

1,000 Bales of Cotton Is Forecast for County

Papers Survey Ginner Opinion On Huge Crop

The composite estimate of Floyd County ginner is that the cotton crop of 1958 in Floyd County will run 113,000 bales, breaking all production records and setting a new high in per acre yields.

A survey of the Floyd County gins made Tuesday by The Hesperian and The Lockney Beacon supports this statement.

The cotton crop is the best on record, both as to quality and per acre yield, both dry land and irrigated.

Tuesday noon the gins had turned out 46,701 bales of cotton and the composite of the ginner's estimate is that 45.5 per cent of the crop had been ginned on that date.

Estimates varied widely over the county, it is true, but in some areas there has been much more harvest help available than in others, some have been slowed by rain and damp weather more than others.

Highest estimate of any ginner was that 65 per cent of his customers cotton had been ginned. The low estimate of all the number was 30 per cent.

The composite estimate compares with 93,800 bales forecast by the Texas Employment Commission and 100,000 bales estimated by Plains Cotton Growers, Inc.

More of the ginner's estimated they had handled 33 per cent of the cotton in their territories than any other figure. Five said 33 per cent finished, three said 50 per cent, one said 60 per cent, one 65 per cent.

Probably deciding the final ginning figure is the area of the several hundred acres in the southeast corner of the county where late planting was done in June following heavy damage by hail. None of this cotton has been gathered. This is the only section of the county where the freeze of November 1 was not wanted. It also is the portion of the county where the kill from frost was lightest.

In some parts of the county where commercial defoliating was carried on the gins say they are getting as much as 50 per cent of their cotton from stripped fields. More say 30 per cent stripped cotton. Very little stripped cotton was reaching some gins Tuesday. All reaching a flood of stripped cotton by Monday.

Beautiful weather the first part of the week made business pick up at all gins.

Cotton Monday was sampling out 95 per cent white middling one inch sample in picked cotton, stripped cotton mostly low middling. The saving in harvesting costs and speed of harvesting are the big influences in turning the cotton growers to the strippers.

The county has 93,000 acres in cotton this season, the ASC estimates. The county's allotment was 99,985, but 6,995 acres of cotton (See Cotton Forecast Page Six)

Floyd County Share of U. S. Debt \$16 Million

NEW YORK, Oct. 27—Floyd County, by virtue of its size is liable for .0058 per cent of the national debt, which will climb to a record \$284 billion during this fiscal year.

The local share of the debt amounts to a breath-taking \$16,472,000.

In less astronomical terms, it comes to \$5,240 per family, according to a study made by the Tax Foundation.

age Floyd County family to pay off this debt if it applied its entire net income to that purpose?

Based on last year's income locally, which amounted to \$3,725 per household after taxes, according to Sales Management, it would take 10.9 months.

In many areas of the country, where incomes are not as high as this, the period would be proportionately longer. For the West South Central States as a whole, the aver-

age family would need 12.5 months to liquidate its share of the debt. In the State of Texas, 11.6 months would be required.

The Tax Foundation states that this year's Federal deficit will add about \$75 to each family's share of the national debt. The annual interest charge alone will be around \$7.8 billion, approximately \$344 per family.

Total spending authorized in the past session of Congress set a peac-

time record of \$83 billion, states the report.

The size of these commitments, which will result in a deficit of about \$12 billion for the year, were termed "ominous" by the foundation's executive director, Herbert Miller.

He said the inflationary impact in subsequent years "may far outweigh any intended immediate stimulus to a lagging economy and may prestage Federal budgets in the

\$80 billion range for several years to come."

Increased expenditures for defense might have been expected but it is the non-defense costs that are soaring to record totals, he declared.

In commenting on the situation, Senator Byrd of Virginia warned that "deficit spending will produce serious inflation and, if continued, will destroy much of the purchasing power of the present 50-cent dollar."

Billy Staniforth Passes; Rites Held on Sunday

Wm. M. Staniforth Sr., 70, prominent for almost 30 years in Floyd County as a farmer and business man, died in Plainview Hospital Friday night at 11:20 o'clock.

He had had surgery about two weeks before his death and was thought to be recovering normally until Monday.

Funeral was conducted Sunday afternoon at 3:00 in the First Methodist Church of Floydada. The pastor, Rev. DeWitt Seago, officiated.

Prayer was offered by Rev. Phil H. Gates. The choir sang "Beyond the Sunset," "Whispering Hope," "Sweet Hour of Prayer," and "Near to the Heart of God." A selection, "Special Sunrise for Me," was sung by Mrs. David S. Battey Jr.

Interment was made in Floydada Cemetery under the direction of Harmon Funeral Home.

Born December 7, 1887, at Austin, Texas, W. M. Staniforth was married to Miss Gertrude King on Dec. 21, 1909, in Gainesville, where the couple lived for several years before moving to Wichita Falls.

Mr. Staniforth had been successively a brick manufacturer, a drilling contractor and a farmer. He had extensive other business connections.

The couple have made their home at South Plains in Floyd County since October of 1950.

District Football Title Rides On Outcome of Tilt With Spur

The Floydada Whirlwinds will travel to Spur Friday night to battle the Bulldogs for the district 3AA championship. The contest is the season's last regular game for Spur.

The Whirlwinds are expecting a large following of fans to accompany them to Spur for the game. The big Whirlwind band and student cheer section will be on hand to add color to the contest.

