### School Budget Shows Big Sum For Year 58-9

The 1958-59 budget of Floydada Independent School District laid out by the Board of Education for taxpayers to look over and study yesterday afternoon at the high school building, comes to a total of \$444,095 for all purposes.

In the break-down of the expenditures contemplated to be made, the board set administration costs at \$21,270, of which \$13,970 is for salaries and \$8,300 for other costs.

Instruction for the school year is estimated to cost \$277,426 in all, of which \$242,140 will go for salaries and \$35,286 for other expenses. Library expense and supplies outlay is set at an estimated \$8,000.

Other items in the break down of the operational school year outlay include health service, transportation, operation of the school plant, maintenance of the school plant and fixed charges.

Health service is expected to cost \$3,926, of which \$3,336 is to be represented in salaries.

Transportation costs will run to a total of \$37,600, divided into three categories -- \$12,600 in salaries, \$16,000 for other expenses of operation and \$9,000 in repairs and insurance.

The board estimates it will cost a gross of \$31,000 to operate the school plant the coming year. The estimate puts salaries in this category at \$16,600, heat and utilities, supplies and incidental costs at \$14,400.

To maintain the school plant the board set up \$6,500 as their estimate for the school year, with \$3,000 of this earmarked for salaries, \$3,500 for other expense.

Provision for teacher retirement, insurance, judgments and interest incident thereto, calls for another \$15,200, divided into \$7,600 for retirement, insurance and judgments \$7,000, and interest \$600.

The grand total of operational expense comes to \$393,032.

On top of this to bring the total to \$444,095 are funds for capital outlay, such as furniture and fixtures and buildings put into the budget at \$10,800, and debt service.

According to the board's figures debt service for the current year will run \$46,263. Of this amount \$14,500 will be used to retire outstanding bonded debt, while \$25,763 will be paid out in interest on bonded debt, and warrants (if any).

To meet the budget the district is estimating \$170,000 local revenue, which includes \$126,500 for (debt service) ... \$38,500 for tuition and \$5,000 from other sources.

At the same time the stockholders voted to increase the capital of the bank to \$200,000 by issuance of a \$100,000 stock dividend, subject to the approval of the Comptroller of the Currency in Washington. When this approval is given the capital accounts of the bank will be as follows:

### Commissioners Race is Torrid In Precinct 2

Although the fact that many voters and their families are on vacation in mid-August without doubt accounts for a considerable number of the absentee ballots cast for the majority primary Saturday, a total of 238 absentee votes outstanding Wednesday morning against 123 in the first primary at the same hour, may pre-empt a surge of voting to bring out more votes than were cast in the first primary in Floyd County.

County Clerk Margaret Collier said yesterday that of the 115 absentees who had been in to get ballots a considerable number probably did not vote in the first primary.

First indications that heavy voting may be anticipated came from Precinct 2 where prospective absentees began requesting ballots. The run-off in that precinct is for Commissioner between incumbent Hugh Counts and Bob Jarrett. They were high men in a six-cornered race in the first primary.

The two candidates and their friends have been shelling the woods and every box in that precinct is sure to cast a strong vote.

In Precinct One and Four the incumbent P. O. (Pat) Sterling is challenged by Ed Griffin, local business man. These two were high men in a four-cornered race in the first primary.

In the latter days of the absentee voting it also was noted that requests were coming in considerable number from voters in the Floydada area, particularly from elderly voters, some of whom rarely vote. The significance of this turn in political affairs will be known for certain only after the special canvassing board finishes their job Saturday evening.

One state race -- for Place No. 1 of the Supreme Court -- one district race -- for representative of the 8th District -- and two precinct races -- for Commissioner in Precinct Two and Justice of the Peace in Precinct One and Four -- are to be decided Saturday.

The polling places open at 8 o'clock -- and close at 7 o'clock p. m. Saturday. The official ballot will be in the same form as in the first primary, carrying duplicate numbers, the

### Football Training To Start on Monday For Fall Campaign

Coch Preston Watson this week announced plans for the coming football season training sessions.

All boys interested in playing high school football are asked to meet Sunday afternoon, August 24, at 2 p. m. at the senior high school to discuss training procedure.

At that time Watson will tell the candidates what to expect during the coming weeks as to training hours, diets, practice session hours and how to make their school and football schedules work together with the least amount of hardship for the boys.

On Monday, August 25, equipment will be issued and the boys will be registered both for football and scholastic work. During the first week before the start of school there will be two sessions a day of workouts. One in the morning starting at 8:00 and another in the afternoon starting at 4:00.

After the start of school there will be but one training period in the afternoon.

### Austin Man Is Supervisor Of Weed Control

Last week-end the Floyd County Weed Control District announced the selection and appointment of a supervisor for the control of noxious weeds. He is Douglas Dege, 33, who comes from Austin.

Fred Battey, secretary of the board, said that Dege will begin work on Sept. 1. He will move his family residence from Austin to Lockney right away and will make his home on his mother's place.

It was not indicated in the report where his office would be temporarily, but Battey said he hoped to have an office in the Agriculture Building.

Dege has a wife and four children, the eldest a boy, 12. He is a B. S. degree man from Texas Tech.

The Weed Control Board will not have any money on which to operate until after October 1, when taxes begin to come in. The income of the district, which will be collected under contract with the county assessor-collector, will come from a 3-cents per acre tax on all farm land in the county. Total income will be about \$17,000 per year.

