Retail Committee Announces Round Up of Holiday Plans

\$200 Premiums For Christmas Parade Winners

Local churches, clubs and organizations were responding well this week to the plans of the Chamber of Commerce Retail Trades Committee for the annual Christmas parade.

Around thirty church organizations, local and county clubs, and business firms were recently contacted about their interest in entering floats in the parade.

"The parade committee would like to hear from each organization about their plans by the end of the week," Hale said.

The Christmas parade is set for 3:30 p. m. on Wednesday, December 3. A portion of the parade will tell the history story in floats, the committee has announced.

The Floydada High School Band and a number of other area high school bands have been invited to march in the parade.

The committee has also assured area youngsters that Santa Claus will be there too.

Two hundred dollars in five cash prizes will be awarded winning parade entries.

Other plans for the Christmas season include the Christmas light decorations and the community nativity scene placed on the court house lawn.

The Hesperian has also announced a special Christmas preview issue for the week of November 26, which will be distributed to 8,000 area homes.

Award Winners To Be Honored At 4-H Banquet

Gold Star and other 4-H Club award winners will be honored Saturday night at the 1958 Achievement Banquet to be given in Lockney High School Cafeteria. The banquet hour is 7:30 o'clock. Invited to the banquet will be the 4-H club award winners, their parents and adult leaders. The awards will go to those who have done outstanding work and year pins will be given those completing their projects and turning in a record book.

A film, "The Seven Lean Years," will be shown and a resume of the past year in 4-H work will be reported by two 4-H club members.

The names of the Gold Star winners will be announced at the banquet.

Beth Scott of Harmony is general chairman of the committee making plans for the event, other members being:

4-H leaders who are assisting the youngsters in planning for the annual gathering are Mrs. Sherwood Ramsey, Harmony; Mrs. Henry Bollman, Lockney; Mrs. Sam Jones, Providence; and Mrs. Bill Colston, Dougherty.

Ulmer White, retired Floydada druggist, is resting fairly well in Mercy Hospital at Slaton this week, where he was admitted recently for injuries suffered in a fall.

Doc White fell about a month ago in front of Floydada Drug. He was standing near the curb of the street chatting with Dr. George Smith, when he had a fainting spell and stumbled backwards off the curb.

He was taken home and put to bed, not thinking at the time his injuries were anything but bruises. He was given medical treatment and was confined to bed unable to be up.

His son, Bob White of Slaton, insisted his father go to a hospital for x-rays. On completion of examination the father was found to have a broken arm, two broken ribs and a broken back.

Mrs. M. P. Goen, sister of the injured man, said this week that he was getting along nicely and will probably be moved to his son's home in Slaton next week.

CATTLE RANGE IMPROVING SAYS MOTLEY JUDGE-ELECT

County Judge-elect Elbert Reeves, of Matador, was in Floydada for a short time yesterday on business.

Mr. Reeves, veteran teacher and legislator, is also a stock farmer. He says ranges are gradually being restored.

He will take office in Motley County the first of the year.

Friday Is Dad's Night; Whirlwinds Meet Tahoka in Season Finale

The Floydada Whirlwinds will play their last game of the 1958 season here tomorrow night as they entertain the Tahoka Bulldogs.

The dads of all squad boys will be honored guests at the game as the locals hold "Dads Night."

It will be the second outing in as many weeks against "Bulldogs" as the Winds fell last Friday night playing the Spur variety of Bulldogs in that city.

The game on Westerfield will get underway at 8:00 p. m. and will be the last gridiron opportunity for

one of the squad members who are members of the senior class.

Co-Captains Leon Williams and Bill Patterson, Edward Hartman, Rex King, Johnny Fred Brown, Dale Brown, Artis Powell, Don Taylor, and Jerry Crawford will complete their football eligibility with the Friday night game.

The Floydada team is still handicapped with injury as they have been most of the season. Bill Patterson will not play because of an injury which sent him to the hospital at Spur. Rex King was also hurt in the Spur game as was Gilliland and Vickers. Most of these will probably see action however.

Jerry Battey will see no more contact this year as he suffered a knee injury some time ago and it has not responded properly.

Van Stovall has been moved up to the A team and will be wearing number 86 this week.

The team dads will be seated out front at the game and will be wearing numbers or names to identify them with their sons. The group will be recognized at the half time intermission.

The Tahoka Bulldogs will bring a young team to Floydada for the big game. The Bulldogs have won but two games this season but have looked good when they were right. They downed a good Seagraves team 20-0 about mid-season and last week took Post 18-9. Their losses were to Seminole, Denver City, O'Donnell, Ralls, Abernathy, Spur, and Slaton.

Announce Trap Shoot For November 22-23

Turkeys and hams will be prizes for a Trap Turkey Shoot Saturday and Sunday of next week to be staged by the band Boosters Club as a band uniform benefit.

The shoot will be held from 10 a. m. to 6 p. m. on Saturday (Nov. 22) and from 1 p. m. to 6 p. m. on the Sunday afternoon following.

The Floydada Gun Club Range will be the location for the shoot. Location is north of King Tractor and Motor on Highway 70 North.

Members will have opportunity to see game films of the last games of the season and pull down the curtain on this fall's football activities.

There will be a short business session and opportunity for visiting and coffee talk. Refreshments will be served.

Roy Teague, president of the club this week passed along the Quarterbackers thanks to the public for co-operation this year. Response to the chili supper last week brought out some 133 chili eaters and made the club about \$60. Most of the ingredients were donated.

October Tax Collections Set A Record

October state and county tax collections in Floyd County made what may be an all-time record, at least a record for any recent year, it was revealed last week by the monthly report made by Assessor-Collector T. T. Hamilton to the Commissioners Court.

The gross take for the month from the current rolls was \$236,375.35, representing 69.36 per cent of the total tax roll. This per centage figure compares with 59.87 last year.

The collections indicated also cover tax collections for the Weed Control District and the Hi-Plains Water District.

October poll tax payments also showed a healthy increase over last year. Seven hundred thirty seven poll tax receipts were issued this year in the 30-day period, a gain of 258 in 1957, an increase of 149. This is an "off year" for elections whereas 1957 was an "election year."

LIVE STOCK SHOW MANAGER SUGGESTS 'FLOYDADA DAY'

Floydada has been invited to have a "day at the 1959 Southwestern Exposition and Fat Stock Show, which will be held Jan. 30 through Feb. 8 in Fort Worth.

W. R. Watt, president manager of the show, has suggested that Floydada select a cowgirl sweetheart who can be introduced at the Stock Show rodeo. Watt also invited the city to send its high school band so that the students may give a concert on the exposition grounds.

Band members will be guests of the Stock Show at the rodeo performance.

Presenting argument against granting the charter were E. L. Norman and Getze Collins Jr., president and vice president respectively of the First National Bank of Floydada, and B. C. Drinkard, of Roby, chairman of the board of the First National Bank of Lockney.

Eric and Maximilian. A blue ribbon for every day of the 1958 Texas State Fair and \$15 for the painting of his dog was awarded Eric Christensen at the art show in Dallas this fall. When the picture was returned from the fair the other day Eric and Max posed at their home on West Mississippi St., for The Hesperian.

Weed Board Urges Winter Fight On Bindweed; Control Needed

An urgent appeal is being made by the Noxious Weed Control District of the county for the farmers to stake off the bindweed patches, which they may want to have treated this winter, before the end of this month.

A hard freeze of 20 degrees or below will kill the weed to the extent that it cannot be easily located.

Also by treating now, winter rains will aid in carrying the chemical into the root zone so that a kill can be made while the weeds are dormant during the winter and the soil will resume production sooner.

Under normal conditions a patch of bindweed will increase ten feet in diameter each growing season, which means a greater cost if treatment is put off.

Since the district has no way of knowing for sure who has or has not treated bindweed a request is made for all farmers who are interested in treatment on their farms or on the county rights-of-way to come in to the district office—room 115—phone YL3-3550 County Courthouse—and make arrangements for treatment.

There is no charge for treatment and chemicals can be obtained through the district at prices slightly above dealer cost.

In the meeting of the Board last Thursday it was decided that Church and School property is to be treated free of charge and treated, at the same time the farmer adjacent to it treats his bindweed.

A third bindweed demonstration has been set up eight miles north of Floydada on US Highway 207.

Refunds to those who made donations for the election fee for the Weed Control District will be given in person or mailed by the end of November.

