### Strange Intruder in the Roger Poage home on West Houston Street early Tuesday morning was this delivery truck. The Poage's young daughter, Julie Dawn, age eleven months, sleeping near the wall where the truck slammed into the house, was thrown from her bed as it was torn to bits. The little miss escaped serious injury and apparently was only scratched in the accident. The truck parked at the curb next door, was hit by a passing truck and rammed into the dwelling. The tire lying at the steps was off the semi-trailer, which had been pulled away before this shot was made in the pre-dawn hours.

## Truck Crashes Home Family Escapes Injury

Julie Dawn, eleven month old daughter of Mr. and Mrs. Roger Poage, miraculously escaped death about 2:00 a. m. Tuesday when a truck was knocked into the bedroom where she was sleeping. The baby came out with a small scratch on her forehead, but the room where she slept was completely demolished.

Sheriff Walter Hollums, who was called to the scene, said a semi-truck was traveling east on the highway. Jerry Mitchell of Lubbock was driver of the vehicle which struck a parked Holsum bread truck knocking the bread truck into the bed room of the Poage home at 301 West Houston.

Hollums said that Mitchell was following his brother Bill Mitchell and broke through the door and through a sheet rock wall between the living room and bedroom to reach the scene. He found the baby near the front of the truck crying but only scratched. The room was in splinters and the baby bed broken in pieces. The mattress apparently having protected the child from the impact.

Mr. and Mrs. Poage woke with the jar and noise of the crash and found the door between their bedroom and that of their child's room blocked by wreckage. He went around and entered through the hole in the wall to join Mitchell.

Little Julie Dawn was the first one to dismiss the whole thing and go back to sleep. The whole neighborhood roused by the crash, came to investigate and offer aid.

Hollums said the report came in near 2:00 a. m. and he raised Perry Smith, city policeman on duty at the time. Smith was first to reach the scene and Hollums and Chief of Police Horace Cage joined him soon after.

The bread truck was parked in front of the G. W. Switzer home parallel to the curb and facing east. Switzer is distributor for Holsum Bakery in the Floydada area. The truck was demolished and when pulled from the house began to break up.

Leroy Burns was summoned with his Bishop Motor wrecker to remove the wrecked truck from the house. Bill Mitchell in the lead truck, realized something had happened, and turned back in his truck to assist with pulling his brothers vehicle up a side street away from the house.

The drivers were still on hand after 5 a. m. helping police and the Poage family to try and restore things to near normal.

Late Tuesday little Julie Dawn was reported as still feeling fine.

T. L. Holland, owner of the house where the Poage family reside was gazing early Tuesday boarding up the gaping hole to protect the occupants from the weather.

The Wales trucks were enroute from Lubbock to Shamrock with help loads when the accident occurred. Nothing had been learned of the car mentioned by the truck drivers or of its occupants as it apparently continued on its west ward journey.

## Twenty Right-of-Way Appraisals Approved

### ANN WORD IS ON ALL-STATE BAND

Miss Ann Word, a senior in Floydada High School, has been named to the all-state band. Miss Word is the 18-year-old daughter of Mr. and Mrs. Jim Word of Floydada.

Ann was named a winner at the regional try outs in Lubbock in December and was winner at the area tryouts in the hub city again Saturday. She plays the contra-bass clarinet.

Ann is in her fifth year with the Whirlwind band having been moved up to join the high school group when she was in the eighth grade. She has been taking band since she was in the sixth school year.

Band Director and Mrs. Maurice Jones are very proud of their student receiving such an honor. Jones said of the more than 30,000 band students of the state only 200 were named to the all-state band.

Ann will go to Galveston February 19 through 21 to play with this select group. She will receive a certificate and award for being named a member of the all-state band.

### Highway Dept. Also Readies Tracts on 70

First batch of 20 tract appraisals on Highway 62 south from Floydada toward the Crosby County line have come through the bottleneck in the Highway Department and are in the hands of the Commissioners Court this week.

These tracts will be needed in the road-widening and improvement program for which the county taxpayers voted bonds early in 1958. The court will be ready to begin negotiations with the land owners. Appraised values made by J. Sam Hale for the county were approved by the department.

Hale said this week he had completed appraisal on all tracts handed him by the Commissioners Court, numbering approximately 40.

Judge McBrien said the court is not likely to proceed until after they have conferred more fully with the district office of the highway department. A conference will be sought at an early date.

