

Board Plans Operations In Fall

County Weed Control District is making plans for this fall. Coordination and programs of being developed with Commissioners Court and Highway Department in control of Johnson Grass

County Weed Control Board has had several petitions about the latest directive of the department in regard to plowing of weeds in the "right-of-way," said Robert L. Smith, chairman of

CONSERVATION DISTRICT NEWS

"We have contacted the highway department about this matter and they said in no uncertain terms that plowing up right-of-way must stop. They did agree that where the farmer was making a determined effort to control bindweeds they would enter into control measures on their adjacent right-of-way, but only on bindweeds. Johnson grass and other weeds would be mowed or clipped as time and finances would permit," Mr. Smith reported.

Any person who has treated or is treating bindweed may submit a request for bindweed control in the state right-of-way to the Texas Highway Department.

These requests will be accepted in the County Agent's Office until a Weed Supervisor is appointed, and will be combined and forwarded to the Highway Department.

The following information will be necessary on the application:

Block and Section Number, Highway number the weeds are located on.

Location from highway intersection and location of bindweed from corners of section.

Floyd County Commissioners Court has agreed to cooperate in the weed program in the treatment of Johnson grass and bindweed a long county road ditches. Plans for the joint program will be announced at a later date.

The board is considering applications for weed District Supervisor. Any interested persons should make application to Floyd County Weed Control District, Fred Battey, secretary, Floydada, Texas, by the first Tuesday in August.

Generator Unit For City Power Plant Arrives

City of Floydada's new engine generator unit arrived in Floydada July 4 and this week has been moved into the power plant building adjacent to the city hall.

The big Superior engine was shipped from Springfield, Ohio, on June 30 and arrived by way of the Frisco lines. The big engine created quite a bit of interest and had lots of lookers as it was being examined prior to its installation in the plant at Producos Co-operative Elevator.

Inman Construction Company of Wichita Falls is installing the engine generator unit. John Barbour Trucking Company of Wichita Falls was mover of the big engine.

Tuesday the engine was moved by truck from the flat car to the plant location. The engine assembling and installation is being taken care of by the above mentioned firm.

Councilman Mark H. Martin, who has been the big gun in negotiations and in closing the deal, made many trips and studied a number of units before recommending the units purchased. Wednesday when contacted Martin was proud of the choice and said the city would write but one check as it was a turn key job. All moving and installation is being taken care of for the above mentioned figure.

When asked when the new unit would be in operation Martin pointed out the contract date is September 1, but installers are now hoping to beat this by a month, shooting for August 1 for a completion date.

All parts of the new power unit are at the site and the installers will handle the control panels and complete tie-in with the present system.

Advances Of Science Bringing Floyd Residents Long Life Span

(Special to The Hesperian)

NEW YORK, June 25 — The span of life for the average Floyd County resident is far greater today than it was for his forefathers.

A child born at the present time locally has the prospect of 20.2 more years of life than did his grandfathers when they were born.

A youth of 20, whose expectancy two generations ago would have been to reach age 62.7, can look forward to age 72.3, or 9.6 additional years.

People who are at the age of 60 at the present time have the likelihood, on the average, of living to age 77.5, thanks to a bonus of 2.8 years tacked on to their span.

All of this has been made possible by the accomplishments of medical science, and by the improvement in sanitation and by better living conditions generally.

Studies made by the National Office of Vital Statistics and others depict the progress made since 1900 in the United States toward a longer, healthier life. The gains vary from community to community, depending on local living standards and other environmental factors.

If his condition improves there is a probability of returning home this week, Mrs. Durham said.

Bates McClung, the bakery and pastry man, is making the rounds this week correcting a fishing lie he first told two years ago.

"It was down at Lake Brownwood I caught the big fish. The scales weighed him out at 44 pounds, and that's the way I told it when I came home," McClung said Tuesday.

The other day I found out the scales weighed eight pounds light and the fish actually weighed 32 pounds. I am trying to straighten it out with everybody as much as I can," he said. "It was an honest mistake."

Wheat Brings Good Income At Quitaque

QUITAQUE — A bumper wheat crop in the Quitaque Valley has netted farmers approximately \$144,154.40, and some is still coming in.

This figure is based on a report offered by Arville Settiff of the Quitaque Elevator, which recorded the shipping of 52 cars of wheat.

Barley farmers were not left out, as they shipped out 5 car loads of the grain, to net a total of over \$6,000.

All the grain was good and came from good yielding fields. Settiff estimated that this abundance of wheat came off of around 3,500 acres and the barley was harvested off of approximately 300 acres.

July Prospect Brightened By Timely Showers

In most of Floyd County yesterday farming operations had been resumed after week-end rainfall brought one and a half to three and a half inches of moisture to a vast area of the western plains.

Row crop farmers are going to have it good during the heat of mid-July, from one end of Floyd County to the other. Correspondents of The Hesperian this week are unanimous in saying the rains were wonderful for cotton and forage feeds.

Apparently no area of the high plains was missed by the three days of copious showers.

When the first squalls struck Friday afternoon they served to run scores of picnic parties to shelter but didn't dampen appetites or spirits. Nearly an inch and a half of rain fell at Floydada.

Saturday morning and again Sunday morning good showers fell to bring the week-end total to 2.47 inches of rain at this point.

Where the rains were lighter Friday afternoon they were heavier in succeeding showers.

The rains came just as cotton began to move into the blooming stage and as forage feeds started to stretch up. Operators with forage feed were hurrying this week to cultivate before the stalks get high enough to be damaged by the machinery.

The rains put some water in most of the lakes.

Only section to report wind and hail damage lay in an area to the north of Sand Hill where there was some complaint of out buildings blown away and minor damage to cotton and feed.

Tuesday afternoon operations were resumed at the onion sheds as growers clipped and moved the crops from the fields to the processors. Onions had been moving out to all parts of the east and south when the rains halted the harvest.

A generally uniform onion, with a high per centage of No. 1's prevailing, has been harvested to date. White and yellow grades have been moving principally. High yielding fields are showing a substantial profit, according to prior quotations in wholesale points.