Mr. Degge has a visual-aid program which he will be happy to give at any community, civic, or club learning more about the Noxious Weed Law and control of Noxious Weeds.

The district received a 300 gallon John Bean Sprayer Tuesday.

Faulkner Expects No Decision On Bank Charter 'Til December

The State Banking Board will not announce whether it is granting the application for a charter for the \$300,000 American State Bank of Floydada until No. December and even then not until after the first Thursday, the board's usual official meeting date.

This was the probability of events given The Hesperian by State Banking Commissioner J. W. Faulkner over the telephone Thursday afternoon of last week. The other 180 members of the board are expected to be out of Austin on the regular meeting date, the commissioner said.

The board had completed its hearing of the application of the Floyd County petitioners for a state bank at 1 o'clock after a three-hour hearing which began at 10 o'clock Thursday morning. The commissioner's call came through about 3 o'clock.

Retired Teachers Are Honored At Book Review, Tea

The Gamma Iota Chapter of the Delta Kappa Gamma Society honored retired teachers Saturday, Nov. 1, with a book review and a tea in the Plainview High School library.

The book, "Snips and Snails" by Louise Baker, and reviewed by Mrs. J. D. Copeland, was the story of a teacher and her trials in teaching.

The author gained most of her inspiration for this book from teaching in a boy's school in Arizona. As a beginning teacher she hated her work, but as time passed she began to love it and finally decided that "every day is worth saving".

As Mrs. Copeland gave the review, all teachers, both active and retired, lived again some of their own experiences in teaching.

Honored were Mrs. P. L. Orman, Floydada; Miss Sammie Roach, Plainview; and Mrs. Frank Nease, Plainview.

Members attending included members from Plainview, Tulla, Silverton, Lockney, Hale Center, Petersburg, Abernathy and Floydada.

Those attending from Floydada were Mrs. Homer Guffe, Mrs. Edna Phillips, Mrs. Margaret Springer, Mrs. Fred Stewart, Miss Vera Meredith and Floydada's honoree, Mrs. P. L. Orman.

Engagement of Ann Martin Is Revealed

Mr. and Mrs. Kenneth Martin of 600 W. Grover are announcing the engagement and approaching marriage of their daughter, Ann, to Marshall Williams, son of Mr. and Mrs. Howard Williams of Lorenzo, Tex.

The bride-elect is a graduate of Floydada High School and is attending Watson's Business College in Plainview, where she will graduate shortly.

Mr. Williams is a former student of Falls High School and is presently employed by Crosby County.

At this time, no date has been set for the wedding.

THE TURKEY MAKES IT THANKSGIVING

The big golden turkey is the star at the Thanksgiving feast. And it's the bread stuffing that gives it its plump good looks and extra flavor. Try toasted yeast-raised bread crumbs combined with butter, seasonings and fresh mushrooms for a rich melow stuffing for this year's bird.

BREAD AND MUSHROOM STUFFING

- 4 1/2 quarts soft enriched yeast-raised bread crumbs
- 1 cup butter or margarine
- 1 cup chopped onion
- 1/2 cup chopped green pepper
- 1/2 pound sliced fresh mushrooms
- 1/2 cup chopped parsley
- 1 tablespoon salt
- 2 teaspoons poultry seasoning
- 1 teaspoon black pepper
- Chicken stock or milk

Spread bread crumbs on baking sheet and toast lightly in oven. Sauté onion, green pepper, celery, mushrooms in butter till tender. Add bread crumbs, parsley and seasonings. Add chicken stock or milk to make stuffing as moist as desired. Lightly stuff neck and body cavities of a 12-pound turkey.

LIPSTICK LOGIC

The Space Age, to most of us, is just three words strung together for a new look. As for understanding its real implications, we hardly want to try. And if asked to give a five minute talk on the subject, we'd frantically picture rockets shooting off into space and a sort of Disney-like conception of a crater-pocked moon.

Without admitting it, we tend to turn our eyes away from the future into a colorful past with which we are familiar.

Last night four of us—whose memories reach back to daily chores of cleaning chimneys and taking ashes from the front room stove—got talking about things past and present.

The man, a successful automobile agent of about 65, entertained the spouse and me with stories of the first automobile show in our town. He said one oldtimer came forward with a picture of the first commercial garage in the city—a barn-like building with a Model T seen faintly through the doorway and three hitchhiker posts out front.

We talked about changing times, and how in a couple of generations folks would probably be taking vacations on the Moon. And as we rode along in sleek new station wagons, decked out in out best for a dinner dance, the four of us suddenly felt ourselves looking smack dab into The Space Age.

Where our ordered World is only one planet swirling in a vast outer space.

Where the evidence of a Great Planner is even stronger than in the smaller World that once was the extent of our view.

And just as an untrained person senses greatness in music without knowing why, we four ordinary folks sensed the feel of today's scientific horizons.

Could be that even we oldsters are getting 'hep' to Tomorrow.

Marked Activity Report At Bible Baptist Church

The "young preacher that preaches like a man" at the Bible Baptist Church brought the message last Sunday night with one conversion and many other moves made, reports Rev. Rhine.

Rev. Rhine reported as having many visitors in their service and an increase in their Bible study on Sunday morning.

The church is taking on a new look these days, because they are work on the building.

Friday night, Nov. 12, the Bible Baptist Church is planning a Young Peoples Fellowship meeting in which about six or eight churches are taking part. Each church will have a 15 minute program and at the close of that part of the program an 18-year-old boy will close out the service with a message from the Bible. He is reported to be a very good preacher. Rev. Rhine is quoted as saying, "if you want a real spiritual blessing do not fail to be in this service."

As A Farm Woman Thinks
(Nellie Witt Spikes)

A Prayer

—By Helen Moore

Keep me, guide me, love me, Lord.
All this day,
In Your calm presence, Lord,
Let me stay,
And if my path seems hard, Lord,
The pathway steep,
Let me firmly and with faith, Lord,
My vigil keep.

I know that where I am, Lord,
Your love abides,
My heart does calm trust, Lord,
In You confides,
So keep me, guide me, love me, Lord,
Night and day,
And I shall in Your presence, Lord,
Serenely stay.

This Monday morning of October 13, 1936, is very quiet. The trees are beginning to put on their autumn clothing, the flaming red of the pear tree by which one seems almost to feel heat enough to warm hands, the flaunting yellows, how I love them all. The few flowers left have taken on a deeper color.

Even the vegetables have a better taste. Maybe it is because we know they will too soon be gone. The figs are still green but some of them will ripen if the frost stays off awhile. I go about the yard and glory in the exquisite beauty of everything. The fields are turning into snowbanks where they have been defoliated and in the green of the leaves still left, the cotton looks like newly fallen snow.

A level field of golden maize is a delight to look at and promises the owner money to buy the shoes and groceries, the clothing that his family needs.

Another crop is creeping out of the ground and soon the wheat will glow like an emerald carpet. I know the world outlook is bad, but so it was in the time of the prophet Isaiah, but this grand old man of God looked beyond the turbulence of his times to the security of God's care, and He said:

"Thou wilt keep him in perfect peace, whose mind is stayed on Thee, because He trusteth in Thee."

So today as then God is the Answer. When we go into our problem and turn it over to God, He clears it up. Go all the way with God.

Some expressions heard at the recent Pioneer Reunion of the West Texas Old Settlers held at Crosbyton:

"I knew him like I know cornbread. He was good a plenty — fiddlin' will go on as long as there is anyone else on earth to fiddle — I would know your ole hide in a tannery."

Notes from the address given by Hon. George Mahon at the Reunion: Honest is the best policy. It was the only policy the pioneers had. There is no substitute for hard work. This he knew also, they knew the value of the dollar — had respect for the home and the church and school. They appreciated the things that "abide." They had the simplicity we have sometimes lost. The lessons of fundamentals of pioneers departed — the only hope for our future, even our survival, are the same fundamentals the pioneers believed in, the importance of solid foundations built on the following of God. We need to look back, not go back, give more character to our civilization — we need to live so we will have a good name which is better than silver or gold.

The field larks are singing everywhere this golden morning. Whether they say to you, "Lady your petticoat is showing," or "Laziness will kill you," you will like their happiness. Seems to me they are singing this day, "God is good, God is good, oh, what a beautiful day."

Did you ever head maize? If you did you will see yourself as I do, going to the field in a jolting wagon with a big sunbonnet and holding a sharp knife. You got out at the beginning of the row, cut off each head as you reached for it. Most maize was tall then. Got a handful and threw them into the wagon. Sometimes you threw them over the throw board and had to go around on the other side and pick them up. You did not dare to waste even a head of the precious stuff that the stock would so badly need the coming winter.