Meanwhile field notes have been completed by the department on 17 tracts needed for the highway leading to the Hale County line and have been turned over to the Commissioners Court for their appraisal. Early this week the court had not named an appraiser for these tracts.

Resident Engineer Sam A. Fowler said Monday he felt sure the highway department is going to be in the lead from this point on in completing field notes for the road improvement leading west from Floydada.

Here are some of the important practices that can be followed in this county in which USDA will share costs:

- Establishment of additional a vegetative cover in crop rotation;
- Improvement of vegetative cover in rangeland by deferred grazing;

## Annual Report Is Good News

Floyd County begins the calendar year of 1959 with a working balance in its funds that more than doubles the figures for the beginning of the year 1958, it was revealed this week, when County Auditor Fred Conner filed his annual report with the Commissioners Court and the District Judge.

A copy of Conner's report also will be available to an independent auditor, employed by the county, who is due to make a summary audit this spring of county finances. The independent audit is usually made after the end of the taxpaying year, which comes on January 31.

There are 17 "working funds" in the county's fiscal set-up. The gross amount in these funds on December 31, according to the auditor's figures stood at \$264,071.40, with approximately 80 per cent of all taxes collected. This compares with \$113,514.90 on January 1 of 1958. The difference between the two balances is \$150,556.60.

It is notable, in connection with the detailed report, that the general fund was squeaked through last summer and fall without having to borrow money to finance operations, before taxes began to come in in October. The general fund, which paid out general expenses under 29 different heads, had a year-ending balance of \$26,785.65, against a balance at the beginning of the year, \$8,491.92.

The road and bridge fund had an ending balance of \$11,638.25 against \$6,125.39 at the beginning of the year.

Other working balances at the end of the year showed:

Jury Fund	\$5,770.88
Officers salary fund	\$15,963.61
Permanent improvement fund	\$12,047.99
Special road tax fund	\$22,789.27
Road and Bridge Fund, Precinct No. 1	\$16,986.66
Road and Bridge Fund, Precinct No. 4	\$6,821.26
Road and Bridge Fund, Precinct No. 2	\$4,547.04
Road and Bridge Fund, Precinct No. 3	\$5,182.69
Road and Bridge Sinking Fund	\$1,814.24
Road Bond Series 1948	\$68,455.24
Courthouse sinking fund	\$7,910.23
1958 Road Bond Construction fund	\$7,910.23
Road Bond Series 1958 sinking fund	\$15,473.06

In addition to above-named funds the county library fund was indicated as having a balance of \$3,983.51, and the Social Security fund \$1,562.35.

In the figures given the road bond and sinking funds vary largely from quarter to quarter, the report shows, as the county's balances in these funds were invested in 90-day Treasury Bonds to make use of idle money.

The County's bonded debt is recorded in the report at \$938,000. In addition there are outstanding warrants as follows:

Precinct No. 1, First National Bank, Lockney, lease	\$1,000.00
Precinct No. 3, Torn Carpenter Equipment Co., warrants	\$6,000.00
Precinct No. 4, First National Bank, Floydada, lease	\$15,000.00

The total of these outstanding warrants is \$24,000.00.

## Whirlwinds Get Week-End Rest In Round Robin

The Floydada Whirlwinds enjoy an open date tomorrow night (Friday) and then resume their district schedule on Tuesday, Jan. 27, when the rugged Post Antelope teams come here for a pair of games. Next Friday, Jan. 30, the 'Winds go to Slaton to take on the Tigers and finish up the first round of their 3AA schedule.

Last week the 'Winds blew the lid off the 1959 district race as they split games with Tahoka. The girls losing their opener 32-43 and the boys winning 63-53.

In the girls game the locals got off to a good lead which they held through the first two periods. Tahoka came back in the second half strong to take a 20-26 three-quarter lead and then won 43-32 going away. LaJenna Womack was high for Floydada with 16 points and May-selle Johnson canned 12, while Thomas got 18 and Adams hit 16 for the visitors.

In the boys game Floydada led until the visitors took a one point advantage just at the half time, 34-33. The Bulldogs stretched that lead to 40-42 at the three-quarter mark and then fell before a fourth quarter rally to lose 53-63. The 'Winds hit 21 points in the final frame while holding the visitors to 5 points.

Bill Patterson led Floydada with 25 points, Don Vickers added 14 and Bill Gilliland 12 for the 'Winds. Greenhouse was high for Tahoka with 18 points.