However, the board has been "gearing up" for active work. General cooperation of all agencies is anticipated. Robert L. Smith, president of the board, also says that a survey indicates farmers and land owners will work along with the district in fine fashion. Practically all returns from a questionnaire mailed earlier in the year showed that land owners are anxious to attack the problem of noxious weeds on a county-wide basis.

### Band Meets Monday Night

Before leaving Floydada for the San Antonio band clinic of Texas band directors, Maurice Jones, director of band music in Floydada schools, issued a call for band rehearsal Monday night of next week at 7 o'clock at the band room of Floydada High School.

The band will have the same problem of getting ready for the first football game that the Whirlwinds will have. So they begin working out on the same day the football boys do their training suits.

The band director and Mrs. Jones left for San Antonio the latter part of last week in company with Band Director and Mrs. Dub Craigh of Abernathy. They were to be in the clinic Monday, Tuesday and Wednesday, reaching home this week-end.

On Monday, August 25, equipment will be issued and the boys will be registered both for football and scholastic work. During the first week before the start of school there will be two sessions a day of workouts. One in the morning starting at 8:00 and another in the afternoon starting at 4:00.

After the start of school there will be but one training period in the afternoon.

The coaching staff is the same as last year with Watson being assisted by Charles Tyler, Paul Huntington, and Pete Fuglar.

### Bank Increases Capital; Elects New Directors

At a special called meeting Friday of last week the Stockholders of The First National Bank of Floydada voted to expand the board of directors and elected seven men to serve as directors.

Elected were C. H. Bedford, Gene Collins Jr., Kinder Farris, C. E. Fulgham, E. L. Norman, W. S. Poole, and Fred Zimmerman Jr. Fulgham is a Lubbock banker.

At the same time the stockholders voted to increase the capital of the bank to \$200,000 by issuance of a \$100,000 stock dividend, subject to the approval of the Comptroller of the Currency in Washington. When this approval is given the capital accounts of the bank will be as follows:

Capital stock \$200,000, Surplus \$200,000, undivided profits \$341,720.14, and reserve \$10,000, the total of the capital accounts being \$651,720.14.

Principal advantage of the increase in the capital stock lies in the fact that it will improve the bank's loan limitations, Gene Collins Jr., vice-president, said.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Everyone wants harmony at the State Democratic Convention Sept. 9, in San Antonio.

Gov. Price Daniel, U. S. Sen. Ralph Yarborough, National Committeeman Bryon Skelton, and Speaker Sam Rayburn — all say they want harmony.

Even National Committeewoman Mrs. R. D. Randolph, who has tirelessly needed Governor Daniel and the state committee for two years, more or less joined in by predicting "a spirit of good will" among delegates.

Despite all the expressions of good intent, harmony among Texas Democrats is hard to come by. Like a huge household of relatives and in-laws, the party always has many clashing personalities and viewpoints under one roof. In the past, there've been ramp conventions and separate rival delegations to the national convention.

It is the hope of avoiding this in 1960 that lies behind the cementing efforts. Many leaders contend that a unified Texas delegation could have a key role in naming the next presidential nominee.

All the above-mentioned leaders are presently agreed on one issue — support of the party nominees. Point on which they part is whether the governor should have a veto over the state committee members selected by vote of district delegations.

Governor Daniel, following the practice of past governors, bumped some of the district-selected committee members in 1956 and submitted members more in line with his program.

Mrs. Randolph and Senator Yarborough, now joined by Rayburn, insist the governor has no right to do this.

But Governor Daniel has not promised he wouldn't. He said he felt no district should propose a committee member who is "dedicated to the sabotage of . . . duly elected officers of the party". This almost certainly refers to members of the Democrats of Texas (DOT), an ultra-liberal group that has heckled and hindered the governor and other official party leaders at every turn for the past two years.

Delegates from each of the 31 senatorial districts are allowed two state committee members — a man and a woman. It is estimated that perhaps six of these districts may be controlled by anti-Daniel forces. Therein lies the possibility for discord. If any of these districts proposes a DOT'er for the state committee, the governor is not likely to "harmonize."

High Hopes — Mr. Wilson went to Washington, his saddlebags full of multi-million dollar hopes for Texas school children.

Atty. Gen. Will Wilson personally delivered the Texas brief in the upcoming U. S. Supreme court case on Texas tidelands. At issue is whether the state or federal government owns submerged lands be-

tween the points 3 miles out and 10 1/2 miles out.

Wilson carried the arguments for Texas ownership in 40-year-old saddlebags that belonged to a heroic Texas Ranger. He declares optimistically that the case is fixed in Texas' favor — because the brief is dated Aug. 13, trial is set for Oct. 13, oral argument will last 13 hours and 13 people worked on the research.

More seriously, he noted that Texas had spent "a big sum of money" marshalling its facts, that a bevy of top-notch legal minds from over the state, nation and two foreign countries had spent some 2,000 hours on the 400-page brief.

"We feel like we have an overwhelming case," he said. "We feel like we will win it."

Exploration indicates that the 7.5 mile band of disputed land is exceptionally rich in oil and gas. If Texas is successful in holding its claim, revenue from these resources would go into the Permanent School Fund.

Place In The Sun — Texas Republicans have served notice they will demand an even break at getting their candidates in the favored position on the general election ballot.

Desired place is the first column on the left. GOP leaders say people automatically begin reading in this column, and some never go further.