The maize stung, the late mosquitoes bit, you perhaps cut your hand only to wrap it up in a rag and go on cutting maize. The horses would not stay on the row and pulled the wagon over the unheaded maize. You would have to stoop for every downed head. Your back ached your body stung with the chaff and the heat, the field ahead looked as if it had a thousand acres of endless maize to head. When you got to the house to prepare a hasty meal, everything looked upset and uninviting.

But oh, how very good it was when the last stalk was beheaded and the field was ready for the stock to eat up the stalks!

From an Unknown Author comes this interesting discussion —

The Mystery of an Autumn Leaf

"To the artist the falling leaf of the deciduous tree is a thing of beauty, to the small boy whose chore it is to rake the garden, it is only a nuisance; to the chemist it represents a marvelous achievement that he could not duplicate in his laboratory, however earnestly he tried; and to the food economist and statistician every brilliant red and every rich brown represents a waste of saccharine substance that in the aggregate would be sufficient to sweeten the coffee of all the world."

Dr. J. Arthur Thompson, in his "Bible of Nature," writes: "We ascended a hill among the woods on an autumn afternoon, and we look down at a sea of gold mingled with fire — all the glory of the withering leaves." Our botanical friends tell us of the breaking up of the green grains into chlorophyll and xanthophyll how the latter is affected by the acidity of the cell sap, how a special death pigment, anthocyanin, may make its appearance, and so on; all the glory seems to fade into chemistry.

"But if we question the botanist a bit we find that he has given us more than we have lost. We see that the hard-worked leaves must die, that it is better for the tree that they fall, that they first surrender what they have that is worth having, lit little more than skeleton and waste is left, that they are transfigured in dying, and that their brilliance is a literal beauty for ashes."

The leaves have been working all summer absorbing carbon dioxide and certain minerals from the soil. Perhaps you will say, "Working? You mean absorbing. A plant does not really work." Of course, a plant works. Does not a leaf work? Do not the leaves become aged even as we? Even as you, each leaf is a worker, contributing its bit to the building of the tree, to the opening of the blossoms, and to the ripening of the fruit or the seed.

Understanding all the facts about leaves, we are left to wonder why the dogwood turns red and not violet; why one section of a sassafras leaf is red, whereas the rest is green; why the leaf is yellow; why the sumac changes early, why the oak leaves do not fall; why the honeysuckle keeps the vivid green of summer; why leaves taste bitter; why some leaves are smooth and others furry; why some are nutritious and others are poisonous — a hundred other questions arise.

Autumn leaves, you puzzle us, you charm us, blow into our faces, and protect our gardens.

—Our sincere thanks to the unknown author.

We love the beautiful leaves, when they first appear in the springtime, all through the summer, and the beautiful autumn colors.

Expert cooks suggest the following rules for using herbs effectively:

1. Use with a light hand — too much

of any flavor is objectionable. It is better to use too little than too much.

2. Blend judiciously for different purposes. Have a leading flavor and combine with two or four less pronounced flavors. Never emphasize more than one of the very strong herbs in a blend.
3. Cut or chop the leaves of fresh herbs very fine. For some uses, they should be ground in a mortar.
4. Dried herbs are fresh to four times stronger than fresh herbs.
5. Buy dried herbs and mixtures in small quantities. Store in a dry place away from heat. Herbs lose flavor and aroma over a period of time.
6. The delicate aroma and flavor of savory herbs may easily be lost by extended cooking.

Spur Bulldogs Down Whirlwinds 8-0 For District Championship

The Spur Bulldogs are always tough on their home field and this year was no exception as they downed the Whirlwinds 8-0. It was the first defeat for Floydada this year and wrapped up the championship for Spur.

A hard-fought game throughout, the victory went to a ball control team. Spur pounced on three fumbles and made two pass interceptions to keep Floydada in hot water all night. The Bulldogs ran 58 plays from scrimmage which netted them 291 yards. Floydada could keep the ball for only 36 offensive plays and were able to make 202 yards.

Joe Copeland was the undoing of the locals who saw the big Bulldog back gain a net of 130 yards and he was also on the receiving end of all but one of the Spur passes.

As the game opened Floydada kicked and Danny Shipley toed the ball to Kenneth Sutt on the Spur 18 and he made no return. The Bulldogs then put on an offensive which carried them to the Floydada 31 where they faced fourth down. Bill Gilliland then plowed through to smear Sutt causing a fumble which he recovered on the Floydada 38.

Floydada had a good drive going which had carried to the Spur 36 before a rash of penalties pushed them back to midfield. Then trying to go the distance Spur's Wilson intercepted a pass on the Spur three yard line to end the threat.

From this point the Bulldogs started a drive which was to carry them to the winning score. The ninety-seven yard march featured the running of Copeland and the passing of Sutt to Copeland, the latter combination accounting for the final four yards and the score.

Sutt ran the conversion, and the scoring was over for the night at 8-0.

The remainder of the quarter, and the entire game for that matter saw both teams move the ball well for a time but neither were able to hit pay dirt.

Spur had four golden opportunities but the Whirlwinds held to take over on downs on their own 17, again on the 4, once on their 9 and finally on their 19 as the Bulldogs found the going tough when they neared the goal line.

So complete was the fumble jinx that it was the last of the third

quarter before Floydada punted or was held for downs to lose the ball in a conventional manner. On all earlier occasions it was by the fumble or interception that the ball went over to Spur.

The Bulldogs played smart football and it was their polished backfield which proved to be the difference.

Floydada's Bill Patterson was injured on next to the last play of the game and had to be hospitalized. Don Vickers broke loose on the last play of the final stanza for a gain of nearly forty yards looking for a time as if he might go the distance but he was brought down by the last Spur defender on the Bulldog 45.

Starting for Spur were Kenneth Sutt, Kent Morgan, Mike Kearney, Freddie Walker, Don Kidd, Gary Scott, Joe Copeland, Jim Gabriel, Kenneth Gilcrease, Ernest Wilson, and Woody McArthur.

Floydada's starting assignments went to Elwyn Pierce, Leon Williams, Bill Patterson, Bill Gilliland, Rodney Teague, Bobby Christian, Richard Graves, Larry Irby, Edward Hartman, Danny Shipley and Rex King.

CANDLE LIGHT PROGRAM HONOR PAST NOBLE GRANDS

Rebekah Lodge honored the Past Noble Grand Tuesday night of last week, with Mrs. Wanda O'Neal of Lodge No. 77 in charge of the candle light program. The occasion was in memory of work well done by Past Noble Grand.

The program was impressive and appreciated by each one honored. Songs of tribute were enjoyed prior to a presentation of a lovely gift to each Past Noble Grand by Mrs. O'Neal.

There were 21 members present and four visitors, those being Mr. and Mrs. Floyd Phillips and Mr. and Mrs. Glen Carmickle of Petersburg.

Refreshments were served after closing of lodge.

Mrs. Brown Kendrick of Dallas arrived in Floydada Thursday to spend several days here with her sister, Mrs. Jack Henry and Mr. Henry. The three attended the Texas Tech and Arizona State football game at Lubbock Saturday and visited with Jackie Henry.

Mrs. Kendrick plans to leave Floydada sometime this week for San Angelo where she will stay a few days with her mother, Mrs. E. A. Hopkins. The latter at this time is said to be doing nicely.

Visitor: "I never saw so many fires! Don't you ever shoo them?"
 Farmer: "No, we just let them go barefoot."

Mrs. Adams: "Why are you jumping up and down, Carroll?"
 Carroll Patton: "I took my medicine and forgot to shake the bottle."

Turkey, Apples Among November Plentifuls Texas Survey Shows

Turkeys and apples are headliners among foods in abundance during this month of November. The 1958 turkey placements were not quite so large in Texas as last year but the mortality rate has been unusually low and there will be plenty of the traditional "holiday" birds available at a right price. The bulk of the crop will be going to markets in November and December, making more supplies actually available during last year when sales were spread from the last of September through the Christmas season.

As for apples, they're making history this year. This is the second largest crop in two decades and the largest since 1948. The country's commercial apple trees are expected to yield nearly 127 million bushels.

Along with turkeys, broiler-fryer chickens will be plentiful. General supplies of pork are also available.