Spanish onions will not be ready for awhile yet.

The rains came "about 30 minutes" after the wheat and barley harvest had been finished in south-east Floyd County, where practically all the late grain was located.

Yields of the late wheat fields were not as disappointing as early forecasts had indicated they would be following the storm of the month of June.

Returns on wheat, that went to storage have been slow coming in. Several hundred carloads of Floyd County wheat are waiting turn in terminal yards, principally at Fort Worth, where Sunday reports said 10 thousand cars of grain are in the yards waiting to be unloaded.

Growers do not get figures to complete their Commodity Credit loan transactions on wheat until after weights and grades are certified. Elevator men say weights and grades are drifting in slowly.

Protein content of the wheat produced in most of the county will bring the farmer with wheat "in the loan" about one cent per bushel bonus. Around Dougherty the protein content is higher and the bonus is expected to be correspondingly better.

Cotton blooms are showing up in most fields over the county. Jim Hicks had blooms in his field on the first of July. Cotton fields are beginning to look better as new leaves have taken the place of the windblown leaves of mid-June.

Rains have had a beneficial effect in reducing the per centages of insects in the fields.

BACKYARD PICNIC FETES GATHERING OF KINSMEN

Mrs. Tilford Taylor was happy to entertain the nephews and nieces, and son and daughter of Mr. Taylor (deceased), on the evening of July 4 with a picnic in her back yard.

A spine-tingling movie played our town recently. We didn't see it, but were in the theatre the week before to see a tamer one. As we left, the usher handed us a slip called a "Beneficiary Agreement." By this clever publicity device, we were promised "one thousand dollars in the event of death by fright during the performance!" (Provided, of course, we had "no known heart or nervous condition" before going.)

Maybe we're imagining things, but this makes us Americans sound like a bunch of warped children seeking sadistic thrills. True, it's intended as humor, but what grim humor! And what has happened to normal living to make this attractive? Have we smoothed out too many bumps in everyday activities? Children are less likely to jump off a coalhouse into a bucket of red paint, as one of us did long ago. Or break an arm falling from a horse. Or to get up on the roof and have to be rescued by a fireman's ladder. No, their parents keep a close watch to avoid such disasters.

Instead, the youngsters sit in front of a television set, read fantastic science comics, or attend blood-curdling movies, to test out their own reactions to crisis. It's little wonder that the make-believe world soon seems the world of reality, and youngsters become gun-happy, staging holdups and shooting imaginary enemies; or else attempt to take off into space by way of an open second-story window.

We can't blame a movie company for capitalizing on our weaknesses. No doubt it can truthfully be called "good business." What we question is the turn our society has taken that makes this type of appeal go over.

Bill Patterson To Compete In Jr. Olympics

High school athlete Bill Patterson will be entered in the Junior Olympics at Andrews Saturday. Patterson who will be a senior in school next year is an outstanding hurdler and is also developing into a dash man. Last spring he carried the school colors in the state meet and brought home a first place in the high hurdles.

Patterson will be accompanied to the meet by his coach Preston Watson who is enthusiastic about the Junior Olympics. Watson said he would have taken boys of several age groups but did not learn of the event until too late to work up a larger team entry.

Junior Olympics are under the direction of the AAU. The area meet is in Andrews Saturday with Patterson's preliminaries starting at 2:00 p. m. The following Saturday the regional meet is in Odessa. Saturday's winners are qualified to advance to the higher bracket.

There are actually four divisions in the meet with boys under 11 in the middle class, 12 and 13 in the junior, 14 and 15 in the intermediate and 16 and 17 in the senior group. Patterson will participate as a senior. He will enter high and low hurdles and the 220 dash.

The Floydada athlete is being sponsored by the local Lions club as one of their public service projects. Entry fee for a team is \$10. Coach Watson said this week he is hopeful of taking several boys to the meet next year if it develops into an interesting event.

Week-end guests in the A. W. Finley home were Mr. and Mrs. George Parks and children of Mineral Wells. Parks is a Convair worker at Fort Worth.

FROZEN FOODS A SPECIAL TREAT!

Frozen foods are a special treat anytime - but they are especially delightful during the out-of-season months - for example, a luscious strawberry short cake during the holidays. Most fruits freeze satisfactorily.

To retain color, flavor and texture you will choose firm, ripe, freshly picked fruits that are in perfect condition. Over-ripe fruits are too mushy. Not-quite-ripe ones lack natural flavor and sweetness and some times come out of the freezer with a bitter taste.

One of the most important steps in preparing fruit for freezing is washing it. Wash with a small amount, washing it as quickly as possible in cold water. Berries may need to be washed more than once to remove all the sand and dust.

Drain the fruit thoroughly. You may pack the fruits for freezing in dry sugar, or syrup if you prefer, or without sweetening. However, fruits keep their color and flavor longer when they're sweetened.

In general, you will prepare fruit for freezing about the same way as for serving. If the fruit is large, you will want to cut it in pieces or crush it. You may slice berries or leave them whole, which ever you prefer.

Lemon juice or ascorbic acid will be needed to prevent discoloration of certain fruits.

Be sure to package for freezing in a rigid container or moisture-vapor-proof containers.

TEXAS PRESS ASSOCIATION

Mid-way through the "business year" of 1958, forecasters are looking upward again. Reports show steady improvement in business activity. The bleak lows of February, if the hoped-for demand develops, may be a good year after all. The basis for the current cautious optimism is that most have had a better summer than last summer. Bank deposits increased \$332,000,000. Harrisburg by more than a year ago. Total high deposits were

Amarillo, Corpus Christi, Tyler, Midland, Denton and Port Arthur. **Retail Sales:** Despite sagas here and there, Texas retail sales are expected to run some 7 per cent ahead of '57, says the University of Texas Bureau of Business Research. Because of low months early in the year, sales volume for the first five months of '58 were 1 per cent below the same period for May, 1958, sales ahead of those for May, 1957. Apparently Texas are concentrating on essentials. Compared to last year, farm implement sales were up 27 per cent, food up 11 per cent, autos down 8 per cent.