Tuesday night the boys district race was thrown wide open again as Tahoka boys downed favored Post and Spur downed Floydada. This left Floydada, Post, Tahoka and Slaton each with one loss and Spur as the only undefeated team. Spur has played only one game, however, and that on their small home court.

The girls game of Spur was cancelled because of bad weather.

## Judge Delivers Surprise Package To Two Burglars

Judge L. D. Ratliff of Spur, was presiding judge in 110th district court last Thursday for the burglary trial of M. L. Rummage, 30 of Plainview, and James W. Milligan, 31 of Lubbock. Both were sentenced to a 10 year prison term.

Rummage gained noted attention in November when he made good a jail escape at Lubbock. Both he and Milligan entered pleas of guilty of burglarizing Wilson and Son Lumber at Silverton, a hardware and furniture store at Quitaque and Clark's Cleaners in Floydada.

The sentences are to run concurrent with a 12-year sentence previously assessed on the two men in Carson County. However Judge Ratliff ordered the 10-year terms levied in Briscoe county to run consecutively with prior sentences.

When the "consecutive" order was read both attempted to withdraw their guilty pleas. The request was denied. Sentencing in Silverton was delayed for an appeal to be filed.

District attorney John B. Stapleton was prosecuting attorney.

## MATTER OF GEOGRAPHY

There are two things you could be doing right now instead of working, if you took a winter vacation. One, demonstrated by model Ruth Allen, above, in the sunny South, the other, below, by an average skier in the north country. The difference is all a matter of geography—plus, of course, that little matter of not having to work.

## MEAT COOKIES SERVED

Meat croquettes served with a rich cream sauce and tender peas always receive top billing. But for brown gravy, tomato sauce and variety, why not vary the sauce—brown gravy, tomato sauce and mushroom sauce are equally as good.

Caviar is prepared from the eggs of a fish called sturgeon.

A news item the other day announced that the U. S. Government is about to undertake a two-million-dollar survey of how Americans spend their money. Seems this is pretty important, both for keeping cost-of-living records accurate, and to protect pensioners against sub-normal living standards.

No doubt this will be two million dollars well spent. We always like to see scientific proof of what we already know. But while waiting for the figures we wouldn't find the answers too hard to guess.

From the standpoint of an average American with one foot in the sub-standard ditch and no pension, we'd say most Americans spend their money on what breaks first.

This is likely to be the result no matter how careful the budgeting. Take almost any household as a case study, change the items to fit, and you've got the all-American pattern for spending.

Start saving for a new kitchen stove and the water heater goes out. Plan for new carpets and the old car begins to sputter and stall.

Put aside one hundred dollars for a new suit and you get a chance to buy an air-conditioner half-price, a bargain you can't afford to pass up!

Start saving right after the Christmas bills are paid for Junior's college education that begins next fall, and Cissy falls madly in love. June wedding edges out fall registration.

We won't say you can't win, because we are by nature optimistic. We'd say, rather, that Americans have so many fine opportunities to spend their money that the choices aren't always on the record. The flight it finally makes depends on salismanship, necessity, and the unpredictable tomorrow.

## SPEAKER THEFTS BRING FOUR BOYS PROBATION SENTENCES

Four boys, 13 and 14 years of age, were apprehended Saturday night charged with removing two theatre car-speakers at Capada drive-in. The quartet were brought before County Judge J. D. McBrien and put on six months probation and placed in custody of their parents. The youths were also required to pay damages for their acts.

Losses of speakers at Capada have occurred several times in the past and have been costly to the theatre operators. The Saturday night prank was stifled quickly by cooperation of the management and the sheriff's department.

## LEFTOVER QUESTIONS

Do not let leftovers puzzle you. For leftover ham, simply dice it and combine the meat with diced green pepper and pimiento. Combine these ingredients with a cheese sauce and serve in a noodle or rice ring.

Principal celery-growing states are Michigan, California, Florida and New York.

**COURTESY PAYS**

An eminent specialist who devoted much of his time to charity work in clinics was surprised to have a be-whiskered old gentleman ushered into his Park Avenue consultation room one day.

"Remember me, Doctor?" asked the man. "You treated me over at the clinic. Well, I've been left a little money and I guess I can afford my own doctor now."

"But what made you come to me?" the physician wanted to know. "I wasn't the only doctor who treated you at the clinic."