District games through last Friday left Spur and Floydada the only teams still in the running for the crown. Tahoka, Slaton and Post have each dropped a pair of district games leaving them out of contention.

Spur with three wins and no losses is leading the pack and close behind is Floydada with two wins and no losses.

Coach Bill Henry's Spur Bulldogs started slow this season, as is usual for Spur, but they have been coming fast and at present are probably the most underrated team in this area in the daily news columns.

The Bulldogs lost to Abernathy 3-20, defeated Hamlin 25-13, tied Arson 14-14, won over Crosbyton 22-14, took Matador 43-20, fell to Quanah 20-32, beat Tahoka 40-0, and downed Slaton 42-12 and then won over Post 38-14.

Last year the Bulldogs downed Floydada 19-0 in Spur before a dads nite crowd. It was the worst licking the locals got last year and was the first time a Floydada team had gone scoreless since the game with Post in 1955 when the score was 0-20 favoring the Antelopes. Floydada

has not defeated a Spur team since 1954.

Some of the Floydada team were injured last November and did not get to see service against the Bulldogs but most of the boys remember well the trip to Dickens County and the long ride home.

Scouts did not get to see much when Spur defeated Post last week. The Spur team was handed the victory in a comedy of errors which saw Post fumble the ball almost every time it was in their possession.

The big Spur team has plenty of weight, they have speed and they handle the ball in fine fashion both on running and on passing plays. They were at top strength against Post and received no injuries during the game.

Coach Watson's Whirlwind team has enjoyed a week of rest which, it is hoped, will give them more strength. They are not taking Spur lightly but know they will have to go all out if they are to win.

The Floydada Whirlwinds whipped through the practice sessions on Monday and Tuesday of this week without serious injury. Bill Patterson is still having some trouble with his leg muscles which has him slowed some.

Coach Watson may start Patterson at an end position instead of the half back slot to try and get all the experience he can into the lineup.

The locals will be facing one of the best offenses in West Texas when they meet Spur. Joe Copeland the Bulldog star halfback has scored 114 points this season and is leading all class AA ball carriers in this department.

Grain Sorghum Growers Pushing For Wider, More Stable Markets

R. C. Mitchell, of Lockney, who sat in for Ewald Quebe representing Floyd County at the Grain Sorghum Producers Association meeting in Amarillo last week came home enthusiastic over the possibilities the organization has in prospect for widening and stabilizing the market for maize and kafir.

He was particularly pleased over a recent contract Bill Nelson has negotiated with the U. S. Foreign Agricultural Service to seek European markets.

John R. McCracken, representing the Foreign Agricultural Service, met with the group at the Herring Hotel. This is the first grain group to enter into such a contract.

The directors unanimously ratified the agreement reached. The move essentially means establishing better and more permanent outlets for the nation's increasing grain in

storage and will help to stabilize the market in the belief of Mitchell and the other grain men in the meeting.

McCracken explained there is a continued demand for more meat in Europe and that poultry appears to be the commodity that will satisfy their needs. He said poultry requires less capital and less time before it reaches the table. As a result, Europe in the near future will see a great demand for feed grains.

"Grain sorghum must find a home elsewhere," McCracken said, and it is your job to see that feed grain is converted into protein."

The contract between the Grain government will pave the way for extensive feed grain promotional and educational programs in Europe. Bill Nelson, executive secretary of the association and McCracken said the contract could be signed within several weeks.

McCracken said the Foreign Agricultural Service would finance most of the work done in Europe, except salaries for industry personnel, but that the grain sorghum producers would finance stateside projects, such as visiting groups while they are in the U.S.

Directors of the association said the move is one that means "sink or swim" for the grain sorghum industry. They pointed out that grain sorghum production this year was three times the 10 year average and the carryover is four times larger than any yet. It is imperative that grain sorghum be moved to markets.

All officers at the association were re-elected for another year. They are Frank Moore of Plainview, president and Elbert Hart of Abernathy, secretary-treasurer.

Dept. Confirms Four Projects in New Budget

Roads important to the development of the highway system in Floyd County are scheduled by the State Highway Department in the 1959-60 budget of the Federal Aid Secondary Program, according to O. L. Crain, District Engineer, who said last week that the following jobs are in the department's plans:

From State Highway 207 in Floydada, south and east to FM Road No. 651, one mile north of Lakeview, a distance of approximately 10.9 miles;

Remodeling Adds Space In Store

Hagood's Department Store in Floydada has just completed the remodeling of their show windows and the front on the interior of the store. The new arrangement is an attractive one offering more shopping space and at the same time more light in the store front.

The show windows were redone to allow walk in shopping of items on display of floor level. The trim around the windows is black welded wrought iron which is both sturdy and attractive.

The added space allowed complete rearranging of the piece goods and pattern department.

Former Pastor Here for Week

Rev. and Mrs. Lloyd H. Jones of Dallas, are back in Floydada for a visit with old friends and to raise money for their newly constructed Family Life Foundation of Marriage Counselors. While in town the couple are guests in the home of Mrs. Wilson Kimble.

Rev. Jones is a former pastor of the Floydada First Methodist Church, having served in that capacity from 1945 until 1948 when he accepted pastorage at Perryton. Serving there three years he moved to Dallas where he was pastor of the Greenland Hill Methodist Church for six years, retiring at that time to go into marriage counseling.

