

Could Abolish Office of Co. Superintendent

Co. Convention Of Farm Bureau Called Tonight

Included in the proposals adopted by the board of directors for policy at the local level, the convention tonight for approval or rejection at the county convention of the Farm Bureau, will be seven resolutions, among which is a proposal to abolish the office of county superintendent of public schools.

The county convention is called to be held in the district court room at 7:30 o'clock. The call was issued following a meeting of the board Thursday night of last week in Lockney, at which were present nine members of the board.

Other recommendations which are to be passed on tonight include:

(2) A suitable natural-resources tax in order to finance the schools of the state. The Farm Bureau's exhaustive study of several forms of proposed taxes, includes the sales tax, which the directors believe would not be to the best interests of the farm people.

(3) Continued effort to secure legislation on an animal health and disease control program.

(4) Continuation of the Farm-to-Market road program as is and its extension until all Texas farms have reasonable access to markets on all-weather roads; that priority be given, where possible to school bus routes and mail routes.

(5) Favoring a local or area control of any water development programs, and that underground water not be included in any state-wide surface water program; And opposition to a state-wide ad valorem tax to finance a water conservation program.

(6) As to state's rights the Farm Bureau resolution presented will oppose federal encroachment in any function of government that can be effectively handled by the state. The directors' resolution to be presented opposes federal aid to education on the grounds that federal aid brings federal control.

(7) Opposition to application of minimum wage laws to farm labor. Organizations continue to oppose the inclusion of farm labor under the minimum wage and hour laws and oppose any increase in the minimum wage and hour laws, and strongly favor retaining the right to work law.

Under the resolution the Farm Bureau leaders would seek a reasonable interpretation of the child labor law and if necessary seek legislation to amend the law, placing responsibility and liability for violations upon the contractor or crew leader instead of upon the farmer. The resolution also calls for control of farm labor to be removed from the Department of Labor and given to the Department of Agriculture.

Attending the meeting which adopted the resolutions for presentation tonight were David S. Battey Jr., president, R. L. Smith, L. B. Brandes, John T. Carthel, J. R. Turner, Shirley W. Irwin, Jerry Cooper, Robert Kellison, and Chester Carthel.

Jack Moore, area field man of the organization, and Sam Puckett, service secretary, also were present.

Answer Call To First Gin Fire

Floydada fire boys were called out about 2 a. m. Tuesday to the gin fire in Floydada where a little fire got started on the outside. No damage was reported and the fire was quickly brought under control.

Billy Baker, Floydada fire marshal said Floydada gins had been lucky so far. This was the first flare up this season, but with harvest in full swing and stiff breezes beginning, Baker said they could expect frequent fires.

As yet the burr burners are not full enough to blow out hot cinders, but they will be soon, Baker said. Caution should be taken and gins shut down for the windy periods.

Bank Hearing November 6th

State Commissioner of Banking J. W. Faulkner by telephone from Austin told The Hesperian yesterday morning that the hearing on the new bank in Floydada is scheduled for Thursday morning, November 6, at 10 a. m. This report was in response to a query from this newspaper.

The hearing will be held at the commissioner's office in the Capitol National Bank Building, 114 West Seventh St., Austin. The commissioner said that the hearing room will accommodate 18 to 20 persons and that its capacity would be the only limit to the number of persons who can be present. The hearing is public and newsmen are welcome, he said.

Asked if there are any protests, Commissioner Faulkner said The First National Bank of Floydada is making a strong protest, but he had had no other protests filed today. Several banks in the area have been notified, he said. The new bank, if chartered as a state bank, will be named The American State Bank. Petitioners include 50 or more local business men and the bank would have a capital structure of \$300,000. Walter Woodrum, of Mulleshoe, is proposed as president.

Floyd County Accident Record Above Average

(Special to The Hesperian)

NEW YORK, Oct. 20 — Floyd County's record of deaths from general accidents is high, compared with that in most other communities in the United States.

This is brought out in the annual report of the National Office of Vital Statistics, made public recently. It takes into account occupational accidents, drownings, death due to gases and explosions, firearm fatalities, falls in the home, motor vehicle accidents and all other causes.

The data covers all such fatalities sustained by local residents, whether they occurred in their own community or elsewhere, but does not include deaths locally of non-residents.

Among those living in Floyd County, it shows there were 11 such fatalities in the 12-month period ending January 1, 1937. Of this total, 5 were due to auto accidents.

In terms of the local population, this was equivalent to a rate of 106 accidental deaths per 100,000 people. It was above the rate for the United States as a whole, 56 per 100,000.

It was also above the State of Texas rate of 60 per 100,000. The Federal report has come out just prior to the National Safety Council's annual convention, which opens in Chicago on Oct. 20 with 12,500 safety specialists present. They will seek ways and means to cut fatalities and other accidents that took the lives of 95,600 persons last year and inflicted non-fatal injury on 9,690,000 others.

While the automobile was the chief culprit, it was responsible for less than half the death toll, which took 23,282 lives. Fires and explosions were third, with 6,405.

In dollars and cents, the cost of accidents last year came to \$11.9 billion, estimates the safety council taking into consideration the fact that for every fatal accident there are over 100 others that are injury-producing. Included in this sum are wage losses, property damage, insurance, indirect losses in production and the like.

The local share of this cost, based on the accident picture in Floyd County, indicates an economic loss to the community of \$1,381,000 in the year due to all accidents, fatal and non-fatal.

Strippers Put Gins on Round the - Clock Runs

Cotton from defoliated fields of Floyd County had begun to stack up in gin yards this week, what with sunny, open weather and thousands of acres of cotton ready for the machines to go into fields.

Available workers, including several hundred nationals from Old Mexico had not been able to provide all the cotton the gins could turn out, working half-time on account of dewy mornings and afternoon rain showers.

Defoliants have been used on a considerable per cent of the cotton acreage, both dry land and irrigated. For most of these crops, especially in the early ones, the period of waiting for the leaves to fall has passed.

A look at a few of the yards in Floydada and adjacent communities indicate that, county-wide, there are several thousand bales waiting for the gins now. Assuming no inclement weather the gins will continue on the round-the-clock tempo they hit Tuesday.

Some of the first green cards on defoliated machine-gathered cotton indicate that for sometime to come practically all of the staple will go middling or better. Staple lengths are ranging from 31-thirty-seconds of an inch to one and 1-thirty-seconds.

Yields are proving excellent. Some defoliated fields are yielding up to two bales per acre and better. None of the crops have been indicated as disappointments today.

C. O. Spence, the Texas Employment Commission's field representative in Floydada, yesterday morning said he had lots of jobs still open for harvesters, indicating that on a good many farms manual gathering of the crop will continue for sometime.

The cotton ginning report for Floyd County, compiled at the end of the day Thursday, one week ago, gave the ginning figures for Floyd County at 19,967 of an estimated total of 90,960.

You Name It — Pictured here is what is believed to be a mixture between watermelon and okra. J. N. Richardson of Floydada in whose garden the strange object grew had planted watermelons and okra on adjoining rows. These foot-long "pods" had an outside appearance much like okra but on the inside had seed and appearance of melon. They grew on a vine which did not look exactly like the other melon vines and had large yellow blooms before the fruiting occurred. Mrs. Richardson said that cucumbers had first been planted at this spot but did not come up.

Post Antelopes, Coming Friday Night, Is District Surprise Team

The Floydada Whirlwinds will play host Friday night to the Post Antelopes in a football game scheduled to get underway at 8:00 o'clock at Wester Field.

It will be the second district game for Floydada and the first loop-out for Post who enjoyed an open date last week.

Coach Preston Watson has about decided the "Winds" will never be at top strength again as injuries and sickness continue to bound the team. For the past three games now they have played with several starters either benched or way below par. How long can they continue to win under these conditions is a matter of some discussion among local fans.

This week Bob Ed Dempsey was moved up to the traveling team to help fill in the ranks. Several boys have been promoted in the past three weeks leaving Coach Fuglar a little short handed on the B squad and freshman teams.

Coach Frank Krhut will bring to town a Post team which has won three games, lost two and tied one. The Antelopes have an 8-4 tie with the strong Ralls Jackrabbits. They fell before Crosbyton and O'Donnell and have defeated Friendship, Amherst, and Rotan. Last week they had an open date and a chance to look over the Whirlwinds as they played in Slaton.