Republicans hope to work things out on the local level with some sort of coin-tossing arrangement. But they say they'll go to court, if necessary.

Cities Win Out — Cities and utility companies won the first round of a court battle to determine who pays the cost of re-locating utilities for new interstate highways.

An Austin district court ruled that the cost can be paid from federal-state highway funds, as provided in a law passed by the last legislature. State Highway Department is challenging the constitutionality of this law.

Ultimate decision will, of course, be made by the Supreme Court. Some estimate the re-location costs could run as high as \$100,000,000.

Parole Staff Complete — Board of Pardons and Paroles has announced the appointment of 10 new parole supervisors, rounding out the 48-man statewide staff.

Adult parole staff was authorized by the last legislature in a law for release of prisoners who show promise of "going straight." About 3,000 persons are now on parole in Texas, and more are expected to be released as the new supervisors go to work.

Latest appointees to the parole staff are Louis Bramblett of Dallas, Julian Chafin of Sherman, Cecil Smith of Jourdanton, Walter Williams of Houston, Massey Herrera of Corpus Christi, Thomas Casso of El Paso, Herbert Giepper of Lubbock, Alfredo Garcia of Austin, Terry Cromwell of Fort Worth, and Charles Davis of Goldthwaite.

College Fund Seekers — Members of governing boards of state colleges have formed a committee to urge additional appropriations for the colleges.

Jointly the college directors feel they need about \$13,000,000 a year more, mostly for faculty salaries.

Herman Heep, Austin oilman and member of the Texas A&M Board, is chairman of the committee. Said Heep, "It is time we point out that Texas, ranking low among the states in its support of higher education, is getting about what it is paying for."

trips the past week.

Mr. and Mrs. M. D. Ramsey, Mrs. Wm. Finkner and son, Olan Earl, left Tuesday about noon for a trip through Kansas, Oklahoma and Nebraska. They plan to visit relatives and friends and attend the 75th anniversary of Pilgrimage, Neb., where Mr. and Mrs. Ramsey were reared.

Mr. and Mrs. Marvin Smith and Judy left Thursday noon for California where they will visit Mr. and Mrs. Buddy Smith and their new daughter, Deborah Sue. Enroute they plan to go by Amarillo and visit with another son, Joe and family. The Joe Smiths also have a new addition to the family. They have a boy that was born August 11. We have not heard the weight or name so will have to give that later. Joe and Rita have one other child, a girl, Brenda, age 3.

Mr. and Mrs. Bill Tucker, Ronnie and Patricia, left Friday for Decatur where they will visit Bill's mother. They plan to make a short trip into Arkansas and Oklahoma before returning home.

Mr. and Mrs. Roy Hale and boys left Saturday for Red River, N. Mex., where they will spend a few days.

Mrs. Mather Carr returned from Gallup, N. Mex., Monday evening. Mrs. Carr became ill while away and had to return home sooner than expected.

Horner took his mother and daddy to Lubbock Wednesday for a check-up with their doctors.

Mr. and Mrs. Carrick Snodgrass received word from their daughter and family, Mr. and Mrs. Charlie Reid, last Saturday and she said she was boarding a train in Germany to take them to their ship which they would board for their trip to the United States.

They thought probably they would be on the train a couple of days and about nine days on the ship. They were expecting to dock in New York around the last of the month. Charlie is supposed to receive his orders there and they hope it will be a discharge to Floyd County.

The Reids have been overseas some fifteen months and their son, Joe Carrick, was born in Germany.

Supper guests of the Bill Tuckers on Monday night were Mr. and Mrs. Emmitt Foster, Mr. and Mrs. Wayson Foster and daughters of Hart; Mr. and Mrs. E. B. Foster, their daughter and granddaughter of Arlington, Texas.

Sue Williams and Patricia Tucker visited several corporations in Floydada Monday morning. These girls have been studying co-operative and their methods of doing business. In making out their records for 4-H, they found they needed to know more about the different co-operatives as well as the different types of other corporations in the American way of business. The girls feel that they learned a great deal about these different businesses after visiting them and talking with their managers.

Firms and the types of corporations visited were Co-operatives - Consumers Fuel, Producers Grain Elevator, Farmer's Co-operative Gin, Lighthouse Electric, Individually owned - Rex Brown Insurance; Partnership; R and R Fashions; Ordinary Corporation - First National Bank.

Sincere sympathy goes to Mr. and Mrs. Olan Earl on the loss of their son, Earl Wayne. The boy

was dead on arrival at the Plainview Hospital after being struck by a car while riding his bicycle onto the highway in front of his home. Funeral services were held at the Church of Christ in Petersburg Friday afternoon at 4 o'clock. Several ladies of the community furnished food and assistance for the family.

Rev. and Mrs. J. W. Read were dinner guests in the R. B. Gary home Sunday.

Everett Miller and Erx Williams made a business trip to Fort Worth Tuesday of last week.

Mr. and Mrs. Carrick Snodgrass are in Oklahoma this week where Carrick will have a check-up with his doctor.

Mr. and Mrs. Fred Fortenberry, Mr. and Mrs. G. A. McCada and Gordon, Doug Walding and Ann Word were visitors at church services Sunday evening.

Martha, Beverly and Ivana Smith, and Mr. and Mrs. Don Pinkner were among those attending Sunday morning. Mrs. Don Pinkner taught Mrs. Ramsey's Sunday School class in the absence of Mrs. Ramsey.