Rev. Jones is executive director of the Marriage Counsel at Dallas. He and Mrs. Jones have been in the work for the past four years and at the Family Life Foundation for the past year and a half. Most of their time is devoted to young ministers counseling service.

Rev. and Mrs. Jones planned to be in Floydada the remainder of the week and have hopes of renewing old acquaintances while here.

Bank Hearing This Morning

Much local interest centers around the hearing in Austin this morning, which will decide whether or not some 50 local business people will get a charter for a state bank they have applied for.

The hearing will be held at the Banking Commission's office in Austin. Walter Woodrum, O. M. Watson, J. M. Wilson Jr., M. P. Goen, Richard F. Stovall, S. J. Latta and L. L. Jones, temporary directors of the proposed bank, are in Austin favoring the application.

Representing the First National Bank in its protest against chartering the new bank in Floydada are E. L. Norman and Gene Collins, president and cashier, Kinder Farris, W. S. Poole, Fred Zimmerman Jr., C. E. Fulgham of Lubbock, directors, together with Ben Ayres of Floydada and Jim Milam of Lubbock.

Richard M. Morehead, of the Austin Bureau of The Dallas Morning News, queried Banking Commissioner, J. W. Faulkner for The Hesperian about the hearing and when a decision would be announced. He was told it might be announced promptly but probably would not be. He told Morehead there had been "a good deal of campaigning by both sides."

BIRD WATCHER SAYS Floydada Yards Give Temporary Haven to Birds in Fall Flight

If you have the time a most interesting hobby for this time of the year is bird watching, says Mrs. Hollis R. Bond of Floydada, who is a devoted bird lover.

Starting several years ago, Mrs. Bond has gathered material and books for the purpose of identifying the flying species, and has seen several migratories not usually seen in this part of the country.

Mrs. Bond keeps the names of every bird that stops over at her bird land. If she doesn't know its history, she looks it up. Last week out of her window she saw six blue Jays, having the time of their lives, all bathing in the sun and enjoying the singing of a White Crown Sparrow, an Audubons Warbler, of which there are at least 40 species.

The thrill of the bird watcher, which has rubbed off on her husband as well, was Christmas Eve of last year, when the Bonds saw a three-toed Woodpecker. Lately Mrs. Bond has spotted a Winter White Crown sparrow down from Canada and Alaska. Quite a number of Warblers are still in this vicinity, coming in August and headed for South America for the winter.

Mrs. Bond identified a Townsend's Solitaire last week, seeing the one bird twice, once on Sunday and again on Tuesday. From 50 to 60 birds have been noted at one time in the Bond's yard. The Flickers are here, beautiful in colors of red and yellow. Golden fronted Woodpeckers coming up from the Canyon, have bussed themselves in the yard. Mrs. Bond said she thought it was water consumption and activity in the can-

yon that brings the woodpecker to city life.

For several years the Juncos migrated thru Floydada but none were seen last winter. That type of bird is not supposed to be here but again, Mrs. Bond thinks, the water abundance brought him.

She has seen this year a male Lazuli, rust and light blue in color, a female Redstart of the Warbler family, an Oliveback Thrush, a number of Bullocks and Orioles, Rose breasted Grosbeak, white throated sparrow, known for their beautiful singing. Fly catchers and Cedar Waxwings. Even a covey of blue quail visited her bird land last week. One robin has been seen and also a Brown Creeper, the bird which climbs a tree in circular movements.

A Cardinal was spotted once and many species which have not been identified by Mrs. Bond. "I never guess as to what kind they are. If I don't know and I can't identify them, I let it pass but never forget them," Mrs. Bond said.

Most of her information is gathered from "How To Watch Birds" and "A Field Guide to Birds," Vol. 1 and 2 by Peterson. Mrs. Bond also has bird songs on record and a number of other informative books on birds.

"A nice way to spend some time" "Of course," Mrs. Bond says, "and you can buy your husband a pair of binoculars for Christmas and use them yourself if he doesn't take to the idea of bird watching."

The Floyd County Library has the books on hand and the bird records mentioned, if anyone wants to get started on a pleasant holiday. Mrs. Bond added.

LIPSTICK LOGIC MAKE UP

Recently we heard a young surgeon talk to a group of high school youngsters who are going into medicine. His words were not highly technical; they were simple, honest and sincere. He did not try to discourage them from the long years of difficult and expensive training; he explained the happiness that comes from helping one's fellows.

What he gave these kids was a realistic look at the overall picture—a supplement to the tedious textbook and laboratory training ahead. But it was generously sprinkled with idealism: "The average work week for a doctor is 60 hours, but he doesn't mind because he loves his work."

A doctor, lawyer or teacher who has not been on to a spark of idealism about his job may well feel as if it is pretty menial at times. On the other hand, a garbage collector or charwoman who can honestly believe that his service to society is worthwhile, can face life with dignity and contentment.

It's not what a man does to make a living that counts; it's how he feels about the job he holds that marks him as a small person or a great one.

South Plains

(By Mrs. Murray Julian)

SOUTH PLAINS, Nov. 3—Halloween brought more than goblins to our vicinity, for frost and a killing freeze came which took the last of the gardens, and turned the cotton fields to a blackish green. Last year our first frost occurred on Oct. 7.

