Interest Picks Up; Candidates In Last Appeal

This mid-week it appeared that Floyd County voters may show more interest in the primary election Saturday than has been anticipated and that the total vote in the county may approach the first primary vote of 1956 when slightly less than 3,000 votes were cast.

Candidates are in their last flurry of appeal to the voters in the legislative race, the state senatorial contest and three local races - six after the Commissioners place in Precinct 2, four after the justice of the peace job in Precincts 1 and 4, and two wanting the job of commissioner in Precinct 4.

Novel Ideas Are Demonstrated In Making of Salads

Do you know how to make a Raggedy Ann salad? The Dougherty Home Demonstration Chib learned how to make this and several other salads in a demonstration given by Mrs. Harry Morckel at a meeting held July 16, in the home of Mrs. Robert Ward.

Mrs. Morckel began her demonstration by giving the club a few fortis about salads. She stated that today a salad is a must and is a handy way of providing varicty and nutrition to our meals. The four types of salads she gave

ONE OF THE most vital races in Saturday's Democratic primary is that of State Senator. There is much more involved than mere personality. Since the issues have been clouded by gossip, slander, false rumors and even defamation of character, the voter has a tremendous personal responsibility to sift truth from fiction, prejudice from objective appraisal, and fact from

WE ARE NOT supporting Senator Andy Rogers, the incum bent, because we think he is perfect, because he has pleased us all the time, because we think he is the only resident of the 30th Senatorial district capable of serving with ability and integrity. We are supporting him because he towers head and shoulders ahove the two men who now seek his place in the Senate. So completely objectionable are the other two men, in our opinion, that we would have to scratch both names if the name of Scnator Rogers did not appear on the ballot.

HERE ARE SOME of our remons for baving to support Rogers. He is the incumbent, having served only one complete term in the senate, and it is our belief that an incumbent deserves reelection unless there is a good reason why he should not be reelected. In the cae of a Senator seniority is of utmost importance It would be extremely unwise for a district to throw its seniority in the Senate to the wind. Senator Rogers already has the job. We owe nothing to a person, even a friend, who covets the job of his

Secondly, anyone who studies Rogers' record carefully will soon find that he thinks like the typical resident of the 30th district. We have not always seen eye to eye with Rogers on every issue that has come up, in fact, on occasion we have attacked some of his decisions editorially - but we have approved his actions in a huge majority of cases. In voting, our choice is not to select the perfect candidate, according to our own specifications - our choice is to vote for the man who most nearly reaches perfection.

While Senator Rogers' batting average in the Senate is high in our opinion, the voting records of his opponents are completely unpalatable in too many instances.

ONE OF ROGERS' opponents has represented big business interests, including the utilities monopoly, much more effectively than he has represented the farmers and smalltown businessmen

The other man in the race, when he was in the Legislature, voted for exempting utility companies from the license fee (required of other appliance dealers) for the privilege of selling gas and electric appliances, parts and repairs in towns of 3,000 or less. He voted for a two per cent gross receipts tax on soft drink bottlers which Gov. Shivers offered. It was adopted 15 - 14, so his was the key vote. Later, the Senate reversed itself and killed this tax. He also voted to table Alken's effort to reduce this bottler's tax to one per cent. Then Aiken tried to exempt milk from the bottler's tax and this candidate voted not to exempt milk.

THIS CANDIDATE introduced a bill to give the state a first lien on any property owned by old-age assistance recipients and to require that it be foreclesed on their deaths and the state welfare department would get back all they had been paid. This idea has been pushed by anti-pension folks ever since. He also introduced a bill requiring sale, distribution or possession of oleomargarine which hurts every cotton farmer. And most objectionable of all, he supported a two per cent state income tax proposal!

This is to say that Senator Rogers, the incumbent, is much better qualified to serve an agricultural district than either of his opponents. Ask any informed farmer who is familiar with REA and other major farm problems. Ask informed leaders of any farm organization who have had occasion to make trips to Austin in the interest of farm problems.

IN THE THIRD place, we would have to vote for Andy Rogers

ilities monopoly, the anti-farm group, those who would like to have federal and state control of underground water, those who consistently try to keep the lid on Austin scandals, those who do not want practitioners of the healing arts controlled or licensed by the state, those who have proved themselves enemies of the Farm to Market road program, those who abhor independent thinking, those who try to tell legislators to get on their team or else they will have to smear them, all have combined to try to move heaven and earth to defeat Senator Rogers. Rogers has been threatened by these interests which warned him not to run. He was told to be a good boy, to go back to Childress and settle down, and he wouldn't be hurt by the character assassins and gangsters who have a great

Perhaps Rogers would have retired to go back to Childress and make a living for his family had he not been threatened as he was. But there is something in a red-blooded American that causes him not to yield to gangster tactics, . So Rogers defied the warn-

We need more men like Rogers in Austin, men who will put pediency. Men like Rogers are and will be in a minority for sometime, but at least they will speak out against corruption so we can hear. To fail to re-elect Rogers would not be a step in the right

AND FINALLY, even if we did not have the reasons mentioned above for supporting Rogers, even if we did not believe him to be the best man intellectually, morally and spiritually, we would have to support him because of the campaign techniques used by his op-

This race, from the time it started with the mailing of anonymous smear literature, has been one of the filthlest races in the history of Texas politics.