Scouts report Post has a very scrappy ball club. They started the season without too much experience but have surprised some with their performance today.

Weights appearing on their program roster are not too impressive but those who have seen them play say they look to have average team weight and good speed.

Probable starting lineups for the two teams appear on another page of this issue.

Floydada for the last three weeks now has had to rely on the defensive unit and more or less hold on by their teeth as their offensive punch seems to have been blunted by injuries. If they are faced with the task of making many points in a ball game it may prove to be a big order for the boys.

Though Post is not regarded as a title favorite they have not lost a district game and are in the spoilers role as they come to Floydada.

The school hands will perform at the game and offer a half time show for the gridiron fans.

Football Tonight
There will be football in Floydada tonight when Lockney freshmen and B squad teams come to town to play at Wester field starting at 6:30.

Admission prices are 50c and 25c. The Thursday and Tuesday, schedules for the younger boys usually call for a double header and gives the fans lots of entertainment.

On Tuesday night October 23, it will be Silverton 7th and 8th grade boys here for a pair of games.

The small admission charge goes to help pay for playing equipment. Scores the past week include: Floydada B team 6 - Lockney 12; Floydada freshmen 20 - Lockney 6; Floydada 7th 6 - Lockney 20; Floydada 8th 9 - Lockney 6.

Funeral rites will be conducted in the First Baptist Church at 10:30 tomorrow morning. Rev. Ed B. Bowles will officiate with burial in the Floydada cemetery under the direction of Harmon Funeral Home. Survivors include the wife, Stella, of the Floydada home, one son, Truitt H. Smith of Floydada; four daughters, Mrs. Leonard (Thelma) Alexander, Lakeview, Mrs. Juanita Jackson, Hollywood, Calif., Mrs. Lorene Dewey, Denver, Colo., and Mrs. Dorotha Bishop, Mexquite, Tex. Fourteen grandchildren, his step-mother, Mrs. J. F. Hudson of Irving, a sister, Mrs. A. N. Taylor Kopper, Tex., a half sister, Mrs. P. M. Hunicutt, Irving, and two half brothers, Fred Smith of Wichita Falls, and Paul Smith of Odessa.

POSTPONES TRIP HOME
Mrs. Milton Berry left Friday for Albuquerque, N. Mex. to be with her husband who is in the Veterans Hospital.

The family had hopes of bringing Mr. Terry home for a visit this week but doctors advised against it until he becomes stronger.

To bring the Home Ec Department of North Ward School up to standard a new washing machine needed for class room work has been made possible by the 1936 Study Club which provided \$150 from its minstrel show profits of 1937. In this group Mrs. Bill Hardin, president of the club is presenting the check to Mrs. Bennie Leibfried, right, secretary of the school district, as Mrs. George Spears, left, and Mrs. Truett Hartsell, club members, express their approval.

Mrs. Shipley Flies To Worcester, Mass. For Extended Stay

Mrs. D. D. Shipley is in Worcester, Mass., this week where she is the guest of a niece, Mrs. Stuart MacMillan and her doctor husband, and plans to prolong her visit through Thanksgiving.

Mrs. Shipley left by plane Saturday in company with Dr. and Mrs. Arthur Haddad, who are friends of the MacMillan family in Worcester. "I'll be in New York City in the morning and have lunch at my niece's tomorrow noon," she said Saturday morning before leaving.

The Haddads had been out on a visit with Dr. Haddad's brother, Mitchell and family at Olton, a stock-farmer there.

The Worcester couple came on over to Floydada and spent a day with Mrs. Shipley while they were here.

"I'll miss the big event at the Methodist Church on Nov. 16, when they have open house for the new sanctuary and the all-day services celebrating it, but I couldn't pass up the opportunity to go see my kin," Mrs. Shipley said.

Quarterbackers Slate Meeting at Junior High Monday Night

Club President Roy Teague has issued an invitation to all Whirlwind football fans to be present and enjoy a program and refreshment with the group. There will be a short business session, films and a lot of football talk.

Pucketts Travel East Find Gorgeous Scene

Mr. and Mrs. W. R. Puckett came home the first of the week from a trip which they expected to take them to the Ozarks and return, but wound up in the Smokey Mountains of Tennessee. They attended a family get-together in southwest Missouri, then "struck out east and kept going."

At Noel, Mo., they were guests of Mrs. Puckett's brother, Rev. Gier Elson and family. They were accompanied by their daughter and her family, Mr. and Mrs. Harold Haynie, of Waco. It was at her insistence that the journey went as far as the mountain territory in Tennessee adjacent to Asheville, N. C.

"I have never seen anything as gorgeous as the colors in the Smokies. There was every color of the rainbow every way you looked," Mr. Puckett said. "Makes you forget what it was you were worrying about," he added.

Fifteen Sermons May Be New Day's Record

A group of the members of the Bible Baptist Church of Floydada must have broken the record for listeners to sermons last Friday, when they journeyed to Wichita Falls for an all-day fellowship at Calvary Baptist Church.

With about 40 preachers present the gathering heard 15 sermons and a lot of special music in the period from early morning to 9:30 in the evening.

The group from Floydada included the pastor of the Church, Rev. Gilbert H. Rhine and family.

CROP Trick Or Treat Planned For Hallowe'en

Ghosts and goblins of Floydada are scheduling a trick-or-treat collection for overseas relief next Thursday night, October 30, under the sponsorship of M. Y. F. of First Methodist Church.

Young people of the community plan to make Halloween of 1958 an occasion for sharing with hungry people overseas through CROP (Christian Rural Overseas Program). Replacing the usual trick-or-treat for candy, apples, doughnuts, etc., the young people will make house to house calls seeking contributions for the CROP campaign.

Proceeds will send government surplus foods overseas through Church World Service to feed hungry

people. Such surplus foods are supplied free of charge to approved voluntary relief agencies. Heading the Halloween project for CROP is the Methodist Youth Fellowship and counselors Mr. and Mrs. Pete Hickerson.

Sand Hill News

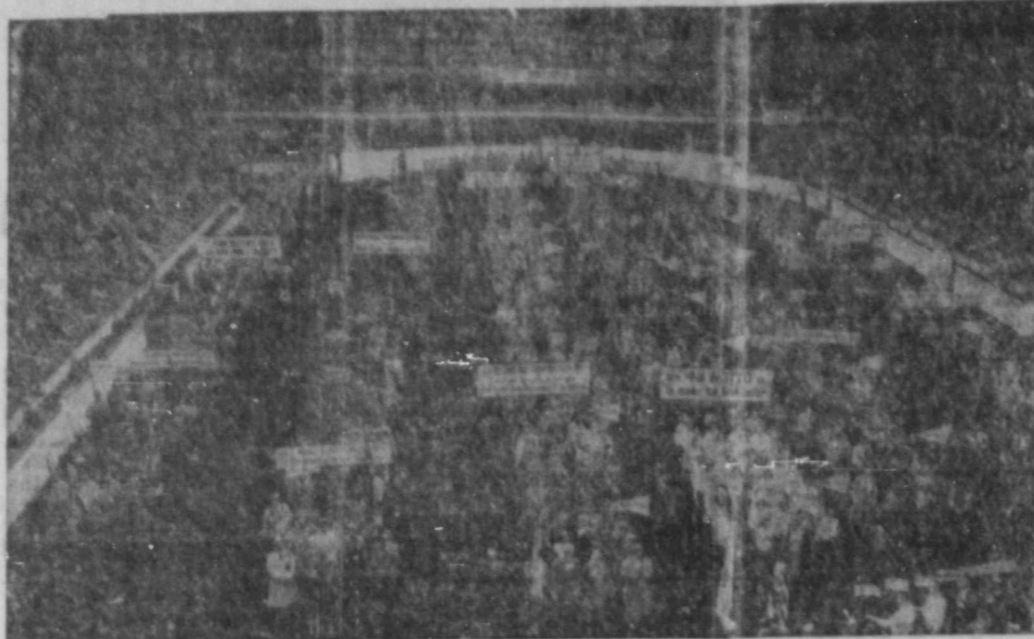

(By MRS. JAMES JEFFRESS)

SAND HILL, Oct. 20 - This past week of pretty weather has sure helped. Lots of grain has been cut, and quite a bit of cotton has been pulled. Some that defoliated early have had their strippers going. It seems that hands are still scarce in the community and more have defoliated their cotton this week. So maybe all the crops will be gathered before bad weather.