Farmers were all ready and waiting this year, so they can get into the fields with their strippers, as cotton hands have been hard to find this fall.

Our whole community has been saddened over the week end by the passing of friends and neighbors. W. M. Staniforth, Sr. who was taken to the Plainview Hospital on Tuesday, following an operation of some two weeks before succumbed Friday night about 11:30. The Staniforths moved here in 1930 from Wichita Falls and with his son, Billy, was engaged in large farming operations. Our community attended services at the First Methodist Church in Floydada on Sunday afternoon at 3 o'clock, with interment at the Floydada cemetery. Our sympathy is extended to our neighbor.

Bond Sales Lag In Floyd County
During the month of September the citizens of Floyd County purchased \$7,414 in Series E and H Savings Bonds.

This announcement was made by Joe Gidden Chairman of Floyd County's Savings Bonds Committee. "Sales for the first nine months of this year totaled \$151,793," Chairman Gidden reported. "We have now achieved 61.2 per cent of our 1938 goal of \$248,000."

Sales in Texas during the first nine months of 1938 were \$132,257, 457 which represents 75.6 per cent of the 1938 goal of \$175,000,000.

Under a recent change in Treasury regulations, individuals who hold F and G bonds that mature after September, 1938 may invest the proceeds from the maturing bonds in E and H bonds without regard to annual purchase limits.

Gidden announced, "This information should be of interest to hundreds of people in this area who hold maturing F and G Bonds," he concluded.

Mr. and Mrs. George West spent this Monday in Amarillo where they visited with their daughter and family. Mr. and Mrs. E. T. Evans. Mr. and Mrs. H. I. Macomber, of Berneuse, Tex., were house guests all last week here in the home of his cousin, Mr. and Mrs. H. L. Marble and June.

Mr. and Mrs. R. M. Haverly of Silverton and Mr. and Mrs. Don McClure and children were all visiting in the Frank McClure home on Friday where she served pumpkin pie and coffee as a Halloween treat for her guests.

We offer our congratulations to Mr. and Mrs. Joe Taylor of Lockney as we hear they have a baby boy, their first child, born Sunday morning at 10:45, Nov. 2, in the Lockney Hospital, weighing 3 pounds 4 ounces, and named Gregory Blake. Mrs. Taylor was the former Virginia Taylor, daughter of Mr. and Mrs. J. P. Taylor here.

Miss Janis Roberts and Miss Pat Hill of Floydada, both students at WTSC at Canyon, were guests in the home of the Murray Julians on Friday evening.

Those who worked on the sacking of the pecans which came in through the senior Home Demonstration Club were Mrs. Fred Fortenberry, Mrs. John Key West, and Mrs. Rex Smitherman.

Kitchen and Field News

from Lighthouse Electric Cooperative, Inc. by NANCY MORCKEL Home Economist

The Back of Grandmother's Cook Book — — — If any of you are fortunate enough to have one of your grandmother's old cook books, you probably have had a good many laughs over the information found there.

Helpful hints on how to make washday easier — how to keep the starch from sticking — how to remove stains — how to polish the silver — how to render the fat — how to preserve the meat — how to make the best kraut that will keep well — how to soak out the cucumber pickles that have been properly brined — instructions for making some egg butter for the children butter-bread, which came in especially nice in the spring when fruit got scarce.

Many of the old, old books gave suggestions on how to "lay the fire" in the stove to get the best results with cooking and baking.

And almost always in Grandmother's cook book there was a "receipt" or formula for making liniment — which was most always needed after washday.

Today, we laugh at such instructions and find it difficult to believe that not too many years ago homemakers were faced with all these problems and many, many more just as complex or more so in many instances.

Do we as homemakers appreciate the fact that today we live electrically? A flip of a switch and our work is done for us. Can you even imagine laying a fire in a fireplace of a stove to heat the wash water? Can you imagine that not too many years ago Grandmother always got up before daybreak on washday? She had to, to have the washing done by sundown.

Because electric living has made our work so much easier, we are apt to take it for granted. Our modern automatic electric appliances have a few responsibilities, for instance, when we prepare our three meals a day we fully realize the necessity of accuracy in measuring the ingredients for the different dishes we prepare, but we do know that with our thermostatically controlled ovens in our electric ranges we can depend on the same results over and over, with very little worry over food failures.

A formula is not included in our cook books today for liniment — since we wash and dry our clothes by the flip of a switch we do not need the liniment for an aching back as our grandmothers did.

With a detergent to meet our every need right in our grocery stores, today there is no need to worry about a formula for making "good household" soap.

With Thanksgiving almost here again, isn't it nice just to stop and think about some of the things that we take for granted this day and time? I feel sure none of us will have to scratch around to make a long list of the things we have to be thankful for this year!

Jennings Getting Into Appliances At Floydada Store

Jennings Farm Supply in Floydada has been suffering from growing pains since they opened here several months ago. At present they are getting things going on a 30 by 44 foot addition which is to have a concrete floor with all steel walls and roof. Builder is C. A. Boothe who is owner of the business location of the firm on east Highway 70.

Manager Clinton Miller at Jennings is hoping the new building will be completed next week as he has immediate plans for its use. The firm plans to enter the retail appliance business in Floydada and is promising a nationally known brand of appliances and service for their customers.