Mrs. Wesley Carr has been nursing at Lockney the past week.

Mr. and Mrs. Floyd Trowbridge accompanied Mr. and Mrs. W. C. Trowbridge to Crystal City Sunday. They will visit there several days.

Mrs. Cecil Stanton visited Mrs. Mather Carr Friday afternoon.

## Motley County Field Growing In Importance

MATADOR — Oil Development in Motley County is continuing to advance with the spotting of another well by Pan American Oil Corporation in the Roaring Springs field the second in two weeks. The new well is No. 1 C. B. (Brooks) Callaway in the proven production area about four miles east of Roaring Springs.

Location is 1,800 feet from south and east lines of Section 5, Block O-2, G. 1' Haywood survey. It will be drilled to 4,900 feet by rotary.

Pan American's No. 2 H. I. Eger started two weeks ago in the Roaring Springs field has experienced some difficulty with surface casing slipping according to a report. Problems have apparently been overcome and drilling resumed, the unofficial source said.

Rumors of still more locations continue to be circulated but are without verification. One report circulated here last week was that 10 to 20 more wells are "in the

hopper" for Motley County. It was impossible to trace the source of the report.

One encouraging fact is apparent to the average citizen. The major companies are still interested in further development in this area and despite the present condition of the oil industry, they continue to spend more money in an attempt to find more oil.

Despite some "gaps," development now extends from the Roaring Springs field almost all the way to Snyder southwest and with the new production in Dickens County it connects south and southeast with Jayton and Aspermont.

KNOW THE SPRAY YOU ARE USING ON GRAIN SORGHUM CROPS IN THE FIELD  
Check with the Farm Chemical Company where you do business for Approved Spray Control Methods  
It is our information that the Pure Food and Drug Administration is going to make regular checks and confiscate any grain showing a trace of toxic residue. These residues occur from spraying with Hydro Carbon Base Chemicals, such as Heptachlor, Chlordane, DDT, 2-1, Dieldrin and others.

**SAFE TO USE ON MAIZE ARE**  
**MALATHION, TOXAPHENE and PARATHION**  
Be sure to use these carefully as recommended by your Farm Chemical Company  
The Pure Food and Drug Administration have authority to Confiscate grain in storage under the Miller Bill, which went into effect last year.  
Dr. W. N. Cramer, grain sorghum specialist, says "We could have millions of pounds of grain tied up in this area, if High Plains farmers use these chemicals."

Hydrocarbons leave a residue on grain that is toxic to live stock. This toxicity is carried into the meat of live stock, which could make the meat toxic to Humans.  
These urgent suggestions are made in the interest of producers and handlers of grain. It is important to all of us to be on the safe side.

**About The Justice of the Peace**  
Pat Sterling has served well and efficiently as Justice of the Peace in Precincts 1 and 4 during his tenure of office. His rulings have always been fair and without discrimination, no matter whose case is involved. The rich, the poor, the colored, the white, the young, the old, all have received the same measure of justice and consideration. Just because a complaint has been filed against you does not mean that you are already "stuck" in Squire Sterling's Court. You are assured a fair and impartial hearing. Due to having lost one of his legs by amputation, and having to learn to walk with an artificial limb, Mr. Sterling has not been able to see many of the voters in person. So we, his friends, knowing that he is a good man for the place, worthy, and really needs the job, are asking you through this advertisement to go to the polls Saturday and re-elect him as your Justice of the Peace. You'll be glad you voted for him and he will be grateful to you. Adv. - Paid for by Friends of Pat Sterling.

## Grain Problems Meeting Called Tues., Aug. 26

Grain sorghum producers throughout Floyd County will take a closer look at their production, marketing and related problems and opportunities at a county-wide meeting next week.

Ewald Quebe, Floyd County chairman of the Grain Sorghum Producers Association says the annual pre-harvest meeting will be Tuesday, August 26, at the county court room, 2 o'clock p. m.

It is expected that government programs, production and marketing practices and reports on the organized activities of the Grain Sorghum Producers Ass'n. will be the chief topics of discussion.

Jack King, Grain Sorghum Agronomist with the Texas Extension Service and Bill Nelson, Executive Vice-President of OSPA will participate in the discussion along with local farm leaders.

Quebe points out that the grain sorghum economy of the area is

rapidly changing. He mentioned particularly changes in government program, expected release of new and different hybrids, expansion of livestock feed in the sorghum area, and stepped up interest in industrial use of sorghums.

Our individual welfare under such rapidly changing conditions may well be determined by how well we plan together, and on our organized efforts in interest of grain sorghum, he said as he urged wide attendance at the meeting on August 26.

### Majority Primary

(Continued from Front Page) signature tear out in the right hand corner, the pledge to support the nominee and voting instructions. Manner of voting now is only by scratching or marking out all names in a race except the one for which you wish to vote. Boxes in front of the names for voting by check mark were discarded last year by the legislature.

Following are the names in the order they will appear on the ballots:

For Associate Justice of Supreme Court, Place No. 1: Robert W. Hamilton, Midland County and J. Edwin Smith of Harris County;

For House of Representative 89th District of Texas: H. G. Wells of Siskiyew County and R. Frank Stovall of Floyd County.

For Justices of the Peace, Precincts 1 and 4: Ed Griffin and P. O. Sterling.

For Commissioner of Precinct No. 2: Bob Jarrett and Hugh Counts.

Early returns are anticipated in the local races but the race for representative is a four-county contest, in Floyd, Hale, Swisher and Kiscoe.