Because so many young hens make up this fall's laying flocks, medium and small size eggs are expected to be most plentiful and are probably the thrifty buys.

The fall potato crop also is large. These are the storage potatoes that keep better than the more perishable "new potatoes" and are suited to many different cooking methods.

Another vegetable appearing in quantity on markets is cabbage. Record high yields have lifted crop prospects to 12 percent above a year ago. Because of heavy yields, much cabbage grown for kraut will be sold fresh. Cabbage deserves more attention from shoppers who appreciate high vitamin C value and

appetizing flavor, especially for salad use, at an inexpensive price. The big cranberry crop this fall—the largest since 1953—will bring plenty of these holiday berries to November and December markets.

Other plentifuls are canned ripe olives and walnuts—the largest production since 1949. Lots of dates and honey are expected which are excellent for holiday cookies, cakes, confections and everyday spreads. Peanut butter will be in great plenty as will vegetable fats and salad oils.

If you're serving a crowd, you'll want to consider the large size cans of many different frozen berries. Canned berries are in good supply in both extra large and family-size containers.

School Children Have A Billion Tooth Cavities

Austin - One of our most important public health enemies in America today is tooth decay, a virtually incurable chronic disease which must be prevented if it is to be conquered at all. The ailment is so widespread that it involves 95 of every 100 persons and is still increasing.

It is estimated that there are now a billion cavities in the mouths of Americans, mostly children of elementary school age. And for every cavity a dentist fills, six are left unfilled because of failure to visit a dentist. Dental authorities say the situation is now so acute that at its present rate of increase, within 10 years decay will have turned us into a nation of dental cripples.

Children develop cavities at about the same ratio as do adults—approximately one per child per year. But whereas one-third of the adult need for fillings is being met, only one-fifth of the cavities in children's teeth are being repaired.

Perhaps the reason is that so many parents still cling to the totally false notion that so-called baby teeth are unimportant because they are temporary. The frequent result is that good dental health for children is still a relatively scarce commodity.

There is one positive step all parents can take to avoid a fate of toothlessness among their children. It's a simple step, requiring only that the youngsters be taken to a dentist for tooth and gum inspection before being enrolled in school each fall.

The energy released in a tropical hurricane has been calculated to be the equivalent of 150 atom bombs every minute, according to the Navy's Hurricane Hunters.

Although the exact process of the formation of a hurricane is not known, conditions generally favorable for the start of a storm are light variable winds, high humidity, low atmospheric pressure, and strong solar heat, according to data compiled by the Navy's Hurricane Hunters.

Since the commissioning of the Navy's Hurricane Hunters in 1946, the squadron has flown into 70 hurricanes involving winds of over 75 miles per hour.

When Tractors Become Killers

COLLEGE STATION - That tractor which is such a big part of a farmer's bread and butter can become a killer and dangerous enemy if proper precautionary measures are not taken. More than 1,000 Americans are killed in tractor accidents every year.

In most cases where a tractor and a truck or auto collide, the tractor operator is killed. Right now there is increased activity in the fields and on the highways, setting the scene for more accidents, warns the Texas Farm and Ranch Safety Council.

Plan your work so that you won't have to take your tractor on a heavily traveled highway more than necessary. Flaps by day and approved lighting by night will call the attention of the motorist to slow-moving farm machinery, points out the Council.

ANSWER: YES Does It Pay To Stay In School

(Special to the Hesperian)
NEW YORK, Nov. 6.—The arrival of American Education Week, Nov. 9th to 15th, brings up the question, for young men in Floyd County: "Does it pay to stay in school longer? Would I be better off quitting now and getting a job? How much better could I do, financially, if I remained and got a better education?"

The answers to these questions are contained in reports and studies made by the U. S. Department of Labor and by other Federal and private agencies. They show that each added year in school results in more income for the average person throughout his working career.

In Floyd County, based on the amount of schooling the average young man receives and under present economic conditions locally, he can expect to earn a total of \$130,000 during his working years.

This prospective income compares favorably with the expectations for other parts of the West South Central States, currently set at \$125,000 for the young man just starting out. In the State of Texas it is \$122,000.

A direct relationship is noted between the amount of education a person acquires and the amount of money he will make during his lifetime.

Figures released by Secretary of Labor James P. Mitchell show that each year of school through the 7th grade adds \$130 to annual income, that graduating from the 8th grade adds \$203, that each year through the 11th grade adds \$228 and that the 12th grade adds \$466.

Lifetime incomes average \$30,000 more for high school graduates than for elementary school graduates but on \$103,000 below those of college graduates.

The esteem in which learning is held in Floyd County augurs well for the future. The educational level of the adult population is high. The median stand at 9.6 years of schooling when the last census was taken and has gone up considerably since then.

This was more than the United States figure, 9.0 years, and the West South Central States median, 8.5 years.

Secretary Mitchell points out, in urging young people to remain in school longer, "In almost every occupation, a high school diploma is the minimum need for desirable employment and promotion."

Flynn Thagard was in Midland over the week-end visiting with his son, Thomas and family.

Australian Boys Leave For Coast After Visit Here

Mr. and Mrs. Walter Hanna of the Harmony Community entertained last week two young men from Australia, who were in this country on a tour learning about American ways in irrigation and agriculture.

The men were Bill Robinson, 27, and Barry Smith, 23, of New South Wales. Bill is the brother of a girl who visited with the Hannas last year.

The group became fast friends during their stay here. Bill and Barry landed in the States in June. They left here Friday and will sail for San Francisco Nov. 30, for home.

The guests brought the total to 11 young people from other lands the Hannas have had in their home. Most have been exchange students with the exception of Bill and Barry. All have been from Australia except one girl from Ireland and one from England.

SMALL BUSINESS

WASHINGTON AND
By C. WILSON HARDER

When the Congress that recently adjourned passed small business tax relief measure, included in its provisions was one that should correct a tax abuse which has created many mergers in the past few years.

This particular provision of this bill now makes it unnecessary in many instances to break a family-owned business because of inheritance taxes or estate taxes.

For a long time the National Federation of Independent Business has urged this relief from an unfair situation.

Back in the Great Depression, it was deemed wise to put through some pretty stiff inheritance tax laws in order to prevent as far as possible the rise in the number of wastrel and playboy sons of successful fathers and thus prevent control of great blocks of massed wealth being held by the playboy type of character.

But of course, as so often happens in times of stress, the measures passed were quite akin to burning down the barn to get rid of the mice.

As applied, the law practically dealt a death blow to the age old American tradition of the family-owned business, handed down from father to son. In so many cases, when Pa shuffled off to his eternal reward, a bill from the tax collector arrived almost before the mourners got back from the cemetery.

Now unless Pa had been extremely careful to anticipate his demise by somehow storing up a

substantial amount of cash in the business, his sons often found the enterprise crippled, or even fatally damaged by the demands of the tax man.

Thus, in the past few years, there has been a strong trend for prosperous independent family-owned business enterprises to be merged with a larger competitor, or in some other way combined so that at least in substance the enterprise could survive the passing of the head of the business.

Because the tax bill was payable almost immediately upon death, unless the business had sufficient cash reserves to cover, it was often better for Junior to let the business go and hustle a job somewhere rather than try to keep operating the business his family had built with the intention it would be carried on through generations.

Last while the action of the last session of Congress did not mitigate the total tax load, it did put the load on an installment basis that many independent businesses can now handle and not go to the wall.

The new law provides estate taxes can be paid over a period of ten years in installments.

Thus, whether it is a family-owned business, or one owned by two or three partners, there is now a way for the business to survive the death of one of its principle owners.

The evil this measure corrects again illustrates the truth of the maxim that the power to tax is the power to destroy.

And it also further illustrates that this power to tax, permitted to be held in socialist hands, becomes a weapon more powerful than the atom bomb in destroying free enterprise.

And it also further illustrates that this power to tax, permitted to be held in socialist hands, becomes a weapon more powerful than the atom bomb in destroying free enterprise.

And it also further illustrates that this power to tax, permitted to be held in socialist hands, becomes a weapon more powerful than the atom bomb in destroying free enterprise.

Phone Company Managers Urge Rate Increase

City Council of Floydada Tuesday night took time out from jawing with representatives of Southwestern Telephone Company to read and hear a report from Secretary Lewis Norman that tax collections represented the biggest October in recent years.

Clay Styles, district commercial manager, and J. C. Oakley, local manager, of the telephone company, were given more than an hour of the council's time, going over their troubles.

