan. 1, 1943.

Some argue that this would violate the constitutional prohibition against pledging the state's credit. Others say there is no obstacle since the state merely serves as a collecting and disbursing agent for the federal government, with no state money involved.

Spokesmen for organized labor have strongly urged that Texas enter into an agreement to receive the extra money.

**Free Rides Eyed** — State Auditor C. H. Cavness, watchdog of departmental spending practices, has questioned use of railroad and bus passes by Railroad Commission employees.

Commission Chairman Olin Cul-

bert declared the passes were used only for official business. Use of passes for state business is specifically authorized by law for certain Commission employees.

Cavness noted that 39 employees had passes and that some apparently had not traveled on state business during the past year, and he felt it violated the new code of ethics law which prohibits a state employee's using his official position to receive special privileges.

**Holiday Heartache** — Department of Public Safety predicts 28 Texans will die in traffic accidents during the July 4-5-6 holiday week-end.

Col. Homer Garrison Jr., DPS director, said the Highway Patrol would do all in its power to make the prediction false. Every available patrolman will be on duty, plus extras from the licensing and weights and vehicle inspection divisions, to remove dangerous drivers from the roads.

Beyond that, said Garrison, it's up to each driver to do his part by following the law to the letter and not trying to drive too long.

**New Assistants** — Atty. Gen. Will Wilson has named four new assistants to his department.

Two who will be on temporary assignments are Clyde Kennedy of Rosenberg and Neal R. Allen of Amarillo. Kennedy is to become Port Bend County judge next January.

Other two appointees are Robert Hamilton Wells of San Antonio and Richard Owen Jones of Wichita, Kan.

**Short Shorts** — Payments to jobless Texans took another substantial drop, according to Texas Employment Commission's latest report. Total claims dropped from 80,229 to 76,889. It only looks bad if compared to the 32,432 claims of a year ago. . . . Ben Jack Cagle and 143 other persons in some way connected with the rise and fall of ICT Co. are being sued in a Travis Co. district court for \$15,000,000. Suit was filed by V. F. Taylor, court-appointed receiver for ICT, on behalf of ICT's 60,000 creditors.

**State Bar Will Gather July 2**

SAN ANTONIO, — Floydada attorney Richard F. Stovall, member of the State Bar board of directors, headed a delegation of Nineteenth Congressional District lawyers to attend the Texas Bar's 76th annual meeting here, July 2-8.

State Bar president Virgil T. Seaberry of Eastland, predicted an attendance of some 2500 lawyers and their wives during the meeting in the Gantner Hotel. Stovall will also attend quarterly sessions of the board of directors, to be held on the first day and at the conclusion of the four-day meeting.

Some 50 speakers of state and national prominence will be featured at various general convention assemblies, luncheons, dinners and section meetings.

The final assembly Saturday, July 5, will feature an address by W. St. John Gaswood, retiring Associate Justice of the Texas Supreme Court; and presentation of the 1938-39 State Bar officers: President Leo Brewster, Fort Worth; President-Elect A. J. Polley, Amarillo; and Vice President Paul Carrington of Dallas.

## Protection Measurements

Everything we buy in the main course of Sunday is bought in terms of measurement. And the accuracy which function to give us when we patronize correct measurement is a matter of importance.

Such protection is not accidental in its accomplishment. Since 1951, when I first took office, frequency of weights and measures violations have decreased in some instances by as much as 300 per cent.

For example, in 1951, about seven out of ten pre-packaged food items

such as meat, poultry and cheese were incorrectly marked as to weight; during 1957, an average of only three out of ten were found incorrectly marked, and two of these were very apt to be in the buyer's favor.

In another area of major consumer expense where measure is of great importance -- gasoline purchasing -- an accuracy improvement over 100 per cent has been effected since 1951.

Seven years ago, the state average for faulty gasoline pumps was 1 out of every 4.5 inspections.

In 1957, a total of 43,203 Texas pumps were checked and only 4,823 were condemned for repairs -- averaging 1 for every 9.1 pumps.

To have achieved such results has not been without effort. Last year, we pushed our record to a goal of 574,081 inspections of weight and measuring devices -- ranging from tiny, intricate pharmaceutical scales to ton-unit hopper scales. This is almost twice as many inspections as the 299,201 made in 1951.

With this increase in services has come the resultant increase in protection. And added experience, increased legislative support, and encouragement from all Texans has made this possible.