Business Index: BBR's latest report shows the 1958 level of general business activity 4 per cent below May 1957. But May, 1957, was a dizzy pinnacle, the highest point ever reached by the Texas business index since the low in March the index has made encouraging progress, pulling up by 8 points. Fall will bring the tip-off, says BBR, as to whether recovery momentum is sufficient for a rise to a new crest.

Employment: Although thousands more were out of work than a year ago, Texas Employment Commission's most recent over-all survey showed a substantial shortening of the jobless lines. Like the general business index, employment seemed to be making a steady recovery from the early spring "trough." Number of unemployed dropped 4,200 during May, TEC reported, and non-farm employment rose to almost three million. Insured unemployment in Texas was only 4.1 per cent of the working force compared with the national average of 7.2 per cent.

Company Challenged — A king size clash is in prospect July 15, between the State Insurance Department and National Bankers Life Insurance Company of Dallas. Commissioner William A. Harrison has ordered the company to prove fitness of its management or lose its license.

National Bankers, regarded as one of the largest and most prosperous companies in the Southwest, claims more than \$19,000,000 in assets. Some \$5,000,000 of these are disclosed by the Department as unaccounted or unsuitable for an insurance company. Specifically questioned by the state are a number of mortgage loans made by the company to other firms in which the company's officers or directors have an interest.

Company President Lester P. Hall said the firm's financial footing is so sound it could raise \$5,000,000 in a matter of hours. He said the company had a premium income of \$10,000,000 last year and net earnings of \$1,000,000.

Glad to Move Over — Despite the prospect of losing "biggest state" honors Texas officials say they're happy to welcome Alaska as No. 49. Sample comments: Gov. Price Daniel: "We will still have the biggest navy."
Sec'y of State Zollie Steakley: "I'm glad another state will bear the brunt of the gas about being the largest state."
Atty. Gen. Will Wilson: "I suggest they nail down their off-shore lands before they enter the union."
Semi-Westward Ho! — Redesignated Texas-ten uniforms have brought a new look to the Texas Highway Patrol. Semi-western in style, the uniforms sport black trim, black shoes, wide-brimmed grey hats with western crease.

Only 380 patrolmen and other division members of the Department of Public Safety are outfitted at present. New uniforms for the rest of the force will have to wait for another appropriation from the Legislature.

Taxpayers Get Wary — Slump in federal income tax collections in Texas the past several months has been noted by Internal Revenue officials.

Cause has been attributed to recession-minded taxpayers lowering their estimates of income for the year. South Texas Collector Bob Phinney thinks, however, most will wind up making just as much money as last year.

Last year Texans paid a record-breaking \$2,600,000,000 in federal income taxes, about \$128,000,000 more than in the year previous.

School Cost Climb Seen — Texas counties expect cost of education to climb \$70,000,000 annually in the next five years.

This was revealed in reports of 231 counties to the Hale-Aikin Survey Committee on Public Education. Most of the increase would go for expansions necessary to keep up with increasing enrollment.

Counties differed as to how the money should be raised. Twenty-five per cent favored higher local taxes or increased valuation. Forty-four per cent wanted additional

money from the state. Nine counties favored federal aid. Thirty-five recommended a sales or income levy.

Short Shorts — Walter Buckner, publisher of the San Marcos Record and past-president of the Texas Press Association has been named by Governor Daniel to the Industrial Accident Board. He will serve as the employer representative. The two other members of the board are Ned Price of Tyler, representing labor; and Leonard Carlton of Austin, representing employees.

A \$20,500 grant for re-codifying Texas school laws has been provided by the M. D. Anderson Foundation of Houston. A legislative committee headed by Rep. Robert H. Hughes of Dallas is in charge of the work.

Preliminary report on a comprehensive survey of Texas water resources has been submitted to Governor Daniel. It was requested by Sen Lyndon B. Johnson and prepared jointly by state and federal water agencies. Contests of the report will not be released for publication until final approval is given.

Farm experts expect that a 92-year-old record for cotton yield per acre may be topped this year. Second highest yield was recorded last year at 285 pounds. All-time high was 325 pounds per acre in 1896 — when soil was virgin.

Governor Daniel has proclaimed July 14 - 20 as State Park Week to call attention to the 56-park unit begun in 1924 when Gov. Pat Neff and his family donated "Mother Neff Park" to the state.

Texas draft quota for August will be 539 men, only one more than were called in July. State Selective Service Headquarters also announced that some 1,700 men are to take pre-induction exams in August.

Mr. and Mrs. Jewel Elza and son are on a vacation up in Colorado. The trio left Floydada Wednesday afternoon of last week and will enjoy a two-weeks summer holiday of outings. Elza is employed by Builders' Mart.

Deen Urges Rogers Vote In Primary

To the editor of The Hesperian:

Three different men have brought me a circular that they say was put in their cars. This circular says that A. J. (Andy) Rogers supported and voted for House Bill No. 431, which seems to have been a Labor Bill.

This carries me back to when I was in the House of State Representatives. One of the lobbyists for a great corporation kept carrying me to lunch and wanting me to support House Bill 12, which was a bill against the Labor Unions, or as it was named The Right to Work Bill.

I told him I knew we were going to have to curb labor, just like we had to curb capital, but I would not tell him that I would support his bill until I studied it. After reading the bill and reading the right to work clause a number of times, I knew I could not support the bill. The lobbyist said that I was betting too much power and he would have to see that I was defeated for another term. I replied to him: "Judge, if I were using that power for your corporation, it would not be too much, would it?"

He replied: "Don't you forget, Deen, that money is power and we don't mind spending it, and we are going to defeat you regardless of the cost."

So in the next election, a circular, headed The Christian American, was scattered all over the eight counties that composed the 120th District at that time. This circular stated: "We don't say that your representative is a CIO, but he voted against the Right to Work Measure."