"I know," the old man said quietly, "but you were the only one who helped me with my coat."

### First Lady of Broadway

Musical Comedy star Mary Martin will bring her "Music With Mary Martin" show to Lubbock on February 2. She will feature songs that she has sung into theatrical history.

The Frenchman was disgusted with the English language. "For example," he remarked, "take the word 'crowd'. This means a lot of people. That is easily learned. But a crowd of ships is termed a fleet, while a fleet of sheep is called a flock; on the other hand, a flock of girls is called a bevy, and a bevy of wolves called a pack, while a pack of fish is called a shoal. A shoal of bullocks or buffaloes is called a herd; a herd of soldiers is called a troop; a troop of partridges is called a covey; a covey of beauties is called a galaxy, and a galaxy of ruffians is called a horde. A horde of logs is called a heap; a heap of oxen is called a drove; a drove of blackguards is called a mob; a mob of robbers is called a band, and band of bees is called a swarm!"

A swarm of words must be an essay.

Noah was taking a last turn around the ark after the animals and left. Down in the hold he heard crying and went to investigate. He found two little snakes weeping and wailing away.

"Come now," said Noah, "Didn't you hear me tell all of the animals to go forth and multiply?"

"That's just it," sobbed the snakes "we're adders."

### Garrett Attends Merchandise Show

W. E. Garrett, owner and operator of the White Authorized Dealer Store, located at 117 W. Calif. St., here in Floydada, has just returned from the annual Spring Merchandise Show and dealer meeting in Wichita Falls.

Garrett was one of the 193 White Authorized Dealers present at the show. These dealers traveled from towns located in Texas, Oklahoma, New Mexico, Colorado, Louisiana, and Mississippi to attend the event and see on display the 1959 lines of merchandise available to them.

This annual show, which directly follows the national markets held in New York and Chicago, is patterned after these market shows and each item or line of merchandise is displayed separately with a factory representative on hand to explain new models and features. This provides the dealer with a complete knowledge of the various lines and simplifies the selection and buying of merchandise.

**COURTESY PAYS**

An eminent specialist who devoted much of his time to charity work in clinics was surprised to have a be-whiskered old gentleman ushered into his Park Avenue consultation room one day.

"Remember me, Doctor?" asked the man. "You treated me over at the clinic. Well, I've been left a little money and I guess I can afford my own doctor now."

"But what made you come to me?" the physician wanted to know. "I wasn't the only doctor who treated you at the clinic."

"I know," the old man said quietly, "but you were the only one who helped me with my coat."

### First Lady of Broadway

Musical Comedy star Mary Martin will bring her "Music With Mary Martin" show to Lubbock on February 2. She will feature songs that she has sung into theatrical history.

The Frenchman was disgusted with the English language. "For example," he remarked, "take the word 'crowd'. This means a lot of people. That is easily learned. But a crowd of ships is termed a fleet, while a fleet of sheep is called a flock; on the other hand, a flock of girls is called a bevy, and a bevy of wolves called a pack, while a pack of fish is called a shoal. A shoal of bullocks or buffaloes is called a herd; a herd of soldiers is called a troop; a troop of partridges is called a covey; a covey of beauties is called a galaxy, and a galaxy of ruffians is called a horde. A horde of logs is called a heap; a heap of oxen is called a drove; a drove of blackguards is called a mob; a mob of robbers is called a band, and band of bees is called a swarm!"

A swarm of words must be an essay.

Noah was taking a last turn around the ark after the animals and left. Down in the hold he heard crying and went to investigate. He found two little snakes weeping and wailing away.

"Come now," said Noah, "Didn't you hear me tell all of the animals to go forth and multiply?"

Members of the Floydada Volunteer Fire Department collected \$169 for the drive in their Saturday afternoon campaign at the intersection of Main and California.

Approximately \$20 of that amount was collected Saturday night when the department "pulled off a false alarm". Members built a bonfire near the Santa Fe depot, called in the alarm and with all members on duty the department sped to the scene, going through the main part of town to attract attention.

Sightseers followed the trucks, pulled into the dead end street and with the help of the police department, headed by Horace Cagle, were blocked where each car occupant was given a chance to donate.

During the day Saturday two Floydada polo victims, Charlie Ferguson, son of Mr. and Mrs. L. C. Ferguson, and Linda Gibson, daughter of Mr. and Mrs. Doyle Gibson, were on hand at the collection center to remind the people of the after effects of polo.