The date for the missionary revival has been set for Nov. 15 through 21, at the Sand Hill Baptist Church. There will be a different missionary every night and everyone is extended a special invitation to attend.

Mr. Harper undergoes nose surgery tomorrow in the hospital and attendants told the family he would be able to come home Sunday. Mrs. Harper and her daughter plan to remain in the hospital until Mr. Harper's dismissal.

Brenda, the 12 year old daughter, received a broken arm, two broken ribs, a broken toe and had three teeth knocked out. Mrs. Harper sustained numerous cuts and bruises. Mr. Harper a crushed nose, bruised chest, and lacerations.

Driver On U-Turn Damages Two Cars

Mrs. Curtis Siner and her three sons, Will, Lee and Leslie, and her sister, Miss Doris Fawcett, escaped serious injuries as they were returning home from Sunday school this past Sunday.

Mrs. Siner, who was driving the 1957 Chevrolet family car, was traveling east out of Floydada. Near the two mile sign on the Matador highway a Latin American, driver of the other vehicle involved in the wreck, made a U-turn in front of the Siner car, across the highway.

Considerable damages were done to the Siner car, mostly on the front on the driver's side. The family were shaken up and bruised but required no medical aid, Mrs. Siner said.

None of the passengers in the other car were injured, reports said.

Five Are Hurt In Highway Mishap

Saturday evening about 7 o'clock a car wreck one mile north of the Floydada Cemetery injured Harvey Green and a Latin American family.

Other wrecks were reported on by Salinas. The rest of the minor cuts and bruises were caused by the door and rear end of the car was damaged.

Floydada Couple Attend Wedding Of Son At Slaton

Mr. and Mrs. Wesley Gentry, new residents of Floydada, were in Slaton Friday for the wedding of their son, Travis Jaynes Gentry and Miss Geraldine Bonnell Gownes, daughter of Elder and Mrs. S. B. Gownes of Slaton.

The ceremony took place in the home of Mr. and Mrs. T. A. Johnson of that city. The bride's father officiated at the marriage.

Honor attendants were Mr. and Mrs. Richard Gentry, Mr. Gentry, brother of the groom, was best man and Mrs. Gentry served her sister as matron of honor.

Jerry Gentry of Plainview, brother of the bridegroom and Lyle Berry ushered.

Organ selections were played by Mrs. Myra Jean Collops, Mrs. Sylvia Ramsey of Amarillo, and Mrs. William Ellis of Acuff, were soloists.

Bernard Gownes of Roswell, N. Mex., gave his sister in marriage. The bride wore a floor-length gown of white tulle accented with scalloped lace and a sabbina neckline. Her circular skirt was bordered with a row of ruffled lace over net. The bride's finger tip veil of illusion fell from a coronet of seed pearls and she carried a white Bible topped with a white orchid.

Mrs. Gentry chose for her sister's wedding a Nile green dress; three-quarter length sleeves and a rolled neckline which terminated in the back to a V. She wore a headpiece of velvet of the same shade green. Following the ceremony the couple departed for a trip to Ruidoso, N. Mex. For traveling, Mrs. Gentry wore a powder blue wool jersey suit with matching blouse and black accessories.

They will make their home in Lubbock where Mrs. Gentry is attending Draughtons Business College and where her husband is employed by Bell Dairy Products.

Discussion Of Amendments Is Slated Oct. 30

The 1929 Study Club's open forum on the proposed constitutional amendments, is intended to be informative for the benefit of voters who want to cast their ballots intelligently on the 4th of November, club officials point out this week.

There are nine proposed amendments on which the voters will be asked to pass judgement. Most of them are more or less controversial and none of them are fully explained on the ballot, that is only a summary of the provisions is given in the "for" and "against" columns.

Mrs. Lee Rushing will be leader for the afternoon's meeting, to be held in the District Court Room.

District Attorney John B. Stapleton has consented to go over the amendments one by one and give as detailed information on each as the limited time will permit. There will be no effort in the meeting to influence votes for or against any of the proposals, the intention being only the dissemination of information.

Following the public meeting to which everybody interested is invited, will be followed, immediately after adjournment, by a stated meeting of the club at the home of Mrs. Ernest Kendrick.

What makes a woman happy? A group of British women, polled recently, gave answers varying from that of an MP's wife — having a husband she can be proud of — to a comedienne's, who says getting one's girdle off at the end of a day is the moment of greatest happiness.

Answers in England or America are probably as numerous as are all the moods of all the female population. We've been thinking of the things that makes us happy; a new dress that looks better than the price we had to pay; a good night's sleep; an honor or promotion for a loved one; an unexpected letter from a friend; getting a dreaded task completed. Today, as we prepare to have folks in for tea, we'd say it's bringing out our stowaway treasures to make the home we love look bright and hospitable.

Women who are happy-hearted by nature have little trouble finding things to be happy about. Those of the other turn of mind may enjoy their happy moments more because they are rare, but we doubt it.

One of the most miserable women we've ever met was one whose husband was knocking himself out to afford her a trip to Europe. The flight over was ruined for her because they travelled tourist instead of first class. Her stay in Switzerland was marred because their room did not overlook the lake. In Rome it was the heat; in Paris, the prices and the indifference of the French. If the woman had a happy moment, we weren't around when it happened.

Could we say that a woman's chance for happiness depends less on things than on thinking?

There will be a "Tour of Homes" in Ralls Sunday afternoon, Oct. 26, from 2 to 5 p.m. The tour is sponsored by the Ralls Study Club.

Homes to be shown are a variety of new and remodeled, modern, traditional and period styles.

Seven homes and the Fellowship Hall of First Methodist Church will be open to the public.

Tickets may be purchased for one dollar at the first home to be visited, that of Mr. and Mrs. John Heard 1510 Locust St., or at the church.

Other homes include those of Messrs. and Mrs. Bill Gilbreath, Andrew Sessom, W. B. Beard, Gerald Collier, Burl Griffith and Lloyd Gambrel.

Out of town visitors may come to the First Methodist Church where Girl Scouts will meet them and serve as guides for location of all the homes.

Andrew Ward Halloween Carnival (Contributed).

When the time grows nearer to Halloween, we all begin to think of ghosts, witches and goblins. So you remind all your little spooks to be thinking about the carnival sponsored by the Andrew Ward PTA, on Friday, October 31st.

We hope they will all want to dress up in their costumes and plan to come and have a big time.

The purpose of this carnival is to entertain you and to raise money for projects sponsored by the PTA.

Mrs. Holis McLain, general chairman of the carnival, announces that plans are just about complete and committees are making final arrangements to make this event a successful one.

Mrs. Claude Weatherbee, cafeteria chairman, hopes that you will make plans to eat your supper there that night.

More definite plans and a time schedule will be announced in next week's paper. Look for it because you won't want to miss all the fun.

BAPTIST CHURCH

Marvelous Wonderful

SMALL words compared to how the Lord is so graciously blessing the Bible Baptist Church. If we services to see and witness these blessings ourselves, we are convinced many are coming into the fellowship of the Bible Baptist Church. We are having many services, even on Wednesday nights. We earnestly desire to see the lost saved, so bring all your friends to the Bible Baptist Church and let us know they are saved they will join another Church but the main thing is to get them saved, for the time is short.

Several people in our services that were hard to touch but we have seen them literally shaken by the power of the Holy Spirit. They would turn about and walk the streets in their joy.

Just one and get them saved and let them join the Bible Baptist Church.

Needs At Fair Grounds Aired By Directors

Raymond Rucker of Lockney presided at a meeting Monday night in the district court room for directors and superintendents of the Floyd County Fair Association for a general discussion and planning on improvements for the fair next year.

Sam Puckett, secretary of the association, said that as many superintendents attended as they had hoped, but enough were present to give new ideas and ways and means of making the fair a better one in the coming years.