So I know from my own experience that Senator Rogers has been

fighting and voting for the interest of the people and not for the Big Corporations. They figure that he is getting too much power down there, and they can't buy him, they can't bribe him, they can't scare him; therefore, the only thing left for this Special Privileged group is to defeat him.

Money is power and they don't mind spending it, but you voters of this 30th Senatorial District, let's wake up and get busy and send Senator Rogers back to continue to fight our battles.

Yours truly,
Tom W. Deen, 203 North Main Street, Floydada, Tex.

HERE'S WHAT THEY SAY:

The Record Shows That A. J. Rogers Of Childress Supported And Voted For House Bill No. 431 By Bergman And Others.

HOUSE BILL NO. 431 IS DESCRIBED BELOW As Others See It

If you tell a man where he can get a farm job, you have violated a law of the state of Texas.

If you tell a friend where he can get a job at any kind of common labor, you are subject to a fine of \$25 to \$200 under the Texas law.

This law was enacted by the 51st Legislature in 1949, at the insistence of labor union bosses. It was designed (the legal excuse) to curb "exploitation" of people who want, and need to work for a living. The real reason, obviously, is to put every farmer and employer of common labor at the tender mercies of organized labor, or the Texas Department of Labor, which is a thinly disguised agent of labor unions of Texas.

The sad news was broken to the Crosby County Farm Bureau and the Ralls Chamber of Commerce recently. The Department of Labor received complaints that the Chamber of Commerce has been offering a free employment and placement service as a favor to local farmers, and no fees or charges were made.

Joe Meador was informed Monday by a representative of the labor department that he was acting illegally if he told Mexican workers the names of farmers who needed help.

Frank Hays, manager of the Crosby County Farm Bureau, was recently called into a regional office of the labor department and informed he had broken the law by inserting advertisements in Crosby County newspapers which told farmers his organization would arrange for bracero labor they need — at no cost to anybody. Hays was informed that the mere insertion of this ad to inform farmers of the free service constituted "exploitation" of labor.

A written report of his grave crime was forwarded to bureaucratic headquarters in Austin, and if the labor bosses decide he should be punished, he will be brought into court and forced to prove that he "did not exploit" labor. The burden of proof is upon him, of course.

Perhaps some of you will now realize the extent organized labor has gone in establishing a total dictatorship in the world of labor. Out here where unionism is not quite so rampant, the tentacles reach out and strangle the unsuspecting and unknowing.

The law has punished farmers and it is depriving laborers of a livelihood. The only ones getting fat off this stupid and asinine law are the bureaucrats who live off exorbitant fees "registered procurers" must pay, and the labor union bosses who have, at long last, succeeded in making the lowest, meanest type of common labor subservient to them. Farmers are deprived of needed laborers and laborers are deprived of needed jobs.

What need existed for such a law?

What evil did it correct?

Our reaction to this ridiculous law is that both the CIO and the state of Texas can go plumb to hell. We'll break that law any day in the week, whenever, and wherever we find a man seeking a job and know another man seeking help.

There is nothing so sanctified about such a law that merits compliance. It is wrong, and should be resisted.

We know Texas farmers will take it lying down, as they take about everything else. But we don't have to.

If you want to be a real law-abiding citizen and stay out of trouble, the next time Farmer Jones asks you where you can find some needed hoehands, you turn and run like a scared rabbit.

But we don't have to. — Ernest Joiner in The Ralls Banner.

This vote is shown on pages 2335 and 2336 of the permanent House Journal of the 51st Legislature, Regular Session, 1949.

THE SIMPLE TRUTH IS:

A. J. Rogers Is The Man Who Got The Farmer And Farm Worker Exempted.

Read All The Statute

The Crosby County Farm Bureau and the Ralls Chamber of Commerce advertised recently a free employment service and placement bureau with no fees charged or collected. The purpose was to supply agricultural labor to farmers of the area.

The Ralls Banner says that a representative of the Texas Department of Labor notified the Ralls Chamber of Commerce that the advertisement and the service were a violation of a law passed by the Legislature (Chapter 245, 51st Legislature) in 1949.

However, a reading of the law indicates that the Crosby County operation is expressly excepted from the definition in the law of a private employment agent. According to the statute, "Private employment agent means any person in this state who for a fee or without a fee offers or attempts to procure employment for employes or attempts to procure employes for employes except employes as common laborers or agricultural workers."

The representative for the Texas Department of Labor simply covered too much territory with his interpretation of the statute. It pays to read the fine print in law books, the same as elsewhere. The Chamber of Commerce of Ralls will not have to go to jail.

—Dallas Morning News, July 2, 1958

Andy Rogers voted for the bill after this exemption was put in it. Don't be deceived.

VIEW AND COMMENT

Old Friend Returns Department: We hail the jackrabbits who are returning in numbers after many years of scarcity. Seven or eight years ago our long-eared source of food supply dwindled and dwindled until many West Texans had to look around for make-shift proteins. Now the good old days are back again, or will be by the time the bunnies finish hatching out their last nests full. Another one of the "signs" we saw in the early spring when we told our readers to make their pitch for 1958 and not look back.

Brighten Up Campaign. Evidence is ample that scores of Floydada people are responding favorably to the Clean-Up, Paint-Up, Brighten-Up campaign urged by the C of C civic betterment committee. Most heartening that many are taking their obligations to their neighbors seriously. Brightness is catching the same as tumble-down-ness. It pays in dollars and cents to have attractive property and neighbors who maintain their premises from curb to alley. When people do not care is when decay begins. It rots not only the lumber but also the spirit of a neighborhood. Thank your neighbor if he cleans up, paints up, brightens up. He has done you a favor. Long July, August, September days are still ahead. Small cities are on the spot. A community of tumble down shacks offered to newcomers for rent can't hope to win friends and influence people to join up with us.