Southwestern Bell wants an increase from \$9 to \$11 on business telephones, from \$5 to \$7.50 on one-party residence lines, and from \$4 to \$4.45 on two-party service.

The council did not give a satisfactory answer and the managers said they would be back. One member of the council, M. H. Martin, was outspoken in opposition to a raise.

"I won't be ready to consider a raise in telephone rates until October of 1937 and might vote against it then," he told the telephone men. Other members wanted more time to "think about it."

Martin voiced a doubt about the figures which show a net loss at Floydada Exchange of \$3,267 in the fiscal year. He wanted an explanation of how an item of \$5,289 federal income tax could be charged against a net loss of \$3,267. The answer was that whereas income is based on changes, income tax is computed on income from the company's properties as a whole.

Dale Owens of Lubbock, son of Mr. and Mrs. Jim Owens, has been in a Lubbock hospital since Friday when he was hit in the eye by a nail while working as a carpenter on a construction job. It is now expected that he will have the sight in the eye and be able to resume work soon.

County Recreation School — Plans are well under way to hold a county recreation workshop November 17, 18 and 19. Miss Lucille Moore, Extension Service recreation leader, will be here to conduct the workshop. The school is being held to develop leaders in communities and 4-H clubs so that a recreation program can be carried out. Such topics as planning parties, leading games and developing organized recreation programs will be covered.

Rat Control — Plans are under way to develop a county rat campaign. Specialists tell us that it is much better to wait for cold weather to control rats, since they have quit breeding and they will become concentrated in their winter quarters. Further plans will be announced at a later date about the rat campaign.

Weed Control — Weed control can be a year round job if plans are developed now. Bindweed patches should be staked while the weed is growing and treatment can be applied at a later date. If you have bindweeds that need controlling you might contact the Floyd County Weed Control District. Mr. Douglas Dege, supervisor. They can furnish soil sterilants at a small increase above dealer cost and will put out applications free of charge. He is located on the 1st floor of the county courthouse.

4-H Achievement Banquet — 4-H members are planning their 4-H achievement banquet Saturday night, November 15, 1936, at 7:30 in the Lockney High School cafeteria. 4-H members who have completed their 4-H projects and who have turned in records will be eligible to attend. Thirty-three girls and twenty-eight boys have completed their records and will attend the banquet.

A 4-H committee with Beth Scott as chairman has planned an interesting program for the evening.

Bank Surplus Is Increased

Vice President Gene Collins Jr. of the First National Bank this week announced that the board of directors of the bank voted November 7 to increase the surplus account in the capital investment from \$200,000 to \$300,000.

The increase to surplus was taken from the undivided profits accounts leaving the capital structure at \$200,000 capital, \$300,000 surplus, \$151,720 undivided profits.

Principal advantage in the change, Collins pointed out, is to increase the loan limit permissible, which is based on capital and surplus accounts.

More interesting, the Tax Commission's study of assessment and collection practices and problems indicates that this figure is probably only a fraction of what is legally due.

Shortage of personnel plus the mountainous difficulties of locating and evaluating all the items involved add up to inequalities and hazardous methods.

Under Texas law, individuals and businesses are supposed to pay property taxes on all real estate—land and buildings. In addition, both business and individual are liable for taxes on all "tangible personal property"—cars, airplanes, boats, furniture, jewelry, business equipment, fixtures, inventories, etc. Also, all "intangible personal property"—money, bonds, stocks, mortgages, etc.

In practice, many of these are just plain ignored by officials and citizens alike. Many cities make no effort to collect property taxes on cars. As to money, the Commission report observes, "If money in the bank were taxed on January 1, relatively few persons or businesses would have any money on deposit that day."

In other areas where more vigorous efforts at collection are made, results are spotty. Researchers found that the same piece of property would net widely varying tax bills in different counties. On one example the range was from \$616 in Harris County to \$1,132 in Travis County.

They also found that some people claim homestead exemptions for more than one house. At \$3,000 each, these add up to unknown thousands in untaxed value.

Exemptions plus low assessments take a big bite from theoretically possible tax collections. In a study of 2,937 house sales, the Commission's research staff found the legal tax due to be \$95,019. Actual taxes levied were \$2,708, only 3 per cent of what strict application of the law would have produced.

Even though many tax offices are undermanned, Texas has 1,500 assessor-collectors. Sometimes a county, city and school district each will have an official doing the same job in the same area. Result: total cost of property tax administration in Texas exceeds \$15,000,000 a year.

CITY RECOMMENDATIONS—Texas League of Municipalities has a series of recommendations—mostly in regard to money—for the next Legislature.

Topping the list was an appeal to the lawmakers to authorize cities to raise money through some new tax sources. League also asked for thorough study of inequities in the property tax laws and revision where needed. It suggested that payment of property taxes on motor vehicles be required before issuance of new license tags.

Cities also asked the Legislature to step out of the field of regulating pay, pensions, and hours of city employees. Local citizens have to pay his bill, said the League, and ought to have the say-so.

COST OF HIGH LIVING—It's not the income; it's the outgo that has hit Texas treasury in the red, says State Comptroller Robert S. Calvert. Calvert told Gov. Price Daniel's Executive Study Committee that all tax sources except oil are expected to bring in some \$74,646,044 more

revenue in the 1960-61 biennium than for 1958-59.

But, he pointed-out, inescapable increase of needs in just one area—public schools—will just about absorb all this extra money.

SOME CHANGES MADE—Final outcome (from unofficial returns) of voting on proposed constitutional amendments resulted in these changes:

1. Appointees to vacated county judge and justice of the peace posts may serve only until the next general election—not for the remainder of a four-year term.

2. Precinct, county and district office holders may not announce for another office without resigning the office they hold.

3. Cities may elect their officials for four-year, instead of two-year terms.

4. Former Texas Rangers or their widows may receive pensions up to \$80 a month.

5. State funds may be spent to advertise Texas outside the state.

6. Legislature may pass a law providing medical care assistance for people receiving old age pensions, aid to the blind, disabled or dependent children.

7. Legislature may authorize the creation of new hospital districts in Potter, Wichita and Jefferson counties.

On the other hand, when Texans put their foot on the proposal for annual sessions and \$7,500 annual salaries for legislators, it meant setting up the Texas Water Development Board is proving to be something of a strait-jacket.

This opinion was expressed to the Board by J. E. Sturrock of the Texas Water Conservation Association. "You're doing a good job, but your law needs to be liberalized," said Sturrock.

Board is authorized to lend local governments up to one-third the cost of building a water conservation project. Suggested changes: lower interest rates to the borrowers, provision for lending more than one-third of cost.

WIFE OF COUNTY JUDGE HURT SLIGHTLY IN HIGHWAY MISHAP

Mrs. J. D. McBrien escaped serious injury early Friday morning when the car she was driving was in collision with another vehicle driven by a Latin American.

The mishap occurred at the intersection of White St. and Missouri on the Sand Hill Highway. Two members of the Latin American family were hospitalized in Peoples Hospital overnight for observation and four others in the family were treated and released, hospital attendants said.

Mrs. McBrien was taken to their family physician for a check, and was released after treatment for a cut over the eye and bruises.

The cars met nearly head-on, one traveling east and the other west. Judge McBrien said his car received \$300 to \$400 damage. Police Chief, Horace Cage investigated the accident.

Judge and Mrs. J. D. McBrien were guests recently in Snyder with Mrs. McBrien's sister, Mrs. Jack Inman and family.

EDITORIAL VIEWS AND COMMENT

Amendment Number One. Big business is getting credit for beating proposed Amendment Number One, the Amendment that would have set the salaries of legislators at \$7,500 per year and required a session every year, one a general laws session, the other a budgetary session. We think the wording of the proposed amendment was bad. Maybe next time better luck, with a proposal that is worded differently. The fight to keep from being the goat of added taxation will not be abated regardless of how many sessions of the legislature. The fewer of these sessions and the bigger hurry they get in the better for Texas until we simmer down somewhat. Big Business, no doubt, is willing to take credit for the defeat of the measure under its proposed form.

Nothing Else Anticipated. The surprise to us was that the Republican candidate for U. S. Senator got a big vote in his home precinct. We had assumed he would understand when his neighbors patted him on the back but went ahead to vote for the Democrat. So far as the whole state was concerned his vote was negligible, but he (Mr. Whitfenberg) did almost carry Potter and he got a very good vote in Gray County. One or two counties, or was it three, where Senator Yarborough had made himself unpopular actually were in the Whittenger column. These voters, most of whom took part in the Democratic Party primary, look lightly on the pledge to support the nominee in which one participates. They view the pledge on the ballot as a gimmick to force the voter into a political straight jacket. Depends on the point of view. That's not the way we see it.