One of the problems facing the association is an adequate place for animals to be washed before showing. Plans were discussed for the building of wash racks for this purpose.

Another problem facing the board is traffic. Fencing for parking was discussed and a change in parking area is in the making, Puckett said.

Another drawback the association has had is that there is no certain meeting place for officials of the fair on the grounds. Much time is spent in looking up a director or a superintendent when he is needed.

The installation of an office was brought before the group with high hope of having office facilities and an office clerk by next fair time.

Also on the docket in the planning of booths, Puckett said the association has plans of having home demonstration club booths similar to the community booths, showing the women's handy work and other exhibits by the members of various civic clubs.

All these problems were discussed and many more, but none voted on. However, Puckett feels sure the plans will materialize because they are projects that the fair grounds need.

JAUNTY JUPITER-C—Wearing its protective cap slightly askew, an Army Jupiter-C is maneuvered into place within a gantry crane at Cape Canaveral, Fla. The cap protects the open end of the modified Army Redstone to which is affixed the upper stages which carry the Explorer satellite into orbit.

The city's bill for getting water to the municipal boundary to supply Panhandle Compress & Warehouse Company, was \$4,356.83.

City Secretary Lewis Norman wrote the check to the contractor last week-end after the council had passed on the cost, as approved by the Water Superintendent Charles Horton.

The city also paid for the new light and power engine, issuing \$14,000 worth of warrants and a check for \$90.

Norman said collections on water sewer and light bills have been better the past 30 days, with some of the delinquents taking up part of the slack in their indebtedness.

Charles Horton, water superintendent, said the number of meters that went out in the 30-day period, September-October, was about 30. He said the demand had been crowding the supply so closely the department could not give the water time to settle in the tanks before it was pushed on out into the lines. He says a new well will solve this problem.

Christian Laymen Speak on Sunday At Local Church

The theme for "Laymen's Sunday", observed by more than 100,000 churches throughout the United States, was "Christ Calls us all to follow Him".

Among these churches was the First Christian Church of this city, whose Men's Fellowship took charge of the morning worship October 19. There was a full choir of men, the church attendance as a whole was very good.

Donald Barrow led in the morning prayer, and Glenn Jarnagin read the scripture. Cecil Hagood was leader and gave a brief account of the purpose of Laymen's Sunday before introducing the three speakers.

The first speaker, Kinder Farris, told about the value of reading God's Word.

J. C. Wester gave an interesting talk on "Remember". He gave the value of retaining what we read of God's Word and conveying it to others.

Ed Brown spoke on "Unity" and gave reasons why churches and people need to be united.

Mr. Hagood closed the service with a poem, and the pastor, Rev. W. D. Reaves, led in the benediction.

Kitchen and Field News

from Lighthouse Electric Cooperative, Inc. by NANCY MORCKEL Home Economist

When home lighting is inadequate in quantity and quality to the extent that it is tiring to the eyes of the occupants, it makes slower and more difficult such tasks as reading and sewing, also working in the kitchen and laundry.

Good home lighting is two fold in purpose. It consists of general room illumination and of lighting for specific seeing tasks. It is diffused and comfortable to live with, yet adequate in amount for quick and easy reading of the tasks that it is to be accomplished. It is of such a quality as to make for improved home beauty, charm and livability.

So with the children in school, their home-work to be done in the evenings and the time of the year for reading and sewing in the evenings almost here, yet not check your lighting and be sure it is adequate for all year needs.

YOUR COUNTY AGENT
 (By CECIL LEWIS)
4-H CLUB WORK:
 Boys who exhibited livestock at
 Dallas are to be commended for
 the fine job of feeding, preparing,
 and showing their animals at the State
 Fair Warren Mitchell, Lockney,
 had the champion Chester White bar-
 row and he competed for Grand and
 Reserve Champion, Billy Don Col-
 ston, Floydada, had a second place
 light weight and a third place heavy-
 weight Hampshire barrow.
 Randy Laceywell, Lockney, had
 4th and 5th place middleweight
 Chester White barrows, and Neil Mit-
 chell, Lockney, had a 3rd place mid-
 dieweight Chester White. David Mit-
 chell had a 4th place heavyweight
 Chester White barrow.
 The boys carried 14 barrows to the
 State Fair and placed 13 of these
 barrows in the show.
 Warren Mitchell also had an 11th
 place Hereford Steer.
COTTON HARVESTING:
 Here are some pointers for hand-
 ling loose cotton to insure good
 grades:
 1. Do not tramp cotton in trailers.
 2. Provide enough trailers to pre-
 vent tramping
 3. Avoid using two wheel trailers
 4. Do not harvest high moisture
 cotton
 5. Do not over-lubricate harvesting
 equipment. This can cause stains.
COTTON BURRS:
 Cotton burrs are good soil builders
 and we should use as much of them
 as possible. In talking to people in
 the county, no infestations of bind
 weed have been found where cotton

burrs are used. Angular leaf spot will
 not present a large problem if the
 burrs are turned under, because the
 bacteria can not live in the soil.

Cotton burrs at the rate of 4 tons
 per acre has increased production
 by 150 pounds of lint per acre over
 a four-year period.

The addition of 45 pounds of actual
 nitrogen per acre to 4 tons of burrs
 gave a 211-pound increase the first
 year the burrs were applied.

This is a good way to build up
 soil organic matter and to protect
 our soil for future years.

SOIL CONSERVATION DISTRICT NEWS

Cotton Burrs Are Valuable To Land

Cotton burrs could mean approximately \$50,000.00 to farmers in the Floyd County Soil Conservation District this year according to A. W. Dalrymple, Work Unit Conservator in Floydada. Cotton burrs are valued at approximately \$2.50 per ton when applied to the land reports Dalrymple. At the rate of 500 pounds of burrs per bale of cotton, more than 20,000 tons of burrs are available to farmers.

There are 21 gins in Floyd County, twenty of which make burrs available to farmers. Five gins are equipped with spreader trucks that haul and spread burrs from \$2.00 to \$3.00 per ton. Fifteen gins make them available on a "come and get basis."

Any farmer can get the burrs as long as there are plenty, but if there are more requests than burrs, then their customers get first chance.

The average amount of burrs applied to the land is from 4 to 6 tons per acre. However, some use 10-12 tons.

A small percent of the farmers take advantage of the use of burrs because they are available at a time when farmers are busy trying to harvest their crops and consequently don't take the time to get them.

Information obtained from farmers in the Floyd County Soil Conservation District indicate that they have found cotton burrs to be beneficial to their land in the following ways:

1. Land is easier to work after burrs have been turned under.
 2. Increases moisture holding capacity of the soil.
 3. Important source of organic matter.
 4. Increased yields of subsequent crops.
 5. Less weed problem.
- Frances Montandon who farms one mile south of Aiken uses cotton burrs on bindweed patches after they have been poisoned.
- Mr. Montandon stated that where he had applied sodium chlorate on bindweed patches and followed with burrs, that his land would get back into production twice as quick as areas where no burrs had been applied. He made the statement that usually his land was sterile for only one year where he had applied the burrs.
- Mr. Montandon is one of several farmers that has his own truck with spreader equipment. His usual application of burrs is 10-12 tons per acre.

EDITORIAL VIEWS AND COMMENT

News stories out of Social Security offices nearly every week tell of some new way to make it easier for a person to get "on the government" through the U. S. Department of Health, Education and Welfare. "Modifications (made by the congress, of course, our parenthetic note) will make it easier now for people", etc., etc. Always it carries the good news that a worker will have had to have credit for very little time on the rolls of an employer. The latest we have seen makes it easier for persons whose "disabilities have a gradual onset." Apparently it is an invitation for a person to hurry to the Social Security office if he feels himself slipping.

Why are we sarcastic? Are we unwilling to make the pathway a little brighter for our fellowman? Well, we ourselves are a fellow man. We'd like it a little better and brighter. At the moment we're working for Uncle Sam from January to and including April for nothing. We'd like a little sympathy, a little of the milk of human kindness to flow our way. So, we offer the suggestion that the Congress let up on us one month. Let us work for Uncle Sam three months of the year instead of four. This business of Social Security works two ways. A man who draws a life-time pension from age 50 if he pays as much as "six quarters" on his Social Security benefits, sure is getting a bonus which we'd like to share.