About Car Insurance. Everybody is anticipating a rise in the cost of insuring automobiles and other vehicles on the highways. Wrap around windshields and shiny chrome come high after they have been bashed in. Insurance people claim their ratio of income to outgo is out of balance. They like to show a profit. An interesting observation made by The Dallas News last week indicates the new rates will be based on "experience" in a community in somewhat the same way a "key rate" is established for fire insurance. Thus the rate might be higher at one point in the state than at another. The News says the rate in Dallas will be higher than in some other cities of the state. We have seen nothing official in this connection.

In an occasional state liability insurance is one of the requirements for driving on the highway. Having a motor vehicle automatically calls also for having an insurance policy covering the damage one may do to the property and lives of others on the highway. In Texas the requirement is somewhat different, but it is such that a person with property is going to carry insurance to protect himself against financial disaster. This does not mean that a good many thousand irresponsible drivers are not on the highways. A driver with nothing to lose may operate an automobile in much the same fashion as he operates in other lines. Thus if one is to have an accident on the highway it is better to be choosy about who you are hit by and how hard.

The past cannot be changed, the future is still in your power. — Hugh White

In Most Cities they have what they call urban renewal programs, which small city people have to help pay for while they do their own brightening up at their own cost. One such, out of thousands, is underway at Lubbock, city of the big brag. There an operation is underway with directors, supervisors and whatnot such as goes with a federally-approved project. Unless we are incorrectly informed, cost to Lubbock city and people is about 10 per cent, to the other taxpayers of the nation 90 per cent. This is going on all over the country and people wonder why the federal budget can't be balanced. In many communities the lesson has been learned, namely, that if you can't whip 'em, jine 'em. Perhaps that is one of the faults of officials and business men of smaller communities. They refuse or forget to jine. Definitely it is a situation that cannot be whipped.

One Vote's Power: Back in the 1840's in Dekalb County, Indiana, there lived a grain miller. He had started his mill one election day to grind his grain when he met some friends who persuaded him to go to the polls instead. The records show that the candidate to the state legislature won by one vote — and the miller had voted for him. That legislator cast the deciding vote that sent Edward Allen Hannegan to the U. S. Senate. The question of statehood for Texas came up for a vote while Hannegan was acting as president pro tem. The vote was tied, and Hannegan cast the deciding ballot. Texas was admitted to the union... because a grain miller decided to go to the polls instead of to his mill on election day! — Exchange

Streets Will Drain. The engineers won a considerable moral victory in Floydada during the last few showers after the city opened up one side of Mississippi leading from the highway eastward from Second Street. It cost several dollars to put in cold mixture from the ribbon of paving on this street to the property line but Street Commissioner Jones did it just to prove the point (and get the water off the highway if it could be proven.) Sure enough the engineer with his transit could tell more about it than the citizen with his naked eye. A large part of our other drainage problems would vanish if property owners had curb and gutter paving. One can hardly expect a street that has only a slight fall to drain with a dam across it at every residence. An engineer can't do much about that. Most of the streets in Floydada would drain. The solution is in the hands of the property owners.

Our Annual Puzzle. Sometimes we have a puzzle annually, sometimes not, depending on when we can swipe a good one. This should be a brain-teaser: Tom, Dick and Harry are employed by the city as judge, policeman and fireman, not necessarily respectively, however. Tom and the judge are neighbors. Dick and the judge are neighbors. Both Tom and Harry are neighbors of the fireman. Both the policeman and the fireman are neighbors of Dick. The men are all neighbors. Only two of these statements are true. What job does each man hold? — Answer next week at the bottom of the column.

News of Harmony

(By Mrs. Chloma Williams) HARMONY, July 7 — There was no Sunday School or Church services Sunday morning at the chapel due to the rain. Up to Sunday morning we have had from an inch to one and one half inches of rain since Friday afternoon. Indications are that we might receive more. A small amount of hail was reported but as far as we know there was no damage.

Crops in this part were getting pretty dry and several wells had already started. Some few had started watering cotton. The moisture brought smiles to the tired farmer's face.

I believe we have everyone home again from a visit with her sister, Mrs. Edward Baird came home Monday and Mather Carr came home Wednesday afternoon. Both are improving satisfactorily. M. D. Ramsey seems to be improving some also.

Mrs. Loyce Turner and son, Gary and Miss Vicky Pagnano left Monday morning for their home in Omaha, Neb., after spending some three weeks here visiting friends and relatives.

Some of the 4-H girls attended the second meeting of the clothing work shop in Floydada Wednesday of last week. We understand there will be three more this week, Wednesday, Thursday and Friday.

Mrs. Chloma Williams attended the Dougherty Home Demonstration Club meeting Wednesday of last week. She assisted Mrs. Bill Smith in a demonstration on making wood fibre flowers.

Mr. and Mrs. J. W. Smith and girls left Thursday and returned Sunday from a visit with her sister and husband in Pecca, Texas.

Mr. and Mrs. Bill Tucker went to Ceta Canyon Friday to pick up their son, Ronnie, who has been attending the camp for five days. They had lunch at the camp and reported a good time.

Mr. and Mrs. Everett Miller entertained with a barbecue Friday evening. The rain started just as Mr. Miller had finished cooking the last piece of barbecue so everyone moved indoors but evidently appetites were not dampened. A delicious meal was served the following guests:

Mr. and Mrs. Joe Johnston of Fort Worth, Mr. and Mrs. Laurence Stone and Gary of Lubbock, Mr. and Mrs. Walter Hanna, Mr. and Mrs. Carrick Snodgrass, Mr. and Mrs. Chloma Williams and Sue, and Mrs. G. L. Snodgrass.

News of Broadway

(Delayed from last week)

(By Mrs. T. E. Thornhill)

BROADWAY, June 30. — The farmers have been so busy trying to replant since the awful hail storm on Monday of last week that destroyed everything in its path. The big rain has the low places so muddy they can only plant the high spots. How we hope there will be no more such storms anywhere. We had never seen more beautiful crops for the time of the year than was everywhere.

Most farmers are replanting cotton hoping for a late frost. Of course, there is plenty time for feed to mature.