Firemen participating in the drive Saturday were B. J. Baker, fire marshal, Connie Dever, assistant fire chief, and three firemen, Ralph Gibson, Red Gregory and Doyle Gibson.

The amount collected has been turned over to the chairman of the drive, Glen Anburn, to go into the Floyd County fund.

EDITORIAL VIEWS AND COMMENT

**This Is Number One**, of a new Volume—No. 65—for The Hesperian. That's what the number below the flag says. Sometime in the past somebody in the office miscalculated, — or something. Anyway, the anniversary of No. 1, Vol. 1, should not come until the last week in March. That is the issue in which the founder of the newspaper, Claude V. Hall, wrote his salutatory: "I shall do my utmost to merit success and approbation, feeling confident that I shall overcome all obstacles in my way and that my efforts will not prove fruitless, and that 'I will yet win the day, God be willing.'" Which we consider a good state of mind in which to begin No. LXV.

**No Doze Tablets.** One of the local advertisers, Farmers Acid Delinting Co., had about as much fun out of an advertisement the writer prepared for them last week, as if it had been done right. Since their customers read and laughed about the same error, it may have been a more effective bit of publicity because of the error. Writing about angular leaf spot the writer had the types say "angular leaf worm." Anybody ought to know better, but you never know when your mind is or is not alert. Perhaps a box of no doze powders would be a good thing for a writer to have at hand, much like the truck driver. Your mind must not wander, but it does.

**Weather Man's Problem.** Most of the people of the high plains would like to help the weather man this week. He finds it a bit difficult to get snow into this part of the world in sufficient quantities to head off irrigation expense. Also, we'd like a bit more deep cold to save expense next summer with insects. February is often a good month for snow. This might be the year, since the elements are trying to adjust.

**Saturday Evening Post** will get a lot of free publicity in Texas this week and next. They have a story about Lyndon B. Johnson, Texas' senior senator, written by Stewart Alsop, an interesting but sometimes not too knowledgeable a political writer. Also, correctly summarizes Johnson as a potential candidate for president. After arriving at the conclusion that Johnson is probably the most able politician in the Democratic Party, Alsop comes up with the statement that "the accident of his Texas birth almost certainly bars Johnson from the White House." Everybody in Texas knows that but news stand purchases ought to mount considerably, since the subject is an interesting one, just to see what the article has to say. SEP is only 15 cents, ladies and gentlemen, at any news stand.

**Down at Austin** the commissions and bureaus are busy hunting funds they have not used in an effort to bolster the state's cash. Upward of 200 state agencies of one kind and another, under the prodding of the governor, are finding funds here and there which they can turn back into the treasury. Meanwhile, up to this mid-week, the legislature had not found enough money to finance their current session. If we understand the situation, no funds can be appropriated unless the money is in sight and is so certified

by the state comptroller. Nothing like a shortage of cash to make the legislature find a way quickly. Necessity works wonders. The problem of imported oil has hit the state in the solar plexus. The unexpected development has not been conducive to nonchalance to say the least.

**Man with a Problem.** This Cuban man Castro Fidel fought a guerilla war for several years and success came up on him unawares. Now, he is the head of a government and the responsible party. The changed role seems to have been more than he could live up to. Anyway, his fellows are holding kangaroo court and killing enemies right and left in an irresponsible way. Cuba is only a hop, skip and jump across the water from the American mainland. It is so close Americans almost smell the powder from the executioners' rifles. Indignation simmered and then boiled quickly.

**Less than a half century ago** America paved the way for the freedom of Cuba. After the American military might had freed the country from the tyrant's heel Cubans insisted they were ready for freedom, as we have known it. This country has been doubling back on itself ever since, trying to keep in step with the successive regimes while control has changed from one plunderer to the next. One can expect no more and no less from Fidel than from his predecessor Batista. We assume, perhaps unfairly, there will be another "hero" come along as soon as Fidel has his nest feathered.

**Concurrently we win and dine** the executioner of the Hungarians, who also was responsible for carrying out the blood baths in the Ukraine and in Armenia. Mikoyan was the official guest of the United States. We imagine official United States wanted the man over here to let the people see how he ticks. Naturally he had to be protected while here from the kinsmen of the people he had pushed into the executioner's pit. Unofficially we are hot as a bandit's pistol at both of the murderers. Officially they both are heads of responsible governments which we have "recognized." We are far from understanding the way the mind of a Fidel works and equally the way of a Mikoyan. Neither responds to our kind of logic.