As many customers want the killing frost to fall or the onset of winter to come now as there are that want it to hold off. But we favor the latter because they have cotton that was hauled out and re-planted late. Every day that the weather holds off is making them that much more cotton. A frost right now would be bad for them. We also have some friends with late feed that need another two weeks of open weather. Every day for them adds another bunch of ripe grain they wouldn't get otherwise. The

early birds of whom there are legions, are defoliating and will get their cotton off the stalk while the plant is tough and green, thus will have no barkies to worry with. Also their early feed is drying out from the fall winds and sunshine.

They're The Loners. Latin Americans on the highway in an automobile are dangerous drivers to pass, although they usually are not speed limit breakers. The Latin American is a loner on the highway. He thinks in terms of what he wants to do, not what the traffic will permit. In particular, if one is behind a Latin American driver and there's a side road near, do not pass. He is more likely to turn from the far side of the road to left than he is not to do so. He whips over for the turn about the time the driver behind whips out to pass. Just don't whip out, seems to be good advice. Pass them slowly or not at all. At least with great care. Remember he is a loner, and so do not expect a signal.

Not Below 40 yet. We are even hopeful that frost will stay off until several days after November 1. Note that even this week's cold front brought no temperature readings below 40 degrees. Usually when there is a considerable bit of moisture in the ground and in the air, Boreas makes two or three stabs at a killing freeze after the thermometer reads below 40 degrees for the first time.

We are convinced that proposed Amendment No. 1 to the state constitution needs to be worked on some more before it is adopted by the people. This is the amendment which puts the legislators on a steady annual salary. We feel that it is pointed in the right direction, but we think it needs to have more smoothing out. It is subject to too much criticism that cannot be answered satisfactorily to our minds under the wording it now carries.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

AUSTIN — Austin is up to its ears in opinions and pronouncements as the pre-legislative session of state issues blows through the city.

Taxes and schools are leading topics. Committees, study groups and associations, both public and private, come to town, hold a meeting, hear speakers and, usually, pass some recommendations. They are part of the sifting, sounding out and solidifying of thinking that precedes a legislative session.

ON SECOND THOUGHT, YES — Hale-Aiken Committee reconsidered and reversed its previous stand that Texas schools should not take federal aid for lunch rooms and vocational education.

New statement, passed 11 to 8, was offered by Ed Ray, San Antonio Express-News editor. It affirmed the committee's belief in state control of education but said it did not feel this would be lost by accepting federal aid for lunches, vocational education and for college students. It stirred up a hornet's nest by recommending that Texas quit accepting several million dollars a year in federal school aid. Arguments, pro and con, flared over the state, and many legislators were rendered uncomfortable by the necessity to take a stand. In many cases, the lawmakers disapprove federal centralization in principle but were hesitant to get in a position where they might be accused of taking milk from the school kids.

Hale-Aiken Committee also gave final approval to a recommended program of public school improvements. It would raise school costs by about \$112,000,000 a year—mostly for teacher salary raises, sick leave building upkeep and transportation. **Calls for Big Tax** — A meeting of the Texas Association of School Boards was the sounding board for more ideas on school financing.

Only a state income tax or general sales tax can produce enough revenue to cover school program improvements, a spokesman for the Texas State Teachers Association told the meeting. TSTA-man L. P. Sturgeon said other taxes proposed thus far would hardly get the state treasury out of the hole, let alone cover new needs. School Board members also heard Dr. B. F. Pittenger, one-time dean of the University of Texas College of Education, say he had felt for 30 years that public schools need "a considerable amount of federal aid."

Also urged by Dr. Pittenger: more discipline in schools, more attention to students "most highly endowed with brains."

No Fat, They Say — Gov. Price Daniels request that state department heads try to pare down their budget requests for the next two years brought no dramatic tax-saving slashes.

General reaction of the department heads was that they were already being as economical as they could be and still maintain the services expected of them.

Altogether the requests totaled \$225,000,000 more than is being spent during the present two-year period. But some are, indeed, "not cuttable" under present law. Biggest increase — \$90,000,000 — is for public schools whose costs go up automatically with the number of students. Similar unavoidable increases occur in welfare, highway and retirement costs.

In other areas, department heads declare there is "no fat" in their budgets.

Formula for Colleges — Commission on Higher Education has adopted two major policies on division of studies and funds among the state's 18 colleges and universities.

One is a plan for study program which concentrates graduate study, especially for Ph.D.s, at Texas A&M and the University of Texas. Other is a formula for asking for appropriations based on the number of semester hours taught.

Officials of UT, A&M and Texas Tech did not oppose the money formula, but indicated they would need additional funds to maintain desired standards of quality.

It's a Long Story — More insurance legislation and, possibly, more grand jury action may result from the reports of the Senate Investigating Committee.

Sen. Charles Herring, chairman, released the first of five reports on the committee's findings. It dealt with the means by which ICI Insurance Co. rose and fell. Herring said testimony suggested that some people not indicted should be called before grand juries. There was, he said, conflicting testimony, under oath, indicating perjury.

Recommendations for new legislation are to be included in the last report, due in December. Testimony on which the reports are based totaled 4,000,000 words, enough to fill 40 long books. This may not be all since the committee is to meet again in November.

Panel members, in addition to Herring, are Sens. Grady Hazelwood of Amarillo, Jarrard Secret of Temple, Chp Krueger of El Campo and Frank Owen 111 of El Paso.

Out of The Woods — Texas Employment Commission officials took a steadily improving employment figures, then at the still-substantial

unemployment compensation fund breathed a sigh of relief. This recession, at least, hadn't broken the bank.

A year of high unemployment had taken \$64,000,000 from the fund, but it still had \$272,523,000. It was only \$30,700,000 lower than at the beginning of the recession year.

It was in Oct., 1957, that the upsurge in joblessness began. In the first week of that month benefits paid out totaled \$434,617. From then figures moved swiftly upward until the mid-April peak when \$1,875,000 was paid out in one week, nearly four times as much as the pre-recession figure.

Steady improvement began in the summer months. By this October the cycle is not back to its starting point; latest report shows \$1,099,201 was paid out in one week.

But with new claims falling sharply and economists generally agreed that the recession was fizzling, it seemed as if the dark period was over.

Guests recently in the Lindsey Lackey home were Mr. and Mrs. Alton Love and daughter of Fort Worth, Mr. and Mrs. Alvie Love and son of Lubbock, and Mr. and Mrs. Henry Love of Floydada.

Mrs. Jennie Bishop, 83, mother of Baird and J. B. Bishop of this city spent part of last week and this week in Peoples Hospital for a check-up. The family related she is doing fine and is in good spirits.

Tilt Cab Model, 4-Wheel Drive, Ford Features

Ford's 1959 line of trucks, designed and built to the highest quality standards, introduces new economy, durability, styling and driver comfort features in full range of 37 models, which this year includes a new tilt cab tandem model and a Ford-built four-wheel drive.

The new Ford trucks are now on display at Ford dealerships throughout the nation, including Bishop Motor Co., in Floydada.

Ford's new four-wheel drive models, which will be available soon, in the F-100 and F-250 series, will cruise along the highway in two-wheel drive, or pull through deep mud, snow or sand when shifted into four-wheel drive. Equipped with the optional 292 V-8 engine, the new four-wheel drive trucks in the F-250 series will climb grades of more than 60 per cent.

Another new truck model Ford introduced this year is the tilt cab tandem. Ford sold more tilt cab models in 1958 than any of its competitors. The new model combines the serviceability advantages of the tilt cab with the proven features of the powerful tandem axle and chassis.

New front-end styling of the 1959 lights and medians, new "floating type" grille with a horizontal design, and new rectangular parking lights mounted in the grille area under the safety twin headlights.

Beckon Pest

Although no definite plan of action against the fire ant has been formulated for San Antonio, county officials have appropriated funds scheduled to be matched by city funds for treatment of private property in the city. A committee is now being organized to initiate the program, which will likely be similar to that planned for Houston.

One of the greatest matters of concern in the eradication plan is that connected with eliminating risk of contamination and poisoning in the treatment of private property with the necessary ant-destroying chemicals. In this respect, fullest precaution possible has been taken in selection of the chemical — granular heptachlor — and in prescribing instructions to be followed by persons living in areas to be treated.