Campaigning has been heavy in this race, both candidates having been actively out after voters favor. Both candidates are students in University of Texas Law School, Stovall the Floyd County entry, a senior, and his opponent Wells, a sophomore, at Austin. Both have strong backing in their home counties. Ten thousand, five hundred sixty-one votes were cast in this race in the first primary.

For the first time in its long history the Hesperian became embroiled in a campaign when it warmly espoused the cause of Stovall over Wells for the representative's seat. Stovall, the newspaper said, was not stressing his educational advancement as he should, over his opponent. Wells took exception to the newspaper's claim that a sophomore in Law School is at a disadvantage when the legislature convenes.

## ASC Will Air New Crop Land Plans Tonight

Tonight's meeting of Floyd County farm land owners and operators, scheduled to be held beginning at 8 o'clock in the District Court Room, will hear the new plan outlined by the U. S. Department of Agriculture for retiring cropland from production.

Last week after spending a day listening to a representative of the State Office of ASC, detail the plan, members of the committee B. L. Breed and Henry Schacht, came home believing that there would be a considerable interest among farmers.

And since the closing date of the offer to sign contracts is set for Sept. 27, they considered it highly desirable to get the plan before the people at an early date.

ASC Office Manager Thos. J. Hutchins has been detailed to give the official explanation tonight and also will conduct a question and answer period.

This week Hutchins said it appeared the average rental rate would be \$13 in Floyd County, whereas it has been \$11 per acre flat.

Part of the instructions local committees have is to apply the rental payments on the individual farm. Hutchins said the regulations call for rental payments based on the capability of the soil on the farm, not including fences, roads, improvements, or irrigation.

So far as is known locally there will be no 1939 one-year rental, but only a long term rental offer will be available to the farmer, either a five-year or a 10-year term.

The office manager said there already have been several applications put on file.

Reason for the public meeting is for more people to learn about the program all at the same time. Since the offer extends over only slightly more than 30 days it is necessary for the information to become general as quickly as possible.

### WATCH FOR BASEBALL MEET

An important League Baseball meeting is being planned for next week. Watch the Hesperian for time and place. You will want to be present. Don't miss it.

### YOUR COUNTY AGENT

(By Cecil Lewis, County Agent) Irrigation -- Now is the time to start planning your cut-off date for irrigation of cotton. Something between August 20 to August 25, we should stop the irrigation water. This gives plenty of time for our bolls to mature and we get very

little fruit set after this date. There is an over-supply of low grade cotton, and each one of us should try to produce the highest quality cotton possible. One way is to stop irrigation about the 20 to 25th of August.

Grain Sorghum Insecticides -- The control of insects on grain sorghum is limited to the following three insecticides with the listed restrictions. Malathion may be used with-in ten days of harvest, parathion within twenty-one days of harvest. No other insecticides such as DDT, heptachlor, aldrin, and deltrin should be used because they are not cleared by the Pure Food and Drug Administration.

Cotton Defoliation -- Many of you may be planning on defoliating cotton for harvesting. We have available the cotton defoliation guide for those people who might be interested. It gives some good pointers on application, time, rate and other factors.

Cotton Insect Situation -- Sealed infestation of bollworms are found in all of the county. Be sure and check the terminals for small worms and eggs. If 4 to 5 worms are found per 100 stalks control should be started. Some cases an application 5 to 7 days later may be necessary. Some spider mites are showing up in cotton and should be watched closely.

# Payments \$318 Thousand Per Annum

ity benefits at the rate of \$318,070 a year in Floyd County helps business generally because most of the money is spent immediately on food, clothing, and other necessities.

"This is especially important in a time of economic recession," he said. "Social security benefits are being paid nationally at a rate of more than a billion dollars annually."

Payments to a retired worker average about \$65 per month, Hutton said. The average for a widow with two young children is \$145. The maximum payment for a retired couple is \$162.80 a month and the maximum for a family is \$200.

"There were several reasons for the increase in benefits over last year," Hutton said. One was the payment of benefits to people who were brought under the law for the first time in recent years -- self-employed farmers, for example. Other reasons for the increase were the reduction in the retirement age to 62 for women and the start-

ing of disability insurance benefits to disabled people 50 or over.

Hutton agreed that one factor in the increase may be the business recession. "I'm sure some older people who would have preferred to keep on working have been forced to retire because of the general business conditions," Hutton said. "Also some mothers may be getting survivors insurance benefits for themselves as well as their children because they have lost jobs as a result of the recession."

"Many of these people would have been forced to turn to public assistance as soon as they exhausted their unemployment insurance rights," Hutton said. "The result would have been a further increase in public welfare costs, costs which are paid out of a general taxation."

## Toliver Favors Frank Stovall In the Run-Off

(Tom Tolliver, who was third man in the race for representative of the 89th District in the first primary, has announced his intention of supporting Floydada's Frank Stovall in the run-off next Saturday. His statement in full is as follows. —Ed Note.)

### TO THE PEOPLE OF THE 89th REPRESENTATIVE DISTRICT:

Having returned from a vacation, I would like to take this opportunity to thank the people of the four counties of this District for the many courtesies which they extended to me. To my friends who worked so tirelessly in my behalf, I shall always be deeply grateful. I also want to congratulate all of my opponents for having run a clean race and I hope we will continue on the same friendly basis as we were throughout the campaign.