**Stocks still climbing.** The story of the New York Stock Exchange was one of increasing activity right on through last year's depression. Buyers were in haste to get their cash turned into something that represented real wealth. It was noticeable that, while many were unemployed the cost of doing business and the cost of living did not come down. In fact, it climbed — against all past experience. Some economists explain the anomaly by saying that money for investment is in flight from the 10-cent dollar, which they profess to foresee. The reality of increasing costs has many business people worrying about how long it will be until they "price themselves out of the market." On the other hand, money is pouring into business in unprecedented quantities. Evidently the investing public does not share the fears of management.

Floyd County 14 Years Ago

(From The Hesperian, Jan. 25, 1945)

Another Floyd County boy who is serving with the nation's armed service with credit to his country is Dr. Lowell W. Spikes, son of Mr. and Mrs. J. J. Spikes of McCoy, who has the rank of captain as an army man.

Cpl. Adron L. Field, son of Mr. and Mrs. Menard Field of South Plains, recently forwarded some interesting stories written by a staff man of his outfit concerning the islands of the Pacific. Cpl. Field is in the Air Transport Command.

George Douglas Beedy, son of Mr. and Mrs. Geo. C. Beedy of South Plains, is now enrolled at the United States Maritime Service Training Station in St. Petersburg, Fla.

Coast Guardsman Dillon Patterson, son of Mr. and Mrs. Felt Patterson, is on an LST boat and recently participated in the invasion of Leyte Island.

Floydada soldier boys, each in a separate branch of the service and each taking a long way round to get there with their respective units, met up on a Dutch East Indies island and had a big gallop and reunion.

Three stories were written by Tom Bishop, United States Maritime Service Training Station in St. Petersburg, Fla.

Richard Tubbs, pilot in the Army Air Corps, and PFC Wayland Hale, combat cargo group.

Mr. and Mrs. D. W. Burke received a wire from their son, Lt. De Witt Burke, who has been in the Pacific the past year, that he had arrived in San Francisco and would be home in less than a month.

DeWitt is in the Marine Air Corps.

The Man who Appreciates the Finest... BUYS HIS WIFE GAS APPLIANCES!

Brahms and Brubeck... an unlikely combination? Not to the man who recognizes the "best of its kind," be it arpeggios or appliances. That's why he insisted on a new GAS Clothes Dryer for his wife. He sees the advantages of instant heat (turn it on and it's on), and no heat hang over (gas off, heat's gone!). He's observed how gentle Gas heat blows moisture away instead of baking it out. Clothes come out fluffier, more wrinkle-free and easier to iron! They last longer, too. Yes, in every way—economy included—GAS gives you more. And where the finest is truly appreciated... Gas belongs!

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford

**AUSTIN**—Some cheered and some wept, but none will soon forget the eventful, suspenseful opening day of the House of Representatives of the 56th Legislature.

Waggoner Carr became the third man in recent history to win a second term as Speaker of the House, and Joe Burkett became the only one in many years to lose by so close a vote—79 to 71.

Burkett and Carr had been in a hard-fought contest for a year and a half. Burkett, from Kerrville in the Hill country, is a staunch con-

**MORCKEL**

servative. Carr, from Lubbock in the South Plains, had more liberal support.

When the day came, every representative was present, and the floor and galleries were jammed with spectators. Secretary of State Zolie Steakley served as temporary presiding officer. An elaborate voting procedure was used upon to safeguard secrecy and assure fairness.

Representatives filed to the front of the chamber, one by one, had their folded ballots initiated by the clerk and then placed, again personally in the ballot box. Six watchers, three representing each candidate, stood by.

The ballot box was opened and results called out, one by one. Only sound in the large chamber was the scratching of the pens of many score keepers, and the occasional fidgeting or gasping as the lead see-sawed between the candidates.

A cheer went up as Carr received his victory-assuring 76th vote. A round of hand-shaking, back slapping and congratulating began. Following the final count, a procession composed of Carr's family and supporters escorted the Lubbock representative to the rostrum to take the oath of office.