We have had "Port Arthur" type stories in circulation almost weekly since early spring. Some of the false stories planted here and there have been petty. Others have been outright libelous They include, for example, the testimony of a former medical doctor who lost his license, who has served numerous terms in the penitentiaries in several states including Florida, Maryland and Oklahoma, who is at present under indictment for performing an abortion in a Dallas tourist court, who perjured himself when under oath he voluntarily made statements a week apart in direct conflict, who was convicted three times for being a confidence man.

Yet there are those having an interest in getting Rogers out: of the Senate who produce a completely false statement signed by this character in trouble up to his neck which they expect people . to believe in preference to the word of Senator Rogers, other members of the Legislature, official records in Austin, and even newspapers and public officials who have not been particularly friendly to Senator Rogers. And, strangely enough, one of the men attempting to unseat Senator Rogers served on the House investigating committee and would have had access to the official records which, had they contained information adversely affecting the senator, would have made a perfect rope with which to hang Rog_ ers. Yet, instead of bringing about the prosecution of Senator Rogers, had there been any basis for doing so, he does nothing about it. Either this man is guilty of negligence of duty or the whispered charges against Senator Rogers are complete fabrica-

ALL OF THESE false stories, planted and distributed, appeal

only to "the moron vote" because of their utter absurdity. As a Tulia pastor told us when we showed him some of the smear literature now in circulation against Senator Rogers, "When I see something like that, it spurs me on to vote for the man who has been slandered and wronged."

ARE WE TO assume that Rogers' opposition has so little to offer the voters of this district that they must base their campaigns on such things as the testimony of an ex-con, and a several-times loser, and also other stories of equal veracity?

Andy Rogers' life is an open book. If there exists adverse information concerning his character not available to the public, certainly it has been available to those trying so hard to discredit him. They have proved during this campaign that they have keys to many doors in Austin.

The issue in this race is Andy Rogers and his record Vs. a cesspool full of slanderous accusations. Let all honest men and women of the district turn a deaf ear to vile gossip brought out during the closing hours of a political campaign.

To The Voters Of Precinct 2:

I. Elmer L. Burleson, am asking for your and support for the office of County Commissioner Precinct No. 2. I do so in the belief that I can serve well, and with the promise that, if elected, I shall do to the best of my ability.

I am familiar with every road in the Preci if not at the present, I will know something ab every piece of property along every road, and try to those things along each road in the interest of thele and the property next to it.

I look at the job of County Commissioner being a member of the Board of Directors of a pr big business. In other words, a Commissioner member of a Board of Directors of a \$15 million of oration or business. It is a business which belongs the people - every one of us. Your County Judge is Chairman of this Board, and the Commissioners' runs this business, which affects every man, we and child of the county.

A Commissioner should know how to get most done for each dollar spent. He should keep mind at all times that every nickel spent is tax - pay money.

He should know the values of property, do everything possible to equalize values to or about the lowest possible tax rate for state and col levies. In this way, and by watching closely expenditure made, is the only way your taxes and taxes can be reduced.

If you see fit to elect me as your Commiss er, I will conduct your affairs, which come under jurisdiction, as carefully and as conscientiously they were my own - and even more so, if that is sible for the responsibility is greater.

Voters are entitled to know something of life and background of a candidate who seeks their port for any public office.

I am 62 years of age, in good health and do any kind of work. I served 4 years in the Arm World War I. I attended grade schools in Jones Co ty, finished high school in Abilene, Texas, and have two years of business school.

I have ranched and farmed all over the So west and have bought and sold property all over Southwest. I operated three of the big cattle ran in Texas, such as the T Diamond near Abilene T The J Bar near San Angelo, Texas, and The SMS Ra near Stamford, Texas. The last eleven years I farm miles Northwest of Lockney and I invite you to ask neighbors out there and my neighbors here in Loca where I now live, concerning my reputation.

Having lived in the country all my life, I what it means to have all-weather roads, and REA elected your Commissioner, I will work for better and cooperate in matters of rights-of-way for REA

If you feel that I am qualified for the job worthy of your support, I as sure you I will try had deserve your trust and confidence, and will be very ful to you.