The new line will, of course, be in addition to the farm chemicals and fertilizers and other farm needs offered at Jennings.

New Sewing Ideas Will Be Studied In Adult Classes

An organizational meeting of adult women, at which it is hoped to plan a course in fundamentals and new methods in sewing, has been announced by Mrs. Paul Huntington and Mrs. A. E. Baker, of the Homemaking department of Floydada High School.

The meeting is scheduled for Monday, Nov. 10, at 2:45 in the afternoon at the high school auditorium.

Among other things, Mrs. Huntington said Tuesday, it is planned to have a style show, in which girls in the homemaking classes of high school will model the clothes they have made this fall.

There will be a discussion of future dates for the adults to meet. Refreshments will be served.

Fire And Smoke Damage Residence

Two rooms in the home of Mr. and Mrs. Edd Brown on Main St., received considerable damage by fire just before noon Tuesday. Most of the blaze was confined to the northeast front bedroom. Mr. Brown said. The living room was damaged by smoke and water, and carpets in both rooms were heavily damaged.

The fire was believed to have started in a mattress. The origin of the blaze was not determined however.

Mr. Brown said his wife was down town and he was in the living room writing a letter. After smelling smoke on two occasions Mr. Brown went outside the house and looked around thinking it might be a grass fire. He continued with his letter writing and was preparing to leave the house when he noted smoke coming across the dining room.

Changing times demand better feeds

"That's why I'm on Larro for farm in this area"

We all know that times are changing. And these changes call for better ways as well as better feeds. That's something a lot of consideration before deciding your Larro Sure Feed dealer.

Larro feeding programs are the talk of the county. In my book, they're unmatched in providing the help feeders need in these times.

Larro Research Farm constantly tests better techniques while pioneering better feeds. Larro feeders get the best research and Larro quality is never left out. It's consistently high... designed to deliver profit over feed cost for you.

I feel that you don't want to gamble on results these days... or experiment at expense. With a Larro program you don't.

Let's get acquainted

Come in next time you're in town. Let's discuss a Larro feeding program which will fit your needs. We'll give you some free Larro folders, packed with worthwhile feeding tips.

BIBLE BAPTIST CHURCH

3 WEEKS OF WONDERFUL BLESSINGS

10 SAVED AND 22 ADDITIONS

LAST SUNDAY: 5 ADDITIONS & 1 SAVED

The Church has had an increase every Sunday, with the exception of one Sunday.

The Pastor and the members of the Bible Baptist Church are really proud of our young Preacher in our church. He is David Taylor and he is only 15 years of age, and he surrendered to the ministry a year and a half ago under Bro Rhine's ministry.

He brought a message at a Young Peoples Fellowship meeting in the Mid-Way Baptist Church two weeks ago and the Lord blessed with over 20 people walking the aisle for the Lord.

The many pastors that were there exclaimed they had never witnessed such Power and such Knowledge from a boy his age. He brought a message so deep and interesting that he held the attention of everybody for 45 minutes and he started everyone (including all the Pastors present) with his inspiring message.

If you would like to hear him preach, then come this Sunday night (Nov. 9th) at 7:30 P. M. and you will receive one of the greatest blessings you have ever received.

In the Near future, David will do the preaching for our Youth Revival.

The pastor's message for Sunday morning is entitled, "The 7 year Tribulation Period"

Come and enjoy our Bible Study Sunday morning and also hear both messages Sunday.

Pastor: Gilbert H. Rhine

Scout Program Need is \$2000 From South Half

Edward Wester announced completion of plans for the Boy Scout fund drive which is being kicked off today. The Floydada area of the county will have a goal of \$2,000 or about 50 cents per capita.

Wester who is chairman of this portion of the county has named those who will be assisting with the drive. The Floydada Lions Club will undertake special gifts and work toward rebuilding the sustaining memberships which have fallen off during the years the Scout program has been supported through the United Fund plan. The Lions sponsor a Scout troop and the Cub Scout program in Floydada.

General solicitation of funds will be handled by Methodist men who sponsor the local Explorer Scout unit. Heading these work groups will be Jack Henry, Pete Hickerson and Greer Christian.

At South Plains the Scout fund drive will be headed by I. H. Parks. Wester said the hope is that the Lions Club can sign up a number of sustaining memberships so that the annual fund drive would not need to be a major task each fall. To become a sustaining member a person pays an amount equal to that needed to keep one boy in the scouting program and this can be drawn from each month. In the past this figure was set at \$1 per month, but with raising prices this year's figure will be \$1.25 per month.

Contributors who feel they may be missed may call Lions members or Methodist men's group and be included in this effort.

Scouting is a program which needs little explanation. It makes good citizens and its standards are high. Floydada is fortunate in having as good a scouting program as can be found anywhere. Floydada Scout troops are always pointed to with pride and a successful fund drive will assure the continuance of this good work.

The drive is to be completed by November 22.

Mrs. Buddy Childs returned home last mid-week after another stay in the hospital at Plainview. Following surgery some three weeks ago, Mrs. Childs came home, then was a patient again for medical treatment. She is said to be doing nicely at this time.

Kinswoman Killed In Four Car Pile Up Monday Night

Mrs. Homer Sullivan, 48, cousin of Mrs. V. D. Turner and S. D. Medley of this city, was killed near Littlefield Monday night in a four car pile-up. Mrs. Sullivan's husband and 11 year old daughter, LaDonna, were also injured as were occupants of the other three vehicles.