A sampling of these instructions include: prior to treatment, close windows and doors, cover or turn upside down water and feed containers for animals and pets, cover all leafy vegetables, preferably with plastic cover open cisterns; after treatment, sprinkle lawns and gardens with water thoroughly, but prevent children and pets from drinking from puddles which might form, wash all garden vegetables thoroughly before eating, keep dairy cattle from grazing in treated area for a period of 30 days, and keep children from playing in treated area for several days.

Later he became violently ill. He was taken to a hospital and a specialist from Dallas was summoned. He then contacted a specialist in Kansas City who directed the attending doctor by telephone what to do. When Mrs. Smith left, her brother was much improved but is still in a serious condition.

Pat Tucker spent Monday night with Sue Williams.

The regular community meeting was Thursday night at the center. Mrs. Bill Edwards, Roy Hale, and Cecil Stanton were hosts. Glenn Pool served as chairman in the absence of the president and vice president.

In the order of business, it was decided to have the parking area at the center covered with caliche. The hosts served pumpkin pie, coffee and hot chocolate to those attending.

Mrs. Mather Carr and Horace went to Dimmitt Sunday to pick up Mrs. Carr's aunt, Mrs. Loula Ladd who plans to spend a week with the Carrs. Mrs. Ladd lives in McLean and has been visiting a daughter at Dimmitt.

Visitors at church Sunday were Mrs. Bill Alexander, Gail and Mick, who are making their home with her parents, Rev. and Mrs. Read at Sterling, Mr. Turner and Mrs. Loula Ladd.

Mr. and Mrs. Glenn Pool took her father, Mr. Turner, to Muleshoe Sunday where he will spend some two weeks visiting another daughter and family.

Mr. and Mrs. R. B. Gary returned Sunday evening from a two week visit in Omega, Neb., with their daughter and family, the Loyce Turners.

News of Harmony

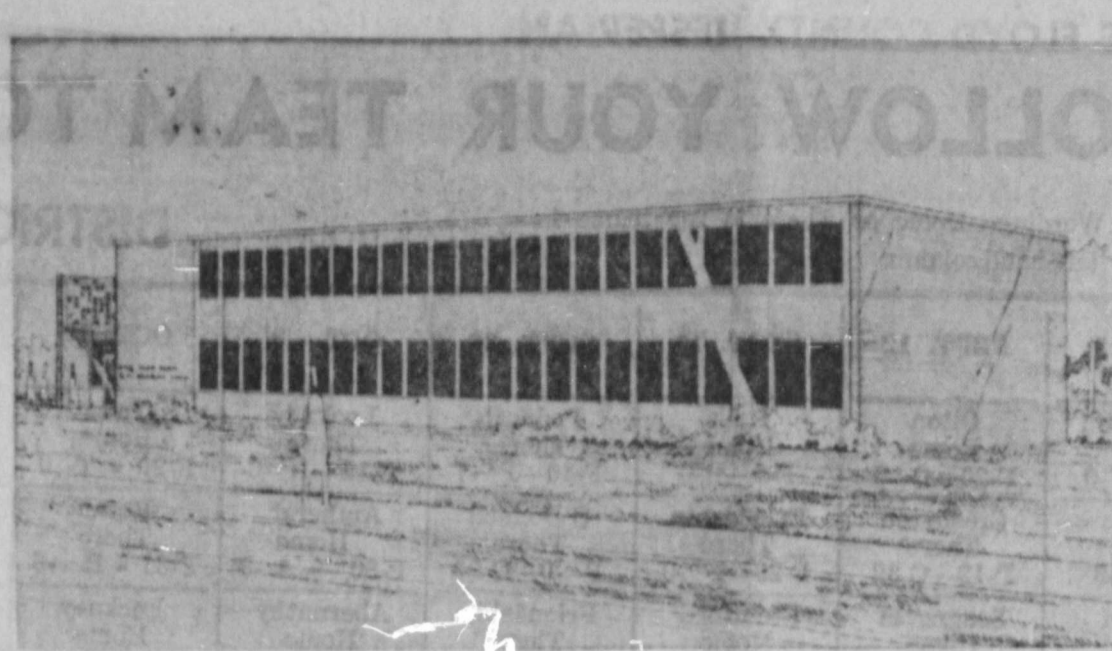

(By Mrs. Chloma Williams)

HARMONY, Oct. 20 — Half and half! That's how the weather has been the past week. Half of the day has been wet. It is usually noon before the farmers can do much in the fields. Most of them are ready for a frost. I believe the majority of the maize has been harvested but there still remains a lot of cotton to get out yet.

Several from the community attended the meeting in the council room Monday night to discuss problems of the county and how they might be remedied. Those attending were Mrs. Walter Hanna, Mrs. Glenn Pool, David Battey Jr., Sue Williams and Pat Tucker.

Mrs. J. W. Smith returned Thursday night from East Texas where she had been at the bedside of a brother, Bert Barker, who was seriously ill. Mr. Barker was welding on poisoning equipment that had contained arsenic. Apparently fumes from the poison collected in the mask he was wearing and some two hours

Whirlwinds Down Slaton Tigers 8 - 0 In First District Contest

Floydada's lame Whirlwinds played a fine defensive game Friday night as they downed the Slaton Tigers 8-0. The Whirlwind offense rolled in midfield but sputtered and conked out near the goal line as they gained nearly 300 yards in the game and scored but one TD.

The second quarter score was a pass from Teague to Patterson which went for eight yards to pay dirt. The conversion attempt was to be a repeat performance of the same play but Patterson was blocked out and held up in the line, so Teague, finding no receiver, coolly tucked the ball away and drove over his right tackle for the two-pointer.

Little relief seems in store for the injury plagued 'Winds as they lost guard Hal Hines in the Slaton game when he suffered a broken arm.

Opening the game Floydada kicked 41 and Danny Shipley toed one to Slaton's Pat Adamek on the Tiger 12 and he punched it back three to the 15 yard line. The Wind defense held and Slaton quick-kicked from their 18 to the Floydada 48.

Floydada then started an offensive which went to the Tiger 19 where they ran out of gas and the ball went over on downs. This time the Tigers again found the Whirlwind defense rough and quick-kicked from their own 13 dead on the Floydada 47.

The Whirlwinds gained the Tiger 36 yard line where they faced fourth down and long yardage and Leon Williams punted out of bounds on the Slaton two yard line.

The Tigers were able to punch out little breathing room and were forced to punt from their 7 with the kick going only to the Slaton 39.

As the second period opened Floydada had driven to the 25-yard line and a few plays later owned the ball on the Slaton 8-yard line. From this point Teague passed to Patterson for the score and then ran the conversion when he found no receiver on the next pass play. Score: Floydada 8 and Slaton 0.

The remainder of the second quarter found Floydada's defense airtight and forced Slaton to punt on every occasion without gaining first down yardage. Until midway in the third quarter Slaton had gained only 17 yards in the half game.

After the intermission Floydada

received and drove the ball from their own 14 back to the Slaton 40 from which point Williams punted to Adamek on the Tiger 10. He returned the kick to the Slaton 18 where he was downed.

From this point the desperate Tigers gambled on fourth down, were able to start a drive which netted them three first downs and their only yardage in the half game. Stout defense and a 15 yard penalty, however, stopped the drive and Floydada forced the Tigers to punt from the 'Winds 45 with the kick going over the goal line.

Floydada found trouble mounting an offense and faced a kicking situation on the 21 yard line. Williams was ready to get the kick away but found himself a little too near the scrimmage line and one of his own blockers prevented his kicking the ball. He attempted a fourth down run. Slaton took over on the misque and owned the ball first and 10 on the Floydada 18 yard line for their only real threat in the ball game.

Four plays netted the Tigers three yards and Floydada took over on the 15 to end the threat.

In the final stanza Floydada was driving down field when a fumble on the Tiger 31 robbed them of the ball as Slaton recovered. Slaton found they could not advance the ball and punted from their 30 to the Floydada 33.

The 'Winds then made seven yards and punted from their 42 to the Slaton 23. The Tigers then gambled again and on fourth down lost the ball on their own 32.