Thank you.

VOTE FOR YARBOROUGH

FOR U. S. SENATOR

1. Yarborough has a proved record of working and voting the Senate, full time, for the welfare of Texas and Texans - for an quate farm program, for lower interest rates, for income tax relief in lower brackets, for restriction of foreign oil imports and for incre old age assistance payments; he has qualified himself for the job long and honorable record of public service, including 31/2 years in the A in World War II.

2. On Mr. Blakley's qualifications, we quote H. M. Bage of the TULIA HERALD: "The fact is, Mr. Blakley, while never chall ing Yarborough's qualifications, challenged his own qualifications be he decided to enter the Senate race when he told reporters, 'I have no ifications for the office.' And after he announced for the race a WFAA reporter asked Blakley how he, a successful business man, propomanage his vast business interests and also serve in the Senate. Blakley's answer was he would 'divide my time.' And that is just he did during his 102 days in the Senate when he was present for on per cent of the roll call votes."

3. With Yarborough, the Senatorship is his only job and interest; with his opponent, it will be only one more of the vast glainterest — oil, insurance, ranches banks, airlines and what not, is staggering total of 200 — "" staggering total of 200 million. Texas needs, deserves and must he full time Senator, not a multi-millionaire absentee owner.

4. There is just one good and all sufficient reason for st for Yarborough - he is the man best qualified for the job.

VIEWS AND COMMENT

As to Candidates. This writer's vote in the state primary races will go to the Rich Man Saturday in preference to the Poor Man's friends. In other words Blakley over Yarborough. Mr. Yarborough wots not of what he does when he woos Big Labor support. If Mr. Blakley doesn't suit after we try him we can get rid of him. You can't get rid of Labor domination once you have it, as so many states have learned. While some of Mr. Blakley's "issues" are specious the same thing can be said of some of Mr. Yarborough's.

Daniel For Governor. We are convinced that Price Daniel has made and will make the state a much better governor than either of his opponents would make. So we go along with him. People of Texas will be glad he squeaked by in the first election before his second term is over.

For lieutenant governor we favor Nokes over Ramsey, although the latter has been a good man in the right place in a good many tight spots. Nokes would bring a new viewpoint, new committee assignments, new type of management to the state senate's deliberations. We can't forget that the people kept electing Mr. Woods state superintendent for too many terms and did the same with Land Commissioner Giles.

We pass up judgement on the judges' races except that we know the attitude of one as to underground water ownership. We have reference to Joe Greenhill who is asking to be kept on the Supreme Court. Mrs. Sarah Hughes, his opponent, is quite worthy and a good judge. It would not do an injustice to her should she remain in the post of district judge in Dallas, where she has served so well so long.

For Land Commissioner we go along with the incumbent, Bill Allcorn and the same goes for the Commissioner of Agriculture, John C. White. Alcorn is operating his office in a glass bowl and John C. White has brought the legislature around to making his office a more effective one in serving the peope of the state.

We have already indicated our preference for the state senate. We think Andy Rogers ought to be returned. We may have our eyes shut to the claims of his detractors as to his integrity. We have to be shown more effectively than has been done to be even doubtful. The district needs to keep Andy Rogers at least another four years.

City of Floydada will bring total valuations on the city rolls up in an amount to add about \$1,000 in tax money to the city's tax income this year. City Secretary Lewis Norman estimates. Exact figures vere not available.

The board of equalization was emposed of O. P. Rutledge, Fred Battey and Lane Decker. Sixtyodd property owners had adjustments to make in their renditions. the board completed its labors early in the month.

The city council in their regular neeting last week adopted a resolution asking the Floyd County Commissioners Court to join them in a plea to the State Highway Department to take over the maintenance of the Twelfth Street paving from its confluence with Highway 207 at Missouri Street, south to Houston Street, route of Highway 70. This 2,700 foot strip of paving is carrying increasingly heavy

able to cope with the maintenance problem, the council indicated. To Honor Certificates At the council meeting last week the board adopted a minute insturcting the city secretary to honor all outstanding certificates of

rolls had shown a total of about went for an hour's swim in the \$2.350 the latter part of last week the city secretary's office disclosed. Secretary Lewis Norman said the original delinquent list of approximately \$23,000, is now below \$20,009. The completion of the delinquent tax roll late in May was followed

by notices to owners whose property was affected. The new tax record set up at a cost of about \$650 is expected to be invaluable in keeping current

records on all property and reduce errors to the minimum Figures as of the first of this week on deliquent light bills stood at \$6,135.23, according to the secretary's records.