**ON WITH THE SHOW**—After the opening dust had settled, Legislators turned to their everyday concerns.

Most immediate and pressing problem was finding money to operate the Legislature. Since the state's main monetary cupboard, the gen-

eral revenue fund, was bare (worse still, in debt), there wasn't so much as a nickel on hand to pay salaries of the lawmakers and their helpers, nor even for stamps, stationery, phone calls and travel. A bill was offered to appropriate \$2,300,000 that had accumulated in two special funds.

Several plans were being talked about to solve the even more vexatious long-term problem of overall budget balancing. To do so will involve finding money to pay off an expected general fund deficit of \$61,000,000 plus some \$130,000,000 in new money to meet expected expenses for 1960-61. Only alternative would be numerous and painful economies.

Generally, there seem to be two schools of thought developing on tax-ation: (1) those who hope to avoid a new tax by upping many present levies, such as selective sales taxes, removing several exemptions and re-shuffling funds here and there and (2) those who say the present tax blanket can't be stretched any further and that "top-shoot, patric work" taxation should be replaced by an overall plan to distribute the increasing cost of government among more people.

**FOKLS WITH MONEY-SPENDING IDEAS** had best be armed with money-finding ideas when they come to the Legislature this year. This warning was issued by Sen. William S. Fly of Victoria in an Austin address.

**THIRD HOUSE** has its own ceremonial this year as, for the first time, lobbyists are required to register under the new law. From the length and variety of the list, there's a lobbyist for practically everything and everybody—teachers, farmers, firemen, policemen, labor unions, industries and even church groups.

**GOVERNOR'S APPOINTMENTS**—Gov. Price Daniel has appointed Secretary of State Zolie Steakley to a second term and promoted two assistants in the governor's office.

George Christian, former press assistant, becomes executive assistant, taking over non-legal duties of late Jacobson. Jacobson left to enter private law practice.

John Goldsum was promoted to take over Jacobson's legal duties.

**PAY FOR SECRETARIES DEBATED**—One of the first issues for debate in the 56th Legislature was pay for secretaries of Senate and House members. Generally accepted rate is \$14 per day for Senate secretaries and \$10 for the House. But a resolution must be passed setting amounts of the salaries—at the beginning of each session. Rep. Obie Jones of Austin said House secretaries should receive \$12 a day because the \$10-a-day figure was embarrassing to House secretaries when they met their Senate counterparts during coffee breaks. Rep. R. H. Cory of Victoria pointed out that the state couldn't afford the increase. "Maybe," he said, "we'll have to pay them out of our own pockets," and he pointed out that not all Senate secretaries received \$14—that some of them were paid as low as \$7 per day.

**"BABY OF THE HOUSE"** is Rep. Jack Connell Jr., of Wichita Falls, youngest person ever to sit in the House. Connell was 21 years old plus 14 days on general election day.

**A FOOTBALL STAR** when he's not

a lawmaker is Yale Larry, freshman representative from Fort Worth. Larry, a defensive back for the Detroit Lions pro team, was a college star for Texas A&M.

**ONE GOVERNOR'S SON** succeeded another as W. P. Hobby Jr. was named parliamentarian of the Senate, a post held last session by Dan Moody Jr.

**AN EARLY CRISIS** was averted when the House sergeant-at-arms rushed a spittoon to the desk of snuff-flipping Rep. Jerry Sadler of Porecilla. Spittoons, once a standard accessory, had gotten lost in the chamber's re-arranging.

**FUNERAL RITES** were conducted Tuesday morning in Clarendon at the First Methodist church with interment in the Clarendon cemetery.

Rev. Gattis had been a resident of Wichita Falls for five years. He had been retired since 1953. He served about two years as pastor here in 1948-49.

Survivors include his wife, Ida, a daughter, Mrs. Lorene Knight, Santa Fe, N. Mex., five sons, T. H. of Clarendon, W. H. of Amarillo, G. H. of Fairfax, Va., and J. H. of Abilene, two sisters, two brothers, 18 grandchildren, and two great grandchildren.

**ENTER-PHOBIA.** This new ailment besets you when you try to get into other '59 cars. Do you back in? Crawl in? Fall in? It's hard to tell which. But Mercury has the right remedy: door openings are 6 inches wider. There's up to 2 inches more head clearance. You step in easily—without a twinge.

**PROBLEMS YOU'LL HAVE TO LIVE WITH IN EVERY NEW CAR EXCEPT MERCURY**

**CLOSE-TOGETHERNESS.** Other '59 cars make friendships too close. But Mercury moved the dashboard forward for 9" more knee room. There's more leg room, more elbow room, more usable room all around.