Latest Yarborough report reveals the elation of the junior senator that he is at last the recipient of a majority vote in Texas. His win was made the sweeter by the fact that he carried his home precinct, at least nearly two to one. The senator is the beneficiary of a set of circumstances which will make his a happy one for the next few years. He rides the scud and fury of the political windings. We have wondered about it, whether he will eventually break with Mr. Sam and Lyndon B. We rather doubt it, though he has many supporters who hope for him to do so. We now have two senators, neither of whom was of our choosing. We have an idea the wheels of state will keep turning. Both men have a great deal of sense and capability.

"The spiraling trend" in jury awards for automobile insurance claims is beginning to have the public worried. Everybody is required to carry insurance against damage they may do to others or to property while

they are operating a vehicle on the public highways. The mounting price they are paying in premiums can be tied in to high jury verdicts both directly and indirectly. The average sum paid to claimants has risen more than 300 per cent in 10 years. Awards that reflect jury sympathy rather than a true evaluation of damages or determination of fault, do encourage exaggerated and groundless claims. Even in cases where an accident is looked upon as an opportunity to get rich, insurance companies are loath to go into court but settle rather at the court room door. Unfortunately it is not the insurance companies which are "soaked." It is the insured driver who pays. The extravagant jury and the claim peddler are cheating themselves and their neighbors, not the insurance company, says the Association of Casualty & Surety Companies. This fact seems to gain ground quite slowly in the minds of insurance buyers.

The Bank Hearing. We were caught flat footed by the bank hearing in Austin last week. We had anticipated, as had been suggested, that it would be a formality over in 30 minutes or so. To the contrary it turned out to be a three-hour affair in which, as the banking commissioner's office reported, "everybody had a chance to speak his piece." Some strongly contradictory testimony was presented to the board, which is composed of Banking Commissioner J. W. Faulkner, Attorney General Will Wilson and State Treasurer Jesse James. The "ins" want to be left alone, the "outs" see an opportunity to share in the fantastic profits, which the banking business has enjoyed for many years.

Old Timers Fooled. Get to talking to most old timers and they'll tell you it was due to be a wet fall, and an early one. The "weather" gave all the signs, they say. When it then turned out to be a damp one, they expected drizzle and rain to take up most of October and November. October is gone and a big slice of November. Lots of damp weather but no real, general rain.

Also, only one freezing morning so far this year, unless it is still to hit this week before press day and spoil our guess. Incidentally, our forecaster anticipated heavy fall rain for his November 1 freeze prediction. Back in August he dampened his finger with his tongue, "felt" of the atmosphere with his upraised digit and knew for certain the first freeze was due November 1. Know how many accolades he got? Nary a one. Nobody brags on a perfectionist. It is the fellow who tries and tries again who gets bragged on when he nearly gets the answer.

EDITORIAL CAMPUSES—BULWARK OF FREE SPIRIT

(By Marisue Burleson)

(Note: This week, Nov. 9-14, is American Education Week. Its purposes, in part are:

1. To help citizens know the purposes, achievements, and needs of their schools.
2. To encourage every parent to visit his child's school during the week.
3. To secure the participation of the people in improving the schools.
4. To interpret to parents and citizens the contributions of the school to the individual and the common welfare in helping democracy live and work in our world.

A subtle creeping paralysis of freedom in thought and speech is attacking our campuses in many parts of the country, limiting both students and faculty in the area traditionally reserved for the free exploration of knowledge and truth. Are they paralyzed with fear of exercising their constitutional rights and following old traditions of the fearless, free expression which supposedly is a part of the glory of America?

The effect of these limitations on free inquiry, while taking a variety of forms, is a widening tendency toward passive acceptance of the status quo, conformity, and a narrowing of the area of tolerance in which students, faculty, and administrators feel free to speak, act, and think independently.

The NEW YORK TIMES recently made a study of 72 major colleges in the United States. This study showed that many members of the college community were wary and felt varying degrees of inhibition about speaking out on controversial issues, discussing unpopular concepts, and participation in student political activity. In effect, such caution has made many campuses barren of the free give-and-take ideas; it has brought to many of the same campuses an apathy about current problems that borders almost on their deliberate exclusion.

We can see, despite all hope, the sky growing darker, the night of thought conformity closing in. We see students growing more and more docile, more and more accepting the status quo, paralyzed by the fear of their future.

Often, too often, there is an atmosphere on our high school and college campuses which trend to equate criticism with disloyalty and liberalism with communism.

Our educators are fighting a never-ending battle against hysteria thought control, and conformity. The world is full of dangerous ideas, and we are both naive and stupid if we believe that the way to prepare intelligent young men to face the world is to try to protect them from such ideas while they are in college. Four years in an insulated nursery will produce glibly innocents, not tough-minded realists who know what they believe because they have faced the enemies of their beliefs.

One would suppose to listen to some people, that the American Way of Life consists in unassuming tribal self-adoration. Down with criticism; down with protests; down with independent thought. "Yet the history and tradition of our country make it perfectly plain that the essence of the American Way of Life is its hospitality to criticism, protests, unpopular opinions, and independent thought."

Americans, in their zeal to defend themselves against foreign agents, espionage and sabotage, have gone far toward reviving the hated inquisitions of the Middle Ages. We have passed from guarding against overt acts to punishing people for beliefs, both real and imaginary, in our zeal to stamp out the heresy of communism, we have let loose forces that are threatening the very freedoms we seek to save.

Our campuses are a reflection of our nation. Our Americans cannot hope to be able to make unregrettable decisions unless we are lead by a surplus of knowledge and information. If our students do not surrender their American ideals, perhaps our campuses will eventually regain their position as a bulwark of the free spirit of and in our civilization.

Patterson Hurt In Last Minute Of The Spur Game

(By Addie Adkins)

The gridiron turned into a place of tears and fears last Friday instead of the usual cheers as far as the FHS sports fans were concerned. FHS's idolized Whirlwind, Bill Patterson, was injured. On the next-to-the-last play, Bill was brought down by a Spur Bulldog. He was in the process of catching a pass thrown by Don Vickers. An ambulance was called to the scene and took Bill to the Spur Memorial Hospital.

Later Saturday he was transferred to the Lockney General Hospital, believed to be suffering from a slight brain concussion. The final diagnosis was a blood clot. Bill was released from the hospital sometime Sunday afternoon.

He is expected back in the halls of FHS today, and no one could be any more welcomed. He's a Real Whirlwind!!!

Dinner For New Honor Society Members Given

(By Judy Jackson)

The induction ceremony, following a delicious dinner, was held Sunday, November 2, at the Commercial Hotel for the new members of the Baker National Honor Society of FHS.

Two seniors and nine juniors were received as the new members. Lectures were given on the subjects of scholarship, leadership, service, and character, which are the four requirements it takes for one to become a member of the Society.

A meeting was held Wednesday the third period so that the constitution could be read to the new members.

The members are Karen Goen, Linda Welborn, Bobby Seago, Jo Ellen Reue, Gaynelle Boothe, Mary Cogdell, George Farris, Leo Smith, Sue Ring, Sharon Edmiston, Marisue Burleson, Danny Shipley, Sue Williams, Bob Ed Dempsey, Judy Wilson, Judy Jackson, and Genetta Price.

Patterson Gets 'Best Citizen'

Bill Patterson was named October Citizen of the Month in Floydada High School at the student council meeting Monday, November 10. He is a senior and will be unable to play in the Taboka game tomorrow night. He was the first FHS State Champion in High Jumps last spring and made All-District in District 2-AAA football.

Other nominees nominated were Jan Dempsey, Hal Hines, Jerry Solomon, Shirley Gregory, Helen Foster, Bill Gilliland, Clarence Richardson, Janice Noland, and Ray Walker.

Traits to get the best citizen are participation in school activities, school pride, school spirit, attitude in classes, respect of teachers and students, cooperation, and good sportsmanship.

LaJuana Womack was September Citizen of the Month.

CHAT with PAT

"My How The Time Flies!!" Only one more football game, that is with Taboka tomorrow night. We are surely proud of our boys!!