Rites for Mrs. Sullivan will be held this afternoon at 2 o'clock in the Assembly of God Church at Lubbock where the family resides. Burial will be in the Labbock cemetery.

The Sullivan family were enroute home from a revival meeting when the mishap occurred. Full details were not known here by Floydada relatives, but the family were told that a car pulled onto the highway in front of the Sullivan car, forcing it to pull into the center lane, hitting an oncoming vehicle headon. The third car ran into the wreckage. Sullivan is hospitalized in a Littlefield hospital with a skull fracture, broken ribs and a back injury. The daughter is hospitalized with bruises and shock.

Survivors of the woman other than her husband and child are her father and stepmother, Mr. and Mrs. H. C. Pope of Lubbock. Mrs. Sullivan was an ordained minister of the Assembly of God Church.

Child Victim Of Crash Expected To Pull Through

Relatives in Floydada said this week that five year old Iris Connie Kirk, who is hospitalized in St. Anthony's Hospital at Amarillo, was still in a critical condition but that doctors had given the family hope that she would pull through. The child was taken out from under oxygen Friday and seemed to recognize members of the family before lapsing back into a coma.

Iris is suffering from injuries sustained in a pick-up and train wreck, which took the life of her father, I. C. Kirk Jr., last week near Vega. Her grandparents, Mr. and Mrs. C. Kirk of the Harmony community have been at her bedside since the mishap.

Colton Forecast

(Continued from first page)
land is pledged to the Soil Bank. This means the average yield in the county is running considerably over a bale per acre. Some of the ginners say the cotton crop is averaging just about a fourth of a bale per acre more than the forecast at the beginning of the season. There is a great deal of two-bale cotton, a few fields running more. An occasional field of dryland cotton is making a bale per acre.

Thos. J. Hutchins, office manager of Floyd County ASC, who made a survey of the gins this week, while on official rounds setting up procedures in the cottonseed support program, also comes up with an estimate based on ginners' guesses. He says production will run between 105 thousand and 108 thousand bales in the county.

Incidentally cottonseed, the soundest produced in this county in years, will be supported at \$44.10 per ton compared with \$36, the going price last week. Floyd County seed are 107.5 per cent of grade, Hutchins said.

TEXAS PRESS ASSOCIATION

effect) Thompson noted that lead and zinc imports had been cut by presidential order and "some such action must be taken in regard to imports of oil and petroleum products."

In meetings over the state, industry spokesmen talked in equally urgent terms. Lester Clark, Breckenridge producer, told the Independent Petroleum Association of America that the oil business is "sick."

"Since 1925, total well completions are off 21 per cent, exploratory crews have fallen 25 per cent, wildcatting is down 28 per cent and rotary rigs are off 33 per cent," reported Clark.

At another meeting the Gulf Coast Association of Geological Societies was held during the first half of this year total oil imports increased 5.3 per cent while domestic demand slumped 4.7 per cent below the 1935

average. Impact of this on the domestic industry was a 13.7 per cent cut back and a \$3,000,000 a day loss in income.

Foreign oil production is increasing faster than foreign demand. Jerome J. O'Brien of Monterey Oil Co. told the geological group. Foreign oil interests, therefore, are dependent on getting a share of American buying—the one big oil market in the world. Biggest question in the industry, said O'Brien, is who will get this American market.

Under secretary of the Interior Elmer F. Bennett told Texas the President's special cabinet committee on fuels is studying proposed plans to cut back imports. But, he said, the administration would not be "stamped into mandatory controls."

TOUCHY TOPIC—Next legislature is forewarned of the difficulties that will be involved in passing any law on industrial safety.

A meeting of the Joint Commission on Industrial Safety developed into heated disagreement and ended in a deadlock. Commission Chairman M. B. Blair wanted the group to approve and recommend to the legislature a plan for a state system of safety regulation and inspection in industry. Rep. Joe Pool of Dallas urged that no recommendation be made until public hearings had been held to get labor and employer views.

Blair's proposal was rejected. Pool's was approved by a 4-3 vote, but Chairman Blair ruled the motion out of order. It ended with agreement to send the Commission's collected data to the governor and legislature with no recommendation.

Commission is a nine-member group authorized by the last legislature to study and make suggestions on industrial safety laws to the upcoming session.

END OF ROUND—Former Rep. James E. Cox of Conroe has lost what apparently is the last battle in his fight against a two-year prison sentence.

Court of Criminal Appeals slammed the door when it refused Cox a re-hearing. Cox was convicted in a Travis County Court last fall. In June the Appeals Court, by a 2-1 decision, upheld the conviction.

Cox was charged with agreeing to accept a \$5,000 bribe in return for killing a bill to outlaw practice of naturopathy. He withdrew from the legislature after the difficulty developed but has steadfastly maintained his innocence.

Gov. Price Daniel and the State Board of Water Engineers have given their official approval to plans for construction of Diablo Dam on the Rio Grande River.

Need for the dam was dramatically illustrated by the recent heavy flood on the Rio Grande, said J. T. Ellis Jr., the governor's aide in water matters. Rampant waters caused an estimated \$7,000,000 property damage, and about \$1,900,000 worth of water was lost for useful purposes.