As Floydada took over at the Tiger 32 the clock showed less than two minutes remaining in the game. The hurrying 'Winds had driven in to the Tiger four yard line and were facing third down as the final whistle caught them short of pay dirt.

Floydada made 15 first downs, made 238 yards net rushing, passed for 59 yards on five completions in 15 attempts, and were penalized 15 yards. Slaton made three first downs and completed one pass in four attempts for a minus four yards.

Don Vickers seeing limited action in the game from half back and tail back positions was leading ground gainer with 82 yards in 15 carries. Teague carried for 62 yards on seven runs and passed to Pat-

erson, King and Vickers for an additional 59 yards. Adamek was high man for Slaton with 30 yards to his credit in 13 tries.

The Floydada defense was led by Bill Gilliland and Danny Shipley, up front there appeared to be no weak spots from the skimpy yardage allowed the Tigers. Rodney Teague and Elwyn Pierce saw considerable defensive duty and showed up well. Pierce smeared Adamek for a four yard loss on the Tiger's only pass completion of the night.

The kick-off team which started the game for Floydada was Bob by Christian, Leon Williams, Bill Patterson, Richard Graves, Danny Shipley, Bill Gilliland, Elwyn Pierce, Rodney Teague, Rex King, Edward Hartman, and Coy Grundy.

EDITORIAL

NINE WAYS TO TAKE THE HEADACHE OUT OF HOMEWORK

(By Sonja Guffee)

- 1. DESIRE TO LEARN**
Whatever you are studying, the subject must have a purpose or reason for you. It might be to help you learn how to write or speak more clearly. Whatever the purpose, one thing is sure: desire to learn—the first ingredient of study—must be there if you're to succeed.
- 2. CONCENTRATION**
This is ability to set a wall around yourself, to keep your mind exclusively on the job that you have set for yourself. Concentration isn't something that some people have and others lack. It's a habit which anyone can learn. All that's needed is the will to work on it every single day. Do this, and you will find that your power to concentrate will slowly get better.
- 3. PHYSICAL CONDITIONS**
Right from the start it is important that you set up the proper conditions under which to do your studying. Be sure to always do the same thing in the same way, at the same time, and in the same place. Experts have found that it's the only way for one to get good results. When you study there should be no outside distractions to take the mind off of the work at hand. If the radio must be on, make sure it is turned to music—and keep it soft. Never turn the TV on. Always study in a room that has plenty of good, strong light. The temperature of the room should be comfortable.
- 4. ORGANIZED PLANNING**
Working on material while it is fresh in your mind makes learning easier. It is much better than cramming at the last minute. Read the lesson, then read it again. Then ask yourself questions over it. Now go back and study the ones you missed. Skim over the lesson before class begins. Never let an unfamiliar word get away from you.
- 5. TAKE NOTES**
Learn to take notes in class while everything is still fresh on your mind. Write the notes in a way that you will understand them. As one advances in education he will find that he uses the library more and more. So know how to make use of the library.
- 6. READING**
The ability to read is probably the most valuable asset in studying, skimming, and scanning. Practice reading. Practice reading.
- 7. KNOW YOUR LIBRARY THOROUGHLY**
As one advances in education he will find that he uses the library more and more. So know how to make use of the library.
- 8. READING**
The ability to read is probably the most valuable asset in studying, skimming, and scanning. Practice reading. Practice reading.
- 9. TAKING TESTS**
One of the most important things to remember about taking a test is to take it easy. If you have learned to do these study habits during the year, you will have discovered how to learn more in less time. Then you will have more time left for your own good times.

World History Projects Begin

(By Carolyn Dunavant)

All of the ninety-four world history students are making an extensive research to find information for their semester projects. The project for the semester arc themes about all of the countries of the world and other outstanding subjects that have had a great influence on the whole world, such as the development of writing, the development of language, labor, pre-historic man, and others that are equally as great.

The themes about the countries will include a political map and the geography of the country. The themes will contain a list of the rulers from the very beginning of the country, right up to the present date on the first page with the number of the page in the theme that facts are given about the men. In the theme a study of the background of the country and all of the phases of government will be discussed thoroughly. All wars will be recorded and the different battles of the wars will be discussed to cover the battle sufficiently. The types of people of the country will be described and the history of the country will be given. The theme will tell all of the important exports and imports, and the commonly found minerals, if any. Then the theme will inform the reader of the current events of the country and how the country is looked upon by the rest of the world today. In the back an index table and a bibliography, which is a list of books from which the information was gained, the name of the authors of the books, and the date of copyright will be included in the theme.

This information will be gained by searching world almanacs, atlases, any other history books, reference books, articles in the weekly paper, the world history students receive, folders on the country, articles in any magazines, ideas from people that are interviewed by the student of school who have visited the country, and any other place information can be found. These themes will be written in handwriting or typewriting. The minimum number of pages is fifteen; the maximum, no limit. The themes will be due the day we are dismissed for Christmas holidays. They will be equal to the work done in six weeks' period, and will be put in Coach Tjers' files for reference. One good thing about the themes is that we won't have to miss any of the fun during the holidays because of the themes.

Spanish Class Continues Study

(By Ann Word)

Buenos dias, como esta usted? This is the way the Spanish II students greet each other each day. This class consists of students who took Spanish I last year and are interested in continuing their Spanish education.

The class is made up of six students and their instructor, Senorita Anne Swebston. Those in the class are Gaynelle Boothe, Tommie Cope land, Ann Word, Jo Ellen Reese, George Farris, and Frankie Taylor.

Just recently, the students received names of high school students they may write in Spanish speaking countries. Some of the countries represented are Peru, Spain, and Argentina.

The class hopes to make a trip to Plainview to eat at a Mexican restaurant there. The main purpose of this is to give the students practice ordering from a menu.

Several methods are used to teach Spanish. One of these is the text book El Camino Real. Another is the use of records. These records give an English word or phrase then repeats it in Spanish. This is then given to repeat the Spanish.

The last method is the actual use of Spanish. After learning the word meanings and sentence structure, the students put what they have learned to actual use.

These are just a few of the things the Spanish students are doing. All of these will help them gain a broad knowledge of their neighbor south of the border.

CHAT with PAT

(By Charles Holland)

The Winds play host to the Post Antelopes tomorrow night here at Vester Field when they will try to defend their undefeated record of seven wins and no losses.

The Antelopes have won two of six games. The Winds won their first conference last Friday night over Slaton, while Post had an open date and has played no conference games.

In 1937, the Winds won over the Antelopes 41 to 0. In 1956 and 1957, the Antelopes took honors 32 to 13 and 29 to 0 respectively.

The two teams did not meet in 1954. In 1953 and 1952 the Winds won 2 to 4 and 23 to 7 respectively. Whirlwinds and number of points scored by each: Bill Patterson - 62, Don Vickers - 58, Leon Williams - 18, Larry Irby - 8, Bill Gilliland - 6, and Rodney Teague - 2.

Floydada has 154 points for the season. Their opponents have 25. Post has 109 and their opponents have 74.

Spr defeated Tahoka 40 to 0 Friday night.

Floydada Takes Slaton Bulldogs (By Pat Ginn)

With one down and three to go in district games, the Whirlwinds rolled over the Slaton Tigers 8-0 last Friday night at Slaton.

The undefeated Whirlwinds grabbed their seventh consecutive win by defeating the Tigers.

The Whirlwinds racked up 271 yards with 57 coming through the air, while the Tigers totaled 72 yards and three first downs.

Floydada scored the only touchdown of the night in the early moments of the second period. The Whirlwinds drove to the 25 where they were halted and Leon Williams placed a beautiful punt rolling out of bounds on the Tiger two yard line.

The Tigers were forced to kick after running three plays. Adomek booted into the wind and it covered only 23 yards.

After a series of plays from the 30 to the 8, Teague threw a pass to Patterson who went over untouched. Teague went over for the two extra points.

The remaining minutes of the last half was a battle between Slaton's booming punts and Floydada's failure to score when within distance.

FHS plays Post tomorrow in its second conference game.

'Trick or Treat' Door Bells To Ring (By Addie Adkins) Methodist youths will be ringing your doorbells on Thursday, October 30, asking you to "SOS".