This will be the last game for the following Senior boys: Bill Patterson, Leon Williams, Johnny Fred Brown, Arlis Powell, Edward Hartman, Jerry Crawford, and Dale Brown. Wear the Green and White proudly and win the game.

The following people's initials spell words: LAG (Lois Ann Glover) SAG (Shirley Ann Gregory); JAN (Janice Ann Noland); GAP (Grace Ann Potts); BED (Bob Ed Dempsey); RAG (Richard Allen Graves); JAD (Julia Ann Daniels); JAW (Judy Anne Williams); MEW (Matie Estelle Wyatt).

Have You Noticed All Handsome Ray Walker wants for Christmas is a new front tooth (Got it knocked out playing football against Abernathy). Only a week and half until we get out for the holidays: Mary's necklace that Edward gave her for her birthday; Jerry Bullock's new 1959 white Impala; pretty Smack, smack; Johnny and Mae Bell out in front of the Palace; Sarah Carey has been riding home from school, not on the bus, but with Rex Lackey; Reue's car always runs out of gas; Oh Sob - Wayland went to Kansas, poor ole Kay sure is lonesome;

Addie's boy hair cut; Grace Ann couldn't find Evelyn on the football field Friday night, that is understandable, because they all had on green and white suits; Vanda is getting married in December; Ronnie Downing and his steady gal were at the game Friday night; Kenneth O'Neal is going with an eighth grader - Janet Moore;

Tomorrow night is the last night for the seniors to participate in the football activities - watch all of the Senior girls cry; Mary Roddam is getting married - What about this John W? Carolyn Martin was Maid of Honor at Jean's wedding; Ronnie Martin new freshman from Colorado; Intramurals started Monday; were organized; Rilla Sue Duncan has a sign in her locker which says - "Think before you steam"; Boys try to be mean sometimes (or men) Some try to defy authority or the rules sometimes;

But whatever the reason, some boys got caught smoking on the student body bus going to Spur. And you can bet one of the guilty was seen smoking in the stands at the game. Maybe they just want attention or want to be cute; Adalade Jo Adkins had to read a note (embarrassing one) in front of the class in Mr. McKenley's room. That will teach you Adalade!

Marisue Burleson wore britches and loafers Monday. She forgot she was to have to model for the style show which brought about much confusion trying to locate can-cans and flats.

Spur gets to keep the victory bell permanently. It is a gift of the Santa Fe Railroad Company.

Library News

(By Edwina Ovestreet)

The library has received a new set of Encyclopedia Britannica. We are keeping the old set so that the public may use them over night, and the new ones will be used in the library only.

The new encyclopedia is the 1958 edition and has many colored pages where the old is only black and white. It has up-to-date information about science and government, which the old one does not have.

The TALA Club of 1958 and 1959, of which Linda Welborn is the president, has donated Volume 1 of this encyclopedia.

The senior class is sponsoring a turkey supper Nov. 18 in High School Cafeteria from 6 to 8 p. m. \$1.00 per person. 50c for pre-school children.

Student Thought Sought on Code Of Ethics In FHS

(By Sue Williams)

The Student Council is planning to set up a Code of Ethics for the purpose of instilling self discipline in the students. It will not be a set of enforced laws, but merely a guiding post to those who want it. However, before doing this, they want to know the student body's opinion about the Code of Ethics.

The questions were as follows: What do you think are some of the good qualities that FHS students have?

What are some bad qualities? Is there anything lacking in our school spirit? If so, what? Do you think a Code of Ethics could remedy any of these faults (give reasons)?

What do you think should be included in a Code of Ethics? Code is Discussed

The Code of Ethics committee met Tuesday to read the comments on the questionnaire distributed on Monday. The students discussed pros and cons of having a code for FHS.

Twenty Busy Book Keepers In FHS

(By Freida Smith)

According to Mr. Colley in humor, bookkeeping class is a Matrimonial Bureau. The reason he says this is because every year from twenty to thirty start out taking it and by the end of the semester there are only ten or eleven in class. Several usually drop it, but they usually drop it to get married.

This year, there are twenty in bookkeeping class so far, and one has dropped to get married. At the present, the class is studying the five journals, which include: General Journal, Purchase Journal, Sales Journal, Cash Receipts Journal, and the Cash Payments Journal. They are also studying closing entries, work sheets, and post-closing trial balance.

This is a busy class. If you hear something fifth period that sounds like a lot of groaning, it is some of the students in bookkeeping class whose books did not balance.

Home Ec Girls Win Poster Contest

(Addie Adkins)

Ya-hoo! We won! Yes, the Home Ec II class was really shouting the good news when the results of the poster contest was announced Thursday.

Each third period class displayed a fine poster. Mrs. Huntington's third period home ec class took first place. Close behind was Coach Tyler's World History class.

The winning poster was a white Whirlwind made of angel hair. The Wind was placed on shiny green paper. Several parts of the "Bulldogs" were scattered and to carry out the theme - big letters spelled out "Mighty Whirlwinds, scatter the Bulldogs."

Second place was awarded the poster done by third period World History.

This was one of a large sleigh pulled by a Spur Bulldog with the words "Sleigh the Bulldogs."

'Winds Perfect Record Broken

Spur knocked Floydada from the undefeated ranks last Friday night, 8-0, to win the District 3-AA crown.

The Bulldogs scored in the first of the second quarter on a pass from Kenneth Suits to Joe Copeland. Suits went over right tackle for the extra points.

On the final play of the game Don Vickers ran 40 yards and appeared to be loose until brought down by the last Bulldog defender.

Danny Shipley and Bill Gilliland shone defensively for Floydada.

The Bulldogs had 254 yards on the ground to the Winds 120. The Winds got 82 airyards with four completions of 11 tries. Spur got 37 yards in the air with four completions in 12 shots.

The Whirlwinds play their last game of the season against Taboka tomorrow night. A loss will give us second place tie with Slaton, and a victory will mean second place.

Bonfire and Rally Lure To Victory

(By Judy Jackson)

A huge bonfire lighted the block across the street from the high school last Thursday night. This big pep rally was held so that it might boost the mighty Whirlwinds to bring a victory over the Spur Bulldogs.

Everyone had lots of football spirit, which always goes with pep rallies like this one. Along with the yell led by the cheerleaders, the band played several selections. The pep rally was concluded with the FHS school song.

H Ec Girls Model

(By Joy Sparks)

Forty-eight Home Ec girls modeled the dresses they made in classes this first semester on Monday, November 9.

They modeled before their mothers FHA girls and ladies from various clubs of Floydada.

Among them were party dresses, spectator sports, suits, and skirts and sweaters.

World War III

On a cold, gray morn, one man alone Crept from his cave on a lofty hill. He gazed down at piles of shattered stone.

Stared at a scene that was dead and still. Bodies were piled heap on heap. Where cities stood short days ago; The whole world lay as if in sleep. The sleep that only corpses know. No life, no sound, no movement there; The refugee gazed sad and long. No fish in seas, no birds in air. No word, no breath, no song. He turned his head away and sighed one - "Since everybody else has died, I must be on the side that won."

SOUR NOTE

The convicts have a band. It's as bad as it can be; They're familiar with the bars, But cannot get the key.

Two FHS Students sat in the local malt shop discussing the amazing fact that the human body is 92 per cent water. Just then a shapely coed undulated into the store.

"Boy!" exclaimed Danny Shipley. "She sure does a lot with her per cent!"

"Are they very strict in your department?" one FHS student asked another.

"Strict," echoed the other. "Do you remember Larry Coltharp? Well, he died in class and they propped him up until the lecture ended."

New Scrapbook Is Planned for FHS

(By Mary Cogdell)

Most of you have seen the present scrapbook in the library but soon FHS is to have a brand new one. Nita Cage is in general charge of the scrapbook which is being sponsored by the Student Council. A beautiful leather backing has been decided upon as the cover.

The old scrapbook will still be kept in the library and will be from 1959 on. After the completion of this project, FHS will have two scrapbooks, one that records its early days and one that will record FHS history a long time into the future.

JOKES

Everytime a little boy went to a playmate's house, he found the friend's grandmother deeply engrossed in her Bible. Finally his curiosity got the better of him. "Why do you suppose your grandmother reads the Bible so much?" He asked.

"I'm not sure," said his friend, "but I think it's because she's cramming for her finals."

Cline & Rainer Will Show New Mercury Friday

Cline and Rainer will show the new 1959 Mercury models tomorrow, November 14.