Mrs. Delma Norris and Bob of Big Spring came Tuesday afternoon and visited the Thornhills until Sunday. Sandra, who has been visiting the past few weeks returned home with them. Mrs. Homer Miller of Croton also visited in the D. D. Thornhill home from Thursday evening until Sunday.

Mr. and Mrs. Ben Beckham were Sunday morning callers with the Charlie Beckhams of Crosbyton.

Tonny Thornhill was among the Scouts from the McAdoo Troop to attend the Scout meeting at Canadian all of last week. There were five other Scouts and their leader, Preston Weak who attended.

Mr. and Mrs. J. M. Bennett had as their Sunday guests, Mr. and Mrs. Homer Bennett and Jim of Childress, Mr. and Mrs. John Bennett and sons, Jack and David of Houston and Mr. and Mrs. Willard Richardson and Marcia Marsh.

Mrs. J. W. Stewart was a caller on Monday morning of last week with the Bennetts and went to the cellar with them to get out of the storm.

Meedams D. D. Thornhill, M. H. Givens, R. C. Rathel and J. C. McCracken attended a pink and blue shower for Mrs. L. S. Starrett in Lubbock on Friday evening of last week.

Mr. and Mrs. R. M. Spence of

Floydada visited Mrs. J. C. McCracken and Mrs. Clara Dean on Tuesday afternoon of last week and while they were down here, Messames, Conda Starrett, Clerr, Maize, Homer Smith and H. L. Starrett went to visit them.

Sunday dinner guests in the D. D. Thornhill home were Mr. and Mrs. and Jack Thornhill, Pam and Brad of Amarillo, Mr. and Mrs. Ira Edwards, Billy Don and Sue of Dickens, Homer Miller and Mrs. Delma Norris, Bob and Sandra.

Marshall Berry spent the past several days in Dallas visiting the Everetts.

S. S. attendance was good Sunday and Rev. Wayne Grizzle of Crosbyton preached.

Mr. and Mrs. H. L. Morris and Mrs. and Mr. Billy P. Webster, Brian and Elaine visited Monday afternoon of last week with the A. D. Wabsons viewing the destruction of the storm.

Sunday dinner guests in the T. F. Thornhill home were Mr. and Mrs. R. M. Spence, Mr. and Mrs. Ben Beckham, Mr. and Mrs. A. L. Winegar, afternoon callers were Mr. and Mrs. L. R. Rainbolt, Marica and Jan and Betty Rainbolt of Ft. Worth who is a house guest of Marica.

Mr. and Mrs. Sam Rainbolt and four of their grandchildren were visitors last week in the home of their son and family the L. R. Rainbolt. Marica came home with them after having spent several weeks visiting in and near San Saba. Now it was Doug's time to visit so he went home with his grandparents.

Saturday visitors in the Cecil Berry home were Mr. and Mrs. Aggie Everett and sons of Dallas, Mr. and Mrs. Jack Bond and girls of Amarillo and Mrs. Weldon Cypert and Sandra of McAdoo. Then Sunday visitors other than those who visited Saturday were, Mrs. Lois Rathel, Mrs. W. D. Powell and baby, all of Crosbyton, Mr. and Mrs. Donnie Berry and son, Weldon Cypert, all of McAdoo, Giles Henry Turner, Jamie Berry, Jack Easterwood and Ted Swartz all of Lubbock, and Ann Odam of the Big Four Community.

South Plains News

(By Mrs. Murray Julian)

SOUTH PLAINS, July 7. — Fourth of July picnics and speakers at the Plains Baptist Encampment were rained out Friday night as cooling showers came and continued to fall throughout Saturday and Sunday morning. Amounts varied from an inch at the Bill Beedy place, 1 1/2 inches at Arby Mulder's 2 inches at Grigsby Milton's and 2.60 at the Frank McClure farm. Some of the farmers had started their water wells for the big feed but now watering will be postponed for a few weeks. The rain fell slowly, soaking into the thirsty fields, and everyone is enjoying the cool spell.

Dr. John Freeman of Plainview preached at both services on Sunday, and was a guest at the noon hour with Mr. and Mrs. Early Pritchett and boys in their home for Sunday dinner. Thirty-seven were counted at church services due to the muddy condition of rural roads.

WMU was announced for Monday at 3 p. m. The women of the church will go in a body to put the parsonage in order for the coming of the new pastor and family on Thursday. Those who will go down to the Baptist Encampment to help serve supper for the Junior G. A.'s on Monday at five are Mrs. Shelby Calahan, Mrs. Sylvie Kinnibrugh, Miss Donita Milton, Mrs. Murray Julian and Mrs. Thos. Pierce.

Mr. and Mrs. Thomas Pierce, Beverly, Stanley and Steve went to Lubbock on the Fourth of July to attend a picnic and reunion of her people, the Robertsons. The rain cloud broke up the meeting after supper and the Pierces returned home. They found no rain at their place north of South Plains, but that area received a good one on Saturday and Sunday.

Mr. and Mrs. Grigsby Milton, Daria and Barbara Sue left Wednesday around noon for Chickasha, Okla., where they visited overnight with her aunt, Mrs. Emma McWhorter. FOR WAYLAND

Lorenzo Woman Heads Baptist WMU Campaign

IDALOU (sp.) — Campaign for \$150,000 to build a Home Life Building at Wayland Baptist College has been launched by members of the Woman's Missionary Union of District 9 with Mrs. Henry Heck, Idalou, as chairman of the steering committee. Serving with her are Mrs. Lee Hemphill, Littlefield, and Mrs. P. A. Adams, Bovina.

The Home and Family Life Department has increased five-fold since 1954 when Mrs. Cecil Cooper became head. Women of our district have provided electric sewing machines and other equipment but the truth is the department has simply outgrown its space.

Completion of the \$150,000 campaign by area Baptist women will assure the erection of a two-story brick building with laboratories for teaching foods, nutrition, dietetics, textiles, clothing design and construction and interior decoration.