**DOOR-ITIS OF THE KNEE.** Other '59 cars have jutting windshield posts that threaten to de-cap your knees! But Mercury moved that windshield post forward 2 inches. It's easy to step in without hitting your knee.

**STORMY-WEATHER TWITCH.** Wipers in other cars do not clear the center of the windshield, so you have to peek through 2 fan-shaped sections. But Mercury's wipers have an overlapping pattern—clear a five-foot swath—including the center. You drive relaxed in all kinds of weather.

**MIDDLE-MAN CROUCH.** That hump in the floor of other '59 cars is not larger than ever. It makes the middle sit with his knees in his chin. But Mercury cut the hump in half! Now the middle man has room to stretch out.

## As A Farm Woman Thinks

(By Nellie Witt Spikes) "I said to the man who stood at the gate of the year: 'Give me a light that I may tread safely into the unknown.' And he replied: 'It is the dangers facing us. But if we put our hands into the Hand of God He will never forsake us, 'even unto the end of the world.' The terrible hatred of men killing one another as one class rises beyond another, but we find it from dangers immortal the same urge to kill. Many methods have been used. In the Apocrypha we find Jason took no less than a thousand men and suddenly made an assault on the city but Jason kept relentlessly slaughtering his fellow citizens, not realizing that success at the cost of one's kindred is the greatest misfortune, but imagining he was setting up trophies of victory over enemies and not over fellow country men. A certain Cuban should read this and the last, 'He did not gain control over the government, however; and in the end got only disgrace'. Here are some of the tortures mentioned in the Apocrypha: The king fell into a rage and gave orders that cauldrons be heated. These were heated immediately, and he commanded that the tongue of their spokesman be cut and that they scalp him and cut off his hands and feet, while the rest of the brothers and mother looked on. When he was utterly helpless the king ordered them to take him to the fire, still breathing, and to fry him in a pan. 'Awful, isn't it, but we read on that the mother and brothers stood firm for God and underwent the punishment. The king could torture the bodies but he could not kill the soul. Menelaus was of 'utter hypocrisy' but the kings anger was aroused and it was ordered that he be put to death by the method which 'is the custom in that place. For there is a tower in that place, fifty cubits high, full of ashes, and it has a rim running around it which on all sides incinerates precipitously into the ashes. There they all push to destruction any man guilty of sacrilege or notorious for other crimes.' Menelaus was pushed off into this burial place of ashes. Among my treasured souvenirs are some deep blue glasses with the inscription, 1836-1936 on one side and the picture of the Alamo on the

## Trip To The Centennial On A School Bus

Seven o'clock Friday night Ralls, Texas -- on a school bus and rain falling. But what did we care. We were going to Dallas to see the Centennial, eighteen people and the driver. Down the shiny pavement we sped, through Dickens and Matador. How disappointed we were when we found Bob's Oil Well was not the Centennial and the boys thought we were in the Piney Woods when they saw tall poles along the highway carrying the telephone and light wires. Then the moon came out and we saw Wichita Falls and Jack County by a silvery moonlight that made the country look like an enchanted fairland. How our necks ached at Fort Worth and then some of us never saw the tops of the buildings. A visit to the zoo at Dallas and then we went to the Centennial grounds. Beauty everywhere, lessons in history, arts and science, we learned what a wonderful state we lived in and our loyalty rose to a high plane when we saw the beauty of the Cavalcade. Our feet blistered and our bodies ached, but still we walked, looked and listened. Gold, diamonds, pearls, silver and valuable paintings brought by the Spaniards--relics from early-statehood, modern inventions side by side with the old. Two of our boys signed the register and their names will go down in the Hall of Fame. Some of us went in the door marked free but we found the back door had a charge on it. Four of us went out of a different entrance gate and we walked a mile to our rooming house. Six hours of sleep, then another strenuous day, blisters on our feet broke but we never stopped walking. The ice skaters at the Black Forest were as graceful and skinned over the ice as the sea gulls over a lake. Too numerous to mention the things we saw crowding so much into two

## TAX - MAN SEZ:

The 1938 Form 1040 for preparing your income tax return for the year has several small changes but the most noticeable is the removal of line 6(a). The Internal Revenue Service issued new regulations on reporting travel expenses. In some cases you don't have to give an itemized accounting of your travel expenses. If you have business travel expenses it will pay to read the instructions very carefully this year.