A brilliant combination of interior spaciousness for passenger comfort, mechanical excellence, advanced design and superior performance and economy is presented by Mercury in its totally new cars for 1959. Mercury's 20th anniversary models.

"This new Mercury is the only medium-priced car designed specifically and exclusively for the medium-priced field—every other medium priced car for 1959 shares its body shell with a low-priced car make," said Ben D. Mills, general manager of the M-E-L Division and a vice president of Ford Motor Company.

"The Mercury for 1959 is a big

car—it has size for a purpose—its spaced-planned bodies provide a totally new experience in passenger comfort in both front and back seats," Mr. Mills declared. "And that's for three people in both seats," he emphasized.

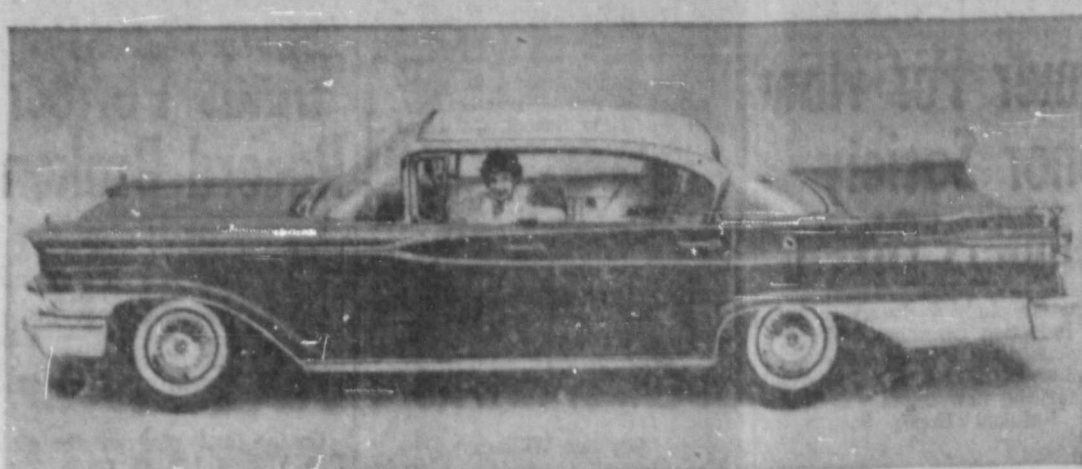

The entire front seat and instrument panel area are re-designed to make it spacious. Major engineering developments result in cutting almost in half the volume of space taken up by the transmission tunnel hump down the center of the car.

Mercury is introducing windshield wipers which operate in tandem, both blades going in the same directional sweep at the same time, thus giving full-width cleaning with no center blind spot.

Sedan models have a distinctive, flat, crisp roof with overhang above a full wrap-around rear window.

Mercury's high compression, overhead valve V-8 engines are mated in power teams to give lively response and smooth, economical performance throughout the entire driving range.

Refinements to the whole series of 383 cubic inch and 430 cubic inch displacement Marauder engines are designed to continue to give the sup-

NEW FLU VACCINE

If and when a new vaccine against the common cold has been thoroughly tested and proven, the telephone company may have played an important part in the experiment. Employees at the St. Louis headquarters were offered the anti-cold shots, which while still experimental have proven safe, on a voluntary basis. The location was selected for the test because it offered a conveniently located cross-section of people on whom health records are available. The Southwestern Bell Telephone Company is cooperating at the request of the Common Cold Foundation and the US Public Health Service in this experiment.

Wouldn't it be wonderful to just be able to get a shot and not have to worry with the sniffles?

HOLIDAY GET-TOGETHER BY PHONE

With Thanksgiving at hand, many people I know are planning a long distance call to family members living out of town.

If all the people in your family won't be with you in person for turkey and all the trimmings, let a telephone call wipe away the miles and still make it a "family day."

After all, a long distance "voice visit" is the next best thing to being together. Why not plan now to make your call Thanksgiving Day?

"STRANGE CASE OF THE COSMIC RAYS"

The fascinating story of how scientists tracked down the mysterious cosmic rays will be told in a Bell System science show coming your way on TV Sunday, November 23.

"The Strange Case of the Cosmic Rays" was first telecast last year. Today, this program should be even more timely with television viewers, since one of America's satellites spinning around the earth carries special sensitive devices to record these cosmic rays.

Starring Dr. Frank Baxter in the role of the "Scientist" and Richard Carlson as the "Writer", this Bell System science program is another in the series designed for family entertainment.

"The Strange Case of the Cosmic Ray's will be telecast over Channel KCBT - 11 at 5:00 P.M., November 23rd, Sunday.

Center News

(By Mrs. J. E. Green)

CENTER, Nov. 10—More beautiful harvest weather. My, what a host of farm workers were in town Saturday! Won't it be dull when the cotton is all out? Except for those who owned the cotton.

We had a small but appreciative crowd at church Sunday. The preacher was Brother Bob White, a student at Wayland from Grand Prairie. He or some other preacher is to be with us next Sunday. Let us all be present and bring someone with us and come to Sunday School.

Melvin Ross of near Perryton spent the week-end with his parents, Mr. and Mrs. R. C. Ross. He also made a business trip to Lubbock. His family did not accompany him this trip.

The small daughter of Mr. and Mrs. Perry Smith was able to be at church Sunday with her mother after a bout with pneumonia.

Mrs. W. M. Jackson had as guests over the week-end her daughter and family, Mr. and Mrs. Neil Wright and Kevin of Rotan.

Mrs. Leo Frizzell visited Monday with her daughter and family, the Garvin Beedys of South Plains.

Mr. and Mrs. Victor Green and sons, Jimmy and Steve, of Plainview, dined Sunday with his parents, the J. E. Greens.

Mrs. Kate Crabtree and Mrs. Tom Jernigan visited the Greens Sunday afternoon.

Mrs. Glen Denison of Red River County visited the C. W. Denisons Thursday and Friday. She and Mrs. C. W. Denison spent Friday night and Saturday in Lubbock visiting relatives.

Another of our former Center girls who has been attending Wayland or being an office girl in Plainview for the last two or three years has embarked on the sea of matrimony. June Hartline and Bob Landry of Plainview were married Sunday, Nov. 2. We wish for them many happy years together. They are at home in West Plainview.

Mr. and Mrs. W. C. Plumlee have two new grandchildren born the last of October. These are a boy, son of Mr. and Mrs. Johnny Hinds of Plainview; and a girl whose parents are Mr. and Mrs. Bobby Plumlee of Ft. Worth. Congratulations to all concerned.

Mrs. Nolan Arney is home again after several days in the hospital with a virus infection. She is able to be up some.

Mr. and Mrs. J. D. Welborn and girls Donna and Jo Anna visited over in Oklahoma Sunday with Mr. Welborn's brother, Howard Welborn and family. Monday Jo Anna was out of school with something like flu.

We sympathize with Mr. and Mrs. Lee Burgett over east of Center, in the loss of a son, Carl, who with his family, has lived several years in Arizona. Carl died Sunday after an illness of several months. (Particulars are not learned).

The Sunnyside Home Demonstration Club met at Mrs. Lovell's Friday. They planned a Christmas party to be with Mrs. Burke sometime in the middle of December.

He was the son of Mr. and Mrs. Lee Burgett of Floydada and a brother of Mrs. Carl Nelson, also of Floydada.

The family here was notified of Burgett's death shortly after 11 p. m. Sunday. They were told he was out watering the lawn at his home, slipped over after fainting and died immediately from a hemorrhage.

Burgett had been under the care of a doctor since June and had lived a short time in Shallowater with his brother, Bill and family, to receive medical care. He had been back home only a short time.

Load Of Cotton Destroyed by Fire

Floydada fireman made another emergency run Monday afternoon about 3:35 at the Thomas L. Fawver farm, two miles northeast of the city. Fawver lost a two bale load of cotton, and his trailer in the blaze.

Bill Baker of the fire department said Fawver told him the fire must have started from the cotton stripper as the tractor driver and the laborer on the trailer did not smoke. The chasis was the only thing saved in the blaze. Fawver and his crew attempted to put out the fire themselves and seeing it was of no avail called the fire department.

Mrs. C. A. Wilson of McKinney spent most of last week in Floydada visiting her sister, Mrs. A. L. Noble and family.

Homer Altman and Mrs. L. L. Cross of Lubbock visited here Sunday with the John and George L. Fawver families and other relatives. Homer is a nephew and Mrs. Cross a niece of the George L. Fawvers.