Next step toward getting the dam is for the International Boundary and water Commission to prepare final plans and go to Congress for an appropriation. Diablo will be a joint project of the U.S. and Mexico with this country putting up \$40,000,000 of the \$80,000,000 cost.

Atty. Gen. Will Wilson has filed suit to test the constitutionality of a law permitting "certificate plan" loans.

Three nationwide finance companies are defendants in the suit. Wilson contends the certificate plan, though permitted by law, violates the constitutional prohibition against charging more than 10 per cent interest.

Under the plan a borrower may get a sum of money for a year and agree to pay 10 per cent interest on the total amount. But he is required to repay the money in monthly installments. Hence, except for the first month he is paying interest on money he does not have.

NO BRANCH BANKS—In other action, Attorney General Wilson stuck to his ruling last spring that Texas Banks may not set up "little banks" at nearby military installations.

Claud Sims Rallies Following Stroke

Word was received here last week by relatives that Claud Sims, a former resident of Floydada, had suffered a stroke and was in a Denver hospital in Colorado.

Mr. Sims had been at the home of a daughter, Mrs. Delbert Jones, at Denver most of this year, having sold his place on the Matador highway.

Mr. and Mrs. Ray Sims of Canyon, a son and his wife, motored to Denver, upon hearing of his father's condition. Mrs. W. C. Sims, a sister-in-law of the ill man, who lives in Floydada, said a letter from Mrs. Jones indicated that Mr. Sims had been taken off the critical list and seemed to be improving.

FAMILY FLIES TO ENGLAND

Mrs. Ruth Liston of Lubbock, and her two children have been in Floydada this week visiting with her brother, James Penton and family. Mrs. Liston and her children explained from Lubbock Saturday for New Jersey and then on to England where she will join her husband, who is stationed there with the Armed Forces.

The master sergeant will end a 20-year hitch in the Army in 1939, but will have to stay in England two years after to complete his overseas assignment.

Mrs. Charity Brown is in Killen visiting with a sister-in-law, Mrs. Clara Brown and a granddaughter, Mrs. Dorel Duncan. Mrs. Brown's son, Joe took her to Killen and visited with relatives there before returning last week to Floydada.

EDITORIAL VIEWS AND COMMENT

Got Something Here? The Farm Bureau in Floyd County is going to try to get a resolution in their state platform, asking that the legislature require assessment and collection of personal property tax on all state-licensed vehicles before license plates are issued. They will ask also that the school district tax levy be indicated before the license is issued, and that a valid drivers license be shown when the tags are delivered for the motor vehicle. In view of the fact that there would be no discrimination in this law we can't see any good objections to pushing for its adoption. It would result in (1) collecting taxes off of thousands of vehicles that now pay no part of their tax burden, and (2) get everybody behind the driver's wheel in a legal status. What's wrong with that and why hasn't somebody thought of it before?

No longer do cotton buyers go by the grades of the Government Cotton Classing office, is the flat claim of many cotton raisers who, say they want a more accurate classing job done. Amongst other claims, it is declared the government classers grade cotton by the calendar. A "green card" is required by law to be put on a bale before it can be marketed, and when a bale goes "into the loop" for CCC the classification is recognized. When a bale goes into the market, though, it is another story. When cotton classing by government men was instituted it was argued the farmers' classing troubles would be over. Since the complaint is widespread, something still seems to be desired.

Good Milling Cotton. The first 100 thousand bales of cotton ginned on the high plains made a showing under test that will be heartening to cotton men. According to Plains Cotton Growers, Inc., the staple length was good, the grade and whiteness was excellent. Not only these but the "micronaire" statistics had most of the cotton running between 4.0 and 5.0, where 3.5 is acceptable at the mill which handle most of the high plains cotton. We have no idea what that means but living in a cotton country we ought to be ashamed to admit it.

Justices of The Peace. Currently newspapers are carrying stories of how the justice of the peace system works, with especial reference to the fees which are collected and pocketed. Perhaps, for the record, it should be stated that in Floyd County all fees and fines, while still collected as of yore, are not pocketed by the jay pees but instead re-recorded, reported and paid into the county treasury. We admit that too many fines are paid because it is easier to pay the fine than to fight the

case in court, but that is not the fault of the justice of the peace nor of the court system. When a person charged with traffic violation or other infraction of the law chooses to admit guilt and pay off the justice of the peace can't change his mind for him.

We are convinced that far and away too many fines are paid in justice court, meaning persons pay fines who ought to stand up on their hind legs, especially in traffic cases, but that is not the fault of the system. Its the kind of times in which we live. If it were within the limits of the capacity of a justice court to require that for every fine paid witnesses should testify and a jury should pass on the case it would go a long way toward raising respect for the law in small affairs of the community. Too many people pay off in justice and corporate courts without ever facing the court in a formal manner.

Probably 40 per cent of the grain sorghum growers in Floyd County are saying no to the elevator people when asked if they want to contribute to the fund of the Grain Sorghum Growers Association for promotion of the crop and to hunt wider markets for their grain. What the Grain Sorghum Producer is asking for is two pounds per hundred as it is brought to the elevator or sold. The effort is to get more permanent outlets for the crop and to stabilize its market value. The producers have an energetic organization that is getting recognition, opening up additional avenues for sales. Some way, some how, a home must be found for the ever-increasing flow of grain sorghums. That's what the association is working at. They are having some success but need to push harder and harder. Tell your elevator man you want to help.