Many people have asked me who I was going to support in the run-off. I do not for one minute presume that I could tell anyone how to vote, but I believe the people who voted for me are entitled to know how I stand. Both Frank Stovall and H. G. Wells are close friends of mine, and we were in Law School together. I am going to vote for and support Frank Stovall for the following reasons:

1. Having talked to the people all over the District, I sincerely believe that Frank Stovall's thinking more nearly represents the thinking of the majority of the people of this District.

2. Frank Stovall is a Senior in Law School whereas his opponent has only completed one year in the Law School. Because of his advanced standing, Frank Stovall is in a better position to represent the people of this District. This is a rich district, especially from an agricultural standpoint, and we need full time representation. Frank Stovall has said that he would give full time to the job and as a Senior Law Student, he is in a position to drop out of law school during the time the Legislature is in session and finish his work the following summer.

3. Frank Stovall has pledged himself to support a West Texas man, Waggoner Carr, for Speaker of the House of Representatives. His opponent has made no commitment as to who he will support. I believe it would be in the best interest of this District to have a West Texas man as Speaker of the House of Representatives, and I think the people are entitled to know how their Representative stands on this matter.

4. Swisher County has had the Representative for the past six years. It has been many years since Floyd County has had the Representative, and I believe the Southern part of the District is entitled to be recognized.

Again I want to express my sincere and heart-felt appreciation to the wonderful people of this District.

### VIEWSON COMMENT

**Your Vote Saturday** will be an important one. We wouldn't want to be trying to lecture our readers, but we can't let the week go by without suggesting that every qualified voter owes something to the candidates, local and state.

**Look, Girls, an Idea.** Made up your mind where you're going to school? We have something here. There are a lot more boys enrolled at Sul Ross State College than there are girls, almost three to one. And are they fine-looking! That is ugly, you know, like girls seem to like. Send for a catalogue. Don't overlook that bet. Let the other gals have their universities. Go where the boys run in droves and crave nice looking girls to look at and admire. The actual count last term was 821 boys, 326 girls!

**The Rival World.** While mankind is divided into two general camps at each other's throats, either verbally or with lethal weapons, all the time, the two camps have a rival enemy common to both. This is the world of the insect. Man has battled insects for, lo, these centuries and now thinks he has made tremendous strides forward in the battle by the introduction of the new kinds of poisons and mechanical means of destroying the crawling things of the earth's surface. Each year millions are spent to destroy ants, grasshoppers, flea hoppers, boll worms, corn borers, and so forth. Each year housewives struggle and spend huge sums to keep out moths, roaches, silver fish and the like. Still insects take their toll. They find ways to accommodate themselves to the new poisons introduced every year. Insects destroy one-third of all the food man grows, cause many millions to be spent for medication and preservation of health. Insects, when the carnage of the battles ceases will be crawling still, it seems, onward ever more eager to cover more and more of the earth's surface. Mankind hopes to win over them, but certainly cannot yet be said to have done so.

**Love And Affection.** An old friend last week said he had just received some kind of a plaque or certificate of award. Being a man who is forever doing something to entitle him to things of the kind he already had several in his den and around. The family urged that particular plaque was just one too many. No place to put it. "Oh, yes," said he. "Things like that are like love and affection! You don't have to have a place." Love and affection make no claim on your capacity nor yet on the wall spaces of your heart. They just fit in and you have as much room as you had before. The old man was right.

Two things are hard on the heart — running up hill . . . running down people.

### As A Farm Woman Thinks

(Nellie Witt Spikes)  
There is a sadness in our midst. Mrs. L. A. Wicks has answered the last call and her long sufferings are over. A long time ago there was a very wise man and his proverbs are quoted in the Bible. How fitting is his Praise of a Worthy Woman! And how it applies to the life of Mrs. Wicks. A good wife, who can find? She is far more precious than jewels. The heart of her husband trusts in her, and he will have no lack of gain. She does him good, and not harm, all the days of her life. She opens her hands to the poor, and reaches out her hands to the needy. Her husband is known in the gates when he sits among the elders of the land. She opens her mouth with wisdom, and the teaching of kindness is on her tongue. She looks well to the ways of her household, and does not eat the bread of idleness. Her children rise up and call her blessed. Her husband also, and he praises her. Many women have done excellently but you surpass them all.

Our writer says that talk of strikes is largely for bargaining effect. The union does not want to strike, but their strategy of waiting for the new models to come out is a winning piece of maneuvering. Whatever the outcome it may be expected that prices will be up only slightly. Economies have been effected in both manufacturing and management. First new car announcements are not expected before Sept 23, possibly Sept 16. Buick will be first, he says, followed by Pontiac, Olds and Chevrolet in that order by or before Oct. 21. Chrysler will not announce before the middle of October, Ford will also not be until October. What this guesser knows about it is to be seen. Just an interesting speculation about what most everybody has an interest in.

There was once a snail in the bottom of a well sixteen feet deep. Trying to get out, the snail would climb four feet every day, but each night the poor snail would slide back three feet. How many days did it take the snail to get to the top?  
"Oh, that's easy," you may say — "sixteen days, of course — one foot a day gain, and sixteen feet the trip." But wait a minute. Think again.

Each day the snail really gained only one foot in getting out of the 16-foot well. At the end of the 12th day it had reached 15 feet, but slid back to 12 feet during the night. But on the 13th day it reached 16 feet — the top of the well — and so it spent the night on the ground.