Working with the steering committee are District 9 president, Mrs. Bert Black, Crosbyton, and association presidents, Mrs. Hilburn Casey, Lockney, Mrs. Searl Hobbs, Lubbock, Mrs. Riley Fagitt, Spur, Mrs. Bill Clark, Levelland; Mrs. Warren Stowe, Brownfield; Mrs. Jack Olson, Hart; Mrs. H. J. Barker, Littlefield and Mrs. Adams.

MRS. HENRY HECK, IDALOU

Others who served on the Larger Committee to lay campaign plans are: Mrs. W. E. Kirkpatrick, Dummit; Mrs. Lewis Walters, Brownfield; Mrs. Bill Mead, Lubbock; Mrs. Lon V. Smith, Floydada; Mrs. Robert Claude, Plainview; Mrs. C. P. Sander, Spur; Mrs. Judson Burnett, Levelland; and Mrs. Neil Record, Tula.

Sand Hill News

(Delayed from last week)

(By Mrs. James Jeffress) SAND HILL, June 30 — Chuck Holmes' onions have been moving pretty rapidly this week. The rain caught a number of socks in the field Saturday night but they were loaded out Monday afternoon.

There should be more patches ready in the very near future. Rain measurements were an inch and a half north of the store down to a half inch south of the store.

Some sprinkled hail was reported but little damage was done. The strong winds every day seem to be hurting the crops as much as anything right now.

Mrs. Lynn Miller and Janice left Wednesday for Lubbock to attend 4-H Camp for three days. They returned home Friday with a good report from the camp but very tired after attending all the activities offered there.

Mrs. Billie Stringer was honored with a pink and blue shower Friday afternoon at the Sand Hill Club room from 4 to 6 p. m. The table was very pretty with a white cut work table cloth with a white and blue flower arrangement in the center.

Mrs. Hollis McLain served pink punch from a crystal punch bowl Monday. B. Swanner presided at the guest register.

Mrs. Arlon Miller was in charge of recreation during the afternoon. Approximately fifty guests attended or sent gifts during the afternoon. Those attending were Meses H. F. Jackson, Arlon Miller, Walter Knight, R. L. Bullock, J. T. Spears, Hollis McLain, Curtis, William Mayo, C. P. Carey, Ed Noel, Arthur Womack, Roy Tesarik, M. B. Swanner, Darrell Mayo, Dale Stringer, J. M. Williams, James Jeffress, Judy Williams, Tom Thomas, Harold Miller, and the honoree Mrs. Bill Stringer.

All present enjoyed an evening of swimming and other recreation Saturday afternoon at the Baptist Encampment, when the Sand Hill Baptist Church members journeyed down for their first picnic of the summer. A delicious supper was enjoyed at 8 p. m. after everyone was exhausted from the other activities.

A number of visitors were present among them were Bro. and Mrs. E. C. Adams and son from Aiken the former pastor of the church. Families from the community enjoying the outing were Mr. and Mrs. Rowland and family, Mrs. Olen Baird and family, Mr. and Mrs. M. B. Swanner, Mr. and Mrs. Ed Noel and family, Mr. and Mrs. James Jeffress and family, Mr. and Mrs. J. M. Williams and family, Mr. and Mrs. Bill Stringer, Mr. and Mrs. Darrell Mayo, Mrs. Grover Coffee and family, Stinson Stringer, and Mr. and Mrs. Hollis McLain and Allison. Also present were Mr. and Mrs. Kirk Elmer Jr. and Betty Gene of Ralls. We are all looking forward to another get-together in August.

Mr. and Mrs. Jim Holmes spent Sunday at Hale Center visiting in the home of some old friends, Mr. and Mrs. Harold Richardson.

Brother and Mrs. Bill Rowland and Kathy and Linda were the dinner guests in the home of Mr. and Mrs. J. T. Spears Sunday.

Mr. and Mrs. H. F. Jackson visited in the home of Mr. and Mrs. W. R. Billington Saturday night.

Sunday dinner guests in the home of Mr. and Mrs. J. M. Williams were Brother and Mrs. Calvin Gustin and family from Plainview. Brother Gustin was in charge of the song services Sunday at the Baptist Church.

We are happy to have good reports on all our neighbors that have been on the sick list this week.

Mrs. Edward Baird was brought home Monday from the Lubbock Hospital, after her serious accident about ten days ago, and is reported as much improved. Cecil and Richard Jackson are both home from the hospital and reported as doing fine. Mrs. T. C. Hollams is home again and is feeling much better and Mrs. Mattie Baird's condition is much improved but she still remains in the Lockney hospital.

Mr. and Mrs. Ross Yandell of Plainview visited in the home of her parents, Mr. and Mrs. W. R. Billington Sunday. Mrs. Billington returned home with her daughter to stay a few days to try to gain some strength back since her recent illness.

LaJuana Womack and Alfa visited in the home of Billie Gail Holmes Monday afternoon.

Mr. and Mrs. Lynn Miller and family and Mr. and Mrs. H. P. Jackson visited in the home of Mr. and Mrs. Cliff Alford in Silverton Sunday. They also enjoyed a trip to Burton Lake, and visited with Mr. and Mrs. Roy Allard.

Mrs. J. R. Turner and daughters of Providence visited in the home of Mr. and Mrs. James Jeffress Wednesday afternoon, on a return trip from Lubbock.

The R. A.'s met Friday evening at 7:30 p. m. The attendance was very low due to so many of the boys working. Let's all remember the next meeting July 11. Those present were Harold Starkey, Cecil Jackson, and James Jeffress.

Brotherhood meeting will be July 12.

To The Voters Of Precincts 1 and 4

By these means I am asking for your vote and support. I have had to work all I could and it has been impossible for me to see all of you. I am in the wheat harvest now, but will try and be back and to see all that is possible. I am asking for this office because I believe I am qualified to handle it. I have worked with the city and county and State Patrol until I have become acquainted with the duties of the office.

If you see fit to elect me for your J. P., I assure you that everyone I have contact with will be treated with the same fairness and will show no partiality to anyone. Sincerely yours, E. H. (Heck) Boling

7, at 8 p. m. All you men remember.