"Rushing the trick-or-treat job a little?" You ask.

The youths are visiting you not for gifts for themselves, but for thousands of refugees, victims of war, floods and disasters who go hungry.

Sixty per cent of the world's population are undernourished, and each quarter can buy a full carton of nourishment for them.

Thousands of young people throughout the U. S. will be going from door to door asking people to "Share our Sorrows".

On Thursday night, leave your porch light on and leave some change on the table nearest the door.

When one of the identified youngsters rings your doorbell, welcome them and be glad to give to the less fortunate.

Christensen Sketch Selected For Cover (By Addie Adkins) A contest of selected artists was held during the week of October 13, for the purpose of getting sketches to be judged for the 1959 Whirlwind cover.

Eric Christensen's sketch was selected for the cover. Eric has taken art lessons for seven years. He began to develop his talent while in the eighth grade. He has been getting help from Mrs. Barker, here in Floydada, for several years.

Last summer at Texas Tech, Eric was instructed by Dr. Linstrom, of San Francisco. Several summers ago Mr. Broar Utter, of Dallas, taught him. Eric is a freshman in FHS.

Other entries in the contest were: Melinda Barker, Jan Cates, Sue Ring, Marisue Burleson, Lois Ann Glover, Beth Scott, Doug Walding, Linda Hammond, and Karen Goen.

More School Spirit Need

(By Mary Cogdell)

In the Student Council meeting last week, main issue was how to get more spirit at the pep rallies. FHS has a great football team this year so why doesn't everyone show how proud he is by getting a little spirit. Everybody should yell, and if your neighbor is not, tell him to.

It was suggested that if the student body were sitting more compact in lead of spread out over a wide area that the students would yell better. Many persons also wanted more competition yell.

Since Friday, October 17, was the date of the first conference game, that day was set for Color Day, which meant that everyone was to wear something green. It was a very good sight seeing everybody running up and down the halls in green.

But no matter what people try to do to boost school spirit, nothing can be done if some don't get it, well—he had it on the wrong spear (79)! Was it ever a scream; Sara and Charles make a precious couple Hal broke his arm, three cheers for a real Whirlwind; the Victory Flag let's keep it flying; DeAnne and Rex got married; the boys back from the army; advertisement pictures for the annual were taken Saturday; Bill and Judy are back together; all the couples that had fights Friday night; the S-o-b, S-o-b skit at the pep rally given by Jim Marble, Melinda Barker, Hope Robertson, Addie Adkins, Tilly Cope, and Roy Sparks; the Senior parents are sponsoring a dance Halloween night; Don Norman funk ROTC.

There were four regions that had Star farmers. The Central region had the one Star American farmer. New national officers were elected at the convention.

Having enjoyed the trip very much, the boys arrived home Friday, October 17.

Delegates Attend FFA Convention (By Jean Jarigan) Kenneth Jones and Price Pritchett, the two delegates from the Floydada FFA Chapter left Sunday evening, October 12, to go to the FFA Convention held in Kansas City, Missouri.

While at the convention, the boys attended six sessions where different agricultural material was discussed. Also the Secretary of the Department of Agriculture spoke to the whole group.

Methodists To Give An After-Game Party (By Addie Adkins) An unusual program is planned for the after-game party tomorrow night at the First Methodist Church.

After the game with Post treat your date, your friends, and yourself to laughter and refreshments. Reserved seats will be on hand for the football boys and plenty of room for all.

DO YOU KNOW YOUR MANNERS? With the fall season at hand, parties and dates—the "social whirl"—will be with us. Are you ready? Are you up on your manners?

Check these TRUE or FALSE statements, then look up the answers below.

1. It is not necessary for a young girl in her teens to rise when greeting those older than herself.

2. When meat is cut, it is cut as eaten, not all at once before beginning to eat.

3. It is proper for a woman or girl to offer her hand, if she desires, but a gentleman never makes the first move to shake hands with a lady.

4. When trying to find seats in a theater, and no usher is available, the lady precedes the gentleman down the aisle.

Texas Baptist Churches Join Major Crusade

DALLAS — Twelve Texas Baptist churches in Floyd Association have agreed to participate in the 1939 North American simultaneous evangelistic crusade, said Dr. C. Wade Freeman, superintendent of evangelism, Baptist General Convention of Texas, this week.

A recent extended survey by the state evangelism department showed that 3,515 or 94.8 per cent of the denomination's churches in Texas will be included in the movement.

Additional statistics released by Dr. Freeman show that 3,503 churches will observe New Year's Eve prayer service this year, and 3,352 churches will schedule a "commitment to soul winning day," January 4, 1939.

"This is the first time that all major Baptist groups in North America have participated in such a drive. We hope the effects of this year of revival will be worldwide with prayer periods and crusades scheduled in many foreign countries," said the veteran evangelist.

Texas crusade dates are January 25-February 8, March 15-29, and April 12-26.

An estimated 70,000 baptisms will

be recorded this year, said Dr. Freeman. Last year, BGCT churches reported 62,263 baptisms.

Theme for the simultaneous crusade is "New Life For You."

QUAIL PERMITS TO BE AWARDED BY DRAWING

AUSTIN — There will be another quail hunt in the Panhandle this year on the Gene Howe Wildlife Management area of the Game and Fish Commission, according to the director of wildlife restoration.

Dates for the hunt are Dec. 6, Dec. 20, Jan. 3 and Jan. 15.

More Fishing License Sold Last Season

AUSTIN — Fishing license sales almost doubled during the fiscal year ending August 31, according to the Fiscal Director of the Game and Fish Commission, Texans bought 702,339 resident fishing licenses this year as compared with 1956-57 sales of 430,704.

"The increase is due mainly to broader coverage since some exemptions were eliminated in the present fishing license law," the director said. This was the first year a license was required to fish in coastal waters, and with any kind of bait when using a winding device.

Resident hunting licenses totaled 399,765. This is a slight decline from the 413,819 licenses sold in 1956-57, the director said, but all other types of licenses showed increases.

Revenue from fishing license sales was \$1,564,710, while hunting licenses brought in \$1,199,320. Total sales of all types of licenses was \$3,165,931.

Violators of game and fish laws spent \$93,472 for fines and court costs. Law enforcement expenditure, however, was \$1,431,273.

Total income to the Game and Fish Commission in 1957-58 was \$4,832,313.91. Services rendered to the public for the year cost \$4,920,830.97.

TELEPHONE TALK

by J. C. Oakley, Manager

ARE YOU A DEFENSIVE DRIVER?

A Defensive Driver is one who realizes he is in control over the unknown actions of other drivers and operates his vehicle accordingly.

Put it this way, he operates with the thought that everyone else is a poor driver and is going to take, and he does everything he can to avoid being involved in an accident. He observes the following:

1. He observes the other fellows hand signals, not put complete faith in them.
2. He is always prepared for the person who stops signs.
3. He doesn't trust another driver to make a turn from the proper lane.
4. He keeps a safe distance between himself and fellow in front.
5. He slows down at intersections, even when the light is green, he has the right of way.

FOR HUSBANDS ONLY

I suspect some wives will sneak a peak at this because it says, "For Husbands Only." But just I'd like to have a man-to-man talk with all husbands.

About this time of year—halfway between vacations and Christmas—things settle down. Your wife is probably doing a bit of dreaming. Maybe trip you've always planned to take, or a new house, sports car.

Dreaming's fine but it usually takes a lot of money to make a big dream come true. However, little by little. In fact, just a minute or two.

So here's my hint for husbands. Order a telephone in color for the bedroom. I'll guarantee to perk up your wife's morale like a new hairdo or even better, it will make a hero out of you.

Just call the telephone business office today. representative will help you pick the right color.

IT'S REAL FAMILY FUN

Sunday is a real family day.

Many of us have our families around us and the day going to church, relaxing, chatting, just doing together.

However, some people have members of the living away from home—either away at college or sons or daughters living in another part of the country. There's really no reason to leave them out of the Sunday get-togethers. Just pick up the phone and make a long distance call. That way, Sunday is fun for the family.

Why not this Sunday? You'll surprise your "towners" and have a lot of fun on your end of the line.

Call by number. It's twice as fast.