**Wool Is Suffering, Too.** Cotton has a companion in agony so far as world markets are concerned. Man-made fibres have dealt wool a hard blow along with cotton fibres. They have gobbled up a lot of the market. Cotton and wool formerly slugged it out for the market. Now the cotton raiser and the wool grower are reduced to such a level that they are mutually commiserating neighbors. Cotton and wool have been the world's stand-by for clothing mankind for so long they have forgotten how to merchandise against a new competitor. Since the world is one of change, none must consider themselves invulnerable any more, not even cotton and wool.

L. Lynn Colville, son of Mr. and Mrs. J. D. Colville, who has been in the Burma campaign with Gen. Stilwell's army to open the Burma Road, has been sent out of the jungles for a rest, his family has learned.

Saturday night a supper was enjoyed by relatives in the A. V. Womack home at Sand Hill. Included in the number were Mr. and Mrs. Arthur Womack and family of Plainview; Mrs. J. W. Womack and family of Dallas; Mrs. Jack Womack of San Diego, Calif.; Mr. and Mrs. Roy Teague and children of Floydada; and the A. V. Womack family.

His hands that had been so useful as a doctor were quietly folded, his brain that had solved many a hard problem was at rest. Patient and kind Wat had been in the town where he had been a doctor for some forty years, and we are proud that we know him, and that we could be with the family at the time.

Emma was his home for many years, there he had gone to school and made a good scholar. There were the friends of his boyhood and after many many useful years Wat was back among the folks and scenes he had loved.

### To the Voters of Justice's Precincts 1 & 4:

In asking you to elect me to the office of Justice of Peace, I would like for you to consider the following:

1. I have aimed to be fair to everyone.
2. I have made every effort to treat people as I would like to be treated.
3. Quite a lot of cases in my court involve traffic violations by young people, and in dealing with them, I have tried to be firm but patient, and to point out to young people that money paid out for traffic fines is money that they could have spent for better things; that safe driving is good driving, and that the life they save by caution might be their own.
4. A justice of peace who does his duty under the law cannot hope to make everybody happy, but he can and should be fair and courteous to every one; I have done my very best to do just that.

Your support and influence will be sincerely appreciated.  
Yours very truly,

**Spence Family Holds Reunion Over Week-End**

(Contributed)

Along about 3:00 o'clock Saturday morning the Spence clan began getting ready to head for Comanche, Tex. for the annual reunion, wondering how many new faces would be present. There are so many cousins, nieces and nephews who have never been. We were all so happy to have several new ones and two nieces of the now older Spences were there, who had never been before, also a great-niece whom we had not seen for twenty-five years as she has made her home in South America. She was home visiting her parents.

Saturday was spent visiting, while the youngsters enjoyed swimming.

Sunday morning all arose bright and early after cooking breakfast on a camp fire for some one hundred, enjoyed a short business session, then a short song and devotional service, followed by the Sunday School lesson taught by Orville Spence of Sherman, Tex.

Sunday dinner consisting of barbecued beef, potato salad, green salad, Mexican style beans, hominy, cantaloupes, cakes and pies of every kind was enjoyed by some one hundred twenty-five. Soon after dinner all began getting ready for the journey home, tired but happy and content from having such a wonderful time.

Those attending from this vicinity were Mr. and Mrs. R. M. Spence, Mr. and Mrs. C. O. Spence and Sam A. Spence all of Floydada, Mr. and Mrs. Kelton Winegar and Karen, Mr. and Mrs. L. R. Rainbolt, Marcia, Doug and Jan, Harvey and Robert Winegar, Mrs. J. B. Marley and Mr.

**SAYS Mrs. H. S. Hackfield,**

2132 56th STREET, LUBBOCK, TEXAS

"An electric home freezer is the perfect answer to meal planning, especially for working wives," says Mrs. Hackfield. She continues, "There are many advantages of owning a freezer. For example, it's such a convenient appliance and, because we can buy in quantity when prices are lowest, our freezer lets us realize a big savings in food costs. But, getting back to meal planning — when I have odd moments I can prepare complete meals in advance, freeze them, and then when we have dinner guests it's a simple matter just to 'heat 'n serve.'"

The same advantages that Mrs. Hackfield speaks of can be yours just as soon as you get that electric home freezer you've been wanting for so long — why wait — there's never been a better time to buy!

# Prepare Child For School Years

## Start Him Off On Adventure In Good Health

Is your child starting to school this year for the first time? If so, is he ready for it? There is still some time left before school begins, and now is the time to prepare him for his exciting adventure.

He needs to start school life in good physical health. Have your family physician give him a complete physical examination even though he has periodically examined your child in the last few years. An eye test is very important, and teeth should be checked by the family dentist. Now is the time to re-check and correct any defects not found in the past before school begins.

Most likely your child has already been immunized against polio, diphtheria, tetanus, whooping cough (pertussis) and small pox, but if he hasn't, have these immunizations started immediately for his own protection and that of his classmates. And by all means don't wait until school starts for these polio shots. Even if all immunizations have been done, be sure to check with your doctor about necessary booster shots.

Your child should have escaped

these "childhood" diseases by early and correct immunization while he was still in the protective atmosphere of his home, but once he starts school, he will be exposed to conditions that he is unfamiliar with and may not be able to cope with if he is not protected. Be sure and learn how his school handles sudden illness or accidents and your role in avoiding them.