The G. A.'s met Monday evening at 7:30 p. m. at the church with the president, Mary Starkey calling the meeting together. Plans were discussed for the girls to attend camp, July 14. As A Farm Woman Thinks

(By Nellie Witt Spikes)

"I am bound for the promised land, I am bound for the promised land, O who will come and go with me, I am bound for the promised land."

Did you ever stand in time of revivals and sing with the crowd this fine old hymn as the preacher stood near the pulpit pleading for sinners to turn from their ways and start for the promised land? Did you forget the heat of the summer night? Or the bugs that came unbidden? Or did your heart pulse with the glory of God? And did not the Christians as well as the sinners need to let go the flesh pots and make a clean new start for a new land of higher Christian living?

Perhaps a week or perhaps a couple, the meeting had gone on. The preacher had brought the message, clear and simple. The folks had left their work-a-day world and were putting their all into the revival.

In the morning sessions many hours of the week were devoted to "testimonials" and the younger (inexperienced) Christians listened as the older ones told of their journey down through the years, many hard and lean years, when they served the Lord. Even now I recall many things these men and women said, and how my voice trembled as most all I could say when I was prompted by my feet beating heart to add my experiences, was that I, too, loved the Lord, and asked for the prayers of all that I might stay and grow in the service of the Lord.

At the close of the preaching at night, the folks would begin softly singing, "Softly and tenderly Jesus is calling, calling for you and for me," and the preacher asked for the ones to come forward for prayer. Sometimes three or four songs would go out on the night air as the sinners realized their opportunity for a better way of life.

There was no paid-for plan in those days. But no more thought there was too. It was called The Plan of Salvation and had been paid for by the Saviour as he hung on the cross of Calvary.

Life was simple in those days, for the Church as well as for the homes. A big iron stove was in the center of the church and as I recall the first who arrived made the fire from the coal that had been brought from the nearest railroad town and piled outside. It was his service to the church to haul this coal free and the church paid for the coal itself. Someone always saw that there was a bucket of water, and on Missionary Society days the women swept the plain pine floors, or even carried water and scrubbed them.

The seats were dusted, but at that sometimes the first ones on Sunday morning had to get the big dusting rags from behind the piano and sweep the seats a swift going over from the sandstorm that had come at a late hour.

The lights were not carried by each, but between each window there was a little lamp in a bracket on the wall and a swinging lamp at the pulpit and someone saw that the jug of coal oil kept the bowls full and also trimmed the wicks.

The sun came in the windows in the daytime and there was no need of any other light. The men and women held the small children in their laps and most all the grandmothers had cookies in their bags to pass on to a restless child. When the child got sleepy a quilt could be spread on the floor near the parents.

I remember when Brother Bolinger was preaching he seemed to fascinate children. One of them going up near him in the pulpit he would reach down and pick up the child and go on with his preaching. The piano was played by the regular pianist but when she was not there some one else took over, and often there would be a whispered conference between the song leader and the one at the keyboard over just what tunes they could or could not play. Sometimes even it fell to my lot and the best I could do was to "clobber" with the singers.

There was always some one to lead the songs, it was his special contribution and if you have never heard even a small bunch of folks singing with all their might and main the rousing songs, "Onward Christian Soldiers, marching as to war," and "Standing on the promises of Christ my King," you have missed something from a Christian experience.

Or if you have never seen old men nearing the end of life, sitting on the bench in the Amen Corner and helping the preacher as he warned of sin and the awful consequences sin would bring into a life, a family, a neighborhood and a nation, then you have missed something fine. These old gray haired men would sometimes hit the floor with their feet as further emphasis. And both men and women knelt in prayer even if the pine floor was rough to knees and clothing might be soiled.

It was a day of heart-felt religion, of shouting Methodists and Baptist brethren joining in as the mighty works of the Spirit took hold. It did not take much time for two men to take their hats and pass them and the contributions did not make the hats lose their shape. The preacher was too poorly paid, but most of his congregation did not have too much themselves.

But we do not want to go back to the good old days, we hear. Neither do I. But I do think we have lost something most valuable and need to get it back and make it useful again as many do the old time furniture and utensils. We need to renew the old heart-felt religion and we need to leave the church services with some feeling of guilt and a renewal of loving service to the Good Heavenly Father that our forefathers and even our generation that is closing out, gave to carry on the Faith, the Hope and the Love that a Church stands for.

Our Sunday School literature was simple then. A small card with Christian pictures and verses for the smaller ones. Leaflets for the older classes. The adults could use the Bible. All classes then at one were in the sanctuary, the only room at that time. We were not so dependent on the Bible literature. The best prayers and thoughts were from the heart right there and then, not written down to be read. What did someone far away know of the needs of men and women and children at one as they themselves knew them? Who better could approach the Heavenly Father with their own words of thanks and spiritual needs?

I am impressed by the article by Paul Tillich, university professor at Harvard and a member of the Divinity School faculty as he writes in the Saturday Evening Post. Of

course, not being a college graduate, I did not understand all he was trying to get over, but I could feel as he writes:

"What is the meaning of life? Where do we come from, where do we go to? What shall we do, what shall we become in the short stretch between birth and death?"

He goes on to say that religion has lost the third dimension, that is the one of depth. "We have replaced the dimension of depth," he goes on, "by the horizontal dimension."

"In popular terms, 'bigger and better' and 'more and more'. The horizontal dimension runs ahead, everything must be done or said or seen or planned. But no one can experience depth without stopping and becoming aware of himself. Only if he has moments in which he does not care about what comes next can he experience the meaning of this moment here and now and ask himself about the meaning of life."

He ends with these words, "In spite of the loss of the dimension of depth its power is present, and most present in those who are aware of the loss and are striving to regain it with ultimate seriousness."

Mr. and Mrs. Claud Patton returned home Thursday from Merkel where they had been guests of her sister and brothers.

Is it STRONG?
Is it of a good, strong, nail-holding species that will hold vital joints together permanently and rigidly?

Is it GRADE-MARKED?
Is it of an approved grade for the use to which it is being put?