Planning To Retire? Persons who plan to retire and take advantage of the provisions of the Social Security Act, should do so in an orderly manner, so as to avoid delays and misunderstandings. The Social Security office gives this advice: Inquire before you retire. Check two or three months ahead of time. See what proofs you need when you do apply. Then go to see the Social Security man prepared to give him the information he needs and will have to have before your application can be processed. A good many people of retirement age will first have to prove their age. It is all done by rule. If one retires and then goes to see about his retirement benefits he is likely to be disappointed in the date of his first payments. The man to see makes regular visits to Floydada. He will be here on November 10 at the County court room.

Pranksters Fun Relatively Mild
Police reported a relatively quiet night on Halloween with only a few minor reports of mischief, none of them bad enough to go beyond the definition of pranks.
Garbage cans were strewn promiscuously in front yards, a few signs painted, and some windows soaped down.
Six patrol cars were added to the force Friday night.
One incident on the Sand Hill Highway caused a little concern. Bill Baker of the Fire Department said a group of youngsters piled up old truck tires in the center of the road, poured gasoline on the pile and set it afire.
Traffic was blocked for a short time on the highway but no damage was reported from the blaze.
Recent guests of Mr. and Mrs. Weidon Harris and family were his parents, Mr. and Mrs. Jack Harris of Santo, Tex.

500 killed -- 3000 wounded!

Quite a slaughter, isn't it? That's a reliable estimate, however, of those who will be killed or injured by accident this hunting season. There's only one tragic explanation for it—MISTAKEN IDENTITY. Experienced hunters seldom cause these accidents. If you hunt only once in awhile, be doubly sure:
1. That your vision is good enough.
2. That you hold your fire until you are sure.
Don't kill or injure your hunting friends. Have your vision examined by a professional optometrist EVERY year.

Thanked the Plainview Lodge for their hospitality.
Mrs. C. L. Turner of Lockney gave the invocation with Mrs. Sam Green of Floydada playing soft music during prayer and throughout the program where music was required.
The welcome address was given by Mrs. Ruth Griggs of Plainview and Mrs. Berta Foster gave the response.
During the program Abernathy Lodge presented an altar service. Floydada Lodge presented the four emblems of the degree. Looney sang, accompanied by all who were present. Matador gave a simple but beautiful charter drill showing even a small lodge is capable of doing all that is required if so desired. A rededication service was presented by the Petersburg Lodge, and closing the program Plainview presented the correct way of electing officers.
Mrs. McGavoc announced the next District School of Instructions will be on Sunday, Feb. 25, at Lockney.
All money collected at the school Thursday night went to the projects of the president, Pauline Ragsdale who wants to erect an elevator in the Old Folks Home at Ennis and build a swimming pool at the children's Home in Corsicana.
Attending the school from the Floydada Lodge were Pat Rucker, Jane Marquis, Lona Sparks, Wanda O'Neal, Lula Green, Adalene Jones, Lawless Parkey, Ora King, Doris Kendrick, Artie Webb, Nell Muncy, Willadean Tyler, Maggie Daniel, Jewel Reeves, and Barbara Hatley.

News of Harmony
(By Mrs. Chloma Williams)
HARMONY, Nov. 3—We have had a beautiful fall week-end. Bad weather sure makes us appreciate the good. Our thermometer showed about 29 degrees Saturday morning. There was quite a little ice. The freeze seemed to be just what the majority of the farmers wanted. The leaves on the cotton seem to be about all killed.
In a few days all the farmers will be stripping cotton and in a few weeks they will know whether or not the year's gamble has paid for the investment.
If a farmer just comes out even, he seldom complains, but if he fails to make expenses he has to take on another job in order to farm. We are not complaining, just stating facts. We like farm life and would not exchange it, but if we were setting the rules of the game, we would not make the penalties quite so severe. However it has been said "the harder the fall the higher the bounce." It is no disgrace to fall down but to lie there is.
Mrs. Bill Edwards, Mrs. Walter Hanna, and Mrs. Chloma Williams visited with Mrs. Everett Miller and Mrs. G. L. Snodgrass Tuesday afternoon. The ladies enjoyed making wood fibre flowers.
Ladies of the Carr's Chapel Woman's Society of Christian Service observed the week of Prayer and Self Denial with a program at the church Tuesday morning at 9:00 o'clock. Mrs. M. D. Ramsey was leader for the program and she was assisted by other members.
Talks were given by several members on the recipients of the week of Prayer offering which was taken at the conclusion of the program.
Those attending were Misses Ramsey, Joyce Davis and Jeanne and Mrs. Chloma Williams.
The regular meeting of the W.S.C.S. will be Nov. 4, at the home of Mrs. Joyce Davis.

ELECTRIC COOKING IS AS CLEAN AS A PIECE OF Copper Wire!
You've seen a shining piece of smooth copper wire. It looks so clean and, of course, electric cooking is just as clean. For shining copper wires bring the power to run your electric range. There's simply no way for dirt to be carried into your beautiful electric range. And the range itself... so clean to use. Electric elements clear; themselves and drip pans wash easy as a saucer. Ask your neighbor about the cleanliness of electric cooking... she'll agree — it's as clean as a piece of shining copper wire.