He should know how to wash his face and hands, how to comb his hair and how to use a handkerchief or tissue, not only for blowing his nose, but for covering a cough or sneeze.

Perhaps the most important part of your child's preparation for school is his mental and emotional outlook. Learning to give and take, to get along with others, will be necessary at school -- and throughout life. If he has felt secure in your affection, has learned to take his place in the family group, shared in small responsibilities and learned to do some things on his own -- if he has played with children his own age, the chances are that he will get along well at school.

But there are other factors too. Not enough sleep can make him tired and edgy. He may need from ten to 12 hours a night to build up his energy. If you haven't already begun, now is the time to see that your child has plenty of sleep regularly.

As parents, you will play the leading role in the development of your child's character and personality.

## News of Broadway

(By Mrs. T. E. Thornhill)  
BOARDWAY, August 18 -- The crops are still looking good though some of the early cotton is beginning to show off quite a few of half grown small bolls. Looks like a good rain would help, although the young cotton still looks fine and some have already had to spray for worms.

It is really loading up. Sure hope the farmers can make a good crop this year.

Mrs. J. C. McCracken and Mrs. M. R. Givens and boys were callers on Tuesday afternoon in the D. D. Thornhill home.

Mrs. T. E. Thornhill and Mrs. Kelson Winesgar and Karen, Sandra Norris and Georgia Ann Winesgar all went to Floydada on Thursday of last week and helped Mr. and Mrs. R. M. Spence put up peaches.

Mr. and Mrs. R. M. Spence, Harvey and Robert Winesgar and Doug Rainbolt slept a few hours Friday night in the T. E. Thornhill home Friday night were Mr. and Mrs. Ben Beckham, Monica and Rodney Thompson, Mrs. D. D. Thornhill, Mrs. Delma Norris, Sandra and Bob and Bessie Smith.

We were so sorry to learn this morning that Grandmother Hardin's little house was destroyed by fire about midnight Sunday night. She woke up and discovered the fire but by the time she could get the Conda Starlets up it was too late to save anything. ## TELEPHONE TALK

By J. C. Oakley, Manager

POST CARD CANVASS

The results so far from your answer to our post card canvass have been most encouraging. The few constructive complaints we've received have been cared for.

Please answer your card if there are any complaints you have to make. This is the time to get that "something" off your chest.

The South Plains project is coming right along. All of the telephones have been installed and the construction should be completed sometime next week. All that is holding up this project is the equipment that will be in South Plains and Floydada. This is expected in at anytime, so it shouldn't be long before this service can be placed in use.

NEW CURE FOR THE BLUES

I've always heard that women have a sure cure for the blues. Go out and buy a new hat!

Well, I'm not knocking hats or anything like that, but next time you need perking up, try ordering yourself a new extension telephone - in color.

Phones now come in cherry red; moss green, pastel yellow; aqua blue; light gray; rose pink; ivory; white; and light beige. They're not expensive, either. The one-time charge for a color phone is just \$10. Installation and monthly rate are exactly the same as for a standard black extension.

With a glamorous looking, step-saving, extension phone in your kitchen or bedroom, or alongside your sewing table, you'll be just a whole lot perkier.

TIPS FOR TRAVELERS

Whether you're on vacation or business, traveling by auto is a pleasant and handy way to go.

And when you're making a trip, Long Distance telephone service can be a mighty useful traveling aid.

When you start out on a long trip, for example, you can't always be sure how far you'll get by nightfall. By lunch time or early afternoon, though, it's pretty easy to decide on an overnight stopping point. And that's the time to get to a telephone and call ahead for reservations.

At the end of a long, hot drive, just knowing you have comfortable accommodations waiting is worth a lot to your peace of mind.

Call by number. It's twice as fast.

Freer shot a 145 for the final 36 holes of medal play to finish one over par for the course and four strokes under runner-up Paul Huntington who had a 149.

Huntington was repeat performer also as he finished in the number two spot a year ago.

Other members of the championship foursome were Roland Adams of Lubbock who won medalist honors opening day, shooting an even par 72. He had a 152 on the final 36 holes three strokes behind Huntington. Gene Boyd of Plainview was the other member of the foursome and finished with 75-31 rounds for a 106 score. Boyd had

played with Adams for medalist honors Thursday but lost the playoff round on the second day.

The tournament drew 96 golfers who were paired off in six flights, all engaged in match play except on the final day in the championship flight where champions were named on medal play.

In the first flight were Aaron Cartmel, Floydada; Pat Murray, Lubbock; Don McGuire, Lubbock; Gilbert Snygle, Phillips; H. G. McCloud, Plainview; Al Barton, Matador; Skinny King, Floydada; C. L. ## Wells Points Out Editorial Error In The Hesperian

A sophomore student in the University of Texas Law School can drop out of school for a semester without losing credit for the remainder of his school year, H. G. Wells, candidate for the legislature told The Hesperian this week, pointing up what he considers an erroneous statement in The Hesperian recently. The Hesperian was commenting editorially on the fact that Frank Stovall will be a senior in law school this year and would have advantages over Wells, a sophomore on this account.

And Wells had a telegram and letter from the assistant dean of the law school, T. J. Gibson, in support of his contention.

The Hesperian said editorially in effect that Wells could not take out for a half of the school year without losing a full year in school. "He will be a sophomore with sophomore chores to do," The Hesperian said.

"There are no Law School rules that would prevent your attending school during the fall semester and then dropping out for a semester," the dean's letter to Wells stated.
